(7) new foster care licenses or community residential setting licenses for people receiving services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and for which a license is required. This exception does not apply to people living in their own home. For purposes of this clause, there is a presumption that a foster care or community residential setting license is required for services provided to three or more people in a dwelling unit when the setting is controlled by the provider. A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2018. This exception is available when:

- (i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and
- (ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency.
- (b) The commissioner shall determine the need for newly licensed foster care homes or community residential settings as defined under this subdivision. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.
- (c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department shall may decrease the statewide licensed capacity for adult foster care settings where the physical location is not the primary residence of the license holder, or for adult community residential settings, if the voluntary changes described in paragraph (e) are not sufficient to meet the savings required by reductions in licensed bed capacity under Laws 2011, First Special Session chapter 9, article 7, sections 1 and 40, paragraph (f), and maintain statewide long-term care residential services capacity within budgetary limits. Implementation of the statewide licensed capacity reduction shall begin on July 1, 2013. The commissioner shall delicense up to 128 beds by June 30, 2014, using the needs determination process. Prior to any involuntary reduction of licensed capacity, the commissioner shall consult with lead agencies

and license holders to determine which adult foster care settings, where the physical location is not the primary residence of the license holder, or community residential settings, are licensed for up to five beds, but have operated at less than full capacity for 12 or more months as of March 1, 2014. The settings that meet these criteria must be the first to be considered for an involuntary decrease in statewide licensed capacity, up to a maximum of 35 beds. If more than 35 beds are identified that meet these criteria, the commissioner shall prioritize the selection of those beds to be closed based on the length of time the beds have been vacant. The longer a bed has been vacant, the higher priority it must be given for closure. Under this paragraph, the commissioner has the authority to reduce unused licensed capacity of a current foster care program, or the community residential settings, to accomplish the consolidation or closure of settings. Under this paragraph, the commissioner has the authority to manage statewide capacity, including adjusting the capacity available to each county and adjusting statewide available capacity, to meet the statewide needs identified through the process in paragraph (e). A decreased licensed capacity according to this paragraph is not subject to appeal under this chapter.

- (d) Residential settings that would otherwise be subject to the decreased license capacity established in paragraph (c) shall be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.
- (e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity required determined under paragraph (e) section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term eare service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term eare services and supports reports and statewide data and information. By February 1, 2013, and August 1, 2014, and each following year, the commissioner shall provide information and data and targets on the overall capacity of licensed long-term eare services and supports, actions taken under this subdivision to manage statewide long-term eare services and supports resources, and any recommendations for change to the legislative committees with jurisdiction over health and human services budget.

(f) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in paragraph (a) are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

- (g) License holders of foster care homes identified under paragraph (f) that are not the primary residence of the license holder and that also provide services in the foster care home that are covered by a federally approved home and community-based services waiver, as authorized under section 256B.0915, 256B.092, or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.
- (h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings will be accomplished through a process identified in section 256B.493. Annually, by August 1, the commissioner shall provide information and data on capacity of licensed long-term services and supports, actions taken under the subdivision to manage statewide long-term services and supports resources, and any recommendations for change to the legislative committees with jurisdiction over the health and human services budget.
- (i) The commissioner must notify a license holder when its corporate foster care or community residential setting licensed beds are reduced under this section. The notice of reduction of licensed beds must be in writing and delivered to the license holder by certified mail or personal service. The notice must state why the licensed beds are reduced and must inform the license holder of its right to request reconsideration by the commissioner. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

In such cases, the scope of review by the human services judge shall include both the maltreatment determination and the disqualification. The failure to exercise the right to an administrative reconsideration shall not be a bar to a hearing under this section if federal law provides an individual the right to a hearing to dispute a finding of maltreatment;

- (11) any person with an outstanding debt resulting from receipt of public assistance, medical care, or the federal Food Stamp Act who is contesting a setoff claim by the Department of Human Services or a county agency. The scope of the appeal is the validity of the claimant agency's intention to request a setoff of a refund under chapter 270A against the debt;
- (12) a person issued a notice of service termination under section 245D.10, subdivision 3a, from residential supports and services as defined in section 245D.03, subdivision 1, paragraph (c), clause (3), that is not otherwise subject to appeal under subdivision 4a; or

 - (b) The hearing for an individual or facility under paragraph (a), clause (4), (9), or (10), is the only administrative appeal to the final agency determination specifically, including a challenge to the accuracy and completeness of data under section 13.04. Hearings requested under paragraph (a), clause (4), apply only to incidents of maltreatment that occur on or after October 1, 1995. Hearings requested by nursing assistants in nursing homes alleged to have maltreated a resident prior to October 1, 1995, shall be held as a contested case proceeding under the provisions of chapter 14. Hearings requested under paragraph (a), clause (9), apply only to incidents of maltreatment that occur on or after July 1, 1997. A hearing for an individual or facility under paragraph (a), clauses (4), (9), and (10), is only available when there is no district court action pending. If such action is filed in district court while an administrative review is pending that arises out of some or all of the events or circumstances on which the appeal is based, the administrative review must be suspended until the judicial actions are completed. If the district court proceedings are completed, dismissed, or overturned, the matter may be considered in an administrative hearing.

(f) The commissioner shall comply with the requirements in the federally approved transition plan for the home and community-based services waivers authorized under this section.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 18. Minnesota Statutes 2016, section 256B.49, subdivision 15, is amended to read:

Subd. 15. Coordinated service and support plan; comprehensive transitional service plan; maintenance service plan. (a) Each recipient of home and community-based waivered services shall be provided a copy of the written coordinated service and support plan which meets the requirements in section 256B.092, subdivision 1b.

(b) In developing the comprehensive transitional service plan, the individual receiving services, the case manager, and the guardian, if applicable, will identify the transitional service plan fundamental service outcome and anticipated timeline to achieve this outcome. Within the first 20 days following a recipient's request for an assessment or reassessment, the transitional service planning team must be identified. A team leader must be identified who will be responsible for assigning responsibility and communicating with team members to ensure implementation of the transition plan and ongoing assessment and communication process. The team leader should be an individual, such as the case manager or guardian, who has the opportunity to follow the recipient to the next level of service.

Within ten days following an assessment, a comprehensive transitional service plan must be developed incorporating elements of a comprehensive functional assessment and including short-term measurable outcomes and timelines for achievement of and reporting on these outcomes. Functional milestones must also be identified and reported according to the timelines agreed upon by the transitional service planning team. In addition, the comprehensive transitional service plan must identify additional supports that may assist in the achievement of the fundamental service outcome such as the development of greater natural community support, increased collaboration among agencies, and technological supports.

The timelines for reporting on functional milestones will prompt a reassessment of services provided, the units of services, rates, and appropriate service providers. It is the responsibility of the transitional service planning team leader to review functional milestone

reporting to determine if the milestones are consistent with observable skills and that milestone achievement prompts any needed changes to the comprehensive transitional service plan.

For those whose fundamental transitional service outcome involves the need to procure housing, a plan for the recipient to seek the resources necessary to secure the least restrictive housing possible should be incorporated into the plan, including employment and public supports such as housing access and shelter needy funding.

- (c) Counties and other agencies responsible for funding community placement and ongoing community supportive services are responsible for the implementation of the comprehensive transitional service plans. Oversight responsibilities include both ensuring effective transitional service delivery and efficient utilization of funding resources.
- (d) Following one year of transitional services, the transitional services planning team will make a determination as to whether or not the individual receiving services requires the current level of continuous and consistent support in order to maintain the recipient's current level of functioning. Recipients who are determined to have not had a significant change in functioning for 12 months must move from a transitional to a maintenance service plan. Recipients on a maintenance service plan must be reassessed to determine if the recipient would benefit from a transitional service plan at least every 12 months and at other times when there has been a significant change in the recipient's functioning. This assessment should consider any changes to technological or natural community supports.
- (e) When a county is evaluating denials, reductions, or terminations of home and community-based services under this section for an individual, the case manager shall offer to meet with the individual or the individual's guardian in order to discuss the prioritization of service needs within the coordinated service and support plan, comprehensive transitional service plan, or maintenance service plan. The reduction in the authorized services for an individual due to changes in funding for waivered services may not exceed the amount needed to ensure medically necessary services to meet the individual's health, safety, and welfare.
- (f) At the time of reassessment, local agency case managers shall assess each recipient of community access for disability inclusion or brain injury waivered services currently residing in a licensed adult foster home that is not the primary residence of the license holder, or in which the license holder is not the primary earegiver, to determine if that recipient could appropriately be served in a community-living setting. If appropriate for the recipient, the case manager shall offer the recipient, through a person-centered planning

process, the option to receive alternative housing and service options. In the event that the recipient chooses to transfer from the adult foster home, the vacated bed shall not be filled with another recipient of waiver services and group residential housing and the licensed capacity shall be reduced accordingly, unless the savings required by the licensed bed closure reductions under Laws 2011, First Special Session chapter 9, article 7, sections 1 and 40, paragraph (f), for foster care settings where the physical location is not the primary residence of the license holder are met through voluntary changes described in section 245A.03, subdivision 7, paragraph (e), or as provided under paragraph (a), clauses (3) and (4). If the adult foster home becomes no longer viable due to these transfers, the county agency, with the assistance of the department, shall facilitate a consolidation of settings or closure. This reassessment process shall be completed by July 1, 2013.

Sec. 19. Minnesota Statutes 2016, section 256B.493, subdivision 1, is amended to read:

Subdivision 1. **Commissioner's duties; report.** The commissioner of human services shall solicit proposals for the conversion of services provided for persons with disabilities in settings licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, or community residential settings licensed under chapter 245D, to other types of community settings in conjunction with the closure of identified licensed adult foster care settings has the authority to manage statewide licensed corporate foster care or community residential settings capacity, including the reduction and realignment of licensed capacity of a current foster care or community residential settings to accomplish the consolidation or closure of settings. Sec. 20. Minnesota Statutes 2016, section 256B.493, subdivision 2, is amended to read:

Subd. 2. **Planned closure process needs determination.** The commissioner shall announce and implement a program for planned closure of adult foster care homes. Planned closure shall be the preferred method for achieving necessary budgetary savings required by the licensed bed closure budget reduction in section 245A.03, subdivision 7, paragraph (c). If additional closures are required to achieve the necessary savings, the commissioner shall use the process and priorities in section 245A.03, subdivision 7, paragraph (c) A resource need determination process, managed at the state level, using available reports

- (f) (g)(1) Notwithstanding the language in this subdivision, an amount equal to one-half of the maximum allotment authorized by the federal Food Stamp Program for a federal Supplemental Security Income payment amount for a single individual which is in effect on the first day of July of each year will be added to the standards of assistance established in subdivisions 1 to 4 for adults under the age of 65 who qualify as shelter needy in need of housing assistance and are:
- (i) relocating from an institution, <u>a setting authorized to receive housing support under chapter 256I</u>, or an adult mental health residential treatment program under section 256B.0622; or
 - (ii) eligible for personal care assistance under section 256B.0659; or
- (iii) home and community-based waiver recipients living in their own home or rented or leased apartment which is not owned, operated, or controlled by a provider of service not related by blood or marriage, unless allowed under paragraph (g).
- (2) Notwithstanding subdivision 3, paragraph (c), an individual eligible for the shelter needy benefit under this paragraph is considered a household of one. An eligible individual who receives this benefit prior to age 65 may continue to receive the benefit after the age of 65.
- (3) "Shelter needy Housing assistance" means that the assistance unit incurs monthly shelter costs that exceed 40 percent of the assistance unit's gross income before the application of this special needs standard. "Gross income" for the purposes of this section is the applicant's or recipient's income as defined in section 256D.35, subdivision 10, or the standard specified in subdivision 3, paragraph (a) or (b), whichever is greater. A recipient of a federal or state housing subsidy, that limits shelter costs to a percentage of gross income, shall not be considered shelter needy in need of housing assistance for purposes of this paragraph.
- (g) Notwithstanding this subdivision, to access housing and services as provided in paragraph (f), the recipient may choose housing that may be owned, operated, or controlled by the recipient's service provider. When housing is controlled by the service provider, the individual may choose the individual's own service provider as provided in section 256B.49, subdivision 23, clause (3). When the housing is controlled by the service provider, the service provider shall implement a plan with the recipient to transition the lease to the recipient's name. Within two years of signing the initial lease, the service provider shall

transfer the lease entered into under this subdivision to the recipient. In the event the landlord denies this transfer, the commissioner may approve an exception within sufficient time to ensure the continued occupancy by the recipient. This paragraph expires June 30, 2016.

