ARTICLE 1

DEPARTMENT OF HEALTH FINANCE

Section 1. [62J.811] PROVIDER BALANCE BILLING REQUIREMENTS.

Subdivision 1. Requirements. (a) Each health provider and health facility shall comply with Division BB, Title I of the Consolidated Appropriations Act, 2021, also known as the "No Surprises Act," including any federal regulations adopted under that act, to the extent that it imposes requirements that apply in this state but are not required under the laws of this state. This section does not require compliance with any provision of the No Surprises Act before January 1, 2022.

(b) For the purposes of this section, "provider" or "facility" means any health care provider or facility pursuant to section 62A.63, subdivision 2, or 62J.03, subdivision 8, that is subject to relevant provisions of the No Surprises Act.

Subd. 2. Compliance and investigations. (a) The commissioner of health shall, to the extent practicable, seek the cooperation of health care providers and facilities in obtaining compliance with this section.

(b) A person who believes a health care provider or facility has not complied with the requirements of the No Surprises Act or this section may file a complaint with the commissioner of health. Complaints filed under this section must be filed in writing, either on paper or electronically. The commissioner may prescribe additional procedures for the filing of complaints.

(c) The commissioner may also conduct compliance reviews to determine whether health care providers and facilities are complying with this section.

(d) The commissioner shall investigate complaints filed under this section. The commissioner may prioritize complaint investigations, compliance reviews, and the collection of any possible civil monetary penalties under paragraph (g), clause (2), based on factors such as repeat complaints or violations, the seriousness of the complaint or violation, and other factors as determined by the commissioner.

(e) The commissioner shall inform the health care provider or facility of the complaint or findings of a compliance review and shall provide an opportunity for the health care provider or facility to submit information the health care provider or facility considers relevant to further review and investigation of the complaint or the findings of the compliance review.
review. The health care provider or facility must submit any such information to the
commissioner within 30 days of receipt of notification of a complaint or compliance review
under this section.

(f) If, after reviewing any information described in paragraph (e) and the results of any
investigation, the commissioner determines that the provider or facility has not violated this
section, the commissioner shall notify the provider or facility as well as any relevant
complainant.

(g) If, after reviewing any information described in paragraph (e) and the results of any
investigation, the commissioner determines that the provider or facility is in violation of
this section, the commissioner shall notify the provider or facility and take the following
steps:

(1) in cases of noncompliance with this section, the commissioner shall first attempt to
achieve compliance through successful remediation on the part of the noncompliant provider
or facility including completion of a corrective action plan or other agreement; and

(2) if, after taking the action in clause (1) compliance has not been achieved, the
commissioner of health shall notify the provider or facility that the provider or facility is in
violation of this section and that the commissioner is imposing a civil monetary penalty. If
the commissioner determines that more than one health care provider or facility was
responsible for a violation, the commissioner may impose a civil money penalty against
each health care provider or facility. The amount of a civil money penalty shall be up to
$100 for each violation, but shall not exceed $25,000 for identical violations during a
calendar year; and

(3) no civil money penalty shall be imposed under this section for violations that occur
prior to January 1, 2023. Warnings must be issued and any compliance issues must be
referred to the federal government for enforcement pursuant to the federal No Surprises Act
or other applicable federal laws and regulations.

(h) A health care provider or facility may contest whether the finding of facts constitute
a violation of this section according to the contested case proceeding in sections 14.57 to
14.62, subject to appeal according to sections 14.63 to 14.68.

(i) When steps in paragraphs (b) to (h) have been completed as needed, the commissioner
shall notify the health care provider or facility and, if the matter arose from a complaint,
the complainant regarding the disposition of complaint or compliance review.
Civil money penalties imposed and collected under this subdivision shall be deposited into the general fund and are appropriated to the commissioner of health for the purposes of this section, including the provision of compliance reviews and technical assistance.

(k) Any compliance and investigative action taken by the department under this section shall only include potential violations that occur on or after the effective date of this section.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 2. Minnesota Statutes 2020, section 62Q.021, is amended by adding a subdivision to read:

Subd. 3. Compliance with 2021 federal law. Each health plan company, health provider, and health facility shall comply with Division BB, Title I of the Consolidated Appropriations Act, 2021, also known as the "No Surprises Act," including any federal regulations adopted under that act, to the extent that it imposes requirements that apply in this state but are not required under the laws of this state. This section does not require compliance with any provision of the No Surprises Act before the effective date provided for that provision in the Consolidated Appropriations Act. The commissioner shall enforce this subdivision.

Sec. 3. Minnesota Statutes 2020, section 62Q.55, subdivision 5, is amended to read:

Subd. 5. Coverage restrictions or limitations. If emergency services are provided by a nonparticipating provider, with or without prior authorization, the health plan company shall not impose coverage restrictions or limitations that are more restrictive than apply to emergency services received from a participating provider. Cost-sharing requirements that apply to emergency services received out-of-network must be the same as the cost-sharing requirements that apply to services received in-network and shall count toward the in-network deductible. All coverage and charges for emergency services must comply with all requirements of Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal regulations adopted under that act.

Sec. 4. Minnesota Statutes 2020, section 62Q.556, is amended to read:

62Q.556 UNAUTHORIZED PROVIDER SERVICES CONSUMER PROTECTIONS AGAINST BALANCE BILLING.

Subdivision 1. Unauthorized provider services. Nonparticipating provider balance billing prohibition. (a) Except as provided in paragraph (b), unauthorized provider services occur, balance billing is prohibited when an enrollee receives services:
(1) from a nonparticipating provider at a participating hospital or ambulatory surgical center, when the services are rendered, as described by Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal regulations adopted under that act:

(i) due to the unavailability of a participating provider;

(ii) by a nonparticipating provider without the enrollee's knowledge; or

(iii) due to the need for unforeseen services arising at the time the services are being rendered; or

(2) from a participating provider that sends a specimen taken from the enrollee in the participating provider's practice setting to a nonparticipating laboratory, pathologist, or other medical testing facility.

(b) Unauthorized provider services do not include emergency services as defined in section 62Q.55, subdivision 3.

(3) from a nonparticipating provider or facility providing emergency services as defined in section 62Q.55, subdivision 3, and other services as described in the requirements of Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal regulations adopted under that act.

(b) The services described in paragraph (a), clause clauses (1) and (2), as defined in Division BB, Title I of the Consolidated Appropriations Act, 2021, and any federal regulations adopted under that act, are not unauthorized provider services subject to balance billing if the enrollee gives advance written informed consent to the prior to receiving services from the nonparticipating provider acknowledging that the use of a provider, or the services to be rendered, may result in costs not covered by the health plan. The informed consent must comply with all requirements of Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal regulations adopted under that act.

Subd. 2. Prohibition Cost-sharing requirements and independent dispute resolution. (a) An enrollee's financial responsibility for the unauthorized nonparticipating provider services described in subdivision 1, paragraph (a), shall be the same cost-sharing requirements, including co-payments, deductibles, coinsurance, coverage restrictions, and coverage limitations, as those applicable to services received by the enrollee from a participating provider. A health plan company must apply any enrollee cost sharing requirements, including co-payments, deductibles, and coinsurance, for unauthorized provider
services to the enrollee's annual out-of-pocket limit to the same extent payments to a participating provider would be applied.

(b) A health plan company must attempt to negotiate the reimbursement, less any applicable enrollee cost sharing under paragraph (a), for the unauthorized provider services with the nonparticipating provider. If a health plan company's and nonparticipating provider's attempts to negotiate reimbursement for the health care services do not result in a resolution, the health plan company or provider may elect to refer the matter for binding arbitration, chosen in accordance with paragraph (c). A nondisclosure agreement must be executed by both parties prior to engaging an arbitrator in accordance with this section. The cost of arbitration must be shared equally between the parties and nonparticipating provider shall initiate open negotiations of disputed amounts. If there is no agreement, either party may initiate the federal independent dispute resolution process pursuant to Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal regulations adopted under that act.

(c) The commissioner of health, in consultation with the commissioner of the Bureau of Mediation Services, must develop a list of professionals qualified in arbitration, for the purpose of resolving disputes between a health plan company and nonparticipating provider arising from the payment for unauthorized provider services. The commissioner of health shall publish the list on the Department of Health website, and update the list as appropriate.

(d) The arbitrator must consider relevant information, including the health plan company's payments to other nonparticipating providers for the same services, the circumstances and complexity of the particular case, and the usual and customary rate for the service based on information available in a database in a national, independent, not-for-profit corporation, and similar fees received by the provider for the same services from other health plans in which the provider is nonparticipating, in reaching a decision.

Subd. 3. Annual data reporting. (a) Beginning April 1, 2023, a health plan company must report annually to the commissioner:

(1) the total number of claims and total billed and paid amount for nonparticipating provider services, by service and provider type, submitted to the health plan in the prior calendar year; and

(2) the total number of enrollee complaints received regarding the rights and protections established by Division BB, Title I of the Consolidated Appropriations Act, 2021, including any federal regulations adopted under that act, in the prior calendar year.
(b) The commissioners of commerce and health may develop the form and manner for health plan companies to comply with paragraph (a).

Subd. 4. Enforcement. (a) Any provider or facility, including a health care provider or facility pursuant to section 62A.63, subdivision 2, or 62J.03, subdivision 8, that is subject to relevant provisions of the No Surprises Act is subject to the requirements of this section.

(b) The commissioner of commerce or health may enforce this section.

c) If the commissioner of health has cause to believe that any hospital or facility licensed under chapter 144 has violated this section, the commissioner may investigate, examine, and otherwise enforce this section pursuant to chapter 144 or may refer the potential violation to the relevant licensing board with regulatory authority over the provider.

d) If a health-related licensing board has cause to believe that a provider has violated this section, it may further investigate and enforce the provisions of this section pursuant to chapter 214.

Sec. 5. Minnesota Statutes 2020, section 62Q.56, subdivision 2, is amended to read:

Subd. 2. Change in health plans. (a) If an enrollee is subject to a change in health plans, the enrollee's new health plan company must provide, upon request, authorization to receive services that are otherwise covered under the terms of the new health plan through the enrollee's current provider:

(1) for up to 120 days if the enrollee is engaged in a current course of treatment for one or more of the following conditions:

(i) an acute condition;

(ii) a life-threatening mental or physical illness;

(iii) pregnancy beyond the first trimester of pregnancy;

(iv) a physical or mental disability defined as an inability to engage in one or more major life activities, provided that the disability has lasted or can be expected to last for at least one year, or can be expected to result in death; or

(v) a disabling or chronic condition that is in an acute phase; or

(2) for the rest of the enrollee's life if a physician certifies that the enrollee has an expected lifetime of 180 days or less.
For all requests for authorization under this paragraph, the health plan company must grant the request for authorization unless the enrollee does not meet the criteria provided in this paragraph.

(b) The health plan company shall prepare a written plan that provides a process for coverage determinations regarding continuity of care of up to 120 days for new enrollees who request continuity of care with their former provider, if the new enrollee:

(1) is receiving culturally appropriate services and the health plan company does not have a provider in its preferred provider network with special expertise in the delivery of those culturally appropriate services within the time and distance requirements of section 62D.124, subdivision 1; or

(2) does not speak English and the health plan company does not have a provider in its preferred provider network who can communicate with the enrollee, either directly or through an interpreter, within the time and distance requirements of section 62D.124, subdivision 1.

The written plan must explain the criteria that will be used to determine whether a need for continuity of care exists and how it will be provided.

(c) This subdivision applies only to group coverage and continuation and conversion coverage, and applies only to changes in health plans made by the employer.

Sec. 6. Minnesota Statutes 2020, section 62Q.73, subdivision 7, is amended to read:

Subd. 7. Standards of review. (a) For an external review of any issue in an adverse determination that does not require a medical necessity determination, the external review must be based on whether the adverse determination was in compliance with the enrollee's health benefit plan and any applicable state and federal law.

(b) For an external review of any issue in an adverse determination by a health plan company licensed under chapter 62D that requires a medical necessity determination, the external review must determine whether the adverse determination was consistent with the definition of medically necessary care in Minnesota Rules, part 4685.0100, subpart 9b.

(c) For an external review of any issue in an adverse determination by a health plan company, other than a health plan company licensed under chapter 62D, that requires a medical necessity determination, the external review must determine whether the adverse determination was consistent with the definition of medically necessary care in section 62Q.53, subdivision 2.
(d) For an external review of an adverse determination involving experimental or investigational treatment, the external review entity must base its decision on all documents submitted by the health plan company and enrollee, including medical records, the attending physician, advanced practice registered nurse, or health care professional's recommendation, consulting reports from health care professionals, the terms of coverage, federal Food and Drug Administration approval, and medical or scientific evidence or evidence-based standards.

Sec. 7. Minnesota Statutes 2020, section 62U.04, is amended by adding a subdivision to read:

Subd. 5b. Non-claims-based payments. (a) Beginning in 2024, all health plan companies and third-party administrators shall submit to a private entity designated by the commissioner of health all non-claims-based payments made to health care providers. The data shall be submitted in a form, manner, and frequency specified by the commissioner. Non-claims-based payments are payments to health care providers designed to pay for value of health care services over volume of health care services and include alternative payment models or incentives, payments for infrastructure expenditures or investments, and payments for workforce expenditures or investments. Non-claims-based payments submitted under this subdivision must, to the extent possible, be attributed to a health care provider in the same manner in which claims-based data are attributed to a health care provider and, where appropriate, must be combined with data collected under subdivisions 4 and 5 in analyses of health care spending.

(b) Data collected under this subdivision are nonpublic data as defined in section 13.02. Notwithstanding the definition of summary data in section 13.02, subdivision 19, summary data prepared under this subdivision may be derived from nonpublic data. The commissioner shall establish procedures and safeguards to protect the integrity and confidentiality of any data maintained by the commissioner.

(c) The commissioner shall consult with health plan companies, hospitals, and health care providers in developing the data reported under this subdivision and standardized reporting forms.

Sec. 8. Minnesota Statutes 2020, section 62U.04, subdivision 11, is amended to read:

Subd. 11. Restricted uses of the all-payer claims data. (a) Notwithstanding subdivision 4, paragraph (b), and subdivision 5, paragraph (b), the commissioner or the commissioner's
designee shall only use the data submitted under subdivisions 4 and 5 for the following purposes:

(1) to evaluate the performance of the health care home program as authorized under section 62U.03, subdivision 7;

(2) to study, in collaboration with the reducing avoidable readmissions effectively (RARE) campaign, hospital readmission trends and rates;

(3) to analyze variations in health care costs, quality, utilization, and illness burden based on geographical areas or populations;

(4) to evaluate the state innovation model (SIM) testing grant received by the Departments of Health and Human Services, including the analysis of health care cost, quality, and utilization baseline and trend information for targeted populations and communities; and

(5) to compile one or more public use files of summary data or tables that must:

(i) be available to the public for no or minimal cost by March 1, 2016, and available by web-based electronic data download by June 30, 2019;

(ii) not identify individual patients, payers, or providers;

(iii) be updated by the commissioner, at least annually, with the most current data available;

(iv) contain clear and conspicuous explanations of the characteristics of the data, such as the dates of the data contained in the files, the absence of costs of care for uninsured patients or nonresidents, and other disclaimers that provide appropriate context; and

(v) not lead to the collection of additional data elements beyond what is authorized under this section as of June 30, 2015.

(b) The commissioner may publish the results of the authorized uses identified in paragraph (a) so long as the data released publicly do not contain information or descriptions in which the identity of individual hospitals, clinics, or other providers may be discerned.

(c) Nothing in this subdivision shall be construed to prohibit the commissioner from using the data collected under subdivision 4 to complete the state-based risk adjustment system assessment due to the legislature on October 1, 2015.

(d) The commissioner or the commissioner's designee may use the data submitted under subdivisions 4 and 5 for the purpose described in paragraph (a), clause (3), until July 1, 2023.
The commissioner shall consult with the all-payer claims database work group established under subdivision 12 regarding the technical considerations necessary to create the public use files of summary data described in paragraph (a), clause (5).

Sec. 9. Minnesota Statutes 2020, section 62U.10, subdivision 7, is amended to read:

Subd. 7. Outcomes reporting; savings determination. (a) Beginning November 1, 2016, and each November 1 thereafter, the commissioner of health shall determine the actual total private and public health care and long-term care spending for Minnesota residents related to each health indicator projected in subdivision 6 for the most recent calendar year available. The commissioner shall determine the difference between the projected and actual spending for each health indicator and for each year, and determine the savings attributable to changes in these health indicators. The assumptions and research methods used to calculate actual spending must be determined to be appropriate by an independent actuarial consultant. If the actual spending is less than the projected spending, the commissioner, in consultation with the commissioners of human services and management and budget, shall use the proportion of spending for state-administered health care programs to total private and public health care spending for each health indicator for the calendar year two years before the current calendar year to determine the percentage of the calculated aggregate savings amount accruing to state-administered health care programs.

(b) The commissioner may use the data submitted under section 62U.04, subdivisions 4 and 5, and 5b, to complete the activities required under this section, but may only report publicly on regional data aggregated to granularity of 25,000 lives or greater for this purpose.

Sec. 10. [115.7411] ADVISORY COUNCIL ON WATER SUPPLY SYSTEMS AND WASTEWATER TREATMENT FACILITIES.

Subdivision 1. Purpose; membership. The advisory council on water supply systems and wastewater treatment facilities shall advise the commissioners of health and the Pollution Control Agency regarding classification of water supply systems and wastewater treatment facilities, qualifications and competency evaluation of water supply system operators and wastewater treatment facility operators, and additional laws, rules, and procedures that may be desirable for regulating the operation of water supply systems and of wastewater treatment facilities. The advisory council is composed of 11 voting members, of whom:

Consideration should be given to one of these members being a representative of academia knowledgeable in water or wastewater matters.

Subd. 2. Geographic representation. At least one of the water supply system operators and at least one of the wastewater treatment facility operators must be from outside the seven-county metropolitan area, and one wastewater treatment facility operator must be from the Metropolitan Council.

(1) a facility seeking to renew a license shall pay a renewal fee in an amount that is up to ten percent lower than the applicable fee in paragraph (d) if residents who receive home and community-based waiver services under chapter 256S and section 256B.49 comprise more than 50 percent of the facility's capacity in the calendar year prior to the year in which the renewal application is submitted; and

Before receiving loan repayment disbursements and as requested, the participant must complete and return to the commissioner a confirmation of practice form provided by the commissioner verifying that the participant is practicing as required under subdivisions 2 and 3. The participant must provide the commissioner with verification that the full amount of loan repayment disbursement received by the participant has been applied toward the designated loans. Participants who move their practice remain eligible for loan repayment as long as they practice as required under subdivision 2.

(b) The commissioner shall distribute available funds for loan forgiveness for public health employees according to areas of high need as determined by the commissioner.

(c) For each year that a participant who is a nurse and who has agreed to teach according to subdivision 2 meets the teaching obligation required in subdivision 3, the commissioner shall make annual disbursements directly to the participant equivalent to 15 percent of the average annual educational debt for indebted graduates in the nursing profession in the year closest to the participant's selection for which information is available, not to exceed the balance of the participant's qualifying educational loans.

(b) For the purposes of medical care, including organ transplants, a registry program enrollee's use of medical cannabis under sections 152.22 to 152.37, or a Tribal medical cannabis program patient's use of medical cannabis as authorized by the Tribal medical cannabis program, is considered the equivalent of the authorized use of any other medication used at the discretion of a physician or advanced practice registered nurse and does not constitute the use of an illicit substance or otherwise disqualify a patient from needed medical care.

(c) Unless a failure to do so would violate federal law or regulations or cause an employer to lose a monetary or licensing-related benefit under federal law or regulations, an employer may not discriminate against a person in hiring, termination, or any term or condition of employment, or otherwise penalize a person, if the discrimination is based upon either any of the following:

1. the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37; or

2. the person's status as a Tribal medical cannabis program patient enrolled in a Tribal medical cannabis program; or

There shall be no presumption of neglect or child endangerment for conduct allowed under sections 152.22.

Sec. 44. MENTAL HEALTH CULTURAL COMMUNITY CONTINUING EDUCATION GRANT PROGRAM.

(a) The commissioner of health shall develop a grant program, in consultation with the relevant mental health licensing boards, to:

(2) cover the costs when supervision is required for professionals becoming supervisors; and

(3) cover the supervisory costs for mental health practitioners pursuing licensure at the professional level.

(b) Social workers, marriage and family therapists, psychologists, and professional clinical counselors obtaining continuing education and mental health practitioners needing supervised hours to become licensed as professionals under this section must:

sliding fee schedule discounts through a formal sliding fee schedule meeting the standards
established by the United States Department of Health and Human Services under Code of
Federal Regulations, title 42, section 51, chapter 303.

Sec. 91. BENEFIT AND COST ANALYSIS OF A UNIVERSAL HEALTH REFORM

PROPOSAL.

Subdivision 1. Contract for analysis of proposal. The commissioner of health shall
contract with the University of Minnesota School of Public Health and the Carlson School
of Management to conduct an analysis of the benefits and costs of a legislative proposal for
a universal health care financing system and a similar analysis of the current health care
financing system to assist the state in comparing the proposal to the current system.

Subd. 2. Proposal. The commissioner of health, with input from the commissioners of
human services and commerce, shall submit to the University of Minnesota for analysis a
legislative proposal known as the Minnesota Health Plan that would offer a universal health
care plan designed to meet the following principles:

(1) ensure all Minnesotans are covered;

(2) cover all necessary care, including dental, vision and hearing, mental health, chemical
dependency treatment, prescription drugs, medical equipment and supplies, long-term care,
and home care; and

(3) allow patients to choose their doctors, hospitals, and other providers.

Subd. 3. Proposal analysis. (a) The analysis must measure the performance of both the
Minnesota Health Plan and the current health care financing system over a ten-year period
to contrast the impact on:

(1) the number of people covered versus the number of people who continue to lack
access to health care because of financial or other barriers, if any;

(2) the completeness of the coverage and the number of people lacking coverage for
dental, long-term care, medical equipment or supplies, vision and hearing, or other health
services that are not covered, if any;

(3) the adequacy of the coverage, the level of underinsured in the state, and whether
people with coverage can afford the care they need or whether cost prevents them from
accessing care;
(4) the timeliness and appropriateness of the care received and whether people turn to inappropriate care such as emergency rooms because of a lack of proper care in accordance with clinical guidelines; and

(5) total public and private health care spending in Minnesota under the current system versus under the legislative proposal, including all spending by individuals, businesses, and government. "Total public and private health care spending" means spending on all medical care including but not limited to dental, vision and hearing, mental health, chemical dependency treatment, prescription drugs, medical equipment and supplies, long-term care, and home care, whether paid through premiums, co-pays and deductibles, other out-of-pocket payments, or other funding from government, employers, or other sources. Total public and private health care spending also includes the costs associated with administering, delivering, and paying for the care. The costs of administering, delivering, and paying for the care includes all expenses by insurers, providers, employers, individuals, and government to select, negotiate, purchase, and administer insurance and care including but not limited to coverage for health care, dental, long-term care, prescription drugs, medical expense portions of workers compensation and automobile insurance, and the cost of administering and paying for all health care products and services that are not covered by insurance. The analysis of total health care spending shall examine whether there are savings or additional costs under the legislative proposal compared to the existing system due to:

(i) reduced insurance, billing, underwriting, marketing, evaluation, and other administrative functions including savings from global budgeting for hospitals and institutional care instead of billing for individual services provided;

(ii) reduced prices on medical services and products including pharmaceuticals due to price negotiations, if applicable under the proposal;

(iii) changes in utilization, better health outcomes, and reduced time away from work due to prevention, early intervention, health-promoting activities, and to the extent possible given available data and resources;

(iv) shortages or excess capacity of medical facilities and equipment under either the current system or the proposal;

(v) the impact on state, local, and federal government non-health-care expenditures such as reduced crime and out-of-home placement costs due to mental health or chemical dependency coverage; and
(vi) job losses or gains in health care delivery, health billing and insurance administration, and elsewhere in the economy under the proposal due to implementation of the reforms and the resulting reduction of insurance and administrative burdens on businesses.

(b) The analysts may consult with authors of the legislative proposal to gain understanding or clarification of the specifics of the proposal. The analysis shall assume that the provisions in the proposal are not preempted by federal law or that the federal government gives a waiver to the preemptions.

(c) The commissioner shall issue a final report by January 15, 2023, and may provide interim reports and status updates to the governor and the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance.

Subd. 3. Evaluation. Grant recipients must provide the commissioner with information required by the commissioner to evaluate the grant program, in a time and manner specified by the commissioner.

Subd. 4. Report. By January 15, 2023, the commissioner must submit a status report on the operation and results of the grant program, to the extent possible. The report must be submitted to the chairs and ranking minority members of the legislative committees with jurisdiction over health care. The report must include information on grant program activities to date, services offered by grant recipients, and an assessment of the need to continue to offer services to victims, families, and heirs who experienced trauma resulting from government-sponsored activities.

Sec. 94. IDENTIFY STRATEGIES FOR REDUCTION OF ADMINISTRATIVE SPENDING AND LOW-VALUE CARE; REPORT.

(4) convene a clinical learning community and an employer task force to review the evidence from clauses (1) to (3) and develop a set of actionable strategies to address administrative spending volume and growth and the magnitude of the volume of low-value care.

(b) By December 15, 2024, the commissioner shall report the recommendations to the chairs and ranking members of the legislative committees with jurisdiction over health and human services financing and policy.

(2) create publicly available databases or visualizations of lead service lines; and

(3) comply with the lead service line inventory requirements in the Environmental Protection Agency's Lead and Copper Rule.
Sec. 97. PAYMENT MECHANISMS IN RURAL HEALTH CARE.

The commissioner of health shall develop a plan to assess readiness of rural communities and rural health care providers to adopt value-based, global budgeting, or alternative payment systems and recommend steps needed to implement. The commissioner may use the development of case studies and modeling of alternate payment systems to demonstrate value-based payment systems that ensure a baseline level of essential community or regional health services and address population health needs. The commissioner shall develop recommendations for pilot projects by January 1, 2025, with the aim of ensuring financial viability of rural health care systems in the context of spending growth targets. The commissioner shall share findings with the Health Care Affordability Board.

Data submitted during the application process are private data on individuals or nonpublic data as defined in section 13.02 until the manufacturer is registered under this section. registration of the manufacturer, provided the violation occurred while the person was an
officer, director, or controlling person of the manufacturer.

(e) The commissioner shall require each medical cannabis manufacturer to contract with

commissioner shall approve the laboratory chosen by each manufacturer and require that
the laboratory report testing results to the manufacturer in a manner determined by the

(4) create and provide a certification to be used by a health care practitioner for the practitioner to certify whether a patient has been diagnosed with a qualifying medical condition and include in the certification an option for the practitioner to certify whether the patient, in the health care practitioner's medical opinion, is developmentally or physically disabled and, as a result of that disability, the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility;

(5) supervise the participation of the health care practitioner in conducting patient treatment and health records reporting in a manner that ensures stringent security and record-keeping requirements and that prevents the unauthorized release of private data on individuals as defined by section 13.02;

(6) develop safety criteria for patients with a qualifying medical condition as a requirement of the patient's participation in the program, to prevent the patient from undertaking any task under the influence of medical cannabis that would constitute negligence or professional malpractice on the part of the patient; and

(7) conduct research and studies based on data from health records submitted to the registry program and submit reports on intermediate or final research results to the legislature and major scientific journals. The commissioner may contract with a third party to complete the requirements of this clause. Any reports submitted must comply with section 152.28, subdivision 2.

subdivision 6, or add or remove a qualifying medical condition under section 152.22,
subdivision 14, the commissioner must notify the chairs and ranking minority members of
the legislative policy committees having jurisdiction over health and public safety of the
addition or removal and the reasons for its addition or removal, including any written
comments received by the commissioner from the public and any guidance received from
the task force on medical cannabis research, by January 15 of the year in which the
commissioner wishes to make the change. The change shall be effective on August 1 of that
year, unless the legislature by law provides otherwise.

each manufacturer based on geographical need throughout the state to improve patient
access. A manufacturer shall not have more than two distribution facilities in each
geographical service area assigned to the manufacturer by the commissioner. A manufacturer
shall operate only one location where all cultivation, harvesting, manufacturing, packaging,
and processing of medical cannabis shall be conducted. This location may be one of the

consultation may be conducted remotely by secure videoconference, telephone, or other
remote means, so long as the employee providing the consultation is able to confirm the
identity of the patient and the consultation adheres to patient privacy requirements that apply
to health care services delivered through telehealth. A pharmacist consultation under this
clause is not required when a manufacturer is distributing medical cannabis to a patient
according to a patient-specific dosage plan established with that manufacturer and is not

Subd. 2. Market trends. The board shall monitor efforts to reform the health care delivery and payment system in Minnesota to understand emerging trends in the commercial health insurance market, including large self-insured employers and the state's public health care programs, in order to identify opportunities for state action to achieve:

Subd. 2. Methodology. (a) The board shall develop a methodology to establish annual health care spending growth targets and the economic indicators to be used in establishing the initial and subsequent target levels.

(b) The health care spending growth target must:

1. use a clear and operational definition of total state health care spending;
(2) promote a predictable and sustainable rate of growth for total health care spending as measured by an established economic indicator, such as the rate of increase of the state's economy or of the personal income of residents of this state, or a combination;

(3) define the health care markets and the entities to which the targets apply;

(4) take into consideration the potential for variability in targets across public and private payers;

(5) account for the health status of patients; and

(6) incorporate specific benchmarks related to health equity.

(c) In developing, implementing, and evaluating the growth target program, the board shall:

(1) consider the incorporation of quality of care and primary care spending goals;

(3) explicitly consider payment models that help ensure financial sustainability of rural health care delivery systems and the ability to provide population health;

(4) allow setting growth targets that encourage an individual health care entity to serve populations with greater health care risks by incorporating:

   (i) a risk factor adjustment reflecting the health status of the entity's patient mix; and

   (ii) an equity adjustment accounting for the social determinants of health and other factors related to health equity for the entity's patient mix;

(5) ensure that growth targets:

   (i) do not constrain the Minnesota health care workforce, including the need to provide competitive wages and benefits;

   (ii) do not limit the use of collective bargaining or place a floor or ceiling on health care workforce compensation; and

   (iii) promote workforce stability and maintain high-quality health care jobs; and

(6) consult with the advisory council and other stakeholders.
Subd. 3. **Data.** The board shall identify data to be used for tracking performance in meeting the growth target and identify methods of data collection necessary for efficient implementation by the board. In identifying data and methods, the board shall:

(b) The board shall periodically review all components of the health care spending growth target program methodology, economic indicators, and other factors. The board may revise the annual spending growth targets after a public hearing, as appropriate. If the board revises a spending growth target, the board must provide public notice at least 60 days before the start of the calendar year to which the revised growth target will apply.

(c) The board, based on an analysis of drivers of health care spending and evidence from public testimony, shall evaluate strategies and new policies, including the establishment of accountability mechanisms, that are able to contribute to meeting growth targets and limiting health care spending growth without increasing disparities in access to health care.

Subd. 5. **Hearings.** At least annually, the board shall hold public hearings to present findings from spending growth target monitoring. The board shall also regularly hold public hearings to take testimony from stakeholders on health care spending growth, setting and revising health care spending growth targets, the impact of spending growth and growth targets on health care access and quality, and as needed to perform the duties assigned under section 62J.89, subdivisions 1, 2, and 3.

(b) For purposes of this section, "health care entity" must be defined by the board during the development of the health care spending growth methodology. When developing this methodology, the board shall consider a definition of health care entity that includes clinics, hospitals, ambulatory surgical centers, physician organizations, accountable care organizations, integrated provider and plan systems, and other entities defined by the board, provided that physician organizations with a patient panel of 15,000 or fewer, or which represent providers who collectively receive less than $25,000,000 in annual net patient service revenue from health plan companies and other payers, are exempt.

Subd. 2. Performance improvement plans. (a) The board shall establish and implement procedures to assist health care entities to improve efficiency and reduce cost growth by requiring some or all health care entities provided notice under subdivision 1 to file and implement a performance improvement plan. The board shall provide written notice of this requirement to health care entities.

(b) Within 45 days of receiving a notice of the requirement to file a performance improvement plan, a health care entity shall:

(1) file a performance improvement plan with the board; or

(2) file an application with the board to waive the requirement to file a performance improvement plan or extend the timeline for filing a performance improvement plan.

(c) The health care entity may file any documentation or supporting evidence with the board to support the health care entity's application to waive or extend the timeline to file a performance improvement plan. The board shall require the health care entity to submit any other relevant information it deems necessary in considering the waiver or extension application, provided that this information must be made public at the discretion of the board. The board may waive or delay the requirement for a health care entity to file a performance improvement plan in response to a waiver or extension request in light of all information received from the health care entity, based on a consideration of the following factors:

(1) the costs, price, and utilization trends of the health care entity over time, and any demonstrated improvement in reducing per capita medical expenses adjusted by health status;

(2) any ongoing strategies or investments that the health care entity is implementing to improve future long-term efficiency and reduce cost growth;
whether the factors that led to increased costs for the health care entity can reasonably be considered to be unanticipated and outside of the control of the entity. These factors may include but are not limited to age and other health status adjusted factors and other cost inputs such as pharmaceutical expenses and medical device expenses;

(4) the overall financial condition of the health care entity; and

(5) any other factors the board considers relevant. If the board declines to waive or extend the requirement for the health care entity to file a performance improvement plan, the board shall provide written notice to the health care entity that its application for a waiver or extension was denied and the health care entity shall file a performance improvement plan.

(d) A health care entity shall file a performance improvement plan with the board:

(1) within 45 days of receipt of an initial notice;

(2) if the health care entity has requested a waiver or extension, within 45 days of receipt of a notice that such waiver or extension has been denied; or

(3) if the health care entity is granted an extension, on the date given on the extension.

e The performance improvement plan must identify the causes of the entity's cost growth and include but not be limited to specific strategies, adjustments, and action steps the entity proposes to implement to improve cost performance. The proposed performance improvement plan must include specific identifiable and measurable expected outcomes and a timetable for implementation. The timetable for a performance improvement plan must not exceed 18 months.

(f) The board shall approve any performance improvement plan it determines is reasonably likely to address the underlying cause of the entity's cost growth and has a reasonable expectation for successful implementation. If the board determines that the performance improvement plan is unacceptable or incomplete, the board may provide consultation on the criteria that have not been met and may allow an additional time period of up to 30 calendar days for resubmission. Upon approval of the proposed performance improvement plan, the board shall notify the health care entity to begin immediate implementation of the performance improvement plan. The board shall provide public notice on its website identifying that the health care entity is implementing a performance improvement plan. All health care entities implementing an approved performance improvement plan shall be subject to additional reporting requirements and compliance
monitoring, as determined by the board. The board shall provide assistance to the health care entity in the successful implementation of the performance improvement plan.

(g) All health care entities shall in good faith work to implement the performance improvement plan. At any point during the implementation of the performance improvement plan, the health care entity may file amendments to the performance improvement plan, subject to approval of the board. At the conclusion of the timetable established in the performance improvement plan, the health care entity shall report to the board regarding the outcome of the performance improvement plan. If the board determines the performance improvement plan was not implemented successfully, the board shall:

1. extend the implementation timetable of the existing performance improvement plan;
2. approve amendments to the performance improvement plan as proposed by the health care entity;
3. require the health care entity to submit a new performance improvement plan; or
4. waive or delay the requirement to file any additional performance improvement plans.

(h) Upon the successful completion of the performance improvement plan, the board shall remove the identity of the health care entity from the board's website. The board may assist health care entities with implementing the performance improvement plans or otherwise ensure compliance with this subdivision.

(i) If the board determines that a health care entity has:

1. willfully neglected to file a performance improvement plan with the board within 45 days as required;
2. failed to file an acceptable performance improvement plan in good faith with the board;
3. failed to implement the performance improvement plan in good faith; or
4. knowingly failed to provide information required by this subdivision to the board or knowingly provided false information, the board may assess a civil penalty to the health care entity of not more than $50,000. The board must only impose a civil penalty as a last resort.
Sec. 7. [62J.92] REPORTING REQUIREMENTS.

Subdivision 1. General requirement. (a) The board shall present the reports required by this section to the chairs and ranking members of the legislative committees with primary jurisdiction over health care finance and policy. The board shall also make these reports available to the public on the board's website.

(b) The board may contract with a third-party vendor for technical assistance in preparing the reports.

Subd. 2. Progress reports. The board shall submit written progress updates about the development and implementation of the health care spending growth target program by February 15, 2024, and February 15, 2025. The updates must include reporting on board membership and activities, program design decisions, planned timelines for implementation of the program, and the progress of implementation. The reports must include the methodological details underlying program design decisions.

Subd. 3. Health care spending trends. By December 15, 2024, and every December 15 thereafter, the board shall submit a report on health care spending trends and the health care spending growth target program that includes:

(2) findings from analyses of drivers of health care spending growth;

(3) estimates of the impact of health care spending growth on Minnesota residents, including for communities most impacted by health disparities, related to their access to insurance and care, value of health care, and the ability to pursue other spending priorities;

(4) the potential and observed impact of the health care growth targets on the financial viability of the rural delivery system;

(5) changes under consideration for revising the methodology to monitor or set growth targets;

(6) recommendations for initiatives to assist health care entities in meeting health care spending growth targets, including broader and more transparent adoption of value-based payment arrangements; and

(7) the number of health care entities whose spending growth exceeded growth targets, information on performance improvement plans and the extent to which the plans were
completed, and any civil penalties imposed on health care entities related to noncompliance
with performance improvement plans and related requirements.

Sec. 8. Minnesota Statutes 2020, section 62U.04, subdivision 11, is amended to read:

Subd. 11. Restricted uses of the all-payer claims data. (a) Notwithstanding subdivision
4, paragraph (b), and subdivision 5, paragraph (b), the commissioner or the commissioner's
designee shall only use the data submitted under subdivisions 4 and 5 for the following
purposes:

(1) to evaluate the performance of the health care home program as authorized under
section 62U.03, subdivision 7;

(2) to study, in collaboration with the reducing avoidable readmissions effectively
(RARE) campaign, hospital readmission trends and rates;

(3) to analyze variations in health care costs, quality, utilization, and illness burden based
on geographical areas or populations;

(4) to evaluate the state innovation model (SIM) testing grant received by the Departments
of Health and Human Services, including the analysis of health care cost, quality, and
utilization baseline and trend information for targeted populations and communities; and

(5) to compile one or more public use files of summary data or tables that must:

(i) be available to the public for no or minimal cost by March 1, 2016, and available by
web-based electronic data download by June 30, 2019;

(ii) not identify individual patients, payers, or providers;

(iii) be updated by the commissioner, at least annually, with the most current data
available;

(iv) contain clear and conspicuous explanations of the characteristics of the data, such
as the dates of the data contained in the files, the absence of costs of care for uninsured
patients or nonresidents, and other disclaimers that provide appropriate context; and

(v) not lead to the collection of additional data elements beyond what is authorized under
this section as of June 30, 2015; and

(6) to provide technical assistance to the Health Care Affordability Board to implement
sections 62J.86 to 62J.92.
(b) The commissioner may publish the results of the authorized uses identified in paragraph (a) so long as the data released publicly do not contain information or descriptions in which the identity of individual hospitals, clinics, or other providers may be discerned.

(c) Nothing in this subdivision shall be construed to prohibit the commissioner from using the data collected under subdivision 4 to complete the state-based risk adjustment system assessment due to the legislature on October 1, 2015.

(d) The commissioner or the commissioner's designee may use the data submitted under subdivisions 4 and 5 for the purpose described in paragraph (a), clause (3), until July 1, 2023.

(e) The commissioner shall consult with the all-payer claims database work group established under subdivision 12 regarding the technical considerations necessary to create the public use files of summary data described in paragraph (a), clause (5).

Sec. 9. Minnesota Statutes 2020, section 256.01, is amended by adding a subdivision to read:

Subd. 43. Education on contraceptive options. The commissioner shall require hospitals and primary care providers serving medical assistance and MinnesotaCare enrollees to develop and implement protocols to provide these enrollees, when appropriate, with comprehensive and scientifically accurate information on the full range of contraceptive options in a medically ethical, culturally competent, and noncoercive manner. The information provided must be designed to assist enrollees in identifying the contraceptive method that best meets their needs and the needs of their families. The protocol must specify the enrollee categories to which this requirement will be applied, the process to be used, and the information and resources to be provided. Hospitals and providers must make this protocol available to the commissioner upon request.

Sec. 10. Minnesota Statutes 2020, section 256.969, is amended by adding a subdivision to read:

Subd. 31. Long-acting reversible contraceptives. (a) The commissioner must provide separate reimbursement to hospitals for long-acting reversible contraceptives provided immediately postpartum in the inpatient hospital setting. This payment must be in addition to the diagnostic related group (DRG) reimbursement for labor and delivery.

(b) The commissioner must require managed care and county-based purchasing plans to comply with this subdivision when providing services to medical assistance enrollees.
EFFECTIVE DATE. This section is effective January 1, 2023.

Sec. 11. Minnesota Statutes 2020, section 256B.021, subdivision 4, is amended to read:

Subd. 4. Projects. The commissioner shall request permission and funding to further the following initiatives.

(a) Health care delivery demonstration projects. This project involves testing alternative payment and service delivery models in accordance with sections 256B.0755 and 256B.0756. These demonstrations will allow the Minnesota Department of Human Services to engage in alternative payment arrangements with provider organizations that provide services to a specified patient population for an agreed upon total cost of care or risk/gain sharing payment arrangement, but are not limited to these models of care delivery or payment. Quality of care and patient experience will be measured and incorporated into payment models alongside the cost of care. Demonstration sites should include Minnesota health care programs fee-for-services recipients and managed care enrollees and support a robust primary care model and improved care coordination for recipients.

(b) Promote personal responsibility and encourage and reward healthy outcomes. This project provides Medicaid funding to provide individual and group incentives to encourage healthy behavior, prevent the onset of chronic disease, and reward healthy outcomes. Focus areas may include diabetes prevention and management, tobacco cessation, reducing weight, lowering cholesterol, and lowering blood pressure.

(c) Encourage utilization of high quality, cost-effective care. This project creates incentives through Medicaid and MinnesotaCare enrollee cost-sharing and other means to encourage the utilization of high-quality, low-cost, high-value providers, as determined by the state's provider peer grouping initiative under section 62U.04.

(d) Adults without children. This proposal includes requesting federal authority to impose a limit on assets for adults without children in medical assistance, as defined in section 256B.055, subdivision 15, who have a household income equal to or less than 75 percent of the federal poverty limit, and to impose a 180-day durational residency requirement in MinnesotaCare, consistent with section 256L.09, subdivision 4, for adults without children, regardless of income.

(e) Empower and encourage work, housing, and independence. This project provides services and supports for individuals who have an identified health or disabling condition but are not yet certified as disabled, in order to delay or prevent permanent disability, reduce
the need for intensive health care and long-term care services and supports, and to help
maintain or obtain employment or assist in return to work. Benefits may include:

1. coordination with health care homes or health care coordinators;
2. assessment for wellness, housing needs, employment, planning, and goal setting;
3. training services;
4. job placement services;
5. career counseling;
6. benefit counseling;
7. worker supports and coaching;
8. assessment of workplace accommodations;
9. transitional housing services; and
10. assistance in maintaining housing.

(f) Redesign home and community-based services. This project realigns existing funding,
services, and supports for people with disabilities and older Minnesotans to ensure community
integration and a more sustainable service system. This may involve changes that promote
a range of services to flexibly respond to the following needs:

1. provide people less expensive alternatives to medical assistance services;
2. offer more flexible and updated community support services under the Medicaid
state plan;
3. provide an individual budget and increased opportunity for self-direction;
4. strengthen family and caregiver support services;
5. allow persons to pool resources or save funds beyond a fiscal year to cover unexpected
needs or foster development of needed services;
6. use of home and community-based waiver programs for people whose needs cannot
be met with the expanded Medicaid state plan community support service options;
7. target access to residential care for those with higher needs;
8. develop capacity within the community for crisis intervention and prevention;
9. redesign case management;
offer life planning services for families to plan for the future of their child with a
disability;

(11) enhance self-advocacy and life planning for people with disabilities;

(12) improve information and assistance to inform long-term care decisions; and

(13) increase quality assurance, performance measurement, and outcome-based
reimbursement.

This project may include different levels of long-term supports that allow seniors to remain
in their homes and communities, and expand care transitions from acute care to community
care to prevent hospitalizations and nursing home placement. The levels of support for
seniors may range from basic community services for those with lower needs, access to
residential services if a person has higher needs, and targets access to nursing home care to
those with rehabilitation or high medical needs. This may involve the establishment of
medical need thresholds to accommodate the level of support needed; provision of a
long-term care consultation to persons seeking residential services, regardless of payer
source; adjustment of incentives to providers and care coordination organizations to achieve
desired outcomes; and a required coordination with medical assistance basic care benefit
and Medicare/Medigap benefit. This proposal will improve access to housing and improve
capacity to maintain individuals in their existing home; adjust screening and assessment
tools, as needed; improve transition and relocation efforts; seek federal financial participation
for alternative care and essential community supports; and provide Medigap coverage for
people having lower needs.

(g) Coordinate and streamline services for people with complex needs, including those
with multiple diagnoses of physical, mental, and developmental conditions. This project
will coordinate and streamline medical assistance benefits for people with complex needs
and multiple diagnoses. It would include changes that:

(1) develop community-based service provider capacity to serve the needs of this group;

(2) build assessment and care coordination expertise specific to people with multiple
diagnoses;

(3) adopt service delivery models that allow coordinated access to a range of services
for people with complex needs;

(4) reduce administrative complexity;

(5) measure the improvements in the state's ability to respond to the needs of this
population; and
(6) increase the cost-effectiveness for the state budget.

(h) Implement nursing home level of care criteria. This project involves obtaining any necessary federal approval in order to implement the changes to the level of care criteria in section 144.0724, subdivision 11, and implement further changes necessary to achieve reform of the home and community-based service system.

(i) Improve integration of Medicare and Medicaid. This project involves reducing fragmentation in the health care delivery system to improve care for people eligible for both Medicare and Medicaid, and to align fiscal incentives between primary, acute, and long-term care. The proposal may include:

(1) requesting an exception to the new Medicare methodology for payment adjustment for fully integrated special needs plans for dual eligible individuals;

(2) testing risk adjustment models that may be more favorable to capturing the needs of frail dually eligible individuals;

(3) requesting an exemption from the Medicare bidding process for fully integrated special needs plans for the dually eligible;

(4) modifying the Medicare bid process to recognize additional costs of health home services; and

(5) requesting permission for risk-sharing and gain-sharing.

(j) Intensive residential treatment services. This project would involve providing intensive residential treatment services for individuals who have serious mental illness and who have other complex needs. This proposal would allow such individuals to remain in these settings after mental health symptoms have stabilized, in order to maintain their mental health and avoid more costly or unnecessary hospital or other residential care due to their other complex conditions. The commissioner may pursue a specialized rate for projects created under this section.

(k) Seek federal Medicaid matching funds for Anoka-Metro Regional Treatment Center (AMRTC). This project involves seeking Medicaid reimbursement for medical services provided to patients to AMRTC, including requesting a waiver of United States Code, title 42, section 1396d, which prohibits Medicaid reimbursement for expenditures for services provided by hospitals with more than 16 beds that are primarily focused on the treatment of mental illness. This waiver would allow AMRTC to serve as a statewide resource to provide diagnostics and treatment for people with the most complex conditions.
Waivers to allow Medicaid eligibility for children under age 21 receiving care in residential facilities. This proposal would seek Medicaid reimbursement for any Medicaid-covered service for children who are placed in residential settings that are determined to be "institutions for mental diseases," under United States Code, title 42, section 1396d.

**EFFECTIVE DATE.** This section is effective January 1, 2023.

Sec. 12. Minnesota Statutes 2021 Supplement, section 256B.0371, subdivision 4, is amended to read:

(a) The commissioner shall submit an annual report beginning March 15, 2022, and ending March 15, 2026, to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance that includes the percentage for adults and children one through 20 years of age for the most recent complete calendar year receiving at least one dental visit for both fee-for-service and the prepaid medical assistance program. The report must include:

2. the number of enrolled dentists who provided fee-for-service dental services to medical assistance or MinnesotaCare patients within the previous calendar year in the following increments: one to nine patients, ten to 100 patients, and over 100 patients;
(3) the number of enrolled dentists who provided dental services to medical assistance
or MinnesotaCare patients through a managed care plan or county-based purchasing plan
within the previous calendar year in the following increments: one to nine patients, ten to
100 patients, and over 100 patients; and

in medical assistance or MinnesotaCare within the previous calendar year.

(e) The report due on March 15, 2023, must include the metrics described in paragraph
(d) for each of the following years: 2017, 2018, 2019, 2020, and 2021.

the agency determines the child's eligibility was erroneously granted due to agency error or enrollee fraud, abuse, or perjury.

Sec. 20. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 17, is amended to read:

Subd. 17. Transportation costs. (a) "Nonemergency medical transportation service" means motor vehicle transportation provided by a public or private person that serves Minnesota health care program beneficiaries who do not require emergency ambulance service, as defined in section 144E.001, subdivision 3, to obtain covered medical services.

(b) Medical assistance covers medical transportation costs incurred solely for obtaining emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company, nonemergency medical transportation company, or other recognized providers of transportation services. Medical transportation must be provided by:

(1) nonemergency medical transportation providers who meet the requirements of this subdivision;

(2) ambulances, as defined in section 144E.001, subdivision 2;

(3) taxicabs that meet the requirements of this subdivision;

(4) public transit, as defined in section 174.22, subdivision 7; or

(5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472, subdivision 1, paragraph (h).

(c) Medical assistance covers nonemergency medical transportation provided by nonemergency medical transportation providers enrolled in the Minnesota health care programs. All nonemergency medical transportation providers must comply with the operating standards for special transportation service as defined in sections 174.29 to 174.30 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the commissioner and reported on the claim as the individual who provided the service. All nonemergency medical transportation providers shall bill for nonemergency medical transportation services in accordance with Minnesota health care programs criteria. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this paragraph.

(d) An organization may be terminated, denied, or suspended from enrollment if:
(1) the provider has not initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

(2) the provider has initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

(i) the commissioner has sent the provider a notice that the individual has been disqualified under section 245C.14; and

(ii) the individual has not received a disqualification set-aside specific to the special transportation services provider under sections 245C.22 and 245C.23.

e) The administrative agency of nonemergency medical transportation must:

(1) adhere to the policies defined by the commissioner in consultation with the Nonemergency Medical Transportation Advisory Committee;

(2) pay nonemergency medical transportation providers for services provided to Minnesota health care programs beneficiaries to obtain covered medical services;

(3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled trips, and number of trips by mode; and

(4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single administrative structure assessment tool that meets the technical requirements established by the commissioner, reconciles trip information with claims being submitted by providers, and ensures prompt payment for nonemergency medical transportation services.

f) Until the commissioner implements the single administrative structure and delivery system under subdivision 18e, clients shall obtain their level-of-service certificate from the commissioner or an entity approved by the commissioner that does not dispatch rides for clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

g) The commissioner may use an order by the recipient's attending physician, advanced practice registered nurse, or a medical or mental health professional to certify that the recipient requires nonemergency medical transportation services. Nonemergency medical transportation providers shall perform driver-assisted services for eligible individuals, when appropriate. Driver-assisted service includes passenger pickup at and return to the individual's residence or place of business, assistance with admittance of the individual to the medical facility, and assistance in passenger securement or in securing of wheelchairs, child seats, or stretchers in the vehicle.
Nonemergency medical transportation providers must take clients to the health care
provider using the most direct route, and must not exceed 30 miles for a trip to a primary
care provider or 60 miles for a trip to a specialty care provider, unless the client receives
authorization from the local agency.

Nonemergency medical transportation providers may not bill for separate base rates for
the continuation of a trip beyond the original destination. Nonemergency medical
transportation providers must maintain trip logs, which include pickup and drop-off times,
signed by the medical provider or client, whichever is deemed most appropriate, attesting
to mileage traveled to obtain covered medical services. Clients requesting client mileage
reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
services.

(h) The administrative agency shall use the level of service process established by the
commissioner in consultation with the Nonemergency Medical Transportation Advisory
Committee to determine the client's most appropriate mode of transportation. If public transit
or a certified transportation provider is not available to provide the appropriate service mode
for the client, the client may receive a onetime service upgrade.

