6.21 patient would incur if the professional medical services were not provided by a
6.22 provider-based clinic;

6.23 (5) a telephone number the patient may call for additional information regarding the
6.24 patient's potential financial liability, including an estimate of the facility fee likely to be

6.27 for additional information regarding the hospital's or health system's charges and fees,
6.28 including the patient's potential financial liability, if any, for the charges and fees.

6.29 (b) If a hospital or health system charges a facility fee without utilizing a CPT evaluation

6.31 or health system must provide the patient with a written notice that includes the following
6.32 information:

7.1 (1) that the provider-based clinic is part of a hospital or health system and that the hospital
7.2 or health system charges a facility fee that may be in addition to and separate from the
7.3 professional fee charged by a provider;

7.4 (2) a statement that the patient's actual financial liability will depend on the professional
7.5 medical services actually provided to the patient;

7.6 (3) an explanation that the patient may incur financial liability that is greater than the
7.7 patient would incur if the provider-based clinic was not hospital-based;

7.8 (4) a telephone number the patient may call for additional information regarding the
7.9 patient's potential financial liability, including an estimate of the facility fee likely to be
7.10 charged based on the scheduled professional medical services; and

7.11 (5) that a patient covered by a health insurance policy should contact the health insurer
7.12 for additional information regarding the hospital's or health system's charges and fees,
7.13 including the patient's potential financial liability, if any, for the charges and fees.

7.14 (c) Each initial billing statement that includes a facility fee must:

7.15 (1) clearly identify the fee as a facility fee that is billed in addition to, or separately from,
7.16 any professional fee billed by the provider;

7.17 (2) provide the corresponding Medicare facility fee reimbursement rate for the same
7.18 service as a comparison or, if there is no corresponding Medicare facility fee for the service:

7.23 (3) include a statement that the facility fee is intended to cover the hospital's or health
7.24 system's operational expenses;

7.25 (4) inform the patient that the patient's financial liability may have been less if the services
7.26 had been provided at a facility not owned or operated by the hospital or health system; and

7.27 (5) include written notice of the patient's right to request a reduction in the facility fee
7.28 or any other portion of the bill and a telephone number that the patient may use to request

7.30 any reduction.

7.31 No later than October 15, 2025, and annually thereafter, each hospital, health system, and
7.32 provider-based clinic must submit to the commissioner of health a sample of a billing

statement issued by the hospital, health system, or provider-based clinic that complies with the provisions of this paragraph and which represents the format of billing statements received by patients. The billing statement must not contain patient identifying information.

(d) The written notices described in paragraphs (a) to (c) and (g) to (i) must be in plain language and in a form that may be reasonably understood by a patient who does not possess special knowledge regarding hospital or health system facility fee charges. On and after October 1, 2025, the notices must include tag lines in at least the top 15 languages spoken in Minnesota indicating that the notice is available in each of those top 15 languages. The 15 languages must be either the languages in the list published by the Department of Health and Human Services in connection with section 1557 of the Patient Protection and Affordable Care Act, P.L. 111-148, or, as determined by the hospital or health system, the top 15 languages in the geographic area of the provider-based clinic.

(e) For nonemergency care, if a patient's appointment is scheduled to occur ten or more days after the appointment is made, such written notice must be sent to the patient by first class mail, encrypted electronic mail, or a secure patient Internet portal not more than three days after the appointment is made. If an appointment is scheduled to occur less than ten days after the appointment is made or if the patient arrives without an appointment, such notice must be hand-delivered to the patient when the patient arrives at the provider-based clinic. For emergency care, such written notice must be provided to the patient as soon as practicable after the patient is stabilized in accordance with the federal Emergency Medical Treatment and Active Labor Act, United States Code, title 42, section 1395dd, as amended from time to time, or is determined not to have an emergency medical condition and before the patient leaves the provider-based clinic. If the patient is unconscious, under great duress, or for any other reason unable to read the notice and understand and act on the patient's rights, the notice must be provided to the patient's representative as soon as practicable.

(f) Paragraphs (a) to (e) do not apply if a patient is insured by Medicare or the medical assistance program under chapter 256B or is receiving services under a workers' compensation plan established to provide medical services.

(g) A provider-based clinic must prominently display written notice in locations that are readily accessible to and visible by patients, including patient waiting or appointment check-in areas, stating the following:

(1) that the provider-based clinic is part of a hospital or health system;

(2) the name of the hospital or health system; and

(3) that if the provider-based clinic charges a facility fee, the patient may incur a financial liability greater than the patient would incur if the provider-based clinic was not hospital-based.

On and after October 1, 2025, such notices must include tag lines in at least the top 15 languages spoken in Minnesota indicating that the notice is available in each of those top 15 languages. The 15 languages must be either the languages in the list published by the Department of Health and Human Services in connection with section 1557 of the Patient Protection and Affordable Care Act, P.L. 111-148, or, as determined by the hospital or health system, the top 15 languages in the geographic area of the provider-based clinic. No later than October 1, 2025, and annually thereafter, each provider-based clinic must submit a copy of the written notice required by this paragraph to the commissioner of health.

(h) A provider-based clinic must identify itself to the public and payers as being hospital-based, including, at a minimum, by stating the name of the hospital or health system in its signage, marketing materials, websites, and stationery.

(i) A provider-based clinic must, when scheduling services for which a facility fee may be charged, inform the patient:

(1) that the provider-based clinic is part of a hospital or health system;

(2) of the name of the hospital or health system;

(3) that the hospital or health system may charge a facility fee in addition to and separate from the professional fee charged by the provider; and

(4) of the telephone number the patient may call for additional information regarding such patient's potential financial liability.

(j) If any transaction described in section 145D.01, subdivision 2, results in the establishment of a provider-based clinic where facility fees may be billed, the hospital or health system that is the purchaser in the transaction must, no later than 30 days after the transaction, provide written notice by first class mail of the transaction to each patient served within the three years preceding the date of the transaction by the health care facility that has been purchased as part of the transaction. The notice must include the following information:

(1) a statement that the health care facility is now a provider-based clinic and is part of a hospital or health system, the health care facility's full legal and business name, and the date of the facility's acquisition by a hospital or health system;

(2) the name, business address, and telephone number of the hospital or health system that is the purchaser of the health care facility;

(3) a statement that the provider-based clinic bills, or is likely to bill, patients a facility fee that may be in addition to, and separate from, any professional fee billed by a health care provider at the provider-based clinic;

(4) a statement that the patient's actual financial liability will depend on the professional medical services actually provided to the patient and an explanation that the patient may incur financial liability that is greater than the patient would incur if the provider-based clinic were not a provider-based clinic;

(5) the estimated amount or range of amounts the provider-based clinic may bill for a facility fee or an example of the average facility fee billed at the provider-based clinic for the most common services provided at the provider-based clinic; and

(6) a statement that, before seeking services at the provider-based clinic, a patient covered by a health insurance policy should contact the patient's health insurer for additional information regarding the provider-based clinic fees, including the patient's potential financial liability, if any, for the fees.

A copy of the written notice provided to patients in accordance with this subdivision must be filed with the commissioner of health. The Department of Health must post a link to the notice on its website. A hospital, health system, or provider-based clinic must not collect a facility fee for services provided at a provider-based clinic that is subject to the provisions of this subdivision from the date of the transaction until at least 30 days after the written notice required pursuant to this subdivision is mailed to the patient or a copy of the notice is filed with the commissioner of health, whichever is later. By July 1, 2026, and annually thereafter, each provider-based clinic that was the subject of a transaction, as described in section 145D.01, subdivision 2, during the preceding calendar year must report to the commissioner of health the number of patients served by the provider-based clinic in the preceding three years.

Subd. 6. **Reporting.** (a) By January 15, 2027, and each year thereafter, hospitals licensed under chapter 144 and health systems operating one or more hospitals licensed under chapter 144 must submit a report to the commissioner of health identifying facility fees charged, billed, and collected during the preceding calendar year. The commissioner must publish the information reported on a publicly accessible website. The report shall be in the format prescribed by the commissioner of health.

11.1 (b) The report under this subdivision must include the following information for each
11.2 facility owned or operated by the hospital or health system providing services for which a

11.12 (3) the top ten procedures or services provided by the hospital or health system that
11.13 generated the greatest amount of facility fee gross revenue, the volume of each of these ten
11.14 procedures or services and the gross and net revenue totals for each procedure or service,
11.15 and the total net amount of revenue received by the hospital or health system derived from
11.16 facility fees;

11.17 (4) the top ten procedures or services, based on patient volume, provided by the hospital
11.18 or health system for which facility fees are charged, billed, or collected, based on patient
11.19 volume, including the gross and net revenue totals received for each such procedure or
11.20 service; and

11.21 (5) any other information related to facility fees that the commissioner of health may
11.22 require.

11.23 Subd. 7. **Interaction with medical assistance.** The medical assistance program in chapter
11.24 256B is not required to comply with any provision of this section if compliance with the
11.25 provision would:

11.26 (1) prevent the state from receiving federal financial participation for medical assistance
11.27 coverage; or

11.28 (2) result in a lower level of coverage or reduced access to coverage for medical assistance
11.29 enrollees.

11.30 Subd. 8. **Enforcement.** (a) A violation of this section is an unlawful business practice
11.31 for purposes of section 8.31. The attorney general may enforce this section pursuant to
11.32 section 8.31.

(b) In addition to penalties provided in paragraph (a), the commissioner of health may, pursuant to the procedures in sections 144.99 and 144.991, impose an administrative penalty on a health care provider for failure to comply with subdivision 6. The penalty must not exceed \$1,000 per occurrence.

(c) The commissioner of health or the commissioner's designee may audit any health care provider for compliance with the requirements of this section. A health care provider must make available, upon written request of the commissioner or the commissioner's designee, copies of any books, documents, records, or data that are necessary for the purposes of completing the audit for four years after the furnishing of any services for which a facility fee was charged, billed, or collected.

 14.29 disclosure statement indicating the legal description and county, and a map drawn from
 14.30 available information showing the location of each well to the extent practicable. In the
 14.31 disclosure statement, the seller must indicate, for each well, whether the well is in use, not
 14.32 in use, or sealed.

(b) At the time of closing of the sale, the disclosure statement information, name and mailing address of the buyer, and the quartile, section, township, and range in which each well is located must be provided on a well disclosure certificate signed by the seller or a person authorized to act on behalf of the seller.

(c) A well disclosure certificate need not be provided if the seller does not know of any wells on the property and the deed or other instrument of conveyance contains the statement: "The Seller certifies that the Seller does not know of any wells on the described real property."

(d) If a deed is given pursuant to a contract for deed, the well disclosure certificate required by this subdivision shall be signed by the buyer or a person authorized to act on behalf of the buyer. If the buyer knows of no wells on the property, a well disclosure certificate is not required if the following statement appears on the deed followed by the signature of the grantee or, if there is more than one grantee, the signature of at least one of the grantees: "The Grantee certifies that the Grantee does not know of any wells on the described real property." The statement and signature of the grantee may be on the front or back of the deed or on an attached sheet and an acknowledgment of the statement by the grantee is not required for the deed to be recordable.

(e) This subdivision does not apply to the sale, exchange, or transfer of real property:

(1) that consists solely of a sale or transfer of severed mineral interests; or

(2) that consists of an individual condominium unit as described in chapters 515 and 515B.

(f) For an area owned in common under chapter 515 or 515B the association or other responsible person must report to the commissioner by July 1, 1992, the location and status of all wells in the common area. (h) A county recorder or registrar of titles may not record a deed or other instrument of conveyance dated after October 31, 1990, for which a certificate of value is required under section 272.115, or any deed or other instrument of conveyance dated after October 31, 1990, from a governmental body exempt from the payment of state deed tax, unless the

16.1 deed or other instrument of conveyance contains the statement made in accordance with

16.3 information required by paragraph (b) or (d). The county recorder or registrar of titles must
16.4 not accept a certificate unless it contains all the required information. The county recorder
16.5 or registrar of titles shall note on each deed or other instrument of conveyance accompanied
16.6 by a well disclosure certificate that the well disclosure certificate was received. The notation

16.13 deed or other instrument of conveyance, a fee of ~~\$50~~ \$54 for receipt of a completed well

16.18 certificate received during the quarter. The commissioner shall maintain the well disclosure
16.19 certificate for at least six years. The commissioner may store the certificate as an electronic
16.20 image. A copy of that image shall be as valid as the original.

16.21 (i) No new well disclosure certificate is required under this subdivision if the buyer or
16.22 seller, or a person authorized to act on behalf of the buyer or seller, certifies on the deed or
16.23 other instrument of conveyance that the status and number of wells on the property have
16.24 not changed since the last previously filed well disclosure certificate. The following
16.25 statement, if followed by the signature of the person making the statement, is sufficient to
16.26 comply with the certification requirement of this paragraph: "I am familiar with the property
16.27 described in this instrument and I certify that the status and number of wells on the described
16.28 real property have not changed since the last previously filed well disclosure certificate."
16.29 The certification and signature may be on the front or back of the deed or on an attached
16.30 sheet and an acknowledgment of the statement is not required for the deed or other instrument
16.31 of conveyance to be recordable.

16.33 a well disclosure certificate and provide well disclosure certificate forms to county recorders
16.34 and registrars of titles and other interested persons.

16.35 (k) Failure to comply with a requirement of this subdivision does not impair:

17.1 (1) the validity of a deed or other instrument of conveyance as between the parties to
17.2 the deed or instrument or as to any other person who otherwise would be bound by the deed
17.3 or instrument; or

17.4 (2) the record, as notice, of any deed or other instrument of conveyance accepted for
17.5 filing or recording contrary to the provisions of this subdivision.

17.11 The commissioner may not renew a certification until the renewal fee is paid.

17.12 (c) A certified representative must file an application and a renewal application fee to
17.13 renew the certification by the date stated in the certification. The renewal application must
17.14 include information that the certified representative has met continuing education

17.22 (c) The renewal application must include information that the certified representative
17.23 of the applicant has met continuing education requirements established by the commissioner
17.24 by rule.

17.25 (d) At the time of the renewal, the commissioner must have on file all properly completed
17.26 well and boring construction reports, well and boring sealing reports, reports of elevator
17.27 borings, water sample analysis reports, well and boring permits, and well notifications for
17.28 work conducted by the licensee since the last license renewal.

18.1 Sec. 13. Minnesota Statutes 2024, section 103I.531, subdivision 2, is amended to read:

bed use per year.

(c) An eligible hospital is allowed a total of 3,000 days of swing bed use in calendar year 2020. Beginning in calendar year 2021, and for each subsequent calendar year until calendar year 2027, the total number of days of swing bed use per year is increased by 200 swing bed use days. Beginning in calendar year 2028, an eligible hospital is allowed a total of 4,500 days of swing bed use per year.

(d) Days of swing bed use for medical care that an eligible hospital has determined are charity care shall not count toward the applicable limit in paragraph (b) or (c). For purposes of this paragraph, "charity care" means care that an eligible hospital provided for free or at a discount to persons who cannot afford to pay and for which the eligible hospital did not expect payment.

(e) Days of swing bed use for care of a person who has been denied admission to every Medicare-certified skilled nursing facility within 25 miles of the eligible hospital shall not count toward the applicable limit in paragraphs (b) and (c). Eligible hospitals must maintain documentation that they have contacted each skilled nursing facility within 25 miles to determine if any skilled nursing facility beds are available and if the skilled nursing facilities are willing to admit the patient. Skilled nursing facilities that are contacted must admit the patient or deny admission within 24 hours of being contacted by the eligible hospital. Failure to respond within 24 hours is deemed a denial of admission.

~~(f) Except for critical access hospitals that have an attached nursing home or that owned a nursing home located in the same municipality as of May 1, 2005, the commissioner of health may approve swing bed use beyond 2,000 days as long as there are no Medicare certified skilled nursing facility beds available within 25 miles of that hospital that are willing to admit the patient and the patient agrees to the referral being sent to the skilled nursing facility. Critical access hospitals exceeding 2,000 swing bed days must maintain documentation that they have contacted skilled nursing facilities within 25 miles to determine if any skilled nursing facility beds are available that are willing to admit the patient and the patient agrees to the referral being sent to the skilled nursing facility. This paragraph expires January 1, 2020.~~

~~(g) After reaching 2,000 days of swing bed use in a year, an eligible hospital to which this limit applies may admit six additional patients to swing beds each year without seeking approval from the commissioner or being in violation of this subdivision. These six swing bed admissions are exempt from the limit of 2,000 annual swing bed days for hospitals subject to this limit. This paragraph expires January 1, 2020.~~

~~(h) A health care system that is in full compliance with this subdivision may allocate its total limit of swing bed days among the hospitals within the system, provided that no hospital in the system without an attached nursing home may exceed 2,000 swing bed days per year. This paragraph expires January 1, 2020.~~

(d) Except as provided in section 144.5621, the hospital must agree, in writing, to limit the length of stay of a patient receiving services in a swing bed to not more than 40 days, or the duration of Medicare eligibility, unless the commissioner of health approves a greater length of stay in an emergency situation. To determine whether an emergency situation exists, the commissioner shall require the hospital to provide documentation that continued services in the swing bed are required by the patient; that no skilled nursing facility beds are available within 25 miles from the patient's home, or in some more remote facility of the resident's choice, that can provide the appropriate level of services required by the patient; and that other alternative services are not available to meet the needs of the patient. If the commissioner approves a greater length of stay, the hospital shall develop a plan providing for the discharge of the patient upon the availability of a nursing home bed or other services that meet the needs of the patient. Permission to extend a patient's length of stay must be requested by the hospital at least ten days prior to the end of the maximum length of stay.

(e) Except as provided in section 144.5621, the hospital must agree, in writing, to limit admission to a swing bed only to (1) patients who have been hospitalized and not yet discharged from the facility, or (2) patients who are transferred directly from an acute care hospital.

(f) The hospital must agree, in writing, to report to the commissioner of health by December 1, 1985, and annually thereafter, in a manner required by the commissioner (1)

To be considered timely, the board must receive the certified midwife's application on or before the last day of the certified midwife's licensure period. A certified midwife's license lapses if the certified midwife's application is untimely.

(b) An applicant for license renewal must provide the board evidence of current certification or recertification as a certified midwife by the American Midwifery Certification Board or any successor organization.

(c) An applicant for license renewal must submit to the board the fee under section 148G.11, subdivision 2.

Subd. 2. Clinical practice component. If more than five years have elapsed since the applicant has practiced as a certified midwife, the applicant must complete a reorientation plan as a certified midwife. The plan must include supervision during the clinical component by a licensed practitioner with experience in providing care to patients with the same or similar health care needs. The licensee must submit the plan and the name of the practitioner to the board. The plan must include a minimum of 500 hours of supervised certified midwifery practice. The certified midwife must submit verification of completion of the clinical reorientation to the board when the reorientation is complete.

Subd. 3. Relicensure; lapsed applicants. A person whose license has lapsed who desires to resume practice as a certified midwife must apply for relicensure, submit to the board satisfactory evidence of compliance with the procedures and requirements established by the board, and pay the board the relicensure fee under section 148G.11, subdivision 4, for the current licensure period. A penalty fee under section 148G.11, subdivision 4, is required from a person who practiced certified midwifery without current licensure. The board must relicense a person who meets the requirements of this subdivision.

Sec. 91. **[148G.06] FAILURE OR REFUSAL TO PROVIDE INFORMATION.**

Subdivision 1. Notification requirement. An individual licensed as a certified midwife must notify the board when the individual renews their certification. If a licensee fails to provide notification, the licensee is prohibited from practicing as a certified midwife.

Subd. 2. Denial of license. Refusal of an applicant to supply information necessary to determine the applicant's qualifications, failure to demonstrate qualifications, or failure to satisfy the requirements for a license contained in this chapter or rules of the board may

147.1 result in denial of a license. The burden of proof is upon the applicant to demonstrate the
147.2 qualifications and satisfaction of the requirements.

147.3 Sec. 92. **[148G.07] NAME CHANGE AND CHANGE OF ADDRESS.**

147.4 A certified midwife must maintain a current name and address with the board and must
147.5 notify the board in writing within 30 days of any change in name or address. All notices or
147.6 other correspondence mailed to or served upon a certified midwife by the board at the
147.7 licensee's address on file with the board are considered received by the licensee.

147.8 Sec. 93. **[148G.08] IDENTIFICATION OF CERTIFIED MIDWIVES.**

147.9 Only those persons who hold a current license to practice certified midwifery in
147.10 Minnesota may use the title of certified midwife. A certified midwife licensed by the board
147.11 must use the designation of "CM" for professional identification and in documentation of
147.12 services provided.

147.13 Sec. 94. **[148G.09] PRESCRIBING DRUGS AND THERAPEUTIC DEVICES.**

147.14 Subdivision 1. Diagnosing, prescribing, and ordering. Certified midwives, within the
147.15 scope of certified midwifery practice, are authorized to:

147.16 (1) diagnose, prescribe, and institute therapy or referrals of patients to health care agencies
147.17 and providers;

147.18 (2) prescribe, procure, sign for, record, administer, and dispense over-the-counter, legend,
147.19 and controlled substances, including sample drugs; and

147.20 (3) plan and initiate a therapeutic regimen that includes ordering and prescribing durable
147.21 medical devices and equipment, nutrition, diagnostic services, and supportive services,
147.22 including but not limited to home health care, physical therapy, and occupational therapy.

147.23 Subd. 2. Drug Enforcement Administration requirements. (a) Certified midwives
147.24 must:

147.25 (1) comply with federal Drug Enforcement Administration (DEA) requirements related
147.26 to controlled substances; and

147.27 (2) file the certified midwife's DEA registrations and numbers, if any, with the board.

147.28 (b) The board must maintain current records of all certified midwives with a DEA
147.29 registration and number.

148.1 **Sec. 95. [148G.10] FEES.**

148.2 The fees specified in section 148G.11 are nonrefundable and must be deposited in the
148.3 state government special revenue fund.

148.4 **Sec. 96. [148G.11] FEE AMOUNTS.**

148.5 Subdivision 1. **Licensure.** The fee for licensure is \$105.

148.6 Subd. 2. **Renewal.** The fee for licensure renewal is \$85.

148.7 Subd. 3. **Practicing without current certification.** The penalty fee for a person who
148.8 practices certified midwifery without a current certification or recertification, or who practices
148.9 certified midwifery without current certification or recertification on file with the board, is
148.10 \$200 for the first month or part of a month and an additional \$100 for each subsequent
148.11 month or parts of months of practice. The penalty fee must be calculated from the first day
148.12 the certified midwife practiced without a current certification to the last day of practice
148.13 without a current certification, or from the first day the certified midwife practiced without
148.14 a current certification or recertification on file with the board until the day the current
148.15 certification or recertification is filed with the board.

148.16 Subd. 4. **Relicensure.** The fee for relicensure is \$105. The fee for practicing without
148.17 current licensure is two times the amount of the current renewal fee for any part of the first
148.18 calendar month, plus the current renewal fee for any part of each subsequent month up to
148.19 24 months.

148.20 Subd. 5. **Dishonored check fee.** The service fee for a dishonored check is as provided
148.21 in section 604.113.

148.22 **Sec. 97. [148G.12] APPROVED MIDWIFERY EDUCATION PROGRAM.**

148.23 Subdivision 1. **Initial approval.** A university or college desiring to conduct a certified
148.24 midwifery education program must submit evidence to the board that the university or
148.25 college is prepared to:

148.26 (1) provide a program of theory and practice in certified midwifery leading to eligibility
148.27 for certification in midwifery;

148.28 (2) achieve preaccreditation and eventual full accreditation by the American Commission
148.29 for Midwifery Education or any successor organization recognized by the United States
148.30 Department of Education or the Council for Higher Education Accreditation. Instruction
148.31 and required experience may be obtained in one or more institutions or agencies outside

149.1 the applying university or college if the program retains accountability for all clinical and
149.2 nonclinical teaching; and

149.3 (3) meet other standards established by law and by the board.

149.4 Subd. 2. **Continuing approval.** The board must, through the board's representative,
149.5 annually survey all midwifery education programs in Minnesota for current accreditation
149.6 status by the American Commission for Midwifery Education or any successor organization
149.7 recognized by the United States Department of Education or the Council for Higher Education
149.8 Accreditation. If the results of the survey show that a certified midwifery education program
149.9 meets all standards for continuing accreditation, the board must continue approval of the
149.10 certified midwifery education program.

149.11 Subd. 3. **Loss of approval.** If the board determines that an accredited certified midwifery
149.12 education program is not maintaining the standards required by the American Commission
149.13 on Midwifery Education or any successor organization, the board must obtain the defect in
149.14 writing from the accrediting body. If a program fails to correct the defect to the satisfaction
149.15 of the accrediting body and the accrediting body revokes the program's accreditation, the
149.16 board must remove the program from the list of approved certified midwifery education
149.17 programs.

149.18 Subd. 4. **Reinstatement of approval.** The board must reinstate approval of a certified
149.19 midwifery education program upon submission of satisfactory evidence that the certified
149.20 midwifery education program of theory and practice meets the standards required by the
149.21 accrediting body.

149.22 Sec. 98. **[148G.13] GROUNDS FOR DISCIPLINARY ACTION.**

149.23 Subdivision 1. **Grounds listed.** The board may deny, revoke, suspend, limit, or condition
149.24 the license of any person to practice certified midwifery under this chapter or otherwise
149.25 discipline a licensee or applicant as described in section 148G.14. The following are grounds
149.26 for disciplinary action:

149.27 (1) failure to demonstrate the qualifications or satisfy the requirements for a license
149.28 contained in this chapter or rules of the board. In the case of an applicant for licensure, the
149.29 burden of proof is upon the applicant to demonstrate the qualifications or satisfaction of the
149.30 requirements;

149.31 (2) employing fraud or deceit in procuring or attempting to procure a license to practice
149.32 certified midwifery;

(3) conviction of a felony or gross misdemeanor reasonably related to the practice of certified midwifery. Conviction, as used in this subdivision, includes a conviction of an offense that if committed in this state would be considered a felony or gross misdemeanor without regard to its designation elsewhere, or a criminal proceeding where a finding or verdict of guilt is made or returned, but the adjudication of guilt is either withheld or not entered;

(4) revocation, suspension, limitation, conditioning, or other disciplinary action against the person's certified midwife credential in another state, territory, or country; failure to report to the board that charges regarding the person's certified midwifery license, certification, or other credential are pending in another state, territory, or country; or failure to report to the board having been refused a license or other credential by another state, territory, or country;

(5) failure or inability to practice as a certified midwife with reasonable skill and safety, or departure from or failure to conform to standards of acceptable and prevailing certified midwifery practice, including failure of a certified midwife to adequately supervise or monitor the performance of acts by any person working at the certified midwife's direction;

(6) engaging in unprofessional conduct, including but not limited to a departure from or failure to conform to statutes relating to certified midwifery practice or to the minimal standards of acceptable and prevailing certified midwifery practice, or engaging in any certified midwifery practice that may create unnecessary danger to a patient's life, health, or safety. Actual injury to a patient need not be established under this clause;

(7) supervision or accepting the supervision of a midwifery function or a prescribed health care function when the acceptance could reasonably be expected to result in unsafe or ineffective patient care;

(8) actual or potential inability to practice certified midwifery with reasonable skill and safety to patients by reason of illness; by the reason of use of alcohol, drugs, chemicals, or any other material; or as a result of any mental or physical condition;

(9) adjudication as mentally incompetent, mentally ill, a chemically dependent person, or a person dangerous to the public by a court of competent jurisdiction, within or outside of Minnesota;

(10) engaging in any unethical conduct, including but not limited to conduct likely to deceive, defraud, or harm the public, or demonstrating a willful or careless disregard for the health, welfare, or safety of a patient. Actual injury need not be established under this clause;

151.1 (11) engaging in conduct with a patient that is sexual or may reasonably be interpreted
151.2 by the patient as sexual, in any verbal behavior that is seductive or sexually demeaning to
151.3 a patient, or in sexual exploitation of a patient or former patient;

151.4 (12) obtaining money, property, or services from a patient, other than reasonable fees
151.5 for services provided to the patient, through the use of undue influence, harassment, duress,
151.6 deception, or fraud;

151.7 (13) revealing a privileged communication from or relating to a patient except when
151.8 otherwise required or permitted by law;

151.9 (14) engaging in abusive or fraudulent billing practices, including violations of federal
151.10 Medicare and Medicaid laws or state medical assistance laws;

151.11 (15) improper management of patient records, including failure to maintain adequate
151.12 patient records, to comply with a patient's request made pursuant to sections 144.291 to
151.13 144.298, or to furnish a patient record or report required by law;

151.14 (16) knowingly aiding, assisting, advising, or allowing an unlicensed person to engage
151.15 in the unlawful practice of certified midwifery;

151.16 (17) violating a rule adopted by the board, an order of the board, a state or federal law
151.17 relating to the practice of certified midwifery, or a state or federal narcotics or controlled
151.18 substance law;

151.19 (18) knowingly providing false or misleading information to a patient that is directly
151.20 related to the care of that patient unless done for an accepted therapeutic purpose such as
151.21 the administration of a placebo;

151.22 (19) aiding suicide or aiding attempted suicide in violation of section 609.215 as
151.23 established by any of the following:

151.24 (i) a copy of the record of criminal conviction or plea of guilty for a felony in violation
151.25 of section 609.215, subdivision 1 or 2;

151.26 (ii) a copy of the record of a judgment of contempt of court for violating an injunction
151.27 issued under section 609.215, subdivision 4;

151.28 (iii) a copy of the record of a judgment assessing damages under section 609.215,
151.29 subdivision 5; or

151.30 (iv) a finding by the board that the person violated section 609.215, subdivision 1 or 2.
151.31 The board must investigate any complaint of a violation of section 609.215, subdivision 1
151.32 or 2;

152.1 (20) practicing outside the scope of certified midwifery practice as defined under section
152.2 148G.03, subdivision 5;

152.3 (21) making a false statement or knowingly providing false information to the board,
152.4 failing to make reports as required by section 148G.15, or failing to cooperate with an
152.5 investigation of the board as required by section 148G.17;

152.6 (22) engaging in false, fraudulent, deceptive, or misleading advertising;

152.7 (23) failure to inform the board of the person's certification or recertification status as
152.8 a certified midwife;

152.9 (24) engaging in certified midwifery practice without a license and current certification
152.10 or recertification by the American Midwifery Certification Board or any successor
152.11 organization; or

152.12 (25) failure to maintain appropriate professional boundaries with a patient. A certified
152.13 midwife must not engage in practices that create an unacceptable risk of patient harm or of
152.14 the impairment of a certified midwife's objectivity or professional judgment. A certified
152.15 midwife must not act or fail to act in a way that, as judged by a reasonable and prudent
152.16 certified midwife, inappropriately encourages the patient to relate to the certified midwife
152.17 outside of the boundaries of the professional relationship or in a way that interferes with
152.18 the patient's ability to benefit from certified midwife services. A certified midwife must not
152.19 use the professional relationship with a patient, student, supervisee, or intern to further the
152.20 certified midwife's personal, emotional, financial, sexual, religious, political, or business
152.21 benefit or interests.

152.22 Subd. 2. **Conviction of a felony-level criminal sexual offense.** (a) Except as provided
152.23 in paragraph (e), the board must not grant or renew a license to practice certified midwifery
152.24 to any person who has been convicted on or after August 1, 2014, of any of the provisions
152.25 of section 609.342, subdivision 1 or 1a; 609.343, subdivision 1 or 1a; 609.344, subdivision
152.26 1 or 1a, paragraphs (c) to (g); or 609.345, subdivision 1 or 1a, paragraphs (c) to (g); or a
152.27 similar statute in another jurisdiction.

152.28 (b) A license to practice certified midwifery is automatically revoked if the licensee is
152.29 convicted of an offense listed in paragraph (a).

152.30 (c) A license to practice certified midwifery that has been denied or revoked under this
152.31 subdivision is not subject to chapter 364.

152.32 (d) For purposes of this subdivision, "conviction" means a plea of guilty, a verdict of
152.33 guilty by a jury, or a finding of guilty by the court, unless the court stays imposition or

153.1 execution of the sentence and final disposition of the case is accomplished at a nonfelony
153.2 level.

153.3 (e) The board may establish criteria whereby an individual convicted of an offense listed
153.4 in paragraph (a) may become licensed if the criteria:

153.5 (1) utilize a rebuttable presumption that the applicant is not suitable for licensing;

153.6 (2) provide a standard for overcoming the presumption; and

153.7 (3) require that a minimum of ten years has elapsed since the applicant's sentence was
153.8 discharged.

153.9 (f) The board must not consider an application under paragraph (e) if the board determines
153.10 that the victim involved in the offense was a patient or a client of the applicant at the time
153.11 of the offense.

153.12 Subd. 3. **Evidence.** In disciplinary actions alleging a violation of subdivision 1, clause
153.13 (3) or (4), or 2, a copy of the judgment or proceeding under the seal of the court administrator
153.14 or of the administrative agency that entered the same is admissible into evidence without
153.15 further authentication and constitutes prima facie evidence of the violation concerned.

153.16 Subd. 4. **Examination; access to medical data.** (a) If the board has probable cause to
153.17 believe that grounds for disciplinary action exist under subdivision 1, clause (8) or (9), it
153.18 may direct the applicant or certified midwife to submit to a mental or physical examination
153.19 or chemical dependency evaluation. For the purpose of this subdivision, when a certified
153.20 midwife licensed under this chapter is directed in writing by the board to submit to a mental
153.21 or physical examination or chemical dependency evaluation, that person is considered to
153.22 have consented and to have waived all objections to admissibility on the grounds of privilege.
153.23 Failure of the applicant or certified midwife to submit to an examination when directed
153.24 constitutes an admission of the allegations against the applicant or certified midwife, unless
153.25 the failure was due to circumstances beyond the person's control, and the board may enter
153.26 a default and final order without taking testimony or allowing evidence to be presented. A
153.27 certified midwife affected under this paragraph must, at reasonable intervals, be given an
153.28 opportunity to demonstrate that the competent practice of certified midwifery can be resumed
153.29 with reasonable skill and safety to patients. Neither the record of proceedings nor the orders
153.30 entered by the board in a proceeding under this paragraph may be used against a certified
153.31 midwife in any other proceeding.

153.32 (b) Notwithstanding sections 13.384, 144.651, and 595.02, or any other law limiting
153.33 access to medical or other health data, the board may obtain medical data and health records

154.1 relating to a certified midwife or applicant for a license without that person's consent if the
154.2 board has probable cause to believe that grounds for disciplinary action exist under
154.3 subdivision 1, clause (8) or (9). The medical data may be requested from a provider, as
154.4 defined in section 144.291, subdivision 2; an insurance company; or a government agency,
154.5 including the Department of Human Services or Direct Care and Treatment. A provider,
154.6 insurance company, or government agency must comply with any written request of the
154.7 board under this subdivision and is not liable in any action for damages for releasing the
154.8 data requested by the board if the data are released pursuant to a written request under this
154.9 subdivision, unless the information is false and the provider giving the information knew
154.10 or had reason to believe the information was false. Information obtained under this
154.11 subdivision is classified as private data on individuals as defined in section 13.02.

154.12 Sec. 99. **[148G.14] FORMS OF DISCIPLINARY ACTION; AUTOMATIC**
154.13 **SUSPENSION; TEMPORARY SUSPENSION; REISSUANCE.**

154.14 Subdivision 1. **Forms of disciplinary action.** If the board finds that grounds for
154.15 disciplinary action exist under section 148G.13, it may take one or more of the following
154.16 actions:

154.17 (1) deny the license application or application for license renewal;

154.18 (2) revoke the license;

154.19 (3) suspend the license;

154.20 (4) impose limitations on the certified midwife's practice of certified midwifery, including
154.21 but not limited to limitation of scope of practice or the requirement of practice under
154.22 supervision;

154.23 (5) impose conditions on the retention of the license, including but not limited to the
154.24 imposition of retraining or rehabilitation requirements or the conditioning of continued
154.25 practice on demonstration of knowledge or skills by appropriate examination, monitoring,
154.26 or other review;

154.27 (6) impose a civil penalty not exceeding \$10,000 for each separate violation. The amount
154.28 of the civil penalty must be fixed so as to deprive the certified midwife of any economic
154.29 advantage gained by reason of the violation charged; to reimburse the board for the cost of
154.30 counsel, investigation, and proceeding; and to discourage repeated violations;

154.31 (7) order the certified midwife to provide unremunerated service;

154.32 (8) censure or reprimand the certified midwife; or

(9) any other action justified by the facts in the case.

Subd. 2. **Automatic suspension of license.** (a) Unless the board orders otherwise, a license to practice certified midwifery is automatically suspended if:

(1) a guardian of a certified midwife is appointed by order of a court under sections 524.5-101 to 524.5-502;

(2) the certified midwife is committed by order of a court under chapter 253B; or

(3) the certified midwife is determined to be mentally incompetent, mentally ill, chemically dependent, or a person dangerous to the public by a court of competent jurisdiction within or outside of Minnesota.

(b) The license remains suspended until the certified midwife is restored to capacity by a court and, upon petition by the certified midwife, the suspension is terminated by the board after a hearing or upon agreement between the board and the certified midwife.

Subd. 3. **Temporary suspension of license.** In addition to any other remedy provided by law, the board may, through its designated board member under section 214.10, subdivision 2, temporarily suspend the license of a certified midwife without a hearing if the board finds that there is probable cause to believe the certified midwife has violated a statute or rule the board is empowered to enforce and continued practice by the certified midwife would create a serious risk of harm to others. The suspension takes effect upon written notice to the certified midwife, served by first-class mail, specifying the statute or rule violated. The suspension must remain in effect until the board issues a temporary stay of suspension or a final order in the matter after a hearing or upon agreement between the board and the certified midwife. At the time it issues the suspension notice, the board must schedule a disciplinary hearing to be held under the Administrative Procedure Act. The board must provide the certified midwife at least 20 days' notice of any hearing held under this subdivision. The board must schedule the hearing to begin no later than 30 days after the issuance of the suspension order.

Subd. 4. **Reissuance.** The board may reinstate and reissue a license to practice certified midwifery, but as a condition may impose any disciplinary or corrective measure that it might originally have imposed. Any person whose license has been revoked, suspended, or limited may have the license reinstated and a new license issued when, at the discretion of the board, the action is warranted, provided that the board must require the person to pay the costs of the proceedings resulting in the revocation, suspension, or limitation of the license; the relicensure fee; and the fee for the current licensure period. The cost of proceedings includes but is not limited to the cost paid by the board to the Office of

156.1 Administrative Hearings and the Office of the Attorney General for legal and investigative
156.2 services; the costs of a court reporter and witnesses, reproduction of records, board staff
156.3 time, travel, and expenses; and the costs of board members' per diem reimbursements, travel
156.4 costs, and expenses.

156.5 Sec. 100. **[148G.15] REPORTING OBLIGATIONS.**

156.6 Subdivision 1. **Permission to report.** A person who has knowledge of any conduct
156.7 constituting grounds for discipline under section 148G.13 may report the alleged violation
156.8 to the board.

156.9 Subd. 2. **Institutions.** The chief nursing executive or chief administrative officer of any
156.10 hospital, clinic, prepaid medical plan, or other health care institution or organization located
156.11 in Minnesota must report to the board any action taken by the institution or organization or
156.12 any of its administrators or committees to revoke, suspend, limit, or condition a certified
156.13 midwife's privilege to practice in the institution or as part of the organization, any denial of
156.14 privileges, any dismissal from employment, or any other disciplinary action. The institution
156.15 or organization must also report the resignation of any certified midwife before the conclusion
156.16 of any disciplinary proceeding or before commencement of formal charges, but after the
156.17 certified midwife had knowledge that formal charges were contemplated or in preparation.
156.18 The reporting described by this subdivision is required only if the action pertains to grounds
156.19 for disciplinary action under section 148G.13.

156.20 Subd. 3. **Licensed professionals.** A person licensed by a health-related licensing board
156.21 as defined in section 214.01, subdivision 2, must report to the board personal knowledge
156.22 of any conduct the person reasonably believes constitutes grounds for disciplinary action
156.23 under section 148G.13 by any certified midwife, including conduct indicating that the
156.24 certified midwife may be incompetent, may have engaged in unprofessional or unethical
156.25 conduct, or may be mentally or physically unable to engage safely in the practice of certified
156.26 midwifery.

156.27 Subd. 4. **Insurers.** (a) By the first day of February, May, August, and November each
156.28 year, each insurer authorized to sell insurance described in section 60A.06, subdivision 1,
156.29 clause (13), and providing professional liability insurance to certified midwives must submit
156.30 to the board a report concerning any certified midwife against whom a malpractice award
156.31 has been made or who has been a party to a settlement. The report must contain at least the
156.32 following information:

156.33 (1) the total number of settlements or awards;

157.1 (2) the date a settlement or award was made;

157.2 (3) the allegations contained in the claim or complaint leading to the settlement or award;

157.3 (4) the dollar amount of each malpractice settlement or award and whether that amount
157.4 was paid as a result of a settlement or of an award; and

157.5 (5) the name and address of the practice of the certified midwife against whom an award
157.6 was made or with whom a settlement was made.

157.7 (b) An insurer must also report to the board any information it possesses that tends to
157.8 substantiate a charge that a certified midwife may have engaged in conduct in violation of
157.9 this chapter.

