If actual statewide expenditures by county boards are less than the fiscal year appropriation to provide semi-independent living services under this section, the unexpended amount must be carried forward to the next fiscal year and allocated to grants in equal amounts to the eight organizations defined in section 268A.01, subdivision 8, to expand services to support people with disabilities who are ineligible for medical assistance to live in their own homes and communities by providing accessibility modifications, independent living services, and public health program facilitation.

EFFECTIVE DATE. This section is effective the day following final enactment.

Unless otherwise specified, all reduced amounts shall be transferred to the medical assistance state account.
(c) For fiscal year 1997, the base appropriation available under this section shall be reduced by the amount of the state share of medical assistance reimbursement for services other than residential services provided under the home and community-based waiver program authorized in section 256B.092 from January 1, 1995, to December 31, 1995, for persons who have been transferred from the semi-independent living services program to the home and community-based waiver program. The base appropriation for the medical assistance state account shall be increased by the same amount.

(d) For purposes of calculating the guaranteed floor under subdivision 4b and to establish the calendar year 1996 allocations, each county's original allocation for calendar year 1995 shall be reduced by the amount transferred to the state medical assistance account under paragraph (b) during the six months ending on June 30, 1995. For purposes of calculating the guaranteed floor under subdivision 4b and to establish the calendar year 1997 allocations, each county's original allocation for calendar year 1996 shall be reduced by the amount transferred to the state medical assistance account under paragraph (b) during the six months ending on December 31, 1995.

Laws 2022, chapter 33, section 1, is amended to read:

Subd. 14. **Exceptions.** (a) In a format prescribed by the commissioner, lead agencies
must identify individuals with exceptional needs that cannot be met under the disability

approve an alternative payment rate for those individuals. Whether granted, denied, or
modified, the commissioner shall respond to all exception requests in writing. The
commissioner shall include in the written response the basis for the action and provide
notification of the right to appeal under paragraph (h).

(b) Lead agencies must act on an exception request within 30 days and notify the initiator
of the request of their recommendation in writing. A lead agency shall submit all exception
requests along with its recommendation to the commissioner.

(c) An application for a rate exception may be submitted for the following criteria:

(1) an individual has service needs that cannot be met through additional units of service;
(2) an individual's rate determined under subdivisions 6 to 9 is so insufficient that it
has resulted in an individual receiving a notice of discharge from the individual's provider;

or

(3) an individual's service needs, including behavioral changes, require a level of service
which necessitates a change in provider or which requires the current provider to propose
service changes beyond those currently authorized.

(d) Exception requests must include the following information:

(1) the service needs required by each individual that are not accounted for in subdivisions
6 to 9;
(2) the service rate requested and the difference from the rate determined in subdivisions
6 to 9;

(3) a basis for the underlying costs used for the rate exception and any accompanying
documentation; and

(e) Approved rate exceptions shall be managed within lead agency allocations under
sections 256B.092 and 256B.49.

(f) Individual disability waiver recipients, an interested party, or the license holder that

interested party, or license holder of its decision and the reasons for denying the request in
writing no later than 30 days after the request has been made and shall submit its denial to
the commissioner in accordance with paragraph (b). The reasons for the denial must be
based on the failure to meet the criteria in paragraph (c).
(g) The commissioner shall determine whether to approve or deny an exception request no more than 30 days after receiving the request. If the commissioner denies the request, the commissioner shall notify the lead agency and the individual disability waiver recipient, the interested party, and the license holder in writing of the reasons for the denial.

(h) The individual disability waiver recipient may appeal any denial of an exception request by either the lead agency or the commissioner, pursuant to sections 256.045 and 256.0451. When the denial of an exception request results in the proposed demission of a waiver recipient from a residential or day habilitation program, the commissioner shall issue a temporary stay of demission, when requested by the disability waiver recipient, consistent with the provisions of section 256.045, subdivisions 4a and 6, paragraph (c). The temporary stay shall remain in effect until the lead agency can provide an informed choice of appropriate, alternative services to the disability waiver.

(i) Providers may petition lead agencies to update values that were entered incorrectly or erroneously into the rate management system, based on past service level discussions and determination in subdivision 4, without applying for a rate exception.

(j) The starting date for the rate exception will be the later of the date of the recipient's change in support or the date of the request to the lead agency for an exception.

(k) The commissioner shall track all exception requests received and their dispositions. The commissioner shall issue quarterly public exceptions statistical reports, including the number of exception requests received and the numbers granted, denied, withdrawn, and pending. (2) up to 80 beds in a single, specialized facility located in Hennepin County that will provide housing for chronic inebriates who are repetitive users of detoxification centers and are refused placement in emergency shelters because of their state of intoxication, and planning for the specialized facility must have been initiated before July 1, 1991, in anticipation of receiving a grant from the Housing Finance Agency under section 462A.05, subdivision 20a, paragraph (b);
(3) notwithstanding the provisions of subdivision 2a, for up to 226 supportive housing units in Anoka, Carver, Dakota, Hennepin, or Ramsey, Scott, or Washington County for homeless adults with a disability, including but not limited to mental illness, a history of

For purposes of this section clause, "homeless adult" means a person who is (i) living on

payment in an amount determined under section 256I.06, subdivision 8, using the MSA
equivalent rate. Service funding under section 256I.05, subdivision 1a, will end June 30,

Minnesota Housing Finance Agency Ending Long-Term Homelessness Initiative and serves
chemically dependent clientele, providing 24-hour-a-day supervision;

(6) for a new 65-bed facility in Crow Wing County that will serve chemically dependent
persons, operated by a housing support provider that currently operates a 304-bed facility
in Minneapolis, and a 44-bed facility in Duluth;

(7) for a housing support provider that operates two ten-bed facilities, one located in
Hennepin County and one located in Ramsey County, that provide community support and
24-hour-a-day supervision to serve the mental health needs of individuals who have
chronically lived unsheltered; and

(8) for a facility authorized for recipients of housing support in Hennepin County with
a capacity of up to 48 beds that has been licensed since 1978 as a board and lodging facility
and that until August 1, 2007, operated as a licensed chemical dependency treatment program.

(b) An agency may enter into a housing support agreement for beds with rates in excess
of the MSA equivalent rate in addition to those currently covered under a housing support
agreement if the additional beds are only a replacement of beds with rates in excess of the
MSA equivalent rate which have been made available due to closure of a setting, a change
of licensure or certification which removes the beds from housing support payment, or as
a result of the downsizing of a setting authorized for recipients of housing support. The
transfer of available beds from one agency to another can only occur by the agreement of
both agencies.

EFFECTIVE DATE. This section is effective January 1, 2023, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 18. NURSING FACILITY FUNDING.

(a) Effective July 1, 2022, through December 31, 2024, the total payment rate for all facilities reimbursed under this section must be increased by $28.65 per resident day.

(b) To be eligible to receive a payment under this section, a nursing facility must attest to the commissioner of human services that the additional revenue will be used exclusively to increase compensation-related costs for employees directly employed by the facility on or after July 1, 2022, excluding:

(1) owners of the building and operation;
(2) persons employed in the central office of an entity that has any ownership interest
in the nursing facility or exercises control over the nursing facility;

(3) persons paid by the nursing facility under a management contract; and

(4) persons providing separately billable services.

(c) Contracted housekeeping, dietary, and laundry employees providing services on site
at the nursing facility are eligible for compensation-related cost increases under this section,
provided the agency that employs them submits to the nursing facility proof of the costs of
the increases provided to those employees.

(d) For purposes of this section, compensation-related costs include:

(1) permanent new increases to wages and salaries implemented on or after July 1, 2022,
and before September 1, 2022, for nursing facility employees;

(2) permanent new increases to wages and salaries implemented on or after July 1, 2022,
and before September 1, 2022, for employees in the organization's shared services
departments of hospital-attached nursing facilities for the nursing facility allocated share
of wages; and

(3) the employer's share of FICA taxes, Medicare taxes, state and federal unemployment
taxes, PERA, workers' compensation, and pension and employee retirement accounts directly
associated with the wage and salary increases in clauses (1) and (2) incurred no later than
December 31, 2024, and paid for no later than June 30, 2025.

(e) A facility that receives a rate increase under this section must complete a distribution
plan in the form and manner determined by the commissioner. This plan must specify the
total amount of money the facility is estimated to receive from this rate increase and how
that money will be distributed to increase the allowable compensation-related costs described
in paragraph (d) for employees described in paragraphs (b) and (c). This estimate must be
computed by multiplying $28.65 by the sum of the medical assistance and private pay
resident days as defined in Minnesota Statutes, section 256R.02, subdivision 45, for the
period beginning October 1, 2020, through September 30, 2021, dividing this sum by 365
and multiplying the result by 915. A facility must submit its distribution plan to the
commissioner by October 1, 2022. The commissioner may review the distribution plan to
ensure that the payment rate adjustment per resident day is used in accordance with this
section. The commissioner may allow for a distribution plan amendment under exceptional
circumstances to be determined at the sole discretion of the commissioner.
(f) By September 1, 2022, a facility must post the distribution plan summary and leave it posted for a period of at least six months in an area of the facility to which all employees have access. The posted distribution plan summary must be in the form and manner determined by the commissioner. The distribution plan summary must include instructions regarding how to contact the commissioner or the commissioner's representative if an employee believes the employee is covered by paragraph (b) or (c) and has not received the compensation-related increases described in paragraph (d). The instruction to such employees must include the e-mail address and telephone number that may be used by the employee to contact the commissioner's representative. The posted distribution plan summary must demonstrate how the increase in paragraph (a) received by the nursing facility from July 1, 2022, through December 1, 2024, will be used in full to pay the compensation-related costs in paragraph (d) for employees described in paragraphs (b) and (c).

(g) If the nursing facility expends less on new compensation-related costs than the amount that was made available by the rate increase in this section for that purpose, the amount of this rate adjustment must be reduced to equal the amount utilized by the facility for purposes authorized under this section. If the facility fails to post the distribution plan summary in its facility as required, fails to submit its distribution plan to the commissioner by the due date, or uses these funds for unauthorized purposes, these rate increases must be treated as an overpayment and subsequently recovered.

(h) The commissioner shall not treat payments received under this section as an applicable credit for purposes of setting total payment rates under Minnesota Statutes, chapter 256R.

(c) The initial report due on March 15, 2022, must include the utilization metrics described in paragraph (a) for each of the following calendar years: 2017, 2018, 2019, and 2020.

(d) In the annual report due on March 15, 2023, and in each report due thereafter, the commissioner shall include the following:

(4) the number of dentists who provided dental services to a new patient who was enrolled in medical assistance or MinnesotaCare within the previous calendar year.

(e) The report due on March 15, 2023, must include the metrics described in paragraph (d) for each of the following years: 2017, 2018, 2019, 2020, and 2021.

Sec. 2. Minnesota Statutes 2020, section 256B.057, subdivision 9, is amended to read:

Subd. 9. Employed persons with disabilities. (a) Medical assistance may be paid for a person who is employed and who:

(1) but for excess earnings or assets, meets the definition of disabled under the Supplemental Security Income program;

(2) meets the asset limits in paragraph (d); and

(3) pays a premium and other obligations under paragraph (e).

(b) For purposes of eligibility, there is a $65 earned income disregard. To be eligible for medical assistance under this subdivision, a person must have more than $65 of earned income. Earned income must have Medicare, Social Security, and applicable state and federal taxes withheld. The person must document earned income tax withholding. Any spousal income or assets shall be disregarded for purposes of eligibility and premium determinations.

(c) After the month of enrollment, a person enrolled in medical assistance under this subdivision who:

(1) is temporarily unable to work and without receipt of earned income due to a medical condition, as verified by a physician, advanced practice registered nurse, or physician assistant; or

(2) loses employment for reasons not attributable to the enrollee, and is without receipt of earned income may retain eligibility for up to four consecutive months after the month of job loss. To receive a four-month extension, enrollees must verify the medical condition or provide notification of job loss. All other eligibility requirements must be met and the enrollee must pay all calculated premium costs for continued eligibility.

(d) For purposes of determining eligibility under this subdivision, a person's assets must not exceed $20,000, excluding:

(1) all assets excluded under section 256B.056;
(2) retirement accounts, including individual accounts, 401(k) plans, 403(b) plans, Keogh plans, and pension plans;

(3) medical expense accounts set up through the person's employer; and

(4) spousal assets, including spouse's share of jointly held assets.

(e) All enrollees must pay a premium to be eligible for medical assistance under this subdivision, except as provided under clause (1), item (i), and clause (5).

(1) An enrollee must pay the greater of a $35 premium or the premium calculated based on by applying the following sliding premium fee scale to the person's gross earned and unearned income and the applicable family size using a sliding fee scale established by the commissioner, which begins at one percent of income at 100 percent of the federal poverty guidelines and increases to 7.5 percent of income for those with incomes at or above 300 percent of the federal poverty guidelines:

(i) for enrollees with income less than 200 percent of federal poverty guidelines, the premium shall be zero percent of income;

(ii) for enrollees with income from 200 to 250 percent of federal poverty guidelines, the sliding premium fee scale shall begin at zero percent of income and increase to 2.5 percent;

(iii) for enrollees with income from 250 to 300 percent of federal poverty guidelines, the sliding premium fee scale shall begin at 2.5 percent of income and increase to 4.5 percent;

(iv) for enrollees with income from 300 to 400 percent of federal poverty guidelines, the sliding premium fee scale shall begin at 4.5 percent of income and increase to six percent;

(v) for enrollees with income from 400 to 500 percent of federal poverty guidelines, the sliding premium fee scale shall begin at six percent of income and increase to 7.5 percent;

and

(vi) for enrollees with income greater than 500 percent of federal poverty guidelines, the premium shall be 7.5 percent of income.

(2) Annual adjustments in the premium schedule based upon changes in the federal poverty guidelines shall be effective for premiums due in July of each year.

(3) All enrollees who receive unearned income must pay one-half of one percent of unearned income in addition to the premium amount, except as provided under clause (5).

(4) Increases in benefits under title II of the Social Security Act shall not be counted as income for purposes of this subdivision until July 1 of each year.
Effective July 1, 2009, American Indians are exempt from paying premiums as required by section 5006 of the American Recovery and Reinvestment Act of 2009, Public Law 111-5. For purposes of this clause, an American Indian is any person who meets the definition of Indian according to Code of Federal Regulations, title 42, section 447.50.

A person's eligibility and premium shall be determined by the local county agency. Premiums must be paid to the commissioner. All premiums are dedicated to the commissioner.

Any required premium shall be determined at application and redetermined at the enrollee's six-month income review or when a change in income or household size is reported. Enrollees must report any change in income or household size within ten days of when the change occurs. A decreased premium resulting from a reported change in income or household size shall be effective the first day of the next available billing month after the change is reported. Except for changes occurring from annual cost-of-living increases, a change resulting in an increased premium shall not affect the premium amount until the next six-month review.

Premium payment is due upon notification from the commissioner of the premium amount required. Premiums may be paid in installments at the discretion of the commissioner.

Nonpayment of the premium shall result in denial or termination of medical assistance unless the person demonstrates good cause for nonpayment. "Good cause" means an excuse for the enrollee's failure to pay the required premium when due because the circumstances were beyond the enrollee's control or not reasonably foreseeable. The commissioner shall determine whether good cause exists based on the weight of the supporting evidence submitted by the enrollee to demonstrate good cause. Except when an installment agreement is accepted by the commissioner, all persons disenrolled for nonpayment of a premium must pay any past due premiums as well as current premiums due prior to being reenrolled. Nonpayment shall include payment with a returned, refused, or dishonored instrument. The commissioner may require a guaranteed form of payment as the only means to replace a returned, refused, or dishonored instrument.

For enrollees whose income does not exceed 200 percent of the federal poverty guidelines and who are also enrolled in Medicare, the commissioner shall reimburse the enrollee for Medicare Part B premiums under section 256B.0625, subdivision 15, paragraph (a).
Sec. 3. Minnesota Statutes 2020, section 256B.0625, is amended by adding a subdivision to read:

Subd. 13k. Vaccines and laboratory tests provided by pharmacists. (a) Medical assistance covers vaccines initiated, ordered, or administered by a licensed pharmacist, according to the requirements of section 151.01, subdivision 27, clause (6), at no less than the rate for which the same services are covered when provided by any other licensed practitioner.

(b) Medical assistance covers laboratory tests ordered and performed by a licensed pharmacist, according to the requirements of section 151.01, subdivision 27, clause (3), at no less than the rate for which the same services are covered when provided by any other licensed practitioner.

EFFECTIVE DATE. This section is effective January 1, 2023, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 4. Minnesota Statutes 2021 Supplement, section 256B.0625, subdivision 17, is amended to read:

Subd. 17. Transportation costs. (a) "Nonemergency medical transportation service" means motor vehicle transportation provided by a public or private person that serves Minnesota health care program beneficiaries who do not require emergency ambulance service, as defined in section 144E.001, subdivision 3, to obtain covered medical services.

(b) Medical assistance covers medical transportation costs incurred solely for obtaining emergency medical care or transportation costs incurred by eligible persons in obtaining emergency or nonemergency medical care when paid directly to an ambulance company, nonemergency medical transportation company, or other recognized providers of transportation services. Medical transportation must be provided by:

(1) nonemergency medical transportation providers who meet the requirements of this subdivision;

(2) ambulances, as defined in section 144E.001, subdivision 2;

(3) taxicabs that meet the requirements of this subdivision;

(4) public transit, as defined in section 174.22, subdivision 7; or

(5) not-for-hire vehicles, including volunteer drivers, as defined in section 65B.472, subdivision 1, paragraph (h).
(c) Medical assistance covers nonemergency medical transportation provided by nonemergency medical transportation providers enrolled in the Minnesota health care programs. All nonemergency medical transportation providers must comply with the operating standards for special transportation service as defined in sections 174.29 to 174.30 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the commissioner and reported on the claim as the individual who provided the service. All nonemergency medical transportation providers shall bill for nonemergency medical transportation services in accordance with Minnesota health care programs criteria. Publicly operated transit systems, volunteers, and not-for-hire vehicles are exempt from the requirements outlined in this paragraph.

(d) An organization may be terminated, denied, or suspended from enrollment if:

(1) the provider has not initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

(2) the provider has initiated background studies on the individuals specified in section 174.30, subdivision 10, paragraph (a), clauses (1) to (3), and:

(i) the commissioner has sent the provider a notice that the individual has been disqualified under section 245C.14; and

(ii) the individual has not received a disqualification set-aside specific to the special transportation services provider under sections 245C.22 and 245C.23.

(e) The administrative agency of nonemergency medical transportation must:

(1) adhere to the policies defined by the commissioner in consultation with the Nonemergency Medical Transportation Advisory Committee;

(2) pay nonemergency medical transportation providers for services provided to Minnesota health care programs beneficiaries to obtain covered medical services;

(3) provide data monthly to the commissioner on appeals, complaints, no-shows, canceled trips, and number of trips by mode; and

(4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single administrative structure assessment tool that meets the technical requirements established by the commissioner, reconciles trip information with claims being submitted by providers, and ensures prompt payment for nonemergency medical transportation services.

(f) Until the commissioner implements the single administrative structure and delivery system under subdivision 18e, clients shall obtain their level-of-service certificate from the
commissioner or an entity approved by the commissioner that does not dispatch rides for
clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).

(g) The commissioner may use an order by the recipient's attending physician, advanced
practice registered nurse, or a medical or mental health professional to certify that the
recipient requires nonemergency medical transportation services. Nonemergency medical
transportation providers shall perform driver-assisted services for eligible individuals, when
appropriate. Driver-assisted service includes passenger pickup at and return to the individual's
residence or place of business, assistance with admittance of the individual to the medical
facility, and assistance in passenger securement or in securing of wheelchairs, child seats,
or stretchers in the vehicle.

Nonemergency medical transportation providers must take clients to the health care
provider using the most direct route, and must not exceed 30 miles for a trip to a primary
care provider or 60 miles for a trip to a specialty care provider, unless the client receives
authorization from the local agency.

Nonemergency medical transportation providers may not bill for separate base rates for
the continuation of a trip beyond the original destination. Nonemergency medical
transportation providers must maintain trip logs, which include pickup and drop-off times,
signed by the medical provider or client, whichever is deemed most appropriate, attesting
to mileage traveled to obtain covered medical services. Clients requesting client mileage
reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
services.

(h) The administrative agency shall use the level of service process established by the
commissioner in consultation with the Nonemergency Medical Transportation Advisory
Committee to determine the client's most appropriate mode of transportation. If public transit
or a certified transportation provider is not available to provide the appropriate service mode
for the client, the client may receive a onetime service upgrade.

(i) The covered modes of transportation are:

(1) client reimbursement, which includes client mileage reimbursement provided to
clients who have their own transportation, or to family or an acquaintance who provides
transportation to the client;

(2) volunteer transport, which includes transportation by volunteers using their own
vehicle;

Article 3 Sec. 4.  
78
(3) unassisted transport, which includes transportation provided to a client by a taxicab or public transit. If a taxicab or public transit is not available, the client can receive transportation from another nonemergency medical transportation provider;

(4) assisted transport, which includes transport provided to clients who require assistance by a nonemergency medical transportation provider;

(5) lift-equipped/ramp transport, which includes transport provided to a client who is dependent on a device and requires a nonemergency medical transportation provider with a vehicle containing a lift or ramp;

(6) protected transport, which includes transport provided to a client who has received a prescreening that has deemed other forms of transportation inappropriate and who requires a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety locks, a video recorder, and a transparent thermoplastic partition between the passenger and the vehicle driver; and (ii) who is certified as a protected transport provider; and

(7) stretcher transport, which includes transport for a client in a prone or supine position and requires a nonemergency medical transportation provider with a vehicle that can transport a client in a prone or supine position.

(j) The local agency shall be the single administrative agency and shall administer and reimburse for modes defined in paragraph (i) according to paragraphs (m) and (n) when the commissioner has developed, made available, and funded the web-based single administrative structure, assessment tool, and level of need assessment under subdivision 18e. The local agency's financial obligation is limited to funds provided by the state or federal government.

(k) The commissioner shall:

(1) in consultation with the Nonemergency Medical Transportation Advisory Committee, verify that the mode and use of nonemergency medical transportation is appropriate;

(2) verify that the client is going to an approved medical appointment; and

(3) investigate all complaints and appeals.

(l) The administrative agency shall pay for the services provided in this subdivision and seek reimbursement from the commissioner, if appropriate. As vendors of medical care, local agencies are subject to the provisions in section 256B.041, the sanctions and monetary recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

(m) Payments for nonemergency medical transportation must be paid based on the client's assessed mode under paragraph (h), not the type of vehicle used to provide the service. The
medical assistance reimbursement rates for nonemergency medical transportation services that are payable by or on behalf of the commissioner for nonemergency medical transportation services are:

(1) $0.22 per mile for client reimbursement;

(2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer transport;

(3) equivalent to the standard fare for unassisted transport when provided by public transit, and $12.93 for the base rate and $1.53 per mile when provided by a nonemergency medical transportation provider;

(4) $15.30 for the base rate and $1.53 per mile for assisted transport;

(5) $21.15 for the base rate and $1.82 per mile for lift-equipped/ramp transport;

(6) $75 for the base rate and $2.40 per mile for protected transport; and

(7) $60 for the base rate and $2.40 per mile for stretcher transport, and $9 per trip for an additional attendant if deemed medically necessary.

(n) The base rate for nonemergency medical transportation services in areas defined under RUCA to be super rural is equal to 111.3 percent of the respective base rate in paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation services in areas defined under RUCA to be rural or super rural areas is:

(1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage rate in paragraph (m), clauses (1) to (7); and

(2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage rate in paragraph (m), clauses (1) to (7).

(o) For purposes of reimbursement rates for nonemergency medical transportation services under paragraphs (m) and (n), the zip code of the recipient's place of residence shall determine whether the urban, rural, or super rural reimbursement rate applies.

(p) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means a census-tract based classification system under which a geographical area is determined to be urban, rural, or super rural.

(q) The commissioner, when determining reimbursement rates for nonemergency medical transportation under paragraphs (m) and (n), shall exempt all modes of transportation listed under paragraph (i) from Minnesota Rules, part 9505.0445, item R, subitem (2).
(r) Effective for the first day of each calendar quarter in which the price of gasoline as posted publicly by the United States Energy Information Administration exceeds $3.00 per gallon, the commissioner shall adjust the rate paid per mile in paragraph (m) by one percent up or down for every increase or decrease of ten cents for the price of gasoline. The increase or decrease must be calculated using a base gasoline price of $3.00. The percentage increase or decrease must be calculated using the average of the most recently available price of all grades of gasoline for Minnesota as posted publicly by the United States Energy Information Administration.

Sec. 5. Minnesota Statutes 2020, section 256B.0625, subdivision 17a, is amended to read:

Subd. 17a. Payment for ambulance services. (a) Medical assistance covers ambulance services. Providers shall bill ambulance services according to Medicare criteria. Nonemergency ambulance services shall not be paid as emergencies. Effective for services rendered on or after July 1, 2001, medical assistance payments for ambulance services shall be paid at the Medicare reimbursement rate or at the medical assistance payment rate in effect on July 1, 2000, whichever is greater.

(b) Effective for services provided on or after July 1, 2016, medical assistance payment rates for ambulance services identified in this paragraph are increased by five percent. Capitation payments made to managed care plans and county-based purchasing plans for ambulance services provided on or after January 1, 2017, shall be increased to reflect this rate increase. The increased rate described in this paragraph applies to ambulance service providers whose base of operations as defined in section 144E.10 is located:

(1) outside the metropolitan counties listed in section 473.121, subdivision 4, and outside the cities of Duluth, Mankato, Moorhead, St. Cloud, and Rochester; or

(2) within a municipality with a population of less than 1,000.

(c) Effective for the first day of each calendar quarter in which the price of gasoline as posted publicly by the United States Energy Information Administration exceeds $3.00 per gallon, the commissioner shall adjust the rate paid per mile in paragraphs (a) and (b) by one percent up or down for every increase or decrease of ten cents for the price of gasoline. The increase or decrease must be calculated using a base gasoline price of $3.00. The percentage increase or decrease must be calculated using the average of the most recently available price of all grades of gasoline for Minnesota as posted publicly by the United States Energy Information Administration.
Sec. 6. Minnesota Statutes 2021 Supplement, section 256B.69, subdivision 9f, is amended to read:

Subd. 9f. Annual report on provider reimbursement rates. (a) The commissioner, by December 15 of each year, beginning December 15, 2021, shall submit to the chairs and ranking minority members of the legislative committees with jurisdiction over health care policy and finance a report on managed care and county-based purchasing plan provider reimbursement rates.

(b) The report must include, for each managed care and county-based purchasing plan, the mean and median provider reimbursement rates by county for the calendar year preceding the reporting year, for the five most common billing codes statewide across all plans, in each of the following provider service categories if within the county there are more than three medical assistance enrolled providers providing the specific service within the specific category:

(1) physician prenatal services;
(2) physician preventive services;
(3) physician services other than prenatal or preventive;
(4) dental services;
(5) inpatient hospital services;
(6) outpatient hospital services; and
(7) mental health services; and
(8) substance use disorder services.

(c) The commissioner shall also include in the report:

(1) the mean and median reimbursement rates across all plans by county for the calendar year preceding the reporting year for the billing codes and provider service categories described in paragraph (b); and
(2) the mean and median fee-for-service reimbursement rates by county for the calendar year preceding the reporting year for the billing codes and provider service categories described in paragraph (b).
Sec. 7. DIRECTION TO THE COMMISSIONER OF HUMAN SERVICES;

ENTERAL NUTRITION AND SUPPLIES.

Notwithstanding Minnesota Statutes, section 256B.766, paragraph (i), but subject to
Minnesota Statutes, section 256B.766, paragraph (l), effective for dates of service on or
after the effective date of this section through June 30, 2023, the commissioner of human
services shall not adjust rates paid for enteral nutrition and supplies.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 8. TEMPORARY TELEPHONE-ONLY TELEHEALTH AUTHORIZATION.

Beginning July 1, 2021, and until the COVID-19 federal public health emergency ends
or July 1, 2023, whichever is earlier, telehealth visits, as described in Minnesota Statutes,
section 256B.0625, subdivision 3b, provided through telephone may satisfy the face-to-face
requirements for reimbursement under the payment methods that apply to a federally qualified
health center, rural health clinic, Indian health service, 638 Tribal clinic, and certified
community behavioral health clinic, if the service would have otherwise qualified for
payment if performed in person.

EFFECTIVE DATE. This section is effective retroactively from July 1, 2021, and
expires when the COVID-19 federal public health emergency ends or July 1, 2023, whichever
is earlier. The commissioner of human services shall notify the revisor of statutes when this
section expires.

ARTICLE 4

BEHAVIORAL HEALTH

Section 1. Minnesota Statutes 2020, section 13.46, subdivision 7, is amended to read:

Subd. 7. Mental health data. (a) Mental health data are private data on individuals and
shall not be disclosed, except:

(1) pursuant to section 13.05, as determined by the responsible authority for the
community mental health center, mental health division, or provider;

(2) pursuant to court order;

(3) pursuant to a statute specifically authorizing access to or disclosure of mental health
data or as otherwise provided by this subdivision;
(4) to personnel of the welfare system working in the same program or providing services to the same individual or family to the extent necessary to coordinate services, provided that a health record may be disclosed only as provided under section 144.293;

(5) to a health care provider governed by sections 144.291 to 144.298, to the extent necessary to coordinate services; or

(6) with the consent of the client or patient.

(b) An agency of the welfare system may not require an individual to consent to the release of mental health data as a condition for receiving services or for reimbursing a community mental health center, mental health division of a county, or provider under contract to deliver mental health services.

(c) Notwithstanding section 245.69, subdivision 2, paragraph (f), or any other law to the contrary, the responsible authority for a community mental health center, mental health division of a county, or a mental health provider must disclose mental health data to a law enforcement agency if the law enforcement agency provides the name of a client or patient and communicates that the:

(1) client or patient is currently involved in an emergency interaction with a mental health crisis as defined in section 256B.0624, subdivision 2, paragraph (j), to which the law enforcement agency has responded; and

(2) data is necessary to protect the health or safety of the client or patient or of another person.

