30.11 for a physical location that will not be the primary residence of the license holder for the
30.12 entire period of licensure. If a license is issued during this moratorium, and the license
30.13 holder changes the license holder's primary residence away from the physical location of
30.14 the foster care license, the commissioner shall revoke the license according to section
30.15 245A.07. The commissioner shall not issue an initial license for a community residential
30.16 setting licensed under chapter 245D. When approving an exception under this paragraph,
30.17 the commissioner shall consider the resource need determination process in paragraph (h),
30.18 the availability of foster care licensed beds in the geographic area in which the licensee
30.19 seeks to operate, the results of a person's choices during their annual assessment and service
30.20 plan review, and the recommendation of the local county board. The determination by the
30.21 commissioner is final and not subject to appeal. Exceptions to the moratorium include:

30.22 (1) foster care settings that are required to be registered under chapter 144D;

30.23 (2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or
30.24 community residential setting licenses replacing adult foster care licenses in existence on
30.25 December 31, 2013, and determined to be needed by the commissioner under paragraph
30.26 (b);

30.27 (3) new foster care licenses or community residential setting licenses determined to be
30.28 needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD,
30.29 or regional treatment center; restructuring of state-operated services that limits the capacity
30.30 of state-operated facilities; or allowing movement to the community for people who no
30.31 longer require the level of care provided in state-operated facilities as provided under section
30.32 256B.092, subdivision 13, or 256B.49, subdivision 24;

31.1 (4) new foster care licenses or community residential setting licenses determined to be
31.2 needed by the commissioner under paragraph (b) for persons requiring hospital level care;

31.3 (5) new foster care licenses or community residential setting licenses determined to be
31.4 needed by the commissioner for the transition of people from personal care assistance to
31.5 the home and community-based services;

31.6 (6) new foster care licenses or community residential setting licenses determined to be
31.7 needed by the commissioner for the transition of people from the residential care waiver
31.8 services to foster care services. This exception applies only when:

31.9 (i) the person's case manager provided the person with information about the choice of
31.10 service, service provider, and location of service to help the person make an informed choice;
31.11 and

31.12 (ii) the person's foster care services are less than or equal to the cost of the person's
31.13 services delivered in the residential care waiver service setting as determined by the lead
31.14 agency; or

31.15 (7) new foster care licenses or community residential setting licenses for people receiving
31.16 services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and
31.17 for which a license is required. This exception does not apply to people living in their own
31.18 home. For purposes of this clause, there is a presumption that a foster care or community
31.19 residential setting license is required for services provided to three or more people in a
31.20 dwelling unit when the setting is controlled by the provider. A license holder subject to this
31.21 exception may rebut the presumption that a license is required by seeking a reconsideration
31.22 of the commissioner's determination. The commissioner's disposition of a request for
31.23 reconsideration is final and not subject to appeal under chapter 14. The exception is available
31.24 until June 30, 2018. This exception is available when:

31.25 (i) the person's case manager provided the person with information about the choice of
31.26 service, service provider, and location of service, including in the person's home, to help
31.27 the person make an informed choice; and

31.28 (ii) the person's services provided in the licensed foster care or community residential
31.29 setting are less than or equal to the cost of the person's services delivered in the unlicensed
31.30 setting as determined by the lead agency.

31.31 (b) The commissioner shall determine the need for newly licensed foster care homes or
31.32 community residential settings as defined under this subdivision. As part of the determination,
31.33 the commissioner shall consider the availability of foster care capacity in the area in which

32.1 the licensee seeks to operate, and the recommendation of the local county board. The
32.2 determination by the commissioner must be final. A determination of need is not required
32.3 for a change in ownership at the same address.

32.4 (c) When an adult resident served by the program moves out of a foster home that is not
32.5 the primary residence of the license holder according to section 256B.49, subdivision 15,
32.6 paragraph (f), or the adult community residential setting, the county shall immediately
32.7 inform the Department of Human Services Licensing Division. The department may decrease
32.8 the statewide licensed capacity for adult foster care settings.

32.9 (d) Residential settings that would otherwise be subject to the decreased license capacity
32.10 established in paragraph (c) shall be exempt if the license holder's beds are occupied by
32.11 residents whose primary diagnosis is mental illness and the license holder is certified under
32.12 the requirements in subdivision 6a or section 245D.33.

32.13 (e) A resource need determination process, managed at the state level, using the available
32.14 reports required by section 144A.351, and other data and information shall be used to
32.15 determine where the reduced capacity determined under section 256B.493 will be
32.16 implemented. The commissioner shall consult with the stakeholders described in section
32.17 144A.351, and employ a variety of methods to improve the state's capacity to meet the
32.18 informed decisions of those people who want to move out of corporate foster care or
32.19 community residential settings, long-term service needs within budgetary limits, including
32.20 seeking proposals from service providers or lead agencies to change service type, capacity,
32.21 or location to improve services, increase the independence of residents, and better meet
32.22 needs identified by the long-term services and supports reports and statewide data and
32.23 information.

32.24 (f) At the time of application and reapplication for licensure, the applicant and the license
32.25 holder that are subject to the moratorium or an exclusion established in paragraph (a) are
32.26 required to inform the commissioner whether the physical location where the foster care
32.27 will be provided is or will be the primary residence of the license holder for the entire period
32.28 of licensure. If the primary residence of the applicant or license holder changes, the applicant
32.29 or license holder must notify the commissioner immediately. The commissioner shall print
32.30 on the foster care license certificate whether or not the physical location is the primary
32.31 residence of the license holder.

32.32 (g) License holders of foster care homes identified under paragraph (f) that are not the
32.33 primary residence of the license holder and that also provide services in the foster care home
32.34 that are covered by a federally approved home and community-based services waiver, as

33.1 authorized under chapter 256S or section ~~256B.0915~~, 256B.092, or 256B.49, must inform
 33.2 the human services licensing division that the license holder provides or intends to provide
 33.3 these waiver-funded services.

33.4 (h) The commissioner may adjust capacity to address needs identified in section
 33.5 144A.351. Under this authority, the commissioner may approve new licensed settings or
 33.6 delicense existing settings. Delicensing of settings will be accomplished through a process
 33.7 identified in section 256B.493. Annually, by August 1, the commissioner shall provide
 33.8 information and data on capacity of licensed long-term services and supports, actions taken
 33.9 under the subdivision to manage statewide long-term services and supports resources, and
 33.10 any recommendations for change to the legislative committees with jurisdiction over the
 33.11 health and human services budget.

33.12 (i) The commissioner must notify a license holder when its corporate foster care or
 33.13 community residential setting licensed beds are reduced under this section. The notice of
 33.14 reduction of licensed beds must be in writing and delivered to the license holder by certified
 33.15 mail or personal service. The notice must state why the licensed beds are reduced and must
 33.16 inform the license holder of its right to request reconsideration by the commissioner. The
 33.17 license holder's request for reconsideration must be in writing. If mailed, the request for
 33.18 reconsideration must be postmarked and sent to the commissioner within 20 calendar days
 33.19 after the license holder's receipt of the notice of reduction of licensed beds. If a request for
 33.20 reconsideration is made by personal service, it must be received by the commissioner within
 33.21 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

33.22 (j) The commissioner shall not issue an initial license for children's residential treatment
 33.23 services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter
 33.24 for a program that Centers for Medicare and Medicaid Services would consider an institution
 33.25 for mental diseases. Facilities that serve only private pay clients are exempt from the
 33.26 moratorium described in this paragraph. The commissioner has the authority to manage
 33.27 existing statewide capacity for children's residential treatment services subject to the
 33.28 moratorium under this paragraph and may issue an initial license for such facilities if the
 33.29 initial license would not increase the statewide capacity for children's residential treatment
 33.30 services subject to the moratorium under this paragraph.

33.31 **EFFECTIVE DATE.** This section is effective August 1, 2019.

33.32 Sec. 6. Minnesota Statutes 2018, section 245A.04, subdivision 14, is amended to read:

33.33 Subd. 14. **Policies and procedures for program administration required and**
 33.34 **enforceable.** (a) The license holder shall develop program policies and procedures necessary

34.1 to maintain compliance with licensing requirements under Minnesota Statutes and Minnesota
34.2 Rules.

34.3 (b) The license holder shall:

34.4 (1) provide training to program staff related to their duties in implementing the program's
34.5 policies and procedures developed under paragraph (a);

34.6 (2) document the provision of this training; and

34.7 (3) monitor implementation of policies and procedures by program staff.

34.8 (c) The license holder shall keep program policies and procedures readily accessible to
34.9 staff and index the policies and procedures with a table of contents or another method
34.10 approved by the commissioner.

