8.28 (b) Except as provided in section 342.22, a local unit of government may not prohibit
 8.29 the establishment or operation of a cannabis business or hemp business licensed under this
 8.30 chapter.

9.1 (c) By ordinance, a local unit of government may adopt reasonable restrictions on the
 9.2 time, place, and manner of the operation of a cannabis business provided that such restrictions
 9.3 do not prohibit the establishment or operation of cannabis businesses. A local unit of
 9.4 government may prohibit the operation of a cannabis business within 1,000 feet of a school,
 9.5 or 500 feet of a day care, a residential treatment facility, congregate housing for children,

9.15 ~~(e) If a local unit of government is conducting studies or has authorized a study to be~~

 9.17 ~~or amendment of reasonable restrictions on the time, place, and manner of the operation of~~
 9.18 ~~a cannabis business, the governing body of the local unit of government may adopt an~~
 9.19 ~~interim ordinance applicable to all or part of its jurisdiction for the purpose of protecting~~

 9.22 ~~may regulate, restrict, or prohibit the operation of a cannabis business within the jurisdiction~~
 9.23 ~~or a portion thereof until January 1, 2025.~~

9.24 ~~(f)~~ (e) Within 30 days of receiving a copy of an application from the office, a local unit
 9.25 of government shall certify on a form provided by the office whether a proposed cannabis
 9.26 business complies with local zoning ordinances and, if applicable, whether the proposed

10.3 ~~(g)~~ (f) The office by rule shall establish an expedited complaint process to receive,

 10.6 an initial response to the complaint within seven days and perform any necessary inspections
 10.7 within 30 days. Nothing in this paragraph prohibits a local unit of government from enforcing
 10.8 a local ordinance. If a local unit of government notifies the office that a cannabis business
 10.9 other than a cannabis retailer, cannabis microbusiness, cannabis mezzobusiness or
 10.10 lower-potency hemp edible retailer with a retail operations endorsement, or medical cannabis
 10.11 combination business operating a retail location poses an immediate threat to the health or
 10.12 safety of the public, the office must respond within one business day and may take any
 10.13 action described in section 342.19 or 342.21.

10.14 ~~(h)~~ (g) A local government unit that issues a cannabis retailer registration under section

 10.18 After each increment of 12,500 residents, the number of required registrations must be
 10.19 rounded up to the next whole number of registrations.

10.20 ~~(i) If a county has one active registration for every 12,500 residents, a city or town within~~
 10.21 ~~the county is not obligated to register a cannabis business.~~

10.22 (h) A county that has consent from a city or town to issue retail registrations for the
 10.23 jurisdiction according to section 342.22, subdivision 1, may develop a process, in consultation
 10.24 with the consenting city or town, for issuing retail registrations throughout the county that
 10.25 meets the required minimum in paragraph (g) and limits the number of registrations allowed
 10.26 in each city or town that has delegated authority to the county.

10.27 ~~(i)~~ (i) Nothing in this section shall prohibit a local government unit from allowing licensed
 10.28 cannabis retailers in excess of the minimums set in paragraph ~~(h)~~ (g).

10.29 ~~(j)~~ (j) Notwithstanding the foregoing provisions, the state shall not issue a license to
 10.30 any cannabis business to operate in Indian country, as defined in United States Code, title

11.11 2;

11.12 (5) the application does not meet the minimum requirements under section 342.18,
11.13 subdivision 3;

11.14 (6) the applicant fails to pay the applicable application fee;

11.15 (7) the application was not submitted by the application deadline;

11.16 (8) the applicant submitted more than one application for a license type; or

11.17 (9) the office determines that the applicant would be prohibited from holding a license
11.18 for any other reason.

11.19 (c) If the office denies an application, the office must notify the applicant of the denial
11.20 and the basis for the denial.

