5221.4060 CHIROPRACTIC PROCEDURE CODES.

Subpart 1. Key to abbreviations and terms. For descriptions of columns, abbreviations, and terms, see part 5221.4020, subpart 2a.

Subp. 2a. [Repealed, 25 SR 1142]

Subp. 2b. [Repealed, 30 SR 291]

Subp. 2c. [Repealed, 35 SR 227]

Subp. 2d. List of chiropractic procedure codes. The chiropractic conversion factor in part 5221.4020, subpart 1b, item B, applies to the health care providers listed in part 5221.0700, subpart 3, item C, subitem (5), when they provide, within their scope of practice, services, articles, or supplies identified by any of the following procedure codes in the Medicare Physician Fee Schedule tables described in part 5221.4005:

A. radiologic examination procedure codes from 72020 to 73660;

B. pathology and laboratory procedure codes 81000 and 81002;

C. physical medicine and rehabilitation procedure codes from 97010 to 97150 and 97530 to 97799;

D. chiropractic manipulative treatment procedure codes 98940, 98941, 98942, and 98943;

E. evaluation and management service procedure codes 99202, 99203, 99211, 99212, and 99213;

F. procedure code 99199 (special service); and

G. acupuncture codes 97810 to 97814.

Subp. 3. Select chiropractic procedure code descriptions, instructions, and examples. The following instructions and examples are in addition to CPT code descriptions found in the CPT manual. Additional instructions include both general instructions for a group of codes as well as specific instructions for an individual specific code.

A. Supervised modalities.

(1) Additional general instructions for supervised modality codes 97010 to 97028, and G0283. All supervised modalities refer to one or more areas. For example, if diathermy is applied to the cervical and low back on the same day, the charge would be one unit. If the diathermy and electrical stimulation are applied to the low back, the charge would be one unit of diathermy and one unit of electrical stimulation.

(2) Additional specific instructions for supervised modalities.

CPT

Code CPT Description Specific Instructions and Examples

5221.4060		MINNESOTA RULES	2
97014	Electrical stimulation	Unattended electrical stimulation includes muscle stimulation, low volt therapy, sine wave therapy, stimulation of peripheral nerve, galvanic, and unattended clinical application of TENS. RVU include the use of disposable or reusable electrodes.	es
G0283	Electrical stimulation	Unattended electrical stimulation, to one or more areas for indication other than wound care, as part of a therapy plan of care.	ns

B. Constant attendance modalities.

(1) Additional general instructions for constant attendance modality codes 97032 to 97039. The application of a constant attendance modality is to one or more areas. Where the CPT manual specifies a time frame, count only the actual treatment time, and do not count setup, preparation of the area, cleanup, or documentation time. For example, with ultrasound treatment for two areas, the shoulder and elbow, if total treatment time for both areas is less than 15 minutes, one unit of ultrasound is appropriate. All units billed require supporting documentation.

(2) Additional specific instructions for constant attendance modalities.

CPT Code	CPT Description	Specific Instructions and Examples			
97032	Electrical stimulation	Electrical stimulation (manual) includes attended clinical application of TENS. RVU includes the use of disposable or reusable electrodes.			
97033	Electric current	RVU includes the use of disposable or reusable electrodes.			
C. Additional specific instructions for therapeutic procedure codes 97110 to 97546.					
CPT Code	CPT Description	Specific Instructions and Examples			
97110	Therapeutic exercises	Examples include, but are not limited to, any type of range of motion, stretching, or strengthening exercises; e.g., stabilization and closed kinetic chain exercises, passive range of motion, active and assistive range of motion, progressive resistive exercises, prolonged stretch, isokinetic, isotonic, or isometric strengthening exercises.			
97112	Neuromuscular reeducation	Examples include, but are not limited to, facilitation techniques, NDT, Rood, Brunnstrom, PNF, and FeldenKrais.			
97113	Aquatic therapy	This code applies to any water-based exercise program such as Hubbard Tank or pools.			

