BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

ARTICLE 1 LICENSING

Section 1. Minnesota Statutes 2008, section 245A.10, subdivision 2, is amended to read:

Subd. 2. **County fees for background studies and licensing inspections.** (a) For purposes of family and group family child care licensing under this chapter, a county

agency may charge a fee to an applicant or license holder to recover the actual cost of background studies, but in any case not to exceed \$100 annually. A county agency may also charge a license fee to an applicant or license holder not to exceed \$50 for a one-year license or \$100 for a two-year license.

(b) A county agency may charge a fee to a legal nonlicensed child care provider or applicant for authorization to recover the actual cost of background studies completed under section 119B.125, but in any case not to exceed \$100 annually.

(c) Counties may elect to reduce or waive the fees in paragraph (a) or (b):

(1) in cases of financial hardship;

(2) if the county has a shortage of providers in the county's area;

(3) for new providers; or

(4) for providers who have attained at least 16 hours of training before seeking initial licensure.

(d) Counties may allow providers to pay the applicant fees in paragraph (a) or (b) on an installment basis for up to one year. If the provider is receiving child care assistance payments from the state, the provider may have the fees under paragraph (a) or (b) deducted from the child care assistance payments for up to one year and the state shall reimburse the county for the county fees collected in this manner.

(e) For purposes of adult foster care and child foster care licensing under this chapter, a county agency may charge a fee to a corporate applicant or corporate license holder to recover ~~the actual cost of background studies. A county agency may also charge a fee to a corporate applicant or corporate license holder to recover~~ the actual cost of licensing inspections, not to exceed \$500 annually.

(f) Counties may elect to reduce or waive the fees in paragraph (e) under the following circumstances:

(1) in cases of financial hardship;

(2) if the county has a shortage of providers in the county's area; or

(3) for new providers.

Sec. 2. Minnesota Statutes 2008, section 245A.10, subdivision 3, is amended to read:

Subd. 3. Application fee for initial license or certification. (a) For fees required under subdivision 1, an applicant for an initial license or certification issued by the commissioner shall submit a \$500 application fee with each new application required under this subdivision. The application fee shall not be prorated, is nonrefundable, and is in lieu of the annual license or certification fee that expires on December 31. The commissioner shall not process an application until the application fee is paid.

(b) Except as provided in clauses (1) to (3), an applicant shall apply for a license to provide services at a specific location.

(1) For a license to provide ~~waivered~~ residential-based habilitation services to persons with developmental disabilities ~~or related conditions~~ under chapter 245B, an applicant shall submit an application for each county in which the ~~waivered~~ services will be provided. Upon licensure, the license holder may provide services to persons in that county plus no more than three persons at any one time in each of up to ten additional counties. A license holder in one county may not provide services under the home and community-based waiver for persons with developmental disabilities to more than three people in a second county without holding a separate license for that second county. Applicants or licensees providing services under this clause to not more than three persons remain subject to the inspection fees established in section 245A.10, subdivision 2, for each location. The license issued by the commissioner must state the name of each additional county where services are being provided to persons with developmental disabilities. A license holder must notify the commissioner before making any changes that would alter the license information listed under section 245A.04, subdivision 7, paragraph (a), including any additional counties where persons with developmental disabilities are being served.

(2) For a license to provide supported employment, crisis respite, or semi-independent living services to persons with developmental disabilities ~~or related conditions~~ under chapter 245B, an applicant shall submit a single application to provide services statewide.

(3) For a license to provide independent living assistance for youth under section 245A.22, an applicant shall submit a single application to provide services statewide.

Sec. 3. Minnesota Statutes 2008, section 245A.11, subdivision 2a, is amended to read:

Subd. 2a. **Adult foster care license capacity.** The commissioner shall issue adult foster care licenses with a maximum licensed capacity of four beds, including nonstaff roomers and boarders, except that the commissioner may issue a license with a capacity of five beds, including roomers and boarders, according to paragraphs (a) to (e).

(a) An adult foster care license holder may have a maximum license capacity of five if all persons in care are age 55 or over and do not have a serious and persistent mental illness or a developmental disability.

(b) The commissioner may grant variances to paragraph (a) to allow a foster care provider with a licensed capacity of five persons to admit an individual under the age of 55

if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed foster care provider is located.

(c) The commissioner may grant variances to paragraph (a) to allow the use of a fifth bed for emergency crisis services for a person with serious and persistent mental illness or a developmental disability, regardless of age, if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed foster care provider is located.

(d) ~~Notwithstanding paragraph (a),~~ If the 2009 legislature adopts a rate reduction that impacts providers of adult foster care services, the commissioner may issue an adult foster care license with a capacity of five adults if the fifth bed does not increase the overall statewide capacity of licensed adult foster care beds in homes that are not the primary residence of the license holder, over the licensed capacity in such homes on July 1, 2009, as identified in a plan submitted to the commissioner by the county, when the capacity is recommended by the county licensing agency of the county in which the facility is located and if the recommendation verifies that:

(1) the facility meets the physical environment requirements in the adult foster care licensing rule;

(2) the five-bed living arrangement is specified for each resident in the resident's:

(i) individualized plan of care;

(ii) individual service plan under section 256B.092, subdivision 1b, if required; or

(iii) individual resident placement agreement under Minnesota Rules, part 9555.5105, subpart 19, if required;

(3) the license holder obtains written and signed informed consent from each resident or resident's legal representative documenting the resident's informed choice to living in the home and that the resident's refusal to consent would not have resulted in service termination; and

(4) the facility was licensed for adult foster care before March 1, ~~2003~~ 2009.

(e) The commissioner shall not issue a new adult foster care license under paragraph (d) after June 30, ~~2005~~ 2011. The commissioner shall allow a facility with an adult foster care license issued under paragraph (d) before June 30, ~~2005~~ 2011, to continue with a capacity of five adults if the license holder continues to comply with the requirements in paragraph (d).

EFFECTIVE DATE. This section is effective July 1, 2009.

Sec. 4. Minnesota Statutes 2008, section 245A.11, is amended by adding a subdivision to read:

Subd. 7a. **Alternate overnight supervision technology; adult foster care license.**

(a) The commissioner may grant an applicant or license holder an adult foster care license for a residence that does not have a caregiver in the residence during normal sleeping hours as required under Minnesota Rules, part 9555.5105, subpart 37, item B, but uses monitoring technology to alert the license holder when an incident occurs that may jeopardize the health, safety, or rights of a foster care recipient. The applicant or license holder must comply with all other requirements under Minnesota Rules, parts 9555.5105 to 9555.6265, and the requirements under this subdivision. The license printed by the commissioner must state in bold and large font:

(1) that the facility is under electronic monitoring; and

(2) the telephone number of the county's common entry point for making reports of suspected maltreatment of vulnerable adults under section 626.557, subdivision 9.

(b) Applications for a license under this section must be submitted directly to the Department of Human Services licensing division. The licensing division must immediately notify the host county and lead county contract agency and the host county licensing agency. The licensing division must collaborate with the county licensing agency in the review of the application and the licensing of the program.

(c) Before a license is issued by the commissioner, and for the duration of the license, the applicant or license holder must establish, maintain, and document the implementation of written policies and procedures addressing the requirements in paragraphs (d) through (f).

(d) The applicant or license holder must have policies and procedures that:

(1) establish characteristics of target populations that will be admitted into the home, and characteristics of populations that will not be accepted into the home;

(2) explain the discharge process when a foster care recipient requires overnight supervision or other services that cannot be provided by the license holder due to the limited hours that the license holder is on-site;

(3) describe the types of events to which the program will respond with a physical presence when those events occur in the home during time when staff are not on-site, and how the license holder's response plan meets the requirements in paragraph (e), clause (1) or (2);

(4) establish a process for documenting a review of the implementation and effectiveness of the response protocol for the response required under paragraph (e), clause (1) or (2). The documentation must include:

(i) a description of the triggering incident;

(ii) the date and time of the triggering incident;

(iii) the time of the response or responses under paragraph (e), clause (1) or (2);

(iv) whether the response met the resident's needs;

(v) whether the existing policies and response protocols were followed; and

(vi) whether the existing policies and protocols are adequate or need modification.

When no physical presence response is completed for a three-month period, the license holder's written policies and procedures must require a physical presence response drill be to conducted for which the effectiveness of the response protocol under paragraph (e), clause (1) or (2), will be reviewed and documented as required under this clause; and

(5) establish that emergency and nonemergency phone numbers are posted in a prominent location in a common area of the home where they can be easily observed by a person responding to an incident who is not otherwise affiliated with the home.

(e) The license holder must document and include in the license application which response alternative under clause (1) or (2) is in place for responding to situations that present a serious risk to the health, safety, or rights of people receiving foster care services in the home:

(1) response alternative (1) requires only the technology to provide an electronic notification or alert to the license holder that an event is underway that requires a response. Under this alternative, no more than ten minutes will pass before the license holder will be physically present on-site to respond to the situation; or

(2) response alternative (2) requires the electronic notification and alert system under alternative (1), but more than ten minutes may pass before the license holder is present on-site to respond to the situation. Under alternative (2), all of the following conditions are met:

(i) the license holder has a written description of the interactive technological applications that will assist the licenser holder in communicating with and assessing the needs related to care, health, and safety of the foster care recipients. This interactive technology must permit the license holder to remotely assess the well being of the foster care recipient without requiring the initiation of the foster care recipient. Requiring the foster care recipient to initiate a telephone call does not meet this requirement;

(ii) the license holder documents how the remote license holder is qualified and capable of meeting the needs of the foster care recipients and assessing foster care recipients' needs under item (i) during the absence of the license holder on-site;

(iii) the license holder maintains written procedures to dispatch emergency response personnel to the site in the event of an identified emergency; and

(iv) each foster care recipient's individualized plan of care, individual service plan under section 256B.092, subdivision 1b, if required, or individual resident placement

agreement under Minnesota Rules, part 9555.5105, subpart 19, if required, identifies the maximum response time, which may be greater than ten minutes, for the license holder to be on-site for that foster care recipient.

(f) All placement agreements, individual service agreements, and plans applicable to the foster care recipient must clearly state that the adult foster care license category is a program without the presence of a caregiver in the residence during normal sleeping hours; the protocols in place for responding to situations that present a serious risk to health, safety, or rights of foster care recipients under paragraph (e), clause (1) or (2); and a signed informed consent from each foster care recipient or the person's legal representative documenting the person's or legal representative's agreement with placement in the program. If electronic monitoring technology is used in the home, the informed consent form must also explain the following:

(1) how any electronic monitoring is incorporated into the alternative supervision system;

(2) the backup system for any electronic monitoring in times of electrical outages or other equipment malfunctions;

(3) how the license holder is trained on the use of the technology;

(4) the event types and license holder response times established under paragraph (e);

(5) how the license holder protects the foster care recipient's privacy related to electronic monitoring and related to any electronically recorded data generated by the monitoring system. A foster care recipient may not be removed from a program under this subdivision for failure to consent to electronic monitoring. The consent form must explain where and how the electronically recorded data is stored, with whom it will be shared, and how long it is retained; and

(6) the risks and benefits of the alternative overnight supervision system.

The written explanations under clauses (1) to (6) may be accomplished through cross-references to other policies and procedures as long as they are explained to the person giving consent, and the person giving consent is offered a copy.

(g) Nothing in this section requires the applicant or license holder to develop or maintain separate or duplicative policies, procedures, documentation, consent forms, or individual plans that may be required for other licensing standards, if the requirements of this section are incorporated into those documents.

(h) The commissioner may grant variances to the requirements of this section according to section 245A.04, subdivision 9.

(i) For the purposes of paragraphs (d) through (h), license holder has the meaning under section 245A.2, subdivision 9, and additionally includes all staff, volunteers, and contractors affiliated with the license holder.

(j) For the purposes of paragraph (e), the terms "assess" and "assessing" mean to remotely determine what action the license holder needs to take to protect the well-being of the foster care recipient.

Sec. 5. Minnesota Statutes 2008, section 245A.11, is amended by adding a subdivision to read:

Subd. 8b. Adult foster care data privacy and security. (a) An adult foster care license holder who creates, collects, records, maintains, stores, or discloses any individually identifiable recipient data, whether in an electronic or any other format, must comply with the privacy and security provisions of applicable privacy laws and regulations, including:

(1) the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA), Public Law 104-1; and the HIPAA Privacy Rule, Code of Federal Regulations, title 45, part 160, and subparts A and E of part 164; and

(2) the Minnesota Government Data Practices Act as codified in chapter 13.

(b) For purposes of licensure, the license holder shall be monitored for compliance with the following data privacy and security provisions:

(1) the license holder must control access to data on foster care recipients according to the definitions of public and private data on individuals under section 13.02; classification of the data on individuals as private under section 13.46, subdivision 2; and control over the collection, storage, use, access, protection, and contracting related to data according to section 13.05, in which the license holder is assigned the duties of a government entity;

(2) the license holder must provide each foster care recipient with a notice that meets the requirements under section 13.04, in which the license holder is assigned the duties of the government entity, and that meets the requirements of Code of Federal Regulations, title 45, part 164.52. The notice shall describe the purpose for collection of the data, and to whom and why it may be disclosed pursuant to law. The notice must inform the recipient that the license holder uses electronic monitoring and, if applicable, that recording technology is used;

(3) the license holder must not install monitoring cameras in bathrooms;

(4) electronic monitoring cameras must not be concealed from the foster care recipients; and

(5) electronic video and audio recordings of foster care recipients shall not be stored by the license holder for more than five days.

(c) The commissioner shall develop, and make available to license holders and county licensing workers, a checklist of the data privacy provisions to be monitored for purposes of licensure.

Prior to admission of the fifth recipient of adult foster care services, the county must negotiate a revised per diem rate for room and board and waiver services that reflects the legislated rate reduction and results in an overall average per diem reduction for all foster care recipients in that home. The revised per diem must allow the provider to maintain, as much as possible, the level of services or enhanced services provided in the residence, while mitigating the losses of the legislated rate reduction.

17.1 **EFFECTIVE DATE.** This section is effective July 1, 2009.

17.2 Sec. 19. Minnesota Statutes 2008, section 256B.49, subdivision 17, is amended to read:

17.7 of the waiver.

17.8 (b) The commissioner shall implement on January 1, 2002, one or more aggregate,
17.9 need-based methods for allocating to local agencies the home and community-based

17.12 allocate resources to single counties and county partnerships in a manner that reflects
17.13 consideration of:

- 17.14 (1) an incentive-based payment process for achieving outcomes;
17.15 (2) the need for a state-level risk pool;
17.16 (3) the need for retention of management responsibility at the state agency level; and
17.17 (4) a phase-in strategy as appropriate.

17.18 (c) Until the allocation methods described in paragraph (b) are implemented, the
17.19 annual allowable reimbursement level of home and community-based waiver services
17.20 shall be the greater of:

- 17.21 (1) the statewide average payment amount which the recipient is assigned under the
17.22 waiver reimbursement system in place on June 30, 2001, modified by the percentage of
17.23 any provider rate increase appropriated for home and community-based services; or

17.24 (2) an amount approved by the commissioner based on the recipient's extraordinary
17.25 needs that cannot be met within the current allowable reimbursement level. The
17.26 increased reimbursement level must be necessary to allow the recipient to be discharged
17.27 from an institution or to prevent imminent placement in an institution. The additional
17.28 reimbursement may be used to secure environmental modifications; assistive technology
17.29 and equipment; and increased costs for supervision, training, and support services
17.30 necessary to address the recipient's extraordinary needs. The commissioner may approve
17.31 an increased reimbursement level for up to one year of the recipient's relocation from an
17.32 institution or up to six months of a determination that a current waiver recipient is at
17.33 imminent risk of being placed in an institution.

17.34 (d) Beginning July 1, 2001, medically necessary private duty nursing services will be
17.35 authorized under this section as complex and regular care according to sections 256B.0651

and 256B.0653 to 256B.0656. The rate established by the commissioner for registered nurse or licensed practical nurse services under any home and community-based waiver as of January 1, 2001, shall not be reduced.

(e) Notwithstanding section 252.28, subdivision 3, paragraph (d), if the 2009 legislature adopts a rate reduction that impacts payment to providers of adult foster care services, the commissioner may issue adult foster care licenses that permit a capacity of five adults. The application for a five-bed license must meet the requirements of section 245A.11, subdivision 2a. Prior to admission of the fifth recipient of adult foster care services, the county must negotiate a revised per diem rate for room and board and waiver services that reflects the legislated rate reduction and results in an overall average per diem reduction for all foster care recipients in that home. The revised per diem must allow the provider to maintain, as much as possible, the level of services or enhanced services provided in the residence, while mitigating the losses of the legislated rate reduction.

22.34 initial eligibility is determined; and

22.35 (3) include a child who has not yet entered kindergarten.

(b) A family who is determined to be eligible to choose an SRSA provider remains eligible to be paid at a higher rate through the SRSA provider when the following conditions exist:

(1) the child attends child care with the SRSA provider a minimum of 25 hours per week, on average;

(2) the family has a child who has not yet entered kindergarten; and

(3) the family maintains eligibility under chapter 119B except section 119B.035.

(c) ~~For the 12 months~~ After initial eligibility has been determined, a decrease in the family's authorized activities to an average of less than 35 hours per week does not result in ineligibility for the SRSA rate. A family must continue to maintain eligibility under this chapter and be in an authorized activity.

(d) A family that moves between counties but continues to use the same SRSA provider shall continue to receive SRSA funding for the increased payments.

Sec. 7. Minnesota Statutes 2008, section 119B.231, subdivision 4, is amended to read:

Subd. 4. **Requirements of providers.** An SRSA must include assessment, evaluation, and reporting requirements that promote the goals of improved school readiness and movement toward appropriate child development milestones. A provider who enters into an SRSA shall comply with all SRSA requirements, including the assessment, evaluation, and reporting requirements in the SRSA. Providers who have been selected previously for SRSAs must begin the process to obtain a rating using Parent Aware according to timelines established by the commissioner. If the initial Parent Aware rating is less than three stars, the provider must submit a plan to improve the rating. If a 3 or 4 star rating is not obtained within established timelines, the commissioner may consider continuation of the agreement, depending upon the progress made and other factors. Providers who apply and are selected for a new SRSA agreement on or after July 1, 2009, must have a level 3 or 4 star rating under the voluntary Parent Aware quality rating system at the time the SRSA agreement is signed.

Sec. 8. Minnesota Statutes 2008, section 145A.17, is amended by adding a subdivision to read:

Subd. 4a. **Home visitors as MFIP employment and training service providers.** The county social service agency and the local public health department may mutually agree to utilize home visitors under this section as MFIP employment and training service providers under section 256J.49, subdivision 4, for MFIP participants who are: (1) ill or incapacitated under section 256J.425, subdivision 2; or (2) minor caregivers under section

24.1 256J.54. The county social service agency and the local public health department may
24.2 also mutually agree to utilize home visitors to provide outreach to MFIP families who are
24.3 being sanctioned or who have been terminated from MFIP due to the 60-month time limit.

24.4 Sec. 9. Minnesota Statutes 2008, section 256.045, subdivision 3, is amended to read:

24.5 Subd. 3. **State agency hearings.** (a) State agency hearings are available for the
24.6 following:

24.7 (1) any person applying for, receiving or having received public assistance, medical
24.8 care, or a program of social services granted by the state agency or a county agency or
24.9 the federal Food Stamp Act whose application for assistance is denied, not acted upon
24.10 with reasonable promptness, or whose assistance is suspended, reduced, terminated, or
24.11 claimed to have been incorrectly paid;

24.12 (2) any patient or relative aggrieved by an order of the commissioner under section
24.13 252.27;

24.14 (3) a party aggrieved by a ruling of a prepaid health plan;

24.15 (4) except as provided under chapter 245C, any individual or facility determined by
24.16 a lead agency to have maltreated a vulnerable adult under section 626.557 after they have
24.17 exercised their right to administrative reconsideration under section 626.557;

24.18 (5) any person whose claim for foster care payment according to a placement of the
24.19 child resulting from a child protection assessment under section 626.556 is denied or not
24.20 acted upon with reasonable promptness, regardless of funding source;

24.21 (6) any person to whom a right of appeal according to this section is given by other
24.22 provision of law;

24.23 (7) an applicant aggrieved by an adverse decision to an application for a hardship
24.24 waiver under section 256B.15;

24.25 (8) an applicant aggrieved by an adverse decision to an application or redetermination
24.26 for a Medicare Part D prescription drug subsidy under section 256B.04, subdivision 4a;

24.27 (9) except as provided under chapter 245A, an individual or facility determined
24.28 to have maltreated a minor under section 626.556, after the individual or facility has
24.29 exercised the right to administrative reconsideration under section 626.556; ~~or~~

24.30 (10) except as provided under chapter 245C, an individual disqualified under sections
24.31 245C.14 and 245C.15, on the basis of serious or recurring maltreatment; a preponderance
24.32 of the evidence that the individual has committed an act or acts that meet the definition
24.33 of any of the crimes listed in section 245C.15, subdivisions 1 to 4; or for failing to make
24.34 reports required under section 626.556, subdivision 3, or 626.557, subdivision 3. Hearings
24.35 regarding a maltreatment determination under clause (4) or (9) and a disqualification under

this clause in which the basis for a disqualification is serious or recurring maltreatment, which has not been set aside under sections 245C.22 and 245C.23, shall be consolidated into a single fair hearing. In such cases, the scope of review by the human services referee shall include both the maltreatment determination and the disqualification. The failure to exercise the right to an administrative reconsideration shall not be a bar to a hearing under this section if federal law provides an individual the right to a hearing to dispute a finding of maltreatment. Individuals and organizations specified in this section may contest the specified action, decision, or final disposition before the state agency by submitting a written request for a hearing to the state agency within 30 days after receiving written notice of the action, decision, or final disposition, or within 90 days of such written notice if the applicant, recipient, patient, or relative shows good cause why the request was not submitted within the 30-day time limit; or

(11) any person with an outstanding debt resulting from receipt of public assistance, medical care, or the federal Food Stamp Act who is contesting a setoff claim by the Department of Human Services or a county agency. The scope of the appeal is the validity of the claimant agency's intention to request a setoff of a refund under chapter 270A against the debt.

(b) The hearing for an individual or facility under paragraph (a), clause (4), (9), or (10), is the only administrative appeal to the final agency determination specifically, including a challenge to the accuracy and completeness of data under section 13.04. Hearings requested under paragraph (a), clause (4), apply only to incidents of maltreatment that occur on or after October 1, 1995. Hearings requested by nursing assistants in nursing homes alleged to have maltreated a resident prior to October 1, 1995, shall be held as a contested case proceeding under the provisions of chapter 14. Hearings requested under paragraph (a), clause (9), apply only to incidents of maltreatment that occur on or after July 1, 1997. A hearing for an individual or facility under paragraph (a), clause (9), is only available when there is no juvenile court or adult criminal action pending. If such action is filed in either court while an administrative review is pending, the administrative review must be suspended until the judicial actions are completed. If the juvenile court action or criminal charge is dismissed or the criminal action overturned, the matter may be considered in an administrative hearing.

(c) For purposes of this section, bargaining unit grievance procedures are not an administrative appeal.

(d) The scope of hearings involving claims to foster care payments under paragraph (a), clause (5), shall be limited to the issue of whether the county is legally responsible for a child's placement under court order or voluntary placement agreement and, if so,

the correct amount of foster care payment to be made on the child's behalf and shall not include review of the propriety of the county's child protection determination or child placement decision.

(e) A vendor of medical care as defined in section 256B.02, subdivision 7, or a vendor under contract with a county agency to provide social services is not a party and may not request a hearing under this section, except if assisting a recipient as provided in subdivision 4.

(f) An applicant or recipient is not entitled to receive social services beyond the services prescribed under chapter 256M or other social services the person is eligible for under state law.

(g) The commissioner may summarily affirm the county or state agency's proposed action without a hearing when the sole issue is an automatic change due to a change in state or federal law.

Sec. 10. Minnesota Statutes 2008, section 256.983, subdivision 1, is amended to read:

Subdivision 1. **Programs established.** Within the limits of available appropriations, the commissioner of human services shall require the maintenance of budget neutral fraud prevention investigation programs in the counties participating in the fraud prevention investigation project established under this section. If funds are sufficient, the commissioner may also extend fraud prevention investigation programs to other counties provided the expansion is budget neutral to the state. Under any expansion, the commissioner has the final authority in decisions regarding the creation and realignment of individual county or regional operations.

Sec. 11. Minnesota Statutes 2008, section 256I.03, subdivision 7, is amended to read:

Subd. 7. **Countable income.** "Countable income" means all income received by an applicant or recipient less any applicable exclusions or disregards. For a recipient of any cash benefit from the SSI program, countable income means the SSI benefit limit in effect at the time the person is in a GRH ~~setting less \$20~~, less the medical assistance personal needs allowance. If the SSI limit has been reduced for a person due to events occurring prior to the persons entering the GRH setting, countable income means actual income less any applicable exclusions and disregards.

Sec. 13. Minnesota Statutes 2008, section 256J.24, subdivision 5, is amended to read:

Subd. 5. **MFIP transitional standard.** The MFIP transitional standard is based on the number of persons in the assistance unit eligible for both food and cash assistance unless the restrictions in subdivision 6 on the birth of a child apply. The following table represents the transitional standards effective ~~October 1, 2007~~ April 1, 2009.

Sec. 14. Minnesota Statutes 2008, section 256J.425, subdivision 2, is amended to read:

Subd. 2. **Ill or incapacitated.** (a) An assistance unit subject to the time limit in section 256J.42, subdivision 1, is eligible to receive months of assistance under a hardship extension if the participant who reached the time limit belongs to any of the following groups:

(1) participants who are suffering from an illness, injury, or incapacity which has been certified by a qualified professional when the illness, injury, or incapacity is

expected to continue for more than 30 days and ~~prevents the person from obtaining or retaining employment~~ severely limits the person's ability to obtain or maintain suitable employment. These participants must follow the treatment recommendations of the qualified professional certifying the illness, injury, or incapacity;

(2) participants whose presence in the home is required as a caregiver because of the illness, injury, or incapacity of another member in the assistance unit, a relative in the household, or a foster child in the household when the illness or incapacity and the need for a person to provide assistance in the home has been certified by a qualified professional and is expected to continue for more than 30 days; or

(3) caregivers with a child or an adult in the household who meets the disability or medical criteria for home care services under section 256B.0651, subdivision 1, paragraph (c), or a home and community-based waiver services program under chapter 256B, or meets the criteria for severe emotional disturbance under section 245.4871, subdivision 6, or for serious and persistent mental illness under section 245.462, subdivision 20, paragraph (c). Caregivers in this category are presumed to be prevented from obtaining or retaining employment.

(b) An assistance unit receiving assistance under a hardship extension under this subdivision may continue to receive assistance as long as the participant meets the criteria in paragraph (a), clause (1), (2), or (3).

Sec. 15. Minnesota Statutes 2008, section 256J.425, subdivision 3, is amended to read:

Subd. 3. **Hard-to-employ participants.** (a) An assistance unit subject to the time limit in section 256J.42, subdivision 1, is eligible to receive months of assistance under a hardship extension if the participant who reached the time limit belongs to any of the following groups:

(1) a person who is diagnosed by a licensed physician, psychological practitioner, or other qualified professional, as developmentally disabled or mentally ill, and ~~that condition prevents the person from obtaining or retaining unsubsidized employment~~ the condition severely limits the person's ability to obtain or maintain suitable employment;

(2) a person who:

(i) has been assessed by a vocational specialist or the county agency to be unemployable for purposes of this subdivision; or

(ii) has an IQ below 80 who has been assessed by a vocational specialist or a county agency to be employable, but ~~not at a level that makes the participant eligible for an extension under subdivision 4~~ the condition severely limits the person's ability to obtain or maintain suitable employment. The determination of IQ level must be made by a qualified

professional. In the case of a non-English-speaking person: (A) the determination must be made by a qualified professional with experience conducting culturally appropriate assessments, whenever possible; (B) the county may accept reports that identify an IQ range as opposed to a specific score; (C) these reports must include a statement of confidence in the results;

(3) a person who is determined by a qualified professional to be learning disabled, and the disability condition severely limits the person's ability to obtain, ~~perform~~, or maintain suitable employment. For purposes of the initial approval of a learning disability extension, the determination must have been made or confirmed within the previous 12 months. In the case of a non-English-speaking person: (i) the determination must be made by a qualified professional with experience conducting culturally appropriate assessments, whenever possible; and (ii) these reports must include a statement of confidence in the results. If a rehabilitation plan for a participant extended as learning disabled is developed or approved by the county agency, the plan must be incorporated into the employment plan. However, a rehabilitation plan does not replace the requirement to develop and comply with an employment plan under section 256J.521; or

(4) a person who has been granted a family violence waiver, and who is complying with an employment plan under section 256J.521, subdivision 3.

(b) For purposes of this section, "severely limits the person's ability to obtain or maintain suitable employment" means that a qualified professional has determined that the person's condition prevents the person from working 20 or more hours per week.

Sec. 16. Minnesota Statutes 2008, section 256J.49, subdivision 1, is amended to read:

Subdivision 1. **Scope.** The terms used in sections ~~256J.50~~ 256J.425 to 256J.72 have the meanings given them in this section.

Subd. 2. Employment plan; contents. (a) Based on the assessment under subdivision 1, the job counselor and the participant must develop an employment plan that includes participation in activities and hours that meet the requirements of section 256J.55, subdivision 1. The purpose of the employment plan is to identify for each participant the most direct path to unsubsidized employment and any subsequent steps that support long-term economic stability. The employment plan should be developed using the highest level of activity appropriate for the participant. Activities must be chosen from clauses (1) to (6), which are listed in order of preference. Notwithstanding this order of preference for activities, priority must be given for activities related to a family violence waiver when developing the employment plan. The employment plan must also list the specific steps the participant will take to obtain employment, including steps necessary for the participant to progress from one level of activity to another, and a timetable for completion of each step. Levels of activity include:

- (1) unsubsidized employment;
- (2) job search;
- (3) subsidized employment or unpaid work experience;
- (4) unsubsidized employment and job readiness education or job skills training;
- (5) unsubsidized employment or unpaid work experience and activities related to a family violence waiver or preemployment needs; and
- (6) activities related to a family violence waiver or preemployment needs.

(b) Participants who are determined to possess sufficient skills such that the participant is likely to succeed in obtaining unsubsidized employment must job search at least 30 hours per week for up to six weeks and accept any offer of suitable employment. The remaining hours necessary to meet the requirements of section 256J.55, subdivision 1, may be met through participation in other work activities under section 256J.49, subdivision 13. The participant's employment plan must specify, at a minimum: (1) whether the job search is supervised or unsupervised; (2) support services that will be provided; and (3) how frequently the participant must report to the job counselor. Participants who are unable to find suitable employment after six weeks must meet

with the job counselor to determine whether other activities in paragraph (a) should be incorporated into the employment plan. Job search activities which are continued after six weeks must be structured and supervised.

~~(c) Beginning July 1, 2004, activities and hourly requirements in the employment plan may be adjusted as necessary to accommodate the personal and family circumstances of participants identified under section 256J.561, subdivision 2, paragraph (d). Participants who no longer meet the provisions of section 256J.561, subdivision 2, paragraph (d), must meet with the job counselor within ten days of the determination to revise the employment plan.~~

~~(d)~~ Participants who are determined to have barriers to obtaining or retaining employment that will not be overcome during six weeks of job search under paragraph (b) must work with the job counselor to develop an employment plan that addresses those barriers by incorporating appropriate activities from paragraph (a), clauses (1) to (6). The employment plan must include enough hours to meet the participation requirements in section 256J.55, subdivision 1, unless a compelling reason to require fewer hours is noted in the participant's file.