11.21 (d) The office may request additional information from any applicant if the office
11.22 determines that the information is necessary to review or process the application. If the
11.23 applicant does not provide the additional requested information within 14 calendar days of

58.2 ~~the relocation of an approved operational location, including a cultivation, manufacturing,~~
58.3 ~~processing, or retail location; adopt requirements for the submission of a license relocation~~
58.4 ~~application; establish standards for the approval of a relocation application; and charge a~~
58.5 ~~fee not to exceed \$250 for reviewing and processing applications. Relocation of a licensed~~
58.6 ~~premises pursuant to this paragraph does not extend or otherwise modify the license term~~
58.7 ~~of the license subject to relocation.~~

58.8 Subd. 2. License availability. (a) Beginning January 1, 2030, the office may determine
58.9 whether licenses are available for a license holder that is a cannabis microbusiness or
58.10 cannabis mezzobusiness to petition to reclassify the license holder as another type of business,
58.11 either as a cannabis mezzobusiness or cannabis macrobusiness.

58.12 (b) If the office determines that licenses are available, subject to section 342.14,
58.13 subdivision 1a, the office must announce the date on which the office will begin accepting
58.14 petitions from applicants seeking reclassification. When approving reclassification of a
58.15 license, the office must give priority to:

58.16 (1) any cannabis microbusiness with a medical retail endorsement that is seeking
58.17 reclassification; or

58.18 (2) any cannabis mezzobusiness with a medical endorsement that is seeking
58.19 reclassification.

58.20 (c) The office shall establish procedures for the processing of petitions to reclassify
58.21 under this subdivision. A license holder that seeks to reclassify its license as a cannabis
58.22 mezzobusiness or cannabis macrobusiness must include in its petition to reclassify at least
58.23 the following information, if applicable:

58.24 (1) its status as a social equity license holder;

58.25 (2) the number of medical endorsements held and a description of the manner in which
58.26 medical patients are provided services;

58.28 (4) a transition plan that describes how the license holder will comply with all statutes
58.29 and rules applicable to the reclassified license; and

58.30 (5) a description of the planned growth of the license holder up to the limits of the new
58.31 license type.

59.1 (d) After a license holder submits a petition to reclassify that contains all required
59.2 information, the office must review the petition. The office may deny a petition if:

59.3 (1) the petition is incomplete;

59.4 (2) the petition contains a materially false statement about the applicant or omits
59.5 information required under this subdivision;

59.6 (3) the license holder does not meet the qualifications under section 342.16;

59.7 (4) the license holder is prohibited from holding the license under section 342.18,
59.8 subdivision 2;

59.9 (5) the license holder does not meet the minimum requirements under section 342.18,
59.10 subdivision 3;

59.11 (6) the petition was not submitted by the petition deadline;

59.12 (7) the license holder has unpaid fines or fees or has engaged in substantial noncompliance
59.13 with this chapter; or

59.14 (8) the office determines that the applicant would be prohibited from holding a license
59.15 for any other reason.

59.16 (e) The office may request additional information from any license holder if the office
59.17 determines that the information is necessary to review or process the petition. If the license
59.18 holder does not provide the additional requested information within 14 calendar days of the
59.19 office's request for information, the office may deny the petition.

59.20 (f) If the office denies a petition, the office must notify the license holder of the denial
59.21 and the basis for the denial.

59.22 (g) A license holder whose petition is not denied under this subdivision is a qualified
59.23 petitioner. The office shall reclassify the license of all qualified petitioners holding a social
59.24 equity license. The number of reclassified licenses approved for social equity applicants
59.25 must be equal to or greater than the number of reclassified licenses approved for all
59.26 applicants. In the event the number of qualified petitioners not classified as social equity
59.27 license holders exceeds the number of qualified petitioners classified as social equity license
59.28 holders, the office shall select qualified petitioners using the methods in section 342.14,
59.29 subdivision 4.

59.30 (h) Reclassification according to this subdivision must not remove the social equity
59.31 license status from a social equity license.

