|       |   |

(1) all laws authorizing the issuance of state bonds, bonds supported by a state appropriation, or appropriating general fund money for state or local government capital investment projects enacted more than four years before January 1 of that year; the projects authorized to be acquired and constructed for which less than 100 percent of the authorized total cost has been expended, encumbered, or otherwise obligated; the cost of contracts to be let in accordance with existing plans and specifications shall be considered expended for this report; and the amount of general fund money appropriated but not spent or otherwise obligated, and the amount of bonds not issued and bond proceeds held but not previously expended, encumbered, or otherwise obligated for these projects; and

- (2) all laws authorizing the issuance of state bonds, bonds supported by a state appropriation, or appropriating general fund money for state or local government capital programs or projects other than those described in clause (1), enacted more than four years before January 1 of that year; and the amount of general fund money appropriated but not spent or otherwise obligated, and the amount of bonds not issued and bond proceeds held but not previously expended, encumbered, or otherwise obligated for these programs and projects.
- (b) The commissioner shall also report on general fund appropriations for capital projects, bond authorizations or bond proceed balances that may be canceled because projects have been canceled, completed, or otherwise concluded, or because the purposes for which the money was appropriated or bonds were authorized or issued have been canceled, completed, or otherwise concluded. The general fund appropriations, bond authorizations or bond proceed balances that are unencumbered or otherwise not obligated that are reported by the commissioner under this subdivision are canceled, effective July 1 of the year of the report, unless specifically reauthorized by act of the legislature.
- (c) The reports required by this subdivision shall only contain bond authorizations supported by a state appropriation and their associated general fund appropriations for projects authorized or amended after December 31, 2013.

| 28.3  | (c) "Private infrastructure projects" means improvements made to nonpublicly owned             |
| 28.4  | infrastructure such as sealing of private wells, connecting private properties to water mains, |
| 28.5  | water service fees, treatment systems, and drilling new private wells in an unimpaired         |
| 28.6  | drinking water aquifer.  |
| 28.7  | (d) "Public infrastructure projects" means improvements made to publicly owned                 |
| 28.8  | infrastructure such as water main installation, public water system improvements, treatment    |
| 28.9  | systems, and associated improvements.  |
| 28.10 | Subd. 3. Accounts. (a) A statewide drinking water contamination mitigation account is          |
| 28.11 | established in the bond proceeds fund. The account consists of state bond proceeds             |
| 28.12 | appropriated to the commissioner for this purpose. Money in the account may only be            |
| 28.13 | expended to acquire land or an interest in land and predesign, design, construct, and improve  |
| 28.14 | public infrastructure projects that further the purposes of this section. Notwithstanding      |
| 28.15 | section 115B.17, subdivision 6 or 16, any money recovered in a civil action for a project      |
| 28.16 | financed with bonds under this section shall be transferred to the commissioner of             |
| 28.17 | management and budget and applied toward principal and interest on outstanding bonds.          |
| 28.18 | (b) A statewide drinking water contamination mitigation account is established in the          |
| 28.19 | general fund. The account consists of money as provided by law and any other money             |
| 28.20 | donated, allotted, transferred, or otherwise provided to the account. Money in the account     |
| 28.21 | may only be expended on public or private infrastructure projects that further the purposes    |
| 28.22 | of this section.   |
| 28.23 | Sec. 4. [174.09] TRANSPORTATION FACILITIES CAPITAL PROGRAM.                                    |
| 28.24 | Subdivision 1. Establishment; accounts (a) A transportation facilities capital program         |
| 28.25 | is established to prioritize among eligible projects that:                                     |
| 28.26 | (1) support the programmatic mission of the department;  |
| 28.27 | (2) extend the useful life of existing buildings; or   |
| 28.28 | (3) renovate or construct facilities to meet the department's current and future operational   |
| 28.29 | needs.   |
| 28.30 | (b) Projects under the transportation facilities capital program are funded by proceeds        |
| 28.31 | from the sale of trunk highway bonds or from other money appropriated for the purposes         |
| 28.32 | of this section.   |

