Subd. 2. Education, residence, and transportation of homeless. (a) Notwithstanding subdivision 1, a district must not deny free admission to a homeless pupil solely because the district cannot determine that the pupil is a resident of the district.

(b) The school district of residence for a homeless pupil shall be the school district in which the parent or legal guardian resides, unless: (1) parental rights have been terminated by court order; (2) the parent or guardian is not living within the state; or (3) the parent or guardian having legal custody of the child is an inmate of a Minnesota correctional facility or is a resident of a halfway house under the supervision of the commissioner of corrections.

If any of clauses (1) to (3) apply, the school district of residence shall be the school district in which the pupil resided when the qualifying event occurred. If no other district of residence can be established, the school district of residence shall be the school district in which the pupil currently resides. If there is a dispute between school districts regarding residency, the district of residence is the district designated by the commissioner of education.

The district may transport from a permanent home in another district but only through the end of the academic school year. When a pupil is enrolled in a charter school, the district or school that provides transportation for other pupils enrolled in the charter school is responsible for providing transportation. When a homeless student with or without an individualized education program attends a public school other than an independent or special school district or charter school, the district of residence is responsible for transportation.

the current serving district is responsible for transporting the homeless pupil.

 2015 under Minnesota Statutes 2012, section 126C.17, subdivision 1, based on elections
  held before July 1, 2013, by the resident marginal cost pupil units the district would have
  counted for fiscal year 2015 under Minnesota Statutes 2012, section 126C.05;

(2) add to the result of clause (1) the adjustment the district would have received under
 Minnesota Statutes 2012, section 127A.47, subdivision 7, paragraphs (a), (b), and (e), based
 on elections held before July 1, 2013;

(3) divide the result of clause (2) by the district's adjusted pupil units for fiscal year
 2015;

(4) add to the result of clause (3) any additional referendum allowance per adjusted pupil
 unit authorized by elections held between July 1, 2013, and December 31, 2013;

(5) add to the result in clause (4) any additional referendum allowance resulting from
 inflation adjustments approved by the voters prior to January 1, 2014;

(6) subtract from the result of clause (5), the sum of a district's actual local optional levy

 units of the district for that school year; and
(1) subtract $424 from the district's allowance under Minnesota Statutes 2018, section 126C.17, subdivision 1, paragraph (a), clause (5);

(2) if the result of clause (1) is less than zero, set the allowance to zero;

(4) add to the result in clause (3) any additional referendum allowance per adjusted pupil unit authorized between January 1, 2014, and June 30, 2019;

(6) subtract $300 from the result in clause (5); and

(7) if the result of clause (6) is less than zero, set the allowance to zero.

(b) A district's referendum allowance equals the sum of the district's initial referendum allowance, plus any new referendum allowance authorized between July 1, 2013, and December 31, 2013, under subdivision 9a, plus any additional referendum allowance per adjusted pupil unit authorized after December 31, 2013 after July 1, 2019, minus any allowances expiring in fiscal year 2016 2021 or later, plus any inflation adjustments for fiscal year 2021 and later approved by the voters prior to July 1, 2019, provided that the allowance may not be less than zero. For a district with more than one allowance for fiscal year 2015 that expires in the same year, the reduction under paragraph (a), clause (5), to offset local optional revenue shall be made first from any allowances that do not have an inflation adjustment approved by the voters.

school;

(3) help students identify interests, aptitudes, aspirations, and personal learning styles
that may affect their career and college ready goals and postsecondary education and
employment choices;

(4) set appropriate career and college ready goals with timelines that identify effective
means for achieving those goals;

(5) help students access education and career options, including armed forces career
options;

(6) integrate strong academic content into career-focused courses and applied and
experiential learning opportunities and integrate relevant career-focused courses and applied
and experiential learning opportunities into strong academic content;

(7) help identify and access appropriate counseling and other supports and assistance
that enable students to complete required coursework, prepare for postsecondary education
and careers, and obtain information about postsecondary education costs and eligibility for
financial aid and scholarship;

(8) help identify collaborative partnerships among prekindergarten through grade 12
schools, postsecondary institutions, economic development agencies, and local and regional
employers that support students' transition to postsecondary education and employment and
provide students with applied and experiential learning opportunities; and

(9) be reviewed and revised at least annually by the student, the student's parent or
guardian, and the school or district to ensure that the student's course-taking schedule keeps
the student making adequate progress to meet state and local academic standards and high
school graduation requirements and with a reasonable chance to succeed with employment
or postsecondary education without the need to first complete remedial course work.

(b) A school district may develop grade-level curricula or provide instruction that
introduces students to various careers, but must not require any curriculum, instruction, or
employment-related activity that obligates an elementary or secondary student to involuntarily
select or pursue a career, career interest, employment goals, or related job training.

(c) Educators must possess the knowledge and skills to effectively teach all English
learners in their classrooms. School districts must provide appropriate curriculum, targeted
materials, professional development opportunities for educators, and sufficient resources
to enable English learners to become career and college ready.
(d) When assisting students in developing a plan for a smooth and successful transition to postsecondary education and employment, districts must recognize the unique possibilities of each student and ensure that the contents of each student's plan reflect the student's unique talents, skills, and abilities as the student grows, develops, and learns.

(e) If a student with a disability has an individualized education program (IEP) or standardized written plan that meets the plan components of this section, the IEP satisfies the requirement and no additional transition plan is needed.

(f) Students who do not meet or exceed Minnesota academic standards, as measured by the Minnesota Comprehensive Assessments that are administered during high school, shall be informed that admission to a public school is free and available to any resident under 21 years of age or who meets the requirements of section 120A.20, subdivision 1, paragraph (c). A student's plan under this section shall continue while the student is enrolled.

(g) A school district must provide military recruiters and representatives of organizations promoting careers in the skilled trades and manufacturing the same access to secondary school students as the district provides to institutions of higher education or to prospective employers of students.

(h) School districts are encouraged to sponsor an armed forces career opportunity day each school year prior to the third Thursday of November. A school district that sponsors an armed forces career opportunity day must extend invitations to recruiters from each branch of the United States armed forces and allow the recruiters to make presentations to all interested secondary school students.

Sec. 5. [120B.126] CONSTRUCTION AND SKILLED TRADES COUNSELING.

The commissioner of education must collaborate with the commissioner of labor and industry to incorporate construction and skilled trades into career counseling services for middle and high school aged students. Career advisement should identify high-growth, in-demand skilled trades and include information on various career paths and associated jobs, the salary profiles of those jobs, and the credentials and other training desired by employers for those jobs.

Sec. 6. Minnesota Statutes 2018, section 120B.30, subdivision 1, is amended to read:

Subdivision 1. **Statewide testing.** (a) The commissioner, with advice from experts with appropriate technical qualifications and experience and stakeholders, consistent with subdivision 1a, **shall** must include in the comprehensive assessment system, for each grade...
level to be tested, state-constructed tests developed as computer-adaptive reading and
mathematics assessments for students that are aligned with the state's required academic
standards under section 120B.021, include multiple choice questions, and are administered
annually to all students in grades 3 through 8. State-developed high school tests aligned
with the state's required academic standards under section 120B.021 and administered to
all high school students in a subject other than writing must include multiple choice questions.
The commissioner shall must establish one or more months during which schools shall
depend on which schools must administer the Minnesota Comprehensive Assessments to students. The
commissioner must publish the testing schedule at least two years before the beginning of
the testing period.

