The information provided must be designed to assist enrollees in identifying the contraceptive method that best meets the enrollees' needs and the needs of the enrollees' families. The protocol must specify the enrollee categories to which this requirement will be applied, the process to be used, and the information and resources to be provided. - Subd. 2b. **Hospital payment rates.** (a) For discharges occurring on or after November 1, 2014, hospital inpatient services for hospitals located in Minnesota shall be paid according to the following:
- 7.14 (1) critical access hospitals as defined by Medicare shall be paid using a cost-based methodology;
- 7.16 (2) long-term hospitals as defined by Medicare shall be paid on a per diem methodology under subdivision 25;
  - (3) rehabilitation hospitals or units of hospitals that are recognized as rehabilitation distinct parts as defined by Medicare shall be paid according to the methodology under subdivision 12; and
  - (4) all other hospitals shall be paid on a diagnosis-related group (DRG) methodology.
  - (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not be rebased, except that a Minnesota long-term hospital shall be rebased effective January 1, 2011, based on its most recent Medicare cost report ending on or before September 1, 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on December 31, 2010. For rate setting periods after November 1, 2014, in which the base years are updated, a Minnesota long-term hospital's base year shall remain within the same period as other hospitals.
    - (c) Effective for discharges occurring on and after November 1, 2014, payment rates for hospital inpatient services provided by hospitals located in Minnesota or the local trade area, except for the hospitals paid under the methodologies described in paragraph (a), clauses (2) and (3), shall be rebased, incorporating cost and payment methodologies in a manner similar to Medicare. 2014, shall be calendar year 2012. The rebasing under this paragraph shall be budget neutral,
ensuring that the total aggregate payments under the rebased system are equal to the total
aggregate payments that were made for the same number and types of services in the base
year. Separate budget neutrality calculations shall be determined for payments made to
critical access hospitals and payments made to hospitals paid under the DRG system. Only
the rate increases or decreases under subdivision 3a or 3c that applied to the hospitals being
rebased during the entire base period shall be incorporated into the budget neutrality
calculation.

- (d) For discharges occurring on or after November 1, 2014, through the next rebasing that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph (a), clause (4), shall include adjustments to the projected rates that result in no greater than a five percent increase or decrease from the base year payments for any hospital. Any adjustments to the rates made by the commissioner under this paragraph and paragraph (e) shall maintain budget neutrality as described in paragraph (c).
- (e) For discharges occurring on or after November 1, 2014, the commissioner may make additional adjustments to the rebased rates, and when evaluating whether additional adjustments should be made, the commissioner shall consider the impact of the rates on the following:
- (1) pediatric services;
- 8.20 (2) behavioral health services;
  - (3) trauma services as defined by the National Uniform Billing Committee;
- 8.22 (4) transplant services;
- 8.23 (5) obstetric services, newborn services, and behavioral health services provided by 8.24 hospitals outside the seven-county metropolitan area;
- 8.25 (6) outlier admissions;
- 8.26 (7) low-volume providers; and
- 8.27 (8) services provided by small rural hospitals that are not critical access hospitals.
- 8.28 (f) Hospital payment rates established under paragraph (c) must incorporate the following:
- 8.29 (1) for hospitals paid under the DRG methodology, the base year payment rate per 8.30 admission is standardized by the applicable Medicare wage index and adjusted by the 8.31 hospital's disproportionate population adjustment;

- (2) for critical access hospitals, payment rates for discharges between November 1, 2014, and June 30, 2015, shall be set to the same rate of payment that applied for discharges on October 31, 2014;
- (3) the cost and charge data used to establish hospital payment rates must only reflect inpatient services covered by medical assistance; and
- (4) in determining hospital payment rates for discharges occurring on or after the rate year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per discharge shall be based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year or years. In determining hospital payment rates for discharges in subsequent base years, the per discharge rates shall be based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year or years.
- (g) The commissioner shall validate the rates effective November 1, 2014, by applying the rates established under paragraph (c), and any adjustments made to the rates under paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the total aggregate payments for the same number and types of services under the rebased rates are equal to the total aggregate payments made during calendar year 2013.
- (h) Effective for discharges occurring on or after July 1, 2017, and every two years thereafter, payment rates under this section shall be rebased to reflect only those changes in hospital costs between the existing base year or years and the next base year or years. In any year that inpatient claims volume falls below the threshold required to ensure a statistically valid sample of claims, the commissioner may combine claims data from two consecutive years to serve as the base year. Years in which inpatient claims volume is reduced or altered due to a pandemic or other public health emergency shall not be used as a base year or part of a base year if the base year includes more than one year. Changes in costs between base years shall be measured using the lower of the hospital cost index defined in subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per claim. The commissioner shall establish the base year for each rebasing period considering the most recent year or years for which filed Medicare cost reports are available, except that the base years for the rebasing effective July 1, 2023, are calendar years 2018 and 2019. The estimated change in the average payment per hospital discharge resulting from a scheduled rebasing must be calculated and made available to the legislature by January 15 of each year in which rebasing is scheduled to occur, and must include by hospital the differential in payment rates compared to the individual hospital's costs.

(i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates
for critical access hospitals located in Minnesota or the local trade area shall be determined
using a new cost-based methodology. The commissioner shall establish within the
methodology tiers of payment designed to promote efficiency and cost-effectiveness.
Payment rates for hospitals under this paragraph shall be set at a level that does not exceed
the total cost for critical access hospitals as reflected in base year cost reports. Until the
next rebasing that occurs, the new methodology shall result in no greater than a five percent
decrease from the base year payments for any hospital, except a hospital that had payments
that were greater than 100 percent of the hospital's costs in the base year shall have their
rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and
after July 1, 2016, covered under this paragraph shall be increased by the inflation factor
in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall not
be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the
following criteria:

- (1) hospitals that had payments at or below 80 percent of their costs in the base year shall have a rate set that equals 85 percent of their base year costs;
  - (2) hospitals that had payments that were above 80 percent, up to and including 90 percent of their costs in the base year shall have a rate set that equals 95 percent of their base year costs; and
  - (3) hospitals that had payments that were above 90 percent of their costs in the base year shall have a rate set that equals 100 percent of their base year costs.
  - (j) The commissioner may refine the payment tiers and criteria for critical access hospitals to coincide with the next rebasing under paragraph (h). The factors used to develop the new methodology may include, but are not limited to:
  - (1) the ratio between the hospital's costs for treating medical assistance patients and the hospital's charges to the medical assistance program;
- (2) the ratio between the hospital's costs for treating medical assistance patients and the hospital's payments received from the medical assistance program for the care of medical assistance patients;
- (3) the ratio between the hospital's charges to the medical assistance program and the hospital's payments received from the medical assistance program for the care of medical assistance patients;
  - (4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);

- (5) the proportion of that hospital's costs that are administrative and trends in administrative costs; and
- 11.3 (6) geographic location.

The adjustment must be determined as follows:
  - (1) for a hospital with a medical assistance inpatient utilization rate above the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service but less than or equal to one standard deviation above the mean, the adjustment must be determined by multiplying the total of the operating and property payment rates by the difference between the hospital's actual medical assistance inpatient utilization rate and the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service; and
  - (2) for a hospital with a medical assistance inpatient utilization rate above one standard deviation above the mean, the adjustment must be determined by multiplying the adjustment that would be determined under clause (1) for that hospital by 1.1. The commissioner shall report annually on the number of hospitals likely to receive the adjustment authorized by this paragraph. The commissioner shall specifically report on the adjustments received by public hospitals and public hospital corporations located in cities of the first class.
  - (b) Certified public expenditures made by Hennepin County Medical Center shall be considered Medicaid disproportionate share hospital payments. Hennepin County and Hennepin County Medical Center shall report by June 15, 2007, on payments made beginning July 1, 2005, or another date specified by the commissioner, that may qualify for reimbursement under federal law. Based on these reports, the commissioner shall apply for federal matching funds.

(d) Effective July 1, 2015, disproportionate share hospital (DSH) payments shall be paid
in accordance with a new methodology using 2012 as the base year. Annual payments made
under this paragraph shall equal the total amount of payments made for 2012. A licensed
children's hospital shall receive only a single DSH factor for children's hospitals. Other
DSH factors may be combined to arrive at a single factor for each hospital that is eligible
for DSH payments. The new methodology shall make payments only to hospitals located
in Minnesota and include the following factors:

- (1) a licensed children's hospital with at least 1,000 fee-for-service discharges in the base year shall receive a factor of 0.868. A licensed children's hospital with less than 1,000 fee-for-service discharges in the base year shall receive a factor of 0.7880;
- (2) a hospital that has in effect for the initial rate year a contract with the commissioner 12.11 to provide extended psychiatric inpatient services under section 256.9693 shall receive a 12.12 factor of 0.0160; 12.13
  - (3) a hospital that has received medical assistance payment for at least 20 transplant services in the base year shall receive a factor of 0.0435;
  - (4) a hospital that has a medical assistance utilization rate in the base year between 20 percent up to one standard deviation above the statewide mean utilization rate shall receive a factor of 0.0468;
  - (5) a hospital that has a medical assistance utilization rate in the base year that is at least one standard deviation above the statewide mean utilization rate but is less than two and one-half standard deviations above the mean shall receive a factor of 0.2300; and
  - (6) a hospital that is a level one trauma center and that has a medical assistance utilization rate in the base year that is at least two and one-half one-quarter standard deviations above the statewide mean utilization rate shall receive a factor of 0.3711.
  - (e) For the purposes of determining eligibility for the disproportionate share hospital factors in paragraph (d), clauses (1) to (6), the medical assistance utilization rate and discharge thresholds shall be measured using only one year when a two-year base period is used.
  - (f) Any payments or portion of payments made to a hospital under this subdivision that are subsequently returned to the commissioner because the payments are found to exceed the hospital-specific DSH limit for that hospital shall be redistributed, proportionate to the number of fee-for-service discharges, to other DSH-eligible non-children's hospitals that

The commissioner shall consider factors including fee-for-service medical assistance utilization rates and payments made for drugs purchased through the 340B drug purchasing program and administered to fee-for-service enrollees. If any part of this adjustment exceeds a hospital's hospital-specific disproportionate share hospital limit, the commissioner shall make a payment to the hospital that equals the nonfederal share of the amount that exceeds the limit. The total nonfederal share of the amount of the payment adjustment under this paragraph shall not exceed \$1,500,000.
- Sec. 7. Minnesota Statutes 2022, section 256.969, subdivision 25, is amended to read:
- Subd. 25. **Long-term hospital rates.** (a) Long-term hospitals shall be paid on a per diem basis.
  - (b) For admissions occurring on or after April 1, 1995, a long-term hospital as designated by Medicare that does not have admissions in the base year shall have inpatient rates established at the average of other hospitals with the same designation. original package and shall be prorated based on the percentage of the package dispensed when the pharmacy dispenses a quantity less than the number of units contained in the manufacturer's original package. The National Average Drug Acquisition Cost (NADAC) shall be used to determine the ingredient cost of a drug. For drugs for which a NADAC is not reported, the commissioner shall estimate the ingredient cost at the wholesale acquisition cost minus two percent. The ingredient cost of a drug for a provider participating in the federal 340B Drug Pricing Program shall be either the 340B Drug Pricing Program ceiling price established by the Health Resources and Services Administration or NADAC, whichever is lower. Wholesale acquisition cost is defined as the manufacturer's list price for a drug or biological to wholesalers or direct purchasers in the United States, not including prompt pay or other discounts, rebates, or reductions in price, for the most recent month for which information is available, as reported in wholesale price guides or other publications of drug or biological pricing data. A retrospectively billing pharmacy must use a billing period not less than one calendar month or 30 days.
- (c) A pharmacy provider using packaging that meets the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that is less than a 30-day supply.
- (d) If a pharmacy dispenses a multisource drug, the ingredient cost shall be the NADAC of the generic product or the maximum allowable cost established by the commissioner unless prior authorization for the brand name product has been granted according to the criteria established by the Drug Formulary Committee as required by subdivision 13f,

- (e) The basis for determining the amount of payment for drugs administered in an outpatient setting shall be the lower of the usual and customary cost submitted by the provider, 106 percent of the average sales price as determined by the United States

  Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. A retail or specialty pharmacy dispensing a drug for administration in an outpatient setting is not eligible for direct reimbursement.

The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the commissioner has negotiated lower reimbursement rates. In consulting with the Formulary Committee in developing this list, the commissioner shall take into consideration the population served by specialty pharmacy products, the current delivery system and standard of care in the state, and access to care issues. The commissioner shall have the discretion to adjust the maximum allowable cost to prevent access to care issues.
- (g) Home infusion therapy services provided by home infusion therapy pharmacies must be paid at rates according to subdivision 8d.

21.7	section 256B.064 for failure to respond. The commissioner shall require the vendor to
21.8	measure a single statewide cost of dispensing for specialty prescription drugs and a single
21.9	statewide cost of dispensing for nonspecialty prescription drugs for all responding pharmacies
21.10	to measure the mean, mean weighted by total prescription volume, mean weighted by

21.16	of each cost of dispensing survey and provide recommendations for any changes to the
21.17	dispensing fee to the chairs and ranking members of the legislative committees with
21.18	jurisdiction over medical assistance pharmacy reimbursement. Notwithstanding section

37.20	(4) any other information that can be used to determine the effectiveness of the program

37.29	to the aggregate upper payment limit for all nonstate government hospitals in Minnesota.
37.30	In making this determination, the commissioner shall allot the available increases between
37.31	Hennepin County Medical Center and Regions Hospital based on the ratio of medical

shall adjust this allotment as necessary based on federal approvals, the amount of intergovernmental transfers received from Hennepin and Ramsey Counties, and other factors, in order to maximize the additional total payments. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match federal Medicaid payments available under this subdivision in order to make supplementary medical assistance payments to Hennepin County Medical Center and Regions Hospital equal to an amount that when combined with existing medical assistance payments to nonstate governmental hospitals would increase total payments to hospitals in this category for outpatient services to the aggregate upper payment limit for all hospitals in this category in Minnesota. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center and Regions Hospital.

