74.11 commissioner. The proceeds are appropriated for this purpose.

74.12 Sec. 31. Minnesota Statutes 2008, section 16A.66, subdivision 2, is amended to read:

74.13 Subd. 2. **Special provisions for sale and issuance.** Refunding bonds may be
74.14 sold publicly, or directly to the State Board of Investment without bids, or may be
74.15 exchanged for bonds refunded by agreement with their holders. The refunding bonds must
74.16 be prepared, executed, delivered, and secured in the same way as the refunded bonds.
74.17 The proceeds of refunding bonds may be deposited, invested, and applied to accomplish
74.18 the refunding as provided in section 475.67, subdivisions 5 to 10, and 13. Bids for the
74.19 securities to be purchased for the escrow account may be secured, at the commissioner's
74.20 election, either through the State Board of Investment or a suitable financial institution.
74.21 The interest rate on refunding bonds may exceed that on the refunded bonds if the purpose
74.22 of refunding is to extend the maturities and to reduce the amount needed annually to
74.23 pay and to secure the debt.

74.24 Sec. 32. Minnesota Statutes 2008, section 16B.26, is amended to read:

74.25 **16B.26 UTILITY COMPANIES, PERMITS TO CROSS STATE-OWNED**
74.26 **LANDS.**

74.27 Subdivision 1. **Easements.** (a) **Authority.** Except where the authority conferred
74.28 by this section has been imposed on some other state or county office, the commissioner
74.29 may grant an easement or permit over, under, or across any land owned by the state for
74.30 ~~the purpose of constructing roads, streets, telephone, telegraph, and electric power lines,~~
74.31 ~~cables or conduits, underground or otherwise, or mains or pipe lines for gas, liquids, or~~
74.32 ~~solids in suspension~~ public purposes, including but not limited to, access, road, street,
74.33 mass transit, telecommunication, flood protection, or utility purposes. This authority

does not apply to land under the jurisdiction of the commissioner of natural resources or land obtained for trunk highway purposes.

(b) Notice of revocation. An easement or permit is revocable by written notice given by the commissioner if at any time its continuance will conflict with a public use of the land over, under, or upon which it is granted, or for any other reason. The notice must be in writing and is effective 90 days after the notice is sent by certified mail to the last known address of the record holder of the easement. If the address of the holder of the easement or permit is not known, it expires 90 days after the notice is recorded in the office of the county recorder of the county in which the land is located. Upon revocation of an easement, the commissioner may allow a reasonable time for the easement holder to vacate the premises affected. Notwithstanding the foregoing, the commissioner may grant to a state agency or political subdivision a permanent easement for the construction, operation, and maintenance of publicly owned infrastructure as described in paragraph (a), to have and to hold for as long as the easement area is used in accordance with the terms and conditions of the easement. If a permanent easement ceases to be used for the purposes stated in the easement or in accordance with its terms and conditions, the easement may be revoked by a written notice given by the commissioner in accordance with this paragraph.

(c) Easement runs with land. State land subject to an easement or permit granted by the commissioner remains subject to sale or lease, and the sale or lease does not revoke the permit or easement granted.

Subd. 2. Land controlled by other agencies. If the easement or permit involves land under the jurisdiction of an agency other than the Department of Administration, it is subject to the approval of the head of the agency and is subject to revocation by the commissioner as provided in this section, on request of the head of the agency.

Subd. 3. Application. An application for easement or permit under this section ~~must be in quadruplicate and~~ must include: a legal description of the land affected; a map showing the area affected by the easement or permit; and a detailed design of any structures to be placed on the land. The commissioner may require that the application be in another form and include other descriptions, maps, or designs. The commissioner may at any time order changes or modifications respecting construction or maintenance of structures or other conditions of the easement which the commissioner finds necessary to protect the public health and safety.

Subd. 4. Form; duration. The easement or permit must be in a form prescribed by the attorney general and must describe the location of the easement granted. The easement or permit continues until revoked by the commissioner, subject to change or modification as provided in this section.

