24.27 all data, other than that made public at the opening, remain private or nonpublic
24.28 until a resolicitation of proposals results in completion of the evaluation process or a

Sec. 14. Minnesota Statutes 2006, section 16A.695, subdivision 2, is amended to read:

Subd. 2. **Leases and management contracts.** (a) A public officer or agency that is authorized by law to lease or enter into a management contract with respect to state bond financed property shall comply with this subdivision. A reference to a lease or management contract in this subdivision includes any amendments, modifications, or alterations to the referenced lease or management contract and refers to the lease wherein the public officer or agency is the lessor of the state bond financed property and the other contracting party is the lessee.

(b) The lease or management contract may be entered into for the express purpose of carrying out a governmental program established or authorized by law and established by official action of the contracting public officer or agency, in accordance with orders of the commissioner intended to ensure the legality and tax-exempt status of bonds issued to finance the property, and with the approval of the commissioner. A lease or management contract, ~~including any renewals that are solely at the option of the lessee,~~ must be for a term substantially less than the useful life of the property, but may allow renewal beyond

that term upon a determination by the lessor that the lessee has demonstrated that the use continues to carry out the governmental program. If the lessor and lessee do not renew the lease or management contract and if the lessee has contributed to the land and the capital improvements on the state bond financed property, the lessor may agree to reimburse the lessee for its investment in the land and capital improvements. The reimbursement may be paid, at the option of the lessor and lessee, at the time of nonrenewal without a requirement for a prior escrow of funds or at a later date and on additional terms agreed to by the lessor and the lessee. A lease or management contract must be terminable by the contracting public officer or agency if the other contracting party defaults under the contract or if the governmental program is terminated or changed, and must provide for program oversight by the contracting public officer or agency. The expiration or termination of a lease or management agreement does not require that the state bond proceeds be repaid or that the property be sold, so long as the property continues to be operated by, or on behalf of, the public officer or agency for the intended governmental program. Money received by the public officer or agency under the lease or management contract that is not needed to pay and not authorized to be used to pay operating costs of the property, or to pay the principal, interest, redemption premiums, and other expenses when due on debt related to the property other than state bonds, must be:

(1) paid to the commissioner in the same proportion as the state bond financing is to the total public debt financing for the property, excluding debt issued by a unit of government for which it has no financial liability;

(2) deposited in the state bond fund; and

(3) used to pay or redeem or defease bonds issued to finance the property in accordance with the commissioner's order authorizing their issuance.

The money paid to the commissioner is appropriated for this purpose.

(c) With the approval of the commissioner, a lease or management contract between a city and a nonprofit corporation under section 471.191, subdivision 1, need not require the lessee to pay rentals sufficient to pay the principal, interest, redemption premiums, and other expenses when due with respect to state bonds issued to acquire and better the facilities.

EFFECTIVE DATE. This section is effective retroactively from January 1, 2006, and applies to leases, grant agreements, or management agreements entered into on or after that date.

Sec. 15. Minnesota Statutes 2006, section 16A.695, subdivision 3, is amended to read:

Subd. 3. **Sale of property.** A public officer or agency shall not sell any state bond financed property unless the public officer or agency determines by official action that the property is no longer usable or needed by the public officer or agency to carry out the governmental program for which it was acquired or constructed, the sale is made as authorized by law, the sale is made for fair market value, and the sale is approved by the commissioner. If any state bonds issued to purchase or better the state bond financed property that is sold remain outstanding on the date of sale, the net proceeds of sale must be applied as follows:

(1) if the state bond financed property was acquired and bettered solely with state bond proceeds, the net proceeds of sale must be paid to the commissioner, and deposited in the state bond fund, and used to pay or redeem or defease the outstanding state bonds in accordance with the commissioner's order authorizing their issuance, and the proceeds are appropriated for this purpose treasury; or

(2) if the state bond financed property was acquired or bettered partly with state bond proceeds and partly with other money, the net proceeds of sale must be used: first, to pay to the state the amount of state bond proceeds used to acquire or better the property; second, to pay in full any outstanding public or private debt incurred to acquire or better the property; ~~and~~ third, to pay interested public and private entities, other than any public officer or agency or any private lender already paid in full, the amount of money contributed to the acquisition or betterment of the property; and fourth, any excess over the amount needed for those purposes must be divided in proportion to the shares contributed to the acquisition or betterment of the property and paid to the interested public and private entities, other than any private lender already paid in full, and the proceeds are appropriated for this purpose. In calculating the share contributed by each entity, the amount to be attributed to the owner of the property shall be the fair market value of the property that was bettered by state bond proceeds at the time the betterment began.

When all of the net proceeds of sale have been applied as provided in this subdivision, this section no longer applies to the property.

EFFECTIVE DATE. This section is effective retroactively from January 1, 2006, and applies to leases, grant agreements, or management agreements entered into on or after that date.

Sec. 16. Minnesota Statutes 2006, section 16A.695, is amended by adding a subdivision to read:

Subd. 6. Match requirements. Recipients of grants from money appropriated from the bond proceeds fund may be required to demonstrate a commitment of money

29.1 from nonstate sources. This matching money may be pledged payments that have been
29.2 deposited into a segregated account or multiyear pledges that are converted into cash or
29.3 cash equivalent through a loan or irrevocable letter of credit from a financial institution.
29.4 The loan or irrevocable letter of credit may be secured by a lien on the state bond financed
29.5 property.