34.11 (d) An adult foster care license holder that provides foster care services to a resident
34.12 under ~~section 256B.0915~~ chapter 256S must annually provide a copy of the resident
34.13 termination policy under section 245A.11, subdivision 11, to a resident covered by the
34.14 policy.

34.15 **EFFECTIVE DATE.** This section is effective August 1, 2019.

34.16 Sec. 7. Minnesota Statutes 2018, section 245A.11, subdivision 7a, is amended to read:

34.17 Subd. 7a. **Alternate overnight supervision technology; adult foster care and**
34.18 **community residential setting licenses.** (a) The commissioner may grant an applicant or
34.19 license holder an adult foster care or community residential setting license for a residence
34.20 that does not have a caregiver in the residence during normal sleeping hours as required
34.21 under Minnesota Rules, part 9555.5105, subpart 37, item B, or section 245D.02, subdivision
34.22 33b, but uses monitoring technology to alert the license holder when an incident occurs that
34.23 may jeopardize the health, safety, or rights of a foster care recipient. The applicant or license
34.24 holder must comply with all other requirements under Minnesota Rules, parts 9555.5105
34.25 to 9555.6265, or applicable requirements under chapter 245D, and the requirements under
34.26 this subdivision. The license printed by the commissioner must state in bold and large font:

34.27 (1) that the facility is under electronic monitoring; and

34.28 (2) the telephone number of the county's common entry point for making reports of
34.29 suspected maltreatment of vulnerable adults under section 626.557, subdivision 9.

34.30 (b) Applications for a license under this section must be submitted directly to the
34.31 Department of Human Services licensing division. The licensing division must immediately

35.1 notify the county licensing agency. The licensing division must collaborate with the county
35.2 licensing agency in the review of the application and the licensing of the program.

35.3 (c) Before a license is issued by the commissioner, and for the duration of the license,
35.4 the applicant or license holder must establish, maintain, and document the implementation
35.5 of written policies and procedures addressing the requirements in paragraphs (d) through
35.6 (f).

35.7 (d) The applicant or license holder must have policies and procedures that:

35.8 (1) establish characteristics of target populations that will be admitted into the home,
35.9 and characteristics of populations that will not be accepted into the home;

35.10 (2) explain the discharge process when a resident served by the program requires
35.11 overnight supervision or other services that cannot be provided by the license holder due
35.12 to the limited hours that the license holder is on site;

35.13 (3) describe the types of events to which the program will respond with a physical
35.14 presence when those events occur in the home during time when staff are not on site, and
35.15 how the license holder's response plan meets the requirements in paragraph (e), clause (1)
35.16 or (2);

35.17 (4) establish a process for documenting a review of the implementation and effectiveness
35.18 of the response protocol for the response required under paragraph (e), clause (1) or (2).
35.19 The documentation must include:

35.20 (i) a description of the triggering incident;

35.21 (ii) the date and time of the triggering incident;

35.22 (iii) the time of the response or responses under paragraph (e), clause (1) or (2);

35.23 (iv) whether the response met the resident's needs;

35.24 (v) whether the existing policies and response protocols were followed; and

35.25 (vi) whether the existing policies and protocols are adequate or need modification.

35.26 When no physical presence response is completed for a three-month period, the license
35.27 holder's written policies and procedures must require a physical presence response drill to
35.28 be conducted for which the effectiveness of the response protocol under paragraph (e),
35.29 clause (1) or (2), will be reviewed and documented as required under this clause; and

36.1 (5) establish that emergency and nonemergency phone numbers are posted in a prominent
36.2 location in a common area of the home where they can be easily observed by a person
36.3 responding to an incident who is not otherwise affiliated with the home.

36.4 (e) The license holder must document and include in the license application which
36.5 response alternative under clause (1) or (2) is in place for responding to situations that
36.6 present a serious risk to the health, safety, or rights of residents served by the program:

36.7 (1) response alternative (1) requires only the technology to provide an electronic
36.8 notification or alert to the license holder that an event is underway that requires a response.
36.9 Under this alternative, no more than ten minutes will pass before the license holder will be
36.10 physically present on site to respond to the situation; or

36.11 (2) response alternative (2) requires the electronic notification and alert system under
36.12 alternative (1), but more than ten minutes may pass before the license holder is present on
36.13 site to respond to the situation. Under alternative (2), all of the following conditions are
36.14 met:

36.15 (i) the license holder has a written description of the interactive technological applications
36.16 that will assist the license holder in communicating with and assessing the needs related to
36.17 the care, health, and safety of the foster care recipients. This interactive technology must
36.18 permit the license holder to remotely assess the well being of the resident served by the
36.19 program without requiring the initiation of the foster care recipient. Requiring the foster
36.20 care recipient to initiate a telephone call does not meet this requirement;

36.21 (ii) the license holder documents how the remote license holder is qualified and capable
36.22 of meeting the needs of the foster care recipients and assessing foster care recipients' needs
36.23 under item (i) during the absence of the license holder on site;

36.24 (iii) the license holder maintains written procedures to dispatch emergency response
36.25 personnel to the site in the event of an identified emergency; and

36.26 (iv) each resident's individualized plan of care, coordinated service and support plan
36.27 under sections 256B.0913, subdivision 8; ~~256B.0915, subdivision 6~~; 256B.092, subdivision
36.28 1b; ~~and~~ 256B.49, subdivision 15; and 256S.10, if required, or individual resident placement
36.29 agreement under Minnesota Rules, part 9555.5105, subpart 19, if required, identifies the
36.30 maximum response time, which may be greater than ten minutes, for the license holder to
36.31 be on site for that resident.

36.32 (f) Each resident's placement agreement, individual service agreement, and plan must
36.33 clearly state that the adult foster care or community residential setting license category is

37.1 a program without the presence of a caregiver in the residence during normal sleeping hours;
37.2 the protocols in place for responding to situations that present a serious risk to the health,
37.3 safety, or rights of residents served by the program under paragraph (e), clause (1) or (2);
37.4 and a signed informed consent from each resident served by the program or the person's
37.5 legal representative documenting the person's or legal representative's agreement with
37.6 placement in the program. If electronic monitoring technology is used in the home, the
37.7 informed consent form must also explain the following:

37.8 (1) how any electronic monitoring is incorporated into the alternative supervision system;

37.9 (2) the backup system for any electronic monitoring in times of electrical outages or
37.10 other equipment malfunctions;

37.11 (3) how the caregivers or direct support staff are trained on the use of the technology;

37.12 (4) the event types and license holder response times established under paragraph (e);

37.13 (5) how the license holder protects each resident's privacy related to electronic monitoring
37.14 and related to any electronically recorded data generated by the monitoring system. A
37.15 resident served by the program may not be removed from a program under this subdivision
37.16 for failure to consent to electronic monitoring. The consent form must explain where and
37.17 how the electronically recorded data is stored, with whom it will be shared, and how long
37.18 it is retained; and

37.19 (6) the risks and benefits of the alternative overnight supervision system.

37.20 The written explanations under clauses (1) to (6) may be accomplished through
37.21 cross-references to other policies and procedures as long as they are explained to the person
37.22 giving consent, and the person giving consent is offered a copy.

37.23 (g) Nothing in this section requires the applicant or license holder to develop or maintain
37.24 separate or duplicative policies, procedures, documentation, consent forms, or individual
37.25 plans that may be required for other licensing standards, if the requirements of this section
37.26 are incorporated into those documents.

37.27 (h) The commissioner may grant variances to the requirements of this section according
37.28 to section 245A.04, subdivision 9.

37.29 (i) For the purposes of paragraphs (d) through (h), "license holder" has the meaning
37.30 under section 245A.2, subdivision 9, and additionally includes all staff, volunteers, and
37.31 contractors affiliated with the license holder.

38.1 (j) For the purposes of paragraph (e), the terms "assess" and "assessing" mean to remotely
38.2 determine what action the license holder needs to take to protect the well-being of the foster
38.3 care recipient.

38.4 (k) The commissioner shall evaluate license applications using the requirements in
38.5 paragraphs (d) to (f). The commissioner shall provide detailed application forms, including
38.6 a checklist of criteria needed for approval.

38.7 (l) To be eligible for a license under paragraph (a), the adult foster care or community
38.8 residential setting license holder must not have had a conditional license issued under section
38.9 245A.06 or any licensing sanction under section 245A.07 during the prior 24 months based
38.10 on failure to provide adequate supervision, health care services, or resident safety in the
38.11 adult foster care home or community residential setting.

