BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

ARTICLE 1

NATURAL RESOURCE POLICY

Section 1. Minnesota Statutes 2008, section 84.027, subdivision 13, is amended to read:

Subd. 13. **Game and fish rules.** (a) The commissioner of natural resources may adopt rules under sections 97A.0451 to 97A.0459 and this subdivision that are authorized under:

(1) chapters 97A, 97B, and 97C to set open seasons and areas, to close seasons and areas, to select hunters for areas, to provide for tagging and registration of game and fish, to prohibit or allow taking of wild animals to protect a species, to prevent or control wildlife disease, to open or close bodies of water or portions of bodies of water for night bow fishing, and to prohibit or allow importation, transportation, or possession of a wild animal;

(2) sections 84.093, 84.15, and 84.152 to set seasons for harvesting wild ginseng roots and wild rice and to restrict or prohibit harvesting in designated areas; and

(3) section 84D.12 to designate prohibited invasive species, regulated invasive species, unregulated nonnative species, and infested waters.

(b) If conditions exist that do not allow the commissioner to comply with sections 97A.0451 to 97A.0459, the commissioner may adopt a rule under this subdivision by submitting the rule to the attorney general for review under section 97A.0455, publishing a notice in the State Register and filing the rule with the secretary of state and the Legislative Coordinating Commission, and complying with section 97A.0459, and including a statement of the emergency conditions and a copy of the rule in the notice. The emergency conditions for opening a water body or portion of a water body for night bow fishing under this section may include the need to temporarily open the area to evaluate

compatibility of the activity on that body of water prior to permanent rulemaking. The notice may be published after it is received from the attorney general or five business days after it is submitted to the attorney general, whichever is earlier.

(c) Rules adopted under paragraph (b) are effective upon publishing in the State Register and may be effective up to seven days before publishing and filing under paragraph (b), if:

(1) the commissioner of natural resources determines that an emergency exists;

(2) the attorney general approves the rule; and

(3) for a rule that affects more than three counties the commissioner publishes the rule once in a legal newspaper published in Minneapolis, St. Paul, and Duluth, or for a rule that affects three or fewer counties the commissioner publishes the rule once in a legal newspaper in each of the affected counties.

(d) Except as provided in paragraph (e), a rule published under paragraph (c), clause (3), may not be effective earlier than seven days after publication.

(e) A rule published under paragraph (c), clause (3), may be effective the day the rule is published if the commissioner gives notice and holds a public hearing on the rule within 15 days before publication.

(f) The commissioner shall attempt to notify persons or groups of persons affected by rules adopted under paragraphs (b) and (c) by public announcements, posting, and other appropriate means as determined by the commissioner.

(g) Notwithstanding section 97A.0458, a rule adopted under this subdivision is effective for the period stated in the notice but not longer than 18 months after the rule is adopted.

(2) "forest resources" has the meaning given under section 89.001, subdivision 8;

(3) "guidelines" has the meaning given under section 89A.01, subdivision 8;

(4) "riparian land" has the meaning given under section 103F.511, subdivision ~~8a~~ 8b; and

(5) "working forest land" means land that provides a broad range of goods and services, including forest products, recreation, fish and wildlife habitat, clean air and water, and carbon sequestration.

Sec. 4. **[84.774] OFF-HIGHWAY VEHICLE CRIMINAL PENALTIES.**

(a) Except as provided in paragraph (b), a person who violates a provision of sections 84.773; 84.777; 84.788 to 84.795; 84.798 to 84.804; 84.90; or 84.922 to 84.928 or rules of the commissioner relating to off-highway vehicle use is guilty of a misdemeanor.

(c) A person is prohibited from operating an off-highway vehicle for a period of one year if the person is:

(1) convicted of a gross misdemeanor under paragraph (b);

(2) convicted of or subject to a final order under section 84.775 for a violation of the prohibition on the intentional operation on unfrozen public water, in a state park, in a scientific and natural area, or in a wildlife management area under section 84.773, subdivision 1, clause (3);

(3) convicted of or is subject to a final order under section 84.775 for a violation of the prohibition on the willful, wanton, or reckless disregard for the safety of persons or property under section 84.773, subdivision 2, clause (1); or

EFFECTIVE DATE. This section is effective August 1, 2009, and applies to crimes committed on or after that date.

Sec. 5. **[84.7741] OFF-HIGHWAY VEHICLE FORFEITURE.**

Subdivision 1. Definitions. (a) As used in this section, the following terms have the meanings given them.

(b) "Appropriate agency" means a law enforcement agency that has the authority to make an arrest for a violation of a designated offense.

(c) "Claimant" means an owner of an off-highway vehicle or a person claiming a leasehold or security interest in an off-highway vehicle.

(d) "Designated offense" means a second gross misdemeanor violation under section 84.774, paragraph (b).

