Subdivision 1. Disclosure of wells to buyer. (a) Before signing an agreement to sell or transfer real property, the seller must disclose in writing to the buyer information about the status and location of all known wells on the property, by delivering to the buyer either a statement by the seller that the seller does not know of any wells on the property, or a disclosure statement indicating the legal description and county, and a map drawn from available information showing the location of each well to the extent practicable. In the disclosure statement, the seller must indicate, for each well, whether the well is in use, not in use, or sealed.

(b) At the time of closing of the sale, the disclosure statement information, name and mailing address of the buyer, and the quartile, section, township, and range in which each well is located must be provided on a well disclosure certificate signed by the seller or a person authorized to act on behalf of the seller.

(c) A well disclosure certificate need not be provided if the seller does not know of any wells on the property and the deed or other instrument of conveyance contains the statement: "The Seller certifies that the Seller does not know of any wells on the described real property."

(d) If a deed is given pursuant to a contract for deed, the well disclosure certificate required by this subdivision shall be signed by the buyer or a person authorized to act on behalf of the buyer. If the buyer knows of no wells on the property, a well disclosure certificate is not required if the following statement appears on the deed followed by the signature of the grantee or, if there is more than one grantee, the signature of at least one of the grantees: "The Grantee certifies that the Grantee does not know of any wells on the described real property." The statement and signature of the grantee may be on the front or back of the deed or on an attached sheet and an acknowledgment of the statement by the grantee is not required for the deed to be recordable.

(e) This subdivision does not apply to the sale, exchange, or transfer of real property:

(1) that consists solely of a sale or transfer of severed mineral interests; or

(2) that consists of an individual condominium unit as described in chapters 515 and 515B.

(f) For an area owned in common under chapter 515 or 515B the association or other responsible person must report to the commissioner by July 1, 1992, the location and status of all wells in the common area. The association or other responsible person must notify the commissioner within 30 days of any change in the reported status of wells.

The county recorder or registrar of titles must not accept a certificate unless it contains all the required information. The county recorder or registrar of titles shall note on each deed or other instrument of conveyance accompanied by a well disclosure certificate that the well disclosure certificate was received. The notation must include the statement "No wells on property" if the disclosure certificate states there are no wells on the property. The well disclosure certificate shall not be filed or recorded in the records maintained by the county recorder or registrar of titles. After noting "No wells on property" on the deed or other instrument of conveyance, the county recorder or registrar of titles shall destroy or return to the buyer the well disclosure certificate. The county recorder or registrar of titles shall collect from the buyer or the person seeking to record a deed or other instrument of conveyance, a fee of ~~\$50~~ \$54 for receipt of a completed well disclosure certificate. By the tenth day of each month, the county recorder or registrar of titles shall transmit the well disclosure certificates to the commissioner of health. By the tenth day after the end of each calendar quarter, the county recorder or registrar of titles shall transmit to the commissioner of health ~~\$42.50~~ \$46.50 of the fee for each well disclosure certificate received during the quarter. The commissioner shall maintain the well disclosure certificate for at least six years. The commissioner may store the certificate as an electronic image. A copy of that image shall be as valid as the original.

(i) No new well disclosure certificate is required under this subdivision if the buyer or seller, or a person authorized to act on behalf of the buyer or seller, certifies on the deed or other instrument of conveyance that the status and number of wells on the property have not changed since the last previously filed well disclosure certificate. The following statement, if followed by the signature of the person making the statement, is sufficient to comply with the certification requirement of this paragraph: "I am familiar with the property described in this instrument and I certify that the status and number of wells on the described real property have not changed since the last previously filed well disclosure certificate." The certification and signature may be on the front or back of the deed or on an attached sheet and an acknowledgment of the statement is not required for the deed or other instrument of conveyance to be recordable.

(j) The commissioner in consultation with county recorders shall prescribe the form for a well disclosure certificate and provide well disclosure certificate forms to county recorders and registrars of titles and other interested persons.

(k) Failure to comply with a requirement of this subdivision does not impair:

(1) the validity of a deed or other instrument of conveyance as between the parties to the deed or instrument or as to any other person who otherwise would be bound by the deed or instrument; or

(2) the record, as notice, of any deed or other instrument of conveyance accepted for filing or recording contrary to the provisions of this subdivision.

Sec. 52. Minnesota Statutes 2024, section 144.562, subdivision 2, is amended to read:

34.21

Subd. 2. **Eligibility for license condition.** (a) A hospital is not eligible to receive a

34.22

license condition for swing beds unless (1) it either has a licensed bed capacity of less than

34.23

50 beds defined in the federal Medicare regulations, Code of Federal Regulations, title 42,

34.24

section 482.66, or it has a licensed bed capacity of 50 beds or more and has swing beds that

34.25

were approved for Medicare reimbursement before May 1, 1985, or it has a licensed bed

34.26

capacity of less than 65 beds and the available nursing homes within 50 miles have had, in

34.27

the aggregate, an average occupancy rate of 96 percent or higher in the most recent two

34.28

years as documented on the statistical reports to the Department of Health; and (2) it is

34.29

located in a rural area as defined in the federal Medicare regulations, Code of Federal

34.30

Regulations, title 42, section 482.66.

34.31

(b) Except for those critical access hospitals established under section 144.1483, clause

34.32

(9), and section 1820 of the federal Social Security Act, United States Code, title 42, section

34.33

1395i-4, that have an attached nursing home or that owned a nursing home located in the

34.34

same municipality as of May 1, 2005, eligible hospitals are allowed a total number of days

34.35

of swing bed use per year as provided in paragraph (c). Critical access hospitals that have

an attached nursing home or that owned a nursing home located in the same municipality as of May 1, 2005, are allowed swing bed use as provided in federal law. A critical access hospital described in section 144.5621 is allowed an unlimited number of days of swing bed use per year.

(c) An eligible hospital is allowed a total of 3,000 days of swing bed use in calendar year 2020. Beginning in calendar year 2021, and for each subsequent calendar year until calendar year 2027, the total number of days of swing bed use per year is increased by 200 swing bed use days. Beginning in calendar year 2028, an eligible hospital is allowed a total of 4,500 days of swing bed use per year.

(d) Days of swing bed use for medical care that an eligible hospital has determined are charity care shall not count toward the applicable limit in paragraph (b) or (c). For purposes of this paragraph, "charity care" means care that an eligible hospital provided for free or at a discount to persons who cannot afford to pay and for which the eligible hospital did not expect payment.

(e) Days of swing bed use for care of a person who has been denied admission to every Medicare-certified skilled nursing facility within 25 miles of the eligible hospital shall not count toward the applicable limit in paragraphs (b) and (c). Eligible hospitals must maintain documentation that they have contacted each skilled nursing facility within 25 miles to determine if any skilled nursing facility beds are available and if the skilled nursing facilities are willing to admit the patient. Skilled nursing facilities that are contacted must admit the patient or deny admission within 24 hours of being contacted by the eligible hospital. Failure to respond within 24 hours is deemed a denial of admission.

~~(f) Except for critical access hospitals that have an attached nursing home or that owned a nursing home located in the same municipality as of May 1, 2005, the commissioner of health may approve swing bed use beyond 2,000 days as long as there are no Medicare certified skilled nursing facility beds available within 25 miles of that hospital that are willing to admit the patient and the patient agrees to the referral being sent to the skilled nursing facility. Critical access hospitals exceeding 2,000 swing bed days must maintain documentation that they have contacted skilled nursing facilities within 25 miles to determine if any skilled nursing facility beds are available that are willing to admit the patient and the patient agrees to the referral being sent to the skilled nursing facility. This paragraph expires January 1, 2020.~~

~~(g) After reaching 2,000 days of swing bed use in a year, an eligible hospital to which this limit applies may admit six additional patients to swing beds each year without seeking~~

~~approval from the commissioner or being in violation of this subdivision. These six swing bed admissions are exempt from the limit of 2,000 annual swing bed days for hospitals subject to this limit. This paragraph expires January 1, 2020.~~

~~(h) A health care system that is in full compliance with this subdivision may allocate its total limit of swing bed days among the hospitals within the system, provided that no hospital in the system without an attached nursing home may exceed 2,000 swing bed days per year. This paragraph expires January 1, 2020.~~

104.27 (g) In addition to any other remedy provided by law, the board may, without a hearing,

145.4 team.

145.5 Subd. 8. **Encumbered.** "Encumbered" means:

145.6 (1) a license or other credential that is revoked, is suspended, or contains limitations on
145.7 the full and unrestricted practice of certified midwifery when the revocation, suspension,

145.14 of birth is an even-numbered year, or in an odd-numbered year if the year of birth is an
145.15 odd-numbered year. Subsequent licensure renewal periods are 24 months. For licensure
145.16 renewal, the period starts on the first day of the month following expiration of the previous
145.17 licensure period. The period ends the last day of the certified midwife's month of birth in

145.23 program of theory and practice offered by a university or college that leads to the preparation
145.24 and eligibility for certification in midwifery and is accredited by the Accreditation
145.25 Commission for Midwifery Education or any successor organization recognized by the
145.26 United States Department of Education or the Council for Higher Education Accreditation.

145.27 Subd. 12. **Patient.** "Patient" means a recipient of care provided by a certified midwife

146.2 for prescription drugs and devices.

146.3 Subd. 14. **Prescription.** "Prescription" means a written direction or an oral direction
146.4 reduced to writing provided to or for a patient for the preparation or use of a drug or

146.13 Sec. 87. **[148G.04] CERTIFIED MIDWIFE LICENSING.**

146.14 Subdivision 1. **Licensure.** (a) No person shall practice as a certified midwife or serve
146.15 as the faculty of record for clinical instruction in a midwifery distance learning program
146.16 unless the person is licensed by the board under this chapter.

146.17 (b) An applicant for a license to practice as a certified midwife must apply to the board
146.18 in a format prescribed by the board and pay a fee in an amount determined under section
146.19 148G.11.

146.20 (c) To be eligible for licensure, an applicant must:

146.21 (1) not hold an encumbered license or other credential as a certified midwife or equivalent
146.22 professional designation in any state or territory;

146.23 (2) hold a current and valid certification as a certified midwife from the American
146.24 Midwifery Certification Board or any successor organization acceptable to the board and
146.25 provide primary source verification of certification to the board in a format prescribed by

146.27 (3) have completed a graduate-level midwifery education program that includes clinical
146.28 experience, is accredited by the Accreditation Commission for Midwifery Education or any
146.29 successor organization recognized by the United States Department of Education or the
146.30 Council for Higher Education Accreditation, and leads to a graduate degree. The applicant
146.31 must submit primary source verification of program completion to the board in a format
146.32 prescribed by the board. The primary source verification must verify the applicant completed

147.1 three separate graduate-level courses in physiology and pathophysiology; advanced health

147.8 action as set forth in section 148G.13, the board has found after an investigation that sufficient
147.9 remediation was made.

147.10 Subd. 2. **Clinical practice component.** If more than five years have elapsed since the
147.11 applicant has practiced in the certified midwife role, the applicant must complete a
147.12 reorientation plan as a certified midwife. The plan must include supervision during the
147.13 clinical component by a licensed practitioner with experience in providing care to patients
147.14 with the same or similar health care needs. The applicant must submit the plan and the name
147.15 of the practitioner to the board. The plan must include a minimum of 500 hours of supervised
147.16 certified midwifery practice. The certified midwife must submit verification of completion
147.17 of the clinical reorientation to the board when the reorientation is complete.

147.18 Sec. 88. **[148G.05] LICENSURE RENEWAL; RELICENSURE.**

147.19 Subdivision 1. **Renewal; current applicants.** (a) A certified midwife must apply for
147.20 renewal of the certified midwife's license before the certified midwife's licensure period
147.21 ends. To be considered timely, the board must receive the certified midwife's application
147.22 on or before the last day of the certified midwife's licensure period. A certified midwife's
147.23 license lapses if the certified midwife's application is untimely.

147.24 (b) An applicant for license renewal must provide the board evidence of current
147.25 certification or recertification as a certified midwife by the American Midwifery Certification
147.26 Board or any successor organization.

147.27 (c) An applicant for license renewal must submit to the board the fee under section
147.28 148G.11, subdivision 2.

147.29 Subd. 2. **Clinical practice component.** If more than five years have elapsed since the
147.30 applicant has practiced as a certified midwife, the applicant must complete a reorientation
147.31 plan as a certified midwife. The plan must include supervision during the clinical component
147.32 by a licensed practitioner with experience in providing care to patients with the same or
147.33 similar health care needs. The licensee must submit the plan and the name of the practitioner

to the board. The plan must include a minimum of 500 hours of supervised certified midwifery practice. The certified midwife must submit verification of completion of the clinical reorientation to the board when the reorientation is complete.

Subd. 3. Relicensure; lapsed applicants. A person whose license has lapsed who desires to resume practice as a certified midwife must apply for relicensure, submit to the board satisfactory evidence of compliance with the procedures and requirements established by the board, and pay the board the relicensure fee under section 148G.11, subdivision 4, for the current licensure period. A penalty fee under section 148G.11, subdivision 4, is required from a person who practiced certified midwifery without current licensure. The board must relicense a person who meets the requirements of this subdivision.

Sec. 89. [148G.06] FAILURE OR REFUSAL TO PROVIDE INFORMATION.

Subdivision 1. Notification requirement. An individual licensed as a certified midwife must notify the board when the individual renews their certification. If a licensee fails to provide notification, the licensee is prohibited from practicing as a certified midwife.

Subd. 2. Denial of license. Refusal of an applicant to supply information necessary to determine the applicant's qualifications, failure to demonstrate qualifications, or failure to satisfy the requirements for a license contained in this chapter or rules of the board may result in denial of a license. The burden of proof is upon the applicant to demonstrate the qualifications and satisfaction of the requirements.

Sec. 90. [148G.07] NAME CHANGE AND CHANGE OF ADDRESS.

A certified midwife must maintain a current name and address with the board and must notify the board in writing within 30 days of any change in name or address. All notices or other correspondence mailed to or served upon a certified midwife by the board at the licensee's address on file with the board are considered received by the licensee.

Sec. 91. [148G.08] IDENTIFICATION OF CERTIFIED MIDWIVES.

Only those persons who hold a current license to practice certified midwifery in Minnesota may use the title of certified midwife. A certified midwife licensed by the board must use the designation of "CM" for professional identification and in documentation of services provided.

Sec. 92. **[148G.09] PRESCRIBING DRUGS AND THERAPEUTIC DEVICES.**

Subdivision 1. Diagnosing, prescribing, and ordering. Certified midwives, within the scope of certified midwifery practice, are authorized to:

(1) diagnose, prescribe, and institute therapy or referrals of patients to health care agencies and providers;

(2) prescribe, procure, sign for, record, administer, and dispense over-the-counter, legend, and controlled substances, including sample drugs; and

(3) plan and initiate a therapeutic regimen that includes ordering and prescribing durable medical devices and equipment, nutrition, diagnostic services, and supportive services, including but not limited to home health care, physical therapy, and occupational therapy.

Subd. 2. Drug Enforcement Administration requirements. (a) Certified midwives must:

(1) comply with federal Drug Enforcement Administration (DEA) requirements related to controlled substances; and

(2) file the certified midwife's DEA registrations and numbers, if any, with the board.

(b) The board must maintain current records of all certified midwives with a DEA registration and number.

Sec. 93. **[148G.10] FEES.**

The fees specified in section 148G.11 are nonrefundable and must be deposited in the state government special revenue fund.

Sec. 94. **[148G.11] FEE AMOUNTS.**

Subdivision 1. Licensure. The fee for licensure is \$105.

Subd. 2. Renewal. The fee for licensure renewal is \$85.

Subd. 3. Practicing without current certification. The penalty fee for a person who practices certified midwifery without a current certification or recertification, or who practices certified midwifery without current certification or recertification on file with the board, is \$200 for the first month or part of a month and an additional \$100 for each subsequent month or parts of months of practice. The penalty fee must be calculated from the first day the certified midwife practiced without a current certification to the last day of practice without a current certification, or from the first day the certified midwife practiced without

150.1 a current certification or recertification on file with the board until the day the current
150.2 certification or recertification is filed with the board.

150.3 Subd. 4. **Relicensure.** The fee for relicensure is \$105. The fee for practicing without
150.4 current licensure is two times the amount of the current renewal fee for any part of the first
150.5 calendar month, plus the current renewal fee for any part of each subsequent month up to
150.6 24 months.

150.7 Subd. 5. **Dishonored check fee.** The service fee for a dishonored check is as provided
150.8 in section 604.113.

150.9 Sec. 95. **[148G.12] APPROVED MIDWIFERY EDUCATION PROGRAM.**

150.10 Subdivision 1. **Initial approval.** A university or college desiring to conduct a certified
150.11 midwifery education program must submit evidence to the board that the university or
150.12 college is prepared to:

150.13 (1) provide a program of theory and practice in certified midwifery leading to eligibility
150.14 for certification in midwifery;

150.15 (2) achieve preaccreditation and eventual full accreditation by the American Commission
150.16 for Midwifery Education or any successor organization recognized by the United States
150.17 Department of Education or the Council for Higher Education Accreditation. Instruction
150.18 and required experience may be obtained in one or more institutions or agencies outside
150.19 the applying university or college if the program retains accountability for all clinical and
150.20 nonclinical teaching; and

150.21 (3) meet other standards established by law and by the board.

150.22 Subd. 2. **Continuing approval.** The board must, through the board's representative,
150.23 annually survey all midwifery education programs in Minnesota for current accreditation
150.24 status by the American Commission for Midwifery Education or any successor organization
150.25 recognized by the United States Department of Education or the Council for Higher Education
150.26 Accreditation. If the results of the survey show that a certified midwifery education program
150.27 meets all standards for continuing accreditation, the board must continue approval of the
150.28 certified midwifery education program.

150.29 Subd. 3. **Loss of approval.** If the board determines that an accredited certified midwifery
150.30 education program is not maintaining the standards required by the American Commission
150.31 on Midwifery Education or any successor organization, the board must obtain the defect in
150.32 writing from the accrediting body. If a program fails to correct the defect to the satisfaction
150.33 of the accrediting body and the accrediting body revokes the program's accreditation, the

151.1 board must remove the program from the list of approved certified midwifery education
151.2 programs.

151.3 Subd. 4. **Reinstatement of approval.** The board must reinstate approval of a certified
151.4 midwifery education program upon submission of satisfactory evidence that the certified
151.5 midwifery education program of theory and practice meets the standards required by the
151.6 accrediting body.

151.7 Sec. 96. **[148G.13] GROUNDS FOR DISCIPLINARY ACTION.**

151.8 Subdivision 1. **Grounds listed.** The board may deny, revoke, suspend, limit, or condition
151.9 the license of any person to practice certified midwifery under this chapter or otherwise
151.10 discipline a licensee or applicant as described in section 148G.14. The following are grounds
151.11 for disciplinary action:

151.12 (1) failure to demonstrate the qualifications or satisfy the requirements for a license
151.13 contained in this chapter or rules of the board. In the case of an applicant for licensure, the
151.14 burden of proof is upon the applicant to demonstrate the qualifications or satisfaction of the
151.15 requirements;

151.16 (2) employing fraud or deceit in procuring or attempting to procure a license to practice
151.17 certified midwifery;

151.18 (3) conviction of a felony or gross misdemeanor reasonably related to the practice of
151.19 certified midwifery. Conviction, as used in this subdivision, includes a conviction of an
151.20 offense that if committed in this state would be considered a felony or gross misdemeanor
151.21 without regard to its designation elsewhere, or a criminal proceeding where a finding or
151.22 verdict of guilt is made or returned, but the adjudication of guilt is either withheld or not
151.23 entered;

151.24 (4) revocation, suspension, limitation, conditioning, or other disciplinary action against
151.25 the person's certified midwife credential in another state, territory, or country; failure to
151.26 report to the board that charges regarding the person's certified midwifery license,
151.27 certification, or other credential are pending in another state, territory, or country; or failure
151.28 to report to the board having been refused a license or other credential by another state,
151.29 territory, or country;

151.30 (5) failure or inability to practice as a certified midwife with reasonable skill and safety,
151.31 or departure from or failure to conform to standards of acceptable and prevailing certified
151.32 midwifery practice, including failure of a certified midwife to adequately supervise or
151.33 monitor the performance of acts by any person working at the certified midwife's direction;

152.1 (6) engaging in unprofessional conduct, including but not limited to a departure from
152.2 or failure to conform to statutes relating to certified midwifery practice or to the minimal
152.3 standards of acceptable and prevailing certified midwifery practice, or engaging in any
152.4 certified midwifery practice that may create unnecessary danger to a patient's life, health,
152.5 or safety. Actual injury to a patient need not be established under this clause;

152.6 (7) supervision or accepting the supervision of a midwifery function or a prescribed
152.7 health care function when the acceptance could reasonably be expected to result in unsafe
152.8 or ineffective patient care;

152.9 (8) actual or potential inability to practice certified midwifery with reasonable skill and
152.10 safety to patients by reason of illness; by the reason of use of alcohol, drugs, chemicals, or
152.11 any other material; or as a result of any mental or physical condition;

152.12 (9) adjudication as mentally incompetent, mentally ill, a chemically dependent person,
152.13 or a person dangerous to the public by a court of competent jurisdiction, within or outside
152.14 of Minnesota;

152.15 (10) engaging in any unethical conduct, including but not limited to conduct likely to
152.16 deceive, defraud, or harm the public, or demonstrating a willful or careless disregard for
152.17 the health, welfare, or safety of a patient. Actual injury need not be established under this
152.18 clause;

152.19 (11) engaging in conduct with a patient that is sexual or may reasonably be interpreted
152.20 by the patient as sexual, in any verbal behavior that is seductive or sexually demeaning to
152.21 a patient, or in sexual exploitation of a patient or former patient;

152.22 (12) obtaining money, property, or services from a patient, other than reasonable fees
152.23 for services provided to the patient, through the use of undue influence, harassment, duress,
152.24 deception, or fraud;

152.25 (13) revealing a privileged communication from or relating to a patient except when
152.26 otherwise required or permitted by law;

152.27 (14) engaging in abusive or fraudulent billing practices, including violations of federal
152.28 Medicare and Medicaid laws or state medical assistance laws;

152.29 (15) improper management of patient records, including failure to maintain adequate
152.30 patient records, to comply with a patient's request made pursuant to sections 144.291 to
152.31 144.298, or to furnish a patient record or report required by law;

152.32 (16) knowingly aiding, assisting, advising, or allowing an unlicensed person to engage
152.33 in the unlawful practice of certified midwifery;

153.1 (17) violating a rule adopted by the board, an order of the board, a state or federal law
153.2 relating to the practice of certified midwifery, or a state or federal narcotics or controlled
153.3 substance law;

153.4 (18) knowingly providing false or misleading information to a patient that is directly
153.5 related to the care of that patient unless done for an accepted therapeutic purpose such as
153.6 the administration of a placebo;

153.7 (19) aiding suicide or aiding attempted suicide in violation of section 609.215 as
153.8 established by any of the following:

153.9 (i) a copy of the record of criminal conviction or plea of guilty for a felony in violation
153.10 of section 609.215, subdivision 1 or 2;

153.11 (ii) a copy of the record of a judgment of contempt of court for violating an injunction
153.12 issued under section 609.215, subdivision 4;

153.13 (iii) a copy of the record of a judgment assessing damages under section 609.215,
153.14 subdivision 5; or

153.15 (iv) a finding by the board that the person violated section 609.215, subdivision 1 or 2.
153.16 The board must investigate any complaint of a violation of section 609.215, subdivision 1
153.17 or 2;

153.18 (20) practicing outside the scope of certified midwifery practice as defined under section
153.19 148G.03, subdivision 5;

153.20 (21) making a false statement or knowingly providing false information to the board,
153.21 failing to make reports as required by section 148G.15, or failing to cooperate with an
153.22 investigation of the board as required by section 148G.17;

153.23 (22) engaging in false, fraudulent, deceptive, or misleading advertising;

153.24 (23) failure to inform the board of the person's certification or recertification status as
153.25 a certified midwife;

153.26 (24) engaging in certified midwifery practice without a license and current certification
153.27 or recertification by the American Midwifery Certification Board or any successor
153.28 organization; or

153.29 (25) failure to maintain appropriate professional boundaries with a patient. A certified
153.30 midwife must not engage in practices that create an unacceptable risk of patient harm or of
153.31 the impairment of a certified midwife's objectivity or professional judgment. A certified
153.32 midwife must not act or fail to act in a way that, as judged by a reasonable and prudent

154.1 certified midwife, inappropriately encourages the patient to relate to the certified midwife
154.2 outside of the boundaries of the professional relationship or in a way that interferes with
154.3 the patient's ability to benefit from certified midwife services. A certified midwife must not
154.4 use the professional relationship with a patient, student, supervisee, or intern to further the
154.5 certified midwife's personal, emotional, financial, sexual, religious, political, or business
154.6 benefit or interests.