Subd. 10. Property rate adjustments and construction projects. A nursing facility completing a construction project that is eligible for a rate adjustment under section 256B.434, subdivision 4f, and that was not approved through the moratorium exception process in section 144A.073 must request from the commissioner a property-related payment rate adjustment. If the request is made within 60 days after the construction project's completion date, The effective date of the rate adjustment is the first of the month of January or July, whichever occurs first following both the construction project's completion date and submission of the provider's rate adjustment request. If the request is made more than 60 days after the completion date, the rate adjustment is effective on the first of the month 140.10 following the request. The commissioner shall provide a rate notice reflecting the allowable 140.11 costs within 60 days after receiving all the necessary information to compute the rate adjustment. No sooner than the effective date of the rate adjustment for the construction 140.13 project, a nursing facility may adjust its rates by the amount anticipated to be allowed. Any 140.14 amounts collected from private pay residents in excess of the allowable rate must be repaid 140.15 to private pay residents with interest at the rate used by the commissioner of revenue for

the late payment of taxes and in effect on the date the rate increase is effective. Construction

projects with completion dates within one year of the completion date associated with the

property rate adjustment request and phased projects with project completion dates within

three years of the last phase of the phased project must be aggregated for purposes of the

- (a) An eligible nursing facility shall receive an equity incentive payment rate equal to the allowable historical cost of the capital asset acquired, minus the allowable debt directly identified to that capital asset, multiplied by the equity incentive factor as described in paragraphs (b) and (c), and divided by the nursing facility's occupancy factor under subdivision 3f, paragraph (c). This amount shall be added to the nursing facility's total payment rate and shall be effective the same day as the incremental increase in paragraph (d) or subdivision 17. The allowable historical cost of the capital assets and the allowable debt shall be determined as provided in Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.
- (b) The equity incentive factor shall be determined under clauses (1) to (4): 141.12
- (1) divide the initial allowable debt in paragraph (a) by the initial historical cost of the 141.13 capital asset additions referred to in paragraph (a), then cube the quotient, 141.14
- (2) subtract the amount calculated in clause (1) from the number one, 141.15

 - (4) multiply the amount calculated in clause (2) by the amount calculated in clause (3).
 - (c) The equity incentive payment rate shall be limited to the term of the allowable debt in paragraph (a), not greater than 20 years nor less than ten years. If no debt is incurred in acquiring the capital asset, the equity incentive payment rate shall be paid for ten years. The sale of a nursing facility under subdivision 14 shall terminate application of the equity incentive payment rate effective on the date provided in subdivision 14, paragraph (f), for the sale.
- (d) A nursing facility with an addition to or a renovation of its buildings, attached fixtures, or land improvements meeting the criteria in this subdivision and not receiving the 141.28 property-related payment rate adjustment in subdivision 17, shall receive the incremental 141.29 increase in the nursing facility's rental rate as determined under Minnesota Rules, parts 141.30 9549.0010 to 9549.0080, and this section. The incremental increase shall be added to the nursing facility's property-related payment rate. The effective date of this incremental 141.32

increase shall be the first day of the month of January or July, whichever occurs first 142.1 following the month in date on which the addition or replacement is completed. 142.2 **EFFECTIVE DATE.** This section is effective for additions or replacements completed 142.3 after January 1, 2018. 142.4 Sec. 24. Minnesota Statutes 2016, section 256B.431, subdivision 30, is amended to read: 142.5 Subd. 30. **Bed layaway and delicensure.** (a) For rate years beginning on or after July 142.6 1, 2000, a nursing facility reimbursed under this section which has placed beds on layaway 142.7 shall, for purposes of application of the downsizing incentive in subdivision 3a, paragraph 142.8 (c), and calculation of the rental per diem, have those beds given the same effect as if the 142.9 beds had been delicensed so long as the beds remain on layaway. At the time of a layaway, 142.11 a facility may change its single bed election for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11. The property payment rate increase shall be 142.12 effective the first day of the month of January or July, whichever occurs first following the 142.13 month in date on which the layaway of the beds becomes effective under section 144A.071, 142.14 subdivision 4b. 142.15 (b) For rate years beginning on or after July 1, 2000, notwithstanding any provision to 142.16 the contrary under section 256B.434, a nursing facility reimbursed under that section which 142.17 that has placed beds on layaway shall, for so long as the beds remain on layaway, be allowed 142.18 142.19 to: (1) aggregate the applicable investment per bed limits based on the number of beds 142.20 licensed immediately prior to entering the alternative payment system; 142.21

- 142.22 (2) retain or change the facility's single bed election for use in calculating capacity days 142.23 under Minnesota Rules, part 9549.0060, subpart 11; and
- 142.24 (3) establish capacity days based on the number of beds immediately prior to the layaway and the number of beds after the layaway.

The commissioner shall increase the facility's property payment rate by the incremental increase in the rental per diem resulting from the recalculation of the facility's rental per diem applying only the changes resulting from the layaway of beds and clauses (1), (2), and (3). If a facility reimbursed under section 256B.434 completes a moratorium exception project after its base year, the base year property rate shall be the moratorium project property rate. The base year rate shall be inflated by the factors in section 256B.434, subdivision 4, paragraph (c). The property payment rate increase shall be effective the first day of the

Subd. 4f. Construction project rate adjustments effective October 1, 2006. (a) Effective October 1, 2006, facilities reimbursed under this section may receive a property rate adjustment for construction projects exceeding the threshold in section 256B.431, subdivision 16, and below the threshold in section 144A.071, subdivision 2, clause (a). For these projects, capital assets purchased shall be counted as construction project costs for a rate adjustment request made by a facility if they are: (1) purchased within 24 months of the completion of the construction project; (2) purchased after the completion date of any prior construction project; and (3) are not purchased prior to July 14, 2005. Except as otherwise provided in this subdivision, the definitions, rate calculation methods, and 145.10 principles in sections 144A.071 and 256B.431 and Minnesota Rules, parts 9549.0010 to 145.11 9549.0080, shall be used to calculate rate adjustments for allowable construction projects 145.12 under this subdivision and section 144A.073. Facilities completing construction projects 145.13 between October 1, 2005, and October 1, 2006, are eligible to have a property rate adjustment 145.14 effective October 1, 2006. Facilities completing projects after October 1, 2006, are eligible 145.15 for a property rate adjustment effective on the first day of the month following the completion 145.16 date. Facilities completing projects after January 1, 2018, are eligible for a property rate 145.17 adjustment effective on the first day of the month of January or July, whichever occurs 145.18 immediately following the completion date. 145.19

- (b) Notwithstanding subdivision 18, as of July 14, 2005, facilities with rates set under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, that commenced a construction project on or after October 1, 2004, and do not have a contract under subdivision 3 by September 30, 2006, are eligible to request a rate adjustment under section 256B.431, subdivision 10, through September 30, 2006. If the request results in the commissioner determining a rate adjustment is allowable, the rate adjustment is effective on the first of the month following project completion. These facilities shall be allowed to accumulate construction project costs for the period October 1, 2004, to September 30, 2006.
- (c) Facilities shall be allowed construction project rate adjustments no sooner than 12 months after completing a previous construction project. Facilities must request the rate adjustment according to section 256B.431, subdivision 10.
- (d) Capacity days shall be computed according to Minnesota Rules, part 9549.0060, subpart 11. For rate calculations under this section, the number of licensed beds in the nursing facility shall be the number existing after the construction project is completed and the number of days in the nursing facility's reporting period shall be 365. 145.34

(e) The value of assets to be recognized for a total replacement project as defined in section 256B.431, subdivision 17d, shall be computed as described in clause (1). The value of assets to be recognized for all other projects shall be computed as described in clause (2).

- (1) Replacement-cost-new limits under section 256B.431, subdivision 17e, and the number of beds allowed under subdivision 3a, paragraph (c), shall be used to compute the maximum amount of assets allowable in a facility's property rate calculation. If a facility's current request for a rate adjustment results from the completion of a construction project that was previously approved under section 144A.073, the assets to be used in the rate calculation cannot exceed the lesser of the amount determined under sections 144A.071, subdivision 2, and 144A.073, subdivision 3b, or the actual allowable costs of the construction project. A current request that is not the result of a project under section 144A.073 cannot exceed the limit under section 144A.071, subdivision 2, paragraph (a). Applicable credits must be deducted from the cost of the construction project.
- (2)(i) Replacement-cost-new limits under section 256B.431, subdivision 17e, and the number of beds allowed under section 256B.431, subdivision 3a, paragraph (c), shall be used to compute the maximum amount of assets allowable in a facility's property rate calculation.
- (ii) The value of a facility's assets to be compared to the amount in item (i) begins with the total appraised value from the last rate notice a facility received when its rates were set under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080. This value shall be indexed by the factor in section 256B.431, subdivision 3f, paragraph (a), for each rate year the facility received an inflation factor on its property-related rate when its rates were set under this section. The value of assets listed as previous capital additions, capital additions, and special projects on the facility's base year rate notice and the value of assets related to a construction project for which the facility received a rate adjustment when its rates were determined under this section shall be added to the indexed appraised value.
- (iii) The maximum amount of assets to be recognized in computing a facility's rate adjustment after a project is completed is the lesser of the aggregate replacement-cost-new limit computed in (i) minus the assets recognized in (ii) or the actual allowable costs of the construction project.
- (iv) If a facility's current request for a rate adjustment results from the completion of a construction project that was previously approved under section 144A.073, the assets to be added to the rate calculation cannot exceed the lesser of the amount determined under

sections 144A.071, subdivision 2, and 144A.073, subdivision 3b, or the actual allowable costs of the construction project. A current request that is not the result of a project under section 144A.073 cannot exceed the limit stated in section 144A.071, subdivision 2, paragraph (a). Assets disposed of as a result of a construction project and applicable credits must be deducted from the cost of the construction project.

- (f) For construction projects approved under section 144A.073, allowable debt may never exceed the lesser of the cost of the assets purchased, the threshold limit in section 144A.071, subdivision 2, or the replacement-cost-new limit less previously existing capital debt.
- (g) For construction projects that were not approved under section 144A.073, allowable debt is limited to the lesser of the threshold in section 144A.071, subdivision 2, for such construction projects or the applicable limit in paragraph (e), clause (1) or (2), less previously existing capital debt. Amounts of debt taken out that exceed the costs of a construction project shall not be allowed regardless of the use of the funds.
- For all construction projects being recognized, interest expense and average debt shall be computed based on the first 12 months following project completion. "Previously existing capital debt" means capital debt recognized on the last rate determined under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, and the amount of debt recognized for a construction project for which the facility received a rate adjustment when its rates were determined under this section.
- For a total replacement project as defined in section 256B.431, subdivision 17d, the value of previously existing capital debt shall be zero.
- (h) In addition to the interest expense allowed from the application of paragraph (f), the amounts allowed under section 256B.431, subdivision 17a, paragraph (a), clauses (2) and (3), will be added to interest expense.
- (i) The equity portion of the construction project shall be computed as the allowable assets in paragraph (e), less the average debt in paragraph (f). The equity portion must be multiplied by 5.66 percent and the allowable interest expense in paragraph (f) must be added. This sum must be divided by 95 percent of capacity days to compute the construction project rate adjustment.
- (j) For projects that are not a total replacement of a nursing facility, the amount in paragraph (i) is adjusted for nonreimbursable areas and then added to the current property payment rate of the facility.

(k) For projects that are a total replacement of a nursing facility, the amount in paragraph (i) becomes the new property payment rate after being adjusted for nonreimbursable areas. Any amounts existing in a facility's rate before the effective date of the construction project for equity incentives under section 256B.431, subdivision 16; capital repairs and replacements under section 256B.431, subdivision 15; or refinancing incentives under section 256B.431, subdivision 19, shall be removed from the facility's rates.