The scope of disclosure under this paragraph is limited to the minimum necessary for law enforcement to safely respond to the mental health crisis. Disclosure under this paragraph may include, but is not limited to, the name and telephone number of the psychiatrist, psychologist, therapist, mental health professional, practitioner, or case manager of the client or patient, if known; and strategies to address the mental health crisis. A law enforcement agency that obtains mental health data under this paragraph shall maintain a record of the requestor, the provider of the information, and the client or patient name. Mental health data obtained by a law enforcement agency under this paragraph are private data on individuals and must not be used by the law enforcement agency for any other purpose. A law enforcement agency that obtains mental health data under this paragraph shall inform the subject of the data that mental health data was obtained.

(d) In the event of a request under paragraph (a), clause (6), a community mental health center, county mental health division, or provider must release mental health data to Criminal
Mental Health Court personnel in advance of receiving a copy of a consent if the Criminal
Mental Health Court personnel communicate that the:
(1) client or patient is a defendant in a criminal case pending in the district court;
(2) data being requested is limited to information that is necessary to assess whether the
defendant is eligible for participation in the Criminal Mental Health Court; and
(3) client or patient has consented to the release of the mental health data and a copy of
the consent will be provided to the community mental health division, or provider within 72 hours of the release of the data.

For purposes of this paragraph, "Criminal Mental Health Court" refers to a specialty
criminal calendar of the Hennepin County District Court for defendants with mental illness
and brain injury where a primary goal of the calendar is to assess the treatment needs of the
defendants and to incorporate those treatment needs into voluntary case disposition plans.
The data released pursuant to this paragraph may be used for the sole purpose of determining
whether the person is eligible for participation in mental health court. This paragraph does
not in any way limit or otherwise extend the rights of the court to obtain the release of mental
health data pursuant to court order or any other means allowed by law.

Sec. 2. Minnesota Statutes 2020, section 62N.25, subdivision 5, is amended to read:

(b) Cost-sharing requirements and benefit or service limitations for outpatient mental health and outpatient chemical dependency and alcoholism services, except for persons placed in seeking chemical dependency services under Minnesota Rules, parts 9530.6600 to 9530.6655 section 245G.05, must not place a greater financial burden on the insured or enrollee, or be more restrictive than those requirements and limitations for outpatient medical services.

(c) Cost-sharing requirements and benefit or service limitations for inpatient mental health and inpatient hospital and residential chemical dependency and alcoholism services, except for persons placed in seeking chemical dependency services under Minnesota Rules, parts 9530.6600 to 9530.6655 section 245G.05, must not place a greater financial burden on the insured or enrollee, or be more restrictive than those requirements and limitations for inpatient hospital medical services.

(d) A health plan company must not impose an NQTL with respect to mental health and substance use disorders in any classification of benefits unless, under the terms of the health plan as written and in operation, any processes, strategies, evidentiary standards, or other factors used in applying the NQTL to mental health and substance use disorders in the classification are comparable to, and are applied no more stringently than, the processes, strategies, evidentiary standards, or other factors used in applying the NQTL with respect to medical and surgical benefits in the same classification.

Information required may include comparisons between mental health and substance use disorder treatment and other medical conditions, including a comparison of prior authorization.

requirements, drug formulary design, claim denials, rehabilitation services, and other
information the commissioner deems appropriate.

(g) Regardless of the health care provider's professional license, if the service provided
is consistent with the provider's scope of practice and the health plan company's credentialing
and contracting provisions, mental health therapy visits and medication maintenance visits
shall be considered primary care visits for the purpose of applying any enrollee cost-sharing
requirements imposed under the enrollee's health plan.

(h) By June 1 of each year, beginning June 1, 2021, the commissioner of commerce, in
consultation with the commissioner of health, shall submit a report on compliance and
oversight to the chairs and ranking minority members of the legislative committees with
jurisdiction over health and commerce. The report must:

(1) describe the commissioner's process for reviewing health plan company compliance

(2) identify any enforcement actions taken by either commissioner during the preceding
12-month period regarding compliance with parity for mental health and substance use

subject matter of each enforcement action, including quantitative and nonquantitative
treatment limitations;

(3) detail any corrective action taken by either commissioner to ensure health plan

Screenings are also not required when a child must be placed in a facility due to an emotional crisis or other mental health emergency.

If the child, child's parents, or legal guardians raise concerns about specific relatives or professionals, the team should not include those individuals. This provision does not apply to paragraph (c).

The child and the child's parents may identify a culturally competent qualified individual to complete the child's assessment. The agency shall make efforts to refer the assessment to the identified qualified individual. The assessment may not be delayed for the purpose of having the assessment completed by a specific qualified individual.

(f) When a screening team determines that a child does not need treatment in a qualified residential treatment program, the screening team must:

The licensing division must immediately notify the county licensing agency. The licensing division must collaborate with the county licensing agency in the review of the application and the licensing of the program.

(c) Before a license is issued by the commissioner, and for the duration of the license, the applicant or license holder must establish, maintain, and document the implementation of written policies and procedures addressing the requirements in paragraphs (d) through (f).

(d) The applicant or license holder must have policies and procedures that:

(1) establish characteristics of target populations that will be admitted into the home, and characteristics of populations that will not be accepted into the home;

(2) explain the discharge process when a resident served by the program requires overnight supervision or other services that cannot be provided by the license holder due to the limited hours that the license holder is on site;

(3) describe the types of events to which the program will respond with a physical presence when those events occur in the home during time when staff are not on site, and how the license holder's response plan meets the requirements in paragraph (e), clause (1) or (2);

(4) establish a process for documenting a review of the implementation and effectiveness of the response protocol for the response required under paragraph (e), clause (1) or (2).

The documentation must include:

(i) a description of the triggering incident;

(ii) the date and time of the triggering incident;

(iii) the time of the response or responses under paragraph (e), clause (1) or (2);

(iv) whether the response met the resident's needs;

(v) whether the existing policies and response protocols were followed; and

(vi) whether the existing policies and protocols are adequate or need modification.
When no physical presence response is completed for a three-month period, the license holder’s written policies and procedures must require a physical presence response drill to be conducted for which the effectiveness of the response protocol under paragraph (e), clause (1) or (2), will be reviewed and documented as required under this clause; and

(5) establish that emergency and nonemergency phone numbers are posted in a prominent location in a common area of the home where they can be easily observed by a person responding to an incident who is not otherwise affiliated with the home.

(e) The license holder must document and include in the license application which response alternative under clause (1) or (2) is in place for responding to situations that present a serious risk to the health, safety, or rights of residents served by the program:

(1) response alternative (1) requires only the technology to provide an electronic notification or alert to the license holder that an event is underway that requires a response. Under this alternative, no more than ten minutes will pass before the license holder will be physically present on site to respond to the situation; or

(2) response alternative (2) requires the electronic notification and alert system under alternative (1), but more than ten minutes may pass before the license holder is present on site to respond to the situation. Under alternative (2), all of the following conditions are met:

(i) the license holder has a written description of the interactive technological applications that will assist the license holder in communicating with and assessing the needs related to the care, health, and safety of the foster care recipients. This interactive technology must permit the license holder to remotely assess the well being of the resident served by the program without requiring the initiation of the foster care recipient. Requiring the foster care recipient to initiate a telephone call does not meet this requirement;

(ii) the license holder documents how the remote license holder is qualified and capable of meeting the needs of the foster care recipients and assessing foster care recipients' needs under item (i) during the absence of the license holder on site;

(iii) the license holder maintains written procedures to dispatch emergency response personnel to the site in the event of an identified emergency; and

(iv) each resident's individualized plan of care, coordinated service and support plan under sections 256B.0913, subdivision 8; 256B.092, subdivision 1b; 256B.49, subdivision 15; and 256S.10, if required, or individual resident placement agreement under Minnesota Article 6 Sec. 2.
Rules, part 9555.5105, subpart 19, if required, identifies the maximum response time, which may be greater than ten minutes, for the license holder to be on site for that resident.

(f) Each resident's placement agreement, individual service agreement, and plan must clearly state that the adult foster care or community residential setting license category is a program without the presence of a caregiver in the residence during normal sleeping hours; the protocols in place for responding to situations that present a serious risk to the health, safety, or rights of residents served by the program under paragraph (e), clause (1) or (2); and a signed informed consent from each resident served by the program or the person's legal representative documenting the person's or legal representative's agreement with placement in the program. If electronic monitoring technology is used in the home, the informed consent form must also explain the following:

1. how any electronic monitoring is incorporated into the alternative supervision system;
2. the backup system for any electronic monitoring in times of electrical outages or other equipment malfunctions;
3. how the caregivers or direct support staff are trained on the use of the technology;
4. the event types and license holder response times established under paragraph (e);
5. how the license holder protects each resident's privacy related to electronic monitoring and related to any electronically recorded data generated by the monitoring system. A resident served by the program may not be removed from a program under this subdivision for failure to consent to electronic monitoring. The consent form must explain where and how the electronically recorded data is stored, with whom it will be shared, and how long it is retained; and
6. the risks and benefits of the alternative overnight supervision system.

The written explanations under clauses (1) to (6) may be accomplished through cross-references to other policies and procedures as long as they are explained to the person giving consent, and the person giving consent is offered a copy.

(g) Nothing in this section requires the applicant or license holder to develop or maintain separate or duplicative policies, procedures, documentation, consent forms, or individual plans that may be required for other licensing standards, if the requirements of this section are incorporated into those documents.

(h) The commissioner may grant variances to the requirements of this section according to section 245A.04, subdivision 9.
(i) For the purposes of paragraphs (d) through (h), "license holder" has the meaning under section 245A.02, subdivision 9, and additionally includes all staff, volunteers, and contractors affiliated with the license holder.

(j) For the purposes of paragraph (e), the terms "assess" and "assessing" mean to remotely determine what action the license holder needs to take to protect the well-being of the foster care recipient.

(k) The commissioner shall evaluate license applications using the requirements in paragraphs (d) to (f). The commissioner shall provide detailed application forms, including a checklist of criteria needed for approval.

(l) To be eligible for a license under paragraph (a), the adult foster care or community residential setting license holder must not have had a conditional license issued under section 245A.06 or any licensing sanction under section 245A.07 during the prior 24 months based on failure to provide adequate supervision, health care services, or resident safety in the adult foster care home or community residential setting.

(m) The commissioner shall review an application for an alternative overnight supervision license within 60 days of receipt of the application. When the commissioner receives an application that is incomplete because the applicant failed to submit required documents or that is substantially deficient because the documents submitted do not meet licensing requirements, the commissioner shall provide the applicant written notice that the application is incomplete or substantially deficient. In the written notice to the applicant, the commissioner shall identify documents that are missing or deficient and give the applicant 45 days to resubmit a second application that is substantially complete. An applicant's failure to submit a substantially complete application after receiving notice from the commissioner is a basis for license denial under section 245A.05. The commissioner shall complete subsequent review within 30 days.

(n) Once the application is considered complete under paragraph (m), the commissioner will approve or deny an application for an alternative overnight supervision license within 60 days.

(o) For the purposes of this subdivision, "supervision" means:

(1) oversight by a caregiver or direct support staff as specified in the individual resident's place agreement or coordinated service and support plan and awareness of the resident's needs and activities; and
(2) the presence of a caregiver or direct support staff in a residence during normal sleeping hours, unless a determination has been made and documented in the individual’s coordinated service and support plan that the individual does not require the presence of a caregiver or direct support staff during normal sleeping hours.

Sec. 3. Minnesota Statutes 2020, section 245C.02, is amended by adding a subdivision to read:

Subd. 11f. Health care worker platform. "Health care worker platform" means any person, firm, corporation, partnership, or association that maintains a system or technology that provides a media or Internet platform for a health care worker to be listed and identified as available for hire as an independent contractor by health care facilities seeking health care workers.

Sec. 4. Minnesota Statutes 2020, section 245C.02, subdivision 17a, is amended to read:

Subd. 17a. Roster. (a) "Roster" means the electronic method used to identify the entity or entities required to conduct background studies under this chapter with which a background subject is affiliated. There are three types of rosters: active roster, inactive roster, and master roster.

(b) "Active roster" means the list of individuals specific to an entity who have been determined eligible under this chapter to provide services for the entity and who the entity has identified as affiliated. An individual shall remain on the entity's active roster and is considered affiliated until the commissioner determines the individual is ineligible or the entity removes the individual from the entity's active roster.

(c) "Inactive roster" means the list maintained by the commissioner of individuals who are eligible under this chapter to provide services and are not on an active roster. Individuals shall remain on the inactive roster for no more than 180 consecutive days, unless:

(1) the individual submits a written request to the commissioner requesting to remain on the inactive roster for a longer period of time;

(2) the individual self-initiated a background study, in which case the individual shall remain on the inactive roster for one year; or

(3) a health care worker platform initiated a background study on behalf of an individual, in which case the individual shall remain on the inactive roster for one year.

Upon the commissioner's receipt of information that may cause an individual on the inactive roster to be disqualified under this chapter, the commissioner shall remove the individual...
from the inactive roster, and if the individual again seeks a position requiring a background study, the individual shall be required to complete a new background study.

(d) "Master roster" means the list maintained by the commissioner of all individuals who, as a result of a background study under this chapter, and regardless of affiliation with an entity, are determined by the commissioner to be eligible to provide services for one or more entities. The master roster includes all background study subjects on rosters under paragraphs (b) and (c).

Sec. 5. Minnesota Statutes 2021 Supplement, section 245C.03, is amended by adding a subdivision to read:

Subd. 16. Self-initiated background studies. The commissioner shall conduct background studies according to this chapter when initiated by an individual who is not on the master roster. A subject under this subdivision who is not disqualified must be placed on the inactive roster.

Sec. 6. Minnesota Statutes 2021 Supplement, section 245C.03, is amended by adding a subdivision to read:

Subd. 17. Health care worker platform. The commissioner shall conduct background studies according to this chapter when initiated by a health care worker platform on behalf of an individual who is not on the master roster. A subject under this subdivision who is not disqualified must be placed on the inactive roster.

Sec. 7. Minnesota Statutes 2020, section 245C.04, subdivision 1, is amended to read:

Subdivision 1. Licensed programs; other child care programs. (a) The commissioner shall conduct a background study of an individual required to be studied under section 245C.03, subdivision 1, at least upon application for initial license for all license types.

(b) The commissioner shall conduct a background study of an individual required to be studied under section 245C.03, subdivision 1, including a child care background study subject as defined in section 245C.02, subdivision 6a, in a family child care program, licensed child care center, certified license-exempt child care center, or legal nonlicensed child care provider, on a schedule determined by the commissioner. Except as provided in section 245C.05, subdivision 5a, a child care background study must include submission of fingerprints for a national criminal history record check and a review of the information under section 245C.08. A background study for a child care program must be repeated within five years from the most recent study conducted under this paragraph.
(c) At reapplication for a family child care license:

(1) for a background study affiliated with a licensed family child care center or legal nonlicensed child care provider, the individual shall provide information required under section 245C.05, subdivision 1, paragraphs (a), (b), and (d), to the county agency, and be fingerprinted and photographed under section 245C.05, subdivision 5;

(2) the county agency shall verify the information received under clause (1) and forward the information to the commissioner to complete the background study; and

(3) the background study conducted by the commissioner under this paragraph must include a review of the information required under section 245C.08.

(d) The commissioner is not required to conduct a study of an individual at the time of reapplication for a license if the individual's background study was completed by the commissioner of human services and the following conditions are met:

(1) a study of the individual was conducted either at the time of initial licensure or when the individual became affiliated with the license holder;

(2) the individual has been continuously affiliated with the license holder since the last study was conducted; and

(3) the last study of the individual was conducted on or after October 1, 1995.

(e) The commissioner of human services shall conduct a background study of an individual specified under section 245C.03, subdivision 1, paragraph (a), clauses (2) to (6), who is newly affiliated with a child foster family setting license holder:

(1) the county or private agency shall collect and forward to the commissioner the information required under section 245C.05, subdivisions 1 and 5, when the child foster family setting applicant or license holder resides in the home where child foster care services are provided; and

(2) the background study conducted by the commissioner of human services under this paragraph must include a review of the information required under section 245C.08, subdivisions 1, 3, and 4.

(f) The commissioner shall conduct a background study of an individual specified under section 245C.03, subdivision 1, paragraph (a), clauses (2) to (6), who is newly affiliated with an adult foster care or family adult day services and with a family child care license holder or a legal nonlicensed child care provider authorized under chapter 119B and:
(1) except as provided in section 245C.05, subdivision 5a, the county shall collect and forward to the commissioner the information required under section 245C.05, subdivision 1, paragraphs (a) and (b), and subdivision 5, paragraphs (a), (b), and (d), for background studies conducted by the commissioner for all family adult day services, for adult foster care when the adult foster care license holder resides in the adult foster care residence, and for family child care and legal nonlicensed child care authorized under chapter 119B;

(2) the license holder shall collect and forward to the commissioner the information required under section 245C.05, subdivisions 1, paragraphs (a) and (b); and 5, paragraphs (a) and (b), for background studies conducted by the commissioner for adult foster care when the license holder does not reside in the adult foster care residence; and

(3) the background study conducted by the commissioner under this paragraph must include a review of the information required under section 245C.08, subdivision 1, paragraph (a), and subdivisions 3 and 4.

(g) Applicants for licensure, license holders, and other entities as provided in this chapter must submit completed background study requests to the commissioner using the electronic system known as NETStudy before individuals specified in section 245C.03, subdivision 1, begin positions allowing direct contact in any licensed program.

(h) For an individual who is not on the entity's active roster, the entity must initiate a new background study through NETStudy when:

(1) an individual returns to a position requiring a background study following an absence of 120 or more consecutive days; or

(2) a program that discontinued providing licensed direct contact services for 120 or more consecutive days begins to provide direct contact licensed services again.

The license holder shall maintain a copy of the notification provided to the commissioner under this paragraph in the program's files. If the individual's disqualification was previously set aside for the license holder's program and the new background study results in no new information that indicates the individual may pose a risk of harm to persons receiving services from the license holder, the previous set-aside shall remain in effect.

(i) For purposes of this section, a physician licensed under chapter 147 or advanced practice registered nurse licensed under chapter 148 is considered to be continuously affiliated upon the license holder's receipt from the commissioner of health or human services of the physician's or advanced practice registered nurse's background study results.
For purposes of family child care, a substitute caregiver must receive repeat background studies at the time of each license renewal.

A repeat background study at the time of license renewal is not required if the family child care substitute caregiver's background study was completed by the commissioner on or after October 1, 2017, and the substitute caregiver is on the license holder's active roster in NETStudy 2.0.

Before and after school programs authorized under chapter 119B, are exempt from the background study requirements under section 123B.03, for an employee for whom a background study under this chapter has been completed.

(m) A licensed child care center, certified license-exempt child care center, licensed family child care program, or legal nonlicensed child care provider authorized under chapter 119B is not required to submit a background study request for a private therapist for whom a licensed program maintains a completed background study in the program's personnel files.

(n) Upon request of the license holder, the commissioner of human services shall conduct a background study of an individual specified under section 245C.03, subdivision 1, paragraph (a), clauses (2) to (6), who is newly affiliated with a home and community-based service provider licensed certified to provide children's out-of-home respite under section 245D.34. The license holder shall collect and forward to the commissioner all the information described under section 245C.05, subdivisions 1 and 5. The background study conducted by the commissioner of human services under this paragraph must include a review of all the information described under section 245C.08, subdivisions 1, 3, and 4.

EFFECTIVE DATE. This section is effective January 1, 2023, or upon federal approval, whichever is later. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 8. Minnesota Statutes 2020, section 245C.04, subdivision 4a, is amended to read:

Subd. 4a. Agency background studies; electronic criminal case information updates; rosters; and criteria for eliminating repeat background studies. (a) The commissioner shall develop and implement an electronic process as a part of NETStudy 2.0 for the regular transfer of new criminal case information that is added to the Minnesota court information system. The commissioner's system must include for review only information that relates to individuals who are on the master roster.
(b) The commissioner shall develop and implement an online system as a part of
NETStudy 2.0 for agencies that initiate background studies under this chapter to access and
maintain records of background studies initiated by that agency. The system must show all
active background study subjects affiliated with that agency and the status of each individual's
background study. Each agency that initiates background studies must use this system to
notify the commissioner of discontinued affiliation for purposes of the processes required
under paragraph (a).

(c) After an entity initiating a background study has paid the applicable fee for the study
and has provided the individual with the privacy notice required under section 245C.05,
subdivision 2c, NETStudy 2.0 shall immediately inform the entity whether the individual
requires a background study or whether the individual is immediately eligible to provide
services based on a previous background study. If the individual is immediately eligible,
the entity initiating the background study shall be able to view the information previously
supplied by the individual who is the subject of a background study as required under section
245C.05, subdivision 1, including the individual's photograph taken at the time the
individual's fingerprints were recorded. The commissioner shall not provide any entity
initiating a subsequent background study with information regarding the other entities that
initiated background studies on the subject.

(d) Verification that an individual is eligible to provide services based on a previous
background study is dependent on the individual voluntarily providing the individual's
Social Security number to the commissioner at the time each background study is initiated.
When an individual does not provide the individual's Social Security number for the
background study, that study is not transferable and a repeat background study on that
individual is required if the individual seeks a position requiring a background study under
this chapter with another entity.

(e) Notwithstanding paragraphs (b) and (c), the commissioner must not provide a health
care worker platform that initiates a background study on an individual's behalf under section
245C.03, subdivision 17, with access to any information regarding the subject other than
whether the individual is immediately eligible to provide services.

Sec. 9. Minnesota Statutes 2020, section 245C.04, is amended by adding a subdivision to
read:

Subd. 12. Individuals. An individual who initiates a background study under section
245C.03, subdivision 16, must initiate the studies annually through NETStudy 2.0.
Sec. 10. Minnesota Statutes 2020, section 245C.04, is amended by adding a subdivision to read:

**Subd. 13. Health care worker platform.** A health care worker platform that initiates a background study on an individual's behalf under section 245C.03, subdivision 17, must initiate the studies annually through NETStudy 2.0.

Sec. 11. Minnesota Statutes 2021 Supplement, section 245C.05, subdivision 5, is amended to read:

**Subd. 5. Fingerprints and photograph.** (a) Notwithstanding paragraph (b), for background studies conducted by the commissioner for certified children's out-of-home respite, child foster care, children's residential facilities, adoptions, or a transfer of permanent legal and physical custody of a child, the subject of the background study, who is 18 years of age or older, shall provide the commissioner with a set of classifiable fingerprints obtained from an authorized agency for a national criminal history record check.

(b) For background studies initiated on or after the implementation of NETStudy 2.0, except as provided under subdivision 5a, every subject of a background study must provide the commissioner with a set of the background study subject's classifiable fingerprints and photograph. The photograph and fingerprints must be recorded at the same time by the authorized fingerprint collection vendor or vendors and sent to the commissioner through the commissioner's secure data system described in section 245C.32, subdivision 1a, paragraph (b).

(c) The fingerprints shall be submitted by the commissioner to the Bureau of Criminal Apprehension and, when specifically required by law, submitted to the Federal Bureau of Investigation for a national criminal history record check.

(d) The fingerprints must not be retained by the Department of Public Safety, Bureau of Criminal Apprehension, or the commissioner. The Federal Bureau of Investigation will not retain background study subjects' fingerprints.

(e) The authorized fingerprint collection vendor or vendors shall, for purposes of verifying the identity of the background study subject, be able to view the identifying information entered into NETStudy 2.0 by the entity that initiated the background study, but shall not retain the subject's fingerprints, photograph, or information from NETStudy 2.0. The authorized fingerprint collection vendor or vendors shall retain no more than the name and date and time the subject's fingerprints were recorded and sent, only as necessary for auditing and billing activities.
(f) For any background study conducted under this chapter, the subject shall provide the
commissioner with a set of classifiable fingerprints when the commissioner has reasonable
cause to require a national criminal history record check as defined in section 245C.02,
subdivision 15a.

EFFECTIVE DATE. This section is effective January 1, 2023, or upon federal approval,
whichever is later. The commissioner of human services shall notify the revisor of statutes
when federal approval is obtained.

Sec. 12. Minnesota Statutes 2020, section 245C.10, is amended by adding a subdivision
to read:

Subd. 22. Individuals. The commissioner shall recover the cost of the background
studies initiated by individuals under section 245C.03, subdivision 16, through a fee of no
more than $42 per study charged to the individual. The fees collected under this subdivision
are appropriated to the commissioner for the purpose of conducting background studies.

Sec. 13. Minnesota Statutes 2020, section 245C.10, is amended by adding a subdivision
to read:

Subd. 23. Health care worker platform. The commissioner shall recover the cost of
the background studies initiated by health care worker platforms under section 245C.03,
subdivision 17, through a fee of no more than $42 per study charged to the platform. The
fees collected under this subdivision are appropriated to the commissioner for the purpose
of conducting background studies.

Sec. 14. [245D.34] CHILDREN'S OUT-OF-HOME RESPITE CERTIFICATION
STANDARDS.

Subdivision 1. Certification. (a) The commissioner of human services shall issue a
children's out-of-home respite certification for services licensed under this chapter when a
license holder is determined to have met the requirements under this section. This certification
is voluntary for license holders. The certification shall be printed on the license and identified
on the commissioner's public website.

(b) A license holder seeking certification under this section must request this certification
on forms and in the manner prescribed by the commissioner.

(c) If a commissioner finds that a license holder has failed to comply with the certification
requirements under this section, the commissioner may issue a correction order and an order
of conditional license in accordance with section 245A.06 or may issue a sanction in
accordance with section 245A.07, including and up to removal of the certification.

(d) A denial of the certification or the removal of the certification based on a
determination that the requirements of this section have not been met is not subject to appeal.
A license holder that has been denied a certification or that has had a certification removed
may again request certification when the license holder is in compliance with the
requirements of this section.

Subd. 2. Certification requirements. The requirements for certification under this
section are:

(1) the license holder maintains a current roster of staff who meet the background study
requirements under section 245C.04, subdivision 1, paragraph (n);

(2) the license holder assigns only individuals on the roster described in clause (1) to
provide out-of-home respite to a minor in an unlicensed service site;

(3) the case manager has verified, on the forms and in the manner prescribed by the
commissioner, and documented in the person's coordinated service and support plan that
any proposed unlicensed service site is appropriate to meet the person's unique assessed
needs; and

(4) when providing out-of-home respite to a minor at an unlicensed service site, the
service site the license holder uses is identified and approved by the case manager in the
person's coordinated service and support plan.

EFFECTIVE DATE. This section is effective January 1, 2023, or upon federal approval,
whichever is later. The commissioner of human services shall notify the revisor of statutes
when federal approval is obtained.

> Subd. 3. Certified community behavioral health clinics. (a) The commissioner shall establish a state certification process for certified community behavioral health clinics (CCBHCs) that satisfy all federal requirements necessary for CCBHCs certified under this section to be eligible for reimbursement under medical assistance, without service area limits based on geographic area or region. The commissioner shall consult with CCBHC stakeholders before establishing and implementing changes in the certification process and requirements. Entities that choose to be CCBHCs must:

1. comply with state licensing requirements and other requirements issued by the commissioner;
2. employ or contract for clinic staff who have backgrounds in diverse disciplines, including licensed mental health professionals and licensed alcohol and drug counselors, and staff who are culturally and linguistically trained to meet the needs of the population the clinic serves;
3. ensure that clinic services are available and accessible to individuals and families of all ages and genders and that crisis management services are available 24 hours per day;
(4) establish fees for clinic services for individuals who are not enrolled in medical assistance using a sliding fee scale that ensures that services to patients are not denied or limited due to an individual's inability to pay for services;

(5) comply with quality assurance reporting requirements and other reporting requirements, including any required reporting of encounter data, clinical outcomes data, and quality data;

(6) provide crisis mental health and substance use services, withdrawal management services, emergency crisis intervention services, and stabilization services through existing mobile crisis services; screening, assessment, and diagnosis services, including risk assessments and level of care determinations; person- and family-centered treatment planning; outpatient mental health and substance use services; targeted case management; psychiatric rehabilitation services; peer support and counselor services and family support services; and intensive community-based mental health services, including mental health services for members of the armed forces and veterans. CCBHCs must directly provide the majority of these services to enrollees, but may coordinate some services with another entity through a collaboration or agreement, pursuant to paragraph (b);

(7) provide coordination of care across settings and providers to ensure seamless transitions for individuals being served across the full spectrum of health services, including acute, chronic, and behavioral needs. Care coordination may be accomplished through partnerships or formal contracts with:

(i) counties, health plans, pharmacists, pharmacies, rural health clinics, federally qualified health centers, inpatient psychiatric facilities, substance use and detoxification facilities, or community-based mental health providers; and

(ii) other community services, supports, and providers, including schools, child welfare agencies, juvenile and criminal justice agencies, Indian health services clinics, tribally licensed health care and mental health facilities, urban Indian health clinics, Department of Veterans Affairs medical centers, outpatient clinics, drop-in centers, acute care hospitals, and hospital outpatient clinics;

(8) be certified as a mental health clinic under section 245.69, subdivision 2

245I.20;

(9) comply with standards established by the commissioner relating to CCBHC screenings, assessments, and evaluations;

(10) be licensed to provide substance use disorder treatment under chapter 245G;
(11) be certified to provide children's therapeutic services and supports under section 256B.0943;
(12) be certified to provide adult rehabilitative mental health services under section 256B.0623;
(13) be enrolled to provide mental health crisis response services under sections 256B.0624 and 256B.0944;
(14) be enrolled to provide mental health targeted case management under section 256B.0625, subdivision 20;
(15) comply with standards relating to mental health case management in Minnesota Rules, parts 9520.0900 to 9520.0926;
(16) provide services that comply with the evidence-based practices described in paragraph (e); and
(17) comply with standards relating to peer services under sections 256B.0615, 256B.0616, and 245G.07, subdivision 1, paragraph (a), clause (5), as applicable when peer services are provided.

