## State of Minnesota

## HOUSE OF REPRESENTATIVES

A resolution

urging the President and Congress to fully fund Medicaid and oppose harmful cuts to

SPECIAL SESSION H. F. No. 12

06/09/2025 Authored by Noor, Rehrauer and Freiberg
The bill was read for the first time and referred to the Committee on Human Services Finance and Policy

this crucial and much-needed program.

1.4	WHEREAS, rising health care costs and the threat of cuts to Medicaid, which provides vital
1.5	services to 1.2 million Minnesotans, including children, seniors, and people with disabilities, are
1.6	one of the most pressing issues facing our state; and
1.7	WHEREAS, one in five Minnesotans get their health care through Medicaid and
1.8	MinnesotaCare. Medicaid covers about 1.2 million Minnesotans, more than Medicare and more
1.9	than any single commercial insurer; and
1.10	WHEREAS, Medicaid covers services for 41 percent of children in Minnesota and is the
1.11	primary source of payment for those needing long-term care services, such as nursing home services;
1.12	and
1.13	WHEREAS, Medicaid covers three out of ten births in Minnesota, and has an even greater
1.14	impact on the Black and American Indian communities, covering eight out of ten Black births and
1.15	nine out of ten American Indian births; and
1.16	WHEREAS, Minnesota has been a leader in providing access to health care and now faces
1.17	serious risk from the drastic and unworkable Medicaid funding reductions proposed in the federal
1.18	budget. Deep or severe cuts to this crucial program would be devastating for Minnesotans,
1.19	jeopardizing care for vulnerable populations and undermining already lean areas of service that the
1.20	legislature has been working to make more efficient for many years; and
1.21	WHEREAS, under current Medicaid financing and waiver structures, Minnesota has achieved
1.22	improved outcomes through innovation and efficiency, including helping people with disabilities
1.23	live more independently. Deep cuts would threaten this progress and severely strain the state budget,
1.24	with no alternative funding to offset the loss of federal dollars; and

WHEREAS, health care is a major employer in our state, including in rural Minnesota.

Reductions in already-low payment rates would limit access to care, reduce compensation and services, and significantly harm rural economies and the rapidly growing aging population in Greater Minnesota; and

WHEREAS, Medicaid is a reflection of our shared responsibility to care for older adults, people with disabilities and mental health needs, children, and low-income families, and harmful federal funding reductions undermine that responsibility and threaten the health, stability, and dignity of those who rely on this essential program; NOW, THEREFORE,

BE IT RESOLVED by the Legislature of the State of Minnesota that it urges the President of the United States and Minnesota's Senators and Representatives in Congress to fully fund Medicaid and oppose harmful cuts to this crucial and much-needed program.

BE IT FURTHER RESOLVED that the Secretary of State of the State of Minnesota is directed to prepare copies of this memorial and transmit them to the President of the United States, the President and the Secretary of the United States Senate, the Speaker and the Clerk of the United States House of Representatives, and Minnesota's Senators and Representatives in Congress.