- (1) No additional equipment allowance is allowed under Minnesota Rules, part 9549.0060, subpart 10, as the result of construction projects under this section. Allowable equipment shall be included in the construction project costs.
- (m) Capital assets purchased after the completion date of a construction project shall be counted as construction project costs for any future rate adjustment request made by a facility under section 144A.071, subdivision 2, clause (a), if they are purchased within 24 months of the completion of the future construction project.
- (n) In subsequent rate years, the property payment rate for a facility that results from the application of this subdivision shall be the amount inflated in subdivision 4. 148.15
 - (o) Construction projects are eligible for an equity incentive under section 256B.431, subdivision 16. When computing the equity incentive for a construction project under this subdivision, only the allowable costs and allowable debt related to the construction project shall be used. The equity incentive shall not be a part of the property payment rate and not inflated under subdivision 4. Effective October 1, 2006, all equity incentives for nursing facilities reimbursed under this section shall be allowed for a duration determined under section 256B.431, subdivision 16, paragraph (c).

- Sec. 5. Minnesota Statutes 2016, section 256.9686, subdivision 8, is amended to read:
- Subd. 8. **Rate year.** "Rate year" means a calendar year from January 1 to December 31.
- Effective with the 2012 base year, rate year means a state fiscal year from July 1 to June
- 166.4 30.
- 166.5 **EFFECTIVE DATE.** This section is effective the day following final enactment.
- Sec. 6. Minnesota Statutes 2016, section 256.969, subdivision 1, is amended to read:
- Subdivision 1. **Hospital cost index.** (a) The hospital cost index shall be the change in
- the Centers for Medicare and Medicaid Services Inpatient Hospital Market Basket. The
- 166.9 commissioner shall use the indices as forecasted for the midpoint of the prior rate year to
- 166.10 the midpoint of the current rate year.
- (b) Except as authorized under this section, for fiscal years beginning on or after July
- 1, 1993, the commissioner of human services shall not provide automatic annual inflation
- adjustments for hospital payment rates under medical assistance.
- 166.14 **EFFECTIVE DATE.** This section is effective July 1, 2017.
- Sec. 7. Minnesota Statutes 2016, section 256.969, subdivision 2b, is amended to read:
- Subd. 2b. **Hospital payment rates.** (a) For discharges occurring on or after November
- 1, 2014, hospital inpatient services for hospitals located in Minnesota shall be paid according
- 166.18 to the following:
- (1) critical access hospitals as defined by Medicare shall be paid using a cost-based
- 166.20 methodology;
- (2) long-term hospitals as defined by Medicare shall be paid on a per diem methodology
- 166.22 under subdivision 25;
- 166.23 (3) rehabilitation hospitals or units of hospitals that are recognized as rehabilitation
- distinct parts as defined by Medicare shall be paid according to the methodology under
- 166.25 subdivision 12; and
- 166.26 (4) all other hospitals shall be paid on a diagnosis-related group (DRG) methodology.
- (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not
- be rebased, except that a Minnesota long-term hospital shall be rebased effective January
- 1, 2011, based on its most recent Medicare cost report ending on or before September 1,
- 166.30 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on
- December 31, 2010. For rate setting periods after November 1, 2014, in which the base

years are updated, a Minnesota long-term hospital's base year shall remain within the same period as other hospitals.

- (c) Effective for discharges occurring on and after November 1, 2014, payment rates for hospital inpatient services provided by hospitals located in Minnesota or the local trade area, except for the hospitals paid under the methodologies described in paragraph (a), clauses (2) and (3), shall be rebased, incorporating cost and payment methodologies in a manner similar to Medicare. The base year for the rates effective November 1, 2014, shall be calendar year 2012. The rebasing under this paragraph shall be budget neutral, ensuring that the total aggregate payments under the rebased system are equal to the total aggregate payments that were made for the same number and types of services in the base year. Separate budget neutrality calculations shall be determined for payments made to critical access hospitals and payments made to hospitals paid under the DRG system. Only the rate increases or decreases under subdivision 3a or 3c that applied to the hospitals being rebased during the entire base period shall be incorporated into the budget neutrality calculation.
- (d) For discharges occurring on or after November 1, 2014, through the next rebasing that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph (a), clause (4), shall include adjustments to the projected rates that result in no greater than a five percent increase or decrease from the base year payments for any hospital. Any adjustments to the rates made by the commissioner under this paragraph and paragraph (e) shall maintain budget neutrality as described in paragraph (c).
 - (e) For discharges occurring on or after November 1, 2014, through the next two rebasing that occurs periods the commissioner may make additional adjustments to the rebased rates, and when evaluating whether additional adjustments should be made, the commissioner shall consider the impact of the rates on the following:

- (f) Hospital payment rates established under paragraph (c) must incorporate the following:
- (1) for hospitals paid under the DRG methodology, the base year payment rate per admission is standardized by the applicable Medicare wage index and adjusted by the hospital's disproportionate population adjustment;
- (2) for critical access hospitals, payment rates for discharges between November 1, 2014, and June 30, 2015, shall be set to the same rate of payment that applied for discharges on October 31, 2014;
- (3) the cost and charge data used to establish hospital payment rates must only reflect 168.9 inpatient services covered by medical assistance; and 168.10
 - (4) in determining hospital payment rates for discharges occurring on or after the rate year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per discharge shall be based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year or years. In determining hospital payment rates for discharges in subsequent base years, the per discharge rates shall be based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year or years.
 - (g) The commissioner shall validate the rates effective November 1, 2014, by applying the rates established under paragraph (c), and any adjustments made to the rates under paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the total aggregate payments for the same number and types of services under the rebased rates are equal to the total aggregate payments made during calendar year 2013.
- (h) Effective for discharges occurring on or after July 1, 2017, and every two years thereafter, payment rates under this section shall be rebased to reflect only those changes in hospital costs between the existing base year and the next base year. Changes in costs 168.25 between base years shall be measured using the lower of the hospital cost index defined in 168.26 subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per claim. The commissioner shall establish the base year for each rebasing period considering 168.28 the most recent year for which filed Medicare cost reports are available. The estimated 168.29 change in the average payment per hospital discharge resulting from a scheduled rebasing 168.30 must be calculated and made available to the legislature by January 15 of each year in which 168.31 rebasing is scheduled to occur, and must include by hospital the differential in payment 168.32 rates compared to the individual hospital's costs. 168.33

(i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates for critical access hospitals located in Minnesota or the local trade area shall be determined using a new cost-based methodology. The commissioner shall establish within the methodology tiers of payment designed to promote efficiency and cost-effectiveness. Payment rates for hospitals under this paragraph shall be set at a level that does not exceed the total cost for critical access hospitals as reflected in base year cost reports. Until the next rebasing that occurs, the new methodology shall result in no greater than a five percent decrease from the base year payments for any hospital, except a hospital that had payments that were greater than 100 percent of the hospital's costs in the base year shall have their rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and after July 1, 2016, covered under this paragraph shall be increased by the inflation factor in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall not 169 12 be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the following criteria:

- (1) hospitals that had payments at or below 80 percent of their costs in the base year 169.15 shall have a rate set that equals 85 percent of their base year costs; 169.16
- (2) hospitals that had payments that were above 80 percent, up to and including 90 169.17 percent of their costs in the base year shall have a rate set that equals 95 percent of their 169.18 base year costs; and 169.19
- (3) hospitals that had payments that were above 90 percent of their costs in the base year 169.20 shall have a rate set that equals 100 percent of their base year costs. 169.21
- (j) The commissioner may refine the payment tiers and criteria for critical access hospitals 169.22 to coincide with the next rebasing under paragraph (h). The factors used to develop the new 169.23 methodology may include, but are not limited to: 169.24
- (1) the ratio between the hospital's costs for treating medical assistance patients and the 169.25 hospital's charges to the medical assistance program; 169.26
- (2) the ratio between the hospital's costs for treating medical assistance patients and the 169.27 hospital's payments received from the medical assistance program for the care of medical 169.28 assistance patients; 169.29
- 169.30 (3) the ratio between the hospital's charges to the medical assistance program and the hospital's payments received from the medical assistance program for the care of medical 169.31 assistance patients; 169.32
 - (4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);

(5) the proportion of that hospital's costs that are administrative and trends in administrative costs; and

(6) geographic location.

Sec. 8. Minnesota Statutes 2016, section 256.969, subdivision 3a, is amended to read:

Subd. 3a. Payments. (a) Acute care hospital billings under the medical assistance program must not be submitted until the recipient is discharged. However, the commissioner shall establish monthly interim payments for inpatient hospitals that have individual patient lengths of stay over 30 days regardless of diagnostic category. Except as provided in section 256.9693, medical assistance reimbursement for treatment of mental illness shall be reimbursed based on diagnostic classifications. Individual hospital payments established under this section and sections 256.9685, 256.9686, and 256.9695, in addition to third-party and recipient liability, for discharges occurring during the rate year shall not exceed, in aggregate, the charges for the medical assistance covered inpatient services paid for the same period of time to the hospital. Services that have rates established under subdivision 11 or 12, must be limited separately from other services. After consulting with the affected hospitals, the commissioner may consider related hospitals one entity and may merge the payment rates while maintaining separate provider numbers. The operating and property base rates per admission or per day shall be derived from the best Medicare and claims data available when rates are established. The commissioner shall determine the best Medicare and claims data, taking into consideration variables of recency of the data, audit disposition, settlement status, and the ability to set rates in a timely manner. The commissioner shall notify hospitals of payment rates 30 days prior to implementation. The rate setting data must reflect the admissions data used to establish relative values. The commissioner may adjust base year cost, relative value, and case mix index data to exclude the costs of services that have been discontinued by the October 1 of the year preceding the rate year or that are paid separately from inpatient services. Inpatient stays that encompass portions of two or more rate years shall have payments established based on payment rates in effect at the time of admission unless the date of admission preceded the rate year in effect by six months or more. In this case, operating payment rates for services rendered during the rate year in effect and established based on the date of admission shall be adjusted to the rate year in effect by the hospital cost index.

(b) For fee-for-service admissions occurring on or after July 1, 2002, the total payment, before third-party liability and spenddown, made to hospitals for inpatient services is reduced by .5 percent from the current statutory rates.

The unit dose blister card containing the drug must meet the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse. A pharmacy provider using packaging that meets

the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective billing. Sec. 36. Minnesota Statutes 2016, section 256B.196, subdivision 2, is amended to read:

Subd. 2. Commissioner's duties. (a) For the purposes of this subdivision and subdivision 3, the commissioner shall determine the fee-for-service outpatient hospital services upper payment limit for nonstate government hospitals. The commissioner shall then determine the amount of a supplemental payment to Hennepin County Medical Center and Regions Hospital for these services that would increase medical assistance spending in this category to the aggregate upper payment limit for all nonstate government hospitals in Minnesota. In making this determination, the commissioner shall allot the available increases between Hennepin County Medical Center and Regions Hospital based on the ratio of medical assistance fee-for-service outpatient hospital payments to the two facilities. The commissioner shall adjust this allotment as necessary based on federal approvals, the amount of intergovernmental transfers received from Hennepin and Ramsey Counties, and other factors, in order to maximize the additional total payments. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match federal Medicaid payments available under this subdivision in order to make supplementary medical assistance payments to Hennepin County Medical Center and Regions Hospital equal to an amount that when combined with existing medical assistance payments to nonstate governmental hospitals would increase total payments to hospitals in this category for outpatient services to the aggregate upper payment limit for all hospitals in this category in Minnesota. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center and Regions Hospital.

(b) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians and other billing professionals affiliated with Hennepin County Medical Center and with Regions Hospital. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and to make supplementary payments to physicians

Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and shall make supplementary payments to physicians and other billing professionals affiliated with Regions Hospital through HealthPartners Medical Group.

(c) Beginning January 1, 2010, Hennepin County and Ramsey County may make monthly voluntary intergovernmental transfers to the commissioner in amounts not to exceed \$12,000,000 per year from Hennepin County and \$6,000,000 per year from Ramsey County. The commissioner shall increase the medical assistance capitation payments to any licensed health plan under contract with the medical assistance program that agrees to make enhanced payments to Hennepin County Medical Center or Regions Hospital. The increase shall be in an amount equal to the annual value of the monthly transfers plus federal financial participation, with each health plan receiving its pro rata share of the increase based on the pro rata share of medical assistance admissions to Hennepin County Medical Center and Regions Hospital by those plans. Upon the request of the commissioner, health plans shall submit individual-level cost data for verification purposes. The commissioner may ratably reduce these payments on a pro rata basis in order to satisfy federal requirements for actuarial soundness. If payments are reduced, transfers shall be reduced accordingly. Any licensed health plan that receives increased medical assistance capitation payments under the intergovernmental transfer described in this paragraph shall increase its medical assistance payments to Hennepin County Medical Center and Regions Hospital by the same amount as the increased payments received in the capitation payment described in this paragraph.