(e) "Family or household member" means:

(1) a parent, stepparent, or guardian;

(2) any of the following persons related by blood, marriage, or adoption: brother, sister, stepbrother, stepsister, first cousin, aunt, uncle, nephew, niece, grandparent, great-grandparent, great-uncle, or great-aunt; or

(3) persons residing together or persons who regularly associate and communicate with one another outside of a workplace setting.

(f) "Off-highway vehicle" and "vehicle" do not include an off-highway vehicle that is stolen or taken in violation of the law.

(g) "Owner" means a person legally entitled to possession, use, and control of an off-highway vehicle, including a lessee of an off-highway vehicle if the lease agreement has a term of 180 days or more. There is a rebuttable presumption that a person registered as the owner of an off-highway vehicle according to the records of the Department of Public Safety or the Department of Natural Resources is the legal owner. For purposes of this section, if an off-highway vehicle is owned jointly by two or more people, each owner's interest extends to the whole of the vehicle and is not subject to apportionment.

(h) "Prosecuting authority" means the attorney in the jurisdiction in which the designated offense occurred, or a designee, who is responsible for prosecuting violations of a designated offense. If a state agency initiated the forfeiture and the attorney responsible for prosecuting the designated offense declines to pursue forfeiture, the attorney general's office, or its designee, may initiate forfeiture under this section.

(i) "Security interest" means a bona fide security interest perfected according to section 168A.17, subdivision 2, based on a loan or other financing that, if an off-highway vehicle is required to be registered under chapter 168, is listed on the vehicle's title.

Subd. 2. Seizure. (a) An off-highway vehicle subject to forfeiture under this section may be seized by the appropriate agency upon process issued by any court having jurisdiction over the vehicle.

(b) Property may be seized without process if:

(1) the seizure is incident to a lawful arrest or a lawful search;

(2) the vehicle subject to seizure has been the subject of a prior judgment in favor of the state in a criminal injunction or forfeiture proceeding under this section; or

(3) the appropriate agency has probable cause to believe that the delay occasioned by the necessity to obtain process would result in the removal or destruction of the vehicle. If property is seized without process under this clause, the prosecuting authority must

institute a forfeiture action under this section as soon as is reasonably possible by serving a notice of seizure and intent to forfeit at the address of the owner as listed in the records of the Department of Public Safety or Department of Natural Resources.

Subd. 3. **Right to possession vests immediately; custody.** All right, title, and interest in an off-highway vehicle subject to forfeiture under this section vests in the appropriate agency upon commission of the conduct resulting in the designated offense giving rise to the forfeiture. Any vehicle seized under this section is not subject to replevin, but is deemed to be in the custody of the appropriate agency subject to the orders and decrees of the court having jurisdiction over the forfeiture proceedings. When an off-highway vehicle is seized under this section, the appropriate agency may:

(1) place the vehicle under seal;

(2) remove the vehicle to a place designated by the agency;

(3) place a disabling device on the vehicle; and

(4) take other steps reasonable and necessary to secure the vehicle and prevent waste.

Subd. 4. **Bond by owner for possession.** If the owner of an off-highway vehicle that has been seized under this section seeks possession of the vehicle before the forfeiture action is determined, the owner may, subject to the approval of the appropriate agency, give security or post bond payable to the appropriate agency in an amount equal to the retail value of the seized vehicle. On posting the security or bond, the seized vehicle may be returned to the owner. The forfeiture action must proceed against the security as if it were the seized vehicle.

Subd. 5. **Evidence.** Certified copies of court records and off-highway vehicle and driver's records concerning prior incidents are admissible as substantive evidence where necessary to prove the commission of a designated offense.

Subd. 6. **Vehicle subject to forfeiture.** An off-highway vehicle is subject to forfeiture under this section if it was used in the commission of a designated offense.

Subd. 7. **Presumptions; limitations on vehicle forfeiture.** (a) An off-highway vehicle is presumed subject to forfeiture under this section if the driver:

(1) is convicted of the designated offense upon which the forfeiture is based; or

(2) fails to appear for a scheduled court appearance with respect to the designated offense charged and fails to voluntarily surrender within 48 hours after the time required for appearance.

(b) An off-highway vehicle encumbered by a security interest perfected according to section 168A.17, subdivision 2, or subject to a lease that has a term of 180 days or more, is subject to the interest of the secured party or lessor unless the party or lessor had knowledge of or consented to the act upon which the forfeiture is based. However, when

the proceeds of the sale of a seized vehicle do not equal or exceed the outstanding loan balance, the appropriate agency shall remit all proceeds of the sale to the secured party after deducting the agency's costs for the seizure, tow, storage, forfeiture, and sale of the vehicle. If the sale of the vehicle is conducted in a commercially reasonable manner consistent with section 336.9-610, the agency is not liable to the secured party for any amount owed on the loan in excess of the sale proceeds. The validity and amount of a nonperfected security interest must be established by its holder by clear and convincing evidence.