Subd. 5. **Consideration; terms.** The commissioner may prescribe consideration and conditions for granting an easement or permit. Money received by the state under this section must be credited to the fund to which income or proceeds of sale from the land would be credited, if provision for the sale is made by law. Otherwise, it must be credited to the general fund.

Sec. 33. **[16B.327] RECYCLING CONSTRUCTION AND DEMOLITION
WASTE FROM STATE BUILDINGS; REQUIREMENT.**

The commissioner shall require in contracts for the construction, renovation, or demolition of a state building that the contractor and any subcontractor must divert from deposit in a landfill and must recycle at least 50 percent of the nonhazardous construction and demolition waste, measured by tonnage or volume, produced by the project or demonstrate that the waste was delivered to construction and demolition waste recycling facilities that maintain a 50 percent annual recycling rate. This requirement applies to a project to construct, renovate, or demolish a state building that receives funding from the bond proceeds fund after January 1, 2011, provided that:

(1) the project is located within 40 miles of a construction and demolition waste recycling facility that meets the requirements of this section and can process the applicable building materials; and

(2) for construction and renovation projects, funding from the bond proceeds fund is \$5,000,000 or more.

For the purposes of this section, "state building" means a building wholly owned or leased by a state agency, the Minnesota State Colleges and Universities, or the University of Minnesota.

Subdivision 1. **Construction and major remodeling.** (a) The commissioner, or any other recipient to whom an appropriation is made to acquire or better public lands or buildings or other public improvements of a capital nature, must not prepare final plans and specifications for any construction, major remodeling, or land acquisition in anticipation of which the appropriation was made until the agency that will use the project has presented the program plan and cost estimates for all elements necessary to complete the project to the chair of the senate Finance Committee and the chair of the house of representatives Ways and Means Committee and the chairs have made their recommendations, and the chair of the house of representatives Capital Investment Committee is notified. "Construction or major remodeling" means construction of a new

The program plans and estimates must be presented for review at least two weeks before a recommendation is needed. The recommendations are advisory only. Failure or refusal to make a recommendation is considered a negative recommendation. The chairs of the senate Finance Committee and the house of representatives Capital Investment and Ways and Means Committees must also be notified whenever there is a substantial change in a construction or major remodeling project, or in its cost.

(b) Capital projects exempt from the requirements of this subdivision include demolition or decommissioning of state assets, hazardous material projects, utility infrastructure projects, environmental testing, parking lots, parking structures, park and ride facilities, bus rapid transit stations, light rail lines, exterior lighting, fencing, highway rest areas, truck stations, storage facilities not consisting primarily of offices or heated work areas, roads, bridges, trails, pathways, campgrounds, athletic fields, dams, floodwater retention systems, water access sites, harbors, sewer separation projects, water and wastewater facilities, port development projects for which the commissioner of transportation has entered into an assistance agreement under section 457A.04, ice centers, a local government project with a construction cost of less than \$1,500,000, or any other capital project with a construction cost of less than \$750,000.

Subd. 3. **Amount.** No more than one-third of the amount appropriated by any one appropriation act may be granted to any one project.

Subd. 4. **Application.** (a) To be eligible to receive a grant, the grant application must be made to the commissioner on behalf of any combination of at least three counties, cities, towns, or school districts. The grant applicants must have entered into a joint

powers agreement and formed a joint powers board under section 471.59 to govern the facilities. The joint powers board must approve the application by resolution.

(b) The grant application must demonstrate that acquisition, construction, or renovation of the cooperative facilities will improve the delivery of services by the grant applicants and will generate savings to the applicants in operating their buildings and programs.

(c) The commissioner shall prescribe and provide the application form. The application must include at least the following information:

(1) identification of the facilities;

(2) a plan for the facilities;

(3) a description of how the facilities will improve the delivery of governmental services by the applicants;

(4) a detailed estimate, along with necessary supporting evidence, of the total costs for the facilities;

(8) any additional information or material the commissioner prescribes.