- (b) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians and other billing professionals affiliated with Hennepin County Medical Center and with Regions Hospital. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and to make supplementary payments to physicians and other billing professionals affiliated with Regions Hospital through HealthPartners Medical Group equal to the difference between the established medical assistance payment for physician and other billing professional services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and shall make supplementary payments to physicians and other billing professionals affiliated with Regions Hospital through HealthPartners Medical Group.
- (c) Beginning January 1, 2010, Ramsey County may make monthly voluntary intergovernmental transfers to the commissioner in amounts not to exceed \$6,000,000 per year. The commissioner shall increase the medical assistance capitation payments to any licensed health plan under contract with the medical assistance program that agrees to make enhanced payments to Regions Hospital. The increase shall be in an amount equal to the annual value of the monthly transfers plus federal financial participation, with each health plan receiving its pro rata share of the increase based on the pro rata share of medical assistance admissions to Regions Hospital by those plans. "the base amount" means the total annual value of increased medical assistance capitation payments, including the voluntary intergovernmental transfers, under this paragraph in calendar year 2017. For managed care contracts beginning on or after January 1, 2018, the commissioner shall reduce the total annual value of increased medical assistance capitation payments under this paragraph by an amount equal to ten percent of the base amount, and by an additional ten percent of the base amount for each subsequent contract year until December 31, 2025. Upon the request of the commissioner, health plans shall submit individual-level cost data for verification purposes. The commissioner may ratably reduce these payments on a pro rata basis in order to satisfy federal requirements for actuarial soundness. If payments are reduced, transfers shall be reduced accordingly. Any licensed health plan that receives increased medical assistance capitation payments under the intergovernmental transfer described in this paragraph shall increase its medical assistance payments to Regions Hospital by the same amount as the increased payments received in the capitation payment described in this paragraph. This paragraph expires January 1, 2026.

- (d) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for ambulance services affiliated with Hennepin County Medical Center and the city of St. Paul, and ambulance services owned and operated by another governmental entity that chooses to participate by requesting the commissioner to determine an upper payment limit. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform Hennepin County, the city of St. Paul, and other participating governmental entities of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to Hennepin County Medical Center, the city of St. Paul, and other participating governmental entities equal to the difference between the established medical assistance payment for ambulance services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center, the city of St. Paul, and other participating governmental entities. A tribal government that owns and operates an ambulance service is not eligible to participate under this subdivision.
- (e) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians, dentists, and other billing professionals affiliated with the University of Minnesota and University of Minnesota Physicians. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The

and other billing professionals affiliated with the University of Minnesota and the University
of Minnesota Physicians.

- (f) The commissioner shall inform the transferring governmental entities on an ongoing basis of the need for any changes needed in the intergovernmental transfers in order to continue the payments under paragraphs (a) to (e), at their maximum level, including increases in upper payment limits, changes in the federal Medicaid match, and other factors.
- (g) The payments in paragraphs (a) to (e) shall be implemented independently of each other, subject to federal approval and to the receipt of transfers under subdivision 3.
- (h) All of the data and funding transactions related to the payments in paragraphs (a) to (e) shall be between the commissioner and the governmental entities. The commissioner shall not make payments to governmental entities eligible to receive payments described in paragraphs (a) to (e) that fail to submit the data needed to compute the payments within 24 months of the initial request from the commissioner.
  - (i) For purposes of this subdivision, billing professionals are limited to physicians, nurse practitioners, nurse midwives, clinical nurse specialists, physician assistants, anesthesiologists, certified registered nurse anesthetists, dentists, dental hygienists, and dental therapists.

the commissioner. Requirements applicable to managed care programs under chapters 256B and 256L established after the effective date of a contract with the commissioner take effect when the contract is next issued or renewed.

- (c) The commissioner shall withhold five percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program pending completion of performance targets. Each performance target must be quantifiable, objective, measurable, and reasonably attainable, except in the case of a performance target based on a federal or state law or rule. Criteria for assessment of each performance target must be outlined in writing prior to the contract effective date. Clinical or utilization performance targets and their related criteria must consider evidence-based research and reasonable interventions when available or applicable to the populations served, and must be developed with input from external clinical experts and stakeholders, including managed care plans, county-based purchasing plans, and providers. The managed care or county-based purchasing plan must demonstrate, to the commissioner's satisfaction, that the data submitted regarding attainment of the performance target is accurate. The commissioner shall periodically change the administrative measures used as performance targets in order to improve plan performance across a broader range of administrative services. The performance targets must include measurement of plan efforts to contain spending on health care services and administrative activities. The commissioner may adopt plan-specific performance targets that take into account factors affecting only one plan, including characteristics of the plan's enrollee population. The withheld funds must be returned no sooner than July of the following year if performance targets in the contract are achieved. The commissioner may exclude special demonstration projects under subdivision 23.
  - (d) The commissioner shall require that managed care plans:
- (1) use the assessment and authorization processes, forms, timelines, standards, documentation, and data reporting requirements, protocols, billing processes, and policies consistent with medical assistance fee-for-service or the Department of Human Services contract requirements for all personal care assistance services under section 256B.0659 and community first services and supports under section 256B.85; and
- (2) by January 30 of each year that follows a rate increase for any aspect of services under section 256B.0659 or 256B.85, inform the commissioner and the chairs and ranking minority members of the legislative committees with jurisdiction over rates determined under section 256B.851 of the amount of the rate increase that is paid to each personal care assistance provider agency with which the plan has a contract.

(e) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the health plan's emergency department utilization rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. For 2012, the reduction shall be based on the health plan's utilization in 2009. To earn the return of the withhold each subsequent year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than ten percent of the plan's emergency department utilization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, compared to the previous measurement year until the final performance target is reached. When measuring performance, the commissioner must consider the difference in health risk in a managed care or county-based purchasing plan's membership in the baseline year compared to the measurement year, and work with the managed care or county-based purchasing plan to account for differences that they agree are significant. The withheld funds must be returned no sooner than July 1 and no later than July 31 of

the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a reduction in the utilization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue for each consecutive contract period until the plan's emergency room utilization rate for state health care program enrollees is reduced by 25 percent of the plan's emergency room utilization rate for medical assistance and MinnesotaCare enrollees for calendar year 2009. Hospitals shall cooperate with the health plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(f) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than five percent of the plan's hospital admission rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, compared to the previous calendar year until the final performance target is reached. The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that this reduction in the hospitalization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue until there is a 25 percent reduction in the hospital admission rate compared to the hospital admission rates in calendar year 2011, as determined by the commissioner. The hospital admissions in this performance target do not include the admissions applicable to the subsequent hospital admission performance target under paragraph (g). Hospitals shall cooperate with the plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(g) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rates for subsequent hospitalizations within 30 days of a previous hospitalization of a patient regardless of the reason, for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of the subsequent hospitalization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, of no less than five percent compared to the previous calendar year until the final performance target is reached.

The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

58.29	growth targets for subsequent years.
58.30	(b) The commission shall regularly review all components of the program methodology,

59.4	spending growth target program, the commission may:
59.5	(1) evaluate and ensure that the program does not place a disproportionate burden on

	(i) a risk factor adjustment reflecting the health status of the entity's patient mix; and
59.15	
59.16	(ii) an equity adjustment accounting for the social determinants of health and other
59.17	factors related to health equity for the entity's patient mix;

59.19	(i) encourage the growth of the Minnesota health care workforce, including the need to
59.20	provide competitive wages and benefits;
59.21	(ii) do not limit the use of collective bargaining or place a floor or ceiling on health care
59.22	workforce compensation; and
59.23	(iii) promote workforce stability and maintain high-quality health care jobs; and
59.24	(6) consult with stakeholders representing patients, health care providers, payers of

53.16	the following factors:
53.17	(1) the costs, price, and utilization trends of the health care entity over time, and any

53.20	(2) any ongoing strategies or investments that the health care entity is implementing to
53.21	improve future long-term efficiency and reduce cost growth;

53.23	be considered to be unanticipated and outside of the control of the entity. These factors may
53.24	include but shall not be limited to age and other health status adjusted factors of the patients
53.25	served by the health care entity and other cost inputs such as pharmaceutical expenses and

63.32

64.1	(d) The performance improvement plan shall identify the causes of the entity's cost
64.2	growth and shall include but not be limited to specific strategies, adjustments, and action
64.3	steps the entity proposes to implement to improve cost performance. The proposed
64.4	performance improvement plan shall include specific identifiable and measurable expected
64.5	outcomes and a timetable for implementation. The commission may request additional
64.6	information as needed, in order to approve a proposed performance improvement plan. The
64.7	timetable for a performance improvement plan must not exceed 18 months.
64.8	(e) The commission shall approve any performance improvement plan that it determines
64.9	is reasonably likely to address the underlying cause of the entity's cost growth and has a
64.10	reasonable expectation for successful implementation. If the commission determines that
64.11	the performance improvement plan is unacceptable or incomplete, the commission may
64.12	provide consultation on the criteria that have not been met and may allow an additional time
64.13	period of up to 30 calendar days for resubmission. Upon approval of the proposed
64.14	performance improvement plan, the commission shall notify the health care entity to begin
64.15	immediate implementation of the performance improvement plan. Public notice shall be
64.16	provided by the commission on its website, identifying that the health care entity is
64.17	implementing a performance improvement plan. All health care entities implementing an
64.18	approved performance improvement plan shall be subject to additional reporting requirements
64.19	and compliance monitoring, as determined by the commission. The commission may request
64.20	the commissioner to assist in the review of performance improvement plans. The commission
64.21	shall provide assistance to the health care entity in the successful implementation of the
64.22	performance improvement plan.
64.23	(f) All health care entities shall in good faith work to implement the performance
64.24	improvement plan. At any point during the implementation of the performance improvement
64.25	plan, the health care entity may file amendments to the performance improvement plan,
64.26	subject to approval of the commission. At the conclusion of the timetable established in the
64.27	performance improvement plan, the health care entity shall report to the commission
64.28	regarding the outcome of the performance improvement plan. If the commission determines
64.29	the performance improvement plan was not implemented successfully, the commission
64.30	shall:
64.31	(1) extend the implementation timetable of the existing performance improvement plan;
64.32	(2) approve amendments to the performance improvement plan as proposed by the health
64.33	care entity;
64.34	(3) require the health care entity to submit a new performance improvement plan; or

65.1	(4) waive or delay the requirement to file any additional performance improvement
65.2	plans.
65.3	Upon the successful completion of the performance improvement plan, the commission
65.4	shall remove the identity of the health care entity from the commission's website.
65.5	(g) If the commission determines that a health care entity has:
65.6	(1) willfully neglected to file a performance improvement plan with the commission
65.7	within 45 days or as required;
65.8	(2) failed to file an acceptable performance improvement plan in good faith with the
65.9	commission;
65.10	(3) failed to implement the performance improvement plan in good faith; or
65.11	(4) knowingly failed to provide information required by this subdivision to the
65.12	commission or knowingly provided false information, the commission may assess a civil
65.13	penalty to the health care entity of not more than \$500,000. The commission shall only
65.14	impose a civil penalty as a last resort.
65.15	Sec. 6. [62J.0416] IDENTIFY STRATEGIES FOR REDUCTION OF
65.16	ADMINISTRATIVE SPENDING AND LOW-VALUE CARE.
65.17	(a) The commissioner of health shall develop recommendations for strategies to reduce
65.18	the volume and growth of administrative spending by health care organizations and group
65.19	purchasers, and the magnitude of low-value care delivered to Minnesota residents. The
65.20	commissioner shall:
65.21	(1) review the availability of data and identify gaps in the data infrastructure to estimate
65.22	aggregated and disaggregated administrative spending and low-value care;
65.23	(2) based on available data, estimate the volume and change over time of administrative
65.24	spending and low-value care in Minnesota;
65.25	(3) conduct an environmental scan and key informant interviews with experts in health
65.26	care finance, health economics, health care management or administration, and the
65.27	administration of health insurance benefits to determine drivers of spending growth for
65.28	spending on administrative services or the provision of low-value care; and
65.29	(4) convene a clinical learning community and an employer task force to review the
65.30	evidence from clauses (1) to (3) and develop a set of actionable strategies to address
65.31	administrative spending volume and growth and the magnitude of the volume of low-value
65.32	care.

- (2) for a hospital with a medical assistance inpatient utilization rate above one standard deviation above the mean, the adjustment must be determined by multiplying the adjustment that would be determined under clause (1) for that hospital by 1.1. The commissioner shall specifically report on the adjustments received by public hospitals and public hospital corporations located in cities of the first class.
- 72.10 (b) Certified public expenditures made by Hennepin County Medical Center shall be considered Medicaid disproportionate share hospital payments. Hennepin County and 72.11 Hennepin County Medical Center shall report by June 15, 2007, on payments made beginning 72.12 July 1, 2005, or another date specified by the commissioner, that may qualify for 72.13 reimbursement under federal law. Sec. 20. Minnesota Statutes 2022, section 256B.75, is amended to read:

## 256B.75 HOSPITAL OUTPATIENT REIMBURSEMENT.

(a) For outpatient hospital facility fee payments for services rendered on or after October 1, 1992, the commissioner of human services shall pay the lower of (1) submitted charge, or (2) 32 percent above the rate in effect on June 30, 1992, except for those services for which there is a federal maximum allowable payment. Effective for services rendered on or after January 1, 2000, payment rates for nonsurgical outpatient hospital facility fees and emergency room facility fees shall be increased by eight percent over the rates in effect on December 31, 1999, except for those services for which there is a federal maximum allowable payment. Services for which there is a federal maximum allowable payment shall be paid at the lower of (1) submitted charge, or (2) the federal maximum allowable payment. Total aggregate payment for outpatient hospital facility fee services shall not exceed the Medicare upper limit. If it is determined that a provision of this section conflicts with existing or future requirements of the United States government with respect to federal financial participation in medical assistance, the federal requirements prevail. The commissioner may, in the aggregate, prospectively reduce payment rates to avoid reduced federal financial participation resulting from rates that are in excess of the Medicare upper limitations.