| 29.1  | (c) A transportation facilities capital account is established in the trunk highway fund.       |
|-------|---|
| 29.2  | The account consists of all money appropriated from the trunk highway fund for the purposes     |
| 29.3  | of this section and any other money donated, allotted, transferred, or otherwise provided to    |
| 29.4  | the account by law. Money in the account is appropriated to the commissioner for the            |
| 29.5  | purposes specified and consistent with the standards and criteria set forth in this section.    |
| 29.6  | (d) A transportation facilities capital account is established in the bond proceeds account     |
| 29.7  | of the trunk highway fund. The account consists of trunk highway bond proceeds appropriated     |
| 29.8  | to the commissioner. Money in the account may only be expended on trunk highway                 |
| 29.9  | purposes, which includes the purposes in this section.  |
| 29.10 | Subd. 2. Standards. (a) Minnesota Constitution, article XIV, section 11, states that trunk      |
| 29.11 | highway bonds may be issued to finance the construction, improvement, and maintenance           |
| 29.12 | of the public highway system in the state. The legislature assumes that many projects for       |
| 29.13 | preservation and replacement of portions of existing capital assets will constitute the         |
| 29.14 | construction, improvement, maintenance of the public highway system within the meaning          |
| 29.15 | of the constitution and capital expenditures under generally accepted accounting principles,    |
| 29.16 | and will be financed more efficiently and economically under the program than by direct         |
| 29.17 | appropriations for specific projects.   |
| 29.18 | (b) When allocating funding under this section, the commissioner must review the                |
| 29.19 | projects deemed eligible under subdivision 3 and prioritize allocations using the criteria in   |
| 29.20 | subdivision 4. Money allocated to a specific project in an appropriation or other law must      |
| 29.21 | be allocated as provided by the law.  |
| 29.22 | Subd. 3. Eligible expenditures; limitations. (a) A project is eligible under this section       |
| 29.23 | only if it is a capital expenditure on a capital building asset owned or to be owned by the     |
| 29.24 | state within the meaning of accepted accounting principles as applied to public expenditures.   |
| 29.25 | (b) Capital budget expenditures that are eligible under this section include but are not        |
| 29.26 | limited to: acquisition of land and buildings and the predesign, design, engineering,           |
| 29.27 | construction, furnishing, and equipping of district headquarter buildings, truck stations, salt |
| 29.28 | storage or other unheated storage buildings, deicing and anti-icing facilities, fuel-dispensing |
| 29.29 | facilities, highway rest areas, and vehicle weigh and inspection stations.                      |
| 29.30 | Subd. 4. Criteria for priorities. When prioritizing funding allocation among projects           |
| 29.31 | eligible under subdivision 3, the commissioner must consider:                                   |
| 29.32 | (1) whether a project ensures the effective and efficient condition and operation of the        |
| 29.33 | facility;   |

| 30.1  | (2) the urgency in ensuring the safe use of existing buildings;                                  |
|-------|--|
| 30.2  | (3) the project's total life-cycle cost;   |
| 30.3  | (4) additional criteria for priorities otherwise specified in law, statute, or rule that applies |
| 30.4  | to a category listed in the act making an appropriation for the program; and                     |
| 30.5  | (5) any other criteria the commissioner deems necessary.   |
| 30.6  | Sec. 5. Minnesota Statutes 2023 Supplement, section 256E.37, subdivision 1, is amended           |
| 30.7  | to read:   |
| 30.8  | Subdivision 1. <b>Grant authority.</b> The commissioner may make grants to state agencies        |
| 30.9  | and, political subdivisions, nonprofit organizations, Indian Tribal governments, or private      |
| 30.10 | child care providers licensed as a child care center or to provide in-home family child care     |
| 30.11 | to construct or rehabilitate facilities for early childhood programs, crisis nurseries, or       |
| 30.12 | parenting time centers. The following requirements apply:  |
| 30.13 | (1) For grants funded with general obligation bonds, the facilities must be owned by the         |
| 30.14 | state or a political subdivision, but may be leased under section 16A.695 to organizations       |
| 30.15 | that operate the programs. The commissioner must prescribe the terms and conditions of           |
| 30.16 | the leases.  |
| 30.17 | (2) For grants funded with general fund appropriations, the facilities may be owned by           |
| 30.18 | a political subdivision, nonprofit organization, Tribal government, or private child care        |
| 30.19 | provider licensed as a child care center or to provide in-home family child care.                |
| 30.20 | (2) (3) A grant for an individual facility must not exceed \$500,000 for each program            |
| 30.21 | that is housed in the facility, up to a maximum of \$2,000,000 for a facility that houses three  |
| 30.22 | programs or more. Programs include Head Start, School Readiness, Early Childhood Family          |
| 30.23 | Education, licensed child care, and other early childhood intervention programs.                 |
| 30.24 | (3) (4) State appropriations must be matched on a 50 25 percent basis with nonstate              |
| 30.25 | funds. The matching requirement must apply program wide and not to individual grants.            |
| 30.26 | Sec. 6. Minnesota Statutes 2022, section 446A.07, subdivision 8, is amended to read:             |
| 30.27 | Subd. 8. Other uses of revolving fund. (a) The clean water revolving fund may be used            |
| 30.28 | as provided in title VI of the Federal Water Pollution Control Act, including the following      |
| 30.29 | uses:  |

| 31.6  | (3) to provide a source of revenue or security for the payment of principal and interest       |
| 31.7  | on revenue or general obligation bonds issued by the authority if the bond proceeds are        |
| 31.8  | deposited in the fund;   |
| 31.9  | (4) to provide loan guarantees, loans, or set-aside for similar revolving funds established    |
| 31.10 | by a governmental unit other than state agencies, or state agencies under sections 17.117,     |
| 31.11 | 103F.725, subdivision 1a, and 116J.617;  |
| 31.12 | (5) to earn interest on fund accounts; and   |
| 31.13 | (6) to pay the reasonable costs incurred by the authority and the Pollution Control Agency     |
| 31.14 | of administering the fund and conducting activities required under the Federal Water Pollution |
| 31.15 | Control Act, including water quality management planning under section 205(j) of the act       |
| 31.16 | and water quality standards continuing planning under section 303(e) of the act;.              |
| 31.17 | (b) The clean water revolving fund may be used to provide additional subsidization as          |
| 31.18 | permitted under the Federal Water Pollution Control Act and other federal law based on         |
| 31.19 | affordability criteria and for projects that address specific needs as follows:                |
| 31.20 | (7)(1) to provide principal forgiveness or grants to the extent permitted under the Federal    |
| 31.21 | Water Pollution Control Act and other federal law, based on the affordability criteria and     |
| 31.22 | requirements established for the wastewater water infrastructure funding program under         |
| 31.23 | section 446A.072; and  |
| 31.24 | (8) (2) to provide loans, principal forgiveness, or grants to the extent permitted under       |
| 31.25 | the Federal Water Pollution Control Act and other federal law for 25 percent of project costs  |
| 31.26 | up to a maximum of \$1,000,000 for projects to address green infrastructure, water or energy   |
| 31.27 | efficiency improvements, or other environmentally innovative activities-; and                  |
| 31.28 | (3) to provide principal forgiveness or grants for 50 percent of project costs up to a         |
| 31.29 | maximum of \$3,000,000 for projects that address emerging contaminants as defined by the       |
| 31.30 | United States Environmental Protection Agency.   |
| 31.31 | (b) Amounts spent under paragraph (a), clause (6), may not exceed the amount allowed           |
| 21 22 | under the Federal Water Pollution Control Act  |

(c) Principal forgiveness or grants provided under paragraph (a), clause (8), may not exceed 25 percent of the eligible project costs as determined by the Pollution Control Agency for project components directly related to green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities, up to a maximum of \$1,000,000.

Sec. 7. Minnesota Statutes 2022, section 446A.072, subdivision 5a, is amended to read:

Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving grant funding from the USDA/RECD, the authority may provide assistance in the form of a grant of up to 65 percent of the eligible grant need determined by USDA/RECD. A governmental unit may not receive a grant under this paragraph for more than \$5,000,000 \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law.

(b) For a governmental unit receiving a loan from the clean water revolving fund under section 446A.07, the authority may provide assistance under this section in the form of a grant if the average annual residential wastewater system cost after completion of the project would otherwise exceed 1.4 percent of the median household income of the project service area. In determining whether the average annual residential wastewater system cost would exceed 1.4 percent, the authority must consider the total costs associated with building, operating, and maintaining the wastewater system, including existing wastewater debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the clean water revolving fund loan under section 446A.07, subdivision 7. The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential wastewater system cost to 1.4 percent of median household income in the project service area, to a maximum of \$5,000,000 \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(c) For a governmental unit receiving a loan from the drinking water revolving fund under section 446A.081, the authority may provide assistance under this section in the form of a grant if the average annual residential drinking water system cost after completion of the project would otherwise exceed 1.2 percent of the median household income of the

project service area. In determining whether the average annual residential drinking water system cost would exceed 1.2 percent, the authority must consider the total costs associated with building, operating, and maintaining the drinking water system, including existing drinking water debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the drinking water revolving fund loan under section 446A.081, subdivision 8, paragraph (c). The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential drinking water system cost to 1.2 percent of median household income in the project service area, to a maximum of \$5,000,000 \$10,000,000 per project or \$20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