38.12 (m) The commissioner shall review an application for an alternative overnight supervision
38.13 license within 60 days of receipt of the application. When the commissioner receives an
38.14 application that is incomplete because the applicant failed to submit required documents or
38.15 that is substantially deficient because the documents submitted do not meet licensing
38.16 requirements, the commissioner shall provide the applicant written notice that the application
38.17 is incomplete or substantially deficient. In the written notice to the applicant, the
38.18 commissioner shall identify documents that are missing or deficient and give the applicant
38.19 45 days to resubmit a second application that is substantially complete. An applicant's failure
38.20 to submit a substantially complete application after receiving notice from the commissioner
38.21 is a basis for license denial under section 245A.05. The commissioner shall complete
38.22 subsequent review within 30 days.

38.23 (n) Once the application is considered complete under paragraph (m), the commissioner
38.24 will approve or deny an application for an alternative overnight supervision license within
38.25 60 days.

38.26 (o) For the purposes of this subdivision, "supervision" means:

38.27 (1) oversight by a caregiver or direct support staff as specified in the individual resident's
38.28 place agreement or coordinated service and support plan and awareness of the resident's
38.29 needs and activities; and

38.30 (2) the presence of a caregiver or direct support staff in a residence during normal sleeping
38.31 hours, unless a determination has been made and documented in the individual's coordinated
38.32 service and support plan that the individual does not require the presence of a caregiver or
38.33 direct support staff during normal sleeping hours.

39.1 **EFFECTIVE DATE.** This section is effective August 1, 2019.

39.2 Sec. 8. Minnesota Statutes 2018, section 245A.11, subdivision 9, is amended to read:

39.3 Subd. 9. **Adult foster care bedrooms.** (a) A resident receiving services must have a
39.4 choice of roommate. Each roommate must consent in writing to sharing a bedroom with
39.5 one another. The license holder is responsible for notifying a resident of the resident's right
39.6 to request a change of roommate.

39.7 (b) The license holder must provide a lock for each resident's bedroom door, unless
39.8 otherwise indicated for the resident's health, safety, or well-being. A restriction on the use
39.9 of the lock must be documented and justified in the resident's individual abuse prevention
39.10 plan required by sections 245A.65, subdivision 2, paragraph (b), and 626.557, subdivision
39.11 14. For a resident served under ~~section 256B.0915~~ chapter 256S, the case manager must be
39.12 part of the interdisciplinary team under section 245A.65, subdivision 2, paragraph (b).

39.13 **EFFECTIVE DATE.** This section is effective August 1, 2019.

39.14 Sec. 9. Minnesota Statutes 2018, section 245A.11, subdivision 10, is amended to read:

39.15 Subd. 10. **Adult foster care resident rights.** (a) The license holder shall ensure that a
39.16 resident and a resident's legal representative are given, at admission:

39.17 (1) an explanation and copy of the resident's rights specified in paragraph (b);

39.18 (2) a written summary of the Vulnerable Adults Protection Act prepared by the
39.19 department; and

39.20 (3) the name, address, and telephone number of the local agency to which a resident or
39.21 a resident's legal representative may submit an oral or written complaint.

39.22 (b) Adult foster care resident rights include the right to:

39.23 (1) have daily, private access to and use of a non-coin-operated telephone for local and
39.24 long-distance telephone calls made collect or paid for by the resident;

39.25 (2) receive and send, without interference, uncensored, unopened mail or electronic
39.26 correspondence or communication;

39.27 (3) have use of and free access to common areas in the residence and the freedom to
39.28 come and go from the residence at will;

40.1 (4) have privacy for visits with the resident's spouse, next of kin, legal counsel, religious
40.2 adviser, or others, according to section 363A.09 of the Human Rights Act, including privacy
40.3 in the resident's bedroom;

40.4 (5) keep, use, and access the resident's personal clothing and possessions as space permits,
40.5 unless this right infringes on the health, safety, or rights of another resident or household
40.6 member, including the right to access the resident's personal possessions at any time;

40.7 (6) choose the resident's visitors and time of visits and participate in activities of
40.8 commercial, religious, political, and community groups without interference if the activities
40.9 do not infringe on the rights of another resident or household member;

40.10 (7) if married, privacy for visits by the resident's spouse, and, if both spouses are residents
40.11 of the adult foster home, the residents have the right to share a bedroom and bed;

40.12 (8) privacy, including use of the lock on the resident's bedroom door or unit door. A
40.13 resident's privacy must be respected by license holders, caregivers, household members,
40.14 and volunteers by knocking on the door of a resident's bedroom or bathroom and seeking
40.15 consent before entering, except in an emergency;

40.16 (9) furnish and decorate the resident's bedroom or living unit;

40.17 (10) engage in chosen activities and have an individual schedule supported by the license
40.18 holder that meets the resident's preferences;

40.19 (11) freedom and support to access food at any time;

40.20 (12) have personal, financial, service, health, and medical information kept private, and
40.21 be advised of disclosure of this information by the license holder;

40.22 (13) access records and recorded information about the resident according to applicable
40.23 state and federal law, regulation, or rule;

40.24 (14) be free from maltreatment;

40.25 (15) be treated with courtesy and respect and receive respectful treatment of the resident's
40.26 property;

40.27 (16) reasonable observance of cultural and ethnic practice and religion;

40.28 (17) be free from bias and harassment regarding race, gender, age, disability, spirituality,
40.29 and sexual orientation;

40.30 (18) be informed of and use the license holder's grievance policy and procedures,
40.31 including how to contact the highest level of authority in the program;

41.1 (19) assert the resident's rights personally, or have the rights asserted by the resident's
41.2 family, authorized representative, or legal representative, without retaliation; and

41.3 (20) give or withhold written informed consent to participate in any research or
41.4 experimental treatment.

41.5 (c) A restriction of a resident's rights under paragraph (b), clauses (1) to (4), (6), (8),
41.6 (10), and (11), is allowed only if determined necessary to ensure the health, safety, and
41.7 well-being of the resident. Any restriction of a resident's right must be documented and
41.8 justified in the resident's individual abuse prevention plan required by sections 245A.65,
41.9 subdivision 2, paragraph (b) and 626.557, subdivision 14. For a resident served under ~~section~~
41.10 ~~256B.0915~~ chapter 256S, the case manager must be part of the interdisciplinary team under
41.11 section 245A.65, subdivision 2, paragraph (b). The restriction must be implemented in the
41.12 least restrictive manner necessary to protect the resident and provide support to reduce or
41.13 eliminate the need for the restriction.

41.14 **EFFECTIVE DATE.** This section is effective August 1, 2019.

41.15 Sec. 10. Minnesota Statutes 2018, section 245A.11, subdivision 11, is amended to read:

41.16 Subd. 11. **Adult foster care service termination for elderly waiver participants.** (a)
41.17 This subdivision applies to foster care services for a resident served under ~~section 256B.0915~~
41.18 chapter 256S.

41.19 (b) The foster care license holder must establish policies and procedures for service
41.20 termination that promote continuity of care and service coordination with the resident and
41.21 the case manager and with another licensed caregiver, if any, who also provides support to
41.22 the resident. The policy must include the requirements specified in paragraphs (c) to (h).

41.23 (c) The license holder must allow a resident to remain in the program and cannot terminate
41.24 services unless:

41.25 (1) the termination is necessary for the resident's health, safety, and well-being and the
41.26 resident's needs cannot be met in the facility;

41.27 (2) the safety of the resident or another resident in the program is endangered and positive
41.28 support strategies were attempted and have not achieved and effectively maintained safety
41.29 for the resident or another resident in the program;

41.30 (3) the health, safety, and well-being of the resident or another resident in the program
41.31 would otherwise be endangered;

41.32 (4) the program was not paid for services;

42.1 (5) the program ceases to operate; or

42.2 (6) the resident was terminated by the lead agency from waiver eligibility.

42.3 (d) Before giving notice of service termination, the license holder must document the
42.4 action taken to minimize or eliminate the need for termination. The action taken by the
42.5 license holder must include, at a minimum:

42.6 (1) consultation with the resident's interdisciplinary team to identify and resolve issues
42.7 leading to a notice of service termination; and

42.8 (2) a request to the case manager or other professional consultation or intervention
42.9 services to support the resident in the program. This requirement does not apply to a notice
42.10 of service termination issued under paragraph (c), clause (4) or (5).

42.11 (e) If, based on the best interests of the resident, the circumstances at the time of notice
42.12 were such that the license holder was unable to take the action specified in paragraph (d),
42.13 the license holder must document the specific circumstances and the reason the license
42.14 holder was unable to take the action.