(c) Notwithstanding paragraph (b), the secured party's or lessor's interest in an off-highway vehicle is not subject to forfeiture based solely on the secured party's or lessor's knowledge of the act or omission upon which the forfeiture is based if the secured party or lessor demonstrates by clear and convincing evidence that the party or lessor took reasonable steps to terminate use of the vehicle by the offender.

(d) An off-highway vehicle is not subject to forfeiture under this section if its owner can demonstrate by clear and convincing evidence that the owner did not have actual or constructive knowledge that the vehicle would be used or operated in any manner contrary to law or that the owner took reasonable steps to prevent use of the vehicle by the offender. If the offender is a family or household member of the owner and has three or more prior off-highway vehicle convictions, the owner is presumed to know of any vehicle use by the offender that is contrary to law.

Subd. 8. Administrative forfeiture procedure. (a) An off-highway vehicle used to commit a designated offense is subject to administrative forfeiture under this subdivision.

(b) When an off-highway vehicle is seized under subdivision 2, or within a reasonable time after seizure, the appropriate agency shall serve the driver or operator of the vehicle with a notice of the seizure and intent to forfeit the vehicle. Additionally, when an off-highway vehicle is seized under subdivision 2, or within a reasonable time after that, all persons known to have an ownership, possessory, or security interest in the vehicle must be notified of the seizure and the intent to forfeit the vehicle. For those vehicles required to be registered under chapter 168, the notification to a person known to have a security interest in the vehicle is required only if the vehicle is registered under chapter 168 and the interest is listed on the vehicle's title. Notice mailed by certified mail to the address shown in Department of Public Safety records is sufficient notice to the registered owner of the vehicle. For off-highway vehicles not required to be registered under chapter 168, notice mailed by certified mail to the address shown in the applicable filing or registration for the vehicle is sufficient notice to a person known to have an

ownership, possessory, or security interest in the vehicle. Otherwise, notice may be given in the manner provided by law for service of a summons in a civil action.

(c) The notice must be in writing and contain:

(1) a description of the vehicle seized;

(2) the date of the seizure; and

(3) notice of the right to obtain judicial review of the forfeiture and of the procedure for obtaining that judicial review, printed in English, Hmong, and Spanish. Substantially, the following language must appear conspicuously: "IF YOU DO NOT DEMAND JUDICIAL REVIEW EXACTLY AS PRESCRIBED IN MINNESOTA STATUTES, SECTION 84.7741, SUBDIVISION 8, YOU LOSE THE RIGHT TO A JUDICIAL DETERMINATION OF THIS FORFEITURE AND YOU LOSE ANY RIGHT YOU MAY HAVE TO THE ABOVE-DESCRIBED PROPERTY. YOU MAY NOT HAVE TO PAY THE FILING FEE FOR THE DEMAND IF DETERMINED YOU ARE UNABLE TO AFFORD THE FEE. IF THE PROPERTY IS WORTH \$7,500 OR LESS, YOU MAY FILE YOUR CLAIM IN CONCILIATION COURT. YOU DO NOT HAVE TO PAY THE CONCILIATION COURT FILING FEE IF THE PROPERTY IS WORTH LESS THAN \$500."

(d) Within 30 days following service of a notice of seizure and forfeiture under this subdivision, a claimant may file a demand for a judicial determination of the forfeiture. The demand must be in the form of a civil complaint and must be filed with the court administrator in the county in which the seizure occurred, together with proof of service of a copy of the complaint on the prosecuting authority having jurisdiction over the forfeiture and the standard filing fee for civil actions unless the petitioner has the right to sue in forma pauperis under section 563.01. If the value of the seized property is \$7,500 or less, the claimant may file an action in conciliation court for recovery of the seized vehicle. A copy of the conciliation court statement of claim must be served personally or by mail on the prosecuting authority having jurisdiction over the forfeiture within 30 days following service of the notice of seizure and forfeiture under this subdivision. If the value of the seized property is less than \$500, the claimant does not have to pay the conciliation court filing fee. No responsive pleading is required of the prosecuting authority and no court fees may be charged for the prosecuting authority's appearance in the matter. Pleadings, filings, and methods of service are governed by the Rules of Civil Procedure.

(e) The complaint must be captioned in the name of the claimant as plaintiff and the seized vehicle as defendant and must state with specificity the grounds on which the claimant alleges the vehicle was improperly seized, the claimant's interest in the vehicle seized, and any affirmative defenses the claimant may have. Notwithstanding any law to

the contrary, an action for the return of an off-highway vehicle seized under this section may not be maintained by or on behalf of any person who has been served with a notice of seizure and forfeiture unless the person has complied with this subdivision.

