SENATE STATE OF MINNESOTA NINETY-THIRD SESSION

S.F. No. 781

(SENATE AUTH	IORS: KLEI	N)
DATE 01/26/2023	D-PG 410	OFFICIAL STATUS
		Referred to Agriculture, Broadband, and Rural Development

1.1	A bill for an act
1.2	relating to cannabis; providing for the regulation of the concentration and
1.3	conversion of cannabinoids derived from hemp; providing for regulation of the
1.4	transportation and testing of concentrated cannabinoids and artificially derived
1.5	cannabinoids derived from hemp; providing for the licensing of edible cannabinoid
1.6	product manufacturers and distributors; providing for regulation of the
1.7	transportation, testing, and labeling of hemp-derived consumer products and edible
1.8	cannabinoid products; providing for the regulation of the sale of hemp-derived
1.9	consumer products and edible cannabinoid products; providing for enforcement
1.10	of regulations; establishing guidelines for local licensing of certain retailers;
1.11	establishing a gross receipts tax on edible cannabinoid products; establishing
1.12	criminal penalties; authorizing exclusive liquor stores to sell certain products;
1.13	requiring reports; appropriating money; amending Minnesota Statutes 2022, sections
1.14	13.3806, by adding a subdivision; 18K.02, subdivision 5, by adding subdivisions;
1.15	18K.03, by adding a subdivision; 18K.04, subdivisions 1, 4, by adding a

21.31	indicating whe	ther testing must be	e performed to de	termine the presence of a	residual catalyst.		

22.1	(c) The commissioner must make the lists established pursuant to paragraph (b), clauses
22.2	(1) and (2) , available to the general public and any entity manufacturing, testing, marketing,
22.3	distributing, or selling products that contain cannabinoids. The commissioner must make
22.4	the lists established pursuant to paragraph (b), clause (3), available to approved independent
22.5	laboratories and laboratories operated by a state government agency, office, or department.
22.6	Subd. 2. Testing by manufacturers and distributors. (a) A licensed manufacturer,
22.7	distributor, or retailer must not sell, offer for sale, or otherwise transfer edible cannabinoid
22.8	products to another licensee or customer unless a representative sample of the batch of
22.9	edible cannabinoid products has been tested according to this section and any relevant rules
22.10	adopted by the commissioner, and has been found to meet the applicable testing standards.
22.11	(b) A licensed manufacturer of edible cannabinoid products shall make each batch
22.12	available for testing by an approved independent laboratory pursuant to a schedule and in
22.13	a manner established by the commissioner. A distributor of edible cannabinoid products
22.14	manufactured by an entity that is not a licensed manufacturer may make each batch available
22.15	for testing by an approved independent laboratory if the commissioner authorizes the testing
22.16	after determining that the process used in the manufacture of the edible cannabinoid product
22.17	will assure consistency within each batch.
22.18	(c) If a certification from an approved independent laboratory verifies that an edible
22.19	cannabinoid product meets the applicable testing standards, a licensed manufacturer,
22.20	distributor, or retailer may sell, offer for sale, or otherwise transfer the batch from which
22.21	the sample was taken to another licensee or customer. If a sample does not meet the
22.22	applicable testing standards, the batch from which the sample was taken shall be subject to
22.23	procedures established by the commissioner for such batches, including destruction,
22.24	remediation, or retesting.
22.25	(d) The licensed manufacturer or distributor on whose behalf testing was performed
22.26	must retain the test results for at least five years after the date of testing. Upon request of
22.27	the commissioner, the manufacturer or distributor must make the results available for
22.28	inspection or provide a copy to the commissioner.
22.29	Subd. 3. Confirmatory tests. A licensed manufacturer, distributor, or retailer must allow
22.30	a sampling agent, the commissioner, or the commissioner's designee to collect and test
22.31	regulatory samples of edible cannabinoid products.

28.2	gross misdemeanor and may be sentenced to imprisonment for not more than one year or						
28.3	to payment	of a fine of not mor	e than \$3,000, or b	ooth:			

- 28.4 (1) distributes an edible cannabinoid product without first obtaining a license from the
 28.5 commissioner;
- 28.6 (2) distributes an edible cannabinoid product to a retailer that does not comply with the
- 28.7 <u>limits on the amount or types of cannabinoids a product can contain;</u>
- 28.8 (3) distributes an edible cannabinoid product to a retailer that does not comply with the
 28.9 applicable testing, packaging, or labeling requirements; or
- 28.10 (4) distributes an edible cannabinoid product to a retailer who is not licensed to sell
- 28.11 edible cannabinoid products.

