

A bill for an act

relating to human services; providing long-term care provider rate increases;
amending Minnesota Statutes 2008, sections 256B.441, by adding a subdivision;
256B.5012, by adding a subdivision.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

Section 1. Minnesota Statutes 2008, section 256B.441, is amended by adding a
subdivision to read:

Subd. 59. **Rate increases for October 1, 2009, and October 1, 2010.** (a) For the
rate years beginning October 1, 2009, and October 1, 2010, the commissioner shall make
available to each nursing facility reimbursed under this section an adjustment equal to
three percent of the total operating payment rate. These adjustments shall be applied after
the rebasing adjustment provided under subdivision 55.

(b) Seventy-five percent of the money resulting from the rate adjustment under
paragraph (a) must be used to increase wages and benefits and pay associated costs
for all employees, except management fees, the administrator, and central office staff.
Seventy-five percent of the money received by a facility as a result of the rate adjustment
provided in paragraph (a) must be used only for wage and benefit increases and payment
of associated costs, implemented on or after the effective date of the rate increase each
year, and must not be used for increases implemented prior to that date.

(c) Nursing facilities may apply for the portion of the rate adjustment under
paragraph (a) for employee wages and benefits and associated costs. The application
must be made to the commissioner and contain a plan by which the nursing facility
will distribute the funds according to paragraph (b). For nursing facilities in which the
employees are represented by an exclusive bargaining representative, an agreement

H.F. No. 351, as introduced - 86th Legislative Session (2009-2010) [09-1310]

negotiated and agreed to by the employer and the exclusive bargaining representative constitutes the plan. The commissioner shall not review and shall not require changes to the portion or portions of the plan covered by collective bargaining agreements. A negotiated agreement may constitute the plan only if the agreement is finalized after the date of enactment of all increases for the rate year and signed by both parties prior to submission to the commissioner. The commissioner shall review the plan to ensure that the rate adjustments are used as provided in paragraph (b). To be eligible, a facility must submit its distribution plan by March 31, 2010, and March 31, 2011, respectively. The commissioner may approve distribution plans on or before June 30, 2010, and June 30, 2011, respectively. If a facility's distribution plan is effective after the first day of the applicable rate period that the funds are available, the rate adjustments are effective the same date as the facility's plan.

(d) A copy of the approved distribution plan must be made available to all employees by giving each employee a copy or by posting a copy in an area of the nursing facility to which all employees have access. If an employee does not receive the wage and benefit adjustment described in the facility's approved plan and is unable to resolve the problem with the facility's management or through the employee's union representative, the employee may contact the commissioner at an address or telephone number provided by the commissioner and included in the approved plan.

Sec. 2. Minnesota Statutes 2008, section 256B.5012, is amended by adding a subdivision to read:

Subd. 8. **ICF/MR rate increases October 1, 2009, and October 1, 2010.** (a) For the rate periods beginning October 1, 2009, and October 1, 2010, the commissioner shall make available to each facility reimbursed under this section an adjustment to the total operating payment rate of three percent.

(b) Seventy-five percent of the money resulting from the rate adjustment under paragraph (a) must be used to increase wages and benefits and pay associated costs for employees, except for administrative and central office employees. Seventy-five percent of the money received by a facility as a result of the rate adjustment provided in paragraph (a) must be used only for wage, benefit, and staff increases implemented on or after the effective date of the rate increase each year, and must not be used for increases implemented prior to that date. The wage adjustment eligible employees may receive may vary based on merit, seniority, or other factors determined by the provider.

(c) For each facility, the commissioner shall make available an adjustment, based on occupied beds, using the percentage specified in paragraph (a) multiplied by the total

payment rate, including variable rate but excluding the property-related payment rate, in effect on the preceding day. The total payment rate must include the adjustment provided in section 256B.501, subdivision 12.

(d) A facility whose payment rates are governed by closure agreements, receivership agreements, or Minnesota Rules, part 9553.0075, is not eligible for an adjustment otherwise granted under this subdivision.

(e) A facility may apply for the portion of the payment rate adjustment provided under paragraph (a) for employee wages and benefits and associated costs. The application must be made to the commissioner and contain a plan by which the facility will distribute the funds according to paragraph (b). For facilities in which the employees are represented by an exclusive bargaining representative, an agreement negotiated and agreed to by the employer and the exclusive bargaining representative constitutes the plan. The commissioner shall not review, and shall not require changes, to the portion or portions of the plan covered by collective bargaining agreements. A negotiated agreement may constitute the plan only if the agreement is finalized after the date of enactment of all rate increases for the rate year. The commissioner shall review the plan to ensure that the payment rate adjustment per diem is used as provided in this subdivision. To be eligible, a facility must submit its plan by March 31, 2010, and March 31, 2011, respectively. If a facility's plan is effective for its employees after the first day of the applicable rate period that the funds are available, the payment rate adjustment per diem is effective the same date as its plan.

(f) A copy of the approved distribution plan must be made available to all employees by giving each employee a copy or by posting it in an area of the facility to which all employees have access. If an employee does not receive the wage and benefit adjustment described in the facility's approved plan and is unable to resolve the problem with the facility's management or through the employee's union representative, the employee may contact the commissioner at an address or telephone number provided by the commissioner and included in the approved plan.

Sec. 3. **COMMUNITY SERVICES PROVIDER RATE INCREASES.**

(a) The commissioner of human services shall increase reimbursement rates or rate limits, as applicable, by three percent for the rate period beginning October 1, 2009, and the rate period beginning October 1, 2010, effective for services rendered on or after those dates.

(b) The three percent annual rate increase described in this section must be provided to:
