16.6 panel to conduct up to ten restoration audits
16.7 under Minnesota Statutes, section 97A.056,
16.8 subdivision 10.

16.9 **Subd. 7. Availability of Appropriation**

16.10 Money appropriated in this section may
16.11 not be spent on activities unless they are
16.12 directly related to and necessary for a
16.13 specific appropriation and are specified in the
16.14 accomplishment plan. Money appropriated
16.15 in this section must not be spent on indirect
16.16 costs or other institutional overhead charges.

16.17 Unless otherwise provided, the amounts
16.18 in this section are available until June 30,
16.19 2014, when projects must be completed and
16.20 final accomplishments reported. Funds for
16.21 restoration or enhancement are available
16.22 until June 30, 2016, or four years after
16.23 acquisition, whichever is later, in order to
16.24 complete restoration or enhancement work.

16.25 If a project receives federal funds, the time
16.26 period of the appropriation is extended to
16.27 equal the availability of federal funding.

16.28 Funds appropriated for fee title acquisition
16.29 of land may be used to restore, enhance, and
16.30 provide for the public use of land acquired
16.31 with the appropriation. Public use facilities
16.32 must have a minimal impact on habitat on
16.33 acquired lands.

16.34 **Subd. 8. Accomplishment Plans**

17.1 It is a condition of acceptance of the
17.2 appropriations made under this section that
17.3 the agency or entity using the appropriation
17.4 submit to the Lessard-Sams Outdoor
17.5 Heritage Council an accomplishment plan
17.6 and periodic accomplishment reports in
17.7 the form determined by the council. The
17.8 accomplishment plan must identify the
17.9 project manager responsible for expending
17.10 the appropriation and the final product. The
17.11 accomplishment plan must account for the
17.12 use of the appropriation and outcomes of
17.13 the expenditure in measures of wetlands,
17.14 prairies, forests, and fish, game, and wildlife
17.15 habitat restored, protected, and enhanced.
17.16 The plan must include an evaluation of
17.17 results. None of the money provided in this
17.18 section may be expended unless the council
17.19 has approved the pertinent accomplishment
17.20 plan.

17.21 **Subd. 9. Project Requirements**

17.22 (a) As a condition of accepting an
17.23 appropriation made under this section, an
17.24 agency or entity receiving an appropriation
17.25 must comply with this subdivision for any
17.26 project funded in whole or in part with funds
17.27 from the appropriation.

17.28 (b) All conservation easements acquired with
17.29 money appropriated under this section must:
17.30 (1) be permanent; (2) specify the parties to
17.31 the easement; (3) specify all of the provisions
17.32 of an agreement that are permanent; (4)
17.33 specify the habitat types and location
17.34 being protected; (5) where appropriate for
17.35 conservation or water protection outcomes,

18.1 require the grantor to employ practices
18.2 retaining water on the eased land as long as
18.3 practicable; (6) specify the responsibilities
18.4 of the parties for habitat enhancement and
18.5 restoration and the associated costs of these
18.6 activities; (7) be sent to the office of the
18.7 Lessard-Sams Outdoor Heritage Council; (8)
18.8 include a long-term stewardship plan and
18.9 identify the sources and amount of funding
18.10 for monitoring and enforcing the easement
18.11 agreement; and (9) identify the parties
18.12 responsible for monitoring and enforcing the
18.13 easement agreement.

18.14 (c) For all restorations, a recipient must
18.15 prepare and retain an ecological restoration
18.16 and management plan that, to the degree
18.17 practicable, is consistent with current
18.18 conservation science and ecological goals
18.19 for the restoration site. Consideration should
18.20 be given to soil, geology, topography, and
18.21 other relevant factors that would provide
18.22 the best chance for long-term success and
18.23 durability of the restoration projects. The
18.24 plan must include the proposed timetable for
18.25 implementing the restoration, including, but
18.26 not limited to, site preparation, establishment
18.27 of diverse plant species, maintenance, and
18.28 additional enhancement to establish the
18.29 restoration; identify long-term maintenance
18.30 and management needs of the restoration
18.31 and how the maintenance, management,
18.32 and enhancement will be financed; and use
18.33 current conservation science to achieve the
18.34 best restoration.

18.35 (d) For new lands acquired, a recipient
18.36 must prepare a restoration and management

19.1 plan in compliance with paragraph (c),
19.2 including identification of sufficient funding
19.3 for implementation.

19.4 (e) To ensure public accountability for the
19.5 use of public funds, a recipient must provide
19.6 to the Lessard-Sams Outdoor Heritage
19.7 Council documentation of the process
19.8 used to select parcels acquired in fee or as
19.9 permanent conservation easements and must
19.10 provide the council with documentation
19.11 of all related transaction costs, including,
19.12 but not limited to, appraisals, legal fees,
19.13 recording fees, commissions, other similar
19.14 costs, and donations. This information
19.15 must be provided for all parties involved
19.16 in the transaction. The recipient must
19.17 also report to the Lessard-Sams Outdoor
19.18 Heritage Council any difference between the
19.19 acquisition amount paid to the seller and the
19.20 state-certified or state-reviewed appraisal, if
19.21 a state-certified or state-reviewed appraisal
19.22 was conducted. Acquisition data such
19.23 as appraisals may remain private during
19.24 negotiations but must ultimately be made
19.25 public according to Minnesota Statutes,
19.26 chapter 13.

19.27 (f) Except as otherwise provided in this
19.28 section, all restoration and enhancement
19.29 projects funded with money appropriated

19.33 waters as defined in Minnesota Statutes,
19.34 section 103G.005, subdivision 15.

20.1 (g) To the extent an appropriation is used to
20.2 acquire an interest in real property, a recipient
20.3 of an appropriation under this section must
20.4 provide to the Lessard-Sams Outdoor
20.5 Heritage Council and the commissioner
20.6 of management and budget an analysis of
20.7 increased operations and maintenance costs
20.8 likely to be incurred by public entities as
20.9 a result of the acquisition and of how these
20.10 costs are to be paid.

20.11 (h) A recipient of money from an
20.12 appropriation under this section must give
20.13 consideration to and make timely written
20.14 contact with Conservation Corps Minnesota
20.15 for possible use of the corps' services to
20.16 contract for restoration and enhancement
20.17 services. A copy of the written contact
20.18 must be filed with the Lessard-Sams

20.26 All agreements, grants, or contracts referred
20.27 to in this section must be administered on
20.28 a reimbursement basis unless otherwise
20.29 provided in this section. Notwithstanding
20.30 Minnesota Statutes, section 16A.41,
20.31 expenditures directly related to each
20.32 appropriation's purpose made on or after July
20.33 1, 2011, are eligible for reimbursement unless
20.34 otherwise provided in this section. Periodic
20.35 reimbursement must be made upon receiving
20.36 documentation that the deliverable items

- 21.1 articulated in the approved accomplishment
21.2 plan have been achieved, including partial
21.3 achievements as evidenced by approved
21.4 progress reports. Reasonable amounts may
21.5 be advanced to projects to accommodate
21.6 cash flow needs, support future management
21.7 of acquired lands, or match a federal share.
21.8 The advances must be approved as part of
21.9 the accomplishment plan. Capital equipment
21.10 expenditures for specific items in excess of
21.11 \$10,000 must be itemized in and approved as
21.12 part of the accomplishment plan.
- 21.13 **Subd. 11. Purchase of Recycled and Recyclable**

21.30 not limited to, an easement or fee title that
21.31 is acquired with money appropriated under
21.32 this section must be used in perpetuity or for
21.33 the specific term of an easement interest for
21.34 the purpose for which the appropriation was
21.35 made.

22.1 (b) A recipient of funding who acquires
22.2 an interest in real property subject to this
22.3 subdivision may not alter the intended use
22.4 of the interest in real property or convey
22.5 any interest in the real property acquired
22.6 with the appropriation without the prior
22.7 review and approval of the Lessard-Sams
22.8 Outdoor Heritage Council or its successor.
22.9 The council shall notify the chairs and
22.10 ranking minority members of the legislative
22.11 committees and divisions with jurisdiction
22.12 over the outdoor heritage fund at least 15

22.15 procedures to review requests from recipients
22.16 to alter the use of or convey an interest in
22.17 real property. These procedures shall allow

22.19 property with another interest in real property
22.20 meeting the following criteria: (1) the
22.21 interest must be at least equal in fair market
22.22 value, as certified by the commissioner
22.23 of natural resources, to the interest being

22.25 reasonably equivalent location and have a
22.26 reasonably equivalent useful conservation
22.27 purpose compared to the interest being
22.28 replaced, taking into consideration all effects
22.29 from fragmentation of the whole habitat.
22.30 (c) A recipient of funding who acquires an
22.31 interest in real property under paragraph
22.32 (a) must separately record a notice of
22.33 funding restrictions in the appropriate local
22.34 government office where the conveyance
22.35 of the interest in real property is filed. The