(b)(1) Notwithstanding paragraph (a), payment for outpatient, emergency, and ambulatory surgery hospital facility fee services for critical access hospitals designated under section 144.1483, clause (9), shall be paid on a cost-based payment system that is based on the cost-finding methods and allowable costs of the Medicare program. Effective for services provided on or after July 1, 2015, rates established for critical access hospitals under this paragraph for the applicable payment year shall be the final payment and shall not be settled to actual costs. Effective for services delivered on or after the first day of the hospital's fiscal year ending in 2017, the rate for outpatient hospital services shall be computed using information from each hospital's Medicare cost report as filed with Medicare for the year that is two years before the year that the rate is being computed. Rates shall be computed using information from Worksheet C series until the department finalizes the medical

83.3	The outpatient rate shall be equal to ancillary cost plus outpatient cost, excluding costs

- (2) The rate described in clause (1) must be increased for hospitals providing high levels of 340B drugs. The rate adjustment must be based on four percent of each hospital's share of the total reimbursement for 340B drugs to all critical access hospitals, but must not exceed \$3,000,000.
- (c) Effective for services provided on or after July 1, 2003, rates that are based on the Medicare outpatient prospective payment system shall be replaced by a budget neutral prospective payment system that is derived using medical assistance data. The commissioner shall provide a proposal to the 2003 legislature to define and implement this provision. When implementing prospective payment methodologies, the commissioner shall use general methods and rate calculation parameters similar to the applicable Medicare prospective payment systems for services delivered in outpatient hospital and ambulatory surgical center settings unless other payment methodologies for these services are specified in this chapter.
- (d) For fee-for-service services provided on or after July 1, 2002, the total payment, before third-party liability and spenddown, made to hospitals for outpatient hospital facility services is reduced by .5 percent from the current statutory rate.
- (e) In addition to the reduction in paragraph (d), the total payment for fee-for-service services provided on or after July 1, 2003, made to hospitals for outpatient hospital facility services before third-party liability and spenddown, is reduced five percent from the current statutory rates. Facilities defined under section 256.969, subdivision 16, are excluded from this paragraph.
- (f) In addition to the reductions in paragraphs (d) and (e), the total payment for fee-for-service services provided on or after July 1, 2008, made to hospitals for outpatient hospital facility services before third-party liability and spenddown, is reduced three percent from the current statutory rates. Mental health services and facilities defined under section 256.969, subdivision 16, are excluded from this paragraph.

87.3	ensure that premiums do not exceed the amount that an individual would have been required
87.4	to pay if the individual was enrolled in an applicable benchmark plan in accordance with
87.5	the Code of Federal Regulations, title 42, section 600.505 (a)(1).
87.6	(d) The commissioner shall establish a sliding premium scale for persons eligible through

87.21	minority members of the legislative committees with jurisdiction over health care policy
87.22	and finance by January 15, 2025. The plan must include:
87.23	(1) recommendations for any changes to the MinnesotaCare public option necessary to
87.24	continue federal basic health program funding or to receive other federal funding;
87.25	(2) recommendations for ensuring sufficient provider participation in MinnesotaCare;
87.26	(3) estimates of state costs related to the MinnesotaCare public option;
87.27	(4) a description of the proposed premium scale for persons eligible through the public
87.28	option, including an analysis of the extent to which the proposed premium scale:
87.29	(i) ensures affordable premiums for persons across the income spectrum enrolled under
87.30	the public option; and
87.31	(ii) avoids premium cliffs for persons transitioning to and enrolled under the public
87.32	option; and

88.1	(5) draft legislation that includes any additional policy and conforming changes necessary

88.7	law changes necessary to implement the MinnesotaCare public option under Minnesota
88.8	Statutes, section 256L.04, subdivision 15, including but not limited to those waivers,
88.9	approvals, and law changes necessary to allow the state to:
88.10	(1) continue receiving federal basic health program payments for basic health
88.11	program-eligible MinnesotaCare enrollees and to receive other federal funding for the
88.12	MinnesotaCare public option;
88.13	(2) receive federal payments equal to the value of premium tax credits and cost-sharing
88.14	reductions that MinnesotaCare enrollees with household incomes greater than 200 percent
88.15	of the federal poverty guidelines would otherwise have received; and
88.16	(3) receive federal payments equal to the value of emergency medical assistance that

88.19	(b) In implementing this section, the commissioner of human services shall consult with
88.20	the commissioner of commerce and the Board of Directors of MNsure and may contract

88.22	<b>EFFECTIVE DATE.</b> This section is effective the day following final enactment.
88.23	Sec. 29. ANALYSIS OF BENEFITS AND COSTS OF UNIVERSAL HEALTH CARE
88.24	SYSTEM REFORM MODELS.
88.25	Subdivision 1. Definitions. (a) For purposes of this section, the following terms have
88.26	the meanings given.
88.27	(b) "All necessary care" means the full range of services listed in the proposed Minnesota
88.28	Health Plan legislation, including medical, dental, vision and hearing, mental health, chemical
88.29	dependency treatment, reproductive and sexual health, prescription drugs, medical equipment
88.30	and supplies, long-term care, home care, and coordination of care.

	ENGROSSMENT
89.1	(c) "Direct payment system" means the health care delivery system authorized by
89.2	Minnesota Statutes, section 256.9631.
89.3	(d) "MinnesotaCare public option" means the MinnesotaCare expansion to cover
89.4	individuals eligible under Minnesota Statutes, section 256L.04, subdivision 15.
89.5	(e) "Other reform models" means alternative models of health care reform, which may
89.6	include changes to health system administration, payments, or benefits, and may be
89.7	comprehensive or specific to selected market segments or populations.
89.8	(f) "Total public and private health care spending" means:
89.9	(1) spending on all medical care including but not limited to dental, vision and hearing,
89.10	mental health, chemical dependency treatment, prescription drugs, medical equipment and
89.11	supplies, long-term care, and home care, whether paid through premiums, co-pays and
89.12	deductibles, other out-of-pocket payments, or other funding from government, employers,
89.13	or other sources; and
89.14	(2) the costs associated with administering, delivering, and paying for the care. The costs
89.15	of administering, delivering, and paying for the care includes all expenses by insurers,
89.16	providers, employers, individuals, and the government to select, negotiate, purchase, and
89.17	administer insurance and care including but not limited to coverage for health care, dental,
89.18	long-term care, prescription drugs, and the medical expense portions of workers compensation
89.19	and automobile insurance, and the cost of administering and paying for all health care
89.20	products and services that are not covered by insurance.
89.21	Subd. 2. Initial assumptions. (a) When calculating administrative savings under the
89.22	universal health proposal, the analysts shall recognize that simple, direct payment of medical
89.23	services avoids the need for provider networks, eliminates prior authorization requirements,
89.24	and eliminates administrative complexity of other payment schemes along with the need
89.25	for creating risk adjustment mechanisms, and measuring, tracking, and paying under those
89.26	risk adjusted or nonrisk adjusted payment schemes by both providers and payors.
89.27	(b) The analysts shall assume that, under the universal health proposal, while gross
89.28	provider payments may be reduced to reflect reduced administrative costs, net provider
89.29	income would remain similar to the current system. However, they shall not assume that
89.30	payment rate negotiations will track current Medicaid, Medicare, or market payment rates
89.31	or a combination of those rates, because provider compensation, after adjusting for reduced
89.32	administrative costs, would not be universally raised or lowered but would be negotiated

such as mental health but lowered in other areas.

89.33

89.34

based on market needs, so provider compensation might be raised in an underserved area

Subd. 3. Contract for analysis of proposals; analytic tool. (a) The commissioner of

90.2	health shall contract with one or more independent entities to:
90.3	(1) conduct an analysis of the benefits and costs of a legislative proposal for a universal
90.4	health care financing system, based on the legislative proposal known as the Minnesota
90.5	Health Plan (Regular Session 2023, Senate File No. 2740/House File No. 2798) and a similar
90.6	analysis of the current health care financing system to assist the state in comparing the
90.7	proposal to the current system; and
90.8	(2) conduct an analysis of the MinnesotaCare public option, the direct payment system,
90.9	and other reform models, and a similar analysis of the current health care financing system
90.10	to assist the state in comparing the models to the current system.
90.11	(b) In conducting these analyses, the contractor or contractors shall develop and use an
90.12	analytic tool that meets the requirements in subdivision 4, and shall also make this analytic
90.13	tool available for use by the commissioner.
90.14	(c) The commissioner shall issue a request for information. Based on responses to the
90.15	request for information, the commissioner shall issue a request for proposals that specifies
90.16	requirements for the design, analysis, and deliverables, and shall select one or more
90.17	contractors based on responses to the request for proposals. The commissioner shall consult
90.18	with the chief authors of this act in implementing this paragraph.
90.19	Subd. 4. Requirements for analytic tool. (a) The analytic tool must be able to assess
90.20	and model the impact of the Minnesota Health Plan, the direct payment system, the
90.21	MinnesotaCare public option, and other reform models on the following:
90.22	(1) coverage: the number of people who are uninsured versus the number of people who
90.23	are insured;
90.24	(2) benefit completeness: adequacy of coverage measured by the completeness of the
90.25	coverage and the number of people lacking coverage for key necessary care elements such
90.26	as dental, long-term care, medical equipment or supplies, vision and hearing, or other health
90.27	services that are not covered, if any. The analysis must take into account the vast variety of
90.28	benefit designs in the commercial market and report the extent of coverage in each area;
90.29	(3) underinsurance: whether people with coverage can afford the care they need or
90.30	whether cost prevents them from accessing care. This includes affordability in terms of
90.31	premiums, deductibles, and out-of-pocket expenses;

91.1	(4) system capacity: the timeliness and appropriateness of the care received and whether
91.2	people turn to inappropriate care such as emergency rooms because of a lack of proper care
91.3	in accordance with clinical guidelines; and
91.4	(5) health care spending: total public and private health care spending in Minnesota,
91.5	including all spending by individuals, businesses, and government. Where relevant, the
91.6	analysis shall be broken out by key necessary care areas, such as medical, dental, and mental
91.7	health. The analysis of total health care spending shall examine whether there are savings
91.8	or additional costs under the legislative proposal compared to the existing system due to:
91.9	(i) changes in cost of insurance, billing, underwriting, marketing, evaluation, and other
91.10	administrative functions for all entities involved in the health care system, including savings
91.11	from global budgeting for hospitals and institutional care instead of billing for individual
91.12	services provided;
91.13	(ii) changed prices on medical services and products, including pharmaceuticals, due to
91.14	price negotiations under the proposal;
91.15	(iii) impact on utilization, health outcomes, and workplace absenteeism due to prevention,
91.16	early intervention, and health-promoting activities;
91.17	(iv) shortages or excess capacity of medical facilities, equipment, and personnel, including
91.18	caregivers and staff, under either the current system or the proposal, including capacity of
91.19	clinics, hospitals, and other appropriate care sites versus inappropriate emergency room
91.20	usage. The analysis shall break down capacity by geographic differences such as rural versus
91.21	metro, and disparate access by population group;
91.22	(v) the impact on state, local, and federal government non-health-care expenditures.
91.23	This may include areas such as reduced crime and out-of-home placement costs due to
91.24	mental health or chemical dependency coverage. Additional definition may further develop
91.25	hypotheses for other impacts that warrant analysis;
91.26	(vi) job losses or gains within the health care system, specifically, in health care delivery,
91.27	health billing, and insurance administration;
91.28	(vii) job losses or gains elsewhere in the economy under the proposal due to
	implementation of the resulting reduction of insurance and administrative burdens on
91.29	
91.29 91.30	businesses; and
	businesses; and  (viii) impacts on disparities in health care access and outcomes.

92.1	(1) have the capacity to conduct interactive microsimulations;
92.2	(2) allow comparisons between the Minnesota Health Plan, the direct payment system
92.3	the MinnesotaCare public option, the current delivery system, and other reform models, or
92.4	the relative impact of these delivery approaches on the variables described in paragraph (a)
92.5	<u>and</u>
92.6	(3) allow comparisons based on differing assumptions about the characteristics and
92.7	operation of the delivery approaches.
92.8	Subd. 5. <b>Analyses by the commissioner.</b> The commissioner, in cooperation with the
92.9	commissioners of human services and commerce and the legislature, may use the analytic
92.10	tool to assist in the development, design, and analysis of reform models under consideration
92.11	by the legislature and state agencies, and to supplement the analyses of the Minnesota Health
92.12	Plan, the MinnesotaCare public option, and the direct payment system conducted by the
92.13	contractor or contractors under this section.
92.14	Subd. 6. Report and delivery of analytic tool. (a) The contractor or contractors, by
92.15	January 15, 2026, shall report findings and recommendations to the commissioner, and to
92.16	the chairs and ranking minority members of the legislative committees with jurisdiction
92.17	over health care and commerce, on the design and implementation of the Minnesota Health
92.18	Plan, the MinnesotaCare public option, and the direct payment system. The findings and
92.19	recommendations must address the feasibility and affordability of the proposals, and the
92.20	projected impact of the proposals on the variables listed in subdivision 4.
92.21	(b) The contractor or contractors shall make the analytic tool available to the
92.22	commissioner by January 15, 2026.