157.10 Subd. 5. **Courts.** The court administrator of district court or another court of competent
157.11 jurisdiction must report to the board any judgment or other determination of the court that
157.12 adjudges or includes a finding that a certified midwife is a person who is mentally ill,
157.13 mentally incompetent, chemically dependent, dangerous to the public, guilty of a felony or
157.14 gross misdemeanor, guilty of a violation of federal or state narcotics laws or controlled
157.15 substances act, guilty of operating a motor vehicle while under the influence of alcohol or
157.16 a controlled substance, or guilty of an abuse or fraud under Medicare or Medicaid; or if the

191.11 the formulary if the commissioner:

191.12 (1) adds to the formulary a generic or multisource brand name drug rated as
191.13 therapeutically equivalent according to the FDA Orange Book, or a biologic drug rated as
191.14 interchangeable according to the FDA Purple Book, at the same or lower cost to the enrollee;
191.15 and

191.16 (2) provides at least a 60-day notice to prescribers, pharmacists, and affected enrollees.

191.17 **EFFECTIVE DATE.** This section is effective January 1, 2026, or upon federal approval,
191.18 whichever is later. The commissioner of human services shall notify the revisor of statutes
191.19 when federal approval is obtained.

191.20 Sec. 3. Minnesota Statutes 2024, section 256B.0625, subdivision 13c, is amended to read:

191.21 Subd. 13c. **Formulary Committee.** The commissioner, after receiving recommendations
191.22 from professional medical associations and professional pharmacy associations, and consumer
191.23 groups shall designate a Formulary Committee to carry out duties as described in subdivisions
191.24 13 to 13g. The Formulary Committee shall be comprised of at least five licensed physicians
191.25 actively engaged in the practice of medicine in Minnesota, one of whom is an actively
191.26 practicing psychiatrist, one of whom specializes in the diagnosis and treatment of rare
191.27 diseases, one of whom specializes in pediatrics, and one of whom actively treats persons
191.28 with disabilities; at least three licensed pharmacists actively engaged in the practice of
191.29 pharmacy in Minnesota, one of whom practices outside the metropolitan counties listed in
191.30 section 473.121, subdivision 4, one of whom practices in the metropolitan counties listed
191.31 in section 473.121, subdivision 4, and one of whom is a practicing hospital pharmacist; at
191.32 least two consumer representatives, all of whom must have a personal or professional

connection to medical assistance; and one representative designated by the Minnesota Rare Disease Advisory Council established under section 256.4835; the remainder to be made up of health care professionals who are licensed in their field and have recognized knowledge in the clinically appropriate prescribing, dispensing, and monitoring of covered outpatient drugs. Members of the Formulary Committee shall not be employed by the Department of Human Services or have a personal interest in a pharmaceutical company, pharmacy benefits manager, health plan company, or their affiliate organizations, but the committee shall be staffed by an employee of the department who shall serve as an ex officio, nonvoting member of the committee. For the purposes of this subdivision, "personal interest" means that a person owns at least five percent of the voting interest or equity interest in the entity, the equity interest owned by a person represents at least five percent of that person's net worth, or more than five percent of a person's gross income for the preceding year was derived from the entity. A committee member must notify the committee of any potential conflict of interest and recuse themselves from any communications, discussion, or vote on any matter where a conflict of interest exists. A conflict of interest alone, without a personal interest, does not preclude an applicant from serving as a member of the Formulary Committee. Members may be removed from the committee for cause after a recommendation for removal by a majority of the committee membership. For the purposes of this subdivision, "cause" does not include offering a differing or dissenting clinical opinion on a drug or drug class. The department's medical director shall also serve as an ex officio, nonvoting member for the committee. Committee members shall serve three-year terms and may be reappointed twice by the commissioner. The committee members shall vote on a chair and vice chair from among their membership. The chair shall preside over all committee meetings, and the vice chair shall preside over the meetings if the chair is not present. The Formulary Committee shall meet at least three times per year. The commissioner may require more frequent Formulary Committee meetings as needed. An honorarium of \$100 per meeting and reimbursement for mileage shall be paid to each committee member in attendance. The Formulary Committee expires June 30, ~~2027~~ 2029. The Formulary Committee is subject to the Open Meeting Law under chapter 13D. For purposes of establishing a quorum to transact business, vacant committee member positions do not count in the calculation as long as at least 60 percent of the committee member positions are filled.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2024, section 256B.0625, subdivision 13d, is amended to read:

Subd. 13d. **Drug formulary.** (a) The commissioner shall establish a drug formulary. Its establishment and publication shall not be subject to the requirements of the Administrative

193.1 Procedure Act, but the Formulary Committee shall review and comment on the formulary
193.2 contents.

193.3 (b) The formulary shall not include:

193.4 (1) drugs, active pharmaceutical ingredients, or products for which there is no federal
193.5 funding;

193.6 (2) over-the-counter drugs, except as provided in subdivision 13;

193.7 (3) drugs or active pharmaceutical ingredients when used for the treatment of impotence
193.8 or erectile dysfunction;

193.9 (4) drugs or active pharmaceutical ingredients for which medical value has not been
193.10 established;

193.11 (5) drugs from manufacturers who have not signed a rebate agreement with the
193.12 Department of Health and Human Services pursuant to section 1927 of title XIX of the
193.13 Social Security Act; and

193.14 (6) medical cannabis flower as defined in section 342.01, subdivision 54, or medical
193.15 cannabinoid products as defined in section 342.01, subdivision 52.

193.16 (c) If a single-source drug used by at least two percent of the fee-for-service medical
193.17 assistance recipients is removed from the formulary due to the failure of the manufacturer
193.18 to sign a rebate agreement with the Department of Health and Human Services, the
193.19 commissioner shall notify prescribing practitioners within 30 days of receiving notification
193.20 from the Centers for Medicare and Medicaid Services (CMS) that a rebate agreement was
193.21 not signed.

193.22 (d) Within ten calendar days of any commissioner determination to change the drug
193.23 formulary, the commissioner must provide written notice to all enrollees affected by the
193.24 change. The notice must include a description of the change, the reason for the change, and
193.25 the date the change will become effective.

193.26 (e) By January 15, 2026, and annually thereafter, the commissioner of human services
193.27 must provide a report with data and information related to the effects on enrollees of drug
193.28 formulary changes made in the prior calendar year to the chairs and ranking minority
193.29 members of the legislative committees with jurisdiction over health and human services
193.30 policy and finance. The report must include but is not limited to data and information on:

193.31 (1) the number of times the formulary was changed;

- 194.1 (2) the reasons for the formulary changes and how frequently the formulary was changed
194.2 for each reason;
- 194.3 (3) the drugs that were removed from the formulary;
- 194.4 (4) for each drug that was removed from the formulary, the number of enrollees who
194.5 were prescribed that drug when it was removed;
- 194.6 (5) for each drug that was removed from the formulary, whether a therapeutically
194.7 equivalent drug was added;
- 194.8 (6) the drugs that were added to the formulary;
- 194.9 (7) the fiscal impacts to the Department of Human Services resulting from the changes
194.10 to the formulary; and
- 194.11 (8) enrollee populations or medical conditions disproportionately affected by the
194.12 formulary changes.

194.13 Sec. 5. Minnesota Statutes 2024, section 256B.0625, subdivision 13e, is amended to read:

194.14 Subd. 13e. **Payment rates.** (a) The basis for determining the amount of payment shall
194.15 be the lower of the ingredient costs of the drugs plus the professional dispensing fee; or the
194.16 usual and customary price charged to the public. The usual and customary price means the
194.17 lowest price charged by the provider to a patient who pays for the prescription by cash,
194.18 check, or charge account and includes prices the pharmacy charges to a patient enrolled in
194.19 a prescription savings club or prescription discount club administered by the pharmacy or
194.20 pharmacy chain, unless the prescription savings club or prescription discount club is one
194.21 in which an individual pays a recurring monthly access fee for unlimited access to a defined
194.22 list of drugs for which the pharmacy does not bill the member or a payer on a
194.23 per-standard-transaction basis. The amount of payment basis must be reduced to reflect all
194.24 discount amounts applied to the charge by any third-party provider/insurer agreement or
194.25 contract for submitted charges to medical assistance programs. The net submitted charge
194.26 may not be greater than the patient liability for the service. The professional dispensing fee
194.27 shall be \$11.55 for prescriptions filled with legend drugs meeting the definition of "covered
194.28 outpatient drugs" according to United States Code, title 42, section 1396r-8(k)(2). The
194.29 dispensing fee for intravenous solutions that must be compounded by the pharmacist shall
194.30 be \$11.55 per claim. The professional dispensing fee for prescriptions filled with
194.31 over-the-counter drugs meeting the definition of covered outpatient drugs shall be \$11.55
194.32 for dispensed quantities equal to or greater than the number of units contained in the
194.33 manufacturer's original package. The professional dispensing fee shall be prorated based

195.1 on the percentage of the package dispensed when the pharmacy dispenses a quantity less
195.2 than the number of units contained in the manufacturer's original package. The pharmacy
195.3 dispensing fee for prescribed over-the-counter drugs not meeting the definition of covered
195.4 outpatient drugs shall be \$3.65 for quantities equal to or greater than the number of units
195.5 contained in the manufacturer's original package and shall be prorated based on the
195.6 percentage of the package dispensed when the pharmacy dispenses a quantity less than the
195.7 number of units contained in the manufacturer's original package. The ingredient cost for
195.8 a drug is the lower of the National Average Drug Acquisition Cost (NADAC) shall be used
195.9 to determine the ingredient cost of a drug, the Minnesota actual acquisition cost (MNAAC)
195.10 as defined in paragraph (i), or the maximum allowable cost. For drugs for which a NADAC,
195.11 a MNAAC, or a maximum allowable cost is not reported, the commissioner shall estimate
195.12 the ingredient cost at the wholesale acquisition cost minus two percent. The ingredient cost
195.13 of a drug for a provider participating in the federal 340B Drug Pricing Program shall be
195.14 ~~either~~ the 340B Drug Pricing Program ceiling price established by the Health Resources
195.15 and Services Administration ~~or~~, the NADAC, the MNAAC, or the maximum allowable
195.16 cost, whichever is lower. Wholesale acquisition cost is defined as the manufacturer's list
195.17 price for a drug or biological to wholesalers or direct purchasers in the United States, not
195.18 including prompt pay or other discounts, rebates, or reductions in price, for the most recent
195.19 month for which information is available, as reported in wholesale price guides or other
195.20 publications of drug or biological pricing data. The maximum allowable cost of a ~~multisource~~
195.21 drug may be set by the commissioner and it shall be comparable to the actual acquisition
195.22 cost of the drug product and no higher than the NADAC of the generic product. Establishment
195.23 of the amount of payment for drugs shall not be subject to the requirements of the
195.24 Administrative Procedure Act.

195.25 (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using
195.26 an automated drug distribution system meeting the requirements of section 151.58, or a
195.27 packaging system meeting the packaging standards set forth in Minnesota Rules, part
195.28 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ
195.29 retrospective billing for prescription drugs dispensed to long-term care facility residents. A
195.30 retrospectively billing pharmacy must submit a claim only for the quantity of medication
195.31 used by the enrolled recipient during the defined billing period. A retrospectively billing
195.32 pharmacy must use a billing period not less than one calendar month or 30 days.

195.33 (c) A pharmacy provider using packaging that meets the standards set forth in Minnesota
195.34 Rules, part 6800.2700, is required to credit the department for the actual acquisition cost
195.35 of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective

196.1 billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that
196.2 is less than a 30-day supply.

196.3 (d) If a pharmacy dispenses a multisource drug, the ingredient cost shall be the lesser
196.4 of the NADAC of the generic product, the MNAAC of the generic product, or the maximum
196.5 allowable cost of the generic product established by the commissioner unless prior
196.6 authorization for the brand name product has been granted according to the criteria
196.7 established by the Drug Formulary Committee as required by subdivision 13f, paragraph
196.8 (a), and the prescriber has indicated "dispense as written" on the prescription in a manner
196.9 consistent with section 151.21, subdivision 2. If prior authorization is granted, the ingredient
196.10 cost shall be the lesser of the NADAC of the brand name product, the MNAAC of the brand
196.11 name product, or the maximum allowable cost of the brand name product. A generic product
196.12 includes a generic drug, an authorized generic drug, and a biosimilar biological product as
196.13 defined in Code of Federal Regulations, title 42, section 423.4. A brand name product
196.14 includes a brand name drug, a brand name biological product, and an unbranded biological
196.15 product as defined in Code of Federal Regulations, title 42, section 423.4.

196.16 (e) The basis for determining the amount of payment for drugs administered in an
196.17 outpatient setting shall be the lower of the usual and customary cost submitted by the
196.18 provider, 106 percent of the average sales price as determined by the United States
196.19 Department of Health and Human Services pursuant to title XVIII, section 1847a of the
196.20 federal Social Security Act, the ~~specialty pharmacy rate~~ MNAAC, or the maximum allowable
196.21 cost set by the commissioner. If the average sales price is, the MNAAC, and the maximum
196.22 allowable cost are unavailable, the amount of payment must be lower of the usual and
196.23 customary cost submitted by the provider, or the wholesale acquisition cost, the specialty
196.24 pharmacy rate, or the maximum allowable cost set by the commissioner. The commissioner
196.25 shall discount the payment rate for drugs obtained through the federal 340B Drug Pricing
196.26 Program by 28.6 percent. The payment for drugs administered in an outpatient setting shall
196.27 be made to the administering facility or practitioner. A retail or specialty pharmacy dispensing
196.28 a drug for administration in an outpatient setting is not eligible for direct reimbursement.

196.29 ~~(f) The commissioner may establish maximum allowable cost rates for specialty pharmacy~~
196.30 ~~products that are lower than the ingredient cost formulas specified in paragraph (a). The~~
196.31 ~~commissioner may require individuals enrolled in the health care programs administered~~
196.32 ~~by the department to obtain specialty pharmacy products from providers with whom the~~
196.33 ~~commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are~~
196.34 ~~defined as those used by a small number of recipients or recipients with complex and chronic~~
196.35 ~~diseases that require expensive and challenging drug regimens. Examples of these conditions~~

197.1 ~~include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C,~~
197.2 ~~growth hormone deficiency, Crohn's Disease, rheumatoid arthritis, and certain forms of~~
197.3 ~~cancer. Specialty pharmaceutical products include injectable and infusion therapies,~~
197.4 ~~biotechnology drugs, antihemophilic factor products, high-cost therapies, and therapies that~~
197.5 ~~require complex care. The commissioner shall consult with the Formulary Committee to~~
197.6 ~~develop a list of specialty pharmacy products subject to maximum allowable cost~~
197.7 ~~reimbursement. In consulting with the Formulary Committee in developing this list, the~~
197.8 ~~commissioner shall take into consideration the population served by specialty pharmacy~~
197.9 ~~products, the current delivery system and standard of care in the state, and access to care~~
197.10 ~~issues. The commissioner shall have the discretion to adjust the maximum allowable cost~~
197.11 ~~to prevent access to care issues.~~

197.12 ~~(g)~~ (f) Home infusion therapy services provided by home infusion therapy pharmacies
197.13 must be paid at rates according to subdivision 8d.

197.14 ~~(h)~~ (g) The commissioner shall contract with a vendor to conduct a cost of dispensing
197.15 survey for all pharmacies that are physically located in the state of Minnesota that dispense
197.16 outpatient drugs under medical assistance. The commissioner shall ensure that the vendor
197.17 has prior experience in conducting cost of dispensing surveys. Each pharmacy enrolled with
197.18 the department to dispense outpatient prescription drugs to fee-for-service members must
197.19 respond to the cost of dispensing survey. The commissioner may sanction a pharmacy under
197.20 section 256B.064 for failure to respond. The commissioner shall require the vendor to
197.21 measure a single statewide cost of dispensing for specialty prescription drugs and a single
197.22 statewide cost of dispensing for nonspecialty prescription drugs for all responding pharmacies
197.23 to measure the mean, mean weighted by total prescription volume, mean weighted by
197.24 medical assistance prescription volume, median, median weighted by total prescription
197.25 volume, and median weighted by total medical assistance prescription volume. The
197.26 commissioner shall post a copy of the final cost of dispensing survey report on the
197.27 department's website. The initial survey must be completed no later than January 1, 2021,
197.28 and repeated every ~~three~~ two years. The commissioner shall provide a summary of the
197.29 results of each cost of dispensing survey and provide recommendations for any changes to
197.30 the dispensing fee to the chairs and ranking minority members of the legislative committees
197.31 with jurisdiction over medical assistance pharmacy reimbursement. Notwithstanding section
197.32 256.01, subdivision 42, this paragraph does not expire.

197.33 ~~(i)~~ (h) The commissioner shall increase the ingredient cost reimbursement calculated in
197.34 paragraphs (a) and ~~(f)~~ (e) by ~~1.8 percent~~ the amount of the wholesale drug distributor tax

198.1 for prescription and nonprescription drugs subject to the wholesale drug distributor tax
198.2 under section 295.52.

198.3 (i) The commissioner shall contract with a vendor to create MNAAC through a periodic
198.4 survey of enrolled pharmacy providers. Each pharmacy enrolled with the department to
198.5 dispense outpatient prescription drugs must respond to the periodic surveys. The
198.6 commissioner may sanction a pharmacy under section 256B.064 for failure to respond. The
198.7 current MNAAC rates must be publicly available on the department's or vendor's website.
198.8 The commissioner must require that the MNAAC is measured and calculated at least
198.9 quarterly, but the MNAAC can be measured and calculated more frequently. The
198.10 commissioner must ensure that the vendor has an appeal process available to providers for
198.11 the time between the measurement and calculation of the periodically updated MNAAC
198.12 rates if price fluctuations result in a MNAAC that is lower than the price at which enrolled
198.13 providers can purchase a drug. Establishment of the MNAAC and survey reporting
198.14 requirements shall not be subject to the requirements of the Administrative Procedure Act.
198.15 Data provided by pharmacies for the measurement and calculation of the MNAAC are
198.16 nonpublic data as defined in section 13.02, subdivision 9.

198.17 **EFFECTIVE DATE.** This section is effective January 1, 2027, or upon federal approval,
198.18 whichever is later. The commissioner of human services must notify the revisor of statutes
198.19 when federal approval is obtained.

198.20 Sec. 6. Minnesota Statutes 2024, section 256B.064, subdivision 1a, is amended to read:

198.21 Subd. 1a. **Grounds for sanctions.** (a) The commissioner may impose sanctions against
198.22 any individual or entity that receives payments from medical assistance or provides goods
198.23 or services for which payment is made from medical assistance for any of the following:
198.24 (1) fraud, theft, or abuse in connection with the provision of goods and services to recipients
198.25 of public assistance for which payment is made from medical assistance; (2) a pattern of
198.26 presentment of false or duplicate claims or claims for services not medically necessary; (3)
198.27 a pattern of making false statements of material facts for the purpose of obtaining greater
198.28 compensation than that to which the individual or entity is legally entitled; (4) suspension
198.29 or termination as a Medicare vendor; (5) refusal to grant the state agency access during
198.30 regular business hours to examine all records necessary to disclose the extent of services
198.31 provided to program recipients and appropriateness of claims for payment; (6) failure to
198.32 repay an overpayment or a fine finally established under this section; (7) failure to correct
198.33 errors in the maintenance of health service or financial records for which a fine was imposed
198.34 or after issuance of a warning by the commissioner; and (8) any reason for which an

199.1 individual or entity could be excluded from participation in the Medicare program under
199.2 section 1128, 1128A, or 1866(b)(2) of the Social Security Act. For the purposes of this
199.3 section, goods or services for which payment is made from medical assistance includes but
199.4 is not limited to care and services identified in section 256B.0625 or provided pursuant to
199.5 any federally approved waiver.

199.6 (b) The commissioner may impose sanctions against a pharmacy provider for failure to
199.7 respond to a cost of dispensing survey under section 256B.0625, subdivision 13e, paragraph
199.8 ~~(h)~~ (g).

199.9 (c) The commissioner may impose sanctions against a pharmacy provider for failure to
199.10 respond to a Minnesota drug acquisition cost survey under section 256B.0625, subdivision
199.11 13e, paragraph (i).

199.12 EFFECTIVE DATE. This section is effective January 1, 2027, or upon federal approval,
199.13 whichever is later. The commissioner of human services must notify the revisor of statutes
199.14 when federal approval is obtained.

199.15 Sec. 7. Minnesota Statutes 2024, section 256B.69, subdivision 6d, is amended to read:

199.16 Subd. 6d. **Prescription drugs.** (a) The commissioner may exclude or modify coverage
199.17 for prescription drugs from the prepaid managed care contracts entered into under this
199.18 section in order to increase savings to the state by collecting additional prescription drug
199.19 rebates.

199.20 (b) The contracts must maintain incentives for the managed care plan to manage drug
199.21 costs and utilization and may require that the managed care plans maintain an open drug
199.22 formulary. In order to manage drug costs and utilization, the contracts may authorize the
199.23 managed care plans to use preferred drug lists and prior authorization. The contracts must
199.24 require that the managed care plans enter into contracts with the state's selected pharmacy
199.25 benefit manager vendor to administer the pharmacy benefit.

199.26 (c) This subdivision is contingent on federal approval of the managed care contract
199.27 changes and the collection of additional prescription drug rebates.

199.28 Sec. 8. Minnesota Statutes 2024, section 256B.69, is amended by adding a subdivision to
199.29 read:

199.30 Subd. 6i. **Directed pharmacy dispensing payment.** (a) The commissioner shall provide
199.31 a directed pharmacy dispensing payment of \$4.50 per filled prescription to eligible outpatient
199.32 retail pharmacies in Minnesota to improve and maintain access to pharmaceutical services

200.1 in rural and underserved areas of Minnesota. Managed care and county-based purchasing
200.2 plans delivering services under section 256B.69 or 256B.692, and any pharmacy benefit
200.3 managers under contract with these entities, must pay the directed pharmacy dispensing
200.4 payment to eligible outpatient retail pharmacies for drugs dispensed to medical assistance
200.5 enrollees. The directed pharmacy dispensing payment is in addition to, and must not supplant
200.6 or reduce, any other dispensing fee paid by these entities to the pharmacy. Entities paying
200.7 the directed pharmacy dispensing payment must not reduce other payments to the pharmacy
200.8 as a result of payment of the directed pharmacy dispensing payment.

200.9 (b) For purposes of this subdivision, "eligible outpatient retail pharmacy" means an
200.10 outpatient retail pharmacy licensed under chapter 151 that is not owned, either directly or
200.11 indirectly or through an affiliate or subsidiary, by a pharmacy benefit manager licensed
200.12 under chapter 62W or a health carrier, as defined in section 62A.011, subdivision 2, and
200.13 that:

200.14 (1) is located in a medically underserved area or primarily serves a medically underserved
200.15 population, as defined by the United States Department of Health and Human Services
200.16 Health Resources and Services Administration under United States Code, title 42, section
200.17 254; or

200.18 (2) shares common ownership with 12 or fewer Minnesota pharmacies.

200.19 (c) In order to receive the directed pharmacy dispensing payment, a pharmacy must
200.20 submit to the commissioner a form, developed by the commissioner, attesting that the
200.21 pharmacy meets the requirements of paragraph (b).

200.22 (d) Managed care and county-based purchasing plans, and any pharmacy benefit managers
200.23 under contract with these entities, shall pay the directed pharmacy dispensing payment to
200.24 eligible outpatient retail pharmacies. The commissioner shall monitor the effect of this
200.25 requirement on access to pharmaceutical services in rural and underserved areas of
200.26 Minnesota. If, for any contract year, federal approval is not received for this subdivision,
200.27 the commissioner must adjust the capitation rates paid to managed care plans and
200.28 county-based purchasing plans for that contract year to reflect removal of this subdivision.
200.29 Contracts between managed care plans and county-based purchasing plans, and any pharmacy
200.30 benefit managers under contract with these entities, and providers to whom this subdivision
200.31 applies, must allow recovery of payments from those providers if capitation rates are adjusted
200.32 in accordance with this paragraph. Payment recoveries must not exceed the amount equal
200.33 to any increase in rates that results from this subdivision. This subdivision expires if federal
200.34 approval is not received for this subdivision at any time.

201.1 (e) This subdivision expires on December 31, 2026.

201.2 **EFFECTIVE DATE.** This section is effective July 1, 2025, or upon federal approval,
201.3 whichever is later. The commissioner of human services shall notify the revisor of statutes
201.4 when federal approval is obtained.

201.5 Sec. 9. **[256B.696] PRESCRIPTION DRUGS; STATE PHARMACY BENEFIT**
201.6 **MANAGER.**

201.7 Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have
201.8 the meanings given.

201.9 (b) "Managed care plans" means health plans and county-based purchasing organizations
201.10 providing coverage to medical assistance and MinnesotaCare enrollees under the managed
201.11 care delivery system.

201.12 (c) "Managed care enrollees" means medical assistance and MinnesotaCare enrollees
201.13 receiving coverage from managed care plans.

201.14 (d) "State pharmacy benefit manager" means the pharmacy benefit manager selected

208.15 Minnesota;

208.16 (2) "net outpatient revenue" means the value reflecting total outpatient revenue less
208.17 Medicare revenue as calculated from Worksheet G of the hospital's most recent Medicare
208.18 cost report filed and showing in the Healthcare Cost Report Information System (HCRIS)

208.20 (3) "total patient days" means the value reflecting total hospital inpatient days as reported
208.21 on Worksheet S-3 of the hospital's most recent Medicare cost report filed and showing in
208.22 HCRIS as of August 1 of each year.

208.27 (2) 5.96 percent of the hospital's net outpatient revenue.

208.28 (c) The assessment amount for calendar years 2026 and 2027 must be based on the total
208.29 patient days and net outpatient revenue in 2021 for each eligible hospital.

208.30 (d) The commissioner may, after consultation with the Minnesota Hospital Association,
208.31 modify the rates of assessment in paragraph (b) as necessary to comply with federal law,
208.32 obtain or maintain a waiver under Code of Federal Regulations, title 42, section 433.72, or

209.1 to otherwise maximize under this section federal financial participation for medical assistance.
209.2 Notwithstanding the foregoing authorization to maximize federal financial participation for
209.3 medical assistance, the commissioner must reduce the rates of assessment in paragraph (b)
209.4 as necessary to ensure:

209.5 (1) the state's aggregated health care-related taxes on inpatient hospital services do not
209.6 exceed five percent of the net patient revenue attributable to those services; and

209.7 (2) the state's aggregated health care-related taxes on outpatient hospital services do not
209.8 exceed five percent of the net patient revenue attributable to those services.

209.9 (e) Eligible hospitals must pay the annual assessment amount under paragraph (b) to the
209.10 commissioner by paying four equal quarterly assessments. Eligible hospitals must pay the
209.11 quarterly assessments by January 1, April 1, July 1, and October 1 each year. Eligible
209.12 hospitals must pay the assessments in the form and manner specified by the commissioner.

209.25 with another hospital must have the hospital's assessment revised at the start of the first full
209.26 fiscal year after the merger is complete. A closed hospital is retroactively responsible for
209.27 assessments owed for services provided through the final date of operations.

209.28 (j) If the commissioner determines that a hospital has underpaid or overpaid an
209.29 assessment, the commissioner must notify the hospital of the unpaid assessment or of any
209.30 refund due.

209.31 (k) Revenue from an assessment under this subdivision must only be used by the
209.32 commissioner to pay the nonfederal share of the directed payment program under section
209.33 256B.1974.

210.1 (l) The commissioner is prohibited from collecting any assessment under this subdivision
210.2 during any period of time when:

210.3 (1) federal financial participation is unavailable, disallowed, or reduced by at least 15
210.4 percent relative to the state's share of medical assistance as of April 1, 2025; or

210.5 (2) a directed payment under section 256B.1974 is not approved by the Centers for
210.6 Medicare and Medicaid Services.

210.7 (m) The commissioner must make the following discounts from the inpatient portion of
210.8 the assessment under paragraph (b), clause (1), in the stated amount or as necessary to
210.9 achieve federal approval of the assessment in this section:

210.10 (1) for Hennepin Healthcare, a discount of 25 percent off the inpatient portion of the
210.11 assessment rate;

210.12 (2) for Mayo Rochester, a discount of ten percent off the inpatient portion of the
210.13 assessment rate; and

210.14 (3) for Gillette Children's Hospital, a discount of 90 percent off the inpatient portion of
210.15 the assessment rate.

210.16 (n) The commissioner must make the following discounts from the outpatient portion
210.17 of the assessment under paragraph (b), clause (2), in the stated amount or as necessary to
210.18 achieve federal approval of the assessment in this section:

210.19 (1) for each critical access hospital or independent hospital located outside a city of the
210.20 first class and paid under the Medicare prospective payment system, a discount of 40 percent
210.21 off the outpatient portion of the assessment rate;

211.1 (3) federal Veterans Administration Medical Centers; and

211.2 (4) long-term acute care hospitals.

211.3 (p) If the federal share of the hospital directed payment program under section 256B.1974
211.4 is increased as the result of an increase to the federal medical assistance percentage, then
211.5 the commissioner must reduce the assessment on a uniform percentage basis across eligible
211.6 hospitals on which the assessment is imposed, such that the aggregate amount collected
211.7 from hospitals under this subdivision does not exceed the total amount needed to maintain
211.8 the same aggregate state and federal funding level for the directed payments authorized by
211.9 section 256B.1974.

211.10 (q) Hospitals subject to the assessment under this subdivision must submit to the
211.11 commissioner on an annual basis, in the form and manner specified by the commissioner
211.12 in consultation with the Minnesota Hospital Association, all documentation necessary to
211.13 determine the assessment amounts under this subdivision.

211.14 (r) Any disproportionate share hospital payments that are supplanted due to the
211.15 implementation of the hospital directed payment program under section 256B.1974 must
211.16 be redirected into the hospital directed payment program as an offset to the assessment
211.17 under this section owed by all medical assistance disproportionate share hospitals as defined
211.18 in section 256.969, subdivision 9, and reduce their assessments on a uniform basis.

211.19 (s) Any future state funding sources identified and used toward the hospital directed
211.20 payment program under section 256B.1974 may be used to offset the assessment under this
211.21 section.

211.22 **EFFECTIVE DATE.** (a) This section is effective the later of January 1, 2026, or federal
211.23 approval of all of the following:

211.24 (1) this section; and

211.25 (2) the amendments in this act to Minnesota Statutes, sections 256B.1973 and 256B.1974.

211.26 (b) The commissioner of human services shall notify the revisor of statutes when federal

212.9 (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not
212.10 be rebased, except that a Minnesota long-term hospital shall be rebased effective January
212.11 1, 2011, based on its most recent Medicare cost report ending on or before September 1,
212.12 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on
212.13 December 31, 2010. For rate setting periods after November 1, 2014, in which the base
212.14 years are updated, a Minnesota long-term hospital's base year shall remain within the same
212.15 period as other hospitals.

212.16 (c) Effective for discharges occurring on and after November 1, 2014, payment rates

212.24 year. Separate budget neutrality calculations shall be determined for payments made to
212.25 critical access hospitals and payments made to hospitals paid under the DRG system. Only
212.26 the rate increases or decreases under subdivision 3a or 3c that applied to the hospitals being
212.27 rebased during the entire base period shall be incorporated into the budget neutrality
212.28 calculation.

212.29 (d) For discharges occurring on or after November 1, 2014, through the next rebasing
212.30 that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph
212.31 (a), clause (4), shall include adjustments to the projected rates that result in no greater than
212.32 a five percent increase or decrease from the base year payments for any hospital. Any
212.33 adjustments to the rates made by the commissioner under this paragraph and paragraph (e)
212.34 shall maintain budget neutrality as described in paragraph (c).

213.1 (e) For discharges occurring on or after November 1, 2014, the commissioner may make
213.2 additional adjustments to the rebased rates, and when evaluating whether additional
213.3 adjustments should be made, the commissioner shall consider the impact of the rates on the
213.4 following:

213.5 (1) pediatric services;

213.6 (2) behavioral health services;

213.7 (3) trauma services as defined by the National Uniform Billing Committee;

213.8 (4) transplant services;

213.9 (5) obstetric services, newborn services, and behavioral health services provided by
213.10 hospitals outside the seven-county metropolitan area;

213.11 (6) outlier admissions;

213.12 (7) low-volume providers; and

213.13 (8) services provided by small rural hospitals that are not critical access hospitals.

213.14 (f) Hospital payment rates established under paragraph (c) must incorporate the following:

213.15 (1) for hospitals paid under the DRG methodology, the base year payment rate per
213.16 admission is standardized by the applicable Medicare wage index and adjusted by the
213.17 hospital's disproportionate population adjustment;

213.18 (2) for critical access hospitals, payment rates for discharges between November 1, 2014,
213.19 and June 30, 2015, shall be set to the same rate of payment that applied for discharges on
213.20 October 31, 2014;

213.21 (3) the cost and charge data used to establish hospital payment rates must only reflect
213.22 inpatient services covered by medical assistance; and

213.23 (4) in determining hospital payment rates for discharges occurring on or after the rate
213.24 year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per
213.25 discharge shall be based on the cost-finding methods and allowable costs of the Medicare
213.26 program in effect during the base year or years. In determining hospital payment rates for
213.27 discharges in subsequent base years, the per discharge rates shall be based on the cost-finding
213.28 methods and allowable costs of the Medicare program in effect during the base year or
213.29 years.

213.30 (g) The commissioner shall validate the rates effective November 1, 2014, by applying
213.31 the rates established under paragraph (c), and any adjustments made to the rates under

paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the total aggregate payments for the same number and types of services under the rebased rates are equal to the total aggregate payments made during calendar year 2013.

(h) Effective for discharges occurring on or after July 1, 2017, and every two years thereafter, payment rates under this section shall be rebased to reflect only those changes in hospital costs between the existing base year or years and the next base year or years. In any year that inpatient claims volume falls below the threshold required to ensure a statistically valid sample of claims, the commissioner may combine claims data from two consecutive years to serve as the base year. Years in which inpatient claims volume is reduced or altered due to a pandemic or other public health emergency shall not be used as a base year or part of a base year if the base year includes more than one year. Changes in costs between base years shall be measured using the lower of the hospital cost index defined in subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per claim. The commissioner shall establish the base year for each rebasing period considering the most recent year or years for which filed Medicare cost reports are available, except that the base years for the rebasing effective July 1, 2023, are calendar years 2018 and 2019. The estimated change in the average payment per hospital discharge resulting from a scheduled rebasing must be calculated and made available to the legislature by January 15 of each year in which rebasing is scheduled to occur, and must include by hospital the differential in payment rates compared to the individual hospital's costs.

(i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates for critical access hospitals located in Minnesota or the local trade area shall be determined using a new cost-based methodology. The commissioner shall establish within the methodology tiers of payment designed to promote efficiency and cost-effectiveness. Payment rates for hospitals under this paragraph shall be set at a level that does not exceed the total cost for critical access hospitals as reflected in base year cost reports. Until the next rebasing that occurs, the new methodology shall result in no greater than a five percent decrease from the base year payments for any hospital, except a hospital that had payments that were greater than 100 percent of the hospital's costs in the base year shall have their rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and after July 1, 2016, covered under this paragraph shall be increased by the inflation factor in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall not be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the following criteria:

215.1 (1) hospitals that had payments at or below 80 percent of their costs in the base year
215.2 shall have a rate set that equals 85 percent of their base year costs;

215.3 (2) hospitals that had payments that were above 80 percent, up to and including 90
215.4 percent of their costs in the base year shall have a rate set that equals 95 percent of their
215.5 base year costs; and

215.6 (3) hospitals that had payments that were above 90 percent of their costs in the base year
215.7 shall have a rate set that equals 100 percent of their base year costs.

215.8 (j) The commissioner may refine the payment tiers and criteria for critical access hospitals
215.9 to coincide with the next rebasing under paragraph (h). The factors used to develop the new
215.10 methodology may include, but are not limited to:

215.11 (1) the ratio between the hospital's costs for treating medical assistance patients and the
215.12 hospital's charges to the medical assistance program;

215.13 (2) the ratio between the hospital's costs for treating medical assistance patients and the
215.14 hospital's payments received from the medical assistance program for the care of medical
215.15 assistance patients;

215.16 (3) the ratio between the hospital's charges to the medical assistance program and the
215.17 hospital's payments received from the medical assistance program for the care of medical
215.18 assistance patients;

215.19 (4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);

215.20 (5) the proportion of that hospital's costs that are administrative and trends in
215.21 administrative costs; and

215.22 (6) geographic location.

215.23 (k) Subject to subdivision 2g, effective for discharges occurring on or after January 1,
215.24 2024, the rates paid to hospitals described in paragraph (a), clauses (2) to (4), must include
215.25 a rate factor specific to each hospital that qualifies for a medical education and research
215.26 cost distribution under section 62J.692, subdivision 4, paragraph (a).

215.27 (l) Effective for discharges occurring on or after January 1, 2028, or on or after the date
215.28 of federal approval, whichever is later, the commissioner must increase by an annual
215.29 aggregate amount of \$10,000,000:

215.30 (1) payments for inpatient behavioral health services provided by hospitals paid under
215.31 the DRG methodology by increasing the adjustment for behavioral health services under
215.32 section 256.969, subdivision 2b, paragraph (e); and

(2) capitation payments made to managed care plans and county-based purchasing plans to reflect the rate increase provided under this paragraph. Managed care and county-based purchasing plans must use the capitation rate increase provided under this clause to increase payment rates for inpatient behavioral health services provided by hospitals paid under the DRG methodology. The commissioner must monitor the effect of this rate increase on enrollee access to behavioral health services. If for any contract year federal approval is not received for this clause, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this clause. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this clause. Payment recoveries must not exceed the amount equal to any increase in rates that results from this paragraph.

EFFECTIVE DATE. This section is effective the day following final enactment.

217.12 evidencing that a particular mode of transmission was utilized;

217.25 (1) "telehealth" means the delivery of health care services or consultations using real-time
217.26 two-way interactive audio and visual communication or accessible telehealth video-based

218.27 Capitation payments made to managed care plans and county-based purchasing plans for
218.28 ambulance services provided on or after January 1, 2017, shall be increased to reflect this
218.29 rate increase. The increased rate described in this paragraph applies to ambulance service
218.30 providers whose base of operations as defined in section 144E.10 is located:

218.31 (1) outside the metropolitan counties listed in section 473.121, subdivision 4, and outside

219.3 payments made to managed care plans and county-based purchasing plans for ambulance
219.4 services provided on or after January 1, 2026, must be increased to reflect this rate increase.

219.5 (d) Effective for services provided on or after January 1, 2026, medical assistance
219.6 payment rates for ambulance services identified in this paragraph are increased by ten

219.16 per gallon, the commissioner shall adjust the rate paid per mile in paragraph (a) by one
219.17 percent up or down for every increase or decrease of ten cents for the price of gasoline. The
219.18 increase or decrease must be calculated using a base gasoline price of \$3.00. The percentage

219.21 Information Administration.

219.22 ~~(d)~~ (f) Managed care plans and county-based purchasing plans must provide a fuel

219.26 contract year to reflect the removal of this provision. Contracts between managed care plans
219.27 and county-based purchasing plans and providers to whom this paragraph applies must
219.28 allow recovery of payments from those providers if capitation rates are adjusted in accordance
219.29 with this paragraph. Payment recoveries must not exceed the amount equal to any increase
219.30 in rates that results from this paragraph. This paragraph expires if federal approval is not

220.29 federally qualified health center services, nonprofit community health clinic services, and
220.30 public health clinic services. Rural health clinic services and federally qualified health center

221.1 services mean services defined in United States Code, title 42, section 1396d(a)(2)(B) and
221.2 (C). Payment for rural health clinic and federally qualified health center services shall be
221.3 made according to applicable federal law and regulation.

221.4 (b) A federally qualified health center (FQHC) that is beginning initial operation shall
221.5 submit an estimate of budgeted costs and visits for the initial reporting period in the form
221.6 and detail required by the commissioner. An FQHC that is already in operation shall submit
221.7 an initial report using actual costs and visits for the initial reporting period. Within 90 days
221.8 of the end of its reporting period, an FQHC shall submit, in the form and detail required by
221.9 the commissioner, a report of its operations, including allowable costs actually incurred for
221.10 the period and the actual number of visits for services furnished during the period, and other
221.11 information required by the commissioner. FQHCs that file Medicare cost reports shall
221.12 provide the commissioner with a copy of the most recent Medicare cost report filed with
221.13 the Medicare program intermediary for the reporting year which support the costs claimed
221.14 on their cost report to the state.

221.15 (c) In order to continue cost-based payment under the medical assistance program
221.16 according to paragraphs (a) and (b), an FQHC or rural health clinic must apply for designation
221.17 as an essential community provider within six months of final adoption of rules by the
221.18 Department of Health according to section 62Q.19, subdivision 7. For those FQHCs and

221.20 six-month time prescribed, medical assistance payments will continue to be made according
221.21 to paragraphs (a) and (b) for the first three years after application. For FQHCs and rural
221.22 health clinics that either do not apply within the time specified above or who have had
221.23 essential community provider status for three years, medical assistance payments for health
221.24 services provided by these entities shall be according to the same rates and conditions
221.25 applicable to the same service provided by health care providers that are not FQHCs or rural
221.26 health clinics.

221.27 (d) Effective July 1, 1999, the provisions of paragraph (c) requiring an FQHC or a rural
221.28 health clinic to make application for an essential community provider designation in order
221.29 to have cost-based payments made according to paragraphs (a) and (b) no longer apply.

221.30 (e) Effective January 1, 2000, payments made according to paragraphs (a) and (b) shall
221.31 be limited to the cost phase-out schedule of the Balanced Budget Act of 1997.

221.32 (f) Effective January 1, 2001, through December 31, 2020, each FQHC and rural health
221.33 clinic may elect to be paid either under the prospective payment system established in United
221.34 States Code, title 42, section 1396a(aa), or under an alternative payment methodology

222.1 consistent with the requirements of United States Code, title 42, section 1396a(aa), and
222.2 approved by the Centers for Medicare and Medicaid Services. The alternative payment
222.3 methodology shall be 100 percent of cost as determined according to Medicare cost
222.4 principles.