29.6 **EFFECTIVE DATE.** This section is effective retroactively from January 1, 2006,
29.7 and applies to leases, grant agreements, or management agreements entered into on or
29.8 after that date.

29.10 subdivision to read:

29.11 Subd. 7. **Ground lease for state bond financed property.** A public officer or
29.12 agency, as lessee, may lease real property and improvements that are to be acquired or
29.13 improved with state bond proceeds. The lease must be for a term equal to or longer than
29.14 125 percent of the useful life of the property. The expiration of the lease upon the end of
29.15 its term does not require that the state be repaid or that the property be sold and upon the
29.16 expiration the real property and improvements are no longer state bond financed property.

29.17 **EFFECTIVE DATE.** This section is effective retroactively from January 1, 2006,
29.18 and applies to leases, grant agreements, or management agreements entered into on or
29.19 after that date.

29.20 Sec. 18. Minnesota Statutes 2006, section 16A.695, is amended by adding a
29.21 subdivision to read:

29.22 Subd. 8. **General applicability.** (a) This section establishes requirements for
29.23 the receipt and use of general obligation grants and the ownership and operation of
29.24 state bond-financed property. General obligation grants may only be issued and used to
29.25 finance the acquisition and betterment of public lands and buildings and other public
29.26 improvements of a capital nature that are used to operate a governmental program, and
29.27 for predesign and design activities for specifically identified projects that involve the
29.28 operation of a governmental program or activity. A general obligation grant may not be
29.29 used for general operating expenses, staffing, or general master planning. A public officer
29.30 or agency that is the recipient of a general obligation grant must comply with this section
29.31 in its use of the general obligation grant and operation, management, lease, and sale
29.32 of state bond-financed property. A public officer or agency that uses the proceeds of a
29.33 general obligation grant for any unauthorized purpose or in violation of this section must

30.1 immediately repay the outstanding balance of the grant to the commissioner, and a failure
30.2 to comply authorizes the commissioner to recover the outstanding balance as a setoff
30.3 against any state aid provided to the public officer or agency.

30.4 (b) This section does not create any new authority regarding the ownership,
30.5 construction, rehabilitation, use, operation, lease management, or sale of state
30.6 bond-financed property, or the operation of the governmental program that will be
30.7 operated on the property. Any authority that is needed to enter into a management contract
30.8 or lease of property, to sell property, or to operate a governmental program or carry out
30.9 any activity contained in the law that appropriates money for a general obligation grant
30.10 must be provided by as contained in some other law.

30.11 **EFFECTIVE DATE.** This section is effective on and after July 1, 2007.

30.12 Sec. 19. Minnesota Statutes 2006, section 16A.695, is amended by adding a
30.13 subdivision to read:

30.14 Subd. 9. **Grant agreement.** All general obligation grants must be evidenced by
30.15 a grant agreement that specifies:

30.16 (1) how the general obligation grant will be used;

30.17 (2) the governmental program that will be operated on the state bond-financed
30.18 property; and

30.19 (3) that the state bond-financed property must be operated in compliance with this
30.20 section, all state and federal laws, and in a manner that will not cause the interest on the
30.21 state general obligation bonds to be or become subject to federal income taxation for any
30.22 reason. A grant agreement must comply with this section, the Minnesota Constitution,
30.23 and all commissioner's orders, and also contain other provisions the commissioner of the
30.24 agency making the grant deems appropriate. The commissioner shall draft and make
30.25 available forms for grant agreements that satisfy the requirements of this subdivision.

30.26 **EFFECTIVE DATE.** This section is effective on and after July 1, 2007.

30.27 Sec. 20. Minnesota Statutes 2006, section 16B.24, subdivision 5, is amended to read:

30.28 **Subd. 5. Renting out state property. (a) Authority.** The commissioner may rent
30.29 out state property, real or personal, that is not needed for public use, if the rental is not
30.30 otherwise provided for or prohibited by law. The property may not be rented out for
30.31 more than five years at a time without the approval of the State Executive Council and
30.32 may never be rented out for more than 25 years. A rental agreement may provide that
30.33 the state will reimburse a tenant for a portion of capital improvements that the tenant

31.1 makes to state real property if the state does not permit the tenant to renew the lease at
31.2 the end of the rental agreement.

31.3 (b) **Restrictions.** Paragraph (a) does not apply to state trust fund lands, other state
31.4 lands under the jurisdiction of the Department of Natural Resources, lands forfeited for
31.5 delinquent taxes, lands acquired under section 298.22, or lands acquired under section
31.6 41.56 which are under the jurisdiction of the Department of Agriculture.

31.7 (c) **Rental of living accommodations.** The commissioner shall establish rental rates
31.8 for all living accommodations provided by the state for its employees. Money collected as
31.9 rent by state agencies pursuant to this paragraph must be deposited in the state treasury
31.10 and credited to the general fund.