(1) Students enrolled in grade 8 through the 2009-2010 school year are eligible to be
assessed under (i) the graduation-required assessment for diploma in reading, mathematics,
or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraphs (c),
clauses (1) and (2); and (d), (ii) the WorkKeys job skills assessment, (iii) the Compass
college placement test, (iv) the ACT assessment for college admission, (v) a nationally
recognized armed services vocational aptitude test.

(2) Students enrolled in grade 8 in the 2010-2011 or 2011-2012 school year are eligible
to be assessed under (i) the graduation-required assessment for diploma in reading,
mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1,
paragraph (c), clauses (1) and (2), (ii) the WorkKeys job skills assessment, (iii) the Compass
college placement test, (iv) the ACT assessment for college admission, (v) a nationally
recognized armed services vocational aptitude test.

(3) For students under clause (1) or (2), a school district may substitute a score from an
alternative, equivalent assessment to satisfy the requirements of this paragraph.

(b) The state assessment system must be aligned to the most recent revision of academic
standards as described in section 120B.023 in the following manner:

(1) mathematics;

(i) grades 3 through 8 beginning in the 2010-2011 school year; and

(ii) high school level beginning in the 2013-2014 school year;

(2) science; grades 5 and 8 and at the high school level beginning in the 2011-2012
school year; and
(3) language arts and reading; grades 3 through 8 and high school level beginning in the
2012-2013 school year.

(c) For students enrolled in grade 8 in the 2012-2013 school year and later, students'
state graduation requirements, based on a longitudinal, systematic approach to student
education and career planning, assessment, instructional support, and evaluation, include
the following:

(1) achievement and career and college readiness in mathematics, reading, and writing,
consistent with paragraph (k) and to the extent available, to monitor students' continuous
development of and growth in requisite knowledge and skills; analyze students' progress
and performance levels, identifying students' academic strengths and diagnosing areas where
students require curriculum or instructional adjustments, targeted interventions, or
remediation; and, based on analysis of students' progress and performance data, determine
students' learning and instructional needs and the instructional tools and best practices that
support academic rigor for the student; and

(2) consistent with this paragraph and section 120B.125, age-appropriate exploration
and planning activities and career assessments to encourage students to identify personally
relevant career interests and aptitudes and help students and their families develop a regularly
reexamined transition plan for postsecondary education or employment without need for
postsecondary remediation.

Based on appropriate state guidelines, students with an individualized education program
may satisfy state graduation requirements by achieving an individual score on the
state-identified alternative assessments.

(d) Expectations of schools, districts, and the state for career or college readiness under
this subdivision must be comparable in rigor, clarity of purpose, and rates of student
completion.

A student under paragraph (c), clause (1), must receive targeted, relevant, academically
rigorous, and resourced instruction, which may include a targeted instruction and intervention
plan focused on improving the student's knowledge and skills in core subjects so that the
student has a reasonable chance to succeed in a career or college without need for
postsecondary remediation. Consistent with sections 120B.13, 124D.09, 124D.091, 124D.49,
and related sections, an enrolling school or district must actively encourage a student in
grade 11 or 12 who is identified as academically ready for a career or college to participate
in courses and programs awarding college credit to high school students. Students are not
required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.

(e) Though not a high school graduation requirement, students are encouraged to participate in a nationally recognized college entrance exam. To the extent state funding for college entrance exam fees is available, a district must pay the cost, one time, for an interested student in grade 11 or 12 who is eligible for a free or reduced-price meal, to take a nationally recognized college entrance exam before graduating. A student must be able to take the exam under this paragraph at the student's high school during the school day and at any one of the multiple exam administrations available to students in the district. A district may administer the ACT or SAT or both the ACT and SAT to comply with this paragraph. If the district administers only one of these two tests and a free or reduced-price meal eligible student opts not to take that test and chooses instead to take the other of the two tests, the student may take the other test at a different time or location and remains eligible for the examination fee reimbursement. Notwithstanding sections 123B.34 to 123B.39, a school district may require a student that is not eligible for a free or reduced-price meal to pay the cost of taking a nationally recognized college entrance exam. The district must waive the cost for a student unable to pay.

(f) The commissioner and the chancellor of the Minnesota State Colleges and Universities must collaborate in aligning instruction and assessments for adult basic education students and English learners to provide the students with diagnostic information about any targeted interventions, accommodations, modifications, and supports they need so that assessments and other performance measures are accessible to them and they may seek postsecondary education or employment without need for postsecondary remediation. When administering formative or summative assessments used to measure the academic progress, including the oral academic development, of English learners and inform their instruction, schools must ensure that the assessments are accessible to the students and students have the modifications and supports they need to sufficiently understand the assessments.

(g) Districts and schools, on an annual basis, must use career exploration elements to help students, beginning no later than grade 9, and their families explore and plan for postsecondary education or careers based on the students' interests, aptitudes, and aspirations. Districts and schools must use timely regional labor market information and partnerships, among other resources, to help students and their families successfully develop, pursue, review, and revise an individualized plan for postsecondary education or a career. This process must help increase students' engagement in and connection to school, improve students' knowledge and skills, and deepen students' understanding of career pathways as
a sequence of academic and career courses that lead to an industry-recognized credential,
an associate's degree, or a bachelor's degree and are available to all students, whatever their
interests and career goals.

(h) A student who demonstrates attainment of required state academic standards, which
include career and college readiness benchmarks, on high school assessments under
subdivision 1a is academically ready for a career or college and is encouraged to participate
in courses awarding college credit to high school students. Such courses and programs may
include sequential courses of study within broad career areas and technical skill assessments
that extend beyond course grades.

(i) As appropriate, students through grade 12 must continue to participate in targeted
instruction, intervention, or remediation and be encouraged to participate in courses awarding
college credit to high school students.

(j) In developing, supporting, and improving students' academic readiness for a career
or college, schools, districts, and the state must have a continuum of empirically derived,
clearly defined benchmarks focused on students' attainment of knowledge and skills so that
students, their parents, and teachers know how well students must perform to have a
reasonable chance to succeed in a career or college without need for postsecondary
remediation. The commissioner, in consultation with local school officials and educators,
and Minnesota's public postsecondary institutions must ensure that the foundational
knowledge and skills for students' successful performance in postsecondary employment
or education and an articulated series of possible targeted interventions are clearly identified
and satisfy Minnesota's postsecondary admissions requirements.

(k) For students in grade 8 in the 2012-2013 school year and later, a school, district, or
charter school must record on the high school transcript a student's progress toward career
and college readiness, and for other students as soon as practicable.

(l) The school board granting students their diplomas may formally decide to include a
notation of high achievement on the high school diplomas of those graduating seniors who,
according to established school board criteria, demonstrate exemplary academic achievement
during high school.

(m) The 3rd through 8th grade computer-adaptive assessment results and high school
test results shall be available to districts for diagnostic purposes affecting student
learning and district instruction and curriculum, and for establishing educational
accountability. The commissioner must establish empirically derived benchmarks on adaptive
assessments in grades 3 through 8. The commissioner, in consultation with the chancellor
of the Minnesota State Colleges and Universities, must establish empirically derived
benchmarks on the high school tests that reveal a trajectory toward career and college
readiness consistent with section 136F.302, subdivision 1a. The commissioner must
disseminate to the public the computer-adaptive assessments and high school test results
upon receiving those results.

(n) The grades 3 through 8 computer-adaptive assessments and high school tests must
be aligned with state academic standards. The commissioner shall determine the testing
process and the order of administration. The statewide results shall be aggregated at
the site and district level, consistent with subdivision 1a.