~~(e)~~ (d) The job counselor and the participant must sign the employment plan to indicate agreement on the contents.

~~(f)~~ (e) Except as provided under paragraph ~~(g)~~ (f), failure to develop or comply with activities in the plan, or voluntarily quitting suitable employment without good cause, will result in the imposition of a sanction under section 256J.46.

~~(g)~~ (f) When a participant fails to meet the agreed upon hours of participation in paid employment because the participant is not eligible for holiday pay and the participant's place of employment is closed for a holiday, the job counselor shall not impose a sanction or increase the hours of participation in any other activity, including paid employment, to offset the hours that were missed due to the holiday.

~~(h)~~ (g) Employment plans must be reviewed at least every three months to determine whether activities and hourly requirements should be revised. The job counselor is encouraged to allow participants who are participating in at least 20 hours of work activities to also participate in education and training activities in order to meet the federal hourly participation rates.

Sec. 19. Minnesota Statutes 2008, section 256J.545, is amended to read:

Sec. 11. Minnesota Statutes 2008, section 246B.01, is amended by adding a subdivision to read:

Subd. 2a. **Cost of care.** "Cost of care" means the commissioner's charge for housing and treatment services provided to any person admitted to the Minnesota sex offender program.

For purposes of this subdivision, "charge for housing and treatment services" means the cost of services, treatment, maintenance, bonds issued for capital improvements, depreciation of buildings and equipment, and indirect costs related to the operation of

49.13 necessary, what amount of the cost of care, if any, the client is able to pay. The client shall
49.14 provide to the commissioner documents and proof necessary to determine the ability to

49.17 information is provided.

49.18 Subd. 2. **Rules.** The commissioner shall use the standards in section 246.51,

49.31 Subdivision 1. **Client's estate.** Upon the death of a client, or a former client, the
49.32 total cost of care provided to the client, less the amount actually paid toward the cost of

care by the client, must be filed by the commissioner as a claim against the estate of the client with the court having jurisdiction to probate the estate, and all proceeds collected by the state in the case must be divided between the state and county in proportion to the cost of care each has borne.

Subd. 2. **Preferred status.** An estate claim in subdivision 1 must be considered an expense of the last illness for purposes of section 524.3-805.

If the commissioner determines that the property or estate of a client is not more than needed to care for and maintain the spouse and minor or dependent children of a deceased client, the commissioner has the power to compromise the claim of the state in a manner deemed just and proper.

Subd. 3. **Exception from statute of limitations.** Any statute of limitations that limits the commissioner in recovering the cost of care obligation incurred by a client or former client must not apply to any claim against an estate made under this section to recover cost of care.

Sec. 16. [246B.10] LIABILITY OF COUNTY; REIMBURSEMENT.

If payments received by the state under this chapter exceed 90 percent of the cost of care, the county is responsible for paying the state the remaining amount. The county is not entitled to reimbursement from the client, the client's estate, or from the client's relatives, except as provided in section 246B.07.

Sec. 10. **[256.964] DENTAL CARE PILOT PROJECTS.**

The commissioner shall authorize pilot projects to reduce the total cost to the state for dental services provided to enrollees of the state public health care programs by reducing hospital emergency room costs for preventable or nonemergency dental services. As part of the project, a community dental clinic or dental provider, in collaboration with a hospital emergency room, shall provide urgent care dental services as an alternative to the hospital emergency room for nonemergency dental care. The project participants shall establish a process to divert a patient presenting at the emergency room for nonemergency dental care to the dental community clinic or to an appropriate dental provider. The commissioner may establish special payment rates for urgent care services provided and may change or waive existing payment policies in order to adequately reimburse providers for providing cost-effective alternative services in an outpatient or urgent care setting. The commissioner may establish a project in conjunction with the initiative authorized under section 256.963.

Sec. 11. Minnesota Statutes 2008, section 256.969, subdivision 2b, is amended to read:

Subd. 2b. **Operating payment rates.** In determining operating payment rates for admissions occurring on or after the rate year beginning January 1, 1991, and every two years after, or more frequently as determined by the commissioner, the commissioner shall obtain operating data from an updated base year and establish operating payment rates per admission for each hospital based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year. Rates under the general assistance medical care, medical assistance, and MinnesotaCare programs shall not be rebased to more current data on January 1, 1997, January 1, 2005, ~~and~~ for the first 24 months of the rebased period beginning January 1, 2009, and for the first three months of the rebased period beginning January 1, 2011. From April 1, 2011, to March 31, 2012, rates shall be rebased at 39.2 percent of the full value of the rebasing percentage change. Effective April 1, 2012, rates shall be rebased at full value. The base year operating payment rate per admission is standardized by the case mix index and adjusted by the hospital cost index, relative values, and disproportionate population adjustment. The

73.1 cost and charge data used to establish operating rates shall only reflect inpatient services
73.2 covered by medical assistance and shall not include property cost information and costs
73.3 recognized in outlier payments.

73.4 Sec. 12. Minnesota Statutes 2008, section 256.969, subdivision 3a, is amended to read:

73.5 Subd. 3a. **Payments.** (a) Acute care hospital billings under the medical
73.6 assistance program must not be submitted until the recipient is discharged. However,
73.7 the commissioner shall establish monthly interim payments for inpatient hospitals that
73.8 have individual patient lengths of stay over 30 days regardless of diagnostic category.
73.9 Except as provided in section 256.9693, medical assistance reimbursement for treatment
73.10 of mental illness shall be reimbursed based on diagnostic classifications. Individual
73.11 hospital payments established under this section and sections 256.9685, 256.9686, and
73.12 256.9695, in addition to third party and recipient liability, for discharges occurring during
73.13 the rate year shall not exceed, in aggregate, the charges for the medical assistance covered
73.14 inpatient services paid for the same period of time to the hospital. This payment limitation
73.15 shall be calculated separately for medical assistance and general assistance medical
73.16 care services. The limitation on general assistance medical care shall be effective for
73.17 admissions occurring on or after July 1, 1991. Services that have rates established under
73.18 subdivision 11 or 12, must be limited separately from other services. After consulting with
73.19 the affected hospitals, the commissioner may consider related hospitals one entity and
73.20 may merge the payment rates while maintaining separate provider numbers. The operating
73.21 and property base rates per admission or per day shall be derived from the best Medicare
73.22 and claims data available when rates are established. The commissioner shall determine
73.23 the best Medicare and claims data, taking into consideration variables of recency of the
73.24 data, audit disposition, settlement status, and the ability to set rates in a timely manner.
73.25 The commissioner shall notify hospitals of payment rates by December 1 of the year
73.26 preceding the rate year. The rate setting data must reflect the admissions data used to
73.27 establish relative values. Base year changes from 1981 to the base year established for the
73.28 rate year beginning January 1, 1991, and for subsequent rate years, shall not be limited
73.29 to the limits ending June 30, 1987, on the maximum rate of increase under subdivision
73.30 1. The commissioner may adjust base year cost, relative value, and case mix index data
73.31 to exclude the costs of services that have been discontinued by the October 1 of the year
73.32 preceding the rate year or that are paid separately from inpatient services. Inpatient stays
73.33 that encompass portions of two or more rate years shall have payments established based
73.34 on payment rates in effect at the time of admission unless the date of admission preceded
73.35 the rate year in effect by six months or more. In this case, operating payment rates for

services rendered during the rate year in effect and established based on the date of admission shall be adjusted to the rate year in effect by the hospital cost index.

(b) For fee-for-service admissions occurring on or after July 1, 2002, the total payment, before third-party liability and spenddown, made to hospitals for inpatient services is reduced by .5 percent from the current statutory rates.

(c) In addition to the reduction in paragraph (b), the total payment for fee-for-service admissions occurring on or after July 1, 2003, made to hospitals for inpatient services before third-party liability and spenddown, is reduced five percent from the current statutory rates. Mental health services within diagnosis related groups 424 to 432, and facilities defined under subdivision 16 are excluded from this paragraph.

(d) In addition to the reduction in paragraphs (b) and (c), the total payment for fee-for-service admissions occurring on or after July 1, 2005, made to hospitals for inpatient services before third-party liability and spenddown, is reduced 6.0 percent from the current statutory rates. Mental health services within diagnosis related groups 424 to 432 and facilities defined under subdivision 16 are excluded from this paragraph. Notwithstanding section 256.9686, subdivision 7, for purposes of this paragraph, medical assistance does not include general assistance medical care. Payments made to managed care plans shall be reduced for services provided on or after January 1, 2006, to reflect this reduction.

(e) In addition to the reductions in paragraphs (b), (c), and (d), the total payment for fee-for-service admissions occurring on or after July 1, 2008, through June 30, 2009, made to hospitals for inpatient services before third-party liability and spenddown, is reduced 3.46 percent from the current statutory rates. Mental health services with diagnosis related groups 424 to 432 and facilities defined under subdivision 16 are excluded from this paragraph. Payments made to managed care plans shall be reduced for services provided on or after January 1, 2009, through June 30, 2009, to reflect this reduction.

(f) In addition to the reductions in paragraphs (b), (c), and (d), the total payment for fee-for-service admissions occurring on or after July 1, 2009, through June 30, 2010, made to hospitals for inpatient services before third-party liability and spenddown, is reduced 1.9 percent from the current statutory rates. Mental health services with diagnosis related groups 424 to 432 and facilities defined under subdivision 16 are excluded from this paragraph. Payments made to managed care plans shall be reduced for services provided on or after July 1, 2009, through June 30, 2010, to reflect this reduction.

(g) In addition to the reductions in paragraphs (b), (c), and (d), the total payment for fee-for-service admissions occurring on or after July 1, 2010, made to hospitals for inpatient services before third-party liability and spenddown, is reduced 1.79 percent

75.1 from the current statutory rates. Mental health services with diagnosis related groups
75.2 424 to 432 and facilities defined under subdivision 16 are excluded from this paragraph.
75.3 Payments made to managed care plans shall be reduced for services provided on or after
75.4 July 1, 2010, to reflect this reduction.

75.5 (h) In addition to the reductions in paragraphs (b), (c), (d), (f), and (g), the total
75.6 payment for fee-for-service admissions occurring on or after July 1, 2009, made to
75.7 hospitals for inpatient services before third-party liability and spenddown, is reduced
75.8 one percent from the current statutory rates. Facilities defined under subdivision 16 are
75.9 excluded from this paragraph. Payments made to managed care plans shall be reduced for
75.10 services provided on or after October 1, 2009, to reflect this reduction.

75.11 Sec. 13. Minnesota Statutes 2008, section 256.969, is amended by adding a subdivision
75.12 to read:

75.13 Subd. 3b. **Nonpayment for hospital-acquired conditions and for certain**
75.14 **treatments.** (a) The commissioner must not make medical assistance payments to a
75.15 hospital for any costs of care that result from a condition listed in paragraph (c), if the
75.16 condition was hospital acquired.

75.17 (b) For purposes of this subdivision, a condition is hospital acquired if it is not
75.18 identified by the hospital as present on admission. For purposes of this subdivision,
75.19 medical assistance includes general assistance medical care and MinnesotaCare.

75.20 (c) The prohibition in paragraph (a) applies to payment for each hospital-acquired
75.21 condition listed in this paragraph that is represented by an ICD-9-CM diagnosis code and
75.22 is designated as a complicating condition or a major complicating condition:

75.23 (1) foreign object retained after surgery (ICD-9-CM codes 998.4 or 998.7);

(d) The prohibition in paragraph (a) applies to any additional payments that result from a hospital-acquired condition listed in paragraph (c), including, but not limited to, additional treatment or procedures, readmission to the facility after discharge, increased length of stay, change to a higher diagnostic category, or transfer to another hospital. In the event of a transfer to another hospital, the hospital where the condition listed under paragraph (c) was acquired is responsible for any costs incurred at the hospital to which the patient is transferred.

(e) A hospital shall not bill a recipient of services for any payment disallowed under this subdivision.

Sec. 14. Minnesota Statutes 2008, section 256.969, is amended by adding a subdivision to read:

Subd. 28. Temporary rate increase for qualifying hospitals. For the period from April 1, 2009, to September 30, 2010, for each hospital with a medical assistance utilization rate equal to or greater than 25 percent during the base year, the commissioner shall provide an equal percentage rate increase for each medical assistance admission. The commissioner shall estimate the percentage rate increase using as the state share of the increase the amount available under section 256B.199, paragraph (d). The commissioner shall settle up payments to qualifying hospitals based on actual payments under that section and actual hospital admissions.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 15. Minnesota Statutes 2008, section 256.969, is amended by adding a subdivision to read:

Subd. 29. Reimbursement for the fee increase for the early hearing detection and intervention program. For services provided on or after July 1, 2010, in addition to any other payment under this section, the commissioner shall reimburse hospitals for the increase in the fee for the early hearing detection and intervention program described in section 144.125, subdivision 1, paid by the hospital for public program recipients.

Sec. 16. **[256B.032] ELIGIBLE VENDORS OF MEDICAL CARE.**

(a) Effective January 1, 2011, the commissioner shall establish performance thresholds for health care providers included in the provider peer grouping system developed by the commissioner of health under section 62U.04. The thresholds shall be set at the 10th percentile of the combined cost and quality measure used for provider peer grouping, and separate thresholds shall be set for hospital and physician services.

(b) Beginning January 1, 2012, any health care provider with a combined cost and quality score below the threshold set in paragraph (a) shall be prohibited from enrolling as a vendor of medical care in the medical assistance, general assistance medical care, or MinnesotaCare programs, and shall not be eligible for direct payments under those programs or for payments made by managed care plans under their contracts with the commissioner under section 256B.69 or 256L.12. A health care provider that is prohibited from enrolling as a vendor or receiving payments under this paragraph may reenroll effective January 1 of any subsequent year if the provider's most recent combined cost and quality score exceeds the threshold established in paragraph (a).

(c) Notwithstanding paragraph (b), a provider may continue to participate as a vendor or as part of a managed care plan provider network if the commissioner determines that a contract with the provider is necessary to ensure adequate access to health care services.

(d) By January 15, 2013, the commissioner shall report to the legislature on the impact of this section. The commissioner's report shall include information on:

(1) the providers falling below the thresholds as of January 1, 2012;

(2) the volume of services and cost of care provided to enrollees in the medical assistance, general assistance medical care, or MinnesotaCare programs in the 12 months prior to January 1, 2012, by providers falling below the thresholds;

(3) providers who fell below the thresholds but continued to be eligible vendors under paragraph (c);

(4) the estimated cost savings achieved by not contracting with providers who do not meet the performance thresholds; and

78.9 assets that are not considered in determining eligibility for medical assistance for families
78.10 and children is the value of those assets excluded under the AFDC state plan as of July 16,

80.8 Subdivision 1. Income deductions. When an institutionalized person is determined
80.9 eligible for medical assistance, the income that exceeds the deductions in paragraphs (a)
80.10 and (b) must be applied to the cost of institutional care.

80.11 (a) The following amounts must be deducted from the institutionalized person's
80.12 income in the following order:

80.13 (1) the personal needs allowance under section 256B.35 or, for a veteran who

80.26 for families and children according to section 256B.056, subdivision 4, for a family size
80.27 that includes only the minor children. This deduction applies only if the children do not
80.28 live with the community spouse and only to the extent that the deduction is not included

80.30 garnished under a court order;

80.31 (6) a monthly family allowance for other family members, equal to one-third of the

81.5 federal law; and

81.6 (9) amounts for reasonable expenses, as specified in subdivision 2, incurred for

81.8 under state law, not medical assistance covered expenses, and ~~that are~~ not subject to
81.9 payment by a third party.

81.10 ~~Reasonable expenses are limited to expenses that have not been previously used as a~~
81.11 ~~deduction from income and are incurred during the enrollee's current period of eligibility,~~

81.28 which case the allocation shall be applied to the income of one of the spouses.

81.29 For purposes of this paragraph, a person is determined to be residing in a licensed nursing
81.30 home, regional treatment center, or medical institution if the person is expected to remain
81.31 for a period of one full calendar month or more.

81.32 Subd. 2. Reasonable expenses. For the purposes of subdivision 1, paragraph (a),
81.33 clause (9), reasonable expenses are limited to expenses that have not been previously used
81.34 as a deduction from income and were not:

81.35 (1) for long-term care expenses incurred during a period of ineligibility as defined in
81.36 section 256B.0595, subdivision 2;

82.1 (2) incurred more than three months before the month of application associated with

82.7 Sec. 21. Minnesota Statutes 2008, section 256B.0595, subdivision 1, is amended to
82.8 read:

82.9 Subdivision 1. **Prohibited transfers.** (a) For transfers of assets made on or before
82.10 August 10, 1993, if an institutionalized person or the institutionalized person's spouse has
82.11 given away, sold, or disposed of, for less than fair market value, any asset or interest
82.12 therein, except assets other than the homestead that are excluded under the supplemental
82.13 security program, within 30 months before or any time after the date of institutionalization
82.14 if the person has been determined eligible for medical assistance, or within 30 months
82.15 before or any time after the date of the first approved application for medical assistance
82.16 if the person has not yet been determined eligible for medical assistance, the person is
82.17 ineligible for long-term care services for the period of time determined under subdivision
82.18 2.

82.19 (b) Effective for transfers made after August 10, 1993, an institutionalized person, an

82.25 for the purpose of establishing or maintaining medical assistance eligibility. This applies
82.26 to all transfers, including those made by a community spouse after the month in which
82.27 the institutionalized spouse is determined eligible for medical assistance. For purposes of
82.28 determining eligibility for long-term care services, any transfer of such assets within 36
82.29 months before or any time after an institutionalized person requests medical assistance
82.30 payment of long-term care services, or 36 months before or any time after a medical
82.31 assistance recipient becomes an institutionalized person, for less than fair market value
82.32 may be considered. Any such transfer is presumed to have been made for the purpose
82.33 of establishing or maintaining medical assistance eligibility and the institutionalized
82.34 person is ineligible for long-term care services for the period of time determined under
82.35 subdivision 2, unless the institutionalized person furnishes convincing evidence to

83.1 establish that the transaction was exclusively for another purpose, or unless the transfer is
83.2 permitted under subdivision 3 or 4. In the case of payments from a trust or portions of a
83.3 trust that are considered transfers of assets under federal law, or in the case of any other
83.4 disposal of assets made on or after February 8, 2006, any transfers made within 60 months
83.5 before or any time after an institutionalized person requests medical assistance payment of
83.6 long-term care services and within 60 months before or any time after a medical assistance
83.7 recipient becomes an institutionalized person, may be considered.

83.8 (c) This section applies to transfers, for less than fair market value, of income
83.9 or assets, including assets that are considered income in the month received, such as
83.10 inheritances, court settlements, and retroactive benefit payments or income to which the
83.11 institutionalized person or the institutionalized person's spouse is entitled but does not
83.12 receive due to action by the institutionalized person, the institutionalized person's spouse,
83.13 or any person, court, or administrative body with legal authority to act in place of, on
83.14 behalf of, at the direction of, or upon the request of the institutionalized person or the
83.15 institutionalized person's spouse.

83.16 (d) This section applies to payments for care or personal services provided by a
83.17 relative, unless the compensation was stipulated in a notarized, written agreement which
83.18 was in existence when the service was performed, the care or services directly benefited
83.19 the person, and the payments made represented reasonable compensation for the care
83.20 or services provided. A notarized written agreement is not required if payment for the
83.21 services was made within 60 days after the service was provided.

83.22 (e) This section applies to the portion of any asset or interest that an institutionalized
83.23 person, an institutionalized person's spouse, or any person, court, or administrative body
83.24 with legal authority to act in place of, on behalf of, at the direction of, or upon the request
83.25 of the institutionalized person or the institutionalized person's spouse, transfers to any
83.26 annuity that exceeds the value of the benefit likely to be returned to the institutionalized
83.27 person or institutionalized person's spouse while alive, based on estimated life expectancy
83.28 as determined according to the current actuarial tables published by the Office of the
83.29 Chief Actuary of the Social Security Administration. The commissioner may adopt rules
83.30 reducing life expectancies based on the need for long-term care. This section applies to an
83.31 annuity purchased on or after March 1, 2002, that:

83.32 (1) is not purchased from an insurance company or financial institution that is
83.33 subject to licensing or regulation by the Minnesota Department of Commerce or a similar
83.34 regulatory agency of another state;

83.35 (2) does not pay out principal and interest in equal monthly installments; or

83.36 (3) does not begin payment at the earliest possible date after annuitization.

(f) Effective for transactions, including the purchase of an annuity, occurring on or after February 8, 2006, by or on behalf of an institutionalized person who has applied for or is receiving long-term care services or the institutionalized person's spouse shall be treated as the disposal of an asset for less than fair market value unless the department is named a preferred remainder beneficiary as described in section 256B.056, subdivision 11. Any subsequent change to the designation of the department as a preferred remainder beneficiary shall result in the annuity being treated as a disposal of assets for less than fair market value. The amount of such transfer shall be the maximum amount the institutionalized person or the institutionalized person's spouse could receive from the annuity or similar financial instrument. Any change in the amount of the income or principal being withdrawn from the annuity or other similar financial instrument at the time of the most recent disclosure shall be deemed to be a transfer of assets for less than fair market value unless the institutionalized person or the institutionalized person's spouse demonstrates that the transaction was for fair market value. In the event a distribution of income or principal has been improperly distributed or disbursed from an annuity or other retirement planning instrument of an institutionalized person or the institutionalized person's spouse, a cause of action exists against the individual receiving the improper distribution for the cost of medical assistance services provided or the amount of the improper distribution, whichever is less.

(g) Effective for transactions, including the purchase of an annuity, occurring on or after February 8, 2006, by or on behalf of an institutionalized person applying for or receiving long-term care services shall be treated as a disposal of assets for less than fair market value unless it is:

(i) an annuity described in subsection (b) or (q) of section 408 of the Internal Revenue Code of 1986; or

(ii) purchased with proceeds from:

(A) an account or trust described in subsection (a), (c), or (p) of section 408 of the Internal Revenue Code;

(B) a simplified employee pension within the meaning of section 408(k) of the Internal Revenue Code; or

(C) a Roth IRA described in section 408A of the Internal Revenue Code; or

(iii) an annuity that is irrevocable and nonassignable; is actuarially sound as determined in accordance with actuarial publications of the Office of the Chief Actuary of the Social Security Administration; and provides for payments in equal amounts during the term of the annuity, with no deferral and no balloon payments made.

(h) For purposes of this section, long-term care services include services in a nursing facility, services that are eligible for payment according to section 256B.0625, subdivision 2, because they are provided in a swing bed, intermediate care facility for persons with developmental disabilities, and home and community-based services provided pursuant to sections 256B.0915, 256B.092, and 256B.49. For purposes of this subdivision and subdivisions 2, 3, and 4, "institutionalized person" includes a person who is an inpatient in a nursing facility or in a swing bed, or intermediate care facility for persons with developmental disabilities or who is receiving home and community-based services under sections 256B.0915, 256B.092, and 256B.49.

(i) This section applies to funds used to purchase a promissory note, loan, or mortgage unless the note, loan, or mortgage:

(1) has a repayment term that is actuarially sound;

(2) provides for payments to be made in equal amounts during the term of the loan, with no deferral and no balloon payments made; and

(3) prohibits the cancellation of the balance upon the death of the lender.

In the case of a promissory note, loan, or mortgage that does not meet an exception in clauses (1) to (3), the value of such note, loan, or mortgage shall be the outstanding balance due as of the date of the institutionalized person's request for medical assistance payment of long-term care services.

(j) This section applies to the purchase of a life estate interest in another person's home unless the purchaser resides in the home for a period of at least one year after the date of purchase.

(k) This section applies to transfers into a pooled trust that qualifies under United States Code, title 42, section 1396p(d)(4)(C), by:

(1) a person age 65 or older or the person's spouse; or

(2) any person, court, or administrative body with legal authority to act in place of, on behalf of, at the direction of, or upon the request of a person age 65 or older or the person's spouse.

Sec. 22. Minnesota Statutes 2008, section 256B.0595, subdivision 2, is amended to read:

Subd. 2. Period of ineligibility for long-term care services. (a) For any uncompensated transfer occurring on or before August 10, 1993, the number of months of ineligibility for long-term care services shall be the lesser of 30 months, or the uncompensated transfer amount divided by the average medical assistance rate for nursing facility services in the state in effect on the date of application. The amount used to

calculate the average medical assistance payment rate shall be adjusted each July 1 to reflect payment rates for the previous calendar year. The period of ineligibility begins with the month in which the assets were transferred. If the transfer was not reported to the local agency at the time of application, and the applicant received long-term care services during what would have been the period of ineligibility if the transfer had been reported, a cause of action exists against the transferee for the cost of long-term care services provided during the period of ineligibility, or for the uncompensated amount of the transfer, whichever is less. The uncompensated transfer amount is the fair market value of the asset at the time it was given away, sold, or disposed of, less the amount of compensation received.

(b) For uncompensated transfers made after August 10, 1993, the number of months of ineligibility for long-term care services shall be the total uncompensated value of the resources transferred divided by the average medical assistance rate for nursing facility services in the state in effect on the date of application. The amount used to calculate the average medical assistance payment rate shall be adjusted each July 1 to reflect payment rates for the previous calendar year. The period of ineligibility begins with the first day of the month after the month in which the assets were transferred except that if one or more uncompensated transfers are made during a period of ineligibility, the total assets transferred during the ineligibility period shall be combined and a penalty period calculated to begin on the first day of the month after the month in which the first uncompensated transfer was made. If the transfer was reported to the local agency after the date that advance notice of a period of ineligibility that affects the next month could be provided to the recipient and the recipient received medical assistance services or the transfer was not reported to the local agency, and the applicant or recipient received medical assistance services during what would have been the period of ineligibility if the transfer had been reported, a cause of action exists against the transferee for that portion of long-term care services provided during the period of ineligibility, or for the uncompensated amount of the transfer, whichever is less. The uncompensated transfer amount is the fair market value of the asset at the time it was given away, sold, or disposed of, less the amount of compensation received. Effective for transfers made on or after March 1, 1996, involving persons who apply for medical assistance on or after April 13, 1996, no cause of action exists for a transfer unless:

(1) the transferee knew or should have known that the transfer was being made by a person who was a resident of a long-term care facility or was receiving that level of care in the community at the time of the transfer;

(2) the transferee knew or should have known that the transfer was being made to assist the person to qualify for or retain medical assistance eligibility; or

(3) the transferee actively solicited the transfer with intent to assist the person to qualify for or retain eligibility for medical assistance.

(c) For uncompensated transfers made on or after February 8, 2006, the period of ineligibility:

(1) for uncompensated transfers by or on behalf of individuals receiving medical assistance payment of long-term care services, begins the first day of the month following advance notice of the ~~penalty~~ period of ineligibility, but no later than the first day of the month that follows three full calendar months from the date of the report or discovery of the transfer; or

(2) for uncompensated transfers by individuals requesting medical assistance payment of long-term care services, begins the date on which the individual is eligible for medical assistance under the Medicaid state plan and would otherwise be receiving long-term care services based on an approved application for such care but for the ~~application of the penalty~~ period of ineligibility resulting from the uncompensated transfer; and

(3) cannot begin during any other period of ineligibility.

(d) If a calculation of a ~~penalty~~ period of ineligibility results in a partial month, payments for long-term care services shall be reduced in an amount equal to the fraction.

(e) In the case of multiple fractional transfers of assets in more than one month for less than fair market value on or after February 8, 2006, the period of ineligibility is calculated by treating the total, cumulative, uncompensated value of all assets transferred during all months on or after February 8, 2006, as one transfer.

(f) A period of ineligibility established under paragraph (c) may be eliminated if all of the assets transferred for less than fair market value used to calculate the period of ineligibility, or cash equal to the value of the assets at the time of the transfer, are returned within 12 months after the date the period of ineligibility began. A period of ineligibility must not be adjusted if less than the full amount of the transferred assets or the full cash value of the transferred assets are returned.

EFFECTIVE DATE. This section is effective for periods of ineligibility established on or after January 1, 2011.

94.26 family planning products, aspirin, insulin, products for the treatment of lice, vitamins for
94.27 adults with documented vitamin deficiencies, vitamins for children under the age of seven
94.28 and pregnant or nursing women, and any other over-the-counter drug identified by the
94.29 commissioner, in consultation with the formulary committee, as necessary, appropriate,
94.30 and cost-effective for the treatment of certain specified chronic diseases, conditions,
94.31 or disorders, and this determination shall not be subject to the requirements of chapter
94.32 14. A pharmacist may prescribe over-the-counter medications as provided under this
94.33 paragraph for purposes of receiving reimbursement under Medicaid. When prescribing
94.34 over-the-counter drugs under this paragraph, licensed pharmacists must consult with the

recipient to determine necessity, provide drug counseling, review drug therapy for potential adverse interactions, and make referrals as needed to other health care professionals.

(d) Effective January 1, 2006, medical assistance shall not cover drugs that are coverable under Medicare Part D as defined in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108-173, section 1860D-2(e), for individuals eligible for drug coverage as defined in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108-173, section 1860D-1(a)(3)(A). For these individuals, medical assistance may cover drugs from the drug classes listed in United States Code, title 42, section 1396r-8(d)(2), subject to this subdivision and subdivisions 13a to 13g, except that drugs listed in United States Code, title 42, section 1396r-8(d)(2)(E), shall not be covered.

Sec. 30. Minnesota Statutes 2008, section 256B.0625, subdivision 13e, is amended to read:

Subd. 13e. **Payment rates.** (a) The basis for determining the amount of payment shall be the lower of the actual acquisition costs of the drugs plus a fixed dispensing fee; the maximum allowable cost set by the federal government or by the commissioner plus the fixed dispensing fee; or the usual and customary price charged to the public. The amount of payment basis must be reduced to reflect all discount amounts applied to the charge by any provider/insurer agreement or contract for submitted charges to medical assistance programs. The net submitted charge may not be greater than the patient liability for the service. The pharmacy dispensing fee shall be \$3.65, except that the dispensing fee for intravenous solutions which must be compounded by the pharmacist shall be \$8 per bag, \$14 per bag for cancer chemotherapy products, and \$30 per bag for total parenteral nutritional products dispensed in one liter quantities, or \$44 per bag for total parenteral nutritional products dispensed in quantities greater than one liter. Actual acquisition cost includes quantity and other special discounts except time and cash discounts. Effective July 1, ~~2008~~ 2009, the actual acquisition cost of a drug shall be estimated by the commissioner, at average wholesale price minus ~~14~~ 15 percent. The actual acquisition cost of antihemophilic factor drugs shall be estimated at the average wholesale price minus 30 percent. The maximum allowable cost of a multisource drug may be set by the commissioner and it shall be comparable to, but no higher than, the maximum amount paid by other third-party payors in this state who have maximum allowable cost programs. Establishment of the amount of payment for drugs shall not be subject to the requirements of the Administrative Procedure Act.

(b) An additional dispensing fee of \$.30 may be added to the dispensing fee paid to pharmacists for legend drug prescriptions dispensed to residents of long-term care facilities when a unit dose blister card system, approved by the department, is used. Under this type of dispensing system, the pharmacist must dispense a 30-day supply of drug. The National Drug Code (NDC) from the drug container used to fill the blister card must be identified on the claim to the department. The unit dose blister card containing the drug must meet the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse. The pharmacy provider will be required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse. Over-the-counter medications must be dispensed in the manufacturer's unopened package. The commissioner may permit the drug clozapine to be dispensed in a quantity that is less than a 30-day supply.

(c) Whenever a generically equivalent product is available, payment shall be on the basis of the actual acquisition cost of the generic drug, or on the maximum allowable cost established by the commissioner.