222.5 (g) Effective for services provided on or after January 1, 2021, all claims for payment
222.6 of clinic services provided by FQHCs and rural health clinics shall be paid by the
222.7 commissioner, according to an annual election by the FQHC or rural health clinic, under
222.8 the current prospective payment system described in paragraph (f) or the alternative payment
222.9 methodology described in paragraph (l), or, upon federal approval, for FQHCs that are also
222.10 urban Indian organizations under Title V of the federal Indian Health Improvement Act, as
222.11 provided under paragraph (k).

222.12 (h) For purposes of this section, "nonprofit community clinic" is a clinic that:

222.13 (1) has nonprofit status as specified in chapter 317A;

222.16 high-risk and special needs populations, underserved and other special needs populations;

222.17 (4) employs professional staff at least one-half of which are familiar with the cultural
222.18 background of their clients;

222.19 (5) charges for services on a sliding fee scale designed to provide assistance to
222.20 low-income clients based on current poverty income guidelines and family size; and

222.21 (6) does not restrict access or services because of a client's financial limitations or public
222.22 assistance status and provides no-cost care as needed.

222.23 (i) Effective for services provided on or after January 1, 2015, all claims for payment
222.24 of clinic services provided by FQHCs and rural health clinics shall be paid by the
222.25 commissioner. the commissioner shall determine the most feasible method for paying claims
222.26 from the following options:

222.27 (1) FQHCs and rural health clinics submit claims directly to the commissioner for
222.28 payment, and the commissioner provides claims information for recipients enrolled in a
222.29 managed care or county-based purchasing plan to the plan, on a regular basis; or

222.30 (2) FQHCs and rural health clinics submit claims for recipients enrolled in a managed
222.31 care or county-based purchasing plan to the plan, and those claims are submitted by the
222.32 plan to the commissioner for payment to the clinic.

223.1 (j) For clinic services provided prior to January 1, 2015, the commissioner shall calculate
223.2 and pay monthly the proposed managed care supplemental payments to clinics, and clinics
223.3 shall conduct a timely review of the payment calculation data in order to finalize all
223.4 supplemental payments in accordance with federal law. Any issues arising from a clinic's
223.5 review must be reported to the commissioner by January 1, 2017. Upon final agreement
223.6 between the commissioner and a clinic on issues identified under this subdivision, and in
223.7 accordance with United States Code, title 42, section 1396a(bb), no supplemental payments
223.8 for managed care plan or county-based purchasing plan claims for services provided prior
223.9 to January 1, 2015, shall be made after June 30, 2017. If the commissioner and clinics are
223.10 unable to resolve issues under this subdivision, the parties shall submit the dispute to the
223.11 arbitration process under section 14.57.

223.12 (k) The commissioner shall establish an encounter payment rate that is equivalent to the
223.13 all inclusive rate (AIR) payment established by the Indian Health Service and published in
223.14 the Federal Register. The encounter rate must be updated annually and must reflect the
223.15 changes in the AIR established by the Indian Health Service each calendar year. FQHCs
223.16 that are also urban Indian organizations under Title V of the federal Indian Health
223.17 Improvement Act may elect to be paid: (1) at the encounter rate established under this
223.18 paragraph; (2) under the alternative payment methodology described in paragraph (l); or
223.19 (3) under the federally required prospective payment system described in paragraph (f).
223.20 FQHCs that elect to be paid at the encounter rate established under this paragraph must
223.21 continue to meet all state and federal requirements related to FQHCs and urban Indian
223.22 organizations, and must maintain their statuses as FQHCs and urban Indian organizations.

223.23 (l) All claims for payment of clinic services provided by FQHCs and rural health clinics,
223.24 that have elected to be paid under this paragraph, shall be paid by the commissioner according
223.25 to the following requirements:

223.26 (1) the commissioner shall establish a single medical and single dental organization
223.27 encounter rate for each FQHC and rural health clinic when applicable;

223.28 (2) each FQHC and rural health clinic is eligible for same day reimbursement of one
223.29 medical and one dental organization encounter rate if eligible medical and dental visits are
223.30 provided on the same day;

223.31 (3) the commissioner shall reimburse FQHCs and rural health clinics, in accordance
223.32 with current applicable Medicare cost principles, their allowable costs, including direct
223.33 patient care costs and patient-related support services. Nonallowable costs include, but are
223.34 not limited to:

- 224.1 (i) general social services and administrative costs;
- 224.2 (ii) retail pharmacy;
- 224.3 (iii) patient incentives, food, housing assistance, and utility assistance;
- 224.4 (iv) external lab and x-ray;
- 224.5 (v) navigation services;
- 224.6 (vi) health care taxes;
- 224.7 (vii) advertising, public relations, and marketing;
- 224.8 (viii) office entertainment costs, food, alcohol, and gifts;
- 224.9 (ix) contributions and donations;
- 224.10 (x) bad debts or losses on awards or contracts;
- 224.11 (xi) fines, penalties, damages, or other settlements;
- 224.12 (xii) fundraising, investment management, and associated administrative costs;
- 224.13 (xiii) research and associated administrative costs;
- 224.14 (xiv) nonpaid workers;
- 224.15 (xv) lobbying;
- 224.16 (xvi) scholarships and student aid; and
- 224.17 (xvii) nonmedical assistance covered services;
- 224.18 (4) the commissioner shall review the list of nonallowable costs in the years between
- 224.19 the rebasing process established in clause (5), in consultation with the Minnesota Association
- 224.20 of Community Health Centers, FQHCs, and rural health clinics. The commissioner shall
- 224.21 publish the list and any updates in the Minnesota health care programs provider manual;
- 224.22 (5) the initial applicable base year organization encounter rates for FQHCs and rural
- 224.23 health clinics shall be computed for services delivered on or after January 1, 2021, and:
- 224.24 (i) must be determined using each FQHC's and rural health clinic's Medicare cost reports
- 224.25 from 2017 and 2018;
- 224.26 (ii) must be according to current applicable Medicare cost principles as applicable to
- 224.27 FQHCs and rural health clinics without the application of productivity screens and upper
- 224.28 payment limits or the Medicare prospective payment system FQHC aggregate mean upper
- 224.29 payment limit;

225.1 (iii) must be subsequently rebased every two years thereafter using the Medicare cost
225.2 reports that are three and four years prior to the rebasing year. Years in which organizational
225.3 cost or claims volume is reduced or altered due to a pandemic, disease, or other public health
225.4 emergency shall not be used as part of a base year when the base year includes more than
225.5 one year. The commissioner may use the Medicare cost reports of a year unaffected by a
225.6 pandemic, disease, or other public health emergency, or previous two consecutive years,
225.7 inflated to the base year as established under item (iv);

225.8 (iv) must be inflated to the base year using the inflation factor described in clause (6);
225.9 and

225.10 (v) the commissioner must provide for a 60-day appeals process under section 14.57;

225.11 (6) the commissioner shall annually inflate the applicable organization encounter rates
225.12 for FQHCs and rural health clinics from the base year payment rate to the effective date by
225.13 using the CMS FQHC Market Basket inflator established under United States Code, title
225.14 42, section 1395m(o), less productivity;

225.15 (7) FQHCs and rural health clinics that have elected the alternative payment methodology
225.16 under this paragraph shall submit all necessary documentation required by the commissioner
225.17 to compute the rebased organization encounter rates no later than six months following the
225.18 date the applicable Medicare cost reports are due to the Centers for Medicare and Medicaid
225.19 Services;

225.20 (8) the commissioner shall reimburse FQHCs and rural health clinics an additional
225.21 amount relative to their medical and dental organization encounter rates that is attributable
225.22 to the tax required to be paid according to section 295.52, if applicable;

225.23 (9) FQHCs and rural health clinics may submit change of scope requests to the
225.24 commissioner if the change of scope would result in an increase or decrease of 2.5 percent
225.25 or higher in the medical or dental organization encounter rate currently received by the
225.26 FQHC or rural health clinic;

225.27 (10) for FQHCs and rural health clinics seeking a change in scope with the commissioner
225.28 under clause (9) that requires the approval of the scope change by the federal Health
225.29 Resources Services Administration:

225.30 (i) FQHCs and rural health clinics shall submit the change of scope request, including
225.31 the start date of services, to the commissioner within seven business days of submission of
225.32 the scope change to the federal Health Resources Services Administration;

226.1 (ii) the commissioner shall establish the effective date of the payment change as the
226.2 federal Health Resources Services Administration date of approval of the FQHC's or rural
226.3 health clinic's scope change request, or the effective start date of services, whichever is
226.4 later; and

226.5 (iii) within 45 days of one year after the effective date established in item (ii), the
226.6 commissioner shall conduct a retroactive review to determine if the actual costs established
226.7 under clause (3) or encounters result in an increase or decrease of 2.5 percent or higher in
226.8 the medical or dental organization encounter rate, and if this is the case, the commissioner
226.9 shall revise the rate accordingly and shall adjust payments retrospectively to the effective
226.10 date established in item (ii);

226.11 (11) for change of scope requests that do not require federal Health Resources Services
226.12 Administration approval, the FQHC and rural health clinic shall submit the request to the
226.13 commissioner before implementing the change, and the effective date of the change is the
226.14 date the commissioner received the FQHC's or rural health clinic's request, or the effective
226.15 start date of the service, whichever is later. The commissioner shall provide a response to
226.16 the FQHC's or rural health clinic's request within 45 days of submission and provide a final
226.17 approval within 120 days of submission. This timeline may be waived at the mutual
226.18 agreement of the commissioner and the FQHC or rural health clinic if more information is
226.19 needed to evaluate the request;

226.20 (12) the commissioner, when establishing organization encounter rates for new FQHCs
226.21 and rural health clinics, shall consider the patient caseload of existing FQHCs and rural
226.22 health clinics in a 60-mile radius for organizations established outside of the seven-county
226.23 metropolitan area, and in a 30-mile radius for organizations in the seven-county metropolitan
226.24 area. If this information is not available, the commissioner may use Medicare cost reports
226.25 or audited financial statements to establish base rates;

226.26 (13) the commissioner, when establishing organization encounter rates under this section
226.27 for FQHCs and rural health clinics resulting from a merger of existing clinics or the
226.28 acquisition of an existing clinic by another existing clinic, must use the combined costs and
226.29 caseloads from the clinics participating in the merger or acquisition to set the encounter rate
226.30 for the new clinic organization resulting from the merger or acquisition. The scope of services
226.31 for the newly formed clinic must be inclusive of the scope of services of the clinics
226.32 participating in the merger or acquisition;

227.1 ~~(13)~~ (14) the commissioner shall establish a quality measures workgroup that includes
227.2 representatives from the Minnesota Association of Community Health Centers, FQHCs,
227.3 and rural health clinics, to evaluate clinical and nonclinical measures; and

227.4 ~~(14)~~ (15) the commissioner shall not disallow or reduce costs that are related to an
227.5 FQHC's or rural health clinic's participation in health care educational programs to the extent
227.6 that the costs are not accounted for in the alternative payment methodology encounter rate
227.7 established in this paragraph.

227.8 (m) Effective July 1, 2023, an enrolled Indian health service facility or a Tribal health
227.9 center operating under a 638 contract or compact may elect to also enroll as a Tribal FQHC.
227.10 Requirements that otherwise apply to an FQHC covered in this subdivision do not apply to
227.11 a Tribal FQHC enrolled under this paragraph, except that any requirements necessary to
227.12 comply with federal regulations do apply to a Tribal FQHC. The commissioner shall establish
227.13 an alternative payment method for a Tribal FQHC enrolled under this paragraph that uses
227.14 the same method and rates applicable to a Tribal facility or health center that does not enroll
227.15 as a Tribal FQHC.

227.16 (n) FQHC reimbursement for mental health targeted case management services is limited
227.17 to:

227.18 (1) only those services described under section 256B.0625, subdivision 20, and provided
227.19 in accordance with contracts executed with counties authorized to subcontract for mental
227.20 health targeted case management services; and

227.21 (2) an FQHC's actual incurred costs as separately reported on the cost report submitted
227.22 to the Centers for Medicare and Medicaid Services and further identified in reports submitted
227.23 to the commissioner.

227.24 (o) Counties contracting with FQHCs for mental health targeted case management remain
227.25 responsible for the nonfederal share of the cost of the provided mental health targeted case
227.26 management services. The commissioner must bill each county for the nonfederal share of
227.27 the mental health targeted case management costs as reported by the FQHC.

227.28 **EFFECTIVE DATE.** This section is effective the day following final enactment.

227.29 Sec. 9. Minnesota Statutes 2024, section 256B.0625, subdivision 54, is amended to read:

227.30 Subd. 54. **Services provided in birth centers.** (a) Medical assistance covers services
227.31 provided in a licensed birth center by a licensed health professional if the service would

228.17 shall be paid at the lower of billed charges or 100 percent of the rate paid to a physician
228.18 performing the same services. If a recipient is transported from a birth center to a hospital
228.19 prior to the delivery, a licensed traditional midwife who does not perform the delivery may
228.20 not bill for any delivery services. Services are not covered if provided by an unlicensed
228.21 traditional midwife.

228.22 (e) Licensed health professionals working in licensed birth centers shall be reimbursed
228.23 for the full range of maternity care and newborn care services within their scope of practice,
228.24 regardless of place of service. The commissioner shall review current birth center
228.25 reimbursement and, in consultation with birth centers currently licensed in the state, develop
228.26 revisions to current payment practices in order to ensure reimbursement for the full range
228.27 of maternity care and newborn care services, including but not limited to:

228.28 (1) professional services for intrapartum care when a recipient is transferred from a birth
228.29 center to a hospital prior to delivery;

228.30 (2) professional services billed with a home place of service code by a licensed health
228.31 professional within their scope of practice;

228.32 (3) professional services when a licensed health professional provides any
228.33 Minnesota-mandated newborn screening, including but not limited to the newborn metabolic

229.1 screen, CCHD screening, hearing screen, or any other medically necessary newborn
229.2 screening, test, or assessment; and

229.3 (4) telehealth services provided by any licensed health professional working in a birth
229.4 center.

229.5 (f) Managed care organizations and county-based purchasing plans contracted to provide
229.6 medical assistance coverage under section 256B.69 shall reimburse licensed birth centers

229.8 maternity care services within their scope of practice, regardless of place of service, as
229.9 determined in paragraph (e) at no less than the medical assistance fee for service fee schedule
229.10 for the year in which the service is provided.

229.11 ~~(e)~~ (g) The commissioner shall apply for any necessary waivers from the Centers for
229.12 Medicare and Medicaid Services to allow birth centers and birth center providers to be
229.13 reimbursed.

229.14 **EFFECTIVE DATE.** This section is effective January 1, 2026, or upon federal approval,
229.15 whichever is later. The commissioner of human services shall notify the revisor of statutes
229.16 when federal approval is obtained.

229.17 Sec. 10. Minnesota Statutes 2024, section 256B.0625, is amended by adding a subdivision
229.18 to read:

229.19 Subd. 54a. **Home birth.** (a) For purposes of this subdivision, the following terms have
229.20 the meanings given:

229.21 (1) "birth services" means prenatal, labor, birth, and postpartum services;

229.22 (2) "eligible provider" means a licensed or certified health care professional eligible for
229.23 reimbursement under the medical assistance program; and

229.24 (3) "low-risk patient for birth services" means a person undergoing a normal,
229.25 uncomplicated prenatal course as determined by documentation of adequate prenatal care
229.26 who anticipates a normal, uncomplicated labor and birth, as defined by reasonable and
229.27 generally accepted criteria adopted by professional groups for maternal, fetal, and neonatal
229.28 health care.

229.29 (b) Medical assistance covers birth services provided at home when the following
229.30 conditions are met:

229.31 (1) the birth services are provided by an eligible provider whose scope of practice and
229.32 experience includes home birth;

230.1 (2) the recipient is a low-risk patient for birth services; and

230.2 (3) the recipient has a plan of care that includes:

230.3 (i) a consent form detailing the risks and benefits of home birth signed by the recipient;

230.4 (ii) sufficient visits, test results, and follow-up consultations as needed to establish that

230.5 the recipient is a low-risk patient for birth services; and

230.6 (iii) a plan for transfer to a hospital as needed.

230.7 (c) Services provided under this subdivision by an eligible provider must be paid at a

230.8 rate at least equal to 100 percent of the rate paid to a physician performing the same services.

230.9 An eligible provider who does not perform the delivery must not bill for any delivery

230.10 services.

230.11 (d) Supplies used for birth services under this subdivision must be paid at 70 percent of

230.12 the statewide average for a facility payment rate made to a hospital for an uncomplicated

230.13 vaginal delivery as determined using the most recent calendar year for which complete

230.14 claims data are available. If a recipient is transported from a home to a hospital prior to the

230.15 delivery, the payment for the supplies used for birth services under this subdivision must

230.16 be the lower of billed charges or 15 percent of the statewide average for a facility payment

230.17 rate made to a hospital for the services provided for an uncomplicated vaginal delivery as

230.18 determined using the most recent calendar year for which complete claims data are available.

230.19 **EFFECTIVE DATE.** This section is effective January 1, 2026, or upon federal approval,

230.20 whichever is later. The commissioner of human services shall notify the revisor of statutes

230.21 when federal approval is obtained.

230.22 Sec. 11. Minnesota Statutes 2024, section 256B.0757, subdivision 5, is amended to read:

230.23 Subd. 5. **Payments.** (a) The commissioner shall make payments to each designated

230.24 provider for the provision of health home services described in subdivision 3 to each eligible

230.25 individual under subdivision 2 that selects the health home as a provider. This paragraph

230.26 expires on the date that paragraph (b) becomes effective.

230.27 (b) Effective January 1, 2028, or upon federal approval, whichever is later, the

230.28 commissioner shall make payments to each designated provider for the provision of health

230.29 home services described in subdivision 3, except for behavioral health services, to each

230.30 eligible individual under subdivision 2 who selects the health home as a provider.

231.1 Sec. 12. Minnesota Statutes 2024, section 256B.0757, is amended by adding a subdivision
231.2 to read:

231.3 Subd. 5a. **Payments for behavioral health home services.** (a) Notwithstanding
231.4 subdivision 5, the commissioner must implement a single statewide reimbursement rate for
231.5 behavioral health home services under this section. The rate must be no less than \$425 per
231.6 member per month. The commissioner must adjust the reimbursement rate for behavioral
231.7 health home services annually according to the change from the midpoint of the previous
231.8 rate year to the midpoint of the rate year for which the rate is being determined using the
231.9 Centers for Medicare and Medicaid Services Medicare Economic Index as forecasted in
231.10 the fourth quarter of the calendar year before the rate year.

231.11 (b) The commissioner must review and update the behavioral health home services rate
231.12 under paragraph (a) at least every four years. The updated rate must account for the average
231.13 hours required for behavioral health home team members spent providing services and the
231.14 Department of Labor prevailing wage for required behavioral health home team members.
231.15 The updated rate must ensure that behavioral health home services rates are sufficient to
231.16 allow providers to meet required certifications, training, and practice transformation
231.17 standards; staff qualification requirements; and service delivery standards.

231.18 (c) Managed care plans and county-based purchasing plans must reimburse providers
231.19 at an amount that is at least equal to the fee-for-service rate for services under this
231.20 subdivision. The commissioner must monitor the effect of this rate increase on enrollee
231.21 access to services under this subdivision. If for any contract year federal approval is not
231.22 received for this paragraph, the commissioner must adjust the capitation rates paid to managed
231.23 care plans and county-based purchasing plans for that contract year to reflect the removal
231.24 of this paragraph. Contracts between managed care plans and county-based purchasing
231.25 plans and providers to whom this paragraph applies must allow recovery of payments from
231.26 those providers if capitation rates are adjusted in accordance with this paragraph. Payment
231.27 recoveries must not exceed the amount equal to any increase in rates that results from this
231.28 paragraph.

231.29 (d) This subdivision is effective January 1, 2028, or upon federal approval, whichever
231.30 is later.

231.31 Sec. 13. Minnesota Statutes 2024, section 256B.1973, is amended by adding a subdivision
231.32 to read:

231.33 Subd. 9. **Interaction with other directed payments.** An eligible provider under
231.34 subdivision 3 may participate in the hospital directed payment program under section

232.1 256B.1974 for inpatient hospital services, outpatient hospital services, or both. A provider
232.2 participating in the hospital directed payment program must not receive a directed payment
232.3 under this section for any provider classes paid via the hospital directed payment program.
232.4 A hospital subject to this section must notify the commissioner in writing no later than 30
232.5 days after enactment of this subdivision of its intention to participate in the hospital directed
232.6 payment program under section 256B.1974 for inpatient hospital services, outpatient hospital
232.7 services, or both. The election under this subdivision is a onetime election, except that if
232.8 an eligible provider elects to participate in the hospital directed payment program, and the
232.9 hospital directed payment program expires, then the eligible provider may thereafter elect
232.10 to participate in the directed payment program under this section.

232.11 **EFFECTIVE DATE.** (a) This section is effective on the later of January 1, 2026, or
232.12 federal approval of all of the following:

232.13 (1) this section;

232.14 (2) the amendments in this act to add Minnesota Statutes, section 256.9657, subdivision
232.15 2b; and

232.16 (3) the amendments in this act to Minnesota Statutes, section 256B.1974.

232.17 (b) The commissioner of human services shall notify the revisor of statutes when federal
232.18 approval for all amendments set forth in paragraph (a) is obtained.

232.19 Sec. 14. **[256B.1974] HOSPITAL DIRECTED PAYMENT PROGRAM.**

232.20 Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have
232.21 the meanings given.

232.22 (b) "Health plan" means a managed care plan or county-based purchasing plan that is
232.23 under contract with the commissioner to deliver services to medical assistance enrollees
232.24 under section 256B.69.

232.25 (c) "Hospital" means a hospital licensed under section 144.50.

232.26 Subd. 2. **Required conditions for program.** The hospital directed payment program is
232.27 contingent on the satisfaction of all requirements necessary for the collection of an assessment
232.28 under section 256.9657, and must conform with the requirements for permissible directed
232.29 managed care organization expenditures under section 256B.6928, subdivision 5.

232.30 Subd. 3. **Commissioner's duties; state-directed fee schedule requirement.** (a) For
232.31 each federally approved directed payment program that is a state-directed fee schedule
232.32 requirement that includes a quarterly payment amount to be submitted by each health plan

233.1 to each hospital, the commissioner must determine the quarterly payment amount using the
233.2 average commercial payer rate, or using another method acceptable to the Centers for
233.3 Medicare and Medicaid Services if the average commercial payer rate is not approved. The
233.4 commissioner must ensure that the application of the quarterly payment amounts maximizes
233.5 the amount generated by the hospital assessment in section 256.9657, subdivision 2b, for
233.6 allowable directed payments and does not result in payments exceeding federal limits.

233.7 (b) The commissioner must use an annual settle-up process that occurs within the time
233.8 period allowed for medical assistance managed care claims adjustments.

233.9 (c) On and after January 1, 2028, if the federal regulations set forth in Code of Federal
233.10 Regulations, title 42, parts 430, 438, and 457, remain effective, the hospital directed payment
233.11 program must be specific to each health plan and prospectively incorporated into capitation
233.12 payments for that plan.

233.13 (d) For each federally approved directed payment program that is a state-directed fee
233.14 schedule requirement, the commissioner must develop a plan for the initial implementation
233.15 of the state-directed fee schedule requirement to ensure that hospitals receive the entire
233.16 permissible value of the federally approved directed payment. If federal approval of a
233.17 directed payment under this subdivision is retroactive, the commissioner must make a
233.18 onetime pro rata increase to the quarterly payment amount and the initial payments to include
233.19 claims submitted between the retroactive federal approval date and the period captured by
233.20 the initial payments.

233.21 (e) Directed payments under this section must only be used to supplement, and not
233.22 supplant, medical assistance reimbursement to hospitals. The directed payment program
233.23 must not modify, reduce, or offset the medical assistance payment rates determined for each
233.24 hospital as required by section 256.969.

233.25 (f) The commissioner must require health plans to make quarterly directed payments
233.26 according to this section.

233.27 (g) Health plans must make quarterly directed payments using electronic funds transfers,
233.28 if the hospital provides the information necessary to process such transfers, and in accordance
233.29 with directions provided by the commissioner. Health plans must make quarterly directed
233.30 payments:

233.31 (1) for the first two quarters for which such payments are due, within 30 calendar days
233.32 of the date the commissioner issued sufficient payments to the health plan to make the
233.33 directed payments according to this section; and

234.1 (2) for all subsequent quarters, within ten calendar days of the date the commissioner
234.2 issued sufficient payments to the health plan to make the directed payments according to
234.3 this section.

234.4 (h) The commissioner must publish on the Department of Human Services' website, on
234.5 a quarterly basis, the dates that the health plans completed their required quarterly payments
234.6 under this section.

234.7 (i) Payments to health plans that would be paid consistent with actuarial certification
234.8 and enrollment in the absence of the increased capitation payments under this section must
234.9 not be reduced as a result of this section.

234.10 (j) The commissioner must publish all directed payments owed to each hospital from
234.11 each health plan on the department's website for at least two years. All calculations and
234.12 reports must be posted no later than the first day of the quarter for which the payments are
234.13 to be issued.

234.14 (k) By December 1 each year, the commissioner must notify each hospital of any changes
234.15 to the payment methodologies in this section, including but not limited to changes in the
234.16 directed payment rates, the aggregate directed payment amount for all hospitals, and the
234.17 hospital's directed payment amount for the upcoming calendar year.

234.18 (l) The commissioner must distribute payments required under this section for each
234.19 hospital within 30 days of a quarterly assessment under section 256.9657, subdivision 2b,
234.20 being received. The commissioner must pay the directed payments to health plans under
234.21 contract no later than January 1, April 1, July 1, and October 1 each year.

234.22 (m) A hospital is not entitled to payments under this section until the start of the first
234.23 full fiscal year it is an eligible hospital. A hospital that has merged with another hospital
234.24 must have its payments under this section revised at the start of the first full fiscal year after
234.25 the merger is complete. A closed hospital is entitled to the payments under this section for
234.26 services provided through the final date of operations.

234.27 Subd. 4. **Health plan duties; submission of claims.** Each health plan must submit to
234.28 the commissioner, in accordance with its contract with the commissioner to serve as a
234.29 managed care organization in medical assistance, payment information for each claim paid
234.30 to a hospital for services provided to a medical assistance enrollee. Health plans must allow
234.31 each hospital to review the health plan's own paid claims detail to enable proper validation
234.32 that the medical assistance managed care claims volume and content is consistent with the
234.33 hospital's internal records. To support the validation process for the directed payment
234.34 program, health plans must permit the commissioner to share inpatient and outpatient

235.1 claims-level details with hospitals identifying only those claims where the prepaid medical
235.2 assistance program under section 256B.69 is the payer source. Hospitals must provide notice
235.3 of discrepancies in claims paid to the commissioner in a form determined by the
235.4 commissioner. The commissioner is authorized to determine the final disposition of the
235.5 validation process for disputed claims.

235.6 Subd. 5. **Health plan duties; directed payment add-on.** (a) Each health plan must
235.7 make, in accordance with its contract with the commissioner to serve as a managed care
235.8 organization in medical assistance, a directed payment to each hospital. The amount of the
235.9 directed payment to the hospital must be equal to the payment amounts the plan received
235.10 from the commissioner for the hospital.

235.11 (b) Health plans are prohibited from:

235.12 (1) setting, establishing, or negotiating reimbursement rates with a hospital in a manner
235.13 that directly or indirectly takes into account a directed payment that a hospital receives
235.14 under this section;

235.15 (2) unnecessarily delaying a directed payment to a hospital; or

235.16 (3) recouping or offsetting a directed payment for any reason, except as expressly
235.17 authorized by the commissioner.

235.18 Subd. 6. **Hospital duties; quarterly supplemental directed payment add-on.** (a) A
235.19 hospital receiving a directed payment under this section is prohibited from:

235.20 (1) setting, establishing, or negotiating reimbursement rates with a managed care
235.21 organization in a manner that directly or indirectly takes into account a directed payment
235.22 that a hospital receives under this section; or

235.23 (2) directly passing on the cost of an assessment to patients or nonmedical assistance
235.24 payers, including as a fee or rate increase.

235.25 (b) A hospital that violates this subdivision is prohibited from receiving a directed
235.26 payment under this section for the remainder of the rate year. This subdivision does not
235.27 prohibit a hospital from negotiating with a payer for a rate increase.

235.28 (c) Any hospital receiving a directed payment under this section must meet the
235.29 commissioner's standards for directed payments as described in subdivision 7.

235.30 Subd. 7. **State minimum policy goals established.** (a) The effect of the directed
235.31 payments under this section must align with the state's policy goals for medical assistance
235.32 enrollees. The directed payments must be used to maintain quality and access to a full range

236.1 of health care delivery mechanisms for medical assistance enrollees, and specifically provide
236.2 improvement for one of the following quality measures:

236.3 (1) overall well child visit rates;

236.4 (2) maternal depression screening rates; or

236.5 (3) colon cancer screening rates.

236.6 (b) The commissioner, in consultation with the Minnesota Hospital Association, must
236.7 submit to the Centers for Medicare and Medicaid Services quality measures performance
236.8 evaluation criteria and a methodology to regularly measure access to care and the
236.9 achievement of state policy goals described in this subdivision.

236.10 (c) The quality measures evaluation data, as determined by paragraph (b), must be
236.11 reported to the Centers for Medicare and Medicaid Services after at least 12 months of
236.12 directed payments to hospitals.

236.13 Subd. 8. **Administrative review.** Before making the payments required under this
236.14 section, and on at least an annual basis, the commissioner must consult with and provide
236.15 for review of the payment amounts by a permanent select committee established by the
236.16 Minnesota Hospital Association. Any data or information reviewed by members of the
236.17 committee are data not on individuals, as defined in section 13.02. The committee's members
236.18 must not include any current employee or paid consultant of any hospital.

236.19 **EFFECTIVE DATE.** (a) This section is effective the later of January 1, 2026, or federal
236.20 approval for all of the following:

236.21 (1) the amendments in this act to add Minnesota Statutes, section 256.9657, subdivision
236.22 2b; and

236.23 (2) the amendments in this act to this section.

236.24 (b) The commissioner of human services shall notify the revisor of statutes when federal
236.25 approval for all amendments set forth in paragraph (a) is obtained.

236.26 Sec. 15. **[256B.1975] HOSPITAL DIRECTED PAYMENT PROGRAM ACCOUNT.**

236.27 Subdivision 1. **Account established; appropriation.** (a) The hospital directed payment
236.28 program account is created in the special revenue fund in the state treasury.

236.29 (b) Money in the account, including interest earned, is annually appropriated to the
236.30 commissioner for the purposes specified in section 256B.1974.

237.1 (c) Transfers from this account to another fund are prohibited, except as necessary to
237.2 make the payments required under section 256B.1974.

237.3 Subd. 2. **Reports to the legislature.** By January 15, 2027, and each January 15 thereafter,
237.4 the commissioner must submit a report to the chairs and ranking minority members of the
237.5 legislative committees with jurisdiction over health and human services policy and finance
237.6 that details the activities and uses of money in the hospital directed payment program
237.7 account, including the metrics and outcomes of the policy goals established by section
237.8 256B.1974, subdivision 7.

237.9 **EFFECTIVE DATE.** This section is effective on the later of January 1, 2026, or federal

240.2 paragraph to increase payment rates to the providers corresponding to the rate increases.
240.3 The commissioner must monitor the effect of this rate increase on enrollee access to services
240.4 under this subdivision. If for any contract year federal approval is not received for this
240.5 paragraph, the commissioner must adjust the capitation rates paid to managed care plans

240.22 ~~with at least 33 percent of the clients receiving rehabilitation services in the most recent~~
240.23 ~~calendar year who are medical assistance recipients, will be increased by 38 percent, when~~
240.24 ~~those services are provided within the comprehensive outpatient rehabilitation facility and~~
240.25 ~~provided to residents of nursing facilities owned by the entity.~~

240.26 ~~(c) In addition to rate increases otherwise provided, the commissioner may restructure~~
240.27 ~~coverage policy and rates to improve access to adult rehabilitative mental health services~~
240.28 ~~under section 256B.0623 and related mental health support services under section 256B.021,~~

240.34 ~~the rate changes described in this paragraph.~~

~~(d) Any rates effective before July 1, 2015, do not apply to early intensive developmental and behavioral intervention (EIDBI) benefits described in section 256B.0949.~~

For payments made in accordance with this paragraph, if and to the extent that the commissioner identifies that the state has received federal financial participation for behavioral health services in excess of the amount allowed under United States Code, title 42, section 447.321, the state shall repay the excess amount to the Centers for Medicare and Medicaid Services with state money and maintain the full payment rate under this paragraph. This paragraph does not apply to federally qualified health centers, rural health centers, Indian health services, certified community behavioral health clinics, cost-based rates, and rates that are negotiated with the county. This paragraph expires upon legislative implementation of the new rate methodology resulting from the rate analysis required by Laws 2021, First Special Session chapter 7, article 17, section 18.~~

~~(f) Effective January 1, 2024, the commissioner shall increase capitation payments made to managed care plans and county-based purchasing plans to reflect the behavioral health service rate increase provided in paragraph (e). Managed care and county-based purchasing plans must use the capitation rate increase provided under this paragraph to increase payment rates to behavioral health services providers. The commissioner must monitor the effect of this rate increase on enrollee access to behavioral health services. If for any contract year federal approval is not received for this paragraph, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this provision. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must~~

242.1 ~~allow recovery of payments from those providers if capitation rates are adjusted in accordance~~

243.3 Services on January 22, 2024; or

243.4 (2) the payment rates in effect on December 31, 2026.

243.5 Subd. 3. **Capitation payments.** The commissioner must adjust capitation payments
243.6 made to managed care plans and county-based purchasing plans to reflect the behavioral
243.7 health service rates provided in this section. Managed care and county-based purchasing
243.8 plans must reimburse providers at an amount that is at least equal to the fee-for-service rate
243.9 for services under this section. The commissioner must monitor the effect of this rate
243.10 adjustment on enrollee access to behavioral health services. If for any contract year federal
243.11 approval is not received for this subdivision, the commissioner must adjust the capitation
243.12 rates paid to managed care plans and county-based purchasing plans for that contract year
243.13 to reflect the removal of this provision. Contracts between managed care plans and

253.27 company or a significant financial difficulty in providing necessary services to medical
253.28 assistance enrollees. A waiver under this paragraph must be contingent on the health plan
253.29 company's agreement to make assessment payments on an alternative schedule, determined

253.31 impact on the delivery of services to medical assistance enrollees.

(h) In the event of a merger, acquisition, or other transaction that results in the transfer of health plan responsibility to another health plan company or similar entity during calendar years 2026 to 2029, the surviving, acquiring, or controlling health plan company or similar entity shall be responsible for paying the full assessment amount as provided in this section that would have been the responsibility of the health plan company to which that full assessment amount was assessed upon the effective date of the transaction. 275.29 aggression, and other related barriers to being served by community providers; and

If approved by the commissioner, the alternative services must be included in the county's base as well as subsequent years. The commissioner's approval for alternative services must be based on the following criteria:

(1) alternative services exist through the county's family community support services for each child who would otherwise need day treatment services; and

(2) county demographics and geography make the provision of day treatment services cost ineffective and unfeasible.

Subd. 3. **Professional home-based family treatment provided.** (a) By January 1, 1991, county boards must provide or contract for sufficient professional home-based family treatment within the county to meet the needs of each child with ~~severe emotional disturbance~~ serious mental illness who is at risk of ~~out-of-home placement~~ residential treatment or therapeutic foster care due to the child's ~~emotional disturbance~~ mental illness or who is returning to the home from ~~out-of-home placement~~ residential treatment or therapeutic foster care. The child or the child's parent may be required to pay a fee according to section 245.481. The county board shall require that all service providers of professional home-based family treatment set fee schedules approved by the county board that are based on the child's or family's ability to pay. The professional home-based family treatment must be designed to assist each child with ~~severe emotional disturbance~~ serious mental illness who is at risk of or who is returning from ~~out-of-home placement~~ residential treatment or therapeutic foster care and the child's family to:

(1) improve overall family functioning in all areas of life;

(2) treat the child's symptoms of ~~emotional disturbance~~ mental illness that contribute to a risk of ~~out-of-home placement~~ residential treatment or therapeutic foster care;

(3) provide a positive change in the emotional, behavioral, and mental well-being of children and their families; and

(4) reduce risk of ~~out-of-home placement~~ residential treatment or therapeutic foster care for the identified child with ~~severe emotional disturbance~~ serious mental illness and other siblings or successfully reunify and reintegrate into the family a child returning from ~~out-of-home placement~~ residential treatment or therapeutic foster care due to ~~emotional disturbance~~ mental illness.

(b) Professional home-based family treatment must be provided by a team consisting of a mental health professional and others who are skilled in the delivery of mental health services to children and families in conjunction with other human service providers. The professional home-based family treatment team must maintain flexible hours of service availability and must provide or arrange for crisis services for each family, 24 hours a day, seven days a week. Case loads for each professional home-based family treatment team must be small enough to permit the delivery of intensive services and to meet the needs of the family. Professional home-based family treatment providers shall coordinate services and service needs with case managers assigned to children and their families. The treatment team must develop an individual treatment plan that identifies the specific treatment objectives for both the child and the family.

Subd. 4. **Therapeutic support of foster care.** By January 1, 1992, county boards must provide or contract for foster care with therapeutic support as defined in section 245.4871, subdivision 34. Subd. 5. **Benefits assistance.** The county board must offer help to a child with ~~severe emotional disturbance~~ serious mental illness and the child's family in applying for federal benefits, including Supplemental Security Income, medical assistance, and Medicare.

Sec. 41. Minnesota Statutes 2024, section 245.4885, subdivision 1, is amended to read:

Subdivision 1. **Admission criteria.** (a) Prior to admission or placement, except in the case of an emergency, all children referred for treatment of ~~severe emotional disturbance~~ serious mental illness in a treatment foster care setting, residential treatment facility, or informally admitted to a regional treatment center shall undergo an assessment to determine the appropriate level of care if county funds are used to pay for the child's services. An emergency includes when a child is in need of and has been referred for crisis stabilization services under section 245.4882, subdivision 6. A child who has been referred to residential treatment for crisis stabilization services in a residential treatment center is not required to undergo an assessment under this section.

(b) The county board shall determine the appropriate level of care for a child when county-controlled funds are used to pay for the child's residential treatment under this chapter, including residential treatment provided in a qualified residential treatment program as defined in section 260C.007, subdivision 26d. When a county board does not have responsibility for a child's placement and the child is enrolled in a prepaid health program

336.1 under section 256B.69, the enrolled child's contracted health plan must determine the
336.2 appropriate level of care for the child. When Indian Health Services funds or funds of a
336.3 tribally owned facility funded under the Indian Self-Determination and Education Assistance
336.4 Act, Public Law 93-638, are used for the child, the Indian Health Services or 638 tribal
336.5 health facility must determine the appropriate level of care for the child. When more than
336.6 one entity bears responsibility for a child's coverage, the entities shall coordinate level of
336.7 care determination activities for the child to the extent possible.

336.8 (c) The child's level of care determination shall determine whether the proposed treatment:

336.9 (1) is necessary;

336.10 (2) is appropriate to the child's individual treatment needs;

336.11 (3) cannot be effectively provided in the child's home; and

336.12 (4) provides a length of stay as short as possible consistent with the individual child's
336.13 needs.

336.14 (d) When a level of care determination is conducted, the county board or other entity
336.15 may not determine that a screening of a child, referral, or admission to a residential treatment
336.16 facility is not appropriate solely because services were not first provided to the child in a
336.17 less restrictive setting and the child failed to make progress toward or meet treatment goals
336.18 in the less restrictive setting. The level of care determination must be based on a diagnostic
336.19 assessment of a child that evaluates the child's family, school, and community living
336.20 situations; and an assessment of the child's need for care out of the home using a validated
336.21 tool which assesses a child's functional status and assigns an appropriate level of care to the
336.22 child. The validated tool must be approved by the commissioner of human services and
336.23 may be the validated tool approved for the child's assessment under section 260C.704 if the
336.24 juvenile treatment screening team recommended placement of the child in a qualified
336.25 residential treatment program. If a diagnostic assessment has been completed by a mental
336.26 health professional within the past 180 days, a new diagnostic assessment need not be
336.27 completed unless in the opinion of the current treating mental health professional the child's
336.28 mental health status has changed markedly since the assessment was completed. The child's
336.29 parent shall be notified if an assessment will not be completed and of the reasons. A copy
336.30 of the notice shall be placed in the child's file. Recommendations developed as part of the
336.31 level of care determination process shall include specific community services needed by
336.32 the child and, if appropriate, the child's family, and shall indicate whether these services
336.33 are available and accessible to the child and the child's family. The child and the child's
336.34 family must be invited to any meeting where the level of care determination is discussed

337.1 and decisions regarding residential treatment are made. The child and the child's family
337.2 may invite other relatives, friends, or advocates to attend these meetings.

337.3 (e) During the level of care determination process, the child, child's family, or child's
337.4 legal representative, as appropriate, must be informed of the child's eligibility for case
337.5 management services and family community support services and that an individual family
337.6 community support plan is being developed by the case manager, if assigned.

337.7 (f) The level of care determination, placement decision, and recommendations for mental
337.8 health services must be documented in the child's record and made available to the child's
337.9 family, as appropriate.