(d) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for ambulance services affiliated with Hennepin County Medical Center and the city of St. Paul, and ambulance services owned and operated by another governmental entity that chooses to participate by requesting the commissioner to determine an upper payment limit. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. Subd. 5a. **Managed care contracts.** (a) Managed care contracts under this section and section 256L.12 shall be entered into or renewed on a calendar year basis. The commissioner may issue separate contracts with requirements specific to services to medical assistance recipients age 65 and older.

- (b) A prepaid health plan providing covered health services for eligible persons pursuant to chapters 256B and 256L is responsible for complying with the terms of its contract with the commissioner. Requirements applicable to managed care programs under chapters 256B and 256L established after the effective date of a contract with the commissioner take effect when the contract is next issued or renewed.
- (c) The commissioner shall withhold five percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program pending completion of performance targets. Each performance target must be quantifiable, objective, measurable, and reasonably attainable, except in the case of a performance target based on a federal or state law or rule. Criteria for assessment of each performance target must be outlined in writing prior to the contract effective date. Clinical or utilization performance targets and their related criteria must consider evidence-based research and reasonable interventions when available or applicable to the populations served, and must be developed with input from external clinical experts and stakeholders, including managed care plans, county-based purchasing plans, and providers. The managed care or county-based purchasing plan must demonstrate, to the commissioner's satisfaction, that the data submitted regarding attainment of the performance target is accurate. The commissioner shall periodically change the administrative measures used as performance targets in order to improve plan performance across a broader range of administrative services. The performance targets must include measurement of plan efforts to contain spending on health care services and administrative activities. The commissioner may adopt plan-specific performance targets that take into account factors affecting only one plan, including characteristics of the plan's enrollee population. The withheld funds must be returned no sooner than July of the following year if performance targets in the contract are achieved. The commissioner may exclude special demonstration projects under subdivision 23.
- (d) The commissioner shall require that managed care plans use the assessment and authorization processes, forms, timelines, standards, documentation, and data reporting requirements, protocols, billing processes, and policies consistent with medical assistance fee-for-service or the Department of Human Services contract requirements consistent with

medical assistance fee-for-service or the Department of Human Services contract requirements for all personal care assistance services under section 256B.0659.

(e) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the health plan's emergency department utilization rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. For 2012, the reduction shall be based on the health plan's utilization in 2009. To earn the return of the withhold each subsequent year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than ten percent of the plan's emergency department utilization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, compared to the previous measurement year until the final performance target is reached. When measuring performance, the commissioner must consider the difference in health risk in a managed care or county-based purchasing plan's membership in the baseline year compared to the measurement year, and work with the managed care or county-based purchasing plan to account for differences that they agree are significant.

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a reduction in the utilization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue for each consecutive contract period until the plan's emergency room utilization rate for state health care program enrollees is reduced by 25 percent of the plan's emergency room utilization rate for medical assistance and MinnesotaCare enrollees for calendar year 2009. Hospitals shall cooperate with the health plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(f) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than five percent of the plan's hospital admission rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that this reduction in the hospitalization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue until there is a 25 percent reduction in the hospital admission rate compared to the hospital admission rates in calendar year 2011, as determined by the commissioner. The hospital admissions in this performance target do not include the admissions applicable to the subsequent hospital admission performance target under paragraph (g). Hospitals shall cooperate with the plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(g) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rates for subsequent hospitalizations within 30 days of a previous hospitalization of a patient regardless of the reason, for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of the subsequent hospitalization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, of no less than five percent compared to the previous calendar year until the final performance target is reached.

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a qualifying reduction in the subsequent hospitalization rate was achieved. The withhold described in this paragraph must continue for each consecutive contract period until the plan's subsequent hospitalization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, is reduced by 25 percent of the plan's subsequent hospitalization rate for calendar year 2011. Hospitals shall cooperate with the plans in meeting this performance target and shall accept payment withholds that must be returned to the hospitals if the performance target is achieved.

- (h) Effective for services rendered on or after January 1, 2013, through December 31, 2013, the commissioner shall withhold 4.5 percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program. The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following year. The commissioner may exclude special demonstration projects under subdivision 23.
- (i) Effective for services rendered on or after January 1, 2014, the commissioner shall withhold three percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program. The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following year. The commissioner may exclude special demonstration projects under subdivision 23.
- (j) A managed care plan or a county-based purchasing plan under section 256B.692 may include as admitted assets under section 62D.044 any amount withheld under this section that is reasonably expected to be returned.
- (k) Contracts between the commissioner and a prepaid health plan are exempt from the set-aside and preference provisions of section 16C.16, subdivisions 6, paragraph (a), and 7.
- (l) The return of the withhold under paragraphs (h) and (i) is not subject to the requirements of paragraph (c).
- (m) Managed care plans and county-based purchasing plans shall maintain current and fully executed agreements for all subcontractors, including bargaining groups, for administrative services that are expensed to the state's public health care programs.

 Subcontractor agreements determined to be material, as defined by the commissioner after taking into account state contracting and relevant statutory requirements, must be in the form of a written instrument or electronic document containing the elements of offer, acceptance, consideration, payment terms, scope, duration of the contract, and how the

subcontractor services relate to state public health care programs. Upon request, the

221.1

commissioner shall have access to all subcontractor documentation under this paragraph. 221.2 221.3 Nothing in this paragraph shall allow release of information that is nonpublic data pursuant to section 13.02. 221.4 (n) Effective for services provided on or after January 1, 2018, through December 31, 221.5 2018, the commissioner shall withhold two percent of the capitation payment provided to 221.6 managed care plans under this section, and county-based purchasing plans under section 221.7 256B.692, for each medical assistance enrollee. The withheld funds must be returned no 221.8 sooner than July 1 and no later than July 31 of the following year, for capitation payments 221.9 for enrollees for whom the plan has submitted to the commissioner a verification of coverage 221.10 form completed and signed by the enrollee. The verification of coverage form must be 221.11 developed by the commissioner and made available to managed care and county-based 221.12 purchasing plans. The form must require the enrollee to provide the enrollee's name, street 221.13 address, and the name of the managed care or county-based purchasing plan selected by or 221.14 221.15 assigned to the enrollee, and must include a signature block that allows the enrollee to attest that the information provided is accurate. A plan shall request that all enrollees complete 221.16 the verification of coverage form, and shall submit all completed forms to the commissioner 221.17 by February 28, 2018. If a completed form for an enrollee is not received by the commissioner 221.18 221.19 by that date: (1) the commissioner shall not return to the plan funds withheld for that enrollee; 221.20 (2) the commissioner shall cease making capitation payments to the plan for that enrollee, 221.21 221.22 effective with the April 2018 coverage month; and (3) the commissioner shall disenroll the enrollee from medical assistance, subject to any 221.23 221.24 enrollee appeal. Sec. 40. Minnesota Statutes 2016, section 256B.69, subdivision 9e, is amended to read: 221.25 Subd. 9e. Financial audits. (a) The legislative auditor shall conduct or contract with 221.26 vendors to conduct independent third-party financial audits of the information required to 221.27 be provided by audit managed care plans and county-based purchasing plans under 221.28 subdivision 9c, paragraph (b). The audits by the vendors shall be conducted as vendor 221.29 resources permit and in accordance with generally accepted government auditing standards 221.30 issued by the United States Government Accountability Office. The contract with the vendors 221.31 shall be designed and administered so as to render the independent third-party audits eligible 221.32 for a federal subsidy, if available. The contract shall require the audits to include a 221.33 determination of compliance with the federal Medicaid rate certification process to determine

if a managed care plan or county-based purchasing plan used public money in compliance 222.1 with federal and state laws, rules, and in accordance with provisions in the plan's contract 222.2 222.3 with the commissioner. The legislative auditor shall conduct the audits in accordance with section 3.972, subdivision 2b. 222.4 222.5 (b) For purposes of this subdivision, "independent third-party" means a vendor that is 222.6 independent in accordance with government auditing standards issued by the United States Government Accountability Office. 222.7 Sec. 41. Minnesota Statutes 2016, section 256B.69, is amended by adding a subdivision 222.8 222.9 to read: Subd. 36. Competitive bidding and procurement. The commissioner shall establish geographic regions for the purposes of 222.14 competitive price bidding. The commissioner shall not implement a competitive price 222.15 222.16 bidding program in a single procurement that exceeds 40 percent of the total enrollment to which this paragraph applies except in cases when a managed care organization withdraws 222.17 from their contract with the state, managed care organizations merge, other significant 222.18 market changes occur within the purchasing or health care delivery system, or counties 222.19 agree to a larger procurement. The commissioner shall ensure that there is an adequate 222.20 choice of managed care organizations based on the potential enrollment, in a manner that 222.21 is consistent with the requirements of section 256B.694. The commissioner shall operate 222.22 the competitive bidding program by region, but shall award contracts by county and shall 222.23 allow managed care organizations with a service area consisting of only a portion of a region 222.24 to bid on those counties within their licensed service area only. For purposes of this 222.25 subdivision, "managed care organization" means a demonstration provider as defined in 222.26 subdivision 2, paragraph (b). 222.27 222.28 (b) The commissioner shall provide the scoring weight of selection criteria to be assigned in the procurement process and include the scoring weight in the request for proposals. 222.29 Substantial weight shall be given to county board resolutions and priority areas identified 222 30 by counties, when that input meets federal requirements under Code of Federal Regulations, 222.31 title 42, part 338.58. 222.32 (c) If a best and final offer is requested, each responding managed care organization 222.33 must be offered the opportunity to submit a best and final offer. 222.34

Effective for services provided on or after July 1, 2015, rates established for critical access hospitals under this paragraph for the applicable payment year shall be the final payment and shall not be settled to actual costs. Effective for services delivered on or after the first day of the hospital's fiscal year ending in 2016, the rate for outpatient hospital services shall be computed using information from each hospital's Medicare cost report as filed with Medicare for the year that is two years before the year that the rate is being computed. - Sec. 11. Minnesota Statutes 2016, section 252.27, subdivision 2a, is amended to read:
 - Subd. 2a. **Contribution amount.** (a) The natural or adoptive parents of a minor child, including a child determined eligible for medical assistance without consideration of parental income, must contribute to the cost of services used by making monthly payments on a sliding scale based on income, unless the child is married or has been married, parental rights have been terminated, or the child's adoption is subsidized according to chapter 259A or through title IV-E of the Social Security Act. The parental contribution is a partial or full payment for medical services provided for diagnostic, therapeutic, curing, treating, mitigating, rehabilitation, maintenance, and personal care services as defined in United States Code, title 26, section 213, needed by the child with a chronic illness or disability.
 - (b) For households with adjusted gross income equal to or greater than 275 percent of federal poverty guidelines, the parental contribution shall be computed by applying the following schedule of rates to the adjusted gross income of the natural or adoptive parents:
 - (1) if the adjusted gross income is equal to or greater than 275 percent of federal poverty guidelines and less than or equal to 545 percent of federal poverty guidelines, the parental contribution shall be determined using a sliding fee scale established by the commissioner of human services which begins at 2.23 1.6725 percent of adjusted gross income at 275 percent of federal poverty guidelines and increases to 6.08 4.56 percent of adjusted gross income for those with adjusted gross income up to 545 percent of federal poverty guidelines;
- (2) if the adjusted gross income is greater than 545 percent of federal poverty guidelines and less than 675 percent of federal poverty guidelines, the parental contribution shall be 6.08 4.56 percent of adjusted gross income;
- 257.32 (3) if the adjusted gross income is equal to or greater than 675 percent of federal poverty guidelines and less than 975 percent of federal poverty guidelines, the parental contribution

shall be determined using a sliding fee scale established by the commissioner of human services which begins at 6.08 4.56 percent of adjusted gross income at 675 percent of federal poverty guidelines and increases to 8.1 6.075 percent of adjusted gross income for those with adjusted gross income up to 975 percent of federal poverty guidelines; and