42.15 (f) The license holder must notify the resident or the resident's legal representative and
42.16 the case manager in writing of the intended service termination. The notice must include:

42.17 (1) the reason for the action;

42.18 (2) except for service termination under paragraph (c), clause (4) or (5), a summary of
42.19 the action taken to minimize or eliminate the need for termination and the reason the action
42.20 failed to prevent the termination;

42.21 (3) the resident's right to appeal the service termination under section 256.045, subdivision
42.22 3, paragraph (a); and

42.23 (4) the resident's right to seek a temporary order staying the service termination according
42.24 to the procedures in section 256.045, subdivision 4a, or subdivision 6, paragraph (c).

42.25 (g) Notice of the proposed service termination must be given at least 30 days before
42.26 terminating a resident's service.

42.27 (h) After the resident receives the notice of service termination and before the services
42.28 are terminated, the license holder must:

42.29 (1) work with the support team or expanded support team to develop reasonable
42.30 alternatives to support continuity of care and to protect the resident;

42.31 (2) provide information requested by the resident or case manager; and

43.1 (3) maintain information about the service termination, including the written notice of
 43.2 service termination, in the resident's record.

43.3 **EFFECTIVE DATE.** This section is effective August 1, 2019.

43.4 Sec. 11. Minnesota Statutes 2018, section 245D.02, subdivision 3, is amended to read:

43.5 Subd. 3. **Case manager.** "Case manager" means the individual designated to provide
 43.6 waiver case management services, care coordination, or long-term care consultation, as
 43.7 specified in chapter 256S and sections 256B.0913, ~~256B.0915~~, 256B.092, and 256B.49, or
 43.8 successor provisions. For purposes of this chapter, "case manager" includes case management
 43.9 services as defined in Minnesota Rules, part 9520.0902, subpart 3.

43.10 **EFFECTIVE DATE.** This section is effective August 1, 2019.

43.11 Sec. 12. Minnesota Statutes 2018, section 245D.02, subdivision 4b, is amended to read:

43.12 Subd. 4b. **Coordinated service and support plan.** "Coordinated service and support
 43.13 plan" has the meaning given in sections 256B.0913, subdivision 8; ~~256B.0915, subdivision~~
 43.14 ~~6~~; 256B.092, subdivision 1b; ~~and 256B.49, subdivision 15; and 256S.10~~, or successor
 43.15 provisions. For purposes of this chapter, "coordinated service and support plan" includes
 43.16 the individual program plan or individual treatment plan as defined in Minnesota Rules,
 43.17 part 9520.0510, subpart 12.

43.18 **EFFECTIVE DATE.** This section is effective August 1, 2019.

43.19 Sec. 13. Minnesota Statutes 2018, section 245D.02, subdivision 10, is amended to read:

43.20 Subd. 10. **Home and community-based services.** "Home and community-based services"
 43.21 means the services identified in section 245D.03, subdivision 1, and as defined in:

49.12 or administrative body with legal authority to act in place of, on behalf of, at the direction
49.13 of, or upon the request of the institutionalized person or institutionalized person's spouse,
49.14 may not give away, sell, or dispose of, for less than fair market value, any asset or interest
49.15 therein, except assets other than the homestead that are excluded under the Supplemental
49.16 Security Income program, for the purpose of establishing or maintaining medical assistance
49.17 eligibility. This applies to all transfers, including those made by a community spouse after
49.18 the month in which the institutionalized spouse is determined eligible for medical assistance.
49.19 For purposes of determining eligibility for long-term care services, any transfer of such
49.20 assets within 36 months before or any time after an institutionalized person requests medical
49.21 assistance payment of long-term care services, or 36 months before or any time after a
49.22 medical assistance recipient becomes an institutionalized person, for less than fair market
49.23 value may be considered. Any such transfer is presumed to have been made for the purpose
49.24 of establishing or maintaining medical assistance eligibility and the institutionalized person
49.25 is ineligible for long-term care services for the period of time determined under subdivision
49.26 2, unless the institutionalized person furnishes convincing evidence to establish that the
49.27 transaction was exclusively for another purpose, or unless the transfer is permitted under
49.28 subdivision 3 or 4. In the case of payments from a trust or portions of a trust that are
49.29 considered transfers of assets under federal law, or in the case of any other disposal of assets
49.30 made on or after February 8, 2006, any transfers made within 60 months before or any time
49.31 after an institutionalized person requests medical assistance payment of long-term care
49.32 services and within 60 months before or any time after a medical assistance recipient becomes
49.33 an institutionalized person, may be considered.

50.1 (b) This section applies to transfers, for less than fair market value, of income or assets,
50.2 including assets that are considered income in the month received, such as inheritances,
50.3 court settlements, and retroactive benefit payments or income to which the institutionalized
50.4 person or the institutionalized person's spouse is entitled but does not receive due to action
50.5 by the institutionalized person, the institutionalized person's spouse, or any person, court,
50.6 or administrative body with legal authority to act in place of, on behalf of, at the direction
50.7 of, or upon the request of the institutionalized person or the institutionalized person's spouse.

50.8 (c) This section applies to payments for care or personal services provided by a relative,
50.9 unless the compensation was stipulated in a notarized, written agreement which was in
50.10 existence when the service was performed, the care or services directly benefited the person,
50.11 and the payments made represented reasonable compensation for the care or services
50.12 provided. A notarized written agreement is not required if payment for the services was
50.13 made within 60 days after the service was provided.

50.14 (d) This section applies to the portion of any asset or interest that an institutionalized
50.15 person, an institutionalized person's spouse, or any person, court, or administrative body
50.16 with legal authority to act in place of, on behalf of, at the direction of, or upon the request
50.17 of the institutionalized person or the institutionalized person's spouse, transfers to any
50.18 annuity that exceeds the value of the benefit likely to be returned to the institutionalized
50.19 person or institutionalized person's spouse while alive, based on estimated life expectancy
50.20 as determined according to the current actuarial tables published by the Office of the Chief
50.21 Actuary of the Social Security Administration. The commissioner may adopt rules reducing
50.22 life expectancies based on the need for long-term care. This section applies to an annuity
50.23 purchased on or after March 1, 2002, that:

50.29 (e) Effective for transactions, including the purchase of an annuity, occurring on or after
50.30 February 8, 2006, by or on behalf of an institutionalized person who has applied for or is
50.31 receiving long-term care services or the institutionalized person's spouse shall be treated as
50.32 the disposal of an asset for less than fair market value unless the department is named a
50.33 preferred remainder beneficiary as described in section 256B.056, subdivision 11. Any
50.34 subsequent change to the designation of the department as a preferred remainder beneficiary

51.1 shall result in the annuity being treated as a disposal of assets for less than fair market value.
51.2 The amount of such transfer shall be the maximum amount the institutionalized person or
51.3 the institutionalized person's spouse could receive from the annuity or similar financial
51.4 instrument. Any change in the amount of the income or principal being withdrawn from the
51.5 annuity or other similar financial instrument at the time of the most recent disclosure shall
51.6 be deemed to be a transfer of assets for less than fair market value unless the institutionalized
51.7 person or the institutionalized person's spouse demonstrates that the transaction was for fair
51.8 market value. In the event a distribution of income or principal has been improperly
51.9 distributed or disbursed from an annuity or other retirement planning instrument of an
51.10 institutionalized person or the institutionalized person's spouse, a cause of action exists
51.11 against the individual receiving the improper distribution for the cost of medical assistance
51.12 services provided or the amount of the improper distribution, whichever is less.

51.13 (f) Effective for transactions, including the purchase of an annuity, occurring on or after
51.14 February 8, 2006, by or on behalf of an institutionalized person applying for or receiving
51.15 long-term care services shall be treated as a disposal of assets for less than fair market value
51.16 unless it is:

51.18 Code of 1986; or

51.23 Revenue Code; or

51.25 (3) an annuity that is irrevocable and nonassignable; is actuarially sound as determined
51.26 in accordance with actuarial publications of the Office of the Chief Actuary of the Social
51.27 Security Administration; and provides for payments in equal amounts during the term of
51.28 the annuity, with no deferral and no balloon payments made.

51.29 (g) For purposes of this section, long-term care services include services in a nursing
51.30 facility, services that are eligible for payment according to section 256B.0625, subdivision

 52.6 unless the note, loan, or mortgage:

52.7 (1) has a repayment term that is actuarially sound;

52.8 (2) provides for payments to be made in equal amounts during the term of the loan, with
 52.9 no deferral and no balloon payments made; and

52.10 (3) prohibits the cancellation of the balance upon the death of the lender.