28.12 Sec. 14. [152.63] EDIBLE CANNABINOID PRODUCT RETAILER LICENSES; 28.13 LOCAL UNITS OF GOVERNMENT.

- 28.14 Subdivision 1. Issuance by local unit of government. (a) A city or town may issue
- 28.15 <u>annual edible cannabinoid product retailer licenses to persons within the city or town's</u>
- 28.16 jurisdiction. A county board may issue annual edible cannabinoid product retailer licenses
- 28.17 to persons in an area of the county that is unorganized or unincorporated.
- 28.18 (b) Any ordinance adopted by a local unit of government and any license issued by a
- 28.19 local unit of government must comply with the requirements and limits under this section.
- 28.20 Subd. 2. Fees. The annual license fee for an edible cannabinoid product retailer license
- 28.21 is the fee set by the local unit of government issuing the license. The fee must be set at an
- 28.22 amount equal to the median amount of the annual license fee that the local unit of government
- 28.23 charges for an off-sale intoxicating liquor license and the annual license fee that the local
- 28.24 <u>unit of government charges for a license to sell cigarettes and tobacco. The license fee is</u>
- 28.25 intended to cover the costs of issuing the license, inspecting the licensee, and other directly
- 28.26 related costs of enforcement.
- 28.27 Subd. 3. Persons eligible; transfer of licenses. (a) A local unit of government may
 28.28 issue an edible cannabinoid product retailer license to a person who:
- 28.29 (1) is at least 21 years of age;
- 28.30 (2) has completed an application for licensure or application for renewal and has fully
- 28.31 and truthfully complied with all information requests relating to license application and

 cancellation, suspension, or revocation during the license period.

30.3Subd. 7. Enforcement by local unit of government. On a finding that a license holder30.4failed to comply with an applicable statute, rule, or ordinance relating to edible cannabinoid

30.5 products, or failed to comply with a lawful license condition duly imposed by the authority

30.6 issuing the license or agreed to by the license holder, the authority issuing a retail license

- 30.7 <u>under this section may revoke the license, suspend the license for up to 60 days, impose a</u>
- 30.8 <u>civil penalty of up to \$2,000 for each violation, or impose any combination of these sanctions.</u>
- 30.9 No suspension or revocation takes effect until the license holder has been given an
- 30.10 opportunity for a hearing under sections 14.57 to 14.69 of the Administrative Procedure
- 30.11 Act. This section does not require a city, town, or county to conduct the hearing before an
- 30.12 employee of the Office of Administrative Hearings. Imposition of a penalty or suspension
- 30.13 by the issuing authority does not preclude imposition of an additional penalty or suspension
- 30.14 by the commissioner.

30.15 Sec. 15. [152.64] EDIBLE CANNABINOID PRODUCT RETAILER OPERATIONS.

30.16 <u>Subdivision 1.</u> Authorized actions. An edible cannabinoid product retailer license

30.17 entitles the license holder to purchase edible cannabinoid products from a licensed

30.18 manufacturer or licensed distributor, sell and deliver edible cannabinoid products to customers

- 30.19 who are 21 years of age or older, and perform other actions approved by the commissioner
- 30.20 and licensing authority.
- 30.21 Subd. 2. Requirements. A licensed retailer must:
- 30.22 (1) ensure that all edible cannabinoid products are stored in a manner that prohibits
- 30.23 access by persons under 21 years of age;
- 30.24 (2) ensure that all edible cannabinoid products offered for sale comply with the applicable
 30.25 testing, packaging, and labeling requirements;
- 30.26 (3) ensure that all edible cannabinoid products offered for sale comply with the limits
- 30.27 <u>on the amount and types of cannabinoids that an edible cannabinoid product can contain;</u>
- 30.28 (4) record all transactions involving edible cannabinoid products in the statewide
 30.29 monitoring system;
- 30.30 (5) comply with state and local building, fire, and zoning requirements or regulations;
 30.31 and