337.10 Sec. 42. Minnesota Statutes 2024, section 245.4889, subdivision 1, is amended to read:

356.22 (3) a day treatment program is provided to a group of clients by a team under the treatment
356.23 supervision of a mental health professional. The day treatment program must be provided
356.24 in and by: (i) an outpatient hospital accredited by the Joint Commission on Accreditation
356.25 of Health Organizations and licensed under sections 144.50 to 144.55; (ii) a community
356.26 mental health center under section 245.62; or (iii) an entity that is certified under subdivision
356.27 4 to operate a program that meets the requirements of section 245.4884, subdivision 2, and
356.28 Minnesota Rules, parts 9505.0170 to 9505.0475. The day treatment program must stabilize
356.29 the client's mental health status while developing and improving the client's independent
356.30 living and socialization skills. The goal of the day treatment program must be to reduce or
356.31 relieve the effects of mental illness and provide training to enable the client to live in the
356.32 community. The remainder of the structured treatment program may include patient and/or
356.33 family or group psychotherapy, and individual or group skills training, if included in the

357.1 client's individual treatment plan. Day treatment programs are not part of inpatient or
357.2 residential treatment services. When a day treatment group that meets the minimum group
357.3 size requirement temporarily falls below the minimum group size because of a member's
357.4 temporary absence, medical assistance covers a group session conducted for the group
357.5 members in attendance. A day treatment program may provide fewer than the minimally
357.6 required hours for a particular child during a billing period in which the child is transitioning
357.7 into, or out of, the program.

357.8 (b) To be eligible for medical assistance payment, a provider entity must deliver the
357.9 service components of children's therapeutic services and supports in compliance with the
357.10 following requirements:

357.11 (1) psychotherapy to address the child's underlying mental health disorder must be
357.12 documented as part of the child's ongoing treatment. A provider must deliver or arrange for
357.13 medically necessary psychotherapy unless the child's parent or caregiver chooses not to
357.14 receive it or the provider determines that psychotherapy is no longer medically necessary.
357.15 When a provider determines that psychotherapy is no longer medically necessary, the
357.16 provider must update required documentation, including but not limited to the individual
357.17 treatment plan, the child's medical record, or other authorizations, to include the
357.18 determination. When a provider determines that a child needs psychotherapy but
357.19 psychotherapy cannot be delivered due to a shortage of licensed mental health professionals
357.20 in the child's community, the provider must document the lack of access in the child's
357.21 medical record;

357.22 (2) individual, family, or group skills training is subject to the following requirements:

357.23 (i) a mental health professional, clinical trainee, or mental health practitioner shall provide
357.24 skills training;

357.25 (ii) skills training delivered to a child or the child's family must be targeted to the specific
357.26 deficits or maladaptations of the child's mental health disorder and must be prescribed in
357.27 the child's individual treatment plan;

357.28 (iii) group skills training may be provided to multiple recipients who, because of the
357.29 nature of their emotional, behavioral, or social dysfunction, can derive mutual benefit from
357.30 interaction in a group setting, which must be staffed as follows:

357.31 (A) one mental health professional, clinical trainee, or mental health practitioner must
357.32 work with a group of three to eight clients; or

(B) any combination of two mental health professionals, clinical trainees, or mental health practitioners must work with a group of nine to 12 clients;

(iv) a mental health professional, clinical trainee, or mental health practitioner must have taught the psychosocial skill before a mental health behavioral aide may practice that skill with the client; and

(v) for group skills training, when a skills group that meets the minimum group size requirement temporarily falls below the minimum group size because of a group member's temporary absence, the provider may conduct the session for the group members in attendance;

(3) crisis planning to a child and family must include development of a written plan that anticipates the particular factors specific to the child that may precipitate a psychiatric crisis for the child in the near future. The written plan must document actions that the family should be prepared to take to resolve or stabilize a crisis, such as advance arrangements for direct intervention and support services to the child and the child's family. Crisis planning must include preparing resources designed to address abrupt or substantial changes in the functioning of the child or the child's family when sudden change in behavior or a loss of usual coping mechanisms is observed, or the child begins to present a danger to self or others;

(4) mental health behavioral aide services must be medically necessary treatment services, identified in the child's individual treatment plan.

To be eligible for medical assistance payment, mental health behavioral aide services must be delivered to a child who has been diagnosed with ~~an emotional disturbance or~~ a mental illness, as provided in subdivision 1, paragraph (a). The mental health behavioral aide must document the delivery of services in written progress notes. Progress notes must reflect implementation of the treatment strategies, as performed by the mental health behavioral aide and the child's responses to the treatment strategies; and

(5) mental health service plan development must be performed in consultation with the child's family and, when appropriate, with other key participants in the child's life by the child's treating mental health professional or clinical trainee or by a mental health practitioner and approved by the treating mental health professional. Treatment plan drafting consists of development, review, and revision by face-to-face or electronic communication. The provider must document events, including the time spent with the family and other key participants in the child's life to approve the individual treatment plan. Medical assistance covers service plan development before completion of the child's individual treatment plan.

359.1 Service plan development is covered only if a treatment plan is completed for the child. If
359.2 upon review it is determined that a treatment plan was not completed for the child, the
359.3 commissioner shall recover the payment for the service plan development.

359.4 Sec. 65. Minnesota Statutes 2024, section 256B.0943, subdivision 12, is amended to read:

359.5 Subd. 12. **Excluded services.** The following services are not eligible for medical
359.6 assistance payment as children's therapeutic services and supports:

359.7 (1) service components of children's therapeutic services and supports simultaneously
359.8 provided by more than one provider entity unless prior authorization is obtained;

359.9 (2) treatment by multiple providers within the same agency at the same clock time,
359.10 unless one service is delivered to the child and the other service is delivered to the child's
359.11 family or treatment team without the child present;

359.12 (3) children's therapeutic services and supports provided in violation of medical assistance
359.13 policy in Minnesota Rules, part 9505.0220;

359.14 (4) mental health behavioral aide services provided by a personal care assistant who is
359.15 not qualified as a mental health behavioral aide and employed by a certified children's
359.16 therapeutic services and supports provider entity;

359.17 (5) service components of CTSS that are the responsibility of a residential or program
359.18 license holder, including foster care providers under the terms of a service agreement or
359.19 administrative rules governing licensure; and

359.20 (6) adjunctive activities that may be offered by a provider entity but are not otherwise
359.21 covered by medical assistance, including:

359.22 (i) a service that is primarily recreation oriented or that is provided in a setting that is
359.23 not medically supervised. This includes sports activities, exercise groups, activities such as
359.24 craft hours, leisure time, social hours, meal or snack time, trips to community activities,
359.25 and tours;

359.26 (ii) a social or educational service that does not have or cannot reasonably be expected
359.27 to have a therapeutic outcome related to the client's ~~emotional disturbance~~ mental illness;

359.28 (iii) prevention or education programs provided to the community; and

359.29 (iv) treatment for clients with primary diagnoses of alcohol or other drug abuse.

Sec. 66. Minnesota Statutes 2024, section 256B.0943, subdivision 13, is amended to read:

Subd. 13. **Exception to excluded services.** Notwithstanding subdivision 12, up to 15 hours of children's therapeutic services and supports provided within a six-month period to a child with ~~severe emotional disturbance~~ serious mental illness who is residing in a hospital; a residential treatment facility licensed under Minnesota Rules, parts 2960.0580 to 2960.0690; a psychiatric residential treatment facility under section 256B.0625, subdivision 45a; a regional treatment center; or other institutional group setting or who is participating in a program of partial hospitalization are eligible for medical assistance payment if part of the discharge plan.

Subdivision 1. **Residential services; provider qualifications.** (a) Counties must arrange to provide residential services for children with ~~severe emotional disturbance~~ serious mental illness according to sections 245.4882, 245.4885, and this section.

(b) Services must be provided by a facility that is licensed according to section 245.4882 and administrative rules promulgated thereunder, and under contract with the county.

(2) the commissioner of human services has completed an inspection of the out-of-state program according to the interagency agreement with the commissioner of corrections under section 260B.198, subdivision 11, paragraph (b), and the program has been certified by the commissioner of corrections under section 260B.198, subdivision 11, paragraph (a), to substantially meet the standards applicable to children's residential mental health treatment programs under Minnesota Rules, chapter 2960. Nothing in this section requires the commissioner of human services to enforce the background study requirements under chapter 245C or the requirements related to prevention and investigation of alleged maltreatment under section 626.557 or chapter 260E. Complaints received by the commissioner of human services must be referred to the out-of-state licensing authority for possible follow-up.

(d) Notwithstanding paragraph (b), eligible service costs may be claimed for an out-of-state inpatient treatment facility if:

(1) the facility specializes in providing mental health services to children who are deaf, deafblind, or hard-of-hearing and who use American Sign Language as their first language;

361.1 (2) the facility is licensed by the state in which it is located; and

361.5 Subd. 6. **Excluded services.** (a) Services in clauses (1) to (7) are not covered under this
361.6 section and are not eligible for medical assistance payment as components of children's
361.7 intensive behavioral health services, but may be billed separately:

361.8 (1) inpatient psychiatric hospital treatment;

361.9 (2) mental health targeted case management;

361.10 (3) partial hospitalization;

362.25 subdivision 11; and

362.26 (13) housing access support that assists clients to find, obtain, retain, and move to safe
362.27 and adequate housing. Housing access support does not provide monetary assistance for
362.28 rent, damage deposits, or application fees.

362.29 (b) The provider shall ensure and document the following by means of performing the
362.30 required function or by contracting with a qualified person or entity: client access to crisis

363.1 intervention services, as defined in section 256B.0624, and available 24 hours per day and
363.2 seven days per week.

363.3 Sec. 70. Minnesota Statutes 2024, section 256B.69, subdivision 23, is amended to read:

363.4 Subd. 23. **Alternative services; elderly persons and persons with a disability.** (a) The
363.5 commissioner may implement demonstration projects to create alternative integrated delivery
363.6 systems for acute and long-term care services to elderly persons and persons with disabilities
363.7 as defined in section 256B.77, subdivision 7a, that provide increased coordination, improve
363.8 access to quality services, and mitigate future cost increases. The commissioner may seek
363.9 federal authority to combine Medicare and Medicaid capitation payments for the purpose
363.10 of such demonstrations and may contract with Medicare-approved special needs plans that
363.11 are offered by a demonstration provider or by an entity that is directly or indirectly wholly
363.12 owned or controlled by a demonstration provider to provide Medicaid services. Medicare
363.13 funds and services shall be administered according to the terms and conditions of the federal
363.14 contract and demonstration provisions. For the purpose of administering medical assistance
363.15 funds, demonstrations under this subdivision are subject to subdivisions 1 to 22. The
363.16 provisions of Minnesota Rules, parts 9500.1450 to 9500.1464, apply to these demonstrations,
363.17 with the exceptions of parts 9500.1452, subpart 2, item B; and 9500.1457, subpart 1, items
363.18 B and C, which do not apply to persons enrolling in demonstrations under this section. All
363.19 enforcement and rulemaking powers available under chapters 62D, 62M, and 62Q are hereby
363.20 granted to the commissioner of health with respect to Medicare-approved special needs
363.21 plans with which the commissioner contracts to provide Medicaid services under this section.
363.22 An initial open enrollment period may be provided. Persons who disenroll from
363.23 demonstrations under this subdivision remain subject to Minnesota Rules, parts 9500.1450
363.24 to 9500.1464. When a person is enrolled in a health plan under these demonstrations and
363.25 the health plan's participation is subsequently terminated for any reason, the person shall
363.26 be provided an opportunity to select a new health plan and shall have the right to change
363.27 health plans within the first 60 days of enrollment in the second health plan. Persons required
363.28 to participate in health plans under this section who fail to make a choice of health plan
363.29 shall not be randomly assigned to health plans under these demonstrations. Notwithstanding
363.30 section 256L.12, subdivision 5, and Minnesota Rules, part 9505.5220, subpart 1, item A,
363.31 if adopted, for the purpose of demonstrations under this subdivision, the commissioner may
363.32 contract with managed care organizations, including counties, to serve only elderly persons
363.33 eligible for medical assistance, elderly persons with a disability, or persons with a disability
363.34 only. For persons with a primary diagnosis of developmental disability, serious and persistent
363.35 mental illness, or serious ~~emotional disturbance~~ mental illness in children, the commissioner

364.1 must ensure that the county authority has approved the demonstration and contracting design.
364.2 Enrollment in these projects for persons with disabilities shall be voluntary. The
364.3 commissioner shall not implement any demonstration project under this subdivision for
364.4 persons with a primary diagnosis of developmental disabilities, serious and persistent mental
364.5 illness, or serious ~~emotional disturbance~~, mental illness in children without approval of the
364.6 county board of the county in which the demonstration is being implemented.

364.7 (b) MS 2009 Supplement [Expired, 2003 c 47 s 4; 2007 c 147 art 7 s 60]

364.8 (c) Before implementation of a demonstration project for persons with a disability, the
364.9 commissioner must provide information to appropriate committees of the house of
364.10 representatives and senate and must involve representatives of affected disability groups in
364.11 the design of the demonstration projects.

364.12 (d) A nursing facility reimbursed under the alternative reimbursement methodology in
364.13 section 256B.434 may, in collaboration with a hospital, clinic, or other health care entity
364.14 provide services under paragraph (a). The commissioner shall amend the state plan and seek
364.15 any federal waivers necessary to implement this paragraph.

364.16 (e) The commissioner, in consultation with the commissioners of commerce and health,
364.17 may approve and implement programs for all-inclusive care for the elderly (PACE) according
364.18 to federal laws and regulations governing that program and state laws or rules applicable
364.19 to participating providers. A PACE provider is not required to be licensed or certified as a
364.20 health plan company as defined in section 62Q.01, subdivision 4. Persons age 55 and older
364.21 who have been screened by the county and found to be eligible for services under the elderly
364.22 waiver or community access for disability inclusion or who are already eligible for Medicaid
364.23 but meet level of care criteria for receipt of waiver services may choose to enroll in the
364.24 PACE program. Medicare and Medicaid services will be provided according to this
364.25 subdivision and federal Medicare and Medicaid requirements governing PACE providers
364.26 and programs. PACE enrollees will receive Medicaid home and community-based services
364.27 through the PACE provider as an alternative to services for which they would otherwise be
364.28 eligible through home and community-based waiver programs and Medicaid State Plan
364.29 Services. The commissioner shall establish Medicaid rates for PACE providers that do not
364.30 exceed costs that would have been incurred under fee-for-service or other relevant managed
364.31 care programs operated by the state.

364.32 (f) The commissioner shall seek federal approval to expand the Minnesota disability
364.33 health options (MnDHO) program established under this subdivision in stages, first to
364.34 regional population centers outside the seven-county metro area and then to all areas of the

state. Until July 1, 2009, expansion for MnDHO projects that include home and community-based services is limited to the two projects and service areas in effect on March 1, 2006. Enrollment in integrated MnDHO programs that include home and community-based services shall remain voluntary. Costs for home and community-based services included under MnDHO must not exceed costs that would have been incurred under the fee-for-service program. Notwithstanding whether expansion occurs under this paragraph, in determining MnDHO payment rates and risk adjustment methods, the commissioner must consider the methods used to determine county allocations for home and community-based program participants. If necessary to reduce MnDHO rates to comply with the provision regarding MnDHO costs for home and community-based services, the commissioner shall achieve the reduction by maintaining the base rate for contract year 2010 for services provided under the community access for disability inclusion waiver at the same level as for contract year 2009. The commissioner may apply other reductions to MnDHO rates to implement decreases in provider payment rates required by state law. Effective January 1, 2011, enrollment and operation of the MnDHO program in effect during 2010 shall cease. The commissioner may reopen the program provided all applicable conditions of this section are met. In developing program specifications for expansion of integrated programs, the commissioner shall involve and consult the state-level stakeholder group established in subdivision 28, paragraph (d), including consultation on whether and how to include home and community-based waiver programs. Plans to reopen MnDHO projects shall be presented to the chairs of the house of representatives and senate committees with jurisdiction over health and human services policy and finance prior to implementation.

(g) Notwithstanding section 256B.0621, health plans providing services under this section are responsible for home care targeted case management and relocation targeted case management. Services must be provided according to the terms of the waivers and contracts approved by the federal government.

Sec. 71. Minnesota Statutes 2024, section 256B.77, subdivision 7a, is amended to read:

Subd. 7a. **Eligible individuals.** (a) Persons are eligible for the demonstration project as provided in this subdivision.

(b) "Eligible individuals" means those persons living in the demonstration site who are eligible for medical assistance and are disabled based on a disability determination under section 256B.055, subdivisions 7 and 12, or who are eligible for medical assistance and have been diagnosed as having:

(1) serious and persistent mental illness as defined in section 245.462, subdivision 20;

366.1 (2) ~~severe emotional disturbance~~ serious mental illness as defined in section 245.4871,
366.2 subdivision 6; or

366.3 (3) developmental disability, or being a person with a developmental disability as defined
366.4 in section 252A.02, or a related condition as defined in section 256B.02, subdivision 11.

366.5 Other individuals may be included at the option of the county authority based on agreement
366.6 with the commissioner.

366.7 (c) Eligible individuals include individuals in excluded time status, as defined in chapter
366.8 256G. Enrollees in excluded time at the time of enrollment shall remain in excluded time
366.9 status as long as they live in the demonstration site and shall be eligible for 90 days after
366.10 placement outside the demonstration site if they move to excluded time status in a county
366.11 within Minnesota other than their county of financial responsibility.

366.12 (d) A person who is a sexual psychopathic personality as defined in section 253D.02,
366.13 subdivision 15, or a sexually dangerous person as defined in section 253D.02, subdivision
366.14 16, is excluded from enrollment in the demonstration project.

366.15 Sec. 72. Minnesota Statutes 2024, section 260B.157, subdivision 3, is amended to read:

366.16 Subd. 3. **Juvenile treatment screening team.** (a) The local social services agency shall
366.17 establish a juvenile treatment screening team to conduct screenings and prepare case plans
366.18 under this subdivision. The team, which may be the team constituted under section 245.4885
366.19 or 256B.092 or chapter 254B, shall consist of social workers, juvenile justice professionals,
366.20 and persons with expertise in the treatment of juveniles who are emotionally disabled,
366.21 chemically dependent, or have a developmental disability. The team shall involve parents
366.22 or guardians in the screening process as appropriate. The team may be the same team as
366.23 defined in section 260C.157, subdivision 3.

366.24 (b) If the court, prior to, or as part of, a final disposition, proposes to place a child:

366.25 (1) for the primary purpose of treatment for ~~an emotional disturbance~~ mental illness,
366.26 and residential placement is consistent with section 260.012, a developmental disability, or
366.27 chemical dependency in a residential treatment facility out of state or in one which is within
366.28 the state and licensed by the commissioner of human services under chapter 245A; or

366.29 (2) in any out-of-home setting potentially exceeding 30 days in duration, including a
366.30 post-dispositional placement in a facility licensed by the commissioner of corrections or
366.31 human services, the court shall notify the county welfare agency. The county's juvenile
366.32 treatment screening team must either:

367.1 (i) screen and evaluate the child and file its recommendations with the court within 14
367.2 days of receipt of the notice; or

367.3 (ii) elect not to screen a given case, and notify the court of that decision within three
367.4 working days.

367.5 (c) If the screening team has elected to screen and evaluate the child, the child may not
367.6 be placed for the primary purpose of treatment for ~~an emotional disturbance~~ mental illness,
367.7 a developmental disability, or chemical dependency, in a residential treatment facility out
367.8 of state nor in a residential treatment facility within the state that is licensed under chapter
367.9 245A, unless one of the following conditions applies:

367.10 (1) a treatment professional certifies that an emergency requires the placement of the
367.11 child in a facility within the state;

367.12 (2) the screening team has evaluated the child and recommended that a residential
367.13 placement is necessary to meet the child's treatment needs and the safety needs of the
367.14 community, that it is a cost-effective means of meeting the treatment needs, and that it will
367.15 be of therapeutic value to the child; or

367.16 (3) the court, having reviewed a screening team recommendation against placement,
367.17 determines to the contrary that a residential placement is necessary. The court shall state
367.18 the reasons for its determination in writing, on the record, and shall respond specifically to
367.19 the findings and recommendation of the screening team in explaining why the
367.20 recommendation was rejected. The attorney representing the child and the prosecuting
367.21 attorney shall be afforded an opportunity to be heard on the matter.

367.22 Sec. 73. Minnesota Statutes 2024, section 260C.007, subdivision 16, is amended to read:

367.23 Subd. 16. ~~Emotionally disturbed~~ **Mental illness.** "~~Emotionally disturbed~~ Mental illness"

368.28 residential treatment facility under section 256B.0941 or a family foster home as defined

368.29 in section 260C.007, subdivision 16b.

369.1 Sec. 76. Minnesota Statutes 2024, section 260C.157, subdivision 3, is amended to read:

369.2 Subd. 3. **Juvenile treatment screening team.** (a) The responsible social services agency
369.3 shall establish a juvenile treatment screening team to conduct screenings under this chapter
369.4 and chapter 260D, for a child to receive treatment for ~~an emotional disturbance~~ a mental
369.5 illness, a developmental disability, or related condition in a residential treatment facility
369.6 licensed by the commissioner of human services under chapter 245A, or licensed or approved
369.7 by a tribe. A screening team is not required for a child to be in: (1) a residential facility
369.8 specializing in prenatal, postpartum, or parenting support; (2) a facility specializing in
369.9 high-quality residential care and supportive services to children and youth who have been
369.10 or are at risk of becoming victims of sex trafficking or commercial sexual exploitation; (3)
369.11 supervised settings for youth who are 18 years of age or older and living independently; or
369.12 (4) a licensed residential family-based treatment facility for substance abuse consistent with
369.13 section 260C.190. Screenings are also not required when a child must be placed in a facility
369.14 due to an emotional crisis or other mental health emergency.

369.15 (b) The responsible social services agency shall conduct screenings within 15 days of a
369.16 request for a screening, unless the screening is for the purpose of residential treatment and
369.17 the child is enrolled in a prepaid health program under section 256B.69, in which case the
369.18 agency shall conduct the screening within ten working days of a request. The responsible
369.19 social services agency shall convene the juvenile treatment screening team, which may be
369.20 constituted under section 245.4885, 254B.05, or 256B.092. The team shall consist of social
369.21 workers; persons with expertise in the treatment of juveniles who are emotionally disturbed,
369.22 chemically dependent, or have a developmental disability; and the child's parent, guardian,
369.23 or permanent legal custodian. The team may include the child's relatives as defined in section
369.24 260C.007, subdivisions 26b and 27, the child's foster care provider, and professionals who
369.25 are a resource to the child's family such as teachers, medical or mental health providers,
369.26 and clergy, as appropriate, consistent with the family and permanency team as defined in
369.27 section 260C.007, subdivision 16a. Prior to forming the team, the responsible social services
369.28 agency must consult with the child's parents, the child if the child is age 14 or older, and,
369.29 if applicable, the child's tribe to obtain recommendations regarding which individuals to
369.30 include on the team and to ensure that the team is family-centered and will act in the child's
369.31 best interests. If the child, child's parents, or legal guardians raise concerns about specific
369.32 relatives or professionals, the team should not include those individuals. This provision
369.33 does not apply to paragraph (c).

369.34 (c) If the agency provides notice to tribes under section 260.761, and the child screened
369.35 is an Indian child, the responsible social services agency must make a rigorous and concerted

370.1 effort to include a designated representative of the Indian child's tribe on the juvenile
370.2 treatment screening team, unless the child's tribal authority declines to appoint a
370.3 representative. The Indian child's tribe may delegate its authority to represent the child to
370.4 any other federally recognized Indian tribe, as defined in section 260.755, subdivision 12.
370.5 The provisions of the Indian Child Welfare Act of 1978, United States Code, title 25, sections
370.6 1901 to 1963, and the Minnesota Indian Family Preservation Act, sections 260.751 to
370.7 260.835, apply to this section.

370.8 (d) If the court, prior to, or as part of, a final disposition or other court order, proposes
370.9 to place a child with ~~an emotional disturbance or~~ a mental illness, developmental disability,
370.10 or related condition in residential treatment, the responsible social services agency must
370.11 conduct a screening. If the team recommends treating the child in a qualified residential
370.12 treatment program, the agency must follow the requirements of sections 260C.70 to
370.13 260C.714.

370.14 The court shall ascertain whether the child is an Indian child and shall notify the
370.15 responsible social services agency and, if the child is an Indian child, shall notify the Indian
370.16 child's tribe as paragraph (c) requires.

370.17 (e) When the responsible social services agency is responsible for placing and caring
370.18 for the child and the screening team recommends placing a child in a qualified residential
370.19 treatment program as defined in section 260C.007, subdivision 26d, the agency must: (1)
370.20 begin the assessment and processes required in section 260C.704 without delay; and (2)
370.21 conduct a relative search according to section 260C.221 to assemble the child's family and
370.22 permanency team under section 260C.706. Prior to notifying relatives regarding the family
370.23 and permanency team, the responsible social services agency must consult with the child's
370.24 parent or legal guardian, the child if the child is age 14 or older, and, if applicable, the child's
370.25 tribe to ensure that the agency is providing notice to individuals who will act in the child's
370.26 best interests. The child and the child's parents may identify a culturally competent qualified
370.27 individual to complete the child's assessment. The agency shall make efforts to refer the
370.28 assessment to the identified qualified individual. The assessment may not be delayed for
370.29 the purpose of having the assessment completed by a specific qualified individual.

370.30 (f) When a screening team determines that a child does not need treatment in a qualified
370.31 residential treatment program, the screening team must:

370.32 (1) document the services and supports that will prevent the child's foster care placement
370.33 and will support the child remaining at home;

371.1 (2) document the services and supports that the agency will arrange to place the child
371.2 in a family foster home; or

371.3 (3) document the services and supports that the agency has provided in any other setting.

371.4 (g) When the Indian child's tribe or tribal health care services provider or Indian Health
371.5 Services provider proposes to place a child for the primary purpose of treatment for ~~an~~
371.6 ~~emotional disturbance~~ mental illness, a developmental disability, or co-occurring ~~emotional~~
371.7 ~~disturbance~~ mental illness and chemical dependency, the Indian child's tribe or the tribe
371.8 delegated by the child's tribe shall submit necessary documentation to the county juvenile
371.9 treatment screening team, which must invite the Indian child's tribe to designate a
371.10 representative to the screening team.

371.11 (h) The responsible social services agency must conduct and document the screening in
371.12 a format approved by the commissioner of human services.

371.13 Sec. 77. Minnesota Statutes 2024, section 260C.201, subdivision 1, is amended to read:

371.14 Subdivision 1. **Dispositions.** (a) If the court finds that the child is in need of protection
371.15 or services or neglected and in foster care, the court shall enter an order making any of the
371.16 following dispositions of the case:

371.17 (1) place the child under the protective supervision of the responsible social services
371.18 agency or child-placing agency in the home of a parent of the child under conditions
371.19 prescribed by the court directed to the correction of the child's need for protection or services:

371.20 (i) the court may order the child into the home of a parent who does not otherwise have
371.21 legal custody of the child, however, an order under this section does not confer legal custody
371.22 on that parent;

371.23 (ii) if the court orders the child into the home of a father who is not adjudicated, the
371.24 father must cooperate with paternity establishment proceedings regarding the child in the
371.25 appropriate jurisdiction as one of the conditions prescribed by the court for the child to
371.26 continue in the father's home; and

371.27 (iii) the court may order the child into the home of a noncustodial parent with conditions
371.28 and may also order both the noncustodial and the custodial parent to comply with the
371.29 requirements of a case plan under subdivision 2; or

371.30 (2) transfer legal custody to one of the following:

371.31 (i) a child-placing agency; or

372.1 (ii) the responsible social services agency. In making a foster care placement of a child
372.2 whose custody has been transferred under this subdivision, the agency shall make an
372.3 individualized determination of how the placement is in the child's best interests using the
372.4 placement consideration order for relatives and the best interest factors in section 260C.212,
372.5 subdivision 2, and may include a child colocated with a parent in a licensed residential
372.6 family-based substance use disorder treatment program under section 260C.190; or

372.7 (3) order a trial home visit without modifying the transfer of legal custody to the
372.8 responsible social services agency under clause (2). Trial home visit means the child is
372.9 returned to the care of the parent or guardian from whom the child was removed for a period
372.10 not to exceed six months. During the period of the trial home visit, the responsible social
372.11 services agency:

372.12 (i) shall continue to have legal custody of the child, which means that the agency may
372.13 see the child in the parent's home, at school, in a child care facility, or other setting as the
372.14 agency deems necessary and appropriate;

372.15 (ii) shall continue to have the ability to access information under section 260C.208;

372.16 (iii) shall continue to provide appropriate services to both the parent and the child during
372.17 the period of the trial home visit;

372.18 (iv) without previous court order or authorization, may terminate the trial home visit in
372.19 order to protect the child's health, safety, or welfare and may remove the child to foster care;

372.20 (v) shall advise the court and parties within three days of the termination of the trial
372.21 home visit when a visit is terminated by the responsible social services agency without a
372.22 court order; and

372.23 (vi) shall prepare a report for the court when the trial home visit is terminated whether
372.24 by the agency or court order that describes the child's circumstances during the trial home
372.25 visit and recommends appropriate orders, if any, for the court to enter to provide for the
372.26 child's safety and stability. In the event a trial home visit is terminated by the agency by
372.27 removing the child to foster care without prior court order or authorization, the court shall
372.28 conduct a hearing within ten days of receiving notice of the termination of the trial home
372.29 visit by the agency and shall order disposition under this subdivision or commence
372.30 permanency proceedings under sections 260C.503 to 260C.515. The time period for the
372.31 hearing may be extended by the court for good cause shown and if it is in the best interests
372.32 of the child as long as the total time the child spends in foster care without a permanency
372.33 hearing does not exceed 12 months;

373.1 (4) if the child has been adjudicated as a child in need of protection or services because
373.2 the child is in need of special services or care to treat or ameliorate a physical or mental
373.3 disability or ~~emotional disturbance~~ mental illness as defined in section 245.4871, subdivision
373.4 15, the court may order the child's parent, guardian, or custodian to provide it. The court
373.5 may order the child's health plan company to provide mental health services to the child.
373.6 Section 62Q.535 applies to an order for mental health services directed to the child's health
373.7 plan company. If the health plan, parent, guardian, or custodian fails or is unable to provide
373.8 this treatment or care, the court may order it provided. Absent specific written findings by
373.9 the court that the child's disability is the result of abuse or neglect by the child's parent or
373.10 guardian, the court shall not transfer legal custody of the child for the purpose of obtaining
373.11 special treatment or care solely because the parent is unable to provide the treatment or care.
373.12 If the court's order for mental health treatment is based on a diagnosis made by a treatment
373.13 professional, the court may order that the diagnosing professional not provide the treatment
373.14 to the child if it finds that such an order is in the child's best interests; or

373.15 (5) if the court believes that the child has sufficient maturity and judgment and that it is
373.16 in the best interests of the child, the court may order a child 16 years old or older to be
373.17 allowed to live independently, either alone or with others as approved by the court under
373.18 supervision the court considers appropriate, if the county board, after consultation with the
373.19 court, has specifically authorized this dispositional alternative for a child.

373.20 (b) If the child was adjudicated in need of protection or services because the child is a
373.21 runaway or habitual truant, the court may order any of the following dispositions in addition
373.22 to or as alternatives to the dispositions authorized under paragraph (a):

373.23 (1) counsel the child or the child's parents, guardian, or custodian;

373.24 (2) place the child under the supervision of a probation officer or other suitable person
373.25 in the child's own home under conditions prescribed by the court, including reasonable rules
373.26 for the child's conduct and the conduct of the parents, guardian, or custodian, designed for
373.27 the physical, mental, and moral well-being and behavior of the child;

373.28 (3) subject to the court's supervision, transfer legal custody of the child to one of the
373.29 following:

373.30 (i) a reputable person of good moral character. No person may receive custody of two
373.31 or more unrelated children unless licensed to operate a residential program under sections
373.32 245A.01 to 245A.16; or

373.33 (ii) a county probation officer for placement in a group foster home established under
373.34 the direction of the juvenile court and licensed pursuant to section 241.021;

(4) require the child to pay a fine of up to \$100. The court shall order payment of the fine in a manner that will not impose undue financial hardship upon the child;

(5) require the child to participate in a community service project;

(6) order the child to undergo a chemical dependency evaluation and, if warranted by the evaluation, order participation by the child in a drug awareness program or an inpatient or outpatient chemical dependency treatment program;

(7) if the court believes that it is in the best interests of the child or of public safety that the child's driver's license or instruction permit be canceled, the court may order the commissioner of public safety to cancel the child's license or permit for any period up to the child's 18th birthday. If the child does not have a driver's license or permit, the court may order a denial of driving privileges for any period up to the child's 18th birthday. The court shall forward an order issued under this clause to the commissioner, who shall cancel the license or permit or deny driving privileges without a hearing for the period specified by the court. At any time before the expiration of the period of cancellation or denial, the court may, for good cause, order the commissioner of public safety to allow the child to apply for a license or permit, and the commissioner shall so authorize;

(8) order that the child's parent or legal guardian deliver the child to school at the beginning of each school day for a period of time specified by the court; or

(9) require the child to perform any other activities or participate in any other treatment programs deemed appropriate by the court.

To the extent practicable, the court shall enter a disposition order the same day it makes a finding that a child is in need of protection or services or neglected and in foster care, but in no event more than 15 days after the finding unless the court finds that the best interests of the child will be served by granting a delay. If the child was under eight years of age at the time the petition was filed, the disposition order must be entered within ten days of the finding and the court may not grant a delay unless good cause is shown and the court finds the best interests of the child will be served by the delay.

(c) If a child who is 14 years of age or older is adjudicated in need of protection or services because the child is a habitual truant and truancy procedures involving the child were previously dealt with by a school attendance review board or county attorney mediation program under section 260A.06 or 260A.07, the court shall order a cancellation or denial of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th birthday.

(d) In the case of a child adjudicated in need of protection or services because the child has committed domestic abuse and been ordered excluded from the child's parent's home, the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing to provide an alternative safe living arrangement for the child as defined in paragraph (f).

(e) When a parent has complied with a case plan ordered under subdivision 6 and the child is in the care of the parent, the court may order the responsible social services agency to monitor the parent's continued ability to maintain the child safely in the home under such terms and conditions as the court determines appropriate under the circumstances.

(f) For the purposes of this subdivision, "alternative safe living arrangement" means a living arrangement for a child proposed by a petitioning parent or guardian if a court excludes the minor from the parent's or guardian's home that is separate from the victim of domestic abuse and safe for the child respondent. A living arrangement proposed by a petitioning parent or guardian is presumed to be an alternative safe living arrangement absent information to the contrary presented to the court. In evaluating any proposed living arrangement, the court shall consider whether the arrangement provides the child with necessary food, clothing, shelter, and education in a safe environment. Any proposed living arrangement that would place the child in the care of an adult who has been physically or sexually violent is presumed unsafe.

Sec. 78. Minnesota Statutes 2024, section 260C.201, subdivision 2, is amended to read:

Subd. 2. **Written findings.** (a) Any order for a disposition authorized under this section shall contain written findings of fact to support the disposition and case plan ordered and shall also set forth in writing the following information:

(1) why the best interests and safety of the child are served by the disposition and case plan ordered;

(2) what alternative dispositions or services under the case plan were considered by the court and why such dispositions or services were not appropriate in the instant case;

(3) when legal custody of the child is transferred, the appropriateness of the particular placement made or to be made by the placing agency using the relative and sibling placement considerations and best interest factors in section 260C.212, subdivision 2, or the appropriateness of a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190;

(4) whether reasonable efforts to finalize the permanent plan for the child consistent with section 260.012 were made including reasonable efforts:

(i) to prevent the child's placement and to reunify the child with the parent or guardian from whom the child was removed at the earliest time consistent with the child's safety. The court's findings must include a brief description of what preventive and reunification efforts were made and why further efforts could not have prevented or eliminated the necessity of removal or that reasonable efforts were not required under section 260.012 or 260C.178, subdivision 1;

(ii) to identify and locate any noncustodial or nonresident parent of the child and to assess such parent's ability to provide day-to-day care of the child, and, where appropriate, provide services necessary to enable the noncustodial or nonresident parent to safely provide day-to-day care of the child as required under section 260C.219, unless such services are not required under section 260.012 or 260C.178, subdivision 1. The court's findings must include a description of the agency's efforts to:

(A) identify and locate the child's noncustodial or nonresident parent;

(B) assess the noncustodial or nonresident parent's ability to provide day-to-day care of the child; and

(C) if appropriate, provide services necessary to enable the noncustodial or nonresident parent to safely provide the child's day-to-day care, including efforts to engage the noncustodial or nonresident parent in assuming care and responsibility of the child;

(iii) to make the diligent search for relatives and provide the notices required under section 260C.221; a finding made pursuant to a hearing under section 260C.202 that the agency has made diligent efforts to conduct a relative search and has appropriately engaged relatives who responded to the notice under section 260C.221 and other relatives, who came to the attention of the agency after notice under section 260C.221 was sent, in placement and case planning decisions fulfills the requirement of this item;

(iv) to identify and make a foster care placement of the child, considering the order in section 260C.212, subdivision 2, paragraph (a), in the home of an unlicensed relative, according to the requirements of section 142B.06, a licensed relative, or other licensed foster care provider, who will commit to being the permanent legal parent or custodian for the child in the event reunification cannot occur, but who will actively support the reunification plan for the child. If the court finds that the agency has not appropriately considered relatives for placement of the child, the court shall order the agency to comply with section 260C.212, subdivision 2, paragraph (a). The court may order the agency to continue considering relatives for placement of the child regardless of the child's current placement setting; and

(v) to place siblings together in the same home or to ensure visitation is occurring when siblings are separated in foster care placement and visitation is in the siblings' best interests under section 260C.212, subdivision 2, paragraph (d); and

(5) if the child has been adjudicated as a child in need of protection or services because the child is in need of special services or care to treat or ameliorate a mental disability or ~~emotional disturbance~~ mental illness as defined in section 245.4871, subdivision 15, the written findings shall also set forth:

(i) whether the child has mental health needs that must be addressed by the case plan;

(ii) what consideration was given to the diagnostic and functional assessments performed by the child's mental health professional and to health and mental health care professionals' treatment recommendations;

(iii) what consideration was given to the requests or preferences of the child's parent or guardian with regard to the child's interventions, services, or treatment; and

(iv) what consideration was given to the cultural appropriateness of the child's treatment or services.

(b) If the court finds that the social services agency's preventive or reunification efforts have not been reasonable but that further preventive or reunification efforts could not permit the child to safely remain at home, the court may nevertheless authorize or continue the removal of the child.

(c) If the child has been identified by the responsible social services agency as the subject of concurrent permanency planning, the court shall review the reasonable efforts of the agency to develop a permanency plan for the child that includes a primary plan that is for reunification with the child's parent or guardian and a secondary plan that is for an alternative, legally permanent home for the child in the event reunification cannot be achieved in a timely manner.

Sec. 79. Minnesota Statutes 2024, section 260C.301, subdivision 4, is amended to read:

Subd. 4. **Current foster care children.** Except for cases where the child is in placement due solely to the child's developmental disability or ~~emotional disturbance~~ mental illness, where custody has not been transferred to the responsible social services agency, and where the court finds compelling reasons to continue placement, the county attorney shall file a termination of parental rights petition or a petition to transfer permanent legal and physical custody to a relative under section 260C.515, subdivision 4, for all children who have been in out-of-home care for 15 of the most recent 22 months. This requirement does not apply

378.1 if there is a compelling reason approved by the court for determining that filing a termination
378.2 of parental rights petition or other permanency petition would not be in the best interests
378.3 of the child or if the responsible social services agency has not provided reasonable efforts
378.4 necessary for the safe return of the child, if reasonable efforts are required.

378.5 Sec. 80. Minnesota Statutes 2024, section 260D.01, is amended to read:

378.6 **260D.01 CHILD IN VOLUNTARY FOSTER CARE FOR TREATMENT.**

378.7 (a) Sections 260D.01 to 260D.10, may be cited as the "child in voluntary foster care for
378.8 treatment" provisions of the Juvenile Court Act.

378.9 (b) The juvenile court has original and exclusive jurisdiction over a child in voluntary
378.10 foster care for treatment upon the filing of a report or petition required under this chapter.
378.11 All obligations of the responsible social services agency to a child and family in foster care
378.12 contained in chapter 260C not inconsistent with this chapter are also obligations of the
378.13 agency with regard to a child in foster care for treatment under this chapter.

378.14 (c) This chapter shall be construed consistently with the mission of the children's mental
378.15 health service system as set out in section 245.487, subdivision 3, and the duties of an agency
378.16 under sections 256B.092 and 260C.157 and Minnesota Rules, parts 9525.0004 to 9525.0016,
378.17 to meet the needs of a child with a developmental disability or related condition. This
378.18 chapter:

378.19 (1) establishes voluntary foster care through a voluntary foster care agreement as the
378.20 means for an agency and a parent to provide needed treatment when the child must be in
378.21 foster care to receive necessary treatment for ~~an emotional disturbance or~~ a mental illness,
378.22 developmental disability, or related condition;

378.23 (2) establishes court review requirements for a child in voluntary foster care for treatment
378.24 due to ~~emotional disturbance or~~ a mental illness, developmental disability, or a related
378.25 condition;

378.26 (3) establishes the ongoing responsibility of the parent as legal custodian to visit the
378.27 child, to plan together with the agency for the child's treatment needs, to be available and
378.28 accessible to the agency to make treatment decisions, and to obtain necessary medical,
378.29 dental, and other care for the child;

378.30 (4) applies to voluntary foster care when the child's parent and the agency agree that the
378.31 child's treatment needs require foster care either:

(i) due to a level of care determination by the agency's screening team informed by the child's diagnostic and functional assessment under section 245.4885; or

(ii) due to a determination regarding the level of services needed by the child by the responsible social services agency's screening team under section 256B.092, and Minnesota Rules, parts 9525.0004 to 9525.0016; and

(5) includes the requirements for a child's placement in sections 260C.70 to 260C.714, when the juvenile treatment screening team recommends placing a child in a qualified residential treatment program, except as modified by this chapter.

