working capital to enable eligible businesses to be awarded contracts for goods and services or for construction-related services from government agencies.

Money contributed from a constitutionally or statutorily dedicated fund must be used only for purposes consistent with the purposes of the dedicated fund.

Sec. 14. Minnesota Statutes 2010, section 162.081, subdivision 4, is amended to read:

Subd. 4. **Formula for distribution to towns; purposes.** (a) Money apportioned to a county from the town road account must be distributed to the treasurer of each town within the county, according to a distribution formula adopted by the county board. The formula must take into account each town's levy for road and bridge purposes, its population and town road mileage, and other factors the county board deems advisable in the interests of achieving equity among the towns. Distribution of town road funds to each town treasurer must be made by March 1, annually, or within 30 days after receipt of payment from the commissioner. Distribution of funds to town treasurers in a county which has not adopted a distribution formula under this subdivision must be made according to a formula prescribed by the commissioner by rule. A formula adopted by a county board or by the commissioner must provide that a town, in order to be eligible for distribution of funds from the town road account in a calendar year, must have levied for taxes payable in the previous year for road and bridge purposes at least 0.04835 percent of taxable market value. For purposes of this eligibility requirement, taxable market value means taxable market value for taxes payable two years prior to the aid distribution year.

(b) Money distributed to a town under this subdivision may be expended by the town only for the construction, reconstruction, and gravel maintenance of town roads within the town.

Sec. 15. Minnesota Statutes 2010, section 162.09, is amended by adding a subdivision to read:

Subd. 4a. Municipal state-aid transition. (a) Notwithstanding subdivision 4, any city that has a population of less than 5,000 according to a federal decennial census, and that has had a population of 5,000 or more as determined by the most recent population estimate of the Metropolitan Council or state demographer made prior to the census, is deemed for purposes of this chapter to have a population that is the greater of (1) 5,000, or (2) as otherwise determined under subdivision 4, paragraph (b), (c), or (d).

(b) This subdivision applies only to the first four consecutive calendar years for which population is determined for purposes of this chapter on the basis of a federal decennial census.