(2) fundamental change in the organization of service delivery;

(3) substantial savings in operating costs; or

(4) positive return on investment over the life of the facility.

Subd. 6. **Geographic distribution.** At least half the money provided as grants each fiscal biennium must be for projects located outside the seven-county metropolitan area, as defined in section 473.121, subdivision 2.

Sec. 36. Minnesota Statutes 2008, section 85.015, is amended by adding a subdivision to read:

79.15 Sec. 38. Minnesota Statutes 2008, section 103F.515, is amended by adding a

79.24 Subdivision 1. **Creation of account.** ~~A bioscience~~ An innovative business
79.25 development public infrastructure account is created in the bond proceeds fund. Money
79.26 in the account may only be used for capital costs of public infrastructure for eligible
79.27 ~~bioscience~~ innovative business development projects.

79.28 Subd. 2. **Definitions.** For purposes of this section:

79.29 (1) "local governmental unit" means a county, city, town, special district, public

79.32 board of regents, or other body charged with governing a local governmental unit;

(3) "public infrastructure" means publicly owned physical infrastructure in this state, including, but not limited to, wastewater collection and treatment systems, drinking water systems, storm sewers, utility extensions, telecommunications infrastructure, streets, roads, bridges, parking ramps, facilities that support basic science technology and clinical research, and research infrastructure; ~~and~~

The local governmental unit receiving a grant must provide for the remainder of the public infrastructure costs from other sources. The commissioner may waive the requirements related to an eligible project under subdivision 2 if a project would be eligible under this section but for the fact that its location requires infrastructure improvements to residential development.

(b) The amount of a grant may not exceed the lesser of the cost of the public infrastructure or 50 percent of the sum of the cost of the public infrastructure plus the cost of the completed eligible project.

(c) The purpose of the program is to keep or enhance jobs in the area, increase the tax base, or to expand or create new economic development through the growth of new ~~bioscience~~ innovative businesses and organizations.

Subd. 4. **Application.** (a) The commissioner must develop forms and procedures for soliciting and reviewing applications for grants under this section. At a minimum, a local governmental unit must include the following information in its application:

(6) any additional information or material the commissioner prescribes.

(b) The determination of whether to make a grant under subdivision 3 is within the discretion of the commissioner, subject to this section. The commissioner's decisions and application of the priorities are not subject to judicial review, except for abuse of discretion.

Subd. 5. **Priorities.** (a) If applications for grants exceed the available appropriations, grants must be made for public infrastructure that, in the commissioner's judgment, provides the highest return in public benefits for the public costs incurred. "Public benefits" include job creation, environmental benefits to the state and region, efficient use of public transportation, efficient use of existing infrastructure, provision of affordable housing, multiuse development that constitutes community rebuilding rather than single-use development, crime reduction, blight reduction, community stabilization, and property tax base maintenance or improvement. In making this judgment, the commissioner shall give priority to eligible projects with one or more of the following characteristics:

(1) the potential of the local governmental unit to attract viable ~~bioscience~~ innovative businesses;

(2) proximity to public transit if located in a metropolitan county, as defined in section 473.121, subdivision 4;

(3) multijurisdictional eligible projects that take into account the need for affordable housing, transportation, and environmental impact;

(4) the eligible project is not relocating substantially the same operation from another location in the state, unless the commissioner determines the eligible project cannot be

82.1 reasonably accommodated within the local governmental unit in which the business is
82.2 currently located, or the business would otherwise relocate to another state or country; and
82.3 (5) the number of jobs that will be created.

82.4 (b) The factors in paragraph (a) are not listed in a rank order of priority; rather, the
82.5 commissioner may weigh each factor, depending upon the facts and circumstances, as
82.6 the commissioner considers appropriate.

82.7 Subd. 6. **Cancellation of grant.** If a grant is awarded to a local governmental unit
82.8 and funds are not encumbered for the grant within four years after the award date, the
82.9 grant must be canceled.