121.15	patients or nonresidents, and other disclaimers that provide appropriate context; and
121.16	(v) not lead to the collection of additional data elements beyond what is authorized under
121.17	this section as of June 30, 2015.
121.18	(6) to conduct analyses of the impact of health care transactions on health care costs,

121.22	in which the identity of individual hospitals, clinics, or other providers may be discerned.
121.23	The data published under this paragraph may identify hospitals, clinics, and medical practices
121.24	so long as no individual health professionals are identified and the commissioner finds the
121.25	data to be accurate, valid, and suitable for publication for such use.
121.26	(c) Nothing in this subdivision shall be construed to prohibit the commissioner from

122.11	this subdivision may not be used to:
122.12	(1) create an unfair market advantage for any participant in the health care market in
122.13	Minnesota, including health plan companies, payers, and providers;
122.14	(2) reidentify or attempt to reidentify an individual in the data; or
122.15	(3) publicly report contract details between a health plan company and provider and

122.26	those most affected by disparities; and
122.27	(3) create a research advisory group to advise the commissioner on applications for data
122.28	use under this subdivision, including an examination of the rigor of the research approach,

Sec. 35. Minnesota Statutes 2022, section 121A.335, is amended to read:

## 121A.335 LEAD IN SCHOOL DRINKING WATER.

- Subdivision 1. Model plan. The commissioners of health and education shall jointly develop a model plan to require school districts to accurately and efficiently test for the presence of lead in water in public school buildings serving students in kindergarten through grade 12. To the extent possible, the commissioners shall base the plan on the standards established by the United States Environmental Protection Agency. The plan may be based on the technical guidance in the Department of Health's document, "Reducing Lead in Drinking Water: A Technical Guidance for Minnesota's School and Child Care Facilities." The plan must include recommendations for remediation efforts when testing reveals the presence of lead at or above five parts per billion.
- Subd. 2. School plans. (a) By July 1, 2018, the board of each school district or charter 124.15 school must adopt the commissioners' model plan or develop and adopt an alternative plan 124.16 to accurately and efficiently test for the presence of lead in water in school buildings serving prekindergarten students and students in kindergarten through grade 12. 124.18
- (b) By July 1, 2024, a school district or charter school must revise its plan to include its 124.19 policies and procedures for ensuring consistent water quality throughout the district's or 124.20 charter school's facilities. The plan must document the routine water management strategies 124.21 and procedures used in each building or facility to maintain water quality and reduce exposure 124.22 to lead. A district or charter school must base the plan on the United States Environmental 124.23 Protection Agency's "Ensuring Drinking Water Quality in Schools During and After Extended 124.24 Closures" fact sheet and the United States Environmental Protection Agency's "3Ts Toolkit 124.25 for Reducing Lead in Drinking Water in Schools and Child Care Facilities" manual. A 124.26 district or charter school's plan must be publicly available upon request. 124.27
- Subd. 3. Frequency of testing. (a) The plan under subdivision 2 must include a testing 124.28 schedule for every building serving prekindergarten through grade 12 students. The schedule 124.29 must require that each building be tested at least once every five years. A school district or 124.30 charter school must begin testing school buildings by July 1, 2018, and complete testing of all buildings that serve students within five years.

125.1	(b) A school district or charter school that finds lead at a specific location providing
125.2	cooking or drinking water within a facility must formulate, make publicly available, and
125.3	implement a plan that is consistent with established guidelines and recommendations to
125.4	ensure that student exposure to lead is minimized reduced to below five parts per billion as
125.5	verified by a retest. This includes, when a school district or charter school finds the presence
125.6	of lead at a level where action should be taken as set by the guidance at or above five parts
125.7	per billion in any water source fixture that can provide cooking or drinking water,
125.8	immediately shutting off the water source fixture or making it unavailable until the hazard
125.9	has been minimized remediated as verified by a retest.
125.10	(c) A school district or charter school must test for the presence of lead after completing
125.11	remediation activities required under this section to confirm that the water contains lead at
125.12	a level below five parts per billion.
125.13	Subd. 4. Ten-year facilities plan. A school district may include lead testing and
125.14	remediation as a part of its ten-year facilities plan under section 123B.595.
125.15	Subd. 5. Reporting. (a) A school district or charter school that has tested its buildings
125.16	for the presence of lead shall make the results of the testing available to the public for review
125.17	and must notify parents of the availability of the information. School districts and charter
125.18	schools must follow the actions outlined in guidance from the commissioners of health and
125.19	education. must send parents an annual notice that includes the district's or charter school's
125.20	annual testing and remediation plan, information about how to find test results, and a
125.21	description of remediation efforts on the district website. The district or charter school must
125.22	update the lead testing and remediation information on its website at least annually. In
125.23	addition to the annual notice, the district or charter school must include in an official school
125.24	handbook or official school policy guide information on how parents may find the test
125.25	results and a description of remediation efforts on the district or charter school website and
125.26	how often this information is updated.
125.27	(b) If a test conducted under subdivision 3, paragraph (a), reveals the presence of lead
125.28	at or above a level where action should be taken as set by the guidance five parts per billion,
125.29	the school district or charter school must, within 30 days of receiving the test result, either
125.30	remediate the presence of lead to below the level set in guidance five parts per billion,
125.31	verified by retest, or directly notify parents of the test result. The school district or charter
125.32	school must make the water source unavailable until the hazard has been minimized.
125.33	(c) Starting July 1, 2024, school districts and charter schools must report their test results

125.34 and remediation activities to the commissioner of health in the form and manner determined

126.1	by the commissioner in consultation with school districts and charter schools, by July 1 of
126.2	each year. The commissioner of health must post and annually update the test results and
126.3	remediation efforts on the department website by school site.
126.4	(d) A district or charter school must maintain a record of lead testing results and
126.5	remediation activities for at least 15 years.
126.6	Subd. 6. Public water systems. (a) A district or charter school is not financially
126.7	responsible for remediation of documented elevated lead levels in drinking water caused
126.8	by the presence of lead infrastructure owned by a public water supply utility providing water
126.9	to the school facility, such as lead service lines, meters, galvanized service lines downstream
126.10	of lead, or lead connectors. The district or charter school must communicate with the public
126.11	water system regarding its documented significant contribution to lead contamination in
126.12	school drinking water and request from the public water system a plan for reducing the lead
126.13	contamination.
126.14	(b) If the infrastructure is jointly owned by a district or charter school and a public water
126.15	supply utility, the district or charter school must attempt to coordinate any needed
126.16	replacements of lead service lines with the public water supply utility.
126.17	(c) A district or charter school may defer its remediation activities under this section
126.18	until after the elevated lead level in the public water system's infrastructure is remediated
126.19	and postremediation testing does not detect an elevated lead level in the drinking water that
126.20	passes through that infrastructure. A district or charter school may also defer its remediation
126.21	activities if the public water supply exceeds the federal Safe Drinking Water Act lead action
126.22	level or is in violation of the Safe Drinking Water Act Lead and Copper Rule.
126.23	Subd. 7. Commissioner recommendations. By January 1, 2026, and every five years
126.24	thereafter, the commissioner of health must report to the legislative committees having
126.25	jurisdiction over health and kindergarten through grade 12 education any recommended
126.26	changes to this section. The recommendations must be based on currently available scientific
126.27	evidence regarding the effects of lead in drinking water.

127.12	and research in all settings where antimicrobial products are used;
127.13	(4) ensure that veterinary settings have education and strategies needed to practice
127.14	appropriate antibiotic prescribing, implement clinical antimicrobial stewardship programs,
127.15	and prevent transmission of antimicrobial-resistant microbes; and
127.16	(5) support collaborative research and programmatic initiatives to improve the
127.17	understanding of the impact of antimicrobial use and resistance in the natural environment.
127 10	Sec. 37. [144.0528] COMPREHENSIVE DRUG OVERDOSE AND MORBIDITY

127.24	unintentionally; or nonprescription drugs in amounts that result in morbidity or mortality.
127.25	Subd. 2. Establishment. The commissioner of health shall establish a comprehensive
127.26	drug overdose and morbidity program to conduct comprehensive drug overdose and morbidity

For purposes of this section, "sexual and reproductive health services" means services that promote a state of complete physical, mental, and social well-being in relation to sexuality, reproduction, and the reproductive system and its functions and processes, and not merely the absence of disease or infirmity. These services must be provided in accord with nationally recognized standards and include but are not limited to sexual and reproductive health counseling, voluntary and informed decision-making on sexual and reproductive health, information on and provision of contraceptive methods, sexual and reproductive health screenings and treatment, pregnancy testing and counseling, and other preconception services.

Rules. The commissioner of health shall promulgate rules for approval of plans 219.24 and budgets of prospective grant recipients, for the submission of annual financial and statistical reports, and the maintenance of statements of source and application of funds by 219.26 grant recipients. The commissioner of health may not require that any home rule charter or 219.27 statutory city or county apply for or receive grants under this subdivision as a condition for 219.28 the receipt of any state or federal funds unrelated to family planning services. 219.29 219.30 Subd. 6. **Public services**; individual and employee rights. 224.21	Subd. 7. Report. Grantees must report grant program outcomes to the commissioner on

225.1	Subd. 3. Grant allocation. Grantees must use the funds to address sources of lead
225.2	contamination in their facilities including but not limited to service connections and premise
225.3	plumbing, and to implement best practices for water management within the building.
225.4	Sec. 124. [145.9273] TESTING FOR LEAD IN DRINKING WATER IN CHILD
225.5	CARE SETTINGS.
225.6	Subdivision 1. Requirement to test. (a) By July 1, 2024, licensed or certified child care
225.7	providers must develop a plan to accurately and efficiently test for the presence of lead in
225.8	drinking water in child care facilities following either the Department of Health's document
225.9	"Reducing Lead in Drinking Water: A Technical Guidance for Minnesota's School and
225.10	Child Care Facilities" or the Environmental Protection Agency's "3Ts: Training, Testing,
225.11	Taking Action" guidance materials.
225.12	(b) For purposes of this section, "licensed or certified child care provider" means a child
225.13	care center licensed under Minnesota Rules, chapter 9503, or a certified license-exempt

225.15	Subd. 2. Scope and frequency of testing. The plan under subdivision 1 must include
225.16	testing every building serving children and all water fixtures used for consumption of water,
225.17	including water used in food preparation. All taps must be tested at least once every five
225.18	years. A licensed or certified child care provider must begin testing in buildings by July 1,
225.19	2024, and complete testing in all buildings that serve students within five years.
225.20	Subd. 3. Remediation of lead in drinking water. The plan under subdivision 1 must
225.21	include steps to remediate if lead is present in drinking water. A licensed or certified child
225.22	care provider that finds lead at concentrations at or exceeding five parts per billion at a
225.23	specific location providing water to children within its facilities must take action to reduce
225.24	lead exposure following guidance and verify the success of remediation by retesting the
225.25	location for lead. Remediation actions are actions that reduce lead levels from the drinking
225.26	water fixture as demonstrated by testing. This includes using certified filters, implementing
225.27	and documenting a building-wide flushing program, and replacing or removing fixtures
225.28	with elevated lead levels.
225.29	Subd. 4. Reporting results. (a) A licensed or certified child care provider that tested its
225.30	buildings for the presence of lead shall make the results of the testing and any remediation
225.31	steps taken available to parents and staff and notify them of the availability of results.
225.32	Reporting shall occur no later than 30 days from receipt of results and annually thereafter.

226.1	(b) Beginning July 1, 2024, a licensed or certified child care provider must report the
226.2	provider's test results and remediation activities to the commissioner of health annually on
226.3	or before July 1 of each year.

226.10	consist of 18 members who will provide representation from the following groups:
226.11	(1) African American and African heritage communities;

Rules, parts 9549.0010 to 9549.0080, shall be used to calculate rate adjustments for allowable

construction projects under this subdivision and section 144A.073. Facilities completing

construction projects between October 1, 2005, and October 1, 2006, are eligible to have a

property rate adjustment effective October 1, 2006. Facilities completing projects after 256.22

October 1, 2006, are eligible for a property rate adjustment effective on the first day of the 256.23

month following the completion date. Facilities completing projects after January 1, 2018,

are eligible for a property rate adjustment effective on the first day of the month of January 256.25

or July, whichever occurs immediately following the completion date. 256.26

(b) Notwithstanding subdivision 18, as of July 14, 2005, facilities with rates set under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, that commenced a construction project on or after October 1, 2004, and do not have a contract under subdivision 3 by September 30, 2006, are eligible to request a rate adjustment under section 256B.431, subdivision 10, through September 30, 2006. If the request results in the commissioner determining a rate adjustment is allowable, the rate adjustment is effective on the first of the month following project completion. These facilities shall be allowed to accumulate construction project costs for the period October 1, 2004, to September 30, 2006.

