BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MINNESOTA:

1.19

Section 1. Minnesota Statutes 2022, section 17.4983, subdivision 2, is amended to read:

1.20

Subd. 2. **Acquisition from state.** (a) The commissioner may sell aquatic life to licensed

1.21

facilities at fair wholesale market value. Fair wholesale market value must be determined

1.22

by the average market price charged in this state and contiguous states and provinces for

1.23

similar quantities.

1.24

(b) The commissioner shall establish procedures to make aquatic life available to licensed

1.25

facilities if state aquatic life would otherwise die or go to waste, such as in cases of winterkill

1.26

lakes, waters where piscicides will be applied, and waters subject to extreme draw-down.

1.27

The public must be given angling opportunities if public access is available.

(c) The commissioner shall attempt to provide opportunities to make brood stock available to licensed facilities to reduce reliance on out-of-state sources without causing adverse impacts to game fish and native rough fish populations.

(d) If the commissioner denies approval to obtain aquatic life outside the state, a written notice must be submitted to the applicant stating the reasons for denial, and the commissioner shall:

(1) designate approved sources if available to obtain the desired aquatic life; or

(2) sell the aquatic life from state hatcheries at fair wholesale market value if there is a surplus from state operations.

Sec. 2. Minnesota Statutes 2022, section 17.4984, subdivision 2, is amended to read:

Subd. 2. **Listed waters.** (a) An aquatic farm license must list:

(1) the specific waters of the state that may be used in connection with the licensed aquatic farm and the species approved for each licensed water; and

(2) whether aeration requiring a permit is approved.

Additional waters may not be used until they are approved by the commissioner.

(b) The right to use waters licensed for private fish hatchery or aquatic farm purposes may be transferred between licensees with prior approval by the commissioner if requirements for species to be raised are met. Waters that are continually connected by a permanent watercourse to other waters must not be approved for aquatic farm use, except that connected waters that are isolated from other waters may be licensed as a single water body. Waters that are intermittently connected or may become connected with other waters may be denied, or screening or other measures may be required to prevent passage of aquatic life. Listed waters may be changed on approval by the area fisheries supervisor or the commissioner.

(c) The commissioner shall conduct an inspection of waters to be licensed prior to approving or denying initial licensing of the waters. When artificial tanks, jars, or other containers are added to existing licensed facilities, an additional inspection is not required.

(d) Waters containing ~~game~~ fish of significant public value, including game fish and native rough fish, may be denied licensing unless the applicant can demonstrate exclusive riparian control.

(e) Waters containing ~~game~~ fish of significant public value, including game fish and native rough fish, may be denied licensing unless the game fish and native rough fish of significant public value are, at the commissioner's option, and taking into consideration the

recommendation of the licensed applicant, sold to the licensee, or removed by the Department of Natural Resources or disposed of as provided in writing by the commissioner.

(f) Waters licensed under an aquatic farm license may be aerated during open water periods without a separate aeration permit.

(g) Common carp and bullheads may be removed from licensed waters, and transported and disposed of by the licensee.

Sec. 3. Minnesota Statutes 2022, section 17.4988, subdivision 4, is amended to read:

Subd. 4. **Aquarium facility.** (a) A person operating a commercial aquarium facility must have a commercial aquarium facility license issued by the commissioner if the facility contains species of aquatic life that are for sale and that are present in waters of the state. The commissioner may require an aquarium facility license for aquarium facilities importing or holding species of aquatic life that are for sale and that are not present in Minnesota if those species can survive in waters of the state. The fee for an aquarium facility license is \$90.

(b) Game fish and native rough fish transferred by an aquarium facility must be accompanied by a receipt containing the information required on a shipping document by section 17.4985, subdivision 3, paragraph (b).

Sec. 4. Minnesota Statutes 2022, section 17.4992, subdivision 1, is amended to read:

Subdivision 1. **Acquisition and purchase.** Game fish and native rough fish sperm, viable game fish and native rough fish eggs, or live game fish and native rough fish may not be taken from public waters for aquaculture purposes, but may be purchased from the state or acquired from aquatic farms.

Sec. 5. Minnesota Statutes 2022, section 17.4992, subdivision 3, is amended to read:

Subd. 3. **Acquisition of fish for brood stock.** (a) Game fish brood stock and native rough fish brood stock may be sold to private fish hatcheries or aquatic farms by the state at fair wholesale market value. For brood stock development, up to 20 pair of adults of each species requested may be provided to a licensee once every three years, if available, by the state through normal operations.

