Artificially derived cannabinoid includes but is not limited to any tetrahydrocannabinol created from cannabidiol.

(b) "Batch" means a specific quantity of a specific product containing cannabinoids derived from hemp, including an edible cannabinoid product, that is manufactured at the same time and using the same methods, equipment, and ingredients that is uniform and intended to meet specifications for identity, strength, purity, and composition, and that is manufactured, packaged, and labeled according to a single batch production record executed and documented.

APPENDIX
Repealed Minnesota Statutes: S4401-4
