Sec. 6. Minnesota Statutes 2020, section 174.30, subdivision 3, is amended to read:

Subd. 3. Other standards; wheelchair securement; protected transport. (a) A special transportation service that transports individuals occupying wheelchairs is subject to the provisions of sections 299A.11 to 299A.17 concerning wheelchair securement devices. The commissioners of transportation and public safety shall cooperate in the enforcement of this section and sections 299A.11 to 299A.17 so that a single inspection is sufficient to ascertain compliance with sections 299A.11 to 299A.17 and with the standards adopted under this section. Representatives of the Department of Transportation may inspect wheelchair securement devices in vehicles operated by special transportation service providers to determine compliance with sections 299A.11 to 299A.17 and to issue certificates under section 299A.14, subdivision 4.

- (b) In place of a certificate issued under section 299A.14, the commissioner may issue a decal under subdivision 4 for a vehicle equipped with a wheelchair securement device if the device complies with sections 299A.11 to 299A.17 and the decal displays the information in section 299A.14, subdivision 4.
- 5.16 (c) For vehicles designated as protected transport under section 256B.0625, subdivision
 5.17 17, paragraph (h) (g), the commissioner of transportation, during the commissioner's

- Sec. 7. Minnesota Statutes 2020, section 256.01, subdivision 28, is amended to read:
 - Subd. 28. **Statewide health information exchange.** (a) The commissioner has the authority to join and participate as a member in a legal entity developing and operating a statewide health information exchange or to develop and operate an encounter alerting service that shall meet the following criteria:
 - (1) the legal entity must meet all constitutional and statutory requirements to allow the commissioner to participate; and
 - (2) the commissioner or the commissioner's designated representative must have the right to participate in the governance of the legal entity under the same terms and conditions and subject to the same requirements as any other member in the legal entity and in that role shall act to advance state interests and lessen the burdens of government.
 - (b) Notwithstanding chapter 16C, the commissioner may pay the state's prorated share of development-related expenses of the legal entity retroactively from October 29, 2007, regardless of the date the commissioner joins the legal entity as a member.

Sec. 8. Minnesota Statutes 2020, section 256.969, subdivision 2b, is amended to read:

Subd. 2b. **Hospital payment rates.** (a) For discharges occurring on or after November 1, 2014, hospital inpatient services for hospitals located in Minnesota shall be paid according to the following:

- (1) critical access hospitals as defined by Medicare shall be paid using a cost-based methodology;
- (2) long-term hospitals as defined by Medicare shall be paid on a per diem methodology under subdivision 25;
- (3) rehabilitation hospitals or units of hospitals that are recognized as rehabilitation distinct parts as defined by Medicare shall be paid according to the methodology under subdivision 12; and
- (4) all other hospitals shall be paid on a diagnosis-related group (DRG) methodology.
- (b) For the period beginning January 1, 2011, through October 31, 2014, rates shall not be rebased, except that a Minnesota long-term hospital shall be rebased effective January 1, 2011, based on its most recent Medicare cost report ending on or before September 1, 2008, with the provisions under subdivisions 9 and 23, based on the rates in effect on December 31, 2010. For rate setting periods after November 1, 2014, in which the base years are updated, a Minnesota long-term hospital's base year shall remain within the same period as other hospitals.
- (c) Effective for discharges occurring on and after November 1, 2014, payment rates for hospital inpatient services provided by hospitals located in Minnesota or the local trade area, except for the hospitals paid under the methodologies described in paragraph (a), clauses (2) and (3), shall be rebased, incorporating cost and payment methodologies in a manner similar to Medicare. The base year or years for the rates effective November 1, 2014, shall be calendar year 2012. The rebasing under this paragraph shall be budget neutral, ensuring that the total aggregate payments under the rebased system are equal to the total aggregate payments that were made for the same number and types of services in the base year. Separate budget neutrality calculations shall be determined for payments made to critical access hospitals and payments made to hospitals paid under the DRG system. Only the rate increases or decreases under subdivision 3a or 3c that applied to the hospitals being rebased during the entire base period shall be incorporated into the budget neutrality calculation.

Article 1 Sec. 8.

7.1	(d) For discharges occurring on or after November 1, 2014, through the next rebasing
7.2	that occurs, the rebased rates under paragraph (c) that apply to hospitals under paragraph
7.3	(a), clause (4), shall include adjustments to the projected rates that result in no greater than
7.4	a five percent increase or decrease from the base year payments for any hospital. Any
7.5	adjustments to the rates made by the commissioner under this paragraph and paragraph (e)
7.6	shall maintain budget neutrality as described in paragraph (c).
7.7	(e) For discharges occurring on or after November 1, 2014, the commissioner may make
7.8	additional adjustments to the rebased rates, and when evaluating whether additional
7.9	adjustments should be made, the commissioner shall consider the impact of the rates on the
7.10	following:
7.11	(1) pediatric services;
7.12	(2) behavioral health services;
7.13	(3) trauma services as defined by the National Uniform Billing Committee;
7.14	(4) transplant services;
7.15	(5) obstetric services, newborn services, and behavioral health services provided by
7.16	hospitals outside the seven-county metropolitan area;
7.17	(6) outlier admissions;
7.18	(7) low-volume providers; and
7.19	(8) services provided by small rural hospitals that are not critical access hospitals.
7.20	(f) Hospital payment rates established under paragraph (c) must incorporate the following
7.21	(1) for hospitals paid under the DRG methodology, the base year payment rate per
7.22	admission is standardized by the applicable Medicare wage index and adjusted by the
7.23	hospital's disproportionate population adjustment;
7.24	(2) for critical access hospitals, payment rates for discharges between November 1, 2014
7.25	and June 30, 2015, shall be set to the same rate of payment that applied for discharges on
7.26	October 31, 2014;
7.27	(3) the cost and charge data used to establish hospital payment rates must only reflect
7.28	inpatient services covered by medical assistance; and
7.29	(4) in determining hospital payment rates for discharges occurring on or after the rate

7.31

program in effect during the base year or years. In determining hospital payment rates for discharges in subsequent base years, the per discharge rates shall be based on the cost-finding methods and allowable costs of the Medicare program in effect during the base year or years.

- (g) The commissioner shall validate the rates effective November 1, 2014, by applying the rates established under paragraph (c), and any adjustments made to the rates under paragraph (d) or (e), to hospital claims paid in calendar year 2013 to determine whether the total aggregate payments for the same number and types of services under the rebased rates are equal to the total aggregate payments made during calendar year 2013.
- (h) Effective for discharges occurring on or after July 1, 2017, and every two years thereafter, payment rates under this section shall be rebased to reflect only those changes in hospital costs between the existing base year or years and the next base year or years. In any year that inpatient claims volume falls below the threshold required to ensure a statically valid sample of claims, the commissioner may combine claims data from two consecutive years to serve as the base year. Years in which inpatient claims volume is reduced or altered due to a pandemic or other public health emergency shall not be used as a base year or part of a base year if the base year includes more than one year. Changes in costs between base years shall be measured using the lower of the hospital cost index defined in subdivision 1, paragraph (a), or the percentage change in the case mix adjusted cost per claim. The commissioner shall establish the base year for each rebasing period considering the most recent year or years for which filed Medicare cost reports are available. The estimated change in the average payment per hospital discharge resulting from a scheduled rebasing must be calculated and made available to the legislature by January 15 of each year in which rebasing is scheduled to occur, and must include by hospital the differential in payment rates compared to the individual hospital's costs.
- (i) Effective for discharges occurring on or after July 1, 2015, inpatient payment rates for critical access hospitals located in Minnesota or the local trade area shall be determined using a new cost-based methodology. The commissioner shall establish within the methodology tiers of payment designed to promote efficiency and cost-effectiveness. Payment rates for hospitals under this paragraph shall be set at a level that does not exceed the total cost for critical access hospitals as reflected in base year cost reports. Until the next rebasing that occurs, the new methodology shall result in no greater than a five percent decrease from the base year payments for any hospital, except a hospital that had payments that were greater than 100 percent of the hospital's costs in the base year shall have their rate set equal to 100 percent of costs in the base year. The rates paid for discharges on and

9.1	after July 1, 2016, covered under this paragraph shall be increased by the inflation factor
9.2	in subdivision 1, paragraph (a). The new cost-based rate shall be the final rate and shall no
9.3	be settled to actual incurred costs. Hospitals shall be assigned a payment tier based on the
9.4	following criteria:
9.5	(1) hospitals that had payments at or below 80 percent of their costs in the base year
9.6	shall have a rate set that equals 85 percent of their base year costs;
9.7	(2) hospitals that had payments that were above 80 percent, up to and including 90
9.8	percent of their costs in the base year shall have a rate set that equals 95 percent of their
9.9	base year costs; and
9.10	(3) hospitals that had payments that were above 90 percent of their costs in the base year
9.11	shall have a rate set that equals 100 percent of their base year costs.
9.12	(j) The commissioner may refine the payment tiers and criteria for critical access hospitals
9.13	to coincide with the next rebasing under paragraph (h). The factors used to develop the new
9.14	methodology may include, but are not limited to:
9.15	(1) the ratio between the hospital's costs for treating medical assistance patients and the
9.16	hospital's charges to the medical assistance program;
9.17	(2) the ratio between the hospital's costs for treating medical assistance patients and the
9.18	hospital's payments received from the medical assistance program for the care of medical
9.19	assistance patients;
9.20	(3) the ratio between the hospital's charges to the medical assistance program and the
9.21	hospital's payments received from the medical assistance program for the care of medical
9.22	assistance patients;
9.23	(4) the statewide average increases in the ratios identified in clauses (1), (2), and (3);
9.24	(5) the proportion of that hospital's costs that are administrative and trends in
9.25	administrative costs; and
9.26	(6) geographic location.
9.27	Sec. 9. Minnesota Statutes 2020, section 256.969, is amended by adding a subdivision to
9.28	read:

The alternate payment rate shall be structured to target a total aggregate reimbursement amount equal to what the hospital would have received for providing fee-for-service inpatient services under this section to patients enrolled in medical assistance had the hospital received the entire amount calculated under subdivision 9, paragraph (d), clause (6).

EFFECTIVE DATE. This section is effective January 1, 2022.

Sec. 10. Minnesota Statutes 2020, section 256.969, subdivision 9, is amended to read:

- Subd. 9. **Disproportionate numbers of low-income patients served.** (a) For admissions occurring on or after July 1, 1993, the medical assistance disproportionate population adjustment shall comply with federal law and shall be paid to a hospital, excluding regional treatment centers and facilities of the federal Indian Health Service, with a medical assistance inpatient utilization rate in excess of the arithmetic mean. The adjustment must be determined as follows:
- (1) for a hospital with a medical assistance inpatient utilization rate above the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service but less than or equal to one standard deviation above the mean, the adjustment must be determined by multiplying the total of the operating and property payment rates by the difference between the hospital's actual medical assistance inpatient utilization rate and the arithmetic mean for all hospitals excluding regional treatment centers and facilities of the federal Indian Health Service; and
- (2) for a hospital with a medical assistance inpatient utilization rate above one standard deviation above the mean, the adjustment must be determined by multiplying the adjustment that would be determined under clause (1) for that hospital by 1.1. The commissioner shall report annually on the number of hospitals likely to receive the adjustment authorized by this paragraph. The commissioner shall specifically report on the adjustments received by public hospitals and public hospital corporations located in cities of the first class.
- (b) Certified public expenditures made by Hennepin County Medical Center shall be considered Medicaid disproportionate share hospital payments. Hennepin County and Hennepin County Medical Center shall report by June 15, 2007, on payments made beginning July 1, 2005, or another date specified by the commissioner, that may qualify for reimbursement under federal law. Based on these reports, the commissioner shall apply for federal matching funds.

- (d) Effective July 1, 2015, disproportionate share hospital (DSH) payments shall be paid in accordance with a new methodology using 2012 as the base year. Annual payments made under this paragraph shall equal the total amount of payments made for 2012. A licensed children's hospital shall receive only a single DSH factor for children's hospitals. Other DSH factors may be combined to arrive at a single factor for each hospital that is eligible for DSH payments. The new methodology shall make payments only to hospitals located in Minnesota and include the following factors:
- 11.11 (1) a licensed children's hospital with at least 1,000 fee-for-service discharges in the 11.12 base year shall receive a factor of 0.868. A licensed children's hospital with less than 1,000 11.13 fee-for-service discharges in the base year shall receive a factor of 0.7880;

 - (3) a hospital that has received <u>medical assistance</u> payment from the fee-for-service program for at least 20 transplant services in the base year shall receive a factor of 0.0435;
 - (4) a hospital that has a medical assistance utilization rate in the base year between 20 percent up to one standard deviation above the statewide mean utilization rate shall receive a factor of 0.0468;
 - (5) a hospital that has a medical assistance utilization rate in the base year that is at least one standard deviation above the statewide mean utilization rate but is less than two and one-half standard deviations above the mean shall receive a factor of 0.2300; and
 - (6) a hospital that is a level one trauma center and that has a medical assistance utilization rate in the base year that is at least two and one-half standard deviations above the statewide mean utilization rate shall receive a factor of 0.3711.
 - (e) For the purposes of determining eligibility for the disproportionate share hospital factors in paragraph (d), clauses (1) to (6), the medical assistance utilization rate and discharge thresholds shall be measured using only one year when a two-year base period is used.