(i) The covered modes of transportation are:

(1) client reimbursement, which includes client mileage reimbursement provided to
clients who have their own transportation, or to family or an acquaintance who provides
transportation to the client;

(2) volunteer transport, which includes transportation by volunteers using their own
vehicle;

(3) unassisted transport, which includes transportation provided to a client by a taxicab
or public transit. If a taxicab or public transit is not available, the client can receive
transportation from another nonemergency medical transportation provider;

(4) assisted transport, which includes transport provided to clients who require assistance
by a nonemergency medical transportation provider;

(5) lift-equipped/ramp transport, which includes transport provided to a client who is
dependent on a device and requires a nonemergency medical transportation provider with
a vehicle containing a lift or ramp;

(6) protected transport, which includes transport provided to a client who has received
a prescreening that has deemed other forms of transportation inappropriate and who requires
a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety
locks, a video recorder, and a transparent thermoplastic partition between the passenger and the vehicle driver; and (ii) who is certified as a protected transport provider; and

(7) stretcher transport, which includes transport for a client in a prone or supine position and requires a nonemergency medical transportation provider with a vehicle that can transport a client in a prone or supine position.

(j) The local agency shall be the single administrative agency and shall administer and reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the commissioner has developed, made available, and funded the web-based single administrative structure, assessment tool, and level of need assessment under subdivision 18e. The local agency's financial obligation is limited to funds provided by the state or federal government.

(k) The commissioner shall:

(1) in consultation with the Nonemergency Medical Transportation Advisory Committee, verify that the mode and use of nonemergency medical transportation is appropriate;

(2) verify that the client is going to an approved medical appointment; and

(3) investigate all complaints and appeals.

(l) The administrative agency shall pay for the services provided in this subdivision and seek reimbursement from the commissioner, if appropriate. As vendors of medical care, local agencies are subject to the provisions in section 256B.041, the sanctions and monetary recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

(m) Payments for nonemergency medical transportation must be paid based on the client's assessed mode under paragraph (h), not the type of vehicle used to provide the service. The medical assistance reimbursement rates for nonemergency medical transportation services that are payable by or on behalf of the commissioner for nonemergency medical transportation services are:

(1) $0.22 per mile for client reimbursement;

(2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer transport;

(3) equivalent to the standard fare for unassisted transport when provided by public transit, and $11 for the base rate and $1.30 per mile when provided by a nonemergency medical transportation provider;

(4) $13 for the base rate and $1.30 per mile for assisted transport;

(5) $18 for the base rate and $1.55 per mile for lift-equipped/ramp transport;
(6) $75 for the base rate and $2.40 per mile for protected transport; and

(7) $60 for the base rate and $2.40 per mile for stretcher transport, and $9 per trip for an additional attendant if deemed medically necessary.

(n) The base rate for nonemergency medical transportation services in areas defined under RUCA to be super rural is equal to 111.3 percent of the respective base rate in paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation services in areas defined under RUCA to be rural or super rural areas is:

(1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage rate in paragraph (m), clauses (1) to (7); and

(2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage rate in paragraph (m), clauses (1) to (7).

(o) For purposes of reimbursement rates for nonemergency medical transportation services under paragraphs (m) and (n), the zip code of the recipient's place of residence shall determine whether the urban, rural, or super rural reimbursement rate applies.

(p) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means a census-tract based classification system under which a geographical area is determined to be urban, rural, or super rural.

(q) The commissioner, when determining reimbursement rates for nonemergency medical transportation under paragraphs (m) and (n), shall exempt all modes of transportation listed under paragraph (i) from Minnesota Rules, part 9505.0445, item R, subitem (2).

(r) Effective for the first day of each calendar quarter in which the price of gasoline as posted publicly by the United States Energy Information Administration exceeds $3.00 per gallon, the commissioner shall adjust the rate paid per mile in paragraph (m) by one percent up or down for every increase or decrease of ten cents for the price of gasoline. The increase or decrease must be calculated using a base gasoline price of $3.00. The percentage increase or decrease must be calculated using the average of the most recently available price of all grades of gasoline for Minnesota as posted publicly by the United States Energy Information Administration.

EFFECTIVE DATE. This section is effective July 1, 2022.
Sec. 21. Minnesota Statutes 2020, section 256B.0625, subdivision 17a, is amended to read:

(b) Effective for services provided on or after July 1, 2016, medical assistance payment rates for ambulance services identified in this paragraph are increased by five percent. Capitation payments made to managed care plans and county-based purchasing plans for ambulance services provided on or after January 1, 2017, shall be increased to reflect this rate increase. The increased rate described in this paragraph applies to ambulance service providers whose base of operations as defined in section 144E.10 is located:

(1) outside the metropolitan counties listed in section 473.121, subdivision 4, and outside the cities of Duluth, Mankato, Moorhead, St. Cloud, and Rochester; or

(2) within a municipality with a population of less than 1,000.

(c) Effective for the first day of each calendar quarter in which the price of gasoline as posted publicly by the United States Energy Information Administration exceeds $3.00 per gallon, the commissioner shall adjust the rate paid per mile in paragraphs (a) and (b) by one percent up or down for every increase or decrease of ten cents for the price of gasoline. The increase or decrease must be calculated using a base gasoline price of $3.00. The percentage increase or decrease must be calculated using the average of the most recently available price of all grades of gasoline for Minnesota as posted publicly by the United States Energy Information Administration.

EFFECTIVE DATE. This section is effective July 1, 2022.

Sec. 22. Minnesota Statutes 2020, section 256B.0625, subdivision 18h, is amended to read:

(2) subdivision 18; and

(3) subdivision 18a.

(b) A nonemergency medical transportation provider must comply with the operating standards for special transportation service specified in sections 174.29 to 174.30 and Minnesota Rules, chapter 8840. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements in this paragraph.

(c) Managed care and county-based purchasing plans must provide a fuel adjustment for nonemergency medical transportation payment rates when the price of gasoline exceeds $3.00 per gallon.

Sec. 23. Minnesota Statutes 2020, section 256B.0625, subdivision 22, is amended to read:

Subd. 22. Hospice care. Medical assistance covers hospice care services under Public Law 99-272, section 9505, to the extent authorized by rule, except that a recipient age 21 or under who elects to receive hospice services does not waive coverage for services that are related to the treatment of the condition for which a diagnosis of terminal illness has been made. Hospice respite and end-of-life care under subdivision 22a are not hospice care services under this subdivision.

Sec. 24. Minnesota Statutes 2020, section 256B.0625, is amended by adding a subdivision to read:

Subd. 22a. Residential hospice facility; hospice respite and end-of-life care for children. (a) Medical assistance covers hospice respite and end-of-life care if the care is for recipients age 21 or under who elect to receive hospice care delivered in a facility that is licensed under sections 144A.75 to 144A.755 and that is a residential hospice facility under section 144A.75, subdivision 13, paragraph (a). Hospice care services under subdivision 22 are not hospice respite or end-of-life care under this subdivision.

(b) The payment rates for coverage under this subdivision must be 100 percent of the Medicare rate for continuous home care hospice services as published in the Centers for Medicare and Medicaid Services annual final rule updating payments and policies for hospice care. Payment for hospice respite and end-of-life care under this subdivision must be made from state funds, though the commissioner shall seek to obtain federal financial participation for the payments. Payment for hospice respite and end-of-life care must be paid to the residential hospice facility and are not included in any limits or cap amount applicable to hospice services payments to the elected hospice services provider.
(c) Certification of the residential hospice facility by the federal Medicare program must not be a requirement of medical assistance payment for hospice respite and end-of-life care under this subdivision.

**EFFECTIVE DATE.** This section is effective January 1, 2023.

Sec. 25. Minnesota Statutes 2020, section 256B.0625, subdivision 28b, is amended to read:

Rural health clinic services and federally qualified health center services mean services defined in United States Code, title 42, section 1396d(a)(2)(B) and (C). An FQHC that is already in operation shall submit an initial report using actual costs and visits for the initial reporting period. Within 90 days of the end of its reporting period, an FQHC shall submit, in the form and detail required by the commissioner, a report of its operations, including allowable costs actually incurred for the period and the actual number of visits for services furnished during the period, and other information required by the commissioner. FQHCs that file Medicare cost reports shall provide the commissioner with a copy of the most recent Medicare cost report filed with
the Medicare program intermediary for the reporting year which support the costs claimed on their cost report to the state.

(c) In order to continue cost-based payment under the medical assistance program according to paragraphs (a) and (b), an FQHC or rural health clinic must apply for designation as an essential community provider within six months of final adoption of rules by the Department of Health according to section 62Q.19, subdivision 7. For those FQHCs and rural health clinics that have applied for essential community provider status within the six-month time prescribed, medical assistance payments will continue to be made according to paragraphs (a) and (b) for the first three years after application. For FQHCs and rural health clinics that either do not apply within the time specified above or who have had essential community provider status for three years, medical assistance payments for health services provided by these entities shall be according to the same rates and conditions applicable to the same service provided by health care providers that are not FQHCs or rural health clinics.

The alternative payment methodology shall be 100 percent of cost as determined according to Medicare cost principles.

(g) Effective for services provided on or after January 1, 2021, all claims for payment of clinic services provided by FQHCs and rural health clinics shall be paid by the commissioner, according to an annual election by the FQHC or rural health clinic, under the current prospective payment system described in paragraph (f) or the alternative payment methodology described in paragraph (l).

(i) Effective for services provided on or after January 1, 2015, all claims for payment of clinic services provided by FQHCs and rural health clinics shall be paid by the commissioner. The commissioner shall determine the most feasible method for paying claims from the following options:

(1) FQHCs and rural health clinics submit claims directly to the commissioner for payment, and the commissioner provides claims information for recipients enrolled in a managed care or county-based purchasing plan to the plan, on a regular basis; or

(2) FQHCs and rural health clinics submit claims for recipients enrolled in a managed care or county-based purchasing plan to the plan, and those claims are submitted by the plan to the commissioner for payment to the clinic.

(j) For clinic services provided prior to January 1, 2015, the commissioner shall calculate and pay monthly the proposed managed care supplemental payments to clinics, and clinics shall conduct a timely review of the payment calculation data in order to finalize all supplemental payments in accordance with federal law. Any issues arising from a clinic's review must be reported to the commissioner by January 1, 2017. Upon final agreement between the commissioner and a clinic on issues identified under this subdivision, and in accordance with United States Code, title 42, section 1396a(bb), no supplemental payments for managed care plan or county-based purchasing plan claims for services provided prior to January 1, 2015, shall be made after June 30, 2017. If the commissioner and clinics are unable to resolve issues under this subdivision, the parties shall submit the dispute to the arbitration process under section 14.57.

(k) The commissioner shall seek a federal waiver, authorized under section 1115 of the Social Security Act, to obtain federal financial participation at the 100 percent federal matching percentage available to facilities of the Indian Health Service or tribal organization.
in accordance with section 1905(b) of the Social Security Act for expenditures made to
organizations dually certified under Title V of the Indian Health Care Improvement Act,
Public Law 94-437, and as a federally qualified health center under paragraph (a) that
provides services to American Indian and Alaskan Native individuals eligible for services
under this subdivision.

(l) All claims for payment of clinic services provided by FQHCs and rural health clinics,
that have elected to be paid under this paragraph, shall be paid by the commissioner according
to the following requirements:

(1) the commissioner shall establish a single medical and single dental organization
encounter rate for each FQHC and rural health clinic when applicable;

(2) each FQHC and rural health clinic is eligible for same day reimbursement of one
medical and one dental organization encounter rate if eligible medical and dental visits are
provided on the same day;

(3) the commissioner shall reimburse FQHCs and rural health clinics, in accordance
with current applicable Medicare cost principles, their allowable costs, including direct
patient care costs and patient-related support services. Nonallowable costs include, but are
not limited to:

(i) general social services and administrative costs;

(iv) external lab and x-ray;

(v) navigation services;

(vi) health care taxes;

(xiii) research and associated administrative costs;
(xiv) nonpaid workers;

(xv) lobbying;

(xvi) scholarships and student aid; and

(xvii) nonmedical assistance covered services;

(4) the commissioner shall review the list of nonallowable costs in the years between
the rebasing process established in clause (5), in consultation with the Minnesota Association
of Community Health Centers, FQHCs, and rural health clinics. The commissioner shall
publish the list and any updates in the Minnesota health care programs provider manual;

(5) the initial applicable base year organization encounter rates for FQHCs and rural
health clinics shall be computed for services delivered on or after January 1, 2021, and:

(i) must be determined using each FQHC's and rural health clinic's Medicare cost reports
from 2017 and 2018;

(ii) must be according to current applicable Medicare cost principles as applicable to
FQHCs and rural health clinics without the application of productivity screens and upper
payment limits or the Medicare prospective payment system FQHC aggregate mean upper
payment limit;

(iii) must be subsequently rebased every two years thereafter using the Medicare cost
reports that are three and four years prior to the rebasing year. Years in which organizational
cost or claims volume is reduced or altered due to a pandemic, disease, or other public health
emergency shall not be used as part of a base year when the base year includes more than
one year. The commissioner may use the Medicare cost reports of a year unaffected by a
pandemic, disease, or other public health emergency, or previous two consecutive years,
inflated to the base year as established under item (iv);

(iv) must be inflated to the base year using the inflation factor described in clause (6);

and

(v) the commissioner must provide for a 60-day appeals process under section 14.57;

(6) the commissioner shall annually inflate the applicable organization encounter rates
for FQHCs and rural health clinics from the base year payment rate to the effective date by
using the CMS FQHC Market Basket inflator established under United States Code, title
42, section 1395m(o), less productivity;

(7) FQHCs and rural health clinics that have elected the alternative payment methodology
under this paragraph shall submit all necessary documentation required by the commissioner
to compute the rebased organization encounter rates no later than six months following the
date the applicable Medicare cost reports are due to the Centers for Medicare and Medicaid
Services;

(8) the commissioner shall reimburse FQHCs and rural health clinics an additional
amount relative to their medical and dental organization encounter rates that is attributable
to the tax required to be paid according to section 295.52, if applicable;

(9) FQHCs and rural health clinics may submit change of scope requests to the
commissioner if the change of scope would result in an increase or decrease of 2.5 percent
or higher in the medical or dental organization encounter rate currently received by the
FQHC or rural health clinic;

(10) for FQHCs and rural health clinics seeking a change in scope with the commissioner
under clause (9) that requires the approval of the scope change by the federal Health
Resources Services Administration:

(i) FQHCs and rural health clinics shall submit the change of scope request, including
the start date of services, to the commissioner within seven business days of submission of
the scope change to the federal Health Resources Services Administration;

(ii) the commissioner shall establish the effective date of the payment change as the
federal Health Resources Services Administration date of approval of the FQHC's or rural
health clinic's scope change request, or the effective start date of services, whichever is
later; and

(iii) within 45 days of one year after the effective date established in item (ii), the
commissioner shall conduct a retroactive review to determine if the actual costs established
under clause (3) or encounters result in an increase or decrease of 2.5 percent or higher in
the medical or dental organization encounter rate, and if this is the case, the commissioner
shall revise the rate accordingly and shall adjust payments retrospectively to the effective
date established in item (ii);

(11) for change of scope requests that do not require federal Health Resources Services
Administration approval, the FQHC and rural health clinic shall submit the request to the
commissioner before implementing the change, and the effective date of the change is the
date the commissioner received the FQHC's or rural health clinic's request, or the effective
start date of the service, whichever is later. The commissioner shall provide a response to
the FQHC's or rural health clinic's request within 45 days of submission and provide a final
approval within 120 days of submission. This timeline may be waived at the mutual
agreement of the commissioner and the FQHC or rural health clinic if more information is
needed to evaluate the request;

(12) the commissioner, when establishing organization encounter rates for new FQHCs
and rural health clinics, shall consider the patient caseload of existing FQHCs and rural
health clinics in a 60-mile radius for organizations established outside of the seven-county
metropolitan area, and in a 30-mile radius for organizations in the seven-county metropolitan
area. If this information is not available, the commissioner may use Medicare cost reports
or audited financial statements to establish base rates;

(13) the commissioner shall establish a quality measures workgroup that includes
representatives from the Minnesota Association of Community Health Centers, FQHCs,
and rural health clinics, to evaluate clinical and nonclinical measures; and

(14) the commissioner shall not disallow or reduce costs that are related to an FQHC's
or rural health clinic's participation in health care educational programs to the extent that
the costs are not accounted for in the alternative payment methodology encounter rate
established in this paragraph.

(m) Effective July 1, 2022, an enrolled Indian Health Service facility or a Tribal health
center operating under a 638 contract or compact may elect to also enroll as a Tribal FQHC.
No requirements that otherwise apply to FQHCs covered in this subdivision apply to Tribal
FQHCs enrolled under this paragraph, except those necessary to comply with federal
regulations. The commissioner shall establish an alternative payment method for Tribal
FQHCs enrolled under this paragraph that uses the same method and rates applicable to a
Tribal facility or health center that does not enroll as a Tribal FQHC.

Subd. 31. Medical supplies and equipment. (a) Medical assistance covers medical
supplies and equipment. Separate payment outside of the facility's payment rate shall be
made for wheelchairs and wheelchair accessories for recipients who are residents of
intermediate care facilities for the developmentally disabled. Reimbursement for wheelchairs
and wheelchair accessories for ICF/DD recipients shall be subject to the same conditions
and limitations as coverage for recipients who do not reside in institutions. A wheelchair
purchased outside of the facility's payment rate is the property of the recipient.

(b) Vendors of durable medical equipment, prosthetics, orthotics, or medical supplies
must enroll as a Medicare provider.
(c) When necessary to ensure access to durable medical equipment, prosthetics, orthotics, or medical supplies, the commissioner may exempt a vendor from the Medicare enrollment requirement if:

1. the vendor supplies only one type of durable medical equipment, prosthetic, orthotic, or medical supply;
2. the vendor serves ten or fewer medical assistance recipients per year;
3. the commissioner finds that other vendors are not available to provide same or similar durable medical equipment, prosthetics, orthotics, or medical supplies; and
4. the vendor complies with all screening requirements in this chapter and Code of Federal Regulations, title 42, part 455. The commissioner may also exempt a vendor from the Medicare enrollment requirement if the vendor is accredited by a Centers for Medicare and Medicaid Services approved national accreditation organization as complying with the Medicare program's supplier and quality standards and the vendor serves primarily pediatric patients.

2. is generally not useful in the absence of an illness, injury, or disability; and
3. is provided to correct or accommodate a physiological disorder or physical condition or is generally used primarily for a medical purpose.

(e) Electronic tablets may be considered durable medical equipment if the electronic tablet will be used as an augmentative and alternative communication system as defined under subdivision 31a, paragraph (a). To be covered by medical assistance, the device must be locked in order to prevent use not related to communication.

(f) Notwithstanding the requirement in paragraph (e) that an electronic tablet must be locked to prevent use not as an augmentative communication device, a recipient of waiver services may use an electronic tablet for a use not related to communication when the recipient has been authorized under the waiver to receive one or more additional applications that can be loaded onto the electronic tablet, such that allowing the additional use prevents the purchase of a separate electronic tablet with waiver funds.

(g) An order or prescription for medical supplies, equipment, or appliances must meet the requirements in Code of Federal Regulations, title 42, part 440.70.
(h) Allergen-reducing products provided according to subdivision 67, paragraph (c) or (d), shall be considered durable medical equipment.

(i) Seizure detection devices are covered as durable medical equipment under this subdivision if:

1. The seizure detection device is medically appropriate based on the recipient's medical condition or status; and

2. The recipient's health care provider has identified that a seizure detection device would:

   i. Likely assist in reducing bodily harm to or death of the recipient as a result of the recipient experiencing a seizure; or

   ii. Provide data to the health care provider necessary to appropriately diagnose or treat the recipient's health condition that causes the seizure activity.

(j) For purposes of paragraph (i), "seizure detection device" means a United States Food and Drug Administration approved monitoring device and any related service or subscription supporting the prescribed use of the device, including technology that:

1. Provides ongoing patient monitoring and alert services that detects nocturnal seizure activity and transmits notification of the seizure activity to a caregiver for appropriate medical response; or

Article 3 Sec. 38.
(2) develop and apply reasonable trend factors, including cost and utilization, to base data that are developed from actual experience of the medical assistance population or a similar population according to generally accepted actuarial practices and principles;

(3) develop the nonbenefit component of the rate to account for reasonable expenses related to the managed care organization's administration; taxes; licensing and regulatory fees; contribution to reserves; risk margin; cost of capital and other operational costs associated with the managed care organization's provision of covered services to enrollees;

(4) consider the value of cost sharing for rate development purposes, regardless of whether the managed care organization imposes the cost sharing on the enrollee or the cost sharing is collected by the provider;

(5) make appropriate and reasonable adjustments to account for changes to the base data, programmatic changes, changes to nonbenefit components, and any other adjustment necessary to establish actuarially sound rates. Each adjustment must reasonably support the development of an accurate base data set for purposes of rate setting, reflect the health status of the enrolled population, and be developed in accordance with generally accepted actuarial principles and practices;

(6) consider the managed care organization's past medical loss ratio in the development of the capitation rates and consider the projected medical loss ratio; and

(7) select a prospective or retrospective risk adjustment methodology that must be developed in a budget-neutral manner consistent with generally accepted actuarial principles and practices.

(b) The base data must be derived from the medical assistance population or, if data on the medical assistance population is not available, derived from a similar population and adjusted to make the utilization and price data comparable to the medical assistance population. Data must be in accordance with actuarial standards for data quality and an explanation of why that specific data is used must be provided in the rate certification. If the commissioner is unable to base the rates on data that are within the three most recent and complete years before the rating period, the commissioner may request an approval from the Centers for Medicare and Medicaid Services for an exception. The request must describe why an exception is necessary and describe the actions that the commissioner intends to take to comply with the request.

changes implemented must be reported to the chairs and ranking minority members of the legislative committees with jurisdiction over human services within 90 days.

Sec. 49. DENTAL HOME PILOT PROJECT.

Subdivision 1. Establishment; requirements. (a) The commissioner of human services shall establish a dental home pilot project to increase access of medical assistance and MinnesotaCare enrollees to dental care, improve patient experience, and improve oral health clinical outcomes, in a manner that sustains the financial viability of the dental workforce and broader dental care delivery and financing system. Dental homes must provide high-quality, patient-centered, comprehensive, and coordinated oral health services across clinical and community-based settings, including virtual oral health care.

(1) the timeline for project implementation;

(2) the length of each project phase and the date for full project implementation;

(3) the number of providers to be selected for participation;

(4) grant amounts;

(5) criteria and procedures for any value-based payments;

Under this phase, the commissioner shall provide grants to individual providers and provider networks in addition to medical assistance and MinnesotaCare payments received for services provided.

(d) The pilot project may test and analyze value-based payments to providers to determine whether varying payments based on dental home performance measures is appropriate and effective.

In selecting providers, the commissioner shall consider: geographic distribution; provider size, type, and location; providers serving different priority populations; health equity issues; and provider accessibility for patients with varying levels and types of disability.

Sec. 50. **SMALL EMPLOYER PUBLIC OPTION.**

The commissioner of human services, in consultation with representatives of small employers, shall develop a small employer public option that allows employees of businesses with fewer than 50 employees to receive employer contributions toward MinnesotaCare. The commissioner shall determine whether the employer makes contributions to the
commissioner directly or the employee makes contributions through a qualified small
employer health reimbursement arrangement account or other arrangement. In determining
the structure of the small employer public option, the commissioner shall consult with
federal officials to determine which arrangement will result in the employer contributions
being tax deductible to the employer and not being considered taxable income to the
employee. The commissioner shall present recommendations for a small employer public
option to the chairs and ranking minority members of the legislative committees with
jurisdiction over health and human services policy and finance by December 15, 2023.

EFFECTIVE DATE. This section is effective the day following final enactment.

implement this act.

(b) The commissioner shall present an implementation plan for the MinnesotaCare public
option under Minnesota Statutes, section 256L.04, subdivision 15, to the chairs and ranking
minority members of the legislative committees with jurisdiction over health care policy
and finance by December 15, 2023. The plan must include:

(1) recommendations for any changes to the MinnesotaCare public option necessary to
continue federal basic health program funding or to receive other federal funding;

(2) recommendations for implementing any small employer option in a manner that
would allow any employee payments toward premiums to be pretax;

(3) recommendations for ensuring sufficient provider participation in MinnesotaCare;

(4) estimates of state costs related to the MinnesotaCare public option;

(5) a description of the proposed premium scale for persons eligible through the public
option, including an analysis of the extent to which the proposed premium scale:

(i) ensures affordable premiums for persons across the income spectrum enrolled under
the public option; and

(ii) avoids premium cliffs for persons transitioning to and enrolled under the public
option; and
(6) draft legislation that includes any additional policy and conforming changes necessary to implement the MinnesotaCare public option and the implementation plan recommendations.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 52. REQUEST FOR FEDERAL APPROVAL.

(a) The commissioner of human services shall seek any federal waivers, approvals, and law changes necessary to implement this act, including but not limited to those waivers, approvals, and law changes necessary to allow the state to:

(1) continue receiving federal basic health program payments for basic health program-eligible MinnesotaCare enrollees and to receive other federal funding for the MinnesotaCare public option; and

(2) receive federal payments equal to the value of premium tax credits and cost-sharing reductions that MinnesotaCare enrollees with household incomes greater than 200 percent of the federal poverty guidelines would otherwise have received.

(b) In implementing this section, the commissioner of human services shall consult with the commissioner of commerce and the Board of Directors of MNsure and may contract for technical and actuarial assistance.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 53. DELIVERY REFORM ANALYSIS REPORT.

The report must compare the current delivery model with at least two alternative models. The alternative models must include a state-based model in which the state holds the plan risk as the insurer and may contract with a third-party administrator for claims processing and plan administration. The alternative models may include but are not limited to:

(1) expanding the use of integrated health partnerships under Minnesota Statutes, section 256B.0755.
(2) delivering care under fee-for-service through a primary care case management system; and

(3) continuing to contract with managed care and county-based purchasing plans for some or all enrollees under modified contracts.

(b) The report must include:

(1) a description of how each model would address:

(i) racial and other inequities in the delivery of health care and health care outcomes;

(ii) geographic inequities in the delivery of health care;

(iii) the provision of incentives for preventive care and other best practices;

(iv) reimbursement of providers for high-quality, value-based care at levels sufficient to sustain or increase enrollee access to care; and

(v) transparency and simplicity for enrollees, health care providers, and policymakers;

(2) a comparison of the projected cost of each model; and

(3) an implementation timeline for each model that includes the earliest date by which each model could be implemented if authorized during the 2024 legislative session and a discussion of barriers to implementation.

Sec. 54. RECOMMENDATIONS; OFFICE OF PATIENT PROTECTION.

(a) The commissioners of human services, health, and commerce and the MNsure board shall submit to the health care affordability board and the chairs and ranking minority members of the legislative committees with primary jurisdiction over health and human services finance and policy and commerce by January 15, 2023, a report on the organization and duties of the Office of Patient Protection, to be established under Minnesota Statutes, section 62J.89, subdivision 4. The report must include recommendations on how the office shall:

(1) coordinate or consolidate within the office existing state agency patient protection activities, including but not limited to the activities of ombudsman offices and the MNsure board;

(2) enforce standards and procedures under Minnesota Statutes, chapter 62M, for utilization review organizations;
(3) work with private sector and state agency consumer assistance programs to assist consumers with questions or concerns relating to public programs and private insurance coverage;

(4) establish and implement procedures to assist consumers aggrieved by restrictions on patient choice, denials of services, and reductions in quality of care resulting from any final action by a payer or provider; and

(5) make health plan company quality of care and patient satisfaction information and other information collected by the office readily accessible to consumers on the board's website.

(b) The commissioners and the MNsure board shall consult with stakeholders as they develop the recommendations. The stakeholders consulted must include but are not limited to organizations and individuals representing: underserved communities; persons with disabilities; low-income Minnesotans; senior citizens; and public and private sector health plan enrollees, including persons who purchase coverage through MNsure, health plan companies, and public and private sector purchasers of health coverage.

(b) The information clearinghouse or other entity designated by the commissioner for
the purposes of this subdivision shall not:

Subd. 2. Subsidized foster children. Medical assistance may be paid for a child eligible
for or receiving foster care maintenance payments under Title IV-E of the Social Security
Act, United States Code, title 42, sections 670 to 676, and for a child who is not eligible for
Title IV-E of the Social Security Act but who is determined eligible for foster
care as determined by Minnesota Statutes or kinship assistance under chapter 256N.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2020, section 256B.056, subdivision 3b, is amended to read:

Subd. 3b. Treatment of trusts. (a) It is the public policy of this state that individuals
use all available resources to pay for the cost of long-term care services, as defined in section
256B.0595, before turning to Minnesota health care program funds, and that trust instruments
should not be permitted to shield available resources of an individual or an individual's
spouse from such use.

(a) (b) A "medical assistance qualifying trust" is a revocable or irrevocable trust, or
similar legal device, established on or before August 10, 1993, by a person or the person's
spouse under the terms of which the person receives or could receive payments from the
trust principal or income and the trustee has discretion in making payments to the person
from the trust principal or income. Notwithstanding that definition, a medical assistance
qualifying trust does not include: (1) a trust set up by will; (2) a trust set up before April 7,
1986, solely to benefit a person with a developmental disability living in an intermediate
care facility for persons with developmental disabilities; or (3) a trust set up by a person
with payments made by the Social Security Administration pursuant to the United States Supreme Court decision in Sullivan v. Zebley, 110 S. Ct. 885 (1990). The maximum amount of payments that a trustee of a medical assistance qualifying trust may make to a person under the terms of the trust is considered to be available assets to the person, without regard to whether the trustee actually makes the maximum payments to the person and without regard to the purpose for which the medical assistance qualifying trust was established.

(b) Trusts established after August 10, 1993, are treated according to United States Code, title 42, section 1396p(d).

(c) For purposes of paragraph (d), a pooled trust means a trust established under United States Code, title 42, section 1396p(d)(4)(C).

(d) A beneficiary's interest in a pooled trust is considered an available asset unless the trust provides that upon the death of the beneficiary or termination of the trust during the beneficiary's lifetime, whichever is sooner, the department receives any amount, up to the amount of medical assistance benefits paid on behalf of the beneficiary, remaining in the beneficiary's trust account after a deduction for reasonable administrative fees and expenses, and an additional remainder amount. The retained remainder amount of the subaccount must not exceed ten percent of the account value at the time of the beneficiary's death or termination of the trust, and must only be used for the benefit of disabled individuals who have a beneficiary interest in the pooled trust.

(e) Trusts may be established on or after December 12, 2016, by a person who has been determined to be disabled, according to United States Code, title 42, section 1396p(d)(4)(A), as amended by section 5007 of the 21st Century Cures Act, Public Law 114-255.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2020, section 256B.056, subdivision 3c, is amended to read:

Subd. 3c. Asset limitations for families and children. (a) A household of two or more persons must not own more than $20,000 in total net assets, and a household of one person must not own more than $10,000 in total net assets. In addition to these maximum amounts, an eligible individual or family may accrue interest on these amounts, but they must be reduced to the maximum at the time of an eligibility redetermination. The value of assets that are not considered in determining eligibility for medical assistance for families and children is the value of those assets excluded under the AFDC state plan as of July 16, 1996,
as required by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), Public Law 104-193, with the following exceptions:

1. household goods and personal effects are not considered;
2. capital and operating assets of a trade or business up to $200,000 are not considered;
3. one motor vehicle is excluded for each person of legal driving age who is employed or seeking employment;
4. assets designated as burial expenses are excluded to the same extent they are excluded by the Supplemental Security Income program;
5. court-ordered settlements up to $10,000 are not considered;
6. individual retirement accounts and funds are not considered;
7. assets owned by children are not considered; and
8. effective July 1, 2009, certain assets owned by American Indians are excluded as required by section 5006 of the American Recovery and Reinvestment Act of 2009, Public Law 111-5. For purposes of this clause, an American Indian is any person who meets the definition of Indian according to Code of Federal Regulations, title 42, section 447.50.

(b) Beginning January 1, 2014, this subdivision applies only to parents and caretaker relatives who qualify for medical assistance under subdivision 5.

(c) Eligibility for children under age 21 must be determined without regard to the asset limitations described in paragraphs (a) and (b) and subdivision 3.

Sec. 5. Minnesota Statutes 2020, section 256B.056, subdivision 11, is amended to read:

Subd. 11. Treatment of annuities. (a) Any person requesting medical assistance payment of long-term care services shall provide a complete description of any interest either the person or the person's spouse has in annuities on a form designated by the department. The form shall include a statement that the state becomes a preferred remainder beneficiary of annuities or similar financial instruments by virtue of the receipt of medical assistance payment of long-term care services. The person and the person's spouse shall furnish the agency responsible for determining eligibility with complete current copies of their annuities and related documents and complete the form designating the state as the preferred remainder beneficiary for each annuity in which the person or the person's spouse has an interest.

(b) The department shall provide notice to the issuer of the department's right under this section as a preferred remainder beneficiary under the annuity or similar financial instrument
for medical assistance furnished to the person or the person's spouse, and provide notice of
the issuer's responsibilities as provided in paragraph (c).

(c) An issuer of an annuity or similar financial instrument who receives notice of the
state's right to be named a preferred remainder beneficiary as described in paragraph (b)
shall provide confirmation to the requesting agency that the state has been made a preferred
remainder beneficiary. The issuer shall also notify the county agency when a change in the
amount of income or principal being withdrawn from the annuity or other similar financial
instrument or a change in the state's preferred remainder beneficiary designation under the
annuity or other similar financial instrument occurs. The county agency shall provide the
issuer with the name, address, and telephone number of a unit within the department that
the issuer can contact to comply with this paragraph.

(d) "Preferred remainder beneficiary" for purposes of this subdivision and sections
256B.0594 and 256B.0595 means the state is a remainder beneficiary in the first position
in an amount equal to the amount of medical assistance paid on behalf of the institutionalized
person, or is a remainder beneficiary in the second position if the institutionalized person
designates and is survived by a remainder beneficiary who is (1) a spouse who does not
reside in a medical institution, (2) a minor child, or (3) a child of any age who is blind or
permanently and totally disabled as defined in the Supplemental Security Income program.
Notwithstanding this paragraph, the state is the remainder beneficiary in the first position
if the spouse or child disposes of the remainder for less than fair market value.

(e) For purposes of this subdivision, "institutionalized person" and "long-term care
services" have the meanings given in section 256B.0595, subdivision 1, paragraph (g) (f).

(f) For purposes of this subdivision, "medical institution" means a skilled nursing facility,
intermediate care facility, intermediate care facility for persons with developmental
disabilities, nursing facility, or inpatient hospital.

Sec. 6. Minnesota Statutes 2020, section 256B.0595, subdivision 1, is amended to read:

Subdivision 1. Prohibited transfers. (a) Effective for transfers made after August 10,
1993, an institutionalized person, an institutionalized person's spouse, or any person, court,
or administrative body with legal authority to act in place of, on behalf of, at the direction
of, or upon the request of the institutionalized person or institutionalized person's spouse,
may not give away, sell, or dispose of, for less than fair market value, any asset or interest
therein, except assets other than the homestead that are excluded under the Supplemental
Security Income program, for the purpose of establishing or maintaining medical assistance
eligibility. This applies to all transfers, including those made by a community spouse after
the month in which the institutionalized spouse is determined eligible for medical assistance.

For purposes of determining eligibility for long-term care services, any transfer of such assets within 36 months before or any time after an institutionalized person requests medical assistance payment of long-term care services, or 36 months before or any time after a medical assistance recipient becomes an institutionalized person, for less than fair market value may be considered. Any such transfer is presumed to have been made for the purpose of establishing or maintaining medical assistance eligibility and the institutionalized person is ineligible for long-term care services for the period of time determined under subdivision 2, unless the institutionalized person furnishes convincing evidence to establish that the transaction was exclusively for another purpose, or unless the transfer is permitted under subdivision 3 or 4. In the case of payments from a trust or portions of a trust that are considered transfers of assets under federal law, or in the case of any other disposal of assets made on or after February 8, 2006, any transfers made within 60 months before or any time after an institutionalized person requests medical assistance payment of long-term care services and within 60 months before or any time after a medical assistance recipient becomes an institutionalized person, may be considered.

(b) This section applies to transfers, for less than fair market value, of income or assets, including assets that are considered income in the month received, such as inheritances, court settlements, and retroactive benefit payments or income to which the institutionalized person or the institutionalized person's spouse is entitled but does not receive due to action by the institutionalized person, the institutionalized person's spouse, or any person, court, or administrative body with legal authority to act in place of, on behalf of, at the direction of, or upon the request of the institutionalized person or the institutionalized person's spouse.

(c) This section applies to payments for care or personal services provided by a relative, unless the compensation was stipulated in a notarized, written agreement in existence when the service was performed, the care or services directly benefited the person, and the payments made represented reasonable compensation for the care or services provided. A notarized written agreement is not required if payment for the services was made within 60 days after the service was provided.

(d) This section applies to the portion of any asset or interest that an institutionalized person, an institutionalized person's spouse, or any person, court, or administrative body with legal authority to act in place of, on behalf of, at the direction of, or upon the request of the institutionalized person or the institutionalized person's spouse, transfers to any annuity that exceeds the value of the benefit likely to be returned to the institutionalized person or institutionalized person's spouse while alive, based on estimated life expectancy.
as determined according to the current actuarial tables published by the Office of the Chief
Actuary of the Social Security Administration. The commissioner may adopt rules reducing
life expectancies based on the need for long-term care. This section applies to an annuity
purchased on or after March 1, 2002, that:

(1) is not purchased from an insurance company or financial institution that is subject
to licensing or regulation by the Minnesota Department of Commerce or a similar regulatory
agency of another state;

(2) does not pay out principal and interest in equal monthly installments; or

(3) does not begin payment at the earliest possible date after annuitization.

(e) (d) Effective for transactions, including the purchase of an annuity, occurring on or
after February 8, 2006, by or on behalf of an institutionalized person who has applied for
or is receiving long-term care services or the institutionalized person's spouse shall be treated
as the disposal of an asset for less than fair market value unless the department is named a
preferred remainder beneficiary as described in section 256B.056, subdivision 11. Any
subsequent change to the designation of the department as a preferred remainder beneficiary
shall result in the annuity being treated as a disposal of assets for less than fair market value.

The amount of such transfer shall be the maximum amount the institutionalized person or
the institutionalized person's spouse could receive from the annuity or similar financial
instrument. Any change in the amount of the income or principal being withdrawn from the
annuity or other similar financial instrument at the time of the most recent disclosure shall
be deemed to be a transfer of assets for less than fair market value unless the institutionalized
person or the institutionalized person's spouse demonstrates that the transaction was for fair
market value. In the event a distribution of income or principal has been improperly
distributed or disbursed from an annuity or other retirement planning instrument of an
institutionalized person or the institutionalized person's spouse, a cause of action exists
against the individual receiving the improper distribution for the cost of medical assistance
services provided or the amount of the improper distribution, whichever is less.

(f) (e) Effective for transactions, including the purchase of an annuity, occurring on or
after February 8, 2006, by or on behalf of an institutionalized person applying for or receiving
long-term care services shall be treated as a disposal of assets for less than fair market value
unless it is:

(1) an annuity described in subsection (b) or (q) of section 408 of the Internal Revenue
Code of 1986; or

(2) purchased with proceeds from:
(i) an account or trust described in subsection (a), (c), or (p) of section 408 of the Internal Revenue Code;

(ii) a simplified employee pension within the meaning of section 408(k) of the Internal Revenue Code; or

(iii) a Roth IRA described in section 408A of the Internal Revenue Code; or

(3) an annuity that is irrevocable and nonassignable; is actuarially sound as determined in accordance with actuarial publications of the Office of the Chief Actuary of the Social Security Administration; and provides for payments in equal amounts during the term of the annuity, with no deferral and no balloon payments made.

7. the current or expected dollar value of drug-specific patient access programs supported by manufacturers;
8. the relative financial impacts to health, medical, or other social services costs that can be quantified and compared to baseline effects of existing therapeutic alternatives;
9. the average patient co-pay or other cost-sharing for the prescription drug product in the state;
10. any information a manufacturer chooses to provide; and
Any other factors as determined by the board.

Subd. 3. Further review factors. If, after considering the factors described in subdivision 2, the board is unable to determine whether a prescription drug product will produce or has produced an affordability challenge, the board may consider:

1. manufacturer research and development costs, as indicated on the manufacturer's federal tax filing for the most recent tax year, in proportion to the manufacturer's sales in the state;

2. the portion of direct-to-consumer marketing costs eligible for favorable federal tax treatment in the most recent tax year that is specific to the prescription drug product under review, multiplied by the ratio of total manufacturer in-state sales to total manufacturer sales in the United States for the product under review;

3. gross and net manufacturer revenues for the most recent tax year;

4. any information and research related to the manufacturer's selection of the introductory price or price increase, including but not limited to:
   i. life cycle management;
   ii. market competition and context; and
   iii. projected revenue; and

5. any additional factors determined by the board to be relevant.

Subd. 4. Public data; proprietary information. (a) Any submission made to the board related to a drug cost review must be made available to the public with the exception of information determined by the board to be proprietary.

(b) The board shall establish the standards for the information to be considered proprietary under paragraph (a) and section 62J.90, subdivision 2, including standards for heightened consideration of proprietary information for submissions for a cost review of a drug that is not yet approved by the FDA.

(c) Prior to the board establishing the standards under paragraph (b), the public must be provided notice and the opportunity to submit comments.

Sec. 36. [62J.92] DETERMINATIONS; COMPLIANCE; REMEDIES.

Subdivision 1. Upper payment limit. (a) In the event the board finds that the spending on a prescription drug product reviewed under section 62J.91 creates an affordability
challenge for the state health care system or for patients, the board shall establish an upper
payment limit after considering:

(1) the cost of administering the drug;

(2) the cost of delivering the drug to consumers;

(3) the range of prices at which the drug is sold in the United States according to one or
more pricing files accessed under section 62J.90, subdivision 1, and the range at which
pharmacies are reimbursed in Canada; and

(4) any other relevant pricing and administrative cost information for the drug.

(b) The upper payment limit must apply to all public and private purchases, payments,
and payer reimbursements for the prescription drug products received by an individual in
the state in person, by mail, or by other means.

Subd. 2. Noncompliance. (a) The failure of an entity to comply with an upper payment
limit established by the board under this section shall be referred to the Office of the Attorney
General.

(b) If the Office of the Attorney General finds that an entity was noncompliant with the
upper payment limit requirements, the attorney general may pursue remedies consistent
with chapter 8 or appropriate criminal charges if there is evidence of intentional profiteering.

(c) An entity that obtains price concessions from a drug manufacturer that result in a
lower net cost to the stakeholder than the upper payment limit established by the board must
not be considered to be in noncompliance.

(d) The Office of the Attorney General may provide guidance to stakeholders concerning
activities that could be considered noncompliant.

Subd. 3. Appeals. (a) Persons affected by a decision of the board may request an appeal
of the board's decision within 30 days of the date of the decision. The board shall hear the
appeal and render a decision within 60 days of the hearing.

(b) All appeal decisions are subject to judicial review in accordance with chapter 14.

Sec. 37. [62J.93] REPORTS.

Beginning March 1, 2023, and each March 1 thereafter, the board shall submit a report
to the governor and legislature on general price trends for prescription drug products and
the number of prescription drug products that were subject to the board's cost review and
analysis, including the result of any analysis and the number and disposition of appeals and
judicial reviews.

Sec. 38. [62J.94] ERISA PLANS AND MEDICARE DRUG PLANS.

(a) Nothing in sections 62J.85 to 62J.95 shall be construed to require ERISA plans or
Medicare Part D plans to comply with decisions of the board. ERISA plans or Medicare
Part D plans may choose to exceed the upper payment limit established by the board under
section 62J.92.

(b) Providers who dispense and administer drugs in the state must bill all payers no more
than the upper payment limit without regard to whether or not an ERISA plan or Medicare
Part D plan chooses to reimburse the provider in an amount greater than the upper payment
limit established by the board.

(c) For purposes of this section, an ERISA plan or group health plan is an employee
welfare benefit plan established or maintained by an employer or an employee organization,
or both, that provides employer sponsored health coverage to employees and the employee's
dependents and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Sec. 39. [62J.95] SEVERABILITY.

If any provision of sections 62J.85 to 62J.94 or the application thereof to any person or
circumstance is held invalid for any reason in a court of competent jurisdiction, the invalidity
does not affect other provisions or any other application of sections 62J.85 to 62J.94 that
can be given effect without the invalid provision or application.

Sec. 40. [62Q.1842] PROHIBITION ON USE OF STEP THERAPY FOR
ANTIRETROVIRAL DRUGS.

Subdivision 1. Definitions. (a) For purposes of this section, the following definitions
apply.

(b) "Health plan" has the meaning given in section 62Q.01, subdivision 3, and includes
health coverage provided by a managed care plan or a county-based purchasing plan
participating in a public program under chapter 256B or 256L or an integrated health
partnership under section 256B.0755.

(c) "Step therapy protocol" has the meaning given in section 62Q.184.

Subd. 2. Prohibition on use of step therapy protocols. A health plan that covers
antiretroviral drugs that are medically necessary for the prevention of HIV/AIDS, including
preexposure prophylaxis and postexposure prophylaxis, must not limit or exclude coverage
for the antiretroviral drugs by requiring prior authorization or by requiring an enrollee to
follow a step therapy protocol.

Sec. 41. [62Q.481] COST-SHARING FOR PRESCRIPTION DRUGS AND RELATED
MEDICAL SUPPLIES TO TREAT CHRONIC DISEASE.

Subdivision 1. Cost-sharing limits. (a) A health plan must limit the amount of any
enrollee cost-sharing for prescription drugs prescribed to treat a chronic disease to no more
than $25 per one-month supply for each prescription drug and to no more than $50 per
month in total for all related medical supplies. Coverage under this section must not be
subject to any deductible.

(b) If application of this section before an enrollee has met their plan's deductible would
result in health savings account ineligibility under United States Code, title 26, section 223,
then this section must apply to that specific prescription drug or related medical supply only
after the enrollee has met their plan's deductible.

Subd. 2. Definitions. (a) For purposes of this section, the following terms have the
meanings given.

(b) "Chronic disease" means diabetes, asthma, and allergies requiring the use of
epinephrine auto-injectors.

(c) "Cost-sharing" means co-payments and coinsurance.

(d) "Related medical supplies" means syringes, insulin pens, insulin pumps, epinephrine
auto-injectors, test strips, glucometers, continuous glucose monitors, and other medical
supply items necessary to effectively and appropriately administer a prescription drug
prescribed to treat a chronic disease.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health
plans offered, issued, or renewed on or after that date.

Sec. 42. [62Q.524] COVERAGE FOR DRUGS TO PREVENT THE ACQUISITION
OF HUMAN IMMUNODEFICIENCY VIRUS.

(a) A health plan that provides prescription drug coverage must provide coverage in
accordance with this section for:

(1) any antiretroviral drug approved by the United States Food and Drug Administration
(FDA) for preventing the acquisition of human immunodeficiency virus (HIV) that is
prescribed, dispensed, or administered by a pharmacist who meets the requirements described in section 151.37, subdivision 17; and

(2) any laboratory testing necessary for therapy that uses the drugs described in clause (1) that is ordered, performed, and interpreted by a pharmacist who meets the requirements described in section 151.37, subdivision 17.

(b) A health plan must provide the same terms of prescription drug coverage for drugs to prevent the acquisition of HIV that are prescribed or administered by a pharmacist if the pharmacist meets the requirements described in section 151.37, subdivision 17, as would apply had the drug been prescribed or administered by a physician, physician assistant, or advanced practice registered nurse. The health plan may require pharmacists or pharmacies to meet reasonable medical management requirements when providing the services described in paragraph (a) if other providers are required to meet the same requirements.

(c) A health plan must reimburse an in-network pharmacist or pharmacy for the drugs and testing described in paragraph (a) at a rate equal to the rate of reimbursement provided to a physician, physician assistant, or advanced practice registered nurse if providing similar services.

(d) A health plan is not required to cover the drugs and testing described in paragraph (a) if provided by a pharmacist or pharmacy that is out-of-network unless the health plan covers similar services provided by out-of-network providers. A health plan must ensure that the health plan's provider network includes in-network pharmacies that provide the services described in paragraph (a).

Sec. 43. PRESCRIPTION DRUG BENEFIT TRANSPARENCY AND MANAGEMENT.

Subdivision 1. Definitions. (a) For purposes of this section, the following terms have the meanings given.

(b) "Drug" has the meaning given in section 151.01, subdivision 5.

(c) "Enrollee contract term" means the 12-month term during which benefits associated with health plan company products are in effect. For managed care plans and county-based purchasing plans under section 256B.69 and chapter 256L, enrollee contract term means a single calendar quarter.

(d) "Formulary" means a list of prescription drugs developed by clinical and pharmacy experts that represents the health plan company's medically appropriate and cost-effective prescription drugs approved for use.
(e) "Health plan company" has the meaning given in section 62Q.01, subdivision 4, and includes an entity that performs pharmacy benefits management for the health plan company. For purposes of this paragraph, "pharmacy benefits management" means the administration or management of prescription drug benefits provided by the health plan company for the benefit of the plan's enrollees and may include but is not limited to procurement of prescription drugs, clinical formulary development and management services, claims processing, and rebate contracting and administration.

(f) "Prescription" has the meaning given in section 151.01, subdivision 16a.

Subd. 2. Prescription drug benefit disclosure. (a) A health plan company that provides prescription drug benefit coverage and uses a formulary must make the plan's formulary and related benefit information available by electronic means and, upon request, in writing at least 30 days before annual renewal dates.

(b) Formularies must be organized and disclosed consistent with the most recent version of the United States Pharmacopeia's (USP) Model Guidelines.

(c) For each item or category of items on the formulary, the specific enrollee benefit terms must be identified, including enrollee cost-sharing and expected out-of-pocket costs.

Subd. 3. Formulary changes. (a) Once a formulary has been established, a health plan company may, at any time during the enrollee's contract term:

(1) expand its formulary by adding drugs to the formulary;

(2) reduce co-payments or coinsurance; or

(3) move a drug to a benefit category that reduces an enrollee's cost.

(b) A health plan company may remove a brand name drug from the plan's formulary or place a brand name drug in a benefit category that increases an enrollee's cost only upon the addition to the formulary of a generic or multisource brand name drug rated as therapeutically equivalent according to the FDA Orange Book or a biologic drug rated as interchangeable according to the FDA Purple Book at a lower cost to the enrollee, and upon at least a 60-day notice to prescribers, pharmacists, and affected enrollees.

(c) A health plan company may change utilization review requirements or move drugs to a benefit category that increases an enrollee's cost during the enrollee's contract term upon at least a 60-day notice to prescribers, pharmacists, and affected enrollees, provided that these changes do not apply to enrollees who are currently taking the drugs affected by these changes for the duration of the enrollee's contract term.
(d) A health plan company may remove any drugs from the plan's formulary that have
been deemed unsafe by the Food and Drug Administration; that have been withdrawn by
either the Food and Drug Administration or the product manufacturer; or when an
independent source of research, clinical guidelines, or evidence-based standards has issued
drug-specific warnings or recommended changes in drug usage.

(e) The state employee group insurance program and coverage offered through that
program are exempt from the requirements of this subdivision.

Subd. 4. Not severable. (a) The provisions of this section are not severable from the
amendments and enactments in this act to sections 62A.02, subdivision 1; 62J.84,
subdivisions 2, 6, 7, 8, and 9; 62J.841; and 151.071, subdivision 2.

(b) If any amendment or enactment listed in paragraph (a) or its application to any
individual, entity, or circumstance is found to be void for any reason, this section is also
void.

EFFECTIVE DATE. This section is effective January 1, 2024, and applies to health
plans offered, sold, issued, or renewed on or after that date.

Sec. 44. [62W.0751] ALTERNATIVE BIOLOGICAL PRODUCTS.

subdivision 41.

(e) "Reference biological product" has the meaning given in section 151.01, subdivision
44.

Subd. 2. Pharmacy and provider choice related to dispensing reference biological
products, interchangeable biological products, or biosimilar products. (a) Except as
provided in paragraphs (b) and (c), a pharmacy benefit manager or health carrier must not
require or demonstrate a preference for a reference biological product administered to a
patient by a physician or health care provider or any product that is biosimilar or
interchangeable to the reference biological product administered to a patient by a physician
or health care provider.
(b) If a pharmacy benefit manager or health carrier elects coverage of a product listed
in paragraph (a), and there are two or less biosimilar or interchangeable biological products
available relative to the reference product, the pharmacy benefit manager or health carrier
must elect equivalent coverage for all of the products that are biosimilar or interchangeable
to the reference biological product.