52.11 In the case of a promissory note, loan, or mortgage that does not meet an exception in
 52.12 clauses (1) to (3), the value of such note, loan, or mortgage shall be the outstanding balance
 52.13 due as of the date of the institutionalized person's request for medical assistance payment
 52.14 of long-term care services.

52.15 (i) This section applies to the purchase of a life estate interest in another person's home
 52.16 unless the purchaser resides in the home for a period of at least one year after the date of

64.30 care as determined under criteria established in subdivision 4e and the certified assessor's
64.31 decision regarding eligibility for all services and programs as defined in subdivision 1a,
64.32 paragraphs (a), clause (6), and (b); and

65.1 (9) the person's right to appeal the certified assessor's decision regarding eligibility for
65.2 all services and programs as defined in subdivision 1a, paragraphs (a), clauses (6), (7), and
65.3 (8), and (b), and incorporating the decision regarding the need for institutional level of care
65.4 or the lead agency's final decisions regarding public programs eligibility according to section
65.5 256.045, subdivision 3.

65.6 (k) Face-to-face assessment completed as part of eligibility determination for the
65.7 alternative care, elderly waiver, community access for disability inclusion, community
65.8 alternative care, and brain injury waiver programs under chapter 256S and sections
65.9 256B.0913, ~~256B.0915~~, and 256B.49 is valid to establish service eligibility for no more
65.10 than 60 calendar days after the date of assessment.

65.11 (l) The effective eligibility start date for programs in paragraph (k) can never be prior
65.12 to the date of assessment. If an assessment was completed more than 60 days before the
65.13 effective waiver or alternative care program eligibility start date, assessment and support
65.14 plan information must be updated and documented in the department's Medicaid Management
65.15 Information System (MMIS). Notwithstanding retroactive medical assistance coverage of
65.16 state plan services, the effective date of eligibility for programs included in paragraph (k)
65.17 cannot be prior to the date the most recent updated assessment is completed.

65.18 (m) If an eligibility update is completed within 90 days of the previous face-to-face
65.19 assessment and documented in the department's Medicaid Management Information System
65.20 (MMIS), the effective date of eligibility for programs included in paragraph (k) is the date
65.21 of the previous face-to-face assessment when all other eligibility requirements are met.

65.22 (n) At the time of reassessment, the certified assessor shall assess each person receiving
65.23 waiver services currently residing in a community residential setting, or licensed adult foster
65.24 care home that is not the primary residence of the license holder, or in which the license
65.25 holder is not the primary caregiver, to determine if that person would prefer to be served in
65.26 a community-living setting as defined in section 256B.49, subdivision 23. The certified
65.27 assessor shall offer the person, through a person-centered planning process, the option to
65.28 receive alternative housing and service options.

65.29 **EFFECTIVE DATE.** This section is effective August 1, 2019.

65.30 Sec. 24. Minnesota Statutes 2018, section 256B.0913, subdivision 4, is amended to read:

65.31 Subd. 4. **Eligibility for funding for services for nonmedical assistance recipients.** (a)
65.32 Funding for services under the alternative care program is available to persons who meet
65.33 the following criteria:

- 66.1 (1) the person is a citizen of the United States or a United States national;
- 66.2 (2) the person has been determined by a community assessment under section 256B.0911
66.3 to be a person who would require the level of care provided in a nursing facility, as
66.4 determined under section 256B.0911, subdivision 4e, but for the provision of services under
66.5 the alternative care program;
- 66.6 (3) the person is age 65 or older;
- 66.7 (4) the person would be eligible for medical assistance within 135 days of admission to
66.8 a nursing facility;
- 66.9 (5) the person is not ineligible for the payment of long-term care services by the medical
66.10 assistance program due to an asset transfer penalty under section 256B.0595 or equity
66.11 interest in the home exceeding \$500,000 as stated in section 256B.056;
- 66.12 (6) the person needs long-term care services that are not funded through other state or
66.13 federal funding, or other health insurance or other third-party insurance such as long-term
66.14 care insurance;
- 66.15 (7) except for individuals described in clause (8), the monthly cost of the alternative
66.16 care services funded by the program for this person does not exceed 75 percent of the
66.17 monthly limit described under section ~~256B.0915, subdivision 3a~~ 256S.18. This monthly
66.18 limit does not prohibit the alternative care client from payment for additional services, but
66.19 in no case may the cost of additional services purchased under this section exceed the
66.20 difference between the client's monthly service limit defined under section ~~256B.0915,~~
66.21 ~~subdivision 3~~ 256S.04, and the alternative care program monthly service limit defined in
66.22 this paragraph. If care-related supplies and equipment or environmental modifications and
66.23 adaptations are or will be purchased for an alternative care services recipient, the costs may
66.24 be prorated on a monthly basis for up to 12 consecutive months beginning with the month
66.25 of purchase. If the monthly cost of a recipient's other alternative care services exceeds the
66.26 monthly limit established in this paragraph, the annual cost of the alternative care services
66.27 shall be determined. In this event, the annual cost of alternative care services shall not exceed
66.28 12 times the monthly limit described in this paragraph;
- 66.29 (8) for individuals assigned a case mix classification A as described under section
66.30 ~~256B.0915, subdivision 3a, paragraph (a)~~ 256S.18, with (i) no dependencies in activities
66.31 of daily living, or (ii) up to two dependencies in bathing, dressing, grooming, walking, and
66.32 eating when the dependency score in eating is three or greater as determined by an assessment
66.33 performed under section 256B.0911, the monthly cost of alternative care services funded
66.34 by the program cannot exceed \$593 per month for all new participants enrolled in the

67.1 program on or after July 1, 2011. This monthly limit shall be applied to all other participants
67.2 who meet this criteria at reassessment. This monthly limit shall be increased annually as
67.3 described in section ~~256B.0915, subdivision 3a, paragraphs (a) and (e)~~ 256S.18. This monthly
67.4 limit does not prohibit the alternative care client from payment for additional services, but
67.5 in no case may the cost of additional services purchased exceed the difference between the
67.6 client's monthly service limit defined in this clause and the limit described in clause (7) for
67.7 case mix classification A; and

67.8 (9) the person is making timely payments of the assessed monthly fee.

67.9 A person is ineligible if payment of the fee is over 60 days past due, unless the person agrees
67.10 to:

67.11 (i) the appointment of a representative payee;

67.12 (ii) automatic payment from a financial account;

67.13 (iii) the establishment of greater family involvement in the financial management of
67.14 payments; or

67.15 (iv) another method acceptable to the lead agency to ensure prompt fee payments.

67.16 The lead agency may extend the client's eligibility as necessary while making
67.17 arrangements to facilitate payment of past-due amounts and future premium payments.

67.18 Following disenrollment due to nonpayment of a monthly fee, eligibility shall not be
67.19 reinstated for a period of 30 days.

67.20 (b) Alternative care funding under this subdivision is not available for a person who is
67.21 a medical assistance recipient or who would be eligible for medical assistance without a
67.22 spenddown or waiver obligation. A person whose initial application for medical assistance
67.23 and the elderly waiver program is being processed may be served under the alternative care
67.24 program for a period up to 60 days. If the individual is found to be eligible for medical
67.25 assistance, medical assistance must be billed for services payable under the federally
67.26 approved elderly waiver plan and delivered from the date the individual was found eligible
67.27 for the federally approved elderly waiver plan. Notwithstanding this provision, alternative
67.28 care funds may not be used to pay for any service the cost of which: (i) is payable by medical
67.29 assistance; (ii) is used by a recipient to meet a waiver obligation; or (iii) is used to pay a
67.30 medical assistance income spenddown for a person who is eligible to participate in the
67.31 federally approved elderly waiver program under the special income standard provision.

67.32 (c) Alternative care funding is not available for a person who resides in a licensed nursing
67.33 home, certified boarding care home, hospital, or intermediate care facility, except for case

68.1 management services which are provided in support of the discharge planning process for
 68.2 a nursing home resident or certified boarding care home resident to assist with a relocation
 68.3 process to a community-based setting.

68.4 (d) Alternative care funding is not available for a person whose income is greater than
 68.5 the maintenance needs allowance under section ~~256B.0915, subdivision 1d~~ 256S.05, but
 68.6 equal to or less than 120 percent of the federal poverty guideline effective July 1 in the
 68.7 fiscal year for which alternative care eligibility is determined, who would be eligible for
 68.8 the elderly waiver with a waiver obligation.

68.14 (b) The case manager must not approve alternative care funding for a client in any setting
 68.15 in which the case manager cannot reasonably ensure the client's health and safety.