- (c) Facilities shall be allowed construction project rate adjustments no sooner than 12 months after completing a previous construction project. Facilities must request the rate adjustment according to section 256B.431, subdivision 10.
- (d) Capacity days shall be computed according to Minnesota Rules, part 9549.0060, subpart 11. For rate calculations under this section, the number of licensed beds in the nursing facility shall be the number existing after the construction project is completed and the number of days in the nursing facility's reporting period shall be 365.
- (e) The value of assets to be recognized for a total replacement project as defined in section 256B.431, subdivision 17d, shall be computed as described in clause (1). The value of assets to be recognized for all other projects shall be computed as described in clause 257.10 257.11
- 257.12 (1) Replacement-cost-new limits under section 256B.431, subdivision 17e, and the number of beds allowed under subdivision 3a, paragraph (c), shall be used to compute the 257.13 maximum amount of assets allowable in a facility's property rate calculation. If a facility's 257.14 current request for a rate adjustment results from the completion of a construction project 257.15 that was previously approved under section 144A.073, the assets to be used in the rate 257.16 calculation cannot exceed the lesser of the amount determined under sections 144A.071, 257.17 subdivision 2, and 144A.073, subdivision 3b, or the actual allowable costs of the construction 257.18 project. A current request that is not the result of a project under section 144A.073 cannot 257.19 exceed the limit under section 144A.071, subdivision 2, paragraph (a) (c), clause (1). Applicable credits must be deducted from the cost of the construction project. 257.21
  - (2)(i) Replacement-cost-new limits under section 256B.431, subdivision 17e, and the number of beds allowed under section 256B.431, subdivision 3a, paragraph (c), shall be used to compute the maximum amount of assets allowable in a facility's property rate calculation.
- (ii) The value of a facility's assets to be compared to the amount in item (i) begins with 257.26 the total appraised value from the last rate notice a facility received when its rates were set 257.27 under section 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080. This value 257.28 shall be indexed by the factor in section 256B.431, subdivision 3f, paragraph (a), for each 257.29 rate year the facility received an inflation factor on its property-related rate when its rates 257.30 were set under this section. The value of assets listed as previous capital additions, capital 257.31 additions, and special projects on the facility's base year rate notice and the value of assets 257.32 related to a construction project for which the facility received a rate adjustment when its 257.33 rates were determined under this section shall be added to the indexed appraised value.

(iii) The maximum amount of assets to be recognized in computing a facility's rate
adjustment after a project is completed is the lesser of the aggregate replacement-cost-new
limit computed in (i) minus the assets recognized in (ii) or the actual allowable costs of the
construction project.

- (iv) If a facility's current request for a rate adjustment results from the completion of a construction project that was previously approved under section 144A.073, the assets to be added to the rate calculation cannot exceed the lesser of the amount determined under sections 144A.071, subdivision 2, and 144A.073, subdivision 3b, or the actual allowable costs of the construction project. A current request that is not the result of a project under section 144A.073 cannot exceed the limit stated in section 144A.071, subdivision 2, paragraph (a) (c), clause (1). Assets disposed of as a result of a construction project and applicable credits must be deducted from the cost of the construction project.
- (f) For construction projects approved under section 144A.073, allowable debt may 258.13 never exceed the lesser of the cost of the assets purchased, the threshold limit in section 258.14 144A.071, subdivision 2, or the replacement-cost-new limit less previously existing capital 258.15 debt. 258.16
- (g) For construction projects that were not approved under section 144A.073, allowable 258.17 debt is limited to the lesser of the threshold in section 144A.071, subdivision 2, for such 258.18 construction projects or the applicable limit in paragraph (e), clause (1) or (2), less previously 258.19 existing capital debt. Amounts of debt taken out that exceed the costs of a construction 258.20 project shall not be allowed regardless of the use of the funds. 258.21
- For all construction projects being recognized, interest expense and average debt shall be computed based on the first 12 months following project completion. "Previously existing 258.23 capital debt" means capital debt recognized on the last rate determined under section 258.24 256B.431 and Minnesota Rules, parts 9549.0010 to 9549.0080, and the amount of debt 258.25 recognized for a construction project for which the facility received a rate adjustment when 258.26 its rates were determined under this section. 258.27
- For a total replacement project as defined in section 256B.431, subdivision 17d, the 258.28 value of previously existing capital debt shall be zero. 258.29
- (h) In addition to the interest expense allowed from the application of paragraph (f), the 258.30 amounts allowed under section 256B.431, subdivision 17a, paragraph (a), clauses (2) and 258.31 (3), will be added to interest expense. 258.32
  - (i) The equity portion of the construction project shall be computed as the allowable assets in paragraph (e), less the average debt in paragraph (f). The equity portion must be

259.1	multiplied by	v 5.66	percent and	l the a	ıllowable	interest ex	pense in	paragraph	(f	) must	be ado	ded

- This sum must be divided by 95 percent of capacity days to compute the construction project 259.2
- 259.3 rate adjustment.

259.20

- (j) For projects that are not a total replacement of a nursing facility, the amount in 259.4 259.5 paragraph (i) is adjusted for nonreimbursable areas and then added to the current property payment rate of the facility. 259.6
- (k) For projects that are a total replacement of a nursing facility, the amount in paragraph 259.7 (i) becomes the new property payment rate after being adjusted for nonreimbursable areas. 259.8 Any amounts existing in a facility's rate before the effective date of the construction project 259.9 for equity incentives under section 256B.431, subdivision 16; capital repairs and replacements 259.10 under section 256B.431, subdivision 15; or refinancing incentives under section 256B.431, 259.11 subdivision 19, shall be removed from the facility's rates. 259.12
- (1) No additional equipment allowance is allowed under Minnesota Rules, part 9549.0060, subpart 10, as the result of construction projects under this section. Allowable equipment 259.14 shall be included in the construction project costs. 259.15
- (m) Capital assets purchased after the completion date of a construction project shall be 259.16 counted as construction project costs for any future rate adjustment request made by a facility 259.17 under section 144A.071, subdivision 2, clause (a) paragraph (c), clause (1), if they are 259.18 purchased within 24 months of the completion of the future construction project. 259.19
  - (n) In subsequent rate years, the property payment rate for a facility that results from the application of this subdivision shall be the amount inflated in subdivision 4.
- (o) Construction projects are eligible for an equity incentive under section 256B.431, 259.22 subdivision 16. When computing the equity incentive for a construction project under this 259.23 subdivision, only the allowable costs and allowable debt related to the construction project 259.24 shall be used. The equity incentive shall not be a part of the property payment rate and not inflated under subdivision 4. Effective October 1, 2006, all equity incentives for nursing facilities reimbursed under this section shall be allowed for a duration determined under 259.27 section 256B.431, subdivision 16, paragraph (c). 259.28
- Sec. 175. Minnesota Statutes 2022, section 256B.692, subdivision 2, is amended to read: 259.29

- (2) occurs in patient care settings that face increased financial pressure as a result of competition with nonteaching patient care entities; and
- (3) emphasizes primary care or specialties that are in undersupply in Minnesota.
- (b) A clinical medical education program for advanced practice nursing is eligible for funds under subdivision 4 if the program meets the eligibility requirements in paragraph (a), clauses (1) to (3), and is sponsored by the University of Minnesota Academic Health Center, the Mayo Foundation, or institutions that are part of the Minnesota State Colleges and Universities system or members of the Minnesota Private College Council.
- (c) Applications must be submitted to the commissioner by a sponsoring institution on behalf of an eligible clinical medical education program and must be received by October 31 of each year for distribution in the following year on a timeline determined by the commissioner. An application for funds must contain the following information: information the commissioner deems necessary to determine program eligibility based on the criteria in paragraphs (a) and (b) and to ensure the equitable distribution of funds.
- (1) the official name and address of the sponsoring institution and the official name and site address of the clinical medical education programs on whose behalf the sponsoring institution is applying;
- (2) the name, title, and business address of those persons responsible for administering the funds;
- (3) for each clinical medical education program for which funds are being sought; the type and specialty orientation of trainees in the program; the name, site address, and medical assistance provider number and national provider identification number of each training site used in the program; the federal tax identification number of each training site used in the program, where available; the total number of trainees at each training site; and the total number of eligible trainee FTEs at each site; and
- (4) other supporting information the commissioner deems necessary to determine program eligibility based on the criteria in paragraphs (a) and (b) and to ensure the equitable distribution of funds.
- (d) An application must include the information specified in clauses (1) to (3) for each clinical medical education program on an annual basis for three consecutive years. After that time, an application must include the information specified in clauses (1) to (3) when requested, at the discretion of the commissioner:

300.1	(1) audited clinical training costs per trainee for each clinical medical education program
300.2	when available or estimates of clinical training costs based on audited financial data;
300.3	(2) a description of current sources of funding for clinical medical education costs,
300.4	including a description and dollar amount of all state and federal financial support, including
300.5	Medicare direct and indirect payments; and
300.6	(3) other revenue received for the purposes of clinical training.
300.7	(e) (d) An applicant that does not provide information requested by the commissioner
300.8	shall not be eligible for funds for the eurrent applicable funding cycle.
300.9	Sec. 3. Minnesota Statutes 2022, section 62J.692, subdivision 4, is amended to read:
300.10	Subd. 4. <b>Distribution of funds.</b> (a) The commissioner shall annually distribute the
300.11	available medical education funds revenue credited or money transferred to the medical
300.12	education and research costs account under subdivision 8 and section 297F.10, subdivision
300.13	1, clause (2), to all qualifying applicants based on a public program volume factor, which
300.14	is determined by the total volume of public program revenue received by each training site
300.15	as a percentage of all public program revenue received by all training sites in the fund pool.
300.16	Public program revenue for the distribution formula includes revenue from medical
300.17	assistance and prepaid medical assistance. Training sites that receive no public program
300.18	revenue are ineligible for funds available under this subdivision. For purposes of determining
300.19	training-site level grants to be distributed under this paragraph, total statewide average costs
300.20	per trainee for medical residents is based on audited clinical training costs per trainee in
300.21	primary care clinical medical education programs for medical residents. Total statewide
300.22	average costs per trainee for dental residents is based on audited clinical training costs per
300.23	trainee in clinical medical education programs for dental students. Total statewide average
300.24	costs per trainee for pharmacy residents is based on audited clinical training costs per trainee
300.25	in clinical medical education programs for pharmacy students.
300.26	Training sites whose training site level grant is less than \$5,000, based on the formula
300.27	formulas described in this paragraph subdivision, or that train fewer than 0.1 FTE eligible
300.28	trainees, are ineligible for funds available under this subdivision. No training sites shall
300.29	receive a grant per FTE trainee that is in excess of the 95th percentile grant per FTE across
300.30	all eligible training sites; grants in excess of this amount will be redistributed to other eligible
300.31	sites based on the formula formulas described in this paragraph subdivision.

(b) For funds distributed in fiscal years 2014 and 2015, the distribution formula shall include a supplemental public program volume factor, which is determined by providing a

supplemental payment to training sites whose public program revenue accounted for at least 0.98 percent of the total public program revenue received by all eligible training sites. The supplemental public program volume factor shall be equal to ten percent of each training site's grant for funds distributed in fiscal year 2014 and for funds distributed in fiscal year 2015. Grants to training sites whose public program revenue accounted for less than 0.98 percent of the total public program revenue received by all eligible training sites shall be reduced by an amount equal to the total value of the supplemental payment. For fiscal year 2016 and beyond, the distribution of funds shall be based solely on the public program volume factor as described in paragraph (a). Money appropriated through the state general fund, the health care access fund, and any additional fund for the purpose of funding medical 301.10 education and research costs and that does not require federal approval must be awarded 301.11 only to eligible training sites that do not qualify for a medical education and research cost 301.12 rate factor under sections 256.969, subdivision 2b, paragraph (k), or 256B.75, paragraph 301.13 (b). The commissioner shall distribute the available medical education money appropriated 301.14 to eligible training sites that do not qualify for a medical education and research cost rate 301.15 301.16 factor based on a distribution formula determined by the commissioner. The distribution formula under this paragraph must consider clinical training costs, public program revenues, 301.17 and other factors identified by the commissioner that address the objective of supporting 301.18 clinical training. 301.19

- (c) Funds distributed shall not be used to displace current funding appropriations from federal or state sources.
- (d) Funds shall be distributed to the sponsoring institutions indicating the amount to be distributed to each of the sponsor's clinical medical education programs based on the criteria in this subdivision and in accordance with the commissioner's approval letter. Each clinical medical education program must distribute funds allocated under paragraphs (a) and (b) to the training sites as specified in the commissioner's approval letter. Sponsoring institutions, which are accredited through an organization recognized by the Department of Education or the Centers for Medicare and Medicaid Services, may contract directly with training sites to provide clinical training. To ensure the quality of clinical training, those accredited sponsoring institutions must:
- (1) develop contracts specifying the terms, expectations, and outcomes of the clinical training conducted at sites; and
- (2) take necessary action if the contract requirements are not met. Action may include 301.33 the withholding of payments disqualifying the training site under this section or the removal 301.34 of students from the site. 301.35

302.1	(e) Use of funds is limited to expenses related to <u>eligible</u> clinical training <del>program</del> costs
302.2	for eligible programs. The commissioner shall develop a methodology for determining
302.3	eligible costs.
302.4	(f) Any funds not that cannot be distributed in accordance with the commissioner's
302.5	approval letter must be returned to the medical education and research fund within 30 days
302.6	of receiving notice from the commissioner. The commissioner shall distribute returned
302.7	funds to the appropriate training sites in accordance with the commissioner's approval letter.
302.8	When appropriate, the commissioner shall include the undistributed money in the subsequent
302.9	distribution cycle using the applicable methodology described in this subdivision.
302.10	(g) A maximum of \$150,000 of the funds dedicated to the commissioner under section
302.11	297F.10, subdivision 1, clause (2), may be used by the commissioner for administrative
302.12	expenses associated with implementing this section.
302.13	Sec. 4. Minnesota Statutes 2022, section 62J.692, subdivision 5, is amended to read:
302.14	Subd. 5. Report. (a) Sponsoring institutions receiving funds under this section must
302.15	sign and submit a medical education grant verification report (GVR) to verify that the correct
302.16	grant amount was forwarded to each eligible training site. If the sponsoring institution fails
302.17	to submit the GVR by the stated deadline, or to request and meet the deadline for an
302.18	extension, the sponsoring institution is required to return the full amount of funds received
302.19	to the commissioner within 30 days of receiving notice from the commissioner. The
302.20	commissioner shall distribute returned funds to the appropriate training sites in accordance
302.21	with the commissioner's approval letter.
302.22	(b) The reports must provide verification of the distribution of the funds and must include:
302.23	(1) the total number of eligible trainee FTEs in each clinical medical education program;
302.24	(2) the name of each funded program and, for each program, the dollar amount distributed
302.25	to each training site and a training site expenditure report;
302.26	(3) (1) documentation of any discrepancies between the initial grant distribution notice

