I have been fully informed of the feasible alternative, concurrent, or additional treatment opportunities for my terminal disease, including but not limited to comfort care, palliative care, hospice care, or pain control, and of the potential risks and benefits of each. I request that my attending provider furnish a prescription for medication that will end my life in a peaceful manner if I choose to self-administer it, and I authorize my attending provider to contact a pharmacist to dispense the prescription.

I make this request voluntarily, free from coercion or undue influence, and attest that no one has attempted, by deception, intimidation, or other means, to cause me to request this prescription.

8.18 met; and

8.19 (12) include in the individual's medical record the consulting provider's written

11.25 facility. A prohibiting health care facility must give providers and pharmacists advance
11.26 written notice of this policy at the time of hiring, contracting with, or privileging the provider
11.27 or pharmacist.

11.28 (b) A health care facility that fails to provide advance written notice of the policy as
11.29 required under paragraph (a) waives the right to enforce any prohibitions authorized under
11.30 paragraph (a).

(c) No health care facility shall prohibit a provider or pharmacist from fulfilling the requirements of informed consent and meeting the medical standard of care by:

(1) providing information to an individual regarding the individual's health status, including but not limited to diagnosis, prognosis, recommended treatment, treatment alternatives, and any potential risks to the individual's health; or

(2) providing information regarding health care services available under this chapter, information about relevant community resources, and information about how to access those resources to obtain the individual's care of choice.

Subd. 2. **Timely transfer.** If an individual requests to transfer care to another health care facility, the facility currently providing care to the individual shall cooperate with a timely transfer to the new facility, including transfer of the individual's medical records within two business days after the facility receives the individual's transfer request, in a manner consistent with applicable federal and Minnesota laws.

Subd. 3. **False, misleading, or deceptive practices prohibited.** In accordance with section 144.651, a health care facility shall not engage in false, misleading, or deceptive practices relating to the facility's policy with respect to medical aid in dying, including:

(1) whether the facility has a policy that prohibits affiliated providers or pharmacists from determining an individual's qualification for medical aid in dying or from prescribing or dispensing medical aid in dying medication to a qualified individual; or

(2) intentionally denying an individual access to medical aid in dying medication by failing to transfer the individual to another provider or health care facility in a timely manner or failing to transfer the individual's medical records to another provider or health care facility within two business days after the facility receives the individual's transfer request.

Subd. 4. **Conflict.** If any provision of this section is found to conflict with federal requirements necessary for a health care facility or the state to receive federal funds, the conflicting provision of this section is inoperative solely to the extent of the conflict as it applies to the directly affected facility, and the finding or determination shall not affect the operation of the remainder of this chapter.

EFFECTIVE DATE. This section is effective August 1, 2025.

13.17 action if, at the request of the qualified individual, the individual is present outside the scope

13.19 self-administers medical aid in dying medication or at the time of death. An individual who
13.20 is present may, without civil or criminal liability, assist the qualified individual by preparing
13.21 the medical aid in dying medication, including opening medication containers, measuring
13.22 the medication, or preparing an enteral dispenser containing the medication. The assisting
13.23 individual is not permitted to assist the qualified individual by administering a prepared

14.4 attending provider checklist form and attending provider follow-up form to facilitate