(c) If a pharmacy benefit manager or health carrier elects coverage of a product listed
in paragraph (a), and there are greater than two biosimilar or interchangeable biological
products available relative to the reference product, the pharmacy benefit manager or health
carrier must elect preferential coverage for all of the products that are biosimilar or
interchangeable to the reference biological product.

(d) A pharmacy benefit manager or health carrier must not impose limits on access to a
product required to be covered under paragraph (b) that are more restrictive than limits
imposed on access to a product listed in paragraph (a), or that otherwise have the same
effect as giving preferred status to a product listed in paragraph (a) over the product required
to be covered under paragraph (b).

(e) This section only applies to new administrations of a reference biological product.

Nothing in this section requires switching from a prescribed reference biological product
for a patient on an active course of treatment.

Subd. 3. Exemption. The state employee group insurance program, and coverage offered
through that program, are exempt from the requirements of this section.

EFFECTIVE DATE. This section is effective January 1, 2023.

by a health care provider authorized to administer the drug, including when acting under a physician's delegation and supervision; and

(ii) in a physician's office, hospital outpatient infusion center, or other clinical setting.

Subd. 2. Prohibition on requiring coverage as a pharmacy benefit. A pharmacy benefit manager or health carrier shall not require that a clinician-administered drug or the administration of a clinician-administered drug be covered as a pharmacy benefit.

Subd. 3. Enrollee choice. A pharmacy benefit manager or health carrier:

1. shall permit an enrollee to obtain a clinician-administered drug from a health care provider authorized to administer the drug, or a pharmacy;

3. shall not require clinician-administered drugs to be dispensed by a pharmacy selected by the pharmacy benefit manager or health carrier; and

4. shall not limit or exclude coverage for a clinician-administered drug when it is not dispensed by a pharmacy selected by the pharmacy benefit manager or health carrier, if the drug would otherwise be covered.

Subd. 4. Cost-sharing and reimbursement. A pharmacy benefit manager or health carrier:

1. may impose coverage or benefit limitations on an enrollee who obtains a clinician-administered drug from a health care provider authorized to administer the drug, or a pharmacy, only if these limitations would also be imposed were the drug to be obtained from an affiliated pharmacy or a pharmacy selected by the pharmacy benefit manager or health carrier; and

2. may impose cost-sharing requirements on an enrollee who obtains a clinician-administered drug from a health care provider authorized to administer the drug, or a pharmacy, only if these requirements would also be imposed were the drug to be obtained from an affiliated pharmacy or a pharmacy selected by the pharmacy benefit manager or health carrier.

Subd. 5. Other requirements. A pharmacy benefit manager or health carrier:

1. shall not require or encourage the dispensing of a clinician-administered drug to an enrollee in a manner that is inconsistent with the supply chain security controls and chain
of distribution set by the federal Drug Supply Chain Security Act, United States Code, title
21, section 360eee, et seq.;

(2) shall not require a specialty pharmacy to dispense a clinician-administered medication
directly to a patient with the intention that the patient will transport the medication to a
health care provider for administration; and

(3) may offer, but shall not require:

(i) the use of a home infusion pharmacy to dispense or administer clinician-administered
drugs to enrollees; and

(ii) the use of an infusion site external to the enrollee's provider office or clinic.

Sec. 51. Minnesota Statutes 2020, section 151.071, subdivision 2, is amended to read:

Subd. 2. **Grounds for disciplinary action.** The following conduct is prohibited and is grounds for disciplinary action:

1. failure to demonstrate the qualifications or satisfy the requirements for a license or registration contained in this chapter or the rules of the board. The burden of proof is on the applicant to demonstrate such qualifications or satisfaction of such requirements;

Conduct that subverts or attempts to subvert the licensing examination process includes, but is not limited to: (i) conduct that violates the security of the examination materials, such as removing examination materials from the examination room or having unauthorized possession of any portion of a future, current, or previously administered licensing examination; (ii) conduct that violates the standard of test administration, such as communicating with another examinee during administration of the examination, copying another examinee's answers, permitting another examinee to copy one's answers, or possessing unauthorized materials; or (iii) impersonating an examinee or permitting an impersonator to take the examination on one's own behalf;

(3) for a pharmacist, pharmacy technician, pharmacist intern, applicant for a pharmacist or pharmacy license, or applicant for a pharmacy technician or pharmacist intern registration, conviction of a felony reasonably related to the practice of pharmacy. Conviction as used in this subdivision includes a conviction of an offense that if committed in this state would be deemed a felony without regard to its designation elsewhere, or a criminal proceeding where a finding or verdict of guilt is made or returned but the adjudication of guilt is either withheld or not entered thereon. The board may delay the issuance of a new license or registration if the applicant has been charged with a felony until the matter has been adjudicated;

(i) revocation, suspension, restriction, limitation, or other disciplinary action against a license or registration in another state or jurisdiction, failure to report to the board that charges or allegations regarding the person's license or registration have been brought in another state or jurisdiction, or having been refused a license or registration by any other
state or jurisdiction. The board may delay the issuance of a new license or registration if an
investigation or disciplinary action is pending in another state or jurisdiction until the
investigation or action has been dismissed or otherwise resolved; and

(ii) revocation, suspension, restriction, limitation, or other disciplinary action against a
license or registration issued by another of this state's health licensing agencies, failure to
report to the board that charges regarding the person's license or registration have been
brought by another of this state's health licensing agencies, or having been refused a license
or registration by another of this state's health licensing agencies. The board may delay the
issuance of a new license or registration if a disciplinary action is pending before another

(1) the donation is accompanied by a drug medication repository donor form described under paragraph (d) that is signed by an individual who is authorized by the donor to attest to the donor's knowledge in accordance with paragraph (d);

(2) the drug's expiration date is at least six months after the date the drug was donated. extent reasonably possible in the professional judgment of the pharmacist or practitioner,
that the drug or supply is not adulterated or misbranded, has not been tampered with, is safe
and suitable for dispensing, has not been subject to a recall, and meets the requirements for
donation. The pharmacist or practitioner who inspects the drugs or supplies shall sign an
inspection record stating that the requirements for donation have been met. If a local
repository receives drugs and supplies from the central repository, the local repository does
not need to reinspect the drugs and supplies.

(b) The central repository and local repositories shall store donated drugs and supplies
in a secure storage area under environmental conditions appropriate for the drug or supply
being stored. Donated drugs and supplies may not be stored with nondonated inventory.

(c) The central repository and local repositories shall dispose of all prescription drugs
and medical supplies that are not suitable for donation in compliance with applicable federal
and state statutes, regulations, and rules concerning hazardous waste.

(d) In the event that controlled substances or prescription drugs that can only be dispensed
to a patient registered with the drug's manufacturer are shipped or delivered to a central or
local repository for donation, the shipment delivery must be documented by the repository
and returned immediately to the donor or the donor's representative that provided the drugs.

(e) Each repository must develop drug and medical supply recall policies and procedures.
If a repository receives a recall notification, the repository shall destroy all of the drug or
medical supply in its inventory that is the subject of the recall and complete a record of
destruction form in accordance with paragraph (f). If a drug or medical supply that is the
subject of a Class I or Class II recall has been dispensed, the repository shall immediately
notify the recipient of the recalled drug or medical supply. A drug that potentially is subject
to a recall need not be destroyed if its packaging bears a lot number and that lot of the drug
is not subject to the recall. If no lot number is on the drug's packaging, it must be destroyed.

(f) A record of destruction of donated drugs and supplies that are not dispensed under
subdivision 8, are subject to a recall under paragraph (e), or are not suitable for donation
shall be maintained by the repository for at least two years. For each drug or supply destroyed,
the record shall include the following information:

1. the date of destruction;
2. the name, strength, and quantity of the drug destroyed; and
3. the name of the person or firm that destroyed the drug.

Subd. 8. Dispensing requirements. (a) Donated drugs and supplies may be dispensed
if the drugs or supplies are prescribed by a practitioner for use by an eligible individual and
are dispensed by a pharmacist or practitioner. A repository shall dispense drugs and supplies
to eligible individuals in the following priority order: (1) individuals who are uninsured;
(2) individuals with no prescription drug coverage; and (3) individuals who are underinsured.
A repository shall dispense donated prescription drugs in compliance with applicable federal and state laws and regulations for dispensing prescription drugs, including all requirements relating to packaging, labeling, record keeping, drug utilization review, and patient counseling.

(b) Before dispensing or administering a drug or supply, the pharmacist or practitioner shall visually inspect the drug or supply for adulteration, misbranding, tampering, and date of expiration. Drugs or supplies that have expired or appear upon visual inspection to be adulterated, misbranded, or tampered with in any way must not be dispensed or administered.

c) Before a drug or supply is dispensed or administered to an individual, the individual must sign a drug repository recipient form acknowledging that the individual understands the information stated on the form. The board shall develop the form and make it available on the board’s website. The form must include the following information:

(1) that the drug or supply being dispensed or administered has been donated and may have been previously dispensed;

(2) that a visual inspection has been conducted by the pharmacist or practitioner to ensure that the drug or supply has not expired, has not been adulterated or misbranded, and is in its original, unopened packaging; and

(3) that the dispensing pharmacist, the dispensing or administering practitioner, the central repository or local repository, the Board of Pharmacy, and any other participant of the drug medication repository program cannot guarantee the safety of the drug or medical supply being dispensed or administered and that the pharmacist or practitioner has determined that the drug or supply is safe to dispense or administer based on the accuracy of the donor’s form submitted with the donated drug or medical supply and the visual inspection required to be performed by the pharmacist or practitioner before dispensing or administering.

Subd. 9. Handling fees. (a) The central or local repository may charge the individual receiving a drug or supply a handling fee of no more than 250 percent of the medical assistance program dispensing fee for each drug or medical supply dispensed or administered by that repository.

(b) A repository that dispenses or administers a drug or medical supply through the drug repository program shall not receive reimbursement under the medical assistance program or the MinnesotaCare program for that dispensed or administered drug or supply.
Subd. 10. Distribution of donated drugs and supplies. (a) The central repository and local repositories may distribute drugs and supplies donated under the drug repository program to other participating repositories for use pursuant to this program.

(b) A local repository that elects not to dispense donated drugs or supplies must transfer all donated drugs and supplies to the central repository. A copy of the donor form that was completed by the original donor under subdivision 6 must be provided to the central repository at the time of transfer.

Subd. 11. Forms and record-keeping requirements. (a) The following forms developed for the administration of this program shall be utilized by the participants of the program and shall be available on the board's website:

1. intake application form described under subdivision 5;
2. local repository participation form described under subdivision 4;
3. local repository withdrawal form described under subdivision 4;
4. drug medication repository donor form described under subdivision 6;
5. record of destruction form described under subdivision 7; and
6. drug medication repository recipient form described under subdivision 8.

(b) All records, including drug inventory, inspection, and disposal of donated prescription drugs and medical supplies, must be maintained by a repository for a minimum of two years. Records required as part of this program must be maintained pursuant to all applicable practice acts.

(c) Data collected by the drug medication repository program from all local repositories shall be submitted quarterly or upon request to the central repository. Data collected may consist of the information, records, and forms required to be collected under this section.

(d) The central repository shall submit reports to the board as required by the contract or upon request of the board.

Subd. 12. Liability. (a) The manufacturer of a drug or supply is not subject to criminal or civil liability for injury, death, or loss to a person or to property for causes of action described in clauses (1) and (2). A manufacturer is not liable for:

1. the intentional or unintentional alteration of the drug or supply by a party not under the control of the manufacturer; or
(2) the failure of a party not under the control of the manufacturer to transfer or
communicate product or consumer information or the expiration date of the donated drug
or supply.

(b) A health care facility participating in the program, a pharmacist dispensing a drug
or supply pursuant to the program, a practitioner dispensing or administering a drug or
supply pursuant to the program, or a donor of a drug or medical supply is immune from
civil liability for an act or omission that causes injury to or the death of an individual to
whom the drug or supply is dispensed and no disciplinary action by a health-related licensing
board shall be taken against a pharmacist or practitioner so long as the drug or supply is
donated, accepted, distributed, and dispensed according to the requirements of this section.

This immunity does not apply if the act or omission involves reckless, wanton, or intentional
misconduct, or malpractice unrelated to the quality of the drug or medical supply.

Subd. 13. **Drug returned for credit.** Nothing in this section allows a long-term care
facility to donate a drug to a central or local repository when federal or state law requires
the drug to be returned to the pharmacy that initially dispensed it, so that the pharmacy can
credit the payer for the amount of the drug returned.

Subd. 14. **Cooperation.** The central repository, as approved by the Board of Pharmacy,
may enter into an agreement with another state that has an established drug repository or
drug donation program if the other state's program includes regulations to ensure the purity,
integrity, and safety of the drugs and supplies donated, to permit the central repository to
offer to another state program inventory that is not needed by a Minnesota resident and to
accept inventory from another state program to be distributed to local repositories and
dispensed to Minnesota residents in accordance with this program.

Subd. 15. **Funding.** The central repository may seek grants and other funds from nonprofit
charitable organizations, the federal government, and other sources to fund the ongoing
operations of the medication repository program.

Sec. 56. Minnesota Statutes 2020, section 152.125, is amended to read:

**152.125 INTRACTABLE PAIN.**

Subdivision 1. **Definition Definitions.** (a) For purposes of this section, the terms in this
subdivision have the meanings given.

(b) "Drug diversion" means the unlawful transfer of prescription drugs from their licit
medical purpose to the illicit marketplace.
"Intractable pain" means a pain state in which the cause of the pain cannot be removed or otherwise treated with the consent of the patient and in which, in the generally accepted course of medical practice, no relief or cure of the cause of the pain is possible, or none has been found after reasonable efforts. Examples of conditions associated with intractable pain sometimes but do not always include cancer and the recovery period, sickle cell disease, noncancer pain, rare diseases, orphan diseases, severe injuries, and health conditions requiring the provision of palliative care or hospice care. Reasonable efforts for relieving or curing the cause of the pain may be determined on the basis of, but are not limited to, the following:

1. when treating a nonterminally ill patient for intractable pain, an evaluation conducted by the attending physician and one or more physicians specializing in pain medicine or the treatment of the area, system, or organ of the body confirmed or perceived as the source of the intractable pain; or
2. when treating a terminally ill patient, an evaluation conducted by the attending physician who does so in accordance with the standard of care and the level of care, skill, and treatment that would be recognized by a reasonably prudent physician under similar conditions and circumstances.

"Palliative care" has the meaning provided in section 144A.75, subdivision 12.

"Rare disease" means a disease, disorder, or condition that affects fewer than 200,000 individuals in the United States and is chronic, serious, life altering, or life threatening.

Subd. 1a. Criteria for the evaluation and treatment of intractable pain. The evaluation and treatment of intractable pain when treating a nonterminally ill patient is governed by the following criteria:

1. a diagnosis of intractable pain by the treating physician and either by a physician specializing in pain medicine or a physician treating the area, system, or organ of the body that is the source of the pain is sufficient to meet the definition of intractable pain; and
2. the cause of the diagnosis of intractable pain must not interfere with medically necessary treatment including but not limited to prescribing or administering a controlled substance in Schedules II to V of section 152.02.

Subd. 2. Prescription and administration of controlled substances for intractable pain. (a) Notwithstanding any other provision of this chapter, a physician, advanced practice registered nurse, or physician assistant may prescribe or administer a controlled substance in Schedules II to V of section 152.02 to an individual in the course of the physician's, advanced practice registered nurse's, or physician assistant's treatment of the
individual patient for a diagnosed condition causing intractable pain. No physician, advanced practice registered nurse, or physician assistant shall be subject to disciplinary action by the Board of Medical Practice or Board of Nursing for appropriately prescribing or administering a controlled substance in Schedules II to V of section 152.02 in the course of treatment of an individual patient for intractable pain, provided the physician, advanced practice registered nurse, or physician assistant:

(1) keeps accurate records of the purpose, use, prescription, and disposal of controlled substances, writes accurate prescriptions, and prescribes medications in conformance with chapter 147, or 148 or in accordance with the current standard of care; and

(2) enters into a patient-provider agreement that meets the criteria in subdivision 5.

(b) No physician, advanced practice registered nurse, or physician assistant, acting in good faith and based on the needs of the patient, shall be subject to any civil or criminal action or investigation, disenrollment, or termination by the commissioner of health or human services solely for prescribing a dosage that equates to an upward deviation from morphine milligram equivalent dosage recommendations or thresholds specified in state or federal opioid prescribing guidelines or policies, including but not limited to the Guideline for Prescribing Opioids for Chronic Pain issued by the Centers for Disease Control and Prevention, Minnesota opioid prescribing guidelines, the Minnesota opioid prescribing improvement program, and the Minnesota quality improvement program established under section 256B.0638.

(c) A physician, advanced practice registered nurse, or physician assistant treating intractable pain by prescribing, dispensing, or administering a controlled substance in Schedules II to V of section 152.02 that includes but is not opioid analgesics must not taper a patient's medication dosage solely to meet a predetermined morphine milligram equivalent dosage recommendation or threshold if the patient is stable and compliant with the treatment plan, is experiencing no serious harm from the level of medication currently being prescribed or previously prescribed, and is in compliance with the patient-provider agreement as described in subdivision 5.

(d) A physician's, advanced practice registered nurse's, or physician assistant's decision to taper a patient's medication dosage must be based on factors other than a morphine milligram equivalent recommendation or threshold.

(e) No pharmacist, health plan company, or pharmacy benefit manager shall refuse to fill a prescription for an opiate issued by a licensed practitioner with the authority to prescribe
opiates solely based on the prescription exceeding a predetermined morphine milligram equivalent dosage recommendation or threshold.

Subd. 3. Limits on applicability. This section does not apply to:

(1) a physician's, advanced practice registered nurse's, or physician assistant's treatment of an individual patient for chemical dependency resulting from the use of controlled substances in Schedules II to V of section 152.02;

(2) the prescription or administration of controlled substances in Schedules II to V of section 152.02 to an individual patient whom the physician, advanced practice registered nurse, or physician assistant knows to be using the controlled substances for nontherapeutic or drug diversion purposes;

(3) the prescription or administration of controlled substances in Schedules II to V of section 152.02 for the purpose of terminating the life of an individual patient having intractable pain; or

(4) the prescription or administration of a controlled substance in Schedules II to V of section 152.02 that is not a controlled substance approved by the United States Food and Drug Administration for pain relief.

Subd. 4. Notice of risks. Prior to treating an individual patient for intractable pain in accordance with subdivision 2, a physician, advanced practice registered nurse, or physician assistant shall discuss with the individual patient or the patient's legal guardian, if applicable, the risks associated with the controlled substances in Schedules II to V of section 152.02 to be prescribed or administered in the course of the physician's, advanced practice registered nurse's, or physician assistant's treatment of an individual patient, and document the discussion in the individual patient's record as required in the patient-provider agreement described in subdivision 5.

Subd. 5. Patient-provider agreement. (a) Before treating a patient for intractable pain, a physician, advanced practice registered nurse, or physician assistant and the patient or the patient's legal guardian, if applicable, must mutually agree to the treatment and enter into a provider-patient agreement. The agreement must include a description of the prescriber's and the patient's expectations, responsibilities, and rights according to best practices and current standards of care.

(b) The agreement must be signed by the patient or the patient's legal guardian, if applicable, and the physician, advanced practice registered nurse, or physician assistant and...
included in the patient's medical records. A copy of the signed agreement must be provided to the patient.

c) The agreement must be reviewed by the patient and the physician, advanced practice registered nurse, or physician assistant annually. If there is a change in the patient's treatment plan, the agreement must be updated and a revised agreement must be signed by the patient or the patient's legal guardian. A copy of the revised agreement must be included in the patient's medical record and a copy must be provided to the patient.

d) A patient-provider agreement is not required in an emergency or inpatient hospital setting.

Sec. 57. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 13, is amended to read:

Subd. 13. Drugs. (a) Medical assistance covers drugs, except for fertility drugs when specifically used to enhance fertility, if prescribed by a licensed practitioner and dispensed by a licensed pharmacist, by a physician enrolled in the medical assistance program as a dispensing physician, or by a physician, a physician assistant, or an advanced practice registered nurse employed by or under contract with a community health board as defined in section 145A.02, subdivision 5, for the purposes of communicable disease control.

(b) The dispensed quantity of a prescription drug must not exceed a 34-day supply, unless authorized by the commissioner or the drug appears on the 90-day supply list published by the commissioner. The 90-day supply list shall be published by the commissioner on the department's website. The commissioner may add to, delete from, and otherwise modify the 90-day supply list after providing public notice and the opportunity for a 15-day public comment period. The 90-day supply list may include cost-effective generic drugs and shall not include controlled substances.

c) For the purpose of this subdivision and subdivision 13d, an "active pharmaceutical ingredient" is defined as a substance that is represented for use in a drug and when used in the manufacturing, processing, or packaging of a drug becomes an active ingredient of the drug product. An "excipient" is defined as an inert substance used as a diluent or vehicle for a drug. The commissioner shall establish a list of active pharmaceutical ingredients and excipients which are included in the medical assistance formulary. Medical assistance covers selected active pharmaceutical ingredients and excipients used in compounded prescriptions when the compounded combination is specifically approved by the commissioner or when a commercially available product:
(1) is not a therapeutic option for the patient;

(2) does not exist in the same combination of active ingredients in the same strengths as the compounded prescription; and

(3) cannot be used in place of the active pharmaceutical ingredient in the compounded prescription.

(d) Medical assistance covers the following over-the-counter drugs when prescribed by a licensed practitioner or by a licensed pharmacist who meets standards established by the commissioner, in consultation with the board of pharmacy: antacids, acetaminophen, family planning products, aspirin, insulin, products for the treatment of lice, vitamins for adults with documented vitamin deficiencies, vitamins for children under the age of seven and pregnant or nursing women, and any other over-the-counter drug identified by the commissioner, in consultation with the Formulary Committee, as necessary, appropriate, and cost-effective for the treatment of certain specified chronic diseases, conditions, or disorders, and this determination shall not be subject to the requirements of chapter 14. A pharmacist may prescribe over-the-counter medications as provided under this paragraph for purposes of receiving reimbursement under Medicaid. When prescribing over-the-counter drugs under this paragraph, licensed pharmacists must consult with the recipient to determine necessity, provide drug counseling, review drug therapy for potential adverse interactions, and make referrals as needed to other health care professionals.

(e) Effective January 1, 2006, medical assistance shall not cover drugs that are coverable under Medicare Part D as defined in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108-173, section 1860D-2(e), for individuals eligible for drug coverage as defined in the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108-173, section 1860D-1(a)(3)(A). For these individuals, medical assistance may cover drugs from the drug classes listed in United States Code, title 42, section 1396r-8(d)(2), subject to this subdivision and subdivisions 13a to 13g, except that drugs listed in United States Code, title 42, section 1396r-8(d)(2)(E), shall not be covered.

(f) Medical assistance covers drugs acquired through the federal 340B Drug Pricing Program and dispensed by 340B covered entities and ambulatory pharmacies under common ownership of the 340B covered entity. Medical assistance does not cover drugs acquired through the federal 340B Drug Pricing Program and dispensed by 340B contract pharmacies.

(g) Notwithstanding paragraph (a), medical assistance covers self-administered hormonal contraceptives prescribed and dispensed by a licensed pharmacist in accordance with section 6 Sec. 57.
151.37, subdivision 14; nicotine replacement medications prescribed and dispensed by a licensed pharmacist in accordance with section 151.37, subdivision 15; and opiate antagonists used for the treatment of an acute opiate overdose prescribed and dispensed by a licensed pharmacist in accordance with section 151.37, subdivision 16.

(h) Medical assistance coverage of, and reimbursement for, antiretroviral drugs to prevent the acquisition of human immunodeficiency virus (HIV) and any laboratory testing necessary for therapy that uses these drugs must meet the requirements that would otherwise apply to a health plan under section 62Q.524.

Sec. 58. Minnesota Statutes 2020, section 256B.0625, subdivision 13f, is amended to read:

Subd. 13f. Prior authorization. (a) The Formulary Committee shall review and recommend drugs which require prior authorization. The Formulary Committee shall establish general criteria to be used for the prior authorization of brand-name drugs for which generically equivalent drugs are available, but the committee is not required to review each brand-name drug for which a generically equivalent drug is available.

(b) Prior authorization may be required by the commissioner before certain formulary drugs are eligible for payment. The Formulary Committee may recommend drugs for prior authorization directly to the commissioner. The commissioner may also request that the Formulary Committee review a drug for prior authorization. Before the commissioner may require prior authorization for a drug:

(1) the commissioner must provide information to the Formulary Committee on the impact that placing the drug on prior authorization may have on the quality of patient care and on program costs, information regarding whether the drug is subject to clinical abuse or misuse, and relevant data from the state Medicaid program if such data is available;

(2) the Formulary Committee must review the drug, taking into account medical and clinical data and the information provided by the commissioner; and

(3) the Formulary Committee must hold a public forum and receive public comment for an additional 15 days.

The commissioner must provide a 15-day notice period before implementing the prior authorization.

(c) Except as provided in subdivision 13j, prior authorization shall not be required or utilized for any atypical antipsychotic drug prescribed for the treatment of mental illness if:
(1) there is no generically equivalent drug available; and

(2) the drug was initially prescribed for the recipient prior to July 1, 2003; or

(3) the drug is part of the recipient's current course of treatment.

This paragraph applies to any multistate preferred drug list or supplemental drug rebate program established or administered by the commissioner. Prior authorization shall automatically be granted for 60 days for brand name drugs prescribed for treatment of mental illness within 60 days of when a generically equivalent drug becomes available, provided that the brand name drug was part of the recipient's course of treatment at the time the generically equivalent drug became available.

(d) The commissioner may require prior authorization for brand name drugs whenever a generically equivalent product is available, even if the prescriber specifically indicates "dispense as written-brand necessary" on the prescription as required by section 151.21, subdivision 2.

(e) Notwithstanding this subdivision, the commissioner may automatically require prior authorization, for a period not to exceed 180 days, for any drug that is approved by the United States Food and Drug Administration on or after July 1, 2005. The 180-day period begins no later than the first day that a drug is available for shipment to pharmacies within the state. The Formulary Committee shall recommend to the commissioner general criteria to be used for the prior authorization of the drugs, but the committee is not required to review each individual drug. In order to continue prior authorizations for a drug after the 180-day period has expired, the commissioner must follow the provisions of this subdivision.

(f) Prior authorization under this subdivision shall comply with section sections 62Q.184 and 62Q.1842.

(g) Any step therapy protocol requirements established by the commissioner must comply with section sections 62Q.1841 and 62Q.1842.

Sec. 59. STUDY OF PHARMACY AND PROVIDER CHOICE OF BIOLOGICAL PRODUCTS.

The commissioner of health, within the limits of existing resources, shall analyze the effect of Minnesota Statutes, section 62W.0751, on the net price for different payors of biological products, interchangeable biological products, and biosimilar products. The commissioner of health shall report findings to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services finance and policy and insurance by December 15, 2024.
ARTICLE 7

HEALTH INSURANCE

Section 1. Minnesota Statutes 2020, section 62A.25, subdivision 2, is amended to read:

Subd. 2. Required coverage. (a) Every policy, plan, certificate or contract to which this section applies shall provide benefits for reconstructive surgery when such service is incidental to or follows surgery resulting from injury, sickness or other diseases of the involved part or when such service is performed on a covered dependent child because of congenital disease or anomaly which has resulted in a functional defect as determined by the attending physician.

(b) The coverage limitations on reconstructive surgery in paragraph (a) do not apply to reconstructive breast surgery: (1) following mastectomies; or (2) if the patient has been diagnosed with ectodermal dysplasia and has congenitally absent breast tissue or nipples. In these cases, coverage for reconstructive surgery must be provided if the mastectomy is medically necessary as determined by the attending physician.

(c) Reconstructive surgery benefits include all stages of reconstruction of the breast on which the mastectomy has been performed, including surgery and reconstruction of the other breast to produce a symmetrical appearance, and prosthesis and physical complications at all stages of a mastectomy, including lymphedemas, in a manner determined in consultation with the attending physician and patient. Coverage may be subject to annual deductible, co-payment, and coinsurance provisions as may be deemed appropriate and as are consistent with those established for other benefits under the plan or coverage. Coverage may not:

(1) deny to a patient eligibility, or continued eligibility, to enroll or to renew coverage under the terms of the plan, solely for the purpose of avoiding the requirements of this section; and

(2) penalize or otherwise reduce or limit the reimbursement of an attending provider, or provide monetary or other incentives to an attending provider to induce the provider to provide care to an individual participant or beneficiary in a manner inconsistent with this section.

Written notice of the availability of the coverage must be delivered to the participant upon enrollment and annually thereafter.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health plans offered, issued, or sold on or after that date.
Sec. 2. [62A.255] COVERAGE OF LYMPHEDEMA TREATMENT.

Subdivision 1. Scope of coverage. This section applies to all health plans that are sold, issued, or renewed to a Minnesota resident.

Subd. 2. Required coverage. (a) Each health plan must provide coverage for lymphedema treatment, including coverage for compression treatment items, complex decongestive therapy, and outpatient self-management training and education during lymphedema treatment if prescribed by a licensed health care professional. Lymphedema compression treatment items include: (1) compression garments, stockings, and sleeves; (2) compression devices; and (3) bandaging systems, components, and supplies that are primarily and customarily used in the treatment of lymphedema.

(b) If applicable to the enrollee's health plan, a health carrier may require the prescribing health care professional to be within the enrollee's health plan provider network if the provider network meets network adequacy requirements under section 62K.10.

(c) A health plan must not apply any cost-sharing requirements, benefit limitations, or service limitations for lymphedema treatment and compression treatment items that place a greater financial burden on the enrollee or are more restrictive than cost-sharing requirements or limitations applied by the health plan to other similar services or benefits.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to any health plan issued, sold, or renewed on or after that date.

Sec. 3. Minnesota Statutes 2020, section 62A.28, subdivision 2, is amended to read:

Subd. 2. Required coverage. Every policy, plan, certificate, or contract referred to in subdivision 1 issued or renewed after August 1, 1987, must provide coverage for scalp hair prostheses worn for hair loss suffered as a result of alopecia areata or ectodermal dysplasias.

The coverage required by this section is subject to the co-payment, coinsurance, deductible, and other enrollee cost-sharing requirements that apply to similar types of items under the policy, plan, certificate, or contract and may be limited to one prosthesis per benefit year.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health plans offered, issued, or sold on or after that date.
Sec. 4. Minnesota Statutes 2020, section 62A.30, is amended by adding a subdivision to read:

Subd. 5. Mammogram; diagnostic services and testing. If a health care provider determines an enrollee requires additional diagnostic services or testing after a mammogram, a health plan must provide coverage for the additional diagnostic services or testing with no cost sharing, including co-pay, deductible, or coinsurance.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health plans offered, issued, or sold on or after that date.

Sec. 5. [62A.3096] COVERAGE FOR ECTODERMAL DYSPLASIAS.

Subdivision 1. Definition. For purposes of this chapter, "ectodermal dysplasias" means a genetic disorder involving the absence or deficiency of tissues and structures derived from the embryonic ectoderm.

Subd. 2. Coverage. A health plan must provide coverage for the treatment of ectodermal dysplasias.

Subd. 3. Dental coverage. (a) A health plan must provide coverage for dental treatments related to ectodermal dysplasias. Covered dental treatments must include but are not limited to bone grafts, dental implants, orthodontia, dental prosthodontics, and dental maintenance.

(b) If a dental treatment is eligible for coverage under a dental insurance plan or other health plan, the coverage under this subdivision is secondary.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health plans offered, issued, or sold on or after that date.

Sec. 6. [62Q.451] UNRESTRICTED ACCESS TO SERVICES FOR THE DIAGNOSIS, MONITORING, AND TREATMENT OF RARE DISEASES.

(a) No health plan company may restrict the choice of an enrollee as to where the enrollee receives services from a licensed health care provider related to the diagnosis, monitoring, and treatment of a rare disease or condition. Except as provided in paragraph (b), for purposes of this section, "rare disease or condition" means any disease or condition:

(1) that affects fewer than 200,000 persons in the United States and is chronic, serious, life-altering, or life-threatening;

(2) that affects more than 200,000 persons in the United States and a drug for treatment has been designated as such pursuant to United States Code, title 21, section 360bb;
(3) that is labeled as a rare disease or condition on the Genetic and Rare Diseases Information Center list created by the National Institutes of Health; or

(4) for which a pediatric patient:

(i) has received two or more clinical consultations from a primary care provider or specialty provider;

(ii) has a delay in skill acquisition and development, regression in skill acquisition, failure to thrive, or multisystemic involvement; and

(iii) had laboratory or clinical testing that failed to provide a definitive diagnosis or resulted in conflicting diagnoses.

(b) A rare disease or condition does not include an infectious disease that has widely available and known protocols for diagnosis and treatment and that is commonly treated in a primary care setting, even if it affects less than 200,000 persons in the United States.

(c) Cost-sharing requirements and benefit or services limitations for the diagnosis and treatment of a rare disease or condition must not place a greater financial burden on the enrollee or be more restrictive than those requirements for in-network medical treatment.

(d) This section does not apply to health plan coverage provided through the State Employee Group Insurance Program (SEGIP) under chapter 43A.

EFFECTIVE DATE. This section is effective January 1, 2023, and applies to health plans offered, issued, or renewed on or after that date.

Sec. 7. Minnesota Statutes 2020, section 256B.0625, is amended by adding a subdivision to read:

Subd. 68. Services for the diagnosis, monitoring, and treatment of rare diseases. Medical assistance coverage for services related to the diagnosis, monitoring, and treatment of a rare disease or condition must meet the requirements in section 62Q.451.

EFFECTIVE DATE. This section is effective January 1, 2023.

Sec. 8. Minnesota Statutes 2020, section 256B.0625, is amended by adding a subdivision to read:

emotional disturbance that the service provider develops under the clinical supervision of
a mental health professional on the basis of a diagnostic assessment;

Sec. 9. Minnesota Statutes 2021 Supplement, section 245.735, subdivision 3, is amended to read:

Subd. 3. Certified community behavioral health clinics. (a) The commissioner shall establish a state certification process for certified community behavioral health clinics (CCBHCs) that satisfy all federal requirements necessary for CCBHCs certified under this section to be eligible for reimbursement under medical assistance, without service area limits based on geographic area or region. The commissioner shall consult with CCBHC stakeholders before establishing and implementing changes in the certification process and requirements. Entities that choose to be CCBHCs must:

(1) comply with state licensing requirements and other requirements issued by the commissioner;

(2) employ or contract for clinic staff who have backgrounds in diverse disciplines, including licensed mental health professionals and licensed alcohol and drug counselors, and staff who are culturally and linguistically trained to meet the needs of the population the clinic serves;

(3) ensure that clinic services are available and accessible to individuals and families of all ages and genders and that crisis management services are available 24 hours per day;

(4) establish fees for clinic services for individuals who are not enrolled in medical assistance using a sliding fee scale that ensures that services to patients are not denied or limited due to an individual's inability to pay for services;
(5) comply with quality assurance reporting requirements and other reporting requirements, including any required reporting of encounter data, clinical outcomes data, and quality data;

(6) provide crisis mental health and substance use services, withdrawal management services, emergency crisis intervention services, and stabilization services through existing mobile crisis services; screening, assessment, and diagnosis services, including risk assessments and level of care determinations; person- and family-centered treatment planning; outpatient mental health and substance use services; targeted case management; psychiatric rehabilitation services; peer support and counselor services and family support services; and intensive community-based mental health services, including mental health services for members of the armed forces and veterans. CCBHCs must directly provide the majority of these services to enrollees, but may coordinate some services with another entity through a collaboration or agreement, pursuant to paragraph (b);

(7) provide coordination of care across settings and providers to ensure seamless transitions for individuals being served across the full spectrum of health services, including acute, chronic, and behavioral needs. Care coordination may be accomplished through partnerships or formal contracts with:

(i) counties, health plans, pharmacists, pharmacies, rural health clinics, federally qualified health centers, inpatient psychiatric facilities, substance use and detoxification facilities, or community-based mental health providers; and

(ii) other community services, supports, and providers, including schools, child welfare agencies, juvenile and criminal justice agencies, Indian health services clinics, tribally licensed health care and mental health facilities, urban Indian health clinics, Department of Veterans Affairs medical centers, outpatient clinics, drop-in centers, acute care hospitals, and hospital outpatient clinics;

(8) be certified as a mental health clinics clinic under section 245.69, subdivision 2.

(9) comply with standards established by the commissioner relating to CCBHC screenings, assessments, and evaluations;

(10) be licensed to provide substance use disorder treatment under chapter 245G;

(11) be certified to provide children's therapeutic services and supports under section 256B.0943;
(12) be certified to provide adult rehabilitative mental health services under section 256B.0623;

(13) be enrolled to provide mental health crisis response services under sections 256B.0624 and 256B.0944;

(14) be enrolled to provide mental health targeted case management under section 256B.0625, subdivision 20;

(15) comply with standards relating to mental health case management in Minnesota Rules, parts 9520.0900 to 9520.0926;

(16) provide services that comply with the evidence-based practices described in paragraph (e); and

(17) comply with standards relating to peer services under sections 256B.0615, 256B.0616, and 245G.07, subdivision 1, paragraph (a), clause (5), as applicable when peer services are provided.

(b) If a certified CCBHC is unable to provide one or more of the services listed in paragraph (a), clauses (6) to (17), the CCBHC may contract with another entity that has the required authority to provide that service and that meets the following criteria as a designated collaborating organization:

(1) the entity has a formal agreement with the CCBHC to furnish one or more of the services under paragraph (a), clause (6);

(2) the entity provides assurances that it will provide services according to CCBHC service standards and provider requirements;

(3) the entity agrees that the CCBHC is responsible for coordinating care and has clinical and financial responsibility for the services that the entity provides under the agreement; and

(4) the entity meets any additional requirements issued by the commissioner.

(c) Notwithstanding any other law that requires a county contract or other form of county approval for certain services listed in paragraph (a), clause (6), a clinic that otherwise meets CCBHC requirements may receive the prospective payment under section 256B.0625, subdivision 5m, for those services without a county contract or county approval. As part of the certification process in paragraph (a), the commissioner shall require a letter of support from the CCBHC's host county confirming that the CCBHC and the county or counties it
serves have an ongoing relationship to facilitate access and continuity of care, especially for individuals who are uninsured or who may go on and off medical assistance.

(d) When the standards listed in paragraph (a) or other applicable standards conflict or address similar issues in duplicative or incompatible ways, the commissioner may grant variances to state requirements if the variances do not conflict with federal requirements for services reimbursed under medical assistance. If standards overlap, the commissioner may substitute all or a part of a licensure or certification that is substantially the same as another licensure or certification. The commissioner shall consult with stakeholders, as described in subdivision 4, before granting variances under this provision. For the CCBHC that is certified but not approved for prospective payment under section 256B.0625, subdivision 5m, the commissioner may grant a variance under this paragraph if the variance does not increase the state share of costs.

(e) The commissioner shall issue a list of required evidence-based practices to be delivered by CCBHCs, and may also provide a list of recommended evidence-based practices. The commissioner may update the list to reflect advances in outcomes research and medical services for persons living with mental illnesses or substance use disorders. The commissioner shall take into consideration the adequacy of evidence to support the efficacy of the practice, the quality of workforce available, and the current availability of the practice in the state. At least 30 days before issuing the initial list and any revisions, the commissioner shall provide stakeholders with an opportunity to comment.

(f) The commissioner shall recertify CCBHCs at least every three years. The commissioner shall establish a process for decertification and shall require corrective action, medical assistance repayment, or decertification of a CCBHC that no longer meets the requirements in this section or that fails to meet the standards provided by the commissioner in the application and certification process.

EFFECTIVE DATE. This section is effective July 1, 2022, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 10. Minnesota Statutes 2021 Supplement, section 245A.03, subdivision 7, is amended to read:

Subd. 7. Licensing moratorium. (a) The commissioner shall not issue an initial license for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, or adult foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter for a physical location that will not be the primary residence of the license holder for the
entire period of licensure. If a family child foster care home or family adult foster care home license is issued during this moratorium, and the license holder changes the license holder's primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person's choices during their annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

1. foster care settings where at least 80 percent of the residents are 55 years of age or older;
2. foster care licenses replacing foster care licenses in existence on May 15, 2009, or community residential setting licenses replacing adult foster care licenses in existence on December 31, 2013, and determined to be needed by the commissioner under paragraph (b);
3. new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD, or regional treatment center; restructuring of state-operated services that limits the capacity of state-operated facilities; or allowing movement to the community for people who no longer require the level of care provided in state-operated facilities as provided under section 256B.092, subdivision 13, or 256B.49, subdivision 24;
4. new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for persons requiring hospital level care; or
5. new foster care licenses or community residential setting licenses for people receiving services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and for which a license is required. This exception does not apply to people living in their own home. For purposes of this clause, there is a presumption that a foster care or community residential setting license is required for services provided to three or more people in a dwelling unit when the setting is controlled by the provider. A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for
reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2018. This exception is available when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency.

(6) (5) new foster care licenses or community residential setting licenses for people receiving customized living or 24-hour customized living services under the brain injury or community access for disability inclusion waiver plans under section 256B.49 and residing in the customized living setting before July 1, 2022, for which a license is required. A customized living service provider subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2023. This exception is available when:

(i) the person's customized living services are provided in a customized living service setting serving four or fewer people under the brain injury or community access for disability inclusion waiver plans under section 256B.49 in a single-family home operational on or before June 30, 2021. Operational is defined in section 256B.49, subdivision 28;

(ii) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(iii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the customized living setting as determined by the lead agency.

(b) The commissioner shall determine the need for newly licensed foster care homes or community residential settings as defined under this subdivision. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.
(c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings.

(d) Residential settings that would otherwise be subject to the decreased license capacity established in paragraph (c) shall be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.

(f) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in paragraph (a) are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

(g) License holders of foster care homes identified under paragraph (f) that are not the primary residence of the license holder and that also provide services in the foster care home that are covered by a federally approved home and community-based services waiver, as authorized under chapter 256S or section 256B.092 or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.
(h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings will be accomplished through a process identified in section 256B.493. Annually, by August 1, the commissioner shall provide information and data on capacity of licensed long-term services and supports, actions taken under the subdivision to manage statewide long-term services and supports resources, and any recommendations for change to the legislative committees with jurisdiction over the health and human services budget.

(i) The commissioner must notify a license holder when its corporate foster care or community residential setting licensed beds are reduced under this section. The notice of reduction of licensed beds must be in writing and delivered to the license holder by certified mail or personal service. The notice must state why the licensed beds are reduced and must inform the license holder of its right to request reconsideration by the commissioner. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(j) The commissioner shall not issue an initial license for children's residential treatment services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter for a program that Centers for Medicare and Medicaid Services would consider an institution for mental diseases. Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 11. Minnesota Statutes 2020, section 245D.12, is amended to read:

245D.12 INTEGRATED COMMUNITY SUPPORTS; SETTING CAPACITY REPORT.

(a) The license holder providing integrated community support, as defined in section 245D.03, subdivision 1, paragraph (c), clause (8), must submit a setting capacity report to
the commissioner to ensure the identified location of service delivery meets the criteria of
the home and community-based service requirements as specified in section 256B.492.
(b) The license holder shall provide the setting capacity report on the forms and in the
manner prescribed by the commissioner. The report must include:
(1) the address of the multifamily housing building where the license holder delivers
integrated community supports and owns, leases, or has a direct or indirect financial
relationship with the property owner;
(2) the total number of living units in the multifamily housing building described in
clause (1) where integrated community supports are delivered;
(3) the total number of living units in the multifamily housing building described in
clause (1), including the living units identified in clause (2); and
(4) the total number of people who could reside in the living units in the multifamily
housing building described in clause (2) and receive integrated community supports; and
(5) the percentage of living units that are controlled by the license holder in the

Subd. 6. Dialectical behavior therapy. (a) Subject to federal approval, medical assistance covers intensive mental health outpatient treatment for dialectical behavior therapy for adults. A dialectical behavior therapy provider must make reasonable and good faith efforts to report individual client outcomes to the commissioner using instruments and protocols that are approved by the commissioner.

(b) “Dialectical behavior therapy” means an evidence-based treatment approach that a mental health professional or clinical trainee provides to a client or a group of clients in an intensive outpatient treatment program using a combination of individualized rehabilitative and psychotherapeutic interventions. (c) To be eligible for dialectical behavior therapy, a client must:

(1) be 18 years of age or older;

(2) have mental health needs that available community-based services cannot meet or that the client must receive concurrently with other community-based services;

(3) have either:

(i) a diagnosis of borderline personality disorder; or

(ii) multiple mental health diagnoses, exhibit behaviors characterized by impulsivity or intentional self-harm, and be at significant risk of death, morbidity, disability, or severe dysfunction in multiple areas of the client's life;
be cognitively capable of participating in dialectical behavior therapy as an intensive therapy program and be able and willing to follow program policies and rules to ensure the safety of the client and others; and

Group skills training must teach the client adaptive skills in the following areas: (1) mindfulness; (2) interpersonal effectiveness; (3) emotional regulation; and (4) distress tolerance.

(f) Group skills training must be provided by two mental health professionals or by a mental health professional co-facilitating with a clinical trainee or a mental health practitioner. Individual skills training must be provided by a mental health professional, a clinical trainee, or a mental health practitioner.

(2) provide evidence to the commissioner that the program's policies, procedures, and practices meet the requirements of this subdivision and chapter 245I;

Sec. 28. Minnesota Statutes 2021 Supplement, section 256B.0911, subdivision 3a, is amended to read:

Subd. 3a. Assessment and support planning. (a) Persons requesting assessment, services planning, or other assistance intended to support community-based living, including persons who need assessment in order to determine waiver or alternative care program eligibility, must be visited by a long-term care consultation team within 20 calendar days after the date on which an assessment was requested or recommended. Upon statewide implementation of subdivisions 2b, 2c, and 5, this requirement also applies to an assessment of a person requesting personal care assistance services. The commissioner shall provide at least a 90-day notice to lead agencies prior to the effective date of this requirement. Assessments must be conducted according to paragraphs (b) to (r).

(b) Upon implementation of subdivisions 2b, 2c, and 5, lead agencies shall use certified assessors to conduct the assessment. For a person with complex health care needs, a public health or registered nurse from the team must be consulted.

(c) The MnCHOICES assessment provided by the commissioner to lead agencies must be used to complete a comprehensive, conversation-based, person-centered assessment. The assessment must include the health, psychological, functional, environmental, and social needs of the individual necessary to develop a person-centered community support plan that meets the individual's needs and preferences.
Except as provided in paragraph (r), the assessment must be conducted by a certified assessor in a face-to-face conversational interview with the person being assessed. The person's legal representative must provide input during the assessment process and may do so remotely if requested. At the request of the person, other individuals may participate in the assessment to provide information on the needs, strengths, and preferences of the person necessary to develop a community support plan that ensures the person's health and safety. Except for legal representatives or family members invited by the person, persons participating in the assessment may not be a provider of service or have any financial interest in the provision of services. For persons who are to be assessed for elderly waiver customized living or adult day services under chapter 256S, with the permission of the person being assessed or the person's designated or legal representative, the client's current or proposed provider of services may submit a copy of the provider's nursing assessment or written report outlining its recommendations regarding the client's care needs. The person conducting the assessment must notify the provider of the date by which this information is to be submitted. This information shall be provided to the person conducting the assessment prior to the assessment. For a person who is to be assessed for waiver services under section 256B.092 or 256B.49, with the permission of the person being assessed or the person's designated legal representative, the person's current provider of services may submit a written report outlining recommendations regarding the person's care needs the person completed in consultation with someone who is known to the person and has interaction with the person on a regular basis. The provider must submit the report at least 60 days before the end of the person's current service agreement. The certified assessor must consider the content of the submitted report prior to finalizing the person's assessment or reassessment.

The certified assessor and the individual responsible for developing the coordinated service and support plan must complete the community support plan and the coordinated service and support plan no more than 60 calendar days from the assessment visit. The person or the person's legal representative must be provided with a written community support plan within the timelines established by the commissioner, regardless of whether the person is eligible for Minnesota health care programs.

For a person being assessed for elderly waiver services under chapter 256S, a provider who submitted information under paragraph (d) shall receive the final written community support plan when available and the Residential Services Workbook.

The written community support plan must include:

1. a summary of assessed needs as defined in paragraphs (c) and (d);
(2) the individual's options and choices to meet identified needs, including:

(i) all available options for case management services and providers;

(ii) all available options for employment services, settings, and providers;

(iii) all available options for living arrangements;

(iv) all available options for self-directed services and supports, including self-directed budget options; and

(v) service provided in a non-disability-specific setting;

(3) identification of health and safety risks and how those risks will be addressed, including personal risk management strategies;

(4) referral information; and

(5) informal caregiver supports, if applicable.

For a person determined eligible for state plan home care under subdivision 1a, paragraph (b), clause (1), the person or person's representative must also receive a copy of the home care service plan developed by the certified assessor.

(h) A person may request assistance in identifying community supports without participating in a complete assessment. Upon a request for assistance identifying community support, the person must be transferred or referred to long-term care options counseling services available under sections 256.975, subdivision 7, and 256.01, subdivision 24, for telephone assistance and follow up.

(i) The person has the right to make the final decision:

(1) between institutional placement and community placement after the recommendations have been provided, except as provided in section 256.975, subdivision 7a, paragraph (d);

(2) between community placement in a setting controlled by a provider and living independently in a setting not controlled by a provider;

(3) between day services and employment services; and

(4) regarding available options for self-directed services and supports, including self-directed funding options.

(j) The lead agency must give the person receiving long-term care consultation services or the person's legal representative, materials, and forms supplied by the commissioner containing the following information:
(1) written recommendations for community-based services and consumer-directed options;

(2) documentation that the most cost-effective alternatives available were offered to the individual. For purposes of this clause, "cost-effective" means community services and living arrangements that cost the same as or less than institutional care. For an individual found to meet eligibility criteria for home and community-based service programs under chapter 256S or section 256B.49, "cost-effectiveness" has the meaning found in the federally approved waiver plan for each program;

(3) the need for and purpose of preadmission screening conducted by long-term care options counselors according to section 256.975, subdivisions 7a to 7c, if the person selects nursing facility placement. If the individual selects nursing facility placement, the lead agency shall forward information needed to complete the level of care determinations and screening for developmental disability and mental illness collected during the assessment to the long-term care options counselor using forms provided by the commissioner;

(4) the role of long-term care consultation assessment and support planning in eligibility determination for waiver and alternative care programs, and state plan home care, case management, and other services as defined in subdivision 1a, paragraphs (a), clause (6), and (b);

(5) information about Minnesota health care programs;

(6) the person's freedom to accept or reject the recommendations of the team;

(7) the person's right to confidentiality under the Minnesota Government Data Practices Act, chapter 13;

(8) the certified assessor's decision regarding the person's need for institutional level of care as determined under criteria established in subdivision 4e and the certified assessor's decision regarding eligibility for all services and programs as defined in subdivision 1a, paragraphs (a), clause (6), and (b);

(9) the person's right to appeal the certified assessor's decision regarding eligibility for all services and programs as defined in subdivision 1a, paragraphs (a), clauses (6), (7), and (8), and (b), and incorporating the decision regarding the need for institutional level of care or the lead agency's final decisions regarding public programs eligibility according to section 256.045, subdivision 3. The certified assessor must verbally communicate this appeal right to the person and must visually point out where in the document the right to appeal is stated; and
(10) documentation that available options for employment services, independent living, and self-directed services and supports were described to the individual.

(k) An assessment that is completed as part of an eligibility determination for multiple programs for the alternative care, elderly waiver, developmental disabilities, community access for disability inclusion, community alternative care, and brain injury waiver programs under chapter 256S and sections 256B.0913, 256B.092, and 256B.49 is valid to establish service eligibility for no more than 60 calendar days after the date of the assessment.

(l) The effective eligibility start date for programs in paragraph (k) can never be prior to the date of assessment. If an assessment was completed more than 60 days before the effective waiver or alternative care program eligibility start date, assessment and support plan information must be updated and documented in the department's Medicaid Management Information System (MMIS). Notwithstanding retroactive medical assistance coverage of state plan services, the effective date of eligibility for programs included in paragraph (k) cannot be prior to the date the most recent updated assessment is completed.

