Minnesota Rules: Amendments and Additions

NOTICE: How to Follow State Agency Rulemaking in the State Register

The *State Register* is the official source, and only complete listing, for all state agency rulemaking in its various stages. State agencies are required to publish notice of their rulemaking action in the *State Register*. Published every Monday, the *State Register* makes it easy to follow and participate in the important rulemaking process. Approximately 80 state agencies have the authority to issue rules. Each agency is assigned specific **Minnesota Rule** chapter numbers. Every odd-numbered year the **Minnesota Rules** are published. Supplements are published to update this set of rules. Generally speaking, proposed and adopted exempt rules do not appear in this set because of their short-term nature, but are published in the *State Register*.

An agency must first solicit **Comments on Planned Rules** or **Comments on Planned Rule Amendments** from the public on the subject matter of a possible rulemaking proposal under active consideration within the agency (*Minnesota Statutes* §§ 14.101). It does this by publishing a notice in the *State Register* at least 60 days before publication of a notice to adopt or a notice of hearing, or within 60 days of the effective date of any new statutory grant of required rulemaking.

When rules are first drafted, state agencies publish them as **Proposed Rules**, along with a notice of hearing, or a notice of intent to adopt rules without a hearing in the case of noncontroversial rules. This notice asks for comment on the rules as proposed. Proposed emergency rules, and withdrawn proposed rules, are also published in the *State Register*. After proposed rules have gone through the comment period, and have been rewritten into their final form, they again appear in the *State Register* as **Adopted Rules**. These final adopted rules are not printed in their entirety, but only the changes made since their publication as Proposed Rules. To see the full rule, as adopted and in effect, a person simply needs two issues of the *State Register*, the issue the rule appeared in as proposed, and later as adopted.

The *State Register* features partial and cumulative listings of rules in this section on the following schedule: issues #1-13 inclusive; issues #14-25 inclusive (issue #26 cumulative for issues #1-26); issues #27-38 inclusive (issue #39, cumulative for issues #1-39); issues #40-52 inclusive, with final index (#1-52, or 53 in some years). An annual subject matter index for rules was separately printed usually in August, but starting with Volume 19 now appears in the final issue of each volume. For copies or subscriptions to the *State Register*, contact Minnesota's Bookstore, 660 Olive Street (one block east of I-35E and one block north of University Ave), St. Paul, MN 55155, phone: (612) 297-3000, or toll-free 1-800-657-3757. Exempt Rules

Exempt rules are excluded from the normal rulemaking procedures (*Minnesota Statutes* §§ 14.386 and 14.388). They are most often of two kinds. One kind is specifically exempted by the Legislature from rulemaking procedures, but approved for form by the Revisor of Statutes, reviewed for legality by the Office of Administrative Hearings, and then published in the *State Register*. These exempt rules are effective for two years only.

The second kind of exempt rule is one adopted where an agency for good cause finds that the rulemaking provisions of *Minnesota Statutes*, Chapter 14 are unnecessary, impracticable, or contrary to the public interest. This exemption can be used only where the rules:

- (1) address a serious and immediate threat to the public health, safety, or welfare, or
- (2) comply with a court order or a requirement in federal law in a manner that does not allow for compliance with *Minnesota Statutes* Sections 14.14-14.28, or
- (3) incorporate specific changes set forth in applicable statutes when no interpretation of law is required, or
- (4) make changes that do not alter the sense, meaning, or effect of the rules.

These exempt rules are also reviewed for form by the Revisor of Statutes, for legality by the Office of Administrative Hearings and then published in the *State Register*. In addition, the Office of Administrative Hearings must determine whether the agency has provided adequate justification for the use of this exemption. Rules adopted under clauses (1) or (2) above are effective for two years only. The Legislature may also exempt an agency from the normal rulemaking procedures and establish other procedural and substantive requirements unique to that exemption.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Expedited Emergency Rules

Provisions exist for the Commissioners of some state agencies to adopt expedited emergency rules when conditions exist that do not allow the Commissioner to comply with the requirements for emergency rules. The Commissioner must submit the rule to the attorney general for review and must publish a notice of adoption that includes a copy of the rule and the emergency conditions. Expedited emergency rules are effective upon publication in the State Register, and may be effective up to seven days before publication under certain emergency conditions.

