BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

ARTICLE 1

CONTINUITY OF CARE

Section 1. Minnesota Statutes 2024, section 245D.10, subdivision 3, is amended to read:

Subd. 3. **Service suspension.** (a) The license holder must establish policies and procedures for temporary service suspension that promote continuity of care and service coordination with the person and the case manager and with other licensed caregivers, if any, who also provide support to the person. The policy must include the requirements specified in paragraphs (b) to (f).

(b) The license holder must limit temporary service suspension to situations in which:

(1) the person's conduct poses an imminent risk of physical harm to self or others and either positive support strategies have been implemented to resolve the issues leading to the temporary service suspension but have not been effective and additional positive support strategies would not achieve and maintain safety, or less restrictive measures would not resolve the issues leading to the suspension;

(2) the person has emergent medical issues that exceed the license holder's ability to meet the person's needs; or

(3) the program has not been paid for services, except an interruption to the person's public benefits that has lasted less than 60 days does not constitute nonpayment.

(c) Prior to giving notice of temporary service suspension, the license holder must document actions taken to minimize or eliminate the need for service suspension. Action taken by the license holder must include, at a minimum:

(1) consultation with the person's support team or expanded support team to identify and resolve issues leading to issuance of the notice; and

(2) a request to the case manager for intervention services identified in section 245D.03, subdivision 1, paragraph (c), clause (1), or other professional consultation or intervention services to support the person in the program. This requirement does not apply to temporary suspensions issued under paragraph (b), clause (3).

If, based on the best interests of the person, the circumstances at the time of the notice were such that the license holder was unable to take the action specified in clauses (1) and (2), the license holder must document the specific circumstances and the reason for being unable to do so.

(d) The notice of temporary service suspension must meet the following requirements:

(1) the license holder must notify the person or the person's legal representative and case manager in writing of the intended temporary service suspension. If the temporary service suspension is from residential supports and services as defined in section 245D.03, subdivision 1, paragraph (c), clause (3), or from integrated community supports as defined in section 245D.03, subdivision 1, paragraph (c), clause (8), the license holder must also notify the commissioner in writing;

(2) notice of temporary service suspension must be given on the first day of the service suspension; and

(3) the notice must include the reason for the action, a summary of actions taken to minimize or eliminate the need for temporary service suspension as required under ~~this paragraph~~ paragraph (c), and why these measures failed to prevent the suspension.

(e) During the temporary suspension period, the license holder must:

(1) provide information requested by the person or case manager;

(2) work with the support team or expanded support team to develop reasonable alternatives to protect the person and others and to support continuity of care; and

(3) maintain information about the service suspension, including the written notice of temporary service suspension, in the service recipient record.

(f) If, based on a review by the person's support team or expanded support team, that team determines the person no longer poses an imminent risk of physical harm to self or others, the person has a right to return to receiving services. If, at the time of the service suspension or at any time during the suspension, the person is receiving treatment related to the conduct that resulted in the service suspension, the support team or expanded support team must consider the recommendation of the licensed health professional, mental health professional, or other licensed professional involved in the person's care or treatment when determining whether the person no longer poses an imminent risk of physical harm to self or others and can return to the program. If the support team or expanded support team makes a determination that is contrary to the recommendation of a licensed professional treating

the person, the license holder must document the specific reasons why a contrary decision was made.

Sec. 2. Minnesota Statutes 2025 Supplement, section 245D.10, subdivision 3a, is amended to read:

Subd. 3a. **Service termination.** (a) The license holder must establish policies and procedures for service termination that promote continuity of care and service coordination with the person and the case manager and with other licensed caregivers, if any, who also provide support to the person. The policy must include the requirements specified in paragraphs (b) to (f).

(b) The license holder must permit each person to remain in the program or to continue receiving services and must not terminate services unless:

(1) the termination is necessary for the person's welfare and the license holder cannot meet the person's needs;

(2) the safety of the person, others in the program, or staff is endangered and positive support strategies were attempted and have not achieved and effectively maintained safety for the person or others;

(3) the health of the person, others in the program, or staff would otherwise be endangered;

(4) the license holder has not been paid for services, except an interruption to a person's public benefits that has lasted less than 60 days does not constitute nonpayment;

(5) the program or license holder ceases to operate;

(6) the person has been terminated by the lead agency from waiver eligibility; or

(7) for state-operated community-based services, the person no longer demonstrates complex behavioral needs that cannot be met by private community-based providers identified in section 246C.11, subdivision 4a, paragraph (a), clause (1).

(c) Prior to giving notice of service termination, the license holder must document actions taken to minimize or eliminate the need for termination. Action taken by the license holder must include, at a minimum:

(1) consultation with the person's support team or expanded support team to identify and resolve issues leading to issuance of the termination notice;

(2) a request to the case manager for intervention services identified in section 245D.03, subdivision 1, paragraph (c), clause (1), or other professional consultation or intervention services to support the person in the program. This requirement does not apply to notices of service termination issued under paragraph (b), clauses (4) and (7); and

(3) for state-operated community-based services terminating services under paragraph (b), clause (7), the state-operated community-based services must engage in consultation with the person's support team or expanded support team to:

(i) identify that the person no longer demonstrates complex behavioral needs that cannot be met by private community-based providers identified in section 246C.11, subdivision 4a, paragraph (a), clause (1);

(ii) provide notice of intent to issue a termination of services to the lead agency when a finding has been made that a person no longer demonstrates complex behavioral needs that cannot be met by private community-based providers identified in section 246C.11, subdivision 4a, paragraph (a), clause (1);

(iii) assist the lead agency and case manager in developing a person-centered transition plan to a private community-based provider to ensure continuity of care; and

(iv) coordinate with the lead agency to ensure the private community-based service provider is able to meet the person's needs and criteria established in a person's person-centered transition plan.

If, based on the best interests of the person, the circumstances at the time of the notice were such that the license holder was unable to take the action specified in clauses (1) and (2), the license holder must document the specific circumstances and the reason for being unable to do so.

(d) The notice of service termination must meet the following requirements:

(1) the license holder must notify the person or the person's legal representative and the case manager in writing of the intended service termination. If the service termination is from residential supports and services as defined in section 245D.03, subdivision 1, paragraph (c), clause (3), or from integrated community supports as defined in section 245D.03, subdivision 1, paragraph (c), clause (8), the license holder must also notify the commissioner in writing; and

(2) the notice must include:

(i) the reason for the action;

(ii) except for a service termination under paragraph (b), clause (5), a summary of actions taken to minimize or eliminate the need for service termination or temporary service suspension as required under paragraph (c), and why these measures failed to prevent the termination or suspension;

(iii) the person's right to appeal the termination of services under section 256.045, subdivision 3, paragraph (a); and

(iv) the person's right to seek a temporary order staying the termination of services according to the procedures in section 256.045, subdivision 4a or 6, paragraph (c).

(e) Notice of the proposed termination of service, including those situations that began with a temporary service suspension, must be given at least 90 days prior to termination of services under paragraph (b), clause (7), 60 days prior to termination when a license holder is providing intensive supports and services identified in section 245D.03, subdivision 1, paragraph (c), or integrated community supports as defined in section 245D.03, subdivision 1, paragraph (c), clause (8), and 30 days prior to termination for all other services licensed under this chapter. This notice may be given in conjunction with a notice of temporary service suspension under subdivision 3.

