- (2) the voter has signed the federal oath prescribed pursuant to section 705(b)(2) of the Help America Vote Act, Public Law 107-252;
- (3) the voter has set forth the same voter's passport number, or Minnesota driver's license or state identification card number, or the last four digits of the voter's Social Security number as submitted on the application, if the voter has one of these documents;
 - (4) the voter is not known to have died; and
- 51.7 (5) the voter has not already voted at that election, either in person or by absentee ballot.

If the identification number described in clause (3) does not match the number as submitted on the application, the election judges must make a reasonable effort to satisfy themselves through other information provided by the applicant, or by an individual authorized to apply on behalf of the voter, that the ballots were returned by the same person to whom the ballots were transmitted.

An absentee ballot cast pursuant to sections 203B.16 to 203B.27 may only be rejected for the lack of one of clauses (1) to (5). In particular, failure to place the ballot within the secrecy ballot envelope before placing it in the outer white signature envelope is not a reason to reject an absentee ballot.

Election judges must note the reason for rejection on the back of the envelope in the space provided for that purpose.

Failure to return unused ballots shall not invalidate a marked ballot, but a ballot shall not be counted if the certificate on the return signature envelope is not properly executed. In all other respects the provisions of the Minnesota Election Law governing deposit and counting of ballots shall apply. Notwithstanding other provisions of this section, the counting of the absentee ballot of a deceased voter does not invalidate the election.

Upon receipt of a properly completed application requesting electronic transmission, the county auditor shall

- Sec. 70. Minnesota Statutes 2022, section 206.90, subdivision 10, is amended to read:
- Subd. 10. Counting write-in votes. Notwithstanding section 204C.22, subdivision 4, in precincts using optical scan voting systems, the ballot must be marked in the oval or other target shape opposite the blank when a voter writes an individual's name on the line provided for write-in votes in order to be counted. The judges shall count the write-in votes and enter the number of those votes on forms provided for the purpose. When the write-in votes are recorded on a medium that cannot be examined for write-in votes by the automatic tabulating equipment or the automatic tabulating equipment does not reject, with respect to write-in votes, all votes for an office or question when the number of votes cast on it exceeds the number which the voter is entitled to count, all ballot envelopes or other medium on which write-in votes have been recorded must be serially numbered, starting with the number one and the same number must be placed on the ballot card of the voter. The judges shall compare the write-in votes with the votes cast on the ballot card. If the total number of votes for any office exceeds the number allowed by law, a notation to that effect must be entered on the back of the ballot card and the card must be returned to the counting center in an envelope marked "defective ballots"; however, valid votes on ballot cards containing invalid votes must be counted as provided in section 206.86, subdivision 5.
- When the write-in votes are recorded on ballot cards that can be examined for write-in votes by the automatic tabulating equipment and the automatic tabulating equipment rejects all votes for an office or question when the number of votes cast on it exceeds the number which the voter is entitled to cast, the judges shall examine the ballot cards with write-in votes and count the valid write-in votes.