(b) If a certified CCBHC is unable to provide one or more of the services listed in paragraph (a), clauses (6) to (17), the CCBHC may contract with another entity that has the required authority to provide that service and that meets the following criteria as a designated collaborating organization:

(1) the entity has a formal agreement with the CCBHC to furnish one or more of the services under paragraph (a), clause (6);
(2) the entity provides assurances that it will provide services according to CCBHC service standards and provider requirements;
(3) the entity agrees that the CCBHC is responsible for coordinating care and has clinical and financial responsibility for the services that the entity provides under the agreement;
(4) the entity meets any additional requirements issued by the commissioner.

(c) Notwithstanding any other law that requires a county contract or other form of county approval for certain services listed in paragraph (a), clause (6), a clinic that otherwise meets CCBHC requirements may receive the prospective payment under section 256B.0625, subdivision 5m, for those services without a county contract or county approval. As part of the certification process in paragraph (a), the commissioner shall require a letter of support.
from the CCBHC's host county confirming that the CCBHC and the county or counties it
serves have an ongoing relationship to facilitate access and continuity of care, especially
for individuals who are uninsured or who may go on and off medical assistance.

(d) When the standards listed in paragraph (a) or other applicable standards conflict or
address similar issues in duplicative or incompatible ways, the commissioner may grant
variances to state requirements if the variances do not conflict with federal requirements
for services reimbursed under medical assistance. If standards overlap, the commissioner
may substitute all or a part of a licensure or certification that is substantially the same as
another licensure or certification. The commissioner shall consult with stakeholders, as
described in subdivision 4, before granting variances under this provision. For the CCBHC
that is certified but not approved for prospective payment under section 256B.0625,
subdivision 5m, the commissioner may grant a variance under this paragraph if the variance
does not increase the state share of costs.

(e) The commissioner shall issue a list of required evidence-based practices to be
delivered by CCBHCs, and may also provide a list of recommended evidence-based practices.
The commissioner may update the list to reflect advances in outcomes research and medical
services for persons living with mental illnesses or substance use disorders. The commissioner
shall take into consideration the adequacy of evidence to support the efficacy of the practice,
the quality of workforce available, and the current availability of the practice in the state.
At least 30 days before issuing the initial list and any revisions, the commissioner shall
provide stakeholders with an opportunity to comment.

(f) The commissioner shall recertify CCBHCs at least every three years. The
commissioner shall establish a process for decertification and shall require corrective action,
medical assistance repayment, or decertification of a CCBHC that no longer meets the
requirements in this section or that fails to meet the standards provided by the commissioner
in the application and certification process.

EFFECTIVE DATE. This section is effective July 1, 2022, or upon federal approval,
whichever is later. The commissioner of human services shall notify the revisor of statutes
when federal approval is obtained.

Sec. 9. Minnesota Statutes 2021 Supplement, section 245A.03, subdivision 7, is amended
to read:

Subd. 7. Licensing moratorium. (a) The commissioner shall not issue an initial license
for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, or adult
foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter
for a physical location that will not be the primary residence of the license holder for the entire period of licensure. If a family child foster care home or family adult foster care home license is issued during this moratorium, and the license holder changes the license holder's primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person's choices during their annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

(1) foster care settings where at least 80 percent of the residents are 55 years of age or older;
(2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or community residential setting licenses replacing adult foster care licenses in existence on December 31, 2013, and determined to be needed by the commissioner under paragraph (b);
(3) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD, or regional treatment center; restructuring of state-operated services that limits the capacity of state-operated facilities; or allowing movement to the community for people who no longer require the level of care provided in state-operated facilities as provided under section 256B.092, subdivision 13, or 256B.49, subdivision 24;
(4) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for persons requiring hospital level care; or
(5) new foster care licenses or community residential setting licenses for people receiving services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and for which a license is required. This exception does not apply to people living in their own home. For purposes of this clause, there is a presumption that a foster care or community residential setting license is required for services provided to three or more people in a dwelling unit when the setting is controlled by the provider. A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration

Article 8 Sec. 9. 156
of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2018. This exception is available when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency; or

(5) new foster care licenses or community residential setting licenses for people receiving customized living or 24-hour customized living services under the brain injury or community access for disability inclusion waiver plans under section 256B.49 and residing in the customized living setting before July 1, 2022, for which a license is required. A customized living service provider subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2023. This exception is available when:

(i) the person's customized living services are provided in a customized living service setting serving four or fewer people under the brain injury or community access for disability inclusion waiver plans under section 256B.49 in a single-family home operational on or before June 30, 2021. Operational is defined in section 256B.49, subdivision 28;

(ii) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(iii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the customized living setting as determined by the lead agency.

(b) The commissioner shall determine the need for newly licensed foster care homes or community residential settings as defined under this subdivision. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.
(c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings.

(d) Residential settings that would otherwise be subject to the decreased license capacity established in paragraph (c) shall be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.

(f) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in paragraph (a) are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

(g) License holders of foster care homes identified under paragraph (f) that are not the primary residence of the license holder and that also provide services in the foster care home that are covered by a federally approved home and community-based services waiver, as authorized under chapter 256S or section 256B.092 or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.
(h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings will be accomplished through a process identified in section 256B.493. Annually, by August 1, the commissioner shall provide information and data on capacity of licensed long-term services and supports, actions taken under the subdivision to manage statewide long-term services and supports resources, and any recommendations for change to the legislative committees with jurisdiction over the health and human services budget.

(i) The commissioner must notify a license holder when its corporate foster care or community residential setting licensed beds are reduced under this section. The notice of reduction of licensed beds must be in writing and delivered to the license holder by certified mail or personal service. The notice must state why the licensed beds are reduced and must inform the license holder of its right to request reconsideration by the commissioner. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(j) The commissioner shall not issue an initial license for children's residential treatment services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter for a program that Centers for Medicare and Medicaid Services would consider an institution for mental diseases. Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 10. Minnesota Statutes 2020, section 245A.11, subdivision 2, is amended to read:

**Subd. 2. Permitted single-family residential use.** (a) Residential programs with a licensed capacity of six or fewer persons shall be considered a permitted single-family residential use of property for the purposes of zoning and other land use regulations, except that a residential program whose primary purpose is to treat juveniles who have violated criminal statutes relating to sex offenses or have been adjudicated delinquent on the basis
of conduct in violation of criminal statutes relating to sex offenses shall not be considered a permitted use. This exception shall not apply to residential programs licensed before July 1, 1995. Programs otherwise allowed under this subdivision shall not be prohibited by operation of restrictive covenants or similar restrictions, regardless of when entered into, which cannot be met because of the nature of the licensed program, including provisions which require the home's occupants be related, and that the home must be occupied by the owner, or similar provisions.

(b) Unless otherwise provided in any town, municipal, or county zoning regulation, a licensed residential program in an intermediate care facility for persons with developmental disabilities with a licensed capacity of seven to eight persons shall be considered a permitted single-family residential use of property for the purposes of zoning and other land use regulations. A town, municipal, or county zoning authority may require a conditional use or special use permit to assure proper maintenance and operation of the residential program. Conditions imposed on the residential program must not be more restrictive than those imposed on other conditional uses or special uses of residential property in the same zones, unless the additional conditions are necessary to protect the health and safety of the persons being served by the program.

EFFECTIVE DATE. This section is effective upon federal approval. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.

Sec. 11. Minnesota Statutes 2020, section 245A.11, subdivision 2a, is amended to read:

Subd. 2a. Adult foster care and community residential setting license capacity. (a) The commissioner shall issue adult foster care and community residential setting licenses with a maximum licensed capacity of four beds, including nonstaff roomers and boarders, except that the commissioner may issue a license with a capacity of five up to six beds, including roomers and boarders, according to paragraphs (b) to (g) (f).

(b) The license holder may have a maximum license capacity of five six if all persons in care are age 55 or over and do not have a serious and persistent mental illness or a developmental disability.

(c) The commissioner may grant variances to paragraph (b) to allow a facility with a licensed capacity of up to five six persons to admit an individual under the age of 55 if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed facility is located.
(d) The commissioner may grant variances to paragraph (a) to allow the use of an additional bed, up to five, for emergency crisis services for a person with serious and persistent mental illness or a developmental disability, regardless of age, if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed facility is located.

(e) The commissioner may grant a variance to paragraph (b) to allow for the use of an additional bed, up to six, for respite services, as defined in section 245A.02, for persons with disabilities, regardless of age, if the variance complies with sections 245A.03, subdivision 7, and 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed facility is located. Respite care may be provided under the following conditions:

1. Staffing ratios cannot be reduced below the approved level for the individuals being served in the home on a permanent basis;
2. No more than two different individuals can be accepted for respite services in any calendar month and the total respite days may not exceed 120 days per program in any calendar year;
3. The person receiving respite services must have his or her own bedroom, which could be used for alternative purposes when not used as a respite bedroom, and cannot be the room of another person who lives in the facility; and

Sec. 30. Minnesota Statutes 2020, section 256.01, is amended by adding a subdivision to read:

Subd. 12b. **Department of Human Services systemic critical incident review team. (a)**

The commissioner may establish a Department of Human Services systemic critical incident review team to review critical incidents reported as required under section 626.557 for which the Department of Human Services is responsible under section 626.5572, subdivision 13; chapter 245D; or Minnesota Rules, chapter 9544. When reviewing a critical incident, the systemic critical incident review team shall identify systemic influences to the incident rather than determining the culpability of any actors involved in the incident. The systemic critical incident review may assess the entire critical incident process from the point of an entity reporting the critical incident through the ongoing case management process.

Department staff shall lead and conduct the reviews and may utilize county staff as reviewers.

The systemic critical incident review process may include but is not limited to:

(1) data collection about the incident and actors involved. Data may include the critical incident report under review; previous incident reports pertaining to the person receiving services; the service provider's policies and procedures applicable to the incident; the coordinated service and support plan as defined in section 245D.02, subdivision 4b, for the person receiving services; or an interview of an actor involved in the critical incident or the review of the critical incident. Actors may include:

(i) staff of the provider agency;

(ii) lead agency staff administering home and community-based services delivered by the provider;

(iii) Department of Human Services staff with oversight of home and community-based services;

(iv) Department of Health staff with oversight of home and community-based services;
(v) members of the community including advocates, legal representatives, health care
providers, pharmacy staff, or others with knowledge of the incident or the actors in the
incident; and

(vi) staff from the office of the ombudsman for mental health and developmental
disabilities;

(2) systemic mapping of the critical incident. The team conducting the systemic mapping
of the incident may include any actors identified in clause (1), designated representatives
of other provider agencies, regional teams, and representatives of the local regional quality
council identified in section 256B.097; and

(3) analysis of the case for systemic influences.

Data collected by the critical incident review team shall be aggregated and provided to
regional teams, participating regional quality councils, and the commissioner. The regional
teams and quality councils shall analyze the data and make recommendations to the
commissioner regarding systemic changes that would decrease the number and severity of
critical incidents in the future or improve the quality of the home and community-based
service system.

(b) Cases selected for the systemic critical incident review process shall be selected by
a selection committee among the following critical incident categories:

(1) cases of caregiver neglect identified in section 626.5572, subdivision 17;

(2) cases involving financial exploitation identified in section 626.5572, subdivision 9;

(3) incidents identified in section 245D.02, subdivision 11;

(4) incidents identified in Minnesota Rules, part 9544.0110; and

(5) service terminations reported to the department in accordance with section 245D.10,
subdivision 3a.

(c) The systemic critical incident review under this section shall not replace the process
for screening or investigating cases of alleged maltreatment of an adult under section 626.557.
The department may select cases for systemic critical incident review, under the jurisdiction
of the commissioner, reported for suspected maltreatment and closed following initial or
final disposition.

(d) The proceedings and records of the review team are confidential data on individuals
or protected nonpublic data as defined in section 13.02, subdivisions 3 and 13. Data that
document a person's opinions formed as a result of the review are not subject to discovery
or introduction into evidence in a civil or criminal action against a professional, the state, or a county agency arising out of the matters that the team is reviewing. Information, documents, and records otherwise available from other sources are not immune from discovery or use in a civil or criminal action solely because the information, documents, and records were assessed or presented during proceedings of the review team. A person who presented information before the systemic critical incident review team or who is a member of the team shall not be prevented from testifying about matters within the person's knowledge. In a civil or criminal proceeding, a person shall not be questioned about opinions formed by the person as a result of the review.

(e) By October 1 of each year, the commissioner shall prepare an annual public report containing the following information:

(1) the number of cases reviewed under each critical incident category identified in paragraph (b) and a geographical description of where cases under each category originated;

(2) an aggregate summary of the systemic themes from the critical incidents examined by the critical incident review team during the previous year;

(3) a synopsis of the conclusions, incident analyses, or exploratory activities taken in regard to the critical incidents examined by the critical incident review team; and

(4) recommendations made to the commissioner regarding systemic changes that could decrease the number and severity of critical incidents in the future or improve the quality of the home and community-based service system.

Sec. 31. Minnesota Statutes 2020, section 256.045, subdivision 3, is amended to read:

Subd. 3. State agency hearings. (a) State agency hearings are available for the following:

(1) any person applying for, receiving or having received public assistance, medical care, or a program of social services granted by the state agency or a county agency or the federal Food and Nutrition Act whose application for assistance is denied, not acted upon with reasonable promptness, or whose assistance is suspended, reduced, terminated, or claimed to have been incorrectly paid;

(2) any patient or relative aggrieved by an order of the commissioner under section 252.27;

(3) a party aggrieved by a ruling of a prepaid health plan;
(4) except as provided under chapter 245C, any individual or facility determined by a lead investigative agency to have maltreated a vulnerable adult under section 626.557 after they have exercised their right to administrative reconsideration under section 626.557;

(5) any person whose claim for foster care payment according to a placement of the child resulting from a child protection assessment under chapter 260E is denied or not acted upon with reasonable promptness, regardless of funding source;

(6) any person to whom a right of appeal according to this section is given by other provision of law;

(7) an applicant aggrieved by an adverse decision to an application for a hardship waiver under section 256B.15;

(8) an applicant aggrieved by an adverse decision to an application or redetermination for a Medicare Part D prescription drug subsidy under section 256B.04, subdivision 4a;

(9) except as provided under chapter 245A, an individual or facility determined to have maltreated a minor under chapter 260E, after the individual or facility has exercised the right to administrative reconsideration under chapter 260E;

(10) except as provided under chapter 245C, an individual disqualified under sections 245C.14 and 245C.15, following a reconsideration decision issued under section 245C.23, on the basis of serious or recurring maltreatment; a preponderance of the evidence that the individual has committed an act or acts that meet the definition of any of the crimes listed in section 245C.15, subdivisions 1 to 4; or for failing to make reports required under section 260E.06, subdivision 1, or 626.557, subdivision 3. Hearings regarding a maltreatment determination under clause (4) or (9) and a disqualification under this clause in which the basis for a disqualification is serious or recurring maltreatment, shall be consolidated into a single fair hearing. In such cases, the scope of review by the human services judge shall include both the maltreatment determination and the disqualification. The failure to exercise the right to an administrative reconsideration shall not be a bar to a hearing under this section if federal law provides an individual the right to a hearing to dispute a finding of maltreatment;

(11) any person with an outstanding debt resulting from receipt of public assistance, medical care, or the federal Food and Nutrition Act who is contesting a setoff claim by the Department of Human Services or a county agency. The scope of the appeal is the validity of the claimant agency's intention to request a setoff of a refund under chapter 270A against the debt;
(12) a person issued a notice of service termination under section 245D.10, subdivision 3a, from a licensed provider of any residential supports and services as defined in section 245D.03, subdivision 1, paragraph paragraphs (b) and (c), clause (3), that is not otherwise subject to appeal under subdivision 4a;

(13) an individual disability waiver recipient based on a denial of a request for a rate exception under section 256B.4914; or

(14) a person issued a notice of service termination under section 245A.11, subdivision 11, that is not otherwise subject to appeal under subdivision 4a.

(b) The hearing for an individual or facility under paragraph (a), clause (4), (9), or (10), is the only administrative appeal to the final agency determination specifically, including a challenge to the accuracy and completeness of data under section 13.04. Hearings requested under paragraph (a), clause (4), apply only to incidents of maltreatment that occur on or after October 1, 1995. Hearings requested by nursing assistants in nursing homes alleged to have maltreated a resident prior to October 1, 1995, shall be held as a contested case proceeding under the provisions of chapter 14. Hearings requested under paragraph (a), clause (9), apply only to incidents of maltreatment that occur on or after July 1, 1997. A hearing for an individual or facility under paragraph (a), clauses (4), (9), and (10), is only available when there is no district court action pending. If such action is filed in district court while an administrative review is pending that arises out of some or all of the events or circumstances on which the appeal is based, the administrative review must be suspended until the judicial actions are completed. If the district court proceedings are completed, dismissed, or overturned, the matter may be considered in an administrative hearing.

(c) For purposes of this section, bargaining unit grievance procedures are not an administrative appeal.

(d) The scope of hearings involving claims to foster care payments under paragraph (a), clause (5), shall be limited to the issue of whether the county is legally responsible for a child's placement under court order or voluntary placement agreement and, if so, the correct amount of foster care payment to be made on the child's behalf and shall not include review of the propriety of the county's child protection determination or child placement decision.

(e) The scope of hearings under paragraph (a), clauses (12) and (14), shall be limited to whether the proposed termination of services is authorized under section 245D.10, subdivision 3a, paragraph (b), or 245A.11, subdivision 11, and whether the requirements of section 245D.10, subdivision 3a, paragraphs (c) to (e), or 245A.11, subdivision 2a, paragraphs (d) to (f), were met. If the appeal includes a request for a temporary stay of
termination of services, the scope of the hearing shall also include whether the case
management provider has finalized arrangements for a residential facility, a program, or
services that will meet the assessed needs of the recipient by the effective date of the service
termination.

(f) A vendor of medical care as defined in section 256B.02, subdivision 7, or a vendor
under contract with a county agency to provide social services is not a party and may not
request a hearing under this section, except if assisting a recipient as provided in subdivision
4.

(g) An applicant or recipient is not entitled to receive social services beyond the services
prescribed under chapter 256M or other social services the person is eligible for under state
law.

(h) The commissioner may summarily affirm the county or state agency's proposed
action without a hearing when the sole issue is an automatic change due to a change in state
or federal law.

(i) Unless federal or Minnesota law specifies a different time frame in which to file an
appeal, an individual or organization specified in this section may contest the specified
action, decision, or final disposition before the state agency by submitting a written request
for a hearing to the state agency within 30 days after receiving written notice of the action,
decision, or final disposition, or within 90 days of such written notice if the applicant,
recipient, patient, or relative shows good cause, as defined in section 256.0451, subdivision
13, why the request was not submitted within the 30-day time limit. The individual filing
the appeal has the burden of proving good cause by a preponderance of the evidence.

Sec. 32. Minnesota Statutes 2021 Supplement, section 256B.0622, subdivision 2, is

The commissioner shall establish criteria for determining continued eligibility.

Sec. 38. Minnesota Statutes 2020, section 256B.0757, subdivision 3, is amended to read:

Subd. 3. Behavioral health home services. (a) Behavioral health home services means comprehensive and timely high-quality services that are provided by a behavioral health home. These services include:

(b) The commissioner shall maximize the number and type of services included in this subdivision to the extent permissible under federal law, including physician, outpatient, mental health treatment, and rehabilitation services necessary for comprehensive transitional care following hospitalization.

Sec. 39. Minnesota Statutes 2020, section 256B.0757, subdivision 4, is amended to read:

For purposes of this section, "designated provider" means a provider, clinical practice or clinical group practice, rural clinic, community health center, community mental health center, or any other entity that is determined by the commissioner to be qualified to be a behavioral health home for eligible individuals. This determination must be based on documentation evidencing that the designated provider has the systems and infrastructure in place to provide behavioral health home services and satisfies the qualification standards established by the commissioner in consultation with stakeholders and approved by the Centers for Medicare and Medicaid Services.

Sec. 40. Minnesota Statutes 2020, section 256B.0757, subdivision 8, is amended to read:

Subd. 8. Evaluation and continued development. (b) The commissioner may contract with a private entity to evaluate patient and family experiences, health care utilization, and costs.

(c) The commissioner shall utilize findings from the implementation of behavioral health homes to determine populations to serve under subsequent health home models for individuals with chronic conditions.

Sec. 41. Minnesota Statutes 2021 Supplement, section 256B.0911, subdivision 3a, is amended to read:

Subd. 3a. Assessment and support planning. (a) Persons requesting assessment, services planning, or other assistance intended to support community-based living, including persons who need assessment in order to determine waiver or alternative care program eligibility, must be visited by a long-term care consultation team within 20 calendar days after the date on which an assessment was requested or recommended. Upon statewide implementation of subdivisions 2b, 2c, and 5, this requirement also applies to an assessment of a person requesting personal care assistance services. The commissioner shall provide at least a 90-day notice to lead agencies prior to the effective date of this requirement. Assessments must be conducted according to paragraphs (b) to (r).
(b) Upon implementation of subdivisions 2b, 2c, and 5, lead agencies shall use certified assessors to conduct the assessment. For a person with complex health care needs, a public health or registered nurse from the team must be consulted.

(c) The MnCHOICES assessment provided by the commissioner to lead agencies must be used to complete a comprehensive, conversation-based, person-centered assessment. The assessment must include the health, psychological, functional, environmental, and social needs of the individual necessary to develop a person-centered community support plan that meets the individual's needs and preferences.

(d) Except as provided in paragraph (r), the assessment must be conducted by a certified assessor in a face-to-face conversational interview with the person being assessed. The person's legal representative must provide input during the assessment process and may do so remotely if requested. At the request of the person, other individuals may participate in the assessment to provide information on the needs, strengths, and preferences of the person necessary to develop a community support plan that ensures the person's health and safety. Except for legal representatives or family members invited by the person, persons participating in the assessment may not be a provider of service or have any financial interest in the provision of services. For persons who are to be assessed for elderly waiver customized living services under chapter 256S or section 256B.49 or adult day services under chapter 256S, with the permission of the person being assessed or the person's designated or legal representative, the client's current or proposed provider of services may submit a copy of the provider's nursing assessment or written report outlining its recommendations regarding the client's care needs. The person conducting the assessment must notify the provider of the date by which this information is to be submitted. This information shall be provided to the person conducting the assessment prior to the assessment. The certified assessor must consider the content of the submitted nursing assessment or report prior to finalizing the person's assessment or reassessment. For a person who is to be assessed for waiver services under section 256B.092 or 256B.49, with the permission of the person being assessed or the person's designated legal representative, the person's current provider of services may submit a written report outlining recommendations regarding the person's care needs the person completed in consultation with someone who is known to the person and has interaction with the person on a regular basis. The provider must submit the report at least 60 days before the end of the person's current service agreement. The certified assessor must consider the content of the submitted report prior to finalizing the person's assessment or reassessment.
(e) The certified assessor and the individual responsible for developing the coordinated service and support plan must complete the community support plan and the coordinated service and support plan no more than 60 calendar days from the assessment visit. The person or the person's legal representative must be provided with a written community support plan within the timelines established by the commissioner, regardless of whether the person is eligible for Minnesota health care programs.

(f) For a person being assessed for elderly waiver services under chapter 256S or customized living services under section 256B.49, a provider who submitted information under paragraph (d) shall receive the final written community support plan when available and the Residential Services Workbook or customized living tool.

(g) The written community support plan must include:

1. a summary of assessed needs as defined in paragraphs (c) and (d);
2. the individual's options and choices to meet identified needs, including:
   i. all available options for case management services and providers;
   ii. all available options for employment services, settings, and providers;
   iii. all available options for living arrangements;
   iv. all available options for self-directed services and supports, including self-directed budget options; and
   v. service provided in a non-disability-specific setting;
3. identification of health and safety risks and how those risks will be addressed, including personal risk management strategies;
4. referral information; and
5. informal caregiver supports, if applicable.

For a person determined eligible for state plan home care under subdivision 1a, paragraph (b), clause (1), the person or person's representative must also receive a copy of the home care service plan developed by the certified assessor.

(h) A person may request assistance in identifying community supports without participating in a complete assessment. Upon a request for assistance identifying community support, the person must be transferred or referred to long-term care options counseling services available under sections 256.975, subdivision 7, and 256.01, subdivision 24, for telephone assistance and follow up.
The person has the right to make the final decision:
  (1) between institutional placement and community placement after the recommendations
      have been provided, except as provided in section 256.975, subdivision 7a, paragraph (d);
  (2) between community placement in a setting controlled by a provider and living
      independently in a setting not controlled by a provider;
  (3) between day services and employment services; and
  (4) regarding available options for self-directed services and supports, including
      self-directed funding options.

The lead agency must give the person receiving long-term care consultation services
or the person's legal representative, materials, and forms supplied by the commissioner
containing the following information:
  (1) written recommendations for community-based services and consumer-directed
      options;
  (2) documentation that the most cost-effective alternatives available were offered to the
      individual. For purposes of this clause, "cost-effective" means community services and
      living arrangements that cost the same as or less than institutional care. For an individual
      found to meet eligibility criteria for home and community-based service programs under
      chapter 256S or section 256B.49, "cost-effectiveness" has the meaning found in the federally
      approved waiver plan for each program;
  (3) the need for and purpose of preadmission screening conducted by long-term care
      options counselors according to section 256.975, subdivisions 7a to 7c, if the person selects
      nursing facility placement. If the individual selects nursing facility placement, the lead
      agency shall forward information needed to complete the level of care determinations and
      screening for developmental disability and mental illness collected during the assessment
      to the long-term care options counselor using forms provided by the commissioner;
  (4) the role of long-term care consultation assessment and support planning in eligibility
      determination for waiver and alternative care programs, and state plan home care, case
      management, and other services as defined in subdivision 1a, paragraphs (a), clause (6),
      and (b);
  (5) information about Minnesota health care programs;
  (6) the person's freedom to accept or reject the recommendations of the team;
(7) the person's right to confidentiality under the Minnesota Government Data Practices Act, chapter 13;

(8) the certified assessor's decision regarding the person's need for institutional level of care as determined under criteria established in subdivision 4e and the certified assessor's decision regarding eligibility for all services and programs as defined in subdivision 1a, paragraphs (a), clause (6), and (b);

(9) the person's right to appeal the certified assessor's decision regarding eligibility for all services and programs as defined in subdivision 1a, paragraphs (a), clauses (6), (7), and (8), and (b), and incorporating the decision regarding the need for institutional level of care or the lead agency's final decisions regarding public programs eligibility according to section 256.045, subdivision 3. The certified assessor must verbally communicate this appeal right to the person and must visually point out where in the document the right to appeal is stated;

and

(10) documentation that available options for employment services, independent living, and self-directed services and supports were described to the individual.

(k) An assessment that is completed as part of an eligibility determination for multiple programs for the alternative care, elderly waiver, developmental disabilities, community access for disability inclusion, community alternative care, and brain injury waiver programs under chapter 256S and sections 256B.0913, 256B.092, and 256B.49 is valid to establish service eligibility for no more than 60 calendar days after the date of the assessment.

(l) The effective eligibility start date for programs in paragraph (k) can never be prior to the date of assessment. If an assessment was completed more than 60 days before the effective waiver or alternative care program eligibility start date, assessment and support plan information must be updated and documented in the department's Medicaid Management Information System (MMIS). Notwithstanding retroactive medical assistance coverage of state plan services, the effective date of eligibility for programs included in paragraph (k) cannot be prior to the date the most recent updated assessment is completed.

(m) If an eligibility update is completed within 90 days of the previous assessment and documented in the department's Medicaid Management Information System (MMIS), the effective date of eligibility for programs included in paragraph (k) is the date of the previous face-to-face assessment when all other eligibility requirements are met.

(n) If a person who receives home and community-based waiver services under section 256B.0913, 256B.092, or 256B.49 or chapter 256S temporarily enters for 121 days or fewer a hospital, institution of mental disease, nursing facility, intensive residential treatment
services program, transitional care unit, or inpatient substance use disorder treatment setting, the person may return to the community with home and community-based waiver services under the same waiver, without requiring an assessment or reassessment under this section, unless the person's annual reassessment is otherwise due. Nothing in this paragraph shall change annual long-term care consultation reassessment requirements, payment for institutional or treatment services, medical assistance financial eligibility, or any other law.

(o) At the time of reassessment, the certified assessor shall assess each person receiving waiver residential supports and services currently residing in a community residential setting, licensed adult foster care home that is either not the primary residence of the license holder or in which the license holder is not the primary caregiver, family adult foster care residence, customized living setting, or supervised living facility to determine if that person would prefer to be served in a community-living setting as defined in section 256B.49, subdivision 23, in a setting not controlled by a provider, or to receive integrated community supports as described in section 245D.03, subdivision 1, paragraph (c), clause (8). The certified assessor shall offer the person, through a person-centered planning process, the option to receive alternative housing and service options.

(p) At the time of reassessment, the certified assessor shall assess each person receiving waiver day services to determine if that person would prefer to receive employment services as described in section 245D.03, subdivision 1, paragraph (c), clauses (5) to (7). The certified assessor shall describe to the person through a person-centered planning process the option to receive employment services.

(q) At the time of reassessment, the certified assessor shall assess each person receiving non-self-directed waiver services to determine if that person would prefer an available service and setting option that would permit self-directed services and supports. The certified assessor shall describe to the person through a person-centered planning process the option to receive self-directed services and supports.

(r) All assessments performed according to this subdivision must be face-to-face unless the assessment is a reassessment meeting the requirements of this paragraph. Remote reassessments conducted by interactive video or telephone may substitute for face-to-face reassessments. For services provided by the developmental disabilities waiver under section 256B.092, and the community access for disability inclusion, community alternative care, and brain injury waiver programs under section 256B.49, remote reassessments may be substituted for two consecutive reassessments if followed by a face-to-face reassessment. For services provided by alternative care under section 256B.0913, essential community supports under section 256B.0922, and the elderly waiver under chapter 256S, remote
reassessments may be substituted for one reassessment if followed by a face-to-face reassessment. A remote reassessment is permitted only if the person being reassessed, or the person's legal representative, and the lead agency case manager both agree that there is no change in the person's condition, there is no need for a change in service, and that a remote reassessment is appropriate makes an informed choice for a remote assessment. The person being reassessed, or the person's legal representative, has the right to refuse a remote reassessment at any time. During a remote reassessment, if the certified assessor determines a face-to-face reassessment is necessary in order to complete the assessment, the lead agency shall schedule a face-to-face reassessment. All other requirements of a face-to-face reassessment shall apply to a remote reassessment, including updates to a person's support plan.