(f) If the claimant makes a timely demand for a judicial determination under this subdivision, the forfeiture proceedings must be conducted according to subdivision 9.

Subd. 9. **Judicial forfeiture procedure.** (a) This subdivision governs judicial determinations of the forfeiture of an off-highway vehicle used to commit a designated offense. An action for forfeiture is a civil in rem action and is independent of any criminal prosecution. All proceedings are governed by the Rules of Civil Procedure.

(b) If no demand for judicial determination of the forfeiture is pending, the prosecuting authority may, in the name of the jurisdiction pursuing the forfeiture, file a separate complaint against the vehicle, describing it, specifying that it was used in the commission of a designated offense, and specifying the time and place of its unlawful use.

(c) The prosecuting authority may file an answer to a properly served demand for judicial determination, including an affirmative counterclaim for forfeiture. The prosecuting authority is not required to file an answer.

(d) A judicial determination under this subdivision must not precede adjudication in the criminal prosecution of the designated offense without the consent of the prosecuting authority. The district court administrator shall schedule the hearing as soon as practicable after adjudication in the criminal prosecution. The district court administrator shall establish procedures to ensure efficient compliance with this subdivision. The hearing is to the court without a jury.

(e) There is a presumption that an off-highway vehicle seized under this section is subject to forfeiture if the prosecuting authority establishes that the vehicle was used in the commission of a designated offense. A claimant bears the burden of proving any affirmative defense raised.

(f) If the forfeiture is based on the commission of a designated offense and the person charged with the designated offense appears in court as required and is not convicted of the offense, the court shall order the property returned to the person legally entitled to it upon that person's compliance with the redemption requirements of subdivision 12.

(g) If the lawful ownership of the vehicle used in the commission of a designated offense can be determined and the owner makes the demonstration required under subdivision 7, paragraph (d), the vehicle must be returned immediately upon the owner's compliance with the redemption requirements of subdivision 12.

(h) If the court orders the return of a seized vehicle under this subdivision, it must order that filing fees be reimbursed to the person who filed the demand for judicial

determination. In addition, the court may order sanctions under section 549.211. Any reimbursement fees or sanctions must be paid from other forfeiture proceeds of the law enforcement agency and prosecuting authority involved and in the same proportion as distributed under subdivision 10, paragraph (b).

Subd. 10. Disposition of forfeited vehicle. (a) If the vehicle is administratively forfeited under subdivision 8, or if the court finds under subdivision 9 that the vehicle is subject to forfeiture under subdivisions 6 and 7, the appropriate agency shall:

(1) sell the vehicle and distribute the proceeds under paragraph (b); or

(2) keep the vehicle for official use. If the agency keeps a forfeited off-highway vehicle for official use, the agency shall make reasonable efforts to ensure that the off-highway vehicle is available for use by the agency's officers who participate in off-highway vehicle enforcement or education programs.

(b) The proceeds from the sale of forfeited vehicles, after payment of seizure, towing, storage, forfeiture, and sale expenses and satisfaction of valid liens against the property, must be distributed as follows:

(1) 70 percent of the proceeds must be forwarded to the appropriate agency for deposit as a supplement to the state or local agency's operating fund or similar fund for use in purchasing equipment for off-highway vehicle enforcement, training, and education; and

(2) 30 percent of the money or proceeds must be forwarded to the prosecuting authority that handled the forfeiture for deposit as a supplement to its operating fund or similar fund for prosecutorial purposes.

Subd. 11. Sale of forfeited vehicle by secured party. (a) A financial institution with a valid security interest in or a valid lease covering a forfeited off-highway vehicle may choose to dispose of the vehicle under this subdivision, in lieu of the appropriate agency disposing of the vehicle under subdivision 10. A financial institution wishing to dispose of an off-highway vehicle under this subdivision shall notify the appropriate agency of its intent, in writing, within 30 days after receiving notice of the seizure and forfeiture. The appropriate agency shall release the vehicle to the financial institution or its agent after the financial institution presents proof of its valid security agreement or of its lease agreement and the financial institution agrees not to sell the vehicle to a family or household member of the violator, unless the violator is not convicted of the offense on which the forfeiture is based. The financial institution shall dispose of the vehicle in a commercially reasonable manner as defined in section 336.9-610.

(b) After disposing of the forfeited vehicle, the financial institution shall reimburse the appropriate agency for its seizure, storage, and forfeiture costs. The financial institution may then apply the proceeds of the sale to its storage costs, to its sale

expenses, and to satisfy the lien or the lease on the vehicle. If any proceeds remain, the financial institution shall forward the proceeds to the state treasury, which shall credit the appropriate fund as specified in subdivision 10.

