for high school students who have demonstrated excellence in civics education and

(c) The department-developed criteria under paragraph (b), clause (5), must be broad enough to allow any student in any region or community of the state to earn the seal without having to spend personal resources to access the criteria or activity. No specific out-of-school or partisan civic program or provider shall be named or required as criteria. A school district or individual school must not be obligated to participate in the civic seal program.

**Subd. 2. Criteria development.** (a) The commissioner must work with the Minnesota Civic Education Coalition to convene a working group to establish specific criteria and guidelines for awarding the Minnesota Civic Seal. The working group membership must include civic educators, professional development providers, at least one high school student, and other civic engagement experts.

(b) The commissioner must review and approve the criteria and guidelines by July 31, 2026. The criteria and guidelines must be broad enough to allow a student from any region or background to earn the civic seal without requiring any personal financial expenditure or participation in a specific out-of-school program.

**Subd. 3. School district or charter school participation.** (a) Participation in the Minnesota Civic Seal program is voluntary for school districts and charter schools. A school district or charter school that opts into the program must:

(1) provide information to all secondary students regarding the opportunity to earn the civic seal and the criteria for being awarded the recognition;

(2) maintain appropriate records to identify students who have earned the civic seal; and

(3) affix the appropriate insignia to the diploma of each student who earns the civic seal and record the designation on their official transcript.