(o) The commissioner shall include the following components in the statewide public reporting system:

(1) uniform statewide computer-adaptive assessments of all students in grades 3 through
8 and testing at the high school levels that provides appropriate, technically sound
accommodations or alternate assessments;

(2) educational indicators that can be aggregated and compared across school districts
and across time on a statewide basis, including average daily attendance, high school
graduation rates, and high school drop-out rates by age and grade level;

(3) state results on the American College Test; and

(4) state results from participation in the National Assessment of Educational Progress
so that the state can benchmark its performance against the nation and other states, and,
where possible, against other countries, and contribute to the national effort to monitor
achievement.

(p) For purposes of statewide accountability, "career and college ready" means a high
school graduate has the knowledge, skills, and competencies to successfully pursue a career
pathway, including postsecondary credit leading to a degree, diploma, certificate, or
industry-recognized credential and employment. Students who are career and college ready
are able to successfully complete credit-bearing coursework at a two- or four-year college
or university or other credit-bearing postsecondary program without need for remediation.

(q) For purposes of statewide accountability, "cultural competence," "cultural
competency," or "culturally competent" means the ability of families and educators to
interact effectively with people of different cultures, native languages, and socioeconomic backgrounds.
Paragraph (a) is effective for testing calendars in the 2021-2022 school year and later.

Sec. 7. Minnesota Statutes 2018, section 120B.30, subdivision 3, is amended to read:

Subd. 3. Reporting. (a) The commissioner shall must report test results publicly and to stakeholders, including the performance achievement levels developed from students' unweighted test scores in each tested subject and a listing of demographic factors that strongly correlate with student performance, including student homelessness, as data are available, among other factors. The test results must not include personally identifiable information as defined in Code of Federal Regulations, title 34, section 99.3. The commissioner shall must also report data that compares performance results among school sites, school districts, Minnesota and other states, and Minnesota and other nations.

(b) The commissioner shall must disseminate to schools and school districts a more comprehensive report containing testing information that meets local needs for evaluating instruction and curriculum. The commissioner shall must disseminate to charter school authorizers a more comprehensive report containing testing information that contains anonymized data where cell count data are sufficient to protect student identity and that meets the authorizer's needs in fulfilling its obligations under chapter 124E.

(c) A school district must disseminate the individual student performance data and achievement report required under section 120B.30, subdivision 1a, paragraph (d), clause (1), to the parent and teacher of each student no more than 30 days after the district has administered the test to a student. The district must notify the parent and teacher that the data and report are preliminary and subject to validation.

(d) A school district must disseminate a testing report to the teacher and to the parent of each student before the beginning of the following school year. The testing report must:

(1) identify the student's achievement level in each content area; and

(2) track the student's performance history.

Paragraph (a), (b), and (c) are effective for the 2019-2020 school year and later. Paragraph (d) is effective for the 2020-2021 school year and later.

Sec. 8. Minnesota Statutes 2018, section 120B.35, subdivision 3, is amended to read:

Subd. 3. State growth target; other state measures. (a)(1) The state's educational assessment system measuring individual students' educational growth is based on indicators of achievement growth that show an individual student's prior achievement. Indicators of
achievement and prior achievement must be based on highly reliable statewide or districtwide assessments.

(2) For purposes of paragraphs (b), (c), and (d), the commissioner must analyze and report separate categories of information using the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized, and, in addition to "other" for each race and ethnicity, and the Karen community, seven of the most populous Asian and Pacific Islander groups, three of the most populous Native groups, seven of the most populous Hispanic/Latino groups, and five of the most populous Black and African Heritage groups as determined by the total Minnesota population based on the most recent American Community Survey; English learners under section 124D.59; home language; free or reduced-price lunch; and all students enrolled in a Minnesota public school who are currently or were previously in foster care, except that such disaggregation and cross tabulation is not required if the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.

(b) The commissioner, in consultation with a stakeholder group that includes assessment and evaluation directors, district staff, experts in culturally responsive teaching, and researchers, must implement a growth model that uses a value-added growth indicator and that compares the difference in students' achievement scores over time, and includes criteria for identifying schools and school districts that demonstrate medium and high growth under section 120B.299, subdivisions 8 and 9, and may recommend other value-added measures under section 120B.299, subdivision 3 academic progress. The model may be used to advance educators' professional development and replicate programs that succeed in meeting students' diverse learning needs. Data on individual teachers generated under the model are personnel data under section 13.43. The model must allow users to:

(1) report student growth consistent with this paragraph; and

(2) for all student categories, report and compare aggregated and disaggregated state student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data using the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized, and other student categories under paragraph (a), clause (2).

The commissioner must report measures of student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data, consistent with this paragraph, including the English language development, academic progress, and oral academic...
development of English learners and their native language development if the native language
is used as a language of instruction, and include data on all pupils enrolled in a Minnesota
public school course or program who are currently or were previously counted as an English
learner under section 124D.59.

(c) When reporting student performance under section 120B.36, subdivision 1, the
commissioner annually, beginning July 1, 2011, must report two core measures indicating
the extent to which current high school graduates are being prepared for postsecondary
academic and career opportunities:

(1) a preparation measure indicating the number and percentage of high school graduates
in the most recent school year who completed course work important to preparing them for
postsecondary academic and career opportunities, consistent with the core academic subjects
required for admission to Minnesota's public colleges and universities as determined by the
Office of Higher Education under chapter 136A; and

(2) a rigorous coursework measure indicating the number and percentage of high school
graduates in the most recent school year who successfully completed one or more
college-level advanced placement, international baccalaureate, postsecondary enrollment
options including concurrent enrollment, other rigorous courses of study under section
120B.021, subdivision 1a, or industry certification courses or programs.

When reporting the core measures under clauses (1) and (2), the commissioner must also
analyze and report separate categories of information using the student categories identified
under the federal Elementary and Secondary Education Act, as most recently reauthorized,
and other student categories under paragraph (a), clause (2).

(d) When reporting student performance under section 120B.36, subdivision 1, the
commissioner annually, beginning July 1, 2014, must report summary data on school safety
and students' engagement and connection at school, consistent with the student categories
identified under paragraph (a), clause (2). The summary data under this paragraph are
separate from and must not be used for any purpose related to measuring or evaluating the
performance of classroom teachers. The commissioner, in consultation with qualified experts
on student engagement and connection and classroom teachers, must identify highly reliable
variables that generate summary data under this paragraph. The summary data may be used
at school, district, and state levels only. Any data on individuals received, collected, or
created that are used to generate the summary data under this paragraph are nonpublic data
under section 13.02, subdivision 9.
For purposes of statewide educational accountability, the commissioner must identify and report measures that demonstrate the success of learning year program providers under sections 123A.05 and 124D.68, among other such providers, in improving students' graduation outcomes. The commissioner, beginning July 1, 2015, must annually report summary data on:

1. the four- and six-year graduation rates of students under this paragraph;
2. the percent of students under this paragraph whose progress and performance levels are meeting career and college readiness benchmarks under section 120B.30, subdivision 1; and
3. the success that learning year program providers experience in:
   i. identifying at-risk and off-track student populations by grade;
   ii. providing successful prevention and intervention strategies for at-risk students;
   iii. providing successful recuperative and recovery or reenrollment strategies for off-track students; and
   iv. improving the graduation outcomes of at-risk and off-track students.

The commissioner may include in the annual report summary data on other education providers serving a majority of students eligible to participate in a learning year program.