(d) The basis for determining the amount of payment for drugs administered in an outpatient setting shall be the lower of the usual and customary cost submitted by the provider or the amount established for Medicare by the United States Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act.

(e) The commissioner may negotiate lower reimbursement rates for specialty pharmacy products than the rates specified in paragraph (a). The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are defined as those used by a small number of recipients or recipients with complex and chronic diseases that require expensive and challenging drug regimens. Examples of these conditions include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C, growth hormone deficiency, Crohn's Disease, rheumatoid arthritis, and certain forms of cancer. Specialty pharmaceutical products include injectable and infusion therapies, biotechnology drugs, high-cost therapies, and therapies that require complex care. The commissioner shall consult with the formulary committee to develop a list of specialty pharmacy products subject to this paragraph. In consulting with the formulary committee in developing this list, the commissioner shall take into consideration the population served by specialty pharmacy products, the current delivery system and standard of care in

97.1 the state, and access to care issues. The commissioner shall have the discretion to adjust
97.2 the reimbursement rate to prevent access to care issues.

97.3 Sec. 31. Minnesota Statutes 2008, section 256B.0625, subdivision 13h, is amended to
97.4 read:

97.5 Subd. 13h. **Medication therapy management services.** (a) Medical assistance
97.6 and general assistance medical care cover medication therapy management services for
97.7 a recipient taking four or more prescriptions to treat or prevent two or more chronic
97.8 medical conditions, or a recipient with a drug therapy problem that is identified or prior
97.9 authorized by the commissioner that has resulted or is likely to result in significant
97.10 nondrug program costs. The commissioner may cover medical therapy management
97.11 services under MinnesotaCare if the commissioner determines this is cost-effective. For
97.12 purposes of this subdivision, "medication therapy management" means the provision
97.13 of the following pharmaceutical care services by a licensed pharmacist to optimize the
97.14 therapeutic outcomes of the patient's medications:

97.15 (1) performing or obtaining necessary assessments of the patient's health status;

97.16 (2) formulating a medication treatment plan;

97.17 (3) monitoring and evaluating the patient's response to therapy, including safety
97.18 and effectiveness;

97.19 (4) performing a comprehensive medication review to identify, resolve, and prevent
97.20 medication-related problems, including adverse drug events;

97.21 (5) documenting the care delivered and communicating essential information to
97.22 the patient's other primary care providers;

97.23 (6) providing verbal education and training designed to enhance patient
97.24 understanding and appropriate use of the patient's medications;

97.25 (7) providing information, support services, and resources designed to enhance
97.26 patient adherence with the patient's therapeutic regimens; and

97.27 (8) coordinating and integrating medication therapy management services within the
97.28 broader health care management services being provided to the patient.

97.29 Nothing in this subdivision shall be construed to expand or modify the scope of practice of
97.30 the pharmacist as defined in section 151.01, subdivision 27.

97.31 (b) To be eligible for reimbursement for services under this subdivision, a pharmacist
97.32 must meet the following requirements:

97.33 (1) have a valid license issued under chapter 151;

97.34 (2) have graduated from an accredited college of pharmacy on or after May 1996, or
97.35 completed a structured and comprehensive education program approved by the Board of

98.1 Pharmacy and the American Council of Pharmaceutical Education for the provision and
98.2 documentation of pharmaceutical care management services that has both clinical and
98.3 didactic elements;

98.4 (3) be practicing in an ambulatory care setting as part of a multidisciplinary team or
98.5 have developed a structured patient care process that is offered in a private or semiprivate
98.6 patient care area that is separate from the commercial business that also occurs in the
98.7 setting, or in home settings, excluding long-term care and group homes, if the service is
98.8 ordered by the provider-directed care coordination team; and

98.9 (4) make use of an electronic patient record system that meets state standards.

98.10 (c) For purposes of reimbursement for medication therapy management services,
98.11 the commissioner may enroll individual pharmacists as medical assistance and general
98.12 assistance medical care providers. The commissioner may also establish contact
98.13 requirements between the pharmacist and recipient, including limiting the number of
98.14 reimbursable consultations per recipient.

98.15 ~~(d) The commissioner, after receiving recommendations from professional medical~~
98.16 ~~associations, professional pharmacy associations, and consumer groups, shall convene~~
98.17 ~~an 11-member Medication Therapy Management Advisory Committee to advise~~
98.18 ~~the commissioner on the implementation and administration of medication therapy~~
98.19 ~~management services. The committee shall be comprised of: two licensed physicians;~~
98.20 ~~two licensed pharmacists; two consumer representatives; two health plan company~~
98.21 ~~representatives; and three members with expertise in the area of medication therapy~~
98.22 ~~management, who may be licensed physicians or licensed pharmacists. The committee is~~
98.23 ~~governed by section 15.059, except that committee members do not receive compensation~~
98.24 ~~or reimbursement for expenses. The advisory committee expires on June 30, 2007.~~

98.25 ~~(e) The commissioner shall evaluate the effect of medication therapy management~~
98.26 ~~on quality of care, patient outcomes, and program costs, and shall include a description~~
98.27 ~~of any savings generated in the medical assistance and general assistance medical care~~
98.28 ~~programs that can be attributable to this coverage. The evaluation shall be submitted to~~
98.29 ~~the legislature by December 15, 2007. The commissioner may contract with a vendor~~
98.30 ~~or an academic institution that has expertise in evaluating health care outcomes for the~~
98.31 ~~purpose of completing the evaluation.~~

98.32 (d) The commissioner shall establish a pilot project for an intensive medication
98.33 therapy management program for patients identified by the commissioner with multiple
98.34 chronic conditions and a high number of medications who are at high risk of preventable
98.35 hospitalizations, emergency room use, medication complications, and suboptimal
98.36 treatment outcomes due to medication-related problems. For purposes of the pilot

99.1 project, medication therapy management services may be provided in a patient's home
99.2 or community setting, in addition to other authorized settings. The commissioner may
99.3 waive existing payment policies and establish special payment rates for the pilot project.
99.4 The pilot project must be designed to produce a net savings to the state compared to the
99.5 estimated costs that would otherwise be incurred for similar patients without the program.

99.6 Sec. 32. Minnesota Statutes 2008, section 256B.0625, subdivision 17, is amended to
99.7 read:

99.8 Subd. 17. **Transportation costs.** (a) Medical assistance covers medical
99.9 transportation costs incurred solely for obtaining emergency medical care or transportation
99.10 costs incurred by eligible persons in obtaining emergency or nonemergency medical
99.11 care when paid directly to an ambulance company, common carrier, or other recognized
99.12 providers of transportation services. Medical transportation must be provided by:

99.13 (1) an ambulance, as defined in section 144E.001, subdivision 2;

99.14 (2) special transportation; or

99.15 (3) common carrier including, but not limited to, bus, taxicab, other commercial
99.16 carrier, or private automobile.

99.17 (b) Medical assistance covers special transportation, as defined in Minnesota Rules,
99.18 part 9505.0315, subpart 1, item F, if the recipient has a physical or mental impairment that
99.19 would prohibit the recipient from safely accessing and using a bus, taxi, other commercial
99.20 transportation, or private automobile.

99.21 The commissioner may use an order by the recipient's attending physician to certify that
99.22 the recipient requires special transportation services. Special transportation ~~includes~~
99.23 providers shall perform driver-assisted ~~service to~~ services for eligible individuals.

99.24 Driver-assisted service includes passenger pickup at and return to the individual's
99.25 residence or place of business, assistance with admittance of the individual to the medical
99.26 facility, and assistance in passenger securement or in securing of wheelchairs or stretchers
99.27 in the vehicle. Special transportation providers must obtain written documentation
99.28 from the health care service provider who is serving the recipient being transported,
99.29 identifying the time that the recipient arrived. Special transportation providers may not
99.30 bill for separate base rates for the continuation of a trip beyond the original destination.
99.31 Special transportation providers must take recipients to the nearest appropriate health
99.32 care provider, using the most direct route ~~available~~. The ~~maximum~~ minimum medical
99.33 assistance reimbursement rates for special transportation services are:

99.34 (1) (i) \$17 for the base rate and \$1.35 per mile for special transportation services to
99.35 eligible persons who need a wheelchair-accessible van;

100.1 ~~(2)~~ (ii) \$11.50 for the base rate and \$1.30 per mile for special transportation services
100.2 to eligible persons who do not need a wheelchair-accessible van; and

100.3 ~~(3)~~ (iii) \$60 for the base rate and \$2.40 per mile, and an attendant rate of \$9 per trip,
100.4 for special transportation services to eligible persons who need a stretcher-accessible
100.5 vehicle;

100.6 (2) the base rates for special transportation services in areas defined under RUCA
100.7 to be super rural shall be equal to the reimbursement rate established in clause (1) plus
100.8 11.3 percent; and

100.9 (3) for special transportation services in areas defined under RUCA to be rural
100.10 or super rural areas;

100.11 (i) for a trip equal to 17 miles or less, mileage reimbursement shall be equal to 125
100.12 percent of the respective mileage rate in clause (1); and

100.13 (ii) for a trip between 18 and 50 miles, mileage reimbursement shall be equal to
100.14 112.5 percent of the respective mileage rate in clause (1).

100.15 (c) For purposes of reimbursement rates for special transportation services under
100.16 paragraph (b), the zip code of the recipient's place of residence shall determine whether
100.17 the urban, rural, or super rural reimbursement rate applies.

100.18 (d) For purposes of this subdivision, "rural urban commuting area" or "RUCA"
100.19 means a census-tract based classification system under which a geographical area is
100.20 determined to be urban, rural, or super rural.

100.21 Sec. 33. Minnesota Statutes 2008, section 256B.0625, subdivision 17a, is amended to
100.22 read:

100.23 Subd. 17a. **Payment for ambulance services.** Medical assistance covers
100.24 ambulance services. Providers shall bill ambulance services according to Medicare
100.25 criteria. Nonemergency ambulance services shall not be paid as emergencies. Effective
100.26 for services rendered on or after July 1, 2001, medical assistance payments for ambulance
100.27 services shall be paid at the Medicare reimbursement rate or at the medical assistance
100.28 payment rate in effect on July 1, 2000, whichever is greater.

100.29 Sec. 34. Minnesota Statutes 2008, section 256B.0625, is amended by adding a
100.30 subdivision to read:

100.31 Subd. 18b. **Broker dispatching prohibition.** The commissioner shall not use a
100.32 broker or coordinator for any purpose related to transportation services under subdivision
100.33 18.

Sec. 35. Minnesota Statutes 2008, section 256B.0625, is amended by adding a subdivision to read:

Subd. 25a. **Prior authorization of diagnostic imaging services.** (a) Effective January 1, 2010, the commissioner shall require prior authorization or decision support for the ordering providers at the time the service is ordered for the following outpatient diagnostic imaging services: computerized tomography (CT), magnetic resonance imaging (MRI), magnetic resonance angiography (MRA), positive emission tomography (PET), cardiac imaging and ultrasound diagnostic imaging.

(b) Prior authorization under this subdivision is not required for diagnostic imaging services performed as part of a hospital emergency room visit, inpatient hospitalization, or if concurrent with or on the same day as an urgent care facility visit.

(c) This subdivision does not apply to services provided to recipients who are enrolled in Medicare, the prepaid medical assistance program, the prepaid general assistance medical care program, or the MinnesotaCare program.

(d) The commissioner may contract with a private entity to provide the prior authorization or decision support required under this subdivision. The contracting entity must incorporate clinical guidelines that are based on evidence-based medical literature, if available. By January 1, 2012, the contracting entity shall report to the commissioner the results of prior authorization or decision support.

Sec. 36. Minnesota Statutes 2008, section 256B.0625, subdivision 26, is amended to read:

Subd. 26. Special education services. (a) Medical assistance covers medical services identified in a recipient's individualized education plan and covered under the medical assistance state plan. Covered services include occupational therapy, physical therapy, speech-language therapy, clinical psychological services, nursing services, school psychological services, school social work services, personal care assistants serving as management aides, assistive technology devices, transportation services, health assessments, and other services covered under the medical assistance state plan. Mental health services eligible for medical assistance reimbursement must be provided or coordinated through a children's mental health collaborative where a collaborative exists if the child is included in the collaborative operational target population. The provision or coordination of services does not require that the individual education plan be developed by the collaborative.

The services may be provided by a Minnesota school district that is enrolled as a medical assistance provider or its subcontractor, and only if the services meet all the

102.1 requirements otherwise applicable if the service had been provided by a provider other
102.2 than a school district, in the following areas: medical necessity, physician's orders,
102.3 documentation, personnel qualifications, and prior authorization requirements. The
102.4 nonfederal share of costs for services provided under this subdivision is the responsibility
102.5 of the local school district as provided in section 125A.74. Services listed in a child's
102.6 individual education plan are eligible for medical assistance reimbursement only if those
102.7 services meet criteria for federal financial participation under the Medicaid program.

102.8 (b) Approval of health-related services for inclusion in the individual education plan
102.9 does not require prior authorization for purposes of reimbursement under this chapter.
102.10 The commissioner may require physician review and approval of the plan not more than
102.11 once annually or upon any modification of the individual education plan that reflects a
102.12 change in health-related services.

102.13 (c) Services of a speech-language pathologist provided under this section are covered
102.14 notwithstanding Minnesota Rules, part 9505.0390, subpart 1, item L, if the person:

102.15 (1) holds a masters degree in speech-language pathology;

102.16 (2) is licensed by the Minnesota Board of Teaching as an educational
102.17 speech-language pathologist; and

102.18 (3) either has a certificate of clinical competence from the American Speech and
102.19 Hearing Association, has completed the equivalent educational requirements and work
102.20 experience necessary for the certificate or has completed the academic program and is
102.21 acquiring supervised work experience to qualify for the certificate.

102.22 (d) Medical assistance coverage for medically necessary services provided under
102.23 other subdivisions in this section may not be denied solely on the basis that the same or
102.24 similar services are covered under this subdivision.

102.25 (e) The commissioner shall develop and implement package rates, bundled rates, or
102.26 per diem rates for special education services under which separately covered services are
102.27 grouped together and billed as a unit in order to reduce administrative complexity.

102.28 (f) The commissioner shall develop a cost-based payment structure for payment
102.29 of these services. The commissioner shall reimburse claims submitted based on an
102.30 interim rate, and shall settle at a final rate once the department has determined it. The
102.31 commissioner shall notify the school district of the final rate. The school district has 60
102.32 days to appeal the final rate. To appeal the final rate, the school district shall file a written
102.33 appeal request to the commissioner within 60 days of the date the final rate determination
102.34 was mailed. The appeal request shall specify (1) the disputed items and (2) the name and
102.35 address of the person to contact regarding the appeal.

103.1 (g) Effective July 1, 2000, medical assistance services provided under an individual
103.2 education plan or an individual family service plan by local school districts shall not count
103.3 against medical assistance authorization thresholds for that child.

103.4 (h) Nursing services as defined in section 148.171, subdivision 15, and provided
103.5 as an individual education plan health-related service, are eligible for medical assistance
103.6 payment if they are otherwise a covered service under the medical assistance program.
103.7 Medical assistance covers the administration of prescription medications by a licensed
103.8 nurse who is employed by or under contract with a school district when the administration
103.9 of medications is identified in the child's individualized education plan. The simple
103.10 administration of medications alone is not covered under medical assistance when
103.11 administered by a provider other than a school district or when it is not identified in the
103.12 child's individualized education plan.

103.13 Sec. 37. Minnesota Statutes 2008, section 256B.08, is amended by adding a
103.14 subdivision to read:

103.15 Subd. 4. **Data from Social Security.** The commissioner shall accept data from the
103.16 Social Security Administration in accordance with United States Code, title 42, section
103.17 1396U-5(a).

103.18 **EFFECTIVE DATE.** This section is effective January 1, 2010.

103.19 Sec. 38. Minnesota Statutes 2008, section 256B.15, subdivision 1, is amended to read:

103.20 Subdivision 1. **Policy and applicability.** (a) It is the policy of this state that
103.21 individuals or couples, either or both of whom participate in the medical assistance
103.22 program, use their own assets to pay their share of the total cost of their care during or
103.23 after their enrollment in the program according to applicable federal law and the laws of
103.24 this state. The following provisions apply:

103.25 (1) subdivisions 1c to 1k shall not apply to claims arising under this section which
103.26 are presented under section 525.313;

103.27 (2) the provisions of subdivisions 1c to 1k expanding the interests included in an
103.28 estate for purposes of recovery under this section give effect to the provisions of United
103.29 States Code, title 42, section 1396p, governing recoveries, but do not give rise to any
103.30 express or implied liens in favor of any other parties not named in these provisions;

103.31 (3) the continuation of a recipient's life estate or joint tenancy interest in real
103.32 property after the recipient's death for the purpose of recovering medical assistance under
103.33 this section modifies common law principles holding that these interests terminate on
103.34 the death of the holder;

104.1 (4) all laws, rules, and regulations governing or involved with a recovery of medical
104.2 assistance shall be liberally construed to accomplish their intended purposes;

104.3 (5) a deceased recipient's life estate and joint tenancy interests continued under this
104.4 section shall be owned by the remaindermen or surviving joint tenants as their interests
104.5 may appear on the date of the recipient's death. They shall not be merged into the
104.6 remainder interest or the interests of the surviving joint tenants by reason of ownership.
104.7 They shall be subject to the provisions of this section. Any conveyance, transfer, sale,
104.8 assignment, or encumbrance by a remainderman, a surviving joint tenant, or their heirs,
104.9 successors, and assigns shall be deemed to include all of their interest in the deceased
104.10 recipient's life estate or joint tenancy interest continued under this section; and

104.11 (6) the provisions of subdivisions 1c to 1k continuing a recipient's joint tenancy
104.12 interests in real property after the recipient's death do not apply to a homestead owned
104.13 of record, on the date the recipient dies, by the recipient and the recipient's spouse as
104.14 joint tenants with a right of survivorship. Homestead means the real property occupied
104.15 by the surviving joint tenant spouse as their sole residence on the date the recipient dies
104.16 and classified and taxed to the recipient and surviving joint tenant spouse as homestead
104.17 property for property tax purposes in the calendar year in which the recipient dies. For
104.18 purposes of this exemption, real property the recipient and their surviving joint tenant
104.19 spouse purchase solely with the proceeds from the sale of their prior homestead, own
104.20 of record as joint tenants, and qualify as homestead property under section 273.124 in
104.21 the calendar year in which the recipient dies and prior to the recipient's death shall be
104.22 deemed to be real property classified and taxed to the recipient and their surviving joint
104.23 tenant spouse as homestead property in the calendar year in which the recipient dies.
104.24 The surviving spouse, or any person with personal knowledge of the facts, may provide
104.25 an affidavit describing the homestead property affected by this clause and stating facts
104.26 showing compliance with this clause. The affidavit shall be prima facie evidence of the
104.27 facts it states.

104.28 (b) For purposes of this section, "medical assistance" includes the medical assistance
104.29 program under this chapter and the general assistance medical care program under chapter
104.30 256D and alternative care for nonmedical assistance recipients under section 256B.0913.

104.31 (c) For purposes of this section, beginning January 1, 2010, "medical assistance"
104.32 does not include Medicare cost-sharing benefits in accordance with United States Code,
104.33 title 42, section 1396p.

104.34 (d) All provisions in this subdivision, and subdivisions 1d, 1f, 1g, 1h, 1i, and 1j,
104.35 related to the continuation of a recipient's life estate or joint tenancy interests in real
104.36 property after the recipient's death for the purpose of recovering medical assistance, are

105.1 effective only for life estates and joint tenancy interests established on or after August 1,
105.2 2003. For purposes of this paragraph, medical assistance does not include alternative care.

105.3 Sec. 39. Minnesota Statutes 2008, section 256B.15, subdivision 1a, is amended to read:

105.4 Subd. 1a. **Estates subject to claims.** (a) If a person receives any medical assistance
105.5 hereunder, on the person's death, if single, or on the death of the survivor of a married
105.6 couple, either or both of whom received medical assistance, or as otherwise provided
105.7 for in this section, the total amount paid for medical assistance rendered for the person
105.8 and spouse shall be filed as a claim against the estate of the person or the estate of the
105.9 surviving spouse in the court having jurisdiction to probate the estate or to issue a decree
105.10 of descent according to sections 525.31 to 525.313.

105.11 (b) For the purposes of this section, the person's estate must consist of:

105.12 (1) the person's probate estate;

105.13 (2) all of the person's interests or proceeds of those interests in real property the
105.14 person owned as a life tenant or as a joint tenant with a right of survivorship at the time of
105.15 the person's death;

105.16 (3) all of the person's interests or proceeds of those interests in securities the person
105.17 owned in beneficiary form as provided under sections 524.6-301 to 524.6-311 at the time
105.18 of the person's death, to the extent the interests or proceeds of those interests become part
105.19 of the probate estate under section 524.6-307;

105.20 (4) all of the person's interests in joint accounts, multiple-party accounts, and
105.21 pay-on-death accounts, brokerage accounts, investment accounts, or the proceeds of
105.22 those accounts, as provided under sections 524.6-201 to 524.6-214 at the time of the
105.23 person's death to the extent the interests become part of the probate estate under section
105.24 524.6-207; and

105.25 (5) assets conveyed to a survivor, heir, or assign of the person through survivorship,
105.26 living trust, or other arrangements.

105.27 (c) For the purpose of this section and recovery in a surviving spouse's estate for
105.28 medical assistance paid for a predeceased spouse, the estate must consist of all of the legal
105.29 title and interests the deceased individual's predeceased spouse had in jointly owned or
105.30 marital property at the time of the spouse's death, as defined in subdivision 2b, and the
105.31 proceeds of those interests, that passed to the deceased individual or another individual, a
105.32 survivor, an heir, or an assign of the predeceased spouse through a joint tenancy, tenancy
105.33 in common, survivorship, life estate, living trust, or other arrangement. A deceased
105.34 recipient who, at death, owned the property jointly with the surviving spouse shall have
105.35 an interest in the entire property.

(d) For the purpose of recovery in a single person's estate or the estate of a survivor of a married couple, "other arrangement" includes any other means by which title to all or any part of the jointly owned or marital property or interest passed from the predeceased spouse to another including, but not limited to, transfers between spouses which are permitted, prohibited, or penalized for purposes of medical assistance.

(e) A claim shall be filed if medical assistance was rendered for either or both persons under one of the following circumstances:

- ~~(b)~~ (2) the person resided in a medical institution for six months or longer, received services under this chapter, and, at the time of institutionalization or application for medical assistance, whichever is later, the person could not have reasonably been expected to be discharged and returned home, as certified in writing by the person's treating physician. For purposes of this section only, a "medical institution" means a skilled nursing facility, intermediate care facility, intermediate care facility for persons with developmental disabilities, nursing facility, or inpatient hospital; or
- ~~(c)~~ (3) the person received general assistance medical care services under chapter 256D.

(f) The claim shall be considered an expense of the last illness of the decedent for the purpose of section 524.3-805. Notwithstanding any law or rule to the contrary, a state or county agency with a claim under this section must be a creditor under section 524.6-307. Any statute of limitations that purports to limit any county agency or the state agency, or both, to recover for medical assistance granted hereunder shall not apply to any claim made hereunder for reimbursement for any medical assistance granted hereunder. Notice of the claim shall be given to all heirs and devisees of the decedent whose identity can be ascertained with reasonable diligence. The notice must include procedures and instructions for making an application for a hardship waiver under subdivision 5; time frames for submitting an application and determination; and information regarding appeal rights and procedures. Sec. 40. Minnesota Statutes 2008, section 256B.15, subdivision 1h, is amended to read:

Subd. 1h. **Estates of specific persons receiving medical assistance.** (a) For purposes of this section, paragraphs (b) to ~~(k)~~ (j) apply if a person received medical assistance for which a claim may be filed under this section and died single, or the

surviving spouse of the couple and was not survived by any of the persons described in subdivisions 3 and 4.

~~(b) For purposes of this section, the person's estate consists of: (1) the person's probate estate; (2) all of the person's interests or proceeds of those interests in real property the person owned as a life tenant or as a joint tenant with a right of survivorship at the time of the person's death; (3) all of the person's interests or proceeds of those interests in securities the person owned in beneficiary form as provided under sections 524.6-301 to 524.6-311 at the time of the person's death, to the extent they become part of the probate estate under section 524.6-307; (4) all of the person's interests in joint accounts, multiple party accounts, and pay on death accounts, or the proceeds of those accounts, as provided under sections 524.6-201 to 524.6-214 at the time of the person's death to the extent they become part of the probate estate under section 524.6-207; and (5) the person's legal title or interest at the time of the person's death in real property transferred under a transfer on death deed under section 507.071, or in the proceeds from the subsequent sale of the person's interest in the real property. Notwithstanding any law or rule to the contrary, a state or county agency with a claim under this section shall be a creditor under section 524.6-307.~~

~~(e)~~ (b) Notwithstanding any law or rule to the contrary, the person's life estate or joint tenancy interest in real property not subject to a medical assistance lien under sections 514.980 to 514.985 on the date of the person's death shall not end upon the person's death and shall continue as provided in this subdivision. The life estate in the person's estate shall be that portion of the interest in the real property subject to the life estate that is equal to the life estate percentage factor for the life estate as listed in the Life Estate Mortality Table of the health care program's manual for a person who was the age of the medical assistance recipient on the date of the person's death. The joint tenancy interest in real property in the estate shall be equal to the fractional interest the person would have owned in the jointly held interest in the property had they and the other owners held title to the property as tenants in common on the date the person died.

~~(d)~~ (c) The court upon its own motion, or upon motion by the personal representative or any interested party, may enter an order directing the remaindermen or surviving joint tenants and their spouses, if any, to sign all documents, take all actions, and otherwise fully cooperate with the personal representative and the court to liquidate the decedent's life estate or joint tenancy interests in the estate and deliver the cash or the proceeds of those interests to the personal representative and provide for any legal and equitable sanctions as the court deems appropriate to enforce and carry out the order, including an award of reasonable attorney fees.

108.1 ~~(e)~~ (d) The personal representative may make, execute, and deliver any conveyances
108.2 or other documents necessary to convey the decedent's life estate or joint tenancy interest
108.3 in the estate that are necessary to liquidate and reduce to cash the decedent's interest or
108.4 for any other purposes.

108.5 ~~(f)~~ (e) Subject to administration, all costs, including reasonable attorney fees,
108.6 directly and immediately related to liquidating the decedent's life estate or joint tenancy
108.7 interest in the decedent's estate, shall be paid from the gross proceeds of the liquidation
108.8 allocable to the decedent's interest and the net proceeds shall be turned over to the personal
108.9 representative and applied to payment of the claim presented under this section.

108.10 ~~(g)~~ (f) The personal representative shall bring a motion in the district court in which
108.11 the estate is being probated to compel the remaindermen or surviving joint tenants to
108.12 account for and deliver to the personal representative all or any part of the proceeds of any
108.13 sale, mortgage, transfer, conveyance, or any disposition of real property allocable to the
108.14 decedent's life estate or joint tenancy interest in the decedent's estate, and do everything
108.15 necessary to liquidate and reduce to cash the decedent's interest and turn the proceeds of
108.16 the sale or other disposition over to the personal representative. The court may grant any
108.17 legal or equitable relief including, but not limited to, ordering a partition of real estate
108.18 under chapter 558 necessary to make the value of the decedent's life estate or joint tenancy
108.19 interest available to the estate for payment of a claim under this section.

108.20 ~~(h)~~ (g) Subject to administration, the personal representative shall use all of the cash
108.21 or proceeds of interests to pay an allowable claim under this section. The remaindermen
108.22 or surviving joint tenants and their spouses, if any, may enter into a written agreement
108.23 with the personal representative or the claimant to settle and satisfy obligations imposed at
108.24 any time before or after a claim is filed.

108.25 ~~(i)~~ (h) The personal representative may, at their discretion, provide any or all of the
108.26 other owners, remaindermen, or surviving joint tenants with an affidavit terminating the
108.27 decedent's estate's interest in real property the decedent owned as a life tenant or as a joint
108.28 tenant with others, if the personal representative determines in good faith that neither the
108.29 decedent nor any of the decedent's predeceased spouses received any medical assistance
108.30 for which a claim could be filed under this section, or if the personal representative has
108.31 filed an affidavit with the court that the estate has other assets sufficient to pay a claim, as
108.32 presented, or if there is a written agreement under paragraph ~~(h)~~ (g), or if the claim, as
108.33 allowed, has been paid in full or to the full extent of the assets the estate has available
108.34 to pay it. The affidavit may be recorded in the office of the county recorder or filed in
108.35 the Office of the Registrar of Titles for the county in which the real property is located.
108.36 Except as provided in section 514.981, subdivision 6, when recorded or filed, the affidavit

109.1 shall terminate the decedent's interest in real estate the decedent owned as a life tenant or a
109.2 joint tenant with others. The affidavit shall:

109.3 (1) be signed by the personal representative;

109.4 (2) identify the decedent and the interest being terminated;

109.5 (3) give recording information sufficient to identify the instrument that created the
109.6 interest in real property being terminated;

109.7 (4) legally describe the affected real property;

109.8 (5) state that the personal representative has determined that neither the decedent
109.9 nor any of the decedent's predeceased spouses received any medical assistance for which
109.10 a claim could be filed under this section;

109.11 (6) state that the decedent's estate has other assets sufficient to pay the claim, as
109.12 presented, or that there is a written agreement between the personal representative and
109.13 the claimant and the other owners or remaindermen or other joint tenants to satisfy the
109.14 obligations imposed under this subdivision; and

109.15 (7) state that the affidavit is being given to terminate the estate's interest under this
109.16 subdivision, and any other contents as may be appropriate.

109.17 The recorder or registrar of titles shall accept the affidavit for recording or filing. The
109.18 affidavit shall be effective as provided in this section and shall constitute notice even if it
109.19 does not include recording information sufficient to identify the instrument creating the
109.20 interest it terminates. The affidavit shall be conclusive evidence of the stated facts.

109.21 ~~(f)~~ (i) The holder of a lien arising under subdivision 1c shall release the lien at
109.22 the holder's expense against an interest terminated under paragraph ~~(h)~~ (g) to the extent
109.23 of the termination.

109.24 ~~(k)~~ (j) If a lien arising under subdivision 1c is not released under paragraph ~~(f)~~ (i),
109.25 prior to closing the estate, the personal representative shall deed the interest subject to the
109.26 lien to the remaindermen or surviving joint tenants as their interests may appear. Upon
109.27 recording or filing, the deed shall work a merger of the recipient's life estate or joint
109.28 tenancy interest, subject to the lien, into the remainder interest or interest the decedent and
109.29 others owned jointly. The lien shall attach to and run with the property to the extent of
109.30 the decedent's interest at the time of the decedent's death.

109.31 Sec. 41. Minnesota Statutes 2008, section 256B.15, subdivision 2, is amended to read:

109.32 Subd. 2. **Limitations on claims.** The claim shall include only the total amount
109.33 of medical assistance rendered after age 55 or during a period of institutionalization
109.34 described in subdivision 1a, ~~clause (b)~~ paragraph (e), and the total amount of general
109.35 assistance medical care rendered, and shall not include interest. Claims that have been

110.1 allowed but not paid shall bear interest according to section 524.3-806, paragraph (d). A
110.2 claim against the estate of a surviving spouse who did not receive medical assistance, for
110.3 medical assistance rendered for the predeceased spouse, shall be payable from the full
110.4 value of all of the predeceased spouse's assets and interests which are part of the surviving
110.5 spouse's estate under subdivisions 1a and 2b. Recovery of medical assistance expenses in
110.6 the nonrecipient surviving spouse's estate is limited to the value of the assets of the estate
110.7 that were marital property or jointly owned property at any time during the marriage. The
110.8 claim is not payable from the value of assets or proceeds of assets in the estate attributable
110.9 to a predeceased spouse whom the individual married after the death of the predeceased
110.10 recipient spouse for whom the claim is filed or from assets and the proceeds of assets in the
110.11 estate which the nonrecipient decedent spouse acquired with assets which were not marital
110.12 property or jointly owned property after the death of the predeceased recipient spouse.
110.13 Claims for alternative care shall be net of all premiums paid under section 256B.0913,
110.14 subdivision 12, on or after July 1, 2003, and shall be limited to services provided on or
110.15 after July 1, 2003. Claims against marital property shall be limited to claims against
110.16 recipients who died on or after July 1, 2009.

