3.9 Sec. 3. Minnesota Statutes 2008, section 245.4885, subdivision 1, is amended to read:

3.10 Subdivision 1. **Admission criteria.** The county board shall, prior to admission,
3.11 except in the case of emergency admission, determine the needed level of care for all
3.12 children referred for treatment of severe emotional disturbance in a treatment foster care
3.13 setting, residential treatment facility, or informally admitted to a regional treatment center
3.14 if public funds are used to pay for the services. ~~The county board shall also determine the~~
3.15 ~~needed level of care for all children admitted to an acute care hospital for treatment of~~
3.16 ~~severe emotional disturbance if public funds other than reimbursement under chapters~~
3.17 ~~256B and 256D are used to pay for the services.~~ The level of care determination shall
3.18 determine whether the proposed treatment:

- 3.19 (1) is necessary;
3.20 (2) is appropriate to the child's individual treatment needs;
3.21 (3) cannot be effectively provided in the child's home; and
3.22 (4) provides a length of stay as short as possible consistent with the individual
3.23 child's need.

3.24 When a level of care determination is conducted, the county board may not
3.25 determine that referral or admission to a treatment foster care setting, or residential
3.26 treatment facility, ~~or acute care hospital~~ is not appropriate solely because services were
3.27 not first provided to the child in a less restrictive setting and the child failed to make
3.28 progress toward or meet treatment goals in the less restrictive setting. The level of care
3.29 determination must be based on a diagnostic assessment that includes a functional
3.30 assessment which evaluates family, school, and community living situations; and an
3.31 assessment of the child's need for care out of the home using a validated tool which
3.32 assesses a child's functional status and assigns an appropriate level of care. The validated
3.33 tool must be approved by the commissioner of human services. If a diagnostic assessment
3.34 including a functional assessment has been completed by a mental health professional
3.35 within the past 180 days, a new diagnostic assessment need not be completed unless in the

opinion of the current treating mental health professional the child's mental health status has changed markedly since the assessment was completed. The child's parent shall be notified if an assessment will not be completed and of the reasons. A copy of the notice shall be placed in the child's file. Recommendations developed as part of the level of care determination process shall include specific community services needed by the child and, if appropriate, the child's family, and shall indicate whether or not these services are available and accessible to the child and family.

During the level of care determination process, the child, child's family, or child's legal representative, as appropriate, must be informed of the child's eligibility for case management services and family community support services and that an individual family community support plan is being developed by the case manager, if assigned.

The level of care determination shall comply with section 260C.212. Wherever possible, the parent shall be consulted in the process, unless clinically inappropriate.

The level of care determination, and placement decision, and recommendations for mental health services must be documented in the child's record.

An alternate review process may be approved by the commissioner if the county board demonstrates that an alternate review process has been established by the county board and the times of review, persons responsible for the review, and review criteria are comparable to the standards in clauses (1) to (4).

Sec. 4. Minnesota Statutes 2008, section 245.50, subdivision 5, is amended to read:

Subd. 5. Special contracts; bordering states. (a) An individual who is detained, committed, or placed on an involuntary basis under chapter 253B may be confined or treated in a bordering state pursuant to a contract under this section. An individual who is detained, committed, or placed on an involuntary basis under the civil law of a bordering state may be confined or treated in Minnesota pursuant to a contract under this section. A peace or health officer who is acting under the authority of the sending state may transport an individual to a receiving agency that provides services pursuant to a contract under this section and may transport the individual back to the sending state under the laws of the sending state. Court orders valid under the law of the sending state are granted recognition and reciprocity in the receiving state for individuals covered by a contract under this section to the extent that the court orders relate to confinement for treatment or care of mental illness or chemical dependency. Such treatment or care may address other conditions that may be co-occurring with the mental illness or chemical dependency. These court orders are not subject to legal challenge in the courts of the receiving state. Individuals who are detained, committed, or placed under the law of a sending state and

5.1 who are transferred to a receiving state under this section continue to be in the legal
5.2 custody of the authority responsible for them under the law of the sending state. Except
5.3 in emergencies, those individuals may not be transferred, removed, or furloughed from
5.4 a receiving agency without the specific approval of the authority responsible for them
5.5 under the law of the sending state.

5.6 (b) While in the receiving state pursuant to a contract under this section, an
5.7 individual shall be subject to the sending state's laws and rules relating to length of
5.8 confinement, reexaminations, and extensions of confinement. No individual may be sent
5.9 to another state pursuant to a contract under this section until the receiving state has
5.10 enacted a law recognizing the validity and applicability of this section.

5.11 (c) If an individual receiving services pursuant to a contract under this section leaves
5.12 the receiving agency without permission and the individual is subject to involuntary
5.13 confinement under the law of the sending state, the receiving agency shall use all
5.14 reasonable means to return the individual to the receiving agency. The receiving agency
5.15 shall immediately report the absence to the sending agency. The receiving state has the
5.16 primary responsibility for, and the authority to direct, the return of these individuals
5.17 within its borders and is liable for the cost of the action to the extent that it would be
5.18 liable for costs of its own resident.

5.19 (d) Responsibility for payment for the cost of care remains with the sending agency.

5.20 (e) This subdivision also applies to county contracts under subdivision 2 which
5.21 include emergency care and treatment provided to a county resident in a bordering state.

5.25 bordering state, may act as an examiner under sections 253B.07, 253B.08, 253B.092,
5.26 253B.12, and 253B.17 subject to the same requirements and limitations in section

The professional or practitioner giving direction must also instruct the mental health behavioral aide about the client's diagnosis, functional status, and other characteristics that are likely to affect service delivery. Direction must also

18.6 and requires the professional or practitioner providing it to continuously evaluate the
18.7 mental health behavioral aide's ability to carry out the activities of the individualized
18.8 treatment plan and the individualized behavior plan. When providing direction, the
18.9 professional or practitioner must:

18.10 (i) review progress notes prepared by the mental health behavioral aide for accuracy

18.24 (7) individual treatment plan review. The review must determine the extent to which
18.25 the services have met the goals and objectives in the previous treatment plan. The review
18.26 must assess the client's progress and ensure that services and treatment goals continue to
18.27 be necessary and appropriate to the client and the client's family or foster family. Revision
18.28 of the individual treatment plan does not require a new diagnostic assessment unless the
18.29 client's mental health status has changed markedly. The updated treatment plan must be
18.30 signed by the clinical supervisor and by the client, if appropriate, and by the client's
18.31 parent or other person authorized by statute to give consent to the mental health services
18.32 for the child.