Subd. 12. **Redemption requirements.** (a) If an off-highway vehicle is seized by a peace officer for a designated offense, the seized vehicle must be released only:

(1) to the registered owner, a person authorized by the registered owner, a lienholder of record, or a person who has purchased the vehicle from the registered owner who provides proof of ownership of the vehicle;

(2) if the vehicle is subject to a rental or lease agreement, to a renter or lessee who provides a copy of the rental or lease agreement; or

(3) to an agent of a towing company authorized by a registered owner if the owner provides proof of ownership of the vehicle.

(b) The proof of ownership or, if applicable, the copy of the rental or lease agreement required under paragraph (a) must be provided to the law enforcement agency seizing the vehicle or to a person or entity designated by the law enforcement agency to receive the information.

(c) No law enforcement agency, local unit of government, or state agency is responsible or financially liable for any storage fees incurred due to a seizure under this section.

EFFECTIVE DATE. This section is effective August 1, 2009, and applies to crimes committed on or after that date.

58.2 During the last two days of the 2009 early A season in Zone 3, a person may not take
58.3 antlered deer unless the deer has at least four points on one side, or the person has taken an
58.4 antlerless deer prior to taking the antlered deer during the early A season in Zone 3. Party
58.5 hunting for antlered deer under Minnesota Statutes, section 97B.301, subdivision 3, is not

58.8 Sec. 69. **APPROPRIATION.**

58.9 \$15,000 in fiscal year 2010 is appropriated from the game and fish fund to the
58.10 commissioner for the development of an on-line fishing contest permit application process.
58.11 This is a onetime appropriation.

58.12 Sec. 70. **LET'S GO FISHING; APPROPRIATION.**

58.13 (a) \$150,000 in fiscal year 2010 and \$150,000 in fiscal year 2011 are appropriated
58.14 from the game and fish fund to the commissioner of natural resources for grants to Let's
58.15 Go Fishing of Minnesota to provide community outreach to senior citizens, youth,
58.16 and veterans and for the costs associated with the establishment and recruitment of
58.17 new chapters. The grants must be matched with cash or in-kind contributions from
58.18 nonstate sources. It is a condition of acceptance of grants under this section that Let's Go
58.19 Fishing of Minnesota must submit a work program and annual progress reports in the
58.20 form and manner determined by the commissioner of natural resources to the house of
58.21 representatives and senate committees having budgetary oversight.

58.22 (b) The work program must include measurable outcomes and a plan for measuring
58.23 and evaluating the results. The measurement and evaluation of outcomes must be
58.24 supported with electronic data, including names of volunteers and guests, served in a
58.25 meaningful format with each reimbursement request. For the purposes of this paragraph,
58.26 "measurable outcomes" mean outcomes, indicators, or other performance measures that
58.27 may be quantified or otherwise measured in order to measure the effectiveness of a project
58.28 or program in meeting its intended goal or purpose.

58.29 (c) This appropriation may not be used to reimburse costs for lobbying or fundraising
58.30 activities. Funds may be used, as approved in the work program, to reimburse salaries
58.31 of individuals assigned responsibility for creating fundraising plans to be followed by
58.32 chapters, but not for direct participation by Let's Go Fishing staff in any fundraising
58.33 activity or costs associated with such activity. Administrative costs of delivering the
58.34 program may not exceed 2.5 percent of the grant.

(d) All reimbursed costs must comply with the Department of Administration's Office of Grant Management policies as described in Minnesota Statutes, section 16B.98. Written contracts must be developed for all financial-related activity, such as rent, leases, sponsorships, manufacturer, agreements, in excess of \$500 as prescribed in state policy.

(e) The work program must identify capital expenditures and leases over \$2,000 and annual reports must describe the use of that capital equipment throughout its useful life.

(f) The commissioner must approve the work program before making a grant to Let's Go Fishing of Minnesota. This is a onetime appropriation.

Sec. 71. **REPEALER.**

Minnesota Statutes 2008, sections 97A.525, subdivision 2; 97B.301, subdivisions 7 and 8; and 97C.405, are repealed.

STATE LAND ADMINISTRATION

Section 1. Minnesota Statutes 2008, section 84.0273, is amended to read:

84.0273 ESTABLISHMENT OF BOUNDARY LINES RELATING TO CERTAIN STATE LANDHOLDINGS.

(a) In order to resolve boundary line issues affecting the ownership interests of the state and adjacent landowners, the commissioner of natural resources may, in the name of the state upon terms the commissioner deems appropriate, convey, by a boundary line agreement, quitclaim deed, or management agreement in such form as the attorney general approves, such rights, titles, and interests of the state in state lands for such rights, titles and interests in adjacent lands as are necessary for the purpose of establishing boundaries. A notice of the proposed conveyance and a brief statement of the reason therefor shall be published once in the State Register by the commissioner between 15 and 30 days prior to conveyance. The provisions of this ~~section~~ paragraph are not intended to replace or supersede laws relating to land exchange or disposal of surplus state property.

(b) In order to resolve trespass issues affecting the ownership interests of the state and adjacent landowners, the commissioner of natural resources, in the name of the state, may sell surplus lands not needed for natural resource purposes at private sale to adjoining property owners and leaseholders. The conveyance must be by quitclaim in a form approved by the attorney general for a consideration not less than the value determined according to section 94.10, subdivision 1.

(c) Paragraph (b) applies to all state-owned lands managed by the commissioner of natural resources, except school trust land as defined in section 92.025. For acquired lands,

the commissioner may sell the surplus lands as provided in paragraph (b) notwithstanding the offering to public entities, public sale, and related notice and publication requirements of sections 94.09 to 94.165. For consolidated conservation lands, the commissioner may sell the surplus lands as provided in paragraph (b) notwithstanding the classification and public sale provisions of chapters 84A and 282.

Sec. 2. [84.0277] CAMP RIPLEY BUFFER EASEMENTS.

Subdivision 1. **Acquisition authorized.** The commissioner may acquire, from willing sellers, perpetual conservation easements on behalf of the state and federal government consistent with Camp Ripley's Army compatible use buffer project. This project is geographically defined as a three-mile zone around Camp Ripley in central Minnesota.

Subd. 2. **Payments; terms.** Notwithstanding sections 84.0272, subdivision 1, and 84.0274, subdivision 5, paragraph (b), the commissioner may make payments to a landowner under this subdivision to acquire a perpetual conservation easement according to subdivision 1. The onetime payment may be based on the following:

(1) if the easement prohibits the construction of any new buildings or permanent structures upon the land, the commissioner may pay 60 percent of the most recent assessed market value of the land as determined by the county assessor of the county in which the land is located; or

(2) if the easement prohibits the construction of any new buildings or permanent structures upon the land and grants the public the right to access the land for natural resource-based outdoor recreation, the commissioner may pay 70 percent of the most recent assessed market value of the land as determined by the county assessor of the county in which the land is located.

Sec. 3. Minnesota Statutes 2008, section 85.0115, is amended to read:

85.0115 NOTICE OF ADDITIONS AND DELETIONS.

(a) The commissioner of natural resources shall publish a notice and description of proposed additions to and deletions from legislatively designated boundaries of state parks in a legal newspaper of general circulation in each county that is affected, and shall mail a copy of such notice and description to the chair of the affected county board or boards and to each affected landowner.

(b) When an addition to a legislatively designated boundary of a state park is proposed, the affected county board or boards or an affected city or township board may petition the commissioner of natural resources to attend a public hearing to discuss the

61.1 proposed addition. The petition must be signed by the majority of the board members and
61.2 include the time, date, and reason for the hearing, and be submitted to the commissioner
61.3 of natural resources 30 days prior to the public hearing. The commissioner of natural
61.4 resources or the commissioner's designee shall attend the public hearing when petitioned
61.5 under this section.

61.6 Sec. 4. Minnesota Statutes 2008, section 85.015, subdivision 13, is amended to read:

61.7 Subd. 13. **Arrowhead Region Trails, in Cook, Lake, St. Louis, Pine, Carlton,**

61.11 Itasca County and there terminate;

61.12 (2) The ~~Northshore~~ C. J. Ramstad/Northshore Trail shall originate in Duluth in
61.13 St. Louis County and extend northeasterly to Two Harbors in Lake County, thence
61.14 northeasterly to Grand Marais in Cook County, thence northeasterly to the international
61.15 boundary in the vicinity of the north shore of Lake Superior, and there terminate;

61.16 (3) The Grand Marais to International Falls Trail shall originate in Grand Marais
61.17 in Cook County and extend northwesterly, outside of the Boundary Waters Canoe Area,

61.20 Louis County to International Falls in Koochiching County, and there terminate.

61.21 (b) The trails shall be developed primarily for riding and hiking.

61.22 (c) In addition to the authority granted in subdivision 1, lands and interests in lands
61.23 for the Arrowhead Region trails may be acquired by eminent domain. Before acquiring
61.24 any land or interest in land by eminent domain the commissioner of administration shall
61.25 obtain the approval of the governor. The governor shall consult with the Legislative
61.26 Advisory Commission before granting approval. Recommendations of the Legislative
61.27 Advisory Commission shall be advisory only. Failure or refusal of the commission to
61.28 make a recommendation shall be deemed a negative recommendation.

61.29 Sec. 5. Minnesota Statutes 2008, section 103F.321, is amended by adding a subdivision
61.30 to read:

61.31 Subd. 3. **Home-based business; conditional use.** A local unit of government may
61.32 issue a conditional use permit in a wild and scenic river district designated pursuant to

61.34 (1) is located on property that includes the primary residence of the business owner;

62.1 (2) is conducted within the primary residence or residential accessory structure
62.2 and the residence and accessory structures were constructed prior to the effective date
62.3 of this section;

62.4 (3) does not necessitate creation of additional impervious surface for vehicular
62.5 parking on the property;

62.6 (4) satisfies all other requirements in a conditional use permit issued by the local
62.7 unit of government; and

62.8 (5) satisfies all other state and local requirements applicable to the type of business.