Expedited emergency rules are effective for the period stated or up to 18 months. Specific *Minnesota Statute* citations accompanying these expedited emergency rules detail the agency's rulemaking authority.

KEY: Proposed Rules - Underlining indicates additions to existing rule language. ~~Strikeouts~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." **Adopted Rules** - Underlining indicates additions to proposed rule language. ~~Strikeout~~ indicates deletions from proposed rule language.

Minnesota Department of Natural Resources (DNR) Adopted Expedited Emergency Game and Fish Rules: Disabled Hunts and 2014 Wolf Season

NOTICE IS HEREBY GIVEN that the above entitled rules have been adopted through the process prescribed by *Minnesota Statutes*, section 84.027, subdivision 13 (b). The statutory authority for the contents of the rule is *Minnesota Statutes*, sections 97B.405, 97B.601, 97B.603, 97B.605, 97B.647, and 97B.901.

The conditions that do not allow compliance with *Minnesota Statutes*, sections 97A.0451 to 97A.0459, are that recently published material related to license purchase dates and the sale of licenses that were not purchased by successful lottery applicants was inconsistent with an earlier version of this rule. Revising the rule to match published dates provides hunters additional time and reduces the chance of confusion created by changing the dates.

Official Notices

Minnesota Department of Agriculture (MDA) Pesticide and Fertilizer Management Division Notice of Scoping Document for Neonicotinoid Insecticides Special Registration Review

NOTICE IS HEREBY GIVEN that public comments have been received and the scoping document for the special registration review of neonicotinoid insecticides has been modified.

Concern over neonicotinoid insecticide use in relation to insect pollinators led the legislature (2013 Pollinator Legislation H.F. 976) to request that the MDA report on the process and criteria to be used in a review of neonicotinoid insecticide use in Minnesota. As the lead state agency for pesticide and fertilizer environmental and regulatory functions in Minnesota (*Minnesota Statutes* chapter 18B), the MDA has developed a process and guiding criteria to conduct a variety of pesticide reviews, therefore, the Commissioner initiated a special review of neonicotinoid insecticides and insect pollinators.

The MDA, together with partners at the Minnesota Pollution Control Agency, the Minnesota Department of Natural Resources, the University of Minnesota, and the Board of Water and Soil Resources, have determined the scope-of-work (the underlying criteria) necessary to conduct a special registration review of neonicotinoid insecticides for the State of Minnesota. The scoping document has been prepared to guide the special review of neonicotinoid insecticides.

The purpose of the scoping document is to describe the process and criteria that will be used when conducting the special registration review of neonicotinoid insecticides. The revised scoping document for the special registration review of neonicotinoid insecticides is available under special registration review of neonicotinoid insecticides at:

<http://www.mda.state.mn.us/chemicals/pesticides/regs/scopingneonics.aspx>

Questions regarding the neonicotinoid special registration review scoping document may be sent to Gregg Regimbal, gregg.regimbal@state.mn.us; fax: (651) 201-6117 (attn. Minnesota Department of Transportation (MnDOT) Request for Proposals (RFP) for Solar Array Installation and Lease

In 2007, the Minnesota Legislature enacted *Minnesota Statutes* Ch. 216H, which requires a state plan to work toward the reduction of greenhouse gasses. MnDOT has authority under *Minnesota Statutes* Sec. 161.433 to lease highway right of way owned in fee where the use of the property will not impair or interfere with the use and safety of the highway. This pilot project will explore opportunities and risks, including legislative barriers that may exist, of leveraging highway right of way assets for alternative uses, specifically solar panel technologies.

MnDOT requests responses for an entity to enter into a lease agreement for the installation of a solar array on right-of-way land where such use will not impair or interfere with the use and safety of the highway. The proposed solar installations must be one (1) megawatt or greater in size. The rental for the property used must be a market-based fair rental rate as required by State statute.

The goal of this project is to lease one or more sites for the purposes of: 1) demonstrating the feasibility of using MnDOT right of way for solar power generation; and 2) developing criteria for selecting and using right of way for the purpose of installing one (1) megawatt or greater solar arrays.

Responses to this advertisement become public information under the Minnesota Government Data Practices Act. This request does not obligate MnDOT to complete the work contemplated in this notice, and MnDOT reserves the right to cancel this RFP. All expenses incurred in responding to this notice shall be borne by the responder.