- Subd. 2b. **Hospital payment rates.** (a) For discharges occurring on or after November 1, 2014, hospital inpatient services for hospitals located in Minnesota shall be paid according to the following:
- 304.5 (1) critical access hospitals as defined by Medicare shall be paid using a cost-based methodology;
- 304.7 (2) long-term hospitals as defined by Medicare shall be paid on a per diem methodology under subdivision 25;
- (3) rehabilitation hospitals or units of hospitals that are recognized as rehabilitation distinct parts as defined by Medicare shall be paid according to the methodology under subdivision 12; and
- 304.12 (4) all other hospitals shall be paid on a diagnosis-related group (DRG) methodology.
- (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not be rebased, except that a Minnesota long-term hospital shall be rebased effective January 1, 2011, based on its most recent Medicare cost report ending on or before September 1, 2014, with the provisions under subdivisions 9 and 23, based on the rates in effect on December 31, 2010. For rate setting periods after November 1, 2014, in which the base years are updated, a Minnesota long-term hospital's base year shall remain within the same period as other hospitals.
- (c) Effective for discharges occurring on and after November 1, 2014, payment rates 304.20 for hospital inpatient services provided by hospitals located in Minnesota or the local trade 304.21 area, except for the hospitals paid under the methodologies described in paragraph (a), 304.22 clauses (2) and (3), shall be rebased, incorporating cost and payment methodologies in a 304.23 manner similar to Medicare. The base year or years for the rates effective November 1, 304.24 304.25 2014, shall be calendar year 2012. The rebasing under this paragraph shall be budget neutral, ensuring that the total aggregate payments under the rebased system are equal to the total 304.26 aggregate payments that were made for the same number and types of services in the base 304.27 year. Separate budget neutrality calculations shall be determined for payments made to 304.28 critical access hospitals and payments made to hospitals paid under the DRG system. Only 304.29 the rate increases or decreases under subdivision 3a or 3c that applied to the hospitals being 304.30 rebased during the entire base period shall be incorporated into the budget neutrality 304.31 304.32 calculation.

305.1	(d) For discharges occurring on or after November 1, 2014, through the next rebasing			
305.2	that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph			
305.3	(a), clause (4), shall include adjustments to the projected rates that result in no greater that			
305.4	a five percent increase or decrease from the base year payments for any hospital. Any			
305.5	adjustments to the rates made by the commissioner under this paragraph and paragraph (e)			
305.6	shall maintain budget neutrality as described in paragraph (c).			
305.7	(e) For discharges occurring on or after November 1, 2014, the commissioner may make			
305.8	additional adjustments to the rebased rates, and when evaluating whether additional			
305.9	adjustments should be made, the commissioner shall consider the impact of the rates on the			
305.10	following:			
305.11	(1) pediatric services;			
305.12	(2) behavioral health services;			
305.13	(3) trauma services as defined by the National Uniform Billing Committee;			
305.14	(4) transplant services;			
305.15	(5) obstetric services, newborn services, and behavioral health services provided by			
305.16	hospitals outside the seven-county metropolitan area;			
305.17	(6) outlier admissions;			
305.18	(7) low-volume providers; and			
305.19	(8) services provided by small rural hospitals that are not critical access hospitals.			
305.20	(f) Hospital payment rates established under paragraph (c) must incorporate the following:			
305.21	(1) for hospitals paid under the DRG methodology, the base year payment rate per			
305.22	admission is standardized by the applicable Medicare wage index and adjusted by the			
305.23	hospital's disproportionate population adjustment;			
305.24	(2) for critical access hospitals, payment rates for discharges between November 1, 2014,			
305.25	and June 30, 2015, shall be set to the same rate of payment that applied for discharges on			
305.26	October 31, 2014;			
305.27	(3) the cost and charge data used to establish hospital payment rates must only reflect			
305.28	inpatient services covered by medical assistance; and			
305.29	(4) in determining hospital payment rates for discharges occurring on or after the rate			
305.30	year beginning January 1, 2011, through December 31, 2012, the hospital payment rate per

program in effect during the base year or years. In determining hospital payment rates for discharges in subsequent base years, the per discharge rates shall be based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year or years.

- (g) The commissioner shall validate the rates effective November 1, 2014, by applying the rates established under paragraph (c), and any adjustments made to the rates under paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the total aggregate payments for the same number and types of services under the rebased rates are equal to the total aggregate payments made during calendar year 2013.
- (h) Effective for discharges occurring on or after July 1, 2017, and every two years thereafter, payment rates under this section shall be rebased to reflect only those changes in hospital costs between the existing base year or years and the next base year or years. In any year that inpatient claims volume falls below the threshold required to ensure a statistically valid sample of claims, the commissioner may combine claims data from two consecutive years to serve as the base year. Years in which inpatient claims volume is reduced or altered due to a pandemic or other public health emergency shall not be used as a base year or part of a base year if the base year includes more than one year. Changes in costs between base years shall be measured using the lower of the hospital cost index defined in subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per claim. The commissioner shall establish the base year for each rebasing period considering the most recent year or years for which filed Medicare cost reports are available. The estimated change in the average payment per hospital discharge resulting from a scheduled rebasing must be calculated and made available to the legislature by January 15 of each year in which rebasing is scheduled to occur, and must include by hospital the differential in payment rates compared to the individual hospital's costs.
- (i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates for critical access hospitals located in Minnesota or the local trade area shall be determined using a new cost-based methodology. The commissioner shall establish within the methodology tiers of payment designed to promote efficiency and cost-effectiveness. Payment rates for hospitals under this paragraph shall be set at a level that does not exceed the total cost for critical access hospitals as reflected in base year cost reports. Until the next rebasing that occurs, the new methodology shall result in no greater than a five percent decrease from the base year payments for any hospital, except a hospital that had payments that were greater than 100 percent of the hospital's costs in the base year shall have their rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and

## 256B.75 HOSPITAL OUTPATIENT REIMBURSEMENT.

(a) For outpatient hospital facility fee payments for services rendered on or after October 1, 1992, the commissioner of human services shall pay the lower of (1) submitted charge, or (2) 32 percent above the rate in effect on June 30, 1992, except for those services for which there is a federal maximum allowable payment. Effective for services rendered on or after January 1, 2000, payment rates for nonsurgical outpatient hospital facility fees and emergency room facility fees shall be increased by eight percent over the rates in effect on December 31, 1999, except for those services for which there is a federal maximum allowable payment. Services for which there is a federal maximum allowable payment shall be paid at the lower of (1) submitted charge, or (2) the federal maximum allowable payment. Total aggregate payment for outpatient hospital facility fee services shall not exceed the Medicare upper limit. If it is determined that a provision of this section conflicts with existing or future requirements of the United States government with respect to federal financial participation in medical assistance, the federal requirements prevail. The commissioner may, in the aggregate, prospectively reduce payment rates to avoid reduced federal financial participation resulting from rates that are in excess of the Medicare upper limitations.

(b) Notwithstanding paragraph (a), payment for outpatient, emergency, and ambulatory surgery hospital facility fee services for critical access hospitals designated under section 144.1483, clause (9), shall be paid on a cost-based payment system that is based on the cost-finding methods and allowable costs of the Medicare program. Effective for services provided on or after July 1, 2015, rates established for critical access hospitals under this paragraph for the applicable payment year shall be the final payment and shall not be settled to actual costs. Effective for services delivered on or after the first day of the hospital's fiscal year ending in 2017, the rate for outpatient hospital services shall be computed using information from each hospital's Medicare cost report as filed with Medicare for the year that is two years before the year that the rate is being computed. Rates shall be computed using information from Worksheet C series until the department finalizes the medical assistance cost reporting process for critical access hospitals. After the cost reporting process is finalized, rates shall be computed using information from Title XIX Worksheet D series. The outpatient rate shall be equal to ancillary cost plus outpatient cost, excluding costs related to rural health clinics and federally qualified health clinics, divided by ancillary charges plus outpatient charges, excluding charges related to rural health clinics and federally qualified health clinics. Effective for services delivered on or after January 1, 2024, the rates paid to critical access hospitals under this section must be adjusted to include the

- (c) Effective for services provided on or after July 1, 2003, rates that are based on the Medicare outpatient prospective payment system shall be replaced by a budget neutral prospective payment system that is derived using medical assistance data. The commissioner shall provide a proposal to the 2003 legislature to define and implement this provision. When implementing prospective payment methodologies, the commissioner shall use general methods and rate calculation parameters similar to the applicable Medicare prospective payment systems for services delivered in outpatient hospital and ambulatory surgical center settings unless other payment methodologies for these services are specified in this chapter.
- (d) For fee-for-service services provided on or after July 1, 2002, the total payment, 309.12 before third-party liability and spenddown, made to hospitals for outpatient hospital facility 309.13 services is reduced by .5 percent from the current statutory rate. 309.14
- (e) In addition to the reduction in paragraph (d), the total payment for fee-for-service 309.15 services provided on or after July 1, 2003, made to hospitals for outpatient hospital facility 309.16 services before third-party liability and spenddown, is reduced five percent from the current 309.17 statutory rates. Facilities defined under section 256.969, subdivision 16, are excluded from 309.18 this paragraph. 309.19
- (f) In addition to the reductions in paragraphs (d) and (e), the total payment for 309.20 fee-for-service services provided on or after July 1, 2008, made to hospitals for outpatient 309.21 hospital facility services before third-party liability and spenddown, is reduced three percent 309.22 from the current statutory rates. Mental health services and facilities defined under section 309.23 256.969, subdivision 16, are excluded from this paragraph. 309.24

rehabilitative services under this section, and nonresidential crisis stabilization services 401.1 under section 256B.0624. 401.2

- (b) Except as indicated in paragraph (c), payment will not be made to more than one entity for each client for services provided under this section on a given day. If services under this section are provided by a team that includes staff from more than one entity, the team must determine how to distribute the payment among the members.
- (c) The commissioner shall determine one rate for each provider that will bill medical assistance for residential services under this section and one rate for each assertive community treatment provider. If a single entity provides both services, one rate is established for the entity's residential services and another rate for the entity's nonresidential services under this section. A provider is not eligible for payment under this section without authorization from the commissioner. The commissioner shall develop rates using the following criteria:
- (1) the provider's cost for services shall include direct services costs, other program 401.13 costs, and other costs determined as follows: 401.14
- (i) the direct services costs must be determined using actual costs of salaries, benefits, 401.15 payroll taxes, and training of direct service staff and service-related transportation; 401.16
- (ii) other program costs not included in item (i) must be determined as a specified 401.17 percentage of the direct services costs as determined by item (i). - 401.22 (iii) physical plant costs calculated based on the percentage of space within the program that is entirely devoted to treatment and programming. This does not include administrative 401.23 or residential space; 401.24
- 401.25 (iv) assertive community treatment physical plant costs must be reimbursed as part of the costs described in item (ii); and 401.26
- 401.27 (v) subject to federal approval, up to an additional five percent of the total rate may be added to the program rate as a quality incentive based upon the entity meeting performance 401.28 criteria specified by the commissioner; 401.29
- (vi) for assertive community treatment, intensive residential treatment services, and 401.30 residential crisis services, providers may include in their prospective cost-based rate-setting 401.31 methodology a line item reflecting estimated additional staffing compensation costs. 401.32

- (1) the CCBHC daily bundled rate shall be a provider-specific rate calculated for each 407.3 CCBHC, based on the daily cost of providing CCBHC services and the total annual allowable 407.4 CCBHC costs divided by the total annual number of CCBHC visits. For calculating the 407.5 payment rate, total annual visits include visits covered by medical assistance and visits not 407.6 covered by medical assistance. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this provision. This paragraph expires if federal approval is not received for this paragraph at any time.

The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue for each consecutive contract period until the plan's emergency room utilization rate for state health care program enrollees is reduced by 25 percent of the plan's emergency room utilization rate for medical assistance and MinnesotaCare enrollees for calendar year 2009. Hospitals shall cooperate with the health plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue until there is a 25 percent reduction in the hospital admission rate compared to the hospital admission rates in calendar year 2011, as determined by the commissioner. The hospital admissions in this performance target do not include the admissions applicable to the subsequent hospital admission performance target under paragraph (g). Hospitals shall cooperate with the plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(a) Payment for intensive residential treatment services and assertive community treatment in this section shall be based on one daily rate per provider inclusive of the following services received by an eligible client in a given calendar day: all rehabilitative services under this section, staff travel time to provide rehabilitative services under this section, and nonresidential crisis stabilization services under section 256B.0624.
- (b) Except as indicated in paragraph (c), payment will not be made to more than one entity for each client for services provided under this section on a given day. If a single entity provides both services, one rate is established for the entity's residential services and another rate for the entity's nonresidential services under this section. A provider is not eligible for payment under this section without authorization from the commissioner. The commissioner shall develop rates using the following criteria:
- (1) the provider's cost for services shall include direct services costs, other program costs, and other costs determined as follows:
- (i) the direct services costs must be determined using actual costs of salaries, benefits, 427.21 payroll taxes, and training of direct service staff and service-related transportation; 427.22
- (ii) other program costs not included in item (i) must be determined as a specified percentage of the direct services costs as determined by item (i). Subdivision 1. **Application for licensure.** (a) An individual, organization, or government entity that is subject to licensure under section 245A.03 must apply for a license. The application must be made on the forms and in the manner prescribed by the commissioner. The commissioner shall provide the applicant with instruction in completing the application and provide information about the rules and requirements of other state agencies that affect the applicant. An applicant seeking licensure in Minnesota with headquarters outside of Minnesota must have a program office located within 30 miles of the Minnesota border. An applicant who intends to buy or otherwise acquire a program or services licensed under this chapter that is owned by another license holder must apply for a license under this chapter and comply with the application procedures in this section and section 245A.03 245A.043.