(f) (g) An additional payment adjustment shall be established by the commissioner under this subdivision for a hospital that provides high levels of administering high-cost drugs to enrollees in fee-for-service medical assistance. The commissioner shall consider factors including fee-for-service medical assistance utilization rates and payments made for drugs purchased through the 340B drug purchasing program and administered to fee-for-service enrollees. If any part of this adjustment exceeds a hospital's hospital-specific disproportionate share hospital limit, or if the hospital qualifies for the alternative payment rate described in subdivision 2e, the commissioner shall make a payment to the hospital that equals the nonfederal share of the amount that exceeds the limit. The total nonfederal share of the amount of the payment adjustment under this paragraph shall not exceed \$1,500,000 \$9,750,000 in fiscal year 2023 and \$14,000,000 per year beginning July 1, 2023.

Sec. 11. Minnesota Statutes 2020, section 256.9695, subdivision 1, is amended to read:

Subdivision 1. **Appeals.** A hospital may appeal a decision arising from the application of standards or methods under section 256.9685, 256.9686, or 256.969, if an appeal would result in a change to the hospital's payment rate or payments. Both overpayments and underpayments that result from the submission of appeals shall be implemented. Regardless of any appeal outcome, relative values, Medicare wage indexes, Medicare cost-to-charge ratios, and policy adjusters shall not be changed. The appeal shall be heard by an administrative law judge according to sections 14.57 to 14.62, or upon agreement by both parties, according to a modified appeals procedure established by the commissioner and the Office of Administrative Hearings. In any proceeding under this section, the appealing party must demonstrate by a preponderance of the evidence that the commissioner's determination is incorrect or not according to law.

To appeal a payment rate or payment determination or a determination made from base year information, the hospital shall file a written appeal request to the commissioner within 60 days of the date the preliminary payment rate determination was mailed. The appeal request shall specify: (i) the disputed items; (ii) the authority in federal or state statute or rule upon which the hospital relies for each disputed item; and (iii) the name and address

Sec. 12. Minnesota Statutes 2020, section 256.983, is amended to read:

256.983 FRAUD PREVENTION INVESTIGATIONS.

Subdivision 1. **Programs established.** Within the limits of available appropriations, the commissioner of human services shall require the maintenance of budget neutral fraud prevention investigation programs in the counties <u>or tribal agencies</u> participating in the fraud prevention investigation project established under this section. If funds are sufficient, the commissioner may also extend fraud prevention investigation programs to other counties <u>or tribal agencies</u> provided the expansion is budget neutral to the state. Under any expansion, the commissioner has the final authority in decisions regarding the creation and realignment of individual county, tribal agency, or regional operations.

Subd. 2. **County** and tribal agency proposals. Each participating county and tribal agency shall develop and submit an annual staffing and funding proposal to the commissioner no later than April 30 of each year. Each proposal shall include, but not be limited to, the staffing and funding of the fraud prevention investigation program, a job description for investigators involved in the fraud prevention investigation program, and the organizational structure of the county or tribal agency unit, training programs for case workers, and the operational requirements which may be directed by the commissioner. The proposal shall be approved, to include any changes directed or negotiated by the commissioner, no later than June 30 of each year.

Subd. 3. **Department responsibilities.** The commissioner shall establish training programs which shall be attended by all investigative and supervisory staff of the involved county and tribal agencies. The commissioner shall also develop the necessary operational guidelines, forms, and reporting mechanisms, which shall be used by the involved county or tribal agencies. An individual's application or redetermination form for public assistance benefits, including child care assistance programs and medical care programs, must include an authorization for release by the individual to obtain documentation for any information on that form which is involved in a fraud prevention investigation. The authorization for release is effective for six months after public assistance benefits have ceased.

Subd. 4. **Funding.** (a) County <u>and tribal</u> agency reimbursement shall be made through the settlement provisions applicable to the Supplemental Nutrition Assistance Program

This result is contingent on the commissioner providing written notice, including an offer of technical assistance, within 30 days of the end of the third or subsequent month of noncompliance. The county or tribal agency shall be required to submit a corrective action plan to the commissioner within 30 days of receipt of a notice of noncompliance. Sec. 27. Minnesota Statutes 2020, section 256B.0625, subdivision 13e, is amended to read:

Subd. 13e. Payment rates. (a) The basis for determining the amount of payment shall be the lower of the ingredient costs of the drugs plus the professional dispensing fee; or the usual and customary price charged to the public. The usual and customary price means the lowest price charged by the provider to a patient who pays for the prescription by cash, check, or charge account and includes prices the pharmacy charges to a patient enrolled in a prescription savings club or prescription discount club administered by the pharmacy or pharmacy chain. The amount of payment basis must be reduced to reflect all discount amounts applied to the charge by any third-party provider/insurer agreement or contract for submitted charges to medical assistance programs. The net submitted charge may not be greater than the patient liability for the service. The professional dispensing fee shall be \$10.48 \$10.77 for prescriptions filled with legend drugs meeting the definition of "covered outpatient drugs" according to United States Code, title 42, section 1396r-8(k)(2). The dispensing fee for intravenous solutions that must be compounded by the pharmacist shall be \$10.48 \$10.77 per bag claim. The professional dispensing fee for prescriptions filled with over-the-counter drugs meeting the definition of covered outpatient drugs shall be \$10.48 \$10.77 for dispensed quantities equal to or greater than the number of units contained in the manufacturer's original package. The professional dispensing fee shall be prorated based on the percentage of the package dispensed when the pharmacy dispenses a quantity less than the number of units contained in the manufacturer's original package. The pharmacy dispensing fee for prescribed over-the-counter drugs not meeting the definition of covered outpatient drugs shall be \$3.65 for quantities equal to or greater than the number of units contained in the manufacturer's original package and shall be prorated based on the percentage of the package dispensed when the pharmacy dispenses a quantity less than the number of units contained in the manufacturer's original package. The National Average Drug Acquisition Cost (NADAC) shall be used to determine the ingredient cost of a drug. For drugs for which a NADAC is not reported, the commissioner shall estimate the ingredient cost at the wholesale acquisition cost minus two percent. The ingredient cost of a drug for a provider participating in the federal 340B Drug Pricing Program shall be either the 340B Drug Pricing Program ceiling price established by the Health Resources and Services Administration or NADAC, whichever is lower. Wholesale acquisition cost is defined as the manufacturer's list price for a drug or biological to wholesalers or direct purchasers in the United States, not including prompt pay or other discounts, rebates, or reductions in price, for the most recent month for which information is available, as reported in wholesale price guides or other publications of drug or biological pricing data. cost of a multisource drug may be set by the commissioner and it shall be comparable to the actual acquisition cost of the drug product and no higher than the NADAC of the generic product. Establishment of the amount of payment for drugs shall not be subject to the requirements of the Administrative Procedure Act.

- (b) Pharmacies dispensing prescriptions to residents of long-term care facilities using an automated drug distribution system meeting the requirements of section 151.58, or a packaging system meeting the packaging standards set forth in Minnesota Rules, part 6800.2700, that govern the return of unused drugs to the pharmacy for reuse, may employ retrospective billing for prescription drugs dispensed to long-term care facility residents. A retrospectively billing pharmacy must submit a claim only for the quantity of medication used by the enrolled recipient during the defined billing period. A retrospectively billing pharmacy must use a billing period not less than one calendar month or 30 days.
- (c) A pharmacy provider using packaging that meets the standards set forth in Minnesota Rules, part 6800.2700, is required to credit the department for the actual acquisition cost of all unused drugs that are eligible for reuse, unless the pharmacy is using retrospective billing. The commissioner may permit the drug clozapine to be dispensed in a quantity that is less than a 30-day supply.
- (d) If a pharmacy dispenses a multisource drug, the ingredient cost shall be the NADAC of the generic product or the maximum allowable cost established by the commissioner unless prior authorization for the brand name product has been granted according to the criteria established by the Drug Formulary Committee as required by subdivision 13f, paragraph (a), and the prescriber has indicated "dispense as written" on the prescription in a manner consistent with section 151.21, subdivision 2.
- (e) The basis for determining the amount of payment for drugs administered in an outpatient setting shall be the lower of the usual and customary cost submitted by the provider, 106 percent of the average sales price as determined by the United States Department of Health and Human Services pursuant to title XVIII, section 1847a of the federal Social Security Act, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. If average sales price is unavailable, the amount of payment must be lower of the usual and customary cost submitted by the provider, the wholesale acquisition cost, the specialty pharmacy rate, or the maximum allowable cost set by the commissioner. The commissioner shall discount the payment rate for drugs obtained through the federal 340B Drug Pricing Program by 28.6 percent. The payment for drugs administered in an outpatient setting shall be made to the administering facility or practitioner. A retail or

specialty pharmacy dispensing a drug for administration in an outpatient setting is not eligible for direct reimbursement.

- (f) The commissioner may establish maximum allowable cost rates for specialty pharmacy products that are lower than the ingredient cost formulas specified in paragraph (a). The commissioner may require individuals enrolled in the health care programs administered by the department to obtain specialty pharmacy products from providers with whom the commissioner has negotiated lower reimbursement rates. Specialty pharmacy products are defined as those used by a small number of recipients or recipients with complex and chronic diseases that require expensive and challenging drug regimens. Examples of these conditions include, but are not limited to: multiple sclerosis, HIV/AIDS, transplantation, hepatitis C, growth hormone deficiency, Crohn's Disease, rheumatoid arthritis, and certain forms of cancer. Specialty pharmaceutical products include injectable and infusion therapies, biotechnology drugs, antihemophilic factor products, high-cost therapies, and therapies that require complex care. The commissioner shall consult with the Formulary Committee to develop a list of specialty pharmacy products subject to maximum allowable cost reimbursement. In consulting with the Formulary Committee in developing this list, the commissioner shall take into consideration the population served by specialty pharmacy products, the current delivery system and standard of care in the state, and access to care issues. The commissioner shall have the discretion to adjust the maximum allowable cost to prevent access to care issues.
- (g) Home infusion therapy services provided by home infusion therapy pharmacies must be paid at rates according to subdivision 8d.
- (h) The commissioner shall contract with a vendor to conduct a cost of dispensing survey for all pharmacies that are physically located in the state of Minnesota that dispense outpatient drugs under medical assistance. the vehicle driver; and (ii) who is certified as a protected transport provider; and
(7) stretcher transport, which includes transport for a client in a prone or supine position
and requires a nonemergency medical transportation provider with a vehicle that can transport

(k) (i) The commissioner shall:

(2) verify that the client is going to an approved medical appointment; and
(3) investigate all complaints and appeals.
(l) The administrative agency shall pay for the services provided in this subdivision and
seek reimbursement from the commissioner, if appropriate. As vendors of medical care,

40.10	under RUCA to be super rural is equal to 111.3 percent of the respective base rate in
40.11	paragraph (m), clauses (1) to (7). The mileage rate for nonemergency medical transportation
40.12	services in areas defined under RUCA to be rural or super rural areas is:
40.13	(1) for a trip equal to 17 miles or less, equal to 125 percent of the respective mileage
40.14	rate in paragraph (m), clauses (1) to (7); and
40.15	(2) for a trip between 18 and 50 miles, equal to 112.5 percent of the respective mileage
40.16	rate in paragraph (m), clauses (1) to (7).
40.17	(o) For purposes of reimbursement rates for nonemergency medical transportation

Sec. 41. Minnesota Statutes 2020, section 256B.196, subdivision 2, is amended to read:

Subd. 2. Commissioner's duties. (a) For the purposes of this subdivision and subdivision 3, the commissioner shall determine the fee-for-service outpatient hospital services upper payment limit for nonstate government hospitals. The commissioner shall then determine the amount of a supplemental payment to Hennepin County Medical Center and Regions Hospital for these services that would increase medical assistance spending in this category to the aggregate upper payment limit for all nonstate government hospitals in Minnesota. In making this determination, the commissioner shall allot the available increases between Hennepin County Medical Center and Regions Hospital based on the ratio of medical assistance fee-for-service outpatient hospital payments to the two facilities. The commissioner shall adjust this allotment as necessary based on federal approvals, the amount of intergovernmental transfers received from Hennepin and Ramsey Counties, and other factors, in order to maximize the additional total payments. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match federal Medicaid payments available under this subdivision in order to make supplementary medical assistance payments to Hennepin County Medical Center and Regions Hospital equal to an amount that when combined with existing medical assistance payments to nonstate governmental hospitals would increase total payments to hospitals in this category for outpatient services to the aggregate upper payment limit for all hospitals in this category in Minnesota. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center and Regions Hospital.

(b) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians and other billing professionals affiliated with Hennepin County Medical Center and with Regions Hospital. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform Hennepin County and Ramsey County of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center and to make supplementary payments to physicians and other billing professionals affiliated with Regions Hospital through HealthPartners Medical Group equal to the difference between the established medical assistance payment for physician and other billing professional services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to physicians and other billing professionals affiliated with Hennepin County Medical Center

(c) Beginning January 1, 2010, Hennepin County and Ramsey County may make monthly voluntary intergovernmental transfers to the commissioner in amounts not to exceed \$12,000,000 per year from Hennepin County and \$6,000,000 per year from Ramsey County. The commissioner shall increase the medical assistance capitation payments to any licensed health plan under contract with the medical assistance program that agrees to make enhanced payments to Hennepin County Medical Center or Regions Hospital. The increase shall be in an amount equal to the annual value of the monthly transfers plus federal financial participation, with each health plan receiving its pro rata share of the increase based on the pro rata share of medical assistance admissions to Hennepin County Medical Center and Regions Hospital by those plans. For the purposes of this paragraph, "the base amount" means the total annual value of increased medical assistance capitation payments, including the voluntary intergovernmental transfers, under this paragraph in calendar year 2017. For managed care contracts beginning on or after January 1, 2018, the commissioner shall reduce the total annual value of increased medical assistance capitation payments under this paragraph by an amount equal to ten percent of the base amount, and by an additional ten percent of the base amount for each subsequent contract year until December 31, 2025. Upon the request of the commissioner, health plans shall submit individual-level cost data for verification purposes. The commissioner may ratably reduce these payments on a pro rata basis in order to satisfy federal requirements for actuarial soundness. If payments are reduced, transfers shall be reduced accordingly. Any licensed health plan that receives increased medical assistance capitation payments under the intergovernmental transfer described in this paragraph shall increase its medical assistance payments to Hennepin County Medical Center and Regions Hospital by the same amount as the increased payments received in the capitation payment described in this paragraph. This paragraph expires January 1, 2026.