110.17 Sec. 42. Minnesota Statutes 2008, section 256B.15, is amended by adding a
110.18 subdivision to read:

110.19 Subd. 2b. **Controlling provisions.** (a) For purposes of this subdivision and
110.20 subdivisions 1a and 2, paragraphs (b) to (d) apply.

110.21 (b) At the time of death of a recipient spouse and solely for purpose of recovery of
110.22 medical assistance benefits received, a predeceased recipient spouse shall have a legal
110.23 title or interest in the undivided whole of all of the property which the recipient and the
110.24 recipient's surviving spouse owned jointly or which was marital property at any time
110.25 during their marriage regardless of the form of ownership and regardless of whether
110.26 it was owned or titled in the names of one or both the recipient and the recipient's
110.27 spouse. Title and interest in the property of a predeceased recipient spouse shall not end
110.28 or extinguish upon the person's death and shall continue for the purpose of allowing
110.29 recovery of medical assistance in the estate of the surviving spouse. Upon the death of
110.30 the predeceased recipient spouse, title and interest in the predeceased spouse's property
110.31 shall vest in the surviving spouse by operation of law and without the necessity for any
110.32 probate or decree of descent proceedings and shall continue to exist after the death of the
110.33 predeceased spouse and the surviving spouse to permit recovery of medical assistance.
110.34 The recipient spouse and the surviving spouse of a deceased recipient spouse shall not

encumber, disclaim, transfer, alienate, hypothecate, or otherwise divest themselves of these interests before or upon death.

(c) For purposes of this section, "marital property" includes any and all real or personal property of any kind or interests in such property the predeceased recipient spouse and their spouse, or either of them, owned at the time of their marriage to each other or acquired during their marriage regardless of whether it was owned or titled in the names of one or both of them. If either or both spouses of a married couple received medical assistance, all property owned during the marriage or which either or both spouses acquired during their marriage shall be presumed to be marital property for purposes of recovering medical assistance unless there is clear and convincing evidence to the contrary.

(d) The agency responsible for the claim for medical assistance for a recipient spouse may, at its discretion, release specific real and personal property from the provisions of this section. The release shall extinguish the interest created under paragraph (b) in the land it describes upon filing or recording. The release need not be attested, certified, or acknowledged as a condition of filing or recording and shall be filed or recorded in the office of the county recorder or registrar of titles, as appropriate, in the county where the real property is located. The party to whom the release is given shall be responsible for paying all fees and costs necessary to record and file the release. If the property described in the release is registered property, the registrar of titles shall accept it for recording and shall record it on the certificate of title for each parcel of property described in the release. If the property described in the release is abstract property, the recorder shall accept it for filing and file it in the county's grantor-grantee indexes and any tract index the county maintains for each parcel of property described in the release.

Sec. 43. Minnesota Statutes 2008, section 256B.15, is amended by adding a subdivision to read:

Subd. 9. **Commissioner's intervention.** The commissioner shall be permitted to intervene as a party in any proceeding involving recovery of medical assistance upon filing a notice of intervention and serving such notice on the other parties.

Sec. 44. **[256B.196] INTERGOVERNMENTAL TRANSFERS; HOSPITAL PAYMENTS.**

Subdivision 1. **Federal approval required.** This section is contingent on federal approval of the intergovernmental transfers and payments authorized under this section. This section is also contingent on current payment by the government entities of the intergovernmental transfers under this section.

112.1 Subd. 2. Commissioner's duties. (a) For the purposes of this subdivision and
112.2 subdivision 3, the commissioner shall determine the fee-for-service outpatient hospital
112.3 services upper payment limit for nonstate government hospitals. The commissioner shall
112.4 then determine the amount of a supplemental payment to Hennepin County Medical
112.5 Center and Regions Hospital for these services that would increase medical assistance
112.6 spending in this category to the aggregate upper payment limit for all nonstate government
112.7 hospitals in Minnesota. In making this determination, the commissioner shall allot the
112.8 available increases between Hennepin County Medical Center and Regions Hospital
112.9 based on the ratio of medical assistance fee-for-service outpatient hospital payments to
112.10 the two facilities. The commissioner shall adjust this allotment as necessary based on
112.11 federal approvals, the amount of intergovernmental transfers received from Hennepin and
112.12 Ramsey Counties, and other factors, in order to maximize the additional total payments.
112.13 The commissioner shall inform Hennepin County and Ramsey County of the periodic
112.14 intergovernmental transfers necessary to match federal Medicaid payments available
112.15 under this subdivision in order to make supplementary medical assistance payments to
112.16 Hennepin County Medical Center and Regions Hospital equal to an amount that when
112.17 combined with existing medical assistance payments to nonstate governmental hospitals
112.18 would increase total payments to hospitals in this category for outpatient services to
112.19 the aggregate upper payment limit for all hospitals in this category in Minnesota. Upon
112.20 receipt of these periodic transfers, the commissioner shall make supplementary payments
112.21 to Hennepin County Medical Center and Regions Hospital.

112.22 (b) For the purposes of this subdivision and subdivision 3, the commissioner shall
112.23 determine an upper payment limit for physicians affiliated with Hennepin County Medical
112.24 Center and with Regions Hospital. The upper payment limit shall be based on the average
112.25 commercial rate or be determined using another method acceptable to the Centers for
112.26 Medicare and Medicaid Services. The commissioner shall inform Hennepin County and
112.27 Ramsey County of the periodic intergovernmental transfers necessary to match the federal
112.28 Medicaid payments available under this subdivision in order to make supplementary
112.29 payments to physicians affiliated with Hennepin County Medical Center and Regions
112.30 Hospital equal to the difference between the established medical assistance payment for
112.31 physician services and the upper payment limit. Upon receipt of these periodic transfers,
112.32 the commissioner shall make supplementary payments to physicians of Hennepin Faculty
112.33 Associates and HealthPartners.

112.34 (c) Beginning January 1, 2010, Hennepin County and Ramsey County shall make
112.35 monthly intergovernmental transfers to the commissioner in the following amounts:
112.36 \$133,333 by Hennepin County and \$100,000 by Ramsey County. The commissioner shall

113.1 increase the medical assistance capitation payments to Metropolitan Health Plan and
113.2 HealthPartners by an amount equal to the annual value of the monthly transfers plus
113.3 federal financial participation.

113.4 (d) The commissioner shall inform Hennepin County and Ramsey County on an
113.5 ongoing basis of the need for any changes needed in the intergovernmental transfers
113.6 in order to continue the payments under paragraphs (a) to (c), at their maximum level,
113.7 including increases in upper payment limits, changes in the federal Medicaid match, and
113.8 other factors.

113.9 (e) The payments in paragraphs (a) to (c) shall be implemented independently of
113.10 each other, subject to federal approval and to the receipt of transfers under subdivision 3.

113.11 Subd. 3. **Intergovernmental transfers.** Based on the determination by the
113.12 commissioner under subdivision 2, Hennepin County and Ramsey County shall make
113.13 periodic intergovernmental transfers to the commissioner for the purposes of subdivision
113.14 2, paragraphs (a) to (c). All of the intergovernmental transfers made by Hennepin County
113.15 shall be used to match federal payments to Hennepin County Medical Center under
113.16 subdivision 2, paragraph (a); to physicians affiliated with Hennepin Faculty Associates
113.17 under subdivision 2, paragraph (b); and to Metropolitan Health Plan under subdivision
113.18 2, paragraph (c). All of the intergovernmental transfers made by Ramsey County shall
113.19 be used to match federal payments to Regions Hospital under subdivision 2, paragraph
113.20 (a); to physicians affiliated with HealthPartners under subdivision 2, paragraph (b); and to
113.21 HealthPartners under subdivision 2, paragraph (c).

113.22 Subd. 4. **Adjustments permitted.** (a) The commissioner may adjust the
113.23 intergovernmental transfers under subdivision 3 and the payments under subdivision
113.24 2, based on the commissioner's determination of Medicare upper payment limits,
113.25 hospital-specific charge limits, hospital-specific limitations on disproportionate share
113.26 payments, medical inflation, actuarial certification, and cost-effectiveness for purposes
113.27 of federal waivers. Any adjustments must be made on a proportional basis. The
113.28 commissioner may make adjustments under this subdivision only after consultation
113.29 with the affected counties and hospitals. All payments under subdivision 2 and all
113.30 intergovernmental transfers under subdivision 3 are limited to amounts available after all
113.31 other base rates, adjustments, and supplemental payments in chapter 256B are calculated.

113.32 (b) The ratio of medical assistance payments specified in subdivision 2 to the
113.33 voluntary intergovernmental transfers specified in subdivision 3 shall not be reduced
113.34 except as provided under paragraph (a).

113.35 Subd. 5. **Recession period.** Each type of intergovernmental transfer in subdivision
113.36 2, paragraphs (a) to (d), for payment periods from October 1, 2008, through December

114.1 31, 2010, is voluntary on the part of Hennepin and Ramsey Counties, meaning that the
114.2 transfer must be agreed to, in writing, by the counties prior to any payments being issued.
114.3 One agreement on each type of transfer shall cover the entire recession period.

114.4 Sec. 45. Minnesota Statutes 2008, section 256B.199, is amended to read:

114.5 **256B.199 PAYMENTS REPORTED BY GOVERNMENTAL ENTITIES.**

114.6 (a) Effective July 1, 2007, the commissioner shall apply for federal matching funds
114.7 for the expenditures in paragraphs (b) and (c).

114.8 (b) The commissioner shall apply for federal matching funds for certified public
114.9 expenditures as follows:

114.10 (1) Hennepin County, Hennepin County Medical Center, Ramsey County, Regions
114.11 Hospital, the University of Minnesota, and Fairview-University Medical Center shall
114.12 report quarterly to the commissioner beginning June 1, 2007, payments made during the
114.13 second previous quarter that may qualify for reimbursement under federal law;

114.14 (2) based on these reports, the commissioner shall apply for federal matching
114.15 funds. These funds are appropriated to the commissioner for the payments under section
114.16 256.969, subdivision 27; and

114.17 (3) by May 1 of each year, beginning May 1, 2007, the commissioner shall inform
114.18 the nonstate entities listed in paragraph (a) of the amount of federal disproportionate share
114.19 hospital payment money expected to be available in the current federal fiscal year.

114.20 (c) The commissioner shall apply for federal matching funds for general assistance
114.21 medical care expenditures as follows:

114.22 (1) for hospital services occurring on or after July 1, 2007, general assistance medical
114.23 care expenditures for fee-for-service inpatient and outpatient hospital payments made by
114.24 the department shall be used to apply for federal matching funds, except as limited below:

114.25 (i) only those general assistance medical care expenditures made to an individual
114.26 hospital that would not cause the hospital to exceed its individual hospital limits under
114.27 section 1923 of the Social Security Act may be considered; and

114.28 (ii) general assistance medical care expenditures may be considered only to the extent
114.29 of Minnesota's aggregate allotment under section 1923 of the Social Security Act; and

114.30 (2) all hospitals must provide any necessary expenditure, cost, and revenue
114.31 information required by the commissioner as necessary for purposes of obtaining federal
114.32 Medicaid matching funds for general assistance medical care expenditures.

114.33 (d) For the period from April 1, 2009, to September 30, 2010, the commissioner shall
114.34 apply for additional federal matching funds available as disproportionate share hospital
114.35 payments under the American Recovery and Reinvestment Act of 2009. These funds shall

be made available as the state share of payments under section 256.969, subdivision 28.
The entities required to report certified public expenditures under paragraph (b), clause
(1), shall report additional certified public expenditures as necessary under this paragraph.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 46. Minnesota Statutes 2008, section 256B.69, subdivision 5a, is amended to read:

Subd. 5a. **Managed care contracts.** (a) Managed care contracts under this section and sections 256L.12 and 256D.03, shall be entered into or renewed on a calendar year basis beginning January 1, 1996. Managed care contracts which were in effect on June 30, 1995, and set to renew on July 1, 1995, shall be renewed for the period July 1, 1995 through December 31, 1995 at the same terms that were in effect on June 30, 1995. The commissioner may issue separate contracts with requirements specific to services to medical assistance recipients age 65 and older.

(b) A prepaid health plan providing covered health services for eligible persons pursuant to chapters 256B, 256D, and 256L, is responsible for complying with the terms of its contract with the commissioner. Requirements applicable to managed care programs under chapters 256B, 256D, and 256L, established after the effective date of a contract with the commissioner take effect when the contract is next issued or renewed.

(c) Effective for services rendered on or after January 1, 2003, the commissioner shall withhold five percent of managed care plan payments under this section and county-based purchasing plan's payment rate under section 256B.692 for the prepaid medical assistance and general assistance medical care programs pending completion of performance targets. Each performance target must be quantifiable, objective, measurable, and reasonably attainable, except in the case of a performance target based on a federal or state law or rule. Criteria for assessment of each performance target must be outlined in writing prior to the contract effective date. The performance targets must include measurement of plan efforts to contain spending on health care services and administrative activities. The commissioner may adopt plan-specific performance targets that take into account factors affecting only one plan, including characteristics of the plan's enrollee population. The withheld funds must be returned no sooner than July of the following year if performance targets in the contract are achieved. The commissioner may exclude special demonstration projects under subdivision 23. ~~A managed care plan or a county-based purchasing plan~~

~~under section 256B.692 may include as admitted assets under section 62D.044 any amount withheld under this paragraph that is reasonably expected to be returned.~~

(d)(1) Effective for services rendered on or after January 1, 2009, through December 31, 2009, the commissioner shall withhold three percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance and general assistance medical care programs. ~~(2) A managed care plan or a county-based purchasing plan under section 256B.692 may include as admitted assets under section 62D.044 any amount withheld under this paragraph. The return of the withhold under this paragraph is not subject to the requirements of paragraph (c).~~

(e) Effective for services rendered on or after January 1, 2010, through December 31, 2010, the commissioner shall withhold 3.5 percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program. (g) Effective for services rendered on or after January 1, 2012, through December 31, 2012, the commissioner shall withhold 4.5 percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program. The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following year. The commissioner may exclude special demonstration projects under subdivision 23.

Sec. 47. Minnesota Statutes 2008, section 256B.69, subdivision 5c, is amended to read:

Subd. 5c. **Medical education and research fund.** (a) Except as provided in paragraph (c), the commissioner of human services shall transfer each year to the medical education and research fund established under section 62J.692, the following:

(1) an amount equal to the reduction in the prepaid medical assistance and prepaid general assistance medical care payments as specified in this clause. Until January 1, 2002, the county medical assistance and general assistance medical care capitation base rate prior to plan specific adjustments and after the regional rate adjustments under section 256B.69, subdivision 5b, is reduced 6.3 percent for Hennepin County, two percent for the remaining metropolitan counties, and no reduction for nonmetropolitan Minnesota counties; and after January 1, 2002, the county medical assistance and general assistance medical care capitation base rate prior to plan specific adjustments is reduced 6.3 percent for Hennepin County, two percent for the remaining metropolitan counties, and 1.6 percent for nonmetropolitan Minnesota counties. Nursing facility and elderly waiver payments and demonstration project payments operating under subdivision 23 are excluded from this reduction. The amount calculated under this clause shall not be adjusted for periods already paid due to subsequent changes to the capitation payments;

(2) beginning July 1, 2003, ~~\$2,157,000~~ \$4,314,000 from the capitation rates paid under this section ~~plus any federal matching funds on this amount;~~

(3) beginning July 1, 2002, an additional \$12,700,000 from the capitation rates paid under this section; and

(4) beginning July 1, 2003, an additional \$4,700,000 from the capitation rates paid under this section.

(b) This subdivision shall be effective upon approval of a federal waiver which allows federal financial participation in the medical education and research fund. Effective July 1, 2009, and thereafter, the transfers required by paragraph (a), clauses (1) to (4),

118.1 shall not exceed the total amount transferred for fiscal year 2009. Any excess shall first
118.2 reduce the amounts otherwise required to be transferred under paragraph (a), clauses
118.3 (2) to (4). Any excess following this reduction shall proportionally reduce the transfers
118.4 under paragraph (a), clause (1).

118.5 (c) Effective July 1, 2003, the amount reduced from the prepaid general assistance
118.6 medical care payments under paragraph (a), clause (1), shall be transferred to the general
118.7 fund.

118.8 (d) Beginning July 1, 2009, of the amounts in paragraph (a), the commissioner shall
118.9 transfer \$21,714,000 each fiscal year to the medical education and research fund. The
118.10 balance of the transfers under paragraph (a) shall be transferred to the medical education
118.11 and research fund no earlier than July 1 of the following fiscal year.

118.12 Sec. 48. Minnesota Statutes 2008, section 256B.69, subdivision 5f, is amended to read:

118.13 Subd. 5f. **Capitation rates.** (a) Beginning July 1, 2002, the capitation rates paid
118.14 under this section are increased by \$12,700,000 per year. Beginning July 1, 2003, the
118.15 capitation rates paid under this section are increased by \$4,700,000 per year.

118.16 (b) Beginning July 1, 2009, the capitation rates paid under this section are increased
118.17 each year by the lesser of \$21,714,000 or an amount equal to the difference between the
118.18 estimated value of the reductions described in subdivision 5c, paragraph (a), clause (1),
118.19 and the amount of the limit described in subdivision 5c, paragraph (b).

118.20 Sec. 49. Minnesota Statutes 2008, section 256B.69, subdivision 23, is amended to read:

118.21 Subd. 23. **Alternative services; elderly and disabled persons.** (a) The
118.22 commissioner may implement demonstration projects to create alternative integrated
118.23 delivery systems for acute and long-term care services to elderly persons and persons
118.24 with disabilities as defined in section 256B.77, subdivision 7a, that provide increased
118.25 coordination, improve access to quality services, and mitigate future cost increases.
118.26 The commissioner may seek federal authority to combine Medicare and Medicaid
118.27 capitation payments for the purpose of such demonstrations and may contract with
118.28 Medicare-approved special needs plans to provide Medicaid services. Medicare funds and
118.29 services shall be administered according to the terms and conditions of the federal contract
118.30 and demonstration provisions. For the purpose of administering medical assistance funds,
118.31 demonstrations under this subdivision are subject to subdivisions 1 to 22. The provisions
118.32 of Minnesota Rules, parts 9500.1450 to 9500.1464, apply to these demonstrations,
118.33 with the exceptions of parts 9500.1452, subpart 2, item B; and 9500.1457, subpart 1,
118.34 items B and C, which do not apply to persons enrolling in demonstrations under this

119.1 section. An initial open enrollment period may be provided. Persons who disenroll from
119.2 demonstrations under this subdivision remain subject to Minnesota Rules, parts 9500.1450
119.3 to 9500.1464. When a person is enrolled in a health plan under these demonstrations and
119.4 the health plan's participation is subsequently terminated for any reason, the person shall
119.5 be provided an opportunity to select a new health plan and shall have the right to change
119.6 health plans within the first 60 days of enrollment in the second health plan. Persons
119.7 required to participate in health plans under this section who fail to make a choice of
119.8 health plan shall not be randomly assigned to health plans under these demonstrations.
119.9 Notwithstanding section 256L.12, subdivision 5, and Minnesota Rules, part 9505.5220,
119.10 subpart 1, item A, if adopted, for the purpose of demonstrations under this subdivision,
119.11 the commissioner may contract with managed care organizations, including counties, to
119.12 serve only elderly persons eligible for medical assistance, elderly and disabled persons, or
119.13 disabled persons only. For persons with a primary diagnosis of developmental disability,
119.14 serious and persistent mental illness, or serious emotional disturbance, the commissioner
119.15 must ensure that the county authority has approved the demonstration and contracting
119.16 design. Enrollment in these projects for persons with disabilities shall be voluntary. The
119.17 commissioner shall not implement any demonstration project under this subdivision for
119.18 persons with a primary diagnosis of developmental disabilities, serious and persistent
119.19 mental illness, or serious emotional disturbance, without approval of the county board of
119.20 the county in which the demonstration is being implemented.

119.21 (b) Notwithstanding chapter 245B, sections 252.40 to 252.46, 256B.092, 256B.501
119.22 to 256B.5015, and Minnesota Rules, parts 9525.0004 to 9525.0036, 9525.1200 to
119.23 9525.1330, 9525.1580, and 9525.1800 to 9525.1930, the commissioner may implement
119.24 under this section projects for persons with developmental disabilities. The commissioner
119.25 may capitate payments for ICF/MR services, waived services for developmental
119.26 disabilities, including case management services, day training and habilitation and
119.27 alternative active treatment services, and other services as approved by the state and by the
119.28 federal government. Case management and active treatment must be individualized and
119.29 developed in accordance with a person-centered plan. Costs under these projects may not
119.30 exceed costs that would have been incurred under fee-for-service. Beginning July 1, 2003,
119.31 and until four years after the pilot project implementation date, subcontractor participation
119.32 in the long-term care developmental disability pilot is limited to a nonprofit long-term
119.33 care system providing ICF/MR services, home and community-based waiver services,
119.34 and in-home services to no more than 120 consumers with developmental disabilities in
119.35 Carver, Hennepin, and Scott Counties. The commissioner shall report to the legislature

120.1 prior to expansion of the developmental disability pilot project. This paragraph expires
120.2 four years after the implementation date of the pilot project.

120.3 (c) Before implementation of a demonstration project for disabled persons, the
120.4 commissioner must provide information to appropriate committees of the house of
120.5 representatives and senate and must involve representatives of affected disability groups
120.6 in the design of the demonstration projects.

120.7 (d) A nursing facility reimbursed under the alternative reimbursement methodology
120.8 in section 256B.434 may, in collaboration with a hospital, clinic, or other health care entity
120.9 provide services under paragraph (a). The commissioner shall amend the state plan and
120.10 seek any federal waivers necessary to implement this paragraph.

120.11 (e) The commissioner, in consultation with the commissioners of commerce and
120.12 health, may approve and implement programs for all-inclusive care for the elderly (PACE)
120.13 according to federal laws and regulations governing that program and state laws or rules
120.14 applicable to participating providers. The process for approval of these programs shall
120.15 begin only after the commissioner receives grant money in an amount sufficient to cover
120.16 the state share of the administrative and actuarial costs to implement the programs during
120.17 state fiscal years 2006 and 2007. Grant amounts for this purpose shall be deposited in an
120.18 account in the special revenue fund and are appropriated to the commissioner to be used
120.19 solely for the purpose of PACE administrative and actuarial costs. A PACE provider is
120.20 not required to be licensed or certified as a health plan company as defined in section
120.21 62Q.01, subdivision 4. Persons age 55 and older who have been screened by the county
120.22 and found to be eligible for services under the elderly waiver or community alternatives
120.23 for disabled individuals or who are already eligible for Medicaid but meet level of
120.24 care criteria for receipt of waiver services may choose to enroll in the PACE program.
120.25 Medicare and Medicaid services will be provided according to this subdivision and
120.26 federal Medicare and Medicaid requirements governing PACE providers and programs.
120.27 PACE enrollees will receive Medicaid home and community-based services through the
120.28 PACE provider as an alternative to services for which they would otherwise be eligible
120.29 through home and community-based waiver programs and Medicaid State Plan Services.
120.30 The commissioner shall establish Medicaid rates for PACE providers that do not exceed
120.31 costs that would have been incurred under fee-for-service or other relevant managed care
120.32 programs operated by the state.

120.33 (f) The commissioner shall seek federal approval to expand the Minnesota disability
120.34 health options (MnDHO) program established under this subdivision in stages, first to
120.35 regional population centers outside the seven-county metro area and then to all areas of
120.36 the state. Until July 1, 2009, expansion for MnDHO projects that include home and

community-based services is limited to the two projects and service areas in effect on March 1, 2006. Enrollment in integrated MnDHO programs that include home and community-based services shall remain voluntary. Costs for home and community-based services included under MnDHO must not exceed costs that would have been incurred under the fee-for-service program. Notwithstanding whether expansion occurs under this paragraph, in determining MnDHO payment rates and risk adjustment methods for contract years starting in 2012, the commissioner must consider the methods used to determine county allocations for home and community-based program participants. If necessary to reduce MnDHO rates to comply with the provision regarding MnDHO costs for home and community-based services, the commissioner shall achieve the reduction by maintaining the base rate for contract years 2010 and 2011 for services provided under the community alternatives for disabled individuals waiver at the same level as for contract year 2009. The commissioner may apply other reductions to MnDHO rates to implement decreases in provider payment rates required by state law. In developing program specifications for expansion of integrated programs, the commissioner shall involve and consult the state-level stakeholder group established in subdivision 28, paragraph (d), including consultation on whether and how to include home and community-based waiver programs. Plans for further expansion of MnDHO projects shall be presented to the chairs of the house of representatives and senate committees with jurisdiction over health and human services policy and finance by February 1, 2007.

(g) Notwithstanding section 256B.0261, health plans providing services under this section are responsible for home care targeted case management and relocation targeted case management. Services must be provided according to the terms of the waivers and contracts approved by the federal government.

Sec. 50. **[256B.756] REIMBURSEMENT RATES FOR BIRTHS.**

Subdivision 1. Facility rate. (a) Notwithstanding section 256.969, effective for services provided on or after October 1, 2009, the facility payment rate for the following diagnosis-related groups, as they fall within the diagnostic categories: (1) 371 cesarean section without complicating diagnosis; (2) 372 vaginal delivery with complicating diagnosis; and (3) 373 vaginal delivery without complicating diagnosis, shall be calculated as provided in paragraph (b).

(b) The commissioner shall calculate a single rate for all of the diagnostic related groups specified in paragraph (a) consistent with an increase in the proportion of births by vaginal delivery and a reduction in the percentage of births by cesarean section. The calculated single rate must be based on an expected increase in the number of vaginal

122.1 births and expected reduction in the number of cesarean section such that the reduction
122.2 in cesarean sections is less than or equal to one standard deviation below the average in
122.3 the frequency of cesarean births for Minnesota health care program clients at hospitals
122.4 performing greater than 50 deliveries per year.

122.5 (c) The rates described in this subdivision do not include newborn care.

122.6 Subd. 2. **Provider rate.** Notwithstanding section 256B.76, effective for services
122.7 provided on or after October 1, 2009, the payment rate for professional services related
122.8 to labor, delivery, and antepartum and postpartum care when provided for any of the
122.9 diagnostic categories identified in subdivision 1, paragraph (a), shall be calculated using
122.10 the methodology specified in subdivision 1, paragraph (b).

122.11 Subd. 3. **Health plans.** Payments to managed care and county-based purchasing
122.12 plans under sections 256B.69, 256B.692, or 256L.12 shall be reduced for services
122.13 provided on or after October 1, 2009, to reflect the adjustments in subdivisions 1 and 2.

122.14 Subd. 4. **Prior authorization.** Prior authorization shall not be required before
122.15 reimbursement is paid for a cesarean section delivery.

122.16 Sec. 51. Minnesota Statutes 2008, section 256B.76, subdivision 1, is amended to read:

122.17 Subdivision 1. **Physician reimbursement.** (a) Effective for services rendered on

122.21 procedural coding system codes titled "office and other outpatient services," "preventive
122.22 medicine new and established patient," "delivery, antepartum, and postpartum care,"
122.23 "critical care," cesarean delivery and pharmacologic management provided to psychiatric
122.24 patients, and level three codes for enhanced services for prenatal high risk, shall be paid
122.25 at the lower of (i) submitted charges, or (ii) 25 percent above the rate in effect on June
122.26 30, 1992. If the rate on any procedure code within these categories is different than the
122.27 rate that would have been paid under the methodology in section 256B.74, subdivision 2,
122.28 then the larger rate shall be paid;

122.29 (2) payments for all other services shall be paid at the lower of (i) submitted charges,
122.30 or (ii) 15.4 percent above the rate in effect on June 30, 1992; and

122.31 (3) all physician rates shall be converted from the 50th percentile of 1982 to the 50th
122.32 percentile of 1989, less the percent in aggregate necessary to equal the above increases
122.33 except that payment rates for home health agency services shall be the rates in effect
122.34 on September 30, 1992.

(b) Effective for services rendered on or after January 1, 2000, payment rates for physician and professional services shall be increased by three percent over the rates in effect on December 31, 1999, except for home health agency and family planning agency services. (b) This section does not apply to physician and professional services, inpatient hospital services, family planning services, mental health services, dental services, prescription drugs, and medical transportation.

Sec. 53. Minnesota Statutes 2008, section 256D.03, subdivision 4, is amended to read:

124.16 deductible payments;
- 124.17 (18) medical equipment not specifically listed in this paragraph when the use of

124.24 chapter as a physician service, (2) the service provided on an inpatient basis is not included

(b) Effective August 1, 2005, sex reassignment surgery is not covered under this subdivision.

(c) In order to contain costs, the commissioner of human services shall select vendors of medical care who can provide the most economical care consistent with high medical standards and shall where possible contract with organizations on a prepaid capitation basis to provide these services. The commissioner shall consider proposals by counties and vendors for prepaid health plans, competitive bidding programs, block grants, or other vendor payment mechanisms designed to provide services in an economical manner or to control utilization, with safeguards to ensure that necessary services are provided. Before implementing prepaid programs in counties with a county operated or affiliated public teaching hospital or a hospital or clinic operated by the University of Minnesota, the commissioner shall consider the risks the prepaid program creates for the hospital and allow the county or hospital the opportunity to participate in the program in a manner that reflects the risk of adverse selection and the nature of the patients served by the hospital, provided the terms of participation in the program are competitive with the terms of other participants considering the nature of the population served. Payment for services provided pursuant to this subdivision shall be as provided to medical assistance vendors of these services under sections 256B.02, subdivision 8, and 256B.0625. For payments made during fiscal year 1990 and later years, the commissioner shall consult with an independent actuary in establishing prepayment rates, but shall retain final control over the rate methodology.

(d) Effective January 1, 2008, drug coverage under general assistance medical care is limited to prescription drugs that:

(i) are covered under the medical assistance program as described in section 256B.0625, subdivisions 13 and 13d; and

136.20 June 30, 2009, the sliding fee scale begins with a premium of 1.5 percent of monthly gross
136.21 individual or family income for individuals or families with incomes below the limits for
136.22 the medical assistance program for families and children in effect on January 1, 1999, and
136.23 proceeds through the following evenly spaced steps: 1.8, 2.3, 3.1, 3.8, 4.8, 5.9, 7.4, and
136.24 8.8 percent. These percentages are matched to evenly spaced income steps ranging from
136.25 the medical assistance income limit for families and children in effect on January 1, 1999,
136.26 to 275 percent of the federal poverty guidelines for the applicable family size, up to a
136.27 family size of five. The sliding fee scale for a family of five must be used for families of
136.28 more than five. The sliding fee scale and percentages are not subject to the provisions of
136.29 chapter 14. If a family or individual reports increased income after enrollment, premiums
136.30 shall be adjusted at the time the change in income is reported.