68.16 (c) The case manager is responsible for the cost-effectiveness of the alternative care
 68.17 individual coordinated service and support plan and must not approve any plan in which
 68.18 the cost of services funded by alternative care and client contributions exceeds the limit

 68.25 case manager shall implement the coordinated service and support plan for each alternative
 68.26 care client and ensure that a client's service needs and eligibility are reassessed at least every
 68.27 12 months. The coordinated service and support plan must meet the requirements in section
 68.28 ~~256B.0915, subdivision 6~~ 256S.10. The plan shall include any services prescribed by the
 68.29 individual's attending physician as necessary to allow the individual to remain in a community
 68.30 setting. In developing the individual's care plan, the case manager should include the use
 68.31 of volunteers from families and neighbors, religious organizations, social clubs, and civic
 68.32 and service organizations to support the formal home care services. The lead agency shall

 69.2 subdivision including workers' compensation liability. The case manager shall provide
 69.3 documentation in each individual's plan and, if requested, to the commissioner that the most
 69.4 cost-effective alternatives available have been offered to the individual and that the individual
 69.5 was free to choose among available qualified providers, both public and private, including
 69.6 qualified case management or service coordination providers other than those employed by
 69.7 any county; however, the county or tribe maintains responsibility for prior authorizing
 69.8 services in accordance with statutory and administrative requirements. The case manager

256B.0915 MEDICAID WAIVER FOR ELDERLY SERVICES.

Subdivision 1. **Authority.** (a) The commissioner is authorized to apply for a home and community-based services waiver for the elderly, authorized under section 1915(c) of the Social Security Act, in order to obtain federal financial participation to expand the availability of services for persons who are eligible for medical assistance. The commissioner may apply for additional waivers or pursue other federal financial participation which is advantageous to the state for funding home care services for the frail elderly who are eligible for medical assistance. The provision of waived services to medical assistance recipients who are elderly or have a disability must comply with the criteria for service definitions and provider standards approved in the waiver.

(b) The commissioner shall comply with the requirements in the federally approved transition plan for the home and community-based services waivers authorized under this section.

Subd. 1a. **Elderly waiver case management services.** (a) Except as provided to individuals under prepaid medical assistance programs as described in paragraph (h), case management services under the home and community-based services waiver for elderly individuals are available from providers meeting qualification requirements and the standards specified in subdivision 1b. Eligible recipients may choose any qualified provider of case management services.

(b) Case management services assist individuals who receive waiver services in gaining access to needed waiver and other state plan services and assist individuals in appeals under section 256.045, as well as needed medical, social, educational, and other services regardless of the funding source for the services to which access is gained. Case managers shall collaborate with consumers, families, legal representatives, and relevant medical experts and service providers in the development and periodic review of the coordinated service and support plan.

(c) A case aide shall provide assistance to the case manager in carrying out administrative activities of the case management function. The case aide may not assume responsibilities that require professional judgment including assessments, reassessments, and care plan development. The case manager is responsible for providing oversight of the case aide.

(d) Case managers shall be responsible for ongoing monitoring of the provision of services included in the individual's plan of care. Case managers shall initiate the process of reassessment of the individual's coordinated service and support plan and review the plan at intervals specified in the federally approved waiver plan.

(e) The county of service or tribe must provide access to and arrange for case management services. County of service has the meaning given it in Minnesota Rules, part 9505.0015, subpart 11.

(f) Except as described in paragraph (h), case management services must be provided by a public or private agency that is enrolled as a medical assistance provider determined by the commissioner to meet all of the requirements in subdivision 1b. Case management services must not be provided to a recipient by a private agency that has a financial interest in the provision of any other services included in the recipient's coordinated service and support plan. For purposes of this section, "private agency" means any agency that is not identified as a lead agency under section 256B.0911, subdivision 1a, paragraph (e).

(g) Case management service activities provided to or arranged for a person include:

- (1) development of the coordinated service and support plan under subdivision 6;
- (2) informing the individual or the individual's legal guardian or conservator of service options, and options for case management services and providers;
- (3) consulting with relevant medical experts or service providers;
- (4) assisting the person in the identification of potential providers;
- (5) assisting the person to access services;
- (6) coordination of services; and
- (7) evaluation and monitoring of the services identified in the plan, which must incorporate at least one annual face-to-face visit by the case manager with each person.

(h) Notwithstanding any requirements in this section, for individuals enrolled in prepaid medical assistance programs under section 256B.69, subdivisions 6b and 23, the health plan shall provide

or arrange to provide elderly waiver case management services in paragraph (g), in accordance with contract requirements established by the commissioner.

Subd. 1b. Provider qualifications and standards. (a) The commissioner must enroll qualified providers of case management services under the home and community-based waiver for the elderly under section 1915(c) of the Social Security Act. The enrollment process shall ensure the provider's ability to meet the qualification requirements and standards in this subdivision and other federal and state requirements of this service. A case management provider is an enrolled medical assistance provider who is determined by the commissioner to have all of the following characteristics:

(1) the demonstrated capacity and experience to provide the components of case management to coordinate and link community resources needed by the eligible population;

(2) administrative capacity and experience in serving the target population for whom it will provide services and in ensuring quality of services under state and federal requirements;

(3) a financial management system that provides accurate documentation of services and costs under state and federal requirements;

(4) the capacity to document and maintain individual case records under state and federal requirements; and

(5) the lead agency may allow a case manager employed by the lead agency to delegate certain aspects of the case management activity to another individual employed by the lead agency provided there is oversight of the individual by the case manager. The case manager may not delegate those aspects which require professional judgment including assessments, reassessments, and coordinated service and support plan development. Lead agencies include counties, health plans, and federally recognized tribes who authorize services under this section.

(b) A health plan shall provide or arrange to provide elderly waiver case management services in subdivision 1a, paragraph (g), in accordance with contract requirements established by the commissioner related to provider standards and qualifications.

Subd. 1d. Posteligibility treatment of income and resources for elderly waiver. Notwithstanding the provisions of section 256B.056, the commissioner shall make the following amendment to the medical assistance elderly waiver program effective July 1, 1999, or upon federal approval, whichever is later.

A recipient's maintenance needs will be an amount equal to the Minnesota supplemental aid equivalent rate as defined in section 256I.03, subdivision 5, plus the medical assistance personal needs allowance as defined in section 256B.35, subdivision 1, paragraph (a), when applying posteligibility treatment of income rules to the gross income of elderly waiver recipients, except for individuals whose income is in excess of the special income standard according to Code of Federal Regulations, title 42, section 435.236. Recipient maintenance needs shall be adjusted under this provision each July 1.

Subd. 2. Spousal impoverishment policies. The commissioner shall apply the spousal impoverishment criteria as authorized under United States Code, title 42, section 1396r-5, and as implemented in sections 256B.0575, 256B.058, and 256B.059, except that individuals with income at or below the special income standard according to Code of Federal Regulations, title 42, section 435.236, receive the maintenance needs amount in subdivision 1d.

Subd. 3. Limits of cases. The number of medical assistance waiver recipients that a lead agency may serve must be allocated according to the number of medical assistance waiver cases open on July 1 of each fiscal year. Additional recipients may be served with the approval of the commissioner.

Subd. 3a. Elderly waiver cost limits. (a) Effective on the first day of the state fiscal year in which the resident assessment system as described in section 256R.17 for nursing home rate determination is implemented and the first day of each subsequent state fiscal year, the monthly limit for the cost of waived services to an individual elderly waiver client shall be the monthly limit of the case mix resident class to which the waiver client would be assigned under Minnesota Rules, parts 9549.0051 to 9549.0059, in effect on the last day of the previous state fiscal year, adjusted by any legislatively adopted home and community-based services percentage rate adjustment. If a legislatively authorized increase is service-specific, the monthly cost limit shall be adjusted based on the overall average increase to the elderly waiver program.

(b) The monthly limit for the cost of waived services under paragraph (a) to an individual elderly waiver client assigned to a case mix classification A with:

APPENDIX
Repealed Minnesota Statutes: 19-2042

(1) no dependencies in activities of daily living; or

(2) up to two dependencies in bathing, dressing, grooming, walking, and eating when the dependency score in eating is three or greater as determined by an assessment performed under section 256B.0911 shall be \$1,750 per month effective on July 1, 2011, for all new participants enrolled in the program on or after July 1, 2011. This monthly limit shall be applied to all other participants who meet this criteria at reassessment. This monthly limit shall be increased annually as described in paragraphs (a) and (e).

(c) If extended medical supplies and equipment or environmental modifications are or will be purchased for an elderly waiver client, the costs may be prorated for up to 12 consecutive months beginning with the month of purchase. If the monthly cost of a recipient's waived services exceeds the monthly limit established in paragraph (a), (b), (d), or (e), the annual cost of all waived services shall be determined. In this event, the annual cost of all waived services shall not exceed 12 times the monthly limit of waived services as described in paragraph (a), (b), (d), or (e).