The commissioner, in consultation with recognized experts with knowledge and experience in assessing the language proficiency and academic performance of all English learners enrolled in a Minnesota public school course or program who are currently or were previously counted as an English learner under section 124D.59, must identify and report appropriate and effective measures to improve current categories of language difficulty and assessments, and monitor and report data on students' English proficiency levels, program placement, and academic language development, including oral academic language.

When reporting four- and six-year graduation rates, the commissioner or school district must disaggregate the data by student categories according to paragraph (a), clause (2).

A school district must inform parents and guardians that volunteering information on student categories not required by the most recent reauthorization of the Elementary and Secondary Education Act is optional and will not violate the privacy of students or their families, parents, or guardians. The notice must state the purpose for collecting the student data.
Sec. 9. Minnesota Statutes 2018, section 120B.36, subdivision 1, is amended to read:

Subdivision 1. School performance reports and public reporting. (a) The commissioner shall report:

(1) student academic performance data under section 120B.35, subdivisions 2 and 3; the percentages of students showing low, medium, and high growth under section 120B.35, subdivision 3, paragraph (b) (2) academic progress consistent with federal expectations;

(3) school safety and student engagement and connection under section 120B.35, subdivision 3, paragraph (d);

(4) rigorous coursework under section 120B.35, subdivision 3, paragraph (c);

(5) the percentage of students under section 120B.35, subdivision 3, paragraph (b), clause (2), whose progress and performance levels are meeting career and college readiness benchmarks under sections 120B.30, subdivision 1, and 120B.35, subdivision 3, paragraph (e);

(8) the percentage of students who graduated in the previous school year who correctly answered at least 30 of 50 civics test questions in accordance with section 120B.02, subdivision 3;

(9) two separate student-to-teacher ratios that clearly indicate the definition of teacher consistent with sections 122A.06 and 122A.15 for purposes of determining these ratios;

(10) staff characteristics excluding salaries;

(11) student enrollment demographics;

(12) foster care status, including all students enrolled in a Minnesota public school course or program who are currently or were previously in foster care, student homelessness, and district mobility; and

(13) extracurricular activities.
(b) The school performance report for a school site and a school district must include school performance reporting information and calculate proficiency rates as required by the most recently reauthorized Elementary and Secondary Education Act.

c) The commissioner shall develop, annually update, and post on the department website school performance reports consistent with paragraph (a) and section 120B.11.

d) The commissioner must make available performance reports by the beginning of each school year.

e) A school or district may appeal its results in a form and manner determined by the commissioner and consistent with federal law. The commissioner's decision to uphold or deny an appeal is final.

(f) School performance data are nonpublic data under section 13.02, subdivision 9, until the commissioner publicly releases the data. The commissioner shall annually post school performance reports to the department's public website no later than September 1, except that in years when the reports reflect new performance standards, the commissioner shall post the school performance reports no later than October 1.

EFFECTIVE DATE. This section is effective for the 2019-2020 school year and later.

Sec. 10. [121A.223] POSSESSION AND USE OF SUNSCREEN.

A school district must allow a student to possess and apply a topical sunscreen product during the school day, while on school property, or at a school-sponsored event without a prescription, physician's note, or other documentation from a licensed health care professional. A school district may adopt a policy related to student possession and use of sunscreen consistent with this section. Nothing in this section requires school personnel to provide sunscreen or assist students in applying sunscreen.

Sec. 11. Minnesota Statutes 2018, section 123B.06, is amended to read:

123B.06 EVALUATION OF PUPIL GROWTH AND PROGRESS; PERMANENT RECORDS.

Each school district shall provide a testing an assessment program for the purpose of measuring pupil growth and for curriculum evaluation, as well as a system for grading and making reports to parents. Each district shall develop an appropriate program of pupil progress and promotion that may include competency-based education as described in section 120B.02, subdivision 1a, for its elementary, middle, and secondary schools. Each
district shall keep accurate and complete individual, permanent, cumulative personal records
for all pupils.

Sec. 12. Minnesota Statutes 2018, section 124D.09, subdivision 3, is amended to read:

Subd. 3. Definitions. For purposes of this section, the following terms have the meanings
given to them.

residential, two-year or four-year, liberal arts, degree-granting college or university located
in Minnesota.

(b) "Course" means a course or program.

(c) "Concurrent enrollment" means nonsectarian courses in which an eligible pupil under
subdivision 5 or 5b enrolls to earn both secondary and postsecondary credits, are taught by
a secondary teacher or a postsecondary faculty member, and are offered at a high school
for which the district is eligible to receive concurrent enrollment program aid under section
124D.091.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 13. Minnesota Statutes 2018, section 124D.09, subdivision 5b, is amended to read:

the contrary, a 9th or 10th grade pupil enrolled in a district or an American Indian-controlled
tribal contract or grant school eligible for aid under section 124D.83, except a foreign
exchange pupil enrolled in a district under a cultural exchange program, may apply to enroll
in nonsectarian courses offered under subdivision 10, if:

(1) the school district and the eligible postsecondary institution providing the course
agree to the student's enrollment; or

(2) the course is a world language course currently available to 11th and 12th grade

Sec. 17. [124D.093] P-TECH SCHOOLS.

Subdivision 1. Establishment. (a) P-TECH schools are established as a public-private partnership that will prepare students for high-skill jobs of the future in identified growth industries.

(b) The P-TECH school model must deliver five core benefits to students:

1. a rigorous, relevant, and cost-free education in grades 9 to 14, inclusive, focused on knowledge and skills that students need for science, technology, engineering, and mathematics (STEM) careers;

2. workplace learning that includes mentoring by industry professionals, worksite visits, speakers, and internships;

3. intensive, individualized academic support by both secondary and postsecondary faculty within an academic year or school day that enables students to progress through the program at their own pace;

4. an opportunity to earn an associate's degree; and

5. a commitment to students who complete the program to be first in line for a job with participating business partners following completion of the program.

Subd. 2. Objectives. (a) P-TECH schools must accomplish the following:

3. support strong academic performance by program participants;

4. promote informed and appropriate career choices and preparation; and

5. ensure that employers in key technical fields have access to a talented and skilled workforce.

(b) Through the programs of study developed under this section, participating students must be able to earn college course credit toward an associate's degree. Career pathways will begin in grade 9 and must include workplace learning, high school, and postsecondary coursework. These pathways will provide a seamless sequence of study, extending through two years of postsecondary career and technical education, and culminating in an associate's degree.
Subd. 3. Application process. The commissioner must determine the form and manner of application for a school to be designated a P-TECH school. The application must contain at least the following information:

(8) any additional information that the commissioner requires.

Subd. 4. Approval process. (a) The commissioner of education must appoint an advisory committee to review the applications and to recommend approval for those applications that meet the requirements of this section. The commissioner of education has final authority over application approvals.

An approved P-TECH school is eligible to receive a grant to support start-up costs the year before first enrolling P-TECH students.

Sec. 18. Minnesota Statutes 2018, section 124D.12, is amended to read:

124D.12 PURPOSE OF FLEXIBLE LEARNING YEAR PROGRAMS.

Sections 124D.12 to 124D.127 authorize districts to evaluate, plan and employ the use of flexible learning year programs. It is anticipated that the open selection of the type of flexible learning year operation from a variety of alternatives will allow each district seeking to utilize this concept to suitably fulfill the educational needs of its pupils. These alternatives must include, but not be limited to, various 45-15 plans, four-quarter plans, quinmester plans, extended learning year plans, and flexible all-year plans. A school district with an approved four-day week plan in the 2014-2015 school year may continue under a four-day week plan through the end of the 2019-2020 school year. Future approvals are contingent upon meeting the school district's performance goals established in the district's plan under section 120B.11. The commissioner must give a school district one school year's notice before revoking approval of its flexible learning year program.