Sec. 42. Minnesota Statutes 2021 Supplement, section 256B.0911, subdivision 3f, is amended to read:

(a) Prior to a reassessment, the certified assessor must review the person's most recent assessment. Reassessments must be tailored using the professional judgment of the assessor to the person's known needs, strengths, preferences, and circumstances. Reassessments provide information to support the person's informed choice and opportunities to express choice regarding activities that contribute to quality of life, as well as information and opportunity to identify goals related to desired employment, community activities, and preferred living environment. Reassessments require a review of the most recent assessment, review of the current coordinated service and support plan's effectiveness, monitoring of services, and the development of an updated person-centered community support plan. Reassessments must verify continued eligibility, offer alternatives as warranted, and provide an opportunity for quality assurance of service delivery, including an opportunity to provide a confidential performance assessment of the person's case manager. Reassessments must be conducted annually or as required by federal and state laws and rules. For reassessments, the certified assessor and the individual responsible for developing the coordinated service and support plan must ensure the continuity of care for the person receiving services and complete the updated community support plan and the updated coordinated service and support plan no more than 60 days from the reassessment visit.

(b) The commissioner shall develop mechanisms for providers and case managers to share information with the assessor to facilitate a reassessment and support planning process tailored to the person's current needs and preferences.

must be reviewed and completed by the QSP, and may include input from a level I provider
or a level II provider.

Sec. 48. Minnesota Statutes 2020, section 256B.49, subdivision 23, is amended to read:

(a) For the purposes of this chapter, "community-living settings" means a single-family home or multifamily dwelling unit where a service recipient or a service recipient's family owns or rents, and maintains control over the individual unit as demonstrated by a lease agreement. Community-living settings does not include a home or dwelling unit that the service provider owns, operates, or leases or in which the service provider has a direct or indirect financial interest.

(b) To ensure a service recipient or the service recipient's family maintains control over the home or dwelling unit, community-living settings are subject to the following requirements:

1. Service recipients must not be required to receive services or share services;
2. Service recipients must not be required to have a disability or specific diagnosis to live in the community-living setting;
3. Service recipients may hire service providers of their choice;
4. Service recipients may choose whether to share their household and with whom;
5. The home or multifamily dwelling unit must include living, sleeping, bathing, and cooking areas;
6. Service recipients must have lockable access and egress;
7. Service recipients must be free to receive visitors and leave the settings at times and for durations of their own choosing;
8. Leases must comply with chapter 504B;
9. Landlords must not charge different rents to tenants who are receiving home and community-based services; and
10. Access to the greater community must be easily facilitated based on the service recipient's needs and preferences.

(c) Nothing in this section prohibits a service recipient from having another person or entity not affiliated with the service provider cosign a lease. Nothing in this section prohibits
a service recipient, during any period in which a service provider has cosigned the service
recipient's lease, from modifying services with an existing cosigning service provider and,
subject to the approval of the landlord, maintaining a lease cosigned by the service provider.
Nothing in this section prohibits a service recipient, during any period in which a service
provider has cosigned the service recipient's lease, from terminating services with the
cosigning service provider, receiving services from a new service provider, and, subject to
the approval of the landlord, maintaining a lease cosigned by the new service provider.
(d) A lease cosigned by a service provider meets the requirements of paragraph (a) if
the service recipient and service provider develop and implement a transition plan which
must provide that, within two years of cosigning the initial lease, the service provider shall
transfer the lease to the service recipient and other cosigners, if any.
(e) In the event the landlord has not approved the transfer of the lease within two years
of the service provider cosigning the initial lease, the service provider must submit a
time-limited extension request to the commissioner of human services to continue the
cosigned lease arrangement. The extension request must include:
(1) the reason the landlord denied the transfer;
(2) the plan to overcome the denial to transfer the lease;
(3) the length of time needed to successfully transfer the lease, not to exceed an additional
two years;
(4) a description of the information provided to the person to help the person make an
informed choice about entering into a time-limited cosigned lease extension with the service
provider;
(5) a description of how the transition plan was followed, what occurred that led to
the landlord denying the transfer, and what changes in circumstances or condition, if any,
the service recipient experienced; and
(6) a revised transition plan to transfer the cosigned lease between the service provider
and the service recipient to the service recipient.
The commissioner must approve an extension within sufficient time to ensure the continued
occupancy by the service recipient.
(f) In the event the landlord has not approved the transfer of the lease within the timelines
of an approved time-limited extension request, the service provider must submit another
time-limited extension request to the commissioner of human services to continue the
cosigned lease arrangement. A time-limited extension request submitted under this paragraph
must include the same information required for an initial time-limited extension request under paragraph (e). The commissioner must approve or deny an extension within 60 days.

g) The commissioner may grant a service recipient no more than three additional time-limited extensions under paragraph (f).

Sec. 5. Minnesota Statutes 2020, section 256E.35, subdivision 4a, is amended to read:

Subd. 4a. Financial coaching. A financial coach shall provide the following to program participants:

(1) financial education relating to budgeting, debt reduction, asset-specific training, credit building, and financial stability activities;

(2) asset-specific training related to buying a home or vehicle, acquiring postsecondary education, starting or expanding a small business, saving for emergencies, or saving for a child's education; and

Article 10 Sec. 5.
(3) financial stability education and training to improve and sustain financial security.

Sec. 6. Minnesota Statutes 2020, section 256E.35, subdivision 6, is amended to read:

Subd. 6. **Withdrawal; matching; permissible uses.** (a) To receive a match, a participating household must transfer funds withdrawn from a family asset account to its matching fund custodial account held by the fiscal agent, according to the family asset agreement. The fiscal agent must determine if the match request is for a permissible use consistent with the household's family asset agreement.

(b) The fiscal agent must ensure the household's custodial account contains the applicable matching funds to match the balance in the household's account, including interest, on at least a quarterly basis and at the time of an approved withdrawal. Matches must be a contribution of $3 from state grant or TANF funds for every $1 of funds withdrawn from the family asset account not to exceed a $6,000 lifetime limit.

(c) Notwithstanding paragraph (b), if funds are appropriated for the Federal Assets for Independence Act of 1998, and a participating fiduciary organization is awarded a grant under that act, participating households with that fiduciary organization must be provided matches as follows:

(1) from state grant and TANF funds, a matching contribution of $1.50 for every $1 of funds withdrawn from the family asset account not to exceed a $3,000 lifetime limit; and

(2) from nonstate funds, a matching contribution of not less than $1.50 for every $1 of funds withdrawn from the family asset account not to exceed a $3,000 lifetime limit.

(d) Upon receipt of transferred custodial account funds, the fiscal agent must make a direct payment to the vendor of the goods or services for the permissible use.

Sec. 7. Minnesota Statutes 2020, section 256E.35, subdivision 7, is amended to read:

Subd. 7. **Program reporting.** The fiscal agent on behalf of each fiduciary organization participating in a family assets for independence initiative must report quarterly to the commissioner of human services identifying the participants with accounts, the number of accounts, the amount of savings and matches for each participant's account, the uses of the account, and the number of businesses, homes, vehicles, and educational services paid for with money from the account, and the amount of contributions to Minnesota 529 savings plans and emergency savings accounts, as well as other information that may be required.
226.1 for the commissioner to administer the program and meet federal TANF reporting
226.2 requirements.

226.3 Sec. 8. Minnesota Statutes 2020, section 256K.45, subdivision 6, is amended to read:

226.4 Subd. 6. Funding. Funds appropriated for this section may be expended on programs
226.5 described under subdivisions 3 to 5 and 8, technical assistance, and capacity building to
226.6 meet the greatest need on a statewide basis. The commissioner will provide outreach,
226.7 technical assistance, and program development support to increase capacity to new and
226.8 existing service providers to better meet needs statewide, particularly in areas where services
226.9 for homeless youth have not been established, especially in greater Minnesota.

226.10 Sec. 9. Minnesota Statutes 2020, section 256K.45, is amended by adding a subdivision to
226.11 read:

226.12 Subd. 7. Awarding of grants. (a) Grants awarded under this section shall not be used
226.13 for any activity other than the authorized activities under this section, and the commissioner
226.14 shall not create additional eligibility criteria or restrictions on the grant money.

226.15 (b) Grants shall be awarded under this section only after a review of the grant recipient's
226.16 application materials, including past performance and utilization of grant money. The
226.17 commissioner shall not reduce an existing grant award amount unless the commissioner
226.18 first determines that the grant recipient has failed to meet performance measures or has used
226.19 grant money improperly.

226.20 (c) For grants awarded pursuant to a two-year grant contract, the commissioner shall
226.21 permit grant recipients to carry over any unexpended amount from the first contract year
226.22 to the second contract year.

226.23 Sec. 10. Minnesota Statutes 2020, section 256K.45, is amended by adding a subdivision
226.24 to read:

226.25 Subd. 8. Provider repair or improvement grants. (a) Providers that serve homeless
226.26 youth under this section may apply for a grant of up to $100,000 under this subdivision to
226.27 make minor or mechanical repairs or improvements to a facility providing services to
226.28 homeless youth or youth at risk of homelessness.

226.29 (b) Grant applications under this subdivision must include a description of the repairs
226.30 or improvements and the estimated cost of the repairs or improvements.
Grantees under this subdivision cannot receive grant funds under this subdivision for two consecutive years.

Sec. 11. Minnesota Statutes 2021 Supplement, section 256P.02, subdivision 1a, is amended to read:

Subd. 1a. Exemption. Participants who qualify for child care assistance programs under chapter 119B are exempt from this section, except that the personal property identified in subdivision 2 is counted toward the asset limit of the child care assistance program under chapter 119B. Vehicles under subdivision 3 and accounts under subdivision 4 are not counted toward the asset limit of the child care assistance program under chapter 119B.

Sec. 12. Minnesota Statutes 2021 Supplement, section 256P.02, subdivision 2, is amended to read:

Subd. 2. Personal property limitations. The equity value of an assistance unit's personal property listed in clauses (1) to (5) must not exceed $10,000 for applicants and participants. For purposes of this subdivision, personal property is limited to:

(1) cash;
(2) bank accounts not excluded under subdivision 4;
(3) liquid stocks and bonds that can be readily accessed without a financial penalty;
(4) vehicles not excluded under subdivision 3; and
(5) the full value of business accounts used to pay expenses not related to the business.

Sec. 13. Minnesota Statutes 2020, section 256P.02, is amended by adding a subdivision to read:

Subd. 4. Account exception. Family asset accounts under section 256E.35 and individual development accounts authorized under the Assets for Independence Act, Title IV of the Community Opportunities, Accountability, and Training and Educational Services Human Services Reauthorization Act of 1998, Public Law 105-285, shall be excluded when determining the equity value of personal property.

Sec. 14. Minnesota Statutes 2020, section 256P.04, subdivision 11, is amended to read:

Subd. 11. Participant's completion of household report form. (a) When a participant is required to complete a household report form, the following paragraphs apply.
(b) If the agency receives an incomplete household report form, the agency must immediately return the incomplete form and clearly state what the participant must do for the form to be complete. Contact the participant by phone or in writing to acquire the necessary information to complete the form.

(c) The automated eligibility system must send a notice of proposed termination of assistance to the participant if a complete household report form is not received by the agency. The automated notice must be mailed to the participant by approximately the 16th of the month. When a participant submits an incomplete form on or after the date a notice of proposed termination has been sent, the termination is valid unless the participant submits a complete form before the end of the month.

(d) The submission of a household report form is considered to have continued the participant's application for assistance if a complete household report form is received within a calendar month after the month in which the form was due. Assistance shall be paid for the period beginning with the first day of that calendar month.

(e) An agency must allow good cause exemptions for a participant required to complete a household report form when any of the following factors cause a participant to fail to submit a completed household report form before the end of the month in which the form is due:

(1) an employer delays completion of employment verification;

(2) the agency does not help a participant complete the household report form when the participant asks for help;

(3) a participant does not receive a household report form due to a mistake on the part of the department or the agency or a reported change in address;

(4) a participant is ill or physically or mentally incapacitated; or

(5) some other circumstance occurs that a participant could not avoid with reasonable care which prevents the participant from providing a completed household report form before the end of the month in which the form is due.

Sec. 15. Minnesota Statutes 2021 Supplement, section 256P.06, subdivision 3, is amended to read:

Subd. 3. Income inclusions. The following must be included in determining the income of an assistance unit:

(1) earned income; and
unearned income, which includes:

(i) interest and dividends from investments and savings;

(ii) capital gains as defined by the Internal Revenue Service from any sale of real property;

(iii) proceeds from rent and contract for deed payments in excess of the principal and interest portion owed on property;

(iv) income from trusts, excluding special needs and supplemental needs trusts;

(v) interest income from loans made by the participant or household;

(vi) cash prizes and winnings;

(vii) unemployment insurance income that is received by an adult member of the assistance unit unless the individual receiving unemployment insurance income is:

(A) 18 years of age and enrolled in a secondary school; or

(B) 18 or 19 years of age, a caregiver, and is enrolled in school at least half-time;

(viii) retirement, survivors, and disability insurance payments;

(ix) nonrecurring income over $60 per quarter unless the nonrecurring income is: (A) from tax refunds, tax rebates, or tax credits; (B) a reimbursement, rebate, award, grant, or refund of personal or real property or costs or losses incurred when these payments are made by: a public agency; a court; solicitations through public appeal; a federal, state, or local unit of government; or a disaster assistance organization; (C) provided as an in-kind benefit; or (D) earmarked and used for the purpose for which it was intended, subject to verification requirements under section 256P.04;

(x) retirement benefits;

(xi) cash assistance benefits, as defined by each program in chapters 119B, 256D, 256I, and 256J;

(xii) Tribal per capita payments unless excluded by federal and state law;

(xiii) income and payments from service and rehabilitation programs that meet or exceed the state's minimum wage rate;

(xiv) income from members of the United States armed forces unless excluded from income taxes according to federal or state law;

(xv) all child support payments for programs under chapters 119B, 256D, and 256I;
230.1 (xv) the amount of child support received that exceeds $100 for assistance units
230.2 with one child and $200 for assistance units with two or more children for programs under
230.3 chapter 256J;
230.4 (xvi) spousal support; and
230.5 (xvii) workers' compensation.

230.6 Sec. 16. Minnesota Statutes 2020, section 260.012, is amended to read:

230.7 260.012 DUTY TO ENSURE PLACEMENT PREVENTION AND FAMILY
230.8 REUNIFICATION; REASONABLE EFFORTS.
230.9 (a) Once a child alleged to be in need of protection or services is under the court's
230.10 jurisdiction, the court shall ensure that reasonable efforts, including culturally appropriate
230.11 services and practices, by the social services agency are made to prevent placement or to
230.12 eliminate the need for removal and to reunite the child with the child's family at the earliest
230.13 possible time, and the court must ensure that the responsible social services agency makes
230.14 reasonable efforts to finalize an alternative permanent plan for the child as provided in
230.15 paragraph (e). In determining reasonable efforts to be made with respect to a child and in
230.16 making those reasonable efforts, the child's best interests, health, and safety must be of
230.17 paramount concern. Reasonable efforts to prevent placement and for rehabilitation and
230.18 reunification are always required except upon a determination by the court that a petition
230.19 has been filed stating a prima facie case that:
230.20 (1) the parent has subjected a child to egregious harm as defined in section 260C.007,
230.21 subdivision 14;
230.22 (2) the parental rights of the parent to another child have been terminated involuntarily;
230.23 (3) the child is an abandoned infant under section 260C.301, subdivision 2, paragraph
230.24 (a), clause (2);
230.25 (4) the parent's custodial rights to another child have been involuntarily transferred to a
230.26 relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (d),
230.27 clause (1), section 260C.515, subdivision 4, or a similar law of another jurisdiction;
230.28 (5) the parent has committed sexual abuse as defined in section 260E.03, against the
230.29 child or another child of the parent;
230.30 (6) the parent has committed an offense that requires registration as a predatory offender
230.31 under section 243.166, subdivision 1b, paragraph (a) or (b); or
(7) the provision of services or further services for the purpose of reunification is futile and therefore unreasonable under the circumstances.

(b) When the court makes one of the prima facie determinations under paragraph (a), either permanency pleadings under section 260C.505, or a termination of parental rights petition under sections 260C.141 and 260C.301 must be filed. A permanency hearing under sections 260C.503 to 260C.521 must be held within 30 days of this determination.

(c) In the case of an Indian child, in proceedings under sections 260B.178, 260C.178, 260C.201, 260C.202, 260C.204, 260C.301, or 260C.503 to 260C.521, the juvenile court must make findings and conclusions consistent with the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901 et seq., as to the provision of active efforts. In cases governed by the Indian Child Welfare Act of 1978, United States Code, title 25, section 1901, the responsible social services agency must provide active efforts as required under United States Code, title 25, section 1911(d).

(d) "Reasonable efforts to prevent placement" means:

(1) the agency has made reasonable efforts to prevent the placement of the child in foster care by working with the family to develop and implement a safety plan that is individualized to the needs of the child and the child's family and may include support persons from the child's extended family, kin network, and community; or

(2) the agency has demonstrated to the court that, given the particular circumstances of the child and family at the time of the child's removal, there are no services or efforts available which could allow the child to safely remain in the home.

(e) "Reasonable efforts to finalize a permanent plan for the child" means due diligence by the responsible social services agency to:

(1) reunify the child with the parent or guardian from whom the child was removed;

(2) assess a noncustodial parent's ability to provide day-to-day care for the child and, where appropriate, provide services necessary to enable the noncustodial parent to safely provide the care, as required by section 260C.219;

(3) conduct a relative search to identify and provide notice to adult relatives, and engage relatives in case planning and permanency planning, as required under section 260C.221;

(4) consider placing the child with relatives in the order specified in section 260C.212, subdivision 2, paragraph (a);
place siblings removed from their home in the same home for foster care or
adoption, or transfer permanent legal and physical custody to a relative. Visitation between
siblings who are not in the same foster care, adoption, or custodial placement or facility
shall be consistent with section 260C.212, subdivision 2; and

when the child cannot return to the parent or guardian from whom the child was
removed, to plan for and finalize a safe and legally permanent alternative home for the child,
and considers permanent alternative homes for the child inside or outside of the state,
preferably with a relative in the order specified in section 260C.212, subdivision 2, paragraph
(a), through adoption or transfer of permanent legal and physical custody of the child.

(f) Reasonable efforts are made upon the exercise of due diligence by the responsible
social services agency to use culturally appropriate and available services to meet the
individualized needs of the child and the child's family. Services may include those provided
by the responsible social services agency and other culturally appropriate services available
in the community. The responsible social services agency must select services for a child
and the child's family by collaborating with the child's family and, if appropriate, the child.

At each stage of the proceedings where when the court is required to review the
appropriateness of the responsible social services agency's reasonable efforts as described
in paragraphs (a), (d), and (e), the social services agency has the burden of demonstrating
that:

(1) the agency has made reasonable efforts to prevent placement of the child in foster
care, including that the agency considered or established a safety plan according to paragraph
(d), clause (1);

(2) the agency has made reasonable efforts to eliminate the need for removal of the
child from the child's home and to reunify the child with the child's family at the earliest
possible time;

(3) the agency has made reasonable efforts to finalize a permanent plan for the child
pursuant to paragraph (e);

(3) the agency has made reasonable efforts to finalize an alternative permanent
home for the child, and considers permanent alternative homes for the child
inside or outside in or out of the state, preferably with a relative in the order specified in
section 260C.212, subdivision 2, paragraph (a); or

reasonable efforts to prevent placement and to reunify the child with the parent
or guardian are not required. The agency may meet this burden by stating facts in a sworn
petition filed under section 260C.141, by filing an affidavit summarizing the agency's
reasonable efforts or facts that the agency believes demonstrate that there is no need for reasonable efforts to reunify the parent and child, or through testimony or a certified report required under juvenile court rules.

(g) Once the court determines that reasonable efforts for reunification are not required because the court has made one of the prima facie determinations under paragraph (a), the court may only require the agency to make reasonable efforts for reunification after a hearing according to section 260C.163, where if the court finds that there is not clear and convincing evidence of the facts upon which the court based its prima facie determination. In this case when if there is clear and convincing evidence that the child is in need of protection or services, the court may find the child in need of protection or services and order any of the dispositions available under section 260C.201, subdivision 1. Reunification of a child with a parent is not required if the parent has been convicted of:

(1) a violation of, or an attempt or conspiracy to commit a violation of, sections 609.185 to 609.20; 609.222, subdivision 2; or 609.223 in regard to another child of the parent;
(2) a violation of section 609.222, subdivision 2; or 609.223, in regard to the child;
(3) a violation of, or an attempt or conspiracy to commit a violation of, United States Code, title 18, section 1111(a) or 1112(a), in regard to another child of the parent;
(4) committing sexual abuse as defined in section 260E.03, against the child or another child of the parent; or
(5) an offense that requires registration as a predatory offender under section 243.166, subdivision 1b, paragraph (a) or (b).

(h) The juvenile court, in proceedings under sections 260B.178, 260C.178, 260C.201, 260C.202, 260C.204, 260C.301, or 260C.503 to 260C.521, shall make findings and conclusions as to the provision of reasonable efforts. When determining whether reasonable efforts have been made by the agency, the court shall consider whether services to the child and family were:

(1) selected in collaboration with the child's family and, if appropriate, the child;
(2) tailored to the individualized needs of the child and child's family;
(3) relevant to the safety, protection, and well-being of the child;
(4) adequate to meet the individualized needs of the child and family;
(5) culturally appropriate;
(6) available and accessible;
consistent and timely; and

realistic under the circumstances.

In the alternative, the court may determine that the provision of services or further services for the purpose of rehabilitation is futile and therefore unreasonable under the circumstances or that reasonable efforts are not required as provided in paragraph (a).

(i) This section does not prevent out-of-home placement for the treatment of a child with a mental disability when it is determined to be medically necessary as a result of the child's diagnostic assessment or the child's individual treatment plan indicates that appropriate and necessary treatment cannot be effectively provided outside of a residential or inpatient treatment program and the level or intensity of supervision and treatment cannot be effectively and safely provided in the child's home or community and it is determined that a residential treatment setting is the least restrictive setting that is appropriate to the needs of the child.

(j) If continuation of reasonable efforts to prevent placement or reunify the child with the parent or guardian from whom the child was removed is determined by the court to be inconsistent with the permanent plan for the child or upon the court making one of the prima facie determinations under paragraph (a), reasonable efforts must be made to place the child in a timely manner in a safe and permanent home and to complete whatever steps are necessary to legally finalize the permanent placement of the child.

(k) Reasonable efforts to place a child for adoption or in another permanent placement may be made concurrently with reasonable efforts to prevent placement or to reunify the child with the parent or guardian from whom the child was removed. When the responsible social services agency decides to concurrently make reasonable efforts for both reunification and permanent placement away from the parent under paragraph (a), the agency shall disclose its decision and both plans for concurrent reasonable efforts to all parties and the court. When the agency discloses its decision to proceed with both plans for reunification and permanent placement away from the parent, the court's review of the agency's reasonable efforts shall include the agency's efforts under both plans.

Sec. 17. Minnesota Statutes 2020, section 260C.001, subdivision 3, is amended to read:

Subd. 3. Permanency, termination of parental rights, and adoption. The purpose of the laws relating to permanency, termination of parental rights, and children who come under the guardianship of the commissioner of human services is to ensure that:
(1) when required and appropriate, reasonable efforts have been made by the social
services agency to reunite the child with the child's parents in a home that is safe and
permanent;

(2) if placement with the parents is not reasonably foreseeable, to secure for the child a
safe and permanent placement according to the requirements of section 260C.212, subdivision
2, preferably with adoptive parents, with a relative through an adoption or a transfer of
permanent legal and physical custody or, if that is not possible or in the best interests of the
child, a fit and willing relative through transfer of permanent legal and physical custody to
that relative with a nonrelative caregiver through adoption; and

(3) when a child is under the guardianship of the commissioner of human services,
reasonable efforts are made to finalize an adoptive home for the child in a timely manner.

Nothing in this section requires reasonable efforts to prevent placement or to reunify
the child with the parent or guardian to be made in circumstances where the court has
determined that the child has been subjected to egregious harm, when the child is an
abandoned infant, the parent has involuntarily lost custody of another child through a
proceeding under section 260C.515, subdivision 4, or similar law of another state, the
parental rights of the parent to a sibling have been involuntarily terminated, or the court has
determined that reasonable efforts or further reasonable efforts to reunify the child with the
parent or guardian would be futile.

The paramount consideration in all proceedings for permanent placement of the child
under sections 260C.503 to 260C.521, or the termination of parental rights is the best interests
of the child. In proceedings involving an American Indian child, as defined in section
260.755, subdivision 8, the best interests of the child must be determined consistent with

Sec. 18. Minnesota Statutes 2020, section 260C.007, subdivision 27, is amended to read:

Subd. 27. Relative. "Relative" means a person related to the child by blood, marriage,
or adoption; the legal parent, guardian, or custodian of the child's siblings; or an individual
who is an important friend of the child or of the child's parent or custodian, including an
individual with whom the child has resided or had significant contact or who has a significant
relationship to the child or the child's parent or custodian.
Sec. 19. Minnesota Statutes 2020, section 260C.151, subdivision 6, is amended to read:

Subd. 6. **Immediate custody.** If the court makes individualized, explicit findings, based on the notarized petition or sworn affidavit, that there are reasonable grounds to believe that the child is in surroundings or conditions which endanger the child's health, safety, or welfare that require that responsibility for the child's care and custody be immediately assumed by the responsible social services agency and that continuation of the child in the custody of the parent or guardian is contrary to the child's welfare, the court may order that the officer serving the summons take the child into immediate custody for placement of the child in foster care, preferably with a relative. In ordering that responsibility for the care, custody, and control of the child be assumed by the responsible social services agency, the court is ordering emergency protective care as that term is defined in the juvenile court rules.

Sec. 20. Minnesota Statutes 2020, section 260C.152, subdivision 5, is amended to read:

Subd. 5. **Notice to foster parents and preadoptive parents and relatives.** The foster parents, if any, of a child and any preadoptive parent or relative providing care for the child must be provided notice of and a right to be heard in any review or hearing to be held with respect to the child. Any other relative may also request, and must be granted, a notice and the opportunity right to be heard under this section. This subdivision does not require that a foster parent, preadoptive parent, or relative providing care for the child, or any other relative be made a party to a review or hearing solely on the basis of the notice and right to be heard.

Sec. 21. Minnesota Statutes 2020, section 260C.175, subdivision 2, is amended to read:

Subd. 2. **Notice to parent or custodian and child; emergency placement with relative.** Whenever (a) At the time that a peace officer takes a child into custody for relative placement or shelter care or relative placement pursuant to subdivision 1, section 260C.151, subdivision 5, or section 260C.154, the officer shall notify the child's parent or custodian and the child, if the child is ten years of age or older, that under section 260C.181, subdivision 2, the parent or custodian or the child may request that the child be placed with a relative or a designated caregiver under chapter 257A as defined in section 260C.007, subdivision 27, instead of in a shelter care facility.

(b) When a child who is not alleged to be delinquent is taken into custody pursuant to subdivision 1, clause (1) or (2), item (ii), and placement with an identified relative is
requested, the peace officer shall coordinate with the responsible social services agency to
ensure the child's safety and well-being and comply with section 260C.181, subdivision 2.

(c) The officer also shall give the parent or custodian of the child a list of names,
addresses, and telephone numbers of social services agencies that offer child welfare services.
If the parent or custodian was not present when the child was removed from the residence,
the list shall be left with an adult on the premises or left in a conspicuous place on the
premises if no adult is present. If the officer has reason to believe the parent or custodian
is not able to read and understand English, the officer must provide a list that is written in
the language of the parent or custodian. The list shall be prepared by the commissioner of
human services. The commissioner shall prepare lists for each county and provide each
county with copies of the list without charge. The list shall be reviewed annually by the
commissioner and updated if it is no longer accurate. Neither the commissioner nor any
peace officer or the officer's employer shall be liable to any person for mistakes or omissions
in the list. The list does not constitute a promise that any agency listed will in fact assist the
parent or custodian.

Sec. 22. Minnesota Statutes 2020, section 260C.176, subdivision 2, is amended to read:

Subd. 2. Reasons for detention. (a) If the child is not released as provided in subdivision
1, the person taking the child into custody shall notify the court as soon as possible of the
detention of the child and the reasons for detention.

(b) No child taken into custody and placed in a relative's home or shelter care facility
or relative's home by a peace officer pursuant to section 260C.175, subdivision 1, clause
(1) or (2), item (ii), may be held in custody longer than 72 hours, excluding Saturdays,
Sundays and holidays, unless a petition has been filed and the judge or referee determines
pursuant to section 260C.178 that the child shall remain in custody or unless the court has
made a finding of domestic abuse perpetrated by a minor after a hearing under Laws 1997,
chapter 239, article 10, sections 2 to 26, in which case the court may extend the period of
detention for an additional seven days, within which time the social services agency shall
cast an assessment and shall provide recommendations to the court regarding voluntary
services or file a child in need of protection or services petition.

Sec. 23. Minnesota Statutes 2020, section 260C.178, subdivision 1, is amended to read:

Subdivision 1. Hearing and release requirements. (a) If a child was taken into custody
under section 260C.175, subdivision 1, clause (1) or (2), item (ii), the court shall hold a
hearing within 72 hours of the time that the child was taken into custody, excluding
Saturdays, Sundays, and holidays, to determine whether the child should continue to be in custody.

