The permit granted by the commissioner to a person who meets the criteria established in this subdivision and subdivision 1 shall authorize the person to hold out and to operate as a household goods mover. A person who provides or offers to provide household goods packing services and who makes any arrangement directly or indirectly by lease, rental, referral, or by other means to provide or to obtain drivers, vehicles, or transportation service for moving household goods, must have a household goods mover permit~~ file an application with the commissioner on a form the commissioner prescribes. Notwithstanding this or any other section or rule to the contrary, the commissioner must not provide public notice or hearing when reviewing the application or before granting the requested operating authority. All permits granted to household goods carriers must allow statewide operation. Notwithstanding any geographical restrictions imposed upon a permit at the time it was granted or any section or rule to the contrary, the holder of a household goods permit may operate statewide.

Sec. 76. Minnesota Statutes 2006, section 221.151, subdivision 1, is amended to read:

Subdivision 1. **Petition.** (a) Permits, except livestock permits, issued under section 221.121 may be assigned or transferred but only upon the order of the commissioner approving the transfer or assignment after notice and hearing.

46.1 **(b)** The proposed seller and buyer or lessor and lessee of a permit, except for
46.2 livestock carrier permits, shall file a joint notarized petition with the commissioner setting
46.3 forth the name and address of the parties, the identifying number of the permit, and the
46.4 description of the authority which the parties seek to sell or lease, a short statement of
46.5 the reasons for the proposed sale or lease, a statement of outstanding claims of creditors
46.6 which are directly attributable to the operation to be conducted under the permit, a copy of
46.7 the contract of sale or lease, and a financial statement with a balance sheet and an income
46.8 statement, if existent, of the buyer or lessee. If it appears to the commissioner, ~~after notice~~
46.9 ~~to interested parties and a hearing,~~ from the contents of the petition, ~~from the evidence~~
46.10 ~~produced at the hearing,~~ and from the department's records, files, and investigation that
46.11 the approval of the sale or lease of the permit will not adversely affect the rights of the
46.12 users of the service ~~and will not have an adverse effect upon other competing carriers,~~
46.13 the commissioner may make an order granting the sale or lease. Provided, however, that
46.14 the commissioner shall make no order granting the sale or lease of a permit to a person
46.15 or corporation or association which holds a certificate or permit other than local cartage
46.16 carrier permit from the commissioner under this chapter or to a common carrier by rail.

46.17 ~~Provided further that the commissioner shall make no order approving the sale or~~
46.18 ~~lease of a permit if the commissioner finds that the price paid for the sale or lease of a~~
46.19 ~~permit is disproportionate to the reasonable value of the permit considering the assets and~~
46.20 ~~goodwill involved. The commissioner shall approve the sale or lease of a permit only after~~
46.21 ~~a finding that the transferee is fit and able to conduct the operations authorized under the~~
46.22 ~~permit and that the vehicles the transferee proposes to use in conducting the operations~~
46.23 ~~meet the safety standards of the commissioner. In determining the extent of the operating~~
46.24 ~~authority to be conducted by the transferee under the sale or lease of the permit, the past~~
46.25 ~~operations of the transferor within the two-year period immediately preceding the transfer~~
46.26 ~~must be considered. Only such operating authority may be granted to the transferee as was~~
46.27 ~~actually exercised by the transferor under the transferor's authority within the two-year~~
46.28 ~~period immediately preceding the transfer as evidenced by bills of lading, company~~
46.29 ~~records, operation records, or other relevant evidence. For purposes of determining the~~
46.30 ~~two-year period, the date of divesting of interest or control is the date of the sale.~~

46.31 **(c)** The commissioner shall look to the substance of the transaction rather than the
46.32 form. An agreement for the transfer or sale of a permit must be reported and filed with the
46.33 commissioner within 30 days of the agreement.

46.34 **(d)** If an authority to operate as a permit carrier is held by a corporation, a sale,
46.35 assignment, pledge, or other transfer of the stock interest in the corporation which will
46.36 accomplish a substantial or material change or transfer of the majority ownership of

the corporation, as exercised through its stockholders, must be reported in the manner prescribed in the rules of the commissioner within 30 days after the sale, assignment, pledge, or other transfer of stock. The commissioner shall then make a finding whether or not the stock transfer does, in fact, constitute a sale, lease, or other transfer of the permit of the corporation to a new party or parties and, if they so find, then the continuance of the permit issued to the corporation may only be upon the corporation's complying with the standards and procedures otherwise imposed by this section.

ARTICLE 2

RAILWAY WALKWAY SAFETY

Section 1. **[219.501] RAIL CARRIER WALKWAYS.**

Subdivision 1. **Duty to provide walkways.** (a) Rail carriers must provide walkways adjacent to those portions of yard tracks where rail carrier employees frequently work on the ground performing switching activities. For purposes of this section, "frequently work" means at least five days per week, one shift per day.

(b) This section applies to reconstruction and new construction of yard track completed after July 1, 2008.

(c) This section does not apply to an entity that owns or operates track in this state other than class one and class two rail carriers as classified by the Federal Railroad Administration.

Subd. 2. **General requirements.** (a) Walkways constructed pursuant to this section may be surfaced with asphalt, concrete, planking, grating, native material, crushed material, or other similar nonrevenue material. When crushed material is used, 100 percent of the material must be capable of passing through a 1-1/2-inch square sieve opening, and at least 90 percent of the material must be capable of passing through a one-inch square sieve opening provided, however, a de minimus variation is not a violation of this section where the rail carrier has made a good faith effort to comply with

57.1 the percentage requirements. Smaller crushed material is preferable, where drainage
57.2 and durability issues do not arise. Material that is three-quarter inch or less in size is
57.3 recommended for switching lead tracks.

57.4 (b) Walkways must have a reasonably uniform surface and must be maintained in a
57.5 safe condition without compromising track drainage.

57.6 (c) Cross slopes for walkways must not exceed one inch of elevation for each eight
57.7 inches of horizontal length in any direction.

57.8 (d) Walkways must be a minimum width of two feet.

57.9 (e) Walkways regulated under this section must be kept reasonably clear of spilled
57.10 fuel, oil, sand, posts, rocks, and other hazards or obstructions.

57.11 Subd. 3. **Allowances for unusual conditions.** Rail carriers are not required to