136.31 (b) Children in families whose gross income is above 275 percent of the federal
136.32 poverty guidelines shall pay the maximum premium. The maximum premium is defined
136.33 as a base charge for one, two, or three or more enrollees so that if all MinnesotaCare
136.34 cases paid the maximum premium, the total revenue would equal the total cost of

MinnesotaCare medical coverage and administration. In this calculation, administrative costs shall be assumed to equal ten percent of the total. The costs of medical coverage for pregnant women and children under age two and the enrollees in these groups shall be excluded from the total. The maximum premium for two enrollees shall be twice the maximum premium for one, and the maximum premium for three or more enrollees shall be three times the maximum premium for one.

(c) Beginning July 1, 2009, MinnesotaCare enrollees shall pay premiums according to the premium scale specified in paragraph (d) with the exception that children in families with income at or below ~~150~~ 200 percent of the federal poverty guidelines shall pay ~~a monthly premium of \$4~~ no premiums. For purposes of paragraph (d), "minimum" means a monthly premium of \$4.

(d) The following premium scale is established for individuals and families with gross family incomes of 300 percent of the federal poverty guidelines or less:

Federal Poverty Guideline Range	Percent of Average Gross Monthly Income
0-45%	minimum
46-54%	1.1%
55-81%	1.6%
82-109%	2.2%
110-136%	2.9%
137-164%	3.6%
165-191%	4.6%
192-219%	5.6%
220-248%	6.5%
249-274%	7.2%
275-300%	8.0%

EFFECTIVE DATE. This section is effective July 1, 2009, or upon federal approval, whichever is later.

Sec. 69. Minnesota Statutes 2008, section 256L.15, subdivision 3, is amended to read:

Subd. 3. **Exceptions to sliding scale.** Children in families with income at or below ~~150~~ 200 percent of the federal poverty guidelines shall pay a ~~no~~ monthly premium of ~~\$4~~ premiums.

Sec. 71. Minnesota Statutes 2008, section 256L.17, subdivision 5, is amended to read:

Subd. 5. **Exemption.** This section does not apply to pregnant women or children. For purposes of this subdivision, a woman is considered pregnant for 60 days postpartum.

Sec. 72. Minnesota Statutes 2008, section 501B.89, is amended by adding a subdivision to read:

Subd. 4. **Annual filing requirement for supplemental needs trusts.** (a) A trustee of a trust under subdivision 3 and United States Code, title 42, section 1396p(d)(4)(A) or (C), shall submit to the commissioner of human services, at the time of a beneficiary's request for medical assistance, the following information about the trust:

(1) a copy of the trust instrument; and

(2) an inventory of the beneficiary's trust account assets and the value of those assets.

(b) A trustee of a trust under subdivision 3 and United States Code, title 42, section 1396p(d)(4)(A) or (C), shall submit an accounting of the beneficiary's trust account to the commissioner of human services at least annually until the trust, or the beneficiary's interest in the trust, terminates. Accountings are due on the anniversary of the execution date of the trust unless another annual date is established by the terms of the trust. The accounting must include the following information for the accounting period:

(1) an inventory of trust assets and the value of those assets at the beginning of the accounting period;

(2) additions to the trust during the accounting period and the source of those additions;

(4) an inventory of trust assets and the value of those assets at the end of the accounting period; and

(5) changes to the trust instrument during the accounting period.

139.1 (c) For the purpose of paragraph (b), an accounting period is 12 months unless an
139.2 accounting period of a different length is permitted by the commissioner.

139.3 **EFFECTIVE DATE.** This section is effective for applications for medical
139.4 assistance and renewals of medical assistance submitted on or after July 1, 2009.

139.5 Sec. 73. Minnesota Statutes 2008, section 519.05, is amended to read:

519.05 LIABILITY OF HUSBAND AND WIFE.

139.7 (a) A spouse is not liable to a creditor for any debts of the other spouse. Where
139.8 husband and wife are living together, they shall be jointly and severally liable for
139.9 necessary medical services that have been furnished to either spouse, including any claims
139.10 arising under section 246.53, 256B.15, 256D.16, or 261.04, and necessary household
139.11 articles and supplies furnished to and used by the family. Notwithstanding this paragraph,
139.12 in a proceeding under chapter 518 the court may apportion such debt between the spouses.

139.13 (b) Either spouse may close a credit card account or other unsecured consumer line
139.14 of credit on which both spouses are contractually liable, by giving written notice to the

139.26 **Federal Contingency Appropriation. (a)**
139.27 Federal Medicaid funds made available
139.28 under title IV of the federal Jobs and Growth
139.29 Tax Relief Reconciliation Act of 2003
139.30 are appropriated to the commissioner of
139.31 human services for use in the state's medical
139.32 assistance and MinnesotaCare programs.
139.33 The commissioners of human services and
139.34 finance shall report to the legislative advisory

140.1 committee on the additional federal Medicaid
140.2 matching funds that will be available to the
140.3 state.

140.4 (b) Because of the availability of these funds,
140.5 the following policies shall become effective:

140.6 (1) medical assistance and MinnesotaCare
140.7 eligibility and local financial participation
140.8 changes provided for in this act may be
140.9 implemented prior to September 2, 2003, or
140.10 may be delayed as necessary to maximize

140.19 2007. Funds may be transferred from the
140.20 general fund to the health care access fund as
140.21 necessary to implement this provision; and

140.22 (3) the following payment shifts shall not be
140.23 implemented:

140.24 (i) MFIP payment shift found in subdivision
140.25 11;

140.26 (ii) the county payment shift found in
140.27 subdivision 1; and

140.28 (iii) the delay in medical assistance
140.29 and general assistance medical care
140.30 fee-for-service payments found in
140.31 subdivision 6.

140.32 (c) Notwithstanding section 14, paragraphs

140.33 (a) and (b) shall expire June 30, 2007.

141.1 **Receipts for Systems Projects.**

141.2 Appropriations and federal receipts for
141.3 information system projects for MAXIS,
141.4 PRISM, MMIS, and SSIS must be deposited
141.5 in the state system account authorized in
141.6 Minnesota Statutes, section 256.014. Money
141.7 appropriated for computer projects approved
141.8 by the Minnesota office of technology,
141.9 funded by the legislature, and approved
141.10 by the commissioner of finance may be
141.11 transferred from one project to another
141.12 and from development to operations as the
141.13 commissioner of human services considers
141.14 necessary. Any unexpended balance in
141.15 the appropriation for these projects does
141.16 not cancel but is available for ongoing
141.17 development and operations.

141.18 **Gifts.** Notwithstanding Minnesota Statutes,
141.19 chapter 7, the commissioner may accept
141.20 on behalf of the state additional funding
141.21 from sources other than state funds for the
141.22 purpose of financing the cost of assistance
141.23 program grants or nongrant administration.
141.24 All additional funding is appropriated to the
141.25 commissioner for use as designated by the
141.26 grantor of funding.

141.27 **Systems Continuity.** In the event of
141.28 disruption of technical systems or computer
141.29 operations, the commissioner may use
141.30 available grant appropriations to ensure
141.31 continuity of payments for maintaining the
141.32 health, safety, and well-being of clients
141.33 served by programs administered by the
141.34 department of human services. Grant funds
141.35 must be used in a manner consistent with the
141.36 original intent of the appropriation.

142.1 **Nonfederal Share Transfers.** The
142.2 nonfederal share of activities for which
142.3 federal administrative reimbursement is
142.4 appropriated to the commissioner may be
142.5 transferred to the special revenue fund.

142.6 **TANF Funds Appropriated to Other**
142.7 **Entities.** Any expenditures from the TANF
142.8 block grant shall be expended in accordance
142.9 with the requirements and limitations of part
142.10 A of title IV of the Social Security Act, as
142.11 amended, and any other applicable federal
142.12 requirement or limitation. Prior to any
142.13 expenditure of these funds, the commissioner
142.14 shall assure that funds are expended in
142.15 compliance with the requirements and
142.16 limitations of federal law and that any
142.17 reporting requirements of federal law are
142.18 met. It shall be the responsibility of any entity
142.19 to which these funds are appropriated to
142.20 implement a memorandum of understanding
142.21 with the commissioner that provides the
142.22 necessary assurance of compliance prior to
142.23 any expenditure of funds. The commissioner
142.24 shall receipt TANF funds appropriated
142.25 to other state agencies and coordinate all
142.26 related interagency accounting transactions
142.27 necessary to implement these appropriations.

142.28 Unexpended TANF funds appropriated to
142.29 any state, local, or nonprofit entity cancel
142.30 at the end of the state fiscal year unless
142.31 appropriating language permits otherwise.

142.32 **TANF Funds Transferred to Other Federal**
142.33 **Grants.** The commissioner must authorize
142.34 transfers from TANF to other federal block
142.35 grants so that funds are available to meet the
142.36 annual expenditure needs as appropriated.

143.1 Transfers may be authorized prior to the
143.2 expenditure year with the agreement of the
143.3 receiving entity. Transferred funds must be
143.4 expended in the year for which the funds
143.5 were appropriated unless appropriation
143.6 language permits otherwise. In accelerating
143.7 transfer authorizations, the commissioner
143.8 must aim to preserve the future potential
143.9 transfer capacity from TANF to other block
143.10 grants.

143.11 **TANF Maintenance of Effort.** (a) In
143.12 order to meet the basic maintenance of
143.13 effort (MOE) requirements of the TANF
143.14 block grant specified under Code of Federal
143.15 Regulations, title 45, section 263.1, the
143.16 commissioner may only report nonfederal
143.17 money expended for allowable activities
143.18 listed in the following clauses as TANF/MOE
143.19 expenditures:

143.20 (1) MFIP cash, diversionary work program,
143.21 and food assistance benefits under Minnesota
143.22 Statutes, chapter 256J;

143.23 (2) the child care assistance programs
143.24 under Minnesota Statutes, sections 119B.03
143.25 and 119B.05, and county child care
143.26 administrative costs under Minnesota
143.27 Statutes, section 119B.15;

143.28 (3) state and county MFIP administrative
143.29 costs under Minnesota Statutes, chapters
143.30 256J and 256K;

143.31 (4) state, county, and tribal MFIP
143.32 employment services under Minnesota
143.33 Statutes, chapters 256J and 256K;

143.34 (5) expenditures made on behalf of
143.35 noncitizen MFIP recipients who qualify

144.1 for the medical assistance without federal
144.2 financial participation program under
144.3 Minnesota Statutes, section 256B.06,
144.4 subdivision 4, paragraphs (d), (e), and (j);
144.5 and

144.6 (6) qualifying working family credit
144.7 expenditures under Minnesota Statutes,
144.8 section 290.0671.

144.9 (b) The commissioner shall ensure that
144.10 sufficient qualified nonfederal expenditures
144.11 are made each year to meet the state's
144.12 TANF/MOE requirements. For the activities
144.13 listed in paragraph (a), clauses (2) to
144.14 (6), the commissioner may only report
144.15 expenditures that are excluded from the
144.16 definition of assistance under Code of
144.17 Federal Regulations, title 45, section 260.31.

144.18 (c) By August 31 of each year, the
144.19 commissioner shall make a preliminary
144.20 calculation to determine the likelihood
144.21 that the state will meet its annual federal
144.22 work participation requirement under Code
144.23 of Federal Regulations, title 45, sections
144.24 261.21 and 261.23, after adjustment for any
144.25 caseload reduction credit under Code of
144.26 Federal Regulations, title 45, section 261.41.
144.27 If the commissioner determines that the
144.28 state will meet its federal work participation
144.29 rate for the federal fiscal year ending that
144.30 September, the commissioner may reduce the
144.31 expenditure under paragraph (a), clause (1),
144.32 to the extent allowed under Code of Federal
144.33 Regulations, title 45, section 263.1(a)(2).

144.34 (d) For fiscal years beginning with state
144.35 fiscal year 2003, the commissioner shall

145.1 assure that the maintenance of effort used
145.2 by the commissioner of finance for the
145.3 February and November forecasts required
145.4 under Minnesota Statutes, section 16A.103,
145.5 contains expenditures under paragraph (a),
145.6 clause (1), equal to at least 25 percent of
145.7 the total required under Code of Federal
145.8 Regulations, title 45, section 263.1.

145.9 (e) If nonfederal expenditures for the
145.10 programs and purposes listed in paragraph
145.11 (a) are insufficient to meet the state's
145.12 TANF/MOE requirements, the commissioner
145.13 shall recommend additional allowable
145.14 sources of nonfederal expenditures to the
145.15 legislature, if the legislature is or will be in
145.16 session to take action to specify additional
145.17 sources of nonfederal expenditures for
145.18 TANF/MOE before a federal penalty is
145.19 imposed. The commissioner shall otherwise
145.20 provide notice to the legislative commission
145.21 on planning and fiscal policy under paragraph
145.22 (g).

145.23 (f) If the commissioner uses authority
145.24 granted under section 11, or similar authority
145.25 granted by a subsequent legislature, to
145.26 meet the state's TANF/MOE requirement
145.27 in a reporting period, the commissioner
145.28 shall inform the chairs of the appropriate
145.29 legislative committees about all transfers
145.30 made under that authority for this purpose.

145.31 (g) If the commissioner determines that
145.32 nonfederal expenditures under paragraph
145.33 (a) are insufficient to meet TANF/MOE
145.34 expenditure requirements, and if the
145.35 legislature is not or will not be in

146.1 session to take timely action to avoid a
146.2 federal penalty, the commissioner may
146.3 report nonfederal expenditures from
146.4 other allowable sources as TANF/MOE
146.5 expenditures after the requirements of this
146.6 paragraph are met. The commissioner
146.7 may report nonfederal expenditures
146.8 in addition to those specified under
146.9 paragraph (a) as nonfederal TANF/MOE
146.10 expenditures, but only ten days after the
146.11 commissioner of finance has first submitted
146.12 the commissioner's recommendations for
146.13 additional allowable sources of nonfederal
146.14 TANF/MOE expenditures to the members of
146.15 the legislative commission on planning and
146.16 fiscal policy for their review.

146.17 (h) The commissioner of finance shall not
146.18 incorporate any changes in federal TANF
146.19 expenditures or nonfederal expenditures for
146.20 TANF/MOE that may result from reporting
146.21 additional allowable sources of nonfederal
146.22 TANF/MOE expenditures under the interim
146.23 procedures in paragraph (g) into the February
146.24 or November forecasts required under
146.25 Minnesota Statutes, section 16A.103, unless
146.26 the commissioner of finance has approved
146.27 the additional sources of expenditures under
146.28 paragraph (g).

146.29 (i) Minnesota Statutes, section 256.011,
146.30 subdivision 3, which requires that federal
146.31 grants or aids secured or obtained under that
146.32 subdivision be used to reduce any direct
146.33 appropriations provided by law, do not apply
146.34 if the grants or aids are federal TANF funds.

147.1 (j) Notwithstanding section 14, paragraph
147.2 (a), clauses (1) to (6), and paragraphs (b) to
147.3 (j) expire June 30, 2007.

147.4 **Working Family Credit Expenditures as**
147.5 **TANF MOE.** The commissioner may claim
147.6 as TANF maintenance of effort up to the
147.7 following amounts of working family credit

147.10 (2) fiscal year 2005, \$25,133,000;
147.11 (3) fiscal year 2006, \$6,942,000; and
147.12 (4) fiscal year 2007, \$6,707,000.

147.13 **Fiscal Year 2003 Appropriations**
147.14 **Carryforward.** Effective the day following
147.15 final enactment, notwithstanding Minnesota
147.16 Statutes, section 16A.28, or any other law to
147.17 the contrary, state agencies and constitutional
147.18 offices may carry forward unexpended
147.19 and unencumbered nongrant operating
147.20 balances from fiscal year 2003 general fund
147.21 appropriations into fiscal year 2004 to offset
147.22 general budget reductions.

147.23 **Transfer of Grant Balances.** Effective
147.24 the day following final enactment, the
147.25 commissioner of human services, with
147.26 the approval of the commissioner of
147.27 finance and after notification of the chair
147.28 of the senate health, human services and
147.29 corrections budget division and the chair
147.30 of the house of representatives health
147.31 and human services finance committee,
147.32 may transfer unencumbered appropriation

148.10 Notwithstanding the provisions of Laws
148.11 2000, chapter 488, article 1, section 16,
148.12 any prior appropriations of TANF funds
148.13 to the department of trade and economic
148.14 development or to the job skills partnership

148.16 another agency to the department of trade
148.17 and economic development or to the job
148.18 skills partnership board are not available
148.19 until expended, and if unobligated as of June
148.20 30, 2003, these appropriations or transfers
148.21 shall cancel to the TANF fund.

148.22 **Shift County Payment.** The commissioner
148.23 shall make up to 100 percent of the
148.24 calendar year 2005 payments to counties for
148.25 developmental disabilities semi-independent

148.30 payment shift. Calendar year 2006 and future
148.31 payments for these grants are not affected by
148.32 this shift. This provision expires June 30,

149.8 for purposes of Minnesota Statutes, section
149.9 256B.69. Notwithstanding the provisions of
149.10 section 14, this provision shall not expire.

149.11 Sec. 75. **ASTHMA COVERAGE DEMONSTRATION PROJECT.**

149.12 Subdivision 1. **Medical assistance coverage.** The commissioner of human services
149.13 shall establish a demonstration project to provide additional medical assistance coverage

158.6 recipient proposes to the agency as the recipient's choice of assistant;

158.23 person is under age 19 and qualifies as a disabled individual under United States Code,
158.24 title 42, section 1382c(a), and would be eligible for medical assistance under the state
158.25 plan if residing in a medical institution, and the child requires a level of care provided in
158.26 a hospital, nursing facility, or intermediate care facility for persons with developmental
158.27 disabilities, for whom home care is appropriate, provided that the cost to medical
158.28 assistance under this section is not more than the amount that medical assistance would pay
158.29 for if the child resides in an institution. After the child is determined to be eligible under
158.30 this section, the commissioner shall review the child's disability under United States Code,
158.31 title 42, section 1382c(a) and level of care defined under this section no more often than

158.33 contract with the state medical review team, to extend the review of disability and level of
158.34 care up to a maximum of four years. The commissioner's decision on the frequency of
158.35 continuing review of disability and level of care is not subject to administrative appeal

159.1 under section 256.045. The county agency shall send a notice of disability review to the
159.2 enrollee six months prior to the date the recertification of disability is due. Nothing in this

159.11 monitoring and treatment by a health care professional or by a person supervised by a
159.12 health care professional, who would reside in a hospital or require frequent hospitalization
159.13 if these services were not provided, and the daily care needs are more complex than
159.14 a nursing facility level of care.

159.15 A child with serious emotional disturbance requires a level of care provided in a
159.16 hospital if the commissioner determines that the individual requires 24-hour supervision
159.17 because the person exhibits recurrent or frequent suicidal or homicidal ideation or
159.18 behavior, recurrent or frequent psychosomatic disorders or somatopsychic disorders that
159.19 may become life threatening, recurrent or frequent severe socially unacceptable behavior
159.20 associated with psychiatric disorder, ongoing and chronic psychosis or severe, ongoing
159.21 and chronic developmental problems requiring continuous skilled observation, or severe
159.22 disabling symptoms for which office-centered outpatient treatment is not adequate, and
159.23 which overall severely impact the individual's ability to function.

159.24 (c) For purposes of this subdivision, "nursing facility" means a facility which
159.25 provides nursing care as defined in section 144A.01, subdivision 5, licensed pursuant to
159.26 sections 144A.02 to 144A.10, which is appropriate if a person is in active restorative
159.27 treatment; is in need of special treatments provided or supervised by a licensed nurse; or
159.28 has unpredictable episodes of active disease processes requiring immediate judgment
159.29 by a licensed nurse. For purposes of this subdivision, a child requires the level of care
159.30 provided in a nursing facility if the child is determined by the commissioner to meet
159.31 the requirements of the preadmission screening assessment document under section
159.32 256B.0911 and the home care independent rating document under section 256B.0655,
159.33 ~~subdivision 4, clause (3), adjusted to address age-appropriate standards for children age 18~~
159.34 ~~and under, pursuant to section 256B.0655, subdivision 3.~~

159.36 developmental disabilities" or "ICF/MR" means a program licensed to provide services to

160.1 persons with developmental disabilities under section 252.28, and chapter 245A, and a
160.2 physical plant licensed as a supervised living facility under chapter 144, which together
160.3 are certified by the Minnesota Department of Health as meeting the standards in Code of
160.4 Federal Regulations, title 42, part 483, for an intermediate care facility which provides
160.5 services for persons with developmental disabilities who require 24-hour supervision
160.6 and active treatment for medical, behavioral, or habilitation needs. For purposes of this
160.7 subdivision, a child requires a level of care provided in an ICF/MR if the commissioner
160.8 finds that the child has a developmental disability in accordance with section 256B.092,
160.9 is in need of a 24-hour plan of care and active treatment similar to persons with
160.10 developmental disabilities, and there is a reasonable indication that the child will need
160.11 ICF/MR services.

160.12 (e) For purposes of this subdivision, a person requires the level of care provided
160.13 in a nursing facility if the person requires 24-hour monitoring or supervision and a plan
160.14 of mental health treatment because of specific symptoms or functional impairments
160.15 associated with a serious mental illness or disorder diagnosis, which meet severity criteria
160.16 for mental health established by the commissioner and published in March 1997 as
160.17 the Minnesota Mental Health Level of Care for Children and Adolescents with Severe
160.18 Emotional Disorders.

160.19 (f) The determination of the level of care needed by the child shall be made by
160.20 the commissioner based on information supplied to the commissioner by the parent or
160.21 guardian, the child's physician or physicians, and other professionals as requested by the
160.22 commissioner. The commissioner shall establish a screening team to conduct the level of
160.23 care determinations according to this subdivision.

160.24 (g) If a child meets the conditions in paragraph (b), (c), (d), or (e), the commissioner
160.25 must assess the case to determine whether:

160.26 (1) the child qualifies as a disabled individual under United States Code, title 42,
160.27 section 1382c(a), and would be eligible for medical assistance if residing in a medical
160.28 institution; and

160.29 (2) the cost of medical assistance services for the child, if eligible under this
160.30 subdivision, would not be more than the cost to medical assistance if the child resides in a
160.31 medical institution to be determined as follows:

160.32 (i) for a child who requires a level of care provided in an ICF/MR, the cost of
160.33 care for the child in an institution shall be determined using the average payment rate
160.34 established for the regional treatment centers that are certified as ICF's/MR;

161.1 (ii) for a child who requires a level of care provided in an inpatient hospital setting
161.2 according to paragraph (b), cost-effectiveness shall be determined according to Minnesota
161.3 Rules, part 9505.3520, items F and G; and

161.4 (iii) for a child who requires a level of care provided in a nursing facility according
161.5 to paragraph (c) or (e), cost-effectiveness shall be determined according to Minnesota
161.6 Rules, part 9505.3040, except that the nursing facility average rate shall be adjusted to
161.7 reflect rates which would be paid for children under age 16. The commissioner may
161.8 authorize an amount up to the amount medical assistance would pay for a child referred to
161.9 the commissioner by the preadmission screening team under section 256B.0911.

161.10 (h) Children eligible for medical assistance services under section 256B.055,
161.11 subdivision 12, as of June 30, 1995, must be screened according to the criteria in this
161.12 subdivision prior to January 1, 1996. Children found to be ineligible may not be removed
161.13 from the program until January 1, 1996.

161.14 Sec. 8. Minnesota Statutes 2008, section 256B.0621, subdivision 2, is amended to read:

162.14 if home care services are determined to be necessary, participate in the development
162.15 of a service plan coordinating the need for home care and home and community-based
162.16 waived services with the assigned county case manager, the recipient of services, and
162.17 the recipient's legal representative, if any.

162.18 (b) The public health nurse shall give prior authorization for home care services
162.19 to the extent that home care services are:

162.27 (c) If the public health agency is or may be the provider of home care services to the
162.28 recipient, the public health agency shall provide the commissioner of human services with
162.29 a written plan that specifies how the assessment and prior authorization process will be
162.30 held separate and distinct from the provision of services.

162.31 Sec. 10. Minnesota Statutes 2008, section 256B.0657, subdivision 2, is amended to
162.32 read:

162.33 Subd. 2. **Eligibility.** (a) The self-directed supports option is available to a person

163.8 manage the individuals providing services, and to choose and obtain items, related
163.9 services, and supports as described in the participant's plan. If the recipient is not able to
163.10 carry out these functions but has a legal guardian or parent to carry them out, the guardian
163.11 or parent may fulfill these functions on behalf of the recipient; and

163.12 (5) has not been excluded or disenrolled by the commissioner.

163.13 (b) The commissioner may disenroll or exclude recipients, including guardians and

163.16 Committee may be excluded for a specified time period;

163.17 (2) recipients who exit the self-directed supports option during the recipient's
163.18 service plan year shall not access the self-directed supports option for the remainder of
163.19 that service plan year; and

163.20 (3) when the department determines that the recipient cannot manage recipient
163.21 responsibilities under the program.

163.22 Sec. 11. Minnesota Statutes 2008, section 256B.0657, subdivision 6, is amended to
163.23 read:

163.24 Subd. 6. **Services covered.** (a) Services covered under the self-directed supports
163.25 option include:

163.26 (1) personal care assistant services under section ~~256B.0655~~ 256B.0659; and

163.27 (2) items, related services, and supports, including assistive technology, that increase
163.28 independence or substitute for human assistance to the extent expenditures would
163.29 otherwise be used for human assistance.

163.30 (b) Items, supports, and related services purchased under this option shall not be
163.31 considered home care services for the purposes of section 144A.43.

163.32 Sec. 12. Minnesota Statutes 2008, section 256B.0657, subdivision 8, is amended to
163.33 read:

Subd. 8. **Self-directed budget requirements.** The budget for the provision of the self-directed service option shall be equal to the greater of either:

(1) the annual amount of personal care assistant services under section ~~256B.0655~~ 256B.0659 that the recipient has used in the most recent 12-month period; or

(2) the amount determined using the consumer support grant methodology under section 256.476, subdivision 11, except that the budget amount shall include the federal and nonfederal share of the average service costs.

Sec. 13. Minnesota Statutes 2008, section 256B.49, subdivision 17, is amended to read:

Subd. 17. **Cost of services and supports.** (a) The commissioner shall ensure that the average per capita expenditures estimated in any fiscal year for home and community-based waiver recipients does not exceed the average per capita expenditures that would have been made to provide institutional services for recipients in the absence of the waiver.

(b) The commissioner shall implement on January 1, 2002, one or more aggregate, need-based methods for allocating to local agencies the home and community-based waived service resources available to support recipients with disabilities in need of the level of care provided in a nursing facility or a hospital. The commissioner shall allocate resources to single counties and county partnerships in a manner that reflects consideration of:

(1) an incentive-based payment process for achieving outcomes;

(2) the need for a state-level risk pool;

(3) the need for retention of management responsibility at the state agency level; and

(4) a phase-in strategy as appropriate.

(c) Until the allocation methods described in paragraph (b) are implemented, the annual allowable reimbursement level of home and community-based waiver services shall be the greater of:

(1) the statewide average payment amount which the recipient is assigned under the waiver reimbursement system in place on June 30, 2001, modified by the percentage of any provider rate increase appropriated for home and community-based services; or

(2) an amount approved by the commissioner based on the recipient's extraordinary needs that cannot be met within the current allowable reimbursement level. The increased reimbursement level must be necessary to allow the recipient to be discharged from an institution or to prevent imminent placement in an institution. The additional reimbursement may be used to secure environmental modifications; assistive technology and equipment; and increased costs for supervision, training, and support services

necessary to address the recipient's extraordinary needs. The commissioner may approve an increased reimbursement level for up to one year of the recipient's relocation from an institution or up to six months of a determination that a current waiver recipient is at imminent risk of being placed in an institution.

(d) Beginning July 1, 2001, medically necessary private duty nursing services will be authorized under this section as complex and regular care according to sections 256B.0651 ~~and 256B.0653~~ to 256B.0656 and 256B.0659. The rate established by the commissioner for registered nurse or licensed practical nurse services under any home and community-based waiver as of January 1, 2001, shall not be reduced.

Sec. 14. Minnesota Statutes 2008, section 256B.501, subdivision 4a, is amended to read:

Subd. 4a. **Inclusion of home care costs in waiver rates.** The commissioner shall adjust the limits of the established average daily reimbursement rates for waived services to include the cost of home care services that may be provided to waived services recipients. This adjustment must be used to maintain or increase services and shall not be used by county agencies for inflation increases for waived services vendors. Home care services referenced in this section are those listed in section 256B.0651, subdivision 2. The average daily reimbursement rates established in accordance with the provisions of this subdivision apply only to the combined average, daily costs of waived and home care services and do not change home care limitations under sections 256B.0651 ~~and 256B.0653~~ to 256B.0656 and 256B.0659. Waivered services recipients receiving home care as of June 30, 1992, shall not have the amount of their services reduced as a result of this section.

Sec. 15. Minnesota Statutes 2008, section 256G.02, subdivision 6, is amended to read:

166.1 in section 268A.01; or receiving personal care assistant services pursuant to section
166.2 ~~256B.0655, subdivision 2~~ 256B.0659; semi-independent living services provided under
166.3 section 252.275, and Minnesota Rules, parts 9525.0500 to 9525.0660; day training and
166.4 habilitation programs and assisted living services; and

166.5 (c) any placement for a person with an indeterminate commitment, including
166.6 independent living.

166.7 Sec. 16. Minnesota Statutes 2008, section 256I.05, subdivision 1a, is amended to read:

166.8 Subd. 1a. **Supplementary service rates.** (a) Subject to the provisions of section
166.9 256I.04, subdivision 3, the county agency may negotiate a payment not to exceed \$426.37
166.10 for other services necessary to provide room and board provided by the group residence
166.11 if the residence is licensed by or registered by the Department of Health, or licensed by
166.12 the Department of Human Services to provide services in addition to room and board,
166.13 and if the provider of services is not also concurrently receiving funding for services for
166.14 a recipient under a home and community-based waiver under title XIX of the Social
166.15 Security Act; or funding from the medical assistance program under section ~~256B.0655,~~

166.17 in a setting which receives funding under Minnesota Rules, parts 9535.2000 to 9535.3000.
166.18 If funding is available for other necessary services through a home and community-based
166.19 waiver, or personal care services under section ~~256B.0655, subdivision 2~~ 256B.0659,
166.20 then the GRH rate is limited to the rate set in subdivision 1. Unless otherwise provided
166.21 in law, in no case may the supplementary service rate exceed \$426.37. The registration
166.22 and licensure requirement does not apply to establishments which are exempt from state
166.23 licensure because they are located on Indian reservations and for which the tribe has
166.24 prescribed health and safety requirements. Service payments under this section may be
166.25 prohibited under rules to prevent the supplanting of federal funds with state funds. The
166.26 commissioner shall pursue the feasibility of obtaining the approval of the Secretary of
166.27 Health and Human Services to provide home and community-based waiver services under
166.28 title XIX of the Social Security Act for residents who are not eligible for an existing home
166.29 and community-based waiver due to a primary diagnosis of mental illness or chemical
166.30 dependency and shall apply for a waiver if it is determined to be cost-effective.

166.31 (b) The commissioner is authorized to make cost-neutral transfers from the GRH
166.32 fund for beds under this section to other funding programs administered by the department
166.33 after consultation with the county or counties in which the affected beds are located.
166.34 The commissioner may also make cost-neutral transfers from the GRH fund to county
166.35 human service agencies for beds permanently removed from the GRH census under a plan

submitted by the county agency and approved by the commissioner. The commissioner shall report the amount of any transfers under this provision annually to the legislature.

