21.1 Sec. 34. Minnesota Statutes 2010, section 169.06, subdivision 5, is amended to read:

21.2 Subd. 5. **Traffic-control signal.** (a) Whenever traffic is controlled by traffic-control
21.3 signals exhibiting different colored lights, or colored lighted arrows, successively one at a
21.4 time or in combination, only the colors Green, Red, and Yellow shall be used, except for
21.5 special pedestrian signals carrying a word or legend. The traffic-control signal lights or
21.6 colored lighted arrows indicate and apply to drivers of vehicles and pedestrians as follows:

21.7 (1) Green indication:

21.8 (i) Vehicular traffic facing a circular green signal may proceed straight through or
21.9 turn right or left unless a sign ~~at such place~~ prohibits either turn. But vehicular traffic,
21.10 including vehicles turning right or left, shall yield the right-of-way to other vehicles and to
21.11 pedestrians lawfully within the intersection or adjacent crosswalk at the time this signal
21.12 is exhibited. Vehicular traffic turning left or making a U-turn to the left shall yield the
21.13 right-of-way to other vehicles approaching from the opposite direction so closely as to
21.14 constitute an immediate hazard.

21.15 (ii) Vehicular traffic facing a green arrow signal, shown alone or in combination with
21.16 another indication, may cautiously enter the intersection only to make the movement
21.17 indicated by the arrow, or other movement as permitted by other indications shown at the
21.18 same time. ~~Such~~ Vehicular traffic shall yield the right-of-way to pedestrians lawfully
21.19 within an adjacent crosswalk and to other traffic lawfully using the intersection.

21.20 (iii) Unless otherwise directed by a pedestrian-control signal as provided in
21.21 subdivision 6, pedestrians facing any green signal, except when the sole green signal is a
21.22 turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.
21.23 Every driver of a vehicle shall yield the right-of-way to such pedestrian, except that the
21.24 pedestrian shall yield the right-of-way to vehicles lawfully within the intersection at the
21.25 time that the green signal indication is first shown.

21.26 (2) Steady yellow indication:

21.27 (i) Vehicular traffic facing a steady circular yellow or yellow arrow signal is thereby
21.28 warned that the related green movement is being terminated or that a red indication will be
21.29 exhibited immediately thereafter when vehicular traffic must not enter the intersection,
21.30 except for the continued movement allowed by any green arrow indication simultaneously
21.31 exhibited.

21.32 (ii) Pedestrians facing a circular yellow signal, unless otherwise directed by a
21.33 pedestrian-control signal as provided in subdivision 6, are thereby advised that there is
21.34 insufficient time to cross the roadway before a red indication is shown and no pedestrian
21.35 shall then start to cross the roadway.

21.36 (3) Steady red indication:

22.1 (i) Vehicular traffic facing a circular red signal alone must stop at a clearly marked
22.2 stop line but, if none, before entering the crosswalk on the near side of the intersection
22.3 or, if none, then before entering the intersection and shall remain standing until a green
22.4 indication is shown, except as follows: (A) the driver of a vehicle stopped as close
22.5 as practicable at the entrance to the crosswalk on the near side of the intersection or,
22.6 if none, then at the entrance to the intersection in obedience to a red or stop signal,
22.7 and with the intention of making a right turn may make the right turn, after stopping,
22.8 unless an official sign has been erected prohibiting such movement, but shall yield the
22.9 right-of-way to pedestrians and other traffic lawfully proceeding as directed by the signal
22.10 at that intersection; or (B) the driver of a vehicle on a one-way street intersecting another
22.11 one-way street on which traffic moves to the left shall stop in obedience to a red or stop
22.12 signal and may then make a left turn into the one-way street, unless an official sign has
22.13 been erected prohibiting the movement, but shall yield the right-of-way to pedestrians and
22.14 other traffic lawfully proceeding as directed by the signal at that intersection.

22.15 (ii) Unless otherwise directed by a pedestrian-control signal as provided in
22.16 subdivision 6, pedestrians facing a steady red signal alone shall not enter the roadway.

22.17 (iii) Vehicular traffic facing a steady red arrow signal, with the intention of making a
22.18 movement indicated by the arrow, must stop at a clearly marked stop line but, if none,
22.19 before entering the crosswalk on the near side of the intersection or, if none, then before
22.20 entering the intersection and must remain standing until a permissive signal indication
22.21 permitting the movement indicated by the red arrow is displayed, except as follows: when
22.22 an official sign has been erected permitting a turn on a red arrow signal, the vehicular
22.23 traffic facing a red arrow signal indication is permitted to enter the intersection to turn
22.24 right, or to turn left from a one-way street into a one-way street on which traffic moves
22.25 to the left, after stopping, but must yield the right-of-way to pedestrians and other traffic
22.26 lawfully proceeding as directed by the signal at that intersection.

