Re: Annual Report on Obsolete, Unnecessary, or Duplicative Rules, as Required by Minn. Stat. § 14.05, Subd. 5.

Dear Governor Pawlenty, Senators, Representatives, Revisor of Statutes, and Legislative Coordinating Commission Director:

I am writing on behalf of the Minnesota Department of Transportation in response to the requirements of Minn. Stat. § 14.05, subd. 5, which provides:

> Subd. 5. Review and repeal of rules. By December 1 of each year, an agency must submit to the governor, the Legislative Coordinating Commission, the policy and funding committees and divisions with jurisdiction over the agency, and the revisor of statutes, a list of any rules or portions of rules that are obsolete, unnecessary, or duplicative of other state or federal statutes or rules. The list must also include an explanation of why the rule or portion of the rule is obsolete, unnecessary, or duplicative of other state or federal statutes or rules. By December 1, the agency must either report a timetable for repeal of the rule or portion of the rule, or must develop a bill for submission to the appropriate policy committee to repeal the obsolete, unnecessary, or duplicative rule. Such a bill must include proposed authorization to use the expedited procedures of section 14.389 to repeal or amend the obsolete, unnecessary, or duplicative rule. A report submitted under this subdivision must be signed by the person in the agency who is responsible for identifying and initiating repeal of obsolete rules. The report also must identify the status of any rules identified in the prior year's report as obsolete, unnecessary, or duplicative. If none of an agency's rules are obsolete, unnecessary, or duplicative, an agency's December 1 report must state that conclusion.

The Department of Transportation has reviewed all of the department rules and has identified the following obsolete, unnecessary or duplicative rules for this report:

Chapter 8810, Trunk Highway System

8810.9000, Definitions, subps. 1 and 7. Bridge Inspection and Inventory definitions in part 8810.9000, subps. 1 and 7 contain obsolete bridge inspection manual references that will be addressed through rulemaking.
