49.4	\$4,000,000 the first year is from the trust fund
49.5	to the commissioner of natural resources for
49.6	an agreement with the National Loon Center
49.7	Foundation, in partnership with a fiscal agent
49.8	to be approved by the Legislative-Citizen
49.9	Commission on Minnesota Resources, to
49.10	construct an approximately 15,000-square-foot
49.11	National Loon Center in Cross Lake dedicated
49.12	to loon survival, loon habitat protection and
49.13	research, and recreation. Of this amount, up
49.14	to \$1,449,000 is for planning, design, and
49.15	construction of approximately six outdoor
49.16	demonstration learning kiosks, interpretive
49.17	trails, boardwalks and boat docks, a fishing
49.18	dock, and native landscaping along
49.19	approximately 3,100 feet of shoreline. Any
49.20	remaining funds are for planning, engineering,
49.21	and constructing the building and indoor
49.22	exhibits. The building may only be constructed
49.23	on land restricted for use as a National Loon
49.24	Center for at least 25 years following
49.25	construction completion. Additionally, the
49.26	trust fund procedures for title, environmental,
49.27	archeological, and survey due diligence must
49.28	be used for the acquisition of land on which
49.29	the building will be constructed. A land lease
49.30	commitment of at least 25 years and fiscal
49.31	sponsorship must be secured before any trust
49.32	fund money is spent. This project requires a
49.33	match of at least \$6,000,000. At least
49.34	\$2,000,000 of this match must come from
49.35	nonstate sources. If naming rights will be

conveyed, the National Loon Center
Foundation must include a plan for this in the
work plan. All matching funds must be legally
committed before any trust fund money may
be spent on planning activities for or
construction of the building and indoor
exhibits. Net income generated from
admissions, naming rights, and memberships
to the National Loon Center as a result of trust
fund contributions may be reinvested in the
center's long-term loon conservation efforts
as described in the work plan approved by the
Legislative-Citizen Commission on Minnesota
Resources according to Minnesota Statutes,
section 116P.10. Notwithstanding any other
effective date stated in law, Minnesota
Statutes, sections 116P.15, subdivision 3;
116P.16; and 116P.21, subdivision 1, apply
to this appropriation.
(f) Accessible Fishing Piers
\$320,000 the first year is from the trust fund
to the commissioner of natural resources to
provide accessible fishing piers in locations
that have a high potential to serve new angling
communities, underserved populations, and
anglers with physical disabilities. This
appropriation is available until June 30, 2021,
by which time the project must be completed
and final products delivered.
(g) Mesabi Trail Extensions
\$3,000,000 the first year is from the trust fund
to the commissioner of natural resources for
an agreement with the St. Louis and Lake
Counties Regional Railroad Authority for
environmental assessment, permitting,