154.7 Subd. 2. **Conviction of a felony-level criminal sexual offense.** (a) Except as provided
154.8 in paragraph (e), the board must not grant or renew a license to practice certified midwifery
154.9 to any person who has been convicted on or after August 1, 2014, of any of the provisions
154.10 of section 609.342, subdivision 1 or 1a; 609.343, subdivision 1 or 1a; 609.344, subdivision
154.11 1 or 1a, paragraphs (c) to (g); or 609.345, subdivision 1 or 1a, paragraphs (c) to (g); or a
154.12 similar statute in another jurisdiction.

154.13 (b) A license to practice certified midwifery is automatically revoked if the licensee is
154.14 convicted of an offense listed in paragraph (a).

154.15 (c) A license to practice certified midwifery that has been denied or revoked under this
154.16 subdivision is not subject to chapter 364.

154.17 (d) For purposes of this subdivision, "conviction" means a plea of guilty, a verdict of
154.18 guilty by a jury, or a finding of guilty by the court, unless the court stays imposition or
154.19 execution of the sentence and final disposition of the case is accomplished at a nonfelony
154.20 level.

154.21 (e) The board may establish criteria whereby an individual convicted of an offense listed
154.22 in paragraph (a) may become licensed if the criteria:

154.23 (1) utilize a rebuttable presumption that the applicant is not suitable for licensing;

154.24 (2) provide a standard for overcoming the presumption; and

154.25 (3) require that a minimum of ten years has elapsed since the applicant's sentence was
154.26 discharged.

154.27 (f) The board must not consider an application under paragraph (e) if the board determines
154.28 that the victim involved in the offense was a patient or a client of the applicant at the time
154.29 of the offense.

154.30 Subd. 3. **Evidence.** In disciplinary actions alleging a violation of subdivision 1, clause
154.31 (3) or (4), or 2, a copy of the judgment or proceeding under the seal of the court administrator
154.32 or of the administrative agency that entered the same is admissible into evidence without
154.33 further authentication and constitutes prima facie evidence of the violation concerned.

155.1 Subd. 4. **Examination; access to medical data.** (a) If the board has probable cause to
155.2 believe that grounds for disciplinary action exist under subdivision 1, clause (8) or (9), it
155.3 may direct the applicant or certified midwife to submit to a mental or physical examination
155.4 or chemical dependency evaluation. For the purpose of this subdivision, when a certified
155.5 midwife licensed under this chapter is directed in writing by the board to submit to a mental
155.6 or physical examination or chemical dependency evaluation, that person is considered to
155.7 have consented and to have waived all objections to admissibility on the grounds of privilege.
155.8 Failure of the applicant or certified midwife to submit to an examination when directed
155.9 constitutes an admission of the allegations against the applicant or certified midwife, unless
155.10 the failure was due to circumstances beyond the person's control, and the board may enter
155.11 a default and final order without taking testimony or allowing evidence to be presented. A
155.12 certified midwife affected under this paragraph must, at reasonable intervals, be given an
155.13 opportunity to demonstrate that the competent practice of certified midwifery can be resumed
155.14 with reasonable skill and safety to patients. Neither the record of proceedings nor the orders
155.15 entered by the board in a proceeding under this paragraph may be used against a certified
155.16 midwife in any other proceeding.

155.17 (b) Notwithstanding sections 13.384, 144.651, and 595.02, or any other law limiting
155.18 access to medical or other health data, the board may obtain medical data and health records
155.19 relating to a certified midwife or applicant for a license without that person's consent if the
155.20 board has probable cause to believe that grounds for disciplinary action exist under
155.21 subdivision 1, clause (8) or (9). The medical data may be requested from a provider, as
155.22 defined in section 144.291, subdivision 2; an insurance company; or a government agency,
155.23 including the Department of Human Services or Direct Care and Treatment. A provider,
155.24 insurance company, or government agency must comply with any written request of the
155.25 board under this subdivision and is not liable in any action for damages for releasing the
155.26 data requested by the board if the data are released pursuant to a written request under this
155.27 subdivision, unless the information is false and the provider giving the information knew

155.30 Sec. 97. **[148G.14] FORMS OF DISCIPLINARY ACTION; AUTOMATIC**
155.31 **SUSPENSION; TEMPORARY SUSPENSION; REISSUANCE.**

155.32 Subdivision 1. **Forms of disciplinary action.** If the board finds that grounds for
155.33 disciplinary action exist under section 148G.13, it may take one or more of the following
155.34 actions:

- 156.1 (1) deny the license application or application for license renewal;
- 156.2 (2) revoke the license;
- 156.3 (3) suspend the license;
- 156.4 (4) impose limitations on the certified midwife's practice of certified midwifery, including
- 156.5 but not limited to limitation of scope of practice or the requirement of practice under
- 156.6 supervision;
- 156.7 (5) impose conditions on the retention of the license, including but not limited to the
- 156.8 imposition of retraining or rehabilitation requirements or the conditioning of continued
- 156.9 practice on demonstration of knowledge or skills by appropriate examination, monitoring,
- 156.10 or other review;
- 156.11 (6) impose a civil penalty not exceeding \$10,000 for each separate violation. The amount
- 156.12 of the civil penalty must be fixed so as to deprive the certified midwife of any economic
- 156.13 advantage gained by reason of the violation charged; to reimburse the board for the cost of
- 156.14 counsel, investigation, and proceeding; and to discourage repeated violations;
- 156.15 (7) order the certified midwife to provide unremunerated service;
- 156.16 (8) censure or reprimand the certified midwife; or
- 156.17 (9) any other action justified by the facts in the case.
- 156.18 Subd. 2. **Automatic suspension of license.** (a) Unless the board orders otherwise, a
- 156.19 license to practice certified midwifery is automatically suspended if:
- 156.20 (1) a guardian of a certified midwife is appointed by order of a court under sections
- 156.21 524.5-101 to 524.5-502;
- 156.22 (2) the certified midwife is committed by order of a court under chapter 253B; or
- 156.23 (3) the certified midwife is determined to be mentally incompetent, mentally ill,
- 156.24 chemically dependent, or a person dangerous to the public by a court of competent
- 156.25 jurisdiction within or outside of Minnesota.
- 156.26 (b) The license remains suspended until the certified midwife is restored to capacity by
- 156.27 a court and, upon petition by the certified midwife, the suspension is terminated by the
- 156.28 board after a hearing or upon agreement between the board and the certified midwife.
- 156.29 Subd. 3. **Temporary suspension of license.** In addition to any other remedy provided
- 156.30 by law, the board may, through its designated board member under section 214.10,
- 156.31 subdivision 2, temporarily suspend the license of a certified midwife without a hearing if

157.1 the board finds that there is probable cause to believe the certified midwife has violated a
157.2 statute or rule the board is empowered to enforce and continued practice by the certified
157.3 midwife would create a serious risk of harm to others. The suspension takes effect upon
157.4 written notice to the certified midwife, served by first-class mail, specifying the statute or
157.5 rule violated. The suspension must remain in effect until the board issues a temporary stay
157.6 of suspension or a final order in the matter after a hearing or upon agreement between the
157.7 board and the certified midwife. At the time it issues the suspension notice, the board must
157.8 schedule a disciplinary hearing to be held under the Administrative Procedure Act. The
157.9 board must provide the certified midwife at least 20 days' notice of any hearing held under
157.10 this subdivision. The board must schedule the hearing to begin no later than 30 days after
157.11 the issuance of the suspension order.

157.12 Subd. 4. **Reissuance.** The board may reinstate and reissue a license to practice certified
157.13 midwifery, but as a condition may impose any disciplinary or corrective measure that it
157.14 might originally have imposed. Any person whose license has been revoked, suspended, or
157.15 limited may have the license reinstated and a new license issued when, at the discretion of
157.16 the board, the action is warranted, provided that the board must require the person to pay
157.17 the costs of the proceedings resulting in the revocation, suspension, or limitation of the
157.18 license; the relicensure fee; and the fee for the current licensure period. The cost of
157.19 proceedings includes but is not limited to the cost paid by the board to the Office of
157.20 Administrative Hearings and the Office of the Attorney General for legal and investigative
157.21 services; the costs of a court reporter and witnesses, reproduction of records, board staff
157.22 time, travel, and expenses; and the costs of board members' per diem reimbursements, travel

157.33 privileges, any dismissal from employment, or any other disciplinary action. The institution
157.34 or organization must also report the resignation of any certified midwife before the conclusion

of any disciplinary proceeding or before commencement of formal charges, but after the certified midwife had knowledge that formal charges were contemplated or in preparation. The reporting described by this subdivision is required only if the action pertains to grounds for disciplinary action under section 148G.13.

Subd. 3. **Licensed professionals.** A person licensed by a health-related licensing board as defined in section 214.01, subdivision 2, must report to the board personal knowledge of any conduct the person reasonably believes constitutes grounds for disciplinary action under section 148G.13 by any certified midwife, including conduct indicating that the certified midwife may be incompetent, may have engaged in unprofessional or unethical conduct, or may be mentally or physically unable to engage safely in the practice of certified midwifery.

Subd. 4. **Insurers.** (a) By the first day of February, May, August, and November each year, each insurer authorized to sell insurance described in section 60A.06, subdivision 1, clause (13), and providing professional liability insurance to certified midwives must submit to the board a report concerning any certified midwife against whom a malpractice award has been made or who has been a party to a settlement. (b) An insurer must also report to the board any information it possesses that tends to substantiate a charge that a certified midwife may have engaged in conduct in violation of this chapter.

Subd. 5. **Courts.** The court administrator of district court or another court of competent jurisdiction must report to the board any judgment or other determination of the court that adjudges or includes a finding that a certified midwife is a person who is mentally ill, mentally incompetent, chemically dependent, dangerous to the public, guilty of a felony or gross misdemeanor, guilty of a violation of federal or state narcotics laws or controlled substances act, guilty of operating a motor vehicle while under the influence of alcohol or

159.1 a controlled substance, or guilty of an abuse or fraud under Medicare or Medicaid; or if the
159.2 court appoints a guardian of the certified midwife under sections 524.5-101 to 524.5-502
159.3 or commits a certified midwife under chapter 253B.

159.4 Subd. 6. **Deadlines; forms.** Reports required by subdivisions 2, 3, and 5 must be
159.5 submitted no later than 30 days after the occurrence of the reportable event or transaction.
159.6 The board may provide forms for the submission of reports required under this section, may
159.7 require that the reports be submitted on the forms provided, and may adopt rules necessary
159.8 to ensure prompt and accurate reporting. The board must review all reports, including those
159.9 submitted after the deadline.

159.10 Subd. 7. **Failure to report.** Any person, institution, insurer, or organization that fails to
159.11 report as required under subdivisions 2 to 6 is subject to civil penalties for failing to report
159.12 as required by law.

159.13 Sec. 99. **[148G.16] IMMUNITY.**

159.14 Subdivision 1. **Reporting.** Any person, health care facility, business, or organization is
159.15 immune from civil liability and criminal prosecution for submitting in good faith a report
159.16 to the board under section 148G.15 or for otherwise reporting in good faith to the board
159.17 violations or alleged violations of this chapter. All such reports are investigative data as
159.18 defined in chapter 13.

159.22 investigation or testifying regarding charges of violations are immune from civil liability
159.23 and criminal prosecution for any actions, transactions, or publications in the execution of,
159.24 or relating to, their duties under this chapter.

159.25 (b) Members of the board and persons employed by the board or engaged in maintaining
159.26 records and making reports regarding adverse health care events are immune from civil
159.27 liability and criminal prosecution for any actions, transactions, or publications in the
159.28 execution of, or relating to, their duties under this chapter.

159.29 Sec. 100. **[148G.17] CERTIFIED MIDWIFE COOPERATION.**

159.30 A certified midwife who is the subject of an investigation by or on behalf of the board
159.31 must cooperate fully with the investigation. Cooperation includes responding fully and
159.32 promptly to any question raised by or on behalf of the board relating to the subject of the

investigation and providing copies of patient or other records in the certified midwife's possession, as reasonably requested by the board, to assist the board in its investigation and to appear at conferences and hearings scheduled by the board. The board must pay for copies requested. If the board does not have written consent from a patient permitting access to the patient's records, the certified midwife must delete any data in the record that identify the patient before providing it to the board. The board must maintain any records obtained pursuant to this section as investigative data under chapter 13. The certified midwife must not be excused from giving testimony or producing any documents, books, records, or correspondence on the grounds of self-incrimination, but the testimony or evidence must not be used against the certified midwife in any criminal case.

(3) when an independent source of research, clinical guidelines, or evidence-based standards has issued drug-specific warnings or recommended changes with respect to a drug's use for reasons related to previously unknown and imminent patient harm.

(k) Paragraph (i) does not apply when the commissioner removes a brand name drug from the formulary if the commissioner adds to the formulary a generic or multisource brand name drug rated as therapeutically equivalent according to the FDA Orange Book, or a biologic drug rated as interchangeable according to the FDA Purple Book, at the same or lower cost to the enrollee.

EFFECTIVE DATE. This section is effective January 1, 2026, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 3. Minnesota Statutes 2024, section 256B.0625, subdivision 13c, is amended to read:

Subd. 13c. **Formulary Committee.** The commissioner, after receiving recommendations from professional medical associations and professional pharmacy associations, and consumer groups shall designate a Formulary Committee to carry out duties as described in subdivisions 13 to 13g. The Formulary Committee shall be comprised of at least five licensed physicians actively engaged in the practice of medicine in Minnesota, one of whom is an actively practicing psychiatrist, one of whom specializes in the diagnosis and treatment of rare diseases, one of whom specializes in pediatrics, and one of whom actively treats persons with disabilities; at least three licensed pharmacists actively engaged in the practice of pharmacy in Minnesota, one of whom practices outside the metropolitan counties listed in section 473.121, subdivision 4, one of whom practices in the metropolitan counties listed in section 473.121, subdivision 4, and one of whom is a practicing hospital pharmacist; at least two consumer representatives, all of whom must have a personal or professional connection to medical assistance; and one representative designated by the Minnesota Rare Disease Advisory Council established under section 256.4835; the remainder to be made up of health care professionals who are licensed in their field and have recognized knowledge in the clinically appropriate prescribing, dispensing, and monitoring of covered outpatient drugs. Members of the Formulary Committee shall not be employed by the Department of Human Services or have a personal interest in a pharmaceutical company, pharmacy benefits manager, health plan company, or their affiliate organizations, but the committee shall be staffed by an employee of the department who shall serve as an ex officio, nonvoting member of the committee. For the purposes of this subdivision, "personal interest" means that a person owns at least five percent of the voting interest or equity interest in the entity, the

179.1 equity interest owned by a person represents at least five percent of that person's net worth,
179.2 or more than five percent of a person's gross income for the preceding year was derived
179.3 from the entity. A committee member must notify the committee of any potential conflict
179.4 of interest and recuse themselves from any communications, discussion, or vote on any
179.5 matter where a conflict of interest exists. A conflict of interest alone, without a personal
179.6 interest, does not preclude an applicant from serving as a member of the Formulary
179.7 Committee. Members may be removed from the committee for cause after a recommendation
179.8 for removal by a majority of the committee membership. For the purposes of this subdivision,
179.9 "cause" does not include offering a differing or dissenting clinical opinion on a drug or drug
179.10 class. The department's medical director shall also serve as an ex officio, nonvoting member
179.11 for the committee. Committee members shall serve three-year terms and may be reappointed
179.12 twice by the commissioner. The committee members shall vote on a chair and vice chair
179.13 from among their membership. The chair shall preside over all committee meetings, and
179.14 the vice chair shall preside over the meetings if the chair is not present. The Formulary
179.15 Committee shall meet at least three times per year. The commissioner may require more
179.16 frequent Formulary Committee meetings as needed. An honorarium of \$100 per meeting
179.17 and reimbursement for mileage shall be paid to each committee member in attendance. The
179.18 Formulary Committee expires June 30, ~~2027~~ 2029. The Formulary Committee is subject to
179.19 the Open Meeting Law under chapter 13D. For purposes of establishing a quorum to transact
179.20 business, vacant committee member positions do not count in the calculation as long as at
179.21 least 60 percent of the committee member positions are filled.

179.22 **EFFECTIVE DATE.** This section is effective the day following final enactment.

179.23 Sec. 4. Minnesota Statutes 2024, section 256B.0625, subdivision 13d, is amended to read:

179.24 Subd. 13d. **Drug formulary.** (a) The commissioner shall establish a drug formulary. Its
179.25 establishment and publication shall not be subject to the requirements of the Administrative
179.26 Procedure Act, but the Formulary Committee shall review and comment on the formulary
179.27 contents.

179.28 (b) The formulary shall not include:

179.29 (1) drugs, active pharmaceutical ingredients, or products for which there is no federal
179.30 funding;

179.31 (2) over-the-counter drugs, except as provided in subdivision 13;

179.32 (3) drugs or active pharmaceutical ingredients when used for the treatment of impotence
179.33 or erectile dysfunction;

180.1 (4) drugs or active pharmaceutical ingredients for which medical value has not been
180.2 established;

180.3 (5) drugs from manufacturers who have not signed a rebate agreement with the
180.4 Department of Health and Human Services pursuant to section 1927 of title XIX of the
180.5 Social Security Act; and

180.6 (6) medical cannabis flower as defined in section 342.01, subdivision 54, or medical
180.7 cannabinoid products as defined in section 342.01, subdivision 52.

180.8 (c) If a single-source drug used by at least two percent of the fee-for-service medical
180.9 assistance recipients is removed from the formulary due to the failure of the manufacturer
180.10 to sign a rebate agreement with the Department of Health and Human Services, the
180.11 commissioner shall notify prescribing practitioners within 30 days of receiving notification
180.12 from the Centers for Medicare and Medicaid Services (CMS) that a rebate agreement was
180.13 not signed.

180.14 (d) Within ten calendar days of any commissioner determination to change the drug
180.15 formulary, the commissioner must provide written notice to all enrollees, prescribers, and
180.16 pharmacists affected by the change. The notice must include a description of the change,
180.17 the reason for the change, and the date the change will become effective.

180.18 (e) By January 15, 2026, and annually thereafter, the commissioner of human services
180.19 must provide a report with data and information related to the effects on enrollees of drug
180.20 formulary changes made in the prior calendar year to the chairs and ranking minority
180.21 members of the legislative committees with jurisdiction over health and human services
180.22 policy and finance. The report must include but is not limited to data and information on:

180.23 (1) the number of times the formulary was changed;

180.24 (2) the reasons for the formulary changes and how frequently the formulary was changed
180.25 for each reason;

180.26 (3) the drugs that were removed from the formulary;

180.27 (4) for each drug that was removed from the formulary, the number of enrollees who
180.28 were prescribed that drug when it was removed;

180.29 (5) for each drug that was removed from the formulary, whether a therapeutically
180.30 equivalent drug was added;

180.31 (6) the drugs that were added to the formulary;

181.1 (7) the fiscal impacts to the Department of Human Services resulting from the changes
181.2 to the formulary; and

181.3 (8) enrollee populations or medical conditions disproportionately affected by the
181.4 formulary changes.

181.5 Sec. 5. Minnesota Statutes 2024, section 256B.0625, subdivision 13e, is amended to read:

181.6 Subd. 13e. **Payment rates.** (a) The basis for determining the amount of payment shall
181.7 be the lower of the ingredient costs of the drugs plus the professional dispensing fee; or the
181.8 usual and customary price charged to the public. The usual and customary price means the
181.9 lowest price charged by the provider to a patient who pays for the prescription by cash,
181.10 check, or charge account and includes prices the pharmacy charges to a patient enrolled in
181.11 a prescription savings club or prescription discount club administered by the pharmacy or
181.12 pharmacy chain, unless the prescription savings club or prescription discount club is one
181.13 in which an individual pays a recurring monthly access fee for unlimited access to a defined
181.14 list of drugs for which the pharmacy does not bill the member or a payer on a
181.15 per-standard-transaction basis. The amount of payment basis must be reduced to reflect all
181.16 discount amounts applied to the charge by any third-party provider/insurer agreement or
181.17 contract for submitted charges to medical assistance programs. The net submitted charge
181.18 may not be greater than the patient liability for the service. The professional dispensing fee
181.19 shall be \$11.55 for prescriptions filled with legend drugs meeting the definition of "covered
181.20 outpatient drugs" according to United States Code, title 42, section 1396r-8(k)(2). The
181.21 dispensing fee for intravenous solutions that must be compounded by the pharmacist shall
181.22 be \$11.55 per claim. The professional dispensing fee for prescriptions filled with
181.23 over-the-counter drugs meeting the definition of covered outpatient drugs shall be \$11.55
181.24 for dispensed quantities equal to or greater than the number of units contained in the
181.25 manufacturer's original package. The professional dispensing fee shall be prorated based
181.26 on the percentage of the package dispensed when the pharmacy dispenses a quantity less
181.27 than the number of units contained in the manufacturer's original package. The pharmacy
181.28 dispensing fee for prescribed over-the-counter drugs not meeting the definition of covered
181.29 outpatient drugs shall be \$3.65 for quantities equal to or greater than the number of units
181.30 contained in the manufacturer's original package and shall be prorated based on the
181.31 percentage of the package dispensed when the pharmacy dispenses a quantity less than the
181.32 number of units contained in the manufacturer's original package. The ingredient cost for
181.33 a drug is either: (1) the lower of the National Average Drug Acquisition Cost (NADAC)
181.34 shall be used to determine the ingredient cost of a drug, or the Minnesota actual acquisition
181.35 cost (MNAAC) under paragraph (i); (2) the maximum allowable cost, if a drug ingredient

182.1 ~~cost is unreported in the NADAC and the MNAAC; or (3) for drugs for which a NADAC~~
182.2 ~~is not reported, the commissioner shall estimate the ingredient cost at the wholesale~~
182.3 ~~acquisition cost minus two percent, if a drug ingredient cost is unreported in the NADAC~~
182.4 ~~and the MNAAC and a maximum allowable cost is unavailable.~~ The ingredient cost of a
182.5 drug for a provider participating in the federal 340B Drug Pricing Program ~~shall be~~ is either:
182.6 (1) the lowest of the 340B Drug Pricing Program ceiling price established by the Health
182.7 Resources and Services Administration or, the NADAC, whichever is lower, or the MNAAC;
182.8 (2) the maximum allowable cost, if the 340B ceiling price is unknown and the drug ingredient
182.9 cost is unreported in the NADAC and the MNAAC; or (3) the wholesale acquisition cost
182.10 minus two percent, if the 340B ceiling price is unknown, the drug ingredient cost is
182.11 unreported in the NADAC and the MNAAC, and the maximum allowable cost is unavailable.
182.12 Wholesale acquisition cost is defined as the manufacturer's list price for a drug or biological
182.13 to wholesalers or direct purchasers in the United States, not including prompt pay or other
182.14 discounts, rebates, or reductions in price, for the most recent month for which information
182.15 is available, as reported in wholesale price guides or other publications of drug or biological
182.16 pricing data. The maximum allowable cost of a multisource drug may be set by the
182.17 commissioner and it shall be comparable to the actual acquisition cost of the drug product
182.18 ~~and no higher than the NADAC of the generic product.~~ Establishment of the amount of
182.19 payment for drugs shall not be subject to the requirements of the Administrative Procedure
182.20 Act.

182.21 (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using
182.22 an automated drug distribution system meeting the requirements of section 151.58, or a
182.23 packaging system meeting the packaging standards set forth in Minnesota Rules, part
182.24 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ
182.25 retrospective billing for prescription drugs dispensed to long-term care facility residents. A
182.26 retrospectively billing pharmacy must submit a claim only for the quantity of medication
182.27 used by the enrolled recipient during the defined billing period. A retrospectively billing
182.28 pharmacy must use a billing period not less than one calendar month or 30 days.

182.29 (c) A pharmacy provider using packaging that meets the standards set forth in Minnesota
182.30 Rules, part 6800.2700, is required to credit the department for the actual acquisition cost
182.31 of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective
182.32 billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that
182.33 is less than a 30-day supply.

182.34 (d) If a pharmacy dispenses a multisource drug, the ingredient cost ~~shall be the~~ is either:
182.35 (1) the lower of the NADAC or the MNAAC of the generic product or; (2) the maximum

allowable cost, if the generic product ingredient cost is unreported in the NADAC and the MNAAC; or (3) the wholesale acquisition cost minus two percent of the generic product established by the commissioner, if the generic drug ingredient cost is unreported in the NADAC and the MNAAC and a maximum allowable cost is unavailable, unless prior authorization for the brand name product has been granted according to the criteria established by the Drug Formulary Committee as required by subdivision 13f, paragraph (a), and the prescriber has indicated "dispense as written" on the prescription in a manner consistent with section 151.21, subdivision 2. If prior authorization is granted, the ingredient cost is either: (1) the lower of the NADAC or the MNAAC of the brand name product; (2) the maximum allowable cost, if the drug ingredient cost is unreported in the NADAC and MNAAC; or (3) the wholesale acquisition cost minus two percent, if the drug ingredient cost is unreported in the NADAC and the MNAAC and the maximum allowable cost is unavailable. A generic product includes a generic drug, an authorized generic drug, and a biosimilar biological product as defined in Code of Federal Regulations, title 42, section 423.4. A brand name product includes a brand name drug, a brand name biological product, and an unbranded biological product as defined in Code of Federal Regulations, title 42, section 423.4.