62.9 **EFFECTIVE DATE.** This section is effective the day following final enactment.

62.10 Sec. 6. Minnesota Statutes 2008, section 282.04, subdivision 1, is amended to read:

62.11 Subdivision 1. **Timber sales; land leases and uses.** (a) The county auditor may
62.12 sell timber upon any tract that may be approved by the natural resources commissioner.
62.13 The sale of timber shall be made for cash at not less than the appraised value determined
62.14 by the county board to the highest bidder after not less than one week's published notice
62.15 in an official paper within the county. Any timber offered at the public sale and not sold
62.16 may thereafter be sold at private sale by the county auditor at not less than the appraised
62.17 value thereof, until the time as the county board may withdraw the timber from sale. The
62.18 appraised value of the timber and the forestry practices to be followed in the cutting of
62.19 said timber shall be approved by the commissioner of natural resources.

62.20 (b) Payment of the full sale price of all timber sold on tax-forfeited lands shall be
62.21 made in cash at the time of the timber sale, except in the case of oral or sealed bid auction
62.22 sales, the down payment shall be no less than 15 percent of the appraised value, and the
62.23 balance shall be paid prior to entry. In the case of auction sales that are partitioned and
62.24 sold as a single sale with predetermined cutting blocks, the down payment shall be no less
62.25 than 15 percent of the appraised price of the entire timber sale which may be held until the
62.26 satisfactory completion of the sale or applied in whole or in part to the final cutting block.
62.27 The value of each separate block must be paid in full before any cutting may begin in that
62.28 block. With the permission of the county contract administrator the purchaser may enter
62.29 unpaid blocks and cut necessary timber incidental to developing logging roads as may
62.30 be needed to log other blocks provided that no timber may be removed from an unpaid
62.31 block until separately scaled and paid for. If payment is provided as specified in this
62.32 paragraph as security under paragraph (a) and no cutting has taken place on the contract,
62.33 the county auditor may credit the security provided, less any down payment required for
62.34 an auction sale under this paragraph, to any other contract issued to the contract holder
62.35 by the county under this chapter to which the contract holder requests in writing that it

be credited, provided the request and transfer is made within the same calendar year as the security was received.

(c) The county board may sell any timber, including biomass, as appraised or scaled. Any parcels of land from which timber is to be sold by scale of cut products shall be so designated in the published notice of sale under paragraph (a), in which case the notice shall contain a description of the parcels, a statement of the estimated quantity of each species of timber, and the appraised price of each species of timber for 1,000 feet, per cord or per piece, as the case may be. In those cases any bids offered over and above the appraised prices shall be by percentage, the percent bid to be added to the appraised price of each of the different species of timber advertised on the land. The purchaser of timber from the parcels shall pay in cash at the time of sale at the rate bid for all of the timber shown in the notice of sale as estimated to be standing on the land, and in addition shall pay at the same rate for any additional amounts which the final scale shows to have been cut or was available for cutting on the land at the time of sale under the terms of the sale. Where the final scale of cut products shows that less timber was cut or was available for cutting under terms of the sale than was originally paid for, the excess payment shall be refunded from the forfeited tax sale fund upon the claim of the purchaser, to be audited and allowed by the county board as in case of other claims against the county. No timber, except hardwood pulpwood, may be removed from the parcels of land or other designated landings until scaled by a person or persons designated by the county board and approved by the commissioner of natural resources. Landings other than the parcel of land from which timber is cut may be designated for scaling by the county board by written agreement with the purchaser of the timber. The county board may, by written agreement with the purchaser and with a consumer designated by the purchaser when the timber is sold by the county auditor, and with the approval of the commissioner of natural resources, accept the consumer's scale of cut products delivered at the consumer's landing. No timber shall be removed until fully paid for in cash. Small amounts of timber not exceeding \$3,000 in appraised valuation may be sold for not less than the full appraised value at private sale to individual persons without first publishing notice of sale or calling for bids, provided that in case of a sale involving a total appraised value of more than \$200 the sale shall be made subject to final settlement on the basis of a scale of cut products in the manner above provided and not more than two of the sales, directly or indirectly to any individual shall be in effect at one time.