31.11 (d) **Lease of space in certain state buildings to state agencies.** The commissioner
31.12 may lease portions of the state-owned buildings ~~in the Capitol complex, the Capitol~~
31.13 ~~Square Building, the Health Building, and the building at 1246 University Avenue, St.~~
31.14 ~~Paul, Minnesota, under the custodial control of the commissioner~~ to state agencies and
31.15 the court administrator on behalf of the judicial branch of state government and charge
31.16 rent on the basis of space occupied. Notwithstanding any law to the contrary, all money
31.17 collected as rent pursuant to the terms of this section shall be deposited in the state
31.18 treasury. Money collected as rent to recover the bond interest costs of a building funded
31.19 from the state bond proceeds fund shall be credited to the general fund. Money collected
31.20 as rent to recover the depreciation costs of a building funded from the state bond proceeds
31.21 fund and money collected as rent to recover capital expenditures from capital asset
31.22 preservation and replacement appropriations and statewide building access appropriations
31.23 shall be credited to a segregated asset preservation and replacement account in a special
31.24 revenue fund. Fifty percent of the money credited to the account each fiscal year must
31.25 be transferred to the general fund. The remaining money in the account is appropriated
31.26 to the commissioner to be expended for asset preservation projects as determined by the
31.27 commissioner. Money collected as rent to recover the depreciation and interest costs of
31.28 a building built with other state dedicated funds shall be credited to the dedicated fund
31.29 which funded the original acquisition or construction. All other money received shall be
31.30 credited to the general services revolving fund.

31.31 (e) **Lease of space in Andersen and Freeman buildings.** The commissioner may
31.32 lease space in the Elmer L. Andersen and Orville L. Freeman buildings to state agencies
31.33 and charge rent on the basis of space occupied. Money collected as rent under this
31.34 paragraph to fund future building repairs must be credited to a segregated account for each
31.35 building in the special revenue fund and is appropriated to the commissioner to make
31.36 the repairs. When the state acquires title to each building, the account for that building

32.1 must be abolished and any balance remaining in the account must be transferred to the
32.2 appropriate asset preservation and replacement account created under paragraph (d).

32.3 Sec. 21. Minnesota Statutes 2006, section 16B.35, subdivision 1, is amended to read:

32.4 Subdivision 1. **Percent of appropriations for art.** An appropriation for the
32.5 construction or alteration of any state building may contain an amount not to exceed
32.6 ~~the lesser of \$100,000 or~~ one percent of the total appropriation for the building for the
32.7 acquisition of works of art, excluding landscaping, which may be an integral part of the
32.8 building or its grounds, attached to the building or grounds or capable of being displayed
32.9 in other state buildings. ~~If the appropriation for works of art is limited by the \$100,000~~
32.10 ~~cap in this section, the appropriation for the construction or alteration of the building must~~
32.11 ~~be reduced to reflect the reduced amount that will be spent on works of art.~~ Money used
32.12 for this purpose is available only for the acquisition of works of art to be exhibited in areas
32.13 of a building or its grounds accessible, on a regular basis, to members of the public. No
32.14 more than ten percent of the total amount available each fiscal year under this subdivision
32.15 may be used for administrative expenses, either by the commissioner of administration or
32.16 by any other entity to whom the commissioner delegates administrative authority. For the
32.17 purposes of this section "state building" means a building the construction or alteration of
32.18 which is paid for wholly or in part by the state.

32.20 \$100,000 limit in this section applies to appropriations made before, on, or after that date.

32.21 Sec. 22. **[16B.97] GRANTS MANAGEMENT.**

32.22 Subdivision 1. **Grant agreement.** (a) A grant agreement is a written instrument or
32.23 electronic document defining a legal relationship between a granting agency and a grantee
32.24 when the principal purpose of the relationship is to transfer cash or something of value

32.27 direct benefit or use of the granting agency.

The commissioner may approve exceptions to these policies and procedures for particular grant programs. Exceptions shall expire or be renewed after five years. Executive agencies shall retain management of individual grants programs;

(2) provide a central point of contact concerning statewide grants management policies and procedures;

(3) serve as a resource to executive agencies in such areas as training, evaluation, collaboration, and best practices in grants management;

34.2 (b) The commissioner may determine that it is cost-effective for agencies to develop
34.3 and use shared grants management technology systems. This system would be governed
34.4 under section 16E.01, subdivision 3, paragraph (b).

34.5 Sec. 23. **[16B.98] GRANTS MANAGEMENT PROCESS.**

34.6 Subdivision 1. **Limitation.** As a condition of receiving a grant from an appropriation
34.7 of state funds, the recipient of the grant must agree to minimize administrative costs. The
34.8 granting agency is responsible for negotiating appropriate limits to these costs so that the
34.9 state derives the optimum benefit for grant funding.

34.10 Subd. 2. **Ethical practices and conflict of interest.** An employee of the executive

34.14 regarding code of ethics and conflict of interest designed to prevent conflicts of interest for
34.15 employees, committee members, or others involved in the recommendation, awarding,
34.16 and administration of grants. The policies must apply to employees who are directly or
34.17 indirectly in the grants process, which may include the following:

34.18 (1) developing request for proposals or evaluation criteria;

34.19 (2) drafting, recommending, awarding, amending, revising, or entering into grant
34.20 agreements;

34.21 (3) evaluating or monitoring performance; or

34.22 (4) authorizing payments.

34.27 of interest must disclose the matter.

34.28 (c) If the employee, appointing authority, or commissioner determines that a conflict

34.30 conflict of interest. If it is not possible to assign the matter to an employee who does not
34.31 have a conflict of interest, interested personnel shall be notified of the conflict and the
34.32 employee may proceed with the assignment.