(f) During the service termination notice period, the license holder must:

(1) work with the support team or expanded support team to develop reasonable alternatives to protect the person and others and to support continuity of care;

(2) provide information requested by the person or case manager; and

(3) maintain information about the service termination, including the written notice of intended service termination, in the service recipient record.

(g) For notices issued under paragraph (b), clause (7), the lead agency shall provide notice to the commissioner and the Direct Care and Treatment executive board at least 30 days before the conclusion of the 90-day termination period, if an appropriate alternative provider cannot be secured. Upon receipt of this notice, the commissioner and the executive board shall reassess whether a private community-based service can meet the person's needs. If the commissioner determines that a private provider can meet the person's needs, the executive board shall, if necessary, extend notice of service termination until placement can be made. If the commissioner determines that a private provider cannot meet the person's needs, the executive board shall rescind the notice of service termination and re-engage with the lead agency in service planning for the person.

(h) For state-operated community-based services, the license holder shall prioritize the capacity created within the existing service site by the termination of services under paragraph (b), clause (7), to serve persons described in section 246C.11, subdivision 4a, paragraph (a), clause (1).

Sec. 3. **[245D.121] INTEGRATED COMMUNITY SUPPORTS; HOUSING ACCOUNTS REQUIRED.**

(a) If payment passes between the license holder or any controlling individual of a licensed program and a service recipient or an entity acting on the service recipient's behalf for the purpose of obtaining or maintaining a living unit in a multifamily housing building where the license holder delivers integrated community supports and owns, leases, or has a direct or indirect financial relationship with the property owner, the license holder must for each service recipient:

(1) keep accurate accounts of all money the license holder receives from the service recipient or an entity acting on the service recipient's behalf;

(2) deposit all money received in a service recipient specific-account or subaccount dedicated to receiving and paying each service recipient's housing costs directly to the property owner, even if the property owner is the license holder;

(3) provide monthly and upon demand to the service recipient, or the entity acting on the service recipient's behalf, a statement of the amount of all money received from the service recipient or entity acting on the service recipient's behalf, all money deposited in the service recipient's account, and all withdrawals made from the service recipient's account;

(4) provide upon demand the same information described in clause (3) to the service recipient's case manager; and

(5) provide upon demand the same information described in clause (3) to the commissioner.

(b) The money in the service recipient's account must be used exclusively for expenses associated with the service recipient obtaining or maintaining a living unit in a multifamily housing building.

(c) This section continues to apply when a service recipient chooses to not receive services from the license holder but continues to make payments to the license holder for the purposes of obtaining or maintaining a living unit.

(d) The license holder must comply with the requirements of section 245A.04, subdivision 13.

Sec. 4. **[256B.045] CONTINUITY OF CARE.**

Subdivision 1. **Definitions.** (a) For purposes of this section, the following terms have the meanings given.

(b) "Lead agency" means a county, Tribe, or managed care organization.

(c) "Residential services and supports" means any of the following services as defined in the brain injury, community alternative care, community access for disability inclusion, developmental disabilities, or elderly waiver plans:

(1) 24-hour customized living services;

(2) community residential services;

(3) customized living services;

(4) family residential services; and

(5) integrated community supports.

Subd. 2. **Department of Human Services continuity of care team; establishment.** To ensure the continuity of care of older adults and people with disabilities receiving residential services and supports following the imposition of a payment withhold under section 256B.064, subdivision 2, the commissioner must establish and maintain a continuity of care team. Within existing resources, the commissioner must ensure the continuity of care team always has sufficient staff capacity and resources for timely compliance with the requirements of this subdivision.

Subd. 3. **Department of Human Services continuity of care team; duties.** (a) Upon notice from the commissioner under section 256B.064, subdivision 2, paragraph (i), that the commissioner intends to impose a payment withhold on a provider of residential services and supports, the continuity of care team must:

(1) identify all the provider's clients whose services might be affected by the payment withhold the commissioner intends to impose, including all clients paying for services from a source other than medical assistance;

(2) for each identified client, identify the lead agency responsible for providing case management or care coordination to the client;

(3) for each identified client, identify the client's case manager or care coordinator; and

(4) for each identified client, develop an initial profile of the client containing the team's expectations regarding the services and supports the client is likely to require if the commissioner's imposition of a payment withhold upon the provider puts the continuity of care of the provider's clients at risk or poses a risk that the provider's clients will need to transition to a new service provider or service setting.

After the team has completed the tasks identified in clauses (1) to (4), the team must inform the commissioner that the team is prepared to intervene on behalf of each identified client immediately upon imposition of the payment withhold.

(b) Upon imposition of the payment withhold, the continuity of care team must for each identified client:

(1) inform the Office of the Ombudsman for Long-Term Care, the Office of the Ombudsman for Mental Health and Developmental Disabilities, and the Office of the Ombudsperson for Public Managed Care Health Care Programs, and the lead agency that the client's services may be disrupted by actions taken by the commissioner under section 256B.064, subdivision 2, and that the lead agency must comply with the requirements of subdivision 4;

(2) directly inform each identified client's case manager or care coordinator that the client's services may be disrupted by actions taken by the commissioner under section 256B.064, subdivision 2; that the continuity of care team is prepared to offer assistance to ensure the client's continuity of care; and that the case manager must comply with the requirements of subdivision 4; and

(3) directly inform each identified client that the client's services may be disrupted by actions taken by the commissioner under section 256B.064, subdivision 2, and that the lead agency, the client's case manager, and the continuity of care team are already taking steps to develop contingency plans in the event the client's services are disrupted.

Subd. 4. **Continuity of care team and lead agency shared duties.** (a) This subdivision applies to all lead agencies regardless of whether a lead agency provides case management directly or under contract.

(b) The continuity of care team and the lead agencies must cooperate and coordinate with the clients' case managers to:

(1) closely monitor services delivered to identified clients of providers subject to a payment withhold; and

(2) develop person-centered contingency plans for alternative services, service providers, and service settings in the event a client's services are disrupted.

(c) If a lead agency fails to develop or implement a person-centered contingency plan that ensures timely transition to alternative services, service provider, or service setting, the continuity of care team must directly intervene and directly provide case management to the client at the lead agency's expense. The lead agency and the client's case manager must fully cooperate and assist the continuity of care team in the provision of case management services at the lead agency's expense.

(d) If the lead agency or the continuity of care team does not identify alternative services, service provider, or service setting, the continuity of care team must notify the commissioner and the commissioner of health, if applicable, and recommend that:

(1) the commissioner of human services either determine there is a good cause under Code of Federal Regulations, title 42, section 455.23(e) or (f), to not suspend payments under section 256B.064, subdivision 2, or petition the district court of Ramsey County under section 245A.13; or

(2) the commissioner of health bring an action under section 144G.20, subdivision 21.

(e) If the commissioner does not follow the recommendations of the continuity of care team identified in paragraph (d) within 30 days of receipt of the recommendations, the commissioner must notify the chairs and ranking minority members of the legislative committees with jurisdiction over human services of the commissioner's decision and include in the notice an explanation of the commissioner's rejection of the recommendations, the number of clients who will lose services as a result of the commissioner's decision, and the likely outcomes for the clients who will lose services.