(e) The basis for determining the amount of payment for drugs administered in an outpatient setting ~~shall be~~ is the lower lowest of the usual and customary cost submitted by the provider, 106 percent of the average sales price as determined by the United States Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act, the ~~specialty pharmacy rate~~ MNAAC, or the maximum allowable cost set by the commissioner. If the average sales price is, the MNAAC, and the maximum allowable cost are unavailable, the amount of payment must be the lower of the usual and customary cost submitted by the provider, or the wholesale acquisition cost, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. The commissioner shall discount the payment rate for drugs obtained through the federal 340B Drug Pricing Program by 28.6 percent. The payment for drugs administered in an outpatient setting shall be made to the administering facility or practitioner. A retail or specialty pharmacy dispensing a drug for administration in an outpatient setting is not eligible for direct reimbursement.

~~(f) The commissioner may establish maximum allowable cost rates for specialty pharmacy products that are lower than the ingredient cost formulas specified in paragraph (a). The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are~~

184.1 ~~defined as those used by a small number of recipients or recipients with complex and chronic~~
184.2 ~~diseases that require expensive and challenging drug regimens. Examples of these conditions~~
184.3 ~~include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C,~~
184.4 ~~growth hormone deficiency, Crohn's Disease, rheumatoid arthritis, and certain forms of~~
184.5 ~~cancer. Specialty pharmaceutical products include injectable and infusion therapies,~~
184.6 ~~biotechnology drugs, antihemophilic factor products, high-cost therapies, and therapies that~~
184.7 ~~require complex care. The commissioner shall consult with the Formulary Committee to~~
184.8 ~~develop a list of specialty pharmacy products subject to maximum allowable cost~~
184.9 ~~reimbursement. In consulting with the Formulary Committee in developing this list, the~~
184.10 ~~commissioner shall take into consideration the population served by specialty pharmacy~~
184.11 ~~products, the current delivery system and standard of care in the state, and access to care~~
184.12 ~~issues. The commissioner shall have the discretion to adjust the maximum allowable cost~~
184.13 ~~to prevent access to care issues.~~

184.14 ~~(g)~~ (f) Home infusion therapy services provided by home infusion therapy pharmacies
184.15 must be paid at rates according to subdivision 8d.

184.16 ~~(h)~~ (g) The commissioner shall contract with a vendor to conduct a cost of dispensing
184.17 survey for all pharmacies that are physically located in the state of Minnesota that dispense
184.18 outpatient drugs under medical assistance. The commissioner shall ensure that the vendor
184.19 has prior experience in conducting cost of dispensing surveys. Each pharmacy enrolled with
184.20 the department to dispense outpatient prescription drugs to fee-for-service members must
184.21 respond to the cost of dispensing survey. The commissioner may sanction a pharmacy under
184.22 section 256B.064 for failure to respond. The commissioner shall require the vendor to
184.23 measure a single statewide cost of dispensing for specialty prescription drugs and a single
184.24 statewide cost of dispensing for nonspecialty prescription drugs for all responding pharmacies
184.25 to measure the mean, mean weighted by total prescription volume, mean weighted by
184.26 medical assistance prescription volume, median, median weighted by total prescription
184.27 volume, and median weighted by total medical assistance prescription volume. The
184.28 commissioner shall post a copy of the final cost of dispensing survey report on the
184.29 department's website. The initial survey must be completed no later than January 1, 2021,
184.30 and repeated every three years. The commissioner shall provide a summary of the results
184.31 of each cost of dispensing survey and provide recommendations for any changes to the
184.32 dispensing fee to the chairs and ranking minority members of the legislative committees
184.33 with jurisdiction over medical assistance pharmacy reimbursement. Notwithstanding section
184.34 256.01, subdivision 42, this paragraph does not expire.

185.1 ~~(f)~~ (h) The commissioner shall increase the ingredient cost reimbursement calculated in
185.2 paragraphs (a), (d), and ~~(f)~~ (e) by ~~1.8 percent~~ the amount of the wholesale drug distributor
185.3 tax under section 295.52 for prescription and nonprescription drugs subject to the ~~wholesale~~
185.4 ~~drug distributor tax under section 295.52.~~

185.5 (i) The commissioner shall contract with a vendor to create the MNAAC through a
185.6 periodic survey of enrolled pharmacy providers. The initial MNAAC must be completed
185.7 by January 1, 2027. Each pharmacy enrolled with the department to dispense outpatient
185.8 prescription drugs must respond to the periodic surveys. The commissioner may sanction
185.9 a pharmacy under section 256B.064 for failure to respond. The commissioner must exclude
185.10 drug purchases under the federal 340B Drug Pricing Program and Federal Supply Schedule
185.11 invoices from any measure and calculation of the MNAAC. The current MNAAC rates
185.12 must be publicly available on the department's or vendor's website. The commissioner must
185.13 require that the MNAAC is measured and calculated at least quarterly. The commissioner
185.14 must ensure that the vendor has an appeal process available to providers for the time between
185.15 the measurement and calculation of the periodically updated MNAAC rates if price
185.16 fluctuations result in a MNAAC that is lower than the price at which enrolled providers can
185.17 purchase a drug. Establishment of the MNAAC and survey reporting requirements are not
185.18 subject to the requirements of the Administrative Procedure Act. Data provided by
185.19 pharmacies for the measurement and calculation of the MNAAC are nonpublic data as
185.20 defined in section 13.02, subdivision 9.

185.21 **EFFECTIVE DATE.** This section is effective January 1, 2027, or upon federal approval,
185.22 whichever is later. The commissioner of human services must notify the revisor of statutes
185.23 when federal approval is obtained.

185.24 Sec. 6. Minnesota Statutes 2024, section 256B.064, subdivision 1a, as amended by Laws
185.25 2025, chapter 38, article 5, section 28, is amended to read:

185.26 Subd. 1a. **Grounds for sanctions.** (a) The commissioner may impose sanctions against
185.27 any individual or entity that receives payments from medical assistance or provides goods
185.28 or services for which payment is made from medical assistance for any of the following:

185.29 (1) fraud, theft, or abuse in connection with the provision of goods and services to
185.30 recipients of public assistance for which payment is made from medical assistance;

185.31 (2) a pattern of presentment of false or duplicate claims or claims for services not
185.32 medically necessary;

(3) a pattern of making false statements of material facts for the purpose of obtaining greater compensation than that to which the individual or entity is legally entitled;

(4) suspension or termination as a Medicare vendor;

(5) refusal to grant the state agency access during regular business hours to examine all records necessary to disclose the extent of services provided to program recipients and appropriateness of claims for payment;

(6) failure to repay an overpayment or a fine finally established under this section;

(7) failure to correct errors in the maintenance of health service or financial records for which a fine was imposed or after issuance of a warning by the commissioner; and

(8) any reason for which an individual or entity could be excluded from participation in the Medicare program under section 1128, 1128A, or 1866(b)(2) of the Social Security Act.

(b) For the purposes of this section, goods or services for which payment is made from medical assistance includes but is not limited to care and services identified in section 256B.0625 or provided pursuant to any federally approved waiver.

(c) Regardless of the source of payment or other item of value, the commissioner may impose sanctions against any individual or entity that solicits, receives, pays, or offers to pay any illegal remuneration as described in section 142E.51, subdivision 6a, in violation of section 609.542, subdivision 2, or in violation of United States Code, title 42, section 1320a-7b(b)(1) or (2). No conviction is required before the commissioner can impose sanctions under this paragraph.

(d) The commissioner may impose sanctions against a pharmacy provider for failure to respond to a cost of dispensing survey under section 256B.0625, subdivision 13e, paragraph ~~(h)~~ (g).

(e) The commissioner may impose sanctions against a pharmacy provider for failure to respond to a Minnesota drug acquisition cost survey under section 256B.0625, subdivision 13e, paragraph (i).

EFFECTIVE DATE. This section is effective January 1, 2027, or upon federal approval, whichever is later. The commissioner of human services must notify the revisor of statutes when federal approval is obtained.

Sec. 7. Minnesota Statutes 2024, section 256B.69, subdivision 6d, is amended to read:

Subd. 6d. **Prescription drugs.** (a) The commissioner may exclude or modify coverage for prescription drugs from the prepaid managed care contracts entered into under this

187.1 section in order to increase savings to the state by collecting additional prescription drug
187.2 rebates.

187.3 (b) The contracts must maintain incentives for the managed care plan to manage drug
187.4 costs and utilization and may require that the managed care plans maintain an open drug
187.5 formulary. In order to manage drug costs and utilization, the contracts may authorize the
187.6 managed care plans to use preferred drug lists and prior authorization. The contracts must
187.7 require that the managed care plans enter into contracts with the state's selected pharmacy
187.8 benefit manager vendor to administer the pharmacy benefit.

187.9 (c) This subdivision is contingent on federal approval of the managed care contract
187.10 changes and the collection of additional prescription drug rebates.

187.11 Sec. 8. Minnesota Statutes 2024, section 256B.69, is amended by adding a subdivision to
187.12 read:

187.13 Subd. 6i. **Directed pharmacy dispensing payment.** (a) The commissioner shall provide
187.14 a directed pharmacy dispensing payment of \$4.50 per filled prescription to eligible outpatient
187.15 retail pharmacies in Minnesota to improve and maintain access to pharmaceutical services
187.16 in rural and underserved areas of Minnesota. Managed care and county-based purchasing
187.17 plans delivering services under section 256B.69 or 256B.692, and any pharmacy benefit
187.18 managers under contract with these entities, must pay the directed pharmacy dispensing
187.19 payment to eligible outpatient retail pharmacies for drugs dispensed to medical assistance
187.20 enrollees. The directed pharmacy dispensing payment is in addition to, and must not supplant
187.21 or reduce, any other dispensing fee paid by these entities to the pharmacy. Entities paying
187.22 the directed pharmacy dispensing payment must not reduce other payments to the pharmacy
187.23 as a result of payment of the directed pharmacy dispensing payment.

187.24 (b) For purposes of this subdivision, "eligible outpatient retail pharmacy" means an
187.25 outpatient retail pharmacy licensed under chapter 151 that is not owned, either directly or
187.26 indirectly or through an affiliate or subsidiary, by a pharmacy benefit manager licensed
187.27 under chapter 62W or a health carrier, as defined in section 62A.011, subdivision 2, and
187.28 that:

187.29 (1) is located in a medically underserved area or primarily serves a medically underserved
187.30 population, as defined by the United States Department of Health and Human Services
187.31 Health Resources and Services Administration under United States Code, title 42, section
187.32 254; or

187.33 (2) shares common ownership with 13 or fewer Minnesota pharmacies.

(c) In order to receive the directed pharmacy dispensing payment, a pharmacy must submit to the commissioner a form, developed by the commissioner, attesting that the pharmacy meets the requirements of paragraph (b).

(d) Managed care and county-based purchasing plans, and any pharmacy benefit managers under contract with these entities, shall pay the directed pharmacy dispensing payment to eligible outpatient retail pharmacies. The commissioner shall monitor the effect of this requirement on access to pharmaceutical services in rural and underserved areas of Minnesota. If, for any contract year, federal approval is not received for this subdivision, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect removal of this subdivision. Contracts between managed care plans and county-based purchasing plans, and any pharmacy benefit managers under contract with these entities, and providers to whom this subdivision applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this subdivision. This subdivision expires if federal approval is not received for this subdivision at any time.

(e) This subdivision expires on December 31, 2026.

EFFECTIVE DATE. This section is effective July 1, 2025, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

(c) "Managed care organizations" means health plan companies and county-based purchasing organizations providing coverage to medical assistance and MinnesotaCare enrollees under the managed care delivery system.

223.1 utilization review organization changes coverage terms for a health care service or the
223.2 clinical criteria used to conduct prior authorizations for a health care service, the change in
223.3 coverage terms or change in clinical criteria shall not apply until the next plan year, or the
223.4 next calendar year for fee-for-service providers under chapters 256B and 256L, for any
223.5 enrollee who received prior authorization for a health care service using the coverage terms
223.6 or clinical criteria in effect before the effective date of the change.

223.7 (b) Paragraph (a) does not apply if a utilization review organization changes coverage
223.8 terms for a drug or device that has been deemed unsafe by the United States Food and Drug
223.9 Administration (FDA); that has been withdrawn by either the FDA or the product
223.10 manufacturer; or when an independent source of research, clinical guidelines, or
223.11 evidence-based standards has issued drug- or device-specific warnings or recommended
223.12 changes in drug or device usage.

223.13 (c) Paragraph (a) does not apply if a utilization review organization changes coverage
223.14 terms for a service or the clinical criteria used to conduct prior authorizations for a service
223.15 when an independent source of research, clinical guidelines, or evidence-based standards
223.16 has recommended changes in usage of the service for reasons related to patient harm. This
223.17 paragraph expires December 31, 2025, for health benefit plans offered, sold, issued, or
223.18 renewed on or after that date.

223.19 (d) Effective January 1, 2026, and applicable to health benefit plans offered, sold, issued,
223.20 or renewed on or after that date, paragraph (a) does not apply if a utilization review

223.23 or evidence-based standards has recommended changes in usage of the service for reasons
223.24 related to previously unknown and imminent patient harm.

223.25 (e) Paragraph (a) does not apply if a utilization review organization removes a brand
223.26 name drug from its formulary or places a brand name drug in a benefit category that increases

224.2 commissioners of transportation and public safety shall cooperate in the enforcement of
224.3 this section and sections 299A.11 to 299A.17 so that a single inspection is sufficient to
224.4 ascertain compliance with sections 299A.11 to 299A.17 and with the standards adopted
224.5 under this section. Representatives of the Department of Transportation may inspect
224.6 wheelchair securement devices in vehicles operated by special transportation service
224.7 providers to determine compliance with sections 299A.11 to 299A.17 and to issue certificates
224.8 under section 299A.14, subdivision 4.

224.9 (b) In place of a certificate issued under section 299A.14, the commissioner may issue

224.11 the device complies with sections 299A.11 to 299A.17 and the decal displays the information
224.12 in section 299A.14, subdivision 4.

224.13 (c) For vehicles designated as protected transport under section 256B.0625, subdivision
224.14 17, paragraph ~~(h)~~ (n), the commissioner of transportation, during the commissioner's

- 225.8 annual assessment amount equal to the sum of the following:
- 225.9 (1) \$120.22 multiplied by total patient days; and
- 225.10 (2) 5.96 percent of the hospital's net outpatient revenue.
- 225.11 (c) The assessment amount for calendar years 2026 and 2027 must be based on the total
- 225.12 patient days and net outpatient revenue reflected on an eligible hospital's Medicare cost
- 225.13 report as follows:
- 225.14 (1) an eligible hospital with a fiscal year ending on March 31 or June 30 must use data
- 225.15 from a cost report from the hospital's fiscal year 2022; and
- 225.16 (2) an eligible hospital with a fiscal year ending on September 30 or December 31 must

- 225.19 period and must be based on the total patient days and net outpatient revenue reflected on
- 225.20 an eligible hospital's most recent Medicare cost report filed and showing in HCRIS as of
- 225.21 August 1 of the year prior to the subsequent two-year period.
- 225.22 (e) The commissioner may, after consultation with the Minnesota Hospital Association,
- 225.23 modify the rates of assessment in paragraph (b) as necessary to comply with federal law,
- 225.24 obtain or maintain a waiver under Code of Federal Regulations, title 42, section 433.72, or
- 225.25 otherwise maximize under this section federal financial participation for medical assistance.
- 225.26 Notwithstanding the foregoing authorization to maximize federal financial participation for
- 225.27 medical assistance, the commissioner must reduce the rates of assessment in paragraph (b)
- 225.28 as necessary to ensure:
- 225.29 (1) the state's aggregated health care-related taxes on inpatient hospital services do not
- 225.30 exceed 5.75 percent of the net patient revenue attributable to those services; and

226.1 (2) the state's aggregated health care-related taxes on outpatient hospital services do not
226.2 exceed 5.75 percent of the net patient revenue attributable to those services.

226.3 (f) Eligible hospitals must pay the annual assessment amount under paragraph (b) to the
226.4 commissioner by paying four equal, quarterly assessments. Eligible hospitals must pay the
226.5 quarterly assessments by January 1, April 1, July 1, and October 1 each year. Assessments
226.6 must be paid in the form and manner specified by the commissioner. An eligible hospital
226.7 is prohibited from paying a quarterly assessment until the eligible hospital has received the
226.8 applicable invoice under paragraph (g).

226.9 (g) The commissioner must provide eligible hospitals with an invoice by December 1
226.10 for the assessment due January 1, March 1 for the assessment due April 1, June 1 for the
226.11 assessment due July 1, and September 1 for the assessment due October 1 each year.

226.12 (h) The commissioner must notify each eligible hospital of the hospital's estimated annual
226.13 assessment amount for the subsequent calendar year by October 15 each year.

226.14 (i) If any of the dates for assessments or invoices in paragraphs (f) to (h) fall on a holiday,
226.15 the applicable date is the next business day.

226.16 (j) A hospital that has merged with another hospital must have the surviving hospital's
226.17 assessment revised at the start of the hospital's first full fiscal year after the merger is
226.18 complete. A closed hospital is retroactively responsible for assessments owed for services
226.19 provided through the final date of operations.

226.20 (k) If the commissioner determines that a hospital has underpaid or overpaid an
226.21 assessment, the commissioner must notify the hospital of the unpaid assessment or of any
226.22 refund due. The commissioner must refund a hospital's overpayment from the hospital
226.23 directed payment program account created in section 256B.1975, subdivision 1.

226.24 (l) Revenue from an assessment under this subdivision must only be used by the
226.25 commissioner to pay the nonfederal share of the directed payment program under section
226.26 256B.1974.

226.27 (m) The commissioner is prohibited from collecting any assessment under this subdivision
226.28 during any period of time when:

226.29 (1) federal financial participation is unavailable or disallowed, or if the approved
226.30 aggregate federal financial participation for the directed payment under section 256B.1974
226.31 is less than 51 percent; or

226.32 (2) a directed payment under section 256B.1974 is not approved by the Centers for
226.33 Medicare and Medicaid Services.

227.1 (n) The commissioner must make the following discounts from the inpatient portion of
227.2 the assessment under paragraph (b), clause (1), in the stated amount or as necessary to
227.3 achieve federal approval of the assessment in this section:

227.4 (1) Hennepin Healthcare, with a discount of 25 percent;

227.5 (2) Mayo Rochester, with a discount of ten percent;

227.6 (3) Gillette Children's Hospital, with a discount of 90 percent;

227.7 (4) each hospital not included in another discount category, and with greater than
227.8 \$200,000,000 in total medical assistance inpatient and outpatient revenue in fee-for-service
227.9 and managed care, as reported in state fiscal year 2022 medical assistance fee-for-service
227.10 and managed care claims data, with a discount of five percent; and

227.11 (5) any hospital responsible for greater than 12 percent of the total assessment annually
227.12 collected statewide, with a discount in the amount necessary such that the hospital is
227.13 responsible for 12 percent of the total assessment annually collected statewide.

227.14 (o) The commissioner must make the following discounts from the outpatient portion

227.22 (5) each hospital not included in another discount category, and with greater than
227.23 \$200,000,000 in total medical assistance inpatient and outpatient revenue in fee-for-service
227.24 and managed care, as reported in state fiscal year 2022 medical assistance fee-for-service
227.25 and managed care claims data, with a discount of ten percent.

227.26 (p) If the federal share of the hospital directed payment program under section 256B.1974
227.27 is increased as the result of an increase to the federal medical assistance percentage, the
227.28 commissioner must reduce the assessment on a uniform percentage basis across eligible
227.29 hospitals on which the assessment is imposed, such that the aggregate amount collected
227.30 from hospitals under this subdivision does not exceed the total amount needed to maintain
227.31 the same aggregate state and federal funding level for the directed payments authorized by
227.32 section 256B.1974.

228.1 (q) Eligible hospitals must submit to the commissioner on an annual basis, in the form

228.16 (d), clause (6), the commissioner shall reduce the amount calculated under subdivision 9,
228.17 paragraph (d), clause (6), by 99 percent and compute an alternate inpatient payment rate.
228.18 The alternate payment rate shall be structured to target a total aggregate reimbursement
228.19 amount equal to what the hospital would have received for providing fee-for-service inpatient
228.20 services under this section to patients enrolled in medical assistance had the hospital received
228.21 the entire amount calculated under subdivision 9, paragraph (d), clause (6). This paragraph
228.22 expires when paragraph (b) becomes effective.

239.32 signed by the medical provider or client, whichever is deemed most appropriate, attesting
239.33 to mileage traveled to obtain covered medical services. Clients requesting client mileage

240.1 reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
240.2 services.

240.3 ~~(k)~~ (m) The administrative agency shall use the level of service process established by
240.4 the commissioner to determine the client's most appropriate mode of transportation. If public
240.5 transit or a certified transportation provider is not available to provide the appropriate service

240.17 by a nonemergency medical transportation provider;

240.18 (5) lift-equipped/ramp transport, which includes transport provided to a client who is
240.19 dependent on a device and requires a nonemergency medical transportation provider with
240.20 a vehicle containing a lift or ramp;

240.21 (6) protected transport, which includes transport provided to a client who has received
240.22 a prescreening that has deemed other forms of transportation inappropriate and who requires
240.23 a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety
240.24 locks, a video recorder, and a transparent thermoplastic partition between the passenger and
240.25 the vehicle driver; and (ii) who is certified as a protected transport provider; and

240.26 (7) stretcher transport, which includes transport for a client in a prone or supine position
240.27 and requires a nonemergency medical transportation provider with a vehicle that can transport
240.28 a client in a prone or supine position.

240.29 ~~(m)~~ (o) The local agency shall be the single administrative agency and shall administer
240.30 and reimburse for modes defined in paragraph ~~(h)~~ (n) according to paragraphs ~~(p)~~ and ~~(q)~~

240.33 subdivision 18e. The local agency's financial obligation is limited to funds provided by the

241.1 state or federal government. This paragraph expires July 1, 2026, for medical assistance
241.2 fee-for-service and January 1, 2027, for prepaid medical assistance.

241.5 (2) verify that the client is going to an approved medical appointment; and

241.6 (3) investigate all complaints and appeals.

241.7 ~~(o)~~ (q) The administrative agency shall pay for the services provided in this subdivision
241.8 and seek reimbursement from the commissioner, if appropriate. As vendors of medical care,
241.9 local agencies are subject to the provisions in section 256B.041, the sanctions and monetary
241.10 recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.
241.11 This paragraph expires July 1, 2026, for medical assistance fee-for-service and January 1,
241.12 2027, for prepaid medical assistance.

241.13 ~~(p)~~ (r) Payments for nonemergency medical transportation must be paid based on the

241.15 service. The medical assistance reimbursement rates for nonemergency medical transportation
241.16 services that are payable by or on behalf of the commissioner for nonemergency medical
241.17 transportation services are:

241.22 transit, and \$12.10 for the base rate and \$1.43 per mile when provided by a nonemergency
241.23 medical transportation provider;

241.24 (4) \$14.30 for the base rate and \$1.43 per mile for assisted transport;

241.25 (5) \$19.80 for the base rate and \$1.70 per mile for lift-equipped/ramp transport;

241.26 (6) \$75 for the base rate and \$2.40 per mile for protected transport; and

241.27 (7) \$60 for the base rate and \$2.40 per mile for stretcher transport, and \$9 per trip for

241.29 for medical assistance fee-for-service and January 1, 2027, for prepaid medical assistance.

241.30 (s) Effective July 1, 2026, for medical assistance fee-for-service and January 1, 2027,
241.31 for prepaid medical assistance, payments for nonemergency medical transportation must

242.11 assistance fee-for-service and January 1, 2027, for prepaid medical assistance.

242.12 ~~(r)~~ (u) For purposes of reimbursement rates for nonemergency medical transportation
242.13 services under paragraphs ~~(p)~~ and ~~(q)~~ (r) to (t), the zip code of the recipient's place of
242.14 residence shall determine whether the urban, rural, or super rural reimbursement rate applies.
242.15 This paragraph expires July 1, 2026, for medical assistance fee-for-service and January 1,
242.16 2027, for prepaid medical assistance.

242.17 ~~(s)~~ (v) The commissioner, when determining reimbursement rates for nonemergency
242.18 medical transportation under paragraphs ~~(p)~~ and ~~(q)~~, shall exempt all modes of transportation
242.19 listed under paragraph ~~(t)~~ (n) from Minnesota Rules, part 9505.0445, item R, subitem (2).

242.21 as posted publicly by the United States Energy Information Administration exceeds \$3.00
242.22 per gallon, the commissioner shall adjust the rate paid per mile in paragraph ~~(p)~~ (r) by one
242.23 percent up or down for every increase or decrease of ten cents for the price of gasoline. The
242.24 increase or decrease must be calculated using a base gasoline price of \$3.00. The percentage
242.25 increase or decrease must be calculated using the average of the most recently available
242.26 price of all grades of gasoline for Minnesota as posted publicly by the United States Energy
242.27 Information Administration. This paragraph expires July 1, 2026, for medical assistance
242.28 fee-for-service and January 1, 2027, for prepaid medical assistance.

244.15 (g) Effective for services provided on or after January 1, 2021, all claims for payment
244.16 of clinic services provided by FQHCs and rural health clinics shall be paid by the
244.17 commissioner, according to an annual election by the FQHC or rural health clinic, under
244.18 the current prospective payment system described in paragraph (f) or the alternative payment
244.19 methodology described in paragraph (l), or, upon federal approval, for FQHCs that are also
244.20 urban Indian organizations under Title V of the federal Indian Health Improvement Act, as

245.8 (2) FQHCs and rural health clinics submit claims for recipients enrolled in a managed
245.9 care or county-based purchasing plan to the plan, and those claims are submitted by the

(5) the initial applicable base year organization encounter rates for FQHCs and rural health clinics shall be computed for services delivered on or after January 1, 2021, and:

(i) must be determined using each FQHC's and rural health clinic's Medicare cost reports from 2017 and 2018;

248.3 to the tax required to be paid according to section 295.52, if applicable;

248.4 (9) FQHCs and rural health clinics may submit change of scope requests to the
248.5 commissioner if the change of scope would result in an increase or decrease of 2.5 percent
248.6 or higher in the medical or dental organization encounter rate currently received by the
248.7 FQHC or rural health clinic;

248.8 (10) for FQHCs and rural health clinics seeking a change in scope with the commissioner

248.10 Resources Services Administration:

248.11 (i) FQHCs and rural health clinics shall submit the change of scope request, including
248.12 the start date of services, to the commissioner within seven business days of submission of
248.13 the scope change to the federal Health Resources Services Administration;

248.17 later; and

248.18 (iii) within 45 days of one year after the effective date established in item (ii), the
248.19 commissioner shall conduct a retroactive review to determine if the actual costs established
248.20 under clause (3) or encounters result in an increase or decrease of 2.5 percent or higher in
248.21 the medical or dental organization encounter rate, and if this is the case, the commissioner
248.22 shall revise the rate accordingly and shall adjust payments retrospectively to the effective
248.23 date established in item (ii);

248.26 commissioner before implementing the change, and the effective date of the change is the
248.27 date the commissioner received the FQHC's or rural health clinic's request, or the effective
248.28 start date of the service, whichever is later. The commissioner shall provide a response to
248.29 the FQHC's or rural health clinic's request within 45 days of submission and provide a final
248.30 approval within 120 days of submission. This timeline may be waived at the mutual
248.31 agreement of the commissioner and the FQHC or rural health clinic if more information is
248.32 needed to evaluate the request;

248.33 (12) the commissioner, when establishing organization encounter rates for new FQHCs
248.34 and rural health clinics, shall consider the patient caseload of existing FQHCs and rural

249.1 health clinics in a 60-mile radius for organizations established outside of the seven-county
249.2 metropolitan area, and in a 30-mile radius for organizations in the seven-county metropolitan
249.3 area. If this information is not available, the commissioner may use Medicare cost reports
249.4 or audited financial statements to establish base rates;

249.6 for FQHCs and rural health clinics resulting from a merger of existing clinics or the
249.7 acquisition of an existing clinic by another existing clinic, must use the combined costs and
249.8 caseloads from the clinics participating in the merger or acquisition to set the encounter rate
249.9 for the new clinic organization resulting from the merger or acquisition. The scope of services
249.10 for the newly formed clinic must be inclusive of the scope of services of the clinics
249.11 participating in the merger or acquisition;

249.12 ~~(13)~~ (14) the commissioner shall establish a quality measures workgroup that includes
249.13 representatives from the Minnesota Association of Community Health Centers, FQHCs,
249.14 and rural health clinics, to evaluate clinical and nonclinical measures; and

249.15 ~~(14)~~ (15) the commissioner shall not disallow or reduce costs that are related to an
249.16 FQHC's or rural health clinic's participation in health care educational programs to the extent
249.17 that the costs are not accounted for in the alternative payment methodology encounter rate
249.18 established in this paragraph.

249.19 (m) Effective July 1, 2023, an enrolled Indian health service facility or a Tribal health
249.20 center operating under a 638 contract or compact may elect to also enroll as a Tribal FQHC.

249.22 a Tribal FQHC enrolled under this paragraph, except that any requirements necessary to
249.23 comply with federal regulations do apply to a Tribal FQHC. The commissioner shall establish
249.24 an alternative payment method for a Tribal FQHC enrolled under this paragraph that uses
249.25 the same method and rates applicable to a Tribal facility or health center that does not enroll
249.26 as a Tribal FQHC.

249.27 (n) FQHC reimbursement for mental health targeted case management services is limited
249.28 to:

249.29 (1) only those services described under subdivision 20 and provided in accordance with
249.30 contracts executed with counties authorized to subcontract for mental health targeted case
249.31 management services; and

249.32 (2) an FQHC's actual incurred costs as separately reported on the cost report submitted
249.33 to the Centers for Medicare and Medicaid Services and further identified in reports submitted
249.34 to the commissioner.

(o) Counties contracting with FQHCs for mental health targeted case management remain responsible for the nonfederal share of the cost of the provided mental health targeted case management services. The commissioner must bill each county for the nonfederal share of the mental health targeted case management costs as reported by the FQHC.

The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 20. Minnesota Statutes 2024, section 256B.1973, subdivision 5, is amended to read:

Subd. 5. Commissioner's duties; state-directed fee schedule requirement. (a) For each federally approved directed payment arrangement under this section that is a state-directed fee schedule requirement, the commissioner shall determine a uniform adjustment factor to be applied to each claim submitted by an eligible provider to a health plan. The uniform adjustment factor shall be determined using the average commercial payer rate or using another method acceptable to the Centers for Medicare and Medicaid Services if the average commercial payer rate is not approved, minus the amount necessary for the plan to satisfy tax liabilities under sections 256.9657 and 297I.05 attributable to the directed payment arrangement. The commissioner shall ensure that the application of the uniform adjustment factor maximizes the allowable directed payments and does not result in payments exceeding federal limits, and may use an annual settle-up process. The directed payment ~~shall~~ may be specific to each health plan and prospectively incorporated into capitation payments for that plan.

(b) For each federally approved directed payment arrangement that is a state-directed fee schedule requirement, the commissioner shall develop a plan for the initial implementation of the state-directed fee schedule requirement to ensure that the eligible provider receives the entire permissible value of the federally approved directed payment

255.1 arrangement. If federal approval of a directed payment arrangement under this subdivision
255.2 is retroactive, the commissioner shall make a onetime pro rata increase to the uniform
255.3 adjustment factor and the initial payments in order to include claims submitted between the
255.4 retroactive federal approval date and the period captured by the initial payments.

255.5 Sec. 21. Minnesota Statutes 2024, section 256B.1973, is amended by adding a subdivision
255.6 to read:

255.7 Subd. 9. **Interaction with other directed payments.** An eligible provider under
255.8 subdivision 3 may participate in the hospital directed payment program under section
255.9 256B.1974 for inpatient hospital services, outpatient hospital services, or both. A provider
255.10 participating in the hospital directed payment program must not receive a directed payment
255.11 under this section for any provider classes paid via the hospital directed payment program.
255.12 A hospital subject to this section must notify the commissioner in writing no later than 30
255.13 days after enactment of this subdivision of the hospital's intention to participate in the
255.14 hospital directed payment program under section 256B.1974 for inpatient hospital services,
255.15 outpatient hospital services, or both. The election under this subdivision is a onetime election,
255.16 except that if an eligible provider elects to participate in the hospital directed payment
255.17 program, and the hospital directed payment program expires or is not federally approved,
255.18 the eligible provider may subsequently elect to participate in the directed payment under
255.19 this section.

255.20 **EFFECTIVE DATE.** (a) This section is effective on the later of January 1, 2026, or
255.21 federal approval of all of the following:

255.22 (1) the waiver for the assessment required under Minnesota Statutes, section 256.9657,
255.23 subdivision 2b; and

255.24 (2) the hospital directed payment program under Minnesota Statutes, section 256B.1974.

255.25 (b) The commissioner of human services shall notify the revisor of statutes when federal
255.26 approval is obtained.

255.27 Sec. 22. **[256B.1974] HOSPITAL DIRECTED PAYMENT PROGRAM.**

255.28 Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have
255.29 the meanings given.

255.30 (b) "Eligible hospital" has the meaning given in section 256.9657, subdivision 2b,
255.31 paragraph (a), clause (1).

256.1 (c) "Health plan" means a managed care plan or county-based purchasing plan that is
256.2 under contract with the commissioner to deliver services to medical assistance enrollees
256.3 under section 256B.69 or 256B.692.

256.4 Subd. 2. **Required conditions for program.** The hospital directed payment program
256.5 must conform with the requirements for permissible directed managed care organization
256.6 expenditures under section 256B.6928, subdivision 5.

256.7 Subd. 3. **Commissioner's duties; state-directed fee schedule requirement.** (a) For
256.8 each federally approved directed payment program that is a state-directed fee schedule
256.9 requirement that includes a quarterly payment amount to be submitted by each health plan
256.10 to each eligible hospital, the commissioner must determine the quarterly payment amount
256.11 using the statewide average commercial payer rate, or using another method acceptable to
256.12 the Centers for Medicare and Medicaid Services if the statewide average commercial payer
256.13 rate is not approved. The commissioner must ensure that the application of the quarterly
256.14 payment amounts maximizes the amount generated by the hospital assessment in section
256.15 256.9657, subdivision 2b, for allowable directed payments and does not result in payments
256.16 exceeding federal limits.

256.17 (b) The commissioner must use an annual settle-up process to determine the accuracy
256.18 of the amounts paid by the commissioner to health plans for directed payments to hospitals
256.19 under this section. The commissioner's settle-up determination must occur within one year
256.20 of the payment of the applicable amounts to health plans. If the commissioner determines
256.21 the amount paid to a health plan exceeds or is less than the amount required under this
256.22 section, the commissioner must pay an additional amount to the health plan for directed
256.23 payments to hospitals or require a refund from the health plan for an overpayment. Any
256.24 additional amount required to be paid by the commissioner to a health plan, or any refund
256.25 to the commissioner from a health plan, must be paid by the immediately following April
256.26 1. Additional amounts received by a health plan under this paragraph must be paid to the
256.27 eligible hospital in accordance with this section. Any refund amount the commissioner
256.28 determines is owed by a health plan under this paragraph must be paid back by the eligible
256.29 hospital in accordance with this section.

256.30 (c) On and after January 1, 2028, if the federal regulations set forth in Code of Federal
256.31 Regulations, title 42, parts 430, 438, and 457, and applicable to this section remain effective,
256.32 the hospital directed payment program may be specific to each health plan and prospectively
256.33 incorporated into capitation payments for that plan.

(d) For each federally approved directed payment program under this section that is a state-directed fee schedule requirement, the commissioner must develop a plan for the initial implementation of the state-directed fee schedule requirement to ensure that eligible hospitals receive the entire permissible value of the federally approved directed payment.

(e) Directed payments under this section must only be used to supplement, and not supplant, medical assistance reimbursement to eligible hospitals. The directed payment program must not modify, reduce, or offset the medical assistance payment rates determined for each eligible hospital as required by section 256.969.

(f) The commissioner must require health plans to make quarterly directed payments according to this section.

(g) Health plans must make quarterly directed payments using electronic funds transfers, if the eligible hospital provides the information necessary to process such transfers, and in accordance with directions provided by the commissioner. Health plans must make quarterly directed payments:

(1) for the first two quarters for which such payments are due, within 30 calendar days of the date the commissioner issued sufficient payments to the health plan to make the directed payments according to this section; and

(2) for all subsequent quarters, within ten calendar days of the date the commissioner issued sufficient payments to the health plan to make the directed payments according to this section.

(h) The commissioner of human services must publish on the Department of Human Services website, on a quarterly basis, the dates that the health plans completed their required quarterly payments under this section.

(i) Payments to health plans that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this section must not be reduced as a result of this section.

(j) The commissioner must publish all directed payments resulting from this section owed to each eligible hospital from each health plan on the Department of Human Services website for at least two years. All calculations and reports must be posted no later than the first day of the quarter for which the payments are to be issued.

(k) By December 1 each year, the commissioner must notify each eligible hospital of any changes to the payment methodologies in this section, including but not limited to changes in the directed payment rates, the aggregate directed payment amount for all eligible

258.1 hospitals, and the eligible hospital's directed payment amount for the upcoming calendar
258.2 year.

258.3 (l) The commissioner must pay the amounts to be used for the directed payments to
258.4 health plans under contract no later than January 1, April 1, July 1, and October 1 each year.

258.5 (m) A hospital is not entitled to payments under this section unless it is an eligible
258.6 hospital. An eligible hospital that has merged with another hospital must have the surviving
258.7 hospital's payments under this section revised at the start of the hospital's first full fiscal
258.8 year after the merger is complete. A closed eligible hospital is entitled to the payments under
258.9 this section for services provided through the final date of operations.

258.10 Subd. 4. **Health plan duties; submission of claims.** Each health plan must submit to
258.11 the commissioner, in accordance with its contract with the commissioner to serve as a
258.12 managed care organization in medical assistance, payment information for each claim paid
258.13 to an eligible hospital for services provided to a medical assistance enrollee. Health plans
258.14 must allow each eligible hospital to review the health plan's own paid claims detail to enable
258.15 proper validation that the medical assistance managed care claims volume and content is
258.16 consistent with the eligible hospital's internal records. To support the validation process for
258.17 the directed payment program, health plans must permit the commissioner to share inpatient
258.18 and outpatient claims-level details with eligible hospitals identifying only those claims
258.19 where the prepaid medical assistance program under section 256B.69 or 256B.692 is the
258.20 payer source. Eligible hospitals may request claims-level detail once annually and must
258.21 provide notice of discrepancies in claims paid to the commissioner in a form determined
258.22 by the commissioner. The commissioner is authorized to determine the final disposition of
258.23 the validation process for disputed claims.

258.24 Subd. 5. **Health plan duties; directed payment add-on.** (a) Each health plan must
258.25 make, in accordance with its contract with the commissioner to serve as a managed care
258.26 organization in medical assistance, a directed payment to each eligible hospital. The amount
258.27 of the directed payment to the eligible hospital must be equal to the payment amounts the
258.28 plan received from the commissioner for the hospital under this section.

258.29 (b) Health plans are prohibited from:

258.30 (1) setting, establishing, or negotiating reimbursement rates with an eligible hospital in
258.31 a manner that directly or indirectly takes into account a directed payment that a hospital
258.32 receives under this section;

258.33 (2) unnecessarily delaying a directed payment to an eligible hospital; or

259.1 (3) recouping or offsetting a directed payment for any reason, except as expressly
259.2 authorized by the commissioner.

259.3 Subd. 6. **Hospital duties; quarterly supplemental directed payment add-on.** (a) An
259.4 eligible hospital receiving a directed payment under this section is prohibited from:

259.5 (1) setting, establishing, or negotiating reimbursement rates with a managed care
259.6 organization in a manner that directly or indirectly takes into account a directed payment
259.7 that an eligible hospital receives under this section; or

259.8 (2) directly passing on the cost of an assessment to patients or nonmedical assistance
259.9 payers, including as a fee or rate increase.

259.10 (b) An eligible hospital that violates this subdivision is prohibited from receiving a
259.11 directed payment under this section for the remainder of the calendar year. This subdivision
259.12 does not prohibit an eligible hospital from negotiating with a payer for a rate increase.

259.13 Subd. 7. **State minimum policy goals established.** (a) The effect of the directed
259.14 payments under this section must align with the state's policy goals for medical assistance
259.15 enrollees. The directed payments must be used to maintain quality and access to a full range
259.16 of health care delivery mechanisms for medical assistance enrollees, and specifically provide
259.17 improvement for one of the following quality measures:

259.18 (1) overall well child visit rates;

259.19 (2) maternal depression screening rates; or

259.20 (3) colon cancer screening rates.

259.21 (b) The commissioner, in consultation with the Minnesota Hospital Association, must
259.22 submit to the Centers for Medicare and Medicaid Services quality measures performance
259.23 evaluation criteria and a methodology to regularly measure access to care and the
259.24 achievement of state policy goals described in this subdivision.

259.25 (c) The quality measures evaluation data, as determined by paragraph (b), must be
259.26 reported to the Centers for Medicare and Medicaid Services after at least 12 months of
259.27 directed payments to hospitals.

259.28 Subd. 8. **Administrative review.** Before making the payments required under this
259.29 section, and on at least an annual basis, the commissioner must consult with and provide
259.30 for review of the payment amounts by a permanent select committee established by the
259.31 Minnesota Hospital Association. Any data or information reviewed by members of the

260.1 committee are data not on individuals, as defined in section 13.02. The committee's members
260.2 may not include any current employee or paid consultant of any hospital.

260.3 **EFFECTIVE DATE.** (a) This section is effective the later of January 1, 2026, or federal
260.4 approval of all of the following:

260.5 (1) the waiver for the assessment required under Minnesota Statutes, section 256.9657,
260.6 subdivision 2b; and

260.7 (2) the hospital directed payment program under this section and any conforming changes
260.8 to the directed payment program under Minnesota Statutes, section 256B.1973.

260.9 (b) The commissioner of human services shall notify the revisor of statutes when federal
260.10 approval is obtained.

260.11 Sec. 23. **[256B.1975] HOSPITAL DIRECTED PAYMENT PROGRAM ACCOUNT.**

260.12 Subdivision 1. **Account established; appropriation.** (a) The hospital directed payment
260.13 program account is created in the special revenue fund in the state treasury.

260.14 (b) Money in the account, including interest earned, is annually appropriated to the
260.15 commissioner of human services for the purposes specified in section 256B.1974.

260.16 (c) Transfers from this account to another fund are prohibited, except as necessary to
260.17 make the payments required under section 256B.1974.

260.18 Subd. 2. **Reports to the legislature.** By January 15, 2027, and each January 15 thereafter,
260.19 the commissioner must submit a report to the chairs and ranking minority members of the
260.20 legislative committees with jurisdiction over health and human services policy and finance
260.21 that details the activities and uses of money in the hospital directed payment program
260.22 account, including the metrics and outcomes of the policy goals established by section
260.23 256B.1974, subdivision 7.

260.24 **EFFECTIVE DATE.** (a) This section is effective on the later of January 1, 2026, or
260.25 federal approval of all of the following:

260.26 (1) the waiver for the assessment required under Minnesota Statutes, section 256.9657,
260.27 subdivision 2b; and

260.28 (2) the hospital directed payment program under Minnesota Statutes, section 256B.1974,
260.29 and any conforming changes to the directed payment program under Minnesota Statutes,
260.30 section 256B.1973.

261.1 (b) The commissioner of human services shall notify the revisor of statutes when federal
261.2 approval is obtained.

261.3 Sec. 24. Minnesota Statutes 2024, section 256B.69, subdivision 3a, is amended to read:

261.4 Subd. 3a. **County authority.** (a) The commissioner, when implementing the medical
261.5 assistance prepayment program within a county, must include the county board in the process
261.6 of development, approval, and issuance of the request for proposals to provide services to
261.7 eligible individuals within the proposed county. County boards must be given reasonable
261.8 opportunity to make recommendations regarding the development, issuance, review of
261.9 responses, and changes needed in the request for proposals. The commissioner must provide
261.10 county boards the opportunity to review each proposal based on the identification of
261.11 community needs under chapters 142F and 145A and county advocacy activities. If a county
261.12 board finds that a proposal does not address certain community needs, the county board and
261.13 commissioner shall continue efforts for improving the proposal and network prior to the
261.14 approval of the contract. The county board shall make recommendations regarding the
261.15 approval of local networks and their operations to ensure adequate availability and access
261.16 to covered services. The provider or health plan must respond directly to county advocates
261.17 and the state prepaid medical assistance ombudsperson regarding service delivery and must
261.18 be accountable to the state regarding contracts with medical assistance funds. The county
261.19 board may recommend a maximum number of participating health plans after considering
261.20 the size of the enrolling population; ensuring adequate access and capacity; considering the
261.21 client and county administrative complexity; and considering the need to promote the
261.22 viability of locally developed health plans. The county board or a single entity representing
261.23 a group of county boards and the commissioner shall mutually select health plans for
261.24 participation at the time of initial implementation of the prepaid medical assistance program
261.25 in that county or group of counties and at the time of contract renewal. The commissioner
261.26 shall also seek input for contract requirements from the county or single entity representing
261.27 a group of county boards at each contract renewal and incorporate those recommendations
261.28 into the contract negotiation process.

261.29 (b) At the option of the county board, the board may develop contract requirements
261.30 related to the achievement of local public health goals to meet the health needs of medical
261.31 assistance enrollees. These requirements must be reasonably related to the performance of
261.32 health plan functions and within the scope of the medical assistance benefit set. If the county
261.33 board and the commissioner mutually agree to such requirements, the department shall
261.34 include such requirements in all health plan contracts governing the prepaid medical
261.35 assistance program in that county at initial implementation of the program in that county

and at the time of contract renewal. The county board may participate in the enforcement of the contract provisions related to local public health goals.

(c) For counties in which a prepaid medical assistance program has not been established, the commissioner shall not implement that program if a county board submits an acceptable and timely preliminary and final proposal under section 256B.692, until county-based purchasing is no longer operational in that county. For counties in which a prepaid medical assistance program is in existence on or after September 1, 1997, the commissioner must terminate contracts with health plans according to section 256B.692, subdivision 5, if the county board submits and the commissioner accepts a preliminary and final proposal according to that subdivision. The commissioner is not required to terminate contracts that begin on or after September 1, 1997, according to section 256B.692 until two years have elapsed from the date of initial enrollment. This paragraph expires upon the effective date of paragraph (d).

(d) For counties in which a prepaid medical assistance program is in existence on or after September 1, 1997, the commissioner must terminate contracts with health plans according to section 256B.692, subdivision 5, if the county board submits and the commissioner accepts a preliminary and final proposal according to that subdivision. This paragraph is effective January 1, 2027, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

~~(d)~~ (e) In the event that a county board or a single entity representing a group of county boards and the commissioner cannot reach agreement regarding: (i) the selection of participating health plans in that county; (ii) contract requirements; or (iii) implementation and enforcement of county requirements including provisions regarding local public health goals, the commissioner shall resolve all disputes after taking into account the recommendations of a three-person mediation panel. The panel shall be composed of one designee of the president of the association of Minnesota counties, one designee of the commissioner of human services, and one person selected jointly by the designee of the commissioner of human services and the designee of the Association of Minnesota Counties. Within a reasonable period of time before the hearing, the panelists must be provided all documents and information relevant to the mediation. The parties to the mediation must be given 30 days' notice of a hearing before the mediation panel.

~~(e)~~ (f) If a county which elects to implement county-based purchasing ceases to implement county-based purchasing, it is prohibited from assuming the responsibility of county-based purchasing for a period of five years from the date it discontinues purchasing.

~~(f)~~ (g) The commissioner shall not require that contractual disputes between county-based purchasing entities and the commissioner be mediated by a panel that includes a representative of the Minnesota Council of Health Plans.

~~(g)~~ (h) At the request of a county-purchasing entity, the commissioner shall adopt a contract procurement or renewal schedule under which all counties included in the entity's service area are reprocured or renewed at the same time.

~~(h)~~ (i) The commissioner shall provide a written report under section 3.195 to the chairs of the legislative committees having jurisdiction over human services in the senate and the house of representatives describing in detail the activities undertaken by the commissioner to ensure full compliance with this section. The report must also provide an explanation for any decisions of the commissioner not to accept the recommendations of a county or group of counties required to be consulted under this section. The report must be provided at least 30 days prior to the effective date of a new or renewed prepaid or managed care contract in a county.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 25. **[256B.695] COUNTY-ADMINISTERED RURAL MEDICAL ASSISTANCE PROGRAM.**

Subdivision 1. Definitions. (a) For the purposes of this section, the following terms have the meanings given.

