S1747-1

SENATE STATE OF MINNESOTA EIGHTY-EIGHTH SESSION

KS

S.F. No. 1747

(SENATE AUTHORS: S	AXHAUG)
--------------------	---------

DATE D-PG **OFFICIAL STATUS** Introduction and first reading Referred to Environment and Energy 02/25/2014 5820 5970a 03/06/2014 Comm report: To pass as amended Second reading 5982 04/02/2014 7362 Special Order 7362 Third reading Passed

1.1 1.2	A bill for an act relating to environment; modifying environmental review requirements for
1.2	chemical production using cellulosic feedstock; amending Minnesota Statutes
1.4	2012, section 116D.04, subdivision 2a.
1.5	BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:
1.6	Section 1. Minnesota Statutes 2012, section 116D.04, subdivision 2a, is amended to
1.7	read:
1.8	Subd. 2a. When prepared. Where there is potential for significant environmental
1.9	effects resulting from any major governmental action, the action shall be preceded by a
1.10	detailed environmental impact statement prepared by the responsible governmental unit.
1.11	The environmental impact statement shall be an analytical rather than an encyclopedic
1.12	document which describes the proposed action in detail, analyzes its significant
1.13	environmental impacts, discusses appropriate alternatives to the proposed action and
1.14	their impacts, and explores methods by which adverse environmental impacts of an
1.15	action could be mitigated. The environmental impact statement shall also analyze those
1.16	economic, employment, and sociological effects that cannot be avoided should the action
1.17	be implemented. To ensure its use in the decision-making process, the environmental
1.18	impact statement shall be prepared as early as practical in the formulation of an action.
1.19	(a) The board shall by rule establish categories of actions for which environmental

(a) The board shall by rule establish categories of actions for which environmental
impact statements and for which environmental assessment worksheets shall be prepared
as well as categories of actions for which no environmental review is required under this
section. A mandatory environmental assessment worksheet shall not be required for the
expansion of an ethanol plant, as defined in section 41A.09, subdivision 2a, paragraph
(b), or the conversion of an ethanol plant to a biobutanol facility or the expansion of a

biobutanol facility as defined in section 41A.105, subdivision 1a, based on the capacity
of the expanded or converted facility to produce alcohol fuel, but must be required if
the ethanol plant or biobutanol facility meets or exceeds thresholds of other categories
of actions for which environmental assessment worksheets must be prepared. The
responsible governmental unit for an ethanol plant or biobutanol facility project for which
an environmental assessment worksheet is prepared shall be the state agency with the
greatest responsibility for supervising or approving the project as a whole.

A mandatory environmental impact statement shall not be required for a facility 28 or plant located outside the seven-county metropolitan area that produces less than 2.9 125,000,000 gallons of ethanol, biobutanol, or cellulosic biofuel annually, or produces less 2.10 than 400,000 tons of chemicals annually, if the facility or plant is: an ethanol plant, as 2.11 defined in section 41A.09, subdivision 2a, paragraph (b); a biobutanol facility, as defined 2.12 in section 41A.105, subdivision 1a, clause (1); or a cellulosic biofuel facility, as defined in 2.13 section 41A.10, subdivision 1, paragraph (d). A facility or plant that only uses a cellulosic 2.14 feedstock to produce chemical products for use by another facility as a feedstock shall not 2.15 be considered a fuel conversion facility as used in rules adopted under this chapter. 2.16

(b) The responsible governmental unit shall promptly publish notice of the 2.17 completion of an environmental assessment worksheet by publishing the notice in at least 2.18one newspaper of general circulation in the geographic area where the project is proposed, 2.19 by posting the notice on a Web site that has been designated as the official publication site 2.20for publication of proceedings, public notices, and summaries of a political subdivision in 2.21 which the project is proposed, or in any other manner determined by the board and shall 2.22 2.23 provide copies of the environmental assessment worksheet to the board and its member agencies. Comments on the need for an environmental impact statement may be submitted 2.24 to the responsible governmental unit during a 30-day period following publication of the 2.25 notice that an environmental assessment worksheet has been completed. The responsible 2.26 governmental unit's decision on the need for an environmental impact statement shall be 2.27 based on the environmental assessment worksheet and the comments received during the 2.28 comment period, and shall be made within 15 days after the close of the comment period. 2.29 The board's chair may extend the 15-day period by not more than 15 additional days upon 2.30 the request of the responsible governmental unit. 2.31

(c) An environmental assessment worksheet shall also be prepared for a proposed
action whenever material evidence accompanying a petition by not less than 100
individuals who reside or own property in the state, submitted before the proposed
project has received final approval by the appropriate governmental units, demonstrates
that, because of the nature or location of a proposed action, there may be potential for

S1747-1

significant environmental effects. Petitions requesting the preparation of an environmental
assessment worksheet shall be submitted to the board. The chair of the board shall
determine the appropriate responsible governmental unit and forward the petition to it.
A decision on the need for an environmental assessment worksheet shall be made by
the responsible governmental unit within 15 days after the petition is received by the
responsible governmental unit. The board's chair may extend the 15-day period by not
more than 15 additional days upon request of the responsible governmental unit.