Subd. 5. **Provider duties.** (a) The provider must fully cooperate with the lead agency and the continuity of care team to effectuate a coordinated transfer or coordinated move for each client who requires a new provider.

(b) Nothing in this section absolves a provider of its obligations under chapters 144G, 245A, and 245D with respect to service suspensions, service terminations, contract terminations, and coordinated moves. The commissioner of health and the commissioner of human services may impose any sanctions available under law for violations of a licensing requirement even if the provider complies with paragraph (a).

Sec. 5. Minnesota Statutes 2024, section 256B.064, subdivision 2, is amended to read:

Subd. 2. **Imposition of monetary recovery and sanctions.** (a) The commissioner shall determine any monetary amounts to be recovered and sanctions to be imposed upon an individual or entity under this section. Except as provided in paragraphs (b) and (d), neither a monetary recovery nor a sanction will be imposed by the commissioner without prior notice and an opportunity for a hearing, according to chapter 14, on the commissioner's proposed action, provided that the commissioner may suspend or reduce payment to an individual or entity, except a nursing home or convalescent care facility, after notice and prior to the hearing if in the commissioner's opinion that action is necessary to protect the public welfare and the interests of the program.

(b) Except when the commissioner finds good cause not to suspend payments under Code of Federal Regulations, title 42, section 455.23(e) or (f), the commissioner shall withhold or reduce payments to an individual or entity without providing advance notice of such withholding or reduction if either of the following occurs:

(1) the individual or entity is convicted of a crime involving the conduct described in subdivision 1a; or

(2) the commissioner determines there is a credible allegation of fraud for which an investigation is pending under the program. Allegations are considered credible when they have an indicium of reliability and the state agency has reviewed all allegations, facts, and evidence carefully and acts judiciously on a case-by-case basis. A credible allegation of fraud is an allegation which has been verified by the state, from any source, including but not limited to:

(i) fraud hotline complaints;

(ii) claims data mining; and

(iii) patterns identified through provider audits, civil false claims cases, and law enforcement investigations.

(c) The commissioner must send notice of the withholding or reduction of payments under paragraph (b) within five days of taking such action unless requested in writing by a law enforcement agency to temporarily withhold the notice. The notice must:

(1) state that payments are being withheld according to paragraph (b);

(2) set forth the general allegations as to the nature of the withholding action, but need not disclose any specific information concerning an ongoing investigation;

(3) except in the case of a conviction for conduct described in subdivision 1a, state that the withholding is for a temporary period and cite the circumstances under which withholding will be terminated;

(4) identify the types of claims to which the withholding applies; and

(5) inform the individual or entity of the right to submit written evidence for consideration by the commissioner.

(d) ~~The withholding or reduction of payments will not continue after~~ The commissioner ~~determines~~ must cease the withholding or reduction of payments after determining there is insufficient evidence of fraud by the individual or entity, after finding good cause not to continue withholding or reducing payments under Code of Federal Regulations, title 42, section 455.23(e) or (f), or after legal proceedings relating to the alleged fraud are completed, unless the commissioner has sent notice of intention to impose monetary recovery or sanctions under paragraph (a). Upon conviction for a crime related to the provision, management, or administration of a health service under medical assistance, a payment held pursuant to this section by the commissioner or a managed care organization that contracts with the commissioner under section 256B.035 is forfeited to the commissioner or managed care organization, regardless of the amount charged in the criminal complaint or the amount of criminal restitution ordered.

(e) The commissioner shall suspend or terminate an individual's or entity's participation in the program without providing advance notice and an opportunity for a hearing when the suspension or termination is required because of the individual's or entity's exclusion from participation in Medicare. Within five days of taking such action, the commissioner must send notice of the suspension or termination. The notice must:

(1) state that suspension or termination is the result of the individual's or entity's exclusion from Medicare;

(2) identify the effective date of the suspension or termination; and

(3) inform the individual or entity of the need to be reinstated to Medicare before reapplying for participation in the program.

(f) Upon receipt of a notice under paragraph (a) that a monetary recovery or sanction is to be imposed, an individual or entity may request a contested case, as defined in section 14.02, subdivision 3, by filing with the commissioner a written request of appeal. The appeal request must be received by the commissioner no later than 30 days after the date the

notification of monetary recovery or sanction was mailed to the individual or entity. The appeal request must specify:

(1) each disputed item, the reason for the dispute, and an estimate of the dollar amount involved for each disputed item;

(2) the computation that the individual or entity believes is correct;

(3) the authority in statute or rule upon which the individual or entity relies for each disputed item;

(4) the name and address of the person or entity with whom contacts may be made regarding the appeal; and

(5) other information required by the commissioner.

(g) The commissioner may order an individual or entity to forfeit a fine for failure to fully document services according to standards in this chapter and Minnesota Rules, chapter 9505. The commissioner may assess fines if specific required components of documentation are missing. The fine for incomplete documentation shall equal 20 percent of the amount paid on the claims for reimbursement submitted by the individual or entity, or up to $5,000, whichever is less. If the commissioner determines that an individual or entity repeatedly violated this chapter, chapter 254B or 245G, or Minnesota Rules, chapter 9505, related to the provision of services to program recipients and the submission of claims for payment, the commissioner may order an individual or entity to forfeit a fine based on the nature, severity, and chronicity of the violations, in an amount of up to $5,000 or 20 percent of the value of the claims, whichever is greater.

(h) The individual or entity shall pay the fine assessed on or before the payment date specified. If the individual or entity fails to pay the fine, the commissioner may withhold or reduce payments and recover the amount of the fine. A timely appeal shall stay payment of the fine until the commissioner issues a final order.

(i) Prior to suspending or withholding payments to an entity providing residential services and supports to an older adult or person with a disability, or suspending or terminating the entity's participation in medical assistance, the commissioner must notify the Department of Human Services continuity of care team established under section 256B.045. The commissioner must not suspend or withhold payments to an entity providing residential services and supports to an older adult or person with a disability or suspend or terminate the entity's participation in the program until the continuity of care team notifies the commissioner that the team is prepared to immediately intervene and comply with its duties

under section 256B.045 upon imposition of the commissioner's sanction. For purposes of this paragraph, "residential services and supports" has the meaning given under section 256B.045, subdivision 1.

Sec. 6. Minnesota Statutes 2024, section 256B.492, subdivision 1, is amended to read:

Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have the meanings given.

(b) "Community-living setting" means a single-family home or multifamily dwelling unit where a service recipient or a service recipient's family owns or rents and maintains control over the individual unit as demonstrated by a lease agreement. Community-living setting does not include a home or dwelling unit that the ~~service~~ provider of the service recipient's services owns, operates, or leases or in which the ~~service~~ provider of the service recipient's services has a direct or indirect financial interest.

(c) "Controlling individual" has the meaning given in section 245A.02, subdivision 5a.

(d) "License holder" has the meaning given in section 245A.02, subdivision 9.