(d) Effective July 1, 2013, the monthly cost limit of waiver services, including any necessary home care services described in section 256B.0651, subdivision 2, for individuals who meet the criteria as ventilator-dependent given in section 256B.0651, subdivision 1, paragraph (g), shall be the average of the monthly medical assistance amount established for home care services as described in section 256B.0652, subdivision 7, and the annual average contracted amount established by the commissioner for nursing facility services for ventilator-dependent individuals. This monthly limit shall be increased annually as described in paragraphs (a) and (e).

(e) Effective January 1, 2018, and each January 1 thereafter, the monthly cost limits for elderly waiver services in effect on the previous December 31 shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on January 1 or since the previous January 1 and the average statewide percentage increase in nursing facility operating payment rates under chapter 256R, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on January 1, or occurring since the previous January 1.

Subd. 3b. Cost limits for elderly waiver applicants who reside in a nursing facility. (a) For a person who is a nursing facility resident at the time of requesting a determination of eligibility for elderly waived services, a monthly conversion budget limit for the cost of elderly waived services may be requested. The monthly conversion budget limit for the cost of elderly waiver services shall be the resident class assigned under Minnesota Rules, parts 9549.0050 to 9549.0059, for that resident in the nursing facility where the resident currently resides until July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented. Effective on July 1 of the state fiscal year in which the resident assessment system as described in section 256B.438 for nursing home rate determination is implemented, the monthly conversion budget limit for the cost of elderly waiver services shall be based on the per diem nursing facility rate as determined by the resident assessment system as described in section 256B.438 for residents in the nursing facility where the elderly waiver applicant currently resides. The monthly conversion budget limit shall be calculated by multiplying the per diem by 365, divided by 12, and reduced by the recipient's maintenance needs allowance as described in subdivision 1d. The initially approved monthly conversion budget limit shall be adjusted annually as described in subdivision 3a, paragraph (a). The limit under this subdivision only applies to persons discharged from a nursing facility after a minimum 30-day stay and found eligible for waived services on or after July 1, 1997. For conversions from the nursing home to the elderly waiver with consumer directed community support services, the nursing facility per diem used to calculate the monthly conversion budget limit must be reduced by a percentage equal to the percentage difference between the consumer directed services budget limit that would be assigned according to the federally approved waiver plan and the corresponding community case mix cap, but not to exceed 50 percent.

(b) The following costs must be included in determining the total monthly costs for the waiver client:

(1) cost of all waived services, including specialized supplies and equipment and environmental accessibility adaptations; and

(2) cost of skilled nursing, home health aide, and personal care services reimbursable by medical assistance.

APPENDIX
Repealed Minnesota Statutes: 19-2042

Subd. 3c. **Service approval provisions.** Medical assistance funding for skilled nursing services, home care nursing, home health aide, and personal care services for waiver recipients must be approved by the case manager and included in the coordinated service and support plan.

Subd. 3d. **Adult foster care rate.** The adult foster care rate shall not include room and board. The elderly waiver payment for the foster care service in combination with the payment for all other elderly waiver services, including case management, must not exceed the limit specified in subdivision 3a, paragraph (a).

Subd. 3e. **Customized living service rate.** (a) Payment for customized living services shall be a monthly rate authorized by the lead agency within the parameters established by the commissioner. The payment agreement must delineate the amount of each component service included in the recipient's customized living service plan. The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized.

(b) The payment rate must be based on the amount of component services to be provided utilizing component rates established by the commissioner. Counties and tribes shall use tools issued by the commissioner to develop and document customized living service plans and rates.

(c) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale. Customized living services must not include rent or raw food costs.

(d) With the exception of individuals described in subdivision 3a, paragraph (b), the individualized monthly authorized payment for the customized living service plan shall not exceed 50 percent of the statewide weighted average monthly nursing facility rate of the case mix resident class to which the elderly waiver eligible client would be assigned under Minnesota Rules, parts 9549.0051 to 9549.0059, less the maintenance needs allowance as described in subdivision 1d, paragraph (a). On July 1 of each year, the individualized monthly authorized payment for the services described in this clause shall not exceed the limit which was in effect on June 30 of the previous state fiscal year updated annually based on legislatively adopted changes to all service rate maximums for home and community-based service providers.

(e) The individualized monthly payment for the customized living service plan for individuals described in subdivision 3a, paragraph (b), must be the monthly authorized payment limit for customized living for individuals classified as case mix A, reduced by 25 percent. This rate limit must be applied to all new participants enrolled in the program on or after July 1, 2011, who meet the criteria described in subdivision 3a, paragraph (b). This monthly limit also applies to all other participants who meet the criteria described in subdivision 3a, paragraph (b), at reassessment.

(f) Customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

(g) A provider may not bill or otherwise charge an elderly waiver participant or their family for additional units of any allowable component service beyond those available under the service rate limits described in paragraph (e), nor for additional units of any allowable component service beyond those approved in the service plan by the lead agency.

(h) Effective January 1, 2018, and each January 1 thereafter, individualized service rate limits for customized living services under this subdivision shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on January 1 or since the previous January 1 and the average statewide percentage increase in nursing facility operating payment rates under chapter 256R, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on January 1, or occurring since the previous January 1.

Subd. 3f. **Payments for services; expenditure forecasts.** (a) Lead agencies shall authorize payments for services in accordance with the payment rates and limits published annually by the commissioner.

(b) Reimbursement for the medical assistance recipients under the approved waiver shall be made from the medical assistance account through the invoice processing procedures of the department's Medicaid Management Information System (MMIS), only with the approval of the

APPENDIX
Repealed Minnesota Statutes: 19-2042

client's case manager. The budget for the state share of the Medicaid expenditures shall be forecasted with the medical assistance budget, and shall be consistent with the approved waiver.

Subd. 3g. **Service rate limits; state assumption of costs.** (a) To improve access to community services and eliminate payment disparities between the alternative care program and the elderly waiver, the commissioner shall establish statewide service rate limits and eliminate lead agency-specific service rate limits.

(b) Effective July 1, 2001, for statewide service rate limits, except those described or defined in subdivisions 3d, 3e, and 3h, the statewide service rate limit for each service shall be the greater of the alternative care statewide rate or the elderly waiver statewide rate.

Subd. 3h. **Service rate limits; 24-hour customized living services.** (a) The payment rate for 24-hour customized living services is a monthly rate authorized by the lead agency within the parameters established by the commissioner of human services. The payment agreement must delineate the amount of each component service included in each recipient's customized living service plan. The lead agency, with input from the provider of customized living services, shall ensure that there is a documented need within the parameters established by the commissioner for all component customized living services authorized. The lead agency shall not authorize 24-hour customized living services unless there is a documented need for 24-hour supervision.

(b) For purposes of this section, "24-hour supervision" means that the recipient requires assistance due to needs related to one or more of the following:

- (1) intermittent assistance with toileting, positioning, or transferring;
- (2) cognitive or behavioral issues;
- (3) a medical condition that requires clinical monitoring; or

(4) for all new participants enrolled in the program on or after July 1, 2011, and all other participants at their first reassessment after July 1, 2011, dependency in at least three of the following activities of daily living as determined by assessment under section 256B.0911: bathing; dressing; grooming; walking; or eating when the dependency score in eating is three or greater; and needs medication management and at least 50 hours of service per month. The lead agency shall ensure that the frequency and mode of supervision of the recipient and the qualifications of staff providing supervision are described and meet the needs of the recipient.

(c) The payment rate for 24-hour customized living services must be based on the amount of component services to be provided utilizing component rates established by the commissioner. Counties and tribes will use tools issued by the commissioner to develop and document customized living plans and authorize rates.

(d) Component service rates must not exceed payment rates for comparable elderly waiver or medical assistance services and must reflect economies of scale.

(e) The individually authorized 24-hour customized living payments, in combination with the payment for other elderly waiver services, including case management, must not exceed the recipient's community budget cap specified in subdivision 3a. Customized living services must not include rent or raw food costs.

(f) The individually authorized 24-hour customized living payment rates shall not exceed the 95 percentile of statewide monthly authorizations for 24-hour customized living services in effect and in the Medicaid management information systems on March 31, 2009, for each case mix resident class under Minnesota Rules, parts 9549.0051 to 9549.0059, to which elderly waiver service clients are assigned. When there are fewer than 50 authorizations in effect in the case mix resident class, the commissioner shall multiply the calculated service payment rate maximum for the A classification by the standard weight for that classification under Minnesota Rules, parts 9549.0051 to 9549.0059, to determine the applicable payment rate maximum. Service payment rate maximums shall be updated annually based on legislatively adopted changes to all service rates for home and community-based service providers.