EFFECTIVE DATE. This section is effective for the 2019-2020 school year and later.

Sec. 19. Minnesota Statutes 2018, section 124D.121, is amended to read:

124D.121 DEFINITION OF FLEXIBLE LEARNING YEAR PROGRAM.

"Flexible learning year program" means any district plan approved by the commissioner school board that utilizes buildings and facilities during the entire year or that provides forms of optional scheduling of pupils and personnel during the learning year in elementary and secondary schools or residential facilities for children with a disability.

EFFECTIVE DATE. This section is effective for the 2019-2020 school year and later.

Sec. 20. Minnesota Statutes 2018, section 124D.122, is amended to read:

124D.122 ESTABLISHMENT OF FLEXIBLE LEARNING YEAR PROGRAM.

The board of any district or a consortium of districts, with the approval of the commissioner, may establish and operate a flexible learning year program in one or more of the day or residential facilities for children with a disability within the district. Consortiums may use a single application and evaluation process, though results, public hearings, and board approvals must be obtained for each district as required under appropriate sections. The commissioner must approve or disapprove of a flexible learning year application within 45 business days of receiving the application. If the commissioner disapproves the application, the commissioner must give the district or consortium detailed reasons for the disapproval.

Article 2 Sec. 20.

Sec. 21. Minnesota Statutes 2018, section 124D.126, subdivision 1, is amended to read:

2. cooperate with and provide supervision of flexible learning year programs to
determine compliance with the provisions of sections 124D.12 to 124D.127, the
commissioner’s standards and qualifications, and the proposed program as submitted and
approved;

(3) provide any necessary adjustments of (a) attendance and membership computations
and (b) the dates and percentages of apportionment of state aids; and

(4) consistent with the definition of "average daily membership" in section 126C.05,
subdivision 8, furnish the board of a district implementing a flexible learning year program
with a formula for computing average daily membership. This formula must be computed
so that tax levies to be made by the district, state aids to be received by the district, and any
and all other formulas based upon average daily membership are not affected solely as a
result of adopting this plan of instruction.

EFFECTIVE DATE. This section is effective for the 2019-2020 school year and later.

terminate a flexible learning year program in one or more of the day or residential facilities
for children with a disability within the district. This section shall not be construed to permit
an exception to section 120A.22, 127A.41, subdivision 7, or 127A.43.

**SPECIAL EDUCATION**

Section 1. Minnesota Statutes 2018, section 125A.08, is amended to read:

**125A.08 INDIVIDUALIZED EDUCATION PROGRAMS.**

(a) At the beginning of each school year, each school district shall have in effect, for each child with a disability, an individualized education program.

(b) As defined in this section, every district must ensure the following:

(1) all students with disabilities are provided the special instruction and services which are appropriate to their needs. Where the individualized education program team has determined appropriate goals and objectives based on the student's needs, including the extent to which the student can be included in the least restrictive environment, and where there are essentially equivalent and effective instruction, related services, or assistive technology devices available to meet the student's needs, cost to the district may be among the factors considered by the team in choosing how to provide the appropriate services, instruction, or devices that are to be made part of the student's individualized education program. The individualized education program team shall consider and may authorize services covered by medical assistance according to section 256B.0625, subdivision 26.

Before a school district evaluation team makes a determination of other health disability under Minnesota Rules, part 3525.1335, subparts 1 and 2, item A, subitem (1), the evaluation
team must seek written documentation of the student's medically diagnosed chronic or acute
health condition signed by a licensed physician or a licensed health care provider acting
within the scope of the provider's practice. The student's needs and the special education
instruction and services to be provided must be agreed upon through the development of
an individualized education program. The program must address the student's need to develop
skills to live and work as independently as possible within the community. The individualized
education program team must consider positive behavioral interventions, strategies, and
supports that address behavior needs for children. During grade 9, the program must address
the student's needs for transition from secondary services to postsecondary education and
training, employment, community participation, recreation, and leisure and home living. In
developing the program, districts must inform parents of the full range of transitional goals
and related services that should be considered. The program must include a statement of
the needed transition services, including a statement of the interagency responsibilities or
linkages or both before secondary services are concluded. If the individualized education
program meets the plan components in section 120B.125, the individualized education
program satisfies the requirement and no additional transition plan is needed. The
individualized education program may report the student's performance on general state or
districtwide assessments related to the student's educational needs;

(2) children with a disability under age five and their families are provided special
instruction and services appropriate to the child's level of functioning and needs;

(3) children with a disability and their parents or guardians are guaranteed procedural
safeguards and the right to participate in decisions involving identification, assessment
including assistive technology assessment, and educational placement of children with a
disability;

(4) eligibility and needs of children with a disability are determined by an initial
evaluation or reevaluation, which may be completed using existing data under United States
Code, title 20, section 33, et seq.;

(5) to the maximum extent appropriate, children with a disability, including those in
public or private institutions or other care facilities, are educated with children who are not
disabled, and that special classes, separate schooling, or other removal of children with a
disability from the regular educational environment occurs only when and to the extent that
the nature or severity of the disability is such that education in regular classes with the use
of supplementary services cannot be achieved satisfactorily;
(6) in accordance with recognized professional standards, testing and evaluation materials, and procedures used for the purposes of classification and placement of children with a disability are selected and administered so as not to be racially or culturally discriminatory; and

(7) the rights of the child are protected when the parents or guardians are not known or not available, or the child is a ward of the state.

c) For all paraprofessionals employed to work in programs whose role in part is to provide direct support to students with disabilities, the school board in each district shall ensure that:

(1) before or beginning at the time of employment, each paraprofessional must develop sufficient knowledge and skills in emergency procedures, building orientation, roles and responsibilities, confidentiality, vulnerability, and reportability, among other things, to begin meeting the needs, especially disability-specific and behavioral needs, of the students with whom the paraprofessional works;

(2) annual training opportunities are required to enable the paraprofessional to continue to further develop the knowledge and skills that are specific to the students with whom the paraprofessional works, including understanding disabilities, the unique and individual needs of each student according to the student's disability and how the disability affects the student's education and behavior, following lesson plans, and implementing follow-up instructional procedures and activities; and

(3) a districtwide process obligates each paraprofessional to work under the ongoing direction of a licensed teacher and, where appropriate and possible, the supervision of a school nurse.

d) A school district may conduct a functional behavior assessment as defined in Minnesota Rules, part 3525.0210, subpart 22, as a stand-alone evaluation without conducting a comprehensive evaluation of the student. A parent may request a school district to conduct a comprehensive evaluation.

Sec. 2. Minnesota Statutes 2018, section 125A.091, subdivision 3a, is amended to read:

Subd. 3a. Additional requirements for prior written notice. In addition to federal law requirements, a prior written notice shall:

(1) inform the parent that except for the initial placement of a child in special education, the school district will proceed with its proposal for the child's placement or for providing
special education services unless the child's parent notifies the district of an objection within
14 days of when the district sends the prior written notice to the parent; and

(2) state that a parent who objects to a proposal or refusal in the prior written notice
may:

(i) request a conciliation conference under subdivision 7 or another alternative dispute
resolution procedure under subdivision 8 or 9; or

(ii) identify the specific part of the proposal or refusal the parent objects to and request
a meeting of the individualized education program team.