(b) "CARMA" means the county-administered rural medical assistance program established under this section.

(c) "Commissioner" means the commissioner of human services.

(d) "Eligible individual" means an individual who is:

(1) residing in a county administering CARMA; and

(2) eligible for medical assistance, MinnesotaCare, Minnesota Senior Health Options (MSHO), Minnesota Senior Care Plus (MSC+), or Special Needs Basic Care (SNBC).

(e) "Enrollee" means an individual enrolled in CARMA.

(f) "PMAP" means the prepaid medical assistance program under section 256B.69.

(g) "Rural county" has the meaning given to "rural area" in Code of Federal Regulations, title 42, section 438.52.

Subd. 2. Program established. CARMA is established to:

264.1 (1) provide a county-owned and county-administered alternative to PMAP;
264.2 (2) facilitate integration of health care, public health, and social services to address
264.3 health-related social needs in rural communities;

264.4 (3) account for the fewer enrollees and local providers of health care and community
264.5 services in rural communities; and

264.6 (4) promote accountability for health outcomes, health equity, customer service,
264.7 community outreach, and cost of care.

264.8 Subd. 3. **County participation.** Each county or group of counties authorized under
264.9 section 256B.692 may administer CARMA for any or all eligible individuals as an alternative
264.10 to PMAP, MinnesotaCare, MSHO, MSC+, or SNBC programs. Counties choosing and
264.11 authorized to administer CARMA are exempt from the procurement process as required
264.12 under section 256B.69.

264.13 Subd. 4. **Oversight and regulation.** CARMA is governed by sections 256B.69 and
264.14 256B.692, unless otherwise provided for under this section. The commissioner must develop
264.15 and implement a procurement process requiring applications from county-based purchasing
264.16 plans interested in offering CARMA. The procurement process must require county-based
264.17 purchasing plans to demonstrate compliance with federal and state regulatory requirements
264.18 and the ability to meet the goals of the program set forth in subdivision 2. The commissioner
264.19 must review and approve or disapprove applications.

264.20 Subd. 5. **CARMA enrollment.** (a) Subject to paragraphs (d) and (e), eligible individuals
264.21 must be automatically enrolled in CARMA, but may decline enrollment. Eligible individuals
264.22 may enroll in fee-for-service medical assistance. Eligible individuals may change their
264.23 CARMA elections on an annual basis.

264.24 (b) Eligible individuals must be able to enroll in CARMA through the selection process
264.25 in accordance with the election period established in section 256B.69, subdivision 4,
264.26 paragraph (e).

264.27 (c) Enrollees who were not previously enrolled in the medical assistance program or
264.28 MinnesotaCare can change their selection once within the first year after enrollment in
264.29 CARMA. Enrollees who were not previously enrolled in CARMA have 90 days to make a
264.30 change and changes are allowed for additional special circumstances.

264.31 (d) The commissioner may offer a second health plan other than, and in addition to,
264.32 CARMA to eligible individuals when another health plan is required by federal law or rule.
264.33 The commissioner may offer a replacement plan to eligible individuals, as determined by

265.1 the commissioner, when counties administering CARMA have their contract terminated
265.2 for cause.

265.3 (e) The commissioner may, on a county-by-county basis, offer a health plan other than,
265.4 and in addition to, CARMA to individuals who are eligible for both Medicare and medical
265.5 assistance due to age or disability if the commissioner deems it necessary for enrollees to
265.6 have another choice of health plan. Factors the commissioner must consider when
265.7 determining if the other health plan is necessary include the number of available Medicare
265.8 Advantage Plan options that are not special needs plans in the county, the size of the enrolling
265.9 population, the additional administrative burden placed on providers and counties by multiple
265.10 health plan options in a county, the need to ensure the viability and success of the CARMA
265.11 program, and the impact to the medical assistance program.

265.12 (f) In counties where the commissioner is required by federal law or elects to offer a
265.13 second health plan other than CARMA pursuant to paragraphs (d) and (e), eligible enrollees
265.14 who do not select a health plan at the time of enrollment must automatically be enrolled in
265.15 CARMA.

265.16 (g) This subdivision supersedes section 256B.694.

265.17 Subd. 6. **Benefits and services.** (a) Counties or groups of counties administering CARMA
265.18 must cover all benefits and services required to be covered by medical assistance under
265.19 section 256B.0625.

265.20 (b) Counties or groups of counties administering CARMA may reimburse enrollees
265.21 directly for out-of-pocket costs incurred obtaining assessed HRSN services provided by
265.22 nontraditional providers who are unable to accept payment via traditional health insurance
265.23 methods. Enrollees must not be reimbursed for out-of-pocket costs paid to providers eligible
265.24 to enroll.

265.25 Subd. 7. **Payment.** (a) The commissioner, in consultation with counties and groups of
265.26 counties administering CARMA, must develop a mechanism for making payments to
265.27 counties and groups of counties that administer CARMA. The payment mechanism must:

265.28 (1) be governed by contracts with terms, including but not limited to payment rates,
265.29 amended on an as-needed basis;

265.30 (2) pay a full-risk monthly capitation payment for services included in CARMA, including
265.31 the cost for administering CARMA benefits and services;

265.32 (3) include risk corridors based on minimum loss ratio, total cost of care, or other metrics;

(4) include a settle-up process tied to the risk corridor arrangement allowing a county or group of counties administering CARMA to retain savings for reinvestment in health care activities and operations to protect against significant losses that a county or group of counties administering CARMA or the state might realize, beginning no sooner than after a county's or group of counties' third year of CARMA operations;

284.14 MCO assessment relative to the medical assistance and MinnesotaCare program changes
284.15 in paragraphs (e), clauses (1) to (4), and (f), as directed in this act, the commissioner must:

284.16 (1) provide the chairs and ranking minority members of the legislative committees with
284.17 jurisdiction over health and human services finance and policy an overview of the changes
284.18 and recommended statutory language to codify the adjusted payment rate methodology;
284.19 and

284.20 (2) consult with impacted providers and provide a public comment period of at least 30
284.21 days prior to seeking federal approval for rate changes.

284.22 **EFFECTIVE DATE.** This section is effective January 1, 2026, or upon federal approval
284.23 for the assessment established in this section to be considered a permissible health
284.24 care-related tax under Code of Federal Regulations, title 42, section 433.68, eligible for
284.25 federal financial participation, including but not limited to federal approval of a waiver
284.26 under Code of Federal Regulations, title 42, section 433.72, if such waiver is necessary to
284.27 receive health care-related taxes without a reduction in federal financial participation,
284.28 whichever is later. The commissioner of human services shall notify the revisor of statutes
284.29 when federal approval is obtained.

(b) Unless there is reason to believe that the child would endanger self or others or not return for a court hearing, or that the child's health or welfare would be immediately endangered, the child shall be released to the custody of a parent, guardian, custodian, or other suitable person, subject to reasonable conditions of release including, but not limited to, a requirement that the child undergo a chemical use assessment as provided in section 260C.157, subdivision 1.

(c) If the court determines that there is reason to believe that the child would endanger self or others or not return for a court hearing, or that the child's health or welfare would be immediately endangered if returned to the care of the parent or guardian who has custody and from whom the child was removed, the court shall order the child:

(1) into the care of the child's noncustodial parent and order the noncustodial parent to comply with any conditions that the court determines appropriate to ensure the safety and care of the child, including requiring the noncustodial parent to cooperate with paternity establishment proceedings if the noncustodial parent has not been adjudicated the child's father; or

(2) into foster care as defined in section 260C.007, subdivision 18, under the legal responsibility of the responsible social services agency or responsible probation or corrections agency for the purposes of protective care as that term is used in the juvenile court rules. The court shall not give the responsible social services legal custody and order a trial home visit at any time prior to adjudication and disposition under section 260C.201, subdivision 1, paragraph (a), clause (3), but may order the child returned to the care of the parent or guardian who has custody and from whom the child was removed and order the parent or guardian to comply with any conditions the court determines to be appropriate to meet the safety, health, and welfare of the child.

(d) In determining whether the child's health or welfare would be immediately endangered, the court shall consider whether the child would reside with a perpetrator of domestic child abuse.

(e) The court, before determining whether a child should be placed in or continue in foster care under the protective care of the responsible agency, shall also make a determination, consistent with section 260.012 as to whether reasonable efforts were made to prevent placement or whether reasonable efforts to prevent placement are not required. In the case of an Indian child, the court shall determine whether active efforts, according to section 260.762 and the Indian Child Welfare Act of 1978, United States Code, title 25, section 1912(d), were made to prevent placement. The court shall enter a finding that the

311.1 responsible social services agency has made reasonable efforts to prevent placement when
311.2 the agency establishes either:

311.3 (1) that the agency has actually provided services or made efforts in an attempt to prevent
311.4 the child's removal but that such services or efforts have not proven sufficient to permit the
311.5 child to safely remain in the home; or

311.6 (2) that there are no services or other efforts that could be made at the time of the hearing
311.7 that could safely permit the child to remain home or to return home. The court shall not
311.8 make a reasonable efforts determination under this clause unless the court is satisfied that
311.9 the agency has sufficiently demonstrated to the court that there were no services or other
311.10 efforts that the agency was able to provide at the time of the hearing enabling the child to
311.11 safely remain home or to safely return home. When reasonable efforts to prevent placement
311.12 are required and there are services or other efforts that could be ordered that would permit
311.13 the child to safely return home, the court shall order the child returned to the care of the
311.14 parent or guardian and the services or efforts put in place to ensure the child's safety. When
311.15 the court makes a prima facie determination that one of the circumstances under paragraph
311.16 (h) exists, the court shall determine that reasonable efforts to prevent placement and to
311.17 return the child to the care of the parent or guardian are not required.

311.18 (f) If the court finds the social services agency's preventive or reunification efforts have
311.19 not been reasonable but further preventive or reunification efforts could not permit the child
311.20 to safely remain at home, the court may nevertheless authorize or continue the removal of
311.21 the child.

311.22 (g) The court may not order or continue the foster care placement of the child unless the
311.23 court makes explicit, individualized findings that continued custody of the child by the
311.24 parent or guardian would be contrary to the welfare of the child and that placement is in the
311.25 best interest of the child.

311.26 (h) At the emergency removal hearing, or at any time during the course of the proceeding,
311.27 and upon notice and request of the county attorney, the court shall determine whether a
311.28 petition has been filed stating a prima facie case that:

311.29 (1) the parent has subjected a child to egregious harm as defined in section 260C.007,
311.30 subdivision 14;

311.31 (2) the parental rights of the parent to another child have been involuntarily terminated;

311.32 (3) the child is an abandoned infant under section 260C.301, subdivision 2, paragraph
311.33 (a), clause (2);

(4) the parents' custodial rights to another child have been involuntarily transferred to a relative under a juvenile protection proceeding or a similar process of another jurisdiction;

(5) the parent has committed sexual abuse as defined in section 260E.03, against the child or another child of the parent;

(6) the parent has committed an offense that requires registration as a predatory offender under section 243.166, subdivision 1b, paragraph (a) or (b); or

(7) the provision of services or further services for the purpose of reunification is futile and therefore unreasonable.

(i) When a petition to terminate parental rights is required under section 260C.301, subdivision 4, or 260C.503, subdivision 2, but the county attorney has determined not to proceed with a termination of parental rights petition, and has instead filed a petition to transfer permanent legal and physical custody to a relative under section 260C.507, the court shall schedule a permanency hearing within 30 days of the filing of the petition.

(j) If the county attorney has filed a petition under section 260C.307, the court shall schedule a trial under section 260C.163 within 90 days of the filing of the petition except when the county attorney determines that the criminal case shall proceed to trial first under section 260C.503, subdivision 2, paragraph (c).

(k) If the court determines the child should be ordered into foster care ~~and, the court shall inquire about the child's heritage, including the child's Tribal lineage pursuant to section 260.761; the child's race, culture, and ethnicity pursuant to section 260.63, subdivision 10; and the responsible social services agency's initial relative search efforts.~~ If the child's parent refuses to give information to the responsible social services agency regarding the child's father or relatives of the child, the court may order the parent to disclose the names, addresses, telephone numbers, and other identifying information to the responsible social services agency for the purpose of complying with sections 260C.150, 260C.151, 260C.212, 260C.215, 260C.219, and 260C.221.

(l) If a child ordered into foster care has siblings, whether full, half, or step, who are also ordered into foster care, the court shall inquire of the responsible social services agency of the efforts to place the children together as required by section 260C.212, subdivision 2, paragraph (d), if placement together is in each child's best interests, unless a child is in placement for treatment or a child is placed with a previously noncustodial parent who is not a parent to all siblings. If the children are not placed together at the time of the hearing, the court shall inquire at each subsequent hearing of the agency's reasonable efforts to place the siblings together, as required under section 260.012. If any sibling is not placed with

313.1 another sibling or siblings, the agency must develop a plan to facilitate visitation or ongoing
313.2 contact among the siblings as required under section 260C.212, subdivision 1, unless it is
313.3 contrary to the safety or well-being of any of the siblings to do so.

313.4 (m) When the court has ordered the child into the care of a noncustodial parent or in
313.5 foster care, the court may order a chemical dependency evaluation, mental health evaluation,
313.6 medical examination, and parenting assessment for the parent as necessary to support the
313.7 development of a plan for reunification required under subdivision 7 and section 260C.212,
313.8 subdivision 1, or the child protective services plan under section 260E.26, and Minnesota
313.9 Rules, part 9560.0228.

313.10 (n) When the court has ordered an Indian child into an emergency child placement, the
313.11 Indian child shall be placed according to the placement preferences in the Minnesota Indian
313.12 Family Preservation Act, section 260.773.

313.13 Sec. 18. Minnesota Statutes 2024, section 260C.201, subdivision 1, as amended by Laws
313.14 2025, chapter 38, article 8, section 75, is amended to read:

313.15 Subdivision 1. **Dispositions.** (a) If the court finds that the child is in need of protection
313.16 or services or neglected and in foster care, the court shall enter an order making any of the
313.17 following dispositions of the case:

313.18 (1) place the child under the protective supervision of the responsible social services
313.19 agency or child-placing agency in the home of a parent of the child under conditions
313.20 prescribed by the court directed to the correction of the child's need for protection or services:

313.21 (i) the court may order the child into the home of a parent who does not otherwise have
313.22 legal custody of the child, however, an order under this section does not confer legal custody
313.23 on that parent;

313.24 (ii) if the court orders the child into the home of a father who is not adjudicated, the
313.25 father must cooperate with paternity establishment proceedings regarding the child in the
313.26 appropriate jurisdiction as one of the conditions prescribed by the court for the child to
313.27 continue in the father's home; and

313.28 (iii) the court may order the child into the home of a noncustodial parent with conditions
313.29 and may also order both the noncustodial and the custodial parent to comply with the
313.30 requirements of a case plan under subdivision 2; ~~or~~

313.31 (2) transfer legal custody to one of the following:

313.32 (i) a child-placing agency; or

(ii) the responsible social services agency. In making a foster care placement of a child whose custody has been transferred under this subdivision, the court shall inquire about the child's heritage, including the child's Tribal lineage pursuant to section 260.761 and the child's race, culture, and ethnicity pursuant to section 260.63, subdivision 10, and the agency shall make an individualized determination of how the placement is in the child's best interests using the placement consideration order for relatives and the best interest factors in section 260C.212, subdivision 2, and may include a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190; or

(3) order a trial home visit without modifying the transfer of legal custody to the responsible social services agency under clause (2). Trial home visit means the child is returned to the care of the parent or guardian from whom the child was removed for a period not to exceed six months. During the period of the trial home visit, the responsible social services agency:

(i) shall continue to have legal custody of the child, which means that the agency may see the child in the parent's home, at school, in a child care facility, or other setting as the agency deems necessary and appropriate;

(ii) shall continue to have the ability to access information under section 260C.208;

(iii) shall continue to provide appropriate services to both the parent and the child during the period of the trial home visit;

(iv) without previous court order or authorization, may terminate the trial home visit in order to protect the child's health, safety, or welfare and may remove the child to foster care;

(v) shall advise the court and parties within three days of the termination of the trial home visit when a visit is terminated by the responsible social services agency without a court order; and

(vi) shall prepare a report for the court when the trial home visit is terminated whether by the agency or court order that describes the child's circumstances during the trial home visit and recommends appropriate orders, if any, for the court to enter to provide for the child's safety and stability. In the event a trial home visit is terminated by the agency by removing the child to foster care without prior court order or authorization, the court shall conduct a hearing within ten days of receiving notice of the termination of the trial home visit by the agency and shall order disposition under this subdivision or commence permanency proceedings under sections 260C.503 to 260C.515. The time period for the hearing may be extended by the court for good cause shown and if it is in the best interests

315.1 of the child as long as the total time the child spends in foster care without a permanency
315.2 hearing does not exceed 12 months;

315.3 (4) if the child has been adjudicated as a child in need of protection or services because
315.4 the child is in need of special services or care to treat or ameliorate a physical or mental
315.5 disability or a mental illness as defined in section 245.4871, subdivision 15, the court may
315.6 order the child's parent, guardian, or custodian to provide it. The court may order the child's
315.7 health plan company to provide mental health services to the child. Section 62Q.535 applies
315.8 to an order for mental health services directed to the child's health plan company. If the
315.9 health plan, parent, guardian, or custodian fails or is unable to provide this treatment or
315.10 care, the court may order it provided. Absent specific written findings by the court that the
315.11 child's disability is the result of abuse or neglect by the child's parent or guardian, the court
315.12 shall not transfer legal custody of the child for the purpose of obtaining special treatment
315.13 or care solely because the parent is unable to provide the treatment or care. If the court's
315.14 order for mental health treatment is based on a diagnosis made by a treatment professional,
315.15 the court may order that the diagnosing professional not provide the treatment to the child
315.16 if it finds that such an order is in the child's best interests; or

315.17 (5) if the court believes that the child has sufficient maturity and judgment and that it is
315.18 in the best interests of the child, the court may order a child 16 years old or older to be
315.19 allowed to live independently, either alone or with others as approved by the court under
315.20 supervision the court considers appropriate, if the county board, after consultation with the
315.21 court, has specifically authorized this dispositional alternative for a child.

315.22 (b) If the child was adjudicated in need of protection or services because the child is a
315.23 runaway or habitual truant, the court may order any of the following dispositions in addition
315.24 to or as alternatives to the dispositions authorized under paragraph (a):

315.25 (1) counsel the child or the child's parents, guardian, or custodian;

315.26 (2) place the child under the supervision of a probation officer or other suitable person
315.27 in the child's own home under conditions prescribed by the court, including reasonable rules
315.28 for the child's conduct and the conduct of the parents, guardian, or custodian, designed for
315.29 the physical, mental, and moral well-being and behavior of the child;

315.30 (3) subject to the court's supervision, transfer legal custody of the child to one of the
315.31 following:

315.32 (i) a reputable person of good moral character. No person may receive custody of two
315.33 or more unrelated children unless licensed to operate a residential program under sections
315.34 245A.01 to 245A.16; or

(ii) a county probation officer for placement in a group foster home established under the direction of the juvenile court and licensed pursuant to section 241.021;

(4) require the child to pay a fine of up to \$100. The court shall order payment of the fine in a manner that will not impose undue financial hardship upon the child;

(5) require the child to participate in a community service project;

(6) order the child to undergo a chemical dependency evaluation and, if warranted by the evaluation, order participation by the child in a drug awareness program or an inpatient or outpatient chemical dependency treatment program;

(7) if the court believes that it is in the best interests of the child or of public safety that the child's driver's license or instruction permit be canceled, the court may order the commissioner of public safety to cancel the child's license or permit for any period up to the child's 18th birthday. If the child does not have a driver's license or permit, the court may order a denial of driving privileges for any period up to the child's 18th birthday. The court shall forward an order issued under this clause to the commissioner, who shall cancel the license or permit or deny driving privileges without a hearing for the period specified by the court. At any time before the expiration of the period of cancellation or denial, the court may, for good cause, order the commissioner of public safety to allow the child to apply for a license or permit, and the commissioner shall so authorize;

(8) order that the child's parent or legal guardian deliver the child to school at the beginning of each school day for a period of time specified by the court; or

(9) require the child to perform any other activities or participate in any other treatment programs deemed appropriate by the court.

To the extent practicable, the court shall enter a disposition order the same day it makes a finding that a child is in need of protection or services or neglected and in foster care, but in no event more than 15 days after the finding unless the court finds that the best interests of the child will be served by granting a delay. If the child was under eight years of age at the time the petition was filed, the disposition order must be entered within ten days of the finding and the court may not grant a delay unless good cause is shown and the court finds the best interests of the child will be served by the delay.

(c) If a child who is 14 years of age or older is adjudicated in need of protection or services because the child is a habitual truant and truancy procedures involving the child were previously dealt with by a school attendance review board or county attorney mediation program under section 260A.06 or 260A.07, the court shall order a cancellation or denial

317.1 of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th
317.2 birthday.

317.3 (d) In the case of a child adjudicated in need of protection or services because the child
317.4 has committed domestic abuse and been ordered excluded from the child's parent's home,
317.5 the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing
317.6 to provide an alternative safe living arrangement for the child as defined in paragraph (f).

317.7 (e) When a parent has complied with a case plan ordered under subdivision 6 and the
317.8 child is in the care of the parent, the court may order the responsible social services agency
317.9 to monitor the parent's continued ability to maintain the child safely in the home under such
317.10 terms and conditions as the court determines appropriate under the circumstances.

317.11 (f) For the purposes of this subdivision, "alternative safe living arrangement" means a
317.12 living arrangement for a child proposed by a petitioning parent or guardian if a court excludes
317.13 the minor from the parent's or guardian's home that is separate from the victim of domestic
317.14 abuse and safe for the child respondent. A living arrangement proposed by a petitioning
317.15 parent or guardian is presumed to be an alternative safe living arrangement absent information
317.16 to the contrary presented to the court. In evaluating any proposed living arrangement, the
317.17 court shall consider whether the arrangement provides the child with necessary food, clothing,
317.18 shelter, and education in a safe environment. Any proposed living arrangement that would
317.19 place the child in the care of an adult who has been physically or sexually violent is presumed
317.20 unsafe.

317.21 Sec. 19. Minnesota Statutes 2024, section 260C.201, subdivision 2, as amended by Laws
317.22 2025, chapter 38, article 8, section 76, is amended to read:

317.23 Subd. 2. **Written findings.** (a) Any order for a disposition authorized under this section
317.24 shall contain written findings of fact to support the disposition and case plan ordered and
317.25 shall also set forth in writing the following information:

317.26 (1) why the best interests and safety of the child are served by the disposition and case
317.27 plan ordered;

317.28 (2) what alternative dispositions or services under the case plan were considered by the
317.29 court and why such dispositions or services were not appropriate in the instant case;

317.30 (3) when legal custody of the child is transferred, the appropriateness of the particular
317.31 placement made or to be made by the placing agency using the relative and sibling placement
317.32 considerations and best interest factors in section 260C.212, subdivision 2, or the

318.1 appropriateness of a child colocated with a parent in a licensed residential family-based
318.2 substance use disorder treatment program under section 260C.190;

318.3 (4) whether reasonable efforts to finalize the permanent plan for the child consistent
318.4 with section 260.012 were made including reasonable efforts:

318.5 (i) to prevent the child's placement and to reunify the child with the parent or guardian
318.6 from whom the child was removed at the earliest time consistent with the child's safety.