The commissioner shall act on the application within 90 working days after a complete application and any required reports have been received from other state agencies or departments, counties, municipalities, or other political subdivisions. The commissioner shall not consider an application to be complete until the commissioner receives all of the required information.

When the commissioner receives an application for initial licensure that is incomplete because the applicant failed to submit required documents or that is substantially deficient because the documents submitted do not meet licensing requirements, the commissioner shall provide the applicant written notice that the application is incomplete or substantially deficient. In the written notice to the applicant the commissioner shall identify documents that are missing or deficient and give the applicant 45 days to resubmit a second application that is substantially complete. An applicant's failure to submit a substantially complete application after receiving notice from the commissioner is a basis for license denial under section 245A.05.

(b) An application for licensure must identify all controlling individuals as defined in section 245A.02, subdivision 5a, and must designate one individual to be the authorized agent. The application must be signed by the authorized agent and must include the authorized agent's first, middle, and last name; mailing address; and email address. the commissioner throughout the application process. The authorized agent must be authorized to accept service on behalf of all of the controlling individuals. A government entity that holds multiple licenses under this chapter may designate one authorized agent for all licenses issued under this chapter or may designate a different authorized agent for each license. Service on the authorized agent is service on all of the controlling individuals. It is not a defense to any action arising under this chapter that service was not made on each controlling individual. The designation of a controlling individual as the authorized agent under this paragraph does not affect the legal responsibility of any other controlling individual under this chapter.

- (c) An applicant or license holder must have a policy that prohibits license holders, employees, subcontractors, and volunteers, when directly responsible for persons served by the program, from abusing prescription medication or being in any manner under the influence of a chemical that impairs the individual's ability to provide services or care. The license holder must train employees, subcontractors, and volunteers about the program's drug and alcohol policy.

The commissioner 440.23 may develop a prescribed written examination format. 440.24

If funding is available for other necessary services through a home and community-based waiver, or under chapter 256S, or section 256B.0913, 256B.092, or 256B.49; personal care assistance services under section 256B.0659; community first services and supports under section 256B.85; or services for adults with mental illness grants under section 245.73, then the housing support rate is limited to the rate set in subdivision 1. Unless otherwise provided in law, in no case may the supplementary service rate exceed \$426.37 \$531.12. The registration and licensure requirement does not apply to establishments which are exempt from state licensure because they are located on Indian reservations and for which the tribe has prescribed health and safety requirements. Service payments under this section may be prohibited under rules to prevent the supplanting of federal funds with state funds. The commissioner shall pursue the feasibility of obtaining the approval of the Secretary of Health and Human Services to provide home and community-based waiver services under title XIX of the federal Social Security Act for residents who are not eligible for an existing home and community-based waiver due to a primary diagnosis of mental illness or substance use disorder and shall apply for a waiver if it is determined to be cost-effective.

(b) The commissioner is authorized to make cost-neutral transfers from the housing support fund for beds under this section to other funding programs administered by the department after consultation with the agency in which the affected beds are located. The commissioner may also make cost-neutral transfers from the housing support fund to agencies for beds permanently removed from the housing support census under a plan submitted by the agency and approved by the commissioner. The commissioner shall report the amount of any transfers under this provision annually to the legislature.

496.7 LICENSING

Section 1. Minnesota Statutes 2022, section 245A.04, subdivision 1, is amended to read:

Subdivision 1. **Application for licensure.** (a) An individual, organization, or government entity that is subject to licensure under section 245A.03 must apply for a license. The application must be made on the forms and in the manner prescribed by the commissioner. The commissioner shall provide the applicant with instruction in completing the application and provide information about the rules and requirements of other state agencies that affect the applicant. An applicant seeking licensure in Minnesota with headquarters outside of Minnesota must have a program office located within 30 miles of the Minnesota border. An applicant who intends to buy or otherwise acquire a program or services licensed under this chapter that is owned by another license holder must apply for a license under this chapter and comply with the application procedures in this section and section 245A.03.

The commissioner shall act on the application within 90 working days after a complete application and any required reports have been received from other state agencies or departments, counties, municipalities, or other political subdivisions. The commissioner shall not consider an application to be complete until the commissioner receives all of the required information.

When the commissioner receives an application for initial licensure that is incomplete because the applicant failed to submit required documents or that is substantially deficient because the documents submitted do not meet licensing requirements, the commissioner shall provide the applicant written notice that the application is incomplete or substantially deficient. In the written notice to the applicant the commissioner shall identify documents that are missing or deficient and give the applicant 45 days to resubmit a second application that is substantially complete. An applicant's failure to submit a substantially complete application after receiving notice from the commissioner is a basis for license denial under section 245A.05.

- (b) An application for licensure must identify all controlling individuals as defined in section 245A.02, subdivision 5a, and must designate one individual to be the authorized agent. The application must be signed by the authorized agent and must include the authorized agent's first, middle, and last name; mailing address; and email address. By submitting an application for licensure, the authorized agent consents to electronic communication with the commissioner throughout the application process. The authorized agent must be authorized to accept service on behalf of all of the controlling individuals. A government entity that holds multiple licenses under this chapter may designate one authorized agent for all licenses issued under this chapter or may designate a different authorized agent for each license. Service on the authorized agent is service on all of the controlling individuals. 497.10 It is not a defense to any action arising under this chapter that service was not made on each 497.11 controlling individual. The designation of a controlling individual as the authorized agent 497.12 under this paragraph does not affect the legal responsibility of any other controlling individual 497.13 under this chapter. 497.14
- (c) An applicant or license holder must have a policy that prohibits license holders, 497.15 employees, subcontractors, and volunteers, when directly responsible for persons served 497.16 by the program, from abusing prescription medication or being in any manner under the 497.17 influence of a chemical that impairs the individual's ability to provide services or care. The 497.18 license holder must train employees, subcontractors, and volunteers about the program's 497.19 drug and alcohol policy. 497.20
  - (d) An applicant and license holder must have a program grievance procedure that permits persons served by the program and their authorized representatives to bring a grievance to the highest level of authority in the program.
  - (e) The commissioner may limit communication during the application process to the authorized agent or the controlling individuals identified on the license application and for whom a background study was initiated under chapter 245C. Upon implementation of the provider licensing and reporting hub, applicants and license holders must use the hub in the manner prescribed by the commissioner. The commissioner may require the applicant, except for child foster care, to demonstrate competence in the applicable licensing requirements by successfully completing a written examination. The commissioner may develop a prescribed written examination format.

The commissioner shall determine the difference between the projected and actual spending for each health indicator and for each year, and determine the savings attributable to changes in these health indicators. The assumptions and research methods used to calculate actual spending must be determined to be appropriate by an independent actuarial consultant. If the actual spending is less than the projected spending, the commissioner, in consultation with the commissioners of human services and management and budget, shall use the proportion of spending for state-administered health care programs to total private and public health care spending for each health indicator for the calendar year two years before the current calendar year to determine the percentage of the calculated aggregate savings amount accruing to state-administered health care programs.

For 1998 and 1999 information, the report shall be issued October 1, 2000. Each report shall provide the statistics for all previous calendar years, adjusted to reflect any additional information from late or corrected reports. The commissioner shall ensure that none of the information included in the public reports can reasonably lead to identification of an individual having performed or having had an abortion. All data included on the forms under sections 145.4131 to 145.4133 and sections 145.4241 to 145.4249 must be included in the public report, except that the commissioner shall maintain as confidential, data which alone or in combination may constitute information from which an individual having performed or having had an abortion may be identified using epidemiologic principles.
- (b) The commissioner may, by rules adopted under chapter 14, alter the submission dates established under sections 145.4131 to 145.4133 for administrative convenience, fiscal savings, or other valid reason, provided that physicians or facilities and the commissioner of human services submit the required information once each year and the commissioner issues a report once each year.

If a physician or facility required to report under this section does not submit a report, or submits only an incomplete report, more than one year following the due date, the commissioner may take action to fine the physician or facility or may bring an action to require that the physician or facility be directed by a court of competent jurisdiction to submit a complete report within a period stated by court order or be subject to sanctions for civil contempt. Notwithstanding section 13.39 to the contrary, action taken by the commissioner to enforce the provision of this section shall be treated as private if the data related to this action, alone or in combination, may constitute

Repealed Minnesota Statutes: UES2995-1

information from which an individual having performed or having had an abortion may be identified using epidemiologic principles.

- (b) If the commissioner fails to issue the public report required under section 145.4134 or fails in any way to enforce this section, a group of 100 or more citizens of the state may seek an injunction in a court of competent jurisdiction against the commissioner requiring that a complete report be issued within a period stated by court order or requiring that enforcement action be taken.

A physician who knowingly or recklessly submits a false report under this section is guilty of a misdemeanor.
- (d) The commissioner may take reasonable steps to ensure compliance with sections 145.4131 to 145.4133 and to verify data provided, including but not limited to, inspection of places where abortions are performed in accordance with chapter 14.
- (e) The commissioner shall develop recommendations on appropriate penalties and methods of enforcement for physicians or facilities who fail to submit the report required under section 145.4132, submit an incomplete report, or submit a late report. The commissioner shall also assess the effectiveness of the enforcement methods and penalties provided in paragraph (a) and shall recommend appropriate changes, if any. ### **145.4136 SEVERABILITY.**

If any one or more provision, section, subdivision, sentence, clause, phrase, or word in sections 145.4131 to 145.4135, or the application thereof to any person or circumstance is found to be unconstitutional, the same is hereby declared to be severable and the balance of sections 145.4131 to 145.4135 shall remain effective notwithstanding such unconstitutionality. The legislature hereby declares that it would have passed sections 145.4131 to 145.4135, and each provision, section, subdivision, sentence, clause, phrase, or word thereof, irrespective of the fact that any one or more provision, section, subdivision, sentence, clause, phrase, or word be declared unconstitutional.

- Subd. 3. **Status.** (1) Unless the abortion is performed to save the life of the woman or child, or, (2) unless one or both of the parents of the unborn child agrees within 30 days of the birth to accept the parental rights and responsibilities for the child if it survives the abortion, whenever an abortion of a potentially viable fetus results in a live birth, the child shall be an abandoned ward of the state and the parents shall have no parental rights or obligations as if the parental rights had been terminated pursuant to section 260C.301. The child shall be provided for pursuant to chapter 256J.

# 145.416 LICENSING AND REGULATION OF FACILITIES.

The state commissioner of health shall license and promulgate rules for facilities as defined in section 145.411, subdivision 4, which are organized for purposes of delivering abortion services.

### 145.423 ABORTION; LIVE BIRTHS.

- Subd. 2. **Physician required.** When an abortion is performed after the 20th week of pregnancy, a physician, other than the physician performing the abortion, shall be immediately accessible to take all reasonable measures consistent with good medical practice, including the compilation of appropriate medical records, to preserve the life and health of any born alive infant that is the result of the abortion.
- Subd. 3. **Death.** If a born alive infant described in subdivision 1 dies after birth, the body shall be disposed of in accordance with the provisions of section 145.1621.
- Subd. 4. **Definition of born alive infant.** (a) In determining the meaning of any Minnesota statute, or of any ruling, regulation, or interpretation of the various administrative bureaus and agencies of Minnesota, the words "person," "human being," "child," and "individual" shall include every infant member of the species Homo sapiens who is born alive at any stage of development.

# Repealed Minnesota Statutes: UES2995-1

- (b) As used in this section, the term "born alive," with respect to a member of the species Homo sapiens, means the complete expulsion or extraction from his or her mother of that member, at any stage of development, who, after such expulsion or extraction, breathes or has a beating heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, regardless of whether the umbilical cord has been cut, and regardless of whether the expulsion or extraction occurs as a result of a natural or induced labor, cesarean section, or induced abortion.
- (c) Nothing in this section shall be construed to affirm, deny, expand, or contract any legal status or legal right applicable to any member of the species Homo sapiens at any point prior to being born alive, as defined in this section.
- Subd. 5. Civil and disciplinary actions. (a) Any person upon whom an abortion has been performed, or the parent or guardian of the mother if the mother is a minor, and the abortion results in the infant having been born alive, may maintain an action for death of or injury to the born alive infant against the person who performed the abortion if the death or injury was a result of simple negligence, gross negligence, wantonness, willfulness, intentional conduct, or another violation of the legal standard of care.
- (b) Any responsible medical personnel that does not take all reasonable measures consistent with good medical practice to preserve the life and health of the born alive infant, as required by subdivision 1, may be subject to the suspension or revocation of that person's professional license by the professional board with authority over that person. Any person who has performed an abortion and against whom judgment has been rendered pursuant to paragraph (a) shall be subject to an automatic suspension of the person's professional license for at least one year and said license shall be reinstated only after the person's professional board requires compliance with this section by all board licensees.
- (c) Nothing in this subdivision shall be construed to hold the mother of the born alive infant criminally or civilly liable for the actions of a physician, nurse, or other licensed health care provider in violation of this section to which the mother did not give her consent.
- Subd. 6. **Protection of privacy in court proceedings.** In every civil action brought under this section, the court shall rule whether the anonymity of any female upon whom an abortion has been performed or attempted shall be preserved from public disclosure if she does not give her consent to such disclosure. The court, upon motion or sua sponte, shall make such a ruling and, upon determining that her anonymity should be preserved, shall issue orders to the parties, witnesses, and counsel and shall direct the sealing of the record and exclusion of individuals from courtrooms or hearing rooms to the extent necessary to safeguard her identity from public disclosure. Each order must be accompanied by specific written findings explaining why the anonymity of the female should be preserved from public disclosure, why the order is essential to that end, how the order is narrowly tailored to serve that interest, and why no reasonable, less restrictive alternative exists. This section may not be construed to conceal the identity of the plaintiff or of witnesses from the defendant.
- Subd. 7. **Status of born alive infant.** Unless the abortion is performed to save the life of the woman or fetus, or, unless one or both of the parents of the born alive infant agree within 30 days of the birth to accept the parental rights and responsibilities for the child, the child shall be an abandoned ward of the state and the parents shall have no parental rights or obligations as if the parental rights had been terminated pursuant to section 260C.301. The child shall be provided for pursuant to chapter 256J.
- Subd. 8. **Severability.** If any one or more provision, section, subdivision, sentence, clause, phrase, or word of this section or the application of it to any person or circumstance is found to be unconstitutional, it is declared to be severable and the balance of this section shall remain effective notwithstanding such unconstitutionality. The legislature intends that it would have passed this section, and each provision, section, subdivision, sentence, clause, phrase, or word, regardless of the fact that any one provision, section, subdivision, sentence, clause, phrase, or word is declared unconstitutional.
  - Subd. 9. Short title. This section may be cited as the "Born Alive Infants Protection Act."