- (d) Notwithstanding the limits in paragraphs (a), (b), and (c), for a governmental unit receiving supplemental assistance under this section after January 1, 2002, if the authority determines that the governmental unit's construction and installation costs are significantly increased due to geological conditions of crystalline bedrock or karst areas and discharge limits that are more stringent than secondary treatment, the maximum award under this section shall not be more than \$25,000 per existing connection.
- Sec. 8. Minnesota Statutes 2022, section 446A.073, subdivision 1, is amended to read:
- Subdivision 1. **Program established.** When money is appropriated for grants under this program, the authority shall award grants up to a maximum of \$7,000,000 \$12,000,000 to governmental units to cover 80 percent of the cost of water infrastructure projects made necessary by:
  - (1) a wasteload reduction prescribed under a total maximum daily load plan required by section 303(d) of the federal Clean Water Act, United States Code, title 33, section 1313(d);
  - (2) a phosphorus concentration or mass limit which requires discharging one milligram per liter or less at permitted design flow which is incorporated into a permit issued by the Pollution Control Agency;
  - (3) any other water quality-based effluent limit established under section 115.03, subdivision 1, paragraph (e), clause (8), and incorporated into a permit issued by the Pollution Control Agency that exceeds secondary treatment limits; or

| 36.17 | (1) the applicant has submitted the as-bid project cost;  |
| 36.18 | (2) the Department of Health has certified the grant eligible portion of the project; and       |
| 36.19 | (3) the authority has determined that the additional financing necessary to complete the        |
| 36.20 | project has been committed from other sources.  |
| 36.21 | Subd. 6. Grant disbursement. Grant funds shall be disbursed by the authority as eligible        |
| 36.22 | project costs are incurred by the governmental unit and in accordance with a project financing  |
| 36.23 | agreement and applicable state laws and rules governing the disbursements.                      |
| 36.24 | Sec. 11. Minnesota Statutes 2022, section 462A.37, is amended by adding a subdivision           |
| 36.25 | to read:  |
| 36.26 | Subd. 2j. Additional authorization. In addition to the amount authorized in subdivisions        |
| 36.27 | 2 to 2h, the agency may issue up to \$50,000,000 in housing infrastructure bonds in one or      |
| 36.28 | more series to which the payments under this section may be pledged.                            |

Sec. 12. Minnesota Statutes 2023 Supplement, section 462A.37, subdivision 5, is amended to read:

- Subd. 5. **Additional appropriation.** (a) The agency must certify annually to the commissioner of management and budget the actual amount of annual debt service on each series of bonds issued under this section.
- (b) Each July 15, beginning in 2015 and through 2037, if any housing infrastructure bonds issued under subdivision 2a, or housing infrastructure bonds issued to refund those bonds, remain outstanding, the commissioner of management and budget must transfer to the housing infrastructure bond account established under section 462A.21, subdivision 33, the amount certified under paragraph (a), not to exceed \$6,400,000 annually. The amounts necessary to make the transfers are appropriated from the general fund to the commissioner of management and budget.
- (c) Each July 15, beginning in 2017 and through 2038, if any housing infrastructure bonds issued under subdivision 2b, or housing infrastructure bonds issued to refund those bonds, remain outstanding, the commissioner of management and budget must transfer to the housing infrastructure bond account established under section 462A.21, subdivision 33, the amount certified under paragraph (a), not to exceed \$800,000 annually. The amounts necessary to make the transfers are appropriated from the general fund to the commissioner of management and budget.
- (d) Each July 15, beginning in 2019 and through 2040, if any housing infrastructure bonds issued under subdivision 2c, or housing infrastructure bonds issued to refund those bonds, remain outstanding, the commissioner of management and budget must transfer to the housing infrastructure bond account established under section 462A.21, subdivision 33, the amount certified under paragraph (a), not to exceed \$2,800,000 annually. The amounts necessary to make the transfers are appropriated from the general fund to the commissioner of management and budget.