318.7 The court's findings must include a brief description of what preventive and reunification
318.8 efforts were made and why further efforts could not have prevented or eliminated the
318.9 necessity of removal or that reasonable efforts were not required under section 260.012 or
318.10 260C.178, subdivision 1;

318.11 (ii) to identify and locate any noncustodial or nonresident parent of the child and to
318.12 assess such parent's ability to provide day-to-day care of the child, and, where appropriate,
318.13 provide services necessary to enable the noncustodial or nonresident parent to safely provide
318.14 day-to-day care of the child as required under section 260C.219, unless such services are
318.15 not required under section 260.012 or 260C.178, subdivision 1. The court's findings must
318.16 include a description of the agency's efforts to:

318.17 (A) identify and locate the child's noncustodial or nonresident parent;

318.18 (B) assess the noncustodial or nonresident parent's ability to provide day-to-day care of
318.19 the child; and

318.20 (C) if appropriate, provide services necessary to enable the noncustodial or nonresident
318.21 parent to safely provide the child's day-to-day care, including efforts to engage the
318.22 noncustodial or nonresident parent in assuming care and responsibility of the child;

318.23 (iii) to inquire about the child's heritage, including the child's Tribal lineage pursuant to
318.24 section 260.761 and the child's race, culture, and ethnicity pursuant to section 260.63,
318.25 subdivision 10, and make the diligent search for relatives and provide the notices required
318.26 under section 260C.221; a finding made pursuant to a hearing under section 260C.202 that
318.27 the agency has made diligent efforts to conduct a relative search and has appropriately
318.28 engaged relatives who responded to the notice under section 260C.221 and other relatives,
318.29 who came to the attention of the agency after notice under section 260C.221 was sent, in
318.30 placement and case planning decisions fulfills the requirement of this item;

318.31 (iv) to identify and make a foster care placement of the child, considering the order in
318.32 section 260C.212, subdivision 2, paragraph (a), in the home of an unlicensed relative,
318.33 according to the requirements of section 142B.06, a licensed relative, or other licensed foster

319.1 care provider, who will commit to being the permanent legal parent or custodian for the
319.2 child in the event reunification cannot occur, but who will actively support the reunification
319.3 plan for the child. If the court finds that the agency has not appropriately considered relatives
319.4 for placement of the child, the court shall order the agency to comply with section 260C.212,
319.5 subdivision 2, paragraph (a). The court may order the agency to continue considering
319.6 relatives for placement of the child regardless of the child's current placement setting; and

319.7 (v) to place siblings together in the same home or to ensure visitation is occurring when
319.8 siblings are separated in foster care placement and visitation is in the siblings' best interests
319.9 under section 260C.212, subdivision 2, paragraph (d); and

319.10 (5) if the child has been adjudicated as a child in need of protection or services because
319.11 the child is in need of special services or care to treat or ameliorate a mental disability or a
319.12 mental illness as defined in section 245.4871, subdivision 15, the written findings shall also
319.13 set forth:

319.14 (i) whether the child has mental health needs that must be addressed by the case plan;

319.15 (ii) what consideration was given to the diagnostic and functional assessments performed
319.16 by the child's mental health professional and to health and mental health care professionals'
319.17 treatment recommendations;

319.18 (iii) what consideration was given to the requests or preferences of the child's parent or
319.19 guardian with regard to the child's interventions, services, or treatment; and

319.20 (iv) what consideration was given to the cultural appropriateness of the child's treatment
319.21 or services.

319.22 (b) If the court finds that the social services agency's preventive or reunification efforts
319.23 have not been reasonable but that further preventive or reunification efforts could not permit
319.24 the child to safely remain at home, the court may nevertheless authorize or continue the
319.25 removal of the child.

319.26 (c) If the child has been identified by the responsible social services agency as the subject
319.27 of concurrent permanency planning, the court shall review the reasonable efforts of the
319.28 agency to develop a permanency plan for the child that includes a primary plan that is for
319.29 reunification with the child's parent or guardian and a secondary plan that is for an alternative,
319.30 legally permanent home for the child in the event reunification cannot be achieved in a
319.31 timely manner.

320.1 Sec. 20. Minnesota Statutes 2024, section 260C.202, subdivision 2, is amended to read:

320.2 Subd. 2. **Court review for a child placed in foster care.** (a) If the court orders a child
320.3 placed in foster care, the court shall review the out-of-home placement plan and the child's
320.4 placement at least every 90 days as required in juvenile court rules to determine whether
320.5 continued out-of-home placement is necessary and appropriate or whether the child should
320.6 be returned home.

320.7 (b) This review is not required if the court has returned the child home, ordered the child
320.8 permanently placed away from the parent under sections 260C.503 to 260C.521, or
320.9 terminated rights under section 260C.301. Court review for a child permanently placed
320.10 away from a parent, including where the child is under guardianship of the commissioner,
320.11 is governed by section 260C.607.

320.12 (c) When a child is placed in a qualified residential treatment program setting as defined
320.13 in section 260C.007, subdivision 26d, the responsible social services agency must submit
320.14 evidence to the court as specified in section 260C.712.

320.15 (d) No later than three months after the child's placement in foster care, the court shall
320.16 review agency efforts to search for and notify relatives pursuant to section 260C.221, and
320.17 order that the agency's efforts begin immediately, or continue, if the agency has failed to
320.18 perform, or has not adequately performed, the duties under that section. The court must
320.19 order the agency to continue to appropriately engage relatives who responded to the notice
320.20 under section 260C.221 in placement and case planning decisions and to consider relatives
320.21 for foster care placement consistent with section 260C.221. Notwithstanding a court's finding
320.22 that the agency has made reasonable efforts to search for and notify relatives under section
320.23 260C.221, the court may order the agency to continue making reasonable efforts to search

(3) the agency's reasonable efforts to finalize the permanent plan for the child under section 260.012, paragraph (e), and to make a placement as required under section 260C.212, subdivision 2, in a home that will commit to being the legally permanent family for the

323.1 child in the event the child cannot return home according to the timelines in this section;

323.4 family and to make a placement according to the placement preferences under United States
323.5 Code, title 25, chapter 21, section 1915.

323.6 (b) When a child is placed in a qualified residential treatment program setting as defined
323.7 in section 260C.007, subdivision 26d, the responsible social services agency must submit
323.8 evidence to the court as specified in section 260C.712.

323.9 (c) The court shall ensure that notice of the hearing is sent to any relative who:

323.10 (1) responded to the agency's notice provided under section 260C.221, indicating an
323.11 interest in participating in planning for the child or being a permanency resource for the
323.12 child and who has kept the court apprised of the relative's address; or

323.13 (2) asked to be notified of court proceedings regarding the child as is permitted in section
323.14 260C.152, subdivision 5.

323.15 (d)(1) If the parent or guardian has maintained contact with the child and is complying

323.23 (2) If the court determines that the parent or guardian is not complying, is not making

323.25 maintaining regular contact with the child as outlined in the visitation plan required as part

324.1 the agency to consider them for permanent placement of the child in the event the child
324.2 cannot be returned to the parent. A relative or foster parent who wants to be considered
324.3 under this item shall cooperate with the background study required under section 245C.08,
324.4 if the individual has not already done so, and with the home study process required under
324.5 chapter 142B for providing child foster care and for adoption under section 259.41. The
324.6 home study referred to in this item shall be a single-home study in the form required by the
324.7 commissioner of children, youth, and families or similar study required by the individual's
324.8 state of residence when the subject of the study is not a resident of Minnesota. The court
324.9 may order the responsible social services agency to make a referral under the Interstate
324.10 Compact on the Placement of Children when necessary to obtain a home study for an
324.11 individual who wants to be considered for transfer of permanent legal and physical custody
324.12 or adoption of the child; and

324.13 (iii) to file a petition to support an order for the legally permanent placement plan.

324.14 (3) Consistent with section 260C.223, subdivision 2, paragraph (b), the responsible social
324.15 services agency must not define a foster family as the permanent home for a child until:

324.16 (i) inquiry and Tribal notice requirements under section 260.761, subdivisions 1 and 2,
324.17 are satisfied;

324.18 (ii) inquiry about the child's heritage, including the child's race, culture, and ethnicity
324.19 pursuant to section 260.63, subdivision 10, has been completed; and

324.20 (iii) the court has determined that reasonable or active efforts toward completing the
324.21 relative search requirements in section 260C.221 have been made.

324.22 (e) Following the review under this section:

324.23 (1) if the court has either returned the child home or continued the matter up to a total
324.24 of six additional months, the agency shall continue to provide services to support the child's
324.25 return home or to make reasonable efforts to achieve reunification of the child and the parent
324.26 as ordered by the court under an approved case plan;

324.27 (2) if the court orders the agency to develop a plan for the transfer of permanent legal
324.28 and physical custody of the child to a relative, a petition supporting the plan shall be filed
324.29 in juvenile court within 30 days of the hearing required under this section and a trial on the
324.30 petition held within 60 days of the filing of the pleadings; or

324.31 (3) if the court orders the agency to file a termination of parental rights, unless the county
324.32 attorney can show cause why a termination of parental rights petition should not be filed,
324.33 a petition for termination of parental rights shall be filed in juvenile court within 30 days

325.1 of the hearing required under this section and a trial on the petition held within 60 days of

325.3 Sec. 24. Minnesota Statutes 2024, section 260C.221, subdivision 2, is amended to read:

325.4 Subd. 2. **Relative notice requirements.** (a) The agency may provide oral or written
325.5 notice to a child's relatives. In the child's case record, the agency must document providing
325.6 the required notice to each of the child's relatives. The responsible social services agency
325.7 must notify relatives:

325.8 (1) of the need for a foster home for the child, the option to become a placement resource
325.9 for the child, the order of placement that the agency will consider under section 260C.212,
325.10 subdivision 2, paragraph (a), and the possibility of the need for a permanent placement for
325.11 the child;

325.12 (2) of their responsibility to keep the responsible social services agency and the court
325.13 informed of their current address in order to receive notice in the event that a permanent
325.14 placement is sought for the child and to receive notice of the permanency progress review
325.15 hearing under section 260C.204. A relative who fails to provide a current address to the
325.16 responsible social services agency and the court forfeits the right to receive notice of the
325.17 possibility of permanent placement and of the permanency progress review hearing under
325.18 section 260C.204, until the relative provides a current address to the responsible social
325.19 services agency and the court. A decision by a relative not to be identified as a potential
325.20 permanent placement resource or participate in planning for the child shall not affect whether
325.21 the relative is considered for placement of, or as a permanency resource for, the child with
325.22 that relative at any time in the case, and shall not be the sole basis for the court to rule out
325.23 the relative as the child's placement or permanency resource;

325.24 (3) that the relative may participate in the care and planning for the child, as specified
325.25 in subdivision 3, including that the opportunity for such participation may be lost by failing
325.26 to respond to the notice sent under this subdivision;

325.27 (4) of the family foster care licensing and adoption home study requirements, including:

325.28 (i) how to complete an application and;

325.29 (ii) how to request a variance from licensing standards that do not present a safety or
325.30 health risk to the child in the home under section 142B.10 and;

325.31 (iii) supports that are available for relatives and children who reside in a family foster
325.32 home, including how to access respite care, strategies for leveraging natural supports for

326.1 the child and family, and ways to include resource or substitute caregivers in the child's
326.2 case plan; and

326.3 (iv) a review of licensing requirements and the relative's choice between county or
326.4 private, community-based agency licensing and services, pursuant to existing contracts and
326.5 funding;

326.6 (5) of the relatives' right to ask to be notified of any court proceedings regarding the
326.7 child, to attend the hearings, and of a relative's right to be heard by the court as required
326.8 under section 260C.152, subdivision 5;

326.9 (6) that regardless of the relative's response to the notice sent under this subdivision, the
326.10 agency is required to establish permanency for a child, including planning for alternative
326.11 permanency options if the agency's reunification efforts fail or are not required; ~~and~~

326.12 (7) that by responding to the notice, a relative may receive information about participating
326.13 in a child's family and permanency team if the child is placed in a qualified residential
326.14 treatment program as defined in section 260C.007, subdivision 26d; and

326.15 (8) information advising a relative on access to legal services and support.

326.16 (b) The responsible social services agency shall send the notice required under paragraph
326.17 (a) to relatives who become known to the responsible social services agency, except for
326.18 relatives that the agency does not contact due to safety reasons under subdivision 5, paragraph
326.19 (b). The responsible social services agency shall continue to send notice to relatives
326.20 notwithstanding a court's finding that the agency has made reasonable efforts to conduct a
326.21 relative search.

326.22 (c) The responsible social services agency is not required to send the notice under
326.23 paragraph (a) to a relative who becomes known to the agency after an adoption placement
326.24 agreement has been fully executed under section 260C.613, subdivision 1. If the relative
326.25 wishes to be considered for adoptive placement of the child, the agency shall inform the
326.26 relative of the relative's ability to file a motion for an order for adoptive placement under
326.27 section 260C.607, subdivision 6.

326.28 **EFFECTIVE DATE.** This section is effective January 1, 2026.

331.25 specified under clauses (1) to (8), other than by accidental means:

331.26 (1) failure by a person responsible for a child's care to supply a child with necessary
331.27 food, clothing, shelter, health, medical, or other care required for the child's physical or
331.28 mental health when reasonably able to do so;

331.29 (2) failure to protect a child from conditions or actions that seriously endanger the child's
331.30 physical or mental health when reasonably able to do so, including a growth delay, which

332.1 may be referred to as a failure to thrive, that has been diagnosed by a physician and is due
332.2 to parental neglect;

332.3 (3) failure to provide for necessary supervision or child care arrangements appropriate
332.4 for a child after considering factors as the child's age, mental ability, physical condition,

332.6 needs or safety, or the basic needs or safety of another child in their care;

332.7 (4) failure to ensure that the child is educated as defined in sections 120A.22 and

332.10 5;

332.11 (5) prenatal exposure to a controlled substance, as defined in section 253B.02, subdivision

332.22 in the child's behavior, emotional response, or cognition that is not within the normal range
332.23 for the child's age and stage of development, with due regard to the child's culture.

332.24 (b) Nothing in this chapter shall be construed to mean that a child is neglected solely
332.25 because the child's parent, guardian, or other person responsible for the child's care in good
332.26 faith selects and depends upon spiritual means or prayer for treatment or care of disease or
332.27 remedial care of the child in lieu of medical care.

332.28 (c) This chapter does not impose upon persons not otherwise legally responsible for

332.30 to provide that care.

332.31 (d) Nothing in this chapter shall be construed to mean that a child who has a mental,

332.33 emergency department or hospital setting because services, including residential treatment,

333.1 that are deemed necessary by the child's medical or mental health care professional or county
333.2 case manager are not available to the child's parent, guardian, or other person responsible

333.10 the report, or the local welfare agency.

333.11 (b) Any report shall be of sufficient content to identify the child, any person believed
333.12 to be responsible for the maltreatment of the child if the person is known, the nature and
333.13 extent of the maltreatment, and the name and address of the reporter. The local welfare
333.14 agency or agency responsible for assessing or investigating the report shall accept a report
333.15 made under section 260E.06 notwithstanding refusal by a reporter to provide the reporter's
333.16 name or address as long as the report is otherwise sufficient under this paragraph. The local
333.17 welfare agency shall ask the reporter if the reporter is aware of the child's heritage, including
333.18 the child's Tribal lineage pursuant to section 260.761 and the child's race, culture, and
333.19 ethnicity pursuant to section 260.63, subdivision 10.

333.20 (c) Notwithstanding paragraph (a), upon implementation of the provider licensing and
333.21 reporting hub, an individual who has an account with the provider licensing and reporting
333.22 hub and is required to report suspected maltreatment at a licensed program under section
333.23 260E.06, subdivision 1, may submit a written report in the hub in a manner prescribed by
333.24 the commissioner and is not required to make an oral report. A report submitted through
333.25 the provider licensing and reporting hub must be made immediately.

333.26 Sec. 33. Minnesota Statutes 2024, section 260E.14, subdivision 2, is amended to read:

333.27 Subd. 2. **Sexual abuse.** (a) The local welfare agency is the agency responsible for
333.28 investigating an allegation of sexual abuse, including if the alleged sexual abuse occurred
333.29 in another state or country but the child's residence is in Minnesota, if the alleged offender
333.30 is the parent, guardian, sibling, or an individual functioning within the family unit as a
333.31 person responsible for the child's care, or a person with a significant relationship to the child
333.32 if that person resides in the child's household.

(b) The local welfare agency is also responsible for assessing or investigating when a child is identified as a victim of sex trafficking.

Sec. 34. Minnesota Statutes 2024, section 260E.14, subdivision 3, is amended to read:

Subd. 3. **Neglect, physical abuse, or labor trafficking.** (a) The local welfare agency is responsible for ~~immediately~~ conducting a family assessment or investigation if the report alleges neglect or physical abuse by a parent, guardian, or individual functioning within the family unit as a person responsible for the child's care, including if the alleged neglect or physical abuse occurred in another state or country but the child's residence is in Minnesota.

(b) The local welfare agency is also responsible for conducting a family assessment or investigation when a child is identified as a victim of labor trafficking.

Sec. 35. Minnesota Statutes 2024, section 260E.20, subdivision 1, is amended to read:

Subdivision 1. **General duties.** (a) The local welfare agency shall offer services to prevent future maltreatment, safeguarding and enhancing the welfare of the maltreated child, and supporting and preserving family life whenever possible.

(b) If the report alleges a violation of a criminal statute involving maltreatment or child endangerment under section 609.378, the local law enforcement agency and local welfare agency shall coordinate the planning and execution of their respective investigation and assessment efforts to avoid a duplication of fact-finding efforts and multiple interviews. Each agency shall prepare a separate report of the results of the agency's investigation or assessment.

(c) In cases of alleged child maltreatment resulting in death, the local agency may rely on the fact-finding efforts of a law enforcement investigation to make a determination of whether or not maltreatment occurred.

(d) When necessary, the local welfare agency shall seek authority to remove the child from the custody of a parent, guardian, or adult with whom the child is living.

(e) In performing any of these duties, the local welfare agency shall maintain an appropriate record.

(f) In conducting a family assessment, noncaregiver human trafficking assessment, or investigation, the local welfare agency shall gather information on the existence of substance abuse and domestic violence.

(g) If the family assessment, noncaregiver human trafficking assessment, or investigation indicates there is a potential for abuse of alcohol or other drugs by the parent, guardian, or person responsible for the child's care, the local welfare agency must coordinate a comprehensive assessment pursuant to section 245G.05.

(h) The agency may use either a family assessment or investigation to determine whether the child is safe when responding to a report resulting from birth match data under section 260E.03, subdivision 23, paragraph (c). If the child subject of birth match data is determined to be safe, the agency shall consult with the county attorney to determine the appropriateness of filing a petition alleging the child is in need of protection or services under section 260C.007, subdivision 6, clause (16), in order to deliver needed services. If the child is determined not to be safe, the agency and the county attorney shall take appropriate action as required under section 260C.503, subdivision 2.

(i) When conducting any family assessment, noncaregiver human trafficking assessment, or investigation, the agency shall ask the child, if age appropriate; parents; extended family; and reporter about the child's heritage, including the child's Tribal lineage pursuant to section 260.761 and the child's race, culture, and ethnicity pursuant to section 260.63, subdivision 10.

Sec. 36. Minnesota Statutes 2024, section 260E.20, subdivision 3, is amended to read:

Subd. 3. Collection of information. (a) The local welfare agency responsible for conducting a family assessment, noncaregiver human trafficking assessment, or investigation shall collect available and relevant information to determine child safety, risk of subsequent maltreatment, and family strengths and needs and share not public information with an Indian's Tribal social services agency without violating any law of the state that may otherwise impose a duty of confidentiality on the local welfare agency in order to implement the Tribal state agreement.

(b) The local welfare agency or the agency responsible for investigating the report shall collect available and relevant information to ascertain whether maltreatment occurred and whether protective services are needed.

(c) Information collected includes, when relevant, information regarding the person reporting the alleged maltreatment, including the nature of the reporter's relationship to the child and to the alleged offender, and the basis of the reporter's knowledge for the report; the child allegedly being maltreated; the alleged offender; the child's caretaker; and other collateral sources having relevant information related to the alleged maltreatment.

336.1 (d) Information relevant to the assessment or investigation must be requested, and may
336.2 include:

336.3 (1) the child's sex and age; prior reports of maltreatment, including any maltreatment
336.4 reports that were screened out and not accepted for assessment or investigation; information
336.5 relating to developmental functioning; credibility of the child's statement; and whether the
336.6 information provided under this clause is consistent with other information collected during
336.7 the course of the assessment or investigation;

336.8 (2) except in a noncaregiver human trafficking assessment, the alleged offender's age,
336.9 a record check for prior reports of maltreatment, and criminal charges and convictions;

336.10 (3) collateral source information regarding the alleged maltreatment and care of the
336.11 child. Collateral information includes, when relevant: (i) a medical examination of the child;
336.12 (ii) prior medical records relating to the alleged maltreatment or the care of the child
336.13 maintained by any facility, clinic, or health care professional and an interview with the
336.14 treating professionals; and (iii) interviews with the child's caretakers, including the child's
336.15 parent, guardian, foster parent, child care provider, teachers, counselors, family members,
336.16 relatives, and other persons who may have knowledge regarding the alleged maltreatment
336.17 and the care of the child; and

336.18 (4) information on the existence of domestic abuse and violence in the home of the child,
336.19 and substance abuse.

336.20 (e) Nothing in this subdivision precludes the local welfare agency, the local law
336.21 enforcement agency, or the agency responsible for assessing or investigating the report from
336.22 collecting other relevant information necessary to conduct the assessment or investigation.

336.23 (f) Notwithstanding section 13.384 or 144.291 to 144.298, the local welfare agency has
336.24 access to medical data and records for purposes of paragraph (d), clause (3).

336.25 Sec. 37. Minnesota Statutes 2024, section 260E.24, subdivision 1, is amended to read:

336.26 Subdivision 1. **Timing.** The local welfare agency shall conclude the family assessment,
336.27 the noncaregiver human trafficking assessment, or the investigation within 45 days of the
336.28 receipt of a report. The conclusion of the assessment or investigation may be extended to
336.29 permit the completion of a criminal investigation or the receipt of expert information
336.30 requested within 45 days of the receipt of the report.

337.1 Sec. 38. Minnesota Statutes 2024, section 260E.24, subdivision 2, is amended to read:

337.2 Subd. 2. **Determination after family assessment or a noncaregiver human trafficking**
337.3 **assessment.** After conducting a family assessment or a noncaregiver human trafficking
337.4 assessment, the local welfare agency shall determine whether child protective services are
337.5 needed to address the safety of the child and other family members and the risk of subsequent
337.6 maltreatment. The local welfare agency must document the information collected under
337.7 section 260E.20, subdivision 3, related to the completed family assessment or noncaregiver
337.8 human trafficking assessment in the child's or family's case notes.

337.9 Sec. 39. **[260E.291] REPORTING OF SCHOOL ATTENDANCE CONCERNS.**

337.10 Subdivision 1. **Reports required.** (a) A person mandated to report under this chapter
337.11 must immediately report to the local welfare agency, Tribal social services agency, or
337.12 designated partner if the person knows or has reason to believe that a child required to be
337.13 enrolled in school under section 120A.22, has at least seven unexcused absences in the
337.14 current school year, and is at risk of educational neglect under section 260C.163, subdivision
337.15 11.

337.16 (b) Any person may voluntarily report to the local welfare agency, Tribal social services
337.17 agency, or designated partner if the person knows or has reason to believe that a child
337.18 required to be enrolled in school under section 120A.22 has at least seven unexcused absences
337.19 in the current school year and is at risk of educational neglect under section 260C.163,
337.20 subdivision 11.

337.21 (c) An oral report must be made immediately by telephone or otherwise. An oral report
337.22 made by a person required to report under paragraph (a) must be followed within 72 hours,
337.23 exclusive of weekends and holidays, by a report in writing to the local welfare agency. A
337.24 report must sufficiently identify the child and the child's parent or guardian, the actual or
337.25 estimated number of the child's unexcused absences in the current school year, the efforts
337.26 made by school officials to resolve attendance concerns with the family, and the name and
337.27 address of the reporter. A voluntary reporter under paragraph (b) may refuse to provide
337.28 their name or address if the report is otherwise sufficient, and such a report must be accepted
337.29 by the local welfare agency.

337.30 Subd. 2. **Local welfare agency.** (a) The local welfare agency or partner designated to
337.31 provide child welfare services must provide a child welfare response for a report that alleges
337.32 a child enrolled in school has seven or more unexcused absences. When providing a child
337.33 welfare response under this paragraph, the local welfare agency or designated partner must
337.34 offer services to the child and the child's family to address school attendance concerns or

may partner with a county attorney's office, a community-based organization, or other community partner to provide the services. The services must be culturally and linguistically appropriate and tailored to the needs of the child and the child's family. This section is subject to all requirements of the Minnesota Indian Family Preservation Act under sections 260.751 to 260.835, and the Minnesota African American Family Preservation and Child Welfare Disproportionality Act under sections 260.61 to 260.693.

(b) If the child's unexcused absences continue and the family has not engaged with services under paragraph (a) after the local welfare agency, Tribal social services agency, or partner designated to provide child welfare services has made multiple varied attempts to engage the child's family, a report of educational neglect must be made regardless of the number of unexcused absences the child has accrued. The local welfare agency must determine the response path assignment pursuant to section 260E.17 and may proceed with the process outlined in section 260C.141.

Sec. 40. **REVISOR INSTRUCTION.**

The revisor of statutes shall change paragraphs to subdivisions, clauses to paragraphs, and items to clauses in Minnesota Statutes, sections 260C.203 and 260C.204. The revisor shall make any necessary grammatical changes or changes to sentence structure necessary to preserve the meaning of the text as a result of the changes. The revisor of statutes must correct any statutory cross-references consistent with the changes in this section.

ARTICLE 11

CHILD PROTECTION AND WELFARE FINANCE

Section 1. Minnesota Statutes 2024, section 142A.03, subdivision 2, is amended to read:

Subd. 2. Duties of the commissioner. (a) The commissioner may apply for and accept on behalf of the state any grants, bequests, gifts, or contributions for the purpose of carrying out the duties and responsibilities of the commissioner. Any money received under this paragraph is appropriated and dedicated for the purpose for which the money is granted. The commissioner must biennially report to the chairs and ranking minority members of relevant legislative committees and divisions by January 15 of each even-numbered year a list of all grants and gifts received under this subdivision.