23.2 property covered by the funding agreement;
23.3 (2) a reference to the underlying funding
23.4 agreement; (3) a reference to this section; and
23.5 (4) the following statement: "This interest
23.6 in real property shall be administered in
23.7 accordance with the terms, conditions, and
23.8 purposes of the grant agreement controlling
23.9 the acquisition of the property. The interest
23.10 in real property, or any portion of the interest
23.11 in real property, shall not be sold, transferred,

23.19 with the terms and conditions of the grant
23.20 agreement or accomplishment plan; or
23.21 (2) restrictions are placed on the land that
23.22 preclude its use for the intended purpose as

47.28 **114D.10 LEGISLATIVE PURPOSE AND FINDINGS.**

47.29 Subdivision 1. **Purpose.** The purpose of the Clean Water Legacy Act is to protect,
47.30 enhance, and restore, and preserve the water quality of Minnesota's surface waters in
47.31 lakes, rivers, and streams and to protect groundwater from degradation, by providing
47.32 authority, direction, and resources to achieve and maintain water quality standards for
47.33 groundwater and surface waters as, including the standards required by section 303(d)
47.34 of the federal Clean Water Act, United States Code, title 33, section 1313(d), and other
47.35 applicable state and federal regulations.

48.1 Subd. 2. **Findings.** The legislature finds that:

48.2 (1) there is a close link between protecting, enhancing, and restoring, ~~and preserving~~
48.3 the quality of Minnesota's groundwater and surface waters and the ability to develop the
48.4 state's economy, enhance its quality of life, and protect its human and natural resources;

48.5 (2) achieving the state's water quality goals will require long-term commitment and
48.6 cooperation by all state and local agencies, and other public and private organizations
48.7 and individuals, with responsibility and authority for water management, planning, and
48.8 protection; and

48.9 (3) all persons and organizations whose activities affect the quality of waters,
48.10 including point and nonpoint sources of pollution, have a responsibility to participate in
48.11 and support efforts to achieve the state's water quality goals.

48.12 Sec. 14. Minnesota Statutes 2010, section 114D.20, subdivision 1, is amended to read:

48.13 Subdivision 1. **Coordination and cooperation.** In implementing this chapter,

48.18 take into consideration the manner in which their plans affect the implementation of
48.19 this chapter. Public agencies shall identify opportunities to participate and assist in the
48.20 successful implementation of this chapter, including the funding or technical assistance
48.21 needs, if any, that may be necessary. In implementing this chapter, public agencies shall
48.22 endeavor to engage the cooperation of organizations and individuals whose activities
48.23 affect the quality of groundwater or surface waters, including point and nonpoint sources
48.24 of pollution, and who have authority and responsibility for water management, planning,
48.25 and protection. To the extent practicable, public agencies shall endeavor to enter into
48.26 formal and informal agreements and arrangements with federal agencies and departments
48.27 to jointly utilize staff and educational, technical, and financial resources to deliver
48.28 programs or conduct activities to achieve the intent of this chapter, including efforts
48.29 under the federal Clean Water Act and other federal farm and soil and water conservation
48.30 programs. Nothing in this chapter affects the application of silvicultural exemptions under
48.31 any federal, state, or local law or requires silvicultural practices more stringent than those
48.32 recommended in the timber harvesting and forest management guidelines adopted by the

(3) to set a reasonable time for implementing restoration of each identified impaired water;

(4) to provide assistance and incentives to prevent waters from becoming impaired and to improve the quality of waters that are listed as impaired but do not have an approved TMDL addressing the impairment;

(5) to promptly seek the delisting of waters from the impaired waters list when those waters are shown to achieve the designated uses applicable to the waters; ~~and~~

(6) to achieve compliance with federal Clean Water Act requirements in Minnesota;

(7) to support effective measures to prevent the degradation of groundwater according to the groundwater degradation prevention goal under section 103H.001; and

(3) maximize opportunities for restoration of degraded groundwater and impaired waters, by prioritizing and targeting of available programmatic, financial, and technical resources and by providing additional state resources to complement and leverage available resources;

(4) use existing regulatory authorities to achieve restoration for point and nonpoint sources of pollution where applicable, and promote the development and use of effective nonregulatory measures to address pollution sources for which regulations are not applicable;

(5) use restoration methods that have a demonstrated effectiveness in reducing impairments and provide the greatest long-term positive impact on water quality protection and improvement and related conservation benefits while incorporating innovative approaches on a case-by-case basis;

(6) identify for the legislature any innovative approaches that may strengthen or complement existing programs;

(7) identify and encourage implementation of measures to prevent surface waters from becoming impaired and to improve the quality of waters that are listed as impaired but have no approved TMDL addressing the impairment using the best available data and technology, and establish and report outcome-based performance measures that monitor the progress and effectiveness of protection and restoration measures; ~~and~~