(d) As directed by the county board, the county auditor may lease tax-forfeited land to individuals, corporations or organized subdivisions of the state at public or private sale, and at the prices and under the terms as the county board may prescribe, for use as cottage

and camp sites and for agricultural purposes and for the purpose of taking and removing of hay, stumpage, sand, gravel, clay, rock, marl, and black dirt from the land, and for garden sites and other temporary uses provided that no leases shall be for a period to exceed ten years; provided, further that any leases involving a consideration of more than \$12,000 per year, except to an organized subdivision of the state shall first be offered at public sale in the manner provided herein for sale of timber. Upon the sale of any leased land, it shall remain subject to the lease for not to exceed one year from the beginning of the term of the lease. Any rent paid by the lessee for the portion of the term cut off by the cancellation shall be refunded from the forfeited tax sale fund upon the claim of the lessee, to be audited and allowed by the county board as in case of other claims against the county.

(e) As directed by the county board, the county auditor may lease tax-forfeited land to individuals, corporations, or organized subdivisions of the state at public or private sale, at the prices and under the terms as the county board may prescribe, for the purpose of taking and removing for use for road construction and other purposes tax-forfeited stockpiled iron-bearing material. The county auditor must determine that the material is needed and suitable for use in the construction or maintenance of a road, tailings basin, settling basin, dike, dam, bank fill, or other works on public or private property, and that the use would be in the best interests of the public. No lease shall exceed ten years. The use of a stockpile for these purposes must first be approved by the commissioner of natural resources. The request shall be deemed approved unless the requesting county is notified to the contrary by the commissioner of natural resources within six months after receipt of a request for approval for use of a stockpile. Once use of a stockpile has been approved, the county may continue to lease it for these purposes until approval is withdrawn by the commissioner of natural resources.

(f) The county auditor, with the approval of the county board is authorized to grant permits, licenses, and leases to tax-forfeited lands for the depositing of stripping, lean ores, tailings, or waste products from mines or ore milling plants, or to use for facilities needed to recover iron-bearing oxides from tailings basins or stockpiles, or for a buffer area needed for a mining operation, upon the conditions and for the consideration and for the period of time, not exceeding ~~15~~ 25 years, as the county board may determine. The permits, licenses, or leases are subject to approval by the commissioner of natural resources.

(g) Any person who removes any timber from tax-forfeited land before said timber has been scaled and fully paid for as provided in this subdivision is guilty of a misdemeanor.

(h) The county auditor may, with the approval of the county board, and without first offering at public sale, grant leases, for a term not exceeding 25 years, for the removal

of peat and for the production or removal of farm-grown closed-loop biomass as defined in section 216B.2424, subdivision 1, or short-rotation woody crops from tax-forfeited lands upon the terms and conditions as the county board may prescribe. Any lease for the removal of peat, farm-grown closed-loop biomass, or short-rotation woody crops from tax-forfeited lands must first be reviewed and approved by the commissioner of natural resources if the lease covers 320 or more acres. No lease for the removal of peat, farm-grown closed-loop biomass, or short-rotation woody crops shall be made by the county auditor pursuant to this section without first holding a public hearing on the auditor's intention to lease. One printed notice in a legal newspaper in the county at least ten days before the hearing, and posted notice in the courthouse at least 20 days before the hearing shall be given of the hearing.

(i) Notwithstanding any provision of paragraph (c) to the contrary, the St. Louis County auditor may, at the discretion of the county board, sell timber to the party who bids the highest price for all the several kinds of timber, as provided for sales by the commissioner of natural resources under section 90.14. Bids offered over and above the appraised price need not be applied proportionately to the appraised price of each of the different species of timber.

(j) In lieu of any payment or deposit required in paragraph (b), as directed by the county board and under terms set by the county board, the county auditor may accept an irrevocable bank letter of credit in the amount equal to the amount otherwise determined in paragraph (b). If an irrevocable bank letter of credit is provided under this paragraph, at the written request of the purchaser, the county may periodically allow the bank letter of credit to be reduced by an amount proportionate to the value of timber that has been harvested and for which the county has received payment. The remaining amount of the bank letter of credit after a reduction under this paragraph must not be less than 20 percent of the value of the timber purchased. If an irrevocable bank letter of credit or cash deposit is provided for the down payment required in paragraph (b), and no cutting of timber has taken place on the contract for which a letter of credit has been provided, the county may allow the transfer of the letter of credit to any other contract issued to the contract holder by the county under this chapter to which the contract holder requests in writing that it be credited.

Sec. 7. Laws 1996, chapter 407, section 32, subdivision 3, is amended to read:

Subd. 3. **Acquisition and management.** The commissioner of natural resources is authorized to acquire by gift, lease, or purchase the lands for the Iron Range off-highway vehicle recreation area. Any lease with local government units shall be for at least ten

66.1 years and may be paid up front at the request of either party. The commissioner shall
66.2 manage the unit as a state recreation area as provided by Minnesota Statutes, section
66.3 86A.05, subdivision 3. The commissioner or the commissioner's designee in the trails and
66.4 waterways division of the department of natural resources shall develop and manage the
66.5 area for off-highway vehicle recreational use.
