29.10 **Subd. 13. Data Availability Requirements**

29.11 Data collected by the projects funded under  
29.12 this section must conform to guidelines and  
29.13 standards adopted by MN.IT Services. Spatial  
29.14 data must also conform to additional  
29.15 guidelines and standards designed to support  
29.16 data coordination and distribution that have  
29.17 been published by the Minnesota Geospatial  
29.18 Information Office. Descriptions of spatial  
29.19 data must be prepared as specified in the state's  
29.20 geographic metadata guideline and must be  
29.21 submitted to the Minnesota Geospatial  
29.22 Information Office. All data must be  
29.23 accessible and free to the public unless made  
29.24 private under the Data Practices Act,  
29.25 Minnesota Statutes, chapter 13. To the extent  
29.26 practicable, summary data and results of  
29.27 projects funded under this section should be  
29.28 readily accessible on the Internet and  
29.29 identified as having received funding from the  
29.30 environment and natural resources trust fund.

29.31 **Subd. 14. Project Requirements**

29.32 (a) As a condition of accepting an  
29.33 appropriation under this section, an agency or  
29.34 entity receiving an appropriation or a party to  
29.35 an agreement from an appropriation must

30.1 comply with paragraphs (b) to (l) and  
30.2 Minnesota Statutes, chapter 116P, and must  
30.3 submit a work plan and annual or semiannual  
30.4 progress reports in the form determined by the  
30.5 Legislative-Citizen Commission on Minnesota  
30.6 Resources for any project funded in whole or  
30.7 in part with funds from the appropriation.  
30.8 Modifications to the approved work plan and  
30.9 budget expenditures must be made through  
30.10 the amendment process established by the  
30.11 Legislative-Citizen Commission on Minnesota  
30.12 Resources.

30.13 (b) A recipient of money appropriated in this  
30.14 section that conducts a restoration using funds  
30.15 appropriated in this section must use native  
30.16 plant species according to the Board of Water  
30.17 and Soil Resources' native vegetation  
30.18 establishment and enhancement guidelines  
30.19 and include an appropriate diversity of native  
30.20 species selected to provide habitat for  
30.21 pollinators throughout the growing season as  
30.22 required under Minnesota Statutes, section  
30.23 84.973.

30.24 (c) For all restorations conducted with money  
30.25 appropriated under this section, a recipient  
30.26 must prepare an ecological restoration and  
30.27 management plan that, to the degree  
30.28 practicable, is consistent with the  
30.29 highest-quality conservation and ecological  
30.30 goals for the restoration site. Consideration  
30.31 should be given to soil, geology, topography,  
30.32 and other relevant factors that would provide  
30.33 the best chance for long-term success and  
30.34 durability of the restoration project. The plan  
30.35 must include the proposed timetable for

31.1 implementing the restoration, including site  
31.2 preparation, establishment of diverse plant  
31.3 species, maintenance, and additional  
31.4 enhancement to establish the restoration;  
31.5 identify long-term maintenance and  
31.6 management needs of the restoration and how  
31.7 the maintenance, management, and  
31.8 enhancement will be financed; and take  
31.9 advantage of the best-available science and  
31.10 include innovative techniques to achieve the  
31.11 best restoration.

31.12 (d) An entity receiving an appropriation in this  
31.13 section for restoration activities must provide  
31.14 an initial restoration evaluation at the  
31.15 completion of the appropriation and an  
31.16 evaluation three years after the completion of  
31.17 the expenditure. Restorations must be  
31.18 evaluated relative to the stated goals and  
31.19 standards in the restoration plan, current  
31.20 science, and, when applicable, the Board of  
31.21 Water and Soil Resources' native vegetation  
31.22 establishment and enhancement guidelines.  
31.23 The evaluation must determine whether the  
31.24 restorations are meeting planned goals,  
31.25 identify any problems with implementing the  
31.26 restorations, and, if necessary, give  
31.27 recommendations on improving restorations.  
31.28 The evaluation must be focused on improving  
31.29 future restorations.

31.30 (e) All restoration and enhancement projects  
31.31 funded with money appropriated in this section  
31.32 must be on land permanently protected by a  
31.33 conservation easement or public ownership.

31.34 (f) A recipient of money from an appropriation  
31.35 under this section must give consideration to

32.1 contracting with Conservation Corps  
32.2 Minnesota for contract restoration and  
32.3 enhancement services.