The auditor's report to the Legislative Audit Commission under this section must disclose only the number and type of violations alleged. An employee making a good faith report under this section has the protections provided for under section 181.932, prohibiting the employer from discriminating against the employee.

Subd. 5. **Creation and validity of grant agreements.** (a) A grant agreement is not valid and the state is not bound by the grant unless:

(1) the grant has been executed by the head of the agency or a delegate who is party to the grant; and

(2) the accounting system shows an encumbrance for the amount of the grant in accordance with policy approved by the commissioner.

(b) The combined grant agreement and amendments must not exceed five years without specific, written approval by the commissioner according to established policy, procedures, and standards, or unless the commissioner determines that a longer duration is in the best interest of the state.

If a grant agreement does not include an express audit clause, the audit authority under this subdivision is implied.

(b) If the granting agency is a local unit of government, and the governing body of the local unit of government requests that the state auditor examine the books, records, documents, and accounting procedures and practices of the grantee or other party according to this subdivision, the granting agency shall be liable for the cost of the examination. If the granting agency is a local unit of government, and the grantee or other party requests that the state auditor examine all books, records, documents, and accounting procedures and practices related to the grant, the grantee or other party that requested the examination shall be liable for the cost of the examination.

Subd. 9. **Authority of attorney general.** The attorney general may pursue remedies available by law to avoid the obligation of an agency to pay under a grant or to recover payments made if activities under the grant are so unsatisfactory, incomplete, or inconsistent that payment would involve unjust enrichment. The contrary opinion of the granting agency does not affect the power of the attorney general under this subdivision.

Subd. 10. **Grants with Indian tribes and bands.** Notwithstanding any other law, an agency may not require an Indian tribe or band to deny its sovereignty as a requirement or condition of a grant with an agency.

- 39.1 (3) whether the contract is:
39.2 (i) for goods;

39.5 (iv) a grant;
39.6 (4) a brief statement of the purpose of the contract or grant;

39.8 paid; and

39.10 fiscal year and the dollar value of state grants the entity has received in each fiscal year.
39.11 (b) Required information on a new contract or grant must be entered into the
39.12 database within 30 days of the time the contract is entered into.
39.13 (c) For purposes of this section, a "grant" is a contract between a state agency and
39.14 a recipient, the primary purpose of which is to transfer cash or a thing of value to the
39.15 recipient to support a public purpose. Grant does not include payments to units of local

39.17 assistance to individuals.

39.19 beginning with fiscal year 2008 funds, and must retain that data for ten years.

39.26 Subd. 2. **Creation and validity of contracts.** (a) A contract is not valid and the state
39.27 is not bound by it and no agency, without the prior written approval of the commissioner
39.28 granted pursuant to subdivision 2a, may authorize work to begin on it unless:

- 39.29 (1) it has first been executed by the head of the agency or a delegate who is a party
39.30 to the contract;
39.31 (2) it has been approved by the commissioner; and

(b) The combined contract and amendments must not exceed five years without specific, written approval by the commissioner according to established policy, procedures, and standards, or unless otherwise provided for by law. Bond purchase agreements by the Minnesota Public Facilities Authority do not require the approval of the commissioner.

(d) Amendments to contracts must entail tasks that are substantially similar to those in the original contract or involve tasks that are so closely related to the original contract that it would be impracticable for a different contractor to perform the work. The commissioner or an agency official to whom the commissioner has delegated contracting authority under section 16C.03, subdivision 16, must determine that an amendment would serve the interest of the state better than a new contract and would cost no more.

(e) A fully executed copy of every contract, amendments to the contract, and performance evaluations relating to the contract must be kept on file at the contracting agency for a time equal to that specified for contract vendors and other parties in subdivision 5.

(f) The attorney general must periodically review and evaluate a sample of state agency contracts to ensure compliance with laws.

The commissioner is authorized to mandate use of any contract entered into as a result of an enterprise procurement process. Agencies shall fully cooperate in the development and use of contracts entered into under this section.

Sec. 38. Minnesota Statutes 2006, section 16C.08, subdivision 2, is amended to read:

41.1 Subd. 2. **Duties of contracting agency.** (a) Before an agency may seek approval of
41.2 a professional or technical services contract valued in excess of \$5,000, it must provide
41.3 the following:

41.4 (1) a description of how the proposed contract or amendment is necessary and
41.5 reasonable to advance the statutory mission of the agency;

41.7 available to perform the services called for in the solicitation; ~~and~~

41.8 (3) a description of the performance measures or other tools that will be used to
41.9 monitor and evaluate contract performance; and

41.10 (4) an explanation detailing, if applicable, why this procurement is being pursued
41.11 unilaterally by the agency and not as an enterprise procurement.

41.12 (b) In addition to paragraph (a), the agency must certify that:

41.13 (1) no current state employee is able and available to perform the services called

41.24 executed unless an exception under section 16C.05, subdivision 2a, has been granted by
41.25 the commissioner and funds are fully encumbered;

41.26 (6) the contract will not establish an employment relationship between the state or
41.27 the agency and any persons performing under the contract; ~~and~~

41.28 (7) in the event the results of the contract work will be carried out or continued by
41.29 state employees upon completion of the contract, the contractor is required to include
41.30 state employees in development and training, to the extent necessary to ensure that after
41.31 completion of the contract, state employees can perform any ongoing work related to
41.32 the same function; and

41.33 (8) the agency will not contract out its previously eliminated jobs for four years
41.34 without first considering the same former employees who are on the seniority unit layoff
41.35 list who meet the minimum qualifications determined by the agency.