(b) Unless there is reason to believe that the child would endanger self or others or not return for a court hearing, or that the child's health or welfare would be immediately endangered, the child shall be released to the custody of a parent, guardian, custodian, or other suitable person, subject to reasonable conditions of release including, but not limited to, a requirement that the child undergo a chemical use assessment as provided in section 260C.157, subdivision 1.

(c) If the court determines that there is reason to believe that the child would endanger self or others or not return for a court hearing, or that the child's health or welfare would be immediately endangered if returned to the care of the parent or guardian who has custody and from whom the child was removed, the court shall order the child:

(1) into the care of the child's noncustodial parent and order the noncustodial parent to comply with any conditions that the court determines appropriate to ensure the safety and care of the child, including requiring the noncustodial parent to cooperate with paternity establishment proceedings if the noncustodial parent has not been adjudicated the child's father; or

(2) into foster care as defined in section 260C.007, subdivision 18, under the legal responsibility of the responsible social services agency or responsible probation or corrections agency for the purposes of protective care as that term is used in the juvenile court rules or into the home of a noncustodial parent and order the noncustodial parent to comply with any conditions the court determines to be appropriate to the safety and care of the child, including cooperating with paternity establishment proceedings in the case of a man who has not been adjudicated the child's father. The court shall not give the responsible social services legal custody and order a trial home visit at any time prior to adjudication and disposition under section 260C.201, subdivision 1, paragraph (a), clause (3), but may order the child returned to the care of the parent or guardian who has custody and from whom the child was removed and order the parent or guardian to comply with any conditions the court determines to be appropriate to meet the safety, health, and welfare of the child.

(d) In determining whether the child's health or welfare would be immediately endangered, the court shall consider whether the child would reside with a perpetrator of domestic child abuse.

(e) The court, before determining whether a child should be placed in or continue in foster care under the protective care of the responsible agency, shall also make a
determination, consistent with section 260.012 as to whether reasonable efforts were made
to prevent placement or whether reasonable efforts to prevent placement are not required.
In the case of an Indian child, the court shall determine whether active efforts, according
to section 260.762 and the Indian Child Welfare Act of 1978, United States Code, title 25,
section 1912(d), were made to prevent placement. The court shall enter a finding that the
responsible social services agency has made reasonable efforts to prevent placement when
the agency establishes either:

(1) that the agency has actually provided services or made efforts in an attempt to
prevent the child's removal but that such services or efforts have not proven sufficient to
permit the child to safely remain in the home; or

(2) that there are no services or other efforts that could be made at the time of the hearing
that could safely permit the child to remain home or to return home. The court shall not
make a reasonable efforts determination under this clause unless the court is satisfied that
the agency has sufficiently demonstrated to the court that there were no services or other
efforts that the agency was able to provide at the time of the hearing enabling the child to
safely remain home or to safely return home. When reasonable efforts to prevent placement
are required and there are services or other efforts that could be ordered which would
permit the child to safely return home, the court shall order the child returned to the care of
the parent or guardian and the services or efforts put in place to ensure the child's safety.
When the court makes a prima facie determination that one of the circumstances under
paragraph (g) exists, the court shall determine that reasonable efforts to prevent placement
and to return the child to the care of the parent or guardian are not required.

(f) If the court finds the social services agency's preventive or reunification efforts have
not been reasonable but further preventive or reunification efforts could not permit the child
to safely remain at home, the court may nevertheless authorize or continue the removal of
the child.

(g) The court may not order or continue the foster care placement of the child unless
the court makes explicit, individualized findings that continued custody of the child by the
parent or guardian would be contrary to the welfare of the child and that placement is in the
best interest of the child.

(h) At the emergency removal hearing, or at any time during the course of the
proceeding, and upon notice and request of the county attorney, the court shall determine
whether a petition has been filed stating a prima facie case that:
(1) the parent has subjected a child to egregious harm as defined in section 260C.007, subdivision 14;

(2) the parental rights of the parent to another child have been involuntarily terminated;

(3) the child is an abandoned infant under section 260C.301, subdivision 2, paragraph (a), clause (2);

(4) the parents' custodial rights to another child have been involuntarily transferred to a relative under Minnesota Statutes 2010, section 260C.201, subdivision 11, paragraph (e), clause (1); section 260C.515, subdivision 4; or a similar law of another jurisdiction;

(5) the parent has committed sexual abuse as defined in section 260E.03, against the child or another child of the parent;

(6) the parent has committed an offense that requires registration as a predatory offender under section 243.166, subdivision 1b, paragraph (a) or (b); or

(7) the provision of services or further services for the purpose of reunification is futile and therefore unreasonable.

(h) (i) When a petition to terminate parental rights is required under section 260C.301, subdivision 4, or 260C.503, subdivision 2, but the county attorney has determined not to proceed with a termination of parental rights petition, and has instead filed a petition to transfer permanent legal and physical custody to a relative under section 260C.507, the court shall schedule a permanency hearing within 30 days of the filing of the petition.

(i) (j) If the county attorney has filed a petition under section 260C.307, the court shall schedule a trial under section 260C.163 within 90 days of the filing of the petition except when the county attorney determines that the criminal case shall proceed to trial first under section 260C.503, subdivision 2, paragraph (c).

(k) (k) If the court determines the child should be ordered into foster care and the child's parent refuses to give information to the responsible social services agency regarding the child's father or relatives of the child, the court may order the parent to disclose the names, addresses, telephone numbers, and other identifying information to the responsible social services agency for the purpose of complying with sections 260C.150, 260C.151, 260C.212, 260C.215, 260C.219, and 260C.221.

(l) (l) If a child ordered into foster care has siblings, whether full, half, or step, who are also ordered into foster care, the court shall inquire of the responsible social services agency of the efforts to place the children together as required by section 260C.212, subdivision 2, paragraph (d), if placement together is in each child's best interests, unless a child is in
placement for treatment or a child is placed with a previously noncustodial parent who is not a parent to all siblings. If the children are not placed together at the time of the hearing, the court shall inquire at each subsequent hearing of the agency's reasonable efforts to place the siblings together, as required under section 260.012. If any sibling is not placed with another sibling or siblings, the agency must develop a plan to facilitate visitation or ongoing contact among the siblings as required under section 260C.212, subdivision 1, unless it is contrary to the safety or well-being of any of the siblings to do so.

(4) (m) When the court has ordered the child into the care of a noncustodial parent or in foster care or into the home of a noncustodial parent, the court may order a chemical dependency evaluation, mental health evaluation, medical examination, and parenting assessment for the parent as necessary to support the development of a plan for reunification required under subdivision 7 and section 260C.212, subdivision 1, or the child protective services plan under section 260E.26, and Minnesota Rules, part 9560.0228.

Sec. 24. Minnesota Statutes 2020, section 260C.181, subdivision 2, is amended to read:

Subd. 2. Least restrictive setting. Notwithstanding the provisions of subdivision 1, if the child had been taken into custody pursuant to section 260C.175, subdivision 1, clause (1) or (2), item (ii), and is not alleged to be delinquent, the child shall be detained in the least restrictive setting consistent with the child's health and welfare and in closest proximity to the child's family as possible. Placement may be with a child's relative, a designated caregiver under chapter 257A, or, if no placement is available with a relative, in a shelter care facility. The placing officer shall comply with this section and shall document why a less restrictive setting will or will not be in the best interests of the child for placement purposes.

Sec. 25. Minnesota Statutes 2020, section 260C.193, subdivision 3, is amended to read:

Subd. 3. Best interests of the child. (a) The policy of the state is to ensure that the best interests of children in foster care, who experience a transfer of permanent legal and physical custody to a relative under section 260C.515, subdivision 4, or adoption under this chapter, are met by:

(1) considering placement of a child with relatives in the order specified in section 260C.212, subdivision 2, paragraph (a); and

(2) requiring individualized determinations under section 260C.212, subdivision 2, paragraph (b), of the needs of the child and of how the selected home will serve the needs of the child.
(b) No later than three months after a child is ordered to be removed from the care of a parent in the hearing required under section 260C.202, the court shall review and enter findings regarding whether the responsible social services agency made:

1. diligent efforts exercised due diligence to identify and search for, notify, and engage relatives as required under section 260C.221; and
2. made a placement consistent with section 260C.212, subdivision 2, that is based on an individualized determination as required under section 260C.212, subdivision 2, of the child's needs to select a home that meets the needs of the child.

(c) If the court finds that the agency has not made efforts exercised due diligence as required under section 260C.221, and the court shall order the agency to make reasonable efforts. If there is a relative who qualifies to be licensed to provide family foster care under chapter 245A, the court may order the child to be placed with the relative consistent with the child's best interests.

(d) If the agency's efforts under section 260C.221 are found by the court to be sufficient, the court shall order the agency to continue to appropriately engage relatives who responded to the notice under section 260C.221 in placement and case planning decisions and to appropriately engage relatives who subsequently come to the agency's attention. A court's finding that the agency has made reasonable efforts under this paragraph does not relieve the agency of the duty to continue notifying relatives who come to the agency's attention and engaging and considering relatives who respond to the notice under section 260C.221 in child placement and case planning decisions.

(e) If the child's birth parent or parents explicitly request that a specific relative or important friend not be considered for placement of the child, the court shall honor that request if it is consistent with the best interests of the child and consistent with the requirements of section 260C.221. The court shall not waive relative search, notice, and consideration requirements, unless section 260C.139 applies. If the child's birth parent or parents express a preference for placing the child in a foster or adoptive home of the same or a similar religious background as that of the birth parent or parents, the court shall order placement of the child with an individual who meets the birth parent's religious preference.

(f) Placement of a child must not be delayed or denied based on race, color, or national origin of the foster parent or the child.

(g) Whenever possible, siblings requiring foster care placement shall be placed together unless it is determined not to be in the best interests of one or more of the siblings.
after weighing the benefits of separate placement against the benefits of sibling connections for each sibling. The agency shall consider section 260C.008 when making this determination. If siblings were not placed together according to section 260C.212, subdivision 2, paragraph (d), the responsible social services agency shall report to the court the efforts made to place the siblings together and why the efforts were not successful. If the court is not satisfied that the agency has made reasonable efforts to place siblings together, the court must order the agency to make further reasonable efforts. If siblings are not placed together, the court shall order the responsible social services agency to implement the plan for visitation among siblings required as part of the out-of-home placement plan under section 260C.212.

(h) This subdivision does not affect the Indian Child Welfare Act, United States Code, title 25, sections 1901 to 1923, and the Minnesota Indian Family Preservation Act, sections 260.751 to 260.835.

Sec. 26. Minnesota Statutes 2020, section 260C.201, subdivision 1, is amended to read:

Subdivision 1. Dispositions. (a) If the court finds that the child is in need of protection or services or neglected and in foster care, the court shall enter an order making any of the following dispositions of the case:

(1) place the child under the protective supervision of the responsible social services agency or child-placing agency in the home of a parent of the child under conditions prescribed by the court directed to the correction of the child's need for protection or services:

(i) the court may order the child into the home of a parent who does not otherwise have legal custody of the child, however, an order under this section does not confer legal custody on that parent;

(ii) if the court orders the child into the home of a father who is not adjudicated, the father must cooperate with paternity establishment proceedings regarding the child in the appropriate jurisdiction as one of the conditions prescribed by the court for the child to continue in the father's home; and

(iii) the court may order the child into the home of a noncustodial parent with conditions and may also order both the noncustodial and the custodial parent to comply with the requirements of a case plan under subdivision 2; or

(2) transfer legal custody to one of the following:

(i) a child-placing agency; or
(ii) the responsible social services agency. In making a foster care placement for a child whose custody has been transferred under this subdivision, the agency shall make an individualized determination of how the placement is in the child's best interests using the placement consideration order for relatives; and the best interest factors in section 260C.212, subdivision 2, paragraph (b), and may include a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190; or

(3) order a trial home visit without modifying the transfer of legal custody to the responsible social services agency under clause (2). Trial home visit means the child is returned to the care of the parent or guardian from whom the child was removed for a period not to exceed six months. During the period of the trial home visit, the responsible social services agency:

(i) shall continue to have legal custody of the child, which means that the agency may see the child in the parent's home, at school, in a child care facility, or other setting as the agency deems necessary and appropriate;

(ii) shall continue to have the ability to access information under section 260C.208;

(iii) shall continue to provide appropriate services to both the parent and the child during the period of the trial home visit;

(iv) without previous court order or authorization, may terminate the trial home visit in order to protect the child's health, safety, or welfare and may remove the child to foster care;

(v) shall advise the court and parties within three days of the termination of the trial home visit when a visit is terminated by the responsible social services agency without a court order; and

(vi) shall prepare a report for the court when the trial home visit is terminated whether by the agency or court order which describes the child's circumstances during the trial home visit and recommends appropriate orders, if any, for the court to enter to provide for the child's safety and stability. In the event a trial home visit is terminated by the agency by removing the child to foster care without prior court order or authorization, the court shall conduct a hearing within ten days of receiving notice of the termination of the trial home visit by the agency and shall order disposition under this subdivision or commence permanency proceedings under sections 260C.503 to 260C.515. The time period for the hearing may be extended by the court for good cause shown and if it is in the best interests of the child as long as the total time the child spends in foster care without a permanency hearing does not exceed 12 months;
(4) if the child has been adjudicated as a child in need of protection or services because
the child is in need of special services or care to treat or ameliorate a physical or mental
disability or emotional disturbance as defined in section 245.4871, subdivision 15, the court
may order the child's parent, guardian, or custodian to provide it. The court may order the
child's health plan company to provide mental health services to the child. Section 62Q.535
applies to an order for mental health services directed to the child's health plan company.
If the health plan, parent, guardian, or custodian fails or is unable to provide this treatment
or care, the court may order it provided. Absent specific written findings by the court that
the child's disability is the result of abuse or neglect by the child's parent or guardian, the
court shall not transfer legal custody of the child for the purpose of obtaining special
treatment or care solely because the parent is unable to provide the treatment or care. If the
court's order for mental health treatment is based on a diagnosis made by a treatment
professional, the court may order that the diagnosing professional not provide the treatment
to the child if it finds that such an order is in the child's best interests; or

(5) if the court believes that the child has sufficient maturity and judgment and that it is
in the best interests of the child, the court may order a child 16 years old or older to be
allowed to live independently, either alone or with others as approved by the court under
supervision the court considers appropriate, if the county board, after consultation with the
court, has specifically authorized this dispositional alternative for a child.

(b) If the child was adjudicated in need of protection or services because the child is a
runaway or habitual truant, the court may order any of the following dispositions in addition
to or as alternatives to the dispositions authorized under paragraph (a):

(1) counsel the child or the child's parents, guardian, or custodian;

(2) place the child under the supervision of a probation officer or other suitable person
in the child's own home under conditions prescribed by the court, including reasonable rules
for the child's conduct and the conduct of the parents, guardian, or custodian, designed for
the physical, mental, and moral well-being and behavior of the child;

(3) subject to the court's supervision, transfer legal custody of the child to one of the
following:

(i) a reputable person of good moral character. No person may receive custody of two
or more unrelated children unless licensed to operate a residential program under sections
245A.01 to 245A.16; or

(ii) a county probation officer for placement in a group foster home established under
the direction of the juvenile court and licensed pursuant to section 241.021;
require the child to pay a fine of up to $100. The court shall order payment of the
fine in a manner that will not impose undue financial hardship upon the child;

(5) require the child to participate in a community service project;

(6) order the child to undergo a chemical dependency evaluation and, if warranted by
the evaluation, order participation by the child in a drug awareness program or an inpatient
or outpatient chemical dependency treatment program;

(7) if the court believes that it is in the best interests of the child or of public safety that
the child's driver's license or instruction permit be canceled, the court may order the
commissioner of public safety to cancel the child's license or permit for any period up to
the child's 18th birthday. If the child does not have a driver's license or permit, the court
may order a denial of driving privileges for any period up to the child's 18th birthday. The
court shall forward an order issued under this clause to the commissioner, who shall cancel
the license or permit or deny driving privileges without a hearing for the period specified
by the court. At any time before the expiration of the period of cancellation or denial, the
court may, for good cause, order the commissioner of public safety to allow the child to
apply for a license or permit, and the commissioner shall so authorize;

(8) order that the child's parent or legal guardian deliver the child to school at the
beginning of each school day for a period of time specified by the court; or

(9) require the child to perform any other activities or participate in any other treatment
programs deemed appropriate by the court.

To the extent practicable, the court shall enter a disposition order the same day it makes
a finding that a child is in need of protection or services or neglected and in foster care, but
in no event more than 15 days after the finding unless the court finds that the best interests
of the child will be served by granting a delay. If the child was under eight years of age at
the time the petition was filed, the disposition order must be entered within ten days of the
finding and the court may not grant a delay unless good cause is shown and the court finds
the best interests of the child will be served by the delay.

(c) If a child who is 14 years of age or older is adjudicated in need of protection or
services because the child is a habitual truant and truancy procedures involving the child
were previously dealt with by a school attendance review board or county attorney mediation
program under section 260A.06 or 260A.07, the court shall order a cancellation or denial
of driving privileges under paragraph (b), clause (7), for any period up to the child's 18th
birthday.
(d) In the case of a child adjudicated in need of protection or services because the child has committed domestic abuse and been ordered excluded from the child's parent's home, the court shall dismiss jurisdiction if the court, at any time, finds the parent is able or willing to provide an alternative safe living arrangement for the child, as defined in Laws 1997, chapter 239, article 10, section 2.

(e) When a parent has complied with a case plan ordered under subdivision 6 and the child is in the care of the parent, the court may order the responsible social services agency to monitor the parent's continued ability to maintain the child safely in the home under such terms and conditions as the court determines appropriate under the circumstances.

Sec. 27. Minnesota Statutes 2020, section 260C.201, subdivision 2, is amended to read:

Subd. 2. Written findings. (a) Any order for a disposition authorized under this section shall contain written findings of fact to support the disposition and case plan ordered and shall also set forth in writing the following information:

(1) why the best interests and safety of the child are served by the disposition and case plan ordered;

(2) what alternative dispositions or services under the case plan were considered by the court and why such dispositions or services were not appropriate in the instant case;

(3) when legal custody of the child is transferred, the appropriateness of the particular placement made or to be made by the placing agency using the relative and sibling placement considerations and best interest factors in section 260C.212, subdivision 2, paragraph (b), or the appropriateness of a child colocated with a parent in a licensed residential family-based substance use disorder treatment program under section 260C.190;

(4) whether reasonable efforts to finalize the permanent plan for the child consistent with section 260.012 were made including reasonable efforts:

(i) to prevent the child's placement and to reunify the child with the parent or guardian from whom the child was removed at the earliest time consistent with the child's safety. The court's findings must include a brief description of what preventive and reunification efforts were made and why further efforts could not have prevented or eliminated the necessity of removal or that reasonable efforts were not required under section 260.012 or 260C.178, subdivision 1;

(ii) to identify and locate any noncustodial or nonresident parent of the child and to assess such parent's ability to provide day-to-day care of the child, and, where appropriate, provide services necessary to enable the noncustodial or nonresident parent to safely provide
day-to-day care of the child as required under section 260C.219, unless such services are not required under section 260.012 or 260C.178, subdivision 1. The court's findings must include a description of the agency's efforts to:

(A) identify and locate the child's noncustodial or nonresident parent;

(B) assess the noncustodial or nonresident parent's ability to provide day-to-day care of the child; and

(C) if appropriate, provide services necessary to enable the noncustodial or nonresident parent to safely provide the child's day-to-day care, including efforts to engage the noncustodial or nonresident parent in assuming care and responsibility of the child;

(iii) to make the diligent search for relatives and provide the notices required under section 260C.221; a finding made pursuant to a hearing under section 260C.202 that the agency has made diligent efforts to conduct a relative search and has appropriately engaged relatives who responded to the notice under section 260C.221 and other relatives, who came to the attention of the agency after notice under section 260C.221 was sent, in placement and case planning decisions fulfills the requirement of this item;

(iv) to identify and make a foster care placement of the child, considering the order in section 260C.212, subdivision 2, paragraph (a), in the home of an unlicensed relative, according to the requirements of section 245A.035, a licensed relative, or other licensed foster care provider, who will commit to being the permanent legal parent or custodian for the child in the event reunification cannot occur, but who will actively support the reunification plan for the child. If the court finds that the agency has not appropriately considered relatives for placement of the child, the court shall order the agency to comply with section 260C.212, subdivision 2, paragraph (a). The court may order the agency to continue considering relatives for placement of the child regardless of the child's current placement setting; and

(v) to place siblings together in the same home or to ensure visitation is occurring when siblings are separated in foster care placement and visitation is in the siblings' best interests under section 260C.212, subdivision 2, paragraph (d); and

(5) if the child has been adjudicated as a child in need of protection or services because the child is in need of special services or care to treat or ameliorate a mental disability or emotional disturbance as defined in section 245.4871, subdivision 15, the written findings shall also set forth:

(i) whether the child has mental health needs that must be addressed by the case plan;
(ii) what consideration was given to the diagnostic and functional assessments performed by the child's mental health professional and to health and mental health care professionals' treatment recommendations;

(iii) what consideration was given to the requests or preferences of the child's parent or guardian with regard to the child's interventions, services, or treatment; and

(iv) what consideration was given to the cultural appropriateness of the child's treatment or services.

(b) If the court finds that the social services agency's preventive or reunification efforts have not been reasonable but that further preventive or reunification efforts could not permit the child to safely remain at home, the court may nevertheless authorize or continue the removal of the child.

(c) If the child has been identified by the responsible social services agency as the subject of concurrent permanency planning, the court shall review the reasonable efforts of the agency to develop a permanency plan for the child that includes a primary plan which is for reunification with the child's parent or guardian and a secondary plan which is for an alternative, legally permanent home for the child in the event reunification cannot be achieved in a timely manner.

Sec. 28. Minnesota Statutes 2020, section 260C.202, is amended to read:

260C.202 COURT REVIEW OF FOSTER CARE.

(a) If the court orders a child placed in foster care, the court shall review the out-of-home placement plan and the child's placement at least every 90 days as required in juvenile court rules to determine whether continued out-of-home placement is necessary and appropriate or whether the child should be returned home. This review is not required if the court has returned the child home, ordered the child permanently placed away from the parent under sections 260C.503 to 260C.521, or terminated rights under section 260C.301. Court review for a child permanently placed away from a parent, including where the child is under guardianship of the commissioner, shall be governed by section 260C.607. When a child is placed in a qualified residential treatment program setting as defined in section 260C.007, subdivision 26d, the responsible social services agency must submit evidence to the court as specified in section 260C.712.

(b) No later than three months after the child's placement in foster care, the court shall review agency efforts to search for and notify relatives pursuant to section 260C.221, and order that the agency's efforts begin immediately, or continue, if the agency has failed to
perform, or has not adequately performed, the duties under that section. The court must
order the agency to continue to appropriately engage relatives who responded to the notice
under section 260C.221 in placement and case planning decisions and to consider relatives
for foster care placement consistent with section 260C.221. Notwithstanding a court's finding
that the agency has made reasonable efforts to search for and notify relatives under section
260C.221, the court may order the agency to continue making reasonable efforts to search
for, notify, engage other, and consider relatives who came to the agency's attention after
sending the initial notice under section 260C.221 was sent.

(c) The court shall review the out-of-home placement plan and may modify the plan as
provided under section 260C.201, subdivisions 6 and 7.

(d) When the court orders transfer of the custody of a child to a responsible
social services agency resulting in foster care or protective supervision with a noncustodial
parent under subdivision 1, the court shall notify the parents of the provisions of sections
260C.204 and 260C.503 to 260C.521, as required under juvenile court rules.

(e) When a child remains in or returns to foster care pursuant to section 260C.451 and
the court has jurisdiction pursuant to section 260C.193, subdivision 6, paragraph (c), the
court shall at least annually conduct the review required under section 260C.203.

Sec. 29. Minnesota Statutes 2020, section 260C.203, is amended to read:

260C.203 ADMINISTRATIVE OR COURT REVIEW OF PLACEMENTS.

(a) Unless the court is conducting the reviews required under section 260C.202, there
shall be an administrative review of the out-of-home placement plan of each child placed
in foster care no later than 180 days after the initial placement of the child in foster care
and at least every six months thereafter if the child is not returned to the home of the parent
or parents within that time. The out-of-home placement plan must be monitored and updated
by the responsible social services agency at each administrative review. The administrative
review shall be conducted by the responsible social services agency using a panel of
appropriate persons at least one of whom is not responsible for the case management of, or
the delivery of services to, either the child or the parents who are the subject of the review.
The administrative review shall be open to participation by the parent or guardian of the
child and the child, as appropriate.

(b) As an alternative to the administrative review required in paragraph (a), the court
may, as part of any hearing required under the Minnesota Rules of Juvenile Protection
Procedure, conduct a hearing to monitor and update the out-of-home placement plan pursuant
to the procedure and standard in section 260C.201, subdivision 6, paragraph (d). The party
requesting review of the out-of-home placement plan shall give parties to the proceeding
notice of the request to review and update the out-of-home placement plan. A court review
conducted pursuant to section 260C.141, subdivision 2; 260C.193; 260C.201, subdivision
1; 260C.202; 260C.204; 260C.317; or 260D.06 shall satisfy the requirement for the review

(c) As appropriate to the stage of the proceedings and relevant court orders, the
responsible social services agency or the court shall review:

(1) the safety, permanency needs, and well-being of the child;

(2) the continuing necessity for and appropriateness of the placement, including whether
the placement is consistent with the child's best interests and other placement considerations,
including relative and sibling placement considerations under section 260C.212, subdivision
2;

(3) the extent of compliance with the out-of-home placement plan required under section
260C.212, subdivisions 1 and 1a, including services and resources that the agency has
provided to the child and child's parents, services and resources that other agencies and
individuals have provided to the child and child's parents, and whether the out-of-home
placement plan is individualized to the needs of the child and child's parents;

(4) the extent of progress that has been made toward alleviating or mitigating the causes
necessitating placement in foster care;

(5) the projected date by which the child may be returned to and safely maintained in
the home or placed permanently away from the care of the parent or parents or guardian;
and

(6) the appropriateness of the services provided to the child.

(d) When a child is age 14 or older:

(1) in addition to any administrative review conducted by the responsible social services
agency, at the in-court review required under section 260C.317, subdivision 3, clause (3),
or 260C.515, subdivision 5 or 6, the court shall review the independent living plan required
under section 260C.212, subdivision 1, paragraph (c), clause (12), and the provision of
services to the child related to the well-being of the child as the child prepares to leave foster
care. The review shall include the actual plans related to each item in the plan necessary to
the child's future safety and well-being when the child is no longer in foster care; and
(2) consistent with the requirements of the independent living plan, the court shall review progress toward or accomplishment of the following goals:

(ix) the child has an alternative affordable housing plan, which does not include a homeless shelter, if the original housing plan is unworkable;

(x) the child, if male, has registered for the Selective Service; and

(xi) the child has a permanent connection to a caring adult.

Sec. 30. Minnesota Statutes 2020, section 260C.204, is amended to read:

260C.204 PERMANENCY PROGRESS REVIEW FOR CHILDREN IN FOSTER CARE FOR SIX MONTHS.

(a) When a child continues in placement out of the home of the parent or guardian from whom the child was removed, no later than six months after the child's placement the court shall conduct a permanency progress hearing to review:

(1) the progress of the case, the parent's progress on the case plan or out-of-home placement plan, whichever is applicable;

(2) the agency's reasonable, or in the case of an Indian child, active efforts for reunification and its provision of services;
(3) the agency’s reasonable efforts to finalize the permanent plan for the child under section 260.012, paragraph (e), and to make a placement as required under section 260C.212, subdivision 2, in a home that will commit to being the legally permanent family for the child in the event the child cannot return home according to the timelines in this section; and

(4) in the case of an Indian child, active efforts to prevent the breakup of the Indian family and to make a placement according to the placement preferences under United States Code, title 25, chapter 21, section 1915.

(b) When a child is placed in a qualified residential treatment program setting as defined in section 260C.007, subdivision 26d, the responsible social services agency must submit evidence to the court as specified in section 260C.712.

(c) The court shall ensure that notice of the hearing is sent to any relative who:

(1) responded to the agency’s notice provided under section 260C.221, indicating an interest in participating in planning for the child or being a permanency resource for the child and who has kept the court apprised of the relative's address; or

(2) asked to be notified of court proceedings regarding the child as is permitted in section 260C.152, subdivision 5.

(d)(1) If the parent or guardian has maintained contact with the child and is complying with the court-ordered out-of-home placement plan, and if the child would benefit from reunification with the parent, the court may either:

(i) return the child home, if the conditions which led to the out-of-home placement have been sufficiently mitigated that it is safe and in the child's best interests to return home; or

(ii) continue the matter up to a total of six additional months. If the child has not returned home by the end of the additional six months, the court must conduct a hearing according to sections 260C.503 to 260C.521.

(2) If the court determines that the parent or guardian is not complying, is not making progress with or engaging with services in the out-of-home placement plan, or is not maintaining regular contact with the child as outlined in the visitation plan required as part of the out-of-home placement plan under section 260C.212, the court may order the responsible social services agency:

(i) to develop a plan for legally permanent placement of the child away from the parent;
(ii) to consider, identify, recruit, and support one or more permanency resources from
the child's relatives and foster parent, consistent with section 260C.212, subdivision 2,
paragraph (a), to be the legally permanent home in the event the child cannot be returned
to the parent. Any relative or the child's foster parent may ask the court to order the agency
to consider them for permanent placement of the child in the event the child cannot be
returned to the parent. A relative or foster parent who wants to be considered under this
item shall cooperate with the background study required under section 245C.08, if the
individual has not already done so, and with the home study process required under chapter
245A for providing child foster care and for adoption under section 259.41. The home study
referred to in this item shall be a single-home study in the form required by the commissioner
of human services or similar study required by the individual's state of residence when the
subject of the study is not a resident of Minnesota. The court may order the responsible
social services agency to make a referral under the Interstate Compact on the Placement of
Children when necessary to obtain a home study for an individual who wants to be considered
for transfer of permanent legal and physical custody or adoption of the child; and

(iii) to file a petition to support an order for the legally permanent placement plan.