Sec. 7. Minnesota Statutes 2024, section 256B.492, subdivision 3, is amended to read:

Subd. 3. **Community-living settings.** (a) Individuals receiving services under a home and community-based waiver under section 256B.092 or 256B.49 may receive services in community-living settings. Community-living settings must meet the requirements of subdivision 2, paragraph (a), clause (1).

(b) For the purposes of this section, direct financial interest exists if payment passes between the license holder or any controlling individual of a licensed program and the service recipient or an entity acting on the service recipient's behalf for the purpose of obtaining or maintaining a dwelling. For the purposes of this section, indirect financial interest exists if the license holder or any controlling individual of a licensed program has an ownership or investment interest in the entity that owns, operates, leases, or otherwise receives payment from the service recipient or an entity acting on the service recipient's behalf for the purpose of obtaining or maintaining a dwelling. Neither a direct nor an indirect financial interest exists if the service recipient is receiving services from a license holder or a licensed program that is not the license holder or a licensed program that owns, operates, leases, or has a direct or indirect financial interest in the setting in which the service recipient's services are being delivered.

(c) To ensure a service recipient or the service recipient's family maintains control over the home or dwelling unit, community-living settings are subject to the following requirements:

(1) service recipients must not be required to receive services or share services;

(2) service recipients must not be required to have a disability or specific diagnosis to live in the community-living setting;

(3) service recipients may hire service providers of their choice;

(4) service recipients may choose whether to share their household and with whom;

(5) the home or multifamily dwelling unit must include living, sleeping, bathing, and cooking areas;

(6) service recipients must have lockable access and egress;

(7) service recipients must be free to receive visitors and leave the settings at times and for durations of their own choosing;

(8) leases must comply with chapter 504B;

(9) landlords must not charge different rents to tenants who are receiving home and community-based services; and

(10) access to the greater community must be easily facilitated based on the service recipient's needs and preferences.

(d) Nothing in this section prohibits a service recipient from having another person or entity not affiliated with the service provider cosign a lease. Nothing in this section prohibits a service recipient, during any period in which a service provider has cosigned the service recipient's lease, from modifying services with an existing cosigning service provider and, subject to the approval of the landlord, maintaining a lease cosigned by the service provider. Nothing in this section prohibits a service recipient, during any period in which a service provider has cosigned the service recipient's lease, from terminating services with the cosigning service provider, receiving services from a new service provider, or, subject to the approval of the landlord, maintaining a lease cosigned by the new service provider.

(e) A lease cosigned by a service provider meets the requirements of paragraph (b) if the service recipient and service provider develop and implement a transition plan which must provide that, within two years of cosigning the initial lease, the service provider shall transfer the lease to the service recipient and other cosigners, if any.

(f) In the event the landlord has not approved the transfer of the lease within two years of the service provider cosigning the initial lease, the service provider must submit a time-limited extension request to the commissioner of human services to continue the cosigned lease arrangement. The extension request must include:

(1) the reason the landlord denied the transfer;

(2) the plan to overcome the denial to transfer the lease;

(3) the length of time needed to successfully transfer the lease, not to exceed an additional two years;

(4) a description of how the transition plan was followed, what occurred that led to the landlord denying the transfer, and what changes in circumstances or condition, if any, the service recipient experienced; and

(5) a revised transition plan to transfer the cosigned lease between the service provider and the service recipient to the service recipient.

(g) The commissioner must approve an extension under paragraph (f) within sufficient time to ensure the continued occupancy by the service recipient.

ARTICLE 2
AGING AND DISABILITY SERVICES POLICY

Section 1. Minnesota Statutes 2024, section 245A.03, is amended by adding a subdivision to read:

Subd. 7b. **Licensing moratorium.** (a) The commissioner shall not issue an initial license for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, under this chapter. This paragraph does not apply to child foster residence settings with residential program certifications for compliance with the Family First Prevention Services Act under section 245A.25, subdivision 1, paragraph (a). If a child foster residence setting that was previously exempt from the licensing moratorium under this paragraph has its Family First Prevention Services Act certification rescinded under section 245A.25, subdivision 9, the commissioner shall revoke the license according to section 245A.07.

(b) The commissioner shall not issue an initial license for adult foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter for a physical location that will not be the primary residence of the license holder for the entire period of licensure. If an adult foster care home license is issued during this moratorium, and the license holder changes the license holder's primary residence away from the physical location of the foster

care license, the commissioner shall revoke the license according to section 245A.07. When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to Minnesota Statutes 2016, section 256B.49, subdivision 15, paragraph (f), the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings. Residential settings that would otherwise be subject to the decreased license capacity established in this paragraph must be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(c) The commissioner shall not issue an initial license for a community residential setting licensed under this chapter and chapter 245D. When an adult resident served by the program moves out of an adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for community residential settings. Residential settings that would otherwise be subject to the decreased license capacity established in this paragraph must be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(d) The commissioner shall not issue an initial license for children's residential treatment services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter for a program that Centers for Medicare and Medicaid Services would consider an institution for mental diseases. Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph.

Sec. 2. Minnesota Statutes 2024, section 245A.03, is amended by adding a subdivision to read:

Subd. 7c. **Licensing moratorium exceptions.** (a) The commissioner may approve exceptions to the foster care and community residential settings moratoria described under subdivision 7b as provided in this subdivision.

(b) When approving an exception under this subdivision to the foster care or community residential setting moratorium described in subdivision 7b, the commissioner shall consider

the resource need determination process in subdivision 7d, the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of the person's choices during the person's annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal.

(c) Permissible exceptions to the moratorium include:

(1) a license for a person in a foster care setting that is not the primary residence of the license holder and where at least 80 percent of the residents are 55 years of age or older;

(2) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under subdivision 7d for the closure of a nursing facility, an intermediate care facility for individuals with developmental disabilities, or regional treatment center; restructuring of state-operated services that limits the capacity of state-operated facilities; or movement to the community of people who no longer require the level of care provided in state-operated facilities as provided under section 256B.092, subdivision 13, or 256B.49, subdivision 24; and

(3) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under subdivision 7d for persons requiring hospital-level care.

Sec. 3. Minnesota Statutes 2024, section 245A.03, is amended by adding a subdivision to read:

Subd. 7d. **Resource needs determination process.** (a) The commissioner shall determine the need for newly licensed foster care homes or community residential settings. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which the licensee seeks to operate and the recommendation of the local county board. The determination by the commissioner is final. A determination of need is not required for a change in ownership at the same address.

(b) A resource need determination process, managed at the state level, using the available data required under section 144A.351 and other data and information must be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351 and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity,

or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.

(c) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in subdivision 7b are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

(d) License holders of foster care homes identified under paragraph (c) that are not the primary residence of the license holder and that also provide services in the foster care home that are covered by a federally approved home and community-based services waiver, as authorized under chapter 256S or section 256B.092 or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.

(e) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings must be accomplished through a process identified in section 256B.493.

(f) The commissioner must notify a license holder when its corporate foster care or community residential setting licensed beds are reduced under this section. The notice of reduction of licensed beds must be in writing and delivered to the license holder by certified mail or personal service. The notice must state why the licensed beds are reduced and must inform the license holder of its right to request reconsideration by the commissioner. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(b) Except as provided in paragraph (c), the providers must initiate a background study annually of an individual required to be studied under section 245C.03, subdivision 6.

