Subd. 2. **Duties.** (a) By February 15, 2010, the council shall develop a standard set of approximately ten performance measures for counties and ten performance measures for cities that will aid residents, taxpayers, and state and local elected officials in determining the efficacy of counties and cities in providing services, and measure residents' opinions of those services. In developing its measures, the council must solicit input from private citizens. Counties and cities that elect to participate in the performance measurement system shall report their results to the state auditor under section 6.91, who shall compile the results and make them available to all interested parties by publishing them on the auditor's Web site and report them to the legislative tax committees. Each year after the initial designation of performance measures, the council shall evaluate the usefulness of the standard set of performance measures and may revise the set by adding or removing measures as it deems appropriate.

(b) By February 15, 2011, the council shall develop minimum standards for performance measurement systems, which may vary by size and type of governing jurisdiction.

(c) In addition to its specific duties under paragraphs (a) and (b), the council shall generally promote the use of performance measures for governmental entities across the state and shall serve as a resource for all governmental entities seeking to implement a system of local performance measures. The council may highlight and

promote systems that are innovative, or are ones that it deems to be best practices of local performance systems across the state and nation. The council should give preference in its recommendations to systems that are results oriented. The council may, with the cooperation of the state auditor, establish and foster a collaborative network of practitioners of local performance measurement systems. The council may support the Association of Minnesota Counties and the League of Minnesota Cities to seek and receive private funding to provide expert technical assistance to local governments for the purposes of replicating best practices.

These reports may be made by the state auditor in lieu of the council if agreed to by the auditor and the council.

Subd. 4. **Operation of council.** (a) The state auditor shall convene the initial meeting of the council.

(b) The chair of the council shall be elected by the members. Once elected, a chair shall serve a term of two years.

A meeting of the council occurs when a quorum is present and action is taken regarding a matter within the jurisdiction of the council.

(f) The council must meet at least two times prior to the initial release of the standard set of measurements. After the initial set has been developed, the council must meet a minimum of once per year.

Subd. 5. **Termination.** The council expires on January 1, 2019.