(d) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for ambulance services affiliated with Hennepin County Medical Center and the city of St. Paul, and ambulance services owned and operated by another governmental entity that chooses to participate by requesting the commissioner to determine an upper payment limit. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to Hennepin County Medical Center, the city of St. Paul, and other participating governmental entities. A tribal government that owns and operates an ambulance service is not eligible to participate under this subdivision.

- (e) For the purposes of this subdivision and subdivision 3, the commissioner shall determine an upper payment limit for physicians, dentists, and other billing professionals affiliated with the University of Minnesota and University of Minnesota Physicians. The upper payment limit shall be based on the average commercial rate or be determined using another method acceptable to the Centers for Medicare and Medicaid Services. The commissioner shall inform the University of Minnesota Medical School and University of Minnesota School of Dentistry of the periodic intergovernmental transfers necessary to match the federal Medicaid payments available under this subdivision in order to make supplementary payments to physicians, dentists, and other billing professionals affiliated with the University of Minnesota and the University of Minnesota Physicians equal to the difference between the established medical assistance payment for physician, dentist, and other billing professional services and the upper payment limit. Upon receipt of these periodic transfers, the commissioner shall make supplementary payments to physicians, dentists, and other billing professionals affiliated with the University of Minnesota and the University of Minnesota Physicians.
- (f) The commissioner shall inform the transferring governmental entities on an ongoing basis of the need for any changes needed in the intergovernmental transfers in order to continue the payments under paragraphs (a) to (e), at their maximum level, including increases in upper payment limits, changes in the federal Medicaid match, and other factors.
- (g) The payments in paragraphs (a) to (e) shall be implemented independently of each other, subject to federal approval and to the receipt of transfers under subdivision 3.
- (h) All of the data and funding transactions related to the payments in paragraphs (a) to shall be between the commissioner and the governmental entities.

requirement, the commissioner shall determine a uniform adjustment factor to be applied to each claim submitted by an eligible provider to a health plan. The uniform adjustment factor shall be determined using the average commercial payer rate or using another method acceptable to the Centers for Medicare and Medicaid Services if the average commercial payer rate is not approved, minus the amount necessary for the plan to satisfy tax liabilities under sections 256.9657 and 2971.05 attributable to the directed payment arrangement. The directed payment shall be specific to each health plan and prospectively incorporated into capitation payments for that plan.

(b) For each federally approved directed payment arrangement that is a state-directed fee schedule requirement, the commissioner shall develop a plan for the initial implementation of the state-directed fee schedule requirement to ensure that the eligible provider receives the entire permissible value of the federally approved directed payment arrangement. Subd. 8. State quality goals. The directed payment arrangement and state-directed fee schedule requirement must align the state quality goals to Hennepin Healthcare medical assistance patients, including unstably housed individuals, those with higher levels of social and clinical risk, limited English proficiency (LEP) patients, adults with serious chronic conditions, and individuals of color. The directed payment arrangement must maintain quality and access to a full range of health care delivery mechanisms for these patients that may include behavioral health, emergent care, preventive care, hospitalization, transportation, interpreter services, and pharmaceutical services. The commissioner, in consultation with Hennepin Healthcare, shall submit to the Centers for Medicare and Medicaid Services a methodology to measure access to care and the achievement of state quality goals.

64.18	calendar year. The report must include:
64.19	(1) the National Provider Identification (NPI) number for each 340B covered entity;
64.20	(2) the name of each 340B covered entity;
64.21	(3) the servicing address of each 340B covered entity; and
64.22	(4) either: (i) the number of outpatient 340B pharmacy claims and reimbursement

65.2	exception under this paragraph includes the following situations:
65.3	(1) implementation of a value-based purchasing model for provider reimbursement,

65.7	or performance improvement initiative; or
65.8	(3) implementation of a minimum or maximum fee schedule, or a uniform dollar or

65.10	fee schedule must allow the managed care organization the ability to reasonably manage
65.11	risk and provide discretion in accomplishing the goals of the contract.
65.12	(b) Any managed care contract that directs managed care organization expenditures as
65.13	permitted under paragraph (a), clauses (1) to (3), must be developed in accordance with

65.19	(2) directs expenditures equally, using the same terms of performance for a class of
65.20	providers providing service under the contract;
65.21	(3) is intended to advance at least one of the goals and objectives in the commissioner's

256B.75 HOSPITAL OUTPATIENT REIMBURSEMENT.

- (a) For outpatient hospital facility fee payments for services rendered on or after October 1, 1992, the commissioner of human services shall pay the lower of (1) submitted charge, or (2) 32 percent above the rate in effect on June 30, 1992, except for those services for which there is a federal maximum allowable payment. Effective for services rendered on or after January 1, 2000, payment rates for nonsurgical outpatient hospital facility fees and emergency room facility fees shall be increased by eight percent over the rates in effect on December 31, 1999, except for those services for which there is a federal maximum allowable payment. Services for which there is a federal maximum allowable payment shall be paid at the lower of (1) submitted charge, or (2) the federal maximum allowable payment. Total aggregate payment for outpatient hospital facility fee services shall not exceed the Medicare upper limit. If it is determined that a provision of this section conflicts with existing or future requirements of the United States government with respect to federal financial participation in medical assistance, the federal requirements prevail. The commissioner may, in the aggregate, prospectively reduce payment rates to avoid reduced federal financial participation resulting from rates that are in excess of the Medicare upper limitations.
- (b) (1) Notwithstanding paragraph (a), payment for outpatient, emergency, and ambulatory surgery hospital facility fee services for critical access hospitals designated under section 144.1483, clause (9), shall be paid on a cost-based payment system that is based on the cost-finding methods and allowable costs of the Medicare program. Effective for services provided on or after July 1, 2015, rates established for critical access hospitals under this paragraph for the applicable payment year shall be the final payment and shall not be settled to actual costs. Effective for services delivered on or after the first day of the hospital's fiscal year ending in 2017, the rate for outpatient hospital services shall be computed using information from each hospital's Medicare cost report as filed with Medicare for the year that is two years before the year that the rate is being computed. Rates shall be computed using information from Worksheet C series until the department finalizes the medical assistance cost reporting process for critical access hospitals. - (2) Effective for services provided on or after January 1, 2023, the rate described in clause (1) shall be increased for hospitals providing high levels of high-cost drugs or 340B drugs. The rate adjustment shall be based on each hospital's share of the total reimbursement for 340B drugs to all critical access hospitals, but shall not exceed three percentage points.
- (c) Effective for services provided on or after July 1, 2003, rates that are based on the Medicare outpatient prospective payment system shall be replaced by a budget neutral prospective payment system that is derived using medical assistance data. The commissioner shall provide a proposal to the 2003 legislature to define and implement this provision. When implementing prospective payment methodologies, the commissioner shall use general methods and rate calculation parameters similar to the applicable Medicare prospective payment systems for services delivered in outpatient hospital and ambulatory surgical center settings unless other payment methodologies for these services are specified in this chapter.

An assessing agency may refer investigations at sites other than the child's or pregnant female's residence to the commissioner.

(b) (c) Within the limits of available local, state, and federal appropriations, an assessing agency may also conduct a lead risk assessment for children with any elevated blood lead level.

(e) (d) In a building with two or more dwelling units, an assessing agency shall assess the individual unit in which the conditions of this section are met and shall inspect all common areas accessible to a child. If a child visits one or more other sites such as another residence, or a residential or commercial child care facility, playground, or school, the assessing agency shall also inspect the other sites. The assessing agency shall have one additional day added to the time frame set forth in this subdivision to complete the lead risk assessment for each additional site.

(d) (e) Within the limits of appropriations, the assessing agency shall identify the known addresses for the previous 12 months of the child or pregnant female with venous blood lead levels of at least 15 micrograms per deciliter for the child or at least ten micrograms per deciliter for the pregnant female; notify the property owners, landlords, and tenants at those addresses that an elevated blood lead level was found in a person who resided at the property; and give them primary prevention information. Within the limits of appropriations, the assessing agency may perform a risk assessment and issue corrective orders in the properties, if it is likely that the previous address contributed to the child's or pregnant female's blood lead level. The assessing agency shall provide the notice required by this subdivision without identifying the child or pregnant female with the elevated blood lead level. The assessing agency is not required to obtain the consent of the child's parent or guardian or the consent of the pregnant female for purposes of this subdivision. This information shall be classified as private data on individuals as defined under section 13.02, subdivision 12.

(e) (f) The assessing agency shall conduct the lead risk assessment according to rules adopted by the commissioner under section 144.9508. An assessing agency shall have lead risk assessments performed by lead risk assessors licensed by the commissioner according to rules adopted under section 144.9508. assessment, the assessing agency shall begin legal proceedings to gain entry to the property and the time frame for conducting a lead risk assessment set forth in this subdivision no longer applies. A lead risk assessor or assessing agency may observe the performance of lead hazard reduction in progress and shall enforce the provisions of this section under section 144.9509. Deteriorated painted surfaces, bare soil, and dust must be tested with appropriate analytical equipment to determine the lead content, except that deteriorated painted surfaces or bare soil need not be tested if the property owner agrees to engage in lead hazard reduction on those surfaces. The lead content of drinking water must be measured if another probable source of lead exposure is not identified. Within a standard metropolitan statistical area, an assessing agency may order lead hazard reduction of bare soil without measuring the lead content of the bare soil if the property is in a census tract in which soil sampling has been performed according to rules established by the commissioner and at least 25 percent of the soil samples contain lead concentrations above the standard in section 144.9508.

(f) (g) Each assessing agency shall establish an administrative appeal procedure which allows a property owner to contest the nature and conditions of any lead order issued by the assessing agency. Assessing agencies must consider appeals that propose lower cost methods that make the residence lead safe. The commissioner shall use the authority and appeal procedure granted under sections 144.989 to 144.993.

- 221.20 (g) (h) Sections 144.9501 to 144.9512 neither authorize nor prohibit an assessing agency
 221.21 from charging a property owner for the cost of a lead risk assessment.
- Sec. 56. Minnesota Statutes 2020, section 144.9504, subdivision 5, is amended to read:
- Subd. 5. **Lead orders.** (a) An assessing agency, after conducting a lead risk assessment, shall order a property owner to perform lead hazard reduction on all lead sources that exceed a standard adopted according to section 144.9508. If lead risk assessments and lead orders are conducted at times when weather or soil conditions do not permit the lead risk assessment or lead hazard reduction, external surfaces and soil lead shall be assessed, and lead orders complied with, if necessary, at the first opportunity that weather and soil conditions allow.
- (b) If, after conducting a lead risk assessment, an assessing agency determines that the property owner's lead hazard originated from another source location, the assessing agency may order the responsible person of the source location to:
- 221.32 (1) perform lead hazard reduction at the site where the assessing agency conducted the 221.33 lead risk assessment; and

222.1	(2) remediate the conditions at the source location that allowed the lead hazard, pollutant,
222.2	or contaminant to migrate from the source location.
222.3	(c) For purposes of this subdivision, "pollutant or contaminant" has the meaning given
222.4	in section 115B.02, subdivision 13, and "responsible person" has the meaning given in
222.5	section 115B.03.
222.6	(b) (d) If the paint standard under section 144.9508 is violated, but the paint is intact,
222.7	the assessing agency shall not order the paint to be removed unless the intact paint is a
222.8	known source of actual lead exposure to a specific person. Before the assessing agency may
222.9	order the intact paint to be removed, a reasonable effort must be made to protect the child
222.10	and preserve the intact paint by the use of guards or other protective devices and methods.
222.11	(e) (e) Whenever windows and doors or other components covered with deteriorated
222.12	lead-based paint have sound substrate or are not rotting, those components should be repaired,
222.13	sent out for stripping or planed down to remove deteriorated lead-based paint, or covered
222.14	with protective guards instead of being replaced, provided that such an activity is the least
222.15	cost method. However, a property owner who has been ordered to perform lead hazard
222.16	reduction may choose any method to address deteriorated lead-based paint on windows,
222.17	doors, or other components, provided that the method is approved in rules adopted under
222.18	section 144.9508 and that it is appropriate to the specific property.
222.19	(d) (f) Lead orders must require that any source of damage, such as leaking roofs,
222.20	plumbing, and windows, be repaired or replaced, as needed, to prevent damage to
222.21	lead-containing interior surfaces.
222.22	(e) (g) The assessing agency is not required to pay for lead hazard reduction. The
222.23	assessing agency shall enforce the lead orders issued to a property owner under this section.
222.24	Sec. 57. Minnesota Statutes 2020, section 144G.08, subdivision 7, as amended by Laws
222.25	2020, Seventh Special Session chapter 1, article 6, section 5, is amended to read:

In all other respects the insured and insurer shall have the 307.12 same rights thereunder as they had under the policy immediately before the due date of the 307.13 defaulted premium, subject to any provisions endorsed hereon or attached hereto in 307.14 connection with the reinstatement. Any premium accepted in connection with a reinstatement 307.15 shall be applied to a period for which premium has not been previously paid, but not to any 307.16 period more than 60 days prior to the date of reinstatement. The last sentence of the above 307.17 provision may be omitted from any policy which the insured has the right to continue in 307.18 force subject to its terms by the timely payment of premiums (1) until at least age 50, or, 307.19 (2) in the case of a policy issued after age 44, for at least five years from its date of issue.