(c) After an initial background study under this subdivision is initiated on an individual by a provider of both services licensed by the commissioner and the unlicensed services under this subdivision, a repeat annual background study is not required if:

Subd. 21. **Provider enrollment.** (a) The commissioner shall enroll providers and conduct screening activities as required by Code of Federal Regulations, title 42, section 455, subpart E. A provider must enroll each provider-controlled location where direct services are provided. The commissioner may deny a provider's incomplete application if a provider fails to respond to the commissioner's request for additional information within 60 days of the request. The commissioner must conduct a background study under chapter 245C,

including a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5), for a provider described in this paragraph. The background study requirement may be satisfied if the commissioner conducted a fingerprint-based background study on the provider that includes a review of databases in section 245C.08, subdivision 1, paragraph (a), clauses (1) to (5).

(b) The commissioner shall revalidate:

(1) each provider under this subdivision at least once every five years;

(2) each personal care assistance agency, CFSS provider-agency, and CFSS financial management services provider under this subdivision at least once every three years;

(3) each EIDBI agency under this subdivision at least once every three years; and

(4) at the commissioner's discretion, any medical-assistance-only provider type the commissioner deems "high-risk" under this subdivision.

(c) The commissioner shall conduct revalidation as follows:

(1) provide 30-day notice of the revalidation due date including instructions for revalidation and a list of materials the provider must submit;

(2) if a provider fails to submit all required materials by the due date, notify the provider of the deficiency within 30 days after the due date and allow the provider an additional 30 days from the notification date to comply; and

(3) if a provider fails to remedy a deficiency within the 30-day time period, give 60-day notice of termination and immediately suspend the provider's ability to bill. The provider does not have the right to appeal suspension of ability to bill.

(d) If a provider fails to comply with any individual provider requirement or condition of participation, the commissioner may suspend the provider's ability to bill until the provider comes into compliance. The commissioner's decision to suspend the provider is not subject to an administrative appeal.

(e) Correspondence and notifications, including notifications of termination and other actions, may be delivered electronically to a provider's MN-ITS mailbox. This paragraph does not apply to correspondences and notifications related to background studies.

(f) If the commissioner or the Centers for Medicare and Medicaid Services determines that a provider is designated "high-risk," the commissioner may withhold payment from providers within that category upon initial enrollment for a 90-day period. The withholding for each provider must begin on the date of the first submission of a claim.

(g) An enrolled provider that is also licensed by the commissioner under chapter 245A, is licensed as a home care provider by the Department of Health under chapter 144A, or is licensed as an assisted living facility under chapter 144G and has a home and community-based services designation on the home care license under section 144A.484, must designate an individual as the entity's compliance officer. The compliance officer must:

(6) within 60 days of discovery by the provider of a medical assistance reimbursement overpayment, report the overpayment to the commissioner and make arrangements with the commissioner for the commissioner's recovery of the overpayment.

The commissioner may require, as a condition of enrollment in medical assistance, that a provider within a particular industry sector or category establish a compliance program that contains the core elements established by the Centers for Medicare and Medicaid Services.

(h) The commissioner may revoke the enrollment of an ordering or rendering provider for a period of not more than one year, if the provider fails to maintain and, upon request from the commissioner, provide access to documentation relating to written orders or requests for payment for durable medical equipment, certifications for home health services, or referrals for other items or services written or ordered by such provider, when the commissioner has identified a pattern of a lack of documentation. A pattern means a failure to maintain documentation or provide access to documentation on more than one occasion. Nothing in this paragraph limits the authority of the commissioner to sanction a provider under the provisions of section 256B.064.

(i) The commissioner shall terminate or deny the enrollment of any individual or entity if the individual or entity has been terminated from participation in Medicare or under the

Medicaid program or Children's Health Insurance Program of any other state. The commissioner may exempt a rehabilitation agency from termination or denial that would otherwise be required under this paragraph, if the agency:

(1) is unable to retain Medicare certification and enrollment solely due to a lack of billing to the Medicare program;

(2) meets all other applicable Medicare certification requirements based on an on-site review completed by the commissioner of health; and

(3) serves primarily a pediatric population.

(j) As a condition of enrollment in medical assistance, the commissioner shall require that a provider designated "moderate" or "high-risk" by the Centers for Medicare and Medicaid Services or the commissioner permit the Centers for Medicare and Medicaid Services, its agents, or its designated contractors and the state agency, its agents, or its designated contractors to conduct unannounced on-site inspections of any provider location. The commissioner shall publish in the Minnesota Health Care Program Provider Manual a list of provider types designated "limited," "moderate," or "high-risk," based on the criteria and standards used to designate Medicare providers in Code of Federal Regulations, title 42, section 424.518. The list and criteria are not subject to the requirements of chapter 14. The commissioner's designations are not subject to administrative appeal.

(k) As a condition of enrollment in medical assistance, the commissioner shall require that a high-risk provider, or a person with a direct or indirect ownership interest in the provider of five percent or higher, consent to criminal background checks, including fingerprinting, when required to do so under state law or by a determination by the commissioner or the Centers for Medicare and Medicaid Services that a provider is designated high-risk for fraud, waste, or abuse.

(l)(1) Upon initial enrollment, reenrollment, and notification of revalidation, all durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) medical suppliers meeting the durable medical equipment provider and supplier definition in clause (3), operating in Minnesota and receiving Medicaid funds must purchase a surety bond that is annually renewed and designates the Minnesota Department of Human Services as the obligee, and must be submitted in a form approved by the commissioner. For purposes of this clause, the following medical suppliers are not required to obtain a surety bond: a federally qualified health center, a home health agency, the Indian Health Service, a pharmacy, and a rural health clinic.

(2) At the time of initial enrollment or reenrollment, durable medical equipment providers and suppliers defined in clause (3) must purchase a surety bond of $50,000. If a revalidating provider's Medicaid revenue in the previous calendar year is up to and including $300,000, the provider agency must purchase a surety bond of $50,000. If a revalidating provider's Medicaid revenue in the previous calendar year is over $300,000, the provider agency must purchase a surety bond of $100,000. The surety bond must allow for recovery of costs and fees in pursuing a claim on the bond. Any action to obtain monetary recovery or sanctions from a surety bond must occur within six years from the date the debt is affirmed by a final agency decision. An agency decision is final when the right to appeal the debt has been exhausted or the time to appeal has expired under section 256B.064.

Sec. 35. Minnesota Statutes 2025 Supplement, section 256B.4914, subdivision 8, is amended to read:

Subd. 8. **Unit-based services with programming; component values and calculation of payment rates.** (a) For the purpose of this section, unit-based services with programming include employment exploration services, employment development services, employment support services, individualized home supports with family training, individualized home supports with training, and positive support services provided to an individual outside of any service plan for a day program or residential support service.

(b) Component values for unit-based services with programming are:

(1) competitive workforce factor: 6.7 percent;

(2) supervisory span of control ratio: 11 percent;

(3) employee vacation, sick, and training allowance ratio: 8.71 percent;

(4) employee-related cost ratio: 23.6 percent;

(5) program plan support ratio: 15.5 percent;

(6) client programming and support ratio: 4.7 percent, updated as specified in subdivision 5b;

(7) general administrative support ratio: 13.25 percent;

(8) program-related expense ratio: 6.1 percent; and

(9) absence and utilization factor ratio: 3.9 percent.