60.1 (i) A license holder that submits a petition to reclassify its license may continue operations
60.2 pending office determination on the petition. A license holder that submits a petition to
60.3 reclassify its license that is denied retains their existing license.

60.4 Sec. 11. Minnesota Statutes 2025 Supplement, section 342.13, is amended to read:

60.5 **342.13 LOCAL CONTROL.**

60.6 (a) A local unit of government may not prohibit the possession, transportation, or use
60.7 of cannabis flower, cannabis products, lower-potency hemp edibles, or hemp-derived
60.8 consumer products authorized under this chapter.

60.9 (b) Except as provided in section 342.22, a local unit of government may not prohibit
60.10 the establishment or operation of a cannabis business or hemp business licensed under this
60.11 chapter.

60.12 (c) A local unit of government may adopt reasonable restrictions on the time, place, and
60.13 manner of the operation of a cannabis business provided that such restrictions do not prohibit
60.14 the establishment or operation of cannabis businesses. A local unit of government may
60.15 prohibit the operation of a cannabis business within 1,000 feet of a school, or 500 feet of a
60.16 day care, residential treatment facility, or an attraction within a public park that is regularly
60.17 used by minors, including a playground or athletic field.

60.18 (d) The office shall work with local units of government to:

60.19 (1) develop model ordinances for reasonable restrictions on the time, place, and manner
60.20 of the operation of a cannabis business;

60.21 (2) develop standardized forms and procedures for the issuance of a retail registration
60.22 pursuant to section 342.22; and

60.23 (3) develop model policies and procedures for the performance of compliance checks
60.24 required under section 342.22.

60.25 (e) If a local unit of government is conducting studies or has authorized a study to be
60.26 conducted or has held or has scheduled a hearing for the purpose of considering adoption
60.27 or amendment of reasonable restrictions on the time, place, and manner of the operation of
60.28 a cannabis business, the governing body of the local unit of government may adopt an
60.29 interim ordinance applicable to all or part of its jurisdiction for the purpose of protecting
60.30 the planning process and the health, safety, and welfare of its citizens. Before adopting the
60.31 interim ordinance, the governing body must hold a public hearing. The interim ordinance

61.1 may regulate, restrict, or prohibit the operation of a cannabis business within the jurisdiction
61.2 or a portion thereof until January 1, 2025.

61.3 (f) Within 30 days of receiving a copy of an application from the office, a local unit of
61.4 government shall certify on a form provided by the office whether a proposed cannabis
61.5 business complies with local zoning ordinances and, if applicable, whether the proposed
61.6 business complies with the state fire code and building code. The office may not issue a
61.7 license if the local unit of government informs the office that the cannabis business does
61.8 not meet local zoning and land use laws. If the local unit of government does not provide
61.9 the certification to the office within 30 days of receiving a copy of an application from the
61.10 office, the office may issue a license.

61.11 (g) The office by rule shall establish an expedited complaint process to receive, review,
61.12 and respond to complaints made by a local unit of government about a cannabis business.
61.13 At a minimum, the expedited complaint process shall require the office to provide an initial
61.14 response to the complaint within seven days and perform any necessary inspections within
61.15 30 days. Nothing in this paragraph prohibits a local unit of government from enforcing a
61.16 local ordinance. If a local unit of government notifies the office that a cannabis business
61.17 other than a cannabis retailer, cannabis microbusiness, cannabis mezzobusiness, cannabis
61.18 macrobusiness, or lower-potency hemp edible retailer with a retail operations endorsement,
61.19 ~~or medical cannabis combination business operating a retail location~~ poses an immediate
61.20 threat to the health or safety of the public, the office must respond within one business day
61.21 and may take any action described in section 342.19 or 342.21.