(d) This chapter does not apply when there is a current determination under chapter 260E that the child requires child protective services or when the child is in foster care for any reason other than treatment for the child's ~~emotional disturbance or~~ mental illness, developmental disability, or related condition. When there is a determination under chapter 260E that the child requires child protective services based on an assessment that there are safety and risk issues for the child that have not been mitigated through the parent's engagement in services or otherwise, or when the child is in foster care for any reason other than the child's ~~emotional disturbance or~~ mental illness, developmental disability, or related condition, the provisions of chapter 260C apply.

(e) The paramount consideration in all proceedings concerning a child in voluntary foster care for treatment is the safety, health, and the best interests of the child. The purpose of this chapter is:

(1) to ensure that a child with a disability is provided the services necessary to treat or ameliorate the symptoms of the child's disability;

(2) to preserve and strengthen the child's family ties whenever possible and in the child's best interests, approving the child's placement away from the child's parents only when the child's need for care or treatment requires out-of-home placement and the child cannot be maintained in the home of the parent; and

(3) to ensure that the child's parent retains legal custody of the child and associated decision-making authority unless the child's parent willfully fails or is unable to make decisions that meet the child's safety, health, and best interests. The court may not find that the parent willfully fails or is unable to make decisions that meet the child's needs solely because the parent disagrees with the agency's choice of foster care facility, unless the agency files a petition under chapter 260C, and establishes by clear and convincing evidence that the child is in need of protection or services.

(f) The legal parent-child relationship shall be supported under this chapter by maintaining the parent's legal authority and responsibility for ongoing planning for the child and by the agency's assisting the parent, when necessary, to exercise the parent's ongoing right and obligation to visit or to have reasonable contact with the child. Ongoing planning means:

(1) actively participating in the planning and provision of educational services, medical, and dental care for the child;

(2) actively planning and participating with the agency and the foster care facility for the child's treatment needs;

(3) planning to meet the child's need for safety, stability, and permanency, and the child's need to stay connected to the child's family and community;

(4) engaging with the responsible social services agency to ensure that the family and permanency team under section 260C.706 consists of appropriate family members. For purposes of voluntary placement of a child in foster care for treatment under chapter 260D, prior to forming the child's family and permanency team, the responsible social services agency must consult with the child's parent or legal guardian, the child if the child is 14 years of age or older, and, if applicable, the child's Tribe to obtain recommendations regarding which individuals to include on the team and to ensure that the team is family-centered and will act in the child's best interests. If the child, child's parents, or legal guardians raise concerns about specific relatives or professionals, the team should not include those individuals unless the individual is a treating professional or an important connection to the youth as outlined in the case or crisis plan; and

(5) for a voluntary placement under this chapter in a qualified residential treatment program, as defined in section 260C.007, subdivision 26d, for purposes of engaging in a relative search as provided in section 260C.221, the county agency must consult with the child's parent or legal guardian, the child if the child is 14 years of age or older, and, if applicable, the child's Tribe to obtain recommendations regarding which adult relatives the county agency should notify. If the child, child's parents, or legal guardians raise concerns about specific relatives, the county agency should not notify those relatives.

(g) The provisions of section 260.012 to ensure placement prevention, family reunification, and all active and reasonable effort requirements of that section apply.

385.4 and that the agency and parent are appropriately planning for the child pursuant to the report
385.5 submitted under section 260D.06, and the child continues in voluntary foster care as defined
385.6 in section 260D.02, subdivision 10, for 13 months from the date of the voluntary foster care
385.7 agreement, or has been in placement for 15 of the last 22 months, the agency must:

385.8 (1) terminate the voluntary foster care agreement and return the child home; or

385.9 (2) determine whether there are compelling reasons to continue the voluntary foster care
385.10 arrangement and, if the agency determines there are compelling reasons, seek judicial
385.11 approval of its determination; or

385.12 (3) file a petition for the termination of parental rights.

385.13 (b) When the agency is asking for the court's approval of its determination that there are

385.15 shall file a "Petition for Permanency Review Regarding a Child in Voluntary Foster Care
385.16 for Treatment" and ask the court to proceed under this section.

385.28 (6) the agency's reasonable efforts to finalize the permanent plan for the child, including
385.29 returning the child to the care of the child's family;

385.30 (7) a citation to this chapter as the basis for the petition; and

386.1 (8) evidence as specified in section 260C.712 when a child is placed in a qualified
386.2 residential treatment program as defined in section 260C.007, subdivision 26d.

386.3 (d) An updated copy of the out-of-home placement plan required under section 260C.212,
386.4 subdivision 1, shall be filed with the petition.

386.5 (e) The court shall set the date for the permanency review hearing no later than 14 months
386.6 after the child has been in placement or within 30 days of the petition filing date when the
386.7 child has been in placement 15 of the last 22 months. The court shall serve the petition
386.8 together with a notice of hearing by United States mail on the parent, the child age 12 or
386.9 older, the child's guardian ad litem, if one has been appointed, the agency, the county
386.10 attorney, and counsel for any party.

386.11 (f) The court shall conduct the permanency review hearing on the petition no later than

386.13 of the petition when the child has been in placement 15 of the last 22 months, or within 15
386.14 days of a motion to terminate jurisdiction and to dismiss an order for foster care under
386.15 chapter 260C, as provided in section 260D.09, paragraph (b).

386.16 (g) At the permanency review hearing, the court shall:

386.17 (1) inquire of the parent if the parent has reviewed the "Petition for Permanency Review
386.18 Regarding a Child in Voluntary Foster Care for Treatment," whether the petition is accurate,
386.19 and whether the parent agrees to the continued voluntary foster care arrangement as being
386.20 in the child's best interests;

386.21 (2) inquire of the parent if the parent is satisfied with the agency's reasonable efforts to
386.22 finalize the permanent plan for the child, including whether there are services available and
386.23 accessible to the parent that might allow the child to safely be with the child's family;

386.24 (3) inquire of the parent if the parent consents to the court entering an order that:

386.25 (i) approves the responsible agency's reasonable efforts to finalize the permanent plan
386.26 for the child, which includes ongoing future planning for the safety, health, and best interests
386.27 of the child; and

386.28 (ii) approves the responsible agency's determination that there are compelling reasons
386.29 why the continued voluntary foster care arrangement is in the child's best interests; and

386.30 (4) inquire of the child's guardian ad litem and any other party whether the guardian or
386.31 the party agrees that:

387.1 (i) the court should approve the responsible agency's reasonable efforts to finalize the
387.2 permanent plan for the child, which includes ongoing and future planning for the safety,
387.3 health, and best interests of the child; and

387.4 (ii) the court should approve of the responsible agency's determination that there are
387.5 compelling reasons why the continued voluntary foster care arrangement is in the child's
387.6 best interests.

387.7 (h) At a permanency review hearing under this section, the court may take the following
387.8 actions based on the contents of the sworn petition and the consent of the parent:

387.9 (1) approve the agency's compelling reasons that the voluntary foster care arrangement
387.10 is in the best interests of the child; and

387.11 (2) find that the agency has made reasonable efforts to finalize the permanent plan for
387.12 the child.

387.13 (i) A child, age 12 or older, may object to the agency's request that the court approve its
387.14 compelling reasons for the continued voluntary arrangement and may be heard on the reasons
387.15 for the objection. Notwithstanding the child's objection, the court may approve the agency's
387.16 compelling reasons and the voluntary arrangement.

387.17 (j) If the court does not approve the voluntary arrangement after hearing from the child
387.18 or the child's guardian ad litem, the court shall dismiss the petition. In this case, either:

387.19 (1) the child must be returned to the care of the parent; or

387.20 (2) the agency must file a petition under section 260C.141, asking for appropriate relief
387.21 under sections 260C.301 or 260C.503 to 260C.521.

387.22 (k) When the court approves the agency's compelling reasons for the child to continue
387.23 in voluntary foster care for treatment, and finds that the agency has made reasonable efforts
387.24 to finalize a permanent plan for the child, the court shall approve the continued voluntary
387.25 foster care arrangement, and continue the matter under the court's jurisdiction for the purposes
387.26 of reviewing the child's placement every 12 months while the child is in foster care.

387.27 (l) A finding that the court approves the continued voluntary placement means the agency
387.28 has continued legal authority to place the child while a voluntary placement agreement
387.29 remains in effect. The parent or the agency may terminate a voluntary agreement as provided
387.30 in section 260D.10. Termination of a voluntary foster care placement of an Indian child is
387.31 governed by section 260.765, subdivision 4.

388.1 Sec. 87. Minnesota Statutes 2024, section 260E.11, subdivision 3, is amended to read:

388.7 (b) The medical examiner or coroner shall notify the local welfare agency, police
388.8 department, or county sheriff in instances in which the medical examiner or coroner believes

388.12 (c) If the child was receiving services or treatment for mental illness, developmental
388.13 disability, or substance use disorder, ~~or emotional disturbance~~ from an agency, facility, or

ASSERTIVE COMMUNITY TREATMENT AND INTENSIVE RESIDENTIAL
TREATMENT SERVICES RECODIFICATION

Section 1. Minnesota Statutes 2024, section 256B.0622, subdivision 1, is amended to read:

Subdivision 1. **Scope.** (a) Subject to federal approval, medical assistance covers medically necessary, assertive community treatment when the services are provided by an entity certified under and meeting the standards in this section.

~~(b) Subject to federal approval, medical assistance covers medically necessary, intensive residential treatment services when the services are provided by an entity licensed under and meeting the standards in section 245I.23.~~

~~(e)~~ (b) The provider entity must make reasonable and good faith efforts to report individual client outcomes to the commissioner, using instruments and protocols approved by the commissioner.

Sec. 2. Minnesota Statutes 2024, section 256B.0622, subdivision 8, is amended to read:

Subd. 8. **Medical assistance payment for assertive community treatment and intensive residential treatment services.** (a) Payment for ~~intensive residential treatment services and~~ assertive community treatment in this section shall be based on one daily rate per provider inclusive of the following services received by an eligible client in a given calendar day: all rehabilitative services under this section, staff travel time to provide rehabilitative services under this section, and nonresidential crisis stabilization services under section 256B.0624.

(b) Except as indicated in paragraph ~~(d)~~ (c), payment will not be made to more than one entity for each client for services provided under this section on a given day. If services under this section are provided by a team that includes staff from more than one entity, the team must determine how to distribute the payment among the members.

~~(e) Payment must not be made based solely on a court order to participate in intensive residential treatment services. If a client has a court order to participate in the program or to obtain assessment for treatment and follow treatment recommendations, payment under this section must only be provided if the client is eligible for the service and the service is determined to be medically necessary.~~

~~(d)~~ (c) The commissioner shall determine ~~one rate for each provider that will bill medical assistance for residential services under this section and one rate for each assertive community treatment provider~~ under this section. If a single entity provides both ~~services~~ intensive

391.1 residential treatment services under section 256B.0632 and assertive community treatment
391.2 under this section, one rate is established for the entity's intensive residential treatment
391.3 services under section 256B.0632 and another rate for the entity's ~~nonresidential~~ assertive
391.4 community treatment services under this section. A provider is not eligible for payment
391.5 under this section without authorization from the commissioner. The commissioner shall
391.6 develop rates using the following criteria:

391.7 (1) the provider's cost for services shall include direct services costs, other program
391.8 costs, and other costs determined as follows:

391.9 (i) the direct services costs must be determined using actual costs of salaries, benefits,
391.10 payroll taxes, and training of direct service staff and service-related transportation;

391.11 (ii) other program costs not included in item (i) must be determined as a specified
391.12 percentage of the direct services costs as determined by item (i). The percentage used shall
391.13 be determined by the commissioner based upon the average of percentages that represent
391.14 the relationship of other program costs to direct services costs among the entities that provide
391.15 similar services;

391.16 (iii) physical plant costs calculated based on the percentage of space within the program
391.17 that is entirely devoted to treatment and programming. This does not include administrative
391.18 or residential space;

391.19 (iv) assertive community treatment physical plant costs must be reimbursed as part of
391.20 the costs described in item (ii); and

391.21 (v) subject to federal approval, up to an additional five percent of the total rate may be
391.22 added to the program rate as a quality incentive based upon the entity meeting performance
391.23 criteria specified by the commissioner;

391.24 (2) ~~actual cost~~ actual costs are defined as costs which are allowable, allocable, and reasonable,
391.25 and consistent with federal reimbursement requirements under Code of Federal Regulations,
391.26 title 48, chapter 1, part 31, relating to for-profit entities, and Office of Management and
391.27 Budget Circular Number A-122, relating to nonprofit entities;

391.28 (3) the number of service units;

391.29 (4) the degree to which clients will receive services other than services under this section
391.30 or section 256B.0632; and

391.31 (5) the costs of other services that will be separately reimbursed.

~~(e)~~ (d) The rate for ~~intensive residential treatment services~~ and assertive community treatment must exclude the medical assistance room and board rate, as defined in section 256B.056, subdivision 5d, and services not covered under this section, such as partial hospitalization, home care, and inpatient services.

~~(f)~~ (f) ~~Physician services that are not separately billed may be included in the rate to the extent that a psychiatrist, or other health care professional providing physician services within their scope of practice, is a member of the intensive residential treatment services treatment team. Physician services, whether billed separately or included in the rate, may be delivered by telehealth. For purposes of this paragraph, "telehealth" has the meaning given to "mental health telehealth" in section 256B.0625, subdivision 46, when telehealth is used to provide intensive residential treatment services.~~

~~(g)~~ (e) When services under this section are provided by an assertive community treatment provider, case management functions must be an integral part of the team.

~~(h)~~ (f) The rate for a provider must not exceed the rate charged by that provider for the same service to other payors.

~~(i)~~ (g) The rates for existing programs must be established prospectively based upon the expenditures and utilization over a prior 12-month period using the criteria established in paragraph ~~(d)~~ (c). The rates for new programs must be established based upon estimated expenditures and estimated utilization using the criteria established in paragraph ~~(d)~~ (c).

~~(j)~~ (h) Effective for the rate years beginning on and after January 1, 2024, rates for assertive community treatment, adult residential crisis stabilization services, and intensive residential treatment services must be annually adjusted for inflation using the Centers for Medicare and Medicaid Services Medicare Economic Index, as forecasted in the third quarter of the calendar year before the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined. This paragraph expires upon federal approval.

(i) Effective upon the expiration of paragraph (h), and effective for the rate years beginning on and after January 1, 2024, rates for assertive community treatment services must be annually adjusted for inflation using the Centers for Medicare and Medicaid Services Medicare Economic Index, as forecasted in the third quarter of the calendar year before the rate year. The inflation adjustment must be based on the 12-month period from the midpoint of the previous rate year to the midpoint of the rate year for which the rate is being determined.

393.1 ~~(k)~~ (j) Entities who discontinue providing services must be subject to a settle-up process
393.2 whereby actual costs and reimbursement for the previous 12 months are compared. In the
393.3 event that the entity was paid more than the entity's actual costs plus any applicable
393.4 performance-related funding due the provider, the excess payment must be reimbursed to
393.5 the department. If a provider's revenue is less than actual allowed costs due to lower
393.6 utilization than projected, the commissioner may reimburse the provider to recover its actual
393.7 allowable costs. The resulting adjustments by the commissioner must be proportional to the
393.8 percent of total units of service reimbursed by the commissioner and must reflect a difference
393.9 of greater than five percent.

393.10 ~~(h)~~ (k) A provider may request of the commissioner a review of any rate-setting decision
393.11 made under this subdivision.

393.12 Sec. 3. Minnesota Statutes 2024, section 256B.0622, subdivision 11, is amended to read:

393.13 Subd. 11. **Sustainability grants.** The commissioner may disburse grant funds directly
393.14 to ~~intensive residential treatment services providers and~~ assertive community treatment
393.15 providers to maintain access to these services.

393.16 Sec. 4. Minnesota Statutes 2024, section 256B.0622, subdivision 12, is amended to read:

393.17 Subd. 12. **Start-up grants.** The commissioner may, within available appropriations,
393.18 disburse grant funding to counties, Indian tribes, or mental health service providers to
393.19 establish additional assertive community treatment teams, ~~intensive residential treatment~~
393.20 ~~services, or crisis residential services.~~

393.21 Sec. 5. **[256B.0632] INTENSIVE RESIDENTIAL TREATMENT SERVICES.**

393.22 Subdivision 1. **Scope.** (a) Subject to federal approval, medical assistance covers medically
393.23 necessary, intensive residential treatment services when the services are provided by an
393.24 entity licensed under and meeting the standards in section 245I.23.

393.25 (b) The provider entity must make reasonable and good faith efforts to report individual
393.26 client outcomes to the commissioner, using instruments and protocols approved by the
393.27 commissioner.

393.28 Subd. 2. **Provider entity licensure and contract requirements for intensive residential**
393.29 **treatment services.** (a) The commissioner shall develop procedures for counties and
393.30 providers to submit other documentation as needed to allow the commissioner to determine
393.31 whether the standards in this section are met.

(b) A provider entity must specify in the provider entity's application what geographic area and populations will be served by the proposed program. A provider entity must document that the capacity or program specialties of existing programs are not sufficient to meet the service needs of the target population. A provider entity must submit evidence of ongoing relationships with other providers and levels of care to facilitate referrals to and from the proposed program.

(c) A provider entity must submit documentation that the provider entity requested a statement of need from each county board and Tribal authority that serves as a local mental health authority in the proposed service area. The statement of need must specify if the local mental health authority supports or does not support the need for the proposed program and the basis for this determination. If a local mental health authority does not respond within 60 days of the receipt of the request, the commissioner shall determine the need for the program based on the documentation submitted by the provider entity.

Subd. 3. Medical assistance payment for intensive residential treatment services. (a)
Payment for intensive residential treatment services in this section shall be based on one daily rate per provider inclusive of the following services received by an eligible client in a given calendar day: all rehabilitative services under this section, staff travel time to provide rehabilitative services under this section, and nonresidential crisis stabilization services under section 256B.0624.

(b) Except as indicated in paragraph (d), payment will not be made to more than one entity for each client for services provided under this section on a given day. If services under this section are provided by a team that includes staff from more than one entity, the team must determine how to distribute the payment among the members.

(c) Payment must not be made based solely on a court order to participate in intensive residential treatment services. If a client has a court order to participate in the program or to obtain assessment for treatment and follow treatment recommendations, payment under this section must only be provided if the client is eligible for the service and the service is determined to be medically necessary.

(d) The commissioner shall determine one rate for each provider that will bill medical assistance for intensive residential treatment services under this section. If a single entity provides both intensive residential treatment services under this section and assertive community treatment under section 256B.0622, one rate is established for the entity's intensive residential treatment services under this section and another rate for the entity's assertive community treatment services under section 256B.0622. A provider is not eligible

395.1 for payment under this section without authorization from the commissioner. The
395.2 commissioner shall develop rates using the following criteria:

395.3 (1) the provider's cost for services shall include direct services costs, other program
395.4 costs, and other costs determined as follows:

395.5 (i) the direct services costs must be determined using actual costs of salaries, benefits,
395.6 payroll taxes, and training of direct service staff and service-related transportation;

395.7 (ii) other program costs not included in item (i) must be determined as a specified
395.8 percentage of the direct services costs as determined by item (i). The percentage used shall
395.9 be determined by the commissioner based upon the average of percentages that represent
395.10 the relationship of other program costs to direct services costs among the entities that provide
395.11 similar services;

395.12 (iii) physical plant costs calculated based on the percentage of space within the program
395.13 that is entirely devoted to treatment and programming. This does not include administrative
395.14 or residential space; and

395.15 (iv) subject to federal approval, up to an additional five percent of the total rate may be
395.16 added to the program rate as a quality incentive based upon the entity meeting performance
395.17 criteria specified by the commissioner;

395.18 (2) actual costs are defined as costs which are allowable, allocable, and reasonable, and
395.19 consistent with federal reimbursement requirements under Code of Federal Regulations,
395.20 title 48, chapter 1, part 31, relating to for-profit entities, and Office of Management and
395.21 Budget Circular Number A-122, relating to nonprofit entities;

395.22 (3) the number of services units;

395.23 (4) the degree to which clients will receive services other than services under this section
395.24 or section 256B.0622; and

395.25 (5) the costs of other services that will be separately reimbursed.

395.26 (e) The rate for intensive residential treatment services must exclude the medical
395.27 assistance room and board rate, as defined in section 256B.056, subdivision 5d, and services
395.28 not covered under this section, such as partial hospitalization, home care, and inpatient
395.29 services.

395.30 (f) Physician services that are not separately billed may be included in the rate to the
395.31 extent that a psychiatrist, or other health care professional providing physician services
395.32 within their scope of practice, is a member of the intensive residential treatment services

396.1 treatment team. Physician services, whether billed separately or included in the rate, may
396.2 be delivered by telehealth. For purposes of this paragraph, "telehealth" has the meaning
396.3 given to "mental health telehealth" in section 256B.0625, subdivision 46, when telehealth
396.4 is used to provide intensive residential treatment services.

396.5 (g) The rate for a provider must not exceed the rate charged by that provider for the
396.6 same service to other payors.

396.7 (h) The rates for existing programs must be established prospectively based upon the
396.8 expenditures and utilization over a prior 12-month period using the criteria established in
396.9 paragraph (d). The rates for new programs must be established based upon estimated
396.10 expenditures and estimated utilization using the criteria established in paragraph (d).

396.11 (i) Effective upon the expiration of section 256B.0622, subdivision 8, paragraph (h),
396.12 and effective for rate years beginning on and after January 1, 2024, rates for intensive
396.13 residential treatment services and adult residential crisis stabilization services must be
396.14 annually adjusted for inflation using the Centers for Medicare and Medicaid Services
396.15 Medicare Economic Index, as forecasted in the third quarter of the calendar year before the
396.16 rate year. The inflation adjustment must be based on the 12-month period from the midpoint
396.17 of the previous rate year to the midpoint of the rate year for which the rate is being
396.18 determined.

396.19 (j) Entities who discontinue providing services must be subject to a settle-up process
396.20 whereby actual costs and reimbursement for the previous 12 months are compared. In the
396.21 event that the entity was paid more than the entity's actual costs plus any applicable
396.22 performance-related funding due the provider, the excess payment must be reimbursed to
396.23 the department. If a provider's revenue is less than actual allowed costs due to lower
396.24 utilization than projected, the commissioner may reimburse the provider to recover its actual
396.25 allowable costs. The resulting adjustments by the commissioner must be proportional to the
396.26 percent of total units of service reimbursed by the commissioner and must reflect a difference
396.27 of greater than five percent.

396.28 (k) A provider may request of the commissioner a review of any rate-setting decision
396.29 made under this subdivision.

396.30 Subd. 4. **Provider enrollment; rate setting for county-operated entities.** Counties
396.31 that employ their own staff to provide services under this section shall apply directly to the
396.32 commissioner for enrollment and rate setting. In this case, a county contract is not required.

Subd. 5. **Provider enrollment; rate setting for specialized program.** A county contract is not required for a provider proposing to serve a subpopulation of eligible clients under the following circumstances:

(1) the provider demonstrates that the subpopulation to be served requires a specialized program which is not available from county-approved entities; and

(2) the subpopulation to be served is of such a low incidence that it is not feasible to develop a program serving a single county or regional group of counties.

Subd. 6. **Sustainability grants.** The commissioner may disburse grant funds directly to intensive residential treatment services providers to maintain access to these services.

Subd. 7. **Start-up grants.** The commissioner may, within available appropriations, disburse grant funding to counties, Indian Tribes, or mental health service providers to establish additional intensive residential treatment services and residential crisis services.

Sec. 6. REPEALER.

Minnesota Statutes 2024, section 256B.0622, subdivision 4, is repealed.

(5) to provide notices required or permitted by statute.

The data referred to in this subdivision shall be classified as public data upon submission to an administrative law judge or court in an administrative or judicial proceeding. Inactive welfare investigative data shall be treated as provided in section 13.39, subdivision 3.

(b) Notwithstanding any other provision in law, the commissioner of human services shall provide all active and inactive investigative data, including the name of the reporter of alleged maltreatment under section 626.557 or chapter 260E, to the ombudsman for mental health and developmental disabilities upon the request of the ombudsman.

(c) Notwithstanding paragraph (a) and section 13.39, the existence of an investigation by the commissioner of human services of possible overpayments of public funds to a service provider or recipient or the reduction or withholding of payments may be disclosed if the commissioner determines that it will not compromise the investigation.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 2. Minnesota Statutes 2024, section 245.095, subdivision 5, is amended to read:

Subd. 5. **Withholding of payments.** (a) Except as otherwise provided by state or federal law, the commissioner may withhold payments to a provider, vendor, individual, associated individual, or associated entity in any program administered by the commissioner if the commissioner determines:

(1) there is a credible allegation of fraud for which an investigation is pending for a program administered by a ~~Minnesota~~ state or federal agency;

(2) the individual, the entity, or an associated individual or entity was convicted of a crime charged in state or federal court with an offense that involves fraud or theft against a program administered by the commissioner or another state or federal agency. For purposes of this subdivision, "convicted" means a judgment of conviction has been entered by a federal, state, or local court, regardless of whether an appeal from the judgment is pending, and includes a stay of adjudication, a court-ordered diversion program, or a plea of guilty or nolo contendere;

(3) the provider is operating after a state or federal agency orders the suspension, revocation, or decertification of the provider's license;

(4) the provider, vendor, associated individual, or associated entity, including those receiving funds under any contract or registered program, has a background study disqualification under chapter 245C that has not been set aside and for which no variance has been issued, except for a disqualification under sections 245C.14, subdivision 5, and 245C.15, subdivision 4c; or

(5) by a preponderance of the evidence that the provider, vendor, individual, associated individual, or associated entity intentionally provided materially false information on the provider's billing forms.

(b) For purposes of this subdivision, "credible allegation of fraud" means an allegation that has been verified by the commissioner from any source, including but not limited to:

(1) fraud hotline complaints;

(2) claims data mining;

(3) patterns identified through provider audits, civil false claims cases, and law enforcement investigations; and

(4) court filings and other legal documents, including but not limited to police reports, complaints, indictments, informations, affidavits, declarations, and search warrants.

(c) The commissioner must send notice of the withholding of payments within five days of taking such action. The notice must:

(1) state that payments are being withheld according to this subdivision;

(2) set forth the general allegations related to the withholding action, except the notice need not disclose specific information concerning an ongoing investigation;

(3) state that the withholding is for a temporary period and cite the circumstances under which the withholding will be terminated; and

(4) inform the provider, vendor, individual, associated individual, or associated entity of the right to submit written evidence to contest the withholding action for consideration by the commissioner.

(d) If the commissioner withholds payments under this subdivision, the provider, vendor, individual, associated individual, or associated entity has a right to request administrative reconsideration. A request for administrative reconsideration must be made in writing, state with specificity the reasons the payment withholding decision is in error, and include

410.1 documents to support the request. Within 60 days from receipt of the request, the
410.2 commissioner shall judiciously review allegations, facts, evidence available to the
410.3 commissioner, and information submitted by the provider, vendor, individual, associated
410.4 individual, or associated entity to determine whether the payment withholding should remain
410.5 in place.

410.6 (e) The commissioner shall stop withholding payments if the commissioner determines
410.7 there is insufficient evidence of fraud by the provider, vendor, individual, associated
410.8 individual, or associated entity or when legal proceedings relating to the alleged fraud are
410.9 completed, unless the commissioner has sent notice under subdivision 3 to the provider,
410.10 vendor, individual, associated individual, or associated entity.

410.11 (f) The withholding of payments is a temporary action and is not subject to appeal under
410.12 section 256.045 or chapter 14.

410.13 **EFFECTIVE DATE.** This section is effective July 1, 2025.

410.14 Sec. 3. Minnesota Statutes 2024, section 245.095, is amended by adding a subdivision to
410.15 read:

410.16 **Subd. 6. Data practices.** The commissioner may exchange information, including claims
410.17 data, with state or federal agencies, professional boards, departments, or programs for the
410.18 purpose of investigating or prosecuting a criminal, civil, or administrative proceeding related
410.19 to suspected fraud or exclusion from any program administered by a state or federal agency.

410.20 Sec. 4. Minnesota Statutes 2024, section 245A.04, subdivision 1, is amended to read:

410.21 Subdivision 1. **Application for licensure.** (a) An individual, organization, or government
410.22 entity that is subject to licensure under section 245A.03 must apply for a license. The
410.23 application must be made on the forms and in the manner prescribed by the commissioner.
410.24 The commissioner shall provide the applicant with instruction in completing the application
410.25 and provide information about the rules and requirements of other state agencies that affect
410.26 the applicant. An applicant seeking licensure in Minnesota with headquarters outside of
410.27 Minnesota must have a program office located within 30 miles of the Minnesota border.
410.28 An applicant who intends to buy or otherwise acquire a program or services licensed under
410.29 this chapter that is owned by another license holder must apply for a license under this
410.30 chapter and comply with the application procedures in this section and section 245A.043.

410.31 The commissioner shall act on the application within 90 working days after a complete
410.32 application and any required reports have been received from other state agencies or

411.1 departments, counties, municipalities, or other political subdivisions. The commissioner
411.2 shall not consider an application to be complete until the commissioner receives all of the
411.3 required information. If the applicant or a controlling individual is the subject of a pending
411.4 administrative, civil, or criminal investigation, the application is not complete until the
411.5 investigation has closed or the related legal proceedings are complete.

411.6 When the commissioner receives an application for initial licensure that is incomplete
411.7 because the applicant failed to submit required documents or that is substantially deficient
411.8 because the documents submitted do not meet licensing requirements, the commissioner
411.9 shall provide the applicant written notice that the application is incomplete or substantially
411.10 deficient. In the written notice to the applicant the commissioner shall identify documents
411.11 that are missing or deficient and give the applicant 45 days to resubmit a second application
411.12 that is substantially complete. An applicant's failure to submit a substantially complete
411.13 application after receiving notice from the commissioner is a basis for license denial under
411.14 section 245A.043.

411.15 (b) An application for licensure must identify all controlling individuals as defined in
411.16 section 245A.02, subdivision 5a, and must designate one individual to be the authorized
411.17 agent. The application must be signed by the authorized agent and must include the authorized
411.18 agent's first, middle, and last name; mailing address; and email address. By submitting an
411.19 application for licensure, the authorized agent consents to electronic communication with
411.20 the commissioner throughout the application process. The authorized agent must be
411.21 authorized to accept service on behalf of all of the controlling individuals. A government
411.22 entity that holds multiple licenses under this chapter may designate one authorized agent
411.23 for all licenses issued under this chapter or may designate a different authorized agent for
411.24 each license. Service on the authorized agent is service on all of the controlling individuals.
411.25 It is not a defense to any action arising under this chapter that service was not made on each
411.26 controlling individual. The designation of a controlling individual as the authorized agent
411.27 under this paragraph does not affect the legal responsibility of any other controlling individual
411.28 under this chapter.

411.29 (c) An applicant or license holder must have a policy that prohibits license holders,
411.30 employees, subcontractors, and volunteers, when directly responsible for persons served
411.31 by the program, from abusing prescription medication or being in any manner under the
411.32 influence of a chemical that impairs the individual's ability to provide services or care. The
411.33 license holder must train employees, subcontractors, and volunteers about the program's
411.34 drug and alcohol policy.

412.1 (d) An applicant and license holder must have a program grievance procedure that permits
412.2 persons served by the program and their authorized representatives to bring a grievance to
412.3 the highest level of authority in the program.

412.4 (e) The commissioner may limit communication during the application process to the
412.5 authorized agent or the controlling individuals identified on the license application and for
412.6 whom a background study was initiated under chapter 245C. Upon implementation of the
412.7 provider licensing and reporting hub, applicants and license holders must use the hub in the
412.8 manner prescribed by the commissioner. The commissioner may require the applicant,
412.9 except for child foster care, to demonstrate competence in the applicable licensing
412.10 requirements by successfully completing a written examination. The commissioner may
412.11 develop a prescribed written examination format.

412.12 (f) When an applicant is an individual, the applicant must provide:

412.13 (1) the applicant's taxpayer identification numbers including the Social Security number
412.14 or Minnesota tax identification number, and federal employer identification number if the
412.15 applicant has employees;

412.16 (2) at the request of the commissioner, a copy of the most recent filing with the secretary
412.17 of state that includes the complete business name, if any;

412.18 (3) if doing business under a different name, the doing business as (DBA) name, as
412.19 registered with the secretary of state;

(b) No state funds shall be made available or be expended by any agency or department of state, county, or municipal government for use by a license holder regulated under this chapter while a license issued under this chapter is under immediate suspension. A notice stating the reasons for the immediate suspension and informing the license holder of the right to an expedited hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612, must be delivered by personal service to the address shown on the application

or the last known address of the license holder. The license holder may appeal an order immediately suspending a license. The appeal of an order immediately suspending a license must be made in writing by certified mail, personal service, or other means expressly set forth in the commissioner's order. If mailed, the appeal must be postmarked and sent to the commissioner within five calendar days after the license holder receives notice that the license has been immediately suspended. Subd. 5. **Prohibition of duplicative claim submission.** (a) For time-based claims, submissions must follow the guidelines in the Centers for Medicare and Medicaid Services' Healthcare Common Procedure Coding System and the American Medical Association's Current Procedural Terminology to determine the appropriate units of time to report.

(b) More than half the duration of a time-based code must be spent performing the service to be eligible under this section. Any provision of service during the remaining balance of the unit of time is not eligible for any other claims submission and would be considered a duplicative claim submission.

(c) A provider may only round up to the next whole number of service units on a submitted claim when more than one and one-half times the defined value of the code has occurred and no additional time increment code exists.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 8. Minnesota Statutes 2024, section 256.983, subdivision 4, is amended to read:

Subd. 4. **Funding.** (a) County and Tribal agency reimbursement shall be made through the settlement provisions applicable to the Supplemental Nutrition Assistance Program (SNAP), MFIP, child care assistance programs, the medical assistance program, and other federal and state-funded programs.

(b) The commissioners will maintain program compliance if for any ~~three consecutive month period~~ quarter, a county or Tribal agency fails to comply with fraud prevention investigation program guidelines, or fails to meet the cost-effectiveness standards developed by the commissioners. This result is contingent on the commissioners providing written notice, including an offer of technical assistance, within 30 days of the end of the ~~third or subsequent month~~ quarter of noncompliance. The county or Tribal agency shall be required to submit a corrective action plan to the commissioners within 30 days of receipt of a notice of noncompliance. Failure to submit a corrective action plan or, continued deviation from standards of more than ten percent after submission of a corrective action plan, will result in denial of funding for each subsequent month, or billing the county or Tribal agency for fraud prevention investigation (FPI) service provided by the commissioners, or reallocation of program grant funds, or investigative resources, or both, to other counties or Tribal agencies. The denial of funding shall apply to the general settlement received by the county or Tribal agency on a quarterly basis and shall not reduce the grant amount applicable to the FPI project.

EFFECTIVE DATE. This section is effective July 1, 2025.

Sec. 9. Minnesota Statutes 2024, section 256B.04, subdivision 21, is amended to read:

Subd. 21. **Provider enrollment.** (a) The commissioner shall enroll providers and conduct screening activities as required by Code of Federal Regulations, title 42, section 455, subpart E. A provider must enroll each provider-controlled location where direct services are provided. The commissioner may deny a provider's incomplete application if a provider fails to respond to the commissioner's request for additional information within 60 days of the request. The commissioner must conduct a background study under chapter 245C, including a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5), for a provider described in this paragraph. The background study requirement may be satisfied if the commissioner conducted a fingerprint-based background study on the provider that includes a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5).

(b) The commissioner shall revalidate ~~each~~:

(1) each provider under this subdivision at least once every five years; ~~and~~

(2) each personal care assistance agency under this subdivision once every three years;

and

418.1 (3) at the commissioner's discretion, any other Medicaid-only provider type the
418.2 commissioner deems "high risk" under this subdivision once every three years.

418.3 (c) The commissioner shall conduct revalidation as follows:

418.4 (1) provide 30-day notice of the revalidation due date including instructions for
418.5 revalidation and a list of materials the provider must submit;

418.6 (2) if a provider fails to submit all required materials by the due date, notify the provider
418.7 of the deficiency within 30 days after the due date and allow the provider an additional 30
418.8 days from the notification date to comply; and

418.9 (3) if a provider fails to remedy a deficiency within the 30-day time period, give 60-day
418.10 notice of termination and immediately suspend the provider's ability to bill. The provider
418.11 does not have the right to appeal suspension of ability to bill.

418.12 (d) If a provider fails to comply with any individual provider requirement or condition
418.13 of participation, the commissioner may suspend the provider's ability to bill until the provider
418.14 comes into compliance. The commissioner's decision to suspend the provider is not subject
418.15 to an administrative appeal.

418.16 (e) Correspondence and notifications, including notifications of termination and other
418.17 actions, may be delivered electronically to a provider's MN-ITS mailbox. This paragraph
418.18 does not apply to correspondences and notifications related to background studies.

418.19 (f) If the commissioner or the Centers for Medicare and Medicaid Services determines
418.20 that a provider is designated "high-risk," the commissioner may withhold payment from
418.21 providers within that category upon initial enrollment for a 90-day period. The withholding
418.22 for each provider must begin on the date of the first submission of a claim.

418.23 (g) An enrolled provider that is also licensed by the commissioner under chapter 245A,
418.24 is licensed as a home care provider by the Department of Health under chapter 144A, or is
418.25 licensed as an assisted living facility under chapter 144G and has a home and
418.26 community-based services designation on the home care license under section 144A.484,
418.27 must designate an individual as the entity's compliance officer. The compliance officer
418.28 must:

418.29 (1) develop policies and procedures to assure adherence to medical assistance laws and
418.30 regulations and to prevent inappropriate claims submissions;

418.31 (2) train the employees of the provider entity, and any agents or subcontractors of the
418.32 provider entity including billers, on the policies and procedures under clause (1);

419.1 (3) respond to allegations of improper conduct related to the provision or billing of
419.2 medical assistance services, and implement action to remediate any resulting problems;

419.3 (4) use evaluation techniques to monitor compliance with medical assistance laws and
419.4 regulations;

419.5 (5) promptly report to the commissioner any identified violations of medical assistance
419.6 laws or regulations; and

419.7 (6) within 60 days of discovery by the provider of a medical assistance reimbursement
419.8 overpayment, report the overpayment to the commissioner and make arrangements with
419.9 the commissioner for the commissioner's recovery of the overpayment.

419.10 The commissioner may require, as a condition of enrollment in medical assistance, that a
419.11 provider within a particular industry sector or category establish a compliance program that
419.12 contains the core elements established by the Centers for Medicare and Medicaid Services.

419.13 (h) The commissioner may revoke the enrollment of an ordering or rendering provider
419.14 for a period of not more than one year, if the provider fails to maintain and, upon request
419.15 from the commissioner, provide access to documentation relating to written orders or requests
419.16 for payment for durable medical equipment, certifications for home health services, or
419.17 referrals for other items or services written or ordered by such provider, when the
419.18 commissioner has identified a pattern of a lack of documentation. A pattern means a failure
419.19 to maintain documentation or provide access to documentation on more than one occasion.
419.20 Nothing in this paragraph limits the authority of the commissioner to sanction a provider
419.21 under the provisions of section 256B.064.

419.22 (i) The commissioner shall terminate or deny the enrollment of any individual or entity
419.23 if the individual or entity has been terminated from participation in Medicare or under the
419.24 Medicaid program or Children's Health Insurance Program of any other state. The
419.25 commissioner may exempt a rehabilitation agency from termination or denial that would
419.26 otherwise be required under this paragraph, if the agency:

419.27 (1) is unable to retain Medicare certification and enrollment solely due to a lack of billing
419.28 to the Medicare program;

419.29 (2) meets all other applicable Medicare certification requirements based on an on-site
419.30 review completed by the commissioner of health; and

419.31 (3) serves primarily a pediatric population.

419.32 (j) As a condition of enrollment in medical assistance, the commissioner shall require
419.33 that a provider designated "moderate" or "high-risk" by the Centers for Medicare and

420.1 Medicaid Services or the commissioner permit the Centers for Medicare and Medicaid
420.2 Services, its agents, or its designated contractors and the state agency, its agents, or its
420.3 designated contractors to conduct unannounced on-site inspections of any provider location.
420.4 The commissioner shall publish in the Minnesota Health Care Program Provider Manual a
420.5 list of provider types designated "limited," "moderate," or "high-risk," based on the criteria
420.6 and standards used to designate Medicare providers in Code of Federal Regulations, title
420.7 42, section 424.518. The list and criteria are not subject to the requirements of chapter 14.
420.8 The commissioner's designations are not subject to administrative appeal.

420.9 (k) As a condition of enrollment in medical assistance, the commissioner shall require
420.10 that a high-risk provider, or a person with a direct or indirect ownership interest in the
420.11 provider of five percent or higher, consent to criminal background checks, including
420.12 fingerprinting, when required to do so under state law or by a determination by the
420.13 commissioner or the Centers for Medicare and Medicaid Services that a provider is designated
420.14 high-risk for fraud, waste, or abuse.

420.15 (l)(1) Upon initial enrollment, reenrollment, and notification of revalidation, all durable
420.16 medical equipment, prosthetics, orthotics, and supplies (DMEPOS) medical suppliers
420.17 meeting the durable medical equipment provider and supplier definition in clause (3),
420.18 operating in Minnesota and receiving Medicaid funds must purchase a surety bond that is
420.19 annually renewed and designates the Minnesota Department of Human Services as the
420.20 obligee, and must be submitted in a form approved by the commissioner. For purposes of
420.21 this clause, the following medical suppliers are not required to obtain a surety bond: a
420.22 federally qualified health center, a home health agency, the Indian Health Service, a
420.23 pharmacy, and a rural health clinic.