3		MINNESOTA RULES	5221.4060
97140	Manual therapy	In addition to the services included in the CPT manual ind by reference in part 5221.0405, item B, this code also incl not limited to: myofascial release, joint mobilization and ma manual lymphatic drainage, manual traction, soft tissue m and manipulation, trigger point therapy, acupressure, mus stimulation - manual (nonelectrical), and transverse friction This	udes, but is anipulation, obilization cle
		code is not paid when reported with any of the osteopathic m treatment (OMT) (98925-98929) or chiropractic manipulativ (CMT) (98940-98943) codes on the same region(s)/body same day. This code may be paid when reported with CM codes only if used on a different region(s)/body part on th and must be accompanied by CPT modifier 59 which iden distinct procedural service.	ve treatment part on the T or OMT e same day
97150	Group therapeutic	Therapeutic procedure(s) for a group is used when two or m are present for the same type of service such as instruction mechanics training, or group exercises when participants same type exercises, etc. There is no time definition for th Providers may charge only one unit, regardless of size of group of areas treated, or length of time involved.	n in body are doing nis code.
97760	Orthotic training	This code applies to fabrication, instruction in use, fitting, and precautions of the orthotic.	, and care
97530	Therapeutic activities	This code is used for treatment promoting functional use of muscle group, or body part. This code is not to be used fo active assistive ROM, manual stretch, or manual therapy. for use of code: A patient has had rotator cuff repair. Whe incorporates functional motion of reaching to increase rang and strength, 97530 should be used. 97750	Physical	Physical performance test or measurement includes isokinetic streng	th			

Subp. 4. Evaluation and management services coding and reporting.

or functional capacity evaluations.

A. Evaluation and management services may be coded and paid separately from the chiropractic manipulative therapy services described by CPT codes 98940 to 98943 only if the condition requires a significant, separately identifiable evaluation and management service above and beyond the usual preservice, intraservice, and postservice work associated with the manipulative procedure, as described in subitems (1) to (3). When performing the evaluation and management service on the same day as a spinal or extraspinal manipulation, the evaluation and management code must be coded using the CPT modifier 25.

testing, comprehensive muscle strength or joint range of motion testing,

- (1) Preservice work for CPT codes 98940 to 98943 includes the following:
 - (a) documentation and chart review;
 - (b) imaging review;

performance

(c) test interpretation and care planning; and

(d) premanipulation procedures which include a brief evaluation of the current problem, including components of a review of symptoms, and a focused exam of the current problem and related areas.

(2) Intraservice work for CPT codes 98940 to 98943 includes the following:

- (a) manipulation; and
- (b) postmanipulation assessment and procedures.
- (3) Postservice work for CPT codes 98940 to 98943 includes the following:

(a) chart documentation, including documentation of appropriate subjective and objective assessments as well as the procedural components of patient visit; and

(b) if necessary, arrange for further services and coordination of patient care. This may include telephone or written communications with other health care providers, family members, employers, medical case manager for a managed care organization certified under Minnesota Statutes, section 176.1351, or insurers regarding the coordination of patient care or consultation services.

B. Circumstances in which a separate evaluation and management service is appropriate under item A include the following:

- (1) if there is a new injury;
- (2) if there is an exacerbation of a previous injury; or
- (3) if there is an unanticipated change in condition.

C. A reexamination in the following circumstances may be coded and paid as a separate evaluation and management service if the reexamination is above and beyond the usual preservice, intraservice, and postservice work associated with the manipulative procedure as described in item A, subitems (1) to (3):

(1) in preparation for a requested report other than a report of work ability;

- (2) if requested to render an opinion about a job offer;
- (3) when a job search is initiated;

(4) to review the patient's condition after a period of treatment by another health care provider; or

(5) to evaluate the patient's condition in anticipation of a change in the treatment plan.