(c) A unit of service for unit-based services with programming is 15 minutes.

(d) Payments for unit-based services with programming must be calculated as follows, unless the services are reimbursed separately as part of a residential support services or day program payment rate:

(1) determine the number of units of service to meet a recipient's needs;

(2) determine the appropriate hourly staff wage rates derived by the commissioner as provided in subdivisions 5 and 5a;

(3) except for subdivision 5a, clauses (1) to (4), multiply the result of clause (2) by the product of one plus the competitive workforce factor;

(4) for a recipient requiring customization for deaf and hard-of-hearing language accessibility under subdivision 12, add the customization rate provided in subdivision 12 to the result of clause (3);

(5) multiply the number of direct staffing hours by the appropriate staff wage;

(6) multiply the number of direct staffing hours by the product of the supervisory span of control ratio and the appropriate supervisory staff wage in subdivision 5a, clause (1);

(7) combine the results of clauses (5) and (6), and multiply the result by one plus the employee vacation, sick, and training allowance ratio. This is defined as the direct staffing rate;

(8) for program plan support, multiply the result of clause (7) by one plus the program plan support ratio;

(9) for employee-related expenses, multiply the result of clause (8) by one plus the employee-related cost ratio;

(10) for client programming and supports, multiply the result of clause (9) by one plus the client programming and support ratio;

(11) this is the subtotal rate;

(12) sum the standard general administrative support ratio, the program-related expense ratio, and the absence and utilization factor ratio;

(13) divide the result of clause (11) by one minus the result of clause (12). This is the total payment amount;

(14) for services provided in a shared manner, divide the total payment in clause (13) as follows:

(i) for employment exploration services, divide by the number of service recipients, not to exceed five;

(ii) for employment support services, divide by the number of service recipients, not to exceed six;

(iii) for individualized home supports with training and individualized home supports with family training, divide by the number of service recipients, not to exceed three; and

(iv) for night supervision, divide by the number of service recipients, not to exceed two; and

(15) adjust the result of clause (14) by a factor to be determined by the commissioner to adjust for regional differences in the cost of providing services.

(e) Effective January 1, 2026, or upon federal approval, whichever is later, a provider must not bill more than three consecutive hours and not more than six total hours per day for individualized home supports with training and individualized home supports with family training. This daily limit does not limit a person's use of other disability waiver services, including individualized home supports, which may be provided on the same day by the same provider providing individualized home supports with training or individualized home supports with family training. This paragraph expires upon the effective date of paragraph (f).

(f) Effective January 1, 2027, or upon federal approval, whichever is later, a provider must not bill more than:

(1) for individualized home supports with training, a monthly unit of service determined by multiplying 24 units by the total number of days in the month during which service was provided; and

(2) which is not the result of an accident or therapeutic conduct.

(c) "Self-neglect" means neglect by a vulnerable adult of the vulnerable adult's own food, clothing, shelter, health care, financial management, or other services that are not the responsibility of a caregiver which a reasonable person would deem essential to obtain or maintain the vulnerable adult's health, safety, or comfort.

consent, the head of the treatment facility ~~or state-operated treatment program~~ or an interested person, as defined by section 524.5-102, subdivision 7, may petition the committing court for approval for the treatment or may petition a court of competent jurisdiction for the appointment of a guardian. The determination that the patient is not competent, and the reasons for the determination, shall be documented in the patient's clinical record;

(4) for patients in a state-operated treatment program, if (i) the patient does not have a health care power of attorney or an agent under a health care directive or the patient's health care agent is not reasonably available to make the necessary health care decision for the patient, and (ii) the patient's treating physician determines that the patient lacks decision-making capacity to consent to the medical treatment, the state-operated treatment program must make a good faith attempt to locate the patient's nearest proper relative to obtain written informed consent for the medical treatment;

(5) if the state-operated treatment program is unable to reasonably locate a proper relative, the executive medical director has decision-making authority for the health care decision for the patient;

(6) any health care decision made by the executive medical director under clause (5) must be consistent with any documented patient health care directive and with reasonable medical practice and applicable law;

(7) if the state-operated treatment program consults with the patient's nearest proper relative under clause (4) and the patient's nearest proper relative and the patient's treating physician are not in agreement with respect to a medical treatment decision, the state-operated treatment program or an interested person may petition the committing court for approval of the treatment. The state-operated program may also petition a court of competent jurisdiction for the appointment of a guardian at any time. If a court determines that a patient is not competent, the determination and the reasons for the determination must be documented in the patient's clinical record;

(8) before proceeding with treatment under clause (5), a state-operated treatment program must inform the patient of the determination, the proposed treatment, and the right to request review. Upon the request of the patient or an interested person a second physician not directly involved in the patient's current treatment must review the incapacity determination. The executive medical director must review the proposed treatment decision and the second physician's review and make an updated determination. A state-operated treatment program may proceed with treatment of the patient while a review under this clause is pending;

(9) if a patient or interested person is dissatisfied with the outcome of the review under clause (8), the patient or interested person may petition the committing court under section 253B.17 for review of the determination made under clause (8). Filing a petition under section 253B.17 does not stay treatment under this subdivision unless otherwise ordered by the court. In reviewing the executive medical director's decision under clause (8) and issuing a determination, the court must determine if the patient lacks capacity. If the patient lacks capacity, the court must determine if the patient clearly stated what the patient would choose to do in the situation when the patient had the capacity to make a reasoned decision. Evidence of the patient's wishes may include written instruments, including a durable power of attorney for health care under chapter 145C or a declaration under section 253B.03, subdivision 6d. If the court finds that the patient clearly stated what the patient would choose to do in the situation, the patient's wishes must be followed. If the court determines that the evidence of the patient's wishes regarding the situation is conflicting or lacking, the court must make a decision based on what a reasonable person would do, taking into consideration:

(i) the patient's family, community, moral, religious, and social values;

(ii) the medical risks, benefits, and alternatives to the proposed treatment;

(iii) past efficacy and any extenuating circumstances of past experience with the particular medical treatment; and

(iv) any other relevant factors;

(10) for purposes of this subdivision, the following persons are proper relatives, in the order listed: the patient's spouse, parent, adult child, or adult sibling;

~~(4)~~ (11) consent to treatment of any minor patient shall be secured in accordance with sections 144.341 to 144.346. A minor 16 years of age or older may consent to hospitalization, routine diagnostic evaluation, and emergency or short-term acute care; and

~~(5)~~ (12) in the case of an emergency when the persons ordinarily qualified to give consent cannot be located in sufficient time to address the emergency need, the head of the treatment facility or state-operated treatment program may give consent.

(c) No person who consents to treatment pursuant to the provisions of this subdivision shall be civilly or criminally liable for the performance or the manner of performing the treatment. No person shall be liable for performing treatment without consent if written, informed consent was given pursuant to this subdivision. This provision shall not affect any other liability which may result from the manner in which the treatment is performed.