420.24 (2) At the time of initial enrollment or reenrollment, durable medical equipment providers
420.25 and suppliers defined in clause (3) must purchase a surety bond of \$50,000. If a revalidating
420.26 provider's Medicaid revenue in the previous calendar year is up to and including \$300,000,
420.27 the provider agency must purchase a surety bond of \$50,000. If a revalidating provider's
420.28 Medicaid revenue in the previous calendar year is over \$300,000, the provider agency must
420.29 purchase a surety bond of \$100,000. The surety bond must allow for recovery of costs and
420.30 fees in pursuing a claim on the bond. Any action to obtain monetary recovery or sanctions
420.31 from a surety bond must occur within six years from the date the debt is affirmed by a final
420.32 agency decision. An agency decision is final when the right to appeal the debt has been
420.33 exhausted or the time to appeal has expired under section 256B.064.

420.34 (3) "Durable medical equipment provider or supplier" means a medical supplier that can
420.35 purchase medical equipment or supplies for sale or rental to the general public and is able

421.1 to perform or arrange for necessary repairs to and maintenance of equipment offered for
421.2 sale or rental.

421.3 (m) The Department of Human Services may require a provider to purchase a surety
421.4 bond as a condition of initial enrollment, reenrollment, reinstatement, or continued enrollment
421.5 if: (1) the provider fails to demonstrate financial viability, (2) the department determines
421.6 there is significant evidence of or potential for fraud and abuse by the provider, or (3) the
421.7 provider or category of providers is designated high-risk pursuant to paragraph (f) and as
421.8 per Code of Federal Regulations, title 42, section 455.450. The surety bond must be in an
421.9 amount of \$100,000 or ten percent of the provider's payments from Medicaid during the
421.10 immediately preceding 12 months, whichever is greater. The surety bond must name the
421.11 Department of Human Services as an obligee and must allow for recovery of costs and fees
421.12 in pursuing a claim on the bond. This paragraph does not apply if the provider currently
421.13 maintains a surety bond under the requirements in section 256B.0659 or 256B.85.

421.14 **EFFECTIVE DATE.** This section is effective July 1, 2025.

422.13 course of daily business including, but not limited to:

423.5 (13) effective May 15, 2010, documentation that the agency does not burden recipients'
423.6 free exercise of their right to choose service providers by requiring personal care assistants
423.7 to sign an agreement not to work with any particular personal care assistance recipient or
423.8 for another personal care assistance provider agency after leaving the agency and that the
423.9 agency is not taking action on any such agreements or requirements regardless of the date
423.10 signed.

423.11 (b) Personal care assistance provider agencies shall provide the information specified
423.12 in paragraph (a) to the commissioner at the time the personal care assistance provider agency

423.24 who have completed the required training as an employee with a personal care assistance
423.25 provider agency do not need to repeat the required training if they are hired by another
423.26 agency, if they have completed the training within the past three years. By September 1,

424.26 commissioner, must be renewed annually, and must allow for recovery of costs and fees in
424.27 pursuing a claim on the bond. Any action to obtain monetary recovery or sanctions from a
424.28 surety bond must occur within six years from the date the debt is affirmed by a final agency

425.28 of their right to choose service providers by requiring CFSS support workers to sign an
425.29 agreement not to work with any particular CFSS participant or for another CFSS
425.30 agency-provider after leaving the agency and that the agency is not taking action on any
425.31 such agreements or requirements regardless of the date signed.

(b) CFSS agency-providers shall provide to the commissioner the information specified in paragraph (a).

(c) All CFSS agency-providers shall require all employees in management and supervisory positions and owners of the agency who are active in the day-to-day management and operations of the agency to complete mandatory training as determined by the commissioner. ARTICLE 15

DEPARTMENT OF HUMAN SERVICES OFFICE OF THE INSPECTOR GENERAL POLICY

Section 1. Minnesota Statutes 2024, section 142E.51, subdivision 5, is amended to read:

Subd. 5. **Administrative disqualification of child care providers caring for children receiving child care assistance.** (a) The department shall pursue an administrative disqualification, if the child care provider is accused of committing an intentional program violation, in lieu of a criminal action when it has not been pursued. Intentional program violations include intentionally making false or misleading statements; receiving or providing a kickback, as defined in subdivision 6, paragraph (b); intentionally misrepresenting, concealing, or withholding facts; and repeatedly and intentionally violating program regulations under this chapter. Intent may be proven by demonstrating a pattern of conduct that violates program rules under this chapter.

(b) To initiate an administrative disqualification, the commissioner must send written notice using a signature-verified confirmed delivery method to the provider against whom the action is being taken. Unless otherwise specified under this chapter or Minnesota Rules, chapter 3400, the commissioner must send the written notice at least 15 calendar days before

427.1 the adverse action's effective date. The notice shall state (1) the factual basis for the agency's
427.2 determination, (2) the action the agency intends to take, (3) the dollar amount of the monetary
427.3 recovery or recoupment, if known, and (4) the provider's right to appeal the agency's proposed
427.4 action.

427.5 (c) The provider may appeal an administrative disqualification by submitting a written
427.6 request to the state agency. A provider's request must be received by the state agency no
427.7 later than 30 days after the date the commissioner mails the notice.

427.8 (d) The provider's appeal request must contain the following:

427.9 (1) each disputed item, the reason for the dispute, and, if applicable, an estimate of the
427.10 dollar amount involved for each disputed item;

427.11 (2) the computation the provider believes to be correct, if applicable;

427.12 (3) the statute or rule relied on for each disputed item; and

427.13 (4) the name, address, and telephone number of the person at the provider's place of
427.14 business with whom contact may be made regarding the appeal.

427.15 (e) On appeal, the issuing agency bears the burden of proof to demonstrate by a
427.16 preponderance of the evidence that the provider committed an intentional program violation.

427.17 (f) The hearing is subject to the requirements of section 142A.20. The human services
427.18 judge may combine a fair hearing and administrative disqualification hearing into a single
427.19 hearing if the factual issues arise out of the same or related circumstances and the provider
427.20 receives prior notice that the hearings will be combined.

427.21 (g) A provider found to have committed an intentional program violation and is
427.22 administratively disqualified must be disqualified, for a period of three years for the first
427.23 offense and permanently for any subsequent offense, from receiving any payments from
427.24 any child care program under this chapter.

427.25 (h) Unless a timely and proper appeal made under this section is received by the
427.26 department, the administrative determination of the department is final and binding.

427.27 Sec. 2. Minnesota Statutes 2024, section 142E.51, subdivision 6, is amended to read:

427.28 Subd. 6. **Prohibited hiring ~~practice~~ practices.** (a) It is prohibited to hire a child care
427.29 center employee when, as a condition of employment, the employee is required to have one
427.30 or more children who are eligible for or receive child care assistance, if:

(1) the individual hiring the employee is, or is acting at the direction of or in cooperation with, a child care center provider, center owner, director, manager, license holder, or other controlling individual; and

(2) the individual hiring the employee knows or has reason to know the purpose in hiring the employee is to obtain child care assistance program funds.

(b) Program applicants, participants, and providers are prohibited from receiving or providing a kickback or payment in exchange for obtaining or attempting to obtain child care assistance benefits for their own financial gain. This paragraph does not apply to:

(1) marketing or promotional offerings that directly benefit an applicant or recipient's child or dependent for whom the child care provider is providing child care services; or

(2) child care provider discounts, scholarships, or other financial assistance allowed under section 142E.17, subdivision 7.

(c) An attempt to buy or sell access to a family's child care subsidy benefits to an unauthorized person by an applicant, a participant, or a provider is a kickback, an intentional program violation under subdivision 5, and wrongfully obtaining assistance under section 256.98.

Sec. 3. Minnesota Statutes 2024, section 245A.04, subdivision 1, is amended to read:

Subdivision 1. **Application for licensure.** (a) An individual, organization, or government entity that is subject to licensure under section 245A.03 must apply for a license. The application must be made on the forms and in the manner prescribed by the commissioner. The commissioner shall provide the applicant with instruction in completing the application and provide information about the rules and requirements of other state agencies that affect the applicant. An applicant seeking licensure in Minnesota with headquarters outside of Minnesota must have a program office located within 30 miles of the Minnesota border. An applicant who intends to buy or otherwise acquire a program or services licensed under this chapter that is owned by another license holder must apply for a license under this chapter and comply with the application procedures in this section and section 245A.043.

The commissioner shall act on the application within 90 working days after a complete application and any required reports have been received from other state agencies or departments, counties, municipalities, or other political subdivisions. The commissioner shall not consider an application to be complete until the commissioner receives all of the required information.

When the commissioner receives an application for initial licensure that is incomplete because the applicant failed to submit required documents or that is substantially deficient because the documents submitted do not meet licensing requirements, the commissioner shall provide the applicant written notice that the application is incomplete or substantially deficient. In the written notice to the applicant the commissioner shall identify documents that are missing or deficient and give the applicant 45 days to resubmit a second application that is substantially complete. An applicant's failure to submit a substantially complete application after receiving notice from the commissioner is a basis for license denial under section 245A.043.

(b) An application for licensure must identify all controlling individuals as defined in section 245A.02, subdivision 5a, and must designate one individual to be the authorized agent. The application must be signed by the authorized agent and must include the authorized agent's first, middle, and last name; mailing address; and email address. By submitting an application for licensure, the authorized agent consents to electronic communication with the commissioner throughout the application process. The authorized agent must be authorized to accept service on behalf of all of the controlling individuals. A government entity that holds multiple licenses under this chapter may designate one authorized agent for all licenses issued under this chapter or may designate a different authorized agent for each license. Service on the authorized agent is service on all of the controlling individuals. It is not a defense to any action arising under this chapter that service was not made on each controlling individual. The designation of a controlling individual as the authorized agent under this paragraph does not affect the legal responsibility of any other controlling individual under this chapter.

(c) An applicant or license holder must have a policy that prohibits license holders, employees, subcontractors, and volunteers, when directly responsible for persons served by the program, from abusing prescription medication or being in any manner under the influence of a chemical that impairs the individual's ability to provide services or care. The license holder must train employees, subcontractors, and volunteers about the program's drug and alcohol policy before the employee, subcontractor, or volunteer has direct contact, as defined in section 245C.02, subdivision 11, with a person served by the program.

(d) An applicant and license holder must have a program grievance procedure that permits persons served by the program and their authorized representatives to bring a grievance to the highest level of authority in the program.

(e) The commissioner may limit communication during the application process to the authorized agent or the controlling individuals identified on the license application and for

430.1 whom a background study was initiated under chapter 245C. Upon implementation of the
430.2 provider licensing and reporting hub, applicants and license holders must use the hub in the
430.3 manner prescribed by the commissioner. The commissioner may require the applicant,
430.4 except for child foster care, to demonstrate competence in the applicable licensing
430.5 requirements by successfully completing a written examination. The commissioner may
430.6 develop a prescribed written examination format.

430.7 (f) When an applicant is an individual, the applicant must provide:

430.8 (1) the applicant's taxpayer identification numbers including the Social Security number
430.9 or Minnesota tax identification number, and federal employer identification number if the
430.10 applicant has employees;

430.11 (2) at the request of the commissioner, a copy of the most recent filing with the secretary
430.12 of state that includes the complete business name, if any;

430.13 (3) if doing business under a different name, the doing business as (DBA) name, as
430.14 registered with the secretary of state;

430.15 (4) if applicable, the applicant's National Provider Identifier (NPI) number and Unique
430.16 Minnesota Provider Identifier (UMPI) number; and

430.17 (5) at the request of the commissioner, the notarized signature of the applicant or
430.18 authorized agent.

430.19 (g) When an applicant is an organization, the applicant must provide:

430.20 (1) the applicant's taxpayer identification numbers including the Minnesota tax
430.21 identification number and federal employer identification number;

430.22 (2) at the request of the commissioner, a copy of the most recent filing with the secretary
430.23 of state that includes the complete business name, and if doing business under a different
430.24 name, the doing business as (DBA) name, as registered with the secretary of state;

430.25 (3) the first, middle, and last name, and address for all individuals who will be controlling
430.26 individuals, including all officers, owners, and managerial officials as defined in section
430.27 245A.02, subdivision 5a, and the date that the background study was initiated by the applicant
430.28 for each controlling individual;

430.29 (4) if applicable, the applicant's NPI number and UMPI number;

430.30 (5) the documents that created the organization and that determine the organization's
430.31 internal governance and the relations among the persons that own the organization, have
430.32 an interest in the organization, or are members of the organization, in each case as provided

431.1 or authorized by the organization's governing statute, which may include a partnership
431.2 agreement, bylaws, articles of organization, organizational chart, and operating agreement,
431.3 or comparable documents as provided in the organization's governing statute; and

431.4 (6) the notarized signature of the applicant or authorized agent.

431.5 (h) When the applicant is a government entity, the applicant must provide:

431.6 (1) the name of the government agency, political subdivision, or other unit of government
431.7 seeking the license and the name of the program or services that will be licensed;

431.8 (2) the applicant's taxpayer identification numbers including the Minnesota tax
431.9 identification number and federal employer identification number;

431.10 (3) a letter signed by the manager, administrator, or other executive of the government
431.11 entity authorizing the submission of the license application; and

431.12 (4) if applicable, the applicant's NPI number and UMPI number.

431.13 (i) At the time of application for licensure or renewal of a license under this chapter, the
431.14 applicant or license holder must acknowledge on the form provided by the commissioner
431.15 if the applicant or license holder elects to receive any public funding reimbursement from
431.16 the commissioner for services provided under the license that:

431.17 (1) the applicant's or license holder's compliance with the provider enrollment agreement
431.18 or registration requirements for receipt of public funding may be monitored by the
431.19 commissioner as part of a licensing investigation or licensing inspection; and

431.20 (2) noncompliance with the provider enrollment agreement or registration requirements
431.21 for receipt of public funding that is identified through a licensing investigation or licensing
431.22 inspection, or noncompliance with a licensing requirement that is a basis of enrollment for
431.23 reimbursement for a service, may result in:

431.24 (i) a correction order or a conditional license under section 245A.06, or sanctions under
431.25 section 245A.07;

431.26 (ii) nonpayment of claims submitted by the license holder for public program
431.27 reimbursement;

431.28 (iii) recovery of payments made for the service;

431.29 (iv) disenrollment in the public payment program; or

431.30 (v) other administrative, civil, or criminal penalties as provided by law.

432.1 Sec. 4. Minnesota Statutes 2024, section 245A.04, subdivision 7, is amended to read:

432.2 Subd. 7. **Grant of license; license extension.** (a) If the commissioner determines that
432.3 the program complies with all applicable rules and laws, the commissioner shall issue a
432.4 license consistent with this section or, if applicable, a temporary change of ownership license
432.5 under section 245A.043. At minimum, the license shall state:

432.6 (1) the name of the license holder;

432.7 (2) the address of the program;

432.8 (3) the effective date and expiration date of the license;

432.9 (4) the type of license;

432.10 (5) the maximum number and ages of persons that may receive services from the program;

432.11 and

432.12 (6) any special conditions of licensure.

432.13 (b) The commissioner may issue a license for a period not to exceed two years if:

432.14 (1) the commissioner is unable to conduct the observation required by subdivision 4,
432.15 paragraph (a), clause (3), because the program is not yet operational;

432.16 (2) certain records and documents are not available because persons are not yet receiving
432.17 services from the program; and

432.18 (3) the applicant complies with applicable laws and rules in all other respects.

432.19 (c) A decision by the commissioner to issue a license does not guarantee that any person
432.20 or persons will be placed or cared for in the licensed program.

432.21 (d) Except as provided in paragraphs (i) and (j), the commissioner shall not issue a
432.22 license if the applicant, license holder, or an affiliated controlling individual has:

432.23 (1) been disqualified and the disqualification was not set aside and no variance has been
432.24 granted;

432.25 (2) been denied a license under this chapter or chapter 142B within the past two years;

432.26 (3) had a license issued under this chapter or chapter 142B revoked within the past five
432.27 years; or

432.28 (4) failed to submit the information required of an applicant under subdivision 1,
432.29 paragraph (f), (g), or (h), after being requested by the commissioner.

When a license issued under this chapter or chapter 142B is revoked, the license holder and each affiliated controlling individual with a revoked license may not hold any license under chapter 245A for five years following the revocation, and other licenses held by the applicant or license holder or licenses affiliated with each controlling individual shall also be revoked.

(e) Notwithstanding paragraph (d), the commissioner may elect not to revoke a license affiliated with a license holder or controlling individual that had a license revoked within the past five years if the commissioner determines that (1) the license holder or controlling individual is operating the program in substantial compliance with applicable laws and rules and (2) the program's continued operation is in the best interests of the community being served.

(f) Notwithstanding paragraph (d), the commissioner may issue a new license in response to an application that is affiliated with an applicant, license holder, or controlling individual that had an application denied within the past two years or a license revoked within the past five years if the commissioner determines that (1) the applicant or controlling individual has operated one or more programs in substantial compliance with applicable laws and rules and (2) the program's operation would be in the best interests of the community to be served.

(g) In determining whether a program's operation would be in the best interests of the community to be served, the commissioner shall consider factors such as the number of persons served, the availability of alternative services available in the surrounding community, the management structure of the program, whether the program provides culturally specific services, and other relevant factors.

(h) The commissioner shall not issue or reissue a license under this chapter if an individual living in the household where the services will be provided as specified under section 245C.03, subdivision 1, has been disqualified and the disqualification has not been set aside and no variance has been granted.

(i) Pursuant to section 245A.07, subdivision 1, paragraph (b), when a license issued under this chapter has been suspended or revoked and the suspension or revocation is under appeal, the program may continue to operate pending a final order from the commissioner. If the license under suspension or revocation will expire before a final order is issued, a temporary provisional license may be issued provided any applicable license fee is paid before the temporary provisional license is issued.

(j) Notwithstanding paragraph (i), when a revocation is based on the disqualification of a controlling individual or license holder, and the controlling individual or license holder

is ordered under section 245C.17 to be immediately removed from direct contact with persons receiving services or is ordered to be under continuous, direct supervision when providing direct contact services, the program may continue to operate only if the program complies with the order and submits documentation demonstrating compliance with the order. If the disqualified individual fails to submit a timely request for reconsideration, or if the disqualification is not set aside and no variance is granted, the order to immediately remove the individual from direct contact or to be under continuous, direct supervision remains in effect pending the outcome of a hearing and final order from the commissioner.

(k) Unless otherwise specified by statute, all licenses issued under this chapter expire at 12:01 a.m. on the day after the expiration date stated on the license. A license holder must ~~apply for and be granted~~ comply with the requirements in section 245A.10 and be reissued a new license to operate the program or the program must not be operated after the expiration date. Adult foster care, family adult day services, child foster residence setting, and community residential services license holders must apply for and be granted a new license to operate the program or the program must not be operated after the expiration date. Upon implementation of the provider licensing and reporting hub, licenses may be issued each calendar year.

(l) The commissioner shall not issue or reissue a license under this chapter if it has been determined that a Tribal licensing authority has established jurisdiction to license the program or service.

(m) The commissioner of human services may coordinate and share data with the commissioner of children, youth, and families to enforce this section.

Sec. 5. Minnesota Statutes 2024, section 245A.16, subdivision 1, is amended to read:

448.17 Subd. 2. **Duties of the commissioner.** (a) The commissioner may apply for and accept
448.18 on behalf of the state any grants, bequests, gifts, or contributions for the purpose of carrying
448.19 out the duties and responsibilities of the commissioner. Any money received under this
448.20 paragraph is appropriated and dedicated for the purpose for which the money is granted.
448.21 The commissioner must biennially report to the chairs and ranking minority members of
448.22 relevant legislative committees and divisions by January 15 of each even-numbered year a
448.23 list of all grants and gifts received under this subdivision.

448.24 (b) Pursuant to law, the commissioner may apply for and receive money made available
448.25 from federal sources for the purpose of carrying out the duties and responsibilities of the
448.26 commissioner.

448.27 (c) The commissioner may make contracts with and grants to Tribal Nations, public and
448.28 private agencies, for-profit and nonprofit organizations, and individuals using appropriated
448.29 money.

(d) The commissioner must develop program objectives and performance measures for evaluating progress toward achieving the objectives. The commissioner must identify the objectives, performance measures, and current status of achieving the measures in a biennial report to the chairs and ranking minority members of relevant legislative committees and divisions. The report is due no later than January 15 each even-numbered year. The report must include, when possible, the following objectives:

(1) centering and including the lived experiences of children and youth, including those with disabilities and mental illness and their families, in all aspects of the department's work;

(2) increasing the effectiveness of the department's programs in addressing the needs of children and youth facing racial, economic, or geographic inequities;

(3) increasing coordination and reducing inefficiencies among the department's programs and the funding sources that support the programs;

(4) increasing the alignment and coordination of family access to child care and early learning programs and improving systems of support for early childhood and learning providers and services;

(5) improving the connection between the department's programs and the kindergarten through grade 12 and higher education systems; and

(6) minimizing and streamlining the effort required of youth and families to receive services to which the youth and families are entitled.

(e) The commissioner shall administer and supervise the forms of public assistance and other activities or services that are vested in the commissioner. Administration and supervision of activities or services includes but is not limited to assuring timely and accurate distribution of benefits, completeness of service, and quality program management. In addition to administering and supervising activities vested by law in the department, the commissioner has the authority to:

(1) require county agency participation in training and technical assistance programs to promote compliance with statutes, rules, federal laws, regulations, and policies governing the programs and activities administered by the commissioner;

(2) monitor, on an ongoing basis, the performance of county agencies in the operation and administration of activities and programs; enforce compliance with statutes, rules, federal laws, regulations, and policies governing welfare services; and promote excellence of administration and program operation;

450.1 (3) develop a quality control program or other monitoring program to review county
450.2 performance and accuracy of benefit determinations;

450.3 (4) require county agencies to make an adjustment to the public assistance benefits issued
450.4 to any individual consistent with federal law and regulation and state law and rule and to
450.5 issue or recover benefits as appropriate;

450.6 (5) delay or deny payment of all or part of the state and federal share of benefits and
450.7 administrative reimbursement according to the procedures set forth in section 142A.10;

450.8 (6) make contracts with and grants to public and private agencies and organizations,
450.9 both for-profit and nonprofit, and individuals, using appropriated funds; and

450.10 (7) enter into contractual agreements with federally recognized Indian Tribes with a
450.11 reservation in Minnesota to the extent necessary for the Tribe to operate a federally approved
450.12 family assistance program or any other program under the supervision of the commissioner.
450.13 The commissioner shall consult with the affected county or counties in the contractual
450.14 agreement negotiations, if the county or counties wish to be included, in order to avoid the
450.15 duplication of county and Tribal assistance program services. The commissioner may
450.16 establish necessary accounts for the purposes of receiving and disbursing funds as necessary
450.17 for the operation of the programs.

450.18 The commissioner shall work in conjunction with the commissioner of human services to
450.19 carry out the duties of this paragraph when necessary and feasible.

450.20 (f) The commissioner shall inform county agencies, on a timely basis, of changes in
450.21 statute, rule, federal law, regulation, and policy necessary to county agency administration
450.22 of the programs and activities administered by the commissioner.

450.23 (g) The commissioner shall administer and supervise child welfare activities, including
450.24 promoting the enforcement of laws preventing child maltreatment and protecting children
450.25 with a disability and children who are in need of protection or services, licensing and
450.26 supervising child care and child-placing agencies, and supervising the care of children in
450.27 foster care. The commissioner shall coordinate with the commissioner of human services
450.28 on activities impacting children overseen by the Department of Human Services, such as
450.29 disability services, behavioral health, and substance use disorder treatment.

450.30 (h) The commissioner shall assist and cooperate with local, state, and federal departments,
450.31 agencies, and institutions.

(i) The commissioner shall establish and maintain any administrative units reasonably necessary for the performance of administrative functions common to all divisions of the department.

(j) The commissioner shall act as designated guardian of children pursuant to chapter 260C. For children under the guardianship of the commissioner or a Tribe in Minnesota recognized by the Secretary of the Interior whose interests would be best served by adoptive placement, the commissioner may contract with a licensed child-placing agency or a Minnesota Tribal social services agency to provide adoption services. For children in out-of-home care whose interests would be best served by a transfer of permanent legal and physical custody to a relative under section 260C.515, subdivision 4, or equivalent in Tribal code, the commissioner may contract with a licensed child-placing agency or a Minnesota Tribal social services agency to provide permanency services. A contract with a licensed child-placing agency must be designed to supplement existing county efforts and may not replace existing county programs or Tribal social services, unless the replacement is agreed to by the county board and the appropriate exclusive bargaining representative, Tribal governing body, or the commissioner has evidence that child placements of the county continue to be substantially below that of other counties. Funds encumbered and obligated under an agreement for a specific child shall remain available until the terms of the agreement are fulfilled or the agreement is terminated.

(k) The commissioner has the authority to conduct and administer experimental projects to test methods and procedures of administering assistance and services to recipients or potential recipients of public benefits. To carry out the experimental projects, the commissioner may waive the enforcement of existing specific statutory program requirements, rules, and standards in one or more counties. The order establishing the waiver must provide alternative methods and procedures of administration and must not conflict with the basic purposes, coverage, or benefits provided by law. No project under this paragraph shall exceed four years. No order establishing an experimental project as authorized by this paragraph is effective until the following conditions have been met:

(1) the United States Secretary of Health and Human Services has agreed, for the same project, to waive state plan requirements relative to statewide uniformity; and

(2) a comprehensive plan, including estimated project costs, has been approved by the Legislative Advisory Commission and filed with the commissioner of administration.

(l) The commissioner shall, according to federal requirements and in coordination with the commissioner of human services, establish procedures to be followed by local welfare

452.1 boards in creating citizen advisory committees, including procedures for selection of
452.2 committee members.

452.3 (m) The commissioner shall allocate federal fiscal disallowances or sanctions that are
452.4 based on quality control error rates for the aid to families with dependent children (AFDC)
452.5 program formerly codified in sections 256.72 to 256.87 or the Supplemental Nutrition
452.6 Assistance Program (SNAP) in the following manner:

452.7 (1) one-half of the total amount of the disallowance shall be borne by the county boards
452.8 responsible for administering the programs. For AFDC, disallowances shall be shared by
452.9 each county board in the same proportion as that county's expenditures to the total of all
452.10 counties' expenditures for AFDC. For SNAP, sanctions shall be shared by each county
452.11 board, with 50 percent of the sanction being distributed to each county in the same proportion
452.12 as that county's administrative costs for SNAP benefits are to the total of all SNAP
452.13 administrative costs for all counties, and 50 percent of the sanctions being distributed to
452.14 each county in the same proportion as that county's value of SNAP benefits issued are to
452.15 the total of all benefits issued for all counties. Each county shall pay its share of the
452.16 disallowance to the state of Minnesota. When a county fails to pay the amount due under
452.17 this paragraph, the commissioner may deduct the amount from reimbursement otherwise
452.18 due the county, or the attorney general, upon the request of the commissioner, may institute
452.19 civil action to recover the amount due; and

452.20 (2) notwithstanding the provisions of clause (1), if the disallowance results from knowing
452.21 noncompliance by one or more counties with a specific program instruction, and that knowing
452.22 noncompliance is a matter of official county board record, the commissioner may require
452.23 payment or recover from the county or counties, in the manner prescribed in clause (1), an
452.24 amount equal to the portion of the total disallowance that resulted from the noncompliance
452.25 and may distribute the balance of the disallowance according to clause (1).

452.26 (n) The commissioner shall develop and implement special projects that maximize
452.27 reimbursements and result in the recovery of money to the state. For the purpose of recovering
452.28 state money, the commissioner may enter into contracts with third parties. Any recoveries
452.29 that result from projects or contracts entered into under this paragraph shall be deposited
452.30 in the state treasury and credited to a special account until the balance in the account reaches
452.31 \$1,000,000. When the balance in the account exceeds \$1,000,000, the excess shall be
452.32 transferred and credited to the general fund. All money in the account is appropriated to the
452.33 commissioner for the purposes of this paragraph.

453.1 (o) The commissioner has the authority to establish and enforce the following county
453.2 reporting requirements:

453.3 (1) the commissioner shall establish fiscal and statistical reporting requirements necessary
453.4 to account for the expenditure of funds allocated to counties for programs administered by
453.5 the commissioner. When establishing financial and statistical reporting requirements, the
453.6 commissioner shall evaluate all reports, in consultation with the counties, to determine if
453.7 the reports can be simplified or the number of reports can be reduced;

453.8 (2) the county board shall submit monthly or quarterly reports to the department as
453.9 required by the commissioner. Monthly reports are due no later than 15 working days after
453.10 the end of the month. Quarterly reports are due no later than 30 calendar days after the end
453.11 of the quarter, unless the commissioner determines that the deadline must be shortened to
453.12 20 calendar days to avoid jeopardizing compliance with federal deadlines or risking a loss
453.13 of federal funding. Only reports that are complete, legible, and in the required format shall
453.14 be accepted by the commissioner;

453.15 (3) if the required reports are not received by the deadlines established in clause (2), the
453.16 commissioner may delay payments and withhold funds from the county board until the next
453.17 reporting period. When the report is needed to account for the use of federal funds and the
453.18 late report results in a reduction in federal funding, the commissioner shall withhold from
453.19 the county boards with late reports an amount equal to the reduction in federal funding until
453.20 full federal funding is received;

453.21 (4) a county board that submits reports that are late, illegible, incomplete, or not in the
453.22 required format for two out of three consecutive reporting periods is considered
453.23 noncompliant. When a county board is found to be noncompliant, the commissioner shall
453.24 notify the county board of the reason the county board is considered noncompliant and
453.25 request that the county board develop a corrective action plan stating how the county board
453.26 plans to correct the problem. The corrective action plan must be submitted to the
453.27 commissioner within 45 days after the date the county board received notice of
453.28 noncompliance;

453.29 (5) the final deadline for fiscal reports or amendments to fiscal reports is one year after
453.30 the date the report was originally due. If the commissioner does not receive a report by the
453.31 final deadline, the county board forfeits the funding associated with the report for that
453.32 reporting period and the county board must repay any funds associated with the report
453.33 received for that reporting period;

454.1 (6) the commissioner may not delay payments, withhold funds, or require repayment
454.2 under clause (3) or (5) if the county demonstrates that the commissioner failed to provide
454.3 appropriate forms, guidelines, and technical assistance to enable the county to comply with
454.4 the requirements. If the county board disagrees with an action taken by the commissioner
454.5 under clause (3) or (5), the county board may appeal the action according to sections 14.57
454.6 to 14.69; and

454.7 (7) counties subject to withholding of funds under clause (3) or forfeiture or repayment
454.8 of funds under clause (5) shall not reduce or withhold benefits or services to clients to cover
454.9 costs incurred due to actions taken by the commissioner under clause (3) or (5).

454.10 (p) The commissioner shall allocate federal fiscal disallowances or sanctions for audit
454.11 exceptions when federal fiscal disallowances or sanctions are based on a statewide random
454.12 sample in direct proportion to each county's claim for that period.

454.13 (q) The commissioner is responsible for ensuring the detection, prevention, investigation,
454.14 and resolution of fraudulent activities or behavior by applicants, recipients, and other
454.15 participants in the programs administered by the department. The commissioner shall
454.16 cooperate with the commissioner of education to enforce the requirements for program
454.17 integrity and fraud prevention for investigation for child care assistance under chapter 142E.

454.18 (r) The commissioner shall require county agencies to identify overpayments, establish
454.19 claims, and utilize all available and cost-beneficial methodologies to collect and recover
454.20 these overpayments in the programs administered by the department.

454.21 (s) The commissioner shall develop recommended standards for child foster care homes
454.22 that address the components of specialized therapeutic services to be provided by child
454.23 foster care homes with those services.

454.24 (t) The commissioner shall authorize the method of payment to or from the department
454.25 as part of the programs administered by the department. This authorization includes the
454.26 receipt or disbursement of funds held by the department in a fiduciary capacity as part of
454.27 the programs administered by the department.

454.28 (u) In coordination with the commissioner of human services, the commissioner shall
454.29 create and provide county and Tribal agencies with blank applications, affidavits, and other
454.30 forms as necessary for public assistance programs.

454.31 (v) The commissioner shall cooperate with the federal government and its public welfare
454.32 agencies in any reasonable manner as may be necessary to qualify for federal aid for
454.33 temporary assistance for needy families and in conformity with Title I of Public Law 104-193,

455.1 the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 and successor
455.2 amendments, including making reports that contain information required by the federal
455.3 Social Security Advisory Board and complying with any provisions the board may find
455.4 necessary to assure the correctness and verification of the reports.

455.5 (w) On or before January 15 in each even-numbered year, the commissioner shall make
455.6 a biennial report to the governor concerning the activities of the agency.

455.7 (x) The commissioner shall enter into agreements with other departments of the state as
455.8 necessary to meet all requirements of the federal government.

455.9 (y) The commissioner may cooperate with other state agencies in establishing reciprocal
455.10 agreements in instances where a child receiving Minnesota family investment program
455.11 (MFIP) assistance or its out-of-state equivalent moves or contemplates moving into or out
455.12 of the state, in order that the child may continue to receive MFIP or equivalent aid from the
455.13 state moved from until the child has resided for one year in the state moved to.

455.14 (z) The commissioner shall provide appropriate technical assistance to county agencies
455.15 to develop methods to have county financial workers remind and encourage recipients of
455.16 aid to families with dependent children, the Minnesota family investment program, the
455.17 Minnesota family investment plan, family general assistance, or SNAP benefits whose
455.18 assistance unit includes at least one child under the age of five to have each young child
455.19 immunized against childhood diseases. The commissioner must examine the feasibility of
455.20 utilizing the capacity of a statewide computer system to assist county agency financial
455.21 workers in performing this function at appropriate intervals.

455.22 (aa) The commissioner shall have the power and authority to accept on behalf of the
455.23 state contributions and gifts for the use and benefit of children under the guardianship or
455.24 custody of the commissioner. The commissioner may also receive and accept on behalf of
455.25 such children money due and payable to them as old age and survivors insurance benefits,
455.26 veterans benefits, pensions, or other such monetary benefits. Gifts, contributions, pensions,
455.27 and benefits under this paragraph must be deposited in and disbursed from the social welfare
455.28 fund provided for in sections 256.88 to 256.92.

455.29 (bb) The specific enumeration of powers and duties in this section must not be construed
455.30 to be a limitation upon the general powers granted to the commissioner.

471.13 child welfare cases. After assessing a case concern, the unit may determine if further
471.14 necessary action should be taken, which may include coordinating case remediation with
471.15 other relevant child welfare agencies in accordance with data privacy laws, including the
471.16 African American Child and Family Well-Being Advisory Council, and offering case
471.17 consultation and technical assistance to the responsible local social services agency as
471.18 needed or requested by the agency.

471.19 Subd. 3. **Reports.** (a) The African American Child and Family Well-Being Unit must
471.20 provide regular updates on unit activities, including summary reports of case reviews, to
471.21 the African American Child and Family Well-Being Advisory Council, and must publish
471.22 an annual census of African American children in out-of-home placements statewide. The
471.23 annual census must include data on the types of placements, age and sex of the children,
471.24 how long the children have been in out-of-home placements, and other relevant demographic
471.25 information.

471.26 (b) The African American Child and Family Well-Being Unit shall gather summary data
471.27 about the practice and policy inquiries and individual case concerns received through the
471.28 compliance and feedback portal under subdivision 2, paragraph (e). The unit shall provide
471.29 regular reports of the nonidentifying compliance and feedback portal summary data to the
471.30 African American Child and Family Well-Being Advisory Council to identify child welfare
471.31 trends and patterns to assist with developing policy and practice recommendations to support
471.32 eliminating disparity and disproportionality for African American children.

Sec. 14. Minnesota Statutes 2024, section 260C.001, subdivision 2, is amended to read:

Subd. 2. Juvenile protection proceedings. (a) The paramount consideration in all juvenile protection proceedings is the health, safety, and best interests of the child. In proceedings involving an American Indian child, as defined in section 260.755, subdivision 8, the best interests of the child must be determined consistent with sections 260.751 to 260.835 and the Indian Child Welfare Act, United States Code, title 25, sections 1901 to 1923.

(b) The purpose of the laws relating to juvenile protection proceedings is:

(1) to secure for each child under the jurisdiction of the court, the care and guidance, preferably in the child's own home, as will best serve the spiritual, emotional, mental, and physical welfare of the child;

(2) to provide judicial procedures that protect the welfare of the child;

(3) to preserve and strengthen the child's family ties whenever possible and in the child's best interests, removing the child from the custody of parents only when the child's welfare or safety cannot be adequately safeguarded without removal;

(4) to ensure that when removal from the child's own family is necessary and in the child's best interests, the responsible social services agency has legal responsibility for the child removal either:

(i) pursuant to a voluntary placement agreement between the child's parent or guardian or the child, when the child is over age 18, and the responsible social services agency; or

(ii) by court order pursuant to section 260C.151, subdivision 6; 260C.178; 260C.201; 260C.325; or 260C.515;

(5) to ensure that, when placement is pursuant to court order, the court order removing the child or continuing the child in foster care contains an individualized determination that placement is in the best interests of the child that coincides with the actual removal of the child;

(6) to ensure that when the child is removed, the child's care and discipline is, as nearly as possible, equivalent to that which should have been given by the parents and is either in:

(i) the home of a noncustodial parent pursuant to section 260C.178 or 260C.201, subdivision 1, paragraph (a), clause (1);

(ii) the home of a relative pursuant to emergency placement by the responsible social services agency under chapter 245A; or

473.1 (iii) foster care licensed under chapter 245A; and

473.2 (7) to ensure appropriate permanency planning for children in foster care including:

473.3 (i) unless reunification is not required under section 260.012, developing a permanency
473.4 plan for the child that includes a primary plan for reunification with the child's parent or
473.5 guardian and a secondary plan for an alternative, legally permanent home for the child in
473.6 the event reunification cannot be achieved in a timely manner;

473.7 (ii) identifying, locating, and assessing both parents of the child as soon as possible and
473.8 offering reunification services to both parents of the child as required under sections 260.012
473.9 and 260C.219;

473.10 (iii) inquiring about the child's heritage, including the child's Tribal lineage pursuant to
473.11 section 260.761, and the child's race, culture, and ethnicity pursuant to section 260.63,
473.12 subdivision 10;

473.13 ~~(iii)~~ (iv) identifying, locating, and notifying relatives of both parents of the child according
473.14 to section 260C.221;

473.15 ~~(iv)~~ (v) making a placement with a family that will commit to being the legally permanent
473.16 home for the child in the event reunification cannot occur at the earliest possible time while
473.17 at the same time actively supporting the reunification plan; and

473.18 ~~(v)~~ (vi) returning the child home with supports and services, as soon as return is safe for
473.19 the child, or when safe return cannot be timely achieved, moving to finalize another legally
473.20 permanent home for the child.

473.21 Sec. 15. Minnesota Statutes 2024, section 260C.007, subdivision 19, is amended to read:

473.22 Subd. 19. **Habitual truant.** (a) "Habitual truant" means a child under the age of 17 years
473.23 who is absent from attendance at school without lawful excuse for seven school days per
473.24 school year if the child is in elementary school or for one or more class periods on seven
473.25 school days per school year if the child is in middle school, junior high school, or high
473.26 school or a child who is 17 years of age who is absent from attendance at school without
473.27 lawful excuse for one or more class periods on seven school days per school year and who
473.28 has not lawfully withdrawn from school under section 120A.22, subdivision 8.

473.29 (b) For the purposes of educational neglect under section 260C.163, subdivision 11,
473.30 habitual truant includes a child under 12 years of age who has been absent from school for
473.31 seven school days without lawful excuse where the presumption of educational neglect is
473.32 rebutted based on a showing by clear and convincing evidence that the child's absence is

474.1 not due to the failure of the child's parent, guardian, or custodian to comply with compulsory
474.2 instruction laws.

474.3 Sec. 16. Minnesota Statutes 2024, section 260C.150, subdivision 3, is amended to read:

474.4 Subd. 3. **Identifying parents of child; diligent efforts; data.** (a) The responsible social
474.5 services agency shall make diligent efforts to inquire about the child's heritage, including
474.6 the child's Tribal lineage pursuant to section 260.761 and the child's race, culture, and
474.7 ethnicity pursuant to section 260.63, subdivision 10, and to identify and locate both parents
474.8 of any child who is the subject of proceedings under this chapter. Diligent efforts include:

474.9 (1) asking the custodial or known parent to identify any nonresident parent of the child
474.10 and provide information that can be used to verify the nonresident parent's identity including
474.11 the dates and locations of marriages and divorces; dates and locations of any legal
474.12 proceedings regarding paternity; date and place of the child's birth; nonresident parent's full
474.13 legal name; nonresident parent's date of birth, or if the nonresident parent's date of birth is
474.14 unknown, an approximate age; the nonresident parent's Social Security number; the
474.15 nonresident parent's whereabouts including last known whereabouts; and the whereabouts
474.16 of relatives of the nonresident parent. For purposes of this subdivision, "nonresident parent"
474.17 means a parent who does not reside in the same household as the child or did not reside in
474.18 the same household as the child at the time the child was removed when the child is in foster
474.19 care;

474.20 (2) obtaining information that will identify and locate the nonresident parent from the
474.21 county and state of Minnesota child support enforcement information system;

474.22 (3) requesting a search of the Minnesota Fathers' Adoption Registry 30 days after the
474.23 child's birth; and

474.24 (4) using any other reasonable means to identify and locate the nonresident parent.

