The emblem must consist of a fluorescent or illuminated red-orange triangle with a dark red reflective border and be mounted so as to be visible from a distance of not less than 600 feet to the rear. When a primary power unit towing an implement of husbandry or other machinery displays a slow-moving vehicle emblem visible from a distance of 600 feet to the rear, it is not necessary to display a similar emblem on the secondary unit. All slow-moving vehicle emblems sold in this state must be so designed that when properly mounted they are visible from a distance of not less than 600 feet to the rear when directly in front of lawful lower beam of headlamps on a motor vehicle. The commissioner of public safety shall adopt standards and specifications for the design and position of mounting the slow-moving vehicle emblem. Such standards and specifications must be adopted by rule in accordance with the Administrative Procedure Act.

(b) An alternate slow-moving vehicle emblem consisting of a dull black triangle with a white reflective border may be used after obtaining a permit from the commissioner under rules of the commissioner. A person with a permit to use an alternate slow-moving vehicle emblem must:

(2) permanently affix to the rear of the slow-moving vehicle at least 72 square inches of reflective tape that reflects the color red.

Subd. 5. **Animal-drawn vehicles.** (a) An animal-drawn vehicle must be equipped with an identification lamp or lamps that indicate the vehicle's presence and are visible from a distance of at least 500 feet from both the front and the rear. The lighting requirement under this subdivision may be met using a lamp powered by energy generated from the vehicle's movement.

(b) This subdivision does not apply to an animal-drawn vehicle that (1) operates exclusively between the hours of sunrise and sunset and never during periods of reduced visibility, inclement weather, or insufficient light; or (2) never operates on a public roadway.

Sec. 5. **ANIMAL-DRAWN VEHICLES; SAFETY MANUAL.**

(a) The commissioner of public safety, in collaboration with the state patrol, traffic safety organizations, and other interested parties, must develop and publish an animal-drawn vehicles safety manual. When developing the manual, the commissioner must evaluate similar manuals already published by other states, including Pennsylvania.

(b) At a minimum, the safety manual must discuss and provide specific guidance with respect to:

(1) animal-drawn vehicle courtesy and conduct;

(2) relevant traffic regulations, including traffic signs, traffic signals, pavement markings, driving rules, and equipment requirements;

(3) an overview of how other vehicles and motorists interact with animal-drawn vehicles on the roadway;

(4) safety best practices;

(5) travel information; and

(6) any other information the commissioner of public safety deems necessary.

(c) The commissioner must publish the manual under this section on or before January 1, 2021.