42.10 review activities of the department by fiscal year.

42.11 (b) The fiscal year report must be submitted by September 1 of each year and must:

42.12 (1) be sorted by agency and by contractor;

42.13 (2) show the aggregate value of contracts issued by each agency and issued to each
42.14 contractor;

42.15 (3) distinguish between contracts that are being issued for the first time and contracts
42.16 that are being extended;

42.17 (4) state the termination date of each contract;

42.18 (5) identify services by commodity code, including topics such as contracts for
42.19 training, contracts for research and opinions, and contracts for computer systems; and

42.20 (6) identify which contracts were awarded without following the solicitation process
42.21 in this chapter because it was determined that there was only a single source for the
42.22 services.

42.23 (c) Within 30 days of final completion of a contract over \$50,000 covered by this
42.24 subdivision, the head of the agency entering into the contract must submit a one-page
42.25 report to the commissioner who must submit a copy to the Legislative Reference Library.

43.1 (4) include a written performance evaluation of the work done under the contract.
43.2 The evaluation must include an appraisal of the contractor's timeliness, quality, cost, and
43.3 overall performance in meeting the terms and objectives of the contract. Contractors may
43.4 request copies of evaluations prepared under this subdivision and may respond in writing.
43.5 Contractor responses must be maintained with the contract file.

43.11 evidence that:

43.12 (1) the information was false and defamatory;

43.13 (2) the employee or agency knew or should have known the information was false

52.9 the revocation of the statement of qualification of this limited liability partnership
52.10 without further notice from the secretary of state pursuant to Minnesota Statutes, section
52.11 323A.1003, subsection (d)."

52.12 (b) A limited liability partnership, and a foreign limited liability partnership
52.13 authorized to transact business in this state, shall file an annual registration in the office
52.14 of the secretary of state which contains:

52.36 the secretary of state for reinstatement within one year after the effective date of the

53.1 revocation. A partnership must file an annual registration to apply for reinstatement and

(d) If section 259.13 applies to the request for a marriage license, the local registrar shall grant the marriage license without the requested name change. Alternatively, the local registrar may delay the granting of the marriage license until the party with the conviction:

71.12 contracts may not exceed five years including all extensions.

71.13 Subd. 3. **Publication of notice; expenditures over \$25,000.** If the amount of an
71.14 expenditure is estimated to exceed \$25,000, bids or proposals must be solicited by public
71.15 notice in a manner designated by the commissioner. To the extent practical, this must
71.16 include posting on a state Web site. For expenditures over \$50,000, when a call for bids is
71.17 issued, the commissioner shall solicit sealed bids by providing notices to all prospective
71.18 bidders known to the commissioner by posting notice on a state Web site at least seven
71.19 days before the final date of submitting bids. All bids over \$50,000 must be sealed when
71.20 they are received and must be opened in public at the hour stated in the notice. All
71.21 proposals responsive to a request for proposals according to section 16C.28, subdivision
71.22 1, paragraph (a), clause (2), and paragraph (c), shall be submitted and evaluated in the
71.23 manner described in the request for proposals, regardless of the dollar amount. All original
71.24 bids and proposals and all documents pertaining to the award of a contract must be retained
71.25 and made a part of a permanent file or record and remain open to public inspection.

71.26 Subd. 4. **Building and construction contracts; \$50,000 or less.** An informal bid
71.27 may be used for building, construction, and repair contracts that are estimated at less than
71.28 \$50,000. Informal bids must be authenticated by the bidder in a manner specified by the
71.29 commissioner. Alternatively, a request for proposals may be issued according to section
71.30 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c), for such contracts.

71.31 Subd. 5. **Standard specifications, security.** Contracts must be based on the
71.32 standard specifications prescribed and enforced by the commissioner under this chapter,
71.33 unless otherwise expressly provided or as authorized under section 16C.28, subdivision
71.34 1, paragraph (a), clause (2), and paragraph (c). Each ~~bidder for a contract~~ vendor or
71.35 contractor must furnish security approved by the commissioner to ensure the making of
71.36 the contract being bid for.

Subd. 6. **Noncompetitive bids.** Agencies are encouraged to contract with small targeted group businesses designated under section 16C.16 when entering into contracts that are not subject to competitive bidding procedures.

Sec. 7. Minnesota Statutes 2006, section 16C.27, subdivision 1, is amended to read:

Subdivision 1. **Single source of supply.** Competitive bidding ~~is~~ or proposals are not required for contracts clearly and legitimately limited to a single source of supply, and the contract price may be best established by direct negotiation.

Sec. 8. Minnesota Statutes 2006, section 16C.28, is amended to read:

16C.28 CONTRACTS; AWARD.