(5) A provision as follows:

In a policy providing a loss-of-time benefit which may be payable for at least two years, an insurer may at its option insert the following between the first and second sentences of the above provision:

Subject to the qualifications set forth below, if the insured suffers loss of time on account of disability for which indemnity may be payable for at least two years, the insured shall, at least once in every six months after having given notice of claim, give to the insurer notice of continuance of said disability, except in the event of legal incapacity. Delay in the giving of such notice shall not impair the insured's right to any indemnity which would otherwise have accrued during the period of six months preceding the date on which such notice is actually given.

(6) A provision as follows:

CLAIM FORMS: The insurer, upon receipt of a notice of claim, will furnish to the claimant such forms as are usually furnished by it for filing proofs of loss. Failure to furnish such proof within the time required shall not invalidate nor reduce any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible and in no event, except in the absence of legal capacity, later than one year from the time proof is otherwise required.

Subject to due written proof of loss, all accrued indemnities for loss for which this policy provides periodic payment will be paid (insert period for payment which must not be less frequently than monthly) and any balance remaining unpaid upon the termination of liability will be paid immediately upon receipt of due written proof.

The following provisions, or either of them, may be included with the foregoing provision at the option of the insurer:

If any indemnity of this policy shall be payable to the estate of the insured, or to an insured or beneficiary who is a minor or otherwise not competent to give a valid release, the insurer may pay such indemnity, up to an amount not exceeding \$..... (insert an amount which shall not exceed \$1,000), to any relative by blood or connection by marriage of the insured or beneficiary who is deemed by the insurer to be equitably entitled thereto. Any payment made by the insurer in good faith pursuant to this provision shall fully discharge the insurer to the extent of such payment.

Subject to any written direction of the insured in the application or otherwise all or a portion of any indemnities provided by this policy on account of hospital, nursing, medical, or surgical services may, at the insurer's option and unless the insured requests otherwise in writing not later than the time of filing proofs of such loss, be paid directly to the hospital or person rendering such services; but it is not required that the service be rendered by a particular hospital or person.

(10) A provision as follows:

PHYSICAL EXAMINATIONS AND AUTOPSY: The insurer at its own expense shall have the right and opportunity to examine the person of the insured when and as often as it may reasonably require during the pendency of a claim hereunder and to make an autopsy in case of death where it is not forbidden by law.

(11) A provision as follows:

LEGAL ACTIONS: No action at law or in equity shall be brought to recover on this policy prior to the expiration of 60 days after written proof of loss has been furnished in accordance with the requirements of this policy. No such action shall be brought after the expiration of three years after the time written proof of loss is required to be furnished.

(12) A provision as follows:

309.31 CHANGE OF BENEFICIARY: Unless the insured makes an irrevocable designation 309.32 of beneficiary, the right to change of beneficiary is reserved to the insured and the consent 309.33 of the beneficiary or beneficiaries shall not be requisite to surrender or assignment of this

310.1	policy or to any change of beneficiary or beneficiaries, or to any other changes in this policy.
310.2	The first clause of this provision, relating to the irrevocable designation of beneficiary, may
310.3	be omitted at the insurer's option.
310.4	EFFECTIVE DATE. This section is effective January 1, 2022, for health plans offered,
310.5	sold, issued, or renewed on or after that date.
310.6	Sec. 2. Minnesota Statutes 2020, section 62A.10, is amended by adding a subdivision to
310.7	read:
310.8	Subd. 5. Prohibition on waiting periods that exceed 90 days. (a) For purposes of this
310.9	subdivision, "waiting period" means the period that must pass before coverage becomes
310.10	effective for an individual who is otherwise eligible to enroll under the terms of a group
310.11	health plan.
310.12	(b) A health carrier offering a group health plan must not apply a waiting period that
310.13	exceeds 90 days, with exceptions for the circumstances described in paragraphs (c) to (e).
310.14	A health carrier does not violate this subdivision solely because an individual is permitted
310.15	to take additional time to elect coverage beyond the end of the 90-day waiting period.
310.16	(c) If a group health plan conditions eligibility on an employee working full time or
310.17	regularly having a specified number of service hours per period, and the plan is unable to
310.18	determine whether a newly hired employee is full time or reasonably expected to regularly
310.19	work the specific number of hours per period, the plan may take a reasonable period of
310.20	time, not to exceed 12 months beginning on any date between the employee's start date and
310.21	the first day of the first calendar month after the employee's start date, to determine whether
310.22	the employee meets the plan's eligibility condition.
310.23	(d) If a group health plan conditions eligibility on an employee having completed a
310.24	cumulative number of service hours, the cumulative hours-of-service requirement must not
310.25	exceed 1,200 hours.
310.26	(e) An orientation period may be added to the 90-day waiting period if the orientation
310.27	period is one month or less. The one-month period is determined by adding one calendar
310.28	month and subtracting one calendar day, measured from an employee's start date in a position
310.29	that is otherwise eligible for coverage.
310.30	(f) A group health plan may treat an employee whose employment has terminated and
310.31	is later rehired as newly eligible upon rehire and require the rehired employee to meet the
310.32	plan's eligibility criteria and waiting period again, if doing so is reasonable under the
310.33	circumstances. Treating an employee as rehired is reasonable if the employee has a break

in service of at least 13 weeks, or at least 26 weeks if the employer is an educational 311.1 institution. 311.2 311.3 **EFFECTIVE DATE.** This section is effective January 1, 2022, for health plans offered, sold, issued, or renewed on or after that date. 311.4 Sec. 3. Telehealth includes audio-only communication between a health care 322.27 provider and a patient if the communication is a scheduled appointment and the standard 322.28 of care for the service can be met through the use of audio-only communication. Telehealth 322.29 does not include communication between health care providers or between a health care 322.30 provider and a patient that consists solely of an e-mail or facsimile transmission. Telehealth 322.31 does not include communication between health care providers that consists solely of a 322.32 telephone conversation. 322.33

323.4	collect an enrollee's health-related data for the purpose of assisting a health care provider
323.5	in assessing and monitoring the enrollee's medical condition or status.
323.6	Subd. 3. Coverage of telehealth. (a) A health plan sold, issued, or renewed by a health

323.10	of geography, location, or distance for travel.
323.11	(c) A health carrier must not create a separate provider network or provide incentives
323.12	to enrollees to use a separate provider network to deliver services through telehealth that

323.14	service.
323.15	(d) A health carrier may require a deductible, co-payment, or coinsurance payment for
323.16	a health care service provided through telehealth, provided that the deductible, co-payment,
323.17	or coinsurance payment is not in addition to, and does not exceed, the deductible, co-payment,
323.18	or coinsurance applicable for the same service provided through in-person contact.
323.19	(e) Nothing in this section:
323.20	(1) requires a health carrier to provide coverage for services that are not medically
323.21	necessary or are not covered under the enrollee's health plan; or
323.22	(2) prohibits a health carrier from:
323.23	(i) establishing criteria that a health care provider must meet to demonstrate the safety

323.26	telehealth;

324.3	when an enrollee chooses not to receive a health care service through telehealth.
324.4	Subd. 4. Parity between telehealth and in-person services. (a) A health carrier must
324.5	not restrict or deny coverage of a health care service that is covered under a health plan
324.6	solely:
324.7	(1) because the health care service provided by the health care provider through telehealth
324.8	is not provided through in-person contact; or
324.9	(2) based on the communication technology or application used to deliver the health
324.10	care service through telehealth, provided the technology or application complies with this
324.11	section and is appropriate for the particular service.
324.12	(b) Prior authorization may be required for health care services delivered through
324.13	telehealth only if prior authorization is required before the delivery of the same service
324.14	through in-person contact.
324.15	(c) A health carrier may require a utilization review for services delivered through
324.16	telehealth, provided the utilization review is conducted in the same manner and uses the
324.17	same clinical review criteria as a utilization review for the same services delivered through
324.18	in-person contact.
324.19	Subd. 5. Reimbursement for services delivered through telehealth. (a) A health carrier
324.20	must reimburse the health care provider for services delivered through telehealth on the
324.21	same basis and at the same rate as the health carrier would apply to those services if the
324.22	services had been delivered by the health care provider through in-person contact.
324.23	(b) A health carrier must not deny or limit reimbursement based solely on a health care
324.24	provider delivering the service or consultation through telehealth instead of through in-person
324.25	contact.
324.26	(c) A health carrier must not deny or limit reimbursement based solely on the technology
324.27	and equipment used by the health care provider to deliver the health care service or
324.28	consultation through telehealth, provided the technology and equipment used by the provider
324.29	meets the requirements of this section and is appropriate for the particular service.
324.30	Subd. 6. Telehealth equipment. (a) A health carrier must not require a health care
324.31	provider to use specific telecommunications technology and equipment as a condition of
324.32	coverage under this section, provided the health care provider uses telecommunications
324.33	technology and equipment that complies with current industry interoperable standards and

complies with standards required under the federal Health Insurance Portability and

325.2	Accountability Act of 1996, Public Law 104-191, and regulations promulgated under that
325.3	Act, unless authorized under this section.
325.4	(b) A health carrier must provide coverage for health care services delivered through
325.5	telehealth by means of the use of audio-only telephone communication if the communication

325.7	through the use of audio-only communication.
325.8	Subd. 7. Telemonitoring services. A health carrier must provide coverage for
325.9	telemonitoring services if:
325.10	(1) the telemonitoring service is medically appropriate based on the enrollee's medical
325.11	condition or status;
325.12	(2) the enrollee is cognitively and physically capable of operating the monitoring device
325.13	or equipment, or the enrollee has a caregiver who is willing and able to assist with the
325.14	monitoring device or equipment; and
325.15	(3) the enrollee resides in a setting that is suitable for telemonitoring and not in a setting
325.16	that has health care staff on site.
325.17	EFFECTIVE DATE. This section is effective January 1, 2022.

325.20	Subdivision 1. Definition. For the purposes of this section, "telemedicine" means the
325.21	delivery of health care services or consultations while the patient is at an originating site
325.22	and the licensed health care provider is at a distant site. A communication between licensed
325.23	health care providers that consists solely of a telephone conversation, e-mail, or facsimile
325.24	transmission does not constitute telemedicine consultations or services. A communication
325.25	between a licensed health care provider and a patient that consists solely of an e-mail or
325.26	facsimile transmission does not constitute telemedicine consultations or services.
325.27	Telemedicine may be provided by means of real-time two-way interactive audio, and visual
325.28	communications, including the application of secure video conferencing or store-and-forward
325.29	technology to provide or support health care delivery, that facilitate the assessment, diagnosis,
325.30	consultation, treatment, education, and care management of a patient's health care.

Sec. 3. Minnesota Statutes 2020, section 151.37, subdivision 2, is amended to read:

Subd. 2. Prescribing and filing. (a) A licensed practitioner in the course of professional practice only, may prescribe, administer, and dispense a legend drug, and may cause the same to be administered by a nurse, a physician assistant, or medical student or resident under the practitioner's direction and supervision, and may cause a person who is an appropriately certified, registered, or licensed health care professional to prescribe, dispense, and administer the same within the expressed legal scope of the person's practice as defined in Minnesota Statutes. A licensed practitioner may prescribe a legend drug, without reference to a specific patient, by directing a licensed dietitian or licensed nutritionist, pursuant to section 148.634; a nurse, pursuant to section 148.235, subdivisions 8 and 9; physician assistant; medical student or resident; or pharmacist according to section 151.01, subdivision 27, to adhere to a particular practice guideline or protocol when treating patients whose condition falls within such guideline or protocol, and when such guideline or protocol specifies the circumstances under which the legend drug is to be prescribed and administered. An individual who verbally, electronically, or otherwise transmits a written, oral, or electronic order, as an agent of a prescriber, shall not be deemed to have prescribed the legend drug. This paragraph applies to a physician assistant only if the physician assistant meets the requirements of section 147A.18 sections 147A.02 and 147A.09.

(b) The commissioner of health, if a licensed practitioner, or a person designated by the commissioner who is a licensed practitioner, may prescribe a legend drug to an individual or by protocol for mass dispensing purposes where the commissioner finds that the conditions triggering section 144.4197 or 144.4198, subdivision 2, paragraph (b), exist. The commissioner, if a licensed practitioner, or a designated licensed practitioner, may prescribe, dispense, or administer a legend drug or other substance listed in subdivision 10 to control tuberculosis and other communicable diseases. The commissioner may modify state drug labeling requirements, and medical screening criteria and documentation, where time is critical and limited labeling and screening are most likely to ensure legend drugs reach the maximum number of persons in a timely fashion so as to reduce morbidity and mortality.

326

Article 7 Sec. 3.

