12.14 or local government where inspection authority as provided under paragraphs (b), (g), and
12.15 (h) is delegated to tribal and local governments ~~that assume all~~. The delegation agreements

12.17 inspection programs on some or all public waters within their jurisdiction.

12.18 (b) Inspectors may visually and tactilely inspect watercraft and water-related
12.19 equipment to determine whether aquatic invasive species, aquatic macrophytes, or water
12.20 is present. If a person transporting watercraft or water-related equipment refuses to

12.29 water-related equipment.

12.30 (d) Conservation officers or other licensed peace officers may utilize check stations
12.31 in locations, or in proximity to locations, where watercraft or other water-related

12.33 operated in a manner that minimizes delays to vehicles, equipment, and their occupants.

13.1 (e) Conservation officers or other licensed peace officers may order water-related
13.2 equipment to be removed from a water body if the commissioner determines such action is
13.3 needed to implement aquatic invasive species control measures.

13.4 (f) The commissioner may require mandatory inspections of water-related equipment
13.5 before a person places or removes water-related equipment into or out of a water body.
13.6 Inspection stations may be located at or near public water accesses or in locations that
13.7 allow for servicing individual or multiple water bodies. The commissioner shall ensure
13.8 that inspection stations:

13.9 (1) have adequate staffing to minimize delays to vehicles and their occupants;

13.10 (2) allow for reasonable travel times between public accesses and inspection stations
13.11 if inspection is required before placing water-related equipment into a water body;

13.20 governments that are authorized to conduct inspections under this paragraph must:

13.21 (1) to the extent called for in the delegation agreement, assume all legal, financial,

13.26 approved by the commissioner;

13.27 (4) have decontamination equipment available at inspection stations or identify
13.28 alternative decontamination equipment locations within a reasonable distance of the
13.29 inspection station that can bring water-related equipment into compliance;

13.30 (5) provide for inspection station locations that do not create traffic delays or public
13.31 safety issues; and

13.32 (6) submit a plan approved by the commissioner according to paragraph (h).

13.33 (h) Plans required under paragraph (g) must address:

13.34 (1) no reduction in capacity or hours of operation of public accesses and fees that
13.35 do not discourage or limit use;

13.36 (2) reasonable travel times between public accesses and inspection stations;

14.1 (3) adequate staffing to minimize wait times and provide adequate hours of operation
14.2 at inspection stations and public accesses;

14.3 (4) adequate enforcement capacity;

14.4 (5) measures to address inspections of water-related equipment at public water
14.5 accesses for commercial entities and private riparian land owners; and

14.10 submit an annual report to the commissioner summarizing the results and issues related
14.11 to implementing the inspection program.

14.12 (j) The commissioner may waive the plan requirement in paragraph (g) for inspection
14.13 programs where authorized inspectors are placed directly at one or more water access
14.14 sites, with no requirement for a person to travel from the water access for inspection
14.15 or decontamination, and no local ordinance or other regulation requiring a mandatory
14.16 inspection before placing watercraft or water-related equipment into a water body or after
14.17 watercraft or water-related equipment are removed from a water body.

14.18 Sec. 21. Minnesota Statutes 2012, section 84D.11, subdivision 2a, is amended to read:

16.2 **86A.09 DEVELOPMENT AND ESTABLISHMENT OF UNITS.**

16.3 Subdivision 1. **Master plan required.** No construction of new facilities or other
 16.4 development of an authorized unit, other than repairs and maintenance, shall commence
 16.5 until the managing agency has prepared ~~and submitted to the commissioner of natural~~
 16.6 ~~resources and the commissioner has reviewed, pursuant to this section,~~ a master plan for
 16.7 administration of the unit in conformity with this section. No master plan is required for
 16.8 wildlife management areas that do not have resident managers, for scientific and natural
 16.9 areas, for water access sites, for aquatic management areas, for rest areas, or for boater
 16.10 waysides.

16.11 Subd. 2. **Master plan; preparation and content public review.** The managing
 16.12 agency shall supervise preparation of the master plan and shall utilize the professional
 16.13 staffs of any agency of the state when the expertise of the staff of such agency is necessary
 16.14 to adequately prepare the master plan; the master plan shall present the information in

 16.16 When the master plan has been completed the managing agency shall announce to the
 16.17 public in a manner reasonably designed to inform interested persons that the master plan is
 16.18 available for public review and in the case of any major unit shall hold at least one public
 16.19 hearing meeting on the plan in the vicinity of the unit. The managing agency shall make
 16.20 the master plan available for review and comment by the public and other state agencies
 16.21 for at least 30 days ~~following the announcement and before submitting the master plan to~~
 16.22 ~~the commissioner of natural resources. Copies of the plan shall be provided to members of~~
 16.23 ~~the Outdoor Recreation Advisory Council and to any other person on request approval.~~

 16.25 by this section shall ~~be submitted to the commissioner of natural resources for review~~
 16.26 ~~pursuant to this subdivision. The commissioner of natural resources shall review the~~
 16.27 ~~master plan to determine whether the plan: (a) provides:~~

 16.29 purposes for which the unit was authorized and with the principles governing the
 16.30 administration of the unit, as specified in section 86A.05 and the statutes relating to each
 16.31 type of unit; and

16.32 ~~(b) recognizes~~ (2) recognize values and resources within the unit that are primarily
 16.33 the responsibility of another managing agency to protect or develop; ~~and provides~~ provide
 16.34 for their protection or development either through a cooperative agreement with the other
 16.35 managing agency or through designation of the appropriate area as a secondary unit. ~~In~~

17.1 ~~other state agencies. Within 60 days after receiving the master plan, the commissioner of~~
17.2 ~~natural resources shall notify the managing agency that the plan has been reviewed and~~
17.3 ~~forward its recommendations for any changes it might suggest. The managing agency~~

17.5 ~~disposition made of them. Failure to comment on a master plan within the time specified~~
17.6 ~~shall be considered approval of the plan by the commissioner of natural resources. If the~~
17.7 ~~commissioner of natural resources feels that the master plan still fails significantly to~~
17.8 ~~comply with this subdivision, the commissioner may request review of the master plan by~~
17.9 ~~the governor. In that event review shall not be deemed completed until after the master~~
17.10 ~~plan has been approved by the governor or 60 days have elapsed without action by the~~
17.11 ~~governor to approve or reject the plan, whichever occurs first.~~

17.12 Subd. 4. **Development.** Construction of necessary facilities and other development
17.13 of the unit shall commence as soon as practicable ~~after review of the master plan by the~~
17.14 ~~commissioner of natural resources, and the governor if requested, and shall be carried out~~
17.15 ~~in conformity with the master plan.~~

17.16 Subd. 5. **Establishment.** When, in the opinion of the managing agency,

17.19 managing agency shall declare the unit established and ready for use.

17.20 Subd. 6. **Master plan amendment.** The managing agency shall prepare an
17.21 amendment to a master plan to address changes proposed for a unit that would vary
17.22 from the approved master plan. The master plan amendment shall address the impacts
17.23 of the proposed changes to the natural and cultural resources, interpretive services,
17.24 recreational opportunities, and administrative activities at the unit. The master plan
17.25 amendment supersedes the master plan for those areas addressed by the amendment. The
17.26 managing agency shall hold a public meeting for master plan amendments that constitute a
17.27 significant change in public use or access to the unit or that may be controversial. Public
17.28 notice and approval of the master plan amendment shall follow the process described in
17.29 subdivision 2. Construction of necessary facilities and other development of the unit shall
