

A bill for an act
relating to telecommunications; requiring the commissioner of commerce to
contract for a statewide inventory of broadband service; appropriating money.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. **BROADBAND MAPPING PROJECT.**

Subdivision 1. **Project.** The commissioner of commerce shall contract with a
nonprofit organization to produce a comprehensive statewide inventory and mapping of
existing broadband service and capability.

Subd. 2. **Inventory.** The inventory must include, at a minimum, the following
information, which must be collected through research methods that produce statistically
significant results:

(1) a measurement of statewide residential and business use of broadband,
computers, and related information technology;

(2) barriers to broadband and computer use among residents and businesses; and

(3) demographic analysis of the information in clauses (1) and (2).

Subd. 3. **Mapping.** Data must be collected from broadband providers and entered
into a geographic information system to produce maps that, for the state of Minnesota and
any defined geographical entity within it, clearly convey the following information:

(1) areas unserved by any broadband provider;

(2) areas served by a single broadband provider;

(3) the location of towers used to transmit and receive broadband signals;

(4) actual upstream and downstream transmission speeds at the county level of detail;

(5) areas served by multiple broadband providers; and

(6) the types of technology used to provide broadband service.

H.F. No. 2959, as introduced - 2007-2008th Legislative Session (2007-2008)