- (c) A licensed practitioner that dispenses for profit a legend drug that is to be administered 327.1 orally, is ordinarily dispensed by a pharmacist, and is not a vaccine, must file with the 327.2 practitioner's licensing board a statement indicating that the practitioner dispenses legend 327.3 drugs for profit, the general circumstances under which the practitioner dispenses for profit, 327.4 and the types of legend drugs generally dispensed. It is unlawful to dispense legend drugs 327.5 for profit after July 31, 1990, unless the statement has been filed with the appropriate 327.6 licensing board. For purposes of this paragraph, "profit" means (1) any amount received by 327.7 327.8 the practitioner in excess of the acquisition cost of a legend drug for legend drugs that are purchased in prepackaged form, or (2) any amount received by the practitioner in excess 327.9 of the acquisition cost of a legend drug plus the cost of making the drug available if the 327.10 legend drug requires compounding, packaging, or other treatment. The statement filed under 327.11 this paragraph is public data under section 13.03. This paragraph does not apply to a licensed 327.12 doctor of veterinary medicine or a registered pharmacist. Any person other than a licensed 327.13 practitioner with the authority to prescribe, dispense, and administer a legend drug under 327.14 paragraph (a) shall not dispense for profit. To dispense for profit does not include dispensing 327.15 by a community health clinic when the profit from dispensing is used to meet operating 327.16 expenses. 327.17
- (d) A prescription drug order for the following drugs is not valid, unless it can be established that the prescription drug order was based on a documented patient evaluation, including an examination, adequate to establish a diagnosis and identify underlying conditions and contraindications to treatment:
- 327.22 (1) controlled substance drugs listed in section 152.02, subdivisions 3 to 5;
- 327.23 (2) drugs defined by the Board of Pharmacy as controlled substances under section 327.24 152.02, subdivisions 7, 8, and 12;
- 327.25 (3) muscle relaxants;
- 327.26 (4) centrally acting analgesics with opioid activity;
- 327.27 (5) drugs containing butalbital; or
- 327.28 (6) phosphodiesterase type 5 inhibitors when used to treat erectile dysfunction.
- For purposes of prescribing drugs listed in clause (6), the requirement for a documented patient evaluation, including an examination, may be met through the use of telemedicine, as defined in section 147.033, subdivision 1.
- 327.32 (e) For the purposes of paragraph (d), the requirement for an examination shall be met 327.33 if:

- (10) documentation that available options for employment services, independent living, and self-directed services and supports were described to the individual.
- (k) Face-to-face Assessment completed as part of an eligibility determination for multiple programs for the alternative care, elderly waiver, developmental disabilities, community access for disability inclusion, community alternative care, and brain injury waiver programs under chapter 256S and sections 256B.0913, 256B.092, and 256B.49 is valid to establish service eligibility for no more than 60 calendar days after the date of assessment.
- (1) The effective eligibility start date for programs in paragraph (k) can never be prior to the date of assessment. If an assessment was completed more than 60 days before the effective waiver or alternative care program eligibility start date, assessment and support plan information must be updated and documented in the department's Medicaid Management Information System (MMIS). Notwithstanding retroactive medical assistance coverage of state plan services, the effective date of eligibility for programs included in paragraph (k) cannot be prior to the date the most recent updated assessment is completed.
- (m) If an eligibility update is completed within 90 days of the previous face-to-face assessment and documented in the department's Medicaid Management Information System (MMIS), the effective date of eligibility for programs included in paragraph (k) is the date of the previous face-to-face assessment when all other eligibility requirements are met.

assessor shall describe to the person through a person-centered planning process the option to receive employment services.

(p) At the time of reassessment, the certified assessor shall assess each person receiving non-self-directed waiver services to determine if that person would prefer an available service and setting option that would permit self-directed services and supports. The certified assessor shall describe to the person through a person-centered planning process the option to receive self-directed services and supports.

(q) All assessments performed according to this subdivision must be face-to-face unless the assessment is a reassessment meeting the requirements of this paragraph. Subject to federal approval, remote reassessments conducted by interactive video or telephone may substitute for face-to-face reassessments for services provided by alternative care under section 256B.0913, the elderly waiver under chapter 256S, the developmental disabilities waiver under section 256B.092, and the community access for disability inclusion, community alternative care, and brain injury waiver programs under section 256B.49. Remote reassessments may be substituted for two consecutive reassessments if followed by a face-to-face reassessment. A remote reassessment is permitted only if the person being reassessed, the person's legal representative, and the lead agency case manager all agree that there is no change in the person's condition, there is no need for a change in service, and that a remote reassessment is appropriate. The person being reassessed, or the person's legal representative, has the right to refuse a remote reassessment at any time. During a remote reassessment, if the certified assessor determines in the assessor's sole judgment that a remote reassessment is inappropriate, the certified assessor shall suspend the remote reassessment and schedule a face-to-face reassessment to complete the reassessment. All other requirements of a face-to-face reassessment apply to a remote reassessment.

Sec. 18. Minnesota Statutes 2020, section 256B.0911, subdivision 3f, is amended to read:

Subd. 3f. Long-term care reassessments and community support plan updates. (a) Prior to a face-to-face reassessment, the certified assessor must review the person's most recent assessment. Reassessments must be tailored using the professional judgment of the assessor to the person's known needs, strengths, preferences, and circumstances. Reassessments provide information to support the person's informed choice and opportunities to express choice regarding activities that contribute to quality of life, as well as information and opportunity to identify goals related to desired employment, community activities, and preferred living environment. Reassessments require a review of the most recent assessment, review of the current coordinated service and support plan's effectiveness, monitoring of

Reassessments must verify continued eligibility, offer alternatives as warranted, and provide an opportunity for quality assurance of service delivery. Face-to-face Reassessments must be conducted annually or as required by federal and state laws and rules. For reassessments, the certified assessor and the individual responsible for developing the coordinated service and support plan must ensure the continuity of care for the person receiving services and complete the updated community support plan and the updated coordinated service and support plan no more than 60 days from the reassessment visit.

- (b) The commissioner shall develop mechanisms for providers and case managers to share information with the assessor to facilitate a reassessment and support planning process tailored to the person's current needs and preferences.
- Sec. 19. Minnesota Statutes 2020, section 256B.0911, subdivision 4d, is amended to read:
- Subd. 4d. **Preadmission screening of individuals under 65 years of age.** (a) It is the policy of the state of Minnesota to ensure that individuals with disabilities or chronic illness are served in the most integrated setting appropriate to their needs and have the necessary information to make informed choices about home and community-based service options.
 - (b) Individuals under 65 years of age who are admitted to a Medicaid-certified nursing facility must be screened prior to admission according to the requirements outlined in section 256.975, subdivisions 7a to 7c. This shall be provided by the Senior LinkAge Line as required under section 256.975, subdivision 7.
- (c) Individuals under 65 years of age who are admitted to nursing facilities with only a telephone screening must receive a face-to-face assessment from the long-term care consultation team member of the county in which the facility is located or from the recipient's county case manager within the timeline established by the commissioner, based on review of data.
- 353.26 (d) At the face-to-face assessment, the long-term care consultation team member or county case manager must perform the activities required under subdivision 3b.
- (e) For individuals under 21 years of age, a screening interview which recommends nursing facility admission must be face-to-face and approved by the commissioner before the individual is admitted to the nursing facility.

- (g) At the face-to-face assessment, the long-term care consultation team member or the case manager must present information about home and community-based options, including consumer-directed options, so the individual can make informed choices. If the individual chooses home and community-based services, the long-term care consultation team member or case manager must complete a written relocation plan within 20 working days of the visit. The Disability Hub shall employ, or contract with other agencies to employ, within the limits of available funding, sufficient personnel to provide preadmission screening follow-up services and shall seek to maximize federal funding for the service as provided under section 256.01, subdivision 2, paragraph (aa).

Sec. 20. Minnesota Statutes 2020, section 256B.0924, subdivision 6, is amended to read:

- Subd. 6. Payment for targeted case management. (a) Medical assistance and MinnesotaCare payment for targeted case management shall be made on a monthly basis. In order to receive payment for an eligible adult, the provider must document at least one contact per month and not more than two consecutive months without a face-to-face contact or a contact by interactive video that meets the requirements of section 256B.0625, subdivision 20b, with the adult or the adult's legal representative, family, primary caregiver, or other relevant persons identified as necessary to the development or implementation of the goals of the personal service plan.
- (b) Payment for targeted case management provided by county staff under this subdivision shall be based on the monthly rate methodology under section 256B.094, subdivision 6, paragraph (b), calculated as one combined average rate together with adult mental health case management under section 256B.0625, subdivision 20, except for calendar year 2002. In calendar year 2002, the rate for case management under this section shall be the same as the rate for adult mental health case management in effect as of December 31, 2001. Billing and payment must identify the recipient's primary population group to allow tracking of revenues.
- (c) Payment for targeted case management provided by county-contracted vendors shall be based on a monthly rate negotiated by the host county. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county, except to reimburse the county for advance funding provided by the county to the vendor.
- (d) If the service is provided by a team that includes contracted vendors and county staff, the costs for county staff participation on the team shall be included in the rate for county-provided services. In this case, the contracted vendor and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, the county must document, in the recipient's file, the need for team targeted case management and a description of the different roles of the team members.
- 355.33 (e) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for targeted case management shall be provided by the recipient's county of responsibility, as

- (f) The commissioner may suspend, reduce, or terminate reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, is responsible for any federal disallowances. The county may share this responsibility with its contracted vendors.
- (g) The commissioner shall set aside five percent of the federal funds received under this section for use in reimbursing the state for costs of developing and implementing this section.
- (h) Payments to counties for targeted case management expenditures under this section shall only be made from federal earnings from services provided under this section. Payments to contracted vendors shall include both the federal earnings and the county share.
 - (i) Notwithstanding section 256B.041, county payments for the cost of case management services provided by county staff shall not be made to the commissioner of management and budget. For the purposes of targeted case management services provided by county staff under this section, the centralized disbursement of payments to counties under section 256B.041 consists only of federal earnings from services provided under this section.
- (j) If the recipient is a resident of a nursing facility, intermediate care facility, or hospital, and the recipient's institutional care is paid by medical assistance, payment for targeted case management services under this subdivision is limited to the lesser of:
- (1) the last 180 days of the recipient's residency in that facility; or
- (2) the limits and conditions which apply to federal Medicaid funding for this service.
- 356.23 (k) Payment for targeted case management services under this subdivision shall not 356.24 duplicate payments made under other program authorities for the same purpose.
- 356.25 (l) Any growth in targeted case management services and cost increases under this section shall be the responsibility of the counties.
- EFFECTIVE DATE. This section is effective upon federal approval. The commissioner of human services shall notify the revisor of statutes when federal approval is obtained.
- Sec. 21. Minnesota Statutes 2020, section 256B.094, subdivision 6, is amended to read:

In this case, the contracted vendor and the county or tribal social services may each receive separate payment for services provided by each entity in the same month. To prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles and services of the team members.

(f) Separate payment rates may be established for different groups of providers to maximize reimbursement as determined by the commissioner. The payment rate will be reviewed annually and revised periodically to be consistent with the most recent time study and other data. to initiate efforts to recover overpayments from the family for overpayment less than \$50. If the overpayment is greater than or equal to \$50, the county or commissioner shall seek voluntary repayment of the overpayment from the family. If the county or commissioner is unable to recoup the overpayment through voluntary repayment, the county or commissioner shall initiate civil court proceedings to recover the overpayment unless the county's or commissioner's costs to recover the overpayment will exceed the amount of the overpayment. A family with an outstanding debt under this subdivision is not eligible for child care assistance until: (1) the debt is paid in full; or (2) satisfactory arrangements are made with the county or commissioner to retire the debt consistent with the requirements of this chapter and Minnesota Rules, chapter 3400, and the family is in compliance with the arrangements; or (3) the commissioner determines that it is in the best interests of the state to compromise debts owed to the state pursuant to section 16D.15. The commissioner's authority to recoup and recover overpayments from families in this paragraph is limited to investigations conducted under chapter 245E.

(c) The county or commissioner must recover an overpayment from a provider if the overpayment did not benefit the family by causing it to receive more child care assistance or to pay less for child care expenses than the family otherwise would have been eligible to receive or required to pay under child care assistance program requirements, and benefited the provider by causing the provider to receive more child care assistance than otherwise would have been paid on the family's behalf under child care assistance program requirements. If the provider continues to care for children receiving child care assistance, the overpayment must be recovered through reductions in child care assistance payments for services as described in an agreement with the county recoupment as identified in Minnesota Rules, part 3400.0187. The provider may not charge families using that provider more to cover the cost of recouping the overpayment. If the provider no longer cares for children receiving child care assistance, the county or commissioner may choose to initiate efforts to recover overpayments of less than \$50 from the provider. If the overpayment is greater than or equal to \$50, the county or commissioner shall seek voluntary repayment of the overpayment from the provider. If the county or commissioner is unable to recoup the overpayment through voluntary repayment, the county or commissioner shall initiate civil court proceedings to recover the overpayment unless the county's or commissioner's costs to recover the overpayment will exceed the amount of the overpayment. A provider with an outstanding debt under this subdivision is not eligible to care for children receiving child care assistance until:

When the family or the provider is in compliance with a repayment agreement, the party in compliance is eligible to receive child care assistance or to care for children receiving child care assistance despite the other party's noncompliance with repayment arrangements.

Sec. 5. Minnesota Statutes 2020, section 119B.125, subdivision 1, is amended to read:

Subdivision 1. **Authorization.** Except as provided in subdivision 5, A county or the commissioner must authorize the provider chosen by an applicant or a participant before the county can authorize payment for care provided by that provider. The commissioner must establish the requirements necessary for authorization of providers. A provider must be reauthorized every two years. A legal, nonlicensed family child care provider also must be reauthorized when another person over the age of 13 joins the household, a current household member turns 13, or there is reason to believe that a household member has a factor that prevents authorization. The provider is required to report all family changes that would require reauthorization. When a provider has been authorized for payment for providing care for families in more than one county, the county responsible for reauthorization of that provider is the county of the family with a current authorization for that provider and who has used the provider for the longest length of time.

EFFECTIVE DATE. This section is effective August 1, 2021.

percentile of the most recent child care provider rate survey, but in no event shall the
maximum rate be less than the greater of the 50th percentile of the most recent child care
provider rate survey or the rates in effect at the time of the update. The rate increase is

The commissioner shall determine the maximum rate for each type of care on an hourly, full-day, and weekly basis, including special needs and disability care.