Sec. 3. Minnesota Statutes 2018, section 125A.091, subdivision 7, is amended to read:

Subd. 7. Conciliation conference. A parent must have an opportunity to request a
meeting with appropriate members of the individualized education program team or meet
with appropriate district staff in at least one conciliation conference if the parent objects to
any proposal of which the parent receives notice under subdivision 3a. A district must hold
a conciliation conference within ten calendar days from the date the district receives a
parent's objection to a proposal or refusal in the prior written notice request for a conciliation
conference. Except as provided in this section, all discussions held during a conciliation
conference are confidential and are not admissible in a due process hearing. Within five
school days after the final conciliation conference, the district must prepare and provide to
the parent a conciliation conference memorandum that describes the district's final proposed
offer of service. This memorandum is admissible in evidence in any subsequent proceeding.

facility and the employee or person providing services in the facility are in compliance with

the laws and rules relevant to the occurrence or event.

(b) "Commissioner" means the commissioner of human services.

c) "Facility" means:

(1) a licensed or unlicensed day care facility, certified license-exempt child care center,

residential facility, agency, hospital, sanitarium, or other facility or institution required to

be licensed under sections 144.50 to 144.58, 241.021, or 245A.01 to 245A.16, or chapter

subdivision 19a.

d) "Family assessment" means a comprehensive assessment of child safety, risk of

subsequent child maltreatment, and family strengths and needs that is applied to a child

maltreatment report that does not allege sexual abuse or substantial child endangerment.

Family assessment does not include a determination as to whether child maltreatment

occurred but does determine the need for services to address the safety of family members

and the risk of subsequent maltreatment.

e) "Investigation" means fact gathering related to the current safety of a child and the

risk of subsequent maltreatment that determines whether child maltreatment occurred and

whether child protective services are needed. An investigation must be used when reports

involve sexual abuse or substantial child endangerment, and for reports of maltreatment in

facilities required to be licensed or certified under chapter 245A, 245D, or 245H; under

sections 144.50 to 144.58 and 241.021; in a school as defined in section 120A.05,

association as defined in section 256B.0625, subdivision 19a.

f) "Mental injury" means an injury to the psychological capacity or emotional stability

of a child as evidenced by an observable or substantial impairment in the child's ability to

function within a normal range of performance and behavior with due regard to the child's

culture.
(g) "Neglect" means the commission or omission of any of the acts specified under clauses (1) to (9), other than by accidental means:

1. Failure by a person responsible for a child's care to supply a child with necessary food, clothing, shelter, health, medical, or other care required for the child's physical or mental health when reasonably able to do so;

2. Failure to protect a child from conditions or actions that seriously endanger the child's physical or mental health when reasonably able to do so, including a growth delay, which may be referred to as a failure to thrive, that has been diagnosed by a physician and is due to parental neglect;

3. Failure to provide for necessary supervision or child care arrangements appropriate for a child after considering factors as the child's age, mental ability, physical condition, length of absence, or environment, when the child is unable to care for the child's own basic needs or safety, or the basic needs or safety of another child in their care;

5. Nothing in this section shall be construed to mean that a child is neglected solely because the child's parent, guardian, or other person responsible for the child's care in good faith selects and depends upon spiritual means or prayer for treatment or care of disease or remedial care of the child in lieu of medical care; except that a parent, guardian, or caretaker, or a person mandated to report pursuant to subdivision 3, has a duty to report if a lack of medical care may cause serious danger to the child's health. This section does not impose upon persons, not otherwise legally responsible for providing a child with necessary food, clothing, shelter, education, or medical care, a duty to provide that care;

6. Prenatal exposure to a controlled substance, as defined in section 253B.02, subdivision 2, used by the mother for a nonmedical purpose, as evidenced by withdrawal symptoms in the child at birth, results of a toxicology test performed on the mother at delivery or the child at birth, medical effects or developmental delays during the child's first year of life that medically indicate prenatal exposure to a controlled substance, or the presence of a fetal alcohol spectrum disorder;

7. "Medical neglect" as defined in section 260C.007, subdivision 6, clause (5);
(8) chronic and severe use of alcohol or a controlled substance by a parent or person
responsible for the care of the child that adversely affects the child's basic needs and safety;

or

(9) emotional harm from a pattern of behavior which contributes to impaired emotional
functioning of the child which may be demonstrated by a substantial and observable effect
in the child's behavior, emotional response, or cognition that is not within the normal range
for the child's age and stage of development, with due regard to the child's culture.

(h) "Nonmaltreatment mistake" means:

providing services were both in compliance with all licensing requirements relevant to the
incident.

This definition only applies to child care centers licensed under Minnesota Rules, chapter

nonmaltreatment mistake was made by the individual.

(i) "Operator" means an operator or agency as defined in section 245A.02.

(j) "Person responsible for the child's care" means (1) an individual functioning within
the family unit and having responsibilities for the care of the child such as a parent, guardian,

babysitting whether paid or unpaid, counseling, teaching, and coaching.
(k) "Physical abuse" means any physical injury, mental injury, or threatened injury, inflicted by a person responsible for the child's care on a child other than by accidental means, or any physical or mental injury that cannot reasonably be explained by the child's history of injuries, or any aversive or deprivation procedures, or regulated interventions, that have not been authorized under section 125A.0942 or 245.825.

ARTICLE 6
FACILITIES, FUND TRANSFERS, AND ACCOUNTING

Section 1. Minnesota Statutes 2018, section 121A.335, subdivision 3, is amended to read:

Subd. 3. Frequency of testing. (a) The plan under subdivision 2 must include a testing schedule for every building serving prekindergarten through grade 12 students. The schedule must require that each building be tested at least once every five years. A school district or
charter school must begin testing school buildings by July 1, 2018, and complete testing of
all buildings that serve students within five years.

(b) A school district or charter school that finds lead at a specific location providing
cooking or drinking water within a facility must formulate, make publicly available, and
implement a plan that is consistent with established guidelines and recommendations to
ensure that student exposure to lead is minimized. This includes, when a school district or
charter school finds the presence of lead at a level where action should be taken as set by
the guidance in any water source that can provide cooking or drinking water, immediately
shutting off the water source or making it unavailable until the hazard has been minimized.

Sec. 2. Minnesota Statutes 2018, section 121A.335, subdivision 5, is amended to read:

Subd. 5. Reporting. A school district or charter school that has tested its buildings for
the presence of lead shall make the results of the testing available to the public for review
and must notify parents of the availability of the information. School districts and charter
schools must follow the actions outlined in guidance from the commissioners of health and
education. If a test conducted under subdivision 3, paragraph (a), reveals the presence of
lead above a level where action should be taken as set by the guidance, the school district
or charter must, within 30 days of receiving the test result, either remediate the presence of
lead to below the level set in guidance, verified by retest, or directly notify parents of the
test result. The school district or charter school must make the water source unavailable
until the hazard has been minimized.

Sec. 3. [121A.337] NOTIFICATION OF ENVIRONMENTAL HAZARDS.

If the Department of Health or Pollution Control Agency notifies a school district, charter
school, or nonpublic school of environmental hazards that may affect the health of students
or school staff, the school must notify school staff, students, and parents of the hazards as
soon as practicable. The notice must include direction on how to obtain additional information
about the hazard, including any actions that may reduce potential harm to those affected by
the hazard.

requirements for competitive bidding, other provisions of this section governing school
district contracts, or other law to the contrary, a school district under this subdivision may
dispose of school computers, including a tablet device.

(b) A school district may dispose of a surplus school computer and related equipment
if the district disposes of the surplus property by conveying the property and title to:

(1) another school district;

(2) the state Department of Corrections;

(3) the Board of Trustees of the Minnesota State Colleges and Universities; or

(4) the family of a student residing in the district whose total family income meets the
federal definition of poverty.