(e) Following the review under this section:

(1) if the court has either returned the child home or continued the matter up to a total
of six additional months, the agency shall continue to provide services to support the child's
return home or to make reasonable efforts to achieve reunification of the child and the parent
as ordered by the court under an approved case plan;

(2) if the court orders the agency to develop a plan for the transfer of permanent legal
and physical custody of the child to a relative, a petition supporting the plan shall be filed
in juvenile court within 30 days of the hearing required under this section and a trial on the
petition held within 60 days of the filing of the pleadings; or

(3) if the court orders the agency to file a termination of parental rights, unless the county
attorney can show cause why a termination of parental rights petition should not be filed,
a petition for termination of parental rights shall be filed in juvenile court within 30 days
of the hearing required under this section and a trial on the petition held within 60 days of
the filing of the petition.
Sec. 31. Minnesota Statutes 2021 Supplement, section 260C.212, subdivision 1, is amended to read:

Subdivision 1. Out-of-home placement; plan. (a) An out-of-home placement plan shall be prepared within 30 days after any child is placed in foster care by court order or a voluntary placement agreement between the responsible social services agency and the child's parent pursuant to section 260C.227 or chapter 260D.

(b) An out-of-home placement plan means a written document which individualized to the needs of the child and the child's parents or guardians that is prepared by the responsible social services agency jointly with the parent or parents or guardian of the child, the child's parents or guardians and in consultation with the child's guardian ad litem, the child's tribe, if the child is an Indian child, the child's foster parent or representative of the foster care facility, and, where appropriate, the child. The child may select one member of the case planning team to be designated as the child's advisor and to advocate with respect to the application of the reasonable and prudent parenting standards. The responsible social services agency may reject an individual selected by the child if the agency has good cause to believe that the individual would not act in the best interest of the child. For a child in voluntary foster care for treatment under chapter 260D, preparation of the out-of-home placement plan shall additionally include the child's mental health treatment provider. For a child 18 years of age or older, the responsible social services agency shall involve the child and the child's parents as appropriate. As appropriate, the plan shall be:

(1) submitted to the court for approval under section 260C.178, subdivision 7;
(2) ordered by the court, either as presented or modified after hearing, under section 260C.178, subdivision 7, or 260C.201, subdivision 6; and
(3) signed by the parent or parents or guardian of the child, the child's guardian ad litem, a representative of the child's tribe, the responsible social services agency, and, if possible, the child.

(c) The out-of-home placement plan shall be explained by the responsible social services agency to all persons involved in the plan's implementation, including the child who has signed the plan, and shall set forth:

(1) a description of the foster care home or facility selected, including how the out-of-home placement plan is designed to achieve a safe placement for the child in the least restrictive, most family-like setting available which is in close proximity to the
home of the parent or child's parents or guardian of the child guardians when the case plan
goal is reunification and how the placement is consistent with the best interests and special
needs of the child according to the factors under subdivision 2, paragraph (b);

(2) the specific reasons for the placement of the child in foster care, and when
reunification is the plan, a description of the problems or conditions in the home of the
parent or parents which necessitated removal of the child from home and the changes
the parent or parents must make for the child to safely return home;

(3) a description of the services offered and provided to prevent removal of the child
from the home and to reunify the family including:

(i) the specific actions to be taken by the parent or parents of the child to eliminate or
correct the problems or conditions identified in clause (2), and the time period during which
the actions are to be taken; and

(ii) the reasonable efforts, or in the case of an Indian child, active efforts to be made to
achieve a safe and stable home for the child including social and other supportive services
to be provided or offered to the parent or parents or guardian of the child, the child, and the
residential facility during the period the child is in the residential facility;

(4) a description of any services or resources that were requested by the child or the
child's parent, guardian, foster parent, or custodian since the date of the child's placement
in the residential facility, and whether those services or resources were provided and if not,
the basis for the denial of the services or resources;

(5) the visitation plan for the parent or parents or guardian, other relatives as defined in
section 260C.007, subdivision 26b or 27, and siblings of the child if the siblings are not
placed together in foster care, and whether visitation is consistent with the best interest of
the child, during the period the child is in foster care;

(6) when a child cannot return to or be in the care of either parent, documentation of
steps to finalize adoption as the permanency plan for the child through reasonable efforts
to place the child for adoption pursuant to section 260C.605. At a minimum, the
documentation must include consideration of whether adoption is in the best interests of
the child, and child-specific recruitment efforts such as a relative search, consideration of
relatives for adoptive placement, and the use of state, regional, and national adoption
exchanges to facilitate orderly and timely placements in and outside of the state. A copy of
this documentation shall be provided to the court in the review required under section
260C.317, subdivision 3, paragraph (b);
(7) when a child cannot return to or be in the care of either parent, documentation of
steps to finalize the transfer of permanent legal and physical custody to a relative as the
permanency plan for the child. This documentation must support the requirements of the
kinship placement agreement under section 256N.22 and must include the reasonable efforts
used to determine that it is not appropriate for the child to return home or be adopted, and
reasons why permanent placement with a relative through a Northstar kinship assistance
arrangement is in the child's best interest; how the child meets the eligibility requirements
for Northstar kinship assistance payments; agency efforts to discuss adoption with the child's
relative foster parent and reasons why the relative foster parent chose not to pursue adoption,
if applicable; and agency efforts to discuss with the child's parent or parents the permanent
transfer of permanent legal and physical custody or the reasons why these efforts were not
made;

(8) efforts to ensure the child's educational stability while in foster care for a child who
attained the minimum age for compulsory school attendance under state law and is enrolled
full time in elementary or secondary school, or instructed in elementary or secondary

or incapable of attending school on a full-time basis due to a medical condition that is
documented and supported by regularly updated information in the child's case plan.

Educational stability efforts include:

(i) efforts to ensure that the child remains in the same school in which the child was
enrolled prior to placement or upon the child's move from one placement to another, including
efforts to work with the local education authorities to ensure the child's educational stability
and attendance; or

(ii) if it is not in the child's best interest to remain in the same school that the child was
enrolled in prior to placement or move from one placement to another, efforts to ensure
immediate and appropriate enrollment for the child in a new school;

(9) the educational records of the child including the most recent information available
regarding:

(i) the names and addresses of the child's educational providers;

(ii) the child's grade level performance;

(iii) the child's school record;

(v) any other relevant educational information;

(10) the efforts by the responsible social services agency to ensure the oversight and continuity of health care services for the foster child, including:

(i) the plan to schedule the child's initial health screens;

The plan should include, but not be limited to, the following objectives:

(i) educational, vocational, or employment planning;
(ii) health care planning and medical coverage;

(iii) transportation including, where appropriate, assisting the child in obtaining a driver's license;

(v) planning for housing;

(vi) social and recreational skills;

The parent or parents may also receive assistance from any person or social services agency in preparation of the case plan.
After the plan has been agreed upon by the parties involved or approved or ordered by the court, the foster parents shall be fully informed of the provisions of the case plan and shall be provided a copy of the plan.

Upon the child's discharge from foster care, the responsible social services agency must provide the child's parent, adoptive parent, or permanent legal and physical custodian, and the child, if the child is 14 years of age or older, with a current copy of the child's health and education record. If a child meets the conditions in subdivision 15, paragraph (b), the agency must also provide the child with the child's social and medical history. The responsible social services agency may give a copy of the child's health and education record and social and medical history to a child who is younger than 14 years of age, if it is appropriate and if subdivision 15, paragraph (b), applies.

Sec. 32. Minnesota Statutes 2021 Supplement, section 260C.212, subdivision 2, is amended to read:

Subd. 2. Placement decisions based on best interests of the child. (a) The policy of the state of Minnesota is to ensure that the child's best interests are met by requiring an individualized determination of the needs of the child in consideration of paragraphs (a) to (f), and of how the selected placement will serve the current and future needs of the child being placed. The authorized child-placing agency shall place a child, released by court order or by voluntary release by the parent or parents, in a family foster home selected by considering placement with relatives and important friends in the following order:

1. with an individual who is related to the child by blood, marriage, or adoption, including the legal parent, guardian, or custodian of the child's sibling; or

2. with an individual who is an important friend with whom the child has resided or had significant contact of the child or the child's parent or custodian, including an individual with whom the child has resided or had significant contact or who has a significant relationship to the child or the child's parent or custodian.

For an Indian child, the agency shall follow the order of placement preferences in the Indian Child Welfare Act of 1978, United States Code, title 25, section 1915.

(b) Among the factors the agency shall consider in determining the current and future needs of the child are the following:

1. the child's current functioning and behaviors;

2. the medical needs of the child;
(3) the educational needs of the child;
(4) the developmental needs of the child;
(5) the child's history and past experience;
(6) the child's religious and cultural needs;
(7) the child's connection with a community, school, and faith community;
(8) the child's interests and talents;
(9) the child's relationship to current caretakers, current and long-term needs regarding
   relationships with parents, siblings, and relatives, and other caretakers;
(10) the reasonable preference of the child, if the court, or the child-placing agency in
   the case of a voluntary placement, deems the child to be of sufficient age to express
   preferences; and
(11) for an Indian child, the best interests of an Indian child as defined in section 260.755,
    subdivision 2a.
When placing a child in foster care or in a permanent placement based on an individualized
determination of the child's needs, the agency must not use one factor in this paragraph to
the exclusion of all others, and the agency shall consider that the factors in paragraph (b)
may be interrelated.
(c) Placement of a child cannot be delayed or denied based on race, color, or national
origin of the foster parent or the child.
(d) Siblings should be placed together for foster care and adoption at the earliest possible
time unless it is documented that a joint placement would be contrary to the safety or
well-being of any of the siblings or unless it is not possible after reasonable efforts by the
responsible social services agency. In cases where siblings cannot be placed together, the
agency is required to provide frequent visitation or other ongoing interaction between
siblings unless the agency documents that the interaction would be contrary to the safety
or well-being of any of the siblings.
(e) Except for emergency placement as provided for in section 245A.035, the following
requirements must be satisfied before the approval of a foster or adoptive placement in a
related or unrelated home: (1) a completed background study under section 245C.08; and
(2) a completed review of the written home study required under section 260C.215,
subdivision 4, clause (5), or 260C.611, to assess the capacity of the prospective foster or
adoptive parent to ensure the placement will meet the needs of the individual child.
(f) The agency must determine whether colocation with a parent who is receiving services in a licensed residential family-based substance use disorder treatment program is in the child's best interests according to paragraph (b) and include that determination in the child's case plan under subdivision 1. The agency may consider additional factors not identified in paragraph (b). The agency's determination must be documented in the child's case plan before the child is colocated with a parent.

(g) The agency must establish a juvenile treatment screening team under section 260C.157 to determine whether it is necessary and appropriate to recommend placing a child in a qualified residential treatment program, as defined in section 260C.007, subdivision 26d.

Sec. 33. Minnesota Statutes 2020, section 260C.221, is amended to read:

**260C.221 RELATIVE SEARCH AND ENGAGEMENT; PLACEMENT CONSIDERATION.**

Subdivision 1. Relative search requirements. (a) The responsible social services agency shall exercise due diligence to identify and notify adult relatives of a child as well as current caregivers of the child's sibling, prior to placement or within 30 days after the child's removal from the parent, regardless of whether a child is placed in a relative's home, as required under subdivision 2. The county agency shall consider placement with a relative under this section without delay and whenever the child must move from or be returned to foster care. The relative search required by this section shall be comprehensive in scope. After a finding that the agency has made reasonable efforts to conduct the relative search under this paragraph, the agency has the continuing responsibility to appropriately involve relatives, who have responded to the notice required under this paragraph, in planning for the child and to continue to consider relatives according to the requirements of section 260C.212, subdivision 2. At any time during the course of juvenile protection proceedings, the court may order the agency to reopen its search for relatives when it is in the child's best interest to do so.

(b) The relative search required by this section shall include both maternal and paternal adult relatives of the child; all adult grandparents; all legal parents, guardians, or custodians of the child's siblings; and any other adult relatives suggested by the child's parents, subject to the exceptions due to family violence in subdivision 5, paragraph (c). The search shall also include getting information from the child in an age-appropriate manner about who the child considers to be family members and important friends with whom the child has resided or had significant contact. The relative search required under this section must fulfill the agency's duties under the Indian Child Welfare Act regarding active efforts to prevent the
breakup of the Indian family under United States Code, title 25, section 1912(d), and to
meet placement preferences under United States Code, title 25, section 1915.

(c) The responsible social services agency has a continuing responsibility to search for
and identify relatives of a child and send the notice to relatives that is required under
subdivision 2, unless the court has relieved the agency of this duty under subdivision 5,
paragraph (e).

Subd. 2. Relative notice requirements. (a) The agency may provide oral or written
notice to a child's relatives. In the child's case record, the agency must document providing
the required notice to each of the child's relatives. The responsible social services agency
must notify relatives must be notified:

(1) of the need for a foster home for the child, the option to become a placement resource
for the child, the order of placement that the agency will consider under section 260C.212,
subdivision 2, paragraph (a), and the possibility of the need for a permanent placement for
the child;

(2) of their responsibility to keep the responsible social services agency and the court
informed of their current address in order to receive notice in the event that a permanent
placement is sought for the child and to receive notice of the permanency progress review
hearing under section 260C.204. A relative who fails to provide a current address to the
responsible social services agency and the court forfeits the right to receive notice of the
possibility of permanent placement and of the permanency progress review hearing under
section 260C.204, until the relative provides a current address to the responsible social
services agency and the court. A decision by a relative not to be identified as a potential
permanent placement resource or participate in planning for the child at the beginning of
the case shall not affect whether the relative is considered for placement of, or as a
permanency resource for, the child with that relative later at any time in the case, and shall
not be the sole basis for the court to rule out the relative as the child's placement or
permanency resource;

(3) that the relative may participate in the care and planning for the child, as specified
in subdivision 3, including that the opportunity for such participation may be lost by failing
to respond to the notice sent under this subdivision. "Participate in the care and planning"
includes, but is not limited to, participation in case planning for the parent and child,
identifying the strengths and needs of the parent and child, supervising visits, providing
respite and vacation visits for the child, providing transportation to appointments, suggesting
other relatives who might be able to help support the case plan, and to the extent possible,
helping to maintain the child’s familiar and regular activities and contact with friends and relatives;

(4) of the family foster care licensing and adoption home study requirements, including how to complete an application and how to request a variance from licensing standards that do not present a safety or health risk to the child in the home under section 245A.04 and supports that are available for relatives and children who reside in a family foster home; and

(5) of the relatives' right to ask to be notified of any court proceedings regarding the child, to attend the hearings, and of a relative's right or opportunity to be heard by the court as required under section 260C.152, subdivision 5c;

(6) that regardless of the relative's response to the notice sent under this subdivision, the agency is required to establish permanency for a child, including planning for alternative permanency options if the agency's reunification efforts fail or are not required; and

(7) that by responding to the notice, a relative may receive information about participating in a child's family and permanency team if the child is placed in a qualified residential treatment program as defined in section 260C.007, subdivision 26d.

(b) The responsible social services agency shall send the notice required under paragraph (a) to relatives who become known to the responsible social services agency, except for relatives that the agency does not contact due to safety reasons under subdivision 5, paragraph (b). The responsible social services agency shall continue to send notice to relatives notwithstanding a court's finding that the agency has made reasonable efforts to conduct a relative search.

(c) The responsible social services agency is not required to send the notice under paragraph (a) to relatives who become known to the agency after an adoption placement agreement has been fully executed under section 260C.613, subdivision 1. If such a relative wishes to be considered for adoptive placement of the child, the agency shall inform the relative of the relative's ability to file a motion for an order for adoptive placement under section 260C.607, subdivision 6.

Subd. 3. Relative engagement requirements. (a) A relative who responds to the notice under subdivision 2 has the opportunity to participate in care and planning for a child, which must not be limited based solely on the relative's prior inconsistent participation or nonparticipation in care and planning for the child. Care and planning for a child may include but is not limited to:

Article 10 Sec. 33. 264
(1) participating in case planning for the child and child's parent, including identifying
services and resources that meet the individualized needs of the child and child's parent. A
relative's participation in case planning may be in person, via phone call, or by electronic
means;

(2) identifying the strengths and needs of the child and child's parent;

(3) asking the responsible social services agency to consider the relative for placement
of the child according to subdivision 4;

(4) acting as a support person for the child, the child's parents, and the child's current
caregiver;

(5) supervising visits;

(6) providing respite care for the child and having vacation visits with the child;

(7) providing transportation;

(8) suggesting other relatives who may be able to participate in the case plan or that the
agency may consider for placement of the child. The agency shall send a notice to each
relative identified by other relatives according to subdivision 2, paragraph (b), unless a
relative received this notice earlier in the case;

(9) helping to maintain the child's familiar and regular activities and contact with the
child's friends and relatives, including providing supervision of the child at family gatherings
and events; and

(10) participating in the child's family and permanency team if the child is placed in a
qualified residential treatment program as defined in section 260C.007, subdivision 26d.

(b) The responsible social services agency shall make reasonable efforts to contact and
engage relatives who respond to the notice required under this section. Upon a request by
a relative or party to the proceeding, the court may conduct a review of the agency's
reasonable efforts to contact and engage relatives who respond to the notice. If the court
finds that the agency did not make reasonable efforts to contact and engage relatives who
respond to the notice, the court may order the agency to make reasonable efforts to contact
and engage relatives who respond to the notice in care and planning for the child.

Subd. 4. Placement considerations. (a) The responsible social services agency shall
consider placing a child with a relative under this section without delay and when the child:

(1) enters foster care;

(2) must be moved from the child's current foster setting;
(3) must be permanently placed away from the child's parent; or

(4) returns to foster care after permanency has been achieved for the child.

(b) The agency shall consider placing a child with relatives:

(1) in the order specified in section 260C.212, subdivision 2, paragraph (a); and

(2) based on the child's best interests using the factors in section 260C.212, subdivision 2.

(c) The agency shall document how the agency considered relatives in the child's case record.

(d) Any relative who requests to be a placement option for a child in foster care has the right to be considered for placement of the child according to section 260C.212, subdivision 2, paragraph (a), unless the court finds that placing the child with a specific relative would endanger the child, sibling, parent, guardian, or any other family member under subdivision 5, paragraph (b).

Subd. 5. Data disclosure; court review. (a) A responsible social services agency may disclose private data, as defined in section 13.02 and chapter 260E, to relatives of the child for the purpose of locating and assessing a suitable placement and may use any reasonable means of identifying and locating relatives including the Internet or other electronic means of conducting a search. The agency shall disclose data that is necessary to facilitate possible placement with relatives and to ensure that the relative is informed of the needs of the child so the relative can participate in planning for the child and be supportive of services to the child and family.

(b) If the child's parent refuses to give the responsible social services agency information sufficient to identify the maternal and paternal relatives of the child, the agency shall ask the juvenile court to order the parent to provide the necessary information and shall use other resources to identify the child's maternal and paternal relatives. If a parent makes an explicit request that a specific relative not be contacted or considered for placement due to safety reasons, including past family or domestic violence, the agency shall bring the parent's request to the attention of the court to determine whether the parent's request is consistent with the best interests of the child and. The agency shall not contact the specific relative when the juvenile court finds that contacting or placing the child with the specific relative
would endanger the parent, guardian, child, sibling, or any family member. Unless section 260C.139 applies to the child's case, a court shall not waive or relieve the responsible social services agency of reasonable efforts to:

(1) conduct a relative search;
(2) notify relatives;
(3) contact and engage relatives in case planning; and
(4) consider relatives for placement of the child.

(c) Notwithstanding chapter 13, the agency shall disclose data to the court about particular relatives that the agency has identified, contacted, or considered for the child's placement for the court to review the agency's due diligence.

(d) At a regularly scheduled hearing not later than three months after the child's placement in foster care and as required in sections 260C.193 and 260C.202, the agency shall report to the court:

(1) its efforts to identify maternal and paternal relatives of the child and to engage the relatives in providing support for the child and family, and document that the relatives have been provided the notice required under paragraph (a) subdivision 2; and
(2) its decision regarding placing the child with a relative as required under section 260C.212, subdivision 2, and to ask. If the responsible social services agency decides that relative placement is not in the child's best interests at the time of the hearing, the agency shall inform the court of the agency's decision, including:

(i) why the agency decided against relative placement of the child; and
(ii) the agency's efforts to engage relatives to visit or maintain contact with the child in order as required under subdivision 3 to support family connections for the child, when placement with a relative is not possible or appropriate.

(e) Notwithstanding chapter 13, the agency shall disclose data about particular relatives identified, searched for, and contacted for the purposes of the court's review of the agency's due diligence.

(f) (e) When the court is satisfied that the agency has exercised due diligence to identify relatives and provide the notice required in paragraph (a) subdivision 2, the court may find that the agency made reasonable efforts to conduct a relative search to identify and provide notice to adult relatives as required under section 260.012, paragraph (e), clause (3). A finding under this paragraph does not relieve the responsible social services
agency of the ongoing duty to contact, engage, and consider relatives under this section nor
is it a basis for the court to rule out any relative from being a foster care or permanent
placement option for the child. The agency has the continuing responsibility to:

(1) involve relatives who respond to the notice in planning for the child; and

(2) continue considering relatives for the child's placement while taking the child's short-
and long-term permanency goals into consideration, according to the requirements of section
260C.212, subdivision 2.

(f) At any time during the course of juvenile protection proceedings, the court may order
the agency to reopen the search for relatives when it is in the child's best interests.

(g) If the court is not satisfied that the agency has exercised due diligence to identify
relatives and provide the notice required in paragraph (a) subdivision 2, the court may order
the agency to continue its search and notice efforts and to report back to the court.

(g) When the placing agency determines that permanent placement proceedings are
necessary because there is a likelihood that the child will not return to a parent's care, the
agency must send the notice provided in paragraph (h), may ask the court to modify the
duty of the agency to send the notice required in paragraph (h), or may ask the court to
completely relieve the agency of the requirements of paragraph (h). The relative notification
requirements of paragraph (h) do not apply when the child is placed with an appropriate
relative or a foster home that has committed to adopting the child or taking permanent legal
and physical custody of the child and the agency approves of that foster home for permanent
placement of the child. The actions ordered by the court under this section must be consistent
with the best interests, safety, permanency, and welfare of the child.

(h) Unless required under the Indian Child Welfare Act or relieved of this duty by the
court under paragraph (f), When the agency determines that it is necessary to prepare for
permanent placement determination proceedings, or in anticipation of filing a termination
of parental rights petition, the agency shall send notice to the relatives who responded to a
notice under this section sent at any time during the case, any adult with whom the child is
currently residing, any adult with whom the child has resided for one year or longer in the
past, and any adults who have maintained a relationship or exercised visitation with the
child as identified in the agency case plan. The notice must state that a permanent home is
sought for the child and that the individuals receiving the notice may indicate to the agency
their interest in providing a permanent home. The notice must state that within 30 days of
receipt of the notice an individual receiving the notice must indicate to the agency the
individual's interest in providing a permanent home for the child or that the individual may
lose the opportunity to be considered for a permanent placement. A relative's failure to respond or timely respond to the notice is not a basis for ruling out the relative from being a permanent placement option for the child should the relative request to be considered for permanent placement at a later date.

Sec. 34. Minnesota Statutes 2020, section 260C.513, is amended to read:

**260C.513 PERMANENCY DISPOSITIONS WHEN CHILD CANNOT RETURN HOME.**

(a) Termination of parental rights and adoption, or guardianship to the commissioner, of human services through a consent to adopt, are preferred permanency options for a child who cannot return home. If the court finds that termination of parental rights and guardianship to the commissioner is not in the child's best interests, the court may transfer permanent legal and physical custody of the child to a relative when that order is in the child's best interests. In determining a permanency disposition under section 260C.515 for a child who cannot return home, the court shall give preference to a permanency disposition that will result in the child being placed in the permanent care of a relative through a termination of parental rights and adoption, guardianship to the commissioner of human services through a consent to adopt, or a transfer of permanent legal and physical custody, consistent with the best interests of the child and section 260C.212, subdivision 2, paragraph (a). If a relative is not available to accept placement or the court finds that a permanent placement with a relative is not in the child's best interests, the court may consider a permanency disposition that may result in the child being permanently placed in the care of a nonrelative caregiver, including adoption.

(b) When the court has determined that permanent placement of the child away from the parent is necessary, the court shall consider permanent alternative homes that are available both inside and outside the state.

Sec. 35. Minnesota Statutes 2021 Supplement, section 260C.605, subdivision 1, is amended to read:

Subdivision 1. **Requirements.** (a) Reasonable efforts to finalize the adoption of a child under the guardianship of the commissioner shall be made by the responsible social services agency responsible for permanency planning for the child.

(b) Reasonable efforts to make a placement in a home according to the placement considerations under section 260C.212, subdivision 2, with a relative or foster parent who will commit to being the permanent resource for the child in the event the child cannot be...
reunified with a parent are required under section 260.012 and may be made concurrently
with reasonable, or if the child is an Indian child, active efforts to reunify the child with the
parent.

(c) Reasonable efforts under paragraph (b) must begin as soon as possible when the
child is in foster care under this chapter, but not later than the hearing required under section
260C.204.

(d) Reasonable efforts to finalize the adoption of the child include:

(1) considering the child's preference for an adoptive family;

(2) using age-appropriate engagement strategies to plan for adoption with the child;

(3) identifying an appropriate prospective adoptive parent for the child by updating
the child's identified needs using the factors in section 260C.212, subdivision 2;

(4) making an adoptive placement that meets the child's needs by:

(i) completing or updating the relative search required under section 260C.221 and giving
notice of the need for an adoptive home for the child to:

(A) relatives who have kept the agency or the court apprised of their whereabouts and
who have indicated an interest in adopting the child; or

(B) relatives of the child who are located in an updated search;

(ii) an updated search is required whenever:

(A) there is no identified prospective adoptive placement for the child notwithstanding
a finding by the court that the agency made diligent efforts under section 260C.221, in a
hearing required under section 260C.202;

(B) the child is removed from the home of an adopting parent; or

(C) the court determines that a relative search by the agency is in the best interests of
the child;

(iii) engaging the child's relatives or current or former foster parents and the child's
relatives identified as an adoptive resource during the search conducted under section
260C.221, parents to commit to being the prospective adoptive parent of the child, and
considering the child's relatives for adoptive placement of the child in the order specified
under section 260C.212, subdivision 2, paragraph (a); or

(iv) when there is no identified prospective adoptive parent:
(A) registering the child on the state adoption exchange as required in section 259.75
unless the agency documents to the court an exception to placing the child on the state
adoption exchange reported to the commissioner;

(B) reviewing all families with approved adoption home studies associated with the
responsible social services agency;

(C) presenting the child to adoption agencies and adoption personnel who may assist
with finding an adoptive home for the child;

(D) using newspapers and other media to promote the particular child;

(E) using a private agency under grant contract with the commissioner to provide adoption
services for intensive child-specific recruitment efforts; and

(F) making any other efforts or using any other resources reasonably calculated to identify
a prospective adoption parent for the child;

(4) updating and completing the social and medical history required under sections
260C.212, subdivision 15, and 260C.609;

(5) making, and keeping updated, appropriate referrals required by section 260.851,
the Interstate Compact on the Placement of Children;

(6) giving notice regarding the responsibilities of an adoptive parent to any prospective
adoptive parent as required under section 259.35;

(7) offering the adopting parent the opportunity to apply for or decline adoption
assistance under chapter 256N;

(8) certifying the child for adoption assistance, assessing the amount of adoption
assistance, and ascertaining the status of the commissioner's decision on the level of payment
if the adopting parent has applied for adoption assistance;

(9) placing the child with siblings. If the child is not placed with siblings, the agency
must document reasonable efforts to place the siblings together, as well as the reason for
separation. The agency may not cease reasonable efforts to place siblings together for final
adoption until the court finds further reasonable efforts would be futile or that placement
together for purposes of adoption is not in the best interests of one of the siblings; and

(10) working with the adopting parent to file a petition to adopt the child and with
the court administrator to obtain a timely hearing to finalize the adoption.
Sec. 36. Minnesota Statutes 2020, section 260C.607, subdivision 2, is amended to read:

Subd. 2. Notice. Notice of review hearings shall be given by the court to:

1. the responsible social services agency;
2. the child, if the child is age ten and older;
3. the child's guardian ad litem;
4. counsel appointed for the child pursuant to section 260C.163, subdivision 3;
5. relatives of the child who have kept the court informed of their whereabouts as required in section 260C.221 and who have responded to the agency's notice under section 260C.221, indicating a willingness to provide an adoptive home for the child unless the relative has been previously ruled out by the court as a suitable foster parent or permanency resource for the child;
6. the current foster or adopting parent of the child;
7. any foster or adopting parents of siblings of the child; and
8. the Indian child's tribe.

Sec. 37. Minnesota Statutes 2020, section 260C.607, subdivision 5, is amended to read:

Subd. 5. Required placement by responsible social services agency. (a) No petition for adoption shall be filed for a child under the guardianship of the commissioner unless the child sought to be adopted has been placed for adoption with the adopting parent by the responsible social services agency as required under section 260C.613, subdivision 1. The court may order the agency to make an adoptive placement using standards and procedures under subdivision 6.