(m) If an eligibility update is completed within 90 days of the previous assessment and documented in the department's Medicaid Management Information System (MMIS), the effective date of eligibility for programs included in paragraph (k) is the date of the previous face-to-face assessment when all other eligibility requirements are met.

(n) If a person who receives home and community-based waiver services under section 256B.0913, 256B.092, or 256B.49 or chapter 256S temporarily enters for 121 days or fewer a hospital, institution of mental disease, nursing facility, intensive residential treatment services program, transitional care unit, or inpatient substance use disorder treatment setting, the person may return to the community with home and community-based waiver services under the same waiver, without requiring an assessment or reassessment under this section, unless the person's annual reassessment is otherwise due. Nothing in this paragraph shall change annual long-term care consultation reassessment requirements, payment for institutional or treatment services, medical assistance financial eligibility, or any other law.

(o) At the time of reassessment, the certified assessor shall assess each person receiving waiver residential supports and services currently residing in a community residential setting, licensed adult foster care home that is either not the primary residence of the license holder or in which the license holder is not the primary caregiver, family adult foster care residence, customized living setting, or supervised living facility to determine if that person would prefer to be served in a community-living setting as defined in section 256B.49, subdivision 23, in a setting not controlled by a provider, or to receive integrated community supports.
as described in section 245D.03, subdivision 1, paragraph (c), clause (8). The certified
assessor shall offer the person, through a person-centered planning process, the option to
receive alternative housing and service options.

(p) At the time of reassessment, the certified assessor shall assess each person receiving
waiver day services to determine if that person would prefer to receive employment services
as described in section 245D.03, subdivision 1, paragraph (c), clauses (5) to (7). The certified
assessor shall describe to the person through a person-centered planning process the option
to receive employment services.

(q) At the time of reassessment, the certified assessor shall assess each person receiving
non-self-directed waiver services to determine if that person would prefer an available
service and setting option that would permit self-directed services and supports. The certified
assessor shall describe to the person through a person-centered planning process the option
to receive self-directed services and supports.

(r) All assessments performed according to this subdivision must be face-to-face unless
the assessment is a reassessment meeting the requirements of this paragraph. Remote
reassessments conducted by interactive video or telephone may substitute for face-to-face
reassessments. For services provided by the developmental disabilities waiver under section
256B.092, and the community access for disability inclusion, community alternative care,
and brain injury waiver programs under section 256B.49, remote reassessments may be
substituted for two consecutive reassessments if followed by a face-to-face reassessment.
For services provided by alternative care under section 256B.0913, essential community
supports under section 256B.0922, and the elderly waiver under chapter 256S, remote
reassessments may be substituted for one reassessment if followed by a face-to-face
reassessment. A remote reassessment is permitted only if the person being reassessed, or
the person's legal representative, and the lead agency case manager both agree that there is
no change in the person's condition, there is no need for a change in service, and that a
remote reassessment is appropriate. The person's legal representative provide informed
choice for a remote assessment. The person being reassessed, or the person's legal
representative, has the right to refuse a remote reassessment at any time. During a remote
reassessment, if the certified assessor determines a face-to-face reassessment is necessary
in order to complete the assessment, the lead agency shall schedule a face-to-face
reassessment. All other requirements of a face-to-face reassessment shall apply to a remote
reassessment, including updates to a person's support plan.

2. procedures and actions the license holder will implement to maintain compliance with this subdivision and subdivision 15a; and

3. assurance that the license holder will meet with the case manager and each resident's expanded support team, as defined in section 245D.02, subdivision 8b, within ten working days of delivering any service terminations to develop a person-centered relocation plan with each individual impacted by the change in service. The license holder must complete a relocation plan for each impacted individual 45 days prior to the service termination or closure date, whichever is sooner.

(b) The commissioner may require the license holder to work with a transitional team that includes department staff, staff of the Office of Ombudsman for Mental Health and Developmental Disabilities, staff of the Office of Ombudsman for Long-Term Care, and other professionals the commissioner deems necessary to assist in the proper relocation of residents.

(c) The commissioner may eliminate a closure rate adjustment under section 256B.493 for violations of this subdivision.

Subd. 3a. Service termination. (a) The license holder must establish policies and procedures for service termination that promote continuity of care and service coordination with the person and the case manager and with other licensed caregivers, if any, who also
provide support to the person. The policy must include the requirements specified in paragraphs (b) to (f).

(b) The license holder must permit each person to remain in the program or to continue receiving services and must not terminate services unless:

1. the termination is necessary for the person's welfare and the facility license holder cannot meet the person's needs;
2. the safety of the person or others in the program, or staff is endangered and positive support strategies were attempted and have not achieved and effectively maintained safety for the person or others;
3. the health of the person or others in the program, or staff would otherwise be endangered;
4. the program license holder has not been paid for services;
5. the program or license holder ceases to operate;
6. the person has been terminated by the lead agency from waiver eligibility; or

(c) Prior to giving notice of service termination, the license holder must document actions taken to minimize or eliminate the need for termination. Action taken by the license holder must include, at a minimum:

1. consultation with the person's support team or expanded support team to identify and resolve issues leading to issuance of the termination notice;
2. a request to the case manager for intervention services identified in section 245D.03, subdivision 1, paragraph (c), clause (1), or other professional consultation or intervention services to support the person in the program. This requirement does not apply to notices of service termination issued under paragraph (b), clauses (4) and (7); and
3. for state-operated community-based services terminating services under paragraph (b), clause (7), the state-operated community-based services must engage in consultation with the person's support team or expanded support team to:

(i) identify that the person no longer demonstrates complex behavioral needs that cannot be met by private community-based providers identified in section 252.50, subdivision 5, paragraph (a), clause (1);
(ii) provide notice of intent to issue a termination of services to the lead agency when a
finding has been made that a person no longer demonstrates complex behavioral needs that
cannot be met by private community-based providers identified in section 252.50, subdivision
5, paragraph (a), clause (1);
(iii) assist the lead agency and case manager in developing a person-centered transition
plan to a private community-based provider to ensure continuity of care; and
(iv) coordinate with the lead agency to ensure the private community-based service
provider is able to meet the person's needs and criteria established in a person's
person-centered transition plan.

If, based on the best interests of the person, the circumstances at the time of the notice were
such that the license holder was unable to take the action specified in clauses (1) and (2),
the license holder must document the specific circumstances and the reason for being unable
to do so.

(d) The notice of service termination must meet the following requirements:

(1) the license holder must notify the person or the person's legal representative and the
case manager in writing of the intended service termination. If the service termination is
from residential supports and services as defined in section 245D.03, subdivision 1, paragraph
(c), clause (3), the license holder must also notify the commissioner in writing; and

(2) the notice must include:

(i) the reason for the action;

(ii) except for a service termination under paragraph (b), clause (5), a summary of actions
taken to minimize or eliminate the need for service termination or temporary service
suspension as required under paragraph (c), and why these measures failed to prevent the
termination or suspension;

(iii) the person's right to appeal the termination of services under section 256.045,
subdivision 3, paragraph (a); and

(iv) the person's right to seek a temporary order staying the termination of services
according to the procedures in section 256.045, subdivision 4a or 6, paragraph (c).

(e) Notice of the proposed termination of service, including those situations that began
with a temporary service suspension, must be given at least 90 days prior to termination of
services under paragraph (b), clause (7), 60 days prior to termination when a license holder
is providing intensive supports and services identified in section 245D.03, subdivision 1,
paragraph (c), and 30 days prior to termination for all other services licensed under this chapter. This notice may be given in conjunction with a notice of temporary service suspension under subdivision 3.

(f) During the service termination notice period, the license holder must:

(1) work with the support team or expanded support team to develop reasonable alternatives to protect the person and others and to support continuity of care;

(2) provide information requested by the person or case manager; and

(3) maintain information about the service termination, including the written notice of intended service termination, in the service recipient record.

(g) For notices issued under paragraph (b), clause (7), the lead agency shall provide notice to the commissioner and state-operated services at least 30 days before the conclusion of the 90-day termination period, if an appropriate alternative provider cannot be secured. Upon receipt of this notice, the commissioner and state-operated services shall reassess whether a private community-based service can meet the person's needs. If the commissioner determines that a private provider can meet the person's needs, state-operated services shall, if necessary, extend notice of service termination until placement can be made. If the commissioner determines that a private provider cannot meet the person's needs, state-operated services shall rescind the notice of service termination and re-engage with the lead agency in service planning for the person.

(h) For state-operated community-based services, the license holder shall prioritize the capacity created within the existing service site by the termination of services under paragraph (b), clause (7), to serve persons described in section 252.50, subdivision 5, paragraph (a), clause (1).

Sec. 3. Minnesota Statutes 2020, section 256.01, is amended by adding a subdivision to read:

Subd. 12b. Department of Human Services systemic critical incident review team. (a) The commissioner may establish a Department of Human Services systemic critical incident review team to review required critical incident reports under section 626.557 for which the Department of Human Services is responsible under section 626.5572, subdivision 13; chapter 245D; or Minnesota Rules, chapter 9544. When reviewing a critical incident, the systemic critical incident review team must identify systemic influences to the incident rather than determining the culpability of any actors involved in the incident. The systemic critical incident review may assess the entire critical incident process from the point of an
entity reporting the critical incident through the ongoing case management process.

Department staff must lead and conduct the reviews and may utilize county staff as reviewers.

The systemic critical incident review process may include but is not limited to:

1. data collection about the incident and actors involved. Data may include the critical incident report under review; previous incident reports pertaining to the person receiving services; the service provider's policies and procedures applicable to the incident; the coordinated service and support plan as defined in section 245D.02, subdivision 4b, for the person receiving services; or an interview of an actor involved in the critical incident or the review of the critical incident. Actors may include:
   - staff of the provider agency;
   - lead agency staff administering home and community-based services delivered by the provider;
   - Department of Human Services staff with oversight of home and community-based services;
   - Department of Health staff with oversight of home and community-based services;
   - members of the community including advocates, legal representatives, health care providers, pharmacy staff, or others with knowledge of the incident or the actors in the incident; and
   - staff from the Office of the Ombudsman for Mental Health and Developmental Disabilities;

2. systemic mapping of the critical incident. The team conducting the systemic mapping of the incident may include any actors identified in clause (1), designated representatives of other provider agencies, regional teams, and representatives of the local regional quality council identified in section 256B.097; and

3. analysis of the case for systemic influences.

(b) The critical incident review team must aggregate data collected and provide the aggregated data to regional teams, participating regional quality councils, and the commissioner. The regional teams and quality councils must analyze the data and make recommendations to the commissioner regarding systemic changes that would decrease the number and severity of critical incidents in the future or improve the quality of the home and community-based service system.
(c) A selection committee must select cases for the systemic critical incident review process from among the following critical incident categories:

1. cases of caregiver neglect identified in section 626.5572, subdivision 17;
2. cases involving financial exploitation identified in section 626.5572, subdivision 9;
3. incidents identified in section 245D.02, subdivision 11;
4. incidents identified in Minnesota Rules, part 9544.0110; and
5. service terminations reported to the department in accordance with section 245D.10, subdivision 3a.

(d) The systemic critical incident review under this section must not replace the process for screening or investigating cases of alleged maltreatment of an adult under section 626.557. The department, under the jurisdiction of the commissioner, may select for systemic critical incident review cases reported for suspected maltreatment and closed following initial or final disposition.

(e) The proceedings and records of the review team are confidential data on individuals or protected nonpublic data as defined in section 13.02, subdivisions 3 and 13. Data that document a person's opinions formed as a result of the review are not subject to discovery or introduction into evidence in a civil or criminal action against a professional, the state, or a county agency arising out of the matters that the team is reviewing. Information, documents, and records otherwise available from other sources are not immune from discovery or use in a civil or criminal action solely because the information, documents, and records were assessed or presented during review team proceedings. A person who presented information before the systemic critical incident review team or who is a member of the team must not be prevented from testifying about matters within the person's knowledge. In a civil or criminal proceeding, a person must not be questioned about opinions formed by the person as a result of the review.

(f) By October 1 of each year, the commissioner shall prepare an annual public report containing the following information:

1. the number of cases reviewed under each critical incident category identified in paragraph (b) and a geographical description of where cases under each category originated;
2. an aggregate summary of the systemic themes from the critical incidents examined by the critical incident review team during the previous year;
(3) a synopsis of the conclusions, incident analyses, or exploratory activities taken in
regard to the critical incidents examined by the critical incident review team; and

(4) recommendations made to the commissioner regarding systemic changes that could
decrease the number and severity of critical incidents in the future or improve the quality
of the home and community-based service system.

Sec. 4. Minnesota Statutes 2020, section 256.045, subdivision 3, is amended to read:

Subd. 3. State agency hearings. (a) State agency hearings are available for the following:

(1) any person applying for, receiving or having received public assistance, medical
care, or a program of social services granted by the state agency or a county agency or the
federal Food and Nutrition Act whose application for assistance is denied, not acted upon
with reasonable promptness, or whose assistance is suspended, reduced, terminated, or
claimed to have been incorrectly paid;

(2) any patient or relative aggrieved by an order of the commissioner under section
252.27;

(3) a party aggrieved by a ruling of a prepaid health plan;

(4) except as provided under chapter 245C, any individual or facility determined by a

they have exercised their right to administrative reconsideration under section 626.557;

(5) any person whose claim for foster care payment according to a placement of the
child resulting from a child protection assessment under chapter 260E is denied or not acted
upon with reasonable promptness, regardless of funding source;

(6) any person to whom a right of appeal according to this section is given by other
provision of law;

(7) an applicant aggrieved by an adverse decision to an application for a hardship waiver
under section 256B.15;

(8) an applicant aggrieved by an adverse decision to an application or redetermination
for a Medicare Part D prescription drug subsidy under section 256B.04, subdivision 4a;

(9) except as provided under chapter 245A, an individual or facility determined to have
maltreated a minor under chapter 260E, after the individual or facility has exercised the
right to administrative reconsideration under chapter 260E;
(10) except as provided under chapter 245C, an individual disqualified under sections
245C.14 and 245C.15, following a reconsideration decision issued under section 245C.23,
on the basis of serious or recurring maltreatment; a preponderance of the evidence that the
individual has committed an act or acts that meet the definition of any of the crimes listed
in section 245C.15, subdivisions 1 to 4; or for failing to make reports required under section
260E.06, subdivision 1, or 626.557, subdivision 3. Hearings regarding a maltreatment
determination under clause (4) or (9) and a disqualification under this clause in which the
basis for a disqualification is serious or recurring maltreatment, shall be consolidated into
a single fair hearing. In such cases, the scope of review by the human services judge shall
include both the maltreatment determination and the disqualification. The failure to exercise
the right to an administrative reconsideration shall not be a bar to a hearing under this section
if federal law provides an individual the right to a hearing to dispute a finding of
maltreatment;

(11) any person with an outstanding debt resulting from receipt of public assistance,
medical care, or the federal Food and Nutrition Act who is contesting a setoff claim by the
Department of Human Services or a county agency. The scope of the appeal is the validity
of the claimant agency's intention to request a setoff of a refund under chapter 270A against
the debt;

(12) a person issued a notice of service termination under section 245D.10, subdivision
3a, from by a licensed provider of any residential supports and or services as defined listed
in section 245D.03, subdivision 1, paragraph paragraphs (b) and (c), clause (3), that is not
otherwise subject to appeal under subdivision 4a;

(13) an individual disability waiver recipient based on a denial of a request for a rate
exception under section 256B.4914; or

(14) a person issued a notice of service termination under section 245A.11, subdivision
11, that is not otherwise subject to appeal under subdivision 4a.

(b) The hearing for an individual or facility under paragraph (a), clause (4), (9), or (10),
is the only administrative appeal to the final agency determination specifically, including
a challenge to the accuracy and completeness of data under section 13.04. Hearings requested
under paragraph (a), clause (4), apply only to incidents of maltreatment that occur on or
after October 1, 1995. Hearings requested by nursing assistants in nursing homes alleged
to have maltreated a resident prior to October 1, 1995, shall be held as a contested case
proceeding under the provisions of chapter 14. Hearings requested under paragraph (a),
clause (9), apply only to incidents of maltreatment that occur on or after July 1, 1997.
hearing for an individual or facility under paragraph (a), clauses (4), (9), and (10), is only
available when there is no district court action pending. If such action is filed in district
court while an administrative review is pending that arises out of some or all of the events
or circumstances on which the appeal is based, the administrative review must be suspended
until the judicial actions are completed. If the district court proceedings are completed,
discharged, or overturned, the matter may be considered in an administrative hearing.

(c) For purposes of this section, bargaining unit grievance procedures are not an
administrative appeal.

(d) The scope of hearings involving claims to foster care payments under paragraph (a),
clause (5), shall be limited to the issue of whether the county is legally responsible for a
child’s placement under court order or voluntary placement agreement and, if so, the correct
amount of foster care payment to be made on the child’s behalf shall not include review
of the propriety of the county’s child protection determination or child placement decision.

(e) The scope of hearings under paragraph (a), clauses (12) and (14), shall be limited to
whether the proposed termination of services is authorized under section 245D.10,
subdivision 3a, paragraph (b), or 245A.11, subdivision 11, and whether the requirements
of section 245D.10, subdivision 3a, paragraphs (c) to (e), or 245A.11, subdivision 2a,
paragraphs (d) to (f), were met. If the appeal includes a request for a temporary stay of
termination of services, the scope of the hearing shall also include whether the case
management provider has finalized arrangements for a residential facility, a program, or

(c) The home care rating shall be determined by the commissioner or the commissioner's designee based on information submitted to the commissioner identifying the following for a participant:

(1) the total number of dependencies of activities of daily living;

(2) the presence of complex health-related needs; and

(3) the presence of Level I behavior.

(d) The methodology to determine the total service units for CFSS for each home care rating is based on the median paid units per day for each home care rating from fiscal year 2007 data for the PCA program.

(e) Each home care rating is designated by the letters P through Z and EN and has the following base number of service units assigned:

(5) for a housing support provider located in the city of St. Cloud, or a county contiguous to the city of St. Cloud, that operates a 40-bed facility, that received financing through the Minnesota Housing Finance Agency Ending Long-Term Homelessness Initiative and serves chemically dependent clientele, providing 24-hour-a-day supervision;

(6) for a new 65-bed facility in Crow Wing County that will serve chemically dependent persons, operated by a housing support provider that currently operates a 304-bed facility in Minneapolis, and a 44-bed facility in Duluth;

(8) for a facility authorized for recipients of housing support in Hennepin County with a capacity of up to 48 beds that has been licensed since 1978 as a board and lodging facility and that until August 1, 2007, operated as a licensed chemical dependency treatment program.

(b) An agency may enter into a housing support agreement for beds with rates in excess of the MSA equivalent rate in addition to those currently covered under a housing support agreement if the additional beds are only a replacement of beds with rates in excess of the MSA equivalent rate which have been made available due to closure of a setting, a change of licensure or certification which removes the beds from housing support payment, or as a result of the downsizing of a setting authorized for recipients of housing support. The transfer of available beds from one agency to another can only occur by the agreement of both agencies.

(c) The appropriation for this subdivision must include administrative funding equal to the cost of two full-time equivalent employees to process eligibility. The commissioner
must disburse administrative funding to the fiscal agent for the counties under this

(b) The service provider must complete the screenings required by Minnesota Rules, part 2960.0070, subpart 5, within ten calendar days.

Sec. 8. Minnesota Statutes 2020, section 245.4882, is amended by adding a subdivision to read:

(c) A child may receive services under this subdivision for up to 30 days and must be subject to the screening and admissions criteria and processes under section 245.4885 thereafter.

Sec. 9. Minnesota Statutes 2021 Supplement, section 245.4885, subdivision 1, is amended to read:

Subdivision 1. Admission criteria. (a) Prior to admission or placement, except in the case of an emergency, all children referred for treatment of severe emotional disturbance
in a treatment foster care setting, residential treatment facility, or informally admitted to a regional treatment center shall undergo an assessment to determine the appropriate level of care if county funds are used to pay for the child's services. An emergency includes when a child is in need of and has been referred for crisis stabilization services under section 245.4882, subdivision 6. A child who has been referred to residential treatment for crisis stabilization services in a residential treatment center is not required to undergo an assessment under this section.

(b) The county board shall determine the appropriate level of care for a child when county-controlled funds are used to pay for the child's residential treatment under this chapter, including residential treatment provided in a qualified residential treatment program as defined in section 260C.007, subdivision 26d. When a county board does not have responsibility for a child's placement and the child is enrolled in a prepaid health program under section 256B.69, the enrolled child's contracted health plan must determine the appropriate level of care for the child. When Indian Health Services funds or funds of a tribally owned facility funded under the Indian Self-Determination and Education Assistance Act, Public Law 93-638, are used for the child, the Indian Health Services or 638 tribal health facility must determine the appropriate level of care for the child. When more than one entity bears responsibility for a child's coverage, the entities shall coordinate level of care determination activities for the child to the extent possible.

(c) The child's level of care determination shall determine whether the proposed treatment:

(1) is necessary;

(2) is appropriate to the child's individual treatment needs;

(3) cannot be effectively provided in the child's home; and

(4) provides a length of stay as short as possible consistent with the individual child's needs.

(d) When a level of care determination is conducted, the county board or other entity may not determine that a screening of a child, referral, or admission to a residential treatment facility is not appropriate solely because services were not first provided to the child in a less restrictive setting and the child failed to make progress toward or meet treatment goals in the less restrictive setting. The level of care determination must be based on a diagnostic assessment of a child that evaluates the child's family, school, and community living situations; and an assessment of the child's need for care out of the home using a validated tool which assesses a child's functional status and assigns an appropriate level of care to the child. The validated tool must be approved by the commissioner of human services and...
may be the validated tool approved for the child's assessment under section 260C.704 if the
juvenile treatment screening team recommended placement of the child in a qualified
residential treatment program. If a diagnostic assessment has been completed by a mental
health professional within the past 180 days, a new diagnostic assessment need not be
completed unless in the opinion of the current treating mental health professional the child's
mental health status has changed markedly since the assessment was completed. The child's
parent shall be notified if an assessment will not be completed and of the reasons. A copy
of the notice shall be placed in the child's file. Recommendations developed as part of the

(f) Reporting requirements for municipal projects using $25,000 or more of settlement funds in a calendar year must also include:

1. a brief qualitative description of successes or challenges; and

Sec. 63. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 5m, is amended to read:

Subd. 5m. Certified community behavioral health clinic services. (a) Medical assistance covers services provided by a not-for-profit certified community behavioral health clinic (CCBHC) that meet the requirements of section 245.735, subdivision 3.

(b) The commissioner shall reimburse CCBHCs on a per-visit per-day basis under the prospective payment for each day that an eligible service is delivered using the CCBHC daily bundled rate system for medical assistance payments as described in paragraph (c). The commissioner shall include a quality incentive payment in the prospective payment CCBHC daily bundled rate system as described in paragraph (e). There is no county share for medical assistance services when reimbursed through the CCBHC prospective payment daily bundled rate system.

(c) The commissioner shall ensure that the prospective payment CCBHC daily bundled rate system for CCBHC payments under medical assistance meets the following requirements:

1. the prospective payment CCBHC daily bundled rate shall be a provider-specific rate calculated for each CCBHC, based on the daily cost of providing CCBHC services and the total annual allowable CCBHC costs for CCBHCs divided by the total annual number of CCBHC visits. For calculating the payment rate, total annual visits include visits covered by medical assistance and visits not covered by medical assistance. Allowable costs include but are not limited to the salaries and benefits of medical assistance providers; the cost of CCBHC services provided under section 245.735, subdivision 3, paragraph (a), clauses (6) and (7); and other costs such as insurance or supplies needed to provide CCBHC services;
(2) payment shall be limited to one payment per day per medical assistance enrollee for each when an eligible CCBHC visit eligible for reimbursement service is provided. A CCBHC visit is eligible for reimbursement if at least one of the CCBHC services listed under section 245.735, subdivision 3, paragraph (a), clause (6), is furnished to a medical assistance enrollee by a health care practitioner or licensed agency employed by or under contract with a CCBHC;

(3) new payment initial CCBHC daily bundled rates set by the commissioner for newly certified CCBHCs under section 245.735, subdivision 3, shall be based on rates for established CCBHCs with a similar scope of services. If no comparable CCBHC exists, the commissioner shall establish a clinic-specific rate using audited historical cost report data adjusted for the estimated cost of delivering CCBHC services, including the estimated cost of providing the full scope of services and the projected change in visits resulting from the change in scope established by the commissioner using a provider-specific rate based on the newly certified CCBHC’s audited historical cost report data adjusted for the expected cost of delivering CCBHC services. Estimates are subject to review by the commissioner and must include the expected cost of providing the full scope of CCBHC services and the expected number of visits for the rate period;

(4) the commissioner shall rebase CCBHC rates once every three years following the last rebasing and no less than 12 months following an initial rate or a rate change due to a change in the scope of services;

(5) the commissioner shall provide for a 60-day appeals process after notice of the results of the rebasing;

(6) the prospective payment CCBHC daily bundled rate under this section does not apply to services rendered by CCBHCs to individuals who are dually eligible for Medicare and medical assistance when Medicare is the primary payer for the service. An entity that receives a prospective payment CCBHC daily bundled rate system rate that overlaps with the CCBHC rate is not eligible for the CCBHC rate;

(7) payments for CCBHC services to individuals enrolled in managed care shall be coordinated with the state’s phase-out of CCBHC wrap payments. The commissioner shall complete the phase-out of CCBHC wrap payments within 60 days of the implementation of the prospective payment CCBHC daily bundled rate system in the Medicaid Management Information System (MMIS), for CCBHCs reimbursed under this chapter, with a final settlement of payments due made payable to CCBHCs no later than 18 months thereafter;
(8) The prospective payment CCBHC daily bundled rate for each CCBHC shall be updated by trending each provider-specific rate by the Medicare Economic Index for primary care services. This update shall occur each year in between rebasing periods determined by the commissioner in accordance with clause (4). CCBHCs must provide data on costs and visits to the state annually using the CCBHC cost report established by the commissioner; and

(9) A CCBHC may request a rate adjustment for changes in the CCBHC’s scope of services when such changes are expected to result in an adjustment to the CCBHC payment rate by 2.5 percent or more. The CCBHC must provide the commissioner with information regarding the changes in the scope of services, including the estimated cost of providing the new or modified services and any projected increase or decrease in the number of visits resulting from the change. Estimated costs are subject to review by the commissioner. Rate adjustments for changes in scope shall occur no more than once per year in between rebasing periods per CCBHC and are effective on the date of the annual CCBHC rate update.

(d) Managed care plans and county-based purchasing plans shall reimburse CCBHC providers at the prospective payment CCBHC daily bundled rate. The commissioner shall monitor the effect of this requirement on the rate of access to the services delivered by CCBHC providers. If, for any contract year, federal approval is not received for this paragraph, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this provision. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph applies must allow recovery of payments from those providers if capitation rates are adjusted in accordance with this paragraph. Payment recoveries must not exceed the amount equal to any increase in rates that results from this provision. This paragraph expires if federal approval is not received for this paragraph at any time.

(e) The commissioner shall implement a quality incentive payment program for CCBHCs that meets the following requirements:

(1) A CCBHC shall receive a quality incentive payment upon meeting specific numeric thresholds for performance metrics established by the commissioner, in addition to payments for which the CCBHC is eligible under the prospective payment CCBHC daily bundled rate system described in paragraph (e);

(2) A CCBHC must be certified and enrolled as a CCBHC for the entire measurement year to be eligible for incentive payments;
(3) each CCBHC shall receive written notice of the criteria that must be met in order to receive quality incentive payments at least 90 days prior to the measurement year; and

(4) a CCBHC must provide the commissioner with data needed to determine incentive payment eligibility within six months following the measurement year. The commissioner shall notify CCBHC providers of their performance on the required measures and the incentive payment amount within 12 months following the measurement year.

(f) All claims to managed care plans for CCBHC services as provided under this section shall be submitted directly to, and paid by, the commissioner on the dates specified no later than January 1 of the following calendar year, if:

(1) one or more managed care plans does not comply with the federal requirement for payment of clean claims to CCBHCs, as defined in Code of Federal Regulations, title 42, section 447.45(b), and the managed care plan does not resolve the payment issue within 30 days of noncompliance; and

(2) the total amount of clean claims not paid in accordance with federal requirements by one or more managed care plans is 50 percent of, or greater than, the total CCBHC claims eligible for payment by managed care plans.

If the conditions in this paragraph are met between January 1 and June 30 of a calendar year, claims shall be submitted to and paid by the commissioner beginning on January 1 of the following year. If the conditions in this paragraph are met between July 1 and December 31 of a calendar year, claims shall be submitted to and paid by the commissioner beginning on July 1 of the following year.

Sec. 64. Minnesota Statutes 2020, section 256B.0757, subdivision 5, is amended to read:

Subd. 5. Payments. The commissioner shall make payments to each designated provider for the provision of health home services described in subdivision 3 to each eligible individual under subdivision 2 that selects the health home as a provider under this section. In setting this rate, the commissioner must include input from stakeholders, including providers of the services. The statewide reimbursement rate shall be adjusted annually to match the growth in the Medicare Economic Index.

Sec. 65. Minnesota Statutes 2021 Supplement, section 256B.0759, subdivision 4, is amended to read:

Subd. 4. Provider payment rates. (a) Payment rates for participating providers must be increased for services provided to medical assistance enrollees. To receive a rate increase, participating providers must meet demonstration project requirements and provide evidence of formal referral arrangements with providers delivering step-up or step-down levels of care. Providers that have enrolled in the demonstration project but have not met the provider standards under subdivision 3 as of July 1, 2022, are not eligible for a rate increase under this subdivision until the date that the provider meets the provider standards in subdivision 3. Services provided from July 1, 2022, to the date that the provider meets the provider standards under subdivision 3 shall be reimbursed at rates according to section 254B.05, subdivision 5, paragraph (b). Rate increases paid under this subdivision to a provider for services provided between July 1, 2021, and July 1, 2022, are not subject to recoupment when the provider is taking meaningful steps to meet demonstration project requirements that are not otherwise required by law, and the provider provides documentation to the commissioner, upon request, of the steps being taken.

(b) The commissioner may temporarily suspend payments to the provider according to section 256B.04, subdivision 21, paragraph (d), if the provider does not meet the requirements in paragraph (a). Payments withheld from the provider must be made once the commissioner determines that the requirements in paragraph (a) are met.

(c) For substance use disorder services under section 254B.05, subdivision 5, paragraph (b), clause (8) (7), provided on or after July 1, 2020, payment rates must be increased by 25 percent over the rates in effect on December 31, 2019.

(d) For substance use disorder services under section 254B.05, subdivision 5, paragraph (b), clauses (1), and (6), and (7), and adolescent treatment programs that are licensed as outpatient treatment programs according to sections 245G.01 to 245G.18, provided on or after January 1, 2021, payment rates must be increased by 20 percent over the rates in effect on December 31, 2020.

(e) Effective January 1, 2021, and contingent on annual federal approval, managed care plans and county-based purchasing plans must reimburse providers of the substance use disorder services meeting the criteria described in paragraph (a) who are employed by or under contract with the plan an amount that is at least equal to the fee-for-service base rate payment for the substance use disorder services described in paragraphs (c) and (d). The commissioner must monitor the effect of this requirement on the rate of access to substance

use disorder services and residential substance use disorder rates. Capitation rates paid to
managed care organizations and county-based purchasing plans must reflect the impact of
this requirement. This paragraph expires if federal approval is not received at any time as
required under this paragraph.

(f) Effective July 1, 2021, contracts between managed care plans and county-based
purchasing plans and providers to whom paragraph (e) applies must allow recovery of
payments from those providers if, for any contract year, federal approval for the provisions
of paragraph (e) is not received, and capitation rates are adjusted as a result. Payment
recoveries must not exceed the amount equal to any decrease in rates that results from this
provision.

age or younger. The rate for a provider must not exceed the rate charged by that provider
for the same service to other payers. Payment must not be made to more than one entity for
each individual for services provided under this section on a given day. The commissioner
must set rates prospectively for the annual rate period. The commissioner must require
providers to submit annual cost reports on a uniform cost reporting form and must use

using the actual cost of salaries, benefits, payroll taxes, and training of direct services staff
and service-related transportation; and
(2) payment for room and board provided by facilities meeting all accreditation and licensing requirements for participation.

(c) A facility may submit a claim for payment outside of the per diem for professional services arranged by and provided at the facility by an appropriately licensed professional who is enrolled as a provider with Minnesota health care programs. Arranged services may be billed by either the facility or the licensed professional. These services must be included in the individual plan of care and are subject to prior authorization.

(d) Medicaid must reimburse for concurrent services as approved by the commissioner to support continuity of care and successful discharge from the facility. "Concurrent services" means services provided by another entity or provider while the individual is admitted to a psychiatric residential treatment facility. Payment for concurrent services may be limited and these services are subject to prior authorization by the state's medical review agent. (f) For purposes of this section, "actual cost" means costs that are allowable, allocable, reasonable, and consistent with federal reimbursement requirements in Code of Federal Regulations, title 48, chapter 1, part 31, relating to for-profit entities, and the Office of Management and Budget Circular Number A-122, relating to nonprofit entities.

(g) The commissioner shall consult with providers and stakeholders to develop an assessment tool that identifies when a child with a medical necessity for psychiatric residential treatment facility level of care will require specialized care planning, including but not limited to a one-on-one staffing ratio in a living environment. The commissioner must develop the tool based on clinical and safety review and recommend best uses of the protocols to align with reimbursement structures.

for or receiving financial assistance is drug dependent, as defined in section 254A.02,
subdivision 5, the person shall be referred for a chemical health assessment, and only
emergency assistance payments or general assistance vendor payments may be provided
until the assessment is complete and the results of the assessment made available to the

assistance only in the form of vendor payments to all eligible recipients who assert chemical
dependency as a basis for eligibility under section 256D.05, subdivision 1, paragraph (a),

Subdivision 1. Investigation. Upon request of the court the local social services agency or probation officer shall investigate the personal and family history and environment of any minor coming within the jurisdiction of the court under section 260B.101 and shall report its findings to the court. The court may order any minor coming within its jurisdiction to be examined by a duly qualified physician, psychiatrist, or psychologist appointed by the court.
The court shall order a chemical use assessment conducted when a child is (1) found to be delinquent for violating a provision of chapter 152, or for committing a felony-level violation of a provision of chapter 609 if the probation officer determines that alcohol or drug use was a contributing factor in the commission of the offense, or (2) alleged to be delinquent for violating a provision of chapter 152, if the child is being held in custody under a detention order. The assessor's qualifications must comply with section 245G.11, subdivisions 1 and 5, and the assessment criteria must comply with Minnesota Rules, parts 9530.6600 to 9530.6655. If funds under chapter 254B are to be used to pay for the recommended treatment, the assessment and placement must comply with all provisions of Minnesota Rules, parts 9530.6600 to 9530.6655 and 9530.7000 to 9530.7030 sections 245G.05 and 254B.04. The commissioner of human services shall reimburse the court for the cost of the chemical use assessment, up to a maximum of $100.

The court shall order a children's mental health screening conducted when a child is found to be delinquent. The screening shall be conducted with a screening instrument approved by the commissioner of human services and shall be conducted by a mental health practitioner as defined in section 245.4871, subdivision 26, or a probation officer who is trained in the use of the screening instrument. If the screening indicates a need for assessment, the local social services agency, in consultation with the child's family, shall have a diagnostic assessment conducted, including a functional assessment, as defined in section 245.4871.

With the consent of the commissioner of corrections and agreement of the county to pay the costs thereof, the court may, by order, place a minor coming within its jurisdiction in an institution maintained by the commissioner for the detention, diagnosis, custody and treatment of persons adjudicated to be delinquent, in order that the condition of the minor be given due consideration in the disposition of the case. Any funds received under the provisions of this subdivision shall not cancel until the end of the fiscal year immediately following the fiscal year in which the funds were received. The funds are available for use by the commissioner of corrections during that period and are hereby appropriated annually to the commissioner of corrections as reimbursement of the costs of providing these services to the juvenile courts.

Sec. 84. Minnesota Statutes 2020, section 260B.157, subdivision 3, is amended to read:

Subd. 3. Juvenile treatment screening team. (a) The local social services agency shall establish a juvenile treatment screening team to conduct screenings and prepare case plans under this subdivision. The team, which may be the team constituted under section 245.4885 or 256B.092 or Minnesota Rules, parts 9530.6600 to 9530.6655 chapter 254B, shall consist
of social workers, juvenile justice professionals, and persons with expertise in the treatment
of juveniles who are emotionally disabled, chemically dependent, or have a developmental
disability. The team shall involve parents or guardians in the screening process as appropriate.
The team may be the same team as defined in section 260C.157, subdivision 3.

(b) If the court, prior to, or as part of, a final disposition, proposes to place a child:

(1) for the primary purpose of treatment for an emotional disturbance, and residential
placement is consistent with section 260.012, a developmental disability, or chemical
dependency in a residential treatment facility out of state or in one which is within the state
and licensed by the commissioner of human services under chapter 245A; or

(2) in any out-of-home setting potentially exceeding 30 days in duration, including a
post-dispositional placement in a facility licensed by the commissioner of corrections or
human services, the court shall notify the county welfare agency. The county's juvenile
treatment screening team must either:

(i) screen and evaluate the child and file its recommendations with the court within 14
days of receipt of the notice; or

(ii) elect not to screen a given case, and notify the court of that decision within three
working days.

(c) If the screening team has elected to screen and evaluate the child, the child may not
be placed for the primary purpose of treatment for an emotional disturbance, a developmental
disability, or chemical dependency, in a residential treatment facility out of state nor in a
residential treatment facility within the state that is licensed under chapter 245A, unless one
of the following conditions applies:

(1) a treatment professional certifies that an emergency requires the placement of the
child in a facility within the state;

(2) the screening team has evaluated the child and recommended that a residential
placement is necessary to meet the child's treatment needs and the safety needs of the
community, that it is a cost-effective means of meeting the treatment needs, and that it will
be of therapeutic value to the child; or

(3) the court, having reviewed a screening team recommendation against placement,
determines to the contrary that a residential placement is necessary. The court shall state
the reasons for its determination in writing, on the record, and shall respond specifically to
the findings and recommendation of the screening team in explaining why the
recommendation was rejected. The attorney representing the child and the prosecuting
attorney shall be afforded an opportunity to be heard on the matter.

Sec. 85. Minnesota Statutes 2021 Supplement, section 260C.157, subdivision 3, is amended
to read:

Subd. 3. Juvenile treatment screening team. (a) The responsible social services agency
shall establish a juvenile treatment screening team to conduct screenings under this chapter
and chapter 260D, for a child to receive treatment for an emotional disturbance, a
developmental disability, or related condition in a residential treatment facility licensed by
the commissioner of human services under chapter 245A, or licensed or approved by a
Tribe. A screening team is not required for a child to be in: (1) a residential facility
specializing in prenatal, postpartum, or parenting support; (2) a facility specializing in high-quality residential care and supportive services to children and youth who have been
or are at risk of becoming victims of sex trafficking or commercial sexual exploitation; (3)
supervised settings for youth who are 18 years of age or older and living independently; or
(4) a licensed residential family-based treatment facility for substance abuse consistent with
section 260C.190. Screenings are also not required when a child must be placed in a facility
due to an emotional crisis or other mental health emergency.

(b) The responsible social services agency shall conduct screenings within 15 days of a
request for a screening, unless the screening is for the purpose of residential treatment and
the child is enrolled in a prepaid health program under section 256B.69, in which case the
agency shall conduct the screening within ten working days of a request. The responsible
social services agency shall convene the juvenile treatment screening team, which may be
constituted under section 245.4885 or 254B.05, or 256B.092 or Minnesota Rules, parts 9530.6600 to 9530.6655. The team shall consist of social workers; persons with expertise
in the treatment of juveniles who are emotionally disturbed, chemically dependent, or have
a developmental disability; and the child's parent, guardian, or permanent legal custodian.
The team may include the child's relatives as defined in section 260C.007, subdivisions 26b
and 27, the child's foster care provider, and professionals who are a resource to the child's
family such as teachers, medical or mental health providers, and clergy, as appropriate,
consistent with the family and permanency team as defined in section 260C.007, subdivision
16a. Prior to forming the team, the responsible social services agency must consult with the
child's parents, the child if the child is age 14 or older, and, if applicable, the child's Tribe
to obtain recommendations regarding which individuals to include on the team and to ensure
that the team is family-centered and will act in the child's best interests. If the child, child's
parents, or legal guardians raise concerns about specific relatives or professionals, the team
should not include those individuals. This provision does not apply to paragraph (c).

(c) If the agency provides notice to Tribes under section 260.761, and the child screened
is an Indian child, the responsible social services agency must make a rigorous and concerted
effort to include a designated representative of the Indian child's Tribe on the juvenile
treatment screening team, unless the child's Tribal authority declines to appoint a
representative. The Indian child's Tribe may delegate its authority to represent the child to
any other federally recognized Indian Tribe, as defined in section 260.755, subdivision 12.
1901 to 1963, and the Minnesota Indian Family Preservation Act, sections 260.751 to
260.835, apply to this section.

(d) If the court, prior to, or as part of, a final disposition or other court order, proposes
to place a child with an emotional disturbance or developmental disability or related condition
in residential treatment, the responsible social services agency must conduct a screening.
If the team recommends treating the child in a qualified residential treatment program, the
agency must follow the requirements of sections 260C.70 to 260C.714.

The court shall ascertain whether the child is an Indian child and shall notify the
responsible social services agency and, if the child is an Indian child, shall notify the Indian
child's Tribe as paragraph (c) requires.

(e) When the responsible social services agency is responsible for placing and caring
for the child and the screening team recommends placing a child in a qualified residential
treatment program as defined in section 260C.007, subdivision 26d, the agency must: (1)
begin the assessment and processes required in section 260C.704 without delay; and (2)
conduct a relative search according to section 260C.221 to assemble the child's family and
permanency team under section 260C.706. Prior to notifying relatives regarding the family
and permanency team, the responsible social services agency must consult with the child's
parent or legal guardian, the child if the child is age 14 or older, and, if applicable, the child's
Tribe to ensure that the agency is providing notice to individuals who will act in the child's
best interests. The child and the child's parents may identify a culturally competent qualified
individual to complete the child's assessment. The agency shall make efforts to refer the
assessment to the identified qualified individual. The assessment may not be delayed for
the purpose of having the assessment completed by a specific qualified individual.

(f) When a screening team determines that a child does not need treatment in a qualified
residential treatment program, the screening team must:
(1) document the services and supports that will prevent the child's foster care placement and will support the child remaining at home;

(2) document the services and supports that the agency will arrange to place the child in a family foster home; or

(3) document the services and supports that the agency has provided in any other setting.

(g) When the Indian child's Tribe or Tribal health care services provider or Indian Health Services provider proposes to place a child for the primary purpose of treatment for an emotional disturbance, a developmental disability, or co-occurring emotional disturbance and chemical dependency, the Indian child's Tribe or the Tribe delegated by the child's Tribe shall submit necessary documentation to the county juvenile treatment screening team, which must invite the Indian child's Tribe to designate a representative to the screening team.

(h) The responsible social services agency must conduct and document the screening in a format approved by the commissioner of human services.

Sec. 86. Minnesota Statutes 2020, section 260E.20, subdivision 1, is amended to read:

Subdivision 1. General duties. (a) The local welfare agency shall offer services to prevent future maltreatment, safeguarding and enhancing the welfare of the maltreated child, and supporting and preserving family life whenever possible.

(b) If the report alleges a violation of a criminal statute involving maltreatment or child endangerment under section 609.378, the local law enforcement agency and local welfare agency shall coordinate the planning and execution of their respective investigation and assessment efforts to avoid a duplication of fact-finding efforts and multiple interviews. Each agency shall prepare a separate report of the results of the agency's investigation or assessment.

(c) In cases of alleged child maltreatment resulting in death, the local agency may rely on the fact-finding efforts of a law enforcement investigation to make a determination of whether or not maltreatment occurred.

(d) When necessary, the local welfare agency shall seek authority to remove the child from the custody of a parent, guardian, or adult with whom the child is living.

(e) In performing any of these duties, the local welfare agency shall maintain an appropriate record.
(f) In conducting a family assessment or investigation, the local welfare agency shall gather information on the existence of substance abuse and domestic violence.

(g) If the family assessment or investigation indicates there is a potential for abuse of alcohol or other drugs by the parent, guardian, or person responsible for the child's care, the local welfare agency shall conduct a chemical use assessment pursuant to Minnesota Rules, part 9530.6615 section 245G.05.

(h) The agency may use either a family assessment or investigation to determine whether the child is safe when responding to a report resulting from birth match data under section 260E.03, subdivision 23, paragraph (c). If the child subject of birth match data is determined to be safe, the agency shall consult with the county attorney to determine the appropriateness of filing a petition alleging the child is in need of protection or services under section 260C.007, subdivision 6, clause (16), in order to deliver needed services. If the child is determined not to be safe, the agency and the county attorney shall take appropriate action as required under section 260C.503, subdivision 2.

Sec. 87. Minnesota Statutes 2020, section 299A.299, subdivision 1, is amended to read:

If any of the information is not available, the nursing facility shall must document its good faith attempt to obtain the information;

(4) include contracts, agreements, amortization schedules, mortgages, other debt instruments, and all other documents necessary to explain the nursing facility's costs or revenues; and

days worked each pay period, the number of hours worked each day, and the number of
hours taken each day by the individual for vacation, sick, and other leave are placed on
microfilm stored electronically, equipment must be made available for viewing and printing

viewing and printing the records.

The cost of an audit shall must not be an allowable cost unless the nursing facility submits its audited financial statements in the manner otherwise specified in this subdivision. A nursing facility must permit access by the state agency to the public accountant's audit work papers that support the audited financial statements submitted under paragraph (a).

(c) Documents or information provided to the state agency pursuant to this subdivision shall must be public unless prohibited by the Health Insurance Portability and Accountability Act or any other federal or state regulation. Data, notes, and preliminary drafts of reports created, collected, and maintained by the audit offices of government entities, or persons performing audits for government entities, and relating to an audit or investigation are confidential data on individuals or protected nonpublic data until the final report has been published or the audit or investigation is no longer being pursued actively, except that the data must be disclosed as required to comply with section 6.67 or 609.456.

(d) If the requirements of paragraphs (a) and (b) are not met, the reimbursement rate may be reduced to 80 percent of the rate in effect on the first day of the fourth calendar month after the close of the reporting period and the reduction shall must continue until the requirements are met.
Sec. 22. Minnesota Statutes 2020, section 256R.09, subdivision 2, is amended to read:

Subd. 2. Reporting of statistical and cost information. All nursing facilities shall provide information annually to the commissioner on a form and in a manner determined by the commissioner. The commissioner may also require nursing facilities to provide statistical and cost information for a subset of the items in the annual report on a semiannual basis. Nursing facilities shall report only costs directly related to the operation of the nursing facility. The facility shall not include costs which are separately reimbursed or reimbursable by residents, medical assistance, or other payors. Allocations of costs from central, affiliated, or corporate office and related organization transactions shall be reported according to sections 256R.07, subdivision 3, and 256R.12, subdivisions 1 to 7. The commissioner shall not grant facilities extensions to the filing deadline.

Sec. 23. Minnesota Statutes 2020, section 256R.09, subdivision 5, is amended to read:

Subd. 5. Method of accounting. The accrual method of accounting in accordance with generally accepted accounting principles is the only method acceptable for purposes of satisfying the reporting requirements of this chapter. If a governmentally owned nursing facility demonstrates that the accrual method of accounting is not applicable to its accounts and that a cash or modified accrual method of accounting more accurately reports the nursing facility's financial operations, the commissioner shall permit the governmentally owned nursing facility to use a cash or modified accrual method of accounting. For reimbursement purposes, the accrued expense must be paid by the providers within 180 days following the end of the reporting period. An expense disallowed by the commissioner under this section in any cost report period must not be claimed by a provider on a subsequent cost report. Specific exemptions to the 180-day rule may be granted by the commissioner for documented contractual arrangements such as receivership, property tax installment payments, and pension contributions.

575.1 to 181.217, 181.275, subdivision 2a, 181.722, 181.79, and 181.939 to 181.943, or with any rule promulgated under section 177.28 or 181.213. The commissioner shall issue an order requiring an employer to comply with sections 177.41 to 177.435 if the violation is repeated. For purposes of this subdivision only, a violation is repeated if at any time during the two years that preceded the date of violation, the commissioner issued an order to the employer for violation of sections 177.41 to 177.435 and the order is final or the commissioner and the employer have entered into a settlement agreement that required the employer to pay back wages that were required by sections 177.41 to 177.435. The department shall serve the order upon the employer or the employer's authorized representative in person or by certified mail at the employer's place of business. An employer who wishes to contest the order must file written notice of objection to the order with the commissioner within 15 calendar days after being served with the order. A contested case proceeding must then be held in accordance with sections 14.57 to 14.69. If, within 15 calendar days after being served with the order, the employer fails to file a written notice of objection with the commissioner, the order becomes a final order of the commissioner.

Sec. 2. Minnesota Statutes 2020, section 177.27, subdivision 7, is amended to read:

Subd. 7. Employer liability. The commissioner shall order the employer to pay to the aggrieved parties back pay, gratuities, and compensatory damages, less any amount actually paid to the employee by the employer, and for an additional equal amount as liquidated damages. Any employer who is found by the commissioner to have repeatedly or willfully violated a section or sections identified in subdivision 4 shall be subject to a civil penalty of up to $1,000 for each violation for each employee. In determining the amount of a civil penalty under this subdivision, the appropriateness of such penalty to the size of the employer's business and the gravity of the violation shall be considered. In addition, the commissioner may order the employer to reimburse the department and the attorney general for all appropriate litigation and hearing costs expended in preparation for and in conducting the contested case proceeding, unless payment of costs would impose extreme financial hardship on the employer. If the employer is able to establish extreme financial hardship, then the commissioner may order the employer to pay a percentage of the total costs that will not cause extreme financial hardship. Costs include but are not limited to the costs of
services rendered by the attorney general, private attorneys if engaged by the department, administrative law judges, court reporters, and expert witnesses as well as the cost of transcripts. Interest shall accrue on, and be added to, the unpaid balance of a commissioner's order from the date the order is signed by the commissioner until it is paid, at an annual rate provided in section 549.09, subdivision 1, paragraph (c). Standards established by the board must include, as appropriate, standards on compensation, working hours, and other working conditions for nursing home workers. Any standards established by the board under this section must be at least as protective of or beneficial to nursing home workers as any other applicable statute or rule or any standard previously established by the board. In establishing standards under this section, the board may establish statewide standards, standards that apply to specific nursing home occupations, standards that apply to specific geographic areas within the state, or any combination thereof.
(b) The board must adopt rules establishing initial standards for wages and working
hours for nursing home workers no later than August 1, 2023. The board may use the
authority in section 14.389 to adopt rules under this paragraph.

(c) To the extent that any minimum standards that the board finds are reasonably
necessary and appropriate to protect the health and welfare of nursing home workers fall
within the jurisdiction of chapter 182, the board shall not adopt rules establishing the
standards but shall instead recommend the standards to the commissioner of labor and
industry. The commissioner of labor and industry shall adopt nursing home health and safety
standards under section 182.655 as recommended by the board, unless the commissioner

conditions and the existing wages, benefits, and working conditions of nursing home workers
for specific geographic areas of the state and specific nursing home occupations. Based on
this information, the board must seek to adopt minimum nursing home employment standards

the relevant geographic area and nursing home occupation. The board must consider the

necessary to protect the health and welfare of nursing home workers:

Subd. 2. Curriculum. (a) The board shall establish requirements for the curriculum for the nursing home worker training required by this section. A curriculum must at least provide the following information to nursing home workers:

3. information on how to enforce sections 181.211 to 181.217 and on how to report violations of sections 181.211 to 181.217 or of standards established by the board, including contact information for the Department of Labor and Industry, the board, and any local enforcement agencies, and information on the remedies available for violations;
4. the purposes and functions of the board and information on upcoming hearings, investigations, or other opportunities for nursing home workers to become involved in board proceedings;

(b) Before establishing initial curriculum requirements, the board must hold at least one public hearing to solicit input on the requirements.