61.22 (h) A local government unit that issues a cannabis retailer registration under section
61.23 342.22 may, by ordinance, limit the number of licensed cannabis retailers, cannabis
61.24 macrobusinesses with a retail operations endorsement, cannabis mezzobusinesses with a
61.25 retail operations endorsement, and cannabis microbusinesses with a retail operations
61.26 endorsement to no fewer than one registration for every 12,500 residents.

61.27 (i) If a county has one active registration for every 12,500 residents, a city or town within
61.28 the county is not obligated to register a cannabis business.

61.29 (j) Nothing in this section shall prohibit a local government unit from allowing licensed
61.30 cannabis retailers in excess of the minimums set in paragraph (h).

61.31 (k) Notwithstanding the foregoing provisions, the state shall not issue a license to any
61.32 cannabis business to operate in Indian country, as defined in United States Code, title 18,
61.33 section 1151, of a Minnesota Tribal government without the consent of the Tribal

62.13 in this subdivision, the office shall not issue licenses to a single applicant that would result

63.22 of government may suspend the retail registration of the cannabis business or hemp business.
63.23 The local unit of government must immediately notify the office of the suspension and shall

Subdivision 1. **Definitions.** For the purposes of this section, the following terms have the meanings given.

(a) "Artificially derived cannabinoid" means a cannabinoid extracted from a hemp plant or hemp plant parts with a chemical makeup that is changed after extraction to create a different cannabinoid or other chemical compound by applying a catalyst other than heat or light. Artificially derived cannabinoid includes but is not limited to any tetrahydrocannabinol created from cannabidiol.

(b) "Batch" means a specific quantity of a specific product containing cannabinoids derived from hemp, including an edible cannabinoid product, that is manufactured at the same time and using the same methods, equipment, and ingredients that is uniform and intended to meet specifications for identity, strength, purity, and composition, and that is manufactured, packaged, and labeled according to a single batch production record executed and documented.

(c) "Certified hemp" means hemp plants that have been tested and found to meet the requirements of chapter 18K and the rules adopted thereunder.

(d) "Distributor" means a person who sells, arranges a sale, or delivers a product containing cannabinoids derived from hemp, including an edible cannabinoid product, that the person did not manufacture to a retail establishment for sale to consumers. Distributor does not include a common carrier used only to complete delivery to a retailer.

(e) "Edible cannabinoid product" means any product that is intended to be eaten or consumed as a beverage by humans, contains a cannabinoid in combination with food ingredients, and is not a drug.

(f) "Hemp" has the meaning given to "industrial hemp" in section 18K.02, subdivision 3.

(g) "Label" has the meaning given in section 151.01, subdivision 18.

(1) affixed to the immediate container in which a product regulated under this section is sold;

(2) provided, in any manner, with the immediate container, including but not limited to outer containers, wrappers, package inserts, brochures, or pamphlets; or

(3) provided on that portion of a manufacturer's website that is linked by a scannable barcode or matrix barcode.

(i) "Matrix barcode" means a code that stores data in a two-dimensional array of geometrically shaped dark and light cells capable of being read by the camera on a smartphone or other mobile device.

(j) "Nonintoxicating cannabinoid" means substances extracted from certified hemp plants that do not produce intoxicating effects when consumed by any route of administration.

(k) "Office" means the director of the Office of Cannabis Management.

(l) "Synthetic cannabinoid" means a substance with a similar chemical structure and pharmacological activity to a cannabinoid, but which is not extracted or derived from hemp plants, or hemp plant parts and is instead created or produced by chemical or biochemical synthesis.

Subd. 2. **Scope.** (a) This section applies to the sale of any product that contains cannabinoids extracted from hemp and that is an edible cannabinoid product or is intended for human or animal consumption by any route of administration.

(b) This section does not apply to any product dispensed by a registered medical cannabis manufacturer pursuant to sections 152.22 to 152.37.

(c) The office must have no authority over food products, as defined in section 34A.01, subdivision 4, that do not contain cannabinoids extracted or derived from hemp.