474.25 (b) The agency may disclose data which is otherwise private under section 13.46 or
474.26 chapter 260E in order to carry out its duties under this subdivision.

474.27 (c) Upon the filing of a petition alleging the child to be in need of protection or services,
474.28 the responsible social services agency may contact a putative father who registered with
474.29 the Minnesota Fathers' Adoption Registry more than 30 days after the child's birth. The
474.30 social service agency may consider a putative father for the day-to-day care of the child
474.31 under section 260C.219 if the putative father cooperates with genetic testing and there is a
474.32 positive test result under section 257.62, subdivision 5. Nothing in this paragraph:

(1) relieves a putative father who registered with the Minnesota Fathers' Adoption Registry more than 30 days after the child's birth of the duty to cooperate with paternity establishment proceedings under section 260C.219;

(2) gives a putative father who registered with the Minnesota Fathers' Adoption Registry more than 30 days after the child's birth the right to notice under section 260C.151 unless the putative father is entitled to notice under sections 259.24 and 259.49, subdivision 1, paragraph (a) or (b), clauses (1) to (7); or

(3) establishes a right to assert an interest in the child in a termination of parental rights proceeding contrary to section 259.52, subdivision 6, unless the putative father is entitled to notice under sections 259.24 and 259.49, subdivision 1, paragraph (a) or (b), clauses (1) to (7).

Sec. 17. Minnesota Statutes 2024, section 260C.202, subdivision 2, is amended to read:

Subd. 2. Court review for a child placed in foster care. (a) If the court orders a child placed in foster care, the court shall review the out-of-home placement plan and the child's placement at least every 90 days as required in juvenile court rules to determine whether continued out-of-home placement is necessary and appropriate or whether the child should be returned home.

(b) This review is not required if the court has returned the child home, ordered the child permanently placed away from the parent under sections 260C.503 to 260C.521, or terminated rights under section 260C.301. Court review for a child permanently placed away from a parent, including where the child is under guardianship of the commissioner, is governed by section 260C.607.

(c) When a child is placed in a qualified residential treatment program setting as defined in section 260C.007, subdivision 26d, the responsible social services agency must submit evidence to the court as specified in section 260C.712.

(d) No later than three months after the child's placement in foster care, the court shall review agency efforts to search for and notify relatives pursuant to section 260C.221, and order that the agency's efforts begin immediately, or continue, if the agency has failed to perform, or has not adequately performed, the duties under that section. The court must order the agency to continue to appropriately engage relatives who responded to the notice under section 260C.221 in placement and case planning decisions and to consider relatives for foster care placement consistent with section 260C.221. Notwithstanding a court's finding that the agency has made reasonable efforts to search for and notify relatives under section

260C.221, the court may order the agency to continue making reasonable efforts to search for, notify, engage, and consider relatives who came to the agency's attention after sending the initial notice under section 260C.221.

(e) The court shall review the out-of-home placement plan and may modify the plan as provided under section 260C.201, subdivisions 6 and 7.

(f) When the court transfers the custody of a child to a responsible social services agency resulting in foster care or protective supervision with a noncustodial parent under subdivision 1, the court shall notify the parents of the provisions of sections 260C.204 and 260C.503 to 260C.521, as required under juvenile court rules.

~~(g) When a child remains in or returns to foster care pursuant to section 260C.451 and the court has jurisdiction pursuant to section 260C.193, subdivision 6, paragraph (c), the court shall at least annually conduct the review required under section 260C.203.~~

Sec. 18. Minnesota Statutes 2024, section 260C.202, is amended by adding a subdivision to read:

Subd. 4. **Court reviews for a child over age 18 in foster care.** When a child remains in or returns to foster care pursuant to section 260C.451, and the court has jurisdiction pursuant to section 260C.193, subdivision 6, paragraph (c), the court must at least annually conduct the review required under section 260C.203.

Sec. 19. Minnesota Statutes 2024, section 260C.204, is amended to read:

260C.204 PERMANENCY PROGRESS REVIEW FOR CHILDREN IN FOSTER CARE FOR SIX MONTHS.

(a) When a child continues in placement out of the home of the parent or guardian from whom the child was removed, no later than six months after the child's placement the court shall conduct a permanency progress hearing to review:

(1) the progress of the case, the parent's progress on the case plan or out-of-home placement plan, whichever is applicable;

(2) the agency's reasonable, or in the case of an Indian child, active efforts for reunification and its provision of services;

(3) the agency's reasonable efforts to finalize the permanent plan for the child under section 260.012, paragraph (e), and to make a placement as required under section 260C.212, subdivision 2, in a home that will commit to being the legally permanent family for the

477.1 child in the event the child cannot return home according to the timelines in this section;
477.2 and

477.3 (4) in the case of an Indian child, active efforts to prevent the breakup of the Indian
477.4 family and to make a placement according to the placement preferences under United States
477.5 Code, title 25, chapter 21, section 1915.

477.6 (b) When a child is placed in a qualified residential treatment program setting as defined
477.7 in section 260C.007, subdivision 26d, the responsible social services agency must submit
477.8 evidence to the court as specified in section 260C.712.

477.9 (c) The court shall ensure that notice of the hearing is sent to any relative who:

477.10 (1) responded to the agency's notice provided under section 260C.221, indicating an
477.11 interest in participating in planning for the child or being a permanency resource for the
477.12 child and who has kept the court apprised of the relative's address; or

477.13 (2) asked to be notified of court proceedings regarding the child as is permitted in section
477.14 260C.152, subdivision 5.

477.15 (d)(1) If the parent or guardian has maintained contact with the child and is complying
477.16 with the court-ordered out-of-home placement plan, and if the child would benefit from
477.17 reunification with the parent, the court may either:

477.18 (i) return the child home, if the conditions that led to the out-of-home placement have
477.19 been sufficiently mitigated that it is safe and in the child's best interests to return home; or

477.20 (ii) continue the matter up to a total of six additional months. If the child has not returned
477.21 home by the end of the additional six months, the court must conduct a hearing according
477.22 to sections 260C.503 to 260C.521.

477.23 (2) If the court determines that the parent or guardian is not complying, is not making
477.24 progress with or engaging with services in the out-of-home placement plan, or is not
477.25 maintaining regular contact with the child as outlined in the visitation plan required as part
477.26 of the out-of-home placement plan under section 260C.212, the court may order the
477.27 responsible social services agency:

477.28 (i) to develop a plan for legally permanent placement of the child away from the parent;

477.29 (ii) to consider, identify, recruit, and support one or more permanency resources from
477.30 the child's relatives and foster parent, consistent with clause (3) and section 260C.212,
477.31 subdivision 2, paragraph (a), to be the legally permanent home in the event the child cannot
477.32 be returned to the parent. Any relative or the child's foster parent may ask the court to order

478.1 the agency to consider them for permanent placement of the child in the event the child
478.2 cannot be returned to the parent. A relative or foster parent who wants to be considered
478.3 under this item shall cooperate with the background study required under section 245C.08,
478.4 if the individual has not already done so, and with the home study process required under
478.5 chapter 142B for providing child foster care and for adoption under section 259.41. The
478.6 home study referred to in this item shall be a single-home study in the form required by the
478.7 commissioner of children, youth, and families or similar study required by the individual's
478.8 state of residence when the subject of the study is not a resident of Minnesota. The court
478.9 may order the responsible social services agency to make a referral under the Interstate
478.10 Compact on the Placement of Children when necessary to obtain a home study for an
478.11 individual who wants to be considered for transfer of permanent legal and physical custody
478.12 or adoption of the child; and

478.13 (iii) to file a petition to support an order for the legally permanent placement plan.

478.14 (3) Consistent with section 260C.223, subdivision 2, paragraph (b), the responsible social
478.15 services agency must not define a foster family as the permanent home for a child until:

478.16 (i) inquiry and Tribal notice requirements under section 260.761, subdivisions 1 and 2,
478.17 are satisfied;

478.18 (ii) inquiry about the child's heritage, including the child's race, culture, and ethnicity
478.19 pursuant to section 260.63, subdivision 10, has been completed; and

478.20 (iii) the court has determined that reasonable or active efforts toward completing the
478.21 relative search requirements in section 260C.221 have been made.

478.22 (e) Following the review under this section:

478.23 (1) if the court has either returned the child home or continued the matter up to a total
478.24 of six additional months, the agency shall continue to provide services to support the child's
478.25 return home or to make reasonable efforts to achieve reunification of the child and the parent
478.26 as ordered by the court under an approved case plan;

478.27 (2) if the court orders the agency to develop a plan for the transfer of permanent legal
478.28 and physical custody of the child to a relative, a petition supporting the plan shall be filed
478.29 in juvenile court within 30 days of the hearing required under this section and a trial on the
478.30 petition held within 60 days of the filing of the pleadings; or

478.31 (3) if the court orders the agency to file a termination of parental rights, unless the county
478.32 attorney can show cause why a termination of parental rights petition should not be filed,
478.33 a petition for termination of parental rights shall be filed in juvenile court within 30 days

479.1 of the hearing required under this section and a trial on the petition held within 60 days of
479.2 the filing of the petition.

479.3 Sec. 20. Minnesota Statutes 2024, section 260C.221, subdivision 2, is amended to read:

479.4 Subd. 2. **Relative notice requirements.** (a) The agency may provide oral or written
479.5 notice to a child's relatives. In the child's case record, the agency must document providing
479.6 the required notice to each of the child's relatives. The responsible social services agency
479.7 must notify relatives:

479.8 (1) of the need for a foster home for the child, the option to become a placement resource
479.9 for the child, the order of placement that the agency will consider under section 260C.212,
479.10 subdivision 2, paragraph (a), and the possibility of the need for a permanent placement for
479.11 the child;

479.12 (2) of their responsibility to keep the responsible social services agency and the court
479.13 informed of their current address in order to receive notice in the event that a permanent
479.14 placement is sought for the child and to receive notice of the permanency progress review
479.15 hearing under section 260C.204. A relative who fails to provide a current address to the
479.16 responsible social services agency and the court forfeits the right to receive notice of the
479.17 possibility of permanent placement and of the permanency progress review hearing under
479.18 section 260C.204, until the relative provides a current address to the responsible social
479.19 services agency and the court. A decision by a relative not to be identified as a potential
479.20 permanent placement resource or participate in planning for the child shall not affect whether
479.21 the relative is considered for placement of, or as a permanency resource for, the child with
479.22 that relative at any time in the case, and shall not be the sole basis for the court to rule out
479.23 the relative as the child's placement or permanency resource;

479.24 (3) that the relative may participate in the care and planning for the child, as specified
479.25 in subdivision 3, including that the opportunity for such participation may be lost by failing
479.26 to respond to the notice sent under this subdivision;

479.27 (4) of the family foster care licensing and adoption home study requirements, including:

479.28 (i) how to complete an application and;

479.29 (ii) how to request a variance from licensing standards that do not present a safety or
479.30 health risk to the child in the home under section 142B.10 and;

479.31 (iii) supports that are available for relatives and children who reside in a family foster
479.32 home, including how to access respite care, strategies for leveraging natural supports for

480.1 the child and family, and ways to include resource or substitute caregivers in the child's
480.2 case plan; and

480.3 (iv) the relative's choice between county or private agency and services provided by that
480.4 agency under section 142B.30, depending on funding available;

480.5 (5) of the relatives' right to ask to be notified of any court proceedings regarding the
480.6 child, to attend the hearings, and of a relative's right to be heard by the court as required
480.7 under section 260C.152, subdivision 5;

480.8 (6) that regardless of the relative's response to the notice sent under this subdivision, the
480.9 agency is required to establish permanency for a child, including planning for alternative
480.10 permanency options if the agency's reunification efforts fail or are not required; ~~and~~

480.11 (7) that by responding to the notice, a relative may receive information about participating
480.12 in a child's family and permanency team if the child is placed in a qualified residential
480.13 treatment program as defined in section 260C.007, subdivision 26d; and

480.14 (8) information advising a relative on access to legal services and support.

480.15 (b) The responsible social services agency shall send the notice required under paragraph
480.16 (a) to relatives who become known to the responsible social services agency, except for
480.17 relatives that the agency does not contact due to safety reasons under subdivision 5, paragraph
480.18 (b). The responsible social services agency shall continue to send notice to relatives
480.19 notwithstanding a court's finding that the agency has made reasonable efforts to conduct a
480.20 relative search.

480.21 (c) The responsible social services agency is not required to send the notice under
480.22 paragraph (a) to a relative who becomes known to the agency after an adoption placement
480.23 agreement has been fully executed under section 260C.613, subdivision 1. If the relative
480.24 wishes to be considered for adoptive placement of the child, the agency shall inform the
480.25 relative of the relative's ability to file a motion for an order for adoptive placement under
480.26 section 260C.607, subdivision 6.

480.27 **EFFECTIVE DATE.** This section is effective January 1, 2026.

480.28 Sec. 21. Minnesota Statutes 2024, section 260C.223, subdivision 1, is amended to read:

480.29 Subdivision 1. **Program; goals.** (a) The commissioner of children, youth, and families
480.30 shall establish a program for concurrent permanency planning for child protection services.

480.31 (b) Concurrent permanency planning involves a planning process for children who are
480.32 placed out of the home of their parents pursuant to a court order, or who have been voluntarily

placed out of the home by the parents for 60 days or more and who are not developmentally disabled or emotionally disabled under section 260C.212, subdivision 9. The responsible social services agency shall develop an alternative permanency plan while making reasonable efforts for reunification of the child with the family, if required by section 260.012. The goals of concurrent permanency planning are to:

(1) achieve early permanency for children;

(2) decrease children's length of stay in foster care and reduce the number of moves children experience in foster care; and

(3) ~~develop a group of families~~ establish a foster parent for a child who will work towards reunification and also serve as a permanent families family for children.

Sec. 22. Minnesota Statutes 2024, section 260C.223, subdivision 2, is amended to read:

Subd. 2. **Development of guidelines and protocols.** (a) The commissioner shall establish guidelines and protocols for social services agencies involved in concurrent permanency planning, including criteria for conducting concurrent permanency planning based on relevant factors such as:

(1) age of the child and duration of out-of-home placement;

(2) prognosis for successful reunification with parents;

(3) availability of relatives and other concerned individuals to provide support or a permanent placement for the child; and

(4) special needs of the child and other factors affecting the child's best interests.

(b) In developing the guidelines and protocols, the commissioner shall consult with interest groups within the child protection system, including child protection workers, child protection advocates, county attorneys, law enforcement, community service organizations, the councils of color, and the ombudsperson for families.

(c) The responsible social services agency must not make a foster family the permanent home for a child until:

(1) inquiry and Tribal notice requirements under section 260.761, subdivisions 1 and 2, are satisfied;

(2) inquiry about the child's heritage, including the child's race, culture, and ethnicity pursuant to section 260.63, subdivision 10, has been completed; and

482.1 (3) the court has determined that reasonable or active efforts toward completing the
482.2 relative search requirements in section 260C.221 have been made.

482.3 Sec. 23. Minnesota Statutes 2024, section 260C.452, subdivision 4, is amended to read:

482.4 Subd. 4. **Administrative or court review of placements.** (a) When the youth is 14 years
482.5 of age or older, the court, in consultation with the youth, shall review the youth's independent
482.6 living plan according to section 260C.203, paragraph (d).

482.7 (b) The responsible social services agency shall file a copy of the notification of foster

Sec. 24. Minnesota Statutes 2024, section 260E.03, subdivision 15, is amended to read:

Subd. 15. **Neglect.** (a) "Neglect" means the commission or omission of any of the acts specified under clauses (1) to (8), other than by accidental means:

(1) failure by a person responsible for a child's care to supply a child with necessary food, clothing, shelter, health, medical, or other care required for the child's physical or mental health when reasonably able to do so;

(2) failure to protect a child from conditions or actions that seriously endanger the child's physical or mental health when reasonably able to do so, including a growth delay, which may be referred to as a failure to thrive, that has been diagnosed by a physician and is due to parental neglect;

(3) failure to provide for necessary supervision or child care arrangements appropriate for a child after considering factors as the child's age, mental ability, physical condition, length of absence, or environment, when the child is unable to care for the child's own basic needs or safety, or the basic needs or safety of another child in their care;

(4) failure to ensure that the child is educated as defined in sections 120A.22 and 260C.163, subdivision 11, which does not include a parent's refusal to provide the parent's child with sympathomimetic medications, consistent with section 125A.091, subdivision 5;

(5) prenatal exposure to a controlled substance, as defined in section 253B.02, subdivision 2, used by the mother for a nonmedical purpose, as evidenced by withdrawal symptoms in the child at birth, results of a toxicology test performed on the mother at delivery or the child at birth, medical effects or developmental delays during the child's first year of life that medically indicate prenatal exposure to a controlled substance, or the presence of a fetal alcohol spectrum disorder;

(c) This chapter does not impose upon persons not otherwise legally responsible for providing a child with necessary food, clothing, shelter, education, or medical care a duty to provide that care.

(d) Nothing in this chapter shall be construed to mean that a child who has a mental, physical, or emotional condition is neglected solely because the child remains in an emergency department or hospital setting because services, including residential treatment, that are deemed necessary by the child's medical or mental health care professional or county case manager are not available to the child's parent, guardian, or other person responsible for the child's care, and the child cannot be safely discharged to the child's family.

The local welfare agency or agency responsible for assessing or investigating the report shall accept a report made under section 260E.06 notwithstanding refusal by a reporter to provide the reporter's name or address as long as the report is otherwise sufficient under this paragraph. The local

485.1 welfare agency or agency responsible for assessing or investigating the report shall ask the

485.18 assessment efforts to avoid a duplication of fact-finding efforts and multiple interviews.
485.19 Each agency shall prepare a separate report of the results of the agency's investigation or
485.20 assessment.

485.21 (c) In cases of alleged child maltreatment resulting in death, the local agency may rely

485.23 whether or not maltreatment occurred.

485.24 (d) When necessary, the local welfare agency shall seek authority to remove the child
485.25 from the custody of a parent, guardian, or adult with whom the child is living.

(h) The agency may use either a family assessment or investigation to determine whether the child is safe when responding to a report resulting from birth match data under section 260E.03, subdivision 23, paragraph (c). If the child subject of birth match data is determined to be safe, the agency shall consult with the county attorney to determine the appropriateness of filing a petition alleging the child is in need of protection or services under section 260C.007, subdivision 6, clause (16), in order to deliver needed services. If the child is determined not to be safe, the agency and the county attorney shall take appropriate action as required under section 260C.503, subdivision 2.

(i) When conducting any family assessment, noncaregiver human trafficking assessment, or investigation, the agency shall ask the child, if age appropriate; parents; extended family; and reporter about the child's heritage, including the child's Tribal lineage pursuant to section 260.761 and the child's race, culture, and ethnicity pursuant to section 260.63, subdivision 10.

487.31 services under paragraph (a) after the local welfare agency, Tribal social services agency,
487.32 or partner designated to provide child welfare services has made multiple varied attempts
487.33 to engage the child's family, a report of educational neglect must be made regardless of the
487.34 number of unexcused absences the child has accrued. The local welfare agency must

488.2 the process outlined in section 260C.141.

500.1 license consistent with this section or, if applicable, a temporary change of ownership license
500.2 under section 142B.11. At minimum, the license shall state:

500.11 (1) the commissioner is unable to conduct the observation required by subdivision 11,
500.12 paragraph (a), clause (3), because the program is not yet operational;

500.13 (2) certain records and documents are not available because persons are not yet receiving
500.14 services from the program; and

500.15 (3) the applicant complies with applicable laws and rules in all other respects.

500.16 (c) A decision by the commissioner to issue a license does not guarantee that any person
500.17 or persons will be placed or cared for in the licensed program.

500.18 (d) Except as provided in paragraphs (i) and (j), the commissioner shall not issue a
500.19 license if the applicant, license holder, or an affiliated controlling individual has:

500.20 (1) been disqualified and the disqualification was not set aside and no variance has been
500.21 granted;

500.22 (2) been denied a license under this chapter or chapter 245A within the past two years;

500.27 When a license issued under this chapter or chapter 245A is revoked, the license holder
500.28 and each affiliated controlling individual with a revoked license may not hold any license
500.29 under chapter 142B for five years following the revocation, and other licenses held by the

501.1 applicant or license holder or licenses affiliated with each controlling individual shall also

501.5 the past five years if the commissioner determines that (1) the license holder or controlling
501.6 individual is operating the program in substantial compliance with applicable laws and rules
501.7 and (2) the program's continued operation is in the best interests of the community being
501.8 served.

501.9 (f) Notwithstanding paragraph (d), the commissioner may issue a new license in response
501.10 to an application that is affiliated with an applicant, license holder, or controlling individual
501.11 that had an application denied within the past two years or a license revoked within the past
501.12 five years if the commissioner determines that (1) the applicant or controlling individual
501.13 has operated one or more programs in substantial compliance with applicable laws and rules
501.14 and (2) the program's operation would be in the best interests of the community to be served.

501.15 (g) In determining whether a program's operation would be in the best interests of the

501.17 persons served, the availability of alternative services available in the surrounding
501.18 community, the management structure of the program, whether the program provides
501.19 culturally specific services, and other relevant factors.

501.20 (h) The commissioner shall not issue or reissue a license under this chapter if an individual
501.21 living in the household where the services will be provided as specified under section

501.25 under this chapter has been suspended or revoked and the suspension or revocation is under
501.26 appeal, the program may continue to operate pending a final order from the commissioner.
501.27 If the license under suspension or revocation will expire before a final order is issued, a
501.28 temporary provisional license may be issued provided any applicable license fee is paid
501.29 before the temporary provisional license is issued.

501.30 (j) Notwithstanding paragraph (i), when a revocation is based on the disqualification of

501.32 is ordered under section 245C.17 to be immediately removed from direct contact with
501.33 persons receiving services or is ordered to be under continuous, direct supervision when
501.34 providing direct contact services, the program may continue to operate only if the program

502.1 complies with the order and submits documentation demonstrating compliance with the
502.2 order. If the disqualified individual fails to submit a timely request for reconsideration, or
502.3 if the disqualification is not set aside and no variance is granted, the order to immediately
502.4 remove the individual from direct contact or to be under continuous, direct supervision
502.5 remains in effect pending the outcome of a hearing and final order from the commissioner.

502.9 an extension of the license for a period of no more than 30 calendar days or until the new
502.10 license is issued, whichever occurs first, provided the county agency has determined the
502.11 family day care provider meets licensure requirements at the new location.

502.12 (l) Unless otherwise specified by statute, all licenses issued under this chapter expire at
502.13 12:01 a.m. on the day after the expiration date stated on the license. A license holder must

502.17 the program or the program must not be operated after the expiration date. Upon
502.18 implementation of the provider licensing and reporting hub, licenses may be issued each
502.19 calendar year.

502.20 (m) The commissioner shall not issue or reissue a license under this chapter if it has
502.21 been determined that a tribal licensing authority has established jurisdiction to license the
502.22 program or service.

502.23 (n) The commissioner of children, youth, and families shall coordinate and share data
502.24 with the commissioner of human services to enforce this section.

503.2 order for the same violation at the license holder's most recent annual licensing inspection.

524.1 Sec. 10. Minnesota Statutes 2024, section 125A.15, is amended to read:

524.2 **125A.15 PLACEMENT IN ANOTHER DISTRICT; RESPONSIBILITY.**

524.3 The responsibility for special instruction and services for a child with a disability
524.4 temporarily placed in another district for care and treatment shall be determined in the
524.5 following manner:

524.6 (a) The district of residence of a child shall be the district in which the child's parent
524.7 resides, if living, or the child's guardian. If there is a dispute between school districts
524.8 regarding residency, the district of residence is the district designated by the commissioner.

524.9 (b) If a district other than the resident district places a pupil for care and treatment, the
524.10 district placing the pupil must notify and give the resident district an opportunity to participate
524.11 in the placement decision. When an immediate emergency placement of a pupil is necessary
524.12 and time constraints foreclose a resident district from participating in the emergency
524.13 placement decision, the district in which the pupil is temporarily placed must notify the
524.14 resident district of the emergency placement within 15 days. The resident district has up to
524.15 five business days after receiving notice of the emergency placement to request an
524.16 opportunity to participate in the placement decision, which the placing district must then
524.17 provide.

524.18 (c) When a child is temporarily placed for care and treatment in a day program located
524.19 in another district and the child continues to live within the district of residence during the
524.20 care and treatment, the district of residence is responsible for providing transportation to
524.21 and from the care and treatment program and an appropriate educational program for the
524.22 child. The resident district may establish reasonable restrictions on transportation, except
524.23 if a Minnesota court or agency orders the child placed at a day care and treatment program
524.24 and the resident district receives a copy of the order, then the resident district must provide
524.25 transportation to and from the program unless the court or agency orders otherwise.
524.26 Transportation shall only be provided by the resident district during regular operating hours
524.27 of the resident district. The resident district may provide the educational program at a school
524.28 within the district of residence, at the child's residence, or in the district in which the day
524.29 treatment center is located by paying tuition to that district. If a child's district of residence,
524.30 district of open enrollment under section 124D.03, or charter school of enrollment under
524.31 section 124E.11 is authorized to provide online learning instruction under state statutes, the
524.32 child's district of residence may utilize that online learning program in fulfilling its
524.33 educational program responsibility under this section if the child, or the child's parent or
524.34 guardian for a pupil under the age of 18, agrees to that form of instruction.

(d) When a child is temporarily placed in a residential program for care and treatment, the nonresident district in which the child is placed is responsible for providing an appropriate educational program for the child and necessary transportation while the child is attending the educational program; and must bill the district of the child's residence for the actual cost of providing the program, as outlined in section 125A.11, except as provided in paragraph (e). However, the board, lodging, and treatment costs incurred in behalf of a child with a disability placed outside of the school district of residence by the commissioner of human services; the commissioner of children, youth, and families; or the commissioner of corrections or their agents, for reasons other than providing for the child's special educational needs must not become the responsibility of either the district providing the instruction or the district of the child's residence. For the purposes of this section, the state correctional facilities operated on a fee-for-service basis are considered to be residential programs for care and treatment. If a child's district of residence, district of open enrollment under section 124D.03, or charter school of enrollment under section 124E.11 is authorized to provide online learning instruction under state statutes, the nonresident district may utilize that online learning program in fulfilling its educational program responsibility under this section if the child, or the child's parent or guardian for a pupil under the age of 18, agrees to that form of instruction.

(e) A privately owned and operated residential facility may enter into a contract to obtain appropriate educational programs for special education children and services with a joint powers entity. The entity with which the private facility contracts for special education services shall be the district responsible for providing students placed in that facility an appropriate educational program in place of the district in which the facility is located. If a privately owned and operated residential facility does not enter into a contract under this paragraph, then paragraph (d) applies.

(f) The district of residence shall pay tuition and other program costs, not including transportation costs, to the district providing the instruction and services. The district of residence may claim general education aid for the child as provided by law. Transportation costs must be paid by the district responsible for providing the transportation and the state must pay transportation aid to that district.

Sec. 11. Minnesota Statutes 2024, section 125A.744, subdivision 2, is amended to read:

Subd. 2. **Statewide data management system.** The commissioner of education, in cooperation with the ~~commissioner~~ commissioners of human services and children, youth, and families, shall develop a statewide data management system using the educational data

526.1 reporting system or other existing data management system for school districts and
526.2 cooperative units to use to maximize medical assistance reimbursement for health and
526.3 health-related services provided under individualized education programs and individual
526.4 family service plans. The system must be appropriately integrated with state and local
526.5 existing and developing human services and education data systems. The statewide data
526.6 management system must enable school district and cooperative unit staff to:

- 526.7 (1) establish medical assistance billing systems or improve existing systems;
- 526.8 (2) understand the appropriate medical assistance billing codes for services provided
526.9 under individualized education programs and individual family service plans;
- 526.10 (3) comply with the Individuals with Disabilities Education Act, Public Law 105-17;
- 526.11 (4) contract with billing agents; and
- 526.12 (5) carry out other activities necessary to maximize medical assistance reimbursement.

526.13 Sec. 12. Minnesota Statutes 2024, section 127A.11, is amended to read:

526.14 **127A.11 MONITOR MEDICAL ASSISTANCE SERVICES FOR DISABLED**

549.2 satisfy those programs' or services' responsibilities for initiating a background study on that
549.3 individual.

549.4 (d) If a background study was conducted on an individual related to child foster care
549.5 and the requirements under paragraph (a) are met, the background study is transferable
549.6 across all licensed programs. If a background study was conducted on an individual under
549.7 a license other than child foster care and the requirements under paragraph (a) are met, the
549.8 background study is transferable to all licensed programs except child foster care.

549.9 (e) The provisions of this section that allow a single background study in one or more
549.10 licensed programs or services do not apply to background studies submitted by adoption
549.11 agencies, supplemental nursing services agencies, personnel pool agencies, educational
549.12 programs, professional services agencies, temporary personnel agencies, and unlicensed
549.13 personal care provider organizations.

549.14 (f) For an entity operating under NETStudy 2.0, the entity's active roster must be the
549.15 system used to document when a background study subject is affiliated with multiple entities.
549.16 For a background study to be transferable:

549.17 (1) the background study subject must be on and moving to a roster for which the person
549.18 designated to receive sensitive background study information is the same; and

549.19 (2) the same entity must own or legally control both the roster from which the transfer
549.20 is occurring and the roster to which the transfer is occurring. For an entity that holds or
549.21 controls multiple licenses, or unlicensed personal care provider organizations, there must
549.22 be a common highest level entity that has a legally identifiable structure that can be verified
549.23 through records available from the secretary of state.

549.24 Sec. 45. Minnesota Statutes 2024, section 256.88, is amended to read:

549.25 **256.88 SOCIAL WELFARE FUND ESTABLISHED.**

549.26 Except as otherwise expressly provided, all moneys and funds held by the commissioner
549.27 of human services; the commissioner of children, youth, and families; the Direct Care and
549.28 Treatment executive board; and the local social services agencies of the several counties
549.29 in trust or for the benefit of children with a disability and children who are dependent,
549.30 neglected, or delinquent; children born to mothers who were not married to the children's
549.31 fathers at the times of the conception nor at the births of the children; persons determined
549.32 to have developmental disability, mental illness, or substance use disorder; or other wards
549.33 or beneficiaries, under any law, shall be kept in a single fund to be known as the "social

550.1 welfare fund" which shall be deposited at interest, held, or disbursed as provided in sections
550.2 256.89 to 256.92.

550.3 Sec. 46. Minnesota Statutes 2024, section 256.89, is amended to read:

550.4 **256.89 FUND DEPOSITED IN STATE TREASURY.**

550.5 The social welfare fund and all accretions thereto shall be deposited in the state treasury,
550.6 as a separate and distinct fund, to the credit of the commissioner of human services; the
550.7 commissioner of children, youth, and families; and the Direct Care and Treatment executive
550.8 board as trustees for their respective beneficiaries in proportion to the beneficiaries' several
550.9 interests. The commissioner of management and budget shall be responsible only to the
550.10 commissioner of human services; the commissioner of children, youth, and families; and
550.11 the Direct Care and Treatment executive board for the sum total of the fund, and shall have
550.12 no duties nor direct obligations toward the beneficiaries thereof individually. Subject to the
550.13 applicable rules of the commissioner of human services; the commissioner of children,
550.14 youth, and families; or the Direct Care and Treatment executive board, money so received
550.15 by a local social services agency may be deposited by the executive secretary of the local
550.16 social services agency in a local bank carrying federal deposit insurance, designated by the
550.17 local social services agency for this purpose. The amount of such deposit in each such bank
550.18 at any one time shall not exceed the amount protected by federal deposit insurance.

550.19 Sec. 47. Minnesota Statutes 2024, section 256.90, is amended to read:

550.20 **256.90 SOCIAL WELFARE FUND; USE; DISPOSITION; DEPOSITORIES.**

550.21 The commissioner of human services, in consultation with the commissioner of children,
550.22 youth, and families and the Direct Care and Treatment executive board, at least 30 days
550.23 before the first day of January and the first day of July in each year shall file with the
550.24 commissioner of management and budget an estimate of the amount of the social welfare
550.25 fund to be held in the treasury during the succeeding six-month period, subject to current
550.26 disbursement. Such portion of the remainder thereof as may be at any time designated by
550.27 the request of the commissioner of human services may be invested by the commissioner
550.28 of management and budget in bonds in which the permanent trust funds of the state of
550.29 Minnesota may be invested, upon approval by the State Board of Investment. The portion
550.30 of such remainder not so invested shall be placed by the commissioner of management and
550.31 budget at interest for the period of six months, or when directed by the commissioner of
550.32 human services, for the period of 12 months thereafter at the highest rate of interest obtainable
550.33 in a bank, or banks, designated by the board of deposit as a suitable depository therefor. All

551.1 the provisions of law relative to the designation and qualification of depositories of other
551.2 state funds shall be applicable to sections 256.88 to 256.92, except as herein otherwise
551.3 provided. Any bond given, or collateral assigned or both, to secure a deposit hereunder may
551.4 be continuous in character to provide for the repayment of any moneys belonging to the
551.5 fund theretofore or thereafter at any time deposited in such bank until its designation as
551.6 such depository is revoked and the security thereof shall be not impaired by any subsequent
551.7 agreement or understanding as to the rate of interest to be paid upon such deposit, or as to
551.8 time for its repayment. The amount of money belonging to the fund deposited in any bank,
551.9 including other state deposits, shall not at any time exceed the amount of the capital stock
551.10 thereof. In the event of the closing of the bank any sum deposited therein shall immediately
551.11 become due and payable.

551.12 Sec. 48. Minnesota Statutes 2024, section 256.91, is amended to read:

551.13 **256.91 PURPOSES.**

551.14 From that part of the social welfare fund held in the state treasury subject to disbursement
551.15 as provided in section 256.90, the commissioner of human services; the commissioner of
551.16 children, youth, and families; or the Direct Care and Treatment executive board at any time
551.17 may pay out such amounts as the ~~commissioner~~ commissioners or executive board deems
551.18 proper for the support, maintenance, or other legal benefit of any of the children with a
551.19 disability and children who are dependent, neglected, or delinquent; children born to mothers
551.20 who were not married to the children's fathers at the times of the conception nor at the births
551.21 of the children; persons with developmental disability, substance use disorder, or mental
551.22 illness; or other wards or persons entitled thereto, not exceeding in the aggregate to or for
551.23 any person the principal amount previously received for the benefit of the person, together
551.24 with the increase in it from an equitable apportionment of interest realized from the social
551.25 welfare fund.

551.26 When any such person dies or is finally discharged from the guardianship, care, custody,
551.27 and control of the commissioner of human services; the commissioner of children, youth,
551.28 and families; or the Direct Care and Treatment executive board, the amount then remaining
551.29 subject to use for the benefit of the person shall be paid as soon as may be from the social
551.30 welfare fund to the persons thereto entitled by law.

Sec. 49. Minnesota Statutes 2024, section 256.92, is amended to read:

**~~256.92 COMMISSIONER OF HUMAN SERVICES AND DIRECT CARE AND~~
~~TREATMENT COMMISSIONERS AND EXECUTIVE BOARD, ACCOUNTS.~~**

It shall be the duty of the commissioner of human services; the commissioner of children, youth, and families; the Direct Care and Treatment executive board; and the local social services agencies of the several counties of this state to cause to be deposited with the commissioner of management and budget all moneys and funds in their possession or under their control and designated by section 256.91 as and for the social welfare fund; and all such moneys and funds shall be so deposited in the state treasury as soon as received. The commissioner of human services, in consultation with the commissioner of children, youth, and families and the Direct Care and Treatment executive board, shall keep books of account or other records showing separately the principal amount received and deposited in the social welfare fund for the benefit of any person, together with the name of such person, and the name and address, if known to the commissioner of human services; the commissioner of children, youth, and families; or the Direct Care and Treatment executive board, of the person from whom such money was received; and, at least once every two years, the amount of interest, if any, which the money has earned in the social welfare fund shall be apportioned thereto and posted in the books of account or records to the credit of such beneficiary.

The provisions of sections 256.88 to 256.92 shall not apply to any fund or money now or hereafter deposited or otherwise disposed of pursuant to the lawful orders, decrees, judgments, or other directions of any district court having jurisdiction thereof.

Sec. 50. Minnesota Statutes 2024, section 256G.01, subdivision 1, is amended to read:

Subdivision 1. **Applicability.** This chapter governs the Minnesota human services system. The system includes the Department of Human Services; the Department of Children, Youth, and Families; Direct Care and Treatment; local social services agencies; county welfare agencies; human service boards; community mental health center boards; state hospitals; state nursing homes; and persons, agencies, institutions, organizations, and other entities under contract to any of those agencies to the extent specified in the contract.

Sec. 51. Minnesota Statutes 2024, section 256G.01, subdivision 3, is amended to read:

Subd. 3. **Program coverage.** This chapter applies to all social service programs administered by the commissioner of human services; the commissioner of children, youth, and families; or the Direct Care and Treatment executive board in which residence is the

determining factor in establishing financial responsibility. These include, but are not limited to: commitment proceedings, including voluntary admissions; emergency holds; poor relief funded wholly through local agencies; social services, including title XX, IV-E and section 256K.10; social services programs funded wholly through the resources of county agencies; social services provided under the Minnesota Indian Family Preservation Act, sections 260.751 to 260.781; costs for delinquency confinement under section 393.07, subdivision 2; service responsibility for these programs; and housing support under chapter 256I.

Sec. 52. Minnesota Statutes 2024, section 256G.03, subdivision 2, is amended to read:

Subd. 2. **No durational test.** Except as otherwise provided in sections 142G.12; 142G.78; 256B.056, subdivision 1; and 256D.02, subdivision 12a for purposes of this chapter, no waiting period is required before securing county or state residence. A person cannot, however, gain residence while physically present in an excluded time facility unless otherwise specified in this chapter or in a federal regulation controlling a federally funded human service; children, youth, and families; or direct care and treatment program. Interstate migrants who enter a shelter for battered women directly from another state can gain residency while in the facility provided the person can provide documentation that the person is a victim of domestic abuse and the county determines that the placement is appropriate.

Sec. 53. Minnesota Statutes 2024, section 256G.04, subdivision 2, is amended to read:

Subd. 2. **Moving out of state.** (a) A person retains county and state residence so long as the person's absence from Minnesota is viewed as a temporary absence within the context of the affected program.

(b) Direct entry into a facility in another state does not end Minnesota residence for purposes of this chapter. Financial responsibility does not continue, however, unless placement was initiated by a human service; children, youth, and families; or direct care and treatment agency or another governmental entity that has statutory authority to bind the human service; children, youth, and families; or direct care and treatment agency and is based on a formal, written plan of treatment, or unless federal regulations require payment for an out-of-state resident.

Sec. 54. Minnesota Statutes 2024, section 256G.09, subdivision 2, is amended to read:

Subd. 2. **Financial disputes.** (a) If the county receiving the transmittal does not believe it is financially responsible, it should provide to the commissioner of human services and the initially responsible county a statement of all facts and documents necessary for the

554.1 commissioner to make the requested determination of financial responsibility. The submission
554.2 must clearly state the program area in dispute and must state the specific basis upon which
554.3 the submitting county is denying financial responsibility.

554.4 (b) The initially responsible county then has 15 calendar days to submit its position and
554.5 any supporting evidence to the commissioner of human services. The absence of a submission
554.6 by the initially responsible county does not limit the right of the commissioner of human
554.7 services; the commissioner of children, youth, and families; or Direct Care and Treatment
554.8 executive board to issue a binding opinion based on the evidence actually submitted.

554.9 (c) A case must not be submitted until the local agency taking the application or making
554.10 the commitment has made an initial determination about eligibility and financial
554.11 responsibility, and services have been initiated. This paragraph does not prohibit the
554.12 submission of closed cases that otherwise meet the applicable statute of limitations.

554.13 Sec. 55. Minnesota Statutes 2024, section 256G.09, subdivision 3, is amended to read:

554.14 Subd. 3. **Commissioner of human services obligations.** (a) Except as provided in
554.15 paragraph (b) for matters solely under the jurisdiction of the Direct Care and Treatment
554.16 executive board or the commissioner of children, youth, and families, the commissioner of
554.17 human services shall then promptly decide any question of financial responsibility as outlined
554.18 in this chapter and make an order referring the application to the local agency of the proper
554.19 county for further action. Further action may include reimbursement by that county of
554.20 assistance that another county has provided to the applicant under this subdivision. The
554.21 commissioner shall decide disputes within 60 days of the last county evidentiary submission
554.22 and shall issue an immediate opinion.

554.23 (b) For disputes regarding financial responsibility relating to matters solely under the
554.24 jurisdiction of the Direct Care and Treatment executive board or the commissioner of
554.25 children, youth, and families, the commissioner of human services shall promptly issue an
554.26 advisory opinion on any question of financial responsibility as outlined in this chapter and
554.27 recommend to the executive board or commissioner of children, youth, and families an
554.28 order referring the application to the local agency of the proper county for further action.
554.29 Further action may include reimbursement by that county of assistance that another county
554.30 has provided to the applicant under this subdivision. The commissioner of human services
554.31 shall provide an advisory opinion and recommended order to the executive board or
554.32 commissioner of children, youth, and families within 30 days of the last county evidentiary
554.33 submission. The executive board or commissioner of children, youth, and families shall
554.34 decide to accept or reject the commissioner's advisory opinion and recommended order

555.1 within 60 days of the last county evidentiary submission and shall issue an immediate
555.2 opinion stating the reasons for accepting or rejecting the ~~commissioner's~~ recommendation
555.3 of the commissioner of human services.

555.4 (c) The commissioner of human services may make any investigation it considers proper
555.5 before making a decision or a recommendation to the executive board or commissioner of
555.6 children, youth, and families. The commissioner of human services may prescribe rules it
555.7 considers necessary to carry out this subdivision except that the commissioner of human
555.8 services must not create rules purporting to bind the ~~executive board's~~ decision of the
555.9 executive board or commissioner of children, youth, and families on any advisory opinion
555.10 or recommended order under paragraph (b).