Subd. 3. Topics covered in training session. A certified worker organization is not required to cover all of the topics listed in subdivision 2 in a single training session. A curriculum used by a certified worker organization may provide instruction on each topic listed in subdivision 2 over the course of up to three training sessions.

Subd. 4. Annual review of curriculum requirements. The board must review the adequacy of its curriculum requirements at least annually and must revise the requirements as appropriate to meet the purposes of sections 181.211 to 181.217. As part of each annual review of the curriculum requirements, the board must hold at least one public hearing to solicit input on the requirements.

Subd. 5. Duties of certified worker organizations. A certified worker organization:
Subd. 5. Training requirements.

(1) must use a curriculum for its training sessions that meets requirements established
by the board;

(2) must provide trainings that are interactive and conducted in the languages in which
the attending nursing home workers are proficient;

(3) must, at the end of each training session, provide attending nursing home workers
with follow-up written or electronic materials on the topics covered in the training session,

181.211 to 181.217 and other applicable laws, rules, and ordinances governing nursing
home working conditions or worker health and safety;

(4) must make itself reasonably available to respond to inquiries from nursing home
workers during and after training sessions; and

the effectiveness of the training session and industry compliance with sections 181.211 to
181.217 and other applicable laws, rules, and ordinances governing nursing home working
conditions or worker health and safety.

Subd. 6. Nursing home employer duties regarding training.

(a) A nursing home employer must ensure, and must provide proof to the commissioner of labor and industry,
that every six months each of its nursing home workers completes one hour of training that
meets the requirements of this section and is provided by a certified worker organization.

A nursing home employer may, but is not required to, host training sessions on the premises
of the nursing home.

(b) If requested by a certified worker organization, a nursing home employer must, after
a training session provided by the certified worker organization, provide the certified worker
organization with the names and contact information of the nursing home workers who
attended the training session, unless a nursing home worker opts out according to paragraph
(c).

(c) A nursing home worker may opt out of having the worker's nursing home employer
provide the worker's name and contact information to a certified worker organization that
provided a training session attended by the worker by submitting a written statement to that
effect to the nursing home employer.

Subd. 7. Compensation. A nursing home employer must compensate its nursing home
workers at their regular hourly rate of wages and benefits for each hour of training completed
as required by this section.
Sec. 7. [181.215] REQUIRED NOTICES.

Subdivision 1. Provision of notice. (a) Nursing home employers must provide notices informing nursing home workers of the rights and obligations provided under sections 181.211 to 181.217 of applicable minimum nursing home employment standards or local minimum standards and that for assistance and information, nursing home workers should contact the Department of Labor and Industry. A nursing home employer must provide notice using the same means that the nursing home employer uses to provide other work-related notices to nursing home workers. Provision of notice must be at least as conspicuous as:

(1) posting a copy of the notice at each work site where nursing home workers work and where the notice may be readily observed and reviewed by all nursing home workers working at the site; or

(2) providing a paper or electronic copy of the notice to all nursing home workers and applicants for employment as a nursing home worker.

(b) The notice required by this subdivision must include text provided by the board that informs nursing home workers that they may request the notice to be provided in a particular language. The nursing home employer must provide the notice in the language requested by the nursing home worker. The board must assist nursing home employers in translating the notice in the languages requested by their nursing home workers.

Subd. 2. Minimum content and posting requirements. The board must adopt rules specifying the minimum content and posting requirements for the notices required in subdivision 1. The board must make available to nursing home employers a template or sample notice that satisfies the requirements of this section and rules adopted under this section.

It shall be unlawful for a nursing home employer to employ a nursing home worker for lower wages or for longer hours than those established as the minimum nursing home employment standards or under any other working conditions that violate the minimum nursing home employment standards.

Subd. 2. Investigations. Such an action may be filed in the district court of the county where a violation or violations are alleged to have been committed or where the nursing home employer resides, or in any other court of competent jurisdiction, and may represent a class of similarly situated nursing home workers.

(b) Upon a finding of one or more violations, a nursing home employer shall be liable to each nursing home worker for the full amount of the wages, benefits, and overtime compensation, less any amount the nursing home employer is able to establish was actually paid to each nursing home worker and for an additional equal amount as liquidated damages. In an action under this subdivision, nursing home workers may seek damages and other appropriate relief provided by section 177.27, subdivision 7, or otherwise provided by law, including reasonable costs, disbursements, witness fees, and attorney fees. 2. the person has been determined by a community assessment under section 256B.0911 to be a person who would require the level of care provided in a nursing facility, as determined under section 256B.0911, subdivision 4e, but for the provision of services under the alternative care program;
3. the person is age 65 or older;
4. the person would be eligible for medical assistance within 135 days of admission to a nursing facility;

6. the person needs long-term care services that are not funded through other state or federal funding, or other health insurance or other third-party insurance such as long-term care insurance;
7. except for individuals described in clause (8), the monthly cost of the alternative care services funded by the program for this person does not exceed 75 percent of the monthly limit described under section 256S.18. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased under this section exceed the difference between the client's monthly service limit defined under section 256S.04, and the alternative care program monthly service limit defined in this paragraph. If care-related supplies and equipment or...
environmental modifications and adaptations are or will be purchased for an alternative care services recipient, the costs may be prorated on a monthly basis for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's other alternative care services exceeds the monthly limit established in this paragraph, the annual cost of the alternative care services shall must be determined. In this event, the annual cost of alternative care services shall must not exceed 12 times the monthly limit described in this paragraph;

(8) for individuals assigned a case mix classification A as described under section 256S.18, with (i) no dependencies in activities of daily living, or (ii) up to two dependencies in bathing, dressing, grooming, walking, and eating when the dependency score in eating is three or greater as determined by an assessment performed under section 256B.0911, the monthly cost of alternative care services funded by the program cannot exceed $593 per month for all new participants enrolled in the program on or after July 1, 2011. This monthly limit must shall be increased annually as described in section 256S.18. This monthly limit does not prohibit the alternative care client from payment for additional services, but in no case may the cost of additional services purchased exceed the difference between the client's monthly service limit defined in this clause and the limit described in clause (7) for case mix classification A; and

(9) the person is making timely payments of the assessed monthly fee; and

(10) for a person participating in consumer-directed community supports, the person's monthly service limit must be equal to the monthly service limits in clause (7), except that a person assigned a case mix classification L must receive the monthly service limit for case mix classification A.

A person is ineligible if payment of the fee is over 60 days past due, unless the person agrees to:

(i) the appointment of a representative payee;

(ii) automatic payment from a financial account;

(iii) the establishment of greater family involvement in the financial management of payments; or

(iv) another method acceptable to the lead agency to ensure prompt fee payments.

The lead agency may extend the client's eligibility as necessary while making arrangements to facilitate payment of past-due amounts and future premium payments.
Following disenrollment due to nonpayment of a monthly fee, eligibility shall not be reinstated for a period of 30 days.

(b) Alternative care funding under this subdivision is not available for a person who is a medical assistance recipient or who would be eligible for medical assistance without a spenddown or waiver obligation. A person whose initial application for medical assistance and the elderly waiver program is being processed may be served under the alternative care program for a period up to 60 days. If the individual is found to be eligible for medical assistance, medical assistance must be billed for services payable under the federally approved elderly waiver plan and delivered from the date the individual was found eligible for the federally approved elderly waiver plan. Notwithstanding this provision, alternative care funds may not be used to pay for any service the cost of which: (i) is payable by medical assistance; (ii) is used by a recipient to meet a waiver obligation; or (iii) is used to pay a medical assistance income spenddown for a person who is eligible to participate in the federally approved elderly waiver program under the special income standard provision.

(c) Alternative care funding is not available for a person who resides in a licensed nursing home, certified boarding care home, hospital, or intermediate care facility, except for case management services which are provided in support of the discharge planning process for a nursing home resident or certified boarding care home resident to assist with a relocation process to a community-based setting.

(d) Alternative care funding is not available for a person whose income is greater than the maintenance needs allowance under section 256S.05, but equal to or less than 120 percent of the federal poverty guideline effective July 1 in the fiscal year for which alternative care eligibility is determined, who would be eligible for the elderly waiver with a waiver obligation.

3. multiply the result of clause (1) by the supplies and transportation factor; and

4. sum the results of clauses (1) to (3) and divide the result of clause (1) by four.
(b) The in-home respite care services daily rate equals the in-home respite care services
15-minute unit rate multiplied by 18.

Subd. 13. **Out-of-home respite care services rates.** (a) The 15-minute unit rate for
out-of-home respite care is calculated as follows:

1. sum the out-of-home respite care services adjusted base wage and the registered
nurse management and supervision factor wage component; and

2. multiply the result of clause (1) by the general and administrative factor;

3. multiply the result of clause (1) by the supplies and transportation factor; and

4. sum the results of clauses (1) to (3) and divide the result of clause (1) by four.

(b) The out-of-home respite care services daily rate equals the 15-minute unit rate for
out-of-home respite care services multiplied by 18.

Subd. 14. **Individual community living support rate.** The individual community living
support rate is calculated as follows:

1. sum the home care aide individual community living support adjusted base wage
and the social worker registered nurse management and supervision factor wage component;

2. multiply the result of clause (1) by the general and administrative factor;

3. multiply the result of clause (1) by the supplies and transportation factor; and

4. sum the results of clauses (1) to (3) and divide the result of clause (1) by four.

Subd. 15. **Home-delivered meals rate.** The home-delivered meals rate equals $9.30
$8.17. The commissioner shall increase the home delivered meals rate every July 1 by the
percent increase in the nursing facility dietary per diem using the two most recent and
available nursing facility cost reports.

Subd. 16. **Adult day services rate.** The 15-minute unit rate for adult day services,
with an assumed staffing ratio of one staff person to four participants, is the sum of is calculated
as follows:

1. one-sixteenth of the home care aide divide the adult day services adjusted base wage,
except that the general and administrative factor used to determine the home care aide
services adjusted base wage is 20 percent by five to reflect an assumed staffing ratio of one
to five;
(2) one-fourth of the registered nurse management and supervision factor sum the result of clause (1) and the registered nurse management and supervision wage component; and

(3) $0.63 to cover the cost of meals, multiply the result of clause (2) by the general and administrative factor;

(4) multiply the result of clause (2) by the facility and equipment factor;

(5) multiply the result of clause (2) by the food, supplies, and transportation factor; and

(6) sum the results of clauses (2) to (5) and divide the result by four.

Subd. 17. Adult day services bath rate. The 15-minute unit rate for adult day services bath is the sum of calculated as follows:

(1) one-fourth of the home care aide sum the adult day services adjusted base wage, except that the general and administrative factor used to determine the home care aide services adjusted base wage is 20 percent and the nurse management and supervision wage component;

(2) one-fourth of the registered nurse management and supervision factor multiply the result of clause (1) by the general and administrative factor; and

(3) $0.63 to cover the cost of meals, multiply the result of clause (1) by the facility and equipment factor;

(4) multiply the result of clause (1) by the food, supplies, and transportation factor; and

(5) sum the results of clauses (1) to (4) and divide the result by four.

ARTICLE 13

CHILD AND VULNERABLE ADULT PROTECTION POLICY

Section 1. Minnesota Statutes 2020, section 260.012, is amended to read:

260.012 DUTY TO ENSURE PLACEMENT PREVENTION AND FAMILY REUNIFICATION; REASONABLE EFFORTS.

(a) Once a child alleged to be in need of protection or services is under the court's jurisdiction, the court shall ensure that reasonable efforts, including culturally appropriate services and practices, by the social services agency are made to prevent placement or to eliminate the need for removal and to reunite the child with the child's family at the earliest possible time, and the court must ensure that the responsible social services agency makes
reasonable efforts to finalize an alternative permanent plan for the child as provided in paragraph (e). In determining reasonable efforts to be made with respect to a child and in making those reasonable efforts, the child's best interests, health, and safety must be of paramount concern. Reasonable efforts to prevent placement and for rehabilitation and reunification are always required except upon a determination by the court that a petition has been filed stating a prima facie case that:

1. the parent has subjected a child to egregious harm as defined in section 260C.007, subdivision 14;
2. the parental rights of the parent to another child have been terminated involuntarily;
3. the child is an abandoned infant under section 260C.301, subdivision 2, paragraph (a), clause (2);
4. the parent's custodial rights to another child have been involuntarily transferred to a relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (d), clause (1), section 260C.515, subdivision 4, or a similar law of another jurisdiction;
5. the parent has committed sexual abuse as defined in section 260E.03, against the child or another child of the parent;
6. the parent has committed an offense that requires registration as a predatory offender under section 243.166, subdivision 1b, paragraph (a) or (b); or
7. the provision of services or further services for the purpose of reunification is futile and therefore unreasonable under the circumstances.

(b) When the court makes one of the prima facie determinations under paragraph (a), either permanency pleadings under section 260C.505, or a termination of parental rights petition under sections 260C.141 and 260C.301 must be filed. A permanency hearing under sections 260C.503 to 260C.521 must be held within 30 days of this determination.

(c) In the case of an Indian child, in proceedings under sections 260B.178, 260C.178, 260C.201, 260C.202, 260C.204, 260C.301, or 260C.503 to 260C.521, the juvenile court must make findings and conclusions consistent with the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901 et seq., as to the provision of active efforts. In cases governed by the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901, the responsible social services agency must provide active efforts as required under United States Code, title 25, section 1911(d).

(d) "Reasonable efforts to prevent placement" means:
(1) the agency has made reasonable efforts to prevent the placement of the child in foster care by working with the family to develop and implement a safety plan that is individualized to the needs of the child and the child's family and may include support persons from the child's extended family, kin network, and community; or

(2) the agency has demonstrated to the court that, given the particular circumstances of the child and family at the time of the child's removal, there are no services or efforts available which could allow the child to safely remain in the home.

e) "Reasonable efforts to finalize a permanent plan for the child" means due diligence by the responsible social services agency to:

(1) reunify the child with the parent or guardian from whom the child was removed;

(2) assess a noncustodial parent's ability to provide day-to-day care for the child and, where appropriate, provide services necessary to enable the noncustodial parent to safely provide the care, as required by section 260C.219;

(3) conduct a relative search to identify and provide notice to adult relatives, and engage relatives in case planning and permanency planning, as required under section 260C.221;

(4) consider placing the child with relatives in the order specified in section 260C.212, subdivision 2, paragraph (a);

(5) place siblings removed from their home in the same home for foster care or adoption, or transfer permanent legal and physical custody to a relative. Visitation between siblings who are not in the same foster care, adoption, or custodial placement or facility shall be consistent with section 260C.212, subdivision 2; and

(6) when the child cannot return to the parent or guardian from whom the child was removed, to plan for and finalize a safe and legally permanent alternative home for the child, and considers permanent alternative homes for the child inside or outside of the state, preferably with a relative in the order specified in section 260C.212, subdivision 2, paragraph (a), through adoption or transfer of permanent legal and physical custody of the child.

(f) Reasonable efforts are made upon the exercise of due diligence by the responsible social services agency to use culturally appropriate and available services to meet the individualized needs of the child and the child's family. Services may include those provided by the responsible social services agency and other culturally appropriate services available in the community. The responsible social services agency must select services for a child and the child's family by collaborating with the child's family and, if appropriate, the child.

At each stage of the proceedings when the court is required to review the
appropriateness of the responsible social services agency's reasonable efforts as described
in paragraphs (a), (d), and (e), the social services agency has the burden of demonstrating
that:

(1) the agency has made reasonable efforts to prevent placement of the child in foster
care, including that the agency considered or established a safety plan according to paragraph
(d), clause (1);

(2) the agency has made reasonable efforts to eliminate the need for removal of the
child from the child's home and to reunify the child with the child's family at the earliest
possible time;

(3) the agency has made reasonable efforts to finalize a permanent plan for the child
pursuant to paragraph (e);

(3)(4) the agency has made reasonable efforts to finalize an alternative permanent
home for the child, and considers permanent alternative homes for the child
inside or outside in or out of the state, preferably with a relative in the order specified in
section 260C.212, subdivision 2, paragraph (a); or

(4) reasonable efforts to prevent placement and to reunify the child with the parent
or guardian are not required. The agency may meet this burden by stating facts in a sworn
petition filed under section 260C.141, by filing an affidavit summarizing the agency's
reasonable efforts or facts that the agency believes demonstrate there is no need for
reasonable efforts to reunify the parent and child, or through testimony or a certified report
required under juvenile court rules.

(g) Once the court determines that reasonable efforts for reunification are not required
because the court has made one of the prima facie determinations under paragraph (a), the
court may only require the agency to make reasonable efforts for reunification after a hearing
according to section 260C.163, where if the court finds that there is not clear and convincing
evidence of the facts upon which the court based its the court's prima facie determination.

In this case when If there is clear and convincing evidence that the child is in need of
protection or services, the court may find the child in need of protection or services and
order any of the dispositions available under section 260C.201, subdivision 1. Reunification
of a child with a parent is not required if the parent has been convicted of:

(1) a violation of, or an attempt or conspiracy to commit a violation of, sections 609.185
to 609.20; 609.222, subdivision 2; or 609.223 in regard to another child of the parent;

(2) a violation of section 609.222, subdivision 2; or 609.223, in regard to the child;
(3) a violation of, or an attempt or conspiracy to commit a violation of, United States Code, title 18, section 1111(a) or 1112(a), in regard to another child of the parent;

(4) committing sexual abuse as defined in section 260E.03, against the child or another child of the parent; or

(5) an offense that requires registration as a predatory offender under section 243.166, subdivision 1b, paragraph (a) or (b).

(h) The juvenile court, in proceedings under sections 260B.178, 260C.178, 260C.201, 260C.202, 260C.204, 260C.301, or 260C.503 to 260C.521, shall make findings and conclusions as to the provision of reasonable efforts. When determining whether reasonable efforts have been made by the agency, the court shall consider whether services to the child and family were:

(1) selected in collaboration with the child's family and, if appropriate, the child;

(2) tailored to the individualized needs of the child and child's family;

(3) relevant to the safety and protection, and well-being of the child;

(4) adequate to meet the individualized needs of the child and family;

(5) culturally appropriate;

(6) available and accessible;

(7) consistent and timely; and

(8) realistic under the circumstances.

In the alternative, the court may determine that the provision of services or further services for the purpose of rehabilitation is futile and therefore unreasonable under the circumstances or that reasonable efforts are not required as provided in paragraph (a).

(i) This section does not prevent out-of-home placement for the treatment of a child with a mental disability when it is determined to be medically necessary as a result of the child's diagnostic assessment or the child's individual treatment plan indicates that appropriate and necessary treatment cannot be effectively provided outside of a residential or inpatient treatment program and the level or intensity of supervision and treatment cannot be effectively and safely provided in the child's home or community and it is determined that a residential treatment setting is the least restrictive setting that is appropriate to the needs of the child.
(j) If continuation of reasonable efforts to prevent placement or reunify the child with
the parent or guardian from whom the child was removed is determined by the court to be
inconsistent with the permanent plan for the child or upon the court making one of the prima
facie determinations under paragraph (a), reasonable efforts must be made to place the child
in a timely manner in a safe and permanent home and to complete whatever steps are
necessary to legally finalize the permanent placement of the child.

(k) Reasonable efforts to place a child for adoption or in another permanent placement
may be made concurrently with reasonable efforts to prevent placement or to reunify the
child with the parent or guardian from whom the child was removed. When the responsible
social services agency decides to concurrently make reasonable efforts for both reunification
and permanent placement away from the parent under paragraph (a), the agency shall disclose
its decision and both plans for concurrent reasonable efforts to all parties and
the court. When the agency discloses its decision to proceed with both plans
for reunification and permanent placement away from the parent, the court's review of the
agency's reasonable efforts shall include the agency's efforts under both plans.

Sec. 2. Minnesota Statutes 2020, section 260C.001, subdivision 3, is amended to read:

Subd. 3. Permanency, termination of parental rights, and adoption. The purpose of
the laws relating to permanency, termination of parental rights, and children who come
under the guardianship of the commissioner of human services is to ensure that:

(1) when required and appropriate, reasonable efforts have been made by the social
services agency to reunite the child with the child's parents in a home that is safe and
permanent;

(2) if placement with the parents is not reasonably foreseeable, to secure for the child a
safe and permanent placement according to the requirements of section 260C.212, subdivision
2, preferably with adoptive parents with a relative through an adoption or a transfer of
permanent legal and physical custody or, if that is not possible or in the best interests of the
child, a fit and willing relative through transfer of permanent legal and physical custody to
that relative with a nonrelative caregiver through adoption; and

(3) when a child is under the guardianship of the commissioner of human services,
reasonable efforts are made to finalize an adoptive home for the child in a timely manner.

Nothing in this section requires reasonable efforts to prevent placement or to reunify
the child with the parent or guardian to be made in circumstances where the court has
determined that the child has been subjected to egregious harm, when the child is an
abandoned infant, the parent has involuntarily lost custody of another child through a
proceeding under section 260C.515, subdivision 4, or similar law of another state, the
parental rights of the parent to a sibling have been involuntarily terminated, or the court has
determined that reasonable efforts or further reasonable efforts to reunify the child with the
parent or guardian would be futile.

The paramount consideration in all proceedings for permanent placement of the child
under sections 260C.503 to 260C.521, or the termination of parental rights is the best interests
of the child. In proceedings involving an American Indian child, as defined in section
260.755, subdivision 8, the best interests of the child must be determined consistent with

Sec. 3. Minnesota Statutes 2020, section 260C.007, subdivision 27, is amended to read:

Subd. 27. Relative. "Relative" means a person related to the child by blood, marriage,
or adoption; the legal parent, guardian, or custodian of the child's siblings; or an individual
who is an important friend of the child or of the child's parent or custodian, including an
individual with whom the child has resided or had significant contact or who has a significant
relationship to the child or the child's parent or custodian.

Sec. 4. Minnesota Statutes 2020, section 260C.151, subdivision 6, is amended to read:

Subd. 6. Immediate custody. If the court makes individualized, explicit findings, based
on the notarized petition or sworn affidavit, that there are reasonable grounds to believe
that the child is in surroundings or conditions which endanger the child's health, safety,
or welfare that require that responsibility for the child's care and custody be immediately
assumed by the responsible social services agency and that continuation of the child in the
custody of the parent or guardian is contrary to the child's welfare, the court may order that
the officer serving the summons take the child into immediate custody for placement of the
child in foster care, preferably with a relative. In ordering that responsibility for the care,
custody, and control of the child be assumed by the responsible social services agency, the
court is ordering emergency protective care as that term is defined in the juvenile court
rules.

Sec. 5. Minnesota Statutes 2020, section 260C.152, subdivision 5, is amended to read:

Subd. 5. Notice to foster parents and preadoptive parents and relatives. The foster
parents, if any, of a child and any preadoptive parent or relative providing care for the child
must be provided notice of and a right to be heard in any review or hearing to be held with
respect to the child. Any other relative may also request, and must be granted, a notice and the opportunity right to be heard under this section. This subdivision does not require that a foster parent, preadoptive parent, or any relative providing care for the child be made a party to a review or hearing solely on the basis of the notice and right to be heard.

Sec. 6. Minnesota Statutes 2020, section 260C.175, subdivision 2, is amended to read:

Subd. 2. Notice to parent or custodian and child; emergency placement with relative. Whenever (a) At the time that a peace officer takes a child into custody for relative placement or shelter care or relative placement pursuant to subdivision 1, section 260C.151, subdivision 5, or section 260C.154, the officer shall notify the child's parent or custodian and the child, if the child is ten years of age or older, that under section 260C.181, subdivision 2, the parent or custodian or the child may request that to place the child be placed with a relative or a designated caregiver under as defined in section 260C.007, subdivision 27, chapter 257A instead of in a shelter care facility. When a child who is not alleged to be delinquent is taken into custody pursuant to subdivision 1, clause (1) or (2), item (ii), and placement with an identified relative is requested, the peace officer shall coordinate with the responsible social services agency to ensure the child's safety and well-being, and comply with section 260C.181, subdivision 2.

(c) The officer also shall give the parent or custodian of the child a list of names, addresses, and telephone numbers of social services agencies that offer child welfare services. If the parent or custodian was not present when the child was removed from the residence, the list shall be left with an adult on the premises or left in a conspicuous place on the premises if no adult is present. If the officer has reason to believe the parent or custodian is not able to read and understand English, the officer must provide a list that is written in the language of the parent or custodian. The list shall be prepared by the commissioner of human services. The commissioner shall prepare lists for each county and provide each county with copies of the list without charge. The list shall be reviewed annually by the commissioner and updated if it is no longer accurate. Neither the commissioner nor any peace officer or the officer's employer shall be liable to any person for mistakes or omissions in the list. The list does not constitute a promise that any agency listed will in fact assist the parent or custodian.
Sec. 7. Minnesota Statutes 2020, section 260C.176, subdivision 2, is amended to read:

Subd. 2. Reasons for detention. (a) If the child is not released as provided in subdivision 1, the person taking the child into custody shall notify the court as soon as possible of the detention of the child and the reasons for detention.

(b) No child taken into custody and placed in a relative's home or shelter care facility or relative's home by a peace officer pursuant to section 260C.175, subdivision 1, clause (1) or (2), item (ii), may be held in custody longer than 72 hours, excluding Saturdays, Sundays and holidays, unless a petition has been filed and the judge or referee determines pursuant to section 260C.178 that the child shall remain in custody or unless the court has made a finding of domestic abuse perpetrated by a minor after a hearing under Laws 1997, chapter 239, article 10, sections 2 to 26, in which case the court may extend the period of detention for an additional seven days, within which time the social services agency shall conduct an assessment and shall provide recommendations to the court regarding voluntary services or file a child in need of protection or services petition.

Sec. 8. Minnesota Statutes 2020, section 260C.178, subdivision 1, is amended to read:

Subdivision 1. Hearing and release requirements. (a) If a child was taken into custody under section 260C.175, subdivision 1, clause (1) or (2), item (ii), the court shall hold a hearing within 72 hours of the time that the child was taken into custody, excluding Saturdays, Sundays, and holidays, to determine whether the child should continue to be in custody.

(b) Unless there is reason to believe that the child would endanger self or others or not return for a court hearing, or that the child's health or welfare would be immediately endangered, the child shall be released to the custody of a parent, guardian, custodian, or other suitable person, subject to reasonable conditions of release including, but not limited to, a requirement that the child undergo a chemical use assessment as provided in section 260C.157, subdivision 1.

(c) If the court determines that there is reason to believe that the child would endanger self or others or not return for a court hearing, or that the child's health or welfare would be immediately endangered if returned to the care of the parent or guardian who has custody and from whom the child was removed, the court shall order the child:

(1) into the care of the child's noncustodial parent and order the noncustodial parent to comply with any conditions that the court determines appropriate to ensure the safety and care of the child, including requiring the noncustodial parent to cooperate with paternity
establishment proceedings if the noncustodial parent has not been adjudicated the child's father; or

(2) into foster care as defined in section 260C.007, subdivision 18, under the legal responsibility of the responsible social services agency or responsible probation or corrections agency for the purposes of protective care as that term is used in the juvenile court rules or into the home of a noncustodial parent and order the noncustodial parent to comply with any conditions the court determines to be appropriate to the safety and care of the child, including cooperating with paternity establishment proceedings in the case of a man who has not been adjudicated the child's father. The court shall not give the responsible social services legal custody and order a trial home visit at any time prior to adjudication and disposition under section 260C.201, subdivision 1, paragraph (a), clause (3), but may order the child returned to the care of the parent or guardian who has custody and from whom the child was removed and order the parent or guardian to comply with any conditions the court determines to be appropriate to meet the safety, health, and welfare of the child.

(d) In determining whether the child's health or welfare would be immediately endangered, the court shall consider whether the child would reside with a perpetrator of domestic child abuse.

(e) The court, before determining whether a child should be placed in or continue in foster care under the protective care of the responsible agency, shall also make a determination, consistent with section 260.012 as to whether reasonable efforts were made to prevent placement or whether reasonable efforts to prevent placement are not required. In the case of an Indian child, the court shall determine whether active efforts, according to section 260.762 and the Indian Child Welfare Act of 1978, United States Code, title 25, section 1912(d), were made to prevent placement. The court shall enter a finding that the responsible social services agency has made reasonable efforts to prevent placement when the agency establishes either:

(1) that the agency has actually provided services or made efforts in an attempt to prevent the child's removal but that such services or efforts have not proven sufficient to permit the child to safely remain in the home; or

(2) that there are no services or other efforts that could be made at the time of the hearing that could safely permit the child to remain home or to return home. The court shall not make a reasonable efforts determination under this clause unless the court is satisfied that the agency has sufficiently demonstrated to the court that there were no services or other efforts that the agency was able to provide at the time of the hearing enabling the child to
safely remain home or to safely return home. When reasonable efforts to prevent placement
are required and there are services or other efforts that could be ordered which would
permit the child to safely return home, the court shall order the child returned to the care of
the parent or guardian and the services or efforts put in place to ensure the child's safety.

When the court makes a prima facie determination that one of the circumstances under
paragraph (g) exists, the court shall determine that reasonable efforts to prevent placement
and to return the child to the care of the parent or guardian are not required.

(f) If the court finds the social services agency's preventive or reunification efforts have
not been reasonable but further preventive or reunification efforts could not permit the child
to safely remain at home, the court may nevertheless authorize or continue the removal of
the child.

(g) The court may not order or continue the foster care placement of the child unless
the court makes explicit, individualized findings that continued custody of the child by the
parent or guardian would be contrary to the welfare of the child and that placement is in the
best interest of the child.

(h) At the emergency removal hearing, or at any time during the course of the
proceeding, and upon notice and request of the county attorney, the court shall determine
whether a petition has been filed stating a prima facie case that:

1. the parent has subjected a child to egregious harm as defined in section 260C.007,
   subdivision 14;

2. the parental rights of the parent to another child have been involuntarily terminated;

3. the child is an abandoned infant under section 260C.301, subdivision 2, paragraph
   (a), clause (2);

4. the parents' custodial rights to another child have been involuntarily transferred to a
   relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (e),
   clause (1); section 260C.515, subdivision 4; or a similar law of another jurisdiction;

5. the parent has committed sexual abuse as defined in section 260E.03, against the
   child or another child of the parent;

6. the parent has committed an offense that requires registration as a predatory offender
   under section 243.166, subdivision 1b, paragraph (a) or (b); or

7. the provision of services or further services for the purpose of reunification is futile
   and therefore unreasonable.
When a petition to terminate parental rights is required under section 260C.301, subdivision 4, or 260C.503, subdivision 2, but the county attorney has determined not to proceed with a termination of parental rights petition, and has instead filed a petition to transfer permanent legal and physical custody to a relative under section 260C.507, the court shall schedule a permanency hearing within 30 days of the filing of the petition.

If the county attorney has filed a petition under section 260C.307, the court shall schedule a trial under section 260C.163 within 90 days of the filing of the petition except when the county attorney determines that the criminal case shall proceed to trial first under section 260C.503, subdivision 2, paragraph (c).

If the court determines the child should be ordered into foster care and the child's parent refuses to give information to the responsible social services agency regarding the child's father or relatives of the child, the court may order the parent to disclose the names, addresses, telephone numbers, and other identifying information to the responsible social services agency for the purpose of complying with sections 260C.150, 260C.151, 260C.212, 260C.215, 260C.219, and 260C.221.

If a child ordered into foster care has siblings, whether full, half, or step, who are also ordered into foster care, the court shall inquire of the responsible social services agency of the efforts to place the children together as required by section 260C.212, subdivision 2, paragraph (d), if placement together is in each child's best interests, unless a child is in placement for treatment or a child is placed with a previously noncustodial parent who is not a parent to all siblings. If the children are not placed together at the time of the hearing, the court shall inquire at each subsequent hearing of the agency's reasonable efforts to place the siblings together, as required under section 260.012. If any sibling is not placed with another sibling or siblings, the agency must develop a plan to facilitate visitation or ongoing contact among the siblings as required under section 260C.212, subdivision 1, unless it is contrary to the safety or well-being of any of the siblings to do so.

When the court has ordered the child into the care of a noncustodial parent or in foster care or into the home of a noncustodial parent, the court may order a chemical dependency evaluation, mental health evaluation, medical examination, and parenting assessment for the parent as necessary to support the development of a plan for reunification required under subdivision 7 and section 260C.212, subdivision 1, or the child protective services plan under section 260E.26, and Minnesota Rules, part 9560.0228.
Sec. 9. Minnesota Statutes 2020, section 260C.181, subdivision 2, is amended to read:

Subd. 2. Least restrictive setting. Notwithstanding the provisions of subdivision 1, if the child had been taken into custody pursuant to section 260C.175, subdivision 1, clause (1) or (2), item (ii), and is not alleged to be delinquent, the child shall be detained in the least restrictive setting consistent with the child's health and welfare and in closest proximity to the child's family as possible. Placement may be with a child's relative, a designated caregiver under chapter 257A, or, if no placement is available with a relative, in a shelter care facility. The placing officer shall comply with this section and shall document why a less restrictive setting will or will not be in the best interests of the child for placement purposes.

Sec. 10. Minnesota Statutes 2020, section 260C.193, subdivision 3, is amended to read:

Subd. 3. Best interests of the child. (a) The policy of the state is to ensure that the best interests of children in foster care, who experience a transfer of permanent legal and physical custody to a relative under section 260C.515, subdivision 4, or adoption under this chapter, are met by:

(1) considering placement of a child with relatives in the order specified in section 260C.212, subdivision 2, paragraph (a); and

(2) requiring individualized determinations under section 260C.212, subdivision 2, paragraph (b), of the needs of the child and of how the selected home will serve the needs of the child.

(b) No later than three months after a child is ordered to be removed from the care of a parent in the hearing required under section 260C.202, the court shall review and enter findings regarding whether the responsible social services agency made:

(1) diligent efforts exercised due diligence to identify and search for, notify, and engage relatives as required under section 260C.221; and

(2) made a placement consistent with section 260C.212, subdivision 2, that is based on an individualized determination as required under section 260C.212, subdivision 2, of the child's needs to select a home that meets the needs of the child.

(c) If the court finds that the agency has not exercised due diligence as required under section 260C.221, and the court shall order the agency to make reasonable efforts. If there is a relative who qualifies to be licensed to provide family foster care under chapter 245A, the court may order the child to be placed with the relative consistent with the child's best interests.
(d) If the agency's efforts under section 260C.221 are found by the court to be sufficient, the court shall order the agency to continue to appropriately engage relatives who responded to the notice under section 260C.221 in placement and case planning decisions and to appropriately engage relatives who subsequently come to the agency's attention. A court's finding that the agency has made reasonable efforts under this paragraph does not relieve the agency of the duty to continue notifying relatives who come to the agency's attention and engaging and considering relatives who respond to the notice under section 260C.221 in child placement and case planning decisions.

(e) If the child's birth parent or parents explicitly request that a specific relative or important friend not be considered for placement of the child, the court shall honor that request if it is consistent with the best interests of the child and consistent with the requirements of section 260C.221. The court shall not waive relative search, notice, and consideration requirements, unless section 260C.139 applies. If the child's birth parent or parents express a preference for placing the child in a foster or adoptive home of the same or a similar religious background to that of the birth parent or parents, the court shall order placement of the child with an individual who meets the birth parent's religious preference.

(f) Placement of a child cannot must not be delayed or denied based on race, color, or national origin of the foster parent or the child.

(g) Whenever possible, siblings requiring foster care placement should shall be placed together unless it is determined not to be in the best interests of one or more of the siblings after weighing the benefits of separate placement against the benefits of sibling connections for each sibling. The agency shall consider section 260C.008 when making this determination. If siblings were not placed together according to section 260C.212, subdivision 2, paragraph (d), the responsible social services agency shall report to the court the efforts made to place the siblings together and why the efforts were not successful. If the court is not satisfied that the agency has made reasonable efforts to place siblings together, the court must order the agency to make further reasonable efforts. If siblings are not placed together, the court shall order the responsible social services agency to implement the plan for visitation among siblings required as part of the out-of-home placement plan under section 260C.212.

(h) This subdivision does not affect the Indian Child Welfare Act, United States Code, title 25, sections 1901 to 1923, and the Minnesota Indian Family Preservation Act, sections 260.751 to 260.835.
Sec. 11. Minnesota Statutes 2020, section 260C.201, subdivision 1, is amended to read:

Subdivision 1. **Dispositions.** (a) If the court finds that the child is in need of protection or services or neglected and in foster care, the court shall enter an order making any of the following dispositions of the case:

1. place the child under the protective supervision of the responsible social services agency or child-placing agency in the home of a parent of the child under conditions prescribed by the court directed to the correction of the child's need for protection or services:
   - (i) the court may order the child into the home of a parent who does not otherwise have legal custody of the child, however, an order under this section does not confer legal custody on that parent;
   - (ii) if the court orders the child into the home of a father who is not adjudicated, the father must cooperate with paternity establishment proceedings regarding the child in the appropriate jurisdiction as one of the conditions prescribed by the court for the child to continue in the father's home; and
   - (iii) the court may order the child into the home of a noncustodial parent with conditions and may also order both the noncustodial and the custodial parent to comply with the requirements of a case plan under subdivision 2; or

2. transfer legal custody to one of the following:
   - (i) a child-placing agency; or
   - (ii) the responsible social services agency. In making a foster care placement for a child whose custody has been transferred under this subdivision, the agency shall make an individualized determination of how the placement is in the child's best interests using the placement consideration order for relatives, and the best interest factors in section 260C.212, subdivision 2, paragraph (b), and may include a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190; or

3. order a trial home visit without modifying the transfer of legal custody to the responsible social services agency under clause (2). Trial home visit means the child is returned to the care of the parent or guardian from whom the child was removed for a period not to exceed six months. During the period of the trial home visit, the responsible social services agency:
(i) shall continue to have legal custody of the child, which means that the agency may see the child in the parent's home, at school, in a child care facility, or other setting as the agency deems necessary and appropriate;

(ii) shall continue to have the ability to access information under section 260C.208;

(iii) shall continue to provide appropriate services to both the parent and the child during the period of the trial home visit;

(iv) without previous court order or authorization, may terminate the trial home visit in order to protect the child's health, safety, or welfare and may remove the child to foster care;

(v) shall advise the court and parties within three days of the termination of the trial home visit when a visit is terminated by the responsible social services agency without a court order; and

(vi) shall prepare a report for the court when the trial home visit is terminated whether by the agency or court order which describes the child's circumstances during the trial home visit and recommends appropriate orders, if any, for the court to enter to provide for the child's safety and stability. In the event a trial home visit is terminated by the agency by removing the child to foster care without prior court order or authorization, the court shall conduct a hearing within ten days of receiving notice of the termination of the trial home visit by the agency and shall order disposition under this subdivision or commence permanency proceedings under sections 260C.503 to 260C.515. The time period for the hearing may be extended by the court for good cause shown and if it is in the best interests of the child as long as the total time the child spends in foster care without a permanency hearing does not exceed 12 months;

(4) if the child has been adjudicated as a child in need of protection or services because the child is in need of special services or care to treat or ameliorate a physical or mental disability or emotional disturbance as defined in section 245.4871, subdivision 15, the court may order the child's parent, guardian, or custodian to provide it. The court may order the child's health plan company to provide mental health services to the child. Section 62Q.535 applies to an order for mental health services directed to the child's health plan company. If the health plan, parent, guardian, or custodian fails or is unable to provide this treatment or care, the court may order it provided. Absent specific written findings by the court that the child's disability is the result of abuse or neglect by the child's parent or guardian, the court shall not transfer legal custody of the child for the purpose of obtaining special treatment or care solely because the parent is unable to provide the treatment or care. If the court's order for mental health treatment is based on a diagnosis made by a treatment
professional, the court may order that the diagnosing professional not provide the treatment
to the child if it finds that such an order is in the child's best interests; or

(5) if the court believes that the child has sufficient maturity and judgment and that it is
in the best interests of the child, the court may order a child 16 years old or older to be
allowed to live independently, either alone or with others as approved by the court under
supervision the court considers appropriate, if the county board, after consultation with the
court, has specifically authorized this dispositional alternative for a child.

(b) If the child was adjudicated in need of protection or services because the child is a
runaway or habitual truant, the court may order any of the following dispositions in addition
to or as alternatives to the dispositions authorized under paragraph (a):

(1) counsel the child or the child's parents, guardian, or custodian;

(2) place the child under the supervision of a probation officer or other suitable person
in the child's own home under conditions prescribed by the court, including reasonable rules
for the child's conduct and the conduct of the parents, guardian, or custodian, designed for
the physical, mental, and moral well-being and behavior of the child;

(3) subject to the court's supervision, transfer legal custody of the child to one of the
following:

(i) a reputable person of good moral character. No person may receive custody of two
or more unrelated children unless licensed to operate a residential program under sections
245A.01 to 245A.16; or

(ii) a county probation officer for placement in a group foster home established under
the direction of the juvenile court and licensed pursuant to section 241.021;

(4) require the child to pay a fine of up to $100. The court shall order payment of the
fine in a manner that will not impose undue financial hardship upon the child;

(5) require the child to participate in a community service project;

(6) order the child to undergo a chemical dependency evaluation and, if warranted by
the evaluation, order participation by the child in a drug awareness program or an inpatient
or outpatient chemical dependency treatment program;

(7) if the court believes that it is in the best interests of the child or of public safety that
the child's driver's license or instruction permit be canceled, the court may order the
commissioner of public safety to cancel the child's license or permit for any period up to
the child's 18th birthday. If the child does not have a driver's license or permit, the court
may order a denial of driving privileges for any period up to the child's 18th birthday. The

court shall forward an order issued under this clause to the commissioner, who shall cancel
the license or permit or deny driving privileges without a hearing for the period specified
by the court. At any time before the expiration of the period of cancellation or denial, the
court may, for good cause, order the commissioner of public safety to allow the child to
apply for a license or permit, and the commissioner shall so authorize;

(8) order that the child's parent or legal guardian deliver the child to school at the
beginning of each school day for a period of time specified by the court; or

(9) require the child to perform any other activities or participate in any other treatment
programs deemed appropriate by the court.

To the extent practicable, the court shall enter a disposition order the same day it makes
a finding that a child is in need of protection or services or neglected and in foster care, but
in no event more than 15 days after the finding unless the court finds that the best interests
of the child will be served by granting a delay. If the child was under eight years of age at
the time the petition was filed, the disposition order must be entered within ten days of the
finding and the court may not grant a delay unless good cause is shown and the court finds
the best interests of the child will be served by the delay.

(c) If a child who is 14 years of age or older is adjudicated in need of protection or
services because the child is a habitual truant and truancy procedures involving the child
were previously dealt with by a school attendance review board or county attorney mediation
program under section 260A.06 or 260A.07, the court shall order a cancellation or denial
of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th
birthday.

(d) In the case of a child adjudicated in need of protection or services because the child
has committed domestic abuse and been ordered excluded from the child's parent's home,
the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing
to provide an alternative safe living arrangement for the child, as defined in Laws 1997,
chapter 239, article 10, section 2.

(e) When a parent has complied with a case plan ordered under subdivision 6 and the
child is in the care of the parent, the court may order the responsible social services agency
to monitor the parent's continued ability to maintain the child safely in the home under such
terms and conditions as the court determines appropriate under the circumstances.
Sec. 12. Minnesota Statutes 2020, section 260C.201, subdivision 2, is amended to read:

Subd. 2. Written findings. (a) Any order for a disposition authorized under this section shall contain written findings of fact to support the disposition and case plan ordered and shall also set forth in writing the following information:

(1) why the best interests and safety of the child are served by the disposition and case plan ordered;

(2) what alternative dispositions or services under the case plan were considered by the court and why such dispositions or services were not appropriate in the instant case;

(3) when legal custody of the child is transferred, the appropriateness of the particular placement made or to be made by the placing agency using the relative and sibling placement considerations and best interest factors in section 260C.212, subdivision 2, paragraph (b), or the appropriateness of a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190;

(4) whether reasonable efforts to finalize the permanent plan for the child consistent with section 260.012 were made including reasonable efforts:

(i) to prevent the child's placement and to reunify the child with the parent or guardian from whom the child was removed at the earliest time consistent with the child's safety. The court's findings must include a brief description of what preventive and reunification efforts were made and why further efforts could not have prevented or eliminated the necessity of removal or that reasonable efforts were not required under section 260.012 or 260C.178, subdivision 1;

(ii) to identify and locate any noncustodial or nonresident parent of the child and to assess such parent's ability to provide day-to-day care of the child, and, where appropriate, provide services necessary to enable the noncustodial or nonresident parent to safely provide day-to-day care of the child as required under section 260C.219, unless such services are not required under section 260.012 or 260C.178, subdivision 1. The court's findings must include a description of the agency's efforts to:

(A) identify and locate the child's noncustodial or nonresident parent;

(B) assess the noncustodial or nonresident parent's ability to provide day-to-day care of the child; and

(C) if appropriate, provide services necessary to enable the noncustodial or nonresident parent to safely provide the child's day-to-day care, including efforts to engage the noncustodial or nonresident parent in assuming care and responsibility of the child;
(iii) to make the diligent search for relatives and provide the notices required under section 260C.221; a finding made pursuant to a hearing under section 260C.202 that the agency has made diligent efforts to conduct a relative search and has appropriately engaged relatives who responded to the notice under section 260C.221 and other relatives, who came to the attention of the agency after notice under section 260C.221 was sent, in placement and case planning decisions fulfills the requirement of this item;

(iv) to identify and make a foster care placement of the child, considering the order in section 260C.212, subdivision 2, paragraph (a), in the home of an unlicensed relative, according to the requirements of section 245A.035, a licensed relative, or other licensed foster care provider, who will commit to being the permanent legal parent or custodian for the child in the event reunification cannot occur, but who will actively support the reunification plan for the child. If the court finds that the agency has not appropriately considered relatives for placement of the child, the court shall order the agency to comply with section 260C.212, subdivision 2, paragraph (a). The court may order the agency to continue considering relatives for placement of the child regardless of the child's current placement setting; and

(v) to place siblings together in the same home or to ensure visitation is occurring when siblings are separated in foster care placement and visitation is in the siblings' best interests under section 260C.212, subdivision 2, paragraph (d); and

(5) if the child has been adjudicated as a child in need of protection or services because the child is in need of special services or care to treat or ameliorate a mental disability or emotional disturbance as defined in section 245.4871, subdivision 15, the written findings shall also set forth:

(i) whether the child has mental health needs that must be addressed by the case plan;

(ii) what consideration was given to the diagnostic and functional assessments performed by the child's mental health professional and to health and mental health care professionals' treatment recommendations;

(iii) what consideration was given to the requests or preferences of the child's parent or guardian with regard to the child's interventions, services, or treatment; and

(iv) what consideration was given to the cultural appropriateness of the child's treatment or services.

(b) If the court finds that the social services agency's preventive or reunification efforts have not been reasonable but that further preventive or reunification efforts could not permit
the child to safely remain at home, the court may nevertheless authorize or continue the
removal of the child.

(c) If the child has been identified by the responsible social services agency as the subject
of concurrent permanency planning, the court shall review the reasonable efforts of the
agency to develop a permanency plan for the child that includes a primary plan which is
for reunification with the child's parent or guardian and a secondary plan which is for an alternative, legally permanent home for the child in the event reunification cannot
be achieved in a timely manner.

Sec. 13. Minnesota Statutes 2020, section 260C.202, is amended to read:

260C.202 COURT REVIEW OF FOSTER CARE.

(a) If the court orders a child placed in foster care, the court shall review the out-of-home
placement plan and the child's placement at least every 90 days as required in juvenile court
rules to determine whether continued out-of-home placement is necessary and appropriate
or whether the child should be returned home. This review is not required if the court has
returned the child home, ordered the child permanently placed away from the parent under
sections 260C.503 to 260C.521, or terminated rights under section 260C.301. Court review
for a child permanently placed away from a parent, including where the child is under
guardianship of the commissioner, shall be governed by section 260C.607. When a child
is placed in a qualified residential treatment program setting as defined in section 260C.007,
subdivision 26d, the responsible social services agency must submit evidence to the court
as specified in section 260C.712.

(b) No later than three months after the child's placement in foster care, the court shall
review agency efforts to search for and notify relatives pursuant to section 260C.221, and
order that the agency's efforts begin immediately, or continue, if the agency has failed to
perform, or has not adequately performed, the duties under that section. The court must
order the agency to continue to appropriately engage relatives who responded to the notice
under section 260C.221 in placement and case planning decisions and to consider relatives
for foster care placement consistent with section 260C.221. Notwithstanding a court's finding
that the agency has made reasonable efforts to search for and notify relatives under section
260C.221, the court may order the agency to continue making reasonable efforts to search
for, notify, engage other, and consider relatives who came to the agency's attention after
sending the initial notice under section 260C.221 was sent.

(c) The court shall review the out-of-home placement plan and may modify the plan as
provided under section 260C.201, subdivisions 6 and 7.
(d) When the court orders transfer of transfers the custody of a child to a responsible
social services agency resulting in foster care or protective supervision with a noncustodial
parent under subdivision 1, the court shall notify the parents of the provisions of sections
260C.204 and 260C.503 to 260C.521, as required under juvenile court rules.

(e) When a child remains in or returns to foster care pursuant to section 260C.451 and
the court has jurisdiction pursuant to section 260C.193, subdivision 6, paragraph (c), the
court shall at least annually conduct the review required under section 260C.203.

Sec. 14. Minnesota Statutes 2020, section 260C.203, is amended to read:

260C.203 ADMINISTRATIVE OR COURT REVIEW OF PLACEMENTS.

(a) Unless the court is conducting the reviews required under section 260C.202, there
shall be an administrative review of the out-of-home placement plan of each child placed
in foster care no later than 180 days after the initial placement of the child in foster care
and at least every six months thereafter if the child is not returned to the home of the parent
or parents within that time. The out-of-home placement plan must be monitored and updated
by the responsible social services agency at each administrative review. The administrative
review shall be conducted by the responsible social services agency using a panel of
appropriate persons at least one of whom is not responsible for the case management of, or
the delivery of services to, either the child or the parents who are the subject of the review.
The administrative review shall be open to participation by the parent or guardian of the
child and the child, as appropriate.

(b) As an alternative to the administrative review required in paragraph (a), the court
may, as part of any hearing required under the Minnesota Rules of Juvenile Protection
Procedure, conduct a hearing to monitor and update the out-of-home placement plan pursuant
to the procedure and standard in section 260C.201, subdivision 6, paragraph (d). The party
requesting review of the out-of-home placement plan shall give parties to the proceeding
notice of the request to review and update the out-of-home placement plan. A court review
conducted pursuant to section 260C.141, subdivision 2; 260C.193; 260C.201, subdivision
1; 260C.202; 260C.204; 260C.317; or 260D.06 shall satisfy the requirement for the review
so long as the other requirements of this section are met.

(c) As appropriate to the stage of the proceedings and relevant court orders, the
responsible social services agency or the court shall review:

(1) the safety, permanency needs, and well-being of the child;
(2) the continuing necessity for and appropriateness of the placement, including whether
the placement is consistent with the child's best interests and other placement considerations,
including relative and sibling placement considerations under section 260C.212, subdivision
2;

(3) the extent of compliance with the out-of-home placement plan required under section
260C.212, subdivisions 1 and 1a, including services and resources that the agency has
provided to the child and child's parents, services and resources that other agencies and
individuals have provided to the child and child's parents, and whether the out-of-home
placement plan is individualized to the needs of the child and child's parents;

(4) the extent of progress that has been made toward alleviating or mitigating the causes
necessitating placement in foster care;

(5) the projected date by which the child may be returned to and safely maintained in
the home or placed permanently away from the care of the parent or parents or guardian;
and

(6) the appropriateness of the services provided to the child.

(d) When a child is age 14 or older:

(1) in addition to any administrative review conducted by the responsible social services
agency, at the in-court review required under section 260C.317, subdivision 3, clause (3),
or 260C.515, subdivision 5 or 6, the court shall review the independent living plan required
under section 260C.212, subdivision 1, paragraph (c), clause (12), and the provision of
services to the child related to the well-being of the child as the child prepares to leave foster
care. The review shall include the actual plans related to each item in the plan necessary to
the child's future safety and well-being when the child is no longer in foster care; and

(2) consistent with the requirements of the independent living plan, the court shall review
progress toward or accomplishment of the following goals:

(i) the child has obtained a high school diploma or its equivalent;

(ii) the child has completed a driver's education course or has demonstrated the ability
to use public transportation in the child's community;

(iii) the child is employed or enrolled in postsecondary education;

(iv) the child has applied for and obtained postsecondary education financial aid for
which the child is eligible;
(v) the child has health care coverage and health care providers to meet the child's physical and mental health needs;
(vi) the child has applied for and obtained disability income assistance for which the child is eligible;
(vii) the child has obtained affordable housing with necessary supports, which does not include a homeless shelter;
(viii) the child has saved sufficient funds to pay for the first month's rent and a damage deposit;
(ix) the child has an alternative affordable housing plan, which does not include a homeless shelter, if the original housing plan is unworkable;
(x) the child, if male, has registered for the Selective Service; and
(xi) the child has a permanent connection to a caring adult.

Sec. 15. Minnesota Statutes 2020, section 260C.204, is amended to read:

260C.204 PERMANENCY PROGRESS REVIEW FOR CHILDREN IN FOSTER CARE FOR SIX MONTHS.

(a) When a child continues in placement out of the home of the parent or guardian from whom the child was removed, no later than six months after the child's placement the court shall conduct a permanency progress hearing to review:

(1) the progress of the case, the parent's progress on the case plan or out-of-home placement plan, whichever is applicable;
(2) the agency's reasonable, or in the case of an Indian child, active efforts for reunification and its provision of services;
(3) the agency's reasonable efforts to finalize the permanent plan for the child under section 260.012, paragraph (e), and to make a placement as required under section 260C.212, subdivision 2, in a home that will commit to being the legally permanent family for the child in the event the child cannot return home according to the timelines in this section; and
(4) in the case of an Indian child, active efforts to prevent the breakup of the Indian family and to make a placement according to the placement preferences under United States Code, title 25, chapter 21, section 1915.
(b) When a child is placed in a qualified residential treatment program setting as defined in section 260C.007, subdivision 26d, the responsible social services agency must submit evidence to the court as specified in section 260C.712.

c) The court shall ensure that notice of the hearing is sent to any relative who:

(1) responded to the agency's notice provided under section 260C.221, indicating an interest in participating in planning for the child or being a permanency resource for the child and who has kept the court apprised of the relative's address; or

(2) asked to be notified of court proceedings regarding the child as is permitted in section 260C.152, subdivision 5.

d)(1) If the parent or guardian has maintained contact with the child and is complying with the court-ordered out-of-home placement plan, and if the child would benefit from reunification with the parent, the court may either:

(i) return the child home, if the conditions which led to the out-of-home placement have been sufficiently mitigated that it is safe and in the child's best interests to return home; or

(ii) continue the matter up to a total of six additional months. If the child has not returned home by the end of the additional six months, the court must conduct a hearing according to sections 260C.503 to 260C.521.

(2) If the court determines that the parent or guardian is not complying, is not making progress with or engaging with services in the out-of-home placement plan, or is not maintaining regular contact with the child as outlined in the visitation plan required as part of the out-of-home placement plan under section 260C.212, the court may order the responsible social services agency:

(i) to develop a plan for legally permanent placement of the child away from the parent;

(ii) to consider, identify, recruit, and support one or more permanency resources from the child's relatives and foster parent, consistent with section 260C.212, subdivision 2, paragraph (a), to be the legally permanent home in the event the child cannot be returned to the parent. Any relative or the child's foster parent may ask the court to order the agency to consider them for permanent placement of the child in the event the child cannot be returned to the parent. A relative or foster parent who wants to be considered under this item shall cooperate with the background study required under section 245C.08, if the individual has not already done so, and with the home study process required under chapter 245A for providing child foster care and for adoption under section 259.41. The home study
referred to in this item shall be a single-home study in the form required by the commissioner of human services or similar study required by the individual's state of residence when the subject of the study is not a resident of Minnesota. The court may order the responsible social services agency to make a referral under the Interstate Compact on the Placement of Children when necessary to obtain a home study for an individual who wants to be considered for transfer of permanent legal and physical custody or adoption of the child; and

(iii) to file a petition to support an order for the legally permanent placement plan.

(e) Following the review under this section:

(1) if the court has either returned the child home or continued the matter up to a total of six additional months, the agency shall continue to provide services to support the child's return home or to make reasonable efforts to achieve reunification of the child and the parent as ordered by the court under an approved case plan;

(2) if the court orders the agency to develop a plan for the transfer of permanent legal and physical custody of the child to a relative, a petition supporting the plan shall be filed in juvenile court within 30 days of the hearing required under this section and a trial on the petition held within 60 days of the filing of the pleadings; or

(3) if the court orders the agency to file a termination of parental rights, unless the county attorney can show cause why a termination of parental rights petition should not be filed, a petition for termination of parental rights shall be filed in juvenile court within 30 days of the hearing required under this section and a trial on the petition held within 60 days of the filing of the petition.

Sec. 16. Minnesota Statutes 2021 Supplement, section 260C.212, subdivision 1, is amended to read:

Subdivision 1. Out-of-home placement; plan. (a) An out-of-home placement plan shall be prepared within 30 days after any child is placed in foster care by court order or a voluntary placement agreement between the responsible social services agency and the child's parent pursuant to section 260C.227 or chapter 260D.

(b) An out-of-home placement plan means a written document which individualized to the needs of the child and the child's parents or guardians that is prepared by the responsible social services agency jointly with the parent or parents or guardian of the child, if the child is an Indian child, the child's tribe, if appropriate, the child. When a child is age 14 or older, the child
may include two other individuals on the team preparing the child's out-of-home placement plan. The child may select one member of the case planning team to be designated as the child's advisor and to advocate with respect to the application of the reasonable and prudent parenting standards. The responsible social services agency may reject an individual selected by the child if the agency has good cause to believe that the individual would not act in the best interest of the child. For a child in voluntary foster care for treatment under chapter 260D, preparation of the out-of-home placement plan shall additionally include the child's mental health treatment provider. For a child 18 years of age or older, the responsible social services agency shall involve the child and the child's parents as appropriate. As appropriate, the plan shall be:

- (1) submitted to the court for approval under section 260C.178, subdivision 7;
- (2) ordered by the court, either as presented or modified after hearing, under section 260C.178, subdivision 7, or 260C.201, subdivision 6; and
- (3) signed by the parent or parents or guardian of the child, the child's guardian ad litem, a representative of the child's tribe, the responsible social services agency, and, if possible, the child.

(c) The out-of-home placement plan shall be explained by the responsible social services agency to all persons involved in the plan's implementation, including the child who has signed the plan, and shall set forth:

- (1) a description of the foster care home or facility selected, including how the out-of-home placement plan is designed to achieve a safe placement for the child in the least restrictive, most family-like, setting available which is in close proximity to the home of the parent or child's parents or guardian of the child when the case plan goal is reunification; and how the placement is consistent with the best interests and special needs of the child according to the factors under subdivision 2, paragraph (b);
- (2) the specific reasons for the placement of the child in foster care, and when reunification is the plan, a description of the problems or conditions in the home of the parent or parents which necessitated removal of the child from home and the changes the parent or parents must make for the child to safely return home;
- (3) a description of the services offered and provided to prevent removal of the child from the home and to reunify the family including:
(i) the specific actions to be taken by the parent or parents of the child to eliminate or correct the problems or conditions identified in clause (2), and the time period during which the actions are to be taken; and

(ii) the reasonable efforts, or in the case of an Indian child, active efforts to be made to achieve a safe and stable home for the child including social and other supportive services to be provided or offered to the parent or parents or guardian of the child, the child, and the residential facility during the period the child is in the residential facility;

(4) a description of any services or resources that were requested by the child or the child's parent, guardian, foster parent, or custodian since the date of the child's placement in the residential facility, and whether those services or resources were provided and if not, the basis for the denial of the services or resources;

(5) the visitation plan for the parent or parents or guardian, other relatives as defined in section 260C.007, subdivision 26b or 27, and siblings of the child if the siblings are not placed together in foster care, and whether visitation is consistent with the best interest of the child, during the period the child is in foster care;

(6) when a child cannot return to or be in the care of either parent, documentation of steps to finalize adoption as the permanency plan for the child through reasonable efforts to place the child for adoption pursuant to section 260C.605. At a minimum, the documentation must include consideration of whether adoption is in the best interests of the child, and child-specific recruitment efforts such as a relative search, consideration of relatives for adoptive placement, and the use of state, regional, and national adoption exchanges to facilitate orderly and timely placements in and outside of the state. A copy of this documentation shall be provided to the court in the review required under section 260C.317, subdivision 3, paragraph (b);

(7) when a child cannot return to or be in the care of either parent, documentation of steps to finalize the transfer of permanent legal and physical custody to a relative as the permanency plan for the child. This documentation must support the requirements of the kinship placement agreement under section 256N.22 and must include the reasonable efforts used to determine that it is not appropriate for the child to return home or be adopted, and reasons why permanent placement with a relative through a Northstar kinship assistance arrangement is in the child's best interest; how the child meets the eligibility requirements for Northstar kinship assistance payments; agency efforts to discuss adoption with the child's relative foster parent and reasons why the relative foster parent chose not to pursue adoption, if applicable; and agency efforts to discuss with the child's parent or parents the permanent
transfer of permanent legal and physical custody or the reasons why these efforts were not
made;

(8) efforts to ensure the child's educational stability while in foster care for a child who
attained the minimum age for compulsory school attendance under state law and is enrolled
full time in elementary or secondary school, or instructed in elementary or secondary
education at home, or instructed in an independent study elementary or secondary program,
or incapable of attending school on a full-time basis due to a medical condition that is
documented and supported by regularly updated information in the child's case plan.

Educational stability efforts include:

(i) efforts to ensure that the child remains in the same school in which the child was
enrolled prior to placement or upon the child's move from one placement to another, including
efforts to work with the local education authorities to ensure the child's educational stability
and attendance; or

(ii) if it is not in the child's best interest to remain in the same school that the child was
enrolled in prior to placement or move from one placement to another, efforts to ensure
immediate and appropriate enrollment for the child in a new school;

(9) the educational records of the child including the most recent information available
regarding:

(i) the names and addresses of the child's educational providers;

(ii) the child's grade level performance;

(iii) the child's school record;

(iv) a statement about how the child's placement in foster care takes into account
proximity to the school in which the child is enrolled at the time of placement; and

(v) any other relevant educational information;

(10) the efforts by the responsible social services agency to ensure the oversight and
continuity of health care services for the foster child, including:

(i) the plan to schedule the child's initial health screens;

(ii) how the child's known medical problems and identified needs from the screens,
including any known communicable diseases, as defined in section 144.4172, subdivision
2, shall be monitored and treated while the child is in foster care;

(iii) how the child's medical information shall be updated and shared, including the
child's immunizations;
(iv) who is responsible to coordinate and respond to the child's health care needs,
including the role of the parent, the agency, and the foster parent;

(v) who is responsible for oversight of the child's prescription medications;

(vi) how physicians or other appropriate medical and nonmedical professionals shall be
consulted and involved in assessing the health and well-being of the child and determine
the appropriate medical treatment for the child; and

(vii) the responsibility to ensure that the child has access to medical care through either
medical insurance or medical assistance;

(11) the health records of the child including information available regarding:

(i) the names and addresses of the child's health care and dental care providers;

(ii) a record of the child's immunizations;

(iii) the child's known medical problems, including any known communicable diseases
as defined in section 144.4172, subdivision 2;

(iv) the child's medications; and

(v) any other relevant health care information such as the child's eligibility for medical
insurance or medical assistance;

(12) an independent living plan for a child 14 years of age or older, developed in
consultation with the child. The child may select one member of the case planning team to
be designated as the child's advisor and to advocate with respect to the application of the
reasonable and prudent parenting standards in subdivision 14. The plan should include, but
not be limited to, the following objectives:

(i) educational, vocational, or employment planning;

(ii) health care planning and medical coverage;

(iii) transportation including, where appropriate, assisting the child in obtaining a driver's
license;

(iv) money management, including the responsibility of the responsible social services
agency to ensure that the child annually receives, at no cost to the child, a consumer report
as defined under section 13C.001 and assistance in interpreting and resolving any inaccuracies
in the report;

(v) planning for housing;

(vi) social and recreational skills;
(vii) establishing and maintaining connections with the child's family and community; and

(viii) regular opportunities to engage in age-appropriate or developmentally appropriate activities typical for the child's age group, taking into consideration the capacities of the individual child;

(13) for a child in voluntary foster care for treatment under chapter 260D, diagnostic and assessment information, specific services relating to meeting the mental health care needs of the child, and treatment outcomes;

(14) for a child 14 years of age or older, a signed acknowledgment that describes the child's rights regarding education, health care, visitation, safety and protection from exploitation, and court participation; receipt of the documents identified in section 260C.452; and receipt of an annual credit report. The acknowledgment shall state that the rights were explained in an age-appropriate manner to the child; and

(15) for a child placed in a qualified residential treatment program, the plan must include the requirements in section 260C.708.

(d) The parent or parents or guardian and the child each shall have the right to legal counsel in the preparation of the case plan and shall be informed of the right at the time of placement of the child. The child shall also have the right to a guardian ad litem. If unable to employ counsel from their own resources, the court shall appoint counsel upon the request of the parent or parents or the child or the child's legal guardian. The parent or parents may also receive assistance from any person or social services agency in preparation of the case plan.

(e) After the plan has been agreed upon by the parties involved or approved or ordered by the court, the foster parents shall be fully informed of the provisions of the case plan and shall be provided a copy of the plan.

(f) Upon the child's discharge from foster care, the responsible social services agency must provide the child's parent, adoptive parent, or permanent legal and physical custodian, and the child, if the child is 14 years of age or older, with a current copy of the child's health and education record. If a child meets the conditions in subdivision 15, paragraph (b), the agency must also provide the child with the child's social and medical history. The responsible social services agency may give a copy of the child's health and education record and social and medical history to a child who is younger than 14 years of age, if it is appropriate and if subdivision 15, paragraph (b), applies.
Sec. 17. Minnesota Statutes 2021 Supplement, section 260C.212, subdivision 2, is amended
to read:

Subd. 2. Placement decisions based on best interests of the child. (a) The policy of
the state of Minnesota is to ensure that the child's best interests are met by requiring an
individualized determination of the needs of the child in consideration of paragraphs (a) to
(f), and of how the selected placement will serve the current and future needs of the child
being placed. The authorized child-placing agency shall place a child, released by court
order or by voluntary release by the parent or parents, in a family foster home selected by
considering placement with relatives and important friends in the following order:

(1) with an individual who is related to the child by blood, marriage, or adoption,
including the legal parent, guardian, or custodian of the child's siblings; or

(2) with an individual who is an important friend of the child or of the child's parent or
custodian, including an individual with whom the child has resided or had significant contact
or who has a significant relationship to the child or the child's parent or custodian.

For an Indian child, the agency shall follow the order of placement preferences in the Indian

(b) Among the factors the agency shall consider in determining the current and future
needs of the child are the following:

(1) the child's current functioning and behaviors;
(2) the medical needs of the child;
(3) the educational needs of the child;
(4) the developmental needs of the child;
(5) the child's history and past experience;
(6) the child's religious and cultural needs;
(7) the child's connection with a community, school, and faith community;
(8) the child's interests and talents;
(9) the child's relationship to current caretakers, current and long-term needs regarding
relationships with parents, siblings, and relatives, and other caretakers;
(10) the reasonable preference of the child, if the court, or the child-placing agency in the case of a voluntary placement, deems the child to be of sufficient age to express preferences; and

(11) for an Indian child, the best interests of an Indian child as defined in section 260.755, subdivision 2a.

When placing a child in foster care or in a permanent placement based on an individualized determination of the child's needs, the agency must not use one factor in this paragraph to the exclusion of all others, and the agency shall consider that the factors in paragraph (b) may be interrelated.

(c) Placement of a child cannot be delayed or denied based on race, color, or national origin of the foster parent or the child.

(d) Siblings should be placed together for foster care and adoption at the earliest possible time unless it is documented that a joint placement would be contrary to the safety or well-being of any of the siblings or unless it is not possible after reasonable efforts by the responsible social services agency. In cases where siblings cannot be placed together, the agency is required to provide frequent visitation or other ongoing interaction between siblings unless the agency documents that the interaction would be contrary to the safety or well-being of any of the siblings.

(e) Except for emergency placement as provided for in section 245A.035, the following requirements must be satisfied before the approval of a foster or adoptive placement in a related or unrelated home: (1) a completed background study under section 245C.08; and (2) a completed review of the written home study required under section 260C.215, subdivision 4, clause (5), or 260C.611, to assess the capacity of the prospective foster or adoptive parent to ensure the placement will meet the needs of the individual child.

(f) The agency must determine whether colocation with a parent who is receiving services in a licensed residential family-based substance use disorder treatment program is in the child's best interests according to paragraph (b) and include that determination in the child's case plan under subdivision 1. The agency may consider additional factors not identified in paragraph (b). The agency's determination must be documented in the child's case plan before the child is colocated with a parent.

(g) The agency must establish a juvenile treatment screening team under section 260C.157 to determine whether it is necessary and appropriate to recommend placing a child in a qualified residential treatment program, as defined in section 260C.007, subdivision 26d.
Sec. 18. Minnesota Statutes 2020, section 260C.221, is amended to read:

260C.221 RELATIVE SEARCH AND ENGAGEMENT; PLACEMENT CONSIDERATION.

Subdivision 1. Relative search requirements. (a) The responsible social services agency shall exercise due diligence to identify and notify adult relatives and current caregivers of a child's sibling, prior to placement or within 30 days after the child's removal from the parent, regardless of whether a child is placed in a relative's home, as required under subdivision 2. The county agency shall consider placement with a relative under this section without delay and whenever the child must move from or be returned to foster care. The relative search required by this section shall be comprehensive in scope. After a finding that the agency has made reasonable efforts to conduct the relative search under this paragraph, the agency has the continuing responsibility to appropriately involve relatives, who have responded to the notice required under this paragraph, in planning for the child and to continue to consider relatives according to the requirements of section 260C.212, subdivision 2. At any time during the course of juvenile protection proceedings, the court may order the agency to reopen its search for relatives when it is in the child's best interest to do so.

(b) The relative search required by this section shall include both maternal and paternal adult relatives of the child; all adult grandparents; all legal parents, guardians, or custodians of the child's siblings; and any other adult relatives suggested by the child's parents, subject to the exceptions due to family violence in subdivision 5, paragraph (c) (b). The search shall also include getting information from the child in an age-appropriate manner about who the child considers to be family members and important friends with whom the child has resided or had significant contact. The relative search required under this section must fulfill the agency's duties under the Indian Child Welfare Act regarding active efforts to prevent the breakup of the Indian family under United States Code, title 25, section 1912(d), and to meet placement preferences under United States Code, title 25, section 1915.

(c) The responsible social services agency has a continuing responsibility to search for and identify relatives of a child and send the notice to relatives that is required under subdivision 2, unless the court has relieved the agency of this duty under subdivision 5, paragraph (e).

Subd. 2. Relative notice requirements. (a) The agency may provide oral or written notice to a child's relatives. In the child's case record, the agency must document providing
the required notice to each of the child's relatives. The responsible social services agency
must notify relatives:

(1) of the need for a foster home for the child, the option to become a placement resource
for the child, the order of placement that the agency will consider under section 260C.212,
subdivision 2, paragraph (a), and the possibility of the need for a permanent placement for
the child;

(2) of their responsibility to keep the responsible social services agency and the court
informed of their current address in order to receive notice in the event that a permanent
placement is sought for the child and to receive notice of the permanency progress review
hearing under section 260C.204. A relative who fails to provide a current address to the
responsible social services agency and the court forfeits the right to receive notice of the
possibility of permanent placement and of the permanency progress review hearing under
section 260C.204, until the relative provides a current address to the responsible social
services agency and the court. A decision by a relative not to be identified as a potential
permanent placement resource or participate in planning for the child at the beginning of
the case shall not affect whether the relative is considered for placement of, or as a
permanency resource for, the child with that relative later at any time in the case, and shall
not be the sole basis for the court to rule out the relative as the child's placement or
permanency resource;

(3) that the relative may participate in the care and planning for the child, as specified
in subdivision 3, including that the opportunity for such participation may be lost by failing
to respond to the notice sent under this subdivision. "Participate in the care and planning"
includes, but is not limited to, participation in case planning for the parent and child,
identifying the strengths and needs of the parent and child, supervising visits, providing
respite and vacation visits for the child, providing transportation to appointments, suggesting
other relatives who might be able to help support the case plan, and to the extent possible,
helping to maintain the child's familiar and regular activities and contact with friends and
relatives;

(4) of the family foster care licensing and adoption home study requirements, including
how to complete an application and how to request a variance from licensing standards that
do not present a safety or health risk to the child in the home under section 245A.04 and
supports that are available for relatives and children who reside in a family foster home;
(5) of the relatives' right to ask to be notified of any court proceedings regarding the child, to attend the hearings, and of a relative's right or opportunity to be heard by the court as required under section 260C.152, subdivision 5.

(6) that regardless of the relative's response to the notice sent under this subdivision, the agency is required to establish permanency for a child, including planning for alternative permanency options if the agency's reunification efforts fail or are not required; and

(7) that by responding to the notice, a relative may receive information about participating in a child's family and permanency team if the child is placed in a qualified residential treatment program as defined in section 260C.007, subdivision 26d.

(b) The responsible social services agency shall send the notice required under paragraph (a) to relatives who become known to the responsible social services agency, except for relatives that the agency does not contact due to safety reasons under subdivision 5, paragraph (b). The responsible social services agency shall continue to send notice to relatives notwithstanding a court's finding that the agency has made reasonable efforts to conduct a relative search.

(c) The responsible social services agency is not required to send the notice under paragraph (a) to a relative who becomes known to the agency after an adoption placement agreement has been fully executed under section 260C.613, subdivision 1. If the relative wishes to be considered for adoptive placement of the child, the agency shall inform the relative of the relative's ability to file a motion for an order for adoptive placement under section 260C.607, subdivision 6.

Subd. 3. Relative engagement requirements. (a) A relative who responds to the notice under subdivision 2 has the opportunity to participate in care and planning for a child, which must not be limited based solely on the relative's prior inconsistent participation or nonparticipation in care and planning for the child. Care and planning for a child may include but is not limited to:

(1) participating in case planning for the child and child's parent, including identifying services and resources that meet the individualized needs of the child and child's parent. A relative's participation in case planning may be in person, via phone call, or by electronic means;

(2) identifying the strengths and needs of the child and child's parent;

(3) asking the responsible social services agency to consider the relative for placement of the child according to subdivision 4;
(4) acting as a support person for the child, the child's parents, and the child's current caregiver;

(5) supervising visits;

(6) providing respite care for the child and having vacation visits with the child;

(7) providing transportation;

(8) suggesting other relatives who may be able to participate in the case plan or that the agency may consider for placement of the child. The agency shall send a notice to each relative identified by other relatives according to subdivision 2, paragraph (b), unless a relative received this notice earlier in the case;

(9) helping to maintain the child's familiar and regular activities and contact with the child's friends and relatives, including providing supervision of the child at family gatherings and events; and

(10) participating in the child's family and permanency team if the child is placed in a qualified residential treatment program as defined in section 260C.007, subdivision 26d.

(b) The responsible social services agency shall make reasonable efforts to contact and engage relatives who respond to the notice required under this section. Upon a request by a relative or party to the proceeding, the court may conduct a review of the agency's reasonable efforts to contact and engage relatives who respond to the notice. If the court finds that the agency did not make reasonable efforts to contact and engage relatives who respond to the notice, the court may order the agency to make reasonable efforts to contact and engage relatives who respond to the notice in care and planning for the child.

Subd. 4. Placement considerations. (a) The responsible social services agency shall consider placing a child with a relative under this section without delay and when the child:

(1) enters foster care;

(2) must be moved from the child's current foster setting;

(3) must be permanently placed away from the child's parent; or

(4) returns to foster care after permanency has been achieved for the child.

(b) The agency shall consider placing a child with relatives:

(1) in the order specified in section 260C.212, subdivision 2, paragraph (a); and

(2) based on the child's best interests using the factors in section 260C.212, subdivision 2.
(c) The agency shall document how the agency considered relatives in the child's case record.

(d) Any relative who requests to be a placement option for a child in foster care has the right to be considered for placement of the child according to section 260C.212, subdivision 2, paragraph (a), unless the court finds that placing the child with a specific relative would endanger the child, sibling, parent, guardian, or any other family member under subdivision 5, paragraph (b).

(e) When adoption is the responsible social services agency's permanency goal for the child, the agency shall consider adoptive placement of the child with a relative in the order specified under section 260C.212, subdivision 2, paragraph (a).

Subd. 5.

Data disclosure; court review. (e) (a) A responsible social services agency may disclose private data, as defined in section 13.02 and chapter 260E, to relatives of the child for the purpose of locating and assessing a suitable placement and may use any reasonable means of identifying and locating relatives including the Internet or other electronic means of conducting a search. The agency shall disclose data that is necessary to facilitate possible placement with relatives and to ensure that the relative is informed of the needs of the child so the relative can participate in planning for the child and be supportive of services to the child and family.

(b) If the child's parent refuses to give the responsible social services agency information sufficient to identify the maternal and paternal relatives of the child, the agency shall ask the juvenile court to order the parent to provide the necessary information and shall use other resources to identify the child's maternal and paternal relatives. If a parent makes an explicit request that a specific relative not be contacted or considered for placement due to safety reasons, including past family or domestic violence, the agency shall bring the parent's request to the attention of the court to determine whether the parent's request is consistent with the best interests of the child and the juvenile court finds that contacting or placing the child with the specific relative would endanger the parent, guardian, child, sibling, or any family member. Unless section 260C.139 applies to the child's case, a court shall not waive or relieve the responsible social services agency of reasonable efforts to:

(1) conduct a relative search;

(2) notify relatives;

(3) contact and engage relatives in case planning; and
(4) consider relatives for placement of the child.

(c) Notwithstanding chapter 13, the agency shall disclose data to the court about particular relatives that the agency has identified, contacted, or considered for the child's placement for the court to review the agency's due diligence.

(d) At a regularly scheduled hearing not later than three months after the child's placement in foster care and as required in sections 260C.193 and 260C.202, the agency shall report to the court:

1. the agency's efforts to identify maternal and paternal relatives of the child and to engage the relatives in providing support for the child and family, and document that the relatives have been provided the notice required under paragraph (a) subdivision 2; and

2. the agency's decision regarding placing the child with a relative as required under section 260C.212, subdivision 2, and to ask. If the responsible social services agency decides that relative placement is not in the child's best interests at the time of the hearing, the agency shall inform the court of the agency's decision, including:

   i. why the agency decided against relative placement of the child; and

   ii. the agency's efforts to engage relatives to visit or maintain contact with the child in order as required under subdivision 3 to support family connections for the child, when placement with a relative is not possible or appropriate.

(e) Notwithstanding chapter 13, the agency shall disclose data about particular relatives identified, searched for, and contacted for the purposes of the court's review of the agency's due diligence.

(f) (e) When the court is satisfied that the agency has exercised due diligence to identify relatives and provide the notice required in paragraph (a) subdivision 2, the court may find that the agency made reasonable efforts have been made to conduct a relative search to identify and provide notice to adult relatives as required under section 260.012, paragraph (e), clause (3). A finding under this paragraph does not relieve the responsible social services agency of the ongoing duty to contact, engage, and consider relatives under this section nor is it a basis for the court to rule out any relative from being a foster care or permanent placement option for the child. The agency has the continuing responsibility to:

1. involve relatives who respond to the notice in planning for the child; and

2. continue considering relatives for the child's placement while taking the child's short- and long-term permanency goals into consideration, according to the requirements of section 260C.212, subdivision 2.
(f) At any time during the course of juvenile protection proceedings, the court may order
the agency to reopen the search for relatives when it is in the child's best interests.

(g) If the court is not satisfied that the agency has exercised due diligence to identify
relatives and provide the notice required in paragraph (a) subdivision 2, the court may order
the agency to continue its search and notice efforts and to report back to the court.

(g) When the placing agency determines that permanent placement proceedings are
necessary because there is a likelihood that the child will not return to a parent's care, the
agency must send the notice provided in paragraph (h), may ask the court to modify the
duty of the agency to send the notice required in paragraph (h), or may ask the court to
completely relieve the agency of the requirements of paragraph (h). The relative notification
requirements of paragraph (h) do not apply when the child is placed with an appropriate
relative or a foster home that has committed to adopting the child or taking permanent legal
and physical custody of the child and the agency approves of that foster home for permanent
placement of the child. The actions ordered by the court under this section must be consistent
with the best interests, safety, permanency, and welfare of the child.

(h) Unless required under the Indian Child Welfare Act or relieved of this duty by the
court under paragraph (f), When the agency determines that it is necessary to prepare for
permanent placement determination proceedings, or in anticipation of filing a termination
of parental rights petition, the agency shall send notice to the relatives who responded to a
notice under this section sent at any time during the case, any adult with whom the child is
currently residing, any adult with whom the child has resided for one year or longer in the
past, and any adults who have maintained a relationship or exercised visitation with the
child as identified in the agency case plan. The notice must state that a permanent home is
sought for the child and that the individuals receiving the notice may indicate to the agency
their interest in providing a permanent home. The notice must state that within 30 days of
receipt of the notice an individual receiving the notice must indicate to the agency the
individual's interest in providing a permanent home for the child or that the individual may
lose the opportunity to be considered for a permanent placement. A relative's failure to
respond or timely respond to the notice is not a basis for ruling out the relative from being
a permanent placement option for the child, should the relative request to be considered for
permanent placement at a later date.
Sec. 19. Minnesota Statutes 2020, section 260C.513, is amended to read:

260C.513 PERMANENCY DISPOSITIONS WHEN CHILD CANNOT RETURN HOME.

(a) Termination of parental rights and adoption, or guardianship to the commissioner of human services through a consent to adopt, are preferred permanency options for a child who cannot return home. If the court finds that termination of parental rights and guardianship to the commissioner is not in the child's best interests, the court may transfer permanent legal and physical custody of the child to a relative when that order is in the child's best interests. For a child who cannot return home, a permanency placement with a relative is preferred. A permanency placement with a relative includes termination of parental rights and adoption by a relative, guardianship to the commissioner of human services through a consent to adopt with a relative, or a transfer of permanent legal and physical custody to a relative. The court must consider the best interests of the child and section 260C.212, subdivision 2, paragraph (a), when making a permanency determination.

(b) When the court has determined that permanent placement of the child away from the parent is necessary, the court shall consider permanent alternative homes that are available both inside and outside the state.

Sec. 20. Minnesota Statutes 2021 Supplement, section 260C.605, subdivision 1, is amended to read:

Subdivision 1. Requirements. (a) Reasonable efforts to finalize the adoption of a child under the guardianship of the commissioner shall be made by the responsible social services agency responsible for permanency planning for the child.

(b) Reasonable efforts to make a placement in a home according to the placement considerations under section 260C.212, subdivision 2, with a relative or foster parent who will commit to being the permanent resource for the child in the event the child cannot be reunified with a parent are required under section 260.012 and may be made concurrently with reasonable, or if the child is an Indian child, active efforts to reunify the child with the parent.

(c) Reasonable efforts under paragraph (b) must begin as soon as possible when the child is in foster care under this chapter, but not later than the hearing required under section 260C.204.

(d) Reasonable efforts to finalize the adoption of the child include:

(1) considering the child's preference for an adoptive family:
(1) using age-appropriate engagement strategies to plan for adoption with the child;
(2) identifying an appropriate prospective adoptive parent for the child by updating
the child's identified needs using the factors in section 260C.212, subdivision 2;
(3) making an adoptive placement that meets the child's needs by:
   (i) completing or updating the relative search required under section 260C.221 and giving
   notice of the need for an adoptive home for the child to:
       (A) relatives who have kept the agency or the court apprised of their whereabouts and
           who have indicated an interest in adopting the child; or
       (B) relatives of the child who are located in an updated search;
   (ii) an updated search is required whenever:
       (A) there is no identified prospective adoptive placement for the child notwithstanding
           a finding by the court that the agency made diligent efforts under section 260C.221, in a
           hearing required under section 260C.202;
       (B) the child is removed from the home of an adopting parent; or
       (C) the court determines that a relative search by the agency is in the best interests of
           the child;
   (iii) engaging the child's relatives or current or former foster parents and the child's
           relatives identified as an adoptive resource during the search conducted under section
           260C.221, parents to commit to being the prospective adoptive parent of the child, and
           considering the child's relatives for adoptive placement of the child in the order specified
           under section 260C.212, subdivision 2, paragraph (a); or
   (iv) when there is no identified prospective adoptive parent:
       (A) registering the child on the state adoption exchange as required in section 259.75
           unless the agency documents to the court an exception to placing the child on the state
           adoption exchange reported to the commissioner;
       (B) reviewing all families with approved adoption home studies associated with the
           responsible social services agency;
       (C) presenting the child to adoption agencies and adoption personnel who may assist
           with finding an adoptive home for the child;
       (D) using newspapers and other media to promote the particular child;
(E) using a private agency under grant contract with the commissioner to provide adoption services for intensive child-specific recruitment efforts; and

(F) making any other efforts or using any other resources reasonably calculated to identify a prospective adoption parent for the child;

(4) (5) updating and completing the social and medical history required under sections 260C.212, subdivision 15, and 260C.609;

(5) (6) making, and keeping updated, appropriate referrals required by section 260.851, the Interstate Compact on the Placement of Children;

(6) (7) giving notice regarding the responsibilities of an adoptive parent to any prospective adoptive parent as required under section 259.35;

(7) (8) offering the adopting parent the opportunity to apply for or decline adoption assistance under chapter 256N;

(8) (9) certifying the child for adoption assistance, assessing the amount of adoption assistance, and ascertaining the status of the commissioner's decision on the level of payment if the adopting parent has applied for adoption assistance;

(9) (10) placing the child with siblings. If the child is not placed with siblings, the agency must document reasonable efforts to place the siblings together, as well as the reason for separation. The agency may not cease reasonable efforts to place siblings together for final adoption until the court finds further reasonable efforts would be futile or that placement together for purposes of adoption is not in the best interests of one of the siblings; and

(10) (11) working with the adopting parent to file a petition to adopt the child and with the court administrator to obtain a timely hearing to finalize the adoption.

Sec. 21. Minnesota Statutes 2020, section 260C.607, subdivision 2, is amended to read:

Subd. 2. Notice. Notice of review hearings shall be given by the court to:

(1) the responsible social services agency;

(2) the child, if the child is age ten and older;

(3) the child's guardian ad litem;

(4) counsel appointed for the child pursuant to section 260C.163, subdivision 3;

(5) relatives of the child who have kept the court informed of their whereabouts as required in section 260C.221 and who have responded to the agency's notice under section 260C.221, indicating a willingness to provide an adoptive home for the child unless the
relative has been previously ruled out by the court as a suitable foster parent or permanency resource for the child;

(6) the current foster or adopting parent of the child;

(7) any foster or adopting parents of siblings of the child; and

(8) the Indian child's tribe.

Sec. 22. Minnesota Statutes 2020, section 260C.607, subdivision 5, is amended to read:

Subd. 5. Required placement by responsible social services agency. (a) No petition for adoption shall be filed for a child under the guardianship of the commissioner unless the child sought to be adopted has been placed for adoption with the adopting parent by the responsible social services agency as required under section 260C.613, subdivision 1. The court may order the agency to make an adoptive placement using standards and procedures under subdivision 6.

(b) Any relative or the child's foster parent who believes the responsible agency has not reasonably considered the relative's or foster parent's request to be considered for adoptive placement as required under section 260C.212, subdivision 2, and who wants to be considered for adoptive placement of the child shall bring a request for consideration to the attention of the court during a review required under this section. The child's guardian ad litem and the child may also bring a request for a relative or the child's foster parent to be considered for adoptive placement. After hearing from the agency, the court may order the agency to take appropriate action regarding the relative's or foster parent's request for consideration under section 260C.212, subdivision 2, paragraph (b).

Sec. 23. Minnesota Statutes 2021 Supplement, section 260C.607, subdivision 6, is amended to read:

Subd. 6. Motion and hearing to order adoptive placement. (a) At any time after the district court orders the child under the guardianship of the commissioner of human services, but not later than 30 days after receiving notice required under section 260C.613, subdivision 1, paragraph (c), that the agency has made an adoptive placement, a relative or the child's foster parent may file a motion for an order for adoptive placement of a child who is under the guardianship of the commissioner if the relative or the child's foster parent:

(1) has an adoption home study under section 259.41 approving the relative or foster parent for adoption and has, if the relative or foster parent does not have an adoption home study, an affidavit attesting to efforts to complete an adoption home study may be filed with
the motion instead. The affidavit must be signed by the relative or foster parent and the
responsible social services agency or licensed child-placing agency completing the adoption
home study. The relative or foster parent must also have been a resident of Minnesota for
at least six months before filing the motion; the court may waive the residency requirement
for the moving party if there is a reasonable basis to do so; or

(2) is not a resident of Minnesota, but has an approved adoption home study by an agency
licensed or approved to complete an adoption home study in the state of the individual's
residence and the study is filed with the motion for adoptive placement. If the relative or
foster parent does not have an adoption home study in the relative's or foster parent's state
of residence, an affidavit attesting to efforts to complete an adoption home study may be
filed with the motion instead. The affidavit must be signed by the relative or foster parent
and the agency completing the adoption home study.

(b) The motion shall be filed with the court conducting reviews of the child's progress
toward adoption under this section. The motion and supporting documents must make a
prima facie showing that the agency has been unreasonable in failing to make the requested
adoptive placement. The motion must be served according to the requirements for motions
under the Minnesota Rules of Juvenile Protection Procedure and shall be made on all
individuals and entities listed in subdivision 2.

(c) If the motion and supporting documents do not make a prima facie showing for the
court to determine whether the agency has been unreasonable in failing to make the requested
adoptive placement, the court shall dismiss the motion. If the court determines a prima facie
basis is made, the court shall set the matter for evidentiary hearing.

(d) At the evidentiary hearing, the responsible social services agency shall proceed first
with evidence about the reason for not making the adoptive placement proposed by the
moving party. When the agency presents evidence regarding the child's current relationship
with the identified adoptive placement resource, the court must consider the agency's efforts
to support the child's relationship with the moving party consistent with section 260C.221.
The moving party then has the burden of proving by a preponderance of the evidence that
the agency has been unreasonable in failing to make the adoptive placement.

(e) The court shall review and enter findings regarding whether, in making an adoptive
placement decision for the child, the agency:

(1) considered relatives for adoptive placement in the order specified under section
260C.212, subdivision 2, paragraph (a); and
assessed how the identified adoptive placement resource and the moving party are each able to meet the child’s current and future needs based on an individualized determination of the child's needs, as required under sections 260C.612, subdivision 2, and 260C.613, subdivision 1, paragraph (b).

(e) (f) At the conclusion of the evidentiary hearing, if the court finds that the agency has been unreasonable in failing to make the adoptive placement and that the relative or the child's foster parent moving party is the most suitable adoptive home to meet the child's needs using the factors in section 260C.212, subdivision 2, paragraph (b), the court may:

(1) order the responsible social services agency to make an adoptive placement in the home of the relative or the child's foster parent. moving party if the moving party has an approved adoption home study; or

(2) order the responsible social services agency to place the child in the home of the moving party upon approval of an adoption home study. The agency must promote and support the child's ongoing visitation and contact with the moving party until the child is placed in the moving party's home. The agency must provide an update to the court after 90 days, including progress and any barriers encountered. If the moving party does not have an approved adoption home study within 180 days, the moving party and the agency must inform the court of any barriers to obtaining the approved adoption home study during a review hearing under this section. If the court finds that the moving party is unable to obtain an approved adoption home study, the court must dismiss the order for adoptive placement under this subdivision and order the agency to continue making reasonable efforts to finalize the adoption of the child as required under section 260C.605.

(g) (h) If, in order to ensure that a timely adoption may occur, the court orders the responsible social services agency to make an adoptive placement under this subdivision, the agency shall:

(1) make reasonable efforts to obtain a fully executed adoption placement agreement, including assisting the moving party with the adoption home study process;

(2) work with the moving party regarding eligibility for adoption assistance as required under chapter 256N; and

(3) if the moving party is not a resident of Minnesota, timely refer the matter for approval of the adoptive placement through the Interstate Compact on the Placement of Children.

(h) Denial or granting of a motion for an order for adoptive placement after an evidentiary hearing is an order which may be appealed by the responsible social services
agency, the moving party, the child, when age ten or over, the child's guardian ad litem, and any individual who had a fully executed adoption placement agreement regarding the child at the time the motion was filed if the court's order has the effect of terminating the adoption placement agreement. An appeal shall be conducted according to the requirements of the Rules of Juvenile Protection Procedure.

Sec. 24. Minnesota Statutes 2020, section 260C.613, subdivision 1, is amended to read:

Subdivision 1. Adoptive placement decisions. (a) The responsible social services agency has exclusive authority to make an adoptive placement of a child under the guardianship of the commissioner. The child shall be considered placed for adoption when the adopting parent, the agency, and the commissioner have fully executed an adoption placement agreement on the form prescribed by the commissioner.

(b) The responsible social services agency shall use an individualized determination of the child's current and future needs, pursuant to section 260C.212, subdivision 2, paragraph (b), to determine the most suitable adopting parent for the child in the child's best interests.

The responsible social services agency must consider adoptive placement of the child with relatives in the order specified in section 260C.212, subdivision 2, paragraph (a).

(c) The responsible social services agency shall notify the court and parties entitled to notice under section 260C.607, subdivision 2, when there is a fully executed adoption placement agreement for the child.

(d) In the event an adoption placement agreement terminates, the responsible social services agency shall notify the court, the parties entitled to notice under section 260C.607, subdivision 2, and the commissioner that the agreement and the adoptive placement have terminated.

Sec. 25. Minnesota Statutes 2020, section 260C.613, subdivision 5, is amended to read:

Subd. 5. Required record keeping. The responsible social services agency shall document, in the records required to be kept under section 259.79, the reasons for the adoptive placement decision regarding the child, including the individualized determination of the child's needs based on the factors in section 260C.212, subdivision 2, paragraph (b);

the agency's consideration of relatives in the order specified in section 260C.212, subdivision 2, paragraph (a); and the assessment of how the selected adoptive placement meets the identified needs of the child. The responsible social services agency shall retain in the records required to be kept under section 259.79, copies of all out-of-home placement plans
made since the child was ordered under guardianship of the commissioner and all court
orders from reviews conducted pursuant to section 260C.607.

Sec. 26. Minnesota Statutes 2021 Supplement, section 260E.20, subdivision 2, is amended
to read:

Subd. 2. Face-to-face contact. (a) Upon receipt of a screened in report, the local welfare
agency shall conduct a face-to-face contact with the child reported to be maltreated and
with the child's primary caregiver sufficient to complete a safety assessment and ensure the
immediate safety of the child. If the report alleges substantial child endangerment or sexual
abuse, the local welfare agency or agency responsible for assessing or investigating the
report is not required to provide notice before conducting the initial face-to-face contact
with the child and the child's primary caregiver.

(b) The face-to-face contact with the child and primary caregiver shall occur immediately
if sexual abuse or substantial child endangerment is alleged and within five calendar days
for all other reports. If the alleged offender was not already interviewed as the primary
caregiver, the local welfare agency shall also conduct a face-to-face interview with the
alleged offender in the early stages of the assessment or investigation. Face-to-face contact
with the child and primary caregiver in response to a report alleging sexual abuse or
substantial child endangerment may be postponed for no more than five calendar days if
the child is residing in a location that is confirmed to restrict contact with the alleged offender
as established in guidelines issued by the commissioner, or if the local welfare agency is
pursuing a court order for the child's caregiver to produce the child for questioning under
section 260E.22, subdivision 5.

(c) At the initial contact with the alleged offender, the local welfare agency or the agency
responsible for assessing or investigating the report must inform the alleged offender of the
complaints or allegations made against the individual in a manner consistent with laws
protecting the rights of the person who made the report. The interview with the alleged
offender may be postponed if it would jeopardize an active law enforcement investigation.

(d) The local welfare agency or the agency responsible for assessing or investigating
the report must provide the alleged offender with an opportunity to make a statement. The
alleged offender may submit supporting documentation relevant to the assessment or
investigation.
Sec. 27. Minnesota Statutes 2020, section 260E.22, subdivision 2, is amended to read:

Subd. 2. Child interview procedure. (a) The interview may take place at school or at any facility or other place where the alleged victim or other children might be found or the child may be transported to, and the interview may be conducted at a place appropriate for the interview of a child designated by the local welfare agency or law enforcement agency.

(b) When appropriate, the interview may take place outside the presence of the alleged offender or parent, legal custodian, guardian, or school official and may take place prior to any interviews of the alleged offender or parent, legal custodian, guardian, foster parent, or school official.

(c) For a family assessment, it is the preferred practice to request a parent or guardian’s permission to interview the child before conducting the child interview, unless doing so would compromise the safety assessment.

Sec. 28. Minnesota Statutes 2020, section 260E.24, subdivision 2, is amended to read:

Subd. 2. Determination after family assessment. After conducting a family assessment, the local welfare agency shall determine whether child protective services are needed to address the safety of the child and other family members and the risk of subsequent maltreatment. The local welfare agency must document the information collected under section 260E.20, subdivision 3, related to the completed family assessment in the child's or family's case notes.

Sec. 29. Minnesota Statutes 2020, section 260E.34, is amended to read:

260E.34 IMMUNITY.

(a) The following persons, including persons under the age of 18, are immune from any civil or criminal liability that otherwise might result from the person's actions if the person is acting in good faith:

(3) a public or private school, facility as defined in section 260E.03, or the employee of
any public or private school or facility who permits access by a local welfare agency, the
Department of Education, or a local law enforcement agency and assists in an investigation

(b) A person who is a supervisor or person with responsibility for performing duties
under this chapter employed by a local welfare agency, the commissioner of human services,
or the commissioner of education complying with this chapter or any related rule or provision
of law is immune from any civil or criminal liability that might otherwise result from the
person's actions if the person is (1) acting in good faith and exercising due care, or (2) acting
in good faith and following the information collection procedures established under section
260E.20, subdivision 3.
(c) Any physician or other medical personnel administering a toxicology test under
section 260E.32 to determine the presence of a controlled substance in a pregnant woman,
in a woman within eight hours after delivery, or in a child at birth or during the first month
of life is immune from civil or criminal liability arising from administration of the test if
the physician ordering the test believes in good faith that the test is required under this

(d) This section does not provide immunity to any person for failure to make a required
report or for committing maltreatment.
(e) If a person who makes a voluntary or mandatory report under section 260E.06 prevails
in a civil action from which the person has been granted immunity under this section, the
court may award the person attorney fees and costs.
Sec. 30. Minnesota Statutes 2020, section 626.557, subdivision 4, is amended to read:
(a) Except as provided in paragraph (b), a mandated reporter shall
immediately make an oral report to the common entry point. The common entry point
may accept electronic reports submitted through a web-based reporting system established
by the commissioner. Use of a telecommunications device for the deaf or other similar
device shall be considered an oral report. The common entry point may not require written
reports. To the extent possible, the report must be of sufficient content to identify the
vulnerable adult, the caregiver, the nature and extent of the suspected maltreatment, any
evidence of previous maltreatment, the name and address of the reporter, the time, date, and location of the incident, and any other information that the reporter believes might be helpful in investigating the suspected maltreatment. A mandated reporter may disclose not public data, as defined in section 13.02, and medical records under sections 144.291 to 144.298, to the extent necessary to comply with this subdivision.

(b) A boarding care home that is licensed under sections 144.50 to 144.58 and certified under Title 19 of the Social Security Act, a nursing home that is licensed under section 144A.02 and certified under Title 18 or Title 19 of the Social Security Act, or a hospital that is licensed under sections 144.50 to 144.58 and has swing beds certified under Code of Federal Regulations, title 42, section 482.66, may submit a report electronically to the common entry point instead of submitting an oral report. The report may be a duplicate of the initial report the facility submits electronically to the commissioner of health to comply with the reporting requirements under Code of Federal Regulations, title 42, section 483.12. The commissioner of health may modify these reporting requirements to include items required under paragraph (a) that are not currently included in the electronic reporting form.

Sec. 31. Minnesota Statutes 2020, section 626.557, subdivision 9, is amended to read:

Subd. 9. Common entry point designation. (a) Each county board shall designate a common entry point for reports of suspected maltreatment, for use until the commissioner of human services establishes a common entry point. Two or more county boards may jointly designate a single common entry point. The commissioner of human services shall establish a common entry point effective July 1, 2015. The common entry point is the unit responsible for receiving the report of suspected maltreatment under this section.

(b) The common entry point must be available 24 hours per day to take calls from reporters of suspected maltreatment. The common entry point shall use a standard intake form that includes:

(1) the time and date of the report;

(2) the name, relationship, and identifying and contact information for the person believed to be a vulnerable adult and the individual or facility alleged responsible for maltreatment;

(3) the name, address, and telephone number of the person reporting; relationship, and contact information for the:

(i) reporter;

(ii) initial reporter, witnesses, and persons who may have knowledge about the maltreatment; and
(iii) legal surrogate and persons who may provide support to the vulnerable adult;

(4) the basis of vulnerability for the vulnerable adult;

(5) the time, date, and location of the incident;

(4) the names of the persons involved, including but not limited to, perpetrators, alleged victims, and witnesses;

(5) whether there was a risk of imminent danger to the alleged victim;

(6) the immediate safety risk to the vulnerable adult;

(6) a description of the suspected maltreatment;

(7) the disability, if any, of the alleged victim;

(8) the relationship of the alleged perpetrator to the alleged victim;

(8) the impact of the suspected maltreatment on the vulnerable adult;

(9) whether a facility was involved and, if so, which agency licenses the facility;

(10) any action taken by the common entry point;

(11) whether law enforcement has been notified;

(10) the actions taken to protect the vulnerable adult;

(11) the required notifications and referrals made by the common entry point; and

(12) whether the reporter wishes to receive notification of the initial and final reports, and disposition.

(c) The common entry point is not required to complete each item on the form prior to dispatching the report to the appropriate lead investigative agency.

(d) The common entry point shall immediately report to a law enforcement agency any incident in which there is reason to believe a crime has been committed.

(e) If a report is initially made to a law enforcement agency or a lead investigative agency, those agencies shall take the report on the appropriate common entry point intake forms and immediately forward a copy to the common entry point.

(f) The common entry point staff must receive training on how to screen and dispatch reports efficiently and in accordance with this section.
(g) The commissioner of human services shall maintain a centralized database for the collection of common entry point data, lead investigative agency data including maltreatment report disposition, and appeals data. The common entry point shall have access to the centralized database and must log the reports into the database and immediately identify and locate prior reports of abuse, neglect, or exploitation.

(h) When appropriate, the common entry point staff must refer calls that do not allege the abuse, neglect, or exploitation of a vulnerable adult to other organizations that might resolve the reporter's concerns.

(i) A common entry point must be operated in a manner that enables the commissioner of human services to:

1. track critical steps in the reporting, evaluation, referral, response, disposition, and investigative process to ensure compliance with all requirements for all reports;
2. maintain data to facilitate the production of aggregate statistical reports for monitoring patterns of abuse, neglect, or exploitation;
3. serve as a resource for the evaluation, management, and planning of preventative and remedial services for vulnerable adults who have been subject to abuse, neglect, or exploitation;
4. set standards, priorities, and policies to maximize the efficiency and effectiveness of the common entry point; and
5. track and manage consumer complaints related to the common entry point.

(j) The commissioners of human services and health shall collaborate on the creation of a system for referring reports to the lead investigative agencies. This system shall enable the commissioner of human services to track critical steps in the reporting, evaluation, referral, response, disposition, investigation, notification, determination, and appeal processes.

Sec. 32. Minnesota Statutes 2020, section 626.557, subdivision 9b, is amended to read:

Subd. 9b. Response to reports. Law enforcement is the primary agency to conduct investigations of any incident in which there is reason to believe a crime has been committed. Law enforcement shall initiate a response immediately. If the common entry point notified a county agency for emergency adult protective services, law enforcement shall cooperate with that county agency when both agencies are involved and shall exchange data to the extent authorized in subdivision 12b, paragraph (g). County adult protection shall initiate a response immediately. Each lead investigative agency shall complete the investigative
process for reports within its jurisdiction. A lead investigative agency, county, adult protective
agency, licensed facility, or law enforcement agency shall cooperate with other agencies in
the provision of protective services, coordinating its investigations, and assisting another
agency within the limits of its resources and expertise and shall exchange data to the extent
authorized in subdivision 12b, paragraph (g). The lead investigative agency shall obtain the
results of any investigation conducted by law enforcement officials. The lead investigative
agency has the right to enter facilities and inspect and copy records as part of investigations.
The lead investigative agency has access to not public data, as defined in section 13.02, and
medical records under sections 144.291 to 144.298, that are maintained by facilities to the
extent necessary to conduct its investigation. Each lead investigative agency shall develop
guidelines for prioritizing reports for investigation. When a county acts as a lead investigative
agency, the county shall make guidelines available to the public regarding which reports
the county prioritizes for investigation and adult protective services.