(d) When a determination is made under paragraph (b), clauses (5) and (8), the state-operated treatment program must document the following information in the patient's clinical record:

(1) the determination of incapacity and the clinical basis for the determination;

(2) the specific treatment authorized;

(3) the person who provided consent or who made the determination allowing the treatment;

(4) the efforts made to locate and consult with a health care agent or nearest proper relative; and

(5) the patient's expressed preferences regarding the treatment, if known, and how the preferences were considered.

(e) The executive medical director must review a determination that a patient lacks capacity periodically as medically appropriate, but not less than every six months. The outcome of a review under this paragraph must be documented in the patient's clinical record.

Sec. 9. Minnesota Statutes 2025 Supplement, section 253B.18, subdivision 6, is amended to read:

Subd. 6. **Transfer.** (a) A patient who is a person who has a mental illness and is dangerous to the public shall not be transferred out of a secure treatment facility unless it appears to the satisfaction of the executive board, after a hearing and favorable recommendation by a majority of the special review board, that the transfer is appropriate. Transfer may be to another state-operated treatment program. In those instances where a commitment also exists to the Department of Corrections, transfer may be to a facility designated by the commissioner of corrections.

(b) The following factors must be considered in determining whether a transfer is appropriate:

(1) the person's clinical progress and present treatment needs;

(2) the need for security to accomplish continuing treatment;

(3) the need for continued institutionalization;

(4) which facility can best meet the person's needs; and

(5) whether transfer can be accomplished with a reasonable degree of safety for the public.

(c) If a committed person has been transferred out of a secure treatment facility pursuant to this subdivision, that committed person may voluntarily return to a secure treatment facility ~~for a period of up to 60 days~~ with the consent of the head of the treatment facility~~.~~ for a period of up to:

(1) 90 days if due to a psychiatric medical condition; or

(2) six months if due to a nonpsychiatric medical condition.

(d) If the committed person is not returned to the original, nonsecure transfer facility within ~~60~~ 90 days of being readmitted to a secure treatment facility if due to a psychiatric medical condition or within six months of being readmitted to a secure treatment facility if due to a nonpsychiatric medical condition, the transfer is revoked and the committed person must remain in a secure treatment facility. The committed person must immediately be notified in writing of the revocation.

(e) Within 15 days of receiving notice of the revocation, the committed person may petition the special review board for a review of the revocation. The special review board shall review the circumstances of the revocation and shall recommend to the executive board whether or not the revocation should be upheld. The special review board may also recommend a new transfer at the time of the revocation hearing.

(f) No action by the special review board is required if the transfer has not been revoked and the committed person is returned to the original, nonsecure transfer facility with no substantive change to the conditions of the transfer ordered under this subdivision.

(g) The head of the treatment facility may revoke a transfer made under this subdivision and require a committed person to return to a secure treatment facility if:

(1) remaining in a nonsecure setting does not provide a reasonable degree of safety to the committed person or others; or

(2) the committed person has regressed clinically and the facility to which the committed person was transferred does not meet the committed person's needs.

(h) Upon the revocation of the transfer, the committed person must be immediately returned to a secure treatment facility. A report documenting the reasons for revocation must be issued by the head of the treatment facility within seven days after the committed person is returned to the secure treatment facility. Advance notice to the committed person of the revocation is not required.

(i) The committed person must be provided a copy of the revocation report and informed, orally and in writing, of the rights of a committed person under this section. The revocation report must be served upon the committed person, the committed person's counsel, and the designated agency. The report must outline the specific reasons for the revocation, including but not limited to the specific facts upon which the revocation is based.

(j) If a committed person's transfer is revoked, the committed person may re-petition for transfer according to subdivision 5.

(k) A committed person aggrieved by a transfer revocation decision may petition the special review board within seven business days after receipt of the revocation report for a review of the revocation. The matter must be scheduled within 30 days. The special review board shall review the circumstances leading to the revocation and, after considering the factors in paragraph (b), shall recommend to the executive board whether or not the revocation shall be upheld. The special review board may also recommend a new transfer out of a secure treatment facility at the time of the revocation hearing.

EFFECTIVE DATE. This section is effective July 1, 2026.

(2) ~~up to 60~~ 90 days ~~with the consent of the designated agency.~~ if due to a psychiatric medical condition; or

(b) If the patient is not returned to provisional discharge status within ~~60~~ 90 days of being readmitted if due to a psychiatric medical condition or within six months of being readmitted if due to a nonpsychiatric medical condition, the provisional discharge is revoked. Within 15 days of receiving notice of the change in status, the patient may request a review of the matter before the special review board. The special review board may recommend a return to a provisional discharge status.

~~(b)~~ (c) The treatment facility or state-operated treatment program is not required to petition for a further review by the special review board unless the patient's return to the community results in substantive change to the existing provisional discharge plan. All the

terms and conditions of the provisional discharge order shall remain unchanged if the patient is released again.

The fines in clauses (1) to (5) are increased and immediate fine imposition is authorized for both surveys and investigations conducted.

When a fine is assessed against a facility for substantiated maltreatment, the commissioner shall not also impose an immediate fine under this chapter for the same circumstance.

(b) Correction orders for violations are categorized by both level and scope and fines shall be assessed as follows:

(1) level of violation:

(i) Level 1 is a violation that will cause only minimal impact on the client and does not affect health or safety;

(iii) Level 3 is a violation that harmed a client's health or safety, or a violation that had the potential to cause more than minimal harm to the client;

(iv) Level 4 is a violation that harmed a client's health or safety, not including serious injury or death, or a violation that was likely to lead to serious injury or death; and

In the event of a change of ownership, the new licensee is responsible for any outstanding fines and any fines assessed following the effective date of the change of ownership regardless of the date of the violation.

(i) In addition to any fine imposed under this section, the commissioner may assess a penalty amount based on costs related to an investigation that results in a final order assessing a fine or other enforcement action authorized by this chapter.

(j) Fines collected under paragraph (a) shall be deposited in a dedicated special revenue account. On an annual basis, the balance in the special revenue account shall be appropriated to the commissioner to implement the recommendations of the advisory council established in section 144A.4799. (5) a description of what less restrictive alternative measures were attempted to de-escalate the incident and maintain safety that identifies when, how, and for how long the alternative measures were attempted before the emergency use of a manual restraint was implemented;

(6) a description of the mental, physical, and emotional condition of the resident who was restrained and of other persons involved in the incident leading up to, during, and following the emergency use of a manual restraint;

(7) whether there was any injury to the resident who was restrained or other persons involved in the incident, including staff, before or as a result of the emergency use of a manual restraint; and

If the debriefing was not conducted at the time the incident report was made, the form should identify whether a debriefing is planned and a plan for mitigating use of restraints in the future.

(c) A copy of the form submitted under paragraph (b) must be maintained in the resident's record.

(d) A copy of the form submitted under paragraph (b) must be sent to the resident's waiver case manager within seven calendar days of an emergency use of manual restraints. (e) The use of restraints by law enforcement officers or other emergency personnel acting in a licensed capacity does not require the facility to comply with the requirements of this subdivision.

Subd. 4. **Ordered treatment.** Any use of a restraint, other than an emergency use of a manual restraint to address an imminent risk, must be the least restrictive option and comply with the requirements for an ordered treatment under section 144G.72.

