6.21 Subd. 3b. **Change in employee and employer contributions in certain instances.**

6.22 (a) For purposes of this section:

6.23 (1) a contribution sufficiency exists if the total of the employee contribution under  
6.24 subdivision 2, the employer contribution under subdivision 3, the additional employer  
6.25 contribution under subdivision 3a, and any additional contribution previously imposed  
6.26 under this subdivision exceeds the total of the normal cost, the administrative expenses,  
6.27 and the amortization contribution of the general employees retirement plan as reported in  
6.28 the most recent actuarial valuation of the retirement plan prepared by the actuary retained  
6.29 under section 356.214 and prepared under section 356.215 and the standards for actuarial  
6.30 work of the Legislative Commission on Pensions and Retirement; and

6.31 (2) a contribution deficiency exists if the total of the employee contributions under  
6.32 subdivision 2, the employer contributions under subdivision 3, the additional employer  
6.33 contribution under subdivision 3a, and any additional contribution previously imposed  
6.34 under this subdivision is less than the total of the normal cost, the administrative expenses,  
6.35 and the amortization contribution of the general employees retirement plan as reported in  
6.36 the most recent actuarial valuation of the retirement plan prepared by the actuary retained

7.1 under section 356.214 and prepared under section 356.215 and the standards for actuarial  
7.2 work of the Legislative Commission on Pensions and Retirement.

7.3 (b) Employee and employer contributions to the general employees retirement plan  
7.4 under subdivisions 2 and 3 must be adjusted:

7.5 (1) if, on or after July 1, 2010, the regular actuarial valuation of the general  
7.6 employees retirement plan of the Public Employees Retirement Association under section  
7.7 356.215 indicates that there is a contribution sufficiency under paragraph (a) greater  
7.8 than one percent of covered payroll and that the sufficiency has existed for at least two  
7.9 consecutive years, the coordinated program employee and employer contribution rates  
7.10 must be decreased as determined under paragraph (c) to a level such that the sufficiency  
7.11 is no greater than one percent of covered payroll based on the most recent actuarial  
7.12 valuation; or

7.13 (2) if, on or after July 1, 2010, the regular actuarial valuation of the general  
7.14 employees retirement plan of the Public Employees Retirement Association under section  
7.15 356.215 indicates that there is a contribution deficiency equal to or greater than 0.5 percent  
7.16 of covered payroll and that the deficiency has existed for at least two consecutive years,  
7.17 the coordinated program employee and employer contribution rates must be increased  
7.18 as determined under paragraph (d) to a level such that no deficiency exists based on the  
7.19 most recent actuarial valuation.

7.20 (c) If the actuarially required contribution of the general employees retirement  
7.21 plan is less than the total support provided by the combined employee and employer  
7.22 contribution rates under subdivisions 2, 3, and 3a, by more than one percent of covered  
7.23 payroll, the general employees retirement plan coordinated program employee and  
7.24 employer contribution rates under subdivisions 2 and 3 must be decreased incrementally  
7.25 over one or more years by no more than 0.25 percent of pay each for employee and  
7.26 employer matching contribution rates to a level such that there remains a contribution  
7.27 sufficiency of at least one percent of covered payroll. No contribution rate decrease may  
7.28 be made until at least two years have elapsed since any adjustment under this subdivision  
7.29 has been fully implemented.

7.30 (d) If the actuarially required contribution exceeds the total support provided by the  
7.31 combined employee and employer contribution rates under subdivisions 2, 3, and 3a,  
7.32 the employee and matching employer contribution rates must be increased equally to  
7.33 eliminate that contribution deficiency. If the contribution deficiency is:

7.34 (1) less than two percent, the incremental increase may be up to 0.25 percent for the  
7.35 general employees retirement plan employee and matching employer contribution rates;

8.1 (2) greater than 1.99 percent and less than 4.01 percent, the incremental increase  
8.2 may be up to 0.5 percent for the employee and matching employer contribution rates; or

8.3 (3) greater than four percent, the incremental increase may be up to 0.75 percent for  
8.4 the employee and matching employer contribution.

8.5 (e) The general employees retirement plan contribution sufficiency or deficiency  
8.6 determination under paragraphs (a) to (d) must be made without the inclusion of the  
8.7 contributions to, the funded condition of, or the actuarial funding requirements of the  
8.8 MERF division.

8.9 (f) Any recommended adjustment to the contribution rates must be reported  
8.10 to the chair and the executive director of the Legislative Commission on Pensions  
8.11 and Retirement by January 15 following receipt of the most recent annual actuarial  
8.12 valuation prepared under section 356.215. If the Legislative Commission on Pensions  
8.13 and Retirement does not recommend against the rate change or does not recommend a  
8.14 modification in the rate change, the recommended adjustment becomes effective on the  
8.15 first day of the first full payroll period in the fiscal year following receipt of the most  
8.16 recent actuarial valuation that gave rise to the adjustment.

8.17 (g) A contribution sufficiency of up to one percent of covered payroll must be held in  
8.18 reserve to be used to offset any future actuarially required contributions that are more than  
8.19 the total combined employee and employer contributions under subdivisions 2, 3, and 3a.

8.20 (h) Before any reduction in contributions to eliminate a sufficiency in excess of one  
8.21 percent of covered pay may be recommended, the executive director must review any  
8.22 need for a change in actuarial assumptions, as recommended by the actuary retained under  
8.23 section 356.214 in the most recent experience study of the general employees retirement  
8.24 plan prepared under section 356.215 and the standards for actuarial work promulgated by  
8.25 the Legislative Commission on Pensions and Retirement that may result in an increase  
8.26 in the actuarially required contribution and must report to the Legislative Commission  
8.27 on Pensions and Retirement any recommendation by the board to use the sufficiency  
8.28 exceeding one percent of covered payroll to offset the impact of an actuarial assumption  
8.29 change recommended by the actuary retained under section 356.214, subdivision 1, and  
8.30 reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

8.31 (i) No contribution sufficiency in excess of one percent of covered pay may be  
8.32 proposed to be used to increase benefits, and no benefit increase may be proposed that  
8.33 would initiate an automatic adjustment to increase contributions under this subdivision.  
8.34 Any proposed benefit improvement must include a recommendation, prepared by the  
8.35 actuary retained under section 356.214, subdivision 1, and reviewed by the actuary

9.1 retained by the Legislative Commission on Pensions and Retirement as provided under  
9.2 section 356.214, subdivision 4, on how the benefit modification will be funded.