Sec. 33. Minnesota Statutes 2020, section 626.557, subdivision 9c, is amended to read:

Subd. 9c. Lead investigative agency; notifications, dispositions, determinations. (a)
Upon request of the reporter, the lead investigative agency shall notify the reporter that it
has received the report, and provide information on the initial disposition of the report within
five business days of receipt of the report, provided that the notification will not endanger
the vulnerable adult or hamper the investigation.

(b) In making the initial disposition of a report alleging maltreatment of a vulnerable
adult, the lead investigative agency may consider previous reports of suspected maltreatment
and may request and consider public information, records maintained by a lead investigative
agency or licensed providers, and information from any person who may have knowledge
regarding the alleged maltreatment and the basis for the adult's vulnerability.

(c) Unless the lead investigative agency believes that: (1) the information would endanger
the well-being of the vulnerable adult; or (2) it would not be in the best interests of the
vulnerable adult, the lead investigative agency shall inform the vulnerable adult, or vulnerable
adult's guardian or health care agent, if known and when applicable to the authority of the
vulnerable adult's guardian or health care agent, of all reports accepted by the agency for
investigation, including the maltreatment allegation, investigation guidelines, time frame,
and evidence standards that the agency uses for determinations. If the allegation is applicable
to the guardian or health care agent, the lead investigative agency must also inform the
vulnerable adult's guardian or health care agent of all reports accepted for investigation by
the agency, including the maltreatment allegation, investigation guidelines, time frame, and
evidence standards that the agency uses for determinations.

(d) When the county social service agency does not accept a report for adult protective
services or investigation, the agency may offer assistance to the reporter or the person who
was the subject of the report.

(e) When the county is the lead investigative agency or the agency responsible for adult
protective services, the agency may coordinate and share data with the Native American
Tribes and case management agencies as allowed under chapter 13 to support a vulnerable
adult's health, safety, or comfort to prevent, stop, or remediate maltreatment. The identity
of the reporter shall not be disclosed, except as provided in subdivision 12b.

(f) While investigating reports and providing adult protective services, the lead
investigative agency may coordinate with entities identified under subdivision 12b, paragraph
(g), and may coordinate with support persons to safeguard the welfare of the vulnerable
adult and prevent further maltreatment of the vulnerable adult.

Upon conclusion of every investigation it conducts, the lead investigative agency
shall make a final disposition as defined in section 626.5572, subdivision 8.

When determining whether the facility or individual is the responsible party for
substantiated maltreatment or whether both the facility and the individual are responsible
for substantiated maltreatment, the lead investigative agency shall consider at least the
following mitigating factors:

(1) whether the actions of the facility or the individual caregivers were in accordance
with, and followed the terms of, an erroneous physician order, prescription, resident care
plan, or directive. This is not a mitigating factor when the facility or caregiver is responsible
for the issuance of the erroneous order, prescription, plan, or directive or knows or should
have known of the errors and took no reasonable measures to correct the defect before
administering care;

(2) the comparative responsibility between the facility, other caregivers, and requirements
placed upon the employee, including but not limited to, the facility's compliance with related
regulatory standards and factors such as the adequacy of facility policies and procedures,
the adequacy of facility training, the adequacy of an individual's participation in the training,
the adequacy of caregiver supervision, the adequacy of facility staffing levels, and a
consideration of the scope of the individual employee's authority; and
whether the facility or individual followed professional standards in exercising

professional judgment.

(d) (i) When substantiated maltreatment is determined to have been committed by an
individual who is also the facility license holder, both the individual and the facility must
be determined responsible for the maltreatment, and both the background study
disqualification standards under section 245C.15, subdivision 4, and the licensing actions
under section 245A.06 or 245A.07 apply.

(e) (j) The lead investigative agency shall complete its final disposition within 60 calendar
days. If the lead investigative agency is unable to complete its final disposition within 60
calendar days, the lead investigative agency shall notify the following persons provided
that the notification will not endanger the vulnerable adult or hamper the investigation: (1)
the vulnerable adult or the vulnerable adult's guardian or health care agent, when known,
if the lead investigative agency knows them to be aware of the investigation; and (2) the
facility, where applicable. The notice shall contain the reason for the delay and the projected
completion date. If the lead investigative agency is unable to complete its final disposition
by a subsequent projected completion date, the lead investigative agency shall again notify
the vulnerable adult or the vulnerable adult's guardian or health care agent, when known if
the lead investigative agency knows them to be aware of the investigation, and the facility,
where applicable, of the reason for the delay and the revised projected completion date
provided that the notification will not endanger the vulnerable adult or hamper the
investigation. The lead investigative agency must notify the health care agent of the
vulnerable adult only if the health care agent's authority to make health care decisions for
the vulnerable adult is currently effective under section 145C.06 and not suspended under
section 524.5-310 and the investigation relates to a duty assigned to the health care agent
by the principal. A lead investigative agency's inability to complete the final disposition
within 60 calendar days or by any projected completion date does not invalidate the final
disposition.

(f) Within ten calendar days of completing the final disposition (k) When the lead
investigative agency is the Department of Health or the Department of Human Services,
the lead investigative agency shall provide a copy of the public investigation memorandum
under subdivision 12b, paragraph (b), clause (1), when required to be completed under this
section, within ten calendar days of completing the final disposition to the following persons:

(1) the vulnerable adult, or the vulnerable adult's guardian or health care agent, if known,
unless the lead investigative agency knows that the notification would endanger the
well-being of the vulnerable adult;
the reporter, if the reporter requested notification when making the report, provided 
this notification would not endanger the well-being of the vulnerable adult;

the alleged perpetrator person or facility alleged responsible for maltreatment, if 
known;

(4) the facility; and

(5) the ombudsman for long-term care, or the ombudsman for mental health and 
developmental disabilities, as appropriate.

(1) When the lead investigative agency is a county agency, within ten calendar days of 
completing the final disposition, the lead investigative agency shall provide notification of 
the final disposition to the following persons:

(1) the vulnerable adult, or the vulnerable adult's guardian or health care agent, if known, 
when the allegation is applicable to the authority of the vulnerable adult's guardian or health 
care agent, unless the agency knows that the notification would endanger the well-being of 
the vulnerable adult;

(2) the individual determined responsible for maltreatment, if known; and

(3) when the alleged incident involves a personal care assistant or provider agency, the 
personal care provider organization under section 256B.0659. Upon implementation of 
Community First Services and Supports (CFSS), this notification requirement applies to 
the CFSS support worker or CFSS agency under section 256B.85.

(m) If, as a result of a reconsideration, review, or hearing, the lead investigative 
agency changes the final disposition, or if a final disposition is changed on appeal, the lead 
investigative agency shall notify the parties specified in paragraph (k).

(n) The lead investigative agency shall notify the vulnerable adult who is the subject 
of the report or the vulnerable adult's guardian or health care agent, if known, and any person 
or facility determined to have maltreated a vulnerable adult, of their appeal or review rights 
under this section or section 256.021.

(o) The lead investigative agency shall routinely provide investigation memoranda 
for substantiated reports to the appropriate licensing boards. These reports must include the 
names of substantiated perpetrators. The lead investigative agency may not provide 
investigative memoranda for inconclusive or false reports to the appropriate licensing boards 
unless the lead investigative agency's investigation gives reason to believe that there may 
have been a violation of the applicable professional practice laws. If the investigation
memorandum is provided to a licensing board, the subject of the investigation memorandum shall be notified and receive a summary of the investigative findings.

In order to avoid duplication, licensing boards shall consider the findings of the lead investigative agency in their investigations if they choose to investigate. This does not preclude licensing boards from considering other information.

The lead investigative agency must provide to the commissioner of human services its final dispositions, including the names of all substantiated perpetrators. The commissioner of human services shall establish records to retain the names of substantiated perpetrators.

Sec. 34. Minnesota Statutes 2020, section 626.557, subdivision 9d, is amended to read:

Subd. 9d. Administrative reconsideration; review panel. (a) Except as provided under paragraph (e), any individual or facility which a lead investigative agency determines has maltreated a vulnerable adult, or the vulnerable adult or an interested person acting on behalf of the vulnerable adult, regardless of the lead investigative agency's determination, who contests the lead investigative agency's final disposition of an allegation of maltreatment, may request the lead investigative agency to reconsider its final disposition. The request for reconsideration must be submitted in writing to the lead investigative agency within 15 calendar days after receipt of notice of final disposition or, if the request is made by an interested person who is not entitled to notice, within 15 days after receipt of the notice by the vulnerable adult or the vulnerable adult's guardian or health care agent. If mailed, the request for reconsideration must be postmarked and sent to the lead investigative agency within 15 calendar days of the individual's or facility's receipt of the final disposition. If the request for reconsideration is made by personal service, it must be received by the lead investigative agency within 15 calendar days of the individual's or facility's receipt of the final disposition. An individual who was determined to have maltreated a vulnerable adult under this section and who was disqualified on the basis of serious or recurring maltreatment under sections 245C.14 and 245C.15, may request reconsideration of the maltreatment determination and the disqualification. The request for reconsideration of the maltreatment determination and the disqualification must be submitted in writing within 30 calendar days of the individual's receipt of the notice of disqualification under sections 245C.16 and 245C.17. If mailed, the request for reconsideration of the maltreatment determination and the disqualification must be postmarked and sent to the lead investigative agency within 30 calendar days of the individual's receipt of the notice of disqualification. If the request for reconsideration is made by personal service, it must be received by the lead investigative agency within 30 calendar days after the individual's receipt of the notice of disqualification.
(b) Except as provided under paragraphs (e) and (f), if the lead investigative agency
denies the request or fails to act upon the request within 15 working days after receiving
the request for reconsideration, the person or facility entitled to a fair hearing under section
256.045, may submit to the commissioner of human services a written request for a hearing
under that statute. The vulnerable adult, or an interested person acting on behalf of the
vulnerable adult, may request a review by the Vulnerable Adult Maltreatment Review Panel
under section 256.021 if the lead investigative agency denies the request or fails to act upon
the request, or if the vulnerable adult or interested person contests a reconsidered disposition.
The Vulnerable Adult Maltreatment Review Panel shall not conduct a review if the interested
person making the request on behalf of the vulnerable adult is also the individual or facility
alleged responsible for the maltreatment of the vulnerable adult. The lead investigative
agency shall notify persons who request reconsideration of their rights under this paragraph.
The request must be submitted in writing to the review panel and a copy sent to the lead
investigative agency within 30 calendar days of receipt of notice of a denial of a request for
reconsideration or of a reconsidered disposition. The request must specifically identify the
aspects of the lead investigative agency determination with which the person is dissatisfied.

(c) If, as a result of a reconsideration or review, the lead investigative agency changes
the final disposition, it shall notify the parties specified in subdivision 9c, paragraph (f) (i).

(d) For purposes of this subdivision, "interested person acting on behalf of the vulnerable
adult" means a person designated in writing by the vulnerable adult to act on behalf of the
vulnerable adult, or a legal guardian or conservator or other legal representative, a proxy
or health care agent appointed under chapter 145B or 145C, or an individual who is related
to the vulnerable adult, as defined in section 245A.02, subdivision 13.

(e) If an individual was disqualified under sections 245C.14 and 245C.15, on the basis
of a determination of maltreatment, which was serious or recurring, and the individual has
requested reconsideration of the maltreatment determination under paragraph (a) and
reconsideration of the disqualification under sections 245C.21 to 245C.27, reconsideration
of the maltreatment determination and requested reconsideration of the disqualification
shall be consolidated into a single reconsideration. If reconsideration of the maltreatment
determination is denied and the individual remains disqualified following a reconsideration
decision, the individual may request a fair hearing under section 256.045. If an individual
requests a fair hearing on the maltreatment determination and the disqualification, the scope
of the fair hearing shall include both the maltreatment determination and the disqualification.

(f) If a maltreatment determination or a disqualification based on serious or recurring
maltreatment is the basis for a denial of a license under section 245A.05 or a licensing
sanction under section 245A.07, the license holder has the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. As provided for under section 245A.08, the scope of the contested case hearing must include the maltreatment determination, disqualification, and licensing sanction or denial of a license. In such cases, a fair hearing must not be conducted under section 256.045. Except for family child care and child foster care, reconsideration of a maltreatment determination under this subdivision, and reconsideration of a disqualification under section 245C.22, must not be conducted when:

(1) a denial of a license under section 245A.05, or a licensing sanction under section 245A.07, is based on a determination that the license holder is responsible for maltreatment or the disqualification of a license holder based on serious or recurring maltreatment;

(2) the denial of a license or licensing sanction is issued at the same time as the maltreatment determination or disqualification; and

(3) the license holder appeals the maltreatment determination or disqualification, and denial of a license or licensing sanction.

Notwithstanding clauses (1) to (3), if the license holder appeals the maltreatment determination or disqualification, but does not appeal the denial of a license or a licensing sanction, reconsideration of the maltreatment determination shall be conducted under sections 260E.33 and 626.557, subdivision 9d, and reconsideration of the disqualification shall be conducted under section 245C.22. In such cases, a fair hearing shall also be conducted as provided under sections 245C.27, 260E.33, and 626.557, subdivision 9d.

If the disqualified subject is an individual other than the license holder and upon whom a background study must be conducted under chapter 245C, the hearings of all parties may be consolidated into a single contested case hearing upon consent of all parties and the administrative law judge.

(g) Until August 1, 2002, an individual or facility that was determined by the commissioner of human services or the commissioner of health to be responsible for neglect under section 626.5572, subdivision 17, after October 1, 1995, and before August 1, 2001, that believes that the finding of neglect does not meet an amended definition of neglect may request a reconsideration of the determination of neglect. The commissioner of human services or the commissioner of health shall mail a notice to the last known address of individuals who are eligible to seek this reconsideration. The request for reconsideration must state how the established findings no longer meet the elements of the definition of neglect. The commissioner shall review the request for reconsideration and make a
determination within 15 calendar days. The commissioner's decision on this reconsideration
is the final agency action.

(1) For purposes of compliance with the data destruction schedule under subdivision
12b, paragraph (d), when a finding of substantiated maltreatment has been changed as a
result of a reconsideration under this paragraph, the date of the original finding of a
substantiated maltreatment must be used to calculate the destruction date.

(2) For purposes of any background studies under chapter 245C, when a determination
of substantiated maltreatment has been changed as a result of a reconsideration under this
paragraph, any prior disqualification of the individual under chapter 245C that was based
on this determination of maltreatment shall be rescinded, and for future background studies
under chapter 245C the commissioner must not use the previous determination of
substantiated maltreatment as a basis for disqualification or as a basis for referring the
individual's maltreatment history to a health-related licensing board under section 245C.31.

Sec. 35. Minnesota Statutes 2020, section 626.557, subdivision 10, is amended to read:

Subd. 10. Duties of county social service agency. (a) When the common entry point
refers a report to the county social service agency as the lead investigative agency or makes
a referral to the county social service agency for emergency adult protective services, or
when another lead investigative agency requests assistance from the county social service
agency for adult protective services, the county social service agency shall immediately
assess and offer emergency and continuing protective social services for purposes of
preventing further maltreatment and for safeguarding the welfare of the maltreated vulnerable
adult. The county shall use a standardized tool tools and the data system made available by
the commissioner. The information entered by the county into the standardized tool must
be accessible to the Department of Human Services. In cases of suspected sexual abuse, the
county social service agency shall immediately arrange for and make available to the
vulnerable adult appropriate medical examination and treatment. When necessary in order
to protect the vulnerable adult from further harm, the county social service agency shall
seek authority to remove the vulnerable adult from the situation in which the maltreatment
occurred. The county social service agency may also investigate to determine whether the
conditions which resulted in the reported maltreatment place other vulnerable adults in
jeopardy of being maltreated and offer protective social services that are called for by its
determination.

(b) Within five business days of receipt of a report screened in by the county social
service agency for investigation, the county social service agency shall determine whether,
in addition to an assessment and services for the vulnerable adult, to also conduct an
investigation for final disposition of the individual or facility alleged to have maltreated the
vulnerable adult.

(c) The county social service agency must investigate for a final disposition the individual
or facility alleged to have maltreated a vulnerable adult for each report accepted as lead
investigative agency involving an allegation of abuse, caregiver neglect that resulted in
harm to the vulnerable adult, financial exploitation that may be criminal, or an allegation
against a caregiver under chapter 256B.

(d) An investigating county social service agency must make a final disposition for any
allegation when the county social service agency determines that a final disposition may
safeguard a vulnerable adult or may prevent further maltreatment.

(e) If the county social service agency learns of an allegation listed in paragraph (c) after
the determination in paragraph (a), the county social service agency must change the initial
determination and conduct an investigation for final disposition of the individual or facility
alleged to have maltreated the vulnerable adult.

(f) County social service agencies may enter facilities and inspect and copy records
as part of an investigation. The county social service agency has access to not public data,
as defined in section 13.02, and medical records under sections 144.291 to 144.298, that
are maintained by facilities to the extent necessary to conduct its investigation. The inquiry
is not limited to the written records of the facility, but may include every other available
source of information.

(g) When necessary in order to protect a vulnerable adult from serious harm, the
county social service agency shall immediately intervene on behalf of that adult to help the
family, vulnerable adult, or other interested person by seeking any of the following:

(1) a restraining order or a court order for removal of the perpetrator from the residence
of the vulnerable adult pursuant to section 518B.01;

(2) the appointment of a guardian or conservator pursuant to sections 524.5-101 to
524.5-502, or guardianship or conservatorship pursuant to chapter 252A;

(3) replacement of a guardian or conservator suspected of maltreatment and appointment
of a suitable person as guardian or conservator, pursuant to sections 524.5-101 to 524.5-502;
or

(4) a referral to the prosecuting attorney for possible criminal prosecution of the
perpetrator under chapter 609.
The expenses of legal intervention must be paid by the county in the case of indigent persons, under section 524.5-502 and chapter 563.

In proceedings under sections 524.5-101 to 524.5-502, if a suitable relative or other person is not available to petition for guardianship or conservatorship, a county employee shall present the petition with representation by the county attorney. The county shall contract with or arrange for a suitable person or organization to provide ongoing guardianship services. If the county presents evidence to the court exercising probate jurisdiction that it has made a diligent effort and no other suitable person can be found, a county employee may serve as guardian or conservator. The county shall not retaliate against the employee for any action taken on behalf of the ward or protected person subject to guardianship or conservatorship, even if the action is adverse to the county’s interest. Any person retaliated against in violation of this subdivision shall have a cause of action against the county and shall be entitled to reasonable attorney fees and costs of the action if the action is upheld by the court.

Sec. 36. Minnesota Statutes 2020, section 626.557, subdivision 10b, is amended to read:

Subd. 10b. Investigations; guidelines. (a) Each lead investigative agency shall develop guidelines for prioritizing reports for investigation.

(b) When investigating a report, the lead investigative agency shall conduct the following activities, as appropriate:

(1) interview of the alleged victim vulnerable adult;

(2) interview of the reporter and others who may have relevant information;

(3) interview of the alleged perpetrator individual or facility alleged responsible for maltreatment; and

(4) examination of the environment surrounding the alleged incident;

(5) review of records and pertinent documentation of the alleged incident; and

(6) consultation with professionals.

(c) The lead investigative agency shall conduct the following activities as appropriate to further the investigation, to prevent further maltreatment, or to safeguard the vulnerable adult:

(1) examining the environment surrounding the alleged incident;

(2) consulting with professionals; and
(3) communicating with state, federal, tribal, and other agencies including:

   (i) service providers;

   (ii) case managers;

   (iii) ombudsmen; and

   (iv) support persons for the vulnerable adult.

(d) The lead investigative agency may decide not to conduct an interview of a vulnerable adult, reporter, or witness under paragraph (b) if:

   (1) the vulnerable adult, reporter, or witness declines to have an interview with the agency or is unable to be contacted despite the agency's diligent attempts;

   (2) an interview of the vulnerable adult or reporter was conducted by law enforcement or a professional trained in forensic interview and an additional interview will not further the investigation;

   (3) an interview of the witness will not further the investigation; or

   (4) the agency has a reason to believe that the interview will endanger the vulnerable adult.

Sec. 37. Minnesota Statutes 2020, section 626.557, subdivision 12b, is amended to read:

Subd. 12b. Data management. (a) In performing any of the duties of this section as a lead investigative agency, the county social service agency shall maintain appropriate records. Data collected by the county social service agency under this section while providing adult protective services are welfare data under section 13.46. Investigative data collected under this section are confidential data on individuals or protected nonpublic data as defined under section 13.02. Notwithstanding section 13.46, subdivision 1, paragraph (a), data under this paragraph that are inactive investigative data on an individual who is a vendor of services are private data on individuals, as defined in section 13.02. The identity of the reporter may only be disclosed as provided in paragraph (c).

   Data maintained by the common entry point are confidential data on individuals or protected nonpublic data as defined in section 13.02. Notwithstanding section 138.163, the common entry point shall maintain data for three calendar years after date of receipt and then destroy the data unless otherwise directed by federal requirements.

(b) The commissioners of health and human services shall prepare an investigation memorandum for each report alleging maltreatment investigated under this section. County
social service agencies must maintain private data on individuals but are not required to
prepare an investigation memorandum. During an investigation by the commissioner of
health or the commissioner of human services, data collected under this section are
confidential data on individuals or protected nonpublic data as defined in section 13.02.
Upon completion of the investigation, the data are classified as provided in clauses (1) to
(3) and paragraph (c).

(1) The investigation memorandum must contain the following data, which are public:

(i) the name of the facility investigated;
(ii) a statement of the nature of the alleged maltreatment;
(iii) pertinent information obtained from medical or other records reviewed;
(iv) the identity of the investigator;
(v) a summary of the investigation's findings;
(vi) statement of whether the report was found to be substantiated, inconclusive, false,
or that no determination will be made;
(vii) a statement of any action taken by the facility;
(viii) a statement of any action taken by the lead investigative agency; and
(ix) when a lead investigative agency's determination has substantiated maltreatment, a
statement of whether an individual, individuals, or a facility were responsible for the
substantiated maltreatment, if known.

The investigation memorandum must be written in a manner which protects the identity
of the reporter and of the vulnerable adult and may not contain the names or, to the extent
possible, data on individuals or private data listed in clause (2).

(2) Data on individuals collected and maintained in the investigation memorandum are
private data, including:

(i) the name of the vulnerable adult;
(ii) the identity of the individual alleged to be the perpetrator;
(iii) the identity of the individual substantiated as the perpetrator; and
(iv) the identity of all individuals interviewed as part of the investigation.

(3) Other data on individuals maintained as part of an investigation under this section
are private data on individuals upon completion of the investigation.
(c) After the assessment or investigation is completed, the name of the reporter must be confidential. The subject of the report may compel disclosure of the name of the reporter only with the consent of the reporter or upon a written finding by a court that the report was false and there is evidence that the report was made in bad faith. This subdivision does not alter disclosure responsibilities or obligations under the Rules of Criminal Procedure, except that where the identity of the reporter is relevant to a criminal prosecution, the district court shall do an in-camera review prior to determining whether to order disclosure of the identity of the reporter.

(d) Notwithstanding section 138.163, data maintained under this section by the commissioners of health and human services must be maintained under the following schedule and then destroyed unless otherwise directed by federal requirements:

1. Data from reports determined to be false, maintained for three years after the finding was made;
2. Data from reports determined to be inconclusive, maintained for four years after the finding was made;
3. Data from reports determined to be substantiated, maintained for seven years after the finding was made; and
4. Data from reports which were not investigated by a lead investigative agency and for which there is no final disposition, maintained for three years from the date of the report.

(e) The commissioners of health and human services shall annually publish on their websites the number and type of reports of alleged maltreatment involving licensed facilities reported under this section, the number of those requiring investigation under this section, and the resolution of those investigations. On a biennial basis, the commissioners of health and human services shall jointly report the following information to the legislature and the governor:

1. The number and type of reports of alleged maltreatment involving licensed facilities reported under this section, the number of those requiring investigations under this section, the resolution of those investigations, and which of the two lead agencies was responsible;
2. Trends about types of substantiated maltreatment found in the reporting period;
3. If there are upward trends for types of maltreatment substantiated, recommendations for addressing and responding to them;
4. Efforts undertaken or recommended to improve the protection of vulnerable adults;
whether and where backlogs of cases result in a failure to conform with statutory
time frames and recommendations for reducing backlogs if applicable;
(6) recommended changes to statutes affecting the protection of vulnerable adults; and
(7) any other information that is relevant to the report trends and findings.
(f) Each lead investigative agency must have a record retention policy.
(g) Lead investigative agencies, county agencies responsible for adult protective services,
prosecuting authorities, and law enforcement agencies may exchange not public data, as
defined in section 13.02, with a tribal agency, facility, service provider, vulnerable adult,
primary support person for a vulnerable adult, state licensing board, federal or state agency,
the ombudsman for long-term care, or the ombudsman for mental health and developmental
disabilities, if the agency or authority requesting providing the data determines that the data
are pertinent and necessary to the requesting agency in initiating, furthering, or completing
to prevent further maltreatment of a vulnerable adult, to safeguard a vulnerable adult, or for
an investigation under this section. Data collected under this section must be made available
to prosecuting authorities and law enforcement officials, local county agencies, and licensing
agencies investigating the alleged maltreatment under this section. The lead investigative
agency shall exchange not public data with the vulnerable adult maltreatment review panel
established in section 256.021 if the data are pertinent and necessary for a review requested
under that section. Notwithstanding section 138.17, upon completion of the review, not
public data received by the review panel must be destroyed.
(h) Each lead investigative agency shall keep records of the length of time it takes to
complete its investigations.
(i) A lead investigative agency may notify other affected parties and their authorized
representative if the lead investigative agency has reason to believe maltreatment has occurred
and determines the information will safeguard the well-being of the affected parties or dispel
widespread rumor or unrest in the affected facility.
(j) Under any notification provision of this section, where federal law specifically
prohibits the disclosure of patient identifying information, a lead investigative agency may
not provide any notice unless the vulnerable adult has consented to disclosure in a manner
which conforms to federal requirements.

Sec. 38. Minnesota Statutes 2020, section 626.5571, subdivision 1, is amended to read:

Subdivision 1. Establishment of team. A county may establish a multidisciplinary adult
protection team comprised of the director of the local welfare agency or designees, the
county attorney or designees, the county sheriff or designees, and representatives of health

care. In addition, representatives of mental health or other appropriate human service

agencies, representatives from local tribal governments, and adult advocate groups, and any

other organization with relevant expertise may be added to the adult protection team.

Sec. 39. Minnesota Statutes 2020, section 626.5571, subdivision 2, is amended to read:

Subd. 2. Duties of team. A multidisciplinary adult protection team may provide public

and professional education, develop resources for prevention, intervention, and treatment,

and provide case consultation to the local welfare agency to better enable the agency to

carry out its adult protection functions under section 626.557 and to meet the community's

needs for adult protection services. Case consultation may be performed by a committee of

the team composed of the team members representing social services, law enforcement, the

county attorney, health care, and persons directly involved in an individual case as determined

by the case consultation committee. Case consultation includes a case review process that

results in recommendations about services to be provided to the identified adult and family.

Sec. 40. Minnesota Statutes 2020, section 626.5572, subdivision 2, is amended to read:

Subd. 2. Abuse. "Abuse" means:

(a) An act against a vulnerable adult that constitutes a violation of, an attempt to violate,

or aiding and abetting a violation of:

(1) assault in the first through fifth degrees as defined in sections 609.221 to 609.224;

(2) the use of drugs to injure or facilitate crime as defined in section 609.235;

(3) the solicitation, inducement, and promotion of prostitution as defined in section

609.322; and

(4) criminal sexual conduct in the first through fifth degrees as defined in sections

609.342 to 609.3451.

A violation includes any action that meets the elements of the crime, regardless of

whether there is a criminal proceeding or conviction.

(b) Conduct which is not an accident or therapeutic conduct as defined in this section,

which produces or could reasonably be expected to produce physical pain or injury or

emotional distress including, but not limited to, the following:

(1) hitting, slapping, kicking, pinching, biting, or corporal punishment of a vulnerable

adult;
(2) use of repeated or malicious oral, written, or gestured language toward a vulnerable adult or the treatment of a vulnerable adult which would be considered by a reasonable person to be disparaging, derogatory, humiliating, harassing, or threatening; or

(3) use of any aversive or deprivation procedure, unreasonable confinement, or involuntary seclusion, including the forced separation of the vulnerable adult from other persons against the will of the vulnerable adult or the legal representative of the vulnerable adult, and unless authorized under applicable licensing requirements or Minnesota Rules, chapter 9544.

(4) use of any aversive or deprivation procedures for persons with developmental disabilities or related conditions not authorized under section 245.825.

(c) Any sexual contact or penetration as defined in section 609.341, between a facility staff person or a person providing services in the facility and a resident, patient, or client of that facility.

(d) The act of forcing, compelling, coercing, or enticing a vulnerable adult against the vulnerable adult's will to perform services for the advantage of another.

(e) For purposes of this section, a vulnerable adult is not abused for the sole reason that the vulnerable adult or a person with authority to make health care decisions for the vulnerable adult under sections 144.651, 144A.44, chapter 145B, 145C or 252A, or section 253B.03 or 524.5-313, refuses consent or withdraws consent, consistent with that authority and within the boundary of reasonable medical practice, to any therapeutic conduct, including care, service, or procedure to diagnose, maintain, or treat the physical or mental condition of the vulnerable adult or, where permitted under law, to provide nutrition and hydration parenterally or through intubation. This paragraph does not enlarge or diminish rights otherwise held under law by:

(1) a vulnerable adult or a person acting on behalf of a vulnerable adult, including an involved family member, to consent to or refuse consent for therapeutic conduct; or

(2) a caregiver to offer or provide or refuse to offer or provide therapeutic conduct.

(f) For purposes of this section, a vulnerable adult is not abused for the sole reason that the vulnerable adult, a person with authority to make health care decisions for the vulnerable adult, or a caregiver in good faith selects and depends upon spiritual means or prayer for treatment or care of disease or remedial care of the vulnerable adult in lieu of medical care, provided that this is consistent with the prior practice or belief of the vulnerable adult or with the expressed intentions of the vulnerable adult.
(g) For purposes of this section, a vulnerable adult is not abused for the sole reason that
the vulnerable adult, who is not impaired in judgment or capacity by mental or emotional
dysfunction or undue influence, engages in consensual sexual contact with:

1. a person, including a facility staff person, when a consensual sexual personal
   relationship existed prior to the caregiving relationship; or
2. a personal care attendant, regardless of whether the consensual sexual personal
   relationship existed prior to the caregiving relationship.

Sec. 41. Minnesota Statutes 2020, section 626.5572, subdivision 4, is amended to read:

Subd. 4. Caregiver. "Caregiver" means an individual or facility who has responsibility
for all or a portion of the care of a vulnerable adult as a result of a family relationship, or
who has assumed responsibility for all or a portion of the care of a vulnerable adult
voluntarily, by contract, or by agreement.

Sec. 42. Minnesota Statutes 2020, section 626.5572, subdivision 17, is amended to read:

(a) "Caregiver neglect" means the failure or omission by a caregiver to supply a vulnerable
adult with care or services, including but not limited to, food, clothing, shelter, health care,
or supervision which is:

1. reasonable and necessary to obtain or maintain the vulnerable adult's physical or
   mental health or safety, considering the physical and mental capacity or dysfunction of the
   vulnerable adult; and
2. which is not the result of an accident or therapeutic conduct.

(b) The absence or likelihood of absence of care or services, including but not limited
to, food, clothing, shelter, health care, or supervision necessary to maintain the physical
and mental health of the vulnerable adult. "Self-neglect" means neglect by a vulnerable adult
of the vulnerable adult's own food, clothing, shelter, health care, or other services that are
not the responsibility of a caregiver which a reasonable person would deem essential to
obtain or maintain the vulnerable adult's health, safety, or comfort considering the physical
or mental capacity or dysfunction of the vulnerable adult.

(c) For purposes of this section, a vulnerable adult is not neglected for the sole reason
that:
(1) the vulnerable adult or a person with authority to make health care decisions for the vulnerable adult under sections 144.651, 144A.44, chapter 145B, 145C, or 252A, or sections 253B.03 or 524.5-101 to 524.5-502, refuses consent or withdraws consent, consistent with that authority and within the boundary of reasonable medical practice, to any therapeutic conduct, including any care, service, or procedure to diagnose, maintain, or treat the physical or mental condition of the vulnerable adult, or, where permitted under law, to provide nutrition and hydration parenterally or through intubation; this paragraph does not enlarge or diminish rights otherwise held under law by:

(i) a vulnerable adult or a person acting on behalf of a vulnerable adult, including an involved family member, to consent to or refuse consent for therapeutic conduct; or

(ii) a caregiver to offer or provide or refuse to offer or provide therapeutic conduct; or

(2) the vulnerable adult, a person with authority to make health care decisions for the vulnerable adult, or a caregiver in good faith selects and depends upon spiritual means or prayer for treatment or care of disease or remedial care of the vulnerable adult in lieu of medical care, provided that this is consistent with the prior practice or belief of the vulnerable adult or with the expressed intentions of the vulnerable adult;

(3) the vulnerable adult, who is not impaired in judgment or capacity by mental or emotional dysfunction or undue influence, engages in consensual sexual contact with:

(i) a person including a facility staff person when a consensual sexual personal relationship existed prior to the caregiving relationship; or

(ii) a personal care attendant, regardless of whether the consensual sexual personal relationship existed prior to the caregiving relationship; or

(4) an individual makes an error in the provision of therapeutic conduct to a vulnerable adult which does not result in injury or harm which reasonably requires medical or mental health care; or

(5) an individual makes an error in the provision of therapeutic conduct to a vulnerable adult that results in injury or harm, which reasonably requires the care of a physician, and:

(i) the necessary care is provided in a timely fashion as dictated by the condition of the vulnerable adult;

(ii) if after receiving care, the health status of the vulnerable adult can be reasonably expected, as determined by the attending physician, to be restored to the vulnerable adult's preexisting condition;
(iii) the error is not part of a pattern of errors by the individual;

(iv) if in a facility, the error is immediately reported as required under section 626.557, and recorded internally in the facility;

(v) if in a facility, the facility identifies and takes corrective action and implements measures designed to reduce the risk of further occurrence of this error and similar errors; and

(vi) if in a facility, the actions required under items (iv) and (v) are sufficiently documented for review and evaluation by the facility and any applicable licensing, certification, and ombudsman agency.

(d) Nothing in this definition requires a caregiver, if regulated, to provide services in excess of those required by the caregiver's license, certification, registration, or other regulation.

(e) If the findings of an investigation by a lead investigative agency result in a determination of substantiated maltreatment for the sole reason that the actions required of a facility under paragraph (c), clause (5), item (iv), (v), or (vi), were not taken, then the facility is subject to a correction order. An individual will not be found to have neglected or maltreated the vulnerable adult based solely on the facility's not having taken the actions required under paragraph (c), clause (5), item (iv), (v), or (vi). This must not alter the lead investigative agency's determination of mitigating factors under section 626.557, subdivision 9c, paragraph (f).

ARTICLE 14
CHILD PROTECTION

Section 1. Minnesota Statutes 2020, section 242.19, subdivision 2, is amended to read:

Subd. 2. Dispositions. When a child has been committed to the commissioner of corrections by a juvenile court, upon a finding of delinquency, the commissioner may for the purposes of treatment and rehabilitation:

(1) order the child's confinement to the Minnesota Correctional Facility-Red Wing, which shall accept the child, or to a group foster home under the control of the commissioner of corrections, or to private facilities or facilities established by law or incorporated under the laws of this state that may care for delinquent children;

(2) order the child's release on parole under such supervisions and conditions as the commissioner believes conducive to law-abiding conduct, treatment and rehabilitation;
(3) order reconfinement or renewed parole as often as the commissioner believes to be desirable;

(4) revoke or modify any order, except an order of discharge, as often as the commissioner believes to be desirable;

(5) discharge the child when the commissioner is satisfied that the child has been rehabilitated and that such discharge is consistent with the protection of the public;

(6) if the commissioner finds that the child is eligible for probation or parole and it appears from the commissioner's investigation that conditions in the child's or the guardian's home are not conducive to the child's treatment, rehabilitation, or law-abiding conduct, refer the child, together with the commissioner's findings, to a local social services agency or a licensed child-placing agency for placement in a foster care or, when appropriate, for initiation of child in need of protection or services proceedings as provided in sections 260C.001 to 260C.421. The commissioner of corrections shall reimburse local social services agencies for foster care costs they incur for the child while on probation or parole to the extent that funds for this purpose are made available to the commissioner by the legislature.

The juvenile court may order the parents of a child on probation or parole to pay the costs of foster care under section 260B.331, subdivision 1, if the local social services agency has determined that requiring reimbursement is in the child's best interests, according to their ability to pay, and to the extent that the commissioner of corrections has not reimbursed the local social services agency.

Sec. 2. Minnesota Statutes 2020, section 260.761, subdivision 2, is amended to read:

Subd. 2. Agency and court notice to tribes. (a) When a local social services agency has information that a family assessment or investigation, or noncaregiver sex trafficking assessment being conducted may involve an Indian child, the local social services agency shall notify the Indian child's tribe of the family assessment or investigation, or noncaregiver sex trafficking assessment according to section 260E.18. The local social services agency shall provide initial notice by telephone and by e-mail or facsimile. The local social services agency shall request that the tribe or a designated tribal representative participate in evaluating the family circumstances, identifying family and tribal community resources, and developing case plans.

(b) When a local social services agency has information that a child receiving services may be an Indian child, the local social services agency shall notify the tribe by telephone and by e-mail or facsimile of the child's full name and date of birth, the full names and dates of birth of the child's biological parents, and, if known, the full names and dates of birth of...
the child's grandparents and of the child's Indian custodian. This notification must be provided so for the tribe can determine if the child is enrolled in the tribe or eligible for tribal membership, and must be provided the agency must provide this notification to the tribe within seven days of receiving information that the child may be an Indian child. If information regarding the child's grandparents or Indian custodian is not available within the seven-day period, the local social services agency shall continue to request this information and shall notify the tribe when it is received. Notice shall be provided to all tribes to which the child may have any tribal lineage. If the identity or location of the child's parent or Indian custodian and tribe cannot be determined, the local social services agency shall provide the notice required in this paragraph to the United States secretary of the interior.

(c) In accordance with sections 260C.151 and 260C.152, when a court has reason to believe that a child placed in emergency protective care is an Indian child, the court administrator or a designee shall, as soon as possible and before a hearing takes place, notify the tribal social services agency by telephone and by e-mail or facsimile of the date, time, and location of the emergency protective case hearing. The court shall make efforts to allow appearances by telephone for tribal representatives, parents, and Indian custodians.

(d) A local social services agency must provide the notices required under this subdivision at the earliest possible time to facilitate involvement of the Indian child's tribe. Nothing in this subdivision is intended to hinder the ability of the local social services agency and the court to respond to an emergency situation. Lack of participation by a tribe shall not prevent the tribe from intervening in services and proceedings at a later date. A tribe may participate in a case at any time. At any stage of the local social services agency's involvement with an Indian child, the agency shall provide full cooperation to the tribal social services agency, including disclosure of all data concerning the Indian child. Nothing in this subdivision relieves the local social services agency of satisfying the notice requirements in the Indian Child Welfare Act.

Sec. 3. Minnesota Statutes 2020, section 260B.331, subdivision 1, is amended to read:

Subdivision 1. Care, examination, or treatment. (a)(1) Whenever legal custody of a child is transferred by the court to a local social services agency, or (2) whenever legal custody is transferred to a person other than the local social services agency, but under the supervision of the local social services agency, and (3) whenever a child is given physical or mental examinations or treatment under order of the court, and no provision is otherwise made by law for payment for the care,
examination, or treatment of the child, these costs are a charge upon the welfare funds of
the county in which proceedings are held upon certification of the judge of juvenile court.

(b) The court shall may order, and the local social services agency shall may require,
the parents or custodian of a child, while the child is under the age of 18, to use the total
income and resources attributable to the child for the period of care, examination, or
treatment, except for clothing and personal needs allowance as provided in section 256B.35,
to reimburse the county for the cost of care, examination, or treatment. Income and resources
attributable to the child include, but are not limited to, Social Security benefits, Supplemental
Security Income (SSI), veterans benefits, railroad retirement benefits and child support.

When the child is over the age of 18, and continues to receive care, examination, or treatment,
the court shall may order, and the local social services agency shall may require,
reimbursement from the child for the cost of care, examination, or treatment from the income
and resources attributable to the child less the clothing and personal needs allowance. The
local social services agency shall determine whether requiring reimbursement, either through
child support or parental fees, for the cost of care, examination, or treatment from income
and resources attributable to the child is in the child's best interests. In determining whether
to require reimbursement, the local social services agency shall consider:

(1) whether requiring reimbursement would compromise a parent's ability to meet the
child's treatment and rehabilitation needs before the child returns to the parent's home;

(2) whether requiring reimbursement would compromise the parent's ability to meet the
child's needs after the child returns home; and

(3) whether redirecting existing child support payments or changing the representative
payee of social security benefits to the local social services agency would limit the parent's
ability to maintain financial stability for the child upon the child's return home.

(c) If the income and resources attributable to the child are not enough to reimburse the
county for the full cost of the care, examination, or treatment, the court shall may inquire
into the ability of the parents to support the child reimburse the county for the cost of care,
examination, or treatment and, after giving the parents a reasonable opportunity to be heard,
the court shall may order, and the local social services agency shall may require, the parents
to contribute to the cost of care, examination, or treatment of the child. Except in delinquency
cases where the victim is a member of the child's immediate family. When determining the
amount to be contributed by the parents, the court shall use a fee schedule based upon ability
to pay that is established by the local social services agency and approved by the
commissioner of human services. In delinquency cases where the victim is a member of the
child's immediate family. The court shall use the fee schedule but may also take into account
the seriousness of the offense and any expenses which the parents have incurred as a result
of the offense or any expenses that the parents may have incurred as a result of the offense,
including but not limited to co-payments for mental health treatment and attorney fees. The
income of a stepparent who has not adopted a child shall be excluded in calculating the
parental contribution under this section. The local social services agency shall determine
whether requiring reimbursement from the parents, either through child support or parental
fees, for the cost of care, examination, or treatment from income and resources attributable
to the child is in the child's best interests. In determining whether to require reimbursement,
the local social services agency shall consider:

(1) whether requiring reimbursement would compromise a parent's ability to meet the
child's treatment and rehabilitation needs before the child returns to the parent's home;

(2) whether requiring reimbursement would compromise the parent's ability to meet the
child's needs after the child returns home; and

(3) whether requiring reimbursement would compromise the parent's ability to meet the
needs of the family.

(d) If the local social services agency determines that requiring reimbursement is in the
child's best interests, the court shall order the amount of reimbursement attributable to the
parents or custodian, or attributable to the child, or attributable to both sources, withheld
under chapter 518A from the income of the parents or the custodian of the child. A parent
or custodian who fails to pay without good reason may be proceeded against for contempt,
or the court may inform the county attorney, who shall proceed to collect the unpaid sums,
or both procedures may be used.

(e) If the court orders a physical or mental examination for a child, the examination is
a medically necessary service for purposes of determining whether the service is covered
by a health insurance policy, health maintenance contract, or other health coverage plan.
Court-ordered treatment shall be subject to policy, contract, or plan requirements for medical
necessity. Nothing in this paragraph changes or eliminates benefit limits, conditions of
coverage, co-payments or deductibles, provider restrictions, or other requirements in the
policy, contract, or plan that relate to coverage of other medically necessary services.
Sec. 4. Minnesota Statutes 2021 Supplement, section 260C.007, subdivision 14, is amended to read:

Subd. 14. Egregious harm. "Egregious harm" means the infliction of bodily harm to a child or neglect of a child which demonstrates a grossly inadequate ability to provide minimally adequate parental care. The egregious harm need not have occurred in the state or in the county where a termination of parental rights action is otherwise properly venued.

A district court may still have proper venue over an action to terminate parental rights when the egregious harm did not occur in the state or county where the district court is located.

Egregious harm includes, but is not limited to:

1. conduct toward a child that constitutes a violation of sections 609.185 to 609.2114, 609.222, subdivision 2, 609.223, or any other similar law of any other state;
2. the infliction of "substantial bodily harm" to a child, as defined in section 609.02, subdivision 7a;
3. conduct toward a child that constitutes felony malicious punishment of a child under section 609.377;
4. conduct toward a child that constitutes felony unreasonable restraint of a child under section 609.255, subdivision 3;
5. conduct toward a child that constitutes felony neglect or endangerment of a child under section 609.378;
6. conduct toward a child that constitutes assault under section 609.221, 609.222, or 609.223;
7. conduct toward a child that constitutes sex trafficking, solicitation, inducement, or promotion of, or receiving profit derived from prostitution under section 609.322;
8. conduct toward a child that constitutes murder or voluntary manslaughter as defined by United States Code, title 18, section 1111(a) or 1112(a);
9. conduct toward a child that constitutes aiding or abetting, attempting, conspiring, or soliciting to commit a murder or voluntary manslaughter that constitutes a violation of United States Code, title 18, section 1111(a) or 1112(a); or
10. conduct toward a child that constitutes criminal sexual conduct under sections 609.342 to 609.345 or sexual extortion under section 609.3458.
Sec. 5. Minnesota Statutes 2020, section 260C.331, subdivision 1, is amended to read:

Subdivision 1. Care, examination, or treatment. (a) Except where parental rights are terminated,

1. whenever legal custody of a child is transferred by the court to a responsible social services agency,

2. whenever legal custody is transferred to a person other than the responsible social services agency, but under the supervision of the responsible social services agency, or

3. whenever a child is given physical or mental examinations or treatment under order of the court, and no provision is otherwise made by law for payment for the care,

4. examination, or treatment of the child, these costs are a charge upon the welfare funds of the county in which proceedings are held upon certification of the judge of juvenile court.

(b) The court shall order, and the responsible social services agency shall require, the parents or custodian of a child, while the child is under the age of 18, to use the total income and resources attributable to the child for the period of care, examination, or treatment, except for clothing and personal needs allowance as provided in section 256B.35, to reimburse the county for the cost of care, examination, or treatment. Income and resources attributable to the child include, but are not limited to, Social Security benefits, Supplemental Security Income (SSI), veterans benefits, railroad retirement benefits and child support.

When the child is over the age of 18, and continues to receive care, examination, or treatment, the court shall order, and the responsible social services agency shall require, reimbursement from the child for the cost of care, examination, or treatment from the income and resources attributable to the child less the clothing and personal needs allowance. Income does not include earnings from a child over the age of 18 who is working as part of a plan under section 260C.212, subdivision 1, paragraph (c), clause (12), to transition from foster care, or the income and resources from sources other than Supplemental Security Income and child support that are needed to complete the requirements listed in section 260C.203.

The responsible social services agency shall determine whether requiring reimbursement, either through child support or parental fees, for the cost of care, examination, or treatment from the parents or custodian of a child is in the child's best interests. In determining whether to require reimbursement, the responsible social services agency shall consider:

1. whether requiring reimbursement would compromise the parent's ability to meet the requirements of the reunification plan;

2. whether requiring reimbursement would compromise the parent's ability to meet the child's needs after reunification; and
(3) whether redirecting existing child support payments or changing the representative
payee of social security benefits to the responsible social services agency would limit the
parent's ability to maintain financial stability for the child.

(c) If the income and resources attributable to the child are not enough to reimburse the
county for the full cost of the care, examination, or treatment, the court shall may inquire
into the ability of the parents to support the child, reimburse the county for the cost of care,
examination, or treatment and, after giving the parents a reasonable opportunity to be heard,
the court shall may order, and the responsible social services agency shall may require, the
parents to contribute to the cost of care, examination, or treatment of the child. When
determining the amount to be contributed by the parents, the court shall use a fee schedule
based upon ability to pay that is established by the responsible social services agency and
approved by the commissioner of human services. The income of a stepparent who has not
adopted a child shall be excluded in calculating the parental contribution under this section.
In determining whether to require reimbursement, the responsible social services agency
shall consider:

   (1) whether requiring reimbursement would compromise the parent's ability to meet the
requirements of the reunification plan;

   (2) whether requiring reimbursement would compromise the parent's ability to meet the
child's needs after reunification; and

   (3) whether requiring reimbursement would compromise the parent's ability to meet the
needs of the family.

(d) If the responsible social services agency determines that reimbursement is in the
child's best interest, the court shall order the amount of reimbursement attributable to the
parents or custodian, or attributable to the child, or attributable to both sources, withheld
under chapter 518A from the income of the parents or the custodian of the child. A parent
or custodian who fails to pay without good reason may be proceeded against for contempt,
or the court may inform the county attorney, who shall proceed to collect the unpaid sums,
or both procedures may be used.

(e) If the court orders a physical or mental examination for a child, the examination is
a medically necessary service for purposes of determining whether the service is covered
by a health insurance policy, health maintenance contract, or other health coverage plan.
Court-ordered treatment shall be subject to policy, contract, or plan requirements for medical
necessity. Nothing in this paragraph changes or eliminates benefit limits, conditions of
coverage, co-payments or deductibles, provider restrictions, or other requirements in the
policy, contract, or plan that relate to coverage of other medically necessary services.

(f) Notwithstanding paragraph (b), (c), or (d), a parent, custodian, or guardian of the
child is not required to use income and resources attributable to the child to reimburse the
county for costs of care and is not required to contribute to the cost of care of the child
during any period of time when the child is returned to the home of that parent, custodian,
or guardian pursuant to a trial home visit under section 260C.201, subdivision 1, paragraph
(a).

Sec. 6. Minnesota Statutes 2020, section 260C.451, subdivision 8, is amended to read:

Subd. 8. Notice of termination of foster care. When a child in foster care between the
ages of 18 and 21 ceases to meet one of the eligibility criteria of subdivision 3a, the
responsible social services agency shall give the child written notice that foster care will
terminate 30 days from the date the notice is sent. The child or the child's guardian ad litem
may file a motion asking the court to review the agency's determination within 15 days of
receiving the notice. The child shall not be discharged from foster care until the motion
is heard. The agency shall work with the child to prepare for the child's transition out of
foster care as. The agency must provide the court with the child's personalized transition
plan required to be developed under section 260C.203, paragraph (d), clause (2) 260C.452,
subdivision 4, if the motion is filed. The written notice of termination of benefits shall be
on a form prescribed by the commissioner and shall also give notice of the right to have the
agency's determination reviewed by the court in the proceeding where the court conducts
the reviews required under section 260C.203, 260C.317, or 260C.515, subdivision 5 or 6.
A copy of the termination notice shall be sent to the child and the child's attorney, if any,
the foster care provider, the child's guardian ad litem, and the court. The agency is not
responsible for paying foster care benefits for any period of time after the child actually
leaves foster care.

Sec. 7. Minnesota Statutes 2020, section 260C.451, is amended by adding a subdivision
to read:

Subd. 8a. Transition planning. For a youth who will be discharged from foster care at
18 years of age or older, the responsible social services agency must develop a personalized
transition plan as directed by the youth during the 180-day period immediately prior to the
expected date of discharge according to section 260C.452, subdivision 4. A youth's
personalized transition plan must include the support beyond 21 program under subdivision
Sec. 8. Minnesota Statutes 2020, section 260C.451, is amended by adding a subdivision to read:

Subd. 8b. Support beyond 21 program. For a youth who was eligible for extended foster care under subdivision 3 and is discharged at age 21, the responsible social services agency must ensure that the youth is referred to the support beyond 21 program. The support beyond 21 program must provide a youth with one additional year of financial support for housing and basic needs to assist the youth aging out of extended foster care at age 21. A youth receiving benefits under the support beyond 21 program is also eligible for the successful transition to adulthood program for additional support under section 260C.452.

A youth who transitions to residential services under sections 256B.092 and 256B.49 is not eligible for the support beyond 21 program.

Sec. 9. Minnesota Statutes 2020, section 260E.01, is amended to read:

260E.01 POLICY.