- (1) "abortion" means the use of any means to terminate the pregnancy of a woman known to be pregnant with knowledge that the termination with those means will, with reasonable likelihood,

### Repealed Minnesota Statutes: UES2995-1

cause the death of the unborn child. For purposes of this section, abortion does not include an abortion necessary to prevent the death of the mother;

- (2) "nondirective counseling" means providing clients with:
- (i) a list of health care providers and social service providers that provide prenatal care, childbirth care, infant care, foster care, adoption services, alternatives to abortion, or abortion services; and

  - (3) "unborn child" means a member of the species Homo sapiens from fertilization until birth.
- Subd. 2. Eligibility for grants. Necessary services must include, but are not limited to:
  - (1) medical care;
  - (2) nutritional services;

  - (6) child care assistance; and
  - (7) parenting education and support services.

An applicant may not provide or assist a woman to obtain adoption services from a provider of adoption services that is not licensed.

- (b) In addition to providing information and referral under paragraph (a), an eligible program may provide one or more of the necessary services under paragraph (a) that assists women in carrying their pregnancies to term. To avoid duplication of efforts, grantees may refer to other public or private programs, rather than provide the care directly, if a woman meets eligibility criteria for the other programs.
  - (c) To be eligible for a grant, an agency or organization must:
  - (1) be a private, nonprofit organization;
  - (2) demonstrate that the program is conducted under appropriate supervision;
  - (3) not charge women for services provided under the program;

- (6) ensure that none of the money provided is used to encourage or affirmatively counsel a woman to have an abortion not necessary to prevent her death, to provide her an abortion, or to directly refer her to an abortion provider for an abortion. The agency or organization may provide nondirective counseling; and
- (7) have had the alternatives to abortion program in existence for at least one year as of July 1, 2011; or incorporated an alternative to abortion program that has been in existence for at least one year as of July 1, 2011.
- (d) The provisions, words, phrases, and clauses of paragraph (c) are inseverable from this subdivision, and if any provision, word, phrase, or clause of paragraph (c) or its application to any person or circumstance is held invalid, the invalidity applies to all of this subdivision.
- (e) An organization that provides abortions, promotes abortions, or directly refers to an abortion provider for an abortion is ineligible to receive a grant under this program. An affiliate of an

organization that provides abortions, promotes abortions, or directly refers to an abortion provider for an abortion is ineligible to receive a grant under this section unless the organizations are separately incorporated and independent from each other. To be independent, the organizations may not share any of the following:

- (1) the same or a similar name;
- (2) medical facilities or nonmedical facilities, including but not limited to, business offices, treatment rooms, consultation rooms, examination rooms, and waiting rooms;
  - (3) expenses;
  - (4) employee wages or salaries; or
- (5) equipment or supplies, including but not limited to, computers, telephone systems, telecommunications equipment, and office supplies.
- (f) An organization that receives a grant under this section and that is affiliated with an organization that provides abortion services must maintain financial records that demonstrate strict compliance with this subdivision and that demonstrate that its independent affiliate that provides abortion services receives no direct or indirect economic or marketing benefit from the grant under this section.
- (g) The commissioner shall approve any information provided by a grantee on the health risks associated with abortions to ensure that the information is medically accurate.
- Subd. 3. **Privacy protection.** (a) Any program receiving a grant under this section must have a privacy policy and procedures in place to ensure that the name, address, telephone number, or any other information that might identify any woman seeking the services of the program is not made public or shared with any other agency or organization without the written consent of the woman. All communications between the program and the woman must remain confidential. For purposes of any medical care provided by the program, including, but not limited to, pregnancy tests or ultrasonic scanning, the program must adhere to the requirements in sections 144.291 to 144.298 that apply to providers before releasing any information relating to the medical care provided.
- (b) Notwithstanding paragraph (a), the commissioner has access to any information necessary to monitor and review a grantee's program as required under subdivision 4.
- Subd. 4. **Duties of commissioner.** The commissioner shall make grants under subdivision 2 beginning no later than July 1, 2006. In awarding grants, the commissioner shall consider the program's demonstrated capacity in providing services to assist a pregnant woman in carrying her pregnancy to term. The commissioner shall monitor and review the programs of each grantee to ensure that the grantee carefully adheres to the purposes and requirements of subdivision 2 and shall cease funding a grantee that fails to do so.
- Subd. 5. **Severability.** Except as provided in subdivision 2, paragraph (d), if any provision, word, phrase, or clause of this section or its application to any person or circumstance is held invalid, such invalidity shall not affect the provisions, words, phrases, clauses, or applications of this section that can be given effect without the invalid provision, word, phrase, clause, or application and to this end, the provisions, words, phrases, and clauses of this section are severable.
- Subd. 6. **Minnesota Supreme Court jurisdiction.** The Minnesota Supreme Court has original jurisdiction over an action challenging the constitutionality of this section and shall expedite the resolution of the action.

Subdivision 1. **Applicability.** As used in sections 145.4241 to 145.4249, the following terms have the meanings given them.

- Subd. 2. **Abortion.** "Abortion" means the use or prescription of any instrument, medicine, drug, or any other substance or device to intentionally terminate the pregnancy of a female known to be pregnant, with an intention other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus.
- Subd. 3. **Attempt to perform an abortion.** "Attempt to perform an abortion" means an act, or an omission of a statutorily required act, that, under the circumstances as the actor believes them to be, constitutes a substantial step in a course of conduct planned to culminate in the performance of an abortion in Minnesota in violation of sections 145.4241 to 145.4249.

Repealed Minnesota Statutes: UES2995-1

- Subd. 3a. **Fetal anomaly incompatible with life.** "Fetal anomaly incompatible with life" means a fetal anomaly diagnosed before birth that will with reasonable certainty result in death of the unborn child within three months. Fetal anomaly incompatible with life does not include conditions which can be treated.
- Subd. 4. **Medical emergency.** "Medical emergency" means any condition that, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant female as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.
- Subd. 4a. **Perinatal hospice.** (a) "Perinatal hospice" means comprehensive support to the female and her family that includes support from the time of diagnosis through the time of birth and death of the infant and through the postpartum period. Supportive care may include maternal-fetal medical specialists, obstetricians, neonatologists, anesthesia specialists, clergy, social workers, and specialty nurses.
- (b) The availability of perinatal hospice provides an alternative to families for whom elective pregnancy termination is not chosen.
- Subd. 5. **Physician.** "Physician" means a person licensed as a physician or osteopathic physician under chapter 147.
- Subd. 6. **Probable gestational age of the unborn child.** "Probable gestational age of the unborn child" means what will, in the judgment of the physician, with reasonable probability, be the gestational age of the unborn child at the time the abortion is planned to be performed.
- Subd. 7. **Stable Internet website.** "Stable Internet website" means a website that, to the extent reasonably practicable, is safeguarded from having its content altered other than by the commissioner of health.
- Subd. 8. **Unborn child.** "Unborn child" means a member of the species Homo sapiens from fertilization until birth.

#### 145.4242 INFORMED CONSENT.

- (a) No abortion shall be performed in this state except with the voluntary and informed consent of the female upon whom the abortion is to be performed. Except in the case of a medical emergency or if the fetus has an anomaly incompatible with life, and the female has declined perinatal hospice care, consent to an abortion is voluntary and informed only if:
- (1) the female is told the following, by telephone or in person, by the physician who is to perform the abortion or by a referring physician, at least 24 hours before the abortion:
- (i) the particular medical risks associated with the particular abortion procedure to be employed including, when medically accurate, the risks of infection, hemorrhage, breast cancer, danger to subsequent pregnancies, and infertility;
  - (ii) the probable gestational age of the unborn child at the time the abortion is to be performed;
  - (iii) the medical risks associated with carrying her child to term; and
- (iv) for abortions after 20 weeks gestational, whether or not an anesthetic or analgesic would eliminate or alleviate organic pain to the unborn child caused by the particular method of abortion to be employed and the particular medical benefits and risks associated with the particular anesthetic or analgesic.

The information required by this clause may be provided by telephone without conducting a physical examination or tests of the patient, in which case the information required to be provided may be based on facts supplied to the physician by the female and whatever other relevant information is reasonably available to the physician. It may not be provided by a tape recording, but must be provided during a consultation in which the physician is able to ask questions of the female and the female is able to ask questions of the physician. If a physical examination, tests, or the availability of other information to the physician subsequently indicate, in the medical judgment of the physician, a revision of the information previously supplied to the patient, that revised information may be communicated to the patient at any time prior to the performance of the abortion. Nothing in this section may be construed to preclude provision of required information in a language understood by the patient through a translator;

### Repealed Minnesota Statutes: UES2995-1

- (2) the female is informed, by telephone or in person, by the physician who is to perform the abortion, by a referring physician, or by an agent of either physician at least 24 hours before the abortion:
- (i) that medical assistance benefits may be available for prenatal care, childbirth, and neonatal care;
- (ii) that the father is liable to assist in the support of her child, even in instances when the father has offered to pay for the abortion; and
- (iii) that she has the right to review the printed materials described in section 145.4243, that these materials are available on a state-sponsored website, and what the website address is. The physician or the physician's agent shall orally inform the female that the materials have been provided by the state of Minnesota and that they describe the unborn child, list agencies that offer alternatives to abortion, and contain information on fetal pain. If the female chooses to view the materials other than on the website, they shall either be given to her at least 24 hours before the abortion or mailed to her at least 72 hours before the abortion by certified mail, restricted delivery to addressee, which means the postal employee can only deliver the mail to the addressee.

The information required by this clause may be provided by a tape recording if provision is made to record or otherwise register specifically whether the female does or does not choose to have the printed materials given or mailed to her;

- (3) the female certifies in writing, prior to the abortion, that the information described in clauses (1) and (2) has been furnished to her and that she has been informed of her opportunity to review the information referred to in clause (2), item (iii); and
- (4) prior to the performance of the abortion, the physician who is to perform the abortion or the physician's agent obtains a copy of the written certification prescribed by clause (3) and retains it on file with the female's medical record for at least three years following the date of receipt.
- (b) Prior to administering the anesthetic or analgesic as described in paragraph (a), clause (1), item (iv), the physician must disclose to the woman any additional cost of the procedure for the administration of the anesthetic or analgesic. If the woman consents to the administration of the anesthetic or analgesic, the physician shall administer the anesthetic or analgesic or arrange to have the anesthetic or analgesic administered.
- (c) A female seeking an abortion of her unborn child diagnosed with fetal anomaly incompatible with life must be informed of available perinatal hospice services and offered this care as an alternative to abortion. If perinatal hospice services are declined, voluntary and informed consent by the female seeking an abortion is given if the female receives the information required in paragraphs (a), clause (1), and (b). The female must comply with the requirements in paragraph (a), clauses (3) and (4).

Each order must be accompanied by specific written findings explaining why the anonymity of the female should be preserved from public disclosure, why the order is essential to that end, how the order is narrowly tailored to serve that interest, and why no reasonable, less restrictive alternative exists. In the absence of written consent of the female upon whom an abortion has been performed or attempted, anyone, other than a public official, who brings an action under subdivision 1, shall do so under a pseudonym. This section may not be construed to conceal the identity of the plaintiff or of witnesses from the defendant.

An applicant is not required to provide all components to be eligible for funding. However, the applicant must make available the names and addresses of other family planning services provider agencies in the geographic area, if any, who offer components and services not offered by the applicant.

All funded projects must establish linkages to facilitate access to outreach, counseling, and other component services for service recipients.

Procedures for referral and follow-up must be incorporated into all services that are provided by the applicant on a one-to-one basis.

The provision of all service components except public information shall include information on family planning services available from the applicant.

Service components to be provided by the applicant shall be defined by, and shall meet or exceed, the following minimum standards:

A. Public information must include specific activities designed to inform the general population about family planning and how to obtain information on all family planning service components available in the geographic area.

B. Outreach must include specific activities designed to inform members of the target population about family planning and all the family planning service components available in the geographic area. Outreach activities shall include one-to-one or small group contacts with the target population.

Outreach must be conducted at times and places convenient to the target population. Persons conducting outreach shall have training or experience in family planning services.