(c) If surplus school computers are not disposed of under paragraph (b), upon adoption
of a written resolution of the school board, when updating or replacing school computers,
including tablet devices, used primarily by students, a school district may sell or give used
computers or tablets to qualifying students at the price specified in the written resolution.

A student is eligible to apply to the school board for a computer or tablet under this
subdivision if the student is currently enrolled in the school and intends to enroll in the
school in the year following the receipt of the computer or tablet. If more students apply
for computers or tablets than are available, the school must first qualify students whose
families are eligible for free or reduced-price meals, and then dispose of the remaining
computers or tablets by lottery.

a public school must enter and maintain monthly utility consumption data into the Minnesota
B3 benchmarking program for all buildings under its custodial control. Reporting by a third
party, including automatic reporting by an electric or gas utility, may be used to meet this
requirement. A school or school district must not be penalized for failure to comply with
this section.

2. the product of the district's aid per pupil unit according to subdivision 4 times the number of weighted pupils enrolled at the nonpublic school as of October 1 of the previous school year.

(c) For purposes of this subdivision, nonpublic school pupils shall be weighted by grade level using the weighting factors defined in section 126C.05, subdivision 1.

(d) Each year, a district providing services under paragraph (a) may claim up to five percent of the aid determined in paragraph (b) for costs of administering this subdivision. No district may expend an amount for these telecommunications access services which exceeds the amount allocated under this subdivision. The nonpublic school is responsible for the Internet access costs not covered by this section.

(e) At the request of a nonpublic school, districts may allocate the amount determined in paragraph (b) directly to the nonpublic school to pay for or offset the nonpublic school's costs for telecommunications access services; however, the amount allocated directly to the
nonpublic school may not exceed the actual amount of the school's ongoing or recurring telecommunications access costs.

**EFFECTIVE DATE.** This section is effective for revenue in fiscal year 2020 and later.

NUTRITION AND LIBRARIES

Section 1. Minnesota Statutes 2018, section 124D.111, is amended to read:

124D.111 SCHOOL MEALS POLICIES; LUNCH AID; FOOD SERVICE

ACCOUNTING.

Subdivision 1. School lunch aid computation. (a) Each Minnesota participant in the national school lunch program must adopt and post to its website, or the website of the organization where the meal is served, a school meals policy.

(b) The policy must be in writing and clearly communicate student meal charges when payment cannot be collected at the point of service. The policy must be reasonable and well-defined and maintain the dignity of students by prohibiting lunch shaming.

Subd. 1a. School lunch aid amounts. Each school year, the state must pay participants in the national school lunch program the amount of 12.5 cents for each full paid and free student lunch and 52.5 cents for each reduced-price lunch served to students.

Subd. 2. Application. A school district, charter school, nonpublic school, or other participant in the national school lunch program shall apply to the department for this payment on forms provided by the department.

Subd. 2a. Federal Child and Adult Care Food Program; criteria and notice. The commissioner must post on the department's website eligibility criteria and application information for nonprofit organizations interested in applying to the commissioner for approval as a multisite sponsoring organization under the federal Child and Adult Care Food Program. The posted criteria and information must inform interested nonprofit organizations about:

(1) the criteria the commissioner uses to approve or disapprove an application, including how an applicant demonstrates financial viability for the Minnesota program, among other criteria;

(2) the commissioner's process and time line for notifying an applicant when its application is approved or disapproved and, if the application is disapproved, the explanation the commissioner provides to the applicant; and

(3) any appeal or other recourse available to a disapproved applicant.
Subd. 3. **School food service fund.** (a) The expenses described in this subdivision must be recorded as provided in this subdivision.

(b) In each district, the expenses for a school food service program for pupils must be attributed to a school food service fund. Under a food service program, the school food service may prepare or serve milk, meals, or snacks in connection with school or community service activities.

(c) Revenues and expenditures for food service activities must be recorded in the food service fund. The costs of processing applications, accounting for meals, preparing and serving food, providing kitchen custodial services, and other expenses involving the preparing of meals or the kitchen section of the lunchroom may be charged to the food service fund or to the general fund of the district. The costs of lunchroom supervision, lunchroom custodial services, lunchroom utilities, and other administrative costs of the food service program must be charged to the general fund.

That portion of superintendent and fiscal manager costs that can be documented as attributable to the food service program may be charged to the food service fund provided that the school district does not employ or contract with a food service director or other individual who manages the food service program, or food service management company. If the cost of the superintendent or fiscal manager is charged to the food service fund, the charge must be at a wage rate not to exceed the statewide average for food service directors as determined by the department.

(d) Capital expenditures for the purchase of food service equipment must be made from the general fund and not the food service fund, unless the restricted balance in the food service fund at the end of the last fiscal year is greater than the cost of the equipment to be purchased.

(e) If the condition set out in paragraph (d) applies, the equipment may be purchased from the food service fund.

(f) If a deficit in the food service fund exists at the end of a fiscal year, and the deficit is not eliminated by revenues from food service operations in the next fiscal year, then the deficit must be eliminated by a permanent fund transfer from the general fund at the end of that second fiscal year. However, if a district contracts with a food service management company during the period in which the deficit has accrued, the deficit must be eliminated by a payment from the food service management company.

(g) Notwithstanding paragraph (f), a district may incur a deficit in the food service fund for up to three years without making the permanent transfer if the district submits to the
commissioner by January 1 of the second fiscal year a plan for eliminating that deficit at
the end of the third fiscal year.

(h) If a surplus in the food service fund exists at the end of a fiscal year for three
successive years, a district may recode for that fiscal year the costs of lunchroom supervision,
lunchroom custodial services, lunchroom utilities, and other administrative costs of the food
service program charged to the general fund according to paragraph (c) and charge those
costs to the food service fund in a total amount not to exceed the amount of surplus in the
food service fund.

Subd. 4. No fees. A participant that receives school lunch aid under this section must
make lunch available without charge to all participating students who qualify for free or
reduced-price meals. The participant must also ensure that any reminders for payment of
outstanding student meal balances do not demean or stigmatize any child participating in
the school lunch program.

120B.299 DEFINITIONS.

Subdivision 1. Definitions. The definitions in this section apply to this chapter.

Subd. 2. Growth. "Growth" compares the difference in a student's achievement score at two or more distinct points in time.

Subd. 3. Value added. "Value added" is the amount of achievement a student demonstrates above an established baseline. The difference between the student's score and the baseline defines value added.

Subd. 4. Value-added growth. "Value-added growth" is based on a student's growth score. In a value-added growth system, the student's first test is the baseline, and the difference between the student's first and next test scores within a defined period is the measure of value added. Value-added growth models use student-level data to measure what portion of a student's growth can be explained by inputs related to the educational environment.

Subd. 5. Adequate yearly progress. A school or district makes "adequate yearly progress" if, for every student subgroup under the federal 2001 No Child Left Behind Act in the school or district, its proficiency index or other approved adjustments for performance, based on statewide assessment scores, meets or exceeds federal expectations. To make adequate yearly progress, the school or district also must satisfy applicable federal requirements related to student attendance, graduation, and test participation rates.

Subd. 6. State growth target. (a) "State growth target" is the average year-two assessment scores for students with similar year-one assessment scores.