(c) The provisions of paragraph (b) do not apply to a facility that has its reimbursement rate established under section 256B.431, subdivision 4, paragraph (c).

Sec. 17. Minnesota Statutes 2008, section 256J.45, subdivision 3, is amended to read:

Subd. 3. **Good cause exemptions for not attending orientation.** (a) The county agency shall not impose the sanction under section 256J.46 if it determines that the participant has good cause for failing to attend orientation. Good cause exists when:

(1) appropriate child care is not available;

(2) the participant is ill or injured;

(3) a family member is ill and needs care by the participant that prevents the participant from attending orientation. For a caregiver with a child or adult in the household who meets the disability or medical criteria for home care services under section ~~256B.0655, subdivision 1~~ 256B.0659, or a home and community-based waiver services program under chapter 256B, or meets the criteria for severe emotional disturbance under section 245.4871, subdivision 6, or for serious and persistent mental illness under section 245.462, subdivision 20, paragraph (c), good cause also exists when an interruption in the provision of those services occurs which prevents the participant from attending orientation;

(4) the caregiver is unable to secure necessary transportation;

(5) the caregiver is in an emergency situation that prevents orientation attendance;

(6) the orientation conflicts with the caregiver's work, training, or school schedule; or

(d) Reconsideration by the commissioner must be made by individuals not involved in reviewing the assessment, audit, or reconsideration that established the disputed classification. The reconsideration must be based upon the initial assessment and upon the information provided to the commissioner under paragraphs (a) and (b). If necessary for evaluating the reconsideration request, the commissioner may conduct on-site reviews. Within 15 working days of receiving the request for reconsideration, the commissioner shall affirm or modify the original resident classification. The original classification must be modified if the commissioner determines that the assessment resulting in the classification did not accurately reflect the needs or assessment characteristics of the resident at the time of the assessment. (f) The commissioner may request additional documentation regarding a reconsideration necessary to make an accurate reconsideration determination.

As part of the determination, the commissioner shall consider the availability of foster care capacity in the area which the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.

(c) Residential settings that would otherwise be subject to the moratorium established in paragraph (a), that are in the process of receiving an adult or child foster care license as of July 1, 2009, shall be allowed to continue to complete the process of receiving an adult or child foster care license. 194.6 county.

194.7 To qualify for the process under this paragraph, the lead agency must submit

221.25 in a shared service arrangement at any time.

221.26 ~~(d)~~ (e) The recipient or the recipient's legal representative, and the recipient's
221.27 physician, in conjunction with the ~~home health care~~ private duty nursing agency, shall
221.28 determine:

221.29 (1) whether shared private duty nursing care is an appropriate option based on the
221.30 individual needs and preferences of the recipient; and

221.31 (2) the amount of shared private duty nursing services authorized as part of the
221.32 overall authorization of nursing services.

221.33 ~~(e)~~ (f) The recipient or the recipient's legal representative, in conjunction with the

222.20 (h) ~~The private duty nursing agency must document the following in the~~
222.21 ~~health service record for each individual recipient sharing private duty nursing care~~
222.22 The documentation for shared private duty nursing must be on a form approved by
222.23 the commissioner for each individual recipient sharing private duty nursing. The
222.24 documentation must be part of the recipient's health service record and include:

222.25 (1) permission by the recipient or the recipient's legal representative for the
222.26 maximum number of shared nursing ~~care~~ hours per week chosen by the recipient and
222.27 permission for shared private duty nursing services provided in and outside the recipient's
222.28 home residence;

222.29 (2) ~~permission by the recipient or the recipient's legal representative for shared~~

223.11 ~~provisions relating to private duty nursing services apply to shared private duty nursing~~
223.12 ~~services.~~

223.13 ~~Nothing in this subdivision shall be construed to reduce the total number of private~~
223.14 ~~duty nursing hours authorized for an individual recipient under subdivision 2.~~

223.15 (i) The commissioner shall provide a rate methodology for shared private duty
223.16 nursing. For two persons sharing nursing care, the rate paid to a provider must not exceed
223.17 1.5 times the regular private duty nursing rates paid for serving a single individual by a
223.18 registered nurse or licensed practical nurse. These rates apply only to situations in which
223.19 both recipients are present and receive shared private duty nursing care on the date for
223.20 which the service is billed.

223.21 Subd. 4. **Hardship criteria; private duty nursing.** (a) Payment is allowed for
223.22 extraordinary services that require specialized nursing skills and are provided by parents
223.23 of minor children, family foster parents, spouses, and legal guardians who are providing
223.24 private duty nursing care under the following conditions:

223.25 (1) the provision of these services is not legally required of the parents, spouses,
223.26 or legal guardians;

223.27 (2) the services are necessary to prevent hospitalization of the recipient; and

223.28 (3) the recipient is eligible for state plan home care or a home and community-based
223.29 waiver and one of the following hardship criteria are met:

223.30 (i) the parent, spouse, or legal guardian resigns from a part-time or full-time job to
223.31 provide nursing care for the recipient; ~~or~~

223.32 (ii) the parent, spouse, or legal guardian goes from a full-time to a part-time job with
223.33 less compensation to provide nursing care for the recipient; ~~or~~

223.34 (iii) the parent, spouse, or legal guardian takes a leave of absence without pay to
223.35 provide nursing care for the recipient; or

(iv) because of labor conditions, special language needs, or intermittent hours of care needed, the parent, spouse, or legal guardian is needed in order to provide adequate private duty nursing services to meet the medical needs of the recipient.

(b) Private duty nursing may be provided by a parent, spouse, family foster parent, or legal guardian who is a nurse licensed in Minnesota. Private duty nursing services provided by a parent, spouse, family foster parent, or legal guardian cannot be used in lieu of nursing services covered and available under liable third-party payors, including Medicare. The private duty nursing provided by a parent, spouse, family foster parent, or legal guardian must be included in the service ~~plan~~ agreement. Authorized ~~skilled~~ nursing services for a single recipient or recipients with the same residence and provided by the parent, spouse, family foster parent, or legal guardian may not exceed 50 percent of the total approved nursing hours, or eight hours per day, whichever is less, up to a maximum of 40 hours per week. A parent or parents, spouse, family foster parent, or legal guardian shall not provide more than 40 hours of services in a seven-day period. For parents, family foster parents, and legal guardians, 40 hours is the total amount allowed regardless of the number of children or adults who receive services. Nothing in this subdivision precludes the parent's, spouse's, or legal guardian's obligation of assuming the nonreimbursed family responsibilities of emergency backup caregiver and primary caregiver.

(c) A parent, family foster parent, or a spouse may not be paid to provide private duty nursing care if:

(1) the parent or spouse fails to pass a criminal background check according to chapter 245C, or if;

(2) it has been determined by the ~~home health~~ private duty nursing agency, the case manager, or the physician that the private duty nursing care provided by the parent, family foster parent, spouse, or legal guardian is unsafe; or

(3) the parent, family foster parent, spouse, or legal guardian do not follow physician orders.

(d) For purposes of this section, "assessment" means a review and evaluation of a recipient's need for home care services conducted in person. Assessments for private duty nursing must be conducted by a registered nurse.

Sec. 27. Minnesota Statutes 2008, section 256B.0655, subdivision 1b, is amended to read:

Subd. 1b. **Assessment.** "Assessment" means a review and evaluation of a recipient's need for home care services conducted in person. Assessments for personal care assistant services shall be conducted by the county public health nurse or a certified public

225.1 health nurse under contract with the county. ~~A face-to-face~~ An in-person assessment
225.2 must include: documentation of health status, determination of need, evaluation of
225.3 service effectiveness, identification of appropriate services, service plan development
225.4 or modification, coordination of services, referrals and follow-up to appropriate payers
225.5 and community resources, completion of required reports, recommendation of service
225.6 authorization, and consumer education. Once the need for personal care assistant
225.7 services is determined under this section or sections 256B.0651, 256B.0653, 256B.0654,
225.8 and 256B.0656, the county public health nurse or certified public health nurse under
225.9 contract with the county is responsible for communicating this recommendation to the
225.10 commissioner and the recipient. ~~A face-to-face assessment for personal care assistant~~
225.11 ~~services is conducted on those recipients who have never had a county public health~~
225.12 ~~nurse assessment. A face-to-face~~ An in-person assessment must occur at least annually or
225.13 when there is a significant change in the recipient's condition or when there is a change
225.14 in the need for personal care assistant services. A service update may substitute for
225.15 the annual face-to-face assessment when there is not a significant change in recipient
225.16 condition or a change in the need for personal care assistant service. A service update
225.17 may be completed by telephone, used when there is no need for an increase in personal
225.18 care assistant services, and used for two consecutive assessments if followed by a
225.19 face-to-face assessment. A service update must be completed on a form approved by the
225.20 commissioner. A service update or review for temporary increase includes a review of
225.21 initial baseline data, evaluation of service effectiveness, redetermination of service need,
225.22 modification of service plan and appropriate referrals, update of initial forms, obtaining
225.23 service authorization, and on going consumer education. Assessments must be completed
225.24 on forms provided by the commissioner within 30 days of a request for home care services
225.25 by a recipient or responsible party or personal care provider agency.

225.26 Sec. 28. Minnesota Statutes 2008, section 256B.0655, subdivision 4, is amended to
225.27 read:

225.28 Subd. 4. **Prior Authorization; personal care assistance and qualified**
225.29 **professional.** ~~The commissioner, or the commissioner's designee, shall review the~~
225.30 ~~assessment, service update, request for temporary services, request for flexible use option,~~
225.31 ~~service plan, and any additional information that is submitted. The commissioner shall,~~
225.32 ~~within 30 days after receiving a complete request, assessment, and service plan, authorize~~
225.33 ~~home care services as follows:~~

225.34 ~~(1)~~ (a) All personal care ~~assistant~~ assistance services and, supervision by a
225.35 qualified professional, ~~if requested by the recipient, and additional services beyond the~~

limits established in section 256B.0651, subdivision 11, must be ~~prior~~ authorized by the commissioner or the commissioner's designee before services begin except for the assessments established in ~~section~~ sections 256B.0651, subdivision 11, and 256B.0911. The authorization for personal care assistance and qualified professional services under section 256B.0659 must be completed within 30 days after receiving a complete request.

(b) The amount of personal care ~~assistant~~ assistance services authorized must be based on the recipient's home care rating. The home care rating shall be determined by the commissioner or the commissioner's designee based on information submitted to the commissioner identifying the following:

(1) total number of dependencies of activities of daily living as defined in section 256B.0659;

(2) number of complex health-related functions as defined in section 256B.0659; and

(3) number of behavior descriptions as defined in section 256B.0659.

(c) The methodology to determine total time for personal care assistance services for each home care rating is based on the median paid units per day for each home care rating from fiscal year 2007 data for the personal care assistance program. Each home care rating has a base level of hours assigned. Additional time is added through the assessment and identification of the following:

(1) 30 additional minutes per day for a dependency in each critical activity of daily living as defined in section 256B.0659;

(2) 30 additional minutes per day for each complex health-related function as defined in section 256B.0659; and

(3) 30 additional minutes per day for each behavior issue as defined in section 256B.0659.

(d) A limit of 96 units of qualified professional supervision may be authorized for each recipient receiving personal care assistance services. A request to the commissioner to exceed this total in a calendar year must be requested by the personal care provider agency on a form approved by the commissioner.

~~A child may not be found to be dependent in an activity of daily living if because of the child's age an adult would either perform the activity for the child or assist the child with the activity and the amount of assistance needed is similar to the assistance appropriate for a typical child of the same age. Based on medical necessity, the commissioner may authorize:~~

~~(A) up to two times the average number of direct care hours provided in nursing facilities for the recipient's comparable case mix level; or~~

227.1 ~~(B) up to three times the average number of direct care hours provided in nursing~~
227.2 ~~facilities for recipients who have complex medical needs or are dependent in at least seven~~
227.3 ~~activities of daily living and need physical assistance with eating or have a neurological~~
227.4 ~~diagnosis; or~~

227.5 ~~(C) up to 60 percent of the average reimbursement rate, as of July 1, 1991, for care~~
227.6 ~~provided in a regional treatment center for recipients who have Level I behavior, plus any~~
227.7 ~~inflation adjustment as provided by the legislature for personal care service; or~~

227.8 ~~(D) up to the amount the commissioner would pay, as of July 1, 1991, plus any~~
227.9 ~~inflation adjustment provided for home care services, for care provided in a regional~~
227.10 ~~treatment center for recipients referred to the commissioner by a regional treatment center~~
227.11 ~~preadmission evaluation team. For purposes of this clause, home care services means~~
227.12 ~~all services provided in the home or community that would be included in the payment~~
227.13 ~~to a regional treatment center; or~~

227.14 ~~(E) up to the amount medical assistance would reimburse for facility care for~~
227.15 ~~recipients referred to the commissioner by a preadmission screening team established~~
227.16 ~~under section 256B.0911 or 256B.092; and~~

227.17 ~~(F) a reasonable amount of time for the provision of supervision by a qualified~~
227.18 ~~professional of personal care assistant services, if a qualified professional is requested by~~
227.19 ~~the recipient or responsible party.~~

227.20 ~~(2) The number of direct care hours shall be determined according to the annual cost~~
227.21 ~~report submitted to the department by nursing facilities. The average number of direct care~~
227.22 ~~hours, as established by May 1, 1992, shall be calculated and incorporated into the home~~
227.23 ~~care limits on July 1, 1992. These limits shall be calculated to the nearest quarter hour.~~

227.24 ~~(3) The home care rating shall be determined by the commissioner or the~~
227.25 ~~commissioner's designee based on information submitted to the commissioner by the~~
227.26 ~~county public health nurse on forms specified by the commissioner. The home care rating~~
227.27 ~~shall be a combination of current assessment tools developed under sections 256B.0911~~
227.28 ~~and 256B.501 with an addition for seizure activity that will assess the frequency and~~
227.29 ~~severity of seizure activity and with adjustments, additions, and clarifications that are~~
227.30 ~~necessary to reflect the needs and conditions of recipients who need home care including~~
227.31 ~~children and adults under 65 years of age. The commissioner shall establish these forms~~
227.32 ~~and protocols under this section and sections 256B.0651, 256B.0653, 256B.0654, and~~
227.33 ~~256B.0656 and shall use an advisory group, including representatives of recipients,~~
227.34 ~~providers, and counties, for consultation in establishing and revising the forms and~~
227.35 ~~protocols.~~

228.1 ~~(4) A recipient shall qualify as having complex medical needs if the care required is~~
228.2 ~~difficult to perform and because of recipient's medical condition requires more time than~~
228.3 ~~community-based standards allow or requires more skill than would ordinarily be required~~
228.4 ~~and the recipient needs or has one or more of the following:~~

228.5 ~~(A) daily tube feedings;~~

228.6 ~~(B) daily parenteral therapy;~~

228.7 ~~(C) wound or decubiti care;~~

228.8 ~~(D) postural drainage, percussion, nebulizer treatments, suctioning, tracheotomy~~
228.9 ~~care, oxygen, mechanical ventilation;~~

228.10 ~~(E) catheterization;~~

228.11 ~~(F) ostomy care;~~

228.12 ~~(G) quadriplegia; or~~

228.13 ~~(H) other comparable medical conditions or treatments the commissioner determines~~
228.14 ~~would otherwise require institutional care.~~

228.15 ~~(5) A recipient shall qualify as having Level I behavior if there is reasonable~~
228.16 ~~supporting evidence that the recipient exhibits, or that without supervision, observation, or~~
228.17 ~~redirection would exhibit, one or more of the following behaviors that cause, or have the~~
228.18 ~~potential to cause:~~

228.19 ~~(A) injury to the recipient's own body;~~

228.20 ~~(B) physical injury to other people; or~~

228.21 ~~(C) destruction of property.~~

228.22 ~~(6) Time authorized for personal care relating to Level I behavior in paragraph~~
228.23 ~~(5), clauses (A) to (C), shall be based on the predictability, frequency, and amount of~~
228.24 ~~intervention required.~~

228.25 ~~(7) A recipient shall qualify as having Level II behavior if the recipient exhibits on a~~
228.26 ~~daily basis one or more of the following behaviors that interfere with the completion of~~
228.27 ~~personal care assistant services under subdivision 2, paragraph (a):~~

228.28 ~~(A) unusual or repetitive habits;~~

228.29 ~~(B) withdrawn behavior; or~~

228.30 ~~(C) offensive behavior.~~

228.31 ~~(8) A recipient with a home care rating of Level II behavior in paragraph (7), clauses~~
228.32 ~~(A) to (C), shall be rated as comparable to a recipient with complex medical needs under~~
228.33 ~~paragraph (4). If a recipient has both complex medical needs and Level II behavior, the~~
228.34 ~~home care rating shall be the next complex category up to the maximum rating under~~
228.35 ~~paragraph (1), clause (B).~~

229.1 **EFFECTIVE DATE.** The amendments to paragraphs (a) and (b) are effective
229.2 January 1, 2010.

229.3 Sec. 29. Minnesota Statutes 2008, section 256B.0657, subdivision 8, is amended to
229.4 read:

229.5 Subd. 8. **Self-directed budget requirements.** The budget for the provision of the
229.6 self-directed service option shall be ~~equal to the greater of either~~ established based on:

229.7 ~~(1) the annual amount of personal care assistant services under section 256B.0655~~
229.8 ~~that the recipient has used in the most recent 12-month period~~ assessed personal care
229.9 assistance units, not to exceed the maximum number of personal care assistance units
229.10 available, as determined by section 256B.0655; or and

242.26 of the 12-month authorization period must not receive additional hours upon reapplying
242.27 during the same 12-month authorization period, except if a change in condition is
242.28 documented. Services must be prorated for the remainder of the 12-month authorization
242.29 period based on the first six-month assessment.

242.30 (d) The recipient, responsible party, and qualified professional must develop a
242.31 written month-to-month plan of the projected use of personal care assistance services that
242.32 is part of the personal care assistance care plan and ensures:

243.1 (e) The personal care assistance provider agency shall monitor the use of personal
243.2 care assistance services to ensure health and safety needs of the recipient are met
243.3 throughout both date spans of the authorization period. The commissioner or the

243.8 in the overuse of units in a manner where the recipient will not have enough units to meet
243.9 their needs for assistance and ensure health and safety for the entire six-month date span
243.10 may lead to an action by the commissioner. The commissioner may take action including,
243.11 but not limited to: (1) restricting recipients to service authorizations of no more than one
243.12 month in duration; (2) requiring the recipient to have a responsible party; and (3) requiring
243.13 a qualified professional to monitor and report services on a monthly basis.

243.14 Subd. 16. **Shared services.** (a) Medical assistance payments for shared personal
243.15 care assistance services are limited according to this subdivision.

243.16 (b) Shared service is the provision of personal care assistance services by a personal
243.17 care assistant to two or three recipients, eligible for medical assistance, who voluntarily
243.18 enter into an agreement to receive services at the same time and in the same setting.

243.19 (c) For the purposes of this subdivision, "setting" means:

243.20 (1) the home residence or family foster care home of one or more of the individual
243.21 recipients; or

243.22 (2) a child care program licensed under chapter 245A or operated by a local school

243.30 (4) additional units of personal care assistance based on the selection of the option;

243.33 care services.

243.34 (f) The option of shared personal care assistance is elected by the recipient or the
243.35 responsible party with the assistance of the assessor. The option must be determined
243.36 appropriate based on the ages of the recipients, compatibility, and coordination of their

244.1 assessed care needs. The recipient or the responsible party, in conjunction with the
244.2 qualified professional, shall arrange the setting and grouping of shared services based
244.3 on the individual needs and preferences of the recipients. The personal care assistance
244.4 provider agency shall offer the recipient or the responsible party the option of shared or
244.5 one-on-one personal care assistance services or a combination of both. The recipient or
244.6 the responsible party may withdraw from participating in a shared services arrangement at
244.7 any time.

244.8 (g) Authorization for the shared service option must be determined by the
244.9 commissioner based on the criteria that the shared service is appropriate to meet all of the
244.10 recipients' needs and their health and safety is maintained. The authorization of shared
244.11 services is part of the overall authorization of personal care assistance services. Nothing
244.12 in this subdivision must be construed to reduce the total number of hours authorized for
244.13 an individual recipient.

244.14 (h) A personal care assistant providing shared personal care assistance services must:

244.15 (1) receive training specific for each recipient served; and

244.19 the recipients in a shared setting;

244.35 individual, and for three persons sharing services, the rate paid to a provider must not

exceed twice the rate paid for serving a single individual. These rates apply only when all of the criteria for the shared care personal care assistance service have been met.

Subd. 18. Personal care assistance choice option; generally. (b) Personal care assistance choice is an option of the personal care assistance program that allows the recipient who receives personal care assistance services to be responsible for the hiring, training, scheduling, and firing of personal care assistants. This program offers greater control and choice for the recipient in who provides the personal care assistance service and when the service is scheduled. The recipient or the recipient's responsible party must choose a personal care assistance choice provider agency as a fiscal intermediary. 260.25 described in paragraph (d) and to complete activities required under federal law related to
260.26 mental illness and developmental disability as outlined in paragraph (b).

260.27 (b) A person who has a diagnosis or possible diagnosis of mental illness or
260.28 developmental disability must receive a preadmission screening before admission
260.29 regardless of the exemptions outlined in subdivision 4b, paragraph (b), to identify the need
260.30 for further evaluation and specialized services, unless the admission prior to screening is
260.31 authorized by the local mental health authority or the local developmental disabilities case
260.32 manager, or unless authorized by the county agency according to Public Law 101-508.

260.33 The following criteria apply to the preadmission screening:

(ii) a qualified developmental disability professional, for persons with a primary or secondary diagnosis of developmental disability. For purposes of this requirement, a qualified developmental disability professional must meet the standards for a qualified developmental disability professional under Code of Federal Regulations, title 42, section 483.430.

(d) The determination of the need for nursing facility level of care must be made according to criteria established in section 144.0724, subdivision 11, and 256B.092, using forms developed by the commissioner. In assessing a person's needs, consultation team members shall have a physician available for consultation and shall consider the assessment of the individual's attending physician, if any. The individual's physician must be included if the physician chooses to participate. Other personnel may be included on the team as deemed appropriate by the county.

262.8 by dividing the county's annual allocation for long-term care consultation services by 12
262.9 to determine the monthly payment and allocating the monthly payment to each nursing
262.10 facility based on the number of licensed beds in the nursing facility. Payments to counties

262.12 rate of the two facilities located nearest to the county seat.

262.13 (b) The commissioner shall include the total annual payment determined under
262.14 paragraph (a) for each nursing facility reimbursed under section 256B.431 or 256B.434

262.27 section 256B.0917, subdivision 1. The county shall be accountable for meeting local
262.28 objectives as approved by the commissioner in the biennial home and community-based
262.29 services quality assurance plan on a form provided by the commissioner.

262.33 assistance plan to include reimbursement for the local consultation teams.

262.34 (g) The county may bill, as case management services, assessments, support

263.5 long-term care consultation services that includes the funding available under this
263.6 subdivision, and sections 256B.092 and 256B.0659. In developing the new payment
263.7 methodology, the commissioner shall consider the maximization of federal funding for
263.8 this activity.

263.9 Sec. 43. Minnesota Statutes 2008, section 256B.0911, subdivision 7, is amended to
263.10 read:

263.11 Subd. 7. **Reimbursement for certified nursing facilities.** (a) Medical assistance
263.12 reimbursement for nursing facilities shall be authorized for a medical assistance recipient
263.13 only if a preadmission screening has been conducted prior to admission or the county has
263.14 authorized an exemption. Medical assistance reimbursement for nursing facilities shall

263.30 (a) Funding for services under the alternative care program is available to persons who
263.31 meet the following criteria:

263.32 (1) the person has been determined by a community assessment under section
263.33 256B.0911 to be a person who would require the level of care provided in a nursing
263.34 facility, but for the provision of services under the alternative care program. Effective

264.1 January 1, 2011, this determination must be made according to the criteria established in
264.2 section 144.0724, subdivision 11;

264.3 (2) the person is age 65 or older;

264.4 (3) the person would be eligible for medical assistance within 135 days of admission
264.5 to a nursing facility;

264.6 (4) the person is not ineligible for the payment of long-term care services by the
264.7 medical assistance program due to an asset transfer penalty under section 256B.0595 or
264.8 equity interest in the home exceeding \$500,000 as stated in section 256B.056;

264.9 (5) the person needs long-term care services that are not funded through other state
264.10 or federal funding;

264.11 (6) except for individuals described in clause (7), the monthly cost of the alternative
264.12 care services funded by the program for this person does not exceed 75 percent of the
264.13 monthly limit described under section 256B.0915, subdivision 3a. This monthly limit
264.14 does not prohibit the alternative care client from payment for additional services, but in no
264.15 case may the cost of additional services purchased under this section exceed the difference
264.16 between the client's monthly service limit defined under section 256B.0915, subdivision
264.17 3, and the alternative care program monthly service limit defined in this paragraph. If
264.18 care-related supplies and equipment or environmental modifications and adaptations are or
264.19 will be purchased for an alternative care services recipient, the costs may be prorated on a
264.20 monthly basis for up to 12 consecutive months beginning with the month of purchase.
264.21 If the monthly cost of a recipient's other alternative care services exceeds the monthly
264.22 limit established in this paragraph, the annual cost of the alternative care services shall be
264.23 determined. In this event, the annual cost of alternative care services shall not exceed 12
264.24 times the monthly limit described in this paragraph; ~~and~~

264.25 (7) for individuals assigned a case mix classification A as described under section
264.26 256B.0915, subdivision 3a, paragraph (a), with (i) no dependencies in activities of daily
264.27 living, (ii) only one dependency in bathing, dressing, grooming, or walking, or (iii) a
264.28 dependency score of less than three if eating is the only dependency as determined by an
264.29 assessment performed under section 256B.0911, the monthly cost of alternative care
264.30 services funded by the program cannot exceed \$600 per month for all new participants
264.31 enrolled in the program on or after July 1, 2009. This monthly limit shall be applied to
264.32 all other participants who meet this criteria at reassessment. This monthly limit shall be
264.33 increased annually as described in section 256B.0915, subdivision 3a, paragraph (a). This
264.34 monthly limit does not prohibit the alternative care client from payment for additional
264.35 services, but in no case may the cost of additional services purchased exceed the difference

265.1 between the client's monthly service limit defined in this clause and the limit described in
265.2 clause (6) for case mix classification A; and
265.3 (8) the person is making timely payments of the assessed monthly fee.

265.4 A person is ineligible if payment of the fee is over 60 days past due, unless the person
265.5 agrees to:

- 265.6 (i) the appointment of a representative payee;
- 265.7 (ii) automatic payment from a financial account;
- 265.8 (iii) the establishment of greater family involvement in the financial management of
- 265.9 payments; or
- 265.10 (iv) another method acceptable to the lead agency to ensure prompt fee payments.

265.11 The lead agency may extend the client's eligibility as necessary while making
265.12 arrangements to facilitate payment of past-due amounts and future premium payments.
265.13 Following disenrollment due to nonpayment of a monthly fee, eligibility shall not be
265.14 reinstated for a period of 30 days.

265.15 (b) Alternative care funding under this subdivision is not available for a person
265.16 who is a medical assistance recipient or who would be eligible for medical assistance
265.17 without a spenddown or waiver obligation. A person whose initial application for medical
265.18 assistance and the elderly waiver program is being processed may be served under the
265.19 alternative care program for a period up to 60 days. If the individual is found to be eligible
265.20 for medical assistance, medical assistance must be billed for services payable under the
265.21 federally approved elderly waiver plan and delivered from the date the individual was
265.22 found eligible for the federally approved elderly waiver plan. Notwithstanding this
265.23 provision, alternative care funds may not be used to pay for any service the cost of which:
265.24 (i) is payable by medical assistance; (ii) is used by a recipient to meet a waiver obligation;
265.25 or (iii) is used to pay a medical assistance income spenddown for a person who is eligible
265.26 to participate in the federally approved elderly waiver program under the special income
265.27 standard provision.

265.28 (c) Alternative care funding is not available for a person who resides in a licensed
265.29 nursing home, certified boarding care home, hospital, or intermediate care facility, except
265.30 for case management services which are provided in support of the discharge planning
265.31 process for a nursing home resident or certified boarding care home resident to assist with
265.32 a relocation process to a community-based setting.

265.33 (d) Alternative care funding is not available for a person whose income is greater
265.34 than the maintenance needs allowance under section 256B.0915, subdivision 1d, but equal
265.35 to or less than 120 percent of the federal poverty guideline effective July 1 in the fiscal

266.1 year for which alternative care eligibility is determined, who would be eligible for the
266.2 elderly waiver with a waiver obligation.

266.3 Sec. 45. Minnesota Statutes 2008, section 256B.0915, subdivision 3a, is amended to
266.4 read:

266.5 Subd. 3a. **Elderly waiver cost limits.** (a) The monthly limit for the cost of
266.6 waived services to an individual elderly waiver client except for individuals described
266.7 in paragraph (b) shall be the weighted average monthly nursing facility rate of the case
266.8 mix resident class to which the elderly waiver client would be assigned under Minnesota
266.9 Rules, parts 9549.0050 to 9549.0059, less the recipient's maintenance needs allowance
266.10 as described in subdivision 1d, paragraph (a), until the first day of the state fiscal year in
266.11 which the resident assessment system as described in section 256B.438 for nursing home
266.12 rate determination is implemented. Effective on the first day of the state fiscal year in
266.13 which the resident assessment system as described in section 256B.438 for nursing home
266.14 rate determination is implemented and the first day of each subsequent state fiscal year, the
266.15 monthly limit for the cost of waived services to an individual elderly waiver client shall
266.16 be the rate of the case mix resident class to which the waiver client would be assigned
266.17 under Minnesota Rules, parts 9549.0050 to 9549.0059, in effect on the last day of the
266.18 previous state fiscal year, adjusted by the greater of any legislatively adopted home and
266.19 community-based services percentage rate increase or the average statewide percentage
266.20 increase in nursing facility payment rates.

266.21 (b) The monthly limit for the cost of waived services to an individual elderly
266.22 waiver client assigned to a case mix classification A under paragraph (a) with (1) no
266.23 dependencies in activities of daily living, (2) only one dependency in bathing, dressing,
266.24 grooming, or walking, or (3) a dependency score of less than three if eating is the only
266.25 dependency, shall be the lower of the case mix classification amount for case mix A as
266.26 determined under paragraph (a) or the case mix classification amount for case mix A
266.27 effective on October 1, 2008, per month for all new participants enrolled in the program
266.28 on or after July 1, 2009. This monthly limit shall be applied to all other participants who
266.29 meet this criteria at reassessment.

266.30 (c) If extended medical supplies and equipment or environmental modifications are
266.31 or will be purchased for an elderly waiver client, the costs may be prorated for up to
266.32 12 consecutive months beginning with the month of purchase. If the monthly cost of a
266.33 recipient's waived services exceeds the monthly limit established in paragraph (a) or (b),
266.34 the annual cost of all waived services shall be determined. In this event, the annual cost

267.1 of all waived services shall not exceed 12 times the monthly limit of waived services
267.2 as described in paragraph (a) or (b).

267.3 Sec. 46. Minnesota Statutes 2008, section 256B.0915, subdivision 3e, is amended to
267.4 read:

267.5 Subd. 3e. **Customized living service rate.** (a) Payment for customized living
267.6 services shall be a monthly rate ~~negotiated and~~ authorized by the lead agency within the
267.7 parameters established by the commissioner. The payment agreement must delineate the
267.8 ~~services that have been customized for each recipient and specify the amount of each~~
267.9 component service included in the recipient's customized living service to be provided
267.10 plan. The lead agency shall ensure that there is a documented need ~~for all~~ within the
267.11 parameters established by the commissioner for all component customized living services
267.12 authorized. Customized living services must not include rent or raw food costs.

