Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Adopted Rules

A rule becomes effective after the requirements of *Minnesota Statutes* §§ 14.05-14.28 have been met and five working days after the rule is published in the *State Register*, unless a later date is required by statutes or specified in the rule. If an adopted rule is identical to its proposed form as previously published, a notice of adoption and a citation to its previous *State Register* publication will be printed. If an adopted rule differs from its proposed form, language which has been deleted will be printed with strikeouts and new language will be underlined. The rule's previous *State Register* publication will be cited.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Minnesota Department of Labor and Industry (DLI) Adopted Permanent Rules Relating to OSHA Filing and Service

The rules proposed and published at *State Register*, Volume 38, Number 20, pages 605-607, November 12, 2013 (38 SR 605), are adopted as proposed.

Executive Orders

The governor has the authority to issue written statements or orders, called Executive Orders, as well as Emergency Executive Orders. The governor's authority is specified in the *Constitution of the State of Minnesota*, Article V, and in *Minnesota Statutes* § 4.035. Emergency Executive Orders, for protection from an imminent threat to health and safety, become effective immediately, are filed with the secretary of state, and published in the *State Register* as soon as possible after they are issued. Other Executive Orders become effective 15 days after publication in the *State Register* and filing with the secretary of state. Unless otherwise specified, an executive order expires 90 days after the date the governor who issued the order vacates office.

Minnesota Department of Health (MDH) Division of Environmental Health, Environmental Surveillance and Assessment Section REQUEST FOR COMMENTS on Possible Amendments to Rules Governing Health Risk Limits, *Minnesota Rules*, Parts 4717.7500, 4717.7850, and 4717.7860

Subject of Rules. The Minnesota Department of Health (MDH) requests comments on possible amendments to rules governing Health Risk Limits (HRLs) for water. The amendments will add new HRL values or replace outdated HRL values for water contaminants to the existing Health Risk Limits Tables (parts 4717.7500, 4717.7850, and 4717.7860) in the existing rule, plus any related changes necessary accomplish this.

Persons Affected. The possible amendments to the rules will likely affect risk managers in partner state and local agencies: the Minnesota Department of Agriculture (MDA), the Minnesota Pollution Control Agency (MPCA), and local public health agencies. Partner agencies rely on HRL values as one standard for environmental assessment and risk management to protect water. Industries that manufacture the identified chemicals and environmental groups that monitor water quality are also affected. The proposed amendments ultimately affect drinking water of all Minnesotans.

Statutory Authority. The Groundwater Protection Act of 1989 (*Minnesota Statutes*, Section 103H.201); *Laws of Minnesota 2013*, chapter 137, article 2, section 8; and *Minnesota Statutes*, Section 144.12, subd. 1 (5) authorize MDH to adopt and revise health risk limits for substances degrading water. The 2001 Health Standards Statute (*Minnesota Statutes*, Section 144.0751) specifies additional requirements for establishing safe drinking water standards.

Public Comment. MDH is seeking comment at this time on the specific water contaminants and the corresponding values that are being considered for the rule amendment. Links to the chemicals and values are posted on MDH's website at

<http://www.health.state.mn.us/divs/eh/risk/rules/water/overview.html>

MDH is also seeking comment on the cumulative regulatory results from adding the incremental impact of the proposed rule to other state and federal rules related to the same specific purpose.

Interested persons or groups may submit comments or information on these possible rules in writing or orally until MDH publishes a notice of intent to adopt amendments in the *State Register*. MDH will not publish such a notice until more than 60 days have elapsed from the date of this request for comments. In addition, MDH plans to hold at least one public meeting to receive comment and to provide additional information on possible amendments. MDH will make related announcements via its email subscription service. Further information on possible rule amendments, related public meetings, and email subscription is available at:

<http://www-dev.health.state.mn.us/divs/eh/risk/rules/water/overview.html>

Rules Drafts. MDH has not yet drafted the possible rules amendments.

NOTE: Comments received in response to this notice will not necessarily be included in the formal rulemaking record submitted to the administrative law judge if and when a proceeding to adopt rules is started.