Subdivision 1. ~~Lowest responsible bidder~~ **Award requirements.** (a) All state building and construction contracts entered into by or under the supervision of the commissioner or an agency for which competitive bids or proposals are required ~~must be awarded to the lowest responsible bidder, taking into consideration conformity with the specifications, terms of delivery, the purpose for which the contract is intended, the status and capability of the vendor, and other considerations imposed in the call for bids. The commissioner may decide which is the lowest responsible bidder for all contracts and may use the principles of life cycle costing, where appropriate, in determining the lowest overall bid. The head of the interested agency shall make the decision, subject to the approval of the commissioner. Any or all bids may be rejected. In a case where competitive bids are required and where all bids are rejected, new bids, if solicited, must be called for as in the first instance, unless otherwise provided by law.~~ may be awarded to either of the following:

(1) the lowest responsible bidder, taking into consideration conformity with the specifications, terms of delivery, the purpose for which the contract is intended, the status and capability of the vendor or contractor, other considerations imposed in the call for bids, and, where appropriate, principles of life-cycle costing; or

(2) the vendor or contractor offering the best value, taking into account the specifications of the request for proposals, the price and performance criteria as set forth in section 16C.02, subdivision 4a, and described in the solicitation document.

(b) The vendor or contractor must secure bonding, commercial general insurance coverage, and workers' compensation insurance coverage under paragraph (a), clause (1) or (2). The commissioner shall determine whether to use the procurement process described in paragraph (a), clause (1), or the procurement process described in paragraph (a), clause (2), and paragraph (c). If the commissioner uses the method in paragraph

(a), clause (2), and paragraph (c), the head of the agency shall determine which vendor or contractor offers the best value, subject to the approval of the commissioner. Any or all bids or proposals may be rejected.

(c) When using the procurement process described in subdivision 1, paragraph (a), clause (2), the solicitation document must state the relative weight of price and other selection criteria. The award must be made to the vendor or contractor offering the best value applying the weighted selection criteria. If an interview of the vendor's or contractor's personnel is one of the selection criteria, the relative weight of the interview shall be stated in the solicitation document and applied accordingly.

Subd. 1a. **Establishment and purpose.** (a) The state recognizes the importance of the inclusion of a best value contracting system for construction as an alternative to the current low-bid system of procurement. In order to accomplish that goal, state and local governmental entities shall be able to choose the best value system in different phases.

(b) "Best value" means the procurement method defined in section 16C.02, subdivision 4a.

(c) The following entities are eligible to participate in phase I:

(1) state agencies;

(2) counties;

(3) cities; and

(4) school districts with the highest 25 percent enrollment of students in the state.

Phase I begins on the effective date of this section.

(d) The following entities are eligible to participate in phase II:

(1) those entities included in phase I; and

(2) school districts with the highest 50 percent enrollment of students in the state.

Phase II begins two years from the effective date of this section.

(e) The following entities are eligible to participate in phase III:

(1) all entities included in phases I and II; and

(2) all other townships, school districts, and political subdivisions in the state.

Phase III begins three years from the effective date of this section.

(f) The commissioner or any agency for which competitive bids or proposals are required may not use best value contracting as defined in section 16C.02, subdivision 4a, for more than one project annually, or 20 percent of its projects, whichever is greater, in each of the first three fiscal years in which best value construction contracting is used.

Subd. 2. Alterations and erasures. A bid containing an alteration or erasure of any price contained in the bid which is used in determining the lowest responsible bid

must be rejected unless the alteration or erasure is corrected in a manner that is clear and authenticated by an authorized representative of the responder. An alteration or erasure may be crossed out and the correction printed in ink or typewritten adjacent to it and initialed by an authorized representative of the responder.

Subd. 3. **Special circumstances.** The commissioner may reject the bid or proposal of any ~~bidder~~ vendor or contractor who has failed to perform a previous contract with the state. In the case of identical low bids from two or more bidders, the commissioner may use negotiated procurement methods with the tied low bidders for that particular transaction so long as the price paid does not exceed the low tied bid price. The commissioner may award contracts to more than one ~~bidder~~ vendor or contractor in accordance with subdivision 1, if doing so does not decrease the service level or diminish the effect of competition.

Subd. 4. **Record.** A record must be kept of all bids or proposals, including names of bidders, amounts of bids or proposals, and each successful bid or proposal. This record is open to public inspection, subject to section 13.591 and other applicable law.

Subd. 5. **Preferences not cumulative.** The preferences under sections 16B.121, 16C.06, subdivision 7, and 16C.16 apply, but are not cumulative. The total percentage of preference granted on a contract may not exceed the highest percentage of preference allowed for that contract under any one of those sections.

Sec. 9. Minnesota Statutes 2006, section 103D.811, subdivision 3, is amended to read:

Subd. 3. **Awarding of contract.** (a) At a time and place specified in the bid notice, the managers may accept or reject any or all bids and may award the contract to the lowest responsible bidder. The bidder to whom the contract is to be awarded must give a bond, with ample security, conditioned by satisfactory completion of the contract.

(b) Bids must not be considered which in the aggregate exceed by more than 30 percent the total estimated cost of construction or implementation.

(c) As an alternative to the procurement method described in paragraph (a), the managers may issue a request for proposals and award the contract to the vendor or contractor offering the best value as described in section 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

(d) The contract must be in writing and be accompanied by or refer to the plans and specifications for the work to be done as prepared by the engineer for the watershed district. The plans and specifications shall become a part of the contract.

~~(d)~~ (e) The contract shall be approved by the managers and signed by the president, secretary, and contractor.