KS

3.8 (d) Except in an environmentally sensitive location where Minnesota Rules, part
3.9 4410.4300, subpart 29, item B, applies, the proposed action is exempt from environmental
3.10 review under this chapter and rules of the board, if:

3.11 (1) the proposed action is:

3.12 (i) an animal feedlot facility with a capacity of less than 1,000 animal units; or

3.13 (ii) an expansion of an existing animal feedlot facility with a total cumulative3.14 capacity of less than 1,000 animal units;

3.15 (2) the application for the animal feedlot facility includes a written commitment by
3.16 the proposer to design, construct, and operate the facility in full compliance with Pollution
3.17 Control Agency feedlot rules; and

3.18 (3) the county board holds a public meeting for citizen input at least ten business
3.19 days prior to the Pollution Control Agency or county issuing a feedlot permit for the
animal feedlot facility unless another public meeting for citizen input has been held with
regard to the feedlot facility to be permitted. The exemption in this paragraph is in
addition to other exemptions provided under other law and rules of the board.

3.23 (e) The board may, prior to final approval of a proposed project, require preparation
3.24 of an environmental assessment worksheet by a responsible governmental unit selected
3.25 by the board for any action where environmental review under this section has not been
3.26 specifically provided for by rule or otherwise initiated.

(f) An early and open process shall be utilized to limit the scope of the environmental 3.27 impact statement to a discussion of those impacts, which, because of the nature or location 3.28 of the project, have the potential for significant environmental effects. The same process 3.29 shall be utilized to determine the form, content and level of detail of the statement as well 3.30 as the alternatives which are appropriate for consideration in the statement. In addition, 3.31 the permits which will be required for the proposed action shall be identified during the 3.32 scoping process. Further, the process shall identify those permits for which information 3.33 will be developed concurrently with the environmental impact statement. The board 3.34 shall provide in its rules for the expeditious completion of the scoping process. The 3.35

S1747-1

4.1 determinations reached in the process shall be incorporated into the order requiring the4.2 preparation of an environmental impact statement.

KS

(g) The responsible governmental unit shall, to the extent practicable, avoid 4.3 duplication and ensure coordination between state and federal environmental review 4.4 and between environmental review and environmental permitting. Whenever practical, 4.5 information needed by a governmental unit for making final decisions on permits 4.6 or other actions required for a proposed project shall be developed in conjunction 4.7 with the preparation of an environmental impact statement. When an environmental 48 impact statement is prepared for a project requiring multiple permits for which two or 4.9 more agencies' decision processes include either mandatory or discretionary hearings 4.10 before a hearing officer prior to the agencies' decision on the permit, the agencies 4.11 may, notwithstanding any law or rule to the contrary, conduct the hearings in a single 4.12 consolidated hearing process if requested by the proposer. All agencies having jurisdiction 4.13 over a permit that is included in the consolidated hearing shall participate. The responsible 4.14 governmental unit shall establish appropriate procedures for the consolidated hearing 4.15 process, including procedures to ensure that the consolidated hearing process is consistent 4.16 with the applicable requirements for each permit regarding the rights and duties of parties to 4.17 the hearing, and shall utilize the earliest applicable hearing procedure to initiate the hearing. 4.18 The procedures of section 116C.28, subdivision 2, apply to the consolidated hearing. 4.19

(h) An environmental impact statement shall be prepared and its adequacy 4.20 determined within 280 days after notice of its preparation unless the time is extended by 4.21 consent of the parties or by the governor for good cause. The responsible governmental 4.22 unit shall determine the adequacy of an environmental impact statement, unless within 60 4.23 days after notice is published that an environmental impact statement will be prepared, 4.24 the board chooses to determine the adequacy of an environmental impact statement. If an 4.25 environmental impact statement is found to be inadequate, the responsible governmental 4.26 unit shall have 60 days to prepare an adequate environmental impact statement. 4.27

(i) The proposer of a specific action may include in the information submitted to the 4.28 responsible governmental unit a preliminary draft environmental impact statement under 4.29 this section on that action for review, modification, and determination of completeness and 4.30 adequacy by the responsible governmental unit. A preliminary draft environmental impact 4.31 statement prepared by the project proposer and submitted to the responsible governmental 4.32 unit shall identify or include as an appendix all studies and other sources of information 4.33 used to substantiate the analysis contained in the preliminary draft environmental impact 4.34 statement. The responsible governmental unit shall require additional studies, if needed, 4.35 and obtain from the project proposer all additional studies and information necessary for 4.36
