If the procedures in these sections are contradictory as applied to a specific proceeding, the board must establish a forum where the public interest conflicts involved can be presented and, by consideration of the whole body of water law, the controlling policy can be determined and apparent inconsistencies resolved.

Subd. 4. **Plan content.** The board shall develop policies for required comprehensive watershed management plan content consistent with comprehensive local water management planning. To ensure effectiveness and accountability in meeting the purposes of subdivision 2, plan content must include, at a minimum:

Subd. 5. **Timelines; administration.** (a) The board shall develop and adopt, by June 30, 2016, a transition plan for development, approval, adoption, and coordination of plans consistent with section 103A.212. The transition plan must include a goal of completing statewide transition to comprehensive watershed management plans by 2025. The metropolitan area may be considered for inclusion in the transition plan.

(b) The board may use the authority under section 103B.3369, subdivision 9, to support development or implementation of a comprehensive watershed management plan under this section.

Subd. 6. **Authority.** Notwithstanding any laws to the contrary, the authorities granted to local government through chapters 103B, 103C, and 103D are retained when a comprehensive watershed management plan is adopted as a substitute for a watershed management plan required under section 103B.231, a county groundwater plan authorized under section 103B.255, a county water plan authorized under section 103B.311, a comprehensive plan authorized under section 103C.331, or a watershed management plan required under section 103D.401 or 103D.405.