75.1 Sec. 10. Minnesota Statutes 2006, section 103E.505, subdivision 5, is amended to read:

75.2 Subd. 5. **How contract may be awarded.** The contract may be awarded in one
75.3 job, in sections, or separately for labor and material and ~~must~~ may be let to the lowest
75.4 responsible bidder. Alternatively, the contract may be awarded to the vendor or contractor
75.5 offering the best value under a request for proposals as described in section 16C.28,
75.6 subdivision 1, paragraph (a), clause (2), and paragraph (c).

75.7 Sec. 11. Minnesota Statutes 2006, section 116A.13, subdivision 5, is amended to read:

75.8 Subd. 5. **How job may be let.** The job may be let in one job, or in sections, or
75.9 separately for labor and material, and ~~shall~~ may be let to the lowest responsible bidder or
75.10 bidders therefor. Alternatively, the contract may be awarded to the vendor or contractor
75.11 offering the best value under a request for proposals as described in section 16C.28,
75.12 subdivision 1, paragraph (a), clause (2), and paragraph (c).

75.13 Sec. 12. Minnesota Statutes 2006, section 123B.52, subdivision 1, is amended to read:

75.14 Subdivision 1. **Contracts.** A contract for work or labor, or for the purchase of
75.15 furniture, fixtures, or other property, except books registered under the copyright laws, or
75.16 for the construction or repair of school houses, the estimated cost or value of which shall
75.17 exceed that specified in section 471.345, subdivision 3, must not be made by the school
75.18 board without first advertising for bids or proposals by two weeks' published notice in the
75.19 official newspaper. This notice must state the time and place of receiving bids and contain
75.20 a brief description of the subject matter.

75.21 Additional publication in the official newspaper or elsewhere may be made as the
75.22 board shall deem necessary.

75.23 After taking into consideration conformity with the specifications, terms of delivery,
75.24 and other conditions imposed in the call for bids, every such contract for which a call for
75.25 bids has been issued must be awarded to the lowest responsible bidder, be duly executed
75.26 in writing, and be otherwise conditioned as required by law. The person to whom the
75.27 contract is awarded shall give a sufficient bond to the board for its faithful performance.
75.28 Notwithstanding section 574.26 or any other law to the contrary, on a contract limited
75.29 to the purchase of a finished tangible product, a board may require, at its discretion, a
75.30 performance bond of a contractor in the amount the board considers necessary. A record
75.31 must be kept of all bids, with names of bidders and amount of bids, and with the successful
75.32 bid indicated thereon. A bid containing an alteration or erasure of any price contained in
75.33 the bid which is used in determining the lowest responsible bid must be rejected unless the
75.34 alteration or erasure is corrected as provided in this section. An alteration or erasure may

be crossed out and the correction thereof printed in ink or typewritten adjacent thereto and initialed in ink by the person signing the bid. In the case of identical low bids from two or more bidders, the board may, at its discretion, utilize negotiated procurement methods with the tied low bidders for that particular transaction, so long as the price paid does not exceed the low tied bid price. In the case where only a single bid is received, the board may, at its discretion, negotiate a mutually agreeable contract with the bidder so long as the price paid does not exceed the original bid. If no satisfactory bid is received, the board may readvertise. Standard requirement price contracts established for supplies or services to be purchased by the district must be established by competitive bids. Such standard requirement price contracts may contain escalation clauses and may provide for a negotiated price increase or decrease based upon a demonstrable industrywide or regional increase or decrease in the vendor's costs. Either party to the contract may request that the other party demonstrate such increase or decrease. The term of such contracts must not exceed two years with an option on the part of the district to renew for an additional two years. Contracts for the purchase of perishable food items, except milk for school lunches and vocational training programs, in any amount may be made by direct negotiation by obtaining two or more written quotations for the purchase or sale, when possible, without advertising for bids or otherwise complying with the requirements of this section or section 471.345, subdivision 3. All quotations obtained shall be kept on file for a period of at least one year after receipt.

Every contract made without compliance with the provisions of this section shall be void. Except in the case of the destruction of buildings or injury thereto, where the public interest would suffer by delay, contracts for repairs may be made without advertising for bids.

Sec. 13. Minnesota Statutes 2006, section 123B.52, is amended by adding a subdivision to read:

Subd. 1b. **Best value alternative.** As an alternative to the procurement method described in subdivision 1, a contract for construction, building, alteration, improvement, or repair work may be awarded to the vendor or contractor offering the best value under a request for proposals as described in section 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

Sec. 14. Minnesota Statutes 2006, section 160.17, is amended by adding a subdivision to read:

77.4 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

77.5 Sec. 15. Minnesota Statutes 2006, section 160.262, is amended by adding a subdivision
77.6 to read:

77.7 Subd. 5. **Best value alternative.** As an alternative to the procurement method

77.9 contracts for the projects described in subdivision 4 to the vendor or contractor offering
77.10 the best value under a request for proposals as described in section 16C.28, subdivision 1,
77.11 paragraph (a), clause (2), and paragraph (c).