- 394.25 (3) two daily rates during two weeks of care by a child's secondary provider.
- (f) Child care providers receiving reimbursement under this chapter must not be paid activity fees or an additional amount above the maximum rates for care provided during nonstandard hours for families receiving assistance.
- (g) If the provider charge is greater than the maximum provider rate allowed, the parent is responsible for payment of the difference in the rates in addition to any family co-payment fee.

Maximum registration fees must be set for licensed family child care and for child care centers. For a child care provider located in the boundaries of a city located in two or more of the counties of Benton, Sherburne, and Stearns, the maximum registration fee paid for child care assistance shall be equal to the maximum registration fee paid in the county with the highest maximum registration fee or the provider's charge, whichever is less.

(b) The maximum rate paid to legal nonlicensed family child care providers must be 68 90 percent of the county maximum hourly rate for licensed family child care providers. The rate increase is effective the first full service period on or after January 1 of the year following the provider rate survey. In counties or county price clusters where the maximum hourly rate for licensed family child care providers is higher than the maximum weekly rate for those providers divided by 50, the maximum hourly rate that may be paid to legal nonlicensed family child care providers is the rate equal to the maximum weekly rate for licensed family child care providers divided by 50 and then multiplied by 0.68 0.90. The maximum payment to a provider for one day of care must not exceed the maximum hourly rate times ten. The maximum payment to a provider for one week of care must not exceed the maximum hourly rate times 50.

- Subd. 6. Provider payments. (a) A provider shall bill only for services documented according to section 119B.125, subdivision 6. The provider shall bill for services provided within ten days of the end of the service period. Payments under the child care fund shall be made within 21 days of receiving a complete bill from the provider. Counties or the state may establish policies that make payments on a more frequent basis.
- (b) If a provider has received an authorization of care and been issued a billing form for 396.10 an eligible family, the bill must be submitted within 60 days of the last date of service on 396.11 the bill. A bill submitted more than 60 days after the last date of service must be paid if the 396.12 county determines that the provider has shown good cause why the bill was not submitted 396.13 within 60 days. For a family at application, if a provider provided child care during a time period without receiving an authorization of care and a billing form, 396.22 a county may only make child care assistance payments to the provider retroactively from 396.23 the date that child care began, or from the date that the family's eligibility began under 396.24 section 119B.09, subdivision 7, or from the date that the family meets authorization 396.25 requirements, not to exceed six months from the date the provider is issued an authorization of care and billing form, whichever is later. 396.27

Sec. 9. Minnesota Statutes 2020, section 119B.13, subdivision 7, is amended to read:

Subd. 7. **Absent days.** (a) Licensed child care providers and license-exempt centers must not be reimbursed for more than 25 full-day absent days per child, excluding holidays, in a calendar year, or for more than ten consecutive full-day absent days. "Absent day" means any day that the child is authorized and scheduled to be in care with a licensed provider or license-exempt center, and the child is absent from the care for the entire day. Legal nonlicensed family child care providers must not be reimbursed for absent days. If a child attends for part of the time authorized to be in care in a day, but is absent for part of the time authorized to be in care in that same day, the absent time must be reimbursed but the time must not count toward the absent days limit. Child care providers must only be reimbursed for absent days if the provider has a written policy for child absences and charges all other families in care for similar absences.

- (b) Notwithstanding paragraph (a), children with documented medical conditions that cause more frequent absences may exceed the 25 absent days limit, or ten consecutive full-day absent days limit. Absences due to a documented medical condition of a parent or sibling who lives in the same residence as the child receiving child care assistance do not count against the absent days limit in a calendar year. Documentation of medical conditions must be on the forms and submitted according to the timelines established by the commissioner. A public health nurse or school nurse may verify the illness in lieu of a medical practitioner. If a provider sends a child home early due to a medical reason, including, but not limited to, fever or contagious illness, the child care center director or lead teacher may verify the illness in lieu of a medical practitioner.
- (c) Notwithstanding paragraph (a), children in families may exceed the absent days limit 398.27 if at least one parent: (1) is under the age of 21; (2) does not have a high school diploma or 398.28 commissioner of education-selected high school equivalency certification; and (3) is a 398.29 398.30 student in a school district or another similar program that provides or arranges for child care, parenting support, social services, career and employment supports, and academic 398.31 support to achieve high school graduation, upon request of the program and approval of the 398.32 county. If a child attends part of an authorized day, payment to the provider must be for the 398.33 full amount of care authorized for that day. 398.34

- (d) Child care providers must be reimbursed for up to ten federal or state holidays or designated holidays per year when the provider charges all families for these days and the holiday or designated holiday falls on a day when the child is authorized to be in attendance. Parents may substitute other cultural or religious holidays for the ten recognized state and federal holidays. Holidays do not count toward the absent days limit.
 - (e) A family or child care provider must not be assessed an overpayment for an absent day payment unless (1) there was an error in the amount of care authorized for the family, or (2) all of the allowed full-day absent payments for the child have been paid, or (3) the family or provider did not timely report a change as required under law.
- (f) The provider and family shall receive notification of the number of absent days used upon initial provider authorization for a family and ongoing notification of the number of absent days used as of the date of the notification.
- 399.13 (g) For purposes of this subdivision, "absent days limit" means 25 full-day absent days per child, excluding holidays, in a calendar year; and ten consecutive full-day absent days.
- 399.15 (h) For purposes of this subdivision, "holidays limit" means ten full-day holidays per 399.16 child, excluding absent days, in a calendar year.
- (i) If a day meets the criteria of an absent day or a holiday under this subdivision, the provider must bill that day as an absent day or holiday. A provider's failure to properly bill an absent day or a holiday results in an overpayment, regardless of whether the child reached, or is exempt from, the absent days limit or holidays limit for the calendar year.

Except as provided under section 256N.24, subdivision 1, paragraph (c), the assessment tool establishes the monthly benefit level for a child under foster care. The monthly payment under a Northstar kinship assistance agreement or adoption assistance agreement may be negotiated up to the monthly benefit level under foster care. In no case may the amount of the payment under a Northstar kinship assistance agreement or adoption assistance agreement exceed the foster care maintenance payment which would have been paid during the month if the child with respect to whom the Northstar kinship assistance or adoption assistance payment is made had been in a foster family home in the state.

- (2) The rate schedule for the agreement is determined based on the age of the child on the date that the prospective adoptive parent or parents or relative custodian or custodians sign the agreement.
 - (3) The income of the relative custodian or custodians or adoptive parent or parents must not be taken into consideration when determining eligibility for Northstar kinship assistance or adoption assistance or the amount of the payments under section 256N.26.
 - (4) With the concurrence of the relative custodian or adoptive parent, the amount of the payment may be adjusted periodically using the assessment tool established by the commissioner in section 256N.24, subdivision 2, and the agreement renegotiated under subdivision 3 when there is a change in the child's needs or the family's circumstances.
 - (5) An adoptive parent of an at-risk child with an adoption assistance agreement may request a reassessment of the child under section 256N.24, subdivision 10, and renegotiation of the adoption assistance agreement under subdivision 3 to include a monthly payment, if the caregiver has written documentation from a qualified expert that the potential disability upon which eligibility for the agreement was based has manifested itself. Documentation of the disability must be limited to evidence deemed appropriate by the commissioner.
 - (c) For Northstar kinship assistance agreements:
- (1) the initial amount of the monthly Northstar kinship assistance payment must be equivalent to the foster care rate in effect at the time that the agreement is signed less any offsets under section 256N.26, subdivision 11, or a lesser negotiated amount if agreed to by the prospective relative custodian and specified in that agreement, unless the Northstar kinship assistance agreement is entered into when a child is under the age of six; and

 - (1) for a child in foster care with the prospective adoptive parent immediately prior to adoptive placement, the initial amount of the monthly adoption assistance payment must be equivalent to the foster care rate in effect at the time that the agreement is signed less any offsets in section 256N.26, subdivision 11, or a lesser negotiated amount if agreed to by the prospective adoptive parents and specified in that agreement, unless the child is identified as at-risk or the adoption assistance agreement is entered into when a child is under the age of six;
- (2) for an at-risk child who must be assigned level A as outlined in section 256N.26, no payment will be made unless and until the potential disability manifests itself, as documented by an appropriate professional, and the commissioner authorizes commencement of payment by modifying the agreement accordingly;

- (5) for a child who is not in foster care placement or the Northstar kinship assistance program immediately prior to adoptive placement or negotiation of the adoption assistance agreement, the initial amount of the adoption assistance agreement must be determined using the assessment tool and process in this section and the corresponding payment amount outlined in section 256N.26.
- Sec. 2. Minnesota Statutes 2020, section 256N.25, subdivision 3, is amended to read:

The agreement must not be renegotiated unless the commissioner, the financially responsible agency, and the caregiver mutually agree to the changes. The effective date of any renegotiated agreement must be determined by the commissioner.

- (b) An adoptive parent of an at-risk child with an adoption assistance agreement may request renegotiation of the agreement to include a monthly payment under section 256N.26 if the caregiver has written documentation from a qualified expert that the potential disability upon which eligibility for the agreement was based has manifested itself. Sec. 4. Minnesota Statutes 2020, section 256N.26, subdivision 13, is amended to read:

Subd. 13. Treatment of retirement survivor's disability insurance, veteran's benefits, railroad retirement benefits, and black lung benefits. (a) If a child placed in foster care receives retirement survivor's disability insurance, veteran's benefits, railroad retirement benefits, or black lung benefits at the time of foster care placement or subsequent to placement in foster care, the financially responsible agency may apply to be the payee for the child for the duration of the child's placement in foster care. If it is anticipated that a child will be eligible to receive retirement survivor's disability insurance, veteran's benefits, railroad retirement benefits, or black lung benefits after finalization of the adoption or assignment of permanent legal and physical custody, the permanent caregiver shall apply to be the payee of those benefits on the child's behalf. (b) If a child becomes eligible for retirement survivor's disability insurance, veteran's benefits, railroad retirement benefits, or black lung benefits, after the initial amount of the payment under Northstar Care for Children is finalized, the permanent caregiver shall contact the commissioner to redetermine the payment under Northstar Care for Children. The monthly amount of the payment under Northstar Care for Children must be the amount the child was determined to be eligible for prior to consideration of any offset.

(d) If the monthly payment received on behalf of the child under retirement survivor's disability insurance, veteran's benefits, railroad retirement benefits, or black lung benefits changes after the adoption assistance or Northstar kinship assistance agreement is finalized, the permanent caregiver shall notify the commissioner as to the new monthly payment amount, regardless of the amount of the change in payment. If the monthly payment changes by \$75 or more, even if the change occurs incrementally over the duration of the term of the adoption assistance or Northstar kinship assistance agreement, the monthly payment

CHILD PROTECTION POLICY

Section 1. Minnesota Statutes 2020, section 245.4885, subdivision 1, is amended to read:

Subdivision 1. **Admission criteria.** (a) Prior to admission or placement, except in the case of an emergency, all children referred for treatment of severe emotional disturbance in a treatment foster care setting, residential treatment facility, or informally admitted to a regional treatment center shall undergo an assessment to determine the appropriate level of care if public funds are used to pay for the child's services.

- (b) The responsible social services agency shall determine the appropriate level of care for a child when county-controlled funds are used to pay for the child's services or placement in a qualified residential treatment facility under chapter 260C and licensed by the commissioner under chapter 245A. In accordance with section 260C.157, a juvenile treatment screening team shall conduct a screening of a child before the team may recommend whether to place a child in a qualified residential treatment program as defined in section 260C.007, subdivision 26d. When a social services agency does not have responsibility for a child's placement and the child is enrolled in a prepaid health program under section 256B.69, the enrolled child's contracted health plan must determine the appropriate level of care for the child. When Indian Health Services funds or funds of a tribally owned facility funded under the Indian Self-Determination and Education Assistance Act, Public Law 93-638, are to be used for a child, the Indian Health Services or 638 tribal health facility must determine the appropriate level of care for the child. When more than one entity bears responsibility for a child's coverage, the entities shall coordinate level of care determination activities for the child to the extent possible.
- (c) The responsible social services agency must make the <u>child's</u> level of care determination available to the <u>child's</u> juvenile treatment screening team, as permitted under chapter 13. The level of care determination shall inform the juvenile treatment screening team process and the assessment in section 260C.704 when considering whether to place the child in a qualified residential treatment program. When the responsible social services agency is not involved in determining a child's placement, the child's level of care determination shall determine whether the proposed treatment:

 - (3) cannot be effectively provided in the child's home; and
- 415.3 (4) provides a length of stay as short as possible consistent with the individual child's need needs.
 - (d) When a level of care determination is conducted, the responsible social services agency or other entity may not determine that a screening of a child under section 260C.157 or referral or admission to a treatment foster care setting or residential treatment facility is not appropriate solely because services were not first provided to the child in a less restrictive setting and the child failed to make progress toward or meet treatment goals in the less restrictive setting. The level of care determination must be based on a diagnostic assessment of a child that includes a functional assessment which evaluates the child's family, school, and community living situations; and an assessment of the child's need for care out of the home using a validated tool which assesses a child's functional status and assigns an appropriate level of care to the child. The validated tool must be approved by the commissioner of human services and may be the validated tool approved for the child's assessment under section 260C.704 if the juvenile treatment screening team recommended placement of the child in a qualified residential treatment program. If a diagnostic assessment including a functional assessment has been completed by a mental health professional within the past 180 days, a new diagnostic assessment need not be completed unless in the opinion of the current treating mental health professional the child's mental health status has changed markedly since the assessment was completed. The child's parent shall be notified if an assessment will not be completed and of the reasons. A copy of the notice shall be placed in the child's file. Recommendations developed as part of the level of care determination process shall include specific community services needed by the child and, if appropriate, the child's family, and shall indicate whether or not these services are available and accessible to the child and the child's family.
 - (e) During the level of care determination process, the child, child's family, or child's legal representative, as appropriate, must be informed of the child's eligibility for case management services and family community support services and that an individual family community support plan is being developed by the case manager, if assigned.
 - (f) When the responsible social services agency has authority, the agency must engage the child's parents in case planning under sections 260C.212 and 260C.708 and chapter 260D unless a court terminates the parent's rights or court orders restrict the parent from participating in case planning, visitation, or parental responsibilities.