22.27 (b) In the event an official traffic-control signal is erected and maintained at a place
22.28 other than an intersection, the provisions of this section are applicable except those which
22.29 can have no application. Any stop required must be made at a sign or marking on the
22.30 pavement indicating where the stop must be made, but in the absence of any such sign or
22.31 marking the stop must be made at the signal.

22.32 (c) When a traffic-control signal indication or indications placed to control a certain
22.33 movement or lane are so identified by placing a sign near the indication or indications,
22.34 no other traffic-control signal indication or indications within the intersection controls
22.35 vehicular traffic for that movement or lane.

23.1 Sec. 35. Minnesota Statutes 2010, section 169.06, subdivision 7, is amended to read:

23.2 Subd. 7. **Flashing signal.** When flashing red or yellow signals are used they shall
23.3 require obedience by vehicular traffic as follows:

23.4 (a) When a circular red lens is illuminated with rapid intermittent flashes, drivers of
23.5 vehicles shall stop at a clearly marked stop line, but if none, before entering the crosswalk
23.6 on the near side of the intersection, or if none, then at the point nearest the intersecting
23.7 roadway where the driver has a view of approaching traffic on the intersecting roadway
23.8 before entering the intersection, and the right to proceed shall be subject to the rules
23.9 applicable after making a stop at a stop sign.

23.10 (b) When a red arrow lens is illuminated with rapid intermittent flashes drivers of
23.11 vehicles with the intention of making a movement indicated by the arrow shall stop at a
23.12 clearly marked stop line, but if none, before entering the crosswalk on the near side of
23.13 the intersection, or if none, then at the point nearest the intersecting roadway where the
23.14 driver has a view of approaching traffic on the intersecting roadway before entering the
23.15 intersection, and the right to proceed shall be subject to the rules applicable after making a
23.16 stop at a stop sign.

23.17 (c) When a circular yellow lens is illuminated with rapid intermittent flashes, drivers
23.18 of vehicles may proceed through the intersection or past the signals only with caution. But
23.19 vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to
23.20 other vehicles and to pedestrians lawfully within the intersection or adjacent crosswalk at
23.21 the time this signal is exhibited. Vehicular traffic turning left or making a U-turn to the left
23.22 shall yield the right-of-way to other vehicles approaching from the opposite direction so
23.23 closely as to constitute an immediate hazard.

23.24 (d) When a yellow arrow indication is illuminated with rapid intermittent flashes,
23.25 drivers of vehicles with the intention of making a movement indicated by the arrow may
23.26 proceed through the intersection or past the signals only with caution; but shall yield
23.27 the right-of-way to other vehicles and to pedestrians lawfully within the intersection or
23.28 adjacent crosswalk at the time this signal is exhibited. Vehicular traffic turning left or
23.29 making a U-turn to the left shall yield the right-of-way to other vehicles approaching from
23.30 the opposite direction so closely as to constitute an immediate hazard.

39.22 (C) subdivision 4, paragraph (a), clause (1) or (2), if the test results indicate an
 39.23 alcohol concentration of less than twice the legal limit;

39.24 (D) subdivision 4, paragraph (a), clause (4), (5), or (6), if in compliance with section
 39.25 171.306;

40.4 (b) The following conditions for a limited license under paragraph (a) include:

40.5 (1) if the driver's livelihood or attendance at a chemical dependency treatment or
40.6 counseling program depends upon the use of the driver's license;

40.8 substantial disruption of the education, medical, or nutritional needs of the family of
40.9 the homemaker; or

40.14 safety and welfare including reexamination as to the driver's qualifications. The license

40.16 operation, and to particular conditions of traffic. The commissioner may require that an
40.17 applicant for a limited license affirmatively demonstrate that use of public transportation
40.18 or carpooling as an alternative to a limited license would be a significant hardship.

40.19 (d) For purposes of this subdivision:

40.20 (1) "homemaker" refers to the person primarily performing the domestic tasks in a
40.21 household of residents consisting of at least the person and the person's dependent child
40.22 or other dependents; and

40.23 (2) "twice the legal limit" means an alcohol concentration of two times the limit
40.24 specified in section 169A.20, subdivision 1, clause (5).

40.25 (e) The limited license issued by the commissioner shall clearly indicate the
40.26 limitations imposed and the driver operating under the limited license shall have the
40.27 license in possession at all times when operating as a driver.

40.28 (f) In determining whether to issue a limited license, the commissioner shall consider
40.29 the number and the seriousness of prior convictions and the entire driving record of the
40.30 driver and shall consider the number of miles driven by the driver annually.