- (4) if the adjusted gross income is equal to or greater than 975 percent of federal poverty guidelines, the parental contribution shall be 10.13 7.5975 percent of adjusted gross income.
- If the child lives with the parent, the annual adjusted gross income is reduced by \$2,400 prior to calculating the parental contribution. If the child resides in an institution specified in section 256B.35, the parent is responsible for the personal needs allowance specified under that section in addition to the parental contribution determined under this section. The parental contribution is reduced by any amount required to be paid directly to the child pursuant to a court order, but only if actually paid.
- (c) The household size to be used in determining the amount of contribution under paragraph (b) includes natural and adoptive parents and their dependents, including the child receiving services. Adjustments in the contribution amount due to annual changes in the federal poverty guidelines shall be implemented on the first day of July following publication of the changes.
- (d) For purposes of paragraph (b), "income" means the adjusted gross income of the natural or adoptive parents determined according to the previous year's federal tax form, except, effective retroactive to July 1, 2003, taxable capital gains to the extent the funds have been used to purchase a home shall not be counted as income.
- (e) The contribution shall be explained in writing to the parents at the time eligibility for services is being determined. The contribution shall be made on a monthly basis effective with the first month in which the child receives services. Annually upon redetermination or at termination of eligibility, if the contribution exceeded the cost of services provided, the local agency or the state shall reimburse that excess amount to the parents, either by direct reimbursement if the parent is no longer required to pay a contribution, or by a reduction in or waiver of parental fees until the excess amount is exhausted. All reimbursements must include a notice that the amount reimbursed may be taxable income if the parent paid for the parent's fees through an employer's health care flexible spending account under the Internal Revenue Code, section 125, and that the parent is responsible for paying the taxes owed on the amount reimbursed.
- (f) The monthly contribution amount must be reviewed at least every 12 months; when there is a change in household size; and when there is a loss of or gain in income from one

month to another in excess of ten percent. The local agency shall mail a written notice 30 days in advance of the effective date of a change in the contribution amount. A decrease in the contribution amount is effective in the month that the parent verifies a reduction in income or change in household size.

- (g) Parents of a minor child who do not live with each other shall each pay the contribution required under paragraph (a). An amount equal to the annual court-ordered child support payment actually paid on behalf of the child receiving services shall be deducted from the adjusted gross income of the parent making the payment prior to calculating the parental contribution under paragraph (b).
- (h) The contribution under paragraph (b) shall be increased by an additional five percent if the local agency determines that insurance coverage is available but not obtained for the child. For purposes of this section, "available" means the insurance is a benefit of employment for a family member at an annual cost of no more than five percent of the family's annual income. For purposes of this section, "insurance" means health and accident insurance coverage, enrollment in a nonprofit health service plan, health maintenance organization, self-insured plan, or preferred provider organization.
- Parents who have more than one child receiving services shall not be required to pay more than the amount for the child with the highest expenditures. There shall be no resource contribution from the parents. The parent shall not be required to pay a contribution in excess of the cost of the services provided to the child, not counting payments made to school districts for education-related services. Notice of an increase in fee payment must be given at least 30 days before the increased fee is due.
- 259.23 (i) The contribution under paragraph (b) shall be reduced by \$300 per fiscal year if, in the 12 months prior to July 1:
- 259.25 (1) the parent applied for insurance for the child;
- 259.26 (2) the insurer denied insurance;

- 259.30 (4) as a result of the dispute, the insurer reversed its decision and granted insurance.
- For purposes of this section, "insurance" has the meaning given in paragraph (h).
- A parent who has requested a reduction in the contribution amount under this paragraph shall submit proof in the form and manner prescribed by the commissioner or county agency,

including, but not limited to, the insurer's denial of insurance, the written letter or complaint of the parents, court documents, and the written response of the insurer approving insurance.

- (c) All remaining money of the annual money available after the base funding has been determined must be allocated to each agency and reservation in proportion to the size of the poverty level population in the agency's service area compared to the size of the poverty level population in the state.
- (d) Allocation of money to migrant and seasonal farmworker organizations must not exceed three percent of the total annual money available. Base funding allocations must be made for all community action agencies and Indian reservations that received money under this subdivision, in fiscal year 1984, and for community action agencies designated under this section with a service area population of 35,000 or greater.

311.9	that the opioid treatment program is located who assumes responsibility for administering

311.18	(h) "Placing authority" has the meaning given in Minnesota Rules, part 9530.6605,
311.19	subpart 21a.
311.20	(i) "Unsupervised use" means the use of a medication for the treatment of opioid use
311.21	disorder dispensed for use by a client outside of the program setting.
311.22	Subd. 3. Medication orders. Before the program may administer or dispense a medication
311.23	used for the treatment of opioid use disorder:
311.24	(1) a client-specific order must be received from an appropriately credentialed physician
311.25	who is enrolled as a Minnesota health care programs provider and meets all applicable
311.26	provider standards;
311.27	(2) the signed order must be documented in the client's record; and
311.28	(3) if the physician that issued the order is not able to sign the order when issued, the
311.29	unsigned order must be entered in the client record at the time it was received, and the
311.30	physician must review the documentation and sign the order in the client's record within 72
311.31	hours of the medication being ordered. The license holder must report to the commissioner
311.32	any medication error that endangers a client's health, as determined by the medical director.

05/08/17	REVISOR	ACF/EP	CCRSF0800

312.1	Subd. 4. High dose requirements. A chefit being administered of dispensed a dose
312.2	beyond that set forth in subdivision 6, paragraph (a), clause (1), that exceeds 150 milligrams
312.3	of methadone or 24 milligrams of buprenorphine daily, and for each subsequent increase,
312.4	must meet face-to-face with a prescribing physician. The meeting must occur before the
312.5	administration or dispensing of the increased medication dose.
312.6	Subd. 5. Drug testing. Each client enrolled in the program must receive a minimum of
312.7	eight random drug abuse tests per 12 months of treatment. Drug abuse tests must be
312.8	reasonably disbursed over the 12-month period. A license holder may elect to conduct more
312.9	drug abuse tests.
312.10	Subd. 6. Criteria for unsupervised use. (a) To limit the potential for diversion of
312.11	medication used for the treatment of opioid use disorder to the illicit market, medication
312.12	dispensed to a client for unsupervised use shall be subject to the following requirements:
312.13	(1) any client in an opioid treatment program may receive a single unsupervised use
312.14	dose for a day that the clinic is closed for business, including Sundays and state and federal
312.15	holidays; and
312.16	(2) other treatment program decisions on dispensing medications used for the treatment
312.17	of opioid use disorder to a client for unsupervised use shall be determined by the medical
312.18	director.
312.19	(b) In determining whether a client may be permitted unsupervised use of medications,
312.20	a physician with authority to prescribe must consider the criteria in this paragraph. The
312.21	criteria in this paragraph must also be considered when determining whether dispensing
312.22	medication for a client's unsupervised use is appropriate to increase or to extend the amount
312.23	of time between visits to the program. The criteria are:
312.24	(1) absence of recent abuse of drugs including but not limited to opioids, non-narcotics,
312.25	and alcohol;
312.26	(2) regularity of program attendance;
312.27	(3) absence of serious behavioral problems at the program;
312.28	(4) absence of known recent criminal activity such as drug dealing;
312.29	(5) stability of the client's home environment and social relationships;
312.30	(6) length of time in comprehensive maintenance treatment;
312.31	(7) reasonable assurance that unsupervised use medication will be safely stored within
312 32	the client's home; and

05/08/17	REVISOR	ACF/EP	CCRSF0800

313.1	(8) whether the rehabilitative benefit the client derived from decreasing the frequency
313.2	of program attendance outweighs the potential risks of diversion or unsupervised use.
313.3	(c) The determination, including the basis of the determination must be documented in
313.4	the client's medical record.
313.5	Subd. 7. Restrictions for unsupervised use of methadone hydrochloride. (a) If a
313.6	physician with authority to prescribe determines that a client meets the criteria in subdivision
313.7	6 and may be dispensed a medication used for the treatment of opioid addiction, the
313.8	restrictions in this subdivision must be followed when the medication to be dispensed is
313.9	methadone hydrochloride.
313.10	(b) During the first 90 days of treatment, the unsupervised use medication supply must
313.11	be limited to a maximum of a single dose each week and the client shall ingest all other
313.12	doses under direct supervision.
313.13	(c) In the second 90 days of treatment, the unsupervised use medication supply must be
313.14	limited to two doses per week.
313.15	(d) In the third 90 days of treatment, the unsupervised use medication supply must not
313.16	exceed three doses per week.
313.17	(e) In the remaining months of the first year, a client may be given a maximum six-day
313.18	unsupervised use medication supply.
313.19	(f) After one year of continuous treatment, a client may be given a maximum two-week
313.20	unsupervised use medication supply.
313.21	(g) After two years of continuous treatment, a client may be given a maximum one-month
313.22	unsupervised use medication supply, but must make monthly visits to the program.
313.23	Subd. 8. Restriction exceptions. When a license holder has reason to accelerate the
313.24	number of unsupervised use doses of methadone hydrochloride, the license holder must
313.25	comply with the requirements of Code of Federal Regulations, title 42, section 8.12, the
313.26	criteria for unsupervised use and must use the exception process provided by the federal
313.27	Center for Substance Abuse Treatment Division of Pharmacologic Therapies. For the
313.28	purposes of enforcement of this subdivision, the commissioner has the authority to monitor
313.29	a program for compliance with federal regulations and may issue licensing actions according
313.30	to sections 245A.05, 245A.06, and 245A.07 based on the commissioner's determination of
313.31	noncompliance.
313.32	Subd. 9. Guest dose. To receive a guest dose, the client must be enrolled in an opioid
313.33	treatment program elsewhere in the state or country and be receiving the medication on a

temporary basis because the client is not able to receive the medication at the program in 314.1 which the client is enrolled. Such arrangements shall not exceed 30 consecutive days in any 314.2 314.3 one program and must not be for the convenience or benefit of either program. A guest dose may also occur when the client's primary clinic is not open and the client is not receiving 314.4 unsupervised use doses. 314.5 314.6 Subd. 10. Capacity management and waiting list system compliance. An opioid treatment program must notify the department within seven days of the program reaching 314.7 both 90 and 100 percent of the program's capacity to care for clients. Each week, the program 314.8 must report its capacity, currently enrolled dosing clients, and any waiting list. A program 314.9 reporting 90 percent of capacity must also notify the department when the program's census 314.10 increases or decreases from the 90 percent level. 314.11 314.12 Subd. 11. **Waiting list.** An opioid treatment program must have a waiting list system. If the person seeking admission cannot be admitted within 14 days of the date of application, 314.13 314.14 each person seeking admission must be placed on the waiting list, unless the person seeking admission is assessed by the program and found ineligible for admission according to this 314.15 chapter and Code of Federal Regulations, title 42, part 1, subchapter A, section 8.12(e), and 314.16 title 45, parts 160 to 164. The waiting list must assign a unique client identifier for each 314.17 person seeking treatment while awaiting admission. A person seeking admission on a waiting 314.18 list who receives no services under section 245G.07, subdivision 1, must not be considered 314.19 a client as defined in section 245G.01, subdivision 9. 314.20 Subd. 12. Client referral. An opioid treatment program must consult the capacity 314.21 management system to ensure that a person on a waiting list is admitted at the earliest time 314.22 to a program providing appropriate treatment within a reasonable geographic area. If the 314.23 client was referred through a public payment system and if the program is not able to serve 314.24 the client within 14 days of the date of application for admission, the program must contact 314.25 and inform the referring agency of any available treatment capacity listed in the state capacity 314.26 314.27 management system. Subd. 13. **Outreach.** An opioid treatment program must carry out activities to encourage 314.28 an individual in need of treatment to undergo treatment. The program's outreach model 314.29 314.30 must: (1) select, train, and supervise outreach workers; 314.31 314.32 (2) contact, communicate, and follow up with individuals with high-risk substance 314.33 misuse, individuals with high-risk substance misuse associates, and neighborhood residents within the constraints of federal and state confidentiality requirements; 314.34

313.1	(5) promote awareness among marviduans who engage in substance misuse by injection
315.2	about the relationship between injecting substances and communicable diseases such as
315.3	HIV; and
315.4	(4) recommend steps to prevent HIV transmission.
315.5	Subd. 14. Central registry. (a) A license holder must comply with requirements to
315.6	submit information and necessary consents to the state central registry for each client
315.7	admitted, as specified by the commissioner. The license holder must submit data concerning
315.8	medication used for the treatment of opioid use disorder. The data must be submitted in a
315.9	method determined by the commissioner and the original information must be kept in the
315.10	client's record. The information must be submitted for each client at admission and discharge.
315.11	The program must document the date the information was submitted. The client's failure to
315.12	provide the information shall prohibit participation in an opioid treatment program. The
315.13	information submitted must include the client's:
315.14	(1) full name and all aliases;
315.15	(2) date of admission;
315.16	(3) date of birth;
315.17	(4) Social Security number or Alien Registration Number, if any;
315.18	(5) current or previous enrollment status in another opioid treatment program;
315.19	(6) government-issued photo identification card number; and
315.20	(7) driver's license number, if any.
315.21	(b) The requirements in paragraph (a) are effective upon the commissioner's
315.22	implementation of changes to the drug and alcohol abuse normative evaluation system or
315.23	development of an electronic system by which to submit the data.
315.24	Subd. 15. Nonmedication treatment services; documentation. (a) The program must
315.25	offer at least 50 consecutive minutes of individual or group therapy treatment services as
315.26	defined in section 245G.07, subdivision 1, paragraph (a), clause (1), per week, for the first
315.27	ten weeks following admission, and at least 50 consecutive minutes per month thereafter.
315.28	As clinically appropriate, the program may offer these services cumulatively and not
315.29	consecutively in increments of no less than 15 minutes over the required time period, and
315.30	for a total of 60 minutes of treatment services over the time period, and must document the
315.31	reason for providing services cumulatively in the client's record. The program may offer
315.32	additional levels of service when deemed clinically necessary.