(b) The state growth targets for each grade and subject are benchmarked as follows until the assessment scale changes:

1. Beginning in the 2008-2009 school year, the state growth target for grades 3 through 8 is benchmarked to 2006-2007 and 2007-2008 school year data;
2. Beginning in the 2008-2009 school year the state growth target for grade 10 is benchmarked to 2005-2006 and 2006-2007 school year data;
3. For the 2008-2009 school year, the state growth target for grade 11 is benchmarked to 2005-2006 school year data; and
4. Beginning in the 2009-2010 school year, the state growth target for grade 11 is benchmarked to 2005-2006 and 2006-2007 school year data.

(c) Each time before the assessment scale changes, a stakeholder group that includes assessment and evaluation directors and staff and researchers must recommend a new state growth target that the commissioner must consider when revising standards under section 120B.021, subdivision 4.

Subd. 7. Low growth. "Low growth" is an assessment score one-half standard deviation below the state growth target.

Subd. 8. Medium growth. "Medium growth" is an assessment score within one-half standard deviation above or below the state growth target.

Subd. 9. High growth. "High growth" is an assessment score one-half standard deviation or more above the state growth target.

Subd. 10. Proficiency. "Proficiency" for purposes of reporting growth on school performance report cards under section 120B.36, subdivision 1, means those students who, in the previous school year, scored at or above "meets standards" on the statewide assessments under section 120B.30. Each year, school performance report cards must separately display: (1) the numbers and percentages of students who achieved low growth, medium growth, and high growth and achieved proficiency in the previous school year; and (2) the numbers and percentages of students who achieved low growth, medium growth, and high growth and did not achieve proficiency in the previous school year.

Subd. 11. Growth and progress toward proficiency. The categories of low growth, medium growth, and high growth shall be used to indicate both (1) growth and (2) progress toward grade-level proficiency that is consistent with subdivision 10.
122A.09 DUTIES.
Subdivision 1. Code of ethics. The Professional Educator Licensing and Standards Board must develop by rule a code of ethics covering standards of professional teaching practices, including areas of ethical conduct and professional performance and methods of enforcement.

122A.175 SPECIAL REVENUE FUND ACCOUNTS; EDUCATOR LICENSURE AND BACKGROUND CHECKS.
Subdivision 1. Educator licensure account. An educator licensure account is created in the special revenue fund. Applicant licensure fees received by the Department of Education, the Professional Educator Licensing and Standards Board, or the Board of School Administrators must be deposited in the educator licensure account. Any funds appropriated from this account that remain unexpended at the end of the biennium cancel to the educator licensure account in the special revenue fund.

Subd. 2. Background check account. An educator licensure background check account is created in the special revenue fund. The Department of Education, the Professional Educator Licensing and Standards Board, and the Board of School Administrators must deposit all payments submitted by license applicants for criminal background checks conducted by the Bureau of Criminal Apprehension in the educator licensure background check account. Amounts in the account are annually appropriated to the commissioner of education for payment to the superintendent of the Bureau of Criminal Apprehension for the costs of background checks on applicants for licensure.

122A.63 GRANTS TO PREPARE INDIAN TEACHERS.
Subd. 7. Loan forgiveness. The loan may be forgiven if the recipient is employed as a teacher, as defined in section 122A.40 or 122A.41, in an eligible school or program in Minnesota. One-fourth of the principal of the outstanding loan amount shall be forgiven for each year of eligible employment, or a pro rata amount for eligible employment during part of a school year, part-time employment as a substitute teacher, or other eligible part-time teaching. Loans for $2,500 or less may be forgiven at the rate of up to $1,250 per year. The following schools and programs are eligible for the purposes of loan forgiveness:

(1) a school or program operated by a school district;
(2) a tribal contract school eligible to receive aid according to section 124D.83;
(3) a Head Start program;
(4) an early childhood family education program;
(5) a program providing educational services to children who have not entered kindergarten;
or
(6) a program providing educational enrichment services to American Indian students in grades kindergarten through 12.

If a person has an outstanding loan obtained through this program, the duty to make payments of principal and interest may be deferred during any time period the person is enrolled at least one-half time in an advanced degree program in a field that leads to employment by a school district. To defer loan obligations, the person shall provide written notification to the commissioner of education and the recipients of the joint grant that originally authorized the loan. Upon approval by the commissioner and the joint grant recipients, payments shall be deferred.

The Minnesota Office of Higher Education shall approve the loan forgiveness program, loan deferral, and procedures to administer the program.

Subd. 8. Revolving fund. The Indian teacher preparation loan repayment revolving account is established in the state treasury. Any amounts repaid or contributed by a teacher who received a scholarship or loan under this program shall be deposited in the account. All money in the account is annually appropriated to the commissioner of education and shall be used to enable Indian students to participate in the program.

123A.26 COOPERATIVE UNITS; PROHIBITED AID AND LEVIES.
Subd. 3. Allocation from members. By July 15 of each year, a school district may, by board resolution, request the department to make a payment to a third party. an amount equal to $100 times the adjusted pupil units for the fiscal year beginning July 1. By July 30 of each year, the school district must report to the commissioner the amount allocated. The amount shall be paid to the third party according to section 127A.45, subdivision 16. Amounts paid to third parties under this subdivision shall be recognized and reported as revenues and expenditures on the school district's books of account under sections 123B.75 and 123B.76.

125A.75 SPECIAL EDUCATION PROGRAMS; APPROVAL; AID PAYMENTS; TRAVEL AID; LITIGATION COSTS.

Subd. 9. Litigation costs; annual report. (b) By February 1 of each year, the commissioner shall report school district special education litigation costs to the house of representatives and the senate committees having jurisdiction over kindergarten through grade 12 education finance.

126C.16 REFERENDUM AND DESEGREGATION REVENUE CONVERSION.

Subdivision 1. Revenue conversion. Except as provided under subdivision 3, the referendum authority under section 126C.17 of a district must be converted by the department according to this section.

Subd. 3. Per pupil revenue conversion. (a) The department must convert each district's referendum revenue authority for fiscal year 2002 and later years to an allowance per pupil unit as follows: the revenue allowance equals the amount determined by dividing the district's maximum revenue under section 126C.17, for fiscal year 2001 by the district's 2000-2001 resident marginal cost pupil units. A district's maximum revenue for all later years for which the revenue is authorized equals the revenue allowance times the district's resident marginal cost pupil units for that year.

(b) The referendum allowance reduction must be applied first to the authority with the earliest expiration date.

126C.17 REFERENDUM REVENUE.

Subd. 9a. Board-approved referendum allowance. Notwithstanding subdivision 9, a school district may convert up to $300 per adjusted pupil unit of referendum authority from voter approved to board approved by a board vote. A district with less than $300 per adjusted pupil unit of referendum authority after the local optional revenue subtraction under subdivision 1 may authorize new referendum authority up to the difference between $300 per adjusted pupil unit and the district's referendum authority. The board may authorize this levy for up to five years and may subsequently reauthorize that authority in increments of up to five years.

The allocation shall be made in a manner which will qualify the annuity premiums, or a portion thereof, for the benefit afforded under section 403(b) of the current federal Internal Revenue Code or any equivalent provision of subsequent federal income tax law. The employee shall own such contract and the employee's rights thereunder shall be nonforfeitable except for failure to pay premiums.

Students identified with a diagnosis of convergence insufficiency must undergo a vision efficiency evaluation by a licensed optometrist or ophthalmologist trained in the evaluation of learning-related vision problems. The results of this examination shall determine whether a student will qualify for neuro-optometric vision therapy funded by the grant. The parent or guardian of a student who qualifies for the pilot program under this paragraph may submit a written notification to the school opting the student out of the program.