267.13 (b) The ~~negotiated~~ payment rate must be based on the amount of component services
267.14 to be provided utilizing component rates established by the commissioner. Counties and
267.15 tribes shall use tools issued by the commissioner to develop and document customized
267.16 living service plans and rates.

267.17 ~~Negotiated~~ (c) Component service rates must not exceed payment rates for
267.18 comparable elderly waiver or medical assistance services and must reflect economies of
267.19 scale. Customized living services must not include rent or raw food costs.

267.20 ~~(b)~~ (d) The individualized monthly ~~negotiated~~ authorized payment for the
267.21 customized living services service plan shall not exceed ~~the nonfederal share, in effect~~
267.22 ~~on July 1 of the state fiscal year for which the rate limit is being calculated, 50 percent~~
267.23 of the greater of either the statewide or any of the geographic groups' weighted average
267.24 monthly nursing facility rate of the case mix resident class to which the elderly waiver
267.25 eligible client would be assigned under Minnesota Rules, parts 9549.0050 to 9549.0059,
267.26 less the maintenance needs allowance as described in subdivision 1d, paragraph (a), until
267.27 the July 1 of the state fiscal year in which the resident assessment system as described
267.28 in section 256B.438 for nursing home rate determination is implemented. Effective on
267.29 July 1 of the state fiscal year in which the resident assessment system as described in
267.30 section 256B.438 for nursing home rate determination is implemented and July 1 of each
267.31 subsequent state fiscal year, the individualized monthly ~~negotiated~~ authorized payment
267.32 for the services described in this clause shall not exceed the limit ~~described in this clause~~
267.33 ~~which was in effect on June 30 of the previous state fiscal year and which has been~~
267.34 ~~adjusted by the greater of any legislatively adopted home and community-based services~~
267.35 ~~cost-of-living percentage increase or any legislatively adopted statewide percent rate~~

268.1 ~~increase for nursing facilities~~ updated annually based on legislatively adopted changes to
268.2 all service rate maximums for home and community-based service providers.

268.3 ~~(e)~~ (e) Customized living services are delivered by a provider licensed by the
268.4 Department of Health as a class A or class F home care provider and provided in a
268.5 building that is registered as a housing with services establishment under chapter 144D.

268.6 Sec. 47. Minnesota Statutes 2008, section 256B.0915, subdivision 3h, is amended to
268.7 read:

268.8 Subd. 3h. **Service rate limits; 24-hour customized living services.** (a) The
268.9 payment ~~rates~~ rate for 24-hour customized living services is a monthly rate ~~negotiated~~
268.10 ~~and~~ authorized by the lead agency within the parameters established by the commissioner
268.11 of human services. The payment agreement must delineate the ~~services that have been~~
268.12 ~~customized for each recipient and specify the amount of each~~ component service included
268.13 in each recipient's customized living service to be provided plan. The lead agency
268.14 shall ensure that there is a documented need within the parameters established by the
268.15 commissioner for all component customized living services authorized. The lead agency
268.16 shall not authorize 24-hour customized living services unless there is a documented need
268.17 for 24-hour supervision.

268.18 (b) For purposes of this section, "24-hour supervision" means that the recipient
268.19 requires assistance due to needs related to one or more of the following:

268.20 (1) intermittent assistance with toileting, positioning, or transferring;

268.21 (2) cognitive or behavioral issues;

268.22 (3) a medical condition that requires clinical monitoring; or

268.23 (4) ~~other conditions or needs as defined by the commissioner of human services for~~

268.24 all new participants enrolled in the program on or after January 1, 2011, and all other

268.25 participants at their first reassessment after January 1, 2011, dependency in at least two

268.26 of the following activities of daily living as determined by assessment under section

268.27 256B.0911: bathing; dressing; grooming; walking; or eating; and needs medication

268.28 management and at least 50 hours of service per month. The lead agency shall ensure that

268.29 the frequency and mode of supervision of the recipient and the qualifications of staff

268.30 providing supervision are described and meet the needs of the recipient. ~~Customized~~

268.31 ~~living services must not include rent or raw food costs.~~

268.32 (c) The ~~negotiated~~ payment rate for 24-hour customized living services must be

268.33 based on the amount of component services to be provided utilizing component rates

268.34 established by the commissioner. Counties and tribes will use tools issued by the

268.35 commissioner to develop and document customized living plans and authorize rates.

~~Negotiated~~ (d) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale.

(e) The individually ~~negotiated~~ authorized 24-hour customized living payments, in combination with the payment for other elderly waiver services, including case management, must not exceed the recipient's community budget cap specified in subdivision 3a. Customized living services must not include rent or raw food costs.

(f) The individually authorized 24-hour customized living payment rates shall not exceed the 95 percentile of statewide monthly authorizations for 24-hour customized living services in effect and in the Medicaid management information systems on March 31, 2009, for each case mix resident class under Minnesota Rules, parts 9549.0050 to 9549.0059, to which elderly waiver service clients are assigned. When there are fewer than 50 authorizations in effect in the case mix resident class, the commissioner shall multiply the calculated service payment rate maximum for the A classification by the standard weight for that classification under Minnesota Rules, parts 9549.0050 to 9549.0059, to determine the applicable payment rate maximum. Service payment rate maximums shall be updated annually based on legislatively adopted changes to all service rates for home and community-based service providers.

(g) Notwithstanding the requirements of paragraphs (d) and (f), the commissioner may establish alternative payment rate systems for 24-hour customized living services in housing with services establishments which are freestanding buildings with a capacity of 16 or fewer, by applying a single hourly rate for covered component services provided in either:

(1) licensed corporate adult foster homes; or

(2) specialized dementia care units which meet the requirements of section 144D.065 and in which:

(i) each resident is offered the option of having their own apartment; or

(ii) the units are licensed as board and lodge establishments with maximum capacity of eight residents, and which meet the requirements of Minnesota Rules, part 9555.6205, subparts 1, 2, 3, and 4, item A.

Sec. 48. Minnesota Statutes 2008, section 256B.0915, subdivision 5, is amended to read:

Subd. 5. **Assessments and reassessments for waiver clients.** (a) Each client shall receive an initial assessment of strengths, informal supports, and need for services in accordance with section 256B.0911, subdivisions 3, 3a, and 3b. A reassessment of a

client served under the elderly waiver must be conducted at least every 12 months and at other times when the case manager determines that there has been significant change in the client's functioning. This may include instances where the client is discharged from the hospital. There must be a determination that the client requires nursing facility level of care as defined in section 144.0724, subdivision 11, at initial and subsequent assessments to initiate and maintain participation in the waiver program.

(b) Regardless of other assessments identified in section 144.0724, subdivision 4, as appropriate to determine nursing facility level of care for purposes of medical assistance payment for nursing facility services, only face-to-face assessments conducted according to section 256B.0911, subdivisions 3a and 3b, that result in a nursing facility level of care determination will be accepted for purposes of initial and ongoing access to waiver service payment.

EFFECTIVE DATE. This section is effective January 1, 2011.

Sec. 49. Minnesota Statutes 2008, section 256B.0915, is amended by adding a subdivision to read:

Subd. 10. Waiver payment rates; managed care organizations. The commissioner shall adjust the elderly waiver capitation payment rates for managed care organizations paid under section 256B.69, subdivisions 6a and 23, to reflect the maximum service rate limits for customized living services and 24-hour customized living services under subdivisions 3e and 3h for the contract period beginning October 1, 2009. Medical assistance rates paid to customized living providers by managed care organizations under this section shall not exceed the maximum service rate limits determined by the commissioner under subdivisions 3e and 3h.

Sec. 50. Minnesota Statutes 2008, section 256B.0916, subdivision 2, is amended to read:

Subd. 2. Distribution of funds; partnerships. (a) Beginning with fiscal year 2000, the commissioner shall distribute all funding available for home and community-based waiver services for persons with developmental disabilities to individual counties or to groups of counties that form partnerships to jointly plan, administer, and authorize funding for eligible individuals. The commissioner shall encourage counties to form partnerships that have a sufficient number of recipients and funding to adequately manage the risk and maximize use of available resources.

(b) Counties must submit a request for funds and a plan for administering the program as required by the commissioner. The plan must identify the number of clients to be served, their ages, and their priority listing based on:

- (1) requirements in Minnesota Rules, part 9525.1880; and
- (2) ~~unstable living situations due to the age or incapacity of the primary caregiver;~~
- statewide priorities identified in section 256B.092, subdivision 12.
- ~~(3) the need for services to avoid out-of-home placement of children;~~
- ~~(4) the need to serve persons affected by private sector ICF/MR closures; and~~
- ~~(5) the need to serve persons whose consumer support grant exception amount was eliminated in 2004.~~

The plan must also identify changes made to improve services to eligible persons and to improve program management.

(c) In allocating resources to counties, priority must be given to groups of counties that form partnerships to jointly plan, administer, and authorize funding for eligible individuals and to counties determined by the commissioner to have sufficient waiver capacity to maximize resource use.

(d) Within 30 days after receiving the county request for funds and plans, the commissioner shall provide a written response to the plan that includes the level of resources available to serve additional persons.

(e) Counties are eligible to receive medical assistance administrative reimbursement for administrative costs under criteria established by the commissioner.

Sec. 51. Minnesota Statutes 2008, section 256B.0917, is amended by adding a subdivision to read:

Subd. 14. **Essential community supports grants.** (a) The purpose of the essential community supports grant program is to provide targeted services to persons 65 years and older who need essential community support, but whose needs do not meet the level of care required for nursing facility placement under section 144.0724, subdivision 11.

(b) Within the limits of the appropriation and not to exceed \$400 per person per month, funding must be available to a person who:

- (1) is age 65 or older;
- (2) is not eligible for medical assistance;
- (3) would otherwise be financially eligible for the alternative care program under section 256B.0913, subdivision 4;
- (4) has received a community assessment under section 256B.0911, subdivision 3a or 3b, and does not require the level of care provided in a nursing facility;

- 272.1 (5) has a community support plan; and
- 272.2 (6) has been determined by a community assessment under section 256B.0911,
- 272.3 subdivision 3a or 3b, to be a person who would require provision of at least one of the
- 272.4 following services, as defined in the approved elderly waiver plan, in order to maintain
- 272.5 their community residence:
- 272.6 (i) caregiver support;
- 272.7 (ii) homemaker;
- 272.8 (iii) chore; or
- 272.9 (iv) a personal emergency response device or system.
- 272.10 (c) The person receiving any of the essential community supports in this subdivision
- 272.11 must also receive service coordination as part of their community support plan.
- 272.12 (d) A person who has been determined to be eligible for an essential community
- 272.13 support grant must be reassessed at least annually and continue to meet the criteria in
- 272.14 paragraph (b) to remain eligible for an essential community support grant.
- 272.15 (e) The commissioner shall allocate grants to counties and tribes under contract with
- 272.16 the department based upon the historic use of the medical assistance elderly waiver and
- 272.17 alternative care grant programs and other criteria as determined by the commissioner.

272.18 **EFFECTIVE DATE.** This section is effective January 1, 2011.

272.19 Sec. 52. Minnesota Statutes 2008, section 256B.092, subdivision 8a, is amended to

272.20 read:

272.21 Subd. 8a. **County concurrence.** (a) If the county of financial responsibility wishes

272.22 to place a person in another county for services, the county of financial responsibility shall

272.23 seek concurrence from the proposed county of service and the placement shall be made

272.24 cooperatively between the two counties. Arrangements shall be made between the two

272.25 counties for ongoing social service, including annual reviews of the person's individual

272.26 service plan. The county where services are provided may not make changes in the

272.27 person's service plan without approval by the county of financial responsibility.

272.28 (b) When a person has been screened and authorized for services in an intermediate

272.29 care facility for persons with developmental disabilities or for home and community-based

272.30 services for persons with developmental disabilities, the case manager shall assist that

272.31 person in identifying a service provider who is able to meet the needs of the person

272.32 according to the person's individual service plan. If the identified service is to be provided

272.33 in a county other than the county of financial responsibility, the county of financial

272.34 responsibility shall request concurrence of the county where the person is requesting to

272.35 receive the identified services. The county of service may refuse to concur if:

(1) it can demonstrate that the provider is unable to provide the services identified in the person's individual service plan as services that are needed and are to be provided; or

(2) in the case of an intermediate care facility for persons with developmental disabilities, there has been no authorization for admission by the admission review team as required in section 256B.0926; or

~~(3) in the case of home and community-based services for persons with developmental disabilities, the county of service can demonstrate that the prospective provider has failed to substantially comply with the terms of a past contract or has had a prior contract terminated within the last 12 months for failure to provide adequate services, or has received a notice of intent to terminate the contract.~~

(c) The county of service shall notify the county of financial responsibility of concurrence or refusal to concur no later than 20 working days following receipt of the written request. Unless other mutually acceptable arrangements are made by the involved county agencies, the county of financial responsibility is responsible for costs of social services and the costs associated with the development and maintenance of the placement. The county of service may request that the county of financial responsibility purchase case management services from the county of service or from a contracted provider of case management when the county of financial responsibility is not providing case management as defined in this section and rules adopted under this section, unless other mutually acceptable arrangements are made by the involved county agencies. Standards for payment limits under this section may be established by the commissioner. Financial disputes between counties shall be resolved as provided in section 256G.09.

Sec. 53. Minnesota Statutes 2008, section 256B.092, is amended by adding a subdivision to read:

Subd. 11. **Residential support services.** (a) Upon federal approval, there is established a new service called residential support that is available on the CAC, CADI, DD, and TBI waivers. Existing waiver service descriptions must be modified to the extent necessary to ensure there is no duplication between other services. Residential support services must be provided by vendors licensed as a community residential setting as defined in section 245A.11, subdivision 8.

(b) Residential support services must meet the following criteria:

(1) providers of residential support services must own or control the residential site;
(2) the residential site must not be the primary residence of the license holder;
(3) the residential site must have a designated program supervisor responsible for program oversight, development, and implementation of policies and procedures;

274.1 (4) the provider of residential support services must provide supervision, training,
274.2 and assistance as described in the person's community support plan; and

274.3 (5) the provider of residential support services must meet the requirements of
274.4 licensure and additional requirements of the person's community support plan.

274.5 (c) Providers of residential support services that meet the definition in paragraph (a)
274.6 must be registered using a process determined by the commissioner beginning July 1, 2009.

274.7 Sec. 54. Minnesota Statutes 2008, section 256B.092, is amended by adding a
274.8 subdivision to read:

274.9 Subd. 12. **Waivered services statewide priorities.** (a) The commissioner shall
274.10 establish statewide priorities for individuals on the waiting list for developmental
274.11 disabilities (DD) waiver services, as of January 1, 2010. The statewide priorities must
274.12 include, but are not limited to, individuals who continue to have a need for waiver services
274.13 after they have maximized the use of state plan services and other funding resources,
274.14 including natural supports, prior to accessing waiver services, and who meet at least one
274.15 of the following criteria:

274.16 (1) have unstable living situations due to the age, incapacity, or sudden loss of
274.17 the primary caregivers;

274.18 (2) are moving from an institution due to bed closures;

274.19 (3) experience a sudden closure of their current living arrangement;

274.20 (4) require protection from confirmed abuse, neglect, or exploitation;

274.21 (5) experience a sudden change in need that can no longer be met through state plan
274.22 services or other funding resources alone; or

274.23 (6) meet other priorities established by the department.

274.24 (b) When allocating resources to lead agencies, the commissioner must take into
274.25 consideration the number of individuals waiting who meet statewide priorities and the
274.26 lead agencies' current use of waiver funds and existing service options.

274.27 (c) The commissioner shall evaluate the impact of the use of statewide priorities and
274.28 provide recommendations to the legislature on whether to continue the use of statewide
274.29 priorities in the November 1, 2011, annual report required by the commissioner in sections
274.30 256B.0916, subdivision 7, and 256B.49, subdivision 21.

274.31 Sec. 55. **[256B.0948] FOSTER CARE RATE LIMITS.**

274.32 The commissioner shall decrease by five percent rates for adult foster care and
274.33 supportive living services that are reimbursed under section 256B.092 or 256B.49, and
274.34 are above the 95th percentile of the statewide rates for the service. The reduction in rates

275.1 shall take into account the acuity of individuals served based on the methodology used to
275.2 allocate dollars to local lead agency budgets, and assure that affected service rates are not
275.3 reduced below the rate level represented by the above percentile due to this rate change.
275.4 Lead agency contracts for services specified in this section shall be amended to implement
275.5 these rate changes for services rendered on or after July 1, 2009. The commissioner shall
275.6 make corresponding reductions to waiver allocations and capitated rates.

275.7 Sec. 56. Minnesota Statutes 2008, section 256B.37, subdivision 1, is amended to read:

275.8 Subdivision 1. **Subrogation.** Upon furnishing medical assistance or alternative
275.9 care services under section 256B.0913 to any person who has private accident or health
275.10 care coverage, or receives or has a right to receive health or medical care from any
275.11 type of organization or entity, or has a cause of action arising out of an occurrence that
275.12 necessitated the payment of medical assistance, the state agency or the state agency's agent
275.13 shall be subrogated, to the extent of the cost of medical care furnished, to any rights the
275.14 person may have under the terms of the coverage, or against the organization or entity
275.15 providing or liable to provide health or medical care, or under the cause of action.

275.16 The right of subrogation created in this section includes all portions of the cause
275.17 of action, notwithstanding any settlement allocation or apportionment that purports to
275.18 dispose of portions of the cause of action not subject to subrogation.

275.19 Sec. 57. Minnesota Statutes 2008, section 256B.37, subdivision 5, is amended to read:

275.20 Subd. 5. **Private benefits to be used first.** Private accident and health care coverage
275.21 including Medicare for medical services is primary coverage and must be exhausted before
275.22 medical assistance ~~is~~ or alternative care services are paid for medical services including
275.23 home health care, personal care assistant services, hospice, supplies and equipment, or
275.24 services covered under a Centers for Medicare and Medicaid Services waiver. When a
275.25 person who is otherwise eligible for medical assistance has private accident or health care
275.26 coverage, including Medicare or a prepaid health plan, the private health care benefits
275.27 available to the person must be used first and to the fullest extent.

275.28 Sec. 58. Minnesota Statutes 2008, section 256B.434, subdivision 4, is amended to read:

275.29 Subd. 4. **Alternate rates for nursing facilities.** (a) For nursing facilities which
275.30 have their payment rates determined under this section rather than section 256B.431, the
275.31 commissioner shall establish a rate under this subdivision. The nursing facility must enter
275.32 into a written contract with the commissioner.

(b) A nursing facility's case mix payment rate for the first rate year of a facility's contract under this section is the payment rate the facility would have received under section 256B.431.

(c) A nursing facility's case mix payment rates for the second and subsequent years of a facility's contract under this section are the previous rate year's contract payment rates plus an inflation adjustment and, for facilities reimbursed under this section or section 256B.431, an adjustment to include the cost of any increase in Health Department licensing fees for the facility taking effect on or after July 1, 2001. The index for the inflation adjustment must be based on the change in the Consumer Price Index-All Items (United States City average) (CPI-U) forecasted by the commissioner of finance's national economic consultant, as forecasted in the fourth quarter of the calendar year preceding the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined. For the rate years beginning on July 1, 1999, July 1, 2000, July 1, 2001, July 1, 2002, July 1, 2003, July 1, 2004, July 1, 2005, July 1, 2006, July 1, 2007, July 1, 2008, October 1, 2009, ~~and~~ October 1, 2010, October 1, 2011, and October 1, 2012. This paragraph shall apply only to the property-related payment rate, except that adjustments to include the cost of any increase in Health Department licensing fees taking effect on or after July 1, 2001, shall be provided. Beginning in 2005, adjustment to the property payment rate under this section and section 256B.431 shall be effective on October 1. In determining the amount of the property-related payment rate adjustment under this paragraph, the commissioner shall determine the proportion of the facility's rates that are property-related based on the facility's most recent cost report.

(d) The commissioner shall develop additional incentive-based payments of up to five percent above a facility's operating payment rate for achieving outcomes specified in a contract. The commissioner may solicit contract amendments and implement those which, on a competitive basis, best meet the state's policy objectives. The commissioner shall limit the amount of any incentive payment and the number of contract amendments under this paragraph to operate the incentive payments within funds appropriated for this purpose. The contract amendments may specify various levels of payment for various levels of performance. Incentive payments to facilities under this paragraph may be in the form of time-limited rate adjustments or onetime supplemental payments. In establishing the specified outcomes and related criteria, the commissioner shall consider the following state policy objectives:

(1) successful diversion or discharge of residents to the residents' prior home or other community-based alternatives;

277.1 (2) adoption of new technology to improve quality or efficiency;
277.2 (3) improved quality as measured in the Nursing Home Report Card;
277.3 (4) reduced acute care costs; and
277.4 (5) any additional outcomes proposed by a nursing facility that the commissioner
277.5 finds desirable.

277.6 (e) Notwithstanding the threshold in section 256B.431, subdivision 16, facilities that
277.7 take action to come into compliance with existing or pending requirements of the life
277.8 safety code provisions or federal regulations governing sprinkler systems must receive
277.9 reimbursement for the costs associated with compliance if all of the following conditions
277.10 are met:

277.11 (1) the expenses associated with compliance occurred on or after January 1, 2005,
277.12 and before December 31, 2008;

277.13 (2) the costs were not otherwise reimbursed under subdivision 4f or section
277.14 144A.071 or 144A.073; and

277.15 (3) the total allowable costs reported under this paragraph are less than the minimum
277.16 threshold established under section 256B.431, subdivision 15, paragraph (e), and
277.17 subdivision 16.

277.18 The commissioner shall use money appropriated for this purpose to provide to qualifying
277.19 nursing facilities a rate adjustment beginning October 1, 2007, and ending September 30,
277.20 2008. Nursing facilities that have spent money or anticipate the need to spend money
277.21 to satisfy the most recent life safety code requirements by (1) installing a sprinkler
277.22 system or (2) replacing all or portions of an existing sprinkler system may submit to the
277.23 commissioner by June 30, 2007, on a form provided by the commissioner the actual
277.24 costs of a completed project or the estimated costs, based on a project bid, of a planned
277.25 project. The commissioner shall calculate a rate adjustment equal to the allowable
277.26 costs of the project divided by the resident days reported for the report year ending
277.27 September 30, 2006. If the costs from all projects exceed the appropriation for this
277.28 purpose, the commissioner shall allocate the money appropriated on a pro rata basis
277.29 to the qualifying facilities by reducing the rate adjustment determined for each facility
277.30 by an equal percentage. Facilities that used estimated costs when requesting the rate
277.31 adjustment shall report to the commissioner by January 31, 2009, on the use of this
277.32 money on a form provided by the commissioner. If the nursing facility fails to provide
277.33 the report, the commissioner shall recoup the money paid to the facility for this purpose.
277.34 If the facility reports expenditures allowable under this subdivision that are less than
277.35 the amount received in the facility's annualized rate adjustment, the commissioner shall
277.36 recoup the difference.

Sec. 59. Minnesota Statutes 2008, section 256B.434, is amended by adding a subdivision to read:

Subd. 21. **Payment of post-PERA pension benefit costs.** Nursing facilities that convert or converted after September 30, 2006, from public to private ownership shall have a portion of their post-PERA pension costs treated as a component of the historic operating rate. Effective for the rate years beginning on or after October 1, 2009, and prior to October 1, 2016, the commissioner shall determine the pension costs to be included in the facility's base for determining rates under this section by using the following formula: post-privatization pension benefit costs as a percent of salary shall be determined from either the cost report for the first full reporting year after privatization or the most recent report year available, whichever is later. This percentage shall be applied to the salary costs of the alternative payment system base rate year to determine the allowable amount of pension costs. The adjustments provided for in sections 256B.431, 256B.434, 256B.441, and any other law enacted after the base rate year and prior to the year for which rates are being determined shall be applied to the allowable amount. The adjusted allowable amount shall be added to the operating rate effective the first rate year PERA ceases to remain as a pass-through component of the rate.

Sec. 60. Minnesota Statutes 2008, section 256B.437, subdivision 6, is amended to read:

Subd. 6. Planned closure rate adjustment. (a) The commissioner of human services shall calculate the amount of the planned closure rate adjustment available under subdivision 3, paragraph (b), for up to 5,140 beds according to clauses (1) to (4):

(1) the amount available is the net reduction of nursing facility beds multiplied by \$2,080;

(2) the total number of beds in the nursing facility or facilities receiving the planned closure rate adjustment must be identified;

(3) capacity days are determined by multiplying the number determined under clause (2) by 365; and

(4) the planned closure rate adjustment is the amount available in clause (1), divided by capacity days determined under clause (3).

(b) A planned closure rate adjustment under this section is effective on the first day of the month following completion of closure of the facility designated for closure in the application and becomes part of the nursing facility's total operating payment rate.

(c) Applicants may use the planned closure rate adjustment to allow for a property payment for a new nursing facility or an addition to an existing nursing facility or as an operating payment rate adjustment. Applications approved under this subdivision are

279.1 exempt from other requirements for moratorium exceptions under section 144A.073,
279.2 subdivisions 2 and 3.

279.3 (d) Upon the request of a closing facility, the commissioner must allow the facility a
279.4 closure rate adjustment as provided under section 144A.161, subdivision 10.

279.5 (e) A facility that has received a planned closure rate adjustment may reassign it
279.6 to another facility that is under the same ownership at any time within three years of its
279.7 effective date. The amount of the adjustment shall be computed according to paragraph (a).

279.8 (f) If the per bed dollar amount specified in paragraph (a), clause (1), is increased,
279.9 the commissioner shall recalculate planned closure rate adjustments for facilities that
279.10 delicense beds under this section on or after July 1, 2001, to reflect the increase in the per
279.11 bed dollar amount. The recalculated planned closure rate adjustment shall be effective
279.12 from the date the per bed dollar amount is increased.

279.13 (g) For planned closures approved after June 30, 2009, the commissioner of human
279.14 services shall calculate the amount of the planned closure rate adjustment available under
279.15 subdivision 3, paragraph (b), according to paragraph (a), clauses (1) to (4).

279.16 Sec. 61. Minnesota Statutes 2008, section 256B.441, subdivision 55, is amended to
279.17 read:

279.18 Subd. 55. **Phase-in of rebased operating payment rates.** (a) For the rate years
279.19 beginning October 1, 2008, to October 1, 2015, the operating payment rate calculated
279.20 under this section shall be phased in by blending the operating rate with the operating
279.21 payment rate determined under section 256B.434. For purposes of this subdivision, the
279.22 rate to be used that is determined under section 256B.434 shall not include the portion of
279.23 the operating payment rate related to performance-based incentive payments under section
279.24 256B.434, subdivision 4, paragraph (d). For the rate year beginning October 1, 2008, the
279.25 operating payment rate for each facility shall be 13 percent of the operating payment rate
279.26 from this section, and 87 percent of the operating payment rate from section 256B.434.
279.27 For the rate ~~year~~ period beginning October 1, 2009, through September 30, 2013, the
279.28 operating payment rate for each facility shall be 14 percent of the operating payment rate
279.29 from this section, and 86 percent of the operating payment rate from section 256B.434.
279.30 ~~For the rate year beginning October 1, 2010, the operating payment rate for each facility~~
279.31 ~~shall be 14 percent of the operating payment rate from this section, and 86 percent of the~~
279.32 ~~operating payment rate from section 256B.434. For the rate year beginning October 1,~~
279.33 ~~2011, the operating payment rate for each facility shall be 31 percent of the operating~~
279.34 ~~payment rate from this section, and 69 percent of the operating payment rate from section~~
279.35 ~~256B.434. For the rate year beginning October 1, 2012, the operating payment rate for~~

280.1 ~~each facility shall be 48 percent of the operating payment rate from this section, and 52~~
280.2 ~~percent of the operating payment rate from section 256B.434.~~ For the rate year beginning
280.3 October 1, 2013, the operating payment rate for each facility shall be 65 percent of the
280.4 operating payment rate from this section, and 35 percent of the operating payment rate
280.5 from section 256B.434. For the rate year beginning October 1, 2014, the operating
280.6 payment rate for each facility shall be 82 percent of the operating payment rate from this
280.7 section, and 18 percent of the operating payment rate from section 256B.434. For the rate
280.8 year beginning October 1, 2015, the operating payment rate for each facility shall be the
280.9 operating payment rate determined under this section. The blending of operating payment
280.10 rates under this section shall be performed separately for each RUG's class.

280.11 (b) For the rate year beginning October 1, 2008, the commissioner shall apply limits
280.12 to the operating payment rate increases under paragraph (a) by creating a minimum
280.13 percentage increase and a maximum percentage increase.

280.14 (1) Each nursing facility that receives a blended October 1, 2008, operating payment
280.15 rate increase under paragraph (a) of less than one percent, when compared to its operating
280.16 payment rate on September 30, 2008, computed using rates with RUG's weight of 1.00,
280.17 shall receive a rate adjustment of one percent.

280.18 (2) The commissioner shall determine a maximum percentage increase that will
280.19 result in savings equal to the cost of allowing the minimum increase in clause (1). Nursing
280.20 facilities with a blended October 1, 2008, operating payment rate increase under paragraph
280.21 (a) greater than the maximum percentage increase determined by the commissioner, when
280.22 compared to its operating payment rate on September 30, 2008, computed using rates with
280.23 a RUG's weight of 1.00, shall receive the maximum percentage increase.

280.24 (3) Nursing facilities with a blended October 1, 2008, operating payment rate
280.25 increase under paragraph (a) greater than one percent and less than the maximum
280.26 percentage increase determined by the commissioner, when compared to its operating
280.27 payment rate on September 30, 2008, computed using rates with a RUG's weight of 1.00,
280.28 shall receive the blended October 1, 2008, operating payment rate increase determined
280.29 under paragraph (a).

280.30 (4) The October 1, 2009, through October 1, 2015, operating payment rate for
280.31 facilities receiving the maximum percentage increase determined in clause (2) shall be
280.32 the amount determined under paragraph (a) less the difference between the amount
280.33 determined under paragraph (a) for October 1, 2008, and the amount allowed under clause
280.34 (2). This rate restriction does not apply to rate increases provided in any other section.

280.35 (c) A portion of the funds received under this subdivision that are in excess of
280.36 operating payment rates that a facility would have received under section 256B.434, as

281.1 determined in accordance with clauses (1) to (3), shall be subject to the requirements in
281.2 section 256B.434, subdivision 19, paragraphs (b) to (h).

281.3 (1) Determine the amount of additional funding available to a facility, which shall be
281.4 equal to total medical assistance resident days from the most recent reporting year times
281.5 the difference between the blended rate determined in paragraph (a) for the rate year being
281.6 computed and the blended rate for the prior year.

281.7 (2) Determine the portion of all operating costs, for the most recent reporting year,
281.8 that are compensation related. If this value exceeds 75 percent, use 75 percent.

281.9 (3) Subtract the amount determined in clause (2) from 75 percent.

281.10 (4) The portion of the fund received under this subdivision that shall be subject to
281.11 the requirements in section 256B.434, subdivision 19, paragraphs (b) to (h), shall equal
281.12 the amount determined in clause (1) times the amount determined in clause (3).