(b) Pursuant to law, the commissioner may apply for and receive money made available from federal sources for the purpose of carrying out the duties and responsibilities of the commissioner.

(c) The commissioner may make contracts with and grants to Tribal Nations, public and private agencies, for-profit and nonprofit organizations, and individuals using appropriated money.

(d) The commissioner must develop program objectives and performance measures for evaluating progress toward achieving the objectives. The commissioner must identify the objectives, performance measures, and current status of achieving the measures in a biennial report to the chairs and ranking minority members of relevant legislative committees and divisions. The report is due no later than January 15 each even-numbered year. The report must include, when possible, the following objectives:

(1) centering and including the lived experiences of children and youth, including those with disabilities and mental illness and their families, in all aspects of the department's work;

(2) increasing the effectiveness of the department's programs in addressing the needs of children and youth facing racial, economic, or geographic inequities;

(3) increasing coordination and reducing inefficiencies among the department's programs and the funding sources that support the programs;

(4) increasing the alignment and coordination of family access to child care and early learning programs and improving systems of support for early childhood and learning providers and services;

(5) improving the connection between the department's programs and the kindergarten through grade 12 and higher education systems; and

(6) minimizing and streamlining the effort required of youth and families to receive services to which the youth and families are entitled.

(e) The commissioner shall administer and supervise the forms of public assistance and other activities or services that are vested in the commissioner. Administration and supervision of activities or services includes but is not limited to assuring timely and accurate distribution of benefits, completeness of service, and quality program management. In addition to administering and supervising activities vested by law in the department, the commissioner has the authority to:

(1) require county agency participation in training and technical assistance programs to promote compliance with statutes, rules, federal laws, regulations, and policies governing the programs and activities administered by the commissioner;

(2) monitor, on an ongoing basis, the performance of county agencies in the operation and administration of activities and programs; enforce compliance with statutes, rules,

340.1 federal laws, regulations, and policies governing welfare services; and promote excellence
340.2 of administration and program operation;

340.3 (3) develop a quality control program or other monitoring program to review county
340.4 performance and accuracy of benefit determinations;

340.5 (4) require county agencies to make an adjustment to the public assistance benefits issued
340.6 to any individual consistent with federal law and regulation and state law and rule and to
340.7 issue or recover benefits as appropriate;

340.8 (5) delay or deny payment of all or part of the state and federal share of benefits and
340.9 administrative reimbursement according to the procedures set forth in section 142A.10;

340.10 (6) make contracts with and grants to public and private agencies and organizations,
340.11 both for-profit and nonprofit, and individuals, using appropriated funds; and

340.12 (7) enter into contractual agreements with federally recognized Indian Tribes with a
340.13 reservation in Minnesota to the extent necessary for the Tribe to operate a federally approved
340.14 family assistance program or any other program under the supervision of the commissioner.
340.15 The commissioner shall consult with the affected county or counties in the contractual
340.16 agreement negotiations, if the county or counties wish to be included, in order to avoid the
340.17 duplication of county and Tribal assistance program services. The commissioner may
340.18 establish necessary accounts for the purposes of receiving and disbursing funds as necessary
340.19 for the operation of the programs.

340.20 The commissioner shall work in conjunction with the commissioner of human services to
340.21 carry out the duties of this paragraph when necessary and feasible.

340.22 (f) The commissioner shall inform county agencies, on a timely basis, of changes in
340.23 statute, rule, federal law, regulation, and policy necessary to county agency administration
340.24 of the programs and activities administered by the commissioner.

340.25 (g) The commissioner shall administer and supervise child welfare activities, including
340.26 promoting the enforcement of laws preventing child maltreatment and protecting children
340.27 with a disability and children who are in need of protection or services, licensing and
340.28 supervising child care and child-placing agencies, and supervising the care of children in
340.29 foster care. The commissioner shall coordinate with the commissioner of human services
340.30 on activities impacting children overseen by the Department of Human Services, such as
340.31 disability services, behavioral health, and substance use disorder treatment.

340.32 (h) The commissioner shall assist and cooperate with local, state, and federal departments,
340.33 agencies, and institutions.

341.1 (i) The commissioner shall establish and maintain any administrative units reasonably
341.2 necessary for the performance of administrative functions common to all divisions of the
341.3 department.

341.4 (j) The commissioner shall act as designated guardian of children pursuant to chapter
341.5 260C. For children under the guardianship of the commissioner or a Tribe in Minnesota
341.6 recognized by the Secretary of the Interior whose interests would be best served by adoptive
341.7 placement, the commissioner may contract with a licensed child-placing agency or a
341.8 Minnesota Tribal social services agency to provide adoption services. For children in
341.9 out-of-home care whose interests would be best served by a transfer of permanent legal and
341.10 physical custody to a relative under section 260C.515, subdivision 4, or equivalent in Tribal
341.11 code, the commissioner may contract with a licensed child-placing agency or a Minnesota
341.12 Tribal social services agency to provide permanency services. A contract with a licensed
341.13 child-placing agency must be designed to supplement existing county efforts and may not
341.14 replace existing county programs or Tribal social services, unless the replacement is agreed
341.15 to by the county board and the appropriate exclusive bargaining representative, Tribal
341.16 governing body, or the commissioner has evidence that child placements of the county
341.17 continue to be substantially below that of other counties. Funds encumbered and obligated
341.18 under an agreement for a specific child shall remain available until the terms of the agreement
341.19 are fulfilled or the agreement is terminated.

341.20 (k) The commissioner has the authority to conduct and administer experimental projects
341.21 to test methods and procedures of administering assistance and services to recipients or
341.22 potential recipients of public benefits. To carry out the experimental projects, the
341.23 commissioner may waive the enforcement of existing specific statutory program
341.24 requirements, rules, and standards in one or more counties. The order establishing the waiver
341.25 must provide alternative methods and procedures of administration and must not conflict
341.26 with the basic purposes, coverage, or benefits provided by law. No project under this
341.27 paragraph shall exceed four years. No order establishing an experimental project as authorized
341.28 by this paragraph is effective until the following conditions have been met:

341.29 (1) the United States Secretary of Health and Human Services has agreed, for the same
341.30 project, to waive state plan requirements relative to statewide uniformity; and

341.31 (2) a comprehensive plan, including estimated project costs, has been approved by the
341.32 Legislative Advisory Commission and filed with the commissioner of administration.

341.33 (l) The commissioner shall, according to federal requirements and in coordination with
341.34 the commissioner of human services, establish procedures to be followed by local welfare

342.1 boards in creating citizen advisory committees, including procedures for selection of
342.2 committee members.

342.3 (m) The commissioner shall allocate federal fiscal disallowances or sanctions that are
342.4 based on quality control error rates for the aid to families with dependent children (AFDC)
342.5 program formerly codified in sections 256.72 to 256.87 or the Supplemental Nutrition
342.6 Assistance Program (SNAP) in the following manner:

342.7 (1) one-half of the total amount of the disallowance shall be borne by the county boards
342.8 responsible for administering the programs. For AFDC, disallowances shall be shared by
342.9 each county board in the same proportion as that county's expenditures to the total of all
342.10 counties' expenditures for AFDC. For SNAP, sanctions shall be shared by each county
342.11 board, with 50 percent of the sanction being distributed to each county in the same proportion
342.12 as that county's administrative costs for SNAP benefits are to the total of all SNAP
342.13 administrative costs for all counties, and 50 percent of the sanctions being distributed to
342.14 each county in the same proportion as that county's value of SNAP benefits issued are to
342.15 the total of all benefits issued for all counties. Each county shall pay its share of the
342.16 disallowance to the state of Minnesota. When a county fails to pay the amount due under
342.17 this paragraph, the commissioner may deduct the amount from reimbursement otherwise
342.18 due the county, or the attorney general, upon the request of the commissioner, may institute
342.19 civil action to recover the amount due; and

342.20 (2) notwithstanding the provisions of clause (1), if the disallowance results from knowing
342.21 noncompliance by one or more counties with a specific program instruction, and that knowing
342.22 noncompliance is a matter of official county board record, the commissioner may require
342.23 payment or recover from the county or counties, in the manner prescribed in clause (1), an
342.24 amount equal to the portion of the total disallowance that resulted from the noncompliance
342.25 and may distribute the balance of the disallowance according to clause (1).

342.26 (n) The commissioner shall develop and implement special projects that maximize
342.27 reimbursements and result in the recovery of money to the state. For the purpose of recovering
342.28 state money, the commissioner may enter into contracts with third parties. Any recoveries
342.29 that result from projects or contracts entered into under this paragraph shall be deposited
342.30 in the state treasury and credited to a special account until the balance in the account reaches
342.31 \$1,000,000. When the balance in the account exceeds \$1,000,000, the excess shall be
342.32 transferred and credited to the general fund. All money in the account is appropriated to the
342.33 commissioner for the purposes of this paragraph.

343.1 (o) The commissioner has the authority to establish and enforce the following county
343.2 reporting requirements:

343.3 (1) the commissioner shall establish fiscal and statistical reporting requirements necessary
343.4 to account for the expenditure of funds allocated to counties for programs administered by
343.5 the commissioner. When establishing financial and statistical reporting requirements, the
343.6 commissioner shall evaluate all reports, in consultation with the counties, to determine if
343.7 the reports can be simplified or the number of reports can be reduced;

343.8 (2) the county board shall submit monthly or quarterly reports to the department as
343.9 required by the commissioner. Monthly reports are due no later than 15 working days after
343.10 the end of the month. Quarterly reports are due no later than 30 calendar days after the end
343.11 of the quarter, unless the commissioner determines that the deadline must be shortened to
343.12 20 calendar days to avoid jeopardizing compliance with federal deadlines or risking a loss
343.13 of federal funding. Only reports that are complete, legible, and in the required format shall
343.14 be accepted by the commissioner;

343.15 (3) if the required reports are not received by the deadlines established in clause (2), the
343.16 commissioner may delay payments and withhold funds from the county board until the next
343.17 reporting period. When the report is needed to account for the use of federal funds and the
343.18 late report results in a reduction in federal funding, the commissioner shall withhold from
343.19 the county boards with late reports an amount equal to the reduction in federal funding until
343.20 full federal funding is received;

343.21 (4) a county board that submits reports that are late, illegible, incomplete, or not in the
343.22 required format for two out of three consecutive reporting periods is considered
343.23 noncompliant. When a county board is found to be noncompliant, the commissioner shall
343.24 notify the county board of the reason the county board is considered noncompliant and
343.25 request that the county board develop a corrective action plan stating how the county board
343.26 plans to correct the problem. The corrective action plan must be submitted to the
343.27 commissioner within 45 days after the date the county board received notice of
343.28 noncompliance;

343.29 (5) the final deadline for fiscal reports or amendments to fiscal reports is one year after
343.30 the date the report was originally due. If the commissioner does not receive a report by the
343.31 final deadline, the county board forfeits the funding associated with the report for that
343.32 reporting period and the county board must repay any funds associated with the report
343.33 received for that reporting period;

344.1 (6) the commissioner may not delay payments, withhold funds, or require repayment
344.2 under clause (3) or (5) if the county demonstrates that the commissioner failed to provide
344.3 appropriate forms, guidelines, and technical assistance to enable the county to comply with
344.4 the requirements. If the county board disagrees with an action taken by the commissioner
344.5 under clause (3) or (5), the county board may appeal the action according to sections 14.57
344.6 to 14.69; and

344.7 (7) counties subject to withholding of funds under clause (3) or forfeiture or repayment
344.8 of funds under clause (5) shall not reduce or withhold benefits or services to clients to cover
344.9 costs incurred due to actions taken by the commissioner under clause (3) or (5).

344.10 (p) The commissioner shall allocate federal fiscal disallowances or sanctions for audit
344.11 exceptions when federal fiscal disallowances or sanctions are based on a statewide random
344.12 sample in direct proportion to each county's claim for that period.

344.13 (q) The commissioner is responsible for ensuring the detection, prevention, investigation,
344.14 and resolution of fraudulent activities or behavior by applicants, recipients, and other
344.15 participants in the programs administered by the department. The commissioner shall
344.16 cooperate with the commissioner of education to enforce the requirements for program
344.17 integrity and fraud prevention for investigation for child care assistance under chapter 142E.

344.18 (r) The commissioner shall require county agencies to identify overpayments, establish
344.19 claims, and utilize all available and cost-beneficial methodologies to collect and recover
344.20 these overpayments in the programs administered by the department.

344.21 (s) The commissioner shall develop recommended standards for child foster care homes
344.22 that address the components of specialized therapeutic services to be provided by child
344.23 foster care homes with those services.

344.24 (t) The commissioner shall authorize the method of payment to or from the department
344.25 as part of the programs administered by the department. This authorization includes the
344.26 receipt or disbursement of funds held by the department in a fiduciary capacity as part of
344.27 the programs administered by the department.

344.28 (u) In coordination with the commissioner of human services, the commissioner shall
344.29 create and provide county and Tribal agencies with blank applications, affidavits, and other
344.30 forms as necessary for public assistance programs.

344.31 (v) The commissioner shall cooperate with the federal government and its public welfare
344.32 agencies in any reasonable manner as may be necessary to qualify for federal aid for
344.33 temporary assistance for needy families and in conformity with Title I of Public Law 104-193,

345.1 the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 and successor
345.2 amendments, including making reports that contain information required by the federal
345.3 Social Security Advisory Board and complying with any provisions the board may find
345.4 necessary to assure the correctness and verification of the reports.

345.5 (w) On or before January 15 in each even-numbered year, the commissioner shall make
345.6 a biennial report to the governor concerning the activities of the agency.

345.7 (x) The commissioner shall enter into agreements with other departments of the state as
345.8 necessary to meet all requirements of the federal government.

345.9 (y) The commissioner may cooperate with other state agencies in establishing reciprocal
345.10 agreements in instances where a child receiving Minnesota family investment program
345.11 (MFIP) assistance or its out-of-state equivalent moves or contemplates moving into or out
345.12 of the state, in order that the child may continue to receive MFIP or equivalent aid from the
345.13 state moved from until the child has resided for one year in the state moved to.

345.14 (z) The commissioner shall provide appropriate technical assistance to county agencies
345.15 to develop methods to have county financial workers remind and encourage recipients of
345.16 aid to families with dependent children, the Minnesota family investment program, the
345.17 Minnesota family investment plan, family general assistance, or SNAP benefits whose
345.18 assistance unit includes at least one child under the age of five to have each young child
345.19 immunized against childhood diseases. The commissioner must examine the feasibility of
345.20 utilizing the capacity of a statewide computer system to assist county agency financial
345.21 workers in performing this function at appropriate intervals.

345.22 (aa) The commissioner shall have the power and authority to accept on behalf of the
345.23 state contributions and gifts for the use and benefit of children under the guardianship or
345.24 custody of the commissioner. The commissioner may also receive and accept on behalf of
345.25 such children money due and payable to them as old age and survivors insurance benefits,

368.24 license consistent with this section or, if applicable, a temporary change of ownership license
368.25 under section 142B.11. At minimum, the license shall state:

369.3 (1) the commissioner is unable to conduct the observation required by subdivision 11,
369.4 paragraph (a), clause (3), because the program is not yet operational;

369.5 (2) certain records and documents are not available because persons are not yet receiving
369.6 services from the program; and

369.7 (3) the applicant complies with applicable laws and rules in all other respects.

369.8 (c) A decision by the commissioner to issue a license does not guarantee that any person
369.9 or persons will be placed or cared for in the licensed program.

369.10 (d) Except as provided in paragraphs (i) and (j), the commissioner shall not issue a
369.11 license if the applicant, license holder, or an affiliated controlling individual has:

369.12 (1) been disqualified and the disqualification was not set aside and no variance has been

369.15 (3) had a license issued under this chapter or chapter 245A revoked within the past five
369.16 years; or

369.17 (4) failed to submit the information required of an applicant under subdivision 1,
369.18 paragraph (f), (g), or (h), after being requested by the commissioner.

369.19 When a license issued under this chapter or chapter 245A is revoked, the license holder
369.20 and each affiliated controlling individual with a revoked license may not hold any license
369.21 under chapter 142B for five years following the revocation, and other licenses held by the
369.22 applicant or license holder or licenses affiliated with each controlling individual shall also
369.23 be revoked.

369.24 (e) Notwithstanding paragraph (d), the commissioner may elect not to revoke a license
369.25 affiliated with a license holder or controlling individual that had a license revoked within
369.26 the past five years if the commissioner determines that (1) the license holder or controlling
369.27 individual is operating the program in substantial compliance with applicable laws and rules
369.28 and (2) the program's continued operation is in the best interests of the community being
369.29 served.

369.30 (f) Notwithstanding paragraph (d), the commissioner may issue a new license in response
369.31 to an application that is affiliated with an applicant, license holder, or controlling individual
369.32 that had an application denied within the past two years or a license revoked within the past

370.1 five years if the commissioner determines that (1) the applicant or controlling individual
370.2 has operated one or more programs in substantial compliance with applicable laws and rules
370.3 and (2) the program's operation would be in the best interests of the community to be served.

370.4 (g) In determining whether a program's operation would be in the best interests of the
370.5 community to be served, the commissioner shall consider factors such as the number of
370.6 persons served, the availability of alternative services available in the surrounding
370.7 community, the management structure of the program, whether the program provides
370.8 culturally specific services, and other relevant factors.

370.9 (h) The commissioner shall not issue or reissue a license under this chapter if an individual
370.10 living in the household where the services will be provided as specified under section
370.11 245C.03, subdivision 1, has been disqualified and the disqualification has not been set aside
370.12 and no variance has been granted.

370.13 (i) Pursuant to section 142B.18, subdivision 1, paragraph (b), when a license issued
370.14 under this chapter has been suspended or revoked and the suspension or revocation is under
370.15 appeal, the program may continue to operate pending a final order from the commissioner.
370.16 If the license under suspension or revocation will expire before a final order is issued, a
370.17 temporary provisional license may be issued provided any applicable license fee is paid
370.18 before the temporary provisional license is issued.

370.19 (j) Notwithstanding paragraph (i), when a revocation is based on the disqualification of
370.20 a controlling individual or license holder, and the controlling individual or license holder
370.21 is ordered under section 245C.17 to be immediately removed from direct contact with
370.22 persons receiving services or is ordered to be under continuous, direct supervision when
370.23 providing direct contact services, the program may continue to operate only if the program
370.24 complies with the order and submits documentation demonstrating compliance with the
370.25 order. If the disqualified individual fails to submit a timely request for reconsideration, or
370.26 if the disqualification is not set aside and no variance is granted, the order to immediately
370.27 remove the individual from direct contact or to be under continuous, direct supervision
370.28 remains in effect pending the outcome of a hearing and final order from the commissioner.

370.29 (k) For purposes of reimbursement for meals only, under the Child and Adult Care Food
370.30 Program, Code of Federal Regulations, title 7, subtitle B, chapter II, subchapter A, part 226,
370.31 relocation within the same county by a licensed family day care provider, shall be considered
370.32 an extension of the license for a period of no more than 30 calendar days or until the new
370.33 license is issued, whichever occurs first, provided the county agency has determined the
370.34 family day care provider meets licensure requirements at the new location.

(l) Unless otherwise specified by statute, all licenses issued under this chapter expire at 12:01 a.m. on the day after the expiration date stated on the license. A license holder must ~~apply for and be granted~~ comply with the requirements in section 142B.12 and be reissued a new license to operate the program or the program must not be operated after the expiration date. Child foster care license holders must apply for and be granted a new license to operate the program or the program must not be operated after the expiration date. Upon implementation of the provider licensing and reporting hub, licenses may be issued each calendar year.

(m) The commissioner shall not issue or reissue a license under this chapter if it has been determined that a tribal licensing authority has established jurisdiction to license the program or service.

(n) The commissioner of children, youth, and families shall coordinate and share data with the commissioner of human services to enforce this section.

Sec. 3. Minnesota Statutes 2024, section 142B.16, subdivision 2, is amended to read:

Subd. 2. **Reconsideration of correction orders.** (a) If the applicant or license holder believes that the contents of the commissioner's correction order are in error, the applicant or license holder may ask the Department of Children, Youth, and Families to reconsider the parts of the correction order that are alleged to be in error. The request for reconsideration must be made in writing and must be postmarked and sent to the commissioner within 20 calendar days after receipt of the correction order under this paragraph, or receipt of the interpretive guidance under paragraph (d), by the applicant or license holder or submitted in the provider licensing and reporting hub within 20 calendar days from the date the commissioner issued the order under this paragraph, or provided the interpretive guidance under paragraph (d), through the hub, and:

(1) specify the parts of the correction order that are alleged to be in error;

(2) explain why they are in error; and

(3) include documentation to support the allegation of error.

(b) Upon implementation of the provider licensing and reporting hub, the provider must use the hub to request reconsideration under this paragraph, or to request interpretive guidance under paragraph (d). A request for reconsideration does not stay any provisions or requirements of the correction order. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14.

~~(b)~~ (c) This paragraph applies only to licensed family child care providers. A licensed family child care provider who requests reconsideration of a correction order under paragraph (a) may also request, on a form and in the manner prescribed by the commissioner, that the commissioner expedite the review if:

(1) the provider is challenging a violation and provides a description of how complying with the corrective action for that violation would require the substantial expenditure of funds or a significant change to their program; and

(2) describes what actions the provider will take in lieu of the corrective action ordered to ensure the health and safety of children in care pending the commissioner's review of the correction order.

(d) Prior to a request for reconsideration under paragraph (a), if the applicant or license holder believes that the applicable rule or statute is ambiguous or the commissioner's interpretation of the applicable rule or statute is in error, the applicant or license holder may ask the Department of Children, Youth, and Families to provide interpretive guidance on the applicable rule or statute underlying the correction order.

(e) The commissioner must not publicly post the correction order for licensed child care centers or licensed family child care providers on the department's website until:

(1) after the 20-calendar-day period for requesting reconsideration; or

(2) if the applicant or license holder requested reconsideration, after the commissioner's disposition of a request for reconsideration is provided to the applicant or license holder.

EFFECTIVE DATE. This section is effective July 1, 2026, except that paragraph (e) is effective January 1, 2026, or upon federal approval, whichever is later. The commissioner of children, youth, and families must notify the revisor of statutes when federal approval is obtained.

Sec. 4. Minnesota Statutes 2024, section 142B.16, subdivision 5, is amended to read:

When the order of conditional license is accompanied by a maltreatment investigation memorandum prepared under section 626.557 or chapter 260E, the investigation memoranda must be posted with the order of

373.1 conditional license, and the license holder must post both in a place that is conspicuous to

373.5 142B.16, the commissioner shall provide documented technical assistance to a family child
373.6 care or child care center license holder if the commissioner finds that:

373.7 (1) the license holder has failed to comply with a requirement in this chapter or Minnesota
373.8 Rules, chapter 9502 or 9503, that the commissioner determines to be low risk as determined
373.9 by the child care weighted risk system;

373.10 (2) the noncompliance does not imminently endanger the health, safety, or rights of the
373.11 persons served by the program; and

373.12 (3) the license holder did not receive documented technical assistance or a correction
373.13 order for the same violation at the license holder's most recent annual licensing inspection.

373.14 (b) Documented technical assistance must include communication from the commissioner
373.15 to the license holder that:

373.16 (1) states the conditions that constitute a violation of a law or rule;

373.17 (2) references the specific law or rule violated; and

373.18 (3) explains remedies for correcting the violation.

373.19 ~~(c) The commissioner shall not publicly publish documented technical assistance on the~~
373.20 ~~department's website.~~

373.21 Sec. 6. Minnesota Statutes 2024, section 142B.18, subdivision 6, is amended to read:

373.26 immediate suspension, fine, or revocation by the license holder, the license holder shall
373.27 post the order of license suspension, temporary immediate suspension, fine, or revocation
373.28 in a place that is conspicuous to the people receiving services and all visitors to the facility
373.29 for two years. When the order of license suspension, temporary immediate suspension, fine,
373.30 or revocation is accompanied by a maltreatment investigation memorandum prepared under
373.31 section 626.557 or chapter 260E, the investigation memoranda must be posted with the

374.1 order of license suspension, temporary immediate suspension, fine, or revocation, and the
374.2 license holder must post both in a place that is conspicuous to the people receiving services
374.3 and all visitors to the facility for four years.