(a) The legislature hereby declares that the public policy of this state is to protect children whose health or welfare may be jeopardized through maltreatment. While it is recognized that most parents want to keep their children safe, sometimes circumstances or conditions interfere with their ability to do so. When this occurs, the health and safety of the children must be of paramount concern. Intervention and prevention efforts must address immediate concerns for child safety and the ongoing risk of maltreatment and should engage the protective capacities of families. In furtherance of this public policy, it is the intent of the legislature under this chapter to:

(1) protect children and promote child safety;

(2) strengthen the family;

(3) make the home, school, and community safe for children by promoting responsible child care in all settings; and

(4) provide, when necessary, a safe temporary or permanent home environment for maltreated children.

(b) In addition, it is the policy of this state to:
require the reporting of maltreatment of children in the home, school, and community
settings;

(2) provide for the voluntary reporting of maltreatment of children;

(3) require an investigation when the report alleges sexual abuse or substantial child
endangerment, except when the report alleges sex trafficking by a noncaregiver sex trafficker;

(4) provide a family assessment, if appropriate, when the report does not allege sexual
abuse or substantial child endangerment; and

(5) provide a noncaregiver sex trafficking assessment when the report alleges sex
trafficking by a noncaregiver sex trafficker; and

(6) provide protective, family support, and family preservation services when needed
in appropriate cases.

Sec. 10. Minnesota Statutes 2020, section 260E.02, subdivision 1, is amended to read:

Subdivision 1. Establishment of team. A county shall establish a multidisciplinary
child protection team that may include, but is not be limited to, the director of the local
welfare agency or designees, the county attorney or designees, the county sheriff or designees,
representatives of health and education, representatives of mental health, representatives of
agencies providing specialized services or responding to youth who experience or are at
risk of experiencing sex trafficking or sexual exploitation, or other appropriate human
services or community-based agencies, and parent groups. As used in this section, a
"community-based agency" may include, but is not limited to, schools, social services
agencies, family service and mental health collaboratives, children's advocacy centers, early
childhood and family education programs, Head Start, or other agencies serving children
and families. A member of the team must be designated as the lead person of the team
responsible for the planning process to develop standards for the team's activities with
battered women's and domestic abuse programs and services.

Sec. 11. Minnesota Statutes 2020, section 260E.03, is amended by adding a subdivision
to read:

Subd. 15a. Noncaregiver sex trafficker. "Noncaregiver sex trafficker" means an
individual who is alleged to have engaged in the act of sex trafficking a child and who is
not a person responsible for the child's care, who does not have a significant relationship
with the child as defined in section 609.341, and who is not a person in a current or recent

the assessment or investigation, except in a noncaregiver sex trafficking assessment.

complaints or allegations made against the individual in a manner consistent with laws
protecting the rights of the person who made the report. The interview with the alleged
offender may be postponed if it would jeopardize an active law enforcement investigation.
When conducting a noncaregiver sex trafficking assessment, the local child welfare agency
is not required to inform or interview the alleged offender.

(d) The local welfare agency or the agency responsible for assessing or investigating
the report must provide the alleged offender with an opportunity to make a statement, except

A record of a report that was not accepted must contain sufficient information to identify the subjects of the report, the nature of the alleged maltreatment, and the reasons as to why the report was not accepted. Records under this paragraph may not be used for employment, background checks, or purposes other than to assist in future screening decisions and risk and safety assessments.

(c) All records relating to reports that, upon investigation, indicate either maltreatment or a need for child protective services shall be maintained for ten years after the date of the final entry in the case record.

Subdivision 1. **General factors.** Among other reasons, deviation from the presumptive child support obligation computed under section 518A.34 is intended to encourage prompt and regular payments of child support and to prevent either parent or the joint children from living in poverty. In addition to the child support guidelines and other factors used to calculate the child support obligation under section 518A.34, the court must take into consideration the following factors in setting or modifying child support or in determining whether to deviate upward or downward from the presumptive child support obligation:

1. all earnings, income, circumstances, and resources of each parent, including real and personal property, but excluding income from excess employment of the obligor or obligee that meets the criteria of section 518A.29, paragraph (b);

3. the standard of living the child would enjoy if the parents were currently living together, but recognizing that the parents now have separate households;
4. whether the child resides in a foreign country for more than one year that has a substantially higher or lower cost of living than this country;
5. which parent receives the income taxation dependency exemption and the financial benefit the parent receives from it;
6. the parents' debts as provided in subdivision 2; and
7. the obligor's total payments for court-ordered child support exceed the limitations set forth in section 571.922; and
in cases involving court-ordered out-of-home placement, whether ordering and
redirecting a child support obligation to reimburse the county for the cost of care,
examination, or treatment would compromise the parent's ability to meet the requirements
of a reunification plan or the parent's ability to meet the child's needs after reunification.

Sec. 24. DIRECTION TO COMMISSIONER OF HUMAN SERVICES; FOSTER
CARE FEDERAL CASH ASSISTANCE BENEFITS PRESERVATION.

(a) The commissioner of human services shall develop a plan to implement procedures
and policies necessary to cease allowing a financially responsible agency to use the federal

payments;

(2) representative payees for children in voluntary foster care for treatment pursuant to
Minnesota Statutes, chapter 260D; and

(3) family preservation and reunification.

(b) For purposes of this section, "federal cash assistance benefits" means all benefits

(9) parents, legal custodians, foster families, and kinship caregivers, to the extent possible;
(10) youth who have been or are currently in out-of-home placement; and
(11) other relevant stakeholders.

(d) By December 15, 2022, each county shall provide the following data for fiscal years 2019 and 2020 to the commissioner in a form prescribed by the commissioner:

(1) the nonduplicated number of children in foster care in the county who received federal cash assistance benefits;
(2) the number of children for whom the county was the representative payee for federal cash assistance benefits; and
(3) the amount of money that the county collected in federal cash assistance benefits as the representative payee for children in the county.

(e) By January 15, 2024, the commissioner shall submit a report to the chairs and ranking minority members of the legislative committees with jurisdiction over human services and child welfare outlining the plan developed under this section. The report must include a projected timeline for implementation of the plan, estimated implementation costs, and any legislative recommendations that may be required to implement the plan.

the main facility where residents can be responsible for their own meals and other daily
needs.

(c) "Support services" means an assessment service that identifies the needs of individuals
for independent living and arranges or provides for the appropriate educational, social, legal,
advocacy, child care, employment, financial, health care, or information and referral services
to meet these needs.

If there is a reduction in a housing support recipient's benefit due to circumstances other than receipt of additional income, applicable exclusions and disregards apply when determining countable income. For a recipient of any cash benefit from the RSDI program, SSI program, or veterans' programs who lives in a setting as described in section 256I.04, subdivision 2a, paragraph (b), clause (2), countable income means 30 percent of the recipient's total benefit amount from these programs, after applicable exclusions or disregards, at the time the person is a recipient of housing support. EFFECTIVE DATE. This section is effective July 1, 2022.

Sec. 2. Minnesota Statutes 2020, section 245A.04, subdivision 4, is amended to read:

Subd. 4. Inspections; waiver. (a) Before issuing a license under this chapter, the
commissioner shall conduct an inspection of the program. The inspection must include but
is not limited to:

(1) an inspection of the physical plant;

(2) an inspection of records and documents;

(3) observation of the program in operation; and

(4) an inspection for the health, safety, and fire standards in licensing requirements for
a child care license holder.

(b) The observation in paragraph (a), clause (3), is not required prior to issuing a license
under subdivision 7. If the commissioner issues a license under this chapter, these
requirements must be completed within one year after the issuance of the license.
Before completing a licensing inspection in a family child care program or child care center, the licensing agency must offer the license holder an exit interview to discuss violations or potential violations of law or rule observed during the inspection and offer technical assistance on how to comply with applicable laws and rules. The commissioner shall not issue a correction order or negative licensing action for violations of law or rule not discussed in an exit interview, unless a license holder chooses not to participate in an exit interview or not to complete the exit interview. If the license holder is unable to complete the exit interview, the licensing agency must offer an alternate time for the license holder to complete the exit interview.

(d) If a family child care license holder disputes a county licensor's interpretation of a licensing requirement during a licensing inspection or exit interview, the license holder may, within five business days after the exit interview or licensing inspection, request clarification from the commissioner, in writing, in a manner prescribed by the commissioner. The license holder's request must describe the county licensor's interpretation of the licensing requirement at issue, and explain why the license holder believes the county licensor's interpretation is inaccurate. The commissioner and the county must include the license holder in all correspondence regarding the disputed interpretation, and must provide an opportunity for the license holder to contribute relevant information that may impact the commissioner's decision. The county licensor must not issue a correction order related to the disputed licensing requirement until the commissioner has provided clarification to the license holder.

(e) The commissioner or the county shall inspect at least annually once each calendar year a child care provider licensed under this chapter and Minnesota Rules, chapter 9502 or 9503, for compliance with applicable licensing standards.

(f) No later than November 19, 2017, the commissioner shall make publicly available on the department's website the results of inspection reports of all child care providers licensed under this chapter and under Minnesota Rules, chapter 9502 or 9503, and the number of deaths, serious injuries, and instances of substantiated child maltreatment that occurred in licensed child care settings each year.

**EFFECTIVE DATE.** This section is effective the day following final enactment.
a hearing. A hearing must be conducted by an administrative law judge within 30 calendar
days of the request for assignment, unless an extension is requested by either party and
granted by the administrative law judge for good cause. The commissioner shall issue a
notice of hearing by certified mail or personal service at least ten working days before the
hearing. The scope of the hearing shall be limited solely to the issue of whether the temporary
immediate suspension should remain in effect pending the commissioner's final order under
section 245A.08, regarding a licensing sanction issued under subdivision 3 following the
immediate suspension. For suspensions under subdivision 2, paragraph (a), clause (1), the
burden of proof in expedited hearings under this subdivision shall be limited to the
commissioner's demonstration that reasonable cause exists to believe that the license holder's
actions or failure to comply with applicable law or rule poses, or the actions of other
individuals or conditions in the program poses an imminent risk of harm to the health, safety,
or rights of persons served by the program. "Reasonable cause" means there exist specific
articulable facts or circumstances which provide the commissioner with a reasonable
suspicion that there is an imminent risk of harm to the health, safety, or rights of persons
served by the program. When the commissioner has determined there is reasonable cause
to order the temporary immediate suspension of a license based on a violation of safe sleep
requirements, as defined in section 245A.1435, the commissioner is not required to
demonstrate that an infant died or was injured as a result of the safe sleep violations. For
suspensions under subdivision 2, paragraph (a), clause (2), the burden of proof in expedited
hearings under this subdivision shall be limited to the commissioner's demonstration by a
preponderance of the evidence that, since the license was revoked, the license holder
committed additional violations of law or rule which may adversely affect the health or
safety of persons served by the program.

(b) The administrative law judge shall issue findings of fact, conclusions, and a
recommendation within ten working days from the date of hearing. The parties shall have
ten calendar days to submit exceptions to the administrative law judge's report. The record
shall close at the end of the ten-day period for submission of exceptions. The commissioner's
final order shall be issued within ten working days from the close of the record. When an
appeal of a temporary immediate suspension is withdrawn or dismissed, the commissioner
shall issue a final order affirming the temporary immediate suspension within ten calendar
days of the commissioner's receipt of the withdrawal or dismissal. Within 90 calendar days
after an immediate suspension has been issued and the license holder has not submitted a
timely appeal under subdivision 2, paragraph (b), or within 90 calendar days after a final
order affirming an immediate suspension, the commissioner shall make a determination
regarding determine:
whether a final licensing sanction shall be issued under subdivision 3, paragraph (a),
clauses (1) to (5). The license holder shall continue to be prohibited from operation of the
program during this 90-day period; or

whether the outcome of related, ongoing investigations or judicial proceedings are
necessary to determine if a final licensing sanction under subdivision 3, paragraph (a),
clauses (1) to (5), will be issued, and persons served by the program remain at an imminent
risk of harm during the investigation period or proceedings. If so, the commissioner shall
issue a suspension in accordance with subdivision 3.

c) When the final order under paragraph (b) affirms an immediate suspension or the
license holder does not submit a timely appeal of the immediate suspension, and a final
licensing sanction is issued under subdivision 3 and the license holder appeals that sanction,
the license holder continues to be prohibited from operation of the program pending a final
commissioner's order under section 245A.08, subdivision 5, regarding the final licensing
sanction.

d) The license holder shall continue to be prohibited from operation of the program
while a suspension order issued under paragraph (b), clause (2), remains in effect.

d) For suspensions under subdivision 2, paragraph (a), clause (3), the burden of
proof in expedited hearings under this subdivision shall be limited to the commissioner's
demonstration by a preponderance of the evidence that a criminal complaint and warrant
or summons was issued for the license holder that was not dismissed, and that the criminal
charge is an offense that involves fraud or theft against a program administered by the
commissioner.

Sec. 4. Minnesota Statutes 2020, section 245A.07, subdivision 3, is amended to read:

Subd. 3. License suspension, revocation, or fine. (a) The commissioner may suspend
or revoke a license, or impose a fine if:

1) a license holder fails to comply fully with applicable laws or rules including but not
limited to the requirements of this chapter and chapter 245C;

2) a license holder, a controlling individual, or an individual living in the household
where the licensed services are provided or is otherwise subject to a background study has
been disqualified and the disqualification was not set aside and no variance has been granted;

3) a license holder knowingly withholds relevant information from or gives false or
misleading information to the commissioner in connection with an application for a license,
in connection with the background study status of an individual, during an investigation, or regarding compliance with applicable laws or rules;

(4) a license holder is excluded from any program administered by the commissioner under section 245.095; or

(5) revocation is required under section 245A.04, subdivision 7, paragraph (d); or

(6) suspension is necessary under subdivision 2a, paragraph (b), clause (2).

A license holder who has had a license issued under this chapter suspended, revoked, or has been ordered to pay a fine must be given notice of the action by certified mail or personal service. If mailed, the notice must be mailed to the address shown on the application or the last known address of the license holder. The notice must state in plain language the reasons the license was suspended or revoked, or a fine was ordered.

(b) If the license was suspended or revoked, the notice must inform the license holder of the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The license holder may appeal an order suspending or revoking a license. The appeal of an order suspending or revoking a license must be made in writing by certified mail or personal service. If mailed, the appeal must be postmarked and sent to the commissioner within ten calendar days after the license holder receives notice that the license has been suspended or revoked. If a request is made by personal service, it must be received by the commissioner within ten calendar days after the license holder received the order. Except as provided in subdivision 2a, paragraph (c), if a license holder submits a timely appeal of an order suspending or revoking a license, the license holder may continue to operate the program as provided in section 245A.04, subdivision 7, paragraphs (f) and (g), until the commissioner issues a final order on the suspension or revocation.

(c)(1) If the license holder was ordered to pay a fine, the notice must inform the license holder of the responsibility for payment of fines and the right to a contested case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The appeal of an order to pay a fine must be made in writing by certified mail or personal service. If mailed, the appeal must be postmarked and sent to the commissioner within ten calendar days after the license holder receives notice that the fine has been ordered. If a request is made by personal service, it must be received by the commissioner within ten calendar days after the license holder received the order.

(2) The license holder shall pay the fines assessed on or before the payment date specified. If the license holder fails to fully comply with the order, the commissioner may issue a second fine or suspend the license until the license holder complies. If the license holder
receives state funds, the state, county, or municipal agencies or departments responsible for administering the funds shall withhold payments and recover any payments made while the license is suspended for failure to pay a fine. A timely appeal shall stay payment of the fine until the commissioner issues a final order.

(3) A license holder shall promptly notify the commissioner of human services, in writing, when a violation specified in the order to forfeit a fine is corrected. If upon reinspection the commissioner determines that a violation has not been corrected as indicated by the order to forfeit a fine, the commissioner may issue a second fine. The commissioner shall notify the license holder by certified mail or personal service that a second fine has been assessed. The license holder may appeal the second fine as provided under this subdivision.

(4) Fines shall be assessed as follows:

(i) the license holder shall forfeit $1,000 for each determination of maltreatment of a child under chapter 260E or the maltreatment of a vulnerable adult under section 626.557 for which the license holder is determined responsible for the maltreatment under section 260E.30, subdivision 4, paragraphs (a) and (b), or 626.557, subdivision 9c, paragraph (c);

(ii) if the commissioner determines that a determination of maltreatment for which the license holder is responsible is the result of maltreatment that meets the definition of serious maltreatment as defined in section 245C.02, subdivision 18, the license holder shall forfeit $5,000;

(iii) for a program that operates out of the license holder's home and a program licensed under Minnesota Rules, parts 9502.0300 to 9502.0445, the fine assessed against the license holder shall not exceed $1,000 for each determination of maltreatment;

(iv) the license holder shall forfeit $200 for each occurrence of a violation of law or rule governing matters of health, safety, or supervision, including but not limited to the provision of adequate staff-to-child or adult ratios, and failure to comply with background study requirements under chapter 245C; and

(v) the license holder shall forfeit $100 for each occurrence of a violation of law or rule other than those subject to a $5,000, $1,000, or $200 fine in items (i) to (iv).

For purposes of this section, "occurrence" means each violation identified in the commissioner's fine order. Fines assessed against a license holder that holds a license to provide home and community-based services, as identified in section 245D.03, subdivision 1, and a community residential setting or day services facility license under chapter 245D where the services are provided, may be assessed against both licenses for the same
occurrence, but the combined amount of the fines shall not exceed the amount specified in this clause for that occurrence.

(5) When a fine has been assessed, the license holder may not avoid payment by closing, selling, or otherwise transferring the licensed program to a third party. In such an event, the license holder will be personally liable for payment. In the case of a corporation, each controlling individual is personally and jointly liable for payment.

(d) Except for background study violations involving the failure to comply with an order to immediately remove an individual or an order to provide continuous, direct supervision, the commissioner shall not issue a fine under paragraph (c) relating to a background study violation to a license holder who self-corrects a background study violation before the commissioner discovers the violation. A license holder who has previously exercised the provisions of this paragraph to avoid a fine for a background study violation may not avoid a fine for a subsequent background study violation unless at least 365 days have passed since the license holder self-corrected the earlier background study violation.

Sec. 5. Minnesota Statutes 2021 Supplement, section 245A.14, subdivision 4, is amended to read:

(a) the license holder is the primary provider of care and the nonresidential child care program is conducted in a dwelling that is located on a residential lot;

(b) the license holder is an employer who may or may not be the primary provider of care, and the purpose for the child care program is to provide child care services to children of the license holder's employees;

(c) the license holder is a church or religious organization;

(e) the license holder is a not-for-profit agency that provides child care in a dwelling located on a residential lot and the license holder maintains two or more contracts with community employers or other community organizations to provide child care services.

The county licensing agency may grant a capacity variance to a license holder licensed...
under this paragraph to exceed the licensed capacity of 14 children by no more than five
children during transition periods related to the work schedules of parents, if the license
holder meets the following requirements:

(1) the program does not exceed a capacity of 14 children more than a cumulative total
of four hours per day;

(2) the program meets a one to seven staff-to-child ratio during the variance period;

(3) all employees receive at least an extra four hours of training per year than required
in the rules governing family child care each year;

(4) the facility has square footage required per child under Minnesota Rules, part
9502.0425; or

(5) the program is in compliance with local zoning regulations;

(6) the program is in compliance with the applicable fire code as follows:

(i) if the program serves more than five children older than 2-1/2 years of age, but no
more than five children 2-1/2 years of age or less, the applicable fire code is educational
occupancy, as provided in Group E Occupancy under the Minnesota State Fire Code 2015,
Section 202; or

(ii) if the program serves more than five children 2-1/2 years of age or less, the applicable
fire code is Group I-4 Occupancies, as provided in the Minnesota State Fire Code 2015,

exit discharge and each of these child care rooms has an exit door directly to the exterior,
then the applicable fire code is Group E occupancies, as provided in the Minnesota State
Fire Code 2015, Section 202; and

(7) any age and capacity limitations required by the fire code inspection and square
footage determinations shall be printed on the license; or

(f) the license holder is the primary provider of care and has located the licensed child
care program in a commercial space, if the license holder meets the following requirements:

(1) the program is in compliance with local zoning regulations;

(2) the program is in compliance with the applicable fire code as follows:

(i) if the program serves more than five children older than 2-1/2 years of age, but no
more than five children 2-1/2 years of age or less, the applicable fire code is educational
occupancy, as provided in Group E Occupancy under the Minnesota State Fire Code 2015,
(ii) if the program serves more than five children 2-1/2 years of age or less, the applicable
fire code is Group I-4 Occupancies, as provided under the Minnesota State Fire Code 2015,
Section 202;

(3) any age and capacity limitations required by the fire code inspection and square
footage determinations are printed on the license; and

(4) the license holder prominently displays the license issued by the commissioner which
contains the statement "This special family child care provider is not licensed as a child
care center."

(g) Notwithstanding Minnesota Rules, part 9502.0335, subpart 12, the commissioner
may issue up to four licenses to an organization licensed under paragraph (b), (c), or (e).
Each license must have its own primary provider of care as required under paragraph (i).
Each license must operate as a distinct and separate program in compliance with all applicable
laws and regulations.

(h) For licenses issued under paragraph (b), (c), (d), (e), or (f), the commissioner may
approve up to four licenses at the same location or under one contiguous roof if each license
holder is able to demonstrate compliance with all applicable rules and laws. Each licensed
program must operate as a distinct program and within the capacity, age, and ratio
distributions of each license.

(i) For a license issued under paragraph (b), (c), or (e), the license holder must designate
a person to be the primary provider of care at the licensed location on a form and in a manner
prescribed by the commissioner. The license holder shall notify the commissioner in writing
before there is a change of the person designated to be the primary provider of care. The
primary provider of care:

(1) must be the person who will be the provider of care at the program and present during
the hours of operation;

(2) must operate the program in compliance with applicable laws and regulations under
chapter 245A and Minnesota Rules, chapter 9502;

EFFECTIVE DATE. This section is effective July 1, 2022.

Sec. 6. Minnesota Statutes 2020, section 245A.1435, is amended to read:

245A.1435 REDUCTION OF RISK OF SUDDEN UNEXPECTED INFANT DEATH IN LICENSED PROGRAMS.

(a) When a license holder is placing an infant to sleep, the license holder must place the infant on the infant's back, unless the license holder has documentation from the infant's physician or advanced practice registered nurse directing an alternative sleeping position for the infant. The physician or advanced practice registered nurse directive must be on a form approved developed by the commissioner and must remain on file at the licensed location.

An infant who independently rolls onto its stomach after being placed to sleep on its back may be allowed to remain sleeping on its stomach if the infant is at least six months of age or the license holder has a signed statement from the parent indicating that the infant regularly rolls over at home.

(b) The license holder must place the infant in a crib directly on a firm mattress with a fitted sheet that is appropriate to the mattress size, that fits tightly on the mattress, and overlaps the underside of the mattress so it cannot be dislodged by pulling on the corner of the sheet with reasonable effort. The license holder must not place anything in the crib with the infant except for the infant's pacifier, as defined in Code of Federal Regulations, title 16, part 1511. The pacifier must be free from any sort of attachment. The requirements of this section apply to license holders serving infants younger than one year of age. Licensed child care providers must meet the crib requirements under section 245A.146. A correction order shall not be issued under this paragraph unless there is evidence that a violation occurred when an infant was present in the license holder's care.

(c) If an infant falls asleep before being placed in a crib, the license holder must move the infant to a crib as soon as practicable, and must keep the infant within sight of the license holder until the infant is placed in a crib. When an infant falls asleep while being held, the license holder must consider the supervision needs of other children in care when determining
how long to hold the infant before placing the infant in a crib to sleep. The sleeping infant
must not be in a position where the airway may be blocked or with anything covering the
infant's face.

(d) When a license holder places an infant under one year of age down to sleep, the
infant's clothing or sleepwear must not have weighted materials, a hood, or a bib.

(e) A license holder may place an infant under one year of age down to sleep wearing
a helmet if the license holder has signed documentation by a physician, advanced practice
registered nurse, licensed occupational therapist, or a licensed physical therapist on a form
developed by the commissioner.

(f) Placing a swaddled infant down to sleep in a licensed setting is not recommended
for an infant of any age and is prohibited for any infant who has begun to roll over
independently. However, with the written consent of a parent or guardian according to this
paragraph, a license holder may place the infant who has not yet begun to roll over on its
own down to sleep in a one-piece sleeper equipped with an attached system that fastens
securely only across the upper torso, with no constriction of the hips or legs, to create a
swaddle. A swaddle is defined as one-piece sleepwear that wraps over the infant's arms,
fastens securely only across the infant's upper torso, and does not constrict the infant's hips
or legs. If a swaddle is used by a license holder, the license holder must ensure that it meets
the requirements of paragraph (d) and is not so tight that it restricts the infant's ability to
breathe or so loose that the fabric could cover the infant's nose and mouth. Prior to any use
of swaddling for sleep by a provider licensed under this chapter, the license holder must
obtain informed written consent for the use of swaddling from the parent or guardian of the
infant on a form developed by the commissioner and prepared in partnership with
the Minnesota Sudden Infant Death Center.

(g) A license holder may request a variance to this section to permit the use of a
cradleboard when requested by a parent or guardian for a cultural accommodation. Only
the commissioner may issue a variance for the use of a cradleboard. The variance request
must be submitted on a form developed by the commissioner in partnership with Tribal
craddleboard when requested by a parent or guardian for a cultural accommodation. Only
the commissioner may issue a variance for the use of a cradleboard. The variance request
must be submitted on a form developed by the commissioner in partnership with Tribal
welfare agencies and the Department of Health.

EFFECTIVE DATE. This section is effective January 1, 2023.
Sec. 7. Minnesota Statutes 2020, section 245A.1443, is amended to read:

### 245A.1443 CHEMICAL DEPENDENCY SUBSTANCE USE DISORDER TREATMENT LICENSED PROGRAMS THAT SERVE PARENTS WITH THEIR CHILDREN.

Subdivision 1. Application. This section applies to chemical dependency residential substance use disorder treatment facilities that are licensed under this chapter and Minnesota Rules, chapter 9530, 245G and that provide services in accordance with section 245G.19.

Subd. 2. Requirements for providing education. (a) On or before the date of a child's initial physical presence at the facility, the license holder must provide education to the child's parent related to safe bathing and reducing the risk of sudden unexpected infant death and abusive head trauma from shaking infants and young children. The license holder must use the educational material developed by the commissioner to comply with this requirement. At a minimum, the education must address:

1. instruction that a child or infant should never be left unattended around water, a tub should be filled with only two to four inches of water for infants, and an infant should never be put into a tub when the water is running; and
2. the risk factors related to sudden unexpected infant death and abusive head trauma from shaking infants and young children, and means of reducing the risks, including the safety precautions identified in section 245A.1435 and the dangers risks of co-sleeping.

(b) The license holder must document the parent's receipt of the education and keep the documentation in the parent's file. The documentation must indicate whether the parent agrees to comply with the safeguards. If the parent refuses to comply, program staff must provide additional education to the parent at appropriate intervals, at least weekly, as described in the parental supervision plan. The parental supervision plan must include the intervention, frequency, and staff responsible for the duration of the parent's participation in the program or until the parent agrees to comply with the safeguards.

Subd. 3. Parental supervision of children. (a) On or before the date of a child's initial physical presence at the facility, the license holder must complete and document an assessment of the parent's capacity to meet the health and safety needs of the child while on the facility premises, including identifying circumstances when the parent may be unable to adequately care for their child due to considering the following factors:

1. the parent's physical or and mental health;
2. the parent being under the influence of drugs, alcohol, medications, or other chemicals;
(3) the parent being unable to provide appropriate supervision for the child; or

(3) the child's physical and mental health; and

(4) any other information available to the license holder that indicates the parent may not be able to adequately care for the child.

(b) The license holder must have written procedures specifying the actions to be taken by staff if a parent is or becomes unable to adequately care for the parent's child.

(c) If the parent refuses to comply with the safeguards described in subdivision 2 or is unable to adequately care for the child, the license holder must develop a parental supervision plan in conjunction with the client. The plan must account for any factors in paragraph (a) that contribute to the parent's inability to adequately care for the child. The plan must be dated and signed by the staff person who completed the plan.

Subd. 4. Alternative supervision arrangements. The license holder must have written procedures addressing whether the program permits a parent to arrange for supervision of the parent's child by another client in the program. If permitted, the facility must have a procedure that requires staff approval of the supervision arrangement before the supervision by the nonparental client occurs. The procedure for approval must include an assessment of the nonparental client's capacity to assume the supervisory responsibilities using the criteria in subdivision 3. The license holder must document the license holder's approval of the supervisory arrangement and the assessment of the nonparental client's capacity to supervise the child, and must keep this documentation in the file of the parent of the child being supervised.

EFFECTIVE DATE. This section is effective January 1, 2023.

Sec. 8. Minnesota Statutes 2020, section 245A.146, subdivision 3, is amended to read:

If money recovered on behalf of injured persons or entities cannot reasonably be distributed to those persons or entities because they cannot readily be located or identified or because the cost of distributing the money would outweigh the benefit to the persons or entities, the money must be paid into the general fund.

(b) Money recovered on behalf of a fund in the state treasury other than the general fund may be deposited in that fund.

(c) This section does not prohibit a state official from distributing money to a person or entity other than the state in litigation or potential litigation in which the state is a defendant or potential defendant.

(b) For purposes of assessing the annual registration fee under this section and determining the number of opiate units a manufacturer sold, delivered, or distributed within or into the state, the board shall not consider any opiate that is used for medication-assisted therapy for substance use disorders. (e) By April 1 of each year, beginning April 1, 2020, the board shall notify a manufacturer that the manufacturer meets the requirement in paragraph (a) and is required to pay the annual registration fee in accordance with section 151.252, subdivision 1, paragraph (b).

The dispute must be filed with the board in the manner and using the forms specified by the board. A manufacturer must submit, with the required forms, data satisfactory to the board that demonstrates that the assessment of the registration fee was incorrect. Subd. 4. Testing requirements. (a) A manufacturer of a product regulated under this section must submit representative samples of the product to an independent, accredited laboratory in order to certify that the product complies with the standards adopted by the board. Testing must be consistent with generally accepted industry standards for herbal and botanical substances, and, at a minimum, the testing must confirm that the product:

(1) contains the amount or percentage of cannabinoids that is stated on the label of the product;

(2) does not contain more than trace amounts of any mold, residual solvents, pesticides, fertilizers, or heavy metals; and
(3) does not contain a delta-9 tetrahydrocannabinol concentration that exceeds the concentration permitted for industrial hemp as defined in section 18K.02, subdivision 3 more than 0.3 percent of any tetrahydrocannabinol.

(b) Upon the request of the board, the manufacturer of the product must provide the board with the results of the testing required in this section.

(c) Testing of the hemp from which the nonintoxicating cannabinoid was derived, or possession of a certificate of analysis for such hemp, does not meet the testing requirements of this section.

Sec. 7. Minnesota Statutes 2021 Supplement, section 151.72, subdivision 5, is amended to read:

Subd. 5. Labeling requirements. (a) A product regulated under this section must bear a label that contains, at a minimum:

(1) the name, location, contact phone number, and website of the manufacturer of the product;

(2) the name and address of the independent, accredited laboratory used by the manufacturer to test the product; and

(3) an accurate statement of the amount or percentage of cannabinoids found in each unit of the product meant to be consumed; or

(4) instead of the information required in clauses (1) to (3), a scannable bar code or QR code that links to the manufacturer’s website.

(b) The information in paragraph (a) may be provided on an outer package if the immediate container that holds the product is too small to contain all of the information.

(c) The information required in paragraph (a) may be provided through the use of a scannable barcode or matrix barcode that links to a page on the manufacturer’s website if that page contains all of the information required by this subdivision.

(d) The label must also include a statement stating that this product does not claim to diagnose, treat, cure, or prevent any disease and has not been evaluated or approved by the United States Food and Drug Administration (FDA) unless the product has been so approved.

(e) The information required to be on the label by this subdivision must be prominently and conspicuously placed and displayed on the website in terms that can be easily read and understood by the consumer.
The labeling must not contain any claim that the product may be used or is effective for the prevention, treatment, or cure of a disease or that it may be used to alter the structure or function of human or animal bodies, unless the claim has been approved by the FDA.

Sec. 8. Minnesota Statutes 2020, section 151.72, is amended by adding a subdivision to read:

4. contain an ingredient, other than a hemp-derived cannabinoid, that is not approved by the United States Food and Drug Administration for use in food;
5. be packaged in a way that resembles the trademarked, characteristic, or product-specialized packaging of any commercially available food product; or
6. be packaged in a container that includes a statement, artwork, or design that could reasonably mislead any person to believe that the package contains anything other than an edible cannabinoid product.

(c) An edible cannabinoid product must be prepackaged in packaging or a container that is child-resistant, tamper-evident, and opaque or placed in packaging or a container that is child-resistant, tamper-evident, and opaque at the final point of sale to a customer. The requirement that packaging be child-resistant does not apply to an edible cannabinoid product that is intended to be consumed as a beverage and which contains no more than a trace amount of any tetrahydrocannabinol.

(d) If an edible cannabinoid product is intended for more than a single use or contains multiple servings, each serving must be indicated by scoring, wrapping, or other indicators designating the individual serving size.
(e) A label containing at least the following information must be affixed to the packaging or container of all edible cannabinoid products sold to consumers:

1. the serving size;
2. the cannabinoid profile per serving and in total;
3. a list of ingredients, including identification of any major food allergens declared by name; and

e) "Disability" has the meaning given in section 363A.03, subdivision 12.

f) "Organ transplant" means the transplantation or infusion of a part of a human body into the body of another for the purpose of treating or curing a medical condition.

g) "Qualified individual" means an individual who, with or without available support networks, the provision of auxiliary aids and services, or reasonable modifications to policies or practices, meets the essential eligibility requirements for the receipt of an anatomical gift.

h) "Reasonable modifications" include, but are not limited to:

(1) communication with individuals responsible for supporting an individual with postsurgical and post-transplantation care, including medication; and

(2) consideration of support networks available to the individual, including family, friends, and home and community-based services, including home and community-based services funded through Medicaid, Medicare, another health plan in which the individual is enrolled, or any program or source of funding available to the individual, in determining whether the individual is able to comply with post-transplant medical requirements.

i) "Supported decision making" has the meaning given in section 524.5-102, subdivision 16a.
Subd. 2. Prohibition of discrimination. (a) A covered entity may not, on the basis of a qualified individual's race, ethnicity, mental disability, or physical disability:

(b) Notwithstanding paragraph (a), a covered entity may take an individual's disability into account when making treatment or coverage recommendations or decisions, solely to the extent that the physical or mental disability has been found by a physician, following an individualized evaluation of the potential recipient to be medically significant to the provision of the anatomical gift or organ transplant. The provisions of this section may not be deemed to require referrals or recommendations for, or the performance of, organ transplants that are not medically appropriate given the individual's overall health condition.

(c) If an individual has the necessary support system to assist the individual in complying with post-transplant medical requirements, an individual's inability to independently comply with those requirements may not be deemed to be medically significant for the purposes of paragraph (b).

(d) A covered entity must make reasonable modifications to policies, practices, or procedures, when such modifications are necessary to make services such as transplantation-related counseling, information, coverage, or treatment available to qualified individuals with disabilities, unless the entity can demonstrate that making such modifications would fundamentally alter the nature of such services.

(e) A covered entity must take such steps as may be necessary to ensure that no qualified individual with a disability is denied services such as transplantation-related counseling, information, coverage, or treatment because of the absence of auxiliary aids and services, unless the entity can demonstrate that taking such steps would fundamentally alter the nature of such services.
of the services being offered or result in an undue burden. A covered entity is not required
to provide supported decision-making services.

(f) A covered entity must otherwise comply with the requirements of Titles II and III of
the Americans with Disabilities Act of 1990, the Americans with Disabilities Act

(g) The provisions of this section apply to each part of the organ transplant process.

(4) a caregiver is ill, or physically or mentally incapacitated; or
(5) some other circumstance occurs that a caregiver could not avoid with reasonable care which prevents the caregiver from providing a completed MFIP household report form before the end of the month in which the form is due.

256J.33 PROSPECTIVE AND RETROSPECTIVE MFIP ELIGIBILITY.

Subd. 3. Retrospective eligibility. After the first two months of MFIP eligibility, a county agency must continue to determine whether an assistance unit is prospectively eligible for the payment month by looking at all factors other than income and then determine whether the assistance unit is retrospectively income eligible by applying the monthly income test to the income from the budget month. When the monthly income test is not satisfied, the assistance payment must be suspended when ineligibility exists for one month or ended when ineligibility exists for more than one month.

Subd. 4. Monthly income test. A county agency must apply the monthly income test retrospectively for each month of MFIP eligibility. An assistance unit is not eligible when the countable income equals or exceeds the MFIP standard of need or the family wage level for the assistance unit. The income applied against the monthly income test must include:

(1) gross earned income from employment as described in chapter 256P, prior to mandatory payroll deductions, voluntary payroll deductions, wage authorizations, and after the disregards in section 256J.21, subdivision 4, and the allocations in section 256J.36;
(2) gross earned income from self-employment less deductions for self-employment expenses in section 256J.37, subdivision 5, but prior to any reductions for personal or business state and federal income taxes, personal FICA, personal health and life insurance, and after the disregards in section 256J.21, subdivision 4, and the allocations in section 256J.36;
(3) unearned income as described in section 256P.06, subdivision 3, after deductions for allowable expenses in section 256J.37, subdivision 9, and allocations in section 256J.36;
(4) gross earned income from employment as determined under clause (1) which is received by a member of an assistance unit who is a minor child or minor caregiver and less than a half-time student;
(5) child support received by an assistance unit, excluded under section 256P.06, subdivision 3, clause (2), item (xvi);
(6) spousal support received by an assistance unit;
(7) the income of a parent when that parent is not included in the assistance unit;
(8) the income of an eligible relative and spouse who seek to be included in the assistance unit; and
(9) the unearned income of a minor child included in the assistance unit.

Subd. 5. When to terminate assistance. When an assistance unit is ineligible for MFIP assistance for two consecutive months, the county agency must terminate MFIP assistance.

256J.34 CALCULATING ASSISTANCE PAYMENTS.

Subdivision 1. Prospective budgeting. A county agency must use prospective budgeting to calculate the assistance payment amount for the first two months for an applicant who has not received assistance in this state for at least one payment month preceding the first month of payment under a current application. Notwithstanding subdivision 3, paragraph (a), clause (2), a county agency must use prospective budgeting for the first two months for a person who applies to be added to an assistance unit. Prospective budgeting is not subject to overpayments or underpayments unless fraud is determined under section 256.98.
(a) The county agency must apply the income received or anticipated in the first month of MFIP eligibility against the need of the first month. The county agency must apply the income received or anticipated in the second month against the need of the second month.

(b) When the assistance payment for any part of the first two months is based on anticipated income, the county agency must base the initial assistance payment amount on the information available at the time the initial assistance payment is made.

(c) The county agency must determine the assistance payment amount for the first two months of MFIP eligibility by budgeting both recurring and nonrecurring income for those two months.

Subd. 2. Retrospective budgeting. The county agency must use retrospective budgeting to calculate the monthly assistance payment amount after the payment for the first two months has been made under subdivision 1.

Subd. 3. Additional uses of retrospective budgeting. Notwithstanding subdivision 1, the county agency must use retrospective budgeting to calculate the monthly assistance payment amount for the first two months under paragraphs (a) and (b).

(a) The county agency must use retrospective budgeting to determine the amount of the assistance payment in the first two months of MFIP eligibility:

(1) when an assistance unit applies for assistance for the same month for which assistance has been interrupted, the interruption in eligibility is less than one payment month, the assistance payment for the preceding month was issued in this state, and the assistance payment for the immediately preceding month was determined retrospectively; or

(2) when a person applies in order to be added to an assistance unit, that assistance unit has received assistance in this state for at least the two preceding months, and that person has been living with and has been financially responsible for one or more members of that assistance unit at least the two preceding months.

(b) Except as provided in clauses (1) to (4), the county agency must use retrospective budgeting and apply income received in the budget month by an assistance unit and by a financially responsible household member who is not included in the assistance unit against the MFIP standard of need or family wage level to determine the assistance payment to be issued for the payment month.

(1) When a source of income ends prior to the third payment month, that income is not considered in calculating the assistance payment for that month. When a source of income ends prior to the fourth payment month, that income is not considered when determining the assistance payment for that month.

(2) When a member of an assistance unit or a financially responsible household member leaves the household of the assistance unit, the income of that departed household member is not budgeted retrospectively for any full payment month in which that household member does not live with that household and is not included in the assistance unit.

(3) When an individual is removed from an assistance unit because the individual is no longer a minor child, the income of that individual is not budgeted retrospectively for payment months in which that individual is not a member of the assistance unit, except that income of an ineligible child in the household must continue to be budgeted retrospectively against the child's needs when the parent or parents of that child request allocation of their income against any unmet needs of that ineligible child.

(4) When a person ceases to have financial responsibility for one or more members of an assistance unit, the income of that person is not budgeted retrospectively for the payment months which follow the month in which financial responsibility ends.

Subd. 4. Significant change in gross income. The county agency must recalculate the assistance payment when an assistance unit experiences a significant change, as defined in section 256J.08, resulting in a reduction in the gross income received in the payment month from the gross income received in the budget month. The county agency must issue a supplemental assistance payment based on the county agency's best estimate of the assistance unit's income and circumstances for the payment month. Supplemental assistance payments that result from significant changes are limited to two in a 12-month period regardless of the reason for the change. Notwithstanding any other statute or rule of law, supplementary assistance payments shall not be made when the significant change in income is the result of receipt of a lump sum, receipt of an extra paycheck, business fluctuation in self-employment income, or an assistance unit member's participation in a strike or other labor action.

APPENDIX
Repealed Minnesota Statutes: UES4410-1
256J.37 TREATMENT OF INCOME AND LUMP SUMS.

Subd. 10. Treatment of lump sums. (a) The agency must treat lump-sum payments as earned or unearned income. If the lump-sum payment is included in the category of income identified in subdivision 9, it must be treated as unearned income. A lump sum is counted as income in the month received and budgeted either prospectively or retrospectively depending on the budget cycle at the time of receipt. When an individual receives a lump-sum payment, that lump sum must be combined with all other earned and unearned income received in the same budget month, and it must be applied according to paragraphs (a) to (c). A lump sum may not be carried over into subsequent months. Any funds that remain in the third month after the month of receipt are counted in the asset limit.

(b) For a lump sum received by an applicant during the first two months, prospective budgeting is used to determine the payment and the lump sum must be combined with other earned or unearned income received and budgeted in that prospective month.

(c) For a lump sum received by a participant after the first two months of MFIP eligibility, the lump sum must be combined with other income received in that budget month, and the combined amount must be applied retrospectively against the applicable payment month.

(d) When a lump sum, combined with other income under paragraphs (b) and (c), is less than the MFIP transitional standard for the appropriate payment month, the assistance payment must be reduced according to the amount of the countable income. When the countable income is greater than the MFIP standard or family wage level, the assistance payment must be suspended for the payment month.

256R.08 REPORTING OF FINANCIAL STATEMENTS.

Subd. 2. Extensions. The commissioner may grant up to a 15-day extension of the reporting deadline to a nursing facility for good cause. To receive such an extension, a nursing facility shall submit a written request by January 1. The commissioner shall notify the nursing facility of the decision by January 15. Between January 1 and February 1, the nursing facility may request a reporting extension for good cause by telephone and followed by a written request.

256R.49 RATE ADJUSTMENTS FOR COMPENSATION-RELATED COSTS FOR MINIMUM WAGE CHANGES.

Subdivision 1. Rate adjustments for compensation-related costs. (a) Rate increases provided under this section before October 1, 2016, expire effective January 1, 2018, and rate increases provided on or after October 1, 2016, expire effective January 1, 2019.

(b) Nursing facilities that receive approval of the applications in subdivision 2 must receive rate adjustments according to subdivision 4. The rate adjustments must be used to pay compensation costs for nursing facility employees paid less than $14 per hour.

Subd. 2. Application process. To receive a rate adjustment, nursing facilities must submit applications to the commissioner in a form and manner determined by the commissioner. The applications for the rate adjustments shall include specified data, and spending plans that describe how the funds from the rate adjustments will be allocated for compensation to employees paid less than $14 per hour. The applications must be submitted within three months of the effective date of any operating payment rate adjustment under this section. The commissioner may request any additional information needed to determine the rate adjustment within three weeks of receiving a complete application. The nursing facility must provide any additional information requested by the commissioner within six months of the effective date of any operating payment rate adjustment under this section. The commissioner may waive the deadlines in this section under extraordinary circumstances.

Subd. 3. Additional application requirements for facilities with employees represented by an exclusive bargaining representative. For nursing facilities in which employees are represented by an exclusive bargaining representative, the commissioner shall approve the applications submitted under subdivision 2 only upon receipt of a letter or letters of acceptance of the spending plans in regard to members of the bargaining unit, signed by the exclusive bargaining agent and dated after May 31, 2014. Upon receipt of the letter or letters of acceptance, the commissioner shall deem all requirements of this section as having been met in regard to the members of the bargaining unit.

Subd. 4. Determination of the rate adjustments for compensation-related costs. Based on the application in subdivision 2, the commissioner shall calculate the allowable annualized compensation costs by adding the totals of clauses (1), (2), and (3). The result must be divided by
the standardized or resident days from the most recently available cost report to determine per day amounts, which must be included in the operating portion of the total payment rate and allocated to direct care or other operating as determined by the commissioner:

1. the sum of the difference between $9.50 and any hourly wage rate less than $9.50 for October 1, 2016; and between the indexed value of the minimum wage, as defined in section 177.24, subdivision 1, paragraph (f), and any hourly wage less than that indexed value for rate years beginning on and after October 1, 2017; multiplied by the number of compensated hours at that wage rate;

2. using wages and hours in effect during the first three months of calendar year 2014, beginning with the first pay period beginning on or after January 1, 2014; 22.2 percent of the sum of items (i) to (viii) for October 1, 2016;

(i) for all compensated hours from $8 to $8.49 per hour, the number of compensated hours is multiplied by $0.13;

(ii) for all compensated hours from $8.50 to $8.99 per hour, the number of compensated hours is multiplied by $0.25;

(iii) for all compensated hours from $9 to $9.49 per hour, the number of compensated hours is multiplied by $0.38;

(iv) for all compensated hours from $9.50 to $10.49 per hour, the number of compensated hours is multiplied by $0.50;

(vii) for all compensated hours from $11.50 to $11.99 per hour, the number of compensated hours is multiplied by $0.20; and

(viii) for all compensated hours from $12 to $13 per hour, the number of compensated hours is multiplied by $0.10; and

3. the sum of the employer's share of FICA taxes, Medicare taxes, state and federal unemployment taxes, workers' compensation, pensions, and contributions to employee retirement accounts attributable to the amounts in clauses (1) and (2).

256S.19 MONTHLY CASE MIX BUDGET CAPS; NURSING FACILITY RESIDENTS.

Subd. 4. Calculation of monthly conversion budget cap with consumer-directed community supports.

For the elderly waiver monthly conversion budget cap for the cost of elderly waiver services with consumer-directed community supports, the nursing facility case mix adjusted total payment rate used under subdivision 3 to calculate the monthly conversion budget cap for elderly waiver services without consumer-directed community supports must be reduced by a percentage equal to the percentage difference between the consumer-directed community supports budget limit that would be assigned according to the elderly waiver plan and the corresponding monthly case mix budget cap under this chapter, but not to exceed 50 percent.

9530.7020 LOCAL AGENCY TO DETERMINE CLIENT ELIGIBILITY.

Subpart 1. Local agency duty to determine client eligibility. The local agency shall determine a client's eligibility for the behavioral health fund at the time the client is assessed under parts 9530.6600 to 9530.6655. Client eligibility must be determined using forms prescribed by the department. To determine a client's eligibility, the local agency must determine the client's income, the size of the client's household, the availability of a third-party payment source, and a responsible relative's ability to pay for the client's chemical dependency treatment, as specified in items A to C.

A. The local agency must determine the client's income. A client who is a minor child shall not be deemed to have income available to pay for chemical dependency treatment, unless the minor child is responsible for payment under Minnesota Statutes, section 144.347, for chemical dependency treatment services sought under Minnesota Statutes, section 144.343, subdivision 1.

B. The local agency must determine the client's household size according to subitems (1), (2), and (3).

(1) If the client is a minor child, the household size includes the following persons living in the same dwelling unit:

(a) the client;
(b) the client's birth or adoptive parents; and
(c) the client's siblings who are minors.

(2) If the client is an adult, the household size includes the following persons living in the same dwelling unit:

(a) the client;
(b) the client's spouse;
(c) the client's minor children; and
(d) the client's spouse's minor children.

(3) For purposes of this item, household size includes a person listed in subitems (1) and (2) who is in out-of-home placement if a person listed in subitem (1) or (2) is contributing to the cost of care of the person in out-of-home placement.

C. The local agency must determine the client's current prepaid health plan enrollment, the availability of a third-party payment source, including the availability of total payment, partial payment, and amount of copayment.

D. The local agency must provide the required eligibility information to the department in the manner specified by the department.
E. The local agency shall require the client and policyholder to conditionally assign to the department the client and policyholder's rights and the rights of minor children to benefits or services provided to the client if the department is required to collect from a third-party pay source.

Subp. 1a. Redetermination of client eligibility. The local agency shall redetermine a client's eligibility for CCDTF every six months after the initial eligibility determination, if the client has continued to receive uninterrupted chemical dependency treatment services for that six months. For purposes of this subpart, placement of a client into more than one chemical dependency treatment program in less than ten working days, or placement of a client into a residential chemical dependency treatment program followed by nonresidential chemical dependency treatment services shall be treated as a single placement.

Subp. 2. Client, responsible relative, and policyholder obligation to cooperate. A client, responsible relative, and policyholder shall provide income or wage verification, household size verification, and shall make an assignment of third-party payment rights under subpart 1, item C. If a client, responsible relative, or policyholder does not comply with the provisions of this subpart, the client shall be deemed to be ineligible to have the behavioral health fund pay for his or her chemical dependency treatment, and the client and responsible relative shall be obligated to pay for the full cost of chemical dependency treatment services provided to the client.

9530.7021 Payment Agreements.

When the local agency, the client, and the vendor agree that the vendor will accept payment from a third-party payment source for an eligible client's treatment, the local agency, the client, and the vendor shall enter into a third-party payment agreement. The agreement must stipulate that the vendor will accept, as payment in full for services provided to the client, the amount the third-party payor is obligated to pay for services provided to the client. The agreement must be executed in a form prescribed by the commissioner and is not effective unless an authorized representative of each of the three parties has signed it. The local agency shall maintain a record of third-party payment agreements into which the local agency has entered.

The vendor shall notify the local agency as soon as possible and not less than one business day before discharging a client whose treatment is covered by a payment agreement under this part if the discharge is caused by disruption of the third-party payment.

9530.7022 Client Fees.

Subpart 1. Income and household size criteria. A client whose household income is within current household size and income guidelines for entitled persons as defined in Minnesota Statutes, section 254B.04, subdivision 1, shall pay no fee.

9530.7025 Denial of Payment.

Subpart 1. Denial of payment when required assessment not completed. The department shall deny payments from the behavioral health fund to vendors for chemical dependency treatment services provided to clients who have not been assessed and placed by the county in accordance with parts 9530.6600 to 9530.6655.

Subp. 2. Denial of state participation in behavioral health fund payments when client found not eligible. The department shall pay vendors from the behavioral health fund for chemical dependency treatment services provided to clients and shall bill the county for 100 percent of the costs of chemical dependency treatment services as follows:

A. The department shall bill the county for 100 percent of the costs of a client's chemical dependency treatment services when the department determines that the client was not placed in accordance with parts 9530.6600 to 9530.6655.
B. When a county's allocation under Minnesota Statutes, section 254B.02, subdivisions 1 and 2, has been exhausted, and the county's maintenance of effort has been met as required under Minnesota Statutes, section 254B.02, subdivision 3, and the local agency has been notified by the department that the only clients who are eligible to have their treatment paid for from the behavioral health fund are clients who are eligible under part 9530.7015, subdivision 1, the department shall bill the county for 100 percent of the costs of a client's chemical dependency treatment services when the department determines that the client was not eligible under part 9530.7015, subdivision 1.

9530.7030 VENDOR MUST PARTICIPATE IN DAANES SYSTEM.