(b) Any relative or the child's foster parent who believes the responsible agency has not reasonably considered the relative's or foster parent's request to be considered for adoptive placement as required under section 260C.212, subdivision 2, and who wants to be considered for adoptive placement of the child shall bring a request for consideration to the attention of the court during a review required under this section. The child's guardian ad litem and the child may also bring a request for a relative or the child's foster parent to be considered for adoptive placement. After hearing from the agency, the court may order the agency to take appropriate action regarding the relative's or foster parent's request for consideration under section 260C.212, subdivision 2, paragraph (b).
Sec. 38. Minnesota Statutes 2021 Supplement, section 260C.607, subdivision 6, is amended to read:

Subd. 6. Motion and hearing to order adoptive placement. (a) At any time after the district court orders the child under the guardianship of the commissioner of human services, but not later than 30 days after receiving notice required under section 260C.613, subdivision 1, paragraph (c), that the agency has made an adoptive placement, a relative or the child's foster parent may file a motion for an order for adoptive placement of a child who is under the guardianship of the commissioner if the relative or the child's foster parent:

(1) has an adoption home study under section 259.41 or 260C.611 approving the relative or foster parent for adoption and has. If the relative or foster parent does not have an adoption home study, an affidavit attesting to efforts to complete an adoption home study may be filed with the motion. The affidavit must be signed by the relative or foster parent and the responsible social services agency or licensed child-placing agency completing the adoption home study. The relative or foster parent must also have been a resident of Minnesota for at least six months before filing the motion; the court may waive the residency requirement for the moving party if there is a reasonable basis to do so; or

(2) is not a resident of Minnesota, but has an approved adoption home study by an agency licensed or approved to complete an adoption home study in the state of the individual's residence and the study is filed with the motion for adoptive placement. If the relative or foster parent does not have an adoption home study in the relative or foster parent's state of residence, an affidavit attesting to efforts to complete an adoption home study may be filed with the motion instead. The affidavit must be signed by the relative or foster parent and the agency completing the adoption home study.

(b) The motion shall be filed with the court conducting reviews of the child's progress toward adoption under this section. The motion and supporting documents must make a prima facie showing that the agency has been unreasonable in failing to make the requested adoptive placement. The motion must be served according to the requirements for motions under the Minnesota Rules of Juvenile Protection Procedure and shall be made on all individuals and entities listed in subdivision 2.

(c) If the motion and supporting documents do not make a prima facie showing for the court to determine whether the agency has been unreasonable in failing to make the requested adoptive placement, the court shall dismiss the motion. If the court determines a prima facie basis is made, the court shall set the matter for evidentiary hearing.
(d) At the evidentiary hearing, the responsible social services agency shall proceed first with evidence about the reason for not making the adoptive placement proposed by the moving party. When the agency presents evidence regarding the child's current relationship with the identified adoptive placement resource, the court must consider the agency's efforts to support the child's relationship with the moving party consistent with section 260C.221. The moving party then has the burden of proving by a preponderance of the evidence that the agency has been unreasonable in failing to make the adoptive placement.

(e) The court shall review and enter findings regarding whether the agency, in making an adoptive placement decision for the child:

(1) considered relatives for adoptive placement in the order specified under section 260C.212, subdivision 2, paragraph (a); and

(2) assessed how the identified adoptive placement resource and the moving party are each able to meet the child's current and future needs, based on an individualized determination of the child's needs, as required under sections 260C.212, subdivision 2, and 260C.613, subdivision 1, paragraph (b).

(f) At the conclusion of the evidentiary hearing, if the court finds that the agency has been unreasonable in failing to make the adoptive placement and that the relative or the child's foster parent moving party is the most suitable adoptive home to meet the child's needs using the factors in section 260C.212, subdivision 2, paragraph (b), the court may:

(1) order the responsible social services agency to make an adoptive placement in the home of the relative or the child's foster parent, moving party if the moving party has an approved adoption home study; or

(2) order the responsible social services agency to place the child in the home of the moving party upon approval of an adoption home study. The agency must promote and support the child's ongoing visitation and contact with the moving party until the child is placed in the moving party's home. The agency must provide an update to the court after 90 days, including progress and any barriers encountered. If the moving party does not have an approved adoption home study within 180 days, the moving party and the agency must inform the court of any barriers to obtaining the approved adoption home study during a review hearing under this section. If the court finds that the moving party is unable to obtain an approved adoption home study, the court must dismiss the order for adoptive placement under this subdivision and order the agency to continue making reasonable efforts to finalize the adoption of the child as required under section 260C.605.
(g) If, in order to ensure that a timely adoption may occur, the court orders the
responsible social services agency to make an adoptive placement under this subdivision,
the agency shall:

(1) make reasonable efforts to obtain a fully executed adoption placement agreement,
including assisting the moving party with the adoption home study process;

(2) work with the moving party regarding eligibility for adoption assistance as required
under chapter 256N; and

(3) if the moving party is not a resident of Minnesota, timely refer the matter for approval
of the adoptive placement through the Interstate Compact on the Placement of Children.

(h) Denial or granting of a motion for an order for adoptive placement after an
evidentiary hearing is an order which may be appealed by the responsible social services
agency, the moving party, the child, when age ten or over, the child's guardian ad litem,
and any individual who had a fully executed adoption placement agreement regarding the
child at the time the motion was filed if the court's order has the effect of terminating the
adoption placement agreement. An appeal shall be conducted according to the requirements

Sec. 39. Minnesota Statutes 2020, section 260C.613, subdivision 1, is amended to read:

Subdivision 1. Adoptive placement decisions. (a) The responsible social services agency
has exclusive authority to make an adoptive placement of a child under the guardianship of
the commissioner. The child shall be considered placed for adoption when the adopting
parent, the agency, and the commissioner have fully executed an adoption placement
agreement on the form prescribed by the commissioner.

(b) The responsible social services agency shall use an individualized determination of
the child's current and future needs, pursuant to section 260C.212, subdivision 2, paragraph
(b), to determine the most suitable adopting parent for the child in the child's best interests.
The responsible social services agency must consider adoptive placement of the child with
relatives in the order specified in section 260C.212, subdivision 2, paragraph (a).

(c) The responsible social services agency shall notify the court and parties entitled to
notice under section 260C.607, subdivision 2, when there is a fully executed adoption
placement agreement for the child.

(d) In the event an adoption placement agreement terminates, the responsible social
services agency shall notify the court, the parties entitled to notice under section 260C.607,
subdivision 2, and the commissioner that the agreement and the adoptive placement have
terminated.

Sec. 40. Minnesota Statutes 2020, section 260C.613, subdivision 5, is amended to read:

Subd. 5. Required record keeping. The responsible social services agency shall
document, in the records required to be kept under section 259.79, the reasons for the
adoptive placement decision regarding the child, including the individualized determination
of the child's needs based on the factors in section 260C.212, subdivision 2, paragraph (b);
the agency's consideration of relatives in the order specified in section 260C.212, subdivision
2, paragraph (a); and the assessment of how the selected adoptive placement meets the
identified needs of the child. The responsible social services agency shall retain in the
records required to be kept under section 259.79, copies of all out-of-home placement plans
made since the child was ordered under guardianship of the commissioner and all court
orders from reviews conducted pursuant to section 260C.607.

Sec. 41. Minnesota Statutes 2021 Supplement, section 260E.20, subdivision 2, is amended
to read:

Subd. 2. Face-to-face contact. (a) Upon receipt of a screened in report, the local welfare
agency shall conduct a face-to-face contact with the child reported to be maltreated and
with the child's primary caregiver sufficient to complete a safety assessment and ensure the
immediate safety of the child. If the report alleges maltreatment that presents a significant
safety concern, the local welfare agency or agency responsible for assessing or investigating
the report is not required to provide notice before conducting the initial face-to-face contact
with the child and the child's primary caregiver.

(b) The face-to-face contact with the child and primary caregiver shall occur immediately
if sexual abuse or substantial child endangerment is alleged and within five calendar days
for all other reports. If the alleged offender was not already interviewed as the primary
caregiver, the local welfare agency shall also conduct a face-to-face interview with the
alleged offender in the early stages of the assessment or investigation. Face-to-face contact
with the child and primary caregiver in response to a report alleging sexual abuse or
substantial child endangerment may be postponed for no more than five calendar days if
the child is residing in a location that is confirmed to restrict contact with the alleged offender
as established in guidelines issued by the commissioner, or if the local welfare agency is
pursuing a court order for the child's caregiver to produce the child for questioning under
section 260E.22, subdivision 5.
At the initial contact with the alleged offender, the local welfare agency or the agency responsible for assessing or investigating the report must inform the alleged offender of the complaints or allegations made against the individual in a manner consistent with laws protecting the rights of the person who made the report. The interview with the alleged offender may be postponed if it would jeopardize an active law enforcement investigation.

(d) The local welfare agency or the agency responsible for assessing or investigating the report must provide the alleged offender with an opportunity to make a statement. The alleged offender may submit supporting documentation relevant to the assessment or investigation.

Sec. 42. Minnesota Statutes 2020, section 260E.22, subdivision 2, is amended to read:

Subd. 2. Child interview procedure. (a) The interview may take place at school or at any facility or other place where the alleged victim or other children might be found or the child may be transported to, and the interview may be conducted at a place appropriate for the interview of a child designated by the local welfare agency or law enforcement agency.

(b) Other than in exceptional circumstances, the interview must take place outside the presence of the alleged offender or parent, legal custodian, guardian, or school official and must take place prior to any interviews of the alleged offender or parent, legal custodian, guardian, or school official.

(c) For a family assessment, it is the preferred practice to request a parent or guardian's permission to interview the child before conducting the child interview, unless doing so would compromise the safety assessment.

Sec. 43. Minnesota Statutes 2020, section 260E.24, subdivision 2, is amended to read:

Subd. 2. Determination after family assessment. After conducting a family assessment, the local welfare agency shall determine whether child protective services are needed to address the safety of the child and other family members and the risk of subsequent maltreatment. The local welfare agency must document the information collected under section 260E.20, subdivision 3, related to the completed family assessment in the child's or family's case notes.

Sec. 44. Minnesota Statutes 2020, section 268.19, subdivision 1, is amended to read:

Section 1. Minnesota Statutes 2020, section 253B.18, subdivision 6, is amended to read:

Subd. 6. **Transfer.** (a) A patient who is a person who has a mental illness and is  
dangerous to the public shall not be transferred out of a secure treatment facility unless it  
appears to the satisfaction of the commissioner, after a hearing and favorable recommendation  
by a majority of the special review board, that the transfer is appropriate. Transfer may be
to another state-operated treatment program. In those instances where a commitment also
exists to the Department of Corrections, transfer may be to a facility designated by the
commissioner of corrections.

(b) The following factors must be considered in determining whether a transfer is
appropriate:

(1) the person's clinical progress and present treatment needs;
(2) the need for security to accomplish continuing treatment;
(3) the need for continued institutionalization;
(4) which facility can best meet the person's needs; and
(5) whether transfer can be accomplished with a reasonable degree of safety for the
public.

(c) If a committed person has been transferred out of a secure treatment facility pursuant
to this subdivision, that committed person may voluntarily return to a secure treatment
facility for a period of up to 60 days with the consent of the head of the treatment facility.

(d) If the committed person is not returned to the original, nonsecure transfer facility
within 60 days of being readmitted to a secure treatment facility, the transfer is revoked and
the committed person must remain in a secure treatment facility. The committed person
must immediately be notified in writing of the revocation.

(e) Within 15 days of receiving notice of the revocation, the committed person may
petition the special review board for a review of the revocation. The special review board
shall review the circumstances of the revocation and shall recommend to the commissioner
whether or not the revocation should be upheld. The special review board may also
recommend a new transfer at the time of the revocation hearing.

(f) No action by the special review board is required if the transfer has not been revoked
and the committed person is returned to the original, nonsecure transfer facility with no
substantive change to the conditions of the transfer ordered under this subdivision.

(g) The head of the treatment facility may revoke a transfer made under this subdivision
and require a committed person to return to a secure treatment facility if:

(1) remaining in a nonsecure setting does not provide a reasonable degree of safety to
the committed person or others; or
(2) the committed person has regressed clinically and the facility to which the committed
person was transferred does not meet the committed person's needs.
(h) Upon the revocation of the transfer, the committed person must be immediately returned to a secure treatment facility. A report documenting the reasons for revocation must be issued by the head of the treatment facility within seven days after the committed person is returned to the secure treatment facility. Advance notice to the committed person of the revocation is not required.

(i) The committed person must be provided a copy of the revocation report and informed, orally and in writing, of the rights of a committed person under this section. The revocation report must be served upon the committed person, the committed person’s counsel, and the designated agency. (k) A committed person aggrieved by a transfer revocation decision may petition the special review board within seven business days after receipt of the revocation report for a review of the revocation. The matter must be scheduled within 30 days. The special review board may also recommend a new transfer out of a secure treatment facility at the time of the revocation hearing.

Sec. 13. [148.2855] NURSE LICENSURE COMPACT.

The Nurse Licensure Compact is enacted into law and entered into with all other jurisdictions legally joining in it, in the form substantially as follows:

ARTICLE 1

DEFINITIONS

As used in this compact:
(a) "Adverse action" means any administrative, civil, equitable, or criminal action permitted by a state's law that is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

(b) "Alternative program" means a nondisciplinary monitoring program approved by a licensing board.

(c) "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

(d) "Current significant investigative information" means:

(1) investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or

(2) investigative information that indicates that the nurse represents an immediate threat to public health and safety, regardless of whether the nurse has been notified and had an opportunity to respond.

(e) "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

(f) "Home state" means the party state that is the nurse's primary state of residence.

(g) "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

(h) "Multistate license" means a license to practice as a registered or a licensed practical/vocational nurse (LPN/VN) issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

(i) "Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse (RN) or LPN/VN in a remote state.
(j) "Nurse" means an RN or LPN/VN, as those terms are defined by each party state's practice laws.

(k) "Party state" means any state that has adopted this compact.

(l) "Remote state" means a party state other than the home state.

(m) "Single-state license" means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

(n) "State" means a state, territory, or possession of the United States and the District of Columbia.

(o) "State practice laws" means a party state's laws, rules, and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. State practice laws do not include requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

ARTICLE 2

GENERAL PROVISIONS AND JURISDICTION

(a) A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as an RN or LPN/VN under a multistate licensure privilege in each party state.

(b) A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. The procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

(c) Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

(1) meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws;

(2)(i) has graduated or is eligible to graduate from a licensing board-approved RN or LPN/VN prelicensure education program; or

(ii) has graduated from a foreign RN or LPN/VN prelicensure education program that:
(A) has been approved by the authorized accrediting body in the applicable country; and

(B) has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program;

(3) has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening;

(4) has successfully passed an NCLEX-RN or NCLEX-PN Examination or recognized predecessor, as applicable;

(5) is eligible for or holds an active, unencumbered license;

(6) has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records;

(7) has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law;

(8) has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;

(9) is not currently enrolled in an alternative program;

(10) is subject to self-disclosure requirements regarding current participation in an alternative program; and

(11) has a valid United States Social Security number.

(d) All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation, or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

(e) A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing
is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege shall subject a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.

(f) Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this compact shall affect the requirements established by a party state for the issuance of a single-state license.

(g) Any nurse holding a home state multistate license, on the effective date of this compact, may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

1. a nurse, who changes primary state of residence after this compact's effective date, must meet all applicable paragraph (c) requirements to obtain a multistate license from a new home state; or

2. a nurse who fails to satisfy the multistate licensure requirements in paragraph (c) due to a disqualifying event occurring after this compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators ("Commission").

ARTICLE 3

APPLICATIONS FOR LICENSURE IN A PARTY STATE

(a) Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held or is the holder of a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant, and whether the applicant is currently participating in an alternative program.

(b) A nurse may hold a multistate license issued by the home state in only one party state at a time.
If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the commission:

1. the nurse may apply for licensure in advance of a change in primary state of residence;
2. a multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

ARTICLE 4

ADDITIONAL AUTHORITIES INVESTED IN PARTY STATE LICENSING BOARDS

(a) In addition to the other powers conferred by state law, a licensing board shall have the authority to:

1. take adverse action against a nurse's multistate licensure privilege to practice within that party state:
   (i) only the home state shall have the power to take adverse action against a nurse's license issued by the home state; and
   (ii) for purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if the conduct occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action;

2. issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state;

3. complete any pending investigations of a nurse who changes primary state of residence during the course of the investigations. The licensing board shall also have the authority to take appropriate action and shall promptly report the conclusions of the investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions;
(4) issue subpoenas for hearings and investigations that require the attendance and
testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing
board in a party state for the attendance and testimony of witnesses or the production of
evidence from another party state shall be enforced in the latter state by any court of
competent jurisdiction according to the practice and procedure of that court applicable to
subpoenas issued in proceedings pending before it. The issuing authority shall pay any
witness fees, travel expenses, mileage, and other fees required by the service statutes of the
state in which the witnesses or evidence are located;

(5) obtain and submit, for each nurse licensure applicant, fingerprint or other
biometric-based information to the Federal Bureau of Investigation for criminal background
checks, receive the results of the Federal Bureau of Investigation record search on criminal
background checks, and use the results in making licensure decisions;

(6) if otherwise permitted by state law, recover from the affected nurse the costs of
investigations and disposition of cases resulting from any adverse action taken against that
nurse; and

(7) take adverse action based on the factual findings of the remote state, provided that
the licensing board follows its own procedures for taking such adverse action.

(b) If adverse action is taken by the home state against a nurse's multistate license, the
nurse's multistate licensure privilege to practice in all other party states shall be deactivated
until all encumbrances have been removed from the multistate license. All home state
disciplinary orders that impose adverse action against a nurse's multistate license shall
include a statement that the nurse's multistate licensure privilege is deactivated in all party
states during the pendency of the order.

(c) Nothing in this compact shall override a party state's decision that participation in
an alternative program may be used in lieu of adverse action. The home state licensing board
shall deactivate the multistate licensure privilege under the multistate license of any nurse
for the duration of the nurse's participation in an alternative program.

ARTICLE 5

COORDINATED LICENSURE INFORMATION SYSTEM AND EXCHANGE OF
INFORMATION

(a) All party states shall participate in a coordinated licensure information system of
RNPs. The system will include information on the licensure and disciplinary history
of each nurse, as submitted by party states, to assist in the coordination of nurse licensure
and enforcement efforts.

(b) The commission, in consultation with the administrator of the coordinated licensure
information system, shall formulate necessary and proper procedures for the identification,
collection, and exchange of information under this compact.

(c) All licensing boards shall promptly report to the coordinated licensure information
system any adverse action, any current significant investigative information, denials of
applications, including the reasons for the denials, and nurse participation in alternative
programs known to the licensing board, regardless of whether the participation is deemed
nonpublic or confidential under state law.

(d) Current significant investigative information and participation in nonpublic or
confidential alternative programs shall be transmitted through the coordinated licensure
information system only to party state licensing boards.

(e) Notwithstanding any other provision of law, all party state licensing boards
contributing information to the coordinated licensure information system may designate
information that shall not be shared with nonparty states or disclosed to other entities or
individuals without the express permission of the contributing state.

(f) Any personally identifiable information obtained from the coordinated licensure
information system by a party state licensing board shall not be shared with nonparty states
or disclosed to other entities or individuals except to the extent permitted by the laws of the
party state contributing the information.

(g) Any information contributed to the coordinated licensure information system that is
subsequently required to be expunged by the laws of the party state contributing that
information shall also be expunged from the coordinated licensure information system.

(h) The compact administrator of each party state shall furnish a uniform data set to the
compact administrator of each other party state, which shall include, at a minimum:

(1) identifying information;

(2) licensure data;

(3) information related to alternative program participation; and

(4) other information that may facilitate the administration of this compact, as determined
by commission rules.
(i) The compact administrator of a party state shall provide all investigative documents
and information requested by another party state.

ARTICLE 6

ESTABLISHMENT OF THE INTERSTATE COMMISSION OF NURSE LICENSURE

COMPACT ADMINISTRATORS

(a) The party states hereby create and establish a joint public entity known as the Interstate
Commission of Nurse Licensure Compact Administrators:

(1) the commission is an instrumentality of the party states;

(2) venue is proper, and judicial proceedings by or against the commission shall be
brought solely and exclusively in a court of competent jurisdiction where the principal office
of the commission is located. The commission may waive venue and jurisdictional defenses
to the extent it adopts or consents to participate in alternative dispute resolution proceedings;
and

(3) nothing in this compact shall be construed to be a waiver of sovereign immunity.

(b) Membership, voting, and meetings:

(1) each party state shall have and be limited to one administrator. The head of the state
licensing board or designee shall be the administrator of this compact for each party state.

Any administrator may be removed or suspended from office as provided by the laws of
the state from which the administrator is appointed. Any vacancy occurring in the commission
shall be filled in accordance with the laws of the party state in which the vacancy exists;

(2) each administrator shall be entitled to one vote with regard to the promulgation of
rules and creation of bylaws and shall otherwise have an opportunity to participate in the
business and affairs of the commission. An administrator shall vote in person or by such
other means as provided in the bylaws. The bylaws may provide for an administrator's
participation in meetings by telephone or other means of communication;

(3) the commission shall meet at least once during each calendar year. Additional
meetings shall be held as set forth in the bylaws or rules of the commission;

(4) all meetings shall be open to the public, and public notice of meetings shall be given
in the same manner as required under the rulemaking provisions in article 7;

(5) the commission may convene in a closed, nonpublic meeting if the commission must
discuss:

(i) noncompliance of a party state with its obligations under this compact;
(ii) the employment, compensation, discipline, or other personnel matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(iii) current, threatened, or reasonably anticipated litigation;

(iv) negotiation of contracts for the purchase or sale of goods, services, or real estate;

(v) accusing any person of a crime or formally censuring any person;

(vi) disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(vii) disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(viii) disclosure of investigatory records compiled for law enforcement purposes;

(ix) disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact; or

(x) matters specifically exempted from disclosure by federal or state statute; and

(6) if a meeting or portion of a meeting is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken and the reasons therefore, including a description of the views expressed. All documents considered in connection with an action shall be identified in the minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

(c) The commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including but not limited to:

(1) establishing the fiscal year of the commission;

(2) providing reasonable standards and procedures:

(i) for the establishment and meetings of other committees; and

(ii) governing any general or specific delegation of any authority or function of the commission;
(3) providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings and providing an opportunity for attendance of the meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed;

(4) establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the commission;

(5) providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the commission; and

(6) providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that exist after the termination of this compact after the payment or reserving of all of its debts and obligations.

(d) The commission shall publish its bylaws, rules, and any amendments in a convenient form on the website of the commission.

(e) The commission shall maintain its financial records in accordance with the bylaws.

(f) The commission shall meet and take actions consistent with the provisions of this compact and the bylaws.

(g) The commission shall have the following powers:

(1) to promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules shall have the force and effect of law and shall be binding in all party states;

(2) to bring and prosecute legal proceedings or actions in the name of the commission, provided that the standing of any licensing board to sue or be sued under applicable law shall not be affected;

(3) to purchase and maintain insurance and bonds;

(4) to borrow, accept, or contract for services of personnel, including but not limited to employees of a party state or nonprofit organizations;
(5) to cooperate with other organizations that administer state compacts related to the regulation of nursing, including but not limited to sharing administrative or staff expenses, office space, or other resources;

(6) to hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;

(7) to accept any and all appropriate donations, grants, and gifts of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest;

(8) to lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use any property, whether real, personal, or mixed; provided that at all times the commission shall avoid any appearance of impropriety;

(9) to sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed;

(10) to establish a budget and make expenditures;

(11) to borrow money;

(12) to appoint committees, including advisory committees comprised of administrators, state nursing regulators, state legislators or their representatives, and consumer representatives, and other such interested persons;

(13) to provide and receive information from, and to cooperate with, law enforcement agencies;

(14) to adopt and use an official seal; and

(15) to perform other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.

(h) Financing of the commission:

(1) the commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities;

(2) the commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities, and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, shall be allocated based on a
formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states;

(3) the commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the party states, except by and with the authority of the party state; and

(4) the commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

(i) Qualified immunity, defense, and indemnification:

(1) the administrators, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person;

(2) the commission shall defend any administrator, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining the person's counsel; and provided further that the actual or alleged act, error, or omission did not result from that person's intentional, willful, or wanton misconduct; and

(3) the commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or
responsibilities, or that the person had a reasonable basis for believing occurred within the
scope of commission employment, duties, or responsibilities, provided that the actual or
alleged act, error, or omission did not result from the intentional, willful, or wanton
misconduct of that person.

ARTICLE 7

rules adopted thereunder. Rules and amendments shall become binding as of the date
specified in each rule or amendment and shall have the same force and effect as provisions
of this compact.

(b) Rules or amendments to the rules shall be adopted at a regular or special meeting of
the commission.

(c) Prior to promulgation and adoption of a final rule or rules by the commission, and
at least 60 days in advance of the meeting at which the rule will be considered and voted
on, the commission shall file a notice of proposed rulemaking:

(1) on the website of the commission; and

otherwise publish proposed rules.

(d) The notice of proposed rulemaking shall include:

considered and voted on;

(2) the text of the proposed rule or amendment, and the reason for the proposed rule;

(3) a request for comments on the proposed rule from any interested person; and

(4) the manner in which interested persons may submit notice to the commission of their

(e) Prior to adoption of a proposed rule, the commission shall allow persons to submit

rule or amendment.

(g) The commission shall publish the place, time, and date of the scheduled public
hearing:
(1) hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded and a copy will be made available upon request; and

(2) nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

(h) If no person appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

(i) Following the scheduled hearing date or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

(j) The commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

(k) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice or opportunity for comment or hearing, provided that the usual rulemaking procedures provided in this compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

(1) meet an imminent threat to public health, safety, or welfare;

(2) prevent a loss of commission or party state funds; or

(3) meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

(1) The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission before the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision shall not take effect without the approval of the commission.
ARTICLE 8

OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

(a) Oversight:

(1) each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent; and

(2) the commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in the proceeding to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

(b) Default, technical assistance, and termination:

(1) if the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(i) provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission; and

(ii) provide remedial training and specific technical assistance regarding the default;

(2) if a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default;

(3) termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states;

(4) a state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination;
(5) the commission shall not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated, unless agreed upon in writing between the commission and the defaulting state; and

(6) the defaulting state may appeal the action of the commission by petitioning the U.S. District Court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party shall be awarded all costs of the litigation, including reasonable attorney fees.

(c) Dispute resolution:

(1) upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and nonparty states;

(2) the commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate; and

(3) in the event the commission cannot resolve disputes among party states arising under this compact:

(i) the party states may submit the issues in dispute to an arbitration panel, that will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute; and

(ii) the decision of a majority of the arbitrators shall be final and binding.

(d) Enforcement:

(1) the commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact;

(2) by majority vote, the commission may initiate legal action in the U.S. District Court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of the litigation, including reasonable attorney fees; and

(3) the remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

ARTICLE 9

EFFECTIVE DATE, WITHDRAWAL, AND AMENDMENT
(a) This compact shall become effective and binding on July 1, 2022. All party states to this compact that also were parties to the prior Nurse Licensure Compact that was superseded by this compact shall be deemed to have withdrawn from the prior compact within six months after the effective date of this compact.

(b) Each party state to this compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the prior compact until the party state has withdrawn from the prior compact.

(c) Any party state may withdraw from this compact by legislative enactment. A party state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(d) A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of the withdrawal or termination.

(e) Nothing in this compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

(f) This compact may be amended by the party states. No amendment to this compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

(g) Representatives of nonparty states to this compact shall be invited to participate in the activities of the commission on a nonvoting basis prior to the adoption of this compact by all states.

ARTICLE 10

CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. This compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact is held to be contrary to the constitution of any party state, this compact shall remain in full force and
effect for the remaining party states and in full force and effect for the party state affected
as to all severable matters.

the judicial review provided for in sections 14.63 to 14.69.

grounds listed in section 148.261, subdivision 1, and any other statute authorizing or requiring
the board to take corrective or disciplinary action.

professional or practical nursing in Minnesota under section 148.2855.

335.23 granting the privilege to practice audiology or speech-language pathology in any other
335.24 member state. Nothing in this Compact shall affect the requirements established by a member
335.25 state for the issuance of a single-state license.

D. The audiologist or speech-language pathologist may apply for licensure in advance of a change in primary state of residence.

E. A license shall not be issued by the new home state until the audiologist or speech-language pathologist provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a license from the new home state.

F. If an audiologist or speech-language pathologist changes primary state of residence by moving from a member state to a non-member state, the license issued by the prior home state shall convert to a single-state license, valid only in the former home state.

A remote state may, in accordance with due process and that state's laws, remove a licensee's compact privilege in the remote state for a specific period of time, impose fines, or take any other necessary actions to protect the health and safety of its citizens.

J. If a home state license is encumbered, the licensee shall lose the compact privilege in any remote state until the following occur:

1. The home state license is no longer encumbered; and
2. Two years have elapsed from the date of the adverse action.

K. Once an encumbered license in the home state is restored to good standing, the licensee must meet the requirements of Section 3A to obtain a compact privilege in any remote state.

L. Once the requirements of Section 3J have been met, the licensee must meet the requirements in Section 3A to obtain a compact privilege in a remote state.

Section 4. Compact Privilege to Practice Telehealth

Member states shall recognize the right of an audiologist or speech-language pathologist, licensed by a home state in accordance with Section 2 and under rules promulgated by the Commission, to practice audiology or speech-language pathology in a member state via telehealth under a privilege to practice as provided in the Compact and rules promulgated by the Commission.

Section 5. Active Duty Military Personnel or Their Spouses

Active duty military personnel, or their spouse, shall designate a home state where the individual has a current license in good standing. The individual may retain the home state designation during the period the service member is on active duty. Subsequent to designating a home state, the individual shall only change their home state through application for licensure in the new state.

Section 6. Adverse Actions

A. In addition to the other powers conferred by state law, a remote state shall have the authority, in accordance with existing state due process law, to:

1. Take adverse action against an audiologist's or speech-language pathologist's privilege to practice within that member state.
2. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. Subpoenas issued by a licensing
board in a member state for the attendance and testimony of witnesses or the production of
evidence from another member state shall be enforced in the latter state by any court of
competent jurisdiction, according to the practice and procedure of that court applicable to
subpoenas issued in proceedings pending before it. The issuing authority shall pay any
witness fees, travel expenses, mileage and other fees required by the service statutes of the
state in which the witnesses or evidence are located.

B. Only the home state shall have the power to take adverse action against an audiologist's
or speech-language pathologist's license issued by the home state.

C. For purposes of taking adverse action, the home state shall give the same priority and
effect to reported conduct received from a member state as it would if the conduct had
occurred within the home state. In so doing, the home state shall apply its own state laws
to determine appropriate action.