77.12 Sec. 16. Minnesota Statutes 2006, section 161.32, is amended by adding a subdivision
77.13 to read:

77.14 Subd. 1f. **Best value alternative.** As an alternative to the procurement method
77.15 described in subdivisions 1a to 1e, the commissioner may issue a request for proposals
77.16 and award the contract to the vendor or contractor offering the best value as described in
77.17 section 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

77.18 Sec. 17. **[161.3206] BEST VALUE CONTRACTING AUTHORITY.**

77.19 Notwithstanding sections 16C.25, 161.32, 161.321, or any other law to the contrary,
77.20 the commissioner may solicit and award all contracts, other than design-build contracts
77.21 governed by section 161.3412, for a project on the basis of a best value selection process
77.22 as defined in section 16C.02, subdivision 4a. Section 16C.08 does not apply to this section.

77.23 Sec. 18. Minnesota Statutes 2006, section 161.3412, subdivision 1, is amended to read:

77.25 sections 16C.25, 161.32, and 161.321, or any other law to the contrary, the commissioner
77.26 may solicit and award a design-build contract for a project on the basis of a best value
77.27 selection process. Section 16C.08 does not apply to design-build contracts to which the
77.28 commissioner is a party.

77.29 Sec. 19. Minnesota Statutes 2006, section 161.38, subdivision 4, is amended to read:

77.30 Subd. 4. **Effects on other law of public contract with commissioner.** Whenever
77.31 the road authority of any city enters into an agreement with the commissioner pursuant

to this section, and a portion of the cost is to be assessed against benefited property, the letting of a public contract by the commissioner for the work shall be deemed to comply with statutory or charter provisions requiring the city (1) to advertise for bids before awarding a contract for a public improvement, (2) to let the contract to the lowest responsible bidder or to the vendor or contractor offering the best value, and (3) to require a performance bond to be filed by the contractor before undertaking the work. The contract so let by the commissioner and the performance bond required of the contractor by the commissioner shall be considered to be the contract and bond of the city for the purposes of complying with the requirements of any applicable law or charter provision, and the bond shall inure to the benefit of the city and operate for their protection to the same extent as though they were parties thereto.

Sec. 20. Minnesota Statutes 2006, section 365.37, is amended by adding a subdivision to read:

Subd. 2a. **Best value alternative.** As an alternative to the procurement method described in subdivision 2, a contract for construction, building, alteration, improvement, or repair work may be awarded to the vendor or contractor offering the best value under a request for proposals as described in section 16C.28, subdivision 1, paragraph (a), clause (2), and paragraph (c).

Sec. 21. Minnesota Statutes 2006, section 374.13, is amended to read:

374.13 TO ADVERTISE FOR BIDS.

Subdivision 1. **Bidding process.** When the plans and specifications are completed and approved by the city council and the county board, the commission shall, after notice appropriate to inform possible bidders, obtain bids or proposals for all or any portion of the work or materials, or both, to be done, performed, or furnished in the construction of the building. All bids or proposals shall be sealed by the bidders or proposers and filed with the commission at or before the time specified for the opening of bids or proposals. At the time and place specified for the opening of bids or proposals, the commission shall meet, open the bids or proposals, tabulate them, and award the contract or contracts to the responsible bidder whose bid or proposal is the most favorable to the city or county, or reject all bids and proposals. If all bids or proposals are rejected, the commission may, after similar notice, obtain more bids or proposals or may modify or change the plans and specifications and submit the modified plans and specifications to the city council and the county board for approval. When the modified or changed plans and specifications are satisfactory to both the city council and the county board, the plans and specifications

79.1 shall be returned to the commission and the commission shall proceed again, after similar
79.2 notice, to obtain bids or proposals. Any contract awarded by the commission shall be
79.3 subject to approval by the city council and the county board.

79.4 Subd. 2. **Best value alternative.** As an alternative to the procurement method

79.26 materials or equipment or for any kind of construction work undertaken by the city is
79.27 estimated to exceed the amount specified by section 471.345, subdivision 3, the contract

79.29 official newspaper at least ten days in advance of the last day for the submission of bids. If
79.30 the amount of the contract exceeds \$1,000, it shall be entered into only after compliance
79.31 with section 471.345.

79.32 Subd. 2. **Best value alternative.** As an alternative to the procurement method
79.33 described in subdivision 1, a contract for construction, building, alteration, improvement,

The commissioners may establish reasonable qualifications to determine the fitness and responsibility of bidders, and require bidders to meet the qualifications before bids are accepted. If the commissioners by a two-thirds or five-sevenths vote declare that an emergency exists requiring the immediate purchase of any equipment or material or supplies at a cost in excess of \$1,000, but not exceeding \$5,000, in amount, or making of emergency repairs, it shall not be necessary to advertise for bids, but the material, equipment, or supplies may be purchased in the open market at the lowest price obtainable, or the emergency repairs may be contracted for or performed without securing formal competitive bids. An emergency, for purposes of this section, is unforeseen circumstances or conditions which result in the jeopardizing of human life or property.

In all contracts involving the employment of labor, the commissioners shall stipulate conditions they deem reasonable, as to the hours of labor and wages and may stipulate as to the residence of employees to be employed by the contractors.

Bonds shall be required from contractors for any works of construction as provided in and subject to all the provisions of sections 574.26 to 574.31.

Sec. 29. Minnesota Statutes 2006, section 469.068, is amended by adding a subdivision to read:

82.2 Alternatively, the authority may award all contracts for construction, alteration, repair,
82.3 or maintenance work to the lowest responsible bidder, reserving the right to reject any
82.4 or all bids.

82.5 Sec. 31. Minnesota Statutes 2006, section 471.345, is amended by adding a subdivision