416.1	(g) The level of care determination, and placement decision, and recommendations for

425.30	procedure for approval must include an assessment of the nonparental youth's capacity to
425.31	assume the supervisory responsibilities using the criteria in paragraph (e). The license holder
425.32	must document the license holder's approval of the supervisory arrangement and the

27.4	license holder may ask the Department of Human Services to reconsider the parts of the
27.5	correction order that the license holder alleges are in error. To submit a request for
27.6	reconsideration, the license holder must send a written request for reconsideration by United
27.7	States mail to the commissioner of human services. The request for reconsideration must
27.8	be postmarked within 20 calendar days of the date that the correction order was received

27.11	(2) explain why the parts of the correction order are in error; and
27.12	(3) include documentation to support the allegation of error.
27.13	A request for reconsideration does not stay any provisions or requirements of the correction
27.14	order. The commissioner of human services' disposition of a request for reconsideration is
27.15	final and not subject to appeal under chapter 14.
27.16	(d) Nothing in this subdivision prohibits the commissioner of human services from
27.17	decertifying a license holder according to subdivision 9 prior to issuing a correction order.
27.18	Subd. 9. Decertification. (a) The commissioner of human services may rescind a
27.19	certification issued under this section if a license holder fails to comply with the certification
27.20	requirements in this section.
27.21	(b) The license holder may request reconsideration of a decertification by notifying the
27.22	commissioner of human services by certified mail or personal service. The license holder
27.23	must request reconsideration of a decertification in writing. If the license holder sends the
27.24	request for reconsideration of a decertification by certified mail, the license holder must
27.25	send the request by United States mail to the commissioner of human services and the
27.26	request must be postmarked within 20 calendar days after the license holder received the
27.27	notice of decertification. If the license holder requests reconsideration of a decertification
27.28	by personal service, the request for reconsideration must be received by the commissioner
27.29	of human services within 20 calendar days after the license holder received the notice of
27.30	decertification. When submitting a request for reconsideration of a decertification, the license
27.31	holder must submit a written argument or evidence in support of the request for
27.32	reconsideration.

- Subd. 6. Contracting within and across county lines; lead county contracts; lead tribal contracts. Paragraphs (a) to (e) govern contracting within and across county lines and lead county contracts. Paragraphs (a) to (e) govern contracting within and across reservation boundaries and lead tribal contracts for initiative tribes under section 256.01, subdivision 14b. For purposes of this subdivision, "local agency" includes a tribe or a county agency.
- (a) Once a local agency and an approved vendor execute a contract that meets the requirements of this subdivision, the contract governs all other purchases of service from the vendor by all other local agencies for the term of the contract. The local agency that negotiated and entered into the contract becomes the lead tribe or county for the contract.
- (b) When the local agency in the county or reservation where a vendor is located wants to purchase services from that vendor and the vendor has no contract with the local agency or any other tribe or county, the local agency must negotiate and execute a contract with the vendor.
- (c) When a local agency in one county wants to purchase services from a vendor located 431.16 in another county or reservation, it must notify the local agency in the county or reservation 431.17 where the vendor is located. Within 30 days of being notified, the local agency in the vendor's county or reservation must: 431.19
 - (1) if it has a contract with the vendor, send a copy to the inquiring local agency;
- (2) if there is a contract with the vendor for which another local agency is the lead tribe 431.21 or county, identify the lead tribe or county to the inquiring agency; or 431.22
- (3) if no local agency has a contract with the vendor, inform the inquiring agency whether it will negotiate a contract and become the lead tribe or county. If the agency where the 431.24 vendor is located will not negotiate a contract with the vendor because of concerns related 431.25 to clients' health and safety, the agency must share those concerns with the inquiring local 431.26 agency. 431.27
 - (d) If the local agency in the county where the vendor is located declines to negotiate a contract with the vendor or fails to respond within 30 days of receiving the notification under paragraph (c), the inquiring agency is authorized to negotiate a contract and must notify the local agency that declined or failed to respond.
- 431.32 (e) When the inquiring county local agency under paragraph (d) becomes the lead tribe or county for a contract and the contract expires and needs to be renegotiated, that tribe or 431.33

432.1	county must again follow the requirements under paragraph (c) and notify the local agency
432.2	where the vendor is located. The local agency where the vendor is located has the option
432.3	of becoming the lead tribe or county for the new contract. If the local agency does not
432.4	exercise the option, paragraph (d) applies.
432.5	(f) This subdivision does not affect the requirement to seek county concurrence under
432.6	section 256B.092, subdivision 8a, when the services are to be purchased for a person with
432.7	a developmental disability or under section 245.4711, subdivision 3, when the services to
432.8	be purchased are for an adult with serious and persistent mental illness.

451.15	260C.704;
151.16	(2) (1) determine whether a family foster home can meet the child's needs, whether it is

451.21	(b) In the out-of-home placement plan, the agency must document the court's approval
151.22	or disapproval of the placement, as specified in section 260C.708. If the court disapproves

- (a) When a responsible social services agency places a child in a qualified residential treatment program for more than 12 consecutive months or 18 nonconsecutive months or, in the case of a child who is under 13 years of age, for more than six consecutive or nonconsecutive months, the agency must submit: (1) the signed approval by the county social services director of the responsible social services agency; and (2) the evidence supporting the child's placement at the most recent court review or permanency hearing under section 260C.712, paragraph (b).
- (b) The commissioner shall specify the procedures and requirements for the agency's review and approval of a child's extended qualified residential treatment program placement.

- 453.17 **EFFECTIVE DATE.** This section is effective September 30, 2021.
- 453.18 Sec. 27. Minnesota Statutes 2020, section 260D.01, is amended to read:
- 453.19 **260D.01 CHILD IN VOLUNTARY FOSTER CARE FOR TREATMENT.**
- (a) Sections 260D.01 to 260D.10, may be cited as the "child in voluntary foster care for treatment" provisions of the Juvenile Court Act.
- (b) The juvenile court has original and exclusive jurisdiction over a child in voluntary foster care for treatment upon the filing of a report or petition required under this chapter.

 All obligations of the responsible social services agency to a child and family in foster care contained in chapter 260C not inconsistent with this chapter are also obligations of the agency with regard to a child in foster care for treatment under this chapter.
- (c) This chapter shall be construed consistently with the mission of the children's mental health service system as set out in section 245.487, subdivision 3, and the duties of an agency under sections 256B.092 and 260C.157 and Minnesota Rules, parts 9525.0004 to 9525.0016, to meet the needs of a child with a developmental disability or related condition. This chapter:

454.2

454.3

454.4

454.5

- (1) establishes voluntary foster care through a voluntary foster care agreement as the means for an agency and a parent to provide needed treatment when the child must be in foster care to receive necessary treatment for an emotional disturbance or developmental disability or related condition;
- (2) establishes court review requirements for a child in voluntary foster care for treatment due to emotional disturbance or developmental disability or a related condition;
- (3) establishes the ongoing responsibility of the parent as legal custodian to visit the child, to plan together with the agency for the child's treatment needs, to be available and accessible to the agency to make treatment decisions, and to obtain necessary medical, dental, and other care for the child; and
- (4) applies to voluntary foster care when the child's parent and the agency agree that the child's treatment needs require foster care either:
- (i) due to a level of care determination by the agency's screening team informed by the diagnostic and functional assessment under section 245.4885; or
- (ii) due to a determination regarding the level of services needed by the child by the responsible social services' services agency's screening team under section 256B.092, and Minnesota Rules, parts 9525.0004 to 9525.0016-; and
- (5) includes the requirements for a child's placement in sections 260C.70 to 260C.714, when the juvenile treatment screening team recommends placing a child in a qualified residential treatment program, except as modified by this chapter.
- (d) This chapter does not apply when there is a current determination under chapter 454.21 260E that the child requires child protective services or when the child is in foster care for 454.22 any reason other than treatment for the child's emotional disturbance or developmental 454.23 disability or related condition. When there is a determination under chapter 260E that the 454.24 454.25 child requires child protective services based on an assessment that there are safety and risk issues for the child that have not been mitigated through the parent's engagement in services 454.26 or otherwise, or when the child is in foster care for any reason other than the child's emotional 454.27 disturbance or developmental disability or related condition, the provisions of chapter 260C 454.28 454.29 apply.
- (e) The paramount consideration in all proceedings concerning a child in voluntary foster care for treatment is the safety, health, and the best interests of the child. The purpose of this chapter is:

- (1) to ensure that a child with a disability is provided the services necessary to treat or ameliorate the symptoms of the child's disability;
 - (2) to preserve and strengthen the child's family ties whenever possible and in the child's best interests, approving the child's placement away from the child's parents only when the child's need for care or treatment requires it out-of-home placement and the child cannot be maintained in the home of the parent; and
- (3) to ensure that the child's parent retains legal custody of the child and associated decision-making authority unless the child's parent willfully fails or is unable to make decisions that meet the child's safety, health, and best interests. The court may not find that the parent willfully fails or is unable to make decisions that meet the child's needs solely because the parent disagrees with the agency's choice of foster care facility, unless the agency files a petition under chapter 260C, and establishes by clear and convincing evidence that the child is in need of protection or services.
- (f) The legal parent-child relationship shall be supported under this chapter by maintaining the parent's legal authority and responsibility for ongoing planning for the child and by the agency's assisting the parent, where when necessary, to exercise the parent's ongoing right and obligation to visit or to have reasonable contact with the child. Ongoing planning means:
- (1) actively participating in the planning and provision of educational services, medical, and dental care for the child;
- 455.20 (2) actively planning and participating with the agency and the foster care facility for 455.21 the child's treatment needs; and
- 455.22 (3) planning to meet the child's need for safety, stability, and permanency, and the child's need to stay connected to the child's family and community-;
- (4) engaging with the responsible social services agency to ensure that the family and 455.24 permanency team under section 260C.706 consists of appropriate family members. For 455.25 purposes of voluntary placement of a child in foster care for treatment under chapter 260D, 455.26 prior to forming the child's family and permanency team, the responsible social services 455.27 agency must consult with the child's parent or legal guardian, the child if the child is 14 455.28 years of age or older, and, if applicable, the child's tribe to obtain recommendations regarding 455.29 which individuals to include on the team and to ensure that the team is family-centered and 455.30 will act in the child's best interests. If the child, child's parents, or legal guardians raise 455.31 concerns about specific relatives or professionals, the team should not include those 455.32 individuals unless the individual is a treating professional or an important connection to the 455.33 youth as outlined in the case or crisis plan; and 455.34

Sec. 3. Minnesota Statutes 2020, section 245.4876, subdivision 3, is amended to read:

Subd. 3. Individual treatment plans. All providers of outpatient services, day treatment services, professional home-based family treatment, residential treatment, and acute care hospital inpatient treatment, and all regional treatment centers that provide mental health services for children must develop an individual treatment plan for each child client. The individual treatment plan must be based on a diagnostic assessment. To the extent appropriate, the child and the child's family shall be involved in all phases of developing and implementing the individual treatment plan. Providers of residential treatment, professional home-based family treatment, and acute care hospital inpatient treatment, and regional treatment centers must develop the individual treatment plan within ten working days of client intake or admission and must review the individual treatment plan every 90 days after intake, except that the administrative review of the treatment plan of a child placed in a residential facility shall be as specified in sections 260C.203 and 260C.212, subdivision 9. Providers of day treatment services must develop the individual treatment plan before the completion of five working days in which service is provided or within 30 days after the diagnostic assessment is completed or obtained, whichever occurs first. Providers of outpatient services must develop the individual treatment plan within 30 days after the diagnostic assessment is completed or obtained or by the end of the second session of an outpatient service, not including the session in which the diagnostic assessment was provided, whichever occurs first. Sec. 4. Minnesota Statutes 2020, section 245.4882, subdivision 1, is amended to read:

Subdivision 1. Availability of residential treatment services. County boards must provide or contract for enough residential treatment services to meet the needs of each child with severe emotional disturbance residing in the county and needing this level of care. Length of stay is based on the child's residential treatment need and shall be subject to the six-month review process established in section 260C.203, and for children in voluntary placement for treatment, the court review process in section 260D.06 reviewed every 90 days. Services must be appropriate to the child's age and treatment needs and must be made available as close to the county as possible. Residential treatment must be designed to: 471.33

- 472.1 (1) help the child improve family living and social interaction skills;
- (2) help the child gain the necessary skills to return to the community;
- 472.3 (3) stabilize crisis admissions; and
- 472.4 (4) work with families throughout the placement to improve the ability of the families to care for children with severe emotional disturbance in the home.
- Sec. 5. Minnesota Statutes 2020, section 245.4882, subdivision 3, is amended to read:
- Subd. 3. Transition to community. Residential treatment facilities and regional treatment 472.7 centers serving children must plan for and assist those children and their families in making 472.8 a transition to less restrictive community-based services. Discharge planning for the child 472.9 to return to the community must include identification of and referrals to appropriate home 472.10 and community supports that meet the needs of the child and family. Discharge planning 472.11 must begin within 30 days after the child enters residential treatment and be updated every 472.12 472.13 60 days. Residential treatment facilities must also arrange for appropriate follow-up care in the community. Before a child is discharged, the residential treatment facility or regional 472.14 treatment center shall provide notification to the child's case manager, if any, so that the 472.15 case manager can monitor and coordinate the transition and make timely arrangements for 472.16 the child's appropriate follow-up care in the community. 472.17
- Sec. 6. Minnesota Statutes 2020, section 245.4885, subdivision 1, is amended to read:
- Subdivision 1. **Admission criteria.** (a) Prior to admission or placement, except in the case of an emergency, all children referred for treatment of severe emotional disturbance in a treatment foster care setting, residential treatment facility, or informally admitted to a regional treatment center shall undergo an assessment to determine the appropriate level of care if public county funds are used to pay for the child's services.
- (b) The responsible social services agency county board shall determine the appropriate 472.24 level of care for a child when county-controlled funds are used to pay for the child's services 472.25 or placement in a qualified residential treatment facility under chapter 260C and licensed 472.26 by the commissioner under chapter 245A. In accordance with section 260C.157, a juvenile 472.27 treatment screening team shall conduct a screening before the team may recommend whether 472.28 to place a child residential treatment under this chapter, including residential treatment 472.29 provided in a qualified residential treatment program as defined in section 260C.007, 472.30 subdivision 26d. When Indian Health Services funds or funds of a tribally owned facility funded under the Indian Self-Determination and Education Assistance Act, Public Law 93-638, are to be used for the child, the Indian Health Services or 638 tribal health facility must determine the appropriate level of care for the child. When more than one entity bears responsibility for a child's coverage, the entities shall coordinate level of care determination activities for the child to the extent possible.

