2.17 Subd. 3. Legislative authority required before voter approval; requirements for adoption, use, termination. (a) A political subdivision must receive legislative authority 2.18 to impose a local sales tax before submitting the tax for approval by voters of the political 2.19 subdivision. Imposition of a local sales tax is subject to approval by voters of the political 2.20 subdivision at a general election. The election must be conducted at a general election within 2.21 the two-year period after the governing body of the political subdivision has received 2.22 authority to impose the tax. If the authorizing legislation allows the tax to be imposed for 2.23 more than one project, there must be a separate question approving the use of the tax revenue 2.24 for each project. Notwithstanding the authorizing legislation, a project that is not approved 2.25 by the voters may not be funded with the local sales tax revenue and the termination date 2.26 of the tax set in the authorizing legislation must be reduced proportionately based on the 2.27 share of that project's cost to the total costs of all projects included in the authorizing 2.28 2.29 legislation.

(b) The proceeds of the tax must be dedicated exclusively to payment of the construction
and rehabilitation costs and associated bonding costs related to the specific capital
improvement projects that were approved by the voters under paragraph (a). The political
subdivision must not commingle revenue from a tax for a project or projects approved by

The notification applies to each authorization of a tax and each project approved by the 3.7 voters under paragraph (a), regardless of whether the legislature has authorized the tax 3.8 notwithstanding the requirements of paragraph (d).
