

524.2-119 ADOPTEE AND ADOPTEE'S GENETIC PARENTS.

Subdivision 1. **Parent-child relationship between adoptee and genetic parents.** Except as otherwise provided in subdivisions 2 to 5, unless otherwise decreed, a parent-child relationship does not exist between an adoptee and the adoptee's genetic parents.

Subd. 2. **Stepchild adopted by stepparent.** A parent-child relationship exists between an individual who is adopted by the spouse of either genetic parent and the genetic parent whose spouse adopted the individual. No parent-child relationship exists between an individual and the other genetic parent unless the other genetic parent was deceased at the time of the child's adoption and then only for the purpose of the right of the adoptee or a descendant of the adoptee to inherit from or through that other genetic parent.

Subd. 3. **Individual adopted by relative of genetic parent.** A parent-child relationship exists between both genetic parents and an individual who is adopted by a relative of a genetic parent, or by the spouse or surviving spouse of a relative of a genetic parent, but only for the purpose of the right of the adoptee or a descendant of the adoptee to inherit from or through either genetic parent.

Subd. 4. **Individual adopted after death of both genetic parents.** A parent-child relationship exists between both genetic parents and an individual who is adopted after the death of both genetic parents, but only for the purpose of the right of the adoptee or a descendant of the adoptee to inherit through either genetic parent.

Subd. 5. **Child of assisted reproduction who is subsequently adopted.** If, after a parent-child relationship is established between a child of assisted reproduction and a parent or parents under section 524.2-120, the child is adopted by another or others, the child's parent or parents under section 524.2-120 are treated as the child's genetic parent or parents for the purpose of this section.