(g) Notwithstanding the requirements of paragraphs (d) and (f), the commissioner may establish alternative payment rate systems for 24-hour customized living services in housing with services establishments which are freestanding buildings with a capacity of 16 or fewer, by applying a single hourly rate for covered component services provided in either:

- (1) licensed corporate adult foster homes; or

APPENDIX
Repealed Minnesota Statutes: 19-2042

(2) specialized dementia care units which meet the requirements of section 144D.065 and in which:

(i) each resident is offered the option of having their own apartment; or

(ii) the units are licensed as board and lodge establishments with maximum capacity of eight residents, and which meet the requirements of Minnesota Rules, part 9555.6205, subparts 1, 2, 3, and 4, item A.

(h) Twenty-four-hour customized living services are delivered by a provider licensed by the Department of Health as a class A or class F home care provider and provided in a building that is registered as a housing with services establishment under chapter 144D. Licensed home care providers are subject to section 256B.0651, subdivision 14.

(i) A provider may not bill or otherwise charge an elderly waiver participant or their family for additional units of any allowable component service beyond those available under the service rate limits described in paragraph (e), nor for additional units of any allowable component service beyond those approved in the service plan by the lead agency.

(j) Effective January 1, 2018, and each January 1 thereafter, individualized service rate limits for 24-hour customized living services under this subdivision shall be increased by the difference between any legislatively adopted home and community-based provider rate increases effective on January 1 or since the previous January 1 and the average statewide percentage increase in nursing facility operating payment rates under chapter 256R, effective the previous January 1. This paragraph shall only apply if the average statewide percentage increase in nursing facility operating payment rates is greater than any legislatively adopted home and community-based provider rate increases effective on January 1, or occurring since the previous January 1.

Subd. 3i. Rate reduction for customized living and 24-hour customized living services. (a) Effective July 1, 2010, the commissioner shall reduce service component rates and service rate limits for customized living services and 24-hour customized living services, from the rates in effect on June 30, 2010, by five percent.

(b) To implement the rate reductions in this subdivision, capitation rates paid by the commissioner to managed care organizations under section 256B.69 shall reflect a ten percent reduction for the specified services for the period January 1, 2011, to June 30, 2011, and a five percent reduction for those services on and after July 1, 2011.

Subd. 3j. Individual community living support. Upon federal approval, there is established a new service called individual community living support (ICLS) that is available on the elderly waiver. ICLS providers may not be the landlord of recipients, nor have any interest in the recipient's housing. ICLS must be delivered in a single-family home or apartment where the service recipient or their family owns or rents, as demonstrated by a lease agreement, and maintains control over the individual unit. Case managers or care coordinators must develop individual ICLS plans in consultation with the client using a tool developed by the commissioner. The commissioner shall establish payment rates and mechanisms to align payments with the type and amount of service provided, assure statewide uniformity for payment rates, and assure cost-effectiveness. Licensing standards for ICLS shall be reviewed jointly by the Departments of Health and Human Services to avoid conflict with provider regulatory standards pursuant to section 144A.43 and chapter 245D.

Subd. 4. Termination notice. The case manager must give the individual a ten-day written notice of any denial, reduction, or termination of waived services.

Subd. 5. Assessments and reassessments for waiver clients. (a) Each client shall receive an initial assessment of strengths, informal supports, and need for services in accordance with section 256B.0911, subdivisions 3, 3a, and 3b. A reassessment of a client served under the elderly waiver must be conducted at least every 12 months. There must be a determination that the client requires nursing facility level of care as defined in section 256B.0911, subdivision 4e, at initial and subsequent assessments to initiate and maintain participation in the waiver program.

(b) Regardless of other assessments identified in section 144.0724, subdivision 4, as appropriate to determine nursing facility level of care for purposes of medical assistance payment for nursing facility services, only face-to-face assessments conducted according to section 256B.0911, subdivisions 3a and 3b, that result in a nursing facility level of care determination will be accepted for purposes of initial and ongoing access to waiver service payment.

(c) The lead agency shall conduct a change-in-condition reassessment before the annual reassessment in cases where a client's condition changed due to a major health event, an emerging

APPENDIX
Repealed Minnesota Statutes: 19-2042

need or risk, worsening health condition, or cases where the current services do not meet the client's needs. A change-in-condition reassessment may be initiated by the lead agency, or it may be requested by the client or requested on the client's behalf by another party, such as a provider of services. The lead agency shall complete a change-in-condition reassessment no later than 20 calendar days from the request. The lead agency shall conduct these assessments in a timely manner and expedite urgent requests. The lead agency shall evaluate urgent requests based on the client's needs and risk to the client if a reassessment is not completed.

Subd. 6. Implementation of coordinated service and support plan. (a) Each elderly waiver client shall be provided a copy of a written coordinated service and support plan which:

(1) is developed and signed by the recipient within ten working days after the case manager receives the assessment information and written community support plan as described in section 256B.0911, subdivision 3a, from the certified assessor;

(2) includes the person's need for service and identification of service needs that will be or that are met by the person's relatives, friends, and others, as well as community services used by the general public;

(3) reasonably ensures the health and welfare of the recipient;

(4) identifies the person's preferences for services as stated by the person or the person's legal guardian or conservator;

(5) reflects the person's informed choice between institutional and community-based services, as well as choice of services, supports, and providers, including available case manager providers;

(6) identifies long-range and short-range goals for the person;

(7) identifies specific services and the amount, frequency, duration, and cost of the services to be provided to the person based on assessed needs, preferences, and available resources;

(8) includes information about the right to appeal decisions under section 256.045; and

(9) includes the authorized annual and estimated monthly amounts for the services.

(b) In developing the coordinated service and support plan, the case manager should also include the use of volunteers, religious organizations, social clubs, and civic and service organizations to support the individual in the community. The lead agency must be held harmless for damages or injuries sustained through the use of volunteers and agencies under this paragraph, including workers' compensation liability.

Subd. 7. Prepaid elderly waiver services. An individual for whom a prepaid health plan is liable for nursing home services or elderly waiver services according to section 256B.69, subdivision 6a, is not eligible to also receive county-administered elderly waiver services.

Subd. 8. Services and supports. (a) Services and supports shall meet the requirements set out in United States Code, title 42, section 1396n.

(b) Services and supports shall promote consumer choice and be arranged and provided consistent with individualized, written care plans.

(c) The state of Minnesota, county, managed care organization, or tribal government under contract to administer the elderly waiver shall not be liable for damages, injuries, or liabilities sustained through the purchase of direct supports or goods by the person, the person's family, or the authorized representatives with funds received through consumer-directed community support services under the federally approved waiver plan. Liabilities include, but are not limited to, workers' compensation liability, the Federal Insurance Contributions Act (FICA), or the Federal Unemployment Tax Act (FUTA).

Subd. 9. Tribal management of elderly waiver. Notwithstanding contrary provisions of this section, or those in other state laws or rules, the commissioner may develop a model for tribal management of the elderly waiver program and implement this model through a contract between the state and any of the state's federally recognized tribal governments. The model shall include the provision of tribal waiver case management, assessment for personal care assistance, and administrative requirements otherwise carried out by lead agencies but shall not include tribal financial eligibility determination for medical assistance.

Subd. 10. Waiver payment rates; managed care organizations. The commissioner shall adjust the elderly waiver capitation payment rates for managed care organizations paid under section

APPENDIX
Repealed Minnesota Statutes: 19-2042

256B.69, subdivisions 6b and 23, to reflect the maximum service rate limits for customized living services and 24-hour customized living services under subdivisions 3e and 3h. Medical assistance rates paid to customized living providers by managed care organizations under this section shall not exceed the maximum service rate limits and component rates as determined by the commissioner under subdivisions 3e and 3h.

Subd. 11. **Payment rates; application.** The payment methodologies in subdivisions 12 to 16 apply to elderly waiver and elderly waiver customized living under this section, alternative care under section 256B.0913, essential community supports under section 256B.0922, and community access for disability inclusion customized living, brain injury customized living, and elderly waiver foster care and residential care.

Subd. 12. **Payment rates; phase-in.** Effective January 1, 2019, all rates and rate components for services under subdivision 11 shall be the sum of ten percent of the rates calculated under subdivisions 13 to 16 and 90 percent of the rates calculated using the rate methodology in effect as of June 30, 2017.