82.10 Subd. 7. **Repayment of grant.** If an eligible project supported by public
82.11 infrastructure funded with a grant awarded under this section is not occupied by a
82.12 ~~bioscience~~ an innovative business in accordance with the grant application under
82.13 subdivision 4 within five years after the date of the last grant payment, the grant recipient
82.14 must repay the amount of the grant received. The commissioner must deposit all money
82.15 received under this subdivision into the state treasury and credit it to the debt service
82.16 account in the state bond fund.

82.17 Sec. 40. Minnesota Statutes 2008, section 174.50, subdivision 6, is amended to read:

82.18 Subd. 6. **Grant ~~rules~~ criteria; rulemaking.** ~~Procedures for application for~~

82.26 system;
- 82.27 (2) number of persons affected by the deficiency;
- 82.28 (3) economic feasibility;
- 82.29 (4) effect on optimum land use and other concerns of state and regional planning;
- 82.30 (5) availability of other financing capability; and

82.32 Sec. 41. Minnesota Statutes 2008, section 174.50, subdivision 7, is amended to read:

82.33 Subd. 7. **~~Rules for administering funds and grants~~ Program administration;**
82.34 **rulemaking.** (a) The commissioner of transportation shall develop rules, procedures for

83.1 application for grants, conditions of grant administration, standards, and criteria, including
83.2 bridge specifications, in cooperation with road authorities of political subdivisions, for use
83.3 in the administration of funds appropriated to the commissioner and for the administration
83.4 of grants to subdivisions.

83.5 (b) The maximum use of standardized bridges is encouraged. Regardless of the size
83.6 of the existing bridge, a bridge or replacement bridge is eligible for assistance from the
83.7 state transportation fund if a hydrological survey indicates that the bridge or replacement
83.8 bridge must be ten feet or more in length.

83.9 (c) As part of the standards or rules, the commissioner shall, in consultation with
83.10 local road authorities, establish a minimum distance between any two bridges that cross
83.11 over the same river, stream, or waterway, so that only one of the bridges is eligible for a
83.12 grant under this section. As appropriate, the commissioner may establish exceptions from
83.13 the minimum distance requirement or procedures for obtaining a variance.

83.14 (d) Funds appropriated to the commissioner from the Minnesota state transportation
83.15 fund shall be segregated from the highway tax user distribution fund and other funds
83.16 created by article XIV of the Constitution.

83.23 commissioner must prescribe the terms and conditions of the leases.

83.24 (2) A grant for an individual facility must not exceed ~~\$300,000~~ \$500,000 for each
83.25 program that is housed in the facility, up to a maximum of ~~\$750,000~~ \$2,000,000 for
83.26 a facility that houses three programs or more. Programs include Head Start, School

84.7 and the local Youthbuild program, considering safety and skills needed;

84.8 (ii) it is demonstrated by Youthbuild that using Youthbuild will not increase the
84.9 overall cost of the project; and

84.10 (iii) eligible programs consult with appropriate labor organizations to deliver
84.11 education and training.

84.12 (b) The commissioner may give priority to:

84.13 (1) projects that collaborate with child care providers, including all-day and
84.14 school-age child care programs, special needs care, sick child care, nontraditional hour
84.15 care, and programs that include services to refugee and immigrant families; ~~and~~

84.27 two. Except for amounts appropriated to pay the costs of investment banking and banking
84.28 services under section 16A.647, the proceeds of the bonds issued under this section must
84.29 be credited to a special 911 revenue bond proceeds account in the state treasury.

84.30 (b) Before the proceeds are received in the 911 revenue bond proceeds account,
84.31 the commissioner of management and budget may transfer to the account from the 911

84.33 proceeds from the next bond sale. The commissioner of management and budget shall

85.11 times in the last three years; or (2) are at significant risk of lacking a permanent residence
85.12 for 12 months or at least four times in the last three years. The bonds may also be issued