Subd. 3. **Sale of cannabinoids derived from hemp.** (a) Notwithstanding any other section of this chapter, a product containing nonintoxicating cannabinoids, including an edible cannabinoid product, may be sold for human or animal consumption only if all of the requirements of this section are met. (b) A product containing nonintoxicating cannabinoids, other than an edible cannabinoid product, may be sold for human or animal consumption only if it is intended for application externally to a part of the body of a human or animal. Such a product must not be manufactured, marketed, distributed, or intended to be consumed:

(1) by combustion or vaporization of the product and inhalation of smoke, aerosol, or vapor from the product;

(2) through chewing, drinking, or swallowing; or

(3) through injection or application to nonintact skin or a mucous membrane, except for products applied sublingually.

(1) for external or internal use in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or other animals; or

(2) to affect the structure or any function of the bodies of humans or other animals.

(d) No product containing any cannabinoid or tetrahydrocannabinol extracted or otherwise derived from hemp may be sold to any individual who is under the age of 21.

(e) Products that meet the requirements of this section are not controlled substances under section 152.02.

(3) does not contain more than 0.3 percent of any tetrahydrocannabinol.

(b) A manufacturer of a product regulated under this section must disclose all known information regarding pesticides, fertilizers, solvents, or other foreign materials applied to industrial hemp or added to industrial hemp during any production or processing stages of any batch from which a representative sample has been sent for testing, including any catalysts used to create artificially derived cannabinoids. The disclosure must be made to the laboratory performing testing or sampling and, upon request, to the office. The disclosure must include all information known to the manufacturer regardless of whether the application or addition was made intentionally or accidentally, or by the manufacturer or any other person.

(c) Upon the request of the office, the manufacturer of the product must provide the office with the results of the testing required in this section.

APPENDIX
Repealed Minnesota Statutes: S4401-3

(d) The office may determine that any testing laboratory that does not operate formal management systems under the International Organization for Standardization is not an accredited laboratory and require that a representative sample of a batch of the product be retested by a testing laboratory that meets this requirement.

(e) Testing of the hemp from which the nonintoxicating cannabinoid was derived, or possession of a certificate of analysis for such hemp, does not meet the testing requirements of this section.

Subd. 5. Labeling requirements. (a) A product regulated under this section must bear a label that contains, at a minimum:

- (1) the name, location, contact phone number, and website of the manufacturer of the product;
- (2) the name and address of the independent, accredited laboratory used by the manufacturer to test the product;
- (3) the batch number; and
- (4) an accurate statement of the amount or percentage of cannabinoids found in each unit of the product meant to be consumed.

(b) The information in paragraph (a) may be provided on an outer package if the immediate container that holds the product is too small to contain all of the information.

(c) The information required in paragraph (a) may be provided through the use of a scannable barcode or matrix barcode that links to a page on the manufacturer's website if that page contains all of the information required by this subdivision.

(d) The label must also include a statement stating that the product does not claim to diagnose, treat, cure, or prevent any disease and has not been evaluated or approved by the United States Food and Drug Administration (FDA) unless the product has been so approved.

(e) The information required by this subdivision must be prominently and conspicuously placed on the label or displayed on the website in terms that can be easily read and understood by the consumer.

(f) The labeling must not contain any claim that the product may be used or is effective for the prevention, treatment, or cure of a disease or that it may be used to alter the structure or function of human or animal bodies, unless the claim has been approved by the FDA.

Subd. 5a. Additional requirements for edible cannabinoid products. (a) In addition to the testing and labeling requirements under subdivisions 4 and 5, an edible cannabinoid must meet the requirements of this subdivision.

If it is not possible to indicate a single serving by scoring or use of another indicator that appears on the product, the edible cannabinoid product may not be packaged in a manner that includes more than a single serving in each container, except that a calibrated dropper, measuring spoon, or similar device for measuring a single serving, when sold with the product, may be used for any edible cannabinoid products that are intended to be combined with food or beverage products prior to consumption.
