4.1	(b) A health plan company must establish an interactive mechanism that enables an
4.2	enrollee to request and obtain information from the health plan company on the payments
4.3	made for comparable health care services, as well as quality data. The interactive mechanism
4.4	must allow an enrollee to seek information about the cost of a specific comparable health
4.5	care service in order to compare the average allowed amount paid to in-network health care
4.6	providers based on the enrollee's health plan. The mechanism must also provide a good
4.7	faith estimate of the anticipated charges and out-of-pocket costs an enrollee would be
4.8	responsible to pay for a comparable health care service if provided by an in-network health
4.9	care provider, including any co-payment, deductible, or coinsurance or other out-of-pocket
4.10	amount, based on the enrollee's health plan and information available to the health plan
4.11	company at the time the request is made. A health plan company may contract with a
4.12	third-party vendor to satisfy this requirement.
4.13	(c) A health plan company must inform an enrollee of the enrollee's ability to request
4.14	the average allowed amount paid for a comparable health care service on the health plan
4.15	company's website and in the health plan benefits materials.
4.16	Subd. 7. Out-of-network provider. (a) If an enrollee elects to receive a comparable
4.17	health care service from an out-of-network provider at a price that is less than the average
4.18	allowed amount paid by the enrollee's health plan company to an in-network provider, then
4.19	the health plan company must allow the enrollee to obtain the health care service from the
4.20	out-of-network provider, at the out-of-network provider's price. Upon request of the enrollee,

If the enrollee's deductible has been met, the enrollee may submit the claim to the health plan company, and the health plan company must pay the claim in the same manner as claims submitted by an in-network provider. (b) A health plan company must provide a downloadable or interactive online form to the enrollee for submitting proof of payment to an out-of-network provider for purposes of administering this subdivision, if the enrollee directly pays the out-of-network provider. Subd. 8. Notice to enrollees by health plan company. (a) A health plan company must make the program available as a component to any health plan offered by the health plan

4.35 incentives, and the comparable health care services that may qualify for a shared savings

5.1	incentive payment. The notice must inform enrollees of their right to obtain services from
5.2	a different health care provider regardless of any referral or recommendation made by a
5.3	specific health care provider or entity, and that seeing a different health care provider, either
5.4	the health care provider to which the referral was made or a different health care provider,
5.5	may result in an incentive to the enrollee if the enrollee follows the steps set by the enrollee's
5.6	health plan company.
5.7	(b) The health plan company must also provide this information on the health plan
5.8	company's website.
5.9	Subd. 9. Notice to enrollee by provider. Health care providers must post in a visible
5.10	area notification of a patient's ability, for those with individual or small group coverage, to
5.11	obtain a description of the service or the applicable standard medical codes or current
5.12	procedural terminology codes sufficient to allow a health plan company to assist the patient
5.13	in comparing out-of-pocket and contracted amounts paid for their care to different health
5.14	care providers for similar services. The notification must notify the patient that the patient's
5.15	health plan company is required to provide enrollees with an estimate of the out-of-pocket
5.16	costs and the average allowed amount paid for the patient's care. A health care provider
5.17	may provide additional information to a patient that informs the patient of specific price
5.18	transparency mechanisms or websites that may be available to the patient.
5.19	Subd. 10. No administrative expense. A shared savings incentive payment made by a
5.20	health plan company according to section is not an administrative expense of the health
5.21	plan company for purposes of rate development or rate filing, and may be considered a
5.22	medical expense for purposes of medical loss ratio requirements.
5.23	Subd. 11. Exclusions. This section does not apply to health plans offered to enrollees
5.24	who are enrolled in a public health care program under chapter 256B or 256L.
