

A resolution

memorializing Congress to enact legislation to extend federal entitlement eligibility to unadjudicated individuals held in local facilities.

WHEREAS, United States Code of Federal Regulations, title 42, part 435.1008, states that federal financial participation (FFP) is not available in expenditures for services provided to individuals who are inmates of public institutions; and

WHEREAS, because states are unable to assume the federal share of providing medical services to FFP-eligible persons being held in county jails and detention facilities, and therefore terminate or sometimes suspend medical and disability benefit eligibility; and

WHEREAS, the cessation of benefits occurs prior to the issuance of formal charges, adjudication, and conviction; and

WHEREAS, counties must provide medical services to all persons incarcerated in local jails and detention facilities; and

WHEREAS, as a result of the federal regulation to immediately cease FFP for medical and disability benefits upon apprehension, all costs of inmate medical care must be borne solely by counties until the benefits are fully restored; NOW, THEREFORE,

BE IT RESOLVED by the Legislature of the State of Minnesota that it urges the Congress of the United States to take necessary action to enact federal legislation to amend the regulations to allow federal financial participation for medical and disability benefits to incarcerated individuals until convicted and sentenced to secure detention.