555.11 (d) Except as provided in paragraph (e) for matters solely under the jurisdiction of the
555.12 executive board or the commissioner of children, youth, and families, the order of the
555.13 commissioner of human services binds the local agency involved and the applicant or
555.14 recipient. That agency shall comply with the order unless reversed on appeal as provided
555.15 in section 256.045, subdivision 7. The agency shall comply with the order pending the
555.16 appeal.

555.17 (e) For disputes regarding financial responsibility relating to matters solely under the
555.18 jurisdiction of the Direct Care and Treatment executive board or the commissioner of
555.19 children, youth, and families, the order of the executive board or the commissioner of
555.20 children, youth, and families binds the local agency involved and the applicant or recipient.
555.21 That agency shall comply with the order of the executive board or the commissioner of
555.22 children, youth, and families unless the order is reversed on appeal as provided in section
555.23 142A.20, subdivision 5, or 256.045, subdivision 7. The agency shall comply with the order
555.24 of the executive board or the commissioner of children, youth, and families pending the
555.25 appeal.

555.26 Sec. 56. Minnesota Statutes 2024, section 256G.09, subdivision 4, is amended to read:

555.27 Subd. 4. **Appeals.** A local agency that is aggrieved by the order of the ~~department~~
555.28 commissioner of human services, executive board, or commissioner of children, youth, and
555.29 families under subdivision 3, paragraph (e), may appeal the opinion to the district court of
555.30 the county responsible for furnishing assistance or services by serving a written copy of a
555.31 notice of appeal on the commissioner of human services and any adverse party of record
555.32 within 30 days after the date the department issued the opinion, and by filing the original
555.33 notice and proof of service with the court administrator of district court. Service may be
555.34 made personally or by mail. Service by mail is complete upon mailing.

556.1 The commissioner of human services; the commissioner of children, youth, and families;
556.2 or the executive board may elect to become a party to the proceedings in district court. The
556.3 court may consider the matter in or out of chambers and shall take no new or additional
556.4 evidence.

556.5 Sec. 57. Minnesota Statutes 2024, section 256G.09, subdivision 5, is amended to read:

556.6 Subd. 5. **Payment pending appeal.** After the ~~department~~ commissioner of human
556.7 services, or the executive board or commissioner of children, youth, and families under
556.8 subdivision 3, paragraph (e), issues an opinion in any submission under this section, the
556.9 service or assistance covered by the submission must be provided or paid pending or during
556.10 an appeal to the district court.

556.11 Sec. 58. Minnesota Statutes 2024, section 256G.10, is amended to read:

556.12 **256G.10 DERIVATIVE SETTLEMENT.**

556.13 (a) The residence of the parent of a minor child, with whom that child last lived in a
556.14 nonexcluded time setting, or guardian of a ward shall determine the residence of the child
556.15 or ward for all social services governed by this chapter.

556.16 (b) For purposes of this chapter, a minor child is defined as being under 18 years of age
556.17 unless otherwise specified in a program administered by the commissioner of human services;
556.18 the commissioner of children, youth, and families; or the Direct Care and Treatment executive
556.19 board.

556.20 (c) Physical or legal custody has no bearing on residence determinations. This section
556.21 does not, however, apply to situations involving another state, limit the application of an
556.22 interstate compact, or apply to situations involving state wards where the commissioner of
556.23 human services or children, youth, and families is defined by law as the guardian.

556.24 Sec. 59. Minnesota Statutes 2024, section 256G.11, is amended to read:

556.25 **256G.11 NO RETROACTIVE EFFECT.**

556.26 (a) This chapter is not retroactive and does not require redetermination of financial
556.27 responsibility for cases existing on January 1, 1988. This chapter applies only to applications
556.28 and redeterminations of eligibility taken or routinely made after January 1, 1988.

556.29 (b) Notwithstanding this section, existing social services cases shall be treated in the
556.30 same manner as cases for those programs outlined in section 256G.02, subdivision 4,

557.1 paragraph (g), for which an application is taken or a redetermination is made after January
557.2 1, 1988.

557.3 (c) The requirement under section 256G.09, subdivision 3, for the Direct Care and
557.4 Treatment executive board or the commissioner of children, youth, and families to accept
557.5 or reject the recommendation of the commissioner of human services regarding the county
557.6 of financial responsibility for matters solely under the jurisdiction of the executive board
557.7 or the commissioner of children, youth, and families is not retroactive and does not require
557.8 redetermination of financial responsibility for cases existing prior to the effective date of
557.9 the transfer of all authorities and responsibilities from the Department of Human Services
557.10 to Direct Care and Treatment.

557.11 (d) Notwithstanding paragraph (c), existing cases relating to matters under the jurisdiction
557.12 of the executive board must be treated in the same manner as cases relating to matters under
557.13 the jurisdiction of the executive board opened or redetermined after the effective date of
557.14 the transfer of all authorities and responsibilities from the Department of Human Services
557.15 to Direct Care and Treatment or the Department of Children, Youth, and Families.

557.16 Sec. 60. Minnesota Statutes 2024, section 256G.12, subdivision 1, is amended to read:

557.17 Subdivision 1. **Limitation.** A submission to the commissioner of human services; the
557.18 commissioner of children, youth, and families; or the Direct Care and Treatment executive
557.19 board for a determination of financial responsibility must be made within three years from
557.20 the date of application for the program in question or from the date of admission or
557.21 commitment to state or other institutions.

557.22 Sec. 61. Minnesota Statutes 2024, section 260.762, subdivision 2a, is amended to read:

557.23 Subd. 2a. **Required findings that active efforts were provided.** (a) A court shall not
557.24 order a child placement, termination of parental rights, guardianship to the commissioner
557.25 of children, youth, and families under section 260C.325, or temporary or permanent change
557.26 in custody of an Indian child unless the court finds that the child-placing agency or petitioner
557.27 demonstrated that active efforts were made to preserve the Indian child's family. Active
557.28 efforts to preserve the Indian child's family include efforts to prevent placement of the Indian
557.29 child to correct the conditions that led to the placement by ensuring remedial services and
557.30 rehabilitative programs designed to prevent the breakup of the family were provided in a
557.31 manner consistent with the prevailing social and cultural conditions of the Indian child's
557.32 Tribe and in partnership with the Indian child, the Indian child's parents, the Indian custodian,
557.33 extended family members, and Tribe, and that these efforts have proved unsuccessful.

558.1 (b) The court, in determining whether active efforts were made to preserve the Indian
558.2 child's family for purposes of child placement or permanency, shall ensure the provision of
558.3 active efforts designed to correct the conditions that led to the placement of the Indian child
558.4 and shall make findings regarding whether the following activities were appropriate and
558.5 necessary, and whether the child-placing agency or petitioner ensured appropriate and
558.6 meaningful services were available based upon the family's specific needs, whether listed
558.7 in this paragraph or not:

558.8 (1) whether active efforts were made at the earliest point possible to inquire into the
558.9 child's heritage, to identify any federally recognized Indian Tribe the child may be affiliated
558.10 with, to notify all potential Tribes at the earliest point possible, and to request participation
558.11 of the Indian child's Tribe;

558.12 (2) whether a Tribally designated representative with substantial knowledge of the
558.13 prevailing social and cultural standards and child-rearing practices within the Tribal
558.14 community was provided an opportunity to consult with and be involved in any investigations
558.15 or assessments of the family's circumstances, participate in identifying the family's needs,
558.16 and participate in development of any plan to keep the Indian child safely in the home,
558.17 identify services designed to prevent the breakup of the Indian child's family, and to reunify
558.18 the Indian child's family as soon as safety can be assured if out-of-home placement has
558.19 occurred;

558.20 (3) whether the Tribal representative was provided with all information available
558.21 regarding the proceeding, and whether it was requested that the Tribal representative assist
558.22 in identifying services designed to prevent the breakup of the Indian child's family and to
558.23 reunify the Indian child's family as soon as safety can be assured if out-of-home placement
558.24 has occurred;

558.25 (4) whether, before making a decision that may affect an Indian child's safety and
558.26 well-being or when contemplating placement of an Indian child, guidance from the Indian
558.27 child's Tribe was sought regarding family structure, how the family can seek help, what
558.28 family and Tribal resources are available, and what barriers the family faces that could
558.29 threaten the family's preservation;

558.30 (5) whether a Tribal representative was consulted to determine and arrange for visitation
558.31 in the most natural setting that ensures the Indian child's safety, when the Indian child's
558.32 safety requires supervised visitation;

558.33 (6) whether early and ongoing efforts occurred to identify, locate, and include extended
558.34 family members as supports for the Indian child and the Indian child's family;

559.1 (7) whether continued active efforts were made to identify and place the Indian child in
559.2 a home that is compliant with the placement preferences in sections 260.751 to 260.835,
559.3 including whether extended family members were consulted to provide support to the Indian
559.4 child and Indian child's parents; to inform the child-placing agency, petitioner, and court
559.5 as to cultural connections and family structure; to assist in identifying appropriate cultural
559.6 services and supports for the Indian child and Indian child's parents; and to identify and
559.7 serve as placement and permanency resources for the Indian child. If there was difficulty
559.8 contacting or engaging extended family members, whether assistance was sought from the
559.9 Tribe; the Department of Human Services; the Department of Children, Youth, and Families;
559.10 or other agencies with expertise in working with Indian families;

559.11 (8) whether services and resources were provided to extended family members who are
559.12 considered the primary placement option for an Indian child, as agreed upon by the
559.13 child-placing agency or petitioner and the Tribe, to overcome licensing and other barriers
559.14 to providing care to an Indian child. The need for services or resources shall not be a basis
559.15 to exclude an extended family member from consideration as a primary placement. Services
559.16 and resources include but are not limited to child care assistance, financial assistance,
559.17 housing resources, emergency resources, and foster care licensing assistance and resources;

559.18 (9) whether concrete services and access to both Tribal and non-Tribal services were
559.19 provided to the Indian child's parents and Indian custodian and, where necessary, members
559.20 of the Indian child's extended family members who provide support to the Indian child and

562.33 conducted when:

(1) a denial of a license under section 142B.15 or 245A.05 or a licensing sanction under section 142B.18 or 245A.07 is based on a determination that the license holder is responsible for maltreatment or the disqualification of a license holder based on serious or recurring maltreatment;

(2) the denial of a license or licensing sanction is issued at the same time as the maltreatment determination or disqualification; and

(3) the license holder appeals the maltreatment determination or disqualification and denial of a license or licensing sanction.

570.23 delivery authorities on their performance;

570.24 (5) implement and monitor the remedies process in section 402A.18;

570.25 (6) report to the Human Services Performance Council on county or service delivery

570.29 (8) provide targeted training and technical assistance to counties or service delivery

570.31 (9) provide staff support for the Human Services Performance Council.

571.1 Sec. 80. Minnesota Statutes 2024, section 402A.18, subdivision 2, is amended to read:

571.2 Subd. 2. **Underperforming county; more than one-half of services.** If the ~~commissioner~~
571.3 ~~determines~~ commissioners determine that a county or service delivery authority is deficient
571.4 in achieving minimum performance thresholds for more than one-half of the defined essential
571.5 human services programs, the ~~commissioner~~ commissioners may impose the following
571.6 remedies:

571.7 (1) voluntary incorporation of the administration and operation of essential human
571.8 services programs with an existing service delivery authority or another county. A service
571.9 delivery authority or county incorporating an underperforming county shall not be financially
571.10 liable for the costs associated with remedying performance outcome deficiencies;

571.11 (2) mandatory incorporation of the administration and operation of essential human
571.12 services programs with an existing service delivery authority or another county. A service
571.13 delivery authority or county incorporating an underperforming county shall not be financially
571.14 liable for the costs associated with remedying performance outcome deficiencies; or

571.15 (3) transfer of authority for administration and operation of essential human services
571.16 programs to the commissioner that oversees each program.

571.17 Sec. 81. Minnesota Statutes 2024, section 402A.18, subdivision 3, is amended to read:

571.18 Subd. 3. **Conditions prior to imposing remedies.** (a) The commissioner shall notify a
571.19 county or service delivery authority that it must submit a performance improvement plan
571.20 if:

571.21 (1) the county or service delivery authority does not meet the minimum performance
571.22 threshold for a measure; or

571.23 (2) the county or service delivery authority has a performance disparity for a racial or
571.24 ethnic subgroup, even if the county or service delivery authority met the threshold for the
571.25 overall population. The council shall make recommendations on performance disparities,
571.26 and the commissioner shall make the final determination.

571.27 (b) When the ~~department~~ commissioner determines that a county or service delivery
571.28 authority does not meet the minimum performance threshold for a given measure, the
571.29 commissioner must advise the county or service delivery authority that fiscal penalties may
571.30 result if the performance does not improve. The ~~department~~ commissioner must offer
571.31 technical assistance to the county or service delivery authority. Within 30 days of the initial
571.32 advisement from the ~~department~~ commissioner, the county or service delivery authority
571.33 may claim and the ~~department~~ commissioner may approve an extenuating circumstance

572.1 that relieves the county or service delivery authority of any further remedy. If a county or
572.2 service delivery authority has a small number of participants in an essential human services
572.3 program such that reliable measurement is not possible, the commissioner may approve
572.4 extenuating circumstances.

572.5 (c) If there are no extenuating circumstances, the county or service delivery authority
572.6 must submit a performance improvement plan to the commissioner within 60 days of the
572.7 initial advisement from the ~~department~~ commissioner. The term of the performance
572.8 improvement plan must be two years, starting with the date the plan is approved by the
572.9 commissioner. This plan must include a target level for improvement for each measure that
572.10 did not meet the minimum performance threshold. The commissioner must approve the
572.11 performance improvement plan within 60 days of submittal.

572.12 (d) The ~~department~~ commissioner must monitor the performance improvement plan for
572.13 two years. After two years, if the county or service delivery authority meets the minimum
572.14 performance threshold, there is no further remedy. If the county or service delivery authority
572.15 fails to meet the minimum performance threshold, but meets the improvement target in the
572.16 performance improvement plan, the county or service delivery authority shall modify the
572.17 performance improvement plan for further improvement and the ~~department~~ commissioner
572.18 shall continue to monitor the plan.

572.19 (e) If, after two years of monitoring, the county or service delivery authority fails to
572.20 meet both the minimum performance threshold and the improvement target identified in
572.21 the performance improvement plan, the next step of the remedies process shall be invoked
572.22 by the commissioner. This phase of the remedies process may include:

572.23 (1) fiscal penalties for the county or service delivery authority that do not exceed one
572.24 percent of the county's human services expenditures and that are negotiated in the
572.25 performance improvement plan, based on what is needed to improve outcomes. Counties
572.26 or service delivery authorities must reinvest the amount of the fiscal penalty into the essential
572.27 human services program that was underperforming. A county or service delivery authority
572.28 shall not be required to pay more than three fiscal penalties in a year; and

572.29 (2) the ~~department's~~ commissioner's provision of technical assistance to the county or
572.30 service delivery authority that is targeted to address the specific performance issues.

572.31 The commissioner shall continue monitoring the performance improvement plan for a third
572.32 year.

572.33 (f) If, after the third year of monitoring, the county or service delivery authority meets
572.34 the minimum performance threshold, there is no further remedy. If the county or service

573.1 delivery authority fails to meet the minimum performance threshold, but meets the
573.2 improvement target for the performance improvement plan, the county or service delivery
573.3 authority shall modify the performance improvement plan for further improvement and the
573.4 ~~department~~ commissioner shall continue to monitor the plan.

573.5 (g) If, after the third year of monitoring, the county or service delivery authority fails to
573.6 meet the minimum performance threshold and the improvement target identified in the
573.7 performance improvement plan, the Human Services Performance Council shall review the
573.8 situation and recommend a course of action to the commissioner.

573.9 (h) If the commissioner has determined that a program has a balanced set of program
573.10 measures and a county or service delivery authority is subject to fiscal penalties for more
573.11 than one-half of the measures for that program, the commissioner may apply further remedies
573.12 as described in subdivisions 1 and 2.

573.13 Sec. 82. Minnesota Statutes 2024, section 402A.18, is amended by adding a subdivision
573.14 to read:

573.15 Subd. 4. **Commissioner jurisdiction.** For purposes of this section, "commissioner"
573.16 means the commissioner of human services or the commissioner of children, youth, and
573.17 families, whichever oversees the program or service at issue. If programs or services overseen
573.18 by both commissioners are at issue, commissioner means both commissioners jointly. A
573.19 commissioner must not take action under this section for a program or service that the
573.20 commissioner does not oversee.

573.21 Sec. 83. Minnesota Statutes 2024, section 402A.35, subdivision 1, is amended to read:

573.22 Subdivision 1. **Requirements for establishing a service delivery authority.** (a) A
573.23 county, tribe, or consortium of counties is eligible to establish a service delivery authority
573.24 if:

573.25 (1) the county, tribe, or consortium of counties is:

573.26 (i) a single county with a population of 55,000 or more;

573.27 (ii) a consortium of counties with a total combined population of 55,000 or more;

573.28 (iii) a consortium of four or more counties in reasonable geographic proximity without
573.29 regard to population; or

573.30 (iv) one or more tribes with a total combined population of 25,000 or more.

574.1 The council may recommend that the ~~commissioner of human services~~ commissioners
574.2 exempt a single county, tribe, or consortium of counties from the minimum population
574.3 standard if the county, tribe, or consortium of counties can demonstrate that it can otherwise
574.4 meet the requirements of this chapter.

574.5 (b) A service delivery authority shall:

574.6 (1) comply with current state and federal law, including any existing federal or state
574.7 performance measures when they are enacted into law, except where waivers are approved
574.8 by the ~~commissioner~~ commissioners;

574.9 (2) define the scope of essential services over which the service delivery authority has
574.10 jurisdiction;

574.11 (3) designate a single administrative structure to oversee the delivery of those services
574.12 included in a proposal for a redesigned service or services and identify a single administrative
574.13 agent for purposes of contact and communication with the department;

574.14 (4) identify the waivers from statutory or rule program requirements that are needed to
574.15 ensure greater local control and flexibility to determine the most cost-effective means of
574.16 achieving specified measurable goals that the participating service delivery authority is
574.17 expected to achieve;

574.18 (5) set forth a reasonable level of targeted reductions in overhead and administrative
574.19 costs for each service delivery authority participating in the service delivery redesign;

574.20 (6) set forth the terms under which a county, tribe, or consortium of counties may
574.21 withdraw from participation. In the case of withdrawal of any or all parties or the dissolution
574.22 of the service delivery authority, the employees shall continue to be represented by the same
574.23 exclusive representative or representatives and continue to be covered by the same collective
574.24 bargaining union agreement until a new agreement is negotiated or the collective bargaining
574.25 agreement term ends; and

574.26 (7) set forth a structure for managing the terms and conditions of employment of the
574.27 employees as provided in section 402A.40.

574.28 (c) Once a county, tribe, or consortium of counties establishes a service delivery authority,
574.29 no county, tribe, or consortium of counties that is a member of the service delivery authority
574.30 may participate as a member of any other service delivery authority. The service delivery
574.31 authority may allow an additional county, a tribe, or a consortium of counties to join the
574.32 service delivery authority subject to the approval of the council and the ~~commissioner~~
574.33 commissioners.

(d) Nothing in this chapter precludes local governments from using sections 465.81 and 465.82 to establish procedures for local governments to merge, with the consent of the voters. Nothing in this chapter limits the authority of a county board or tribal council to enter into contractual agreements for services not covered by the provisions of a memorandum of understanding establishing a service delivery authority with other agencies or with other units of government.

Sec. 84. Minnesota Statutes 2024, section 402A.35, subdivision 4, is amended to read:

(i) the details of the proposal;

(ii) the state, tribal, and local resources, which may include, but are not limited to, funding, administrative and technology support, and other requirements necessary for the service delivery authority; and

(iii) the relief available to the service delivery authority if the resource commitments identified in item (ii) are not met; and

(2) a board resolution from the board of commissioners of each participating county stating the county's intent to participate, or in the case of a tribe, a resolution from tribal government, stating the tribe's intent to participate.

(b) After the council has considered and recommended approval of a proposed memorandum of understanding, the ~~commissioner~~ commissioners may finalize and execute the memorandum of understanding.

Sec. 85. Minnesota Statutes 2024, section 402A.35, subdivision 5, is amended to read:

Subd. 5. **Commissioner authority to seek waivers.** The ~~commissioner~~ commissioners may use the authority under section 142A.03, subdivision 2, paragraph (k), or 256.01, subdivision 2, paragraph (k), to grant waivers identified as part of a proposed service delivery authority under subdivision 1, paragraph (b), clause (4), except that waivers granted under this section must be approved by the council under section 402A.20 rather than the Legislative Advisory Committee.

576.2 Subd. 6. **Rent assistance not income.** (a) Notwithstanding any law to the contrary,
576.3 payments under this section must not be considered income, assets, or personal property
576.4 for purposes of determining eligibility or recertifying eligibility for state public assistance,
576.5 including but not limited to:

576.6 (1) child care assistance programs under chapter 142E;

576.7 (2) food support under chapter 142F;

576.13 ~~(5) (6) economic assistance programs under chapter 256P.~~

576.14 (b) The commissioner of human services must not consider rent assistance grant money
576.15 under this section as income or assets under section 256B.056, subdivision 1a, paragraph
576.16 (a); subdivision 3; or subdivision 3c, or for persons with eligibility determined under section
576.17 256B.057, subdivision 3, 3a, or 3b.

576.18 Sec. 87. Minnesota Statutes 2024, section 466.131, is amended to read:

584.24 Notwithstanding premium subsidies provided under section 62V.16, subdivision 2, the

62E.22 DUTIES OF COMMISSIONER.

The commissioner shall require eligible health carriers to calculate the premium amount the eligible health carrier would have charged for the benefit year if the Minnesota premium security plan had not been established. The eligible health carrier must submit this information as part of its rate filing. The commissioner must consider this information as part of the rate review.

62E.23 MINNESOTA PREMIUM SECURITY PLAN.

Subdivision 1. **Administration of plan.** (a) The association is Minnesota's reinsurance entity to administer the state-based reinsurance program referred to as the Minnesota premium security plan.

(b) The association may apply for any available federal funding for the plan. All funds received by or appropriated to the association shall be deposited in the premium security plan account in section 62E.25, subdivision 1. The association shall notify the chairs and ranking minority members

APPENDIX
Repealed Minnesota Statutes: S2669-3

of the legislative committees with jurisdiction over health and human services and insurance within ten days of receiving any federal funds.

(c) The association must collect or access data from an eligible health carrier that are necessary to determine reinsurance payments, according to the data requirements under subdivision 5, paragraph (c).

(d) The board must not use any funds allocated to the plan for staff retreats, promotional giveaways, excessive executive compensation, or promotion of federal or state legislative or regulatory changes.

(e) For each applicable benefit year, the association must notify eligible health carriers of reinsurance payments to be made for the applicable benefit year no later than June 30 of the year following the applicable benefit year.

(f) On a quarterly basis during the applicable benefit year, the association must provide each eligible health carrier with the calculation of total reinsurance payment requests.

(g) By August 15 of the year following the applicable benefit year, the association must disburse all applicable reinsurance payments to an eligible health carrier.

Subd. 2. **Payment parameters.** (a) The board must design and adjust the payment parameters to ensure the payment parameters:

- (1) will stabilize or reduce premium rates in the individual market;
- (2) will increase participation in the individual market;
- (3) will improve access to health care providers and services for those in the individual market;
- (4) mitigate the impact high-risk individuals have on premium rates in the individual market;
- (5) take into account any federal funding available for the plan; and
- (6) take into account the total amount available to fund the plan.

(b) The attachment point for the plan is the threshold amount for claims costs incurred by an eligible health carrier for an enrolled individual's covered benefits in a benefit year, beyond which the claims costs for benefits are eligible for reinsurance payments. The attachment point shall be set by the board at \$50,000 or more, but not exceeding the reinsurance cap.

(c) The coinsurance rate for the plan is the rate at which the association will reimburse an eligible health carrier for claims incurred for an enrolled individual's covered benefits in a benefit year above the attachment point and below the reinsurance cap. The coinsurance rate shall be set by the board at a rate between 50 and 80 percent.

(d) The reinsurance cap is the threshold amount for claims costs incurred by an eligible health carrier for an enrolled individual's covered benefits, after which the claims costs for benefits are no longer eligible for reinsurance payments. The reinsurance cap shall be set by the board at \$250,000 or less.

(e) The board may adjust the payment parameters to the extent necessary to secure federal approval of the state innovation waiver request in Laws 2017, chapter 13, article 1, section 8.

Subd. 3. **Operation.** (a) The board shall propose to the commissioner the payment parameters for the next benefit year by January 15 of the year before the applicable benefit year. The commissioner shall approve or reject the payment parameters no later than 14 days following the board's proposal. If the commissioner fails to approve or reject the payment parameters within 14 days following the board's proposal, the proposed payment parameters are final and effective.

(b) If the amount in the premium security plan account in section 62E.25, subdivision 1, is not anticipated to be adequate to fully fund the approved payment parameters as of July 1 of the year before the applicable benefit year, the board, in consultation with the commissioner and the commissioner of management and budget, shall propose payment parameters within the available appropriations. The commissioner must permit an eligible health carrier to revise an applicable rate filing based on the final payment parameters for the next benefit year.

(c) Notwithstanding paragraph (a), the payment parameters for benefit years 2023 through 2027 are:

- (1) an attachment point of \$50,000;

(2) a coinsurance rate of 80 percent; and

(3) a reinsurance cap of \$250,000.

Subd. 4. Calculation of reinsurance payments. (a) Each reinsurance payment must be calculated with respect to an eligible health carrier's incurred claims costs for an individual enrollee's covered benefits in the applicable benefit year. If the claims costs do not exceed the attachment point, the reinsurance payment is \$0. If the claims costs exceed the attachment point, the reinsurance payment shall be calculated as the product of the coinsurance rate and the lesser of:

(1) the claims costs minus the attachment point; or

(2) the reinsurance cap minus the attachment point.

(b) The board must ensure that reinsurance payments made to eligible health carriers do not exceed the total amount paid by the eligible health carrier for any eligible claim. "Total amount paid of an eligible claim" means the amount paid by the eligible health carrier based upon the allowed amount less any deductible, coinsurance, or co-payment, as of the time the data are submitted or made accessible under subdivision 5, paragraph (c).

Subd. 5. Eligible carrier requests for reinsurance payments. (a) An eligible health carrier may request reinsurance payments from the association when the eligible health carrier meets the requirements of this subdivision and subdivision 4.

(b) An eligible health carrier must make requests for reinsurance payments in accordance with any requirements established by the board.

(c) An eligible health carrier must provide the association with access to the data within the dedicated data environment established by the eligible health carrier under the federal risk adjustment program under United States Code, title 42, section 18063. Eligible health carriers must submit an attestation to the board asserting compliance with the dedicated data environments, data requirements, establishment and usage of masked enrollee identification numbers, and data submission deadlines.

(d) An eligible health carrier must provide the access described in paragraph (c) for the applicable benefit year by April 30 of each year of the year following the end of the applicable benefit year.

(e) An eligible health carrier must maintain documents and records, whether paper, electronic, or in other media, sufficient to substantiate the requests for reinsurance payments made pursuant to this section for a period of at least six years. An eligible health carrier must also make those documents and records available upon request from the commissioner for purposes of verification, investigation, audit, or other review of reinsurance payment requests.

(f) An eligible health carrier may follow the appeals procedure under section 62E.10, subdivision 2a.

(g) The association may have an eligible health carrier audited to assess the health carrier's compliance with the requirements of this section. The eligible health carrier must ensure that its contractors, subcontractors, or agents cooperate with any audit under this section. If an audit results in a proposed finding of material weakness or significant deficiency with respect to compliance with any requirement of this section, the eligible health carrier may provide a response to the proposed finding within 30 days. Within 30 days of the issuance of a final audit report that includes a finding of material weakness or significant deficiency, the eligible health carrier must:

(1) provide a written corrective action plan to the association for approval;

(2) implement the approved plan; and

(3) provide the association with written documentation of the corrective action once taken.

All reports must be made public by posting the report on the Minnesota Comprehensive Health Association website. The annual summary must be made available by November 1 of the year following the applicable benefit year or 60 calendar days following the final disbursement of reinsurance payments for the applicable benefit year, whichever is later.

The audit must at a minimum:

(1) assess compliance with the requirements of sections 62E.21 to 62E.25; and

(2) identify any material weaknesses or significant deficiencies and address manners in which to correct any such material weaknesses or deficiencies.

(b) The board, after receiving the completed audit, must:

(1) provide the commissioner the results of the audit;

(2) identify to the commissioner any material weakness or significant deficiency identified in the audit and address in writing to the commissioner how the board intends to correct any such material weakness or significant deficiency in compliance with subdivision 5; and

(3) make public the results of the audit, to the extent the audit contains government data that is public, including any material weakness or significant deficiency and how the board intends to correct the material weakness or significant deficiency, by posting the audit results on the Minnesota Comprehensive Health Association website and making the audit results otherwise available.

Subd. 5. **Actions on audit findings.** (a) If an audit results in a finding of material weakness or significant deficiency with respect to compliance by the association with any requirement under sections 62E.21 to 62E.25, the board must:

(1) provide a written corrective action plan to the commissioner for approval within 60 days of the completed audit;

(2) implement the corrective action plan; and

(3) provide the commissioner with written documentation of the corrective actions taken.

(b) By December 1 of each year, the board must submit a report to the standing committees of the legislature having jurisdiction over health and human services and insurance regarding any finding of material weakness or significant deficiency found in an audit.

Funds in the account are appropriated annually to the commissioner of commerce for grants to the Minnesota Comprehensive Health Association for the operational and administrative costs and reinsurance payments relating to the start-up and operation of the Minnesota premium security plan. Notwithstanding section 11A.20, all investment income and all investment losses attributable to the investment of the premium security plan account shall be credited to the premium security plan account.

(b) Each health care facility must post prominently in locations easily accessible to and visible by patients, including on its website, a statement that the provider-based clinic is part of a hospital and the patient may receive a separate charge or billing for the facility, which may result in a higher out-of-pocket expense.

138.912 HEALTHY EATING, HERE AT HOME.

Subd. 7. **Grocery inclusion.** The commissioner of children, youth, and families must submit a waiver request to the federal United States Department of Agriculture seeking approval for the inclusion of Minnesota grocery stores in this program so that SNAP participants may use the vouchers for healthy produce at grocery stores. Grocery store participation is voluntary and a grocery store's associated administrative costs will not be reimbursed.

142A.15 PUBLIC ASSISTANCE LIEN ON RECIPIENT'S CAUSE OF ACTION.

Subdivision 1. **State agency has lien.** When the state agency provides, pays for, or becomes liable for medical care or furnishes subsistence or other payments to a person, the agency shall have a lien for the cost of the care and payments on any and all causes of action or recovery rights under any policy, plan, or contract providing benefits for health care or injury that accrue to the person to whom the care or payments were furnished, or to the person's legal representatives, as a result of the occurrence that necessitated the medical care, subsistence, or other payments. For purposes of this section, "state agency" includes prepaid health plans under contract with the commissioner according to sections 256B.69, 256L.01, subdivision 7, 256L.03, subdivision 6, and 256L.12, and Minnesota Statutes 2009 Supplement, section 256D.03, subdivision 4, paragraph (c); children's mental health collaboratives under section 245.493; demonstration projects for persons with disabilities under section 256B.77; nursing homes reimbursed under chapter 256R; and county-based purchasing entities under section 256B.692.

Subd. 2. **Perfection; enforcement.** (a) The state agency may perfect and enforce its lien under sections 514.69, 514.70, and 514.71, and must file the verified lien statement with the appropriate court administrator in the county of financial responsibility. The verified lien statement must contain the following: the name and address of the person to whom medical care, subsistence, or other payment was furnished; the date of injury; the name and address of vendors furnishing medical care; the dates of the service or payment; the amount claimed to be due for the care or payment; and to the best of the state agency's knowledge, the names and addresses of all persons, firms, or corporations claimed to be liable for damages arising from the injuries.

(b) This section does not affect the priority of any attorney's lien. The state agency is not subject to any limitations period referred to in section 514.69 or 514.71 and has one year from the date notice is first received by it under subdivision 4, paragraph (c), even if the notice is untimely, or one year from the date medical bills are first paid by the state agency, whichever is later, to file its verified lien statement. The state agency may commence an action to enforce the lien within one year of (1) the date the notice required by subdivision 4, paragraph (c), is received, or (2) the date the person's cause of action is concluded by judgment, award, settlement, or otherwise, whichever is later.

(c) If the notice required in subdivision 4 is not provided by any of the parties to the claim at any stage of the claim, the state agency will have one year from the date the state agency learns of the lack of notice to commence an action. If amounts on the claim or cause of action are paid and the amount required to be paid to the state agency under subdivision 5 is not paid to the state agency, the state agency may commence an action to recover on the lien against any or all of the parties or entities that have either paid or received the payments.

Subd. 3. **Prosecutor.** (a) The attorney general shall represent the commissioner to enforce the lien created under this section or, if no action has been brought, may initiate and prosecute an independent action on behalf of the commissioner against a person, firm, or corporation that may be liable to the person to whom the care or payment was furnished.

APPENDIX
Repealed Minnesota Statutes: S2669-3

(b) Any prepaid health plan providing services under sections 256B.69 and 256L.12 and Minnesota Statutes 2009 Supplement, section 256D.03, subdivision 4, paragraph (c); children's mental health collaboratives under section 245.493; demonstration projects for persons with disabilities under section 256B.77; nursing homes reimbursed under chapter 256R; or the county-based purchasing entity providing services under section 256B.692 may retain legal representation to enforce their lien created under this section or, if no action has been brought, may initiate and prosecute an independent action on their behalf against a person, firm, or corporation that may be liable to the person to whom the care or payment was furnished.

Subd. 4. **Notice.** (a) The state agency must be given notice of monetary claims against a person, firm, or corporation that may be liable in damages to the injured person when the state agency has paid for or become liable for the cost of medical care or payments related to the injury. Notice must be given as provided in this subdivision.

(b) Applicants for public assistance shall notify the state or county agency of any possible claims they may have against a person, firm, or corporation when they submit the application for assistance. Recipients of public assistance shall notify the state or county agency of any possible claims when those claims arise.

(c) A person providing medical care services to a recipient of public assistance shall notify the state agency when the person has reason to believe that a third party may be liable for payment of the cost of medical care.

(d) A party to a claim upon which the state agency may be entitled to a lien under this section shall notify the state agency of its potential lien claim at each of the following stages of a claim:

- (1) when a claim is filed;
- (2) when an action is commenced; and
- (3) when a claim is concluded by payment, award, judgment, settlement, or otherwise.

(e) Every party involved in any stage of a claim under this subdivision is required to provide notice to the state agency at that stage of the claim. However, when one of the parties to the claim provides notice at that stage, every other party to the claim is deemed to have provided the required notice at that stage of the claim. If the required notice under this paragraph is not provided to the state agency, every party will be deemed to have failed to provide the required notice. A party to a claim includes the injured person or the person's legal representative, the plaintiff, the defendants, or persons alleged to be responsible for compensating the injured person or plaintiff, and any other party to the cause of action or claim, regardless of whether the party knows the state agency has a potential or actual lien claim.

(f) Notice given to the county agency is not sufficient to meet the requirements of paragraphs (c) and (d).

Subd. 5. **Costs deducted.** Upon any judgment, award, or settlement of a cause of action, or any part of it, upon which the state agency has filed its lien, including compensation for liquidated, unliquidated, or other damages, reasonable costs of collection, including attorney fees, must be deducted first. The full amount of public assistance paid to or on behalf of the person as a result of the injury must be deducted next, and paid to the state agency. The rest must be paid to the public assistance recipient or other plaintiff. The plaintiff, however, must receive at least one-third of the net recovery after attorney fees and other collection costs.

Subd. 6. **When effective.** The lien created under this section is effective with respect to any public assistance paid on or after August 1, 1987.

Subd. 7. **Cooperation with information requests required.** (a) Upon the request of the commissioner:

(1) any state agency or third-party payer shall cooperate by furnishing information to help establish a third-party liability, as required by the federal Deficit Reduction Act of 2005, Public Law 109-171;

(2) any employer or third-party payer shall cooperate by furnishing a data file containing information about group health insurance plan or medical benefit plan coverage of its employees or insureds within 60 days of the request. The information in the data file must include at least the following: full name, date of birth, Social Security number if collected and stored in a system routinely used for producing data files by the employer or third-party payer, employer name, policy identification number, group identification number, and plan or coverage type.

(b) For purposes of section 176.191, subdivision 4, the commissioner of labor and industry may allow the commissioner of children, youth, and families and county agencies direct access and data matching on information relating to workers' compensation claims in order to determine whether the claimant has reported the fact of a pending claim and the amount paid to or on behalf of the claimant to the commissioner of human services.

(c) For the purpose of compliance with section 169.09, subdivision 13, and federal requirements under Code of Federal Regulations, title 42, section 433.138(d)(4), the commissioner of public safety shall provide accident data as requested by the commissioner of children, youth, and families. The disclosure shall not violate section 169.09, subdivision 13, paragraph (d).

(d) The commissioner of children, youth, and families and county agencies shall limit its use of information gained from agencies, third-party payers, and employers to purposes directly connected with the administration of its public assistance and child support programs. The provision of information by agencies, third-party payers, and employers to the department under this subdivision is not a violation of any right of confidentiality or data privacy.

(c) For a licensee whose conversion license period is 13 to 24 months, the first biennial license fee charged after the conversion license period must be adjusted to credit the excess fee payment made during the conversion license period. The credit is calculated by:

- (1) subtracting the number of months of the licensee's conversion license period from 24; and

B. The application fee received supports only the application with which the fee was submitted. A person who applies more than once must submit the full application fee with each subsequent application.

Subp. 3. Examination fees.

A. All applicants for veterinary licensure in Minnesota must successfully pass the Minnesota Veterinary Jurisprudence Examination. The fee for this examination is \$50, payable to the board.

B. An applicant participating in the national veterinary licensing examination must complete a separate application for the national examination and submit the application to the board for approval. Payment for the national examination must be made by the applicant to the national board examination committee after the application for examination has been approved by the board.

9100.0500 INITIAL AND RENEWAL FEE.

Subpart 1. **Required for licensure.** Each person now licensed to practice veterinary medicine in this state, or who becomes licensed by the Board of Veterinary Medicine to engage in the practice, shall pay an initial fee or a biennial license renewal fee if the person wishes to practice veterinary medicine in the coming two-year period or remain licensed as a veterinarian. A licensure period begins on March 1 and expires the last day of February two years later. A licensee with an even-numbered license shall renew by March 1 of even-numbered years and a licensee with an odd-numbered license shall renew by March 1 of odd-numbered years. For 1996 license renewals, licensees with an even-numbered license shall renew for two years. Licensees with an odd-numbered license shall renew for one year and commence renewal for a two-year period in 1997.

Subp. 2. **Amount.** The initial licensure fee and the biennial renewal fee is \$200 and must be paid to the executive director of the board on or before March 1 of the first year of the biennial license period. By January 1 of the first year for which the biennial renewal fee is due, the board shall issue a renewal application to each current licensee to the last address maintained in the board file. Failure to receive this notice does not relieve the licensee of the obligation to pay renewal fees so that they are received by the board on or before the renewal date of March 1.

Initial licenses issued after the start of the licensure renewal period are valid only until the end of the period.

Subp. 3. **Date due.** A licensee must apply for a renewal license on or before March 1 of the first year of the biennial license renewal period. A renewal license is valid from March 1 through the last day of February of the last year of the two-year license renewal period. An application postmarked no later than the last day of February must be considered to have been received on March 1.

Subp. 4. **Late renewal penalty.** An applicant for renewal must pay a late renewal penalty of \$100 in addition to the renewal fee if the application for renewal is received after March 1 of the licensure renewal period. A renewed license issued after March 1 of the licensure renewal period is valid only to the end of the period regardless of when the renewal fee is received.

Subp. 4a. **Reinstatement fee.** An applicant for license renewal whose license has previously been suspended by official board action for nonrenewal must pay a reinstatement fee of \$50 in addition to the \$200 renewal fee and the \$100 late renewal penalty.

Subp. 5. **Penalty for failure to pay.** Within 30 days after the renewal date, a licensee who has not renewed the license must be notified by letter sent to the last known address of the licensee in the file of the board that the renewal is overdue and that failure to pay the current fee and current late fee within 60 days after the renewal date will result in suspension of the license. A second notice must be sent by registered or certified mail at least seven

days before a board meeting occurring 60 days or more after the renewal date to each licensee who has not paid the renewal fee and late fee.

Subp. 6. **Suspension.** The board, by means of a roll call vote, shall suspend the license of a licensee whose license renewal is at least 60 days overdue and to whom notification has been sent as provided in subpart 5. Failure of a licensee to receive notification is not grounds for later challenge by the licensee of the suspension. The former licensee must be notified by registered or certified letter within seven days of the board action. The suspended status placed on a license may be removed only on payment of renewal fees and late penalty fees for each licensure period or part of a period that the license was not renewed. A licensee who fails to renew a license for five years or more must meet the criteria of Minnesota Statutes, section 156.071, for relicensure.

(2) certification by the applicant that the applicant is not currently under disciplinary orders or investigation for acts that could result in disciplinary action in any other jurisdiction; and

(3) payment of a fee equal to the full difference between an inactive and unrestricted license if converting during the first year of the biennial license cycle or payment of a fee equal to one-half the difference between an inactive and an unrestricted license if converting during the second year of the license cycle.
