2810.0200 COMPUTATION OF TIME.

Computation of time:

A. Where the performance or doing of any act, duty, matter, payment, or thing is ordered or directed, and the period of time or duration for the performance or doing thereof is prescribed and fixed by law, rule, or order, such time, except as otherwise provided in item B, shall be computed so as to exclude the first and include the last day of any such prescribed or fixed period or duration of time. When the last day of such period falls on Sunday, or on any day made a legal holiday by the laws of this state or of the United States, such day shall be omitted from the computation.

B. When the lapse of a number of months before or after a certain day is required by the law, rule, or order, such number of months shall be computed by counting the months from such day, excluding the calendar month in which such day occurs, and including the day of the month in the last month so counted having the same numerical order as the day of the month from which the computation is made, unless there be not so many days in the last month so counted, in which case the period computed shall expire with the last day of the month so counted.