281.13 Sec. 62. Minnesota Statutes 2008, section 256B.441, subdivision 58, is amended to
281.14 read:

281.15 Subd. 58. **Implementation delay.** Within six months prior to the effective date of
281.16 (1) rebasing of property payment rates under subdivision 1; (2) quality-based rate limits
281.17 under subdivision 50; and (3) the removal of planned closure rate adjustments and single
281.18 bed room incentives from external fixed costs under subdivision 53, the commissioner
281.19 shall compare the average operating cost for all facilities combined from the most recent
281.20 cost reports to the average medical assistance operating payment rates for all facilities
281.21 combined from the same time period. Each provision shall not go into effect until the
281.22 average medical assistance operating payment rate is at least 92 percent of the average
281.23 operating cost. The rebasing of property payment rates under subdivision 1, and the
281.24 removal of planned closure rate adjustments and single-bed room incentives from external
281.25 fixed costs under subdivision 53 shall not go into effect until 82 percent of the operating
281.26 payment rate from this section is phased in as described in subdivision 55.

281.27 Sec. 63. Minnesota Statutes 2008, section 256B.441, is amended by adding a
281.28 subdivision to read:

281.29 Subd. 59. **Single-bed payments for medical assistance recipients.** Effective
281.30 October 1, 2009, the amount paid for a private room under Minnesota Rules, part
281.31 9549.0070, subpart 3, is reduced from 115 percent to 111.5 percent.

281.32 Sec. 64. Minnesota Statutes 2008, section 256B.49, is amended by adding a
281.33 subdivision to read:

Subd. 11a. **Waivered services waiting list.** (a) The commissioner shall establish statewide priorities for individuals on the waiting list for CAC, CADI, and TBI waiver services, as of January 1, 2010. The statewide priorities must include, but are not limited to, individuals who continue to have a need for waiver services after they have maximized the use of state plan services and other funding resources, including natural supports, prior to accessing waiver services, and who meet at least one of the following criteria:

(1) have unstable living situations due to the age, incapacity, or sudden loss of the primary caregivers;

(2) are moving from an institution due to bed closures;

(3) experience a sudden closure of their current living arrangement;

(4) require protection from confirmed abuse, neglect, or exploitation;

(5) experience a sudden change in need that can no longer be met through state plan services or other funding resources alone; or

(6) meet other priorities established by the department.

(b) When allocating resources to lead agencies, the commissioner must take into consideration the number of individuals waiting who meet statewide priorities and the lead agencies' current use of waiver funds and existing service options.

(c) The commissioner shall evaluate the impact of the use of statewide priorities and provide recommendations to the legislature on whether to continue the use of statewide priorities in the November 1, 2011, annual report required by the commissioner in sections 256B.0916, subdivision 7, and 256B.49, subdivision 21.

Sec. 65. Minnesota Statutes 2008, section 256B.49, subdivision 12, is amended to read:

Subd. 12. **Informed choice.** Persons who are determined likely to require the level of care provided in a nursing facility as determined under sections 144.0724, subdivision 11, and 256B.0911, or hospital shall be informed of the home and community-based support alternatives to the provision of inpatient hospital services or nursing facility services. Each person must be given the choice of either institutional or home and community-based services using the provisions described in section 256B.77, subdivision 2, paragraph (p).

EFFECTIVE DATE. This section is effective January 1, 2011.

Sec. 66. Minnesota Statutes 2008, section 256B.49, subdivision 13, is amended to read:

Subd. 13. **Case management.** (a) Each recipient of a home and community-based waiver shall be provided case management services by qualified vendors as described

in the federally approved waiver application. The case management service activities provided will include:

(1) assessing the needs of the individual within 20 working days of a recipient's request;

(2) developing the written individual service plan within ten working days after the assessment is completed;

(3) informing the recipient or the recipient's legal guardian or conservator of service options;

(4) assisting the recipient in the identification of potential service providers;

(5) assisting the recipient to access services;

(6) coordinating, evaluating, and monitoring of the services identified in the service plan;

(7) completing the annual reviews of the service plan; and

(8) informing the recipient or legal representative of the right to have assessments completed and service plans developed within specified time periods, and to appeal county action or inaction under section 256.045, subdivision 3, including the determination of nursing facility level of care.

(b) The case manager may delegate certain aspects of the case management service activities to another individual provided there is oversight by the case manager. The case manager may not delegate those aspects which require professional judgment including assessments, reassessments, and care plan development.

Reassessment of each recipient's strengths, support systems, and need for services shall be conducted at least every 12 months and at other times when there has been a significant change in the recipient's functioning.

(b) There must be a determination that the client requires a hospital level of care or a nursing facility level of care as defined in section 144.0724, subdivision 11, at initial and subsequent assessments to initiate and maintain participation in the waiver program.

(c) Regardless of other assessments identified in section 144.0724, subdivision 4, as appropriate to determine nursing facility level of care for purposes of medical assistance payment for nursing facility services, only face-to-face assessments conducted according to section 256B.0911, subdivisions 3a, 3b, and 4d, that result in a hospital level of care

284.1 determination or a nursing facility level of care determination must be accepted for
284.2 purposes of initial and ongoing access to waiver services payment.

284.3 (d) Persons with developmental disabilities who apply for services under the nursing
284.4 facility level waiver programs shall be screened for the appropriate level of care according
284.5 to section 256B.092.

284.6 ~~(e)~~ (e) Recipients who are found eligible for home and community-based services

284.14 Sec. 69. **[256B.4912] HOME AND COMMUNITY-BASED WAIVERS;**
284.15 **PROVIDERS AND PAYMENT.**

284.16 Subdivision 1. **Provider qualifications.** For the home and community-based
284.17 waivers providing services to seniors and individuals with disabilities, the commissioner
284.18 shall establish:

284.19 (1) agreements with enrolled waiver service providers to ensure providers meet
284.20 qualifications defined in the waiver plans;

284.21 (2) regular reviews of provider qualifications; and

284.22 (3) processes to gather the necessary information to determine provider
284.23 qualifications.

284.24 By July 2010, staff that provide direct contact, as defined in section 245C.02, subdivision
284.25 11, that are employees of waiver service providers must meet the requirements of chapter

284.31 methodologies must abide by the principles of transparency and equitability across the
284.32 state. The methodologies must involve a uniform process of structuring rates for each
284.33 service and must promote quality and participant choice.

Sec. 70. Minnesota Statutes 2008, section 256B.5011, subdivision 2, is amended to read:

Subd. 2. **Contract provisions.** (a) The service contract with each intermediate care facility must include provisions for:

(1) modifying payments when significant changes occur in the needs of the consumers;

~~(2) the establishment and use of a quality improvement plan. Using criteria and options for performance measures developed by the commissioner, each intermediate care facility must identify a minimum of one performance measure on which to focus its efforts for quality improvement during the contract period;~~

~~(3)~~ appropriate and necessary statistical information required by the commissioner;

~~(4)~~ (3) annual aggregate facility financial information; and

~~(5)~~ (4) additional requirements for intermediate care facilities not meeting the standards set forth in the service contract.

(b) The commissioner of human services and the commissioner of health, in consultation with representatives from counties, advocacy organizations, and the provider community, shall review the consolidated standards under chapter 245B and the supervised living facility rule under Minnesota Rules, chapter 4665, to determine what provisions in Minnesota Rules, chapter 4665, may be waived by the commissioner of health for intermediate care facilities in order to enable facilities to implement the performance measures in their contract and provide quality services to residents without a duplication of or increase in regulatory requirements.

Sec. 71. Minnesota Statutes 2008, section 256B.5012, is amended by adding a subdivision to read:

Subd. 8. **ICF/MR rate decreases effective July 1, 2009.** Effective July 1, 2009, the commissioner shall decrease each facility reimbursed under this section operating payment adjustments equal to 2.58 percent of the operating payment rates in effect on June 30, 2009. For each facility, the commissioner shall implement the rate reduction, based on occupied beds, using the percentage specified in this subdivision multiplied by the total payment rate, including the variable rate but excluding the property-related payment rate, in effect on the preceding date. The total rate reduction shall include the adjustment provided in section 256B.502, subdivision 7.

Sec. 72. Minnesota Statutes 2008, section 256B.69, subdivision 5a, is amended to read:

Subd. 5a. **Managed care contracts.** (a) Managed care contracts under this section and sections 256L.12 and 256D.03, shall be entered into or renewed on a calendar year basis beginning January 1, 1996. Managed care contracts which were in effect on June 30, 1995, and set to renew on July 1, 1995, shall be renewed for the period July 1, 1995 through December 31, 1995 at the same terms that were in effect on June 30, 1995. The commissioner may issue separate contracts with requirements specific to services to medical assistance recipients age 65 and older.

(b) A prepaid health plan providing covered health services for eligible persons pursuant to chapters 256B, 256D, and 256L, is responsible for complying with the terms of its contract with the commissioner. Requirements applicable to managed care programs under chapters 256B, 256D, and 256L, established after the effective date of a contract with the commissioner take effect when the contract is next issued or renewed.

(c) Effective for services rendered on or after January 1, 2003, the commissioner shall withhold five percent of managed care plan payments under this section for the prepaid medical assistance and general assistance medical care programs pending completion of performance targets. Each performance target must be quantifiable, objective, measurable, and reasonably attainable, except in the case of a performance target based on a federal or state law or rule. Criteria for assessment of each performance target must be outlined in writing prior to the contract effective date. The managed care plan must demonstrate, to the commissioner's satisfaction, that the data submitted regarding attainment of the performance target is accurate. The commissioner shall periodically change the administrative measures used as performance targets in order to improve plan performance across a broader range of administrative services. The performance targets must include measurement of plan efforts to contain spending on health care services and administrative activities. The commissioner may adopt plan-specific performance targets that take into account factors affecting only one plan, including characteristics of the plan's enrollee population. The withheld funds must be returned no sooner than July of the following year if performance targets in the contract are achieved. The commissioner may exclude special demonstration projects under subdivision 23. A managed care plan or a county-based purchasing plan under section 256B.692 may include as admitted assets under section 62D.044 any amount withheld under this paragraph that is reasonably expected to be returned.

(d)(1) Effective for services rendered on or after January 1, 2009, the commissioner shall withhold three percent of managed care plan payments under this section for the prepaid medical assistance and general assistance medical care programs. The withheld

287.1 funds must be returned no sooner than July 1 and no later than July 31 of the following
287.2 year. The commissioner may exclude special demonstration projects under subdivision 23.

287.3 (2) A managed care plan or a county-based purchasing plan under section 256B.692
287.4 may include as admitted assets under section 62D.044 any amount withheld under
287.5 this paragraph. The return of the withhold under this paragraph is not subject to the
287.6 requirements of paragraph (c).

287.7 (e) Effective for services provided on or after January 1, 2010, the commissioner
287.8 shall require that managed care plans use the assessment and authorization processes,
287.9 forms, timelines, standards, documentation, and data reporting requirements, protocols,
287.10 billing processes, and policies consistent with medical assistance fee-for-service or the
287.11 Department of Human Services contract requirements consistent with medical assistance
287.12 fee-for-service or the Department of Human Services contract requirements for all
287.13 personal care assistance services under section 256B.0659.

287.14 Sec. 73. Minnesota Statutes 2008, section 256D.44, subdivision 5, is amended to read:

287.15 Subd. 5. **Special needs.** In addition to the state standards of assistance established in
287.16 subdivisions 1 to 4, payments are allowed for the following special needs of recipients of
287.17 Minnesota supplemental aid who are not residents of a nursing home, a regional treatment
287.18 center, or a group residential housing facility.

287.19 (a) The county agency shall pay a monthly allowance for medically prescribed
287.20 diets if the cost of those additional dietary needs cannot be met through some other
287.21 maintenance benefit. The need for special diets or dietary items must be prescribed by
287.22 a licensed physician. Costs for special diets shall be determined as percentages of the
287.23 allotment for a one-person household under the thrifty food plan as defined by the United
287.24 States Department of Agriculture. The types of diets and the percentages of the thrifty
287.25 food plan that are covered are as follows:

287.26 (1) high protein diet, at least 80 grams daily, 25 percent of thrifty food plan;

287.27 (2) controlled protein diet, 40 to 60 grams and requires special products, 100 percent
287.28 of thrifty food plan;

287.29 (3) controlled protein diet, less than 40 grams and requires special products, 125
287.30 percent of thrifty food plan;

287.31 (4) low cholesterol diet, 25 percent of thrifty food plan;

287.32 (5) high residue diet, 20 percent of thrifty food plan;

287.33 (6) pregnancy and lactation diet, 35 percent of thrifty food plan;

287.34 (7) gluten-free diet, 25 percent of thrifty food plan;

287.35 (8) lactose-free diet, 25 percent of thrifty food plan;

288.1 (9) antidumping diet, 15 percent of thrifty food plan;

288.2 (10) hypoglycemic diet, 15 percent of thrifty food plan; or

288.3 (11) ketogenic diet, 25 percent of thrifty food plan.

288.4 (b) Payment for nonrecurring special needs must be allowed for necessary home
288.5 repairs or necessary repairs or replacement of household furniture and appliances using
288.6 the payment standard of the AFDC program in effect on July 16, 1996, for these expenses,
288.7 as long as other funding sources are not available.

288.8 (c) A fee for guardian or conservator service is allowed at a reasonable rate
288.9 negotiated by the county or approved by the court. This rate shall not exceed five percent
288.10 of the assistance unit's gross monthly income up to a maximum of \$100 per month. If the
288.11 guardian or conservator is a member of the county agency staff, no fee is allowed.

288.12 (d) The county agency shall continue to pay a monthly allowance of \$68 for
288.13 restaurant meals for a person who was receiving a restaurant meal allowance on June 1,
288.14 1990, and who eats two or more meals in a restaurant daily. The allowance must continue
288.15 until the person has not received Minnesota supplemental aid for one full calendar month
288.16 or until the person's living arrangement changes and the person no longer meets the criteria
288.17 for the restaurant meal allowance, whichever occurs first.

288.18 (e) A fee of ten percent of the recipient's gross income or \$25, whichever is less,
288.19 is allowed for representative payee services provided by an agency that meets the
288.20 requirements under SSI regulations to charge a fee for representative payee services. This
288.21 special need is available to all recipients of Minnesota supplemental aid regardless of
288.22 their living arrangement.

288.23 (f)(1) Notwithstanding the language in this subdivision, an amount equal to the
288.24 maximum allotment authorized by the federal Food Stamp Program for a single individual
288.25 which is in effect on the first day of July of each year will be added to the standards of
288.26 assistance established in subdivisions 1 to 4 for adults under the age of 65 who qualify
288.27 as shelter needy and are: (i) relocating from an institution, or an adult mental health
288.28 residential treatment program under section 256B.0622; (ii) eligible for the self-directed
288.29 supports option as defined under section 256B.0657, subdivision 2; or (iii) home and
288.30 community-based waiver recipients living in their own home or rented or leased apartment
288.31 which is not owned, operated, or controlled by a provider of service not related by blood
288.32 or marriage.

288.33 (2) Notwithstanding subdivision 3, paragraph (c), an individual eligible for the
288.34 shelter needy benefit under this paragraph is considered a household of one. An eligible
288.35 individual who receives this benefit prior to age 65 may continue to receive the benefit
288.36 after the age of 65.

(3) "Shelter needy" means that the assistance unit incurs monthly shelter costs that exceed 40 percent of the assistance unit's gross income before the application of this special needs standard. "Gross income" for the purposes of this section is the applicant's or recipient's income as defined in section 256D.35, subdivision 10, or the standard specified in subdivision 3, paragraph (a) or (b), whichever is greater. A recipient of a federal or state housing subsidy, that limits shelter costs to a percentage of gross income, shall not be considered shelter needy for purposes of this paragraph.

(g) Notwithstanding this subdivision, recipients of home and community-based services may relocate to services without 24-hour supervision and receive the equivalent of the recipient's group residential housing allocation in Minnesota supplemental assistance shelter needy funding if the cost of the services and housing is equal to or less than provided to the recipient in home and community-based services and the relocation is the recipient's choice and is approved by the recipient or guardian.

(h) To access housing and services as provided in paragraph (g), the recipient may choose housing that may or may not be owned, operated, or controlled by the recipient's service provider.

(i) The provisions in paragraphs (g) and (h) are effective to June 30, 2011. The commissioner shall assess the development of publicly owned housing, other housing alternatives, and whether a public equity housing fund may be established that would maintain the state's interest, to the extent paid from group residential housing and Minnesota supplemental aid shelter needy funds in provider-owned housing so that when sold, the state would recover its share for a public equity fund to be used for future public needs under this chapter. The commissioner shall report findings and recommendations to the legislative committees and budget divisions with jurisdiction over health and human services policy and financing by January 15, 2012.

(j) In selecting prospective services needed by recipients for whom home and community-based services have been authorized, the recipient and the recipient's guardian shall first consider alternatives to home and community-based services. Minnesota supplemental aid shelter needy funding for recipients who utilize Minnesota supplemental aid shelter needy funding as provided in this section shall remain permanent unless the recipient with the recipient's guardian later chooses to access home and community-based services.

DELIVERY REFORM ACT

Section 1. [402A.01] CITATION.

Sections 402A.01 to 402A.50 may be cited as the "State-County Results, Accountability, and Service Delivery Reform Act."

Sec. 2. [402A.10] DEFINITIONS.

Subdivision 1. **Terms defined.** For the purposes of this chapter, the terms defined in this section have the meanings given.

Subd. 2. **Commissioner.** "Commissioner" means the commissioner of human services.

Subd. 3. **Council.** "Council" means the State-County Results, Accountability, and Service Delivery Redesign Council established in section 402A.20.

Subd. 4. **Essential human services or essential services.** "Essential human services" or "essential services" means assistance and services to recipients or potential recipients of public welfare and other services delivered by counties that are mandated in federal and state law that are to be available in all counties of the state.

Subd. 5. **Service delivery authority.** "Service delivery authority" means a single county, or group of counties operating by execution of a joint powers agreement under section 471.59 or other contractual agreement, that has voluntarily chosen by resolution of the county board of commissioners to participate in the redesign under this chapter.

Subd. 6. **Steering committee.** "Steering committee" means the Steering Committee on Performance and Outcome Reforms.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. [402A.15] STEERING COMMITTEE ON PERFORMANCE AND
OUTCOME REFORMS.

Subdivision 1. **Duties.** (a) The Steering Committee on Performance and Outcome Reforms shall develop a uniform process to establish and review performance and outcome standards for all essential human services based on the current level of resources available, and to develop appropriate reporting measures and a uniform accountability process for responding to a county's or human service authority's failure to make adequate progress on achieving performance measures. The accountability process shall focus on the performance measures rather than inflexible implementation requirements.

298.1 (b) The steering committee shall:

298.2 (1) by November 1, 2009, establish an agreed upon list of essential services;

298.3 (2) by February 15, 2010, develop and recommend to the legislature a uniform,
298.4 graduated process, in addition to the remedies identified in section 402A.18, for responding
298.5 to a county's failure to make adequate progress on achieving performance measures; and

298.6 (3) by December 15, 2012, for each essential service make recommendations to the
298.7 legislature regarding (1) performance measures and goals based on those measures for
298.8 each essential service, (2) a system for reporting on the performance measures and goals,
298.9 and (3) appropriate resources, including funding, needed to achieve those performance
298.10 measures and goals. The resource recommendations shall take into consideration program
298.11 demand and the unique differences of local areas in geography and the populations
298.12 served. Priority shall be given to services with the greatest variation in availability and
298.13 greatest administrative demands. By January 15 of each year starting January 15, 2011,
298.14 the steering committee shall report its recommendations to the governor and legislative
298.15 committees with jurisdiction over health and human services. As part of its report, the
298.16 steering committee shall, as appropriate, recommend statutory provisions, rules and
298.17 requirements, and reports that should be repealed or eliminated.

298.18 (c) As far as possible, the performance measures, reporting system, and funding
298.19 shall be consistent across program areas. The development of performance measures shall
298.20 consider the manner in which data will be collected and performance will be reported.
298.21 The steering committee shall consider state and local administrative costs related to
298.22 collecting data and reporting outcomes when developing performance measures. The
298.23 steering committee shall correlate the performance measures and goals to available
298.24 levels of resources, including state and local funding. The steering committee shall
298.25 take into consideration that the goal of implementing changes to program monitoring
298.26 and reporting the progress toward achieving outcomes is to significantly minimize the
298.27 cost of administrative requirements and to allow funds freed by reduced administrative
298.28 expenditures to be used to provide additional services, allow flexibility in service design
298.29 and management, and focus energies on achieving program and client outcomes.

298.30 (d) In making its recommendations, the steering committee shall consider input from
298.31 the council established in section 402A.20. The steering committee shall review the
298.32 measurable goals established in a memorandum of understanding entered into under
298.33 section 402A.30, subdivision 2, paragraph (b), and consider whether they may be applied
298.34 as statewide performance outcomes.

299.1 (e) The steering committee shall form work groups that include persons who provide
299.2 or receive essential services and representatives of organizations who advocate on behalf
299.3 of those persons.

299.4 (f) By December 15, 2009, the steering committee shall establish a three-year
299.5 schedule for completion of its work. The schedule shall be published on the Department of
299.6 Human Services Web site and reported to the legislative committees with jurisdiction over
299.7 health and human services. In addition, the commissioner shall post quarterly updates on
299.8 the progress of the steering committee on the Department of Human Services Web site.

299.9 Subd. 2. **Composition.** (a) The steering committee shall include:

299.10 (1) the commissioner of human services, or designee, and two additional
299.11 representatives of the department;

299.12 (2) two county commissioners, representative of rural and urban counties, selected
299.13 by the Association of Minnesota Counties;

299.14 (3) two county directors of human services, representative of rural and urban
299.15 counties, selected by the Minnesota Association of County Social Service Administrators;
299.16 and

299.17 (4) three clients or client advocates representing different populations receiving
299.18 services from the Department of Human Services, who are appointed by the commissioner.

299.19 (b) The commissioner, or designee, and a county commissioner shall serve as
299.20 cochairs of the committee. The committee shall be convened within 60 days of final
299.21 enactment of this legislation.

299.22 (c) State agency staff shall serve as informational resources and staff to the steering
299.23 committee. Statewide county associations may assemble county program data as required.

299.24 (d) To promote information sharing and coordination between the steering committee
299.25 and council, one of the county representatives from paragraph (a), clause (2), and one of the
299.26 county representatives from paragraph (a), clause (3), must also serve as a representative
299.27 on the council under section 402A.20, subdivision 1, paragraph (b), clause (5) or (6).

299.28 **EFFECTIVE DATE.** This section is effective the day following final enactment.

299.30 **MEET PERFORMANCE OUTCOMES.**

299.31 Subdivision 1. **Underperforming county; specific service.** If the commissioner
299.32 determines that a county or service delivery authority is deficient in achieving minimum
299.33 performance outcomes for a specific essential service, the commissioner may impose
299.34 the following remedies:

300.1 (1) voluntary incorporation of the administration and operation of the specific
300.2 essential service with an existing service delivery authority or another county. A
300.3 service delivery authority or county incorporating an underperforming county shall
300.4 not be financially liable for the costs associated with remedying performance outcome
300.5 deficiencies;

300.6 (2) mandatory incorporation of the administration and operation of the specific
300.7 essential service with an existing service delivery authority or another county. A
300.8 service delivery authority or county incorporating an underperforming county shall

300.10 deficiencies; or

300.11 (3) transfer of authority for program administration and operation of the specific
300.12 essential service to the commissioner.

300.13 **Subd. 2. Underperforming county; more than one-half of service.** If the
300.14 commissioner determines that a county or service delivery authority is deficient in
300.15 achieving minimum performance outcomes for more than one-half of the defined essential
300.16 service, the commissioner may impose the following remedies:

300.17 (1) voluntary incorporation of the administration and operation of the specific
300.18 essential service with an existing service delivery authority or another county. A
300.19 service delivery authority or county incorporating an underperforming county shall
300.20 not be financially liable for the costs associated with remedying performance outcome
300.21 deficiencies;

300.22 (2) mandatory incorporation of the administration and operation of the specific
300.23 essential service with an existing service delivery authority or another county. A
300.24 service delivery authority or county incorporating an underperforming county shall
300.25 not be financially liable for the costs associated with remedying performance outcome
300.26 deficiencies; or

300.27 (3) transfer of authority for program administration and operation of the specific
300.28 essential service to the commissioner.

300.29 **Subd. 3. Conditions prior to imposing remedies.** Before the commissioner may
300.30 impose the remedies authorized under this section, the following conditions must be met:

300.31 (1) the county or service delivery authority determined by the commissioner
300.32 to be deficient in achieving minimum performance outcomes has the opportunity, in
300.33 coordination with the council, to develop a program outcome improvement plan. The
300.34 program outcome improvement plan must be developed no later than six months from the
300.35 date of the deficiency determination; and

301.1 (2) the council has conducted an assessment of the program outcome improvement
301.2 plan to determine if the county or service delivery authority has made satisfactory progress
301.3 toward performance outcomes and has made a recommendation about remedies to the
301.4 commissioner. The review and recommendation must be made to the commissioner within
301.5 12 months from the date of the deficiency determination.

301.6 Sec. 5. **[402A.20] COUNCIL.**

301.7 Subdivision 1. **Council.** (a) The State-County Results, Accountability, and Service
301.8 Delivery Redesign Council is established. Appointed council members must be appointed
301.9 by their respective agencies, associations, or governmental units by November 1, 2009.
301.10 The council shall be cochaired by the commissioner of human services, or designee, and a
301.11 county representative from paragraph (b), clause (4) or (5), appointed by the Association

(6) form work groups as necessary to carry out the duties of the council under the redesign;

(7) serve as a forum for resolving conflicts among participating counties or between participating counties and the commissioner of human services, provided nothing in this section is intended to create a formal binding legal process;

(8) engage in the program improvement process established in section 402A.18, subdivision 3; and

(9) identify and recommend incentives for counties to participate in human services authorities.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 6. [402A.30] DESIGNATION OF SERVICE DELIVERY AUTHORITY.

Subdivision 1. Establishment. After certification by the council and approval by the commissioner, in accordance with subdivision 4, a county or consortium of counties may establish a service delivery authority to redesign the delivery of some or all essential services. Once a county or consortium of counties establishes a service delivery authority, no county that is a participant in the service delivery authority may participate in or be a member of any other service delivery authority. The service delivery authority may allow an additional county or counties to join the service delivery authority subject to the approval of the council and the commissioner.

Subd. 2. New state-county governance framework. (a) To establish a service delivery authority, each participating county and the state must enter into a binding memorandum of understanding to establish a joint state-county service delivery framework:

(b) The memorandum of understanding must:

(1) comply with current state and federal law except where waivers are approved under clause (7);

303.1 (2) define the scope of essential services over which the service delivery authority
303.2 has jurisdiction;

303.3 (3) designate a single administrative structure to oversee the delivery of services over
303.4 which the service delivery authority has jurisdiction and identify a single administrative
303.5 agent for purposes of contact and communication with the department;

303.6 (4) define measurable performance and outcome goals in key operational areas
303.7 that the service delivery authority is expected to achieve, provided that the performance
303.8 goals must, at a minimum, satisfy performance outcomes recommended by the steering
303.9 committee and enacted into law;

303.10 (5) identify the state and local resources, including funding and administrative and
303.11 information technology support, and other requirements necessary for the service delivery
303.12 authority to achieve the performance and outcome goals;

303.13 (6) state the relief available to the service delivery authority if the resource
303.14 commitments identified in clause (5) are not met;

303.15 (7) identify in the agreement the waivers from statutory requirements that are needed
303.16 to ensure greater local control and flexibility to determine the most cost-effective means
303.17 of achieving specified measurable goals and the date by which the commissioner shall
303.18 grant the identified waivers;

303.19 (8) set forth a graduated accountability process and penalties for responding to a
303.20 county's failure to make adequate progress on achieving performance and outcome goals;

303.21 (9) set forth a reasonable level of targeted reductions in overhead and administrative
303.22 costs for each county participating in the service delivery authority; and

303.23 (10) set forth the terms under which a county may withdraw from participation.

303.24 The memorandum of understanding may be later amended to add additional services over
303.25 which the service delivery authority has jurisdiction.

303.26 (c) Nothing in this chapter precludes local governments from utilizing sections
303.27 465.81 and 465.82 to establish procedures for local governments to merge, with the
303.28 consent of the voters. Any agreement under paragraph (b) must be governed by this
303.29 chapter. Nothing in this chapter limits the authority of a county board to enter into
303.30 contractual agreements for services not covered by the provisions of a memorandum of
303.31 understanding establishing a service delivery authority with other agencies or with other
303.32 units of government.

303.33 Subd. 3. **Duties.** The service delivery authority shall:

303.34 (1) within the scope of essential services set forth in the memorandum of
303.35 understanding establishing the authority, carry out the responsibilities required of local
303.36 agencies under chapter 393 and human services boards under chapter 402;

(2) manage the public resources devoted to human services and other public services delivered or purchased by the counties that are subsidized or regulated by the Department of Human Services under chapters 245 and 267;

(3) employ staff to assist in carrying out its duties;

(4) develop and maintain a continuity of operations plan to ensure the continued operation or resumption of essential human services functions in the event of any business interruption according to local, state, and federal emergency planning requirements;

(5) receive and expend funds received for the redesign process under the memorandum of understanding;

(6) plan and deliver services directly or through contract with other governmental or nongovernmental providers;

(7) rent, purchase, sell, and otherwise dispose of real and personal property as necessary to carry out the redesign; and

(8) carry out any other service designated as a responsibility of a county.

Subd. 4. Process for establishing a service delivery authority. (a) The county or consortium of counties proposing to form a service delivery authority shall, in conjunction with the commissioner, prevent a proposed memorandum of understanding to the council accompanied by a resolution from the board of commissioners of each participating county stating the county's intent to participate in a service delivery authority.

(b) The council shall certify a county or consortium of counties as a service delivery authority if:

(1) the conditions in subdivision 2, paragraphs (a) and (b), are met; and

(2) the county or consortium of counties are:

(i) a single county with a population of 55,000 or more;

(ii) a consortium of counties with a total combined population of 55,000 or more and the counties comprising the consortium are in reasonable geographic proximity; or

(iii) four or more counties in reasonable geographic proximity without regard to population.

The council may recommend that the commissioner of human services exempt a single county or multicounty service delivery authority from the minimum population standard if that service delivery authority can demonstrate that it can otherwise meet the requirements of this chapter.

(c) After the council has certified a county or consortium of counties as a service delivery authority, the commissioner may enter into the memoranda of understanding with the participating counties to form the service delivery authority.

Subd. 5. **Single county service delivery authority.** For counties with populations over 55,000, the board of county commissioners may be the service delivery authority and retain existing authority under law.

Sec. 7. **[402A.45] ESSENTIAL SERVICES OUTSIDE THE JURISDICTION OF A SERVICE DELIVERY AUTHORITY.**

(a) With the approval of the council, a county that is a participant in a service delivery authority may enter into cooperative arrangements with other service delivery authorities or other counties to provide essential services that are not within the jurisdiction and duties of the service delivery authority.

(b) With the approval of the council, a service delivery authority may enter into a cooperative arrangement with a nonparticipating county to provide an essential service within the jurisdiction and duties of the service delivery authority.

Sec. 8. **[402A.50] PRIVATE SECTOR FUNDING.**

The council may support stakeholder agencies, if not otherwise prohibited by law, to separately or jointly seek and receive funds to provide expert technical assistance to the council, the council's work group, and any subwork groups for executing the provisions of the redesign.

Sec. 9. **APPROPRIATION.**

\$350,000 is appropriated for the biennium beginning July 1, 2009, from the general fund to the State-County Results, Accountability, and Service Delivery Redesign Council, for the purposes of the State-County Results, Accountability, and Service Delivery Reform Act under Minnesota Statutes, sections 402A.01 to 402A.50. The council shall establish a methodology for distributing funds to certified service delivery authorities for the purposes of carrying out the requirements of the redesign.