(b) If brood stock is not available by the June 1 following the request under paragraph (a) and a permit to take brood stock by angling is requested by the licensee, within 30 days of the request, the commissioner may issue a permit to the licensee to take, by angling, up

to 20 pairs of each species requested. Game and fish laws and rules relating to daily limits, seasons, and methods apply to the taking of fish by angling pursuant to a permit issued under this paragraph.

Sec. 6. Minnesota Statutes 2022, section 17.4996, is amended to read:

17.4996 WHITE EARTH INDIAN RESERVATION.

Until the commissioner reaches an agreement with the White Earth Indian Reservation regarding the acquisition and sale of aquatic life from public waters, an aquatic farm licensee may acquire and transport native rough fish, as defined in section 97A.015, subdivision 43, and yellow perch lawfully acquired and possessed by a tribal member for sale under tribal laws and regulations on the White Earth Reservation. Transportation of yellow perch off the reservation must be accompanied by documentation showing the source and number of the yellow perch.

Sec. 7. Minnesota Statutes 2022, section 41A.02, subdivision 6, is amended to read:

The land in clause (2) does not include land used for the growing or raising of crops or the grazing of livestock other than poultry. A project includes a facility or portion of a facility for mixing or producing substances to be mixed with other substances for use as a fuel or as a substitute for petroleum or petrochemical feedstocks.

Sec. 8. Minnesota Statutes 2022, section 84B.061, is amended to read:

**84B.061 STATE JURISDICTION OVER RAINY LAKE AND OTHER
NAVIGABLE WATERS; DUTIES OF GOVERNOR, ATTORNEY GENERAL, AND
OTHER PUBLIC OFFICERS.**

As required by this chapter and the act of Congress authorizing Voyageurs National Park, the state of Minnesota donated in excess of 35,000 acres of state and other publicly owned land for the park, roughly one-fourth of the land area of the park, at a cost of over \$5,000,000 to the state. More than 24,000 acres of this land was state trust fund land which the state condemned before making its donation. Pursuant to section 84B.06, lands donated by the state, along with other lands acquired by the National Park Service for the park, were made subject to concurrent jurisdiction by the state and the United States under section 1.041. In making these donations, none of the navigable waters within the park and the lands under them have been donated to the United States. These navigable waters include the following: Rainy, Kabetogama, Namakan, Sand Point, and Crane Lakes. Pursuant to applicable federal and state law, navigable waters and their beds are owned by the state. Ownership of and jurisdiction over these waters and their beds has not been ceded by the state, either expressly or implicitly, to the United States. Unlike section 1.044 relating to the Upper Mississippi Wildlife and Fish Refuge, where the state expressly granted its consent and jurisdiction to the United States to acquire interests in water, as well as land, the consent granted by the state in section 84B.06 to acquisitions by the United States for Voyageurs National Park is limited to land, only. In the discharge of their official duties, the governor, attorney general, other constitutional officers, and other public officials, such as the commissioner of natural resources, shall vigorously assert and defend, in all forums, the state's ownership of and jurisdiction over these waters and their beds and related natural resources, together with associated rights of the state and its citizens arising from the state's ownership and jurisdiction. In discharging their duties, the governor, attorney general, other constitutional officers, and other public officials shall, additionally, be especially cognizant of the free rights of travel afforded to citizens of Minnesota and others under the Webster-Ashburton Treaty (proclaimed November 10, 1842) and the Root-Bryce Treaty (proclaimed May 13, 1910) on international and associated boundary waters. Also, in furtherance of duties under this section, the commissioner of natural resources shall continue in effect the commercial removal of native rough fish, as defined in section 97A.015, subdivision 43, from these waters, together with any rights to do so possessed by any person on January 1, 1995, so long as the commissioner determines that such taking is desirable to the management of the native fishery.

Sec. 9. Minnesota Statutes 2022, section 97A.015, subdivision 3b, is amended to read:

Subd. 3b. **Bow fishing.** "Bow fishing" means taking native rough fish and common carp by archery where the arrows are tethered or controlled by an attached line.

Sec. 11. Minnesota Statutes 2022, section 97A.015, subdivision 43, is amended to read:
