relating to human services; establishing a finger imaging system to identify
applicants for and recipients of public assistance programs; imposing penalties;

256.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. **[256.0161] PUBLIC ASSISTANCE; FINGER IMAGING SYSTEM.**

Subdivision 1. Establishment; purpose. The commissioner of human services shall
establish a finger imaging system. Every applicant for or recipient of public assistance,

eligibility for public assistance. Absent a criminal court order, finger images obtained
under this section shall be used only for the purposes of determining eligibility for public
assistance and preventing multiple enrollments in assistance programs and may not be
accessed by any other agency of this state for any purpose.

Subd. 2. Duties; authority. (a) The commissioner shall:

(1) implement a finger imaging system in all counties, with 50 percent of the costs of
implementation and usage to be paid by the commissioner and the remaining 50 percent
paid by individual counties;

(2) maintain and manage a centralized database of finger images; and

(3) notify applicants of public assistance of the finger imaging requirement at the
time of application.

(b) The commissioner may develop a competitive request for proposals for a finger
imaging system and may contract with a firm the commissioner deems able to design
and implement the finger imaging system.