1	(6) ensure that the retail premises is maintained in clean and sanitary conditions, free
.1	from infestation by insects, rodents, or other pests.
.3	Subd. 3. Prohibitions. A licensed retailer must not:
.4	(1) sell an edible cannabinoid product to a person who is visibly intoxicated;
.5	(2) operate a drive-through window;
6	(3) allow for the dispensing of edible cannabinoid products from vending machines;
	(4) sell edible cannabinoid products if the retailer knows that the statewide monitoring
	system is not operational; or
	(5) sell edible cannabinoid products to a customer without verifying that the customer
	is at least 21 years of age.
	Subd. 4. Signage. At each location where edible cannabinoid products are sold, the
	licensee shall display a sign in plain view to provide public notice that selling any edible
	cannabinoid product to any person under 21 years of age is illegal and subject to penalties.
	The notice shall be placed in a conspicuous location in the licensed establishment and shall
	be readily visible to any person who is purchasing or attempting to purchase edible
	cannabinoid products. The sign shall provide notice that all persons responsible for selling
	edible cannabinoid products must verify the age of any customer who is under 30 years of
	age by means of photographic identification containing the bearer's date of birth.
	Subd. 5. Age verification. (a) Prior to initiating a sale or delivery, an employee of a
	licensed retailer must verify that a customer is 21 years of age or older.
	(b) Proof of age may be established only by one of the following:
	(1) a valid driver's license or identification card issued by Minnesota, another state, or
	a province of Canada that includes the photograph and date of birth of the licensed person;
	(2) a valid Tribal identification card as defined in section 171.072, paragraph (b);
	(3) a valid passport issued by the United States;
	(4) a valid instructional permit issued under section 171.05 to a person of legal age to
	purchase adult-use cannabis or adult-use cannabis products that includes a photograph and
	the date of birth of the person issued the permit; or
	(5) in the case of a foreign national, a valid passport.
	(c) A licensed retailer may seize a customer's form of identification listed under paragraph
	(b) if the licensed retailer has reasonable grounds to believe that the form of identification

APPENDIX Repealed Minnesota Statutes: 23-02009

151.72 SALE OF CERTAIN CANNABINOID PRODUCTS.

Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms have the meanings given.

(b) "Certified hemp" means hemp plants that have been tested and found to meet the requirements of chapter 18K and the rules adopted thereunder.

(c) "Edible cannabinoid product" means any product that is intended to be eaten or consumed as a beverage by humans, contains a cannabinoid in combination with food ingredients, and is not a drug.

(d) "Hemp" has the meaning given to "industrial hemp" in section 18K.02, subdivision 3.

(e) "Label" has the meaning given in section 151.01, subdivision 18.

(f) "Labeling" means all labels and other written, printed, or graphic matter that are:

(1) affixed to the immediate container in which a product regulated under this section is sold;

(2) provided, in any manner, with the immediate container, including but not limited to outer containers, wrappers, package inserts, brochures, or pamphlets; or

(3) provided on that portion of a manufacturer's website that is linked by a scannable barcode or matrix barcode.

(g) "Matrix barcode" means a code that stores data in a two-dimensional array of geometrically shaped dark and light cells capable of being read by the camera on a smartphone or other mobile device.

(h) "Nonintoxicating cannabinoid" means substances extracted from certified hemp plants that do not produce intoxicating effects when consumed by any route of administration.

Subd. 2. **Scope.** (a) This section applies to the sale of any product that contains cannabinoids extracted from hemp and that is an edible cannabinoid product or is intended for human or animal consumption by any route of administration.

(b) This section does not apply to any product dispensed by a registered medical cannabis manufacturer pursuant to sections 152.22 to 152.37.

(c) The board must have no authority over food products, as defined in section 34A.01, subdivision 4, that do not contain cannabinoids extracted or derived from hemp.

Subd. 3. **Sale of cannabinoids derived from hemp.** (a) Notwithstanding any other section of this chapter, a product containing nonintoxicating cannabinoids, including an edible cannabinoid product, may be sold for human or animal consumption only if all of the requirements of this section are met, provided that a product sold for human or animal consumption does not contain more than 0.3 percent of any tetrahydrocannabinol and an edible cannabinoid product does not contain an amount of any tetrahydrocannabinol that exceeds the limits established in subdivision 5a, paragraph (f).

(b) No other substance extracted or otherwise derived from hemp may be sold for human consumption if the substance is intended:

(1) for external or internal use in the diagnosis, cure, mitigation, treatment, or prevention of disease in humans or other animals; or

(2) to affect the structure or any function of the bodies of humans or other animals.

(c) No product containing any cannabinoid or tetrahydrocannabinol extracted or otherwise derived from hemp may be sold to any individual who is under the age of 21.

(d) Products that meet the requirements of this section are not controlled substances under section 152.02.

Subd. 4. **Testing requirements.** (a) A manufacturer of a product regulated under this section must submit representative samples of the product to an independent, accredited laboratory in order to certify that the product complies with the standards adopted by the board. Testing must be consistent with generally accepted industry standards for herbal and botanical substances, and, at a minimum, the testing must confirm that the product:

(1) contains the amount or percentage of cannabinoids that is stated on the label of the product;

APPENDIX Repealed Minnesota Statutes: 23-02009

(2) does not contain more than trace amounts of any mold, residual solvents, pesticides, fertilizers, or heavy metals; and

(3) does not contain more than 0.3 percent of any tetrahydrocannabinol.

(b) Upon the request of the board, the manufacturer of the product must provide the board with the results of the testing required in this section.