D. The home state shall complete any pending investigations of an audiologist or
speech-language pathologist who changes primary state of residence during the course of
the investigations. The home state shall also have the authority to take appropriate action(s)
and shall promptly report the conclusions of the investigations to the administrator of the
data system. The administrator of the data system shall promptly notify the new home state
of any adverse actions.

E. If otherwise permitted by state law, the member state may recover from the affected
audiologist or speech-language pathologist the costs of investigations and disposition of
cases resulting from any adverse action taken against that audiologist or speech-language
pathologist.

F. The member state may take adverse action based on the factual findings of the remote
state, provided that the home state follows its own procedures for taking the adverse action.

G. Joint Investigations

1. In addition to the authority granted to a member state by its respective audiology or
speech-language pathology practice act or other applicable state law, any member state may
participate with other member states in joint investigations of licensees.

2. Member states shall share any investigative, litigation, or compliance materials in
furtherance of any joint or individual investigation initiated under the Compact.

H. If adverse action is taken by the home state against an audiologist's or speech-language
pathologist's license, the audiologist's or speech-language pathologist's privilege to practice
in all other member states shall be deactivated until all encumbrances have been removed.
from the state license. All home state disciplinary orders that impose adverse action against an audiologist's or speech-language pathologist's license shall include a statement that the audiologist's or speech-language pathologist's privilege to practice is deactivated in all member states during the pendency of the order.

I. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

J. Nothing in this Compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

Section 7. Establishment of the Audiology and Speech-Language Pathology Compact Commission

A. The Compact member states hereby create and establish a joint public agency known as the Audiology and Speech-Language Pathology Compact Commission:

1. The Commission is an instrumentality of the Compact states.

2. The Commission shall defend any member, officer, executive director, employee, or representative of the Commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining his or her own counsel; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

F. Any information submitted to the data system that is subsequently required to be expunged by the laws of the member state contributing the information shall be removed from the data system.

Section 9. Rulemaking

A. The Commission shall exercise its rulemaking powers pursuant to the criteria set forth in this Section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

B. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the Compact within four years of the date of adoption of the rule, the rule shall have no further force and effect in any member state.

C. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

D. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least 30 days in advance of the meeting at which the rule shall be considered and voted upon, the Commission shall file a Notice of Proposed Rulemaking:

F. Prior to the adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

G. The Commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

2. A state or federal governmental subdivision or agency; or
3. An association having at least 25 members.

H. If a hearing is held on the proposed rule or amendment, the Commission shall publish the place, time, and date of the scheduled public hearing. If the hearing is held via electronic means, the Commission shall publish the mechanism for access to the electronic hearing.
1. All persons wishing to be heard at the hearing shall notify the executive director of the Commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing.

For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;

2. Prevent a loss of Commission or member state funds; or

3. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the chair of the Commission prior to the end of the notice period.

If no challenge is made, the revision shall take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of litigation, including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

Section 11. Date of Implementation of the Interstate Commission for Audiology and Speech-Language Pathology Practice and Associated Rules, Withdrawal, and Amendment

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the Commission relating to assembly and the promulgation of rules. Thereafter, the Commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the Compact.

B. Any state that joins the Compact subsequent to the Commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the Compact becomes law in that state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that state.

C. Any member state may withdraw from this Compact by enacting a statute repealing the same.

1. A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing state's audiology or speech-language pathology licensing board to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.
D. Nothing contained in this Compact shall be construed to invalidate or prevent any
audiology or speech-language pathology licensure agreement or other cooperative
arrangement between a member state and a non-member state that does not conflict with
the provisions of this Compact.

E. This Compact may be amended by the member states. No amendment to this Compact
shall become effective and binding upon any member state until it is enacted into the laws
of all member states.

Section 12. Construction and Severability

This Compact shall be liberally construed so as to effectuate the purposes thereof. The
provisions of this Compact shall be severable and if any phrase, clause, sentence, or provision
of this Compact is declared to be contrary to the constitution of any member state or of the
United States or the applicability thereof to any government, agency, person, or circumstance
is held invalid, the validity of the remainder of this Compact and the applicability thereof
to any government, agency, person, or circumstance shall not be affected thereby. If this
Compact shall be held contrary to the constitution of any member state, the Compact shall
remain in full force and effect as to the remaining member states and in full force and effect
as to the member state affected as to all severable matters.

Section 13. Binding Effect of Compact and Other Laws

A. Nothing herein prevents the enforcement of any other law of a member state that is
not inconsistent with the Compact.

B. All laws in a member state in conflict with the Compact are superseded to the extent
of the conflict.

C. All lawful actions of the Commission, including all rules and bylaws promulgated
by the Commission, are binding upon the member states.

D. All agreements between the Commission and the member states are binding in
accordance with their terms.

E. In the event any provision of the Compact exceeds the constitutional limits imposed
on the legislature of any member state, the provision shall be ineffective to the extent of the
conflict with the constitutional provision in question in that member state.

EFFECTIVE DATE. This section is effective on the date on which the compact statute
is enacted into law in the tenth member state in accordance with section 11 of this Compact.

The individual may retain the home state designation during the period the service member is on active duty. Subpoenas issued by a licensing board in a member state for the attendance and testimony of witnesses or the production of evidence from another member state shall be enforced in the latter state by any court of competent jurisdiction according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(b) Only the home state shall have the power to take adverse action against a licensed professional counselor's license issued by the home state.

(c) For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

(d) The home state shall complete any pending investigations of a licensed professional counselor who changes primary state of residence during the course of the investigations. The home state shall also have the authority to take appropriate action and shall promptly report the conclusions of the investigations to the administrator of the data system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any adverse actions.

(e) A member state, if otherwise permitted by state law, may recover from the affected licensed professional counselor the costs of investigations and dispositions of cases resulting from any adverse action taken against that licensed professional counselor.

(f) A member state may take adverse action based on the factual findings of the remote state, provided that the member state follows its own procedures for taking the adverse action.

(g) Joint investigations:
(1) in addition to the authority granted to a member state by its respective professional counseling practice act or other applicable state law, any member state may participate with other member states in joint investigations of licensees; and

(2) member states shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

(h) If adverse action is taken by the home state against the license of a licensed professional counselor, the licensed professional counselor's privilege to practice in all other member states shall be deactivated until all encumbrances have been removed from the state license. All home state disciplinary orders that impose adverse action against the license of a licensed professional counselor shall include a statement that the licensed professional counselor's privilege to practice is deactivated in all member states during the pendency of the order.

(i) If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

(j) Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

ARTICLE VIII

(1) the commission is an instrumentality of the compact states;

The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings;

and

(3) nothing in this compact shall be construed to be a waiver of sovereign immunity.

ARTICLE X

RULEMAKING

(a) The commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purpose of the compact. Notwithstanding the foregoing, in the event the commission exercises its rulemaking authority in a manner that is beyond the scope of
the purposes of the compact, or the powers granted hereunder, then such an action by the
commission shall be invalid and have no force or effect.

(b) The commission shall exercise its rulemaking powers pursuant to the criteria set
forth in this article and the rules adopted thereunder. Rules and amendments shall become
binding as of the date specified in each rule or amendment.

c) If a majority of the legislatures of the member states rejects a rule, by enactment of
a statute or resolution in the same manner used to adopt the compact within four years of
the date of adoption of the rule, then such rule shall have no further force and effect in any
member state.

d) Rules or amendments to the rules shall be adopted at a regular or special meeting of
the commission.

e) Prior to promulgation and adoption of a final rule or rules by the commission, and
at least thirty days in advance of the meeting at which the rule will be considered and voted
upon, the commission shall file a notice of proposed rulemaking:

(1) on the website of the commission or other publicly accessible platform; and

(2) on the website of each member state professional counseling licensing board or other
publicly accessible platform or the publication in which each state would otherwise publish
proposed rules.

(f) The notice of proposed rulemaking shall include:

(1) the proposed time, date, and location of the meeting in which the rule will be
considered and voted upon;

(2) the text of the proposed rule or amendment and the reason for the proposed rule;

(3) a request for comments on the proposed rule from any interested person; and

(4) the manner in which interested persons may submit notice to the commission of their
intention to attend the public hearing and any written comments.

(g) Prior to adoption of a proposed rule, the commission shall allow persons to submit
written data, facts, opinions, and arguments, which shall be made available to the public.

rule or amendment if a hearing is requested by:

(1) at least 25 persons;

(2) a state or federal governmental subdivision or agency; or
(3) an association having at least 25 members.

(i) If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time, and date of the scheduled public hearing. If the hearing is held via electronic means, the commission shall publish the mechanism for access to the electronic hearing:

(1) all persons wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing;

(2) hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing;

(3) all hearings will be recorded. A copy of the recording will be made available on request; and

(4) nothing in this article shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this article.

(j) Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

(k) If no written notice of intent to attend the public hearing by interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

(l) The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

(m) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in the compact and in this article shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

(1) meet an imminent threat to public health, safety, or welfare;

(2) prevent a loss of commission or member state funds;
(3) meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or

(4) protect public health and safety.

(n) The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

ARTICLE XI

OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

(a) Oversight:

(1) the executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law;

(2) all courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the commission; and

(3) the commission shall be entitled to receive service of process in any such proceeding and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

(b) Default, technical assistance, and termination:

(1) if the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:
(i) provide written notice to the defaulting state and other member states of the nature
of the default, the proposed means of curing the default, or any other action to be taken by
the commission; and

(ii) provide remedial training and specific technical assistance regarding the default.

(c) If a state in default fails to cure the default, the defaulting state may be terminated
from the compact upon an affirmative vote of a majority of the member states, and all rights,
privileges, and benefits conferred by this compact may be terminated on the effective date
of termination. A cure of the default does not relieve the offending state of obligations or
liabilities incurred during the period of default.

(d) Termination of membership in the compact shall be imposed only after all other
means of securing compliance have been exhausted. Notice of intent to suspend or terminate
shall be given by the commission to the governor, the majority and minority leaders of the
defaulting state's legislature, and each of the member states.

(e) A state that has been terminated is responsible for all assessments, obligations, and
liabilities incurred through the effective date of termination, including obligations that
extend beyond the effective date of termination.

(f) The commission shall not bear any costs related to a state that is found to be in default
or that has been terminated from the compact, unless agreed upon in writing between the
commission and the defaulting state.

(g) The defaulting state may appeal the action of the commission by petitioning the
United States District Court for the District of Columbia or the federal district where the
commission has its principal offices. The prevailing member shall be awarded all costs of
such litigation, including reasonable attorney's fees.

(h) Dispute resolution:

(1) Upon request by a member state, the commission shall attempt to resolve disputes
related to the compact that arise among member states and between member and nonmember
states; and

(2) the commission shall promulgate a rule providing for both mediation and binding
dispute resolution for such disputes as appropriate.

(i) Enforcement:

provisions and rules of this compact;
(2) by majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees; and

(3) the remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

ARTICLE XII

(a) The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

(b) Any state that joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

(c) Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) a member state's withdrawal shall not take effect until six months after enactment of the repealing statute; and

(2) withdrawal shall not affect the continuing requirement of the withdrawing state's professional counseling licensing board to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.

(d) Nothing contained in this compact shall be construed to invalidate or prevent any professional counseling licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.
This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

**ARTICLE XIII**

**CONSTRUCTION AND SEVERABILITY**

This compact shall be liberally construed so as to effectuate the purposes thereof. If this compact shall be held contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

**ARTICLE XIV**

**BINDING EFFECT OF COMPACT AND OTHER LAWS**

(d) Any lawful actions of the commission, including all rules and bylaws properly promulgated by the commission, are binding upon the member states.

(e) All permissible agreements between the commission and the member states are binding in accordance with their terms.

(f) In the event any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, the provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

Conditions associated with intractable pain include but are not limited to cancer and the recovery period, sickle cell disease, noncancer pain, rare diseases, orphan diseases, severe injuries, and health conditions requiring the provision of palliative care or hospice care. Reasonable efforts for relieving or curing the cause of the pain may be determined on the basis of, but are not limited to, the following:

(1) when treating a nonterminally ill patient for intractable pain, an evaluation conducted by the attending physician, advanced practice registered nurse, or physician assistant and one or more physicians, advanced practice registered nurses, or physician assistants specializing in pain medicine or the treatment of the area, system, or organ of the body confirmed or perceived as the source of the intractable pain; or

(2) when treating a terminally ill patient, an evaluation conducted by the attending physician, advanced practice registered nurse, or physician assistant who does so in accordance with the standard of care and the level of care, skill, and treatment that would be recognized by a reasonably prudent physician, advanced practice registered nurse, or physician assistant under similar conditions and circumstances.

(d) "Palliative care" has the meaning provided in section 144A.75, subdivision 12.

(2) the cause of the diagnosis of intractable pain must not interfere with medically necessary treatment including but not limited to prescribing or administering a controlled substance in Schedules II to V of section 152.02.

Subd. 2. Prescription and administration of controlled substances for intractable pain. (a) Notwithstanding any other provision of this chapter, a physician, advanced practice registered nurse, or physician assistant may prescribe or administer a controlled substance in Schedules II to V of section 152.02 to an individual patient in the course of the physician's, advanced practice registered nurse's, or physician assistant's treatment of the individual patient for a diagnosed condition causing intractable pain. No physician, advanced practice registered nurse, or physician assistant shall be subject to disciplinary action by the Board of Medical Practice or Board of Nursing for appropriately prescribing or administering a controlled substance in Schedules II to V of section 152.02 in the course of treatment of an individual patient for intractable pain, provided the physician, advanced practice registered nurse, or physician assistant:

Schedules II to V of section 152.02 that includes but is not limited to opioid analgesics must not taper a patient's medication dosage solely to meet a predetermined morphine milligram equivalent dosage recommendation or threshold if the patient is stable and compliant with the treatment plan, is experiencing no serious harm from the level of medication currently being prescribed or previously prescribed, and is in compliance with the patient-provider agreement as described in subdivision 5.

(d) A physician's, advanced practice registered nurse's, or physician assistant's decision to taper a patient's medication dosage must be based on factors other than a morphine milligram equivalent recommendation or threshold.

Subd. 5. Report. (a) Sponsoring institutions receiving funds under this section must sign and submit a medical education grant verification report (GVR) to verify that the correct grant amount was forwarded to each eligible training site. If the sponsoring institution fails to submit the GVR by the stated deadline, or to request and meet the deadline for an extension, the sponsoring institution is required to return the full amount of funds received to the commissioner within 30 days of receiving notice from the commissioner. The commissioner shall distribute returned funds to the appropriate training sites in accordance with the commissioner's approval letter.

(b) By December 31 of each year, the commissioner shall submit to the legislature a
written report identifying the number of audits performed by a nationally recognized
independent organization that were accepted, partially accepted, or rejected by the
commissioner under this section. The commissioner shall provide the rationale for partial

145.4134 COMMISSIONER'S PUBLIC REPORT.

(a) By July 1 of each year, except for 1998 and 1999 information, the commissioner shall issue a public report providing statistics for the previous calendar year compiled from the data submitted under sections 145.4131 to 145.4133 and sections 145.4241 to 145.4249. For 1998 and 1999 information, the report shall be issued October 1, 2000. Each report shall provide the statistics for all previous calendar years, adjusted to reflect any additional information from late or corrected reports. The commissioner shall ensure that none of the information included in the public reports can reasonably lead to identification of an individual having performed or having had an abortion. All data included on the forms under sections 145.4131 to 145.4133 and sections 145.4241 to 145.4249 must be included in the public report, except that the commissioner shall maintain as confidential, data which alone or in combination may constitute information from which an individual having performed or having had an abortion may be identified using epidemiologic principles. The commissioner shall submit the report to the senate Health and Family Security Committee and the house of representatives Health and Human Services Committee.

(b) The commissioner may, by rules adopted under chapter 14, alter the submission dates established under sections 145.4131 to 145.4133 for administrative convenience, fiscal savings, or other valid reason, provided that physicians or facilities and the commissioner of human services submit the required information once each year and the commissioner issues a report once each year.

Sec. 10. Minnesota Statutes 2020, section 145.928, subdivision 13, is amended to read:

Subd. 13. Reports. (a) The commissioner shall submit a biennial report to the legislature on the local community projects, tribal government, and community health board prevention activities funded under this section. These reports must include information on grant recipients, activities that were conducted using grant funds, evaluation data, and outcome.

report to the chairs and ranking minority members of the house of representatives and senate
committees with jurisdiction over public health on grants made under subdivision 7 to
decrease racial and ethnic disparities in infant mortality rates. The report must provide
specific information on the amount of each grant awarded to each agency or organization,

and the amount of the appropriation retained by the commissioner for administrative and
associated expenses. The commissioner shall issue a report each January 15 for the previous
fiscal year beginning January 15, 2016.

Sec. 11. Minnesota Statutes 2020, section 245.4661, subdivision 10, is amended to read:

Subd. 10. Commissioner duty to report on use of grant funds biennially. (a) By
November 1, 2016, and biennially thereafter, the commissioner of human services shall
provide sufficient information to the members of the legislative committees having
jurisdiction over mental health funding and policy issues to evaluate the use of funds
appropriated under this section of law. The commissioner shall provide, at a minimum, the
following information:

(1) the amount of funding to mental health initiatives, what programs and services were
funded in the previous two years, gaps in services that each initiative brought to the attention
of the commissioner, and outcome data for the programs and services that were funded; and

(2) the amount of funding for other targeted services and the location of services.

(b) This subdivision expires January 1, 2032.

Sec. 12. Minnesota Statutes 2020, section 245.4889, subdivision 3, is amended to read:

Subd. 3. Commissioner duty to report on use of grant funds biennially. (a) By
November 1, 2016, and biennially thereafter, the commissioner of human services shall
provide sufficient information to the members of the legislative committees having
jurisdiction over mental health funding and policy issues to evaluate the use of funds
appropriated under this section. The commissioner shall provide, at a minimum, the following
information:
(1) the amount of funding for children’s mental health grants, what programs and services were funded in the previous two years, and outcome data for the programs and services that were funded; and

(2) the amount of funding for other targeted services and the location of services.

(b) This subdivision expires January 1, 2032.

Sec. 13. Minnesota Statutes 2021 Supplement, section 245A.03, subdivision 7, is amended to read:

Subd. 7. Licensing moratorium. (a) The commissioner shall not issue an initial license for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, or adult foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter for a physical location that will not be the primary residence of the license holder for the entire period of licensure. If a family child foster care home or family adult foster care home license is issued during this moratorium, and the license holder changes the license holder’s primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person’s choices during their annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

(1) foster care settings where at least 80 percent of the residents are 55 years of age or older;

(2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or community residential setting licenses replacing adult foster care licenses in existence on December 31, 2013, and determined to be needed by the commissioner under paragraph (b);

(3) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD, or regional treatment center; restructuring of state-operated services that limits the capacity of state-operated facilities; or allowing movement to the community for people who no
longer require the level of care provided in state-operated facilities as provided under section
256B.092, subdivision 13, or 256B.49, subdivision 24;

(4) new foster care licenses or community residential setting licenses determined to be
needed by the commissioner under paragraph (b) for persons requiring hospital level care;

(5) new foster care licenses or community residential setting licenses for people receiving
services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and
for which a license is required. This exception does not apply to people living in their own
home. For purposes of this clause, there is a presumption that a foster care or community
residential setting license is required for services provided to three or more people in a
dwelling unit when the setting is controlled by the provider. A license holder subject to this
exception may rebut the presumption that a license is required by seeking a reconsideration
of the commissioner's determination. The commissioner's disposition of a request for
reconsideration is final and not subject to appeal under chapter 14. The exception is available
until June 30, 2018. This exception is available when:

(i) the person's case manager provided the person with information about the choice of
service, service provider, and location of service, including in the person's home, to help
the person make an informed choice; and

(ii) the person's services provided in the licensed foster care or community residential
setting are less than or equal to the cost of the person's services delivered in the unlicensed
setting as determined by the lead agency; or

(6) new foster care licenses or community residential setting licenses for people receiving
customized living or 24-hour customized living services under the brain injury or community
access for disability inclusion waiver plans under section 256B.49 and residing in the
customized living setting before July 1, 2022, for which a license is required. A customized
living service provider subject to this exception may rebut the presumption that a license
is required by seeking a reconsideration of the commissioner's determination. The
commissioner's disposition of a request for reconsideration is final and not subject to appeal
under chapter 14. The exception is available until June 30, 2023. This exception is available
when:

(i) the person's customized living services are provided in a customized living service
setting serving four or fewer people under the brain injury or community access for disability
inclusion waiver plans under section 256B.49 in a single-family home operational on or
before June 30, 2021. Operational is defined in section 256B.49, subdivision 28;
(ii) the person's case manager provided the person with information about the choice of
service, service provider, and location of service, including in the person's home, to help
the person make an informed choice; and

(iii) the person's services provided in the licensed foster care or community residential
setting are less than or equal to the cost of the person's services delivered in the customized
living setting as determined by the lead agency.

(b) The commissioner shall determine the need for newly licensed foster care homes or
community residential settings as defined under this subdivision. As part of the determination,
the commissioner shall consider the availability of foster care capacity in the area in which
the licensee seeks to operate, and the recommendation of the local county board. The
determination by the commissioner must be final. A determination of need is not required
for a change in ownership at the same address.

(c) When an adult resident served by the program moves out of a foster home that is not
the primary residence of the license holder according to section 256B.49, subdivision 15,
paragraph (f), or the adult community residential setting, the county shall immediately
inform the Department of Human Services Licensing Division. The department may decrease
the statewide licensed capacity for adult foster care settings.

(d) Residential settings that would otherwise be subject to the decreased license capacity
established in paragraph (c) shall be exempt if the license holder's beds are occupied by
residents whose primary diagnosis is mental illness and the license holder is certified under
the requirements in subdivision 6a or section 245D.33.

(e) A resource need determination process, managed at the state level, using the available
reports data required by section 144A.351, and other data and information shall be used to
determine where the reduced capacity determined under section 256B.493 will be
implemented. The commissioner shall consult with the stakeholders described in section
144A.351, and employ a variety of methods to improve the state's capacity to meet the
informed decisions of those people who want to move out of corporate foster care or
community residential settings, long-term service needs within budgetary limits, including
seeking proposals from service providers or lead agencies to change service type, capacity,
or location to improve services, increase the independence of residents, and better meet
needs identified by the long-term services and supports reports and statewide data and
information.

(f) At the time of application and reapplication for licensure, the applicant and the license
holder that are subject to the moratorium or an exclusion established in paragraph (a) are

Article 16 Sec. 13.
required to inform the commissioner whether the physical location where the foster care
will be provided is or will be the primary residence of the license holder for the entire period
of licensure. If the primary residence of the applicant or license holder changes, the applicant
or license holder must notify the commissioner immediately. The commissioner shall print
on the foster care license certificate whether or not the physical location is the primary
residence of the license holder.

(g) License holders of foster care homes identified under paragraph (f) that are not the
primary residence of the license holder and that also provide services in the foster care home
that are covered by a federally approved home and community-based services waiver, as
authorized under chapter 256S or section 256B.092 or 256B.49, must inform the human
services licensing division that the license holder provides or intends to provide these
waiver-funded services.

(h) The commissioner may adjust capacity to address needs identified in section
144A.351. Under this authority, the commissioner may approve new licensed settings or
delicense existing settings. Delicensing of settings will be accomplished through a process
identified in section 256B.493. Annually, by August 1, the commissioner shall provide
information and data on capacity of licensed long-term services and supports, actions taken
under the subdivision to manage statewide long-term services and supports resources, and
any recommendations for change to the legislative committees with jurisdiction over the
health and human services budget.

(i) The commissioner must notify a license holder when its corporate foster care or
community residential setting licensed beds are reduced under this section. The notice of
reduction of licensed beds must be in writing and delivered to the license holder by certified
mail or personal service. The notice must state why the licensed beds are reduced and must
inform the license holder of its right to request reconsideration by the commissioner. The
license holder's request for reconsideration must be in writing. If mailed, the request for
reconsideration must be postmarked and sent to the commissioner within 20 calendar days
after the license holder's receipt of the notice of reduction of licensed beds. If a request for
reconsideration is made by personal service, it must be received by the commissioner within
20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(j) The commissioner shall not issue an initial license for children's residential treatment
services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter
for a program that Centers for Medicare and Medicaid Services would consider an institution
for mental diseases. Facilities that serve only private pay clients are exempt from the
moratorium described in this paragraph. The commissioner has the authority to manage
existing statewide capacity for children's residential treatment services subject to the
moratorium under this paragraph and may issue an initial license for such facilities if the
initial license would not increase the statewide capacity for children's residential treatment
services subject to the moratorium under this paragraph.

Sec. 14. Minnesota Statutes 2020, section 256.01, subdivision 29, is amended to read:

Subd. 29. State medical review team. (a) To ensure the timely processing of
determinations of disability by the commissioner's state medical review team under sections
256B.055, subdivisions 7, paragraph (b), and 12, and 256B.057, subdivision 9, the
commissioner shall review all medical evidence and seek information from providers,
applicants, and enrollees to support the determination of disability where necessary. Disability
shall be determined according to the rules of title XVI and title XIX of the Social Security
Act and pertinent rules and policies of the Social Security Administration.

(b) Prior to a denial or withdrawal of a requested determination of disability due to
insufficient evidence, the commissioner shall (1) ensure that the missing evidence is necessary
and appropriate to a determination of disability, and (2) assist applicants and enrollees to
obtain the evidence, including, but not limited to, medical examinations and electronic
medical records.

(c) The commissioner shall provide the chairs of the legislative committees with
jurisdiction over health and human services finance and budget the following information
on the activities of the state medical review team by February 1 of each year:

(1) the number of applications to the state medical review team that were denied,
approved, or withdrawn;

(2) the average length of time from receipt of the application to a decision;

(3) the number of appeals, appeal results, and the length of time taken from the date the
person involved requested an appeal for a written decision to be made on each appeal;

(4) for applicants, their age, health coverage at the time of application, hospitalization
history within three months of application, and whether an application for Social Security
or Supplemental Security Income benefits is pending; and

(5) specific information on the medical certification, licensure, or other credentials of
the person or persons performing the medical review determinations and length of time in
that position.
Any appeal made under section 256.045, subdivision 3, of a disability determination made by the state medical review team must be decided according to the timelines under section 256.0451, subdivision 22, paragraph (a). If a written decision is not issued within the timelines under section 256.0451, subdivision 22, paragraph (a), the appeal must be immediately reviewed by the chief human services judge.

Sec. 15. Minnesota Statutes 2021 Supplement, section 256.01, subdivision 42, is amended to read:

Subd. 42. Expiration of report mandates. (a) If the submission of a report by the commissioner of human services to the legislature is mandated by statute and the enabling legislation does not include a date for the submission of a final report or an expiration date, the mandate to submit the report shall expire in accordance with this section.

(b) If the mandate requires the submission of an annual or more frequent report and the mandate was enacted before January 1, 2021, the mandate shall expire on January 1, 2023. If the mandate requires the submission of a biennial or less frequent report and the mandate was enacted before January 1, 2021, the mandate shall expire on January 1, 2024.

(c) Any reporting mandate enacted on or after January 1, 2021, shall expire three years after the date of enactment if the mandate requires the submission of an annual or more frequent report and shall expire five years after the date of enactment if the mandate requires the submission of a biennial or less frequent report unless the enacting legislation provides for a different expiration date.

(d) By January 15 of each year, the commissioner shall submit a list to the chairs and ranking minority members of the legislative committees with jurisdiction over human services by February 15 of each year, beginning February 15, 2022, a list of all reports set to expire during the following calendar year in accordance with this section. Notwithstanding paragraph (c), this paragraph does not expire.

Sec. 16. Minnesota Statutes 2020, section 256.021, subdivision 3, is amended to read:

Subd. 3. Report. (a) By January 15 of each year, the panel shall submit a report to the committees of the legislature with jurisdiction over section 626.557 regarding the number of requests for review it receives under this section, the number of cases where the panel requires the lead investigative agency to reconsider its final disposition, and the number of cases where the final disposition is changed, and any recommendations to improve the review or investigative process.
(b) This subdivision expires January 1, 2024.

Sec. 17. Minnesota Statutes 2021 Supplement, section 256.042, subdivision 4, is amended to read:

Subd. 4. Grants. (a) The commissioner of human services shall submit a report of the grants proposed by the advisory council to be awarded for the upcoming calendar year to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance, by December 1 of each year, beginning March 1, 2020 December 1, 2022. This paragraph expires upon the expiration of the advisory council.

(b) The grants shall be awarded to proposals selected by the advisory council that address the priorities in subdivision 1, paragraph (a), clauses (1) to (4), unless otherwise appropriated by the legislature. The advisory council shall determine grant awards and funding amounts based on the funds appropriated to the commissioner under section 256.043, subdivision 3, paragraph (e). The commissioner shall award the grants from the opiate epidemic response fund and administer the grants in compliance with section 16B.97. No more than ten percent of the grant amount may be used by a grantee for administration.

Sec. 18. Minnesota Statutes 2020, section 256.042, subdivision 5, is amended to read:

Subd. 5. Reports. (a) The advisory council shall report annually to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance by January 31 of each year, beginning January 31, 2021. The report must describe the grantees and the activities implemented, along with measurable outcomes as determined by the council in consultation with the commissioner of human services and the commissioner of management and budget. At a minimum, the report must include information about the number of individuals who received information or treatment, the outcomes the individuals achieved, and demographic information about the individuals participating in the project; an assessment of the progress toward achieving statewide access to qualified providers and comprehensive treatment and recovery services; and an update on the evaluations implemented by the commissioner of management and budget for the promising practices and theory-based projects that receive funding.
(b) The commissioner of management and budget, in consultation with the Opiate Epidemic Response Advisory Council, shall report to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance when an evaluation study described in subdivision 1, paragraph (c), is complete on the promising practices or theory-based projects that are selected for evaluation activities. The report shall include demographic information; outcome information for the individuals in the program; the results for the program in promoting recovery, employment, family reunification, and reducing involvement with the criminal justice system; and other relevant outcomes determined by the commissioner of management and budget that are specific to the projects that are evaluated.