32.4 (g) All conservation easements acquired with  
32.5 money appropriated under this section must:

32.6 (1) be permanent;

32.7 (2) specify the parties to an easement in the  
32.8 easement;

32.9 (3) specify all of the provisions of an  
32.10 agreement that are permanent;

32.11 (4) be sent to the Legislative-Citizen  
32.12 Commission on Minnesota Resources in an  
32.13 electronic format at least ten business days  
32.14 before closing;

32.15 (5) include a long-term monitoring and  
32.16 enforcement plan and funding for monitoring  
32.17 and enforcing the easement agreement; and

32.18 (6) include requirements in the easement  
32.19 document to protect the quantity and quality  
32.20 of groundwater and surface water through  
32.21 specific activities such as keeping water on  
32.22 the landscape, reducing nutrient and  
32.23 contaminant loading, and not permitting  
32.24 artificial hydrological modifications.

32.25 (h) For any acquisition of lands or interest in  
32.26 lands, a recipient of money appropriated under  
32.27 this section must not agree to pay more than  
32.28 100 percent of the appraised value for a parcel  
32.29 of land using this money to complete the  
32.30 purchase, in part or in whole, except that up  
32.31 to ten percent above the appraised value may  
32.32 be allowed to complete the purchase, in part  
32.33 or in whole, using this money if permission is

33.1 received in advance of the purchase from the  
33.2 Legislative-Citizen Commission on Minnesota  
33.3 Resources.

33.4 (i) For any acquisition of land or interest in  
33.5 land, a recipient of money appropriated under  
33.6 this section must give priority to high-quality  
33.7 natural resources or conservation lands that  
33.8 provide natural buffers to water resources.

33.9 (j) For new lands acquired with money  
33.10 appropriated under this section, a recipient  
33.11 must prepare an ecological restoration and  
33.12 management plan in compliance with  
33.13 paragraph (c), including sufficient funding for  
33.14 implementation unless the work plan addresses  
33.15 why a portion of the money is not necessary  
33.16 to achieve a high-quality restoration.

33.17 (k) To ensure public accountability for using  
33.18 public funds, a recipient of money  
33.19 appropriated under this section must, within  
33.20 60 days of the transaction, provide to the  
33.21 Legislative-Citizen Commission on Minnesota  
33.22 Resources documentation of the selection  
33.23 process used to identify parcels acquired and  
33.24 provide documentation of all related  
33.25 transaction costs, including but not limited to  
33.26 appraisals, legal fees, recording fees,  
33.27 commissions, other similar costs, and  
33.28 donations. This information must be provided  
33.29 for all parties involved in the transaction. The  
33.30 recipient must also report to the  
33.31 Legislative-Citizen Commission on Minnesota  
33.32 Resources any difference between the  
33.33 acquisition amount paid to the seller and the  
33.34 state-certified or state-reviewed appraisal, if

34.1 a state-certified or state-reviewed appraisal  
34.2 was conducted.

34.3 (l) A recipient of an appropriation from the  
34.4 trust fund under this section must acknowledge  
34.5 financial support from the environment and  
34.6 natural resources trust fund in project  
34.7 publications, signage, and other public  
34.8 communications and outreach related to work  
34.9 completed using the appropriation.

34.10 Acknowledgment may occur, as appropriate,  
34.11 through use of the trust fund logo or inclusion  
34.12 of language attributing support from the trust  
34.13 fund. Each direct recipient of money  
34.14 appropriated in this section, as well as each  
34.15 recipient of a grant awarded pursuant to this  
34.16 section, must satisfy all reporting and other  
34.17 requirements incumbent upon constitutionally  
34.18 dedicated funding recipients as provided in  
34.19 Minnesota Statutes, section 3.303, subdivision  
34.20 10, and chapter 116P.

34.21 **Subd. 15. Payment Conditions and**  
34.22 **Capital-Equipment Expenditures**

34.23 (a) All agreements, grants, or contracts  
34.24 referred to in this section must be administered  
34.25 on a reimbursement basis unless otherwise  
34.26 provided in this section. Notwithstanding  
34.27 Minnesota Statutes, section 16A.41,  
34.28 expenditures made on or after July 1, 2020,  
34.29 or the date the work plan is approved,  
34.30 whichever is later, are eligible for  
34.31 reimbursement unless otherwise provided in  
34.32 this section. Periodic payments must be made  
34.33 upon receiving documentation that the  
34.34 deliverable items articulated in the approved  
34.35 work plan have been achieved, including

35.1 partial achievements as evidenced by approved  
 35.2 progress reports. Reasonable amounts may be  
 35.3 advanced to projects to accommodate  
 35.4 cash-flow needs or match federal money. The  
 35.5 advances must be approved as part of the work  
 35.6 plan. No expenditures for capital equipment  
 35.7 are allowed unless expressly authorized in the  
 35.8 project work plan.

35.9 (b) Single-source contracts as specified in the  
 35.10 approved work plan are allowed.

 35.27 with the applicable energy conservation and  
 35.28 sustainable building guidelines and standards  
 35.29 contained in law, including Minnesota  
 35.30 Statutes, sections 16B.325, 216C.19, and