374.22 (b) The commissioners of human services and children, youth, and families must both
374.23 approve a variance for dual licensure of family child foster care and family adult foster care
374.24 or family adult foster care and family child care. Variances under this paragraph are excluded

374.26 (c) Except as provided in section 142B.41, subdivision 4, paragraph (e), a county agency
374.27 must not grant a license holder a variance to exceed the maximum allowable family child

Sec. 3. Minnesota Statutes 2024, section 245.095, is amended by adding a subdivision to read:

Subd. 6. Data practices. The commissioner may exchange information, including claims data, with state or federal agencies, professional boards, departments, or programs for the purpose of investigating or prosecuting a criminal, civil, or administrative proceeding related to suspected fraud or exclusion from any program administered by a state or federal agency.

417.1 Sec. 4. Minnesota Statutes 2024, section 245A.04, subdivision 1, as amended by Laws
417.2 2025, chapter 38, article 5, section 5, is amended to read:

417.3 Subdivision 1. **Application for licensure.** (a) An individual, organization, or government
417.4 entity that is subject to licensure under section 245A.03 must apply for a license. The
417.5 application must be made on the forms and in the manner prescribed by the commissioner.
417.6 The commissioner shall provide the applicant with instruction in completing the application
417.7 and provide information about the rules and requirements of other state agencies that affect
417.8 the applicant. An applicant seeking licensure in Minnesota with headquarters outside of
417.9 Minnesota must have a program office located within 30 miles of the Minnesota border.
417.10 An applicant who intends to buy or otherwise acquire a program or services licensed under
417.11 this chapter that is owned by another license holder must apply for a license under this
417.12 chapter and comply with the application procedures in this section and section 245A.043.

417.13 The commissioner shall act on the application within 90 working days after a complete
417.14 application and any required reports have been received from other state agencies or
417.15 departments, counties, municipalities, or other political subdivisions. The commissioner
417.16 shall not consider an application to be complete until the commissioner receives all of the
417.17 required information. If the applicant or a controlling individual is the subject of a pending
417.18 administrative, civil, or criminal investigation, the application is not complete until the
417.19 investigation has closed or the related legal proceedings are complete.

417.20 When the commissioner receives an application for initial licensure that is incomplete
417.21 because the applicant failed to submit required documents or that is substantially deficient
417.22 because the documents submitted do not meet licensing requirements, the commissioner
417.23 shall provide the applicant written notice that the application is incomplete or substantially
417.24 deficient. In the written notice to the applicant the commissioner shall identify documents
417.25 that are missing or deficient and give the applicant 45 days to resubmit a second application
417.26 that is substantially complete. An applicant's failure to submit a substantially complete
417.27 application after receiving notice from the commissioner is a basis for license denial under
417.28 section 245A.043.

417.29 (b) An application for licensure must identify all controlling individuals as defined in
417.30 section 245A.02, subdivision 5a, and must designate one individual to be the authorized
417.31 agent. The application must be signed by the authorized agent and must include the authorized
417.32 agent's first, middle, and last name; mailing address; and email address. By submitting an
417.33 application for licensure, the authorized agent consents to electronic communication with
417.34 the commissioner throughout the application process. The authorized agent must be
417.35 authorized to accept service on behalf of all of the controlling individuals. A government

entity that holds multiple licenses under this chapter may designate one authorized agent for all licenses issued under this chapter or may designate a different authorized agent for each license. Service on the authorized agent is service on all of the controlling individuals. It is not a defense to any action arising under this chapter that service was not made on each controlling individual. The designation of a controlling individual as the authorized agent under this paragraph does not affect the legal responsibility of any other controlling individual under this chapter.

(c) An applicant or license holder must have a policy that prohibits license holders, employees, subcontractors, and volunteers, when directly responsible for persons served by the program, from abusing prescription medication or being in any manner under the influence of a chemical that impairs the individual's ability to provide services or care. The license holder must train employees, subcontractors, and volunteers about the program's drug and alcohol policy before the employee, subcontractor, or volunteer has direct contact, as defined in section 245C.02, subdivision 11, with a person served by the program.

(d) An applicant and license holder must have a program grievance procedure that permits persons served by the program and their authorized representatives to bring a grievance to the highest level of authority in the program.

(e) The commissioner may limit communication during the application process to the authorized agent or the controlling individuals identified on the license application and for whom a background study was initiated under chapter 245C. Upon implementation of the provider licensing and reporting hub, applicants and license holders must use the hub in the manner prescribed by the commissioner. The commissioner may require the applicant, except for child foster care, to demonstrate competence in the applicable licensing requirements by successfully completing a written examination. The commissioner may develop a prescribed written examination format.

(f) When an applicant is an individual, the applicant must provide:

(1) the applicant's taxpayer identification numbers including the Social Security number or Minnesota tax identification number, and federal employer identification number if the applicant has employees;

(2) at the request of the commissioner, a copy of the most recent filing with the secretary of state that includes the complete business name, if any;

(3) if doing business under a different name, the doing business as (DBA) name, as registered with the secretary of state;

419.1 (4) if applicable, the applicant's National Provider Identifier (NPI) number and Unique
419.2 Minnesota Provider Identifier (UMPI) number; and

419.3 (5) at the request of the commissioner, the notarized signature of the applicant or
419.4 authorized agent.

419.5 (g) When an applicant is an organization, the applicant must provide:

419.6 (1) the applicant's taxpayer identification numbers including the Minnesota tax
419.7 identification number and federal employer identification number;

419.8 (2) at the request of the commissioner, a copy of the most recent filing with the secretary
419.9 of state that includes the complete business name, and if doing business under a different
419.10 name, the doing business as (DBA) name, as registered with the secretary of state;

419.11 (3) the first, middle, and last name, and address for all individuals who will be controlling
419.12 individuals, including all officers, owners, and managerial officials as defined in section
419.13 245A.02, subdivision 5a, and the date that the background study was initiated by the applicant
419.14 for each controlling individual;

419.15 (4) if applicable, the applicant's NPI number and UMPI number;

419.16 (5) the documents that created the organization and that determine the organization's
419.17 internal governance and the relations among the persons that own the organization, have
419.18 an interest in the organization, or are members of the organization, in each case as provided
419.19 or authorized by the organization's governing statute, which may include a partnership
419.20 agreement, bylaws, articles of organization, organizational chart, and operating agreement,
419.21 or comparable documents as provided in the organization's governing statute; and

419.22 (6) the notarized signature of the applicant or authorized agent.

419.23 (h) When the applicant is a government entity, the applicant must provide:

419.24 (1) the name of the government agency, political subdivision, or other unit of government
419.25 seeking the license and the name of the program or services that will be licensed;

419.26 (2) the applicant's taxpayer identification numbers including the Minnesota tax
419.27 identification number and federal employer identification number;

419.28 (3) a letter signed by the manager, administrator, or other executive of the government
419.29 entity authorizing the submission of the license application; and

419.30 (4) if applicable, the applicant's NPI number and UMPI number.

(i) At the time of application for licensure or renewal of a license under this chapter, the applicant or license holder must acknowledge on the form provided by the commissioner if the applicant or license holder elects to receive any public funding reimbursement from the commissioner for services provided under the license that:

(1) the applicant's or license holder's compliance with the provider enrollment agreement or registration requirements for receipt of public funding may be monitored by the commissioner as part of a licensing investigation or licensing inspection; and

(2) noncompliance with the provider enrollment agreement or registration requirements for receipt of public funding that is identified through a licensing investigation or licensing inspection, or noncompliance with a licensing requirement that is a basis of enrollment for reimbursement for a service, may result in:

(i) a correction order or a conditional license under section 245A.06, or sanctions under section 245A.07;

(ii) nonpayment of claims submitted by the license holder for public program reimbursement;

(iii) recovery of payments made for the service;

(iv) disenrollment in the public payment program; or

(v) other administrative, civil, or criminal penalties as provided by law.

Sec. 5. Minnesota Statutes 2024, section 245A.05, is amended to read:

(b) An applicant whose application has been denied by the commissioner must be given notice of the denial, which must state the reasons for the denial in plain language. Notice must be given by certified mail, by personal service, or through the provider licensing and reporting hub. The notice must state the reasons the application was denied and must inform the applicant of the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The applicant may appeal the denial by notifying the commissioner in writing by certified mail, by personal service, or through the provider licensing and reporting hub. (2) if a provider fails to submit all required materials by the due date, notify the provider of the deficiency within 30 days after the due date and allow the provider an additional 30 days from the notification date to comply; and

(3) if a provider fails to remedy a deficiency within the 30-day time period, give 60-day notice of termination and immediately suspend the provider's ability to bill. The provider does not have the right to appeal suspension of ability to bill.

(d) If a provider fails to comply with any individual provider requirement or condition of participation, the commissioner may suspend the provider's ability to bill until the provider comes into compliance. The commissioner's decision to suspend the provider is not subject to an administrative appeal.

(e) Correspondence and notifications, including notifications of termination and other actions, may be delivered electronically to a provider's MN-ITS mailbox. This paragraph does not apply to correspondences and notifications related to background studies.

(f) If the commissioner or the Centers for Medicare and Medicaid Services determines that a provider is designated "high-risk," the commissioner may withhold payment from providers within that category upon initial enrollment for a 90-day period. The withholding for each provider must begin on the date of the first submission of a claim.

(g) An enrolled provider that is also licensed by the commissioner under chapter 245A, is licensed as a home care provider by the Department of Health under chapter 144A, or is licensed as an assisted living facility under chapter 144G and has a home and community-based services designation on the home care license under section 144A.484, must designate an individual as the entity's compliance officer. The compliance officer must:

(2) train the employees of the provider entity, and any agents or subcontractors of the provider entity including billers, on the policies and procedures under clause (1);

425.6 The commissioner may require, as a condition of enrollment in medical assistance, that a
425.7 provider within a particular industry sector or category establish a compliance program that
425.8 contains the core elements established by the Centers for Medicare and Medicaid Services.

425.9 (h) The commissioner may revoke the enrollment of an ordering or rendering provider
425.10 for a period of not more than one year, if the provider fails to maintain and, upon request
425.11 from the commissioner, provide access to documentation relating to written orders or requests
425.12 for payment for durable medical equipment, certifications for home health services, or
425.13 referrals for other items or services written or ordered by such provider, when the
425.14 commissioner has identified a pattern of a lack of documentation. A pattern means a failure
425.15 to maintain documentation or provide access to documentation on more than one occasion.
425.16 Nothing in this paragraph limits the authority of the commissioner to sanction a provider
425.17 under the provisions of section 256B.064.

425.18 (i) The commissioner shall terminate or deny the enrollment of any individual or entity
425.19 if the individual or entity has been terminated from participation in Medicare or under the
425.20 Medicaid program or Children's Health Insurance Program of any other state. The
425.21 commissioner may exempt a rehabilitation agency from termination or denial that would
425.22 otherwise be required under this paragraph, if the agency:

425.23 (1) is unable to retain Medicare certification and enrollment solely due to a lack of billing
425.24 to the Medicare program;

425.25 (2) meets all other applicable Medicare certification requirements based on an on-site
425.26 review completed by the commissioner of health; and

425.27 (3) serves primarily a pediatric population.

425.28 (j) As a condition of enrollment in medical assistance, the commissioner shall require
425.29 that a provider designated "moderate" or "high-risk" by the Centers for Medicare and
425.30 Medicaid Services or the commissioner permit the Centers for Medicare and Medicaid
425.31 Services, its agents, or its designated contractors and the state agency, its agents, or its
425.32 designated contractors to conduct unannounced on-site inspections of any provider location.
425.33 The commissioner shall publish in the Minnesota Health Care Program Provider Manual a

426.1 list of provider types designated "limited," "moderate," or "high-risk," based on the criteria
426.2 and standards used to designate Medicare providers in Code of Federal Regulations, title
426.3 42, section 424.518. The list and criteria are not subject to the requirements of chapter 14.
426.4 The commissioner's designations are not subject to administrative appeal.

426.5 (k) As a condition of enrollment in medical assistance, the commissioner shall require
426.6 that a high-risk provider, or a person with a direct or indirect ownership interest in the
426.7 provider of five percent or higher, consent to criminal background checks, including
426.8 fingerprinting, when required to do so under state law or by a determination by the
426.9 commissioner or the Centers for Medicare and Medicaid Services that a provider is designated
426.10 high-risk for fraud, waste, or abuse.

426.11 (l)(1) Upon initial enrollment, reenrollment, and notification of revalidation, all durable
426.12 medical equipment, prosthetics, orthotics, and supplies (DMEPOS) medical suppliers
426.13 meeting the durable medical equipment provider and supplier definition in clause (3),
426.14 operating in Minnesota and receiving Medicaid funds must purchase a surety bond that is
426.15 annually renewed and designates the Minnesota Department of Human Services as the
426.16 obligee, and must be submitted in a form approved by the commissioner. For purposes of
426.17 this clause, the following medical suppliers are not required to obtain a surety bond: a
426.18 federally qualified health center, a home health agency, the Indian Health Service, a
426.19 pharmacy, and a rural health clinic.

426.20 (2) At the time of initial enrollment or reenrollment, durable medical equipment providers
426.21 and suppliers defined in clause (3) must purchase a surety bond of \$50,000. If a revalidating
426.22 provider's Medicaid revenue in the previous calendar year is up to and including \$300,000,
426.23 the provider agency must purchase a surety bond of \$50,000. If a revalidating provider's
426.24 Medicaid revenue in the previous calendar year is over \$300,000, the provider agency must
426.25 purchase a surety bond of \$100,000. The surety bond must allow for recovery of costs and
426.26 fees in pursuing a claim on the bond. Any action to obtain monetary recovery or sanctions
426.27 from a surety bond must occur within six years from the date the debt is affirmed by a final
426.28 agency decision. An agency decision is final when the right to appeal the debt has been
426.29 exhausted or the time to appeal has expired under section 256B.064.

426.30 (3) "Durable medical equipment provider or supplier" means a medical supplier that can
426.31 purchase medical equipment or supplies for sale or rental to the general public and is able
426.32 to perform or arrange for necessary repairs to and maintenance of equipment offered for
426.33 sale or rental.

(m) The Department of Human Services may require a provider to purchase a surety bond as a condition of initial enrollment, reenrollment, reinstatement, or continued enrollment if: (1) the provider fails to demonstrate financial viability, (2) the department determines there is significant evidence of or potential for fraud and abuse by the provider, or (3) the provider or category of providers is designated high-risk pursuant to paragraph (f) and as per Code of Federal Regulations, title 42, section 455.450. The surety bond must be in an amount of \$100,000 or ten percent of the provider's payments from Medicaid during the immediately preceding 12 months, whichever is greater. The surety bond must name the Department of Human Services as an obligee and must allow for recovery of costs and fees in pursuing a claim on the bond. This paragraph does not apply if the provider currently maintains a surety bond under the requirements in section 256B.0659 or 256B.85.

148.6420 APPLICATION REQUIREMENTS.

Subd. 2. **Persons applying for licensure under section 148.6408 or 148.6410.** Persons applying for licensure under section 148.6408 or 148.6410 must submit the materials required in subdivision 1 and the following:

(1) a certificate of successful completion of the requirements in section 148.6408, subdivision 1, or 148.6410, subdivision 1; and

(2) the applicant's test results from the examining agency, as evidence that the applicant received a qualifying score on a credentialing examination meeting the requirements of section 148.6408, subdivision 2, or 148.6410, subdivision 2.

(1) verified documentation from the National Board for Certification in Occupational Therapy stating that the applicant is certified as an occupational therapist, registered or certified occupational therapy assistant, the date certification was granted, and the applicant's certification number. Except as provided in section 148.6418, a license must not be issued until the board receives verification of each of the applicant's credentials. Each verification must include the applicant's name and date of birth, credential number and date of issuance, a statement regarding investigations pending and disciplinary actions taken or pending against the applicant, current status of the credential, and the terms under which the credential was issued.

148.6423 LICENSURE RENEWAL.

Subd. 4. License renewal cycle conversion. The license renewal cycle for occupational therapy licensees is converted to a two-year cycle where renewal is due on the last day of the licensee's month of birth. Conversion pursuant to this section begins January 1, 2021. This section governs license renewal procedures for licensees who were licensed before December 31, 2020. The conversion renewal cycle is the renewal cycle following the first license renewal after January 1, 2020. The conversion license period is the license period for the conversion renewal cycle. The conversion license period is between 13 and 24 months and ends on the last day of the licensee's month of birth in either 2022 or 2023, as described in subdivision 5.

Subd. 5. Conversion of license renewal cycle for current licensees. For a licensee whose license is current as of December 31, 2020, the licensee's conversion license period begins on January 1, 2021, and ends on the last day of the licensee's month of birth in 2023, except that for licensees whose month of birth is January, February, March, April, May, or June, the licensee's renewal cycle ends on the last day of the licensee's month of birth in 2022.

Subd. 7. Subsequent renewal cycles. After the licensee's conversion renewal cycle under subdivision 5 or 6, subsequent renewal cycles are biennial and begin on the first day of the month following the licensee's birth month.

Subd. 8. Conversion period and fees. (a) A licensee who holds a license issued before January 1, 2021, and who renews that license pursuant to subdivision 5 or 6, must pay a renewal fee as required in this subdivision.

(b) A licensee must be charged the biennial license fee listed in section 148.6445 for the conversion license period.

(c) For a licensee whose conversion license period is 13 to 24 months, the first biennial license fee charged after the conversion license period must be adjusted to credit the excess fee payment made during the conversion license period. The credit is calculated by:

- (1) subtracting the number of months of the licensee's conversion license period from 24; and
- (2) multiplying the result of clause (1) by 1/24 of the biennial fee rounded up to the next dollar.

(d) For a licensee whose conversion license period is 24 months, the first biennial license fee charged after the conversion license period must not be adjusted.

(e) For the second and all subsequent license renewals made after the conversion license period, the licensee's biennial license fee is as listed in section 148.6445.

(4) at the time of the next licensure renewal, proof of having met the continuing education requirement, which shall be prorated based on the number of months licensed during the two-year licensure period.

(b) In addition to the requirements in paragraph (a), the applicant must submit proof of one of the following:

(1) verified documentation of successful completion of 160 hours of supervised practice approved by the board as described in paragraph (c);

(2) verified documentation of having achieved a qualifying score on the credentialing examination for occupational therapists or the credentialing examination for occupational therapy assistants administered within the past year;

(3) documentation of having completed a combination of occupational therapy courses or an occupational therapy refresher program that contains both a theoretical and clinical component approved by the board. Only courses completed within one year preceding the date of the application or one year after the date of the application qualify for approval; or

(4) evidence that the applicant holds a current and unrestricted credential for the practice of occupational therapy in another jurisdiction and that the applicant's credential from that jurisdiction has been held in good standing during the period of lapse.

(c) To participate in a supervised practice as described in paragraph (b), clause (1), the applicant shall obtain limited licensure. To apply for limited licensure, the applicant shall submit the completed limited licensure application, fees, and agreement for supervision of an occupational therapist or occupational therapy assistant practicing under limited licensure signed by the supervising therapist and the applicant. The supervising therapist shall document the supervision provided. The occupational therapist participating in a supervised practice is responsible for obtaining the supervision required under this paragraph and must comply with the board's requirements for supervision during the entire 160 hours of supervised practice. The supervised practice must be completed in two months and may be completed at the applicant's place of work.

(d) In addition to the requirements in paragraphs (a) and (b), the applicant must submit additional information as requested by the board to clarify information in the application, including information to determine whether the applicant has engaged in conduct warranting disciplinary action as set forth in section 148.6448. The information must be submitted within 30 days after the board's request.

9100.0400 APPLICATION AND EXAMINATION FEES FOR LICENSURE TO PRACTICE VETERINARY MEDICINE.

Subpart 1. Application fee.

A. A person applying for a license to practice veterinary medicine in Minnesota or applying for a permit to take the national veterinary medical examination must pay a \$50 nonrefundable application fee to the board. Persons submitting concurrent applications for licensure and a national examination permit shall pay only one application fee.

B. The application fee received supports only the application with which the fee was submitted. A person who applies more than once must submit the full application fee with each subsequent application.

Subp. 3. Examination fees.

A. All applicants for veterinary licensure in Minnesota must successfully pass the Minnesota Veterinary Jurisprudence Examination. The fee for this examination is \$50, payable to the board.

B. An applicant participating in the national veterinary licensing examination must complete a separate application for the national examination and submit the application to the board for approval. Payment for the national examination must be made by the applicant to the national board examination committee after the application for examination has been approved by the board.

9100.0500 INITIAL AND RENEWAL FEE.

Subpart 1. **Required for licensure.** Each person now licensed to practice veterinary medicine in this state, or who becomes licensed by the Board of Veterinary Medicine to engage in the practice, shall pay an initial fee or a biennial license renewal fee if the person wishes to practice veterinary medicine in the coming two-year period or remain licensed as a veterinarian. A licensure period begins on March 1 and expires the last day of February two years later. A licensee with an even-numbered license shall renew by March 1 of even-numbered years and a licensee with an odd-numbered license shall renew by March 1 of odd-numbered years. For 1996 license renewals, licensees with an even-numbered license shall renew for two years. Licensees with an odd-numbered license shall renew for one year and commence renewal for a two-year period in 1997.

Subp. 2. **Amount.** The initial licensure fee and the biennial renewal fee is \$200 and must be paid to the executive director of the board on or before March 1 of the first year of the biennial license period. By January 1 of the first year for which the biennial renewal fee is due, the board shall issue a renewal application to each current licensee to the last address maintained in the board file. Failure to receive this notice does not relieve the licensee of the obligation to pay renewal fees so that they are received by the board on or before the renewal date of March 1.

Initial licenses issued after the start of the licensure renewal period are valid only until the end of the period.

Subp. 3. **Date due.** A licensee must apply for a renewal license on or before March 1 of the first year of the biennial license renewal period. A renewal license is valid from March 1 through the last day of February of the last year of the two-year license renewal period. An application postmarked no later than the last day of February must be considered to have been received on March 1.

Subp. 4. **Late renewal penalty.** An applicant for renewal must pay a late renewal penalty of \$100 in addition to the renewal fee if the application for renewal is received after March 1 of the licensure renewal period. A renewed license issued after March 1 of the licensure renewal period is valid only to the end of the period regardless of when the renewal fee is received.

Subp. 4a. **Reinstatement fee.** An applicant for license renewal whose license has previously been suspended by official board action for nonrenewal must pay a reinstatement fee of \$50 in addition to the \$200 renewal fee and the \$100 late renewal penalty.

Subp. 5. **Penalty for failure to pay.** Within 30 days after the renewal date, a licensee who has not renewed the license must be notified by letter sent to the last known address of the licensee in the file of the board that the renewal is overdue and that failure to pay the current fee and current late fee within 60 days after the renewal date will result in suspension of the license. A second notice must be sent by registered or certified mail at least seven

days before a board meeting occurring 60 days or more after the renewal date to each licensee who has not paid the renewal fee and late fee.

Subp. 6. **Suspension.** The board, by means of a roll call vote, shall suspend the license of a licensee whose license renewal is at least 60 days overdue and to whom notification has been sent as provided in subpart 5. Failure of a licensee to receive notification is not grounds for later challenge by the licensee of the suspension. The former licensee must be notified by registered or certified letter within seven days of the board action. The suspended status placed on a license may be removed only on payment of renewal fees and late penalty fees for each licensure period or part of a period that the license was not renewed. A licensee who fails to renew a license for five years or more must meet the criteria of Minnesota Statutes, section 156.071, for relicensure.

Subp. 7. **Inactive license.** A person holding a current unrestricted license to practice veterinary medicine in Minnesota may, at the time of the person's next biennial license renewal date, renew the license as an inactive license at one-half the renewal fee of an unrestricted license. The license may be continued in an inactive status by renewal on a biennial basis at one-half the regular license fee.

A. A person holding an inactive license is not permitted to practice veterinary medicine in Minnesota and remains under the disciplinary authority of the board.

B. A person may convert a current inactive license to an unrestricted license upon application to and approval by the board. The application must include:

(1) documentation of licensure in good standing and of having met continuing education requirements of current state of practice, or documentation of having met Minnesota continuing education requirements retroactive to the date of licensure inactivation;

(2) certification by the applicant that the applicant is not currently under disciplinary orders or investigation for acts that could result in disciplinary action in any other jurisdiction; and

(3) payment of a fee equal to the full difference between an inactive and unrestricted license if converting during the first year of the biennial license cycle or payment of a fee equal to one-half the difference between an inactive and an unrestricted license if converting during the second year of the license cycle.

C. Deadline for renewal of an inactive license is March 1 of the first year of the biennial license renewal period. A late renewal penalty of one-half the inactive renewal fee must be paid if renewal is received after March 1.

9100.0600 MISCELLANEOUS FEES.

Subpart 1. **Temporary license fee.** A person meeting the requirements for issuance of a temporary permit to practice veterinary medicine under Minnesota Statutes, section 156.072, subdivision 5, pending examination, who desires a temporary permit shall pay a fee of \$50 to the board.

Subp. 2. **Duplicate license.** A person requesting issuance of a duplicate or replacement license shall pay a fee of \$10 to the board.