310.1	(b) Notwithstanding the requirements of comprehensive assessments in section 2430.05,
316.2	the assessment must be completed within 21 days of service initiation.
316.3	(c) Notwithstanding the requirements of individual treatment plans set forth in section
316.4	<u>245G.06:</u>
316.5	(1) treatment plan contents for a maintenance client are not required to include goals
316.6	the client must reach to complete treatment and have services terminated;
316.7	(2) treatment plans for a client in a taper or detox status must include goals the client
316.8	must reach to complete treatment and have services terminated;
316.9	(3) for the initial ten weeks after admission for all new admissions, readmissions, and
316.10	transfers, progress notes must be entered in a client's file at least weekly and be recorded
316.11	in each of the six dimensions upon the development of the treatment plan and thereafter.
316.12	Subsequently, the counselor must document progress in the six dimensions at least once
316.13	monthly or, when clinical need warrants, more frequently; and
316.14	(4) upon the development of the treatment plan and thereafter, treatment plan reviews
316.15	must occur weekly, or after each treatment service, whichever is less frequent, for the first
316.16	ten weeks after the treatment plan is developed. Following the first ten weeks of treatment
316.17	plan reviews, reviews may occur monthly, unless the client's needs warrant more frequent
316.18	revisions or documentation.
316.19	Subd. 16. Prescription monitoring program. (a) The program must develop and
316.20	maintain a policy and procedure that requires the ongoing monitoring of the data from the
316.21	prescription monitoring program (PMP) for each client. The policy and procedure must
316.22	include how the program meets the requirements in paragraph (b).
316.23	(b) If a medication used for the treatment of substance use disorder is administered or
316.24	dispensed to a client, the license holder shall be subject to the following requirements:
316.25	(1) upon admission to a methadone clinic outpatient treatment program, a client must
316.26	be notified in writing that the commissioner of human services and the medical director
316.27	must monitor the PMP to review the prescribed controlled drugs a client received;
316.28	(2) the medical director or the medical director's delegate must review the data from the
316.29	PMP described in section 152.126 before the client is ordered any controlled substance, as
316.30	defined under section 152.126, subdivision 1, paragraph (c), including medications used
316.31	for the treatment of opioid addiction, and the medical director's or the medical director's
316.32	delegate's subsequent reviews of the PMP data must occur at least every 90 days;
316.33	(3) a copy of the PMP data reviewed must be maintained in the client's file;

05/08/17	REVISOR	ACF/EP	CCRSF0800

317.1	(4) when the PMP data contains a recent history of multiple prescribers or multiple
317.2	prescriptions for controlled substances, the physician's review of the data and subsequent
317.3	actions must be documented in the client's file within 72 hours and must contain the medical
317.4	director's determination of whether or not the prescriptions place the client at risk of harm
317.5	and the actions to be taken in response to the PMP findings. The provider must conduct
317.6	subsequent reviews of the PMP on a monthly basis; and
317.7	(5) if at any time the medical director believes the use of the controlled substances places
317.8	the client at risk of harm, the program must seek the client's consent to discuss the client's
317.9	opioid treatment with other prescribers and must seek the client's consent for the other
317.10	prescriber to disclose to the opioid treatment program's medical director the client's condition
317.11	that formed the basis of the other prescriptions. If the information is not obtained within
317.12	seven days, the medical director must document whether or not changes to the client's
317.13	medication dose or number of unsupervised use doses are necessary until the information
317.14	is obtained.
317.15	(c) The commissioner shall collaborate with the Minnesota Board of Pharmacy to develop
317.16	and implement an electronic system for the commissioner to routinely access the PMP data
317.17	to determine whether any client enrolled in an opioid addiction treatment program licensed
317.18	according to this section was prescribed or dispensed a controlled substance in addition to
317.19	that administered or dispensed by the opioid addiction treatment program. When the
317.20	commissioner determines there have been multiple prescribers or multiple prescriptions of
317.21	controlled substances for a client, the commissioner shall:
317.22	(1) inform the medical director of the opioid treatment program only that the
317.23	commissioner determined the existence of multiple prescribers or multiple prescriptions of
317.24	controlled substances; and
317.25	(2) direct the medical director of the opioid treatment program to access the data directly,
317.26	review the effect of the multiple prescribers or multiple prescriptions, and document the
317.27	review.
317.28	(d) If determined necessary, the commissioner shall seek a federal waiver of, or exception
317.29	to, any applicable provision of Code of Federal Regulations, title 42, section 2.34(c), before
317.30	implementing this subdivision.
317.31	Subd. 17. Policies and procedures. (a) A license holder must develop and maintain the
317.32	policies and procedures required in this subdivision.
317.33	(b) For a program that is not open every day of the year, the license holder must maintain
317.34	a policy and procedure that permits a client to receive a single unsupervised use of medication

used for the treatment of opioid use disorder for days that the program is closed for business, 318.1 including, but not limited to, Sundays and state and federal holidays as required under 318.2 318.3 subdivision 6, paragraph (a), clause (1). (c) The license holder must maintain a policy and procedure that includes specific 318.4 318.5 measures to reduce the possibility of diversion. The policy and procedure must: (1) specifically identify and define the responsibilities of the medical and administrative 318.6 staff for performing diversion control measures; and 318.7 318.8 (2) include a process for contacting no less than five percent of clients who have unsupervised use of medication, excluding clients approved solely under subdivision 6, 318.9 paragraph (a), clause (1), to require clients to physically return to the program each month. 318.10 The system must require clients to return to the program within a stipulated time frame and 318.11 318.12 turn in all unused medication containers related to opioid use disorder treatment. The license holder must document all related contacts on a central log and the outcome of the contact 318.13 for each client in the client's record. 318.14 (d) Medication used for the treatment of opioid use disorder must be ordered, 318.15 administered, and dispensed according to applicable state and federal regulations and the 318.16 standards set by applicable accreditation entities. If a medication order requires assessment 318.17 by the person administering or dispensing the medication to determine the amount to be administered or dispensed, the assessment must be completed by an individual whose 318.19 professional scope of practice permits an assessment. For the purposes of enforcement of 318.20 this paragraph, the commissioner has the authority to monitor the person administering or 318.21 dispensing the medication for compliance with state and federal regulations and the relevant 318.22 standards of the license holder's accreditation agency and may issue licensing actions 318.23 according to sections 245A.05, 245A.06, and 245A.07, based on the commissioner's determination of noncompliance. 318.25 Subd. 18. Quality improvement plan. The license holder must develop and maintain 318.26 318.27 a quality improvement plan that: (1) includes evaluation of the services provided to clients to identify issues that may 318.28 improve service delivery and client outcomes; 318.29 318.30 (2) includes goals for the program to accomplish based on the evaluation; (3) is reviewed annually by the management of the program to determine whether the 318.31 goals were met and, if not, whether additional action is required; 318.32

319.1	(4) is updated at least annually to include new or continued goals based on an updated
319.2	evaluation of services; and
319.3	(5) identifies two specific goal areas, in addition to others identified by the program,
319.4	including:
319.5	(i) a goal concerning oversight and monitoring of the premises around and near the

It is hereby declared to be the public policy of this state that scientific evidence shows that addiction to alcohol or other drugs is a chronic brain disorder with potential for recurrence, and as with many other chronic conditions, people with substance use disorders can be effectively treated and can enter recovery. The interests of society are best served by reducing the stigma of substance use disorder and providing persons who are dependent upon alcohol or other drugs with a comprehensive range of rehabilitative and social services that span intensity levels and are not restricted to a particular point in time. Further, it is declared that treatment under these services shall be voluntary when possible: treatment shall not be denied on the basis of prior treatment; treatment shall be based on an individual treatment plan for each person undergoing treatment; treatment shall include a continuum of services available for a person leaving a program of treatment; treatment shall include all family members at the earliest possible phase of the treatment process.

A recovery community organization mobilizes resources within and outside of the recovery community to increase the prevalence and quality of long-term recovery from alcohol and other drug addiction. Recovery community organizations provide peer-based recovery support activities such as training of recovery peers. Recovery community organizations provide mentorship and ongoing support to individuals dealing with a substance use disorder and connect them with the resources that can support each person's recovery. A recovery community organization also promotes a recovery-focused orientation in community education and outreach programming, and organize recovery-focused policy advocacy activities to foster healthy communities and reduce the stigma of substance use disorder.

The vendor is prohibited from using the client's public benefits to offset the cost of services paid under this section. The vendor shall not require the client to use public benefits for room or board costs. This includes but is not limited to cash assistance benefits under chapters 119B, 256D, and 256J, or SNAP benefits. Retention of SNAP benefits is a right of a client receiving services through the consolidated chemical dependency treatment fund or through state contracted managed care entities. Payment from the chemical dependency fund shall be made for necessary room and board costs provided by vendors certified according to section 254B.05, or in a community hospital licensed by the commissioner of health according to sections 144.50 to 144.56 to a client who is:

A county may elect to use the same invoice procedures and obtain the same state payment services as are used for chemical dependency services for which state payments are made under this section if county payments are made to the state in advance of state payments to vendors. When a county uses the state system for payment, the commissioner shall make monthly billings to the county using the most recent available information to determine the anticipated services for which payments will be made in the coming month. Adjustment of any overestimate or underestimate based on actual expenditures shall be made by the state agency by adjusting the estimate for any succeeding month.
- (c) The commissioner shall coordinate chemical dependency services and determine whether there is a need for any proposed expansion of chemical dependency treatment services. The commissioner shall deny vendor certification to any provider that has not received prior approval from the commissioner for the creation of new programs or the expansion of existing program capacity. The commissioner shall consider the provider's capacity to obtain clients from outside the state based on plans, agreements, and previous utilization history, when determining the need for new treatment services.

A license holder who has had a license suspended, revoked, or has been ordered to pay a fine must be given notice of the action by certified mail or personal service. If mailed, the notice must be mailed to the address shown on the application or the last known address of the license holder. The notice must state the reasons the license was suspended, revoked, or a fine was ordered.

- (b) If the license was suspended or revoked, the notice must inform the license holder of the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The license holder may appeal an order suspending or revoking a license. The appeal of an order suspending or revoking a license must be made in writing by certified mail or personal service. If mailed, the appeal must be postmarked and sent to the commissioner within ten calendar days after the license holder receives notice that the license has been suspended or revoked. If a request is made by personal service, it must be received by the commissioner within ten calendar days after the license holder received the order. Except as provided in subdivision 2a, paragraph (c), if a license holder submits a timely appeal of an order suspending or revoking a license, the license holder may continue to operate the program as provided in section 245A.04, subdivision 7, paragraphs (g) and (h), until the commissioner issues a final order on the suspension or revocation.
- (c)(1) If the license holder was ordered to pay a fine, the notice must inform the license holder of the responsibility for payment of fines and the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. If mailed, the appeal must be postmarked and sent to the commissioner within ten calendar days after the license holder receives notice that the fine has been ordered. If a request is made by personal service, it must be received by the commissioner within ten calendar days after the license holder received the order.
- (2) The license holder shall pay the fines assessed on or before the payment date specified. If the license holder fails to fully comply with the order, the commissioner may issue a second fine or suspend the license until the license holder complies. A timely appeal shall stay payment of the fine until the commissioner issues a final order.

