**89.012 UNIT FOREST RESOURCE PLANS.**

(a) Each geographic administrative unit of the Division of Forestry identified by the commissioner as an appropriate unit for forest resource planning shall have a unit forest resource plan which is consistent with the forest resource management policy and plan, including state reforestation and road policies. The scope and content of the plan shall be determined by the commissioner. The plan is not subject to the rulemaking provisions of chapter 14, and section 14.386 does not apply. A unit plan shall not be implemented until approved by the commissioner by written order that is published in the State Register.

(b) A unit plan shall set forth the specific goals and objectives for the management, protection, development, and production of forest resources in the administrative unit. A unit plan shall be integrated with other uses not managed under the multiple use, sustained yield principles policy when those uses have been authorized and approved according to law, including compliance with environmental review procedures. Unit plans shall be revised as necessary to remain consistent with the forest resource management plan.