40.31 (g) If the person's driver's license or permit to drive has been revoked under
40.32 section 169.792 or 169.797, the commissioner may only issue a limited license to the
40.33 person after the person has presented an insurance identification card, policy, or written
40.34 statement indicating that the driver or owner has insurance coverage satisfactory to
40.35 the commissioner of public safety. The commissioner of public safety may require

41.1 the insurance identification card provided to satisfy this subdivision be certified by the
 41.2 insurance company to be noncancelable for a period not to exceed 12 months.

 41.6 license under section 171.186, subdivision 4.

41.7 (i) The commissioner shall not issue a limited driver's license to any person
 41.8 described in section 171.04, subdivision 1, clause (6), (7), (8), (11), or (14).

41.9 (j) The commissioner shall not issue a class A, class B, or class C limited license.

41.10 **EFFECTIVE DATE.** This section is effective the day following final enactment.

41.11 Sec. 60. Minnesota Statutes 2010, section 171.306, subdivision 4, is amended to read:

41.12 Subd. 4. **Issuance of restricted license.** (a) The commissioner shall issue a class
 41.13 D driver's license, subject to the applicable limitations and restrictions of this section,
 41.14 to a program participant who meets the requirements of this section and the program
 41.15 guidelines. The commissioner shall not issue a license unless the program participant has
 41.16 provided satisfactory proof that:

41.17 (1) a certified ignition interlock device has been installed on the participant's motor
 41.18 vehicle at an installation service center designated by the device's manufacturer; and

41.19 (2) the participant has insurance coverage on the vehicle equipped with the ignition
 41.20 interlock device. The commissioner shall require the participant to present an insurance
 41.21 identification card, policy, or written statement as proof of insurance coverage, and may
 41.22 require the insurance identification card provided be certified by the insurance company to
 41.23 be noncancelable for a period not to exceed 12 months.

41.24 (b) A license issued under authority of this section must contain a restriction
 41.25 prohibiting the program participant from driving, operating, or being in physical control of
 41.26 any motor vehicle not equipped with a functioning ignition interlock device certified by
 41.27 the commissioner. A participant may drive an employer-owned vehicle not equipped with
 41.28 an interlock device while in the normal course and scope of employment duties pursuant
 41.29 to the program guidelines established by the commissioner and with the employer's
 41.30 written consent.

41.31 (c) A program participant whose driver's license has been revoked under section
 41.32 169A.52, subdivision 3, paragraph (a), clause (1), (2), or (3), or subdivision 4, paragraph
 41.33 (a), clause (1), (2), or (3), or section 169A.54, subdivision 1, clause (1), (2), ~~or (3)~~, or (4),
 41.34 may apply for conditional reinstatement of the driver's license, subject to the ignition
 41.35 interlock restriction.

42.1 (d) A program participant whose driver's license has been revoked, canceled, or
 42.2 denied under section 169A.52, subdivision 3, paragraph (a), clause (4), (5), or (6), or
 42.3 subdivision 4, paragraph (a), clause (4), (5), or (6), or section 169A.54, subdivision 1,
 42.4 clause ~~(4)~~, (5), ~~or (6)~~, or (7), may apply for a limited license, subject to the ignition
 42.5 interlock restriction, if the program participant is enrolled in a licensed chemical
 42.6 dependency treatment or rehabilitation program as recommended in a chemical use
 42.7 assessment, and if the participant meets the other applicable requirements of section
 42.8 171.30. After completing a licensed chemical dependency treatment or rehabilitation
 42.9 program and one year of limited license use without violating the ignition interlock
 42.10 restriction, the conditions of limited license use, or program guidelines, the participant
 42.11 may apply for conditional reinstatement of the driver's license, subject to the ignition
 42.12 interlock restriction. If the program participant's ignition interlock device subsequently
 42.13 registers a positive breath alcohol concentration of 0.02 or higher, the commissioner shall
 42.14 cancel the driver's license, and the program participant may apply for another limited
 42.15 license according to this paragraph.

42.16 (e) Notwithstanding any statute or rule to the contrary, the commissioner has
 42.17 authority to determine when a program participant is eligible for restoration of full driving
 42.18 privileges, except that the commissioner shall not reinstate full driving privileges until the
 42.19 program participant has met all applicable prerequisites for reinstatement under section
 42.20 169A.55 and until the program participant's device has registered no positive breath
 42.21 alcohol concentrations of 0.02 or higher during the preceding 90 days.

42.22 **EFFECTIVE DATE.** This section is effective the day following final enactment.

42.23 Sec. 61. Minnesota Statutes 2010, section 174.02, is amended by adding a subdivision

 43.8 facility authority or design-build contracting authority.

43.9 (e) Any repayment agreement under this subdivision must comply with all applicable