(3) A license holder shall promptly notify the commissioner of human services, in writing, when a violation specified in the order to forfeit a fine is corrected. If upon reinspection the commissioner determines that a violation has not been corrected as indicated by the order to forfeit a fine, the commissioner may issue a second fine. - Subdivision 1. **Notification required.** (a) Except as provided in paragraphs (d) and (e), 361.5 a person may not construct a well until a notification of the proposed well on a form 361.6 prescribed by the commissioner is filed with the commissioner with the filing fee in section 361.7 103I.208, and, when applicable, the person has met the requirements of paragraph (f). If 361.8 after filing the well notification an attempt to construct a well is unsuccessful, a new 361.9 notification is not required unless the information relating to the successful well has 361.11 substantially changed.
- (b) The property owner, the property owner's agent, or the well licensed contractor where 361.12 a well is to be located must file the well notification with the commissioner. 361.13
- (c) The well notification under this subdivision preempts local permits and notifications, and counties or home rule charter or statutory cities may not require a permit or notification 361.15 for wells unless the commissioner has delegated the permitting or notification authority 361.16 under section 103I.111. 361.17

A person who sells drive point wells at retail must provide buyers with notification forms and informational materials including requirements regarding wells, their location, construction, and disclosure. The commissioner must provide the notification forms and informational materials to the sellers.
 - (e) A person may not construct a monitoring well until a permit is issued by the commissioner for the construction. If after obtaining a permit an attempt to construct a well is unsuccessful, a new permit is not required as long as the initial permit is modified to indicate the location of the successful well.
- (f) When the operation of a well will require an appropriation permit from the 361.31 commissioner of natural resources, a person may not begin construction of the well until 361 32 the person submits the following information to the commissioner of natural resources: 361.33

362.1	(1) the location of the well;
362.2	(2) the formation or aquifer that will serve as the water source;

362.8	The person may begin construction after receiving preliminary approval from the
362.9	commissioner of natural resources.
362.10	Subd. 2. Emergency permit and notification exemptions. The commissioner may
362.11	adopt rules that modify the procedures for filing a well <u>or boring</u> notification or well <u>or</u>
362.12	boring permit if conditions occur that:
362.13	(1) endanger the public health and welfare or cause a need to protect the groundwater;
362.14	or
362.15	(2) require the monitoring well contractor, limited well/boring contractor, or well
362.16	contractor to begin constructing a well before obtaining a permit or notification.
362.17	Subd. 3. Maintenance permit. (a) Except as provided under paragraph (b), a well that
362.18	is not in use must be sealed or have a maintenance permit.
362.19	(b) If a monitoring well or a dewatering well is not sealed by 14 months after completion
362.20	of construction, the owner of the property on which the well is located must obtain and

Sec. 3. Minnesota Statutes 2016, section 256B.0625, subdivision 13e, is amended to read:

Subd. 13e. Payment rates. (a) The basis for determining the amount of payment shall be the lower of the actual acquisition costs of the drugs or the maximum allowable cost by the commissioner plus the fixed dispensing fee; or the usual and customary price charged to the public. The amount of payment basis must be reduced to reflect all discount amounts applied to the charge by any provider/insurer agreement or contract for submitted charges to medical assistance programs. The net submitted charge may not be greater than the patient liability for the service. The pharmacy dispensing fee shall be \$3.65 for legend prescription drugs, except that the dispensing fee for intravenous solutions which must be compounded by the pharmacist shall be \$8 per bag, \$14 per bag for cancer chemotherapy products, and \$30 per bag for total parenteral nutritional products dispensed in one liter quantities, or \$44 per bag for total parenteral nutritional products dispensed in quantities greater than one liter. The pharmacy dispensing fee for over-the-counter drugs shall be \$3.65, except that the fee shall be \$1.31 for retrospectively billing pharmacies when billing for quantities less than the number of units contained in the manufacturer's original package. Actual acquisition cost includes quantity and other special discounts except time and cash discounts. The actual acquisition cost of a drug shall be estimated by the commissioner at wholesale acquisition cost plus four percent for independently owned pharmacies located in a designated rural area within Minnesota, and at wholesale acquisition cost plus two percent for all other pharmacies. A pharmacy is "independently owned" if it is one of four or fewer pharmacies under the same ownership nationally. A "designated rural area" means an area defined as a small rural area or isolated rural area according to the four-category classification of the Rural Urban Commuting Area system developed for the United States Health Resources

and Services Administration. Effective January 1, 2014, the actual acquisition cost of a drug acquired through the federal 340B Drug Pricing Program shall be estimated by the commissioner at wholesale acquisition cost minus 40 percent. Wholesale acquisition cost is defined as the manufacturer's list price for a drug or biological to wholesalers or direct purchasers in the United States, not including prompt pay or other discounts, rebates, or reductions in price, for the most recent month for which information is available, as reported in wholesale price guides or other publications of drug or biological pricing data. The maximum allowable cost of a multisource drug may be set by the commissioner and it shall be comparable to, but no higher than, the maximum amount paid by other third-party payors in this state who have maximum allowable cost programs. Establishment of the amount of payment for drugs shall not be subject to the requirements of the Administrative Procedure Act.

- (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using an automated drug distribution system meeting the requirements of section 151.58, or a packaging system meeting the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ retrospective billing for prescription drugs dispensed to long-term care facility residents. A retrospectively billing pharmacy must submit a claim only for the quantity of medication used by the enrolled recipient during the defined billing period. A retrospectively billing pharmacy must use a billing period not less than one calendar month or 30 days.
- (c) An additional dispensing fee of \$.30 may be added to the dispensing fee paid to pharmacists for legend drug prescriptions dispensed to residents of long-term care facilities when a unit dose blister card system, approved by the department, is used. Under this type of dispensing system, the pharmacist must dispense a 30-day supply of drug. The National Drug Code (NDC) from the drug container used to fill the blister card must be identified on the claim to the department. The unit dose blister card containing the drug must meet the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse. A pharmacy provider using packaging that meets the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that is less than a 30-day supply.
- (d) Whenever a maximum allowable cost has been set for a multisource drug, payment shall be the lower of the usual and customary price charged to the public or the maximum allowable cost established by the commissioner unless prior authorization for the brand

name product has been granted according to the criteria established by the Drug Formulary Committee as required by subdivision 13f, paragraph (a), and the prescriber has indicated "dispense as written" on the prescription in a manner consistent with section 151.21, subdivision 2.

- (e) The basis for determining the amount of payment for drugs administered in an outpatient setting shall be the lower of the usual and customary cost submitted by the provider, 106 percent of the average sales price as determined by the United States Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. If average sales price is unavailable, the amount of payment must be lower of the usual and customary cost submitted by the provider, the wholesale acquisition cost, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. Effective January 1, 2014, the commissioner shall discount the payment rate for drugs obtained through the federal 340B Drug Pricing Program by 20 percent. With the exception of paragraph (f), the payment for drugs administered in an outpatient setting shall be made to the administering facility or practitioner. A retail or specialty pharmacy dispensing a drug for administration in an outpatient setting is not eligible for direct reimbursement.
- (f) Payment for nonscheduled injectable drugs used to treat substance abuse administered by a practitioner in an outpatient setting shall be made directly to the dispensing pharmacy. The dispensing pharmacy shall submit the claim if the pharmacy dispenses the drug pursuant to a prescription issued by the practitioner and delivers the filled prescription to the practitioner for subsequent administration. Payment shall be made according to this section. A pharmacy shall not dispense a practitioner-administered injectable drug described in this paragraph directly to an enrollee. The commissioner may conduct postpayment review to evaluate the effect of this paragraph on patient access, and shall report any findings to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human service policy and finance by January 1, 2019.
- (g) The commissioner may negotiate lower reimbursement rates for specialty pharmacy products than the rates specified in paragraph (a). The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are defined as those used by a small number of recipients or recipients with complex and chronic diseases that require expensive and challenging drug regimens. Examples of these conditions include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C, growth hormone deficiency,

- Sec. 4. Minnesota Statutes 2016, section 144.0724, subdivision 9, is amended to read:
- Subd. 9. **Audit authority.** (a) The commissioner shall audit the accuracy of resident assessments performed under section 256B.438 256R.17 through any of the following: desk audits; on-site review of residents and their records; and interviews with staff, residents, or residents' families. The commissioner shall reclassify a resident if the commissioner determines that the resident was incorrectly classified.
- (b) The commissioner is authorized to conduct on-site audits on an unannounced basis.
- (c) A facility must grant the commissioner access to examine the medical records relating to the resident assessments selected for audit under this subdivision. The commissioner may also observe and speak to facility staff and residents.
- (d) The commissioner shall consider documentation under the time frames for coding items on the minimum data set as set out in the Long-Term Care Facility Resident Assessment Instrument User's Manual published by the Centers for Medicare and Medicaid Services.
 - (e) The commissioner shall develop an audit selection procedure that includes the following factors:
 - (1) Each facility shall be audited annually. If a facility has two successive audits in which the percentage of change is five percent or less and the facility has not been the subject of a special audit in the past 36 months, the facility may be audited biannually. A stratified sample of 15 percent, with a minimum of ten assessments, of the most current assessments shall be selected for audit. If more than 20 percent of the RUG-IV classifications are changed as a result of the audit, the audit shall be expanded to a second 15 percent sample, with a minimum of ten assessments. If the total change between the first and second samples is 35 percent or greater, the commissioner may expand the audit to all of the remaining assessments.
 - (2) If a facility qualifies for an expanded audit, the commissioner may audit the facility again within six months. If a facility has two expanded audits within a 24-month period, that facility will be audited at least every six months for the next 18 months.
 - (3) The commissioner may conduct special audits if the commissioner determines that circumstances exist that could alter or affect the validity of case mix classifications of residents. These circumstances include, but are not limited to, the following:

- 490.3 (iv) frequent adjustments of case mix classifications as the result of reconsiderations or 490.4 audits;
- 490.5 (v) a criminal indictment alleging provider fraud;
- (vi) other similar factors that relate to a facility's ability to conduct accurate assessments;
- 490.7 (vii) an atypical pattern of scoring minimum data set items;
- 490.8 (viii) nonsubmission of assessments;

- 490.9 (ix) late submission of assessments; or
- 490.10 (x) a previous history of audit changes of 35 percent or greater.
- (f) Within 15 working days of completing the audit process, the commissioner shall 490.11 make available electronically the results of the audit to the facility. If the results of the audit 490.12 reflect a change in the resident's case mix classification, a case mix classification notice 490.13 will be made available electronically to the facility, using the procedure in subdivision 7, 490.14 paragraph (a). The notice must contain the resident's classification and a statement informing 490.15 the resident, the resident's authorized representative, and the facility of their right to review 490.16 the commissioner's documents supporting the classification and to request a reconsideration 490.17 of the classification. - (2) a high level of out-migration for nursing facility services associated with a described area from the county or counties of residence to other Minnesota counties, as determined by the commissioner of human services, using as a standard an amount greater than the out-migration of the county ranked at the 50th percentile;

 - (c) On August 15 of odd-numbered years, the commissioner, in cooperation with the commissioner of human services, may publish in the State Register a request for information in which interested parties, using the data provided under section 144A.351, along with any other relevant data, demonstrate that a specified area is a hardship area with regard to access to nursing facility services. For a response to be considered, the commissioner must receive it by November 15. The commissioner shall make responses to the request for information available to the public and shall allow 30 days for comment. The commissioner shall review responses and comments and determine if any areas of the state are to be declared hardship areas.
- (d) For each designated hardship area determined in paragraph (c), the commissioner 491.25 shall publish a request for proposals in accordance with section 144A.073 and Minnesota 491.26 Rules, parts 4655.1070 to 4655.1098. The request for proposals must be published in the 491.27 State Register by March 15 following receipt of responses to the request for information. 491.28 The request for proposals must specify the number of new beds which may be added in the 491.29 designated hardship area, which must not exceed the number which, if added to the existing 491.30 number of beds in the area, including beds in layaway status, would have prevented it from 491.31 being determined to be a hardship area under paragraph (b), clause (1). Beginning July 1, 491.32 2011, the number of new beds approved must not exceed 200 beds statewide per biennium. 491.33 After June 30, 2019, the number of new beds that may be approved in a biennium must not 491.34

exceed 300 statewide. For a proposal to be considered, the commissioner must receive it within six months of the publication of the request for proposals. The commissioner shall review responses to the request for proposals and shall approve or disapprove each proposal by the following July 15, in accordance with section 144A.073 and Minnesota Rules, parts 4655.1070 to 4655.1098. The commissioner shall base approvals or disapprovals on a comparison and ranking of proposals using only the criteria in subdivision 4a. Approval of a proposal expires after 18 months unless the facility has added the new beds using existing space, subject to approval by the commissioner, or has commenced construction as defined in section 144A.071, subdivision 1a, paragraph (d). If, after the approved beds have been added, fewer than 50 percent of the beds in a facility are newly licensed, the operating payment rates previously in effect shall remain. If, after the approved beds have been added, 50 percent or more of the beds in a facility are newly licensed, operating payment rates shall be determined according to Minnesota Rules, part 9549.0057, using the limits under section 256B.441 sections 256R.23, subdivision 5, and 256R.24, subdivision 3. External fixed costs payment rates must be determined according to section 256B.441, subdivision 53 256R.25. Property payment rates for facilities with beds added under this subdivision must be determined in the same manner as rate determinations resulting from projects approved and completed under section 144A.073.