At minimum, the license shall state:

(2) the address of the program;

(3) the effective date and expiration date of the license;

(4) the type of license and the specific service the license holder is licensed to provide;

(5) the maximum number and ages of persons that may receive services from the program; and

(6) any special conditions of licensure.

(b) The commissioner may issue a license for a period not to exceed two years if:

(1) the commissioner is unable to conduct the observation required by subdivision 4, paragraph (a), clause (3), because the program is not yet operational;

(2) certain records and documents are not available because persons are not yet receiving services from the program; and

(3) the applicant complies with applicable laws and rules in all other respects.

(c) A decision by the commissioner to issue a license does not guarantee that any person or persons will be placed or cared for in the licensed program.

(d) Except as provided in paragraphs (i) and (j), the commissioner shall not issue a license if the applicant, license holder, or an affiliated controlling individual has:

(1) been disqualified and the disqualification was not set aside and no variance has been granted;

(2) been denied a license under this chapter or chapter 142B within the past two years;

(3) had a license issued under this chapter or chapter 142B revoked within the past five years; or

(4) failed to submit the information required of an applicant under subdivision 1, paragraph (f), (g), or (h), after being requested by the commissioner.

When a license issued under this chapter or chapter 142B is revoked, the license holder and each affiliated controlling individual with a revoked license may not hold any license under chapter 245A for five years following the revocation, and other licenses held by the applicant or license holder or licenses affiliated with each controlling individual shall also be revoked.

(e) Notwithstanding paragraph (d), the commissioner may elect not to revoke a license affiliated with a license holder or controlling individual that had a license revoked within the past five years if the commissioner determines that (1) the license holder or controlling individual is operating the program in substantial compliance with applicable laws and rules and (2) the program's continued operation is in the best interests of the community being served.

(f) Notwithstanding paragraph (d), the commissioner may issue a new license in response to an application that is affiliated with an applicant, license holder, or controlling individual that had an application denied within the past two years or a license revoked within the past five years if the commissioner determines that (1) the applicant or controlling individual has operated one or more programs in substantial compliance with applicable laws and rules and (2) the program's operation would be in the best interests of the community to be served.

(g) In determining whether a program's operation would be in the best interests of the community to be served, the commissioner shall consider factors such as the number of persons served, the availability of alternative services available in the surrounding community, the management structure of the program, whether the program provides culturally specific services, and other relevant factors.

(h) The commissioner shall not issue or reissue a license under this chapter if an individual living in the household where the services will be provided as specified under section 245C.03, subdivision 1, has been disqualified and the disqualification has not been set aside and no variance has been granted.

If the license under suspension or revocation will expire before a final order is issued, a temporary provisional license may be issued provided any applicable license fee is paid before the temporary provisional license is issued.

(j) Notwithstanding paragraph (i), when a revocation is based on the disqualification of a controlling individual or license holder, and the controlling individual or license holder is ordered under section 245C.17 to be immediately removed from direct contact with persons receiving services or is ordered to be under continuous, direct supervision when providing direct contact services, the program may continue to operate only if the program complies with the order and submits documentation demonstrating compliance with the order. If the disqualified individual fails to submit a timely request for reconsideration, or if the disqualification is not set aside and no variance is granted, the order to immediately remove the individual from direct contact or to be under continuous, direct supervision remains in effect pending the outcome of a hearing and final order from the commissioner.

Subd. 10. **Duties of county social service agency.** (a) When the common entry point refers a report to the county social service agency as the lead investigative agency or makes a referral to the county social service agency for emergency adult protective services, or when another lead investigative agency requests assistance from the county social service agency for adult protective services, the county social service agency shall immediately assess and offer emergency and continuing protective social services for purposes of preventing further maltreatment and for safeguarding the welfare of the maltreated vulnerable adult. The county shall use standardized tools and the data system made available by the commissioner. The information entered by the county into the standardized tool must be accessible to the Department of Human Services. In cases of suspected sexual abuse, the county social service agency shall immediately arrange for and make available to the vulnerable adult appropriate medical examination and treatment. When necessary in order to protect the vulnerable adult from further harm, the county social service agency shall seek authority to remove the vulnerable adult from the situation in which the maltreatment occurred. The county social service agency may also investigate to determine whether the conditions which resulted in the reported maltreatment place other vulnerable adults in jeopardy of being maltreated and offer protective social services that are called for by its determination.

(b) Within five business days of receipt of a report screened in by the county social service agency for investigation, the county social service agency shall determine whether, in addition to an assessment and services for the vulnerable adult, to also conduct an investigation for final disposition of the individual or facility alleged to have maltreated the vulnerable adult.

(c) The county social service agency must investigate for a final disposition the individual or facility alleged to have maltreated a vulnerable adult for each report accepted as lead investigative agency involving an allegation of abuse, caregiver neglect that resulted in harm to the vulnerable adult, financial exploitation that may be criminal, or an allegation against a caregiver under chapter 256B.

(d) An investigating county social service agency must make a final disposition for any allegation when the county social service agency determines that a final disposition may safeguard a vulnerable adult or may prevent further maltreatment.

(e) If the county social service agency learns of an allegation listed in paragraph (c) after the determination in paragraph (a), the county social service agency must change the initial determination and conduct an investigation for final disposition of the individual or facility alleged to have maltreated the vulnerable adult.

(f) County social service agencies may enter facilities and inspect and copy records as part of an investigation. The county social service agency has access to not public data, as defined in section 13.02, and medical records under sections 144.291 to 144.298, that are maintained by facilities to the extent necessary to conduct its investigation. The inquiry is not limited to the written records of the facility, but may include every other available source of information.

(g) When necessary in order to protect a vulnerable adult from serious harm, the county social service agency shall immediately intervene on behalf of that adult to help the family, vulnerable adult, or other interested person by seeking any of the following:

(1) a restraining order or a court order for removal of the perpetrator from the residence of the vulnerable adult pursuant to section 518B.01;

(2) the appointment of a guardian or conservator pursuant to sections 524.5-101 to 524.5-502, or guardianship or conservatorship pursuant to chapter 252A;

(3) replacement of a guardian or conservator suspected of maltreatment and appointment of a suitable person as guardian or conservator, pursuant to sections 524.5-101 to 524.5-502; or

(4) a referral to the prosecuting attorney for possible criminal prosecution of the perpetrator under chapter 609.

The expenses of legal intervention must be paid by the county in the case of indigent persons, under section 524.5-502 and chapter 563.

In proceedings under sections 524.5-101 to 524.5-502, if a suitable relative or other person is not available to petition for guardianship or conservatorship, a county employee shall present the petition with representation by the county attorney. The county shall contract with or arrange for a suitable person or organization to provide ongoing guardianship services. If the county presents evidence to the court exercising probate jurisdiction that it has made a diligent effort and no other suitable person can be found, a county employee may serve as guardian or conservator. The county shall not retaliate against the employee for any action taken on behalf of the person subject to guardianship or conservatorship, even if the action is adverse to the county's interest. Any person retaliated against in violation of this subdivision shall have a cause of action against the county and shall be entitled to reasonable attorney fees and costs of the action if the action is upheld by the court.