(c) Testing of the hemp from which the nonintoxicating cannabinoid was derived, or possession of a certificate of analysis for such hemp, does not meet the testing requirements of this section.

Subd. 5. Labeling requirements. (a) A product regulated under this section must bear a label that contains, at a minimum:

(1) the name, location, contact phone number, and website of the manufacturer of the product;

(2) the name and address of the independent, accredited laboratory used by the manufacturer to test the product; and

(3) an accurate statement of the amount or percentage of cannabinoids found in each unit of the product meant to be consumed.

(b) The information in paragraph (a) may be provided on an outer package if the immediate container that holds the product is too small to contain all of the information.

(c) The information required in paragraph (a) may be provided through the use of a scannable barcode or matrix barcode that links to a page on the manufacturer's website if that page contains all of the information required by this subdivision.

(d) The label must also include a statement stating that the product does not claim to diagnose, treat, cure, or prevent any disease and has not been evaluated or approved by the United States Food and Drug Administration (FDA) unless the product has been so approved.

(e) The information required by this subdivision must be prominently and conspicuously placed on the label or displayed on the website in terms that can be easily read and understood by the consumer.

(f) The labeling must not contain any claim that the product may be used or is effective for the prevention, treatment, or cure of a disease or that it may be used to alter the structure or function of human or animal bodies, unless the claim has been approved by the FDA.

Subd. 5a. Additional requirements for edible cannabinoid products. (a) In addition to the testing and labeling requirements under subdivisions 4 and 5, an edible cannabinoid must meet the requirements of this subdivision.

(b) An edible cannabinoid product must not:

(1) bear the likeness or contain cartoon-like characteristics of a real or fictional person, animal, or fruit that appeals to children;

(2) be modeled after a brand of products primarily consumed by or marketed to children;

(3) be made by applying an extracted or concentrated hemp-derived cannabinoid to a commercially available candy or snack food item;

(4) contain an ingredient, other than a hemp-derived cannabinoid, that is not approved by the United States Food and Drug Administration for use in food;

(5) be packaged in a way that resembles the trademarked, characteristic, or product-specialized packaging of any commercially available food product; or

(6) be packaged in a container that includes a statement, artwork, or design that could reasonably mislead any person to believe that the package contains anything other than an edible cannabinoid product.

(c) An edible cannabinoid product must be prepackaged in packaging or a container that is child-resistant, tamper-evident, and opaque or placed in packaging or a container that is child-resistant, tamper-evident, and opaque at the final point of sale to a customer. The requirement that packaging be child-resistant does not apply to an edible cannabinoid product that is intended to be consumed as a beverage and which contains no more than a trace amount of any tetrahydrocannabinol.

APPENDIX Repealed Minnesota Statutes: 23-02009

(d) If an edible cannabinoid product is intended for more than a single use or contains multiple servings, each serving must be indicated by scoring, wrapping, or other indicators designating the individual serving size.

(e) A label containing at least the following information must be affixed to the packaging or container of all edible cannabinoid products sold to consumers:

(1) the serving size;

(2) the cannabinoid profile per serving and in total;

(3) a list of ingredients, including identification of any major food allergens declared by name; and

(4) the following statement: "Keep this product out of reach of children."

(f) An edible cannabinoid product must not contain more than five milligrams of any tetrahydrocannabinol in a single serving, or more than a total of 50 milligrams of any tetrahydrocannabinol per package.

Subd. 6. **Enforcement.** (a) A product regulated under this section, including an edible cannabinoid product, shall be considered an adulterated drug if:

(1) it consists, in whole or in part, of any filthy, putrid, or decomposed substance;

(2) it has been produced, prepared, packed, or held under unsanitary conditions where it may have been rendered injurious to health, or where it may have been contaminated with filth;

(3) its container is composed, in whole or in part, of any poisonous or deleterious substance that may render the contents injurious to health;

(4) it contains any food additives, color additives, or excipients that have been found by the FDA to be unsafe for human or animal consumption;

(5) it contains an amount or percentage of nonintoxicating cannabinoids that is different than the amount or percentage stated on the label;

(6) it contains more than 0.3 percent of any tetrahydrocannabinol or, if the product is an edible cannabinoid product, an amount of tetrahydrocannabinol that exceeds the limits established in subdivision 5a, paragraph (f); or

(7) it contains more than trace amounts of mold, residual solvents, pesticides, fertilizers, or heavy metals.

(b) A product regulated under this section shall be considered a misbranded drug if the product's labeling is false or misleading in any manner or in violation of the requirements of this section.

(c) The board's authority to issue cease and desist orders under section 151.06; to embargo adulterated and misbranded drugs under section 151.38; and to seek injunctive relief under section 214.11, extends to any violation of this section.