The 16 beds on layaway status may be relicensed as nursing home beds and recertified at any time within five years of the effective date of the layaway upon relocation of some or all of the beds to a licensed and certified facility located in Watertown, provided that the total project construction costs related to the relocation of beds from layaway status for the Watertown facility may not exceed the dollar threshold provided in subdivision 2 unless the construction project has been approved through the moratorium exception process under section 144A.073.

- (1) to license and certify an 80-bed city-owned facility in Nicollet County to be constructed on the site of a new city-owned hospital to replace an existing 85-bed facility attached to a hospital that is also being replaced. This project shall not proceed unless it is approved and financed under the provisions of section 144A.073;
 - (3) to license and certify a new 60-bed facility in Austin, provided that: (i) 45 of the new beds are transferred from a 45-bed facility in Austin under common ownership that is closed and 15 of the new beds are transferred from a 182-bed facility in Albert Lea under common ownership; (ii) the commissioner of human services is authorized by the 2004 legislature to negotiate budget-neutral planned nursing facility closures; and (iii) money is available from planned closures of facilities under common ownership to make implementation of this clause budget-neutral to the state. The bed capacity of the Albert Lea facility shall be reduced to 167 beds following the transfer. Of the 60 beds at the new facility, 20 beds shall be used for a special care unit for persons with Alzheimer's disease or related dementias;

- (i) compute the estimated decrease in medical assistance residents served by both nursing facilities by multiplying the difference between the occupied beds of the two nursing facilities for the reporting year ending September 30, 2009, and the projected occupancy of the facility at 95 percent occupancy by the historical percentage of medical assistance resident days;
- (ii) compute the annual savings to the medical assistance program from the delicensure by multiplying the anticipated decrease in the medical assistance residents, determined in item (i), by the hospital-owned nursing facility weighted average payment rate multiplied by 365;
- (iii) compute the anticipated annual costs for community-based services by multiplying the anticipated decrease in medical assistance residents served by the facilities, determined in item (i), by the average monthly elderly waiver service costs for individuals in Goodhue County multiplied by 12;
- 503.15 (iv) subtract the amount in item (iii) from the amount in item (ii);
- 503.16 (v) multiply the amount in item (iv) by 57.2 percent; and
- (vi) divide the difference of the amount in item (iv) and the amount in item (v) by an amount equal to the relocated nursing facility's occupancy factor under section 256B.431, subdivision 3f, paragraph (c), multiplied by the historical percentage of medical assistance resident days.
- 503.21 (b) Projects approved under this subdivision shall be treated in a manner equivalent to projects approved under subdivision 4a.
- Sec. 8. Minnesota Statutes 2016, section 144A.071, subdivision 4d, is amended to read:
- 503.24 Subd. 4d. Consolidation of nursing facilities. (a) The commissioner of health, in consultation with the commissioner of human services, may approve a request for 503.25 consolidation of nursing facilities which includes the closure of one or more facilities and 503.26 the upgrading of the physical plant of the remaining nursing facility or facilities, the costs 503.27 of which exceed the threshold project limit under subdivision 2, clause (a). The 503.28 commissioners shall consider the criteria in this section, section 144A.073, and section 503.29 256B.437 256R.40, in approving or rejecting a consolidation proposal. In the event the 503.30 commissioners approve the request, the commissioner of human services shall calculate an 503.31 external fixed costs rate adjustment according to clauses (1) to (3): 503.32

- (2) the construction project permitted in this clause shall not be eligible for a threshold project rate adjustment under section 256B.434, subdivision 4f, or a moratorium exception adjustment under section 144A.073; and
- (3) the payment rate for external fixed costs for a remaining facility or facilities shall be increased by an amount equal to 65 percent of the projected net cost savings to the state calculated in paragraph (b), divided by the state's medical assistance percentage of medical assistance dollars, and then divided by estimated medical assistance resident days, as determined in paragraph (c), of the remaining nursing facility or facilities in the request in this paragraph. The rate adjustment is effective on the later of the first day of the month following completion of the construction upgrades in the consolidation plan or the first day of the month following the complete closure of a facility designated for closure in the consolidation plan. If more than one facility is receiving upgrades in the consolidation plan, each facility's date of construction completion must be evaluated separately.
- 504.16 (b) For purposes of calculating the net cost savings to the state, the commissioner shall consider clauses (1) to (7):
- (1) the annual savings from estimated medical assistance payments from the net number of beds closed taking into consideration only beds that are in active service on the date of the request and that have been in active service for at least three years;
- 504.21 (2) the estimated annual cost of increased case load of individuals receiving services under the elderly waiver;
- 504.23 (3) the estimated annual cost of elderly waiver recipients receiving support under group residential housing;

- 504.27 (5) the annual loss of license surcharge payments on closed beds;
- 504.28 (6) the savings from not paying planned closure rate adjustments that the facilities would otherwise be eligible for under section 256B.437 256R.40; and
- 504.30 (7) the savings from not paying external fixed costs payment rate adjustments from submission of renovation costs that would otherwise be eligible as threshold projects under section 256B.434, subdivision 4f.

(c) For purposes of the calculation in paragraph (a), clause (3), the estimated medical assistance resident days of the remaining facility or facilities shall be computed assuming 95 percent occupancy multiplied by the historical percentage of medical assistance resident days of the remaining facility or facilities, as reported on the facility's or facilities' most recent nursing facility statistical and cost report filed before the plan of closure is submitted, multiplied by 365.

- (d) For purposes of net cost of savings to the state in paragraph (b), the average occupancy percentages will be those reported on the facility's or facilities' most recent nursing facility statistical and cost report filed before the plan of closure is submitted, and the average payment rates shall be calculated based on the approved payment rates in effect at the time the consolidation request is submitted.
- (e) To qualify for the external fixed costs payment rate adjustment under this subdivision, the closing facilities shall:
- 505.14 (1) submit an application for closure according to section 256B.437, subdivision 3
 505.15 256R.40, subdivision 2; and
- 505.16 (2) follow the resident relocation provisions of section 144A.161.

Sec. 11. Minnesota Statutes 2016, section 144A.15, subdivision 2, is amended to read:

Subd. 2. **Appointment of receiver, rental.** If, after hearing, the court finds that receivership is necessary as a means of protecting the health, safety, or welfare of a resident of the facility, the court shall appoint the commissioner of health as a receiver to take charge of the facility. The commissioner may enter into an agreement for a managing agent to work on the commissioner's behalf in operating the facility during the receivership. The court shall determine a fair monthly rental for the facility, taking into account all relevant factors including the condition of the facility. This rental fee shall be paid by the receiver to the appropriate controlling person for each month that the receivership remains in effect but shall be reduced by the amount that the costs of the receivership provided under section 256B.495 256R.52 are in excess of the facility rate. The controlling person may agree to waive the fair monthly rent by affidavit to the court. Notwithstanding any other law to the contrary, no payment made to a controlling person by any state agency during a period of receivership shall include any allowance for profit or be based on any formula which includes an allowance for profit.

Notwithstanding state contracting requirements in chapter 16C, the commissioner shall establish and maintain a list of qualified licensed nursing home administrators, or other qualified persons or organizations with experience in delivering skilled health care services and the operation of long-term care facilities for those interested in being a managing agent

on the commissioner's behalf during a state receivership of a facility. This list will be a resource for choosing a managing agent and the commissioner may update the list at any time. A managing agent cannot be someone who: (1) is the owner, licensee, or administrator of the facility; (2) has a financial interest in the facility at the time of the receivership or is a related party to the owner, licensee, or administrator; or (3) has owned or operated any nursing facility or boarding care home that has been ordered into receivership.

Rates will be determined under Minnesota Rules, parts 9549.0010 to 9549.0080. Rate calculations will be subject to limits as prescribed in rule and law. Other than the adjustments in sections 256B.431, subdivisions 30 and 32; 256B.437, subdivision 3, paragraph (b), Minnesota Rules, part 9549.0057, and any other applicable legislation enacted prior to the finalization of rates, facilities assuming full participation in medical assistance under this paragraph are not eligible for any rate adjustments until the July 1 following their settle-up period.

The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized.

- (c) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale. Customized living services must not include rent or raw food costs.
- (d) With the exception of individuals described in subdivision 3a, paragraph (b), the 510.13 individualized monthly authorized payment for the customized living service plan shall not exceed 50 percent of the greater of either the statewide or any of the geographic groups' 510.15 weighted average monthly nursing facility rate of the case mix resident class to which the 510.16 elderly waiver eligible client would be assigned under Minnesota Rules, parts 9549.0051 510.17 to 9549.0059, less the maintenance needs allowance as described in subdivision 1d, paragraph 510.18 (a). This rate limit must be applied to all new participants enrolled in the program on or after July 1, 2011, who meet the criteria described in subdivision 3a, paragraph (b). This monthly limit also applies to all other participants who meet the criteria described in subdivision 3a, paragraph (b), at reassessment.
 - (f) Customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is

registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

- Subd. 30. **Bed layaway and delicensure.** (a) For rate years beginning on or after July 511.23 1, 2000, a nursing facility reimbursed under this section which has placed beds on layaway 511.24 shall, for purposes of application of the downsizing incentive in subdivision 3a, paragraph 511.25 (c), and calculation of the rental per diem, have those beds given the same effect as if the 511.26 beds had been delicensed so long as the beds remain on layaway. At the time of a layaway, 511.27 a facility may change its single bed election for use in calculating capacity days under 511.28 Minnesota Rules, part 9549.0060, subpart 11. The property payment rate increase shall be 511.29 effective the first day of the month following the month in which the layaway of the beds 511.30 becomes effective under section 144A.071, subdivision 4b. 511.31

- 512.7 (3) establish capacity days based on the number of beds immediately prior to the layaway and the number of beds after the layaway. 512.8
- The commissioner shall increase the facility's property payment rate by the incremental increase in the rental per diem resulting from the recalculation of the facility's rental per 512.10 diem applying only the changes resulting from the layaway of beds and clauses (1), (2), and (3). If a facility reimbursed under section 256B.434 or chapter 256R completes a moratorium 512.12 exception project after its base year, the base year property rate shall be the moratorium 512.13 project property rate. The base year rate shall be inflated by the factors in section 256B.434, 512.14 subdivision 4, paragraph (c). The property payment rate increase shall be effective the first 512.15 day of the month following the month in which the layaway of the beds becomes effective. 512.16
- (c) If a nursing facility removes a bed from layaway status in accordance with section 512.17 144A.071, subdivision 4b, the commissioner shall establish capacity days based on the 512.18 number of licensed and certified beds in the facility not on layaway and shall reduce the 512.19 nursing facility's property payment rate in accordance with paragraph (b). 512.20
