STATE OF MINNESOTA
EIGHTY-EIGHTH LEGISLATURE**

S.F. No. 1289

(SENATE AUTHORS: CHAMPION and Pappas)

DATE	D-PG	OFFICIAL STATUS
03/11/2013	779	Introduction and first reading Referred to State and Local Government

1.1 A bill for an act
 1.2 relating to human services; providing for a pilot project to coordinate community
 1.3 violence prevention programs for African-American children; appropriating
 1.4 money.

1.5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

1.6 Section 1. **FINDINGS.**

1.7 The legislature finds that:

1.8 (1) homicides have the most adverse affect on African-American children;

1.9 (2) loss of a loved one due to homicide leaves children uprooted, displaced,
 1.10 abandoned, and isolated;

1.11 (3) children who witness a homicide often experience posttraumatic stress, grief,
 1.12 loss, insecurity, conflicting loyalties, and fear of being identified as a witness or fear
 1.13 of retaliation;

1.14 (4) community institutions lack the skills necessary to recognize the traumas of these
 1.15 children and provide psychological first aid treatment;

1.16 (5) children exposed to community violence can be better served through a program
 1.17 providing psychological first aid treatment; and

1.18 (6) children adversely affected by homicides and other violent crimes cause
 1.19 important and widespread social problems for the state because these children lack the
 1.20 opportunity to learn appropriate problem-solving skills and use violence as a primary
 1.21 problem-solving method to resolve stress in personal conflicts.