#### **APPENDIX**

Repealed Minnesota Statutes: 24-05981

#### 16A.662 INFRASTRUCTURE DEVELOPMENT BONDS.

Subdivision 1. **Infrastructure development fund.** The infrastructure development fund is created as an account in the state treasury. The commissioner of management and budget shall credit to the fund income from the sources provided by law. The commissioner of management and budget shall from time to time certify to the State Board of Investment the assets of the fund not currently needed. The amount certified must be invested by the State Board of Investment subject to section 11A.24. Investment income and investment losses attributable to investment of fund assets must be credited to or borne by the fund.

- Subd. 2. **Bonds authorized.** When authorized by law enacted in accordance with the constitution, article XI, sections 5 and 7, the commissioner may by order sell and issue bonds of the state evidencing public debt incurred for any purpose stated in the law. The bonds are general obligations of the state, and the full faith and credit of the state are pledged for their payment.
- Subd. 3. **Manner of issuance; maturities.** The bonds must be issued and sold in accordance with section 16A.641. Sections 16A.672 and 16A.675 apply to the bonds.
- Subd. 4. **Debt service account; appropriation of debt service account money.** There is established within the state bond fund a separate and special account designated as the infrastructure development bond debt service account. The money on hand in the debt service account must be used solely for the payment of the principal of and interest on bonds issued under Laws 1990, chapter 610, article 1, section 30, subdivision 2, and is appropriated for this purpose. This appropriation does not cancel as long as any of the bonds remain outstanding.
- Subd. 5. Assessment to higher education systems. (a) In order to reduce the amount otherwise required to be transferred to the state bond fund with respect to bonds heretofore or hereafter issued under Laws 1990, chapter 610, article 1, section 30, subdivision 2, the commissioner of management and budget shall assess each higher education system for one-third the amount that would otherwise need to be transferred with respect to those bonds sold to finance capital improvement projects at institutions under the control of the system; provided that, to the extent that the amount to be transferred is for payment of principal and interest on bonds sold to finance life safety improvements, the commissioner must not assess the higher education systems for the transfer.
- (b) After each sale of the bonds, the commissioner of management and budget shall notify the Board of Trustees of the Minnesota State Colleges and Universities and the regents of the University of Minnesota of the amounts for which each system is responsible for each year for the life of the bonds. The amounts payable each year are reduced by one-third of the net income from investment of those bond proceeds that must be allocated among the systems in proportion to the amount of principal and interest otherwise required to be paid by each. Each higher education system shall pay its annual share of debt service payments to the commissioner of management and budget by December 1 each year. If a higher education system fails to make a payment when due, the commissioner of management and budget shall reduce allotments for appropriations from the general fund otherwise payable to the system to cover the amount of the missed debt service payment. The commissioner of management and budget shall credit the payments received from the higher education systems to the infrastructure development bond debt service account in the state bond fund each December 1 before the transfer is made under subdivision 4.
- Subd. 6. **Appropriation from general fund.** There is annually appropriated from the general fund for transfer to the infrastructure development bond debt service account the amount that, added to the amount in the infrastructure development bond debt service account on December 1 each year, after giving effect to subdivisions 4 and 5, is equal to the full amount of principal and interest to come due on all bonds to and including July 1 in the second ensuing year.
- Subd. 7. **Constitutional tax levy.** Under the constitution, article XI, section 7, the state auditor must levy each year on all taxable property within the state a tax sufficient, with the amount then on hand in the infrastructure development bond debt service account, to pay all principal and interest on the bonds due and to become due to and including July 1 in the second ensuing year. The tax is not subject to limit as to rate or amount. However, the amount of money appropriated from other sources as provided in subdivisions 4, 5, and 6, and actually received and on hand before the levy in any year, reduces the amount of the tax otherwise required to be levied. The proceeds of the tax must be credited to the infrastructure development bond debt service account.
- Subd. 8. **Application and appropriation of proceeds.** The proceeds of the bonds must be deposited and spent as provided in this subdivision and are appropriated for those purposes. Any accrued interest and any premium received on the sale of the bonds must be credited to the infrastructure development bond debt service account. Except as otherwise required by law, the

### APPENDIX Repealed Minnesota Statutes: 24-05981

balance of the bond proceeds shall be credited to the infrastructure development fund and spent for the purposes specified in the law authorizing the issuance of the bonds. So much of the proceeds as is necessary must be used to pay costs incurred in issuing and selling the bonds.