- (c) The responsible social services agency must make the level of care determination available to the juvenile treatment screening team, as permitted under chapter 13. The level of care determination shall inform the juvenile treatment screening team process and the assessment in section 260C.704 when considering whether to place the child in a qualified residential treatment program. When the responsible social services agency is not involved in determining a child's placement, the child's level of care determination shall determine whether the proposed treatment:
- (1) is necessary; 473.15
- (2) is appropriate to the child's individual treatment needs; 473 16
- (3) cannot be effectively provided in the child's home; and 473.17
- (4) provides a length of stay as short as possible consistent with the individual child's 473.18 need needs. 473.19
- (d) When a level of care determination is conducted, the responsible social services agency county board or other entity may not determine that a screening under section 260C.157 or, referral, or admission to a treatment foster eare setting or residential treatment 473.22 facility is not appropriate solely because services were not first provided to the child in a 473.23 less restrictive setting and the child failed to make progress toward or meet treatment goals 473.24 in the less restrictive setting. The level of care determination must be based on a diagnostic 473.25 assessment of a child that includes a functional assessment which evaluates family, school, 473.26 and community living situations; and an assessment of the child's need for care out of the 473.27 home using a validated tool which assesses a child's functional status and assigns an 473.28 appropriate level of care to the child. The validated tool must be approved by the 473.29 commissioner of human services. If a diagnostic assessment including a functional assessment 473.30 has been completed by a mental health professional within the past 180 days, a new diagnostic assessment need not be completed unless in the opinion of the current treating mental health 473.32 professional the child's mental health status has changed markedly since the assessment 473.33 was completed. The child's parent shall be notified if an assessment will not be completed 473.34

474.12	community support plan is being developed by the case manager, if assigned.
474.13	(f) When the responsible social services agency has authority, the agency must engage

 - (c) Notwithstanding any other law that requires a county contract or other form of county approval for certain services listed in paragraph (a), clause (6), a clinic that otherwise meets CCBHC requirements may receive the prospective payment under section 256B.0625, subdivision 5m, for those services without a county contract or county approval. As part of the certification process in paragraph (a), the commissioner shall require a letter of support from the CCBHC's host county confirming that the CCBHC and the county or counties it serves have an ongoing relationship to facilitate access and continuity of care, especially for individuals who are uninsured or who may go on and off medical assistance.

If standards overlap, the commissioner may substitute all or a part of a licensure or certification that is substantially the same as another licensure or certification. The commissioner shall consult with stakeholders, as described in subdivision 4, before granting variances under this provision. For the CCBHC that is certified but not approved for prospective payment under section 256B.0625, subdivision 5m, the commissioner may grant a variance under this paragraph if the variance does not increase the state share of costs.

The commissioner 480.30 shall take into consideration the adequacy of evidence to support the efficacy of the practice, 480.31 the quality of workforce available, and the current availability of the practice in the state. 480.32 At least 30 days before issuing the initial list and any revisions, the commissioner shall 480.33 provide stakeholders with an opportunity to comment. 480.34

 - (b) The commissioner shall establish standards and methodologies for a reimburse CCBHCs on a per-visit basis under the prospective payment system for medical assistance payments for services delivered by a CCBHC, in accordance with guidance issued by the Centers for Medicare and Medicaid Services as described in paragraph (c). The commissioner shall include a quality bonus incentive payment in the prospective payment system based on federal criteria, as described in paragraph (e). There is no county share for medical assistance services when reimbursed through the CCBHC prospective payment system.
- (c) Unless otherwise indicated in applicable federal requirements, the prospective payment system must continue to be based on the federal instructions issued for the federal section 223 CCBHC demonstration, except: The commissioner shall ensure that the prospective payment system for CCBHC payments under medical assistance meets the following requirements:

493.1	(1) the prospective payment rate shall be a provider-specific rate calculated for each
493.2	CCBHC, based on the daily cost of providing CCBHC services and the total annual allowable
493.3	costs for CCBHCs divided by the total annual number of CCBHC visits. For calculating
493.4	the payment rate, total annual visits include visits covered by medical assistance and visits
493.5	not covered by medical assistance. Allowable costs include but are not limited to the salaries
493.6	and benefits of medical assistance providers; the cost of CCBHC services provided under
493.7	section 245.735, subdivision 3, paragraph (a), clauses (6) and (7); and other costs such as
493.8	insurance or supplies needed to provide CCBHC services;
493.9	(2) payment shall be limited to one payment per day per medical assistance enrollee for
493.10	each CCBHC visit eligible for reimbursement. A CCBHC visit is eligible for reimbursement
493.11	if at least one of the CCBHC services listed under section 245.735, subdivision 3, paragraph
493.12	(a), clause (6), is furnished to a medical assistance enrollee by a health care practitioner or
493.13	licensed agency employed by or under contract with a CCBHC;
493.14	(3) new payment rates set by the commissioner for newly certified CCBHCs under
493.15	section 245.735, subdivision 3, shall be based on rates for established CCBHCs with a
493.16	similar scope of services. If no comparable CCBHC exists, the commissioner shall establish
493.17	a clinic-specific rate using audited historical cost report data adjusted for the estimated cost
493.18	of delivering CCBHC services, including the estimated cost of providing the full scope of
493.19	services and the projected change in visits resulting from the change in scope;
493.20	(1) (4) the commissioner shall rebase CCBHC rates at least once every three years and
493.21	12 months following an initial rate or a rate change due to a change in the scope of services,
493.22	whichever is earlier;
493.23	(2) (5) the commissioner shall provide for a 60-day appeals process after notice of the
493.24	<u>results</u> of the rebasing;
493.25	(3) the prohibition against inclusion of new facilities in the demonstration does not apply
493.26	after the demonstration ends;
493.27	(4)(6) the prospective payment rate under this section does not apply to services rendered

493.31	(5) (7) payments for CCBHC services to individuals enrolled in managed care shall be
493.32	coordinated with the state's phase-out of CCBHC wrap payments. The commissioner shall

(MMIS), for CCBHCs reimbursed under this chapter, with a final settlement of payments due made payable to CCBHCs no later than 18 months thereafter;

(6) initial prospective payment rates for CCBHCs certified after July 1, 2019, shall be based on rates for comparable CCBHCs. If no comparable provider exists, the commissioner shall compute a CCBHC-specific rate based upon the CCBHC's audited costs adjusted for changes in the scope of services;

(7) (8) the prospective payment rate for each CCBHC shall be adjusted annually updated by trending each provider-specific rate by the Medicare Economic Index as defined for the federal section 223 CCBHC demonstration for primary care services. This update shall occur each year in between rebasing periods determined by the commissioner in accordance with clause (4). CCBHCs must provide data on costs and visits to the state annually using the CCBHC cost report established by the commissioner; and

(9) a CCBHC may request a rate adjustment for changes in the CCBHC's scope of services when such changes are expected to result in an adjustment to the CCBHC payment rate by 2.5 percent or more. The CCBHC must provide the commissioner with information regarding the changes in the scope of services, including the estimated cost of providing the new or modified services and any projected increase or decrease in the number of visits resulting from the change. Rate adjustments for changes in scope shall occur no more than once per year in between rebasing periods per CCBHC and are effective on the date of the annual CCBHC rate update.

(8) the commissioner shall seek federal approval for a CCBHC rate methodology that allows for rate modifications based on changes in scope for an individual CCBHC, including for changes to the type, intensity, or duration of services. Upon federal approval, a CCBHC may submit a change of scope request to the commissioner if the change in scope would result in a change of 2.5 percent or more in the prospective payment system rate currently received by the CCBHC. CCBHC change of scope requests must be according to a format and timeline to be determined by the commissioner in consultation with CCBHCs.

(d) Managed care plans and county-based purchasing plans shall reimburse CCBHC providers at the prospective payment rate. The commissioner shall monitor the effect of this requirement on the rate of access to the services delivered by CCBHC providers. If, for any contract year, federal approval is not received for this paragraph, the commissioner must adjust the capitation rates paid to managed care plans and county-based purchasing plans for that contract year to reflect the removal of this provision. Contracts between managed care plans and county-based purchasing plans and providers to whom this paragraph

195.1	applies must allow recovery of payments from those providers if capitation rates are adjusted
195.2	in accordance with this paragraph. Payment recoveries must not exceed the amount equal
195.3	to any increase in rates that results from this provision. This paragraph expires if federal
195.4	approval is not received for this paragraph at any time.
195.5	(e) The commissioner shall implement a quality incentive payment program for CCBHCs
195.6	that meets the following requirements:
195.7	(1) a CCBHC shall receive a quality incentive payment upon meeting specific numeric
195.8	thresholds for performance metrics established by the commissioner, in addition to payments
195.9	for which the CCBHC is eligible under the prospective payment system described in
195.10	paragraph (c);
195.11	(2) a CCBHC must be certified and enrolled as a CCBHC for the entire measurement
195.12	year to be eligible for incentive payments;
195.13	(3) each CCBHC shall receive written notice of the criteria that must be met in order to
195.14	receive quality incentive payments at least 90 days prior to the measurement year; and
195.15	(4) a CCBHC must provide the commissioner with data needed to determine incentive
195.16	payment eligibility within six months following the measurement year. The commissioner
195.17	shall notify CCBHC providers of their performance on the required measures and the
195.18	incentive payment amount within 12 months following the measurement year.
195.19	(f) All claims to managed care plans for CCBHC services as provided under this section
195.20	shall be submitted directly to, and paid by, the commissioner on the dates specified no later
195.21	than January 1 of the following calendar year, if:
195.22	(1) one or more managed care plans does not comply with the federal requirement for
195.23	payment of clean claims to CCBHCs, as defined in Code of Federal Regulations, title 42,
195.24	section 447.45(b), and the managed care plan does not resolve the payment issue within 30
195.25	days of noncompliance; and
195.26	(2) the total amount of clean claims not paid in accordance with federal requirements
195.27	by one or more managed care plans is 50 percent of, or greater than, the total CCBHC claims
195.28	eligible for payment by managed care plans.
195.29	If the conditions in this paragraph are met between January 1 and June 30 of a calendar
195.30	year, claims shall be submitted to and paid by the commissioner beginning on January 1 of
195.31	the following year. If the conditions in this paragraph are met between July 1 and December
195.32	31 of a calendar year, claims shall be submitted to and paid by the commissioner beginning
105 22	on July 1 of the following year

(a) To the extent authorized by rule of the state agency, medical assistance covers case management services to persons with serious and persistent mental illness and children with severe emotional disturbance. Services provided under this section must meet the relevant standards in sections 245.461 to 245.4887, the Comprehensive Adult and Children's Mental Health Acts, Minnesota Rules, parts 9520.0900 to 9520.0926, and 9505.0322, excluding subpart 10.

- (b) Entities meeting program standards set out in rules governing family community support services as defined in section 245.4871, subdivision 17, are eligible for medical assistance reimbursement for case management services for children with severe emotional disturbance when these services meet the program standards in Minnesota Rules, parts 9520.0900 to 9520.0926 and 9505.0322, excluding subparts 6 and 10.

To receive payment for an eligible adult, the provider must 496.16 496.17 document:

mental health case management provided by vendors who contract with a Tribe must be based on a monthly rate negotiated by the Tribe. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county or tribe may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county or tribe, except to reimburse the county or tribe for advance funding provided by the county or tribe to the vendor.

- (g) If the service is provided by a team which includes contracted vendors, tribal staff, and county or state staff, the costs for county or state staff participation in the team shall be included in the rate for county-provided services. In this case, the contracted vendor, the tribal agency, and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles of the team members.
- (h) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for mental health case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds. If the service is provided by a tribal agency, the nonfederal share, if any, shall be provided by the recipient's tribe. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the recipient's county of responsibility.
 - (i) Notwithstanding any administrative rule to the contrary, prepaid medical assistance and MinnesotaCare include mental health case management. When the service is provided through prepaid capitation, the nonfederal share is paid by the state and the county pays no share.
- (j) The commissioner may suspend, reduce, or terminate the reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, or, if applicable, the tribal agency, is responsible for any federal disallowances. The county or tribe may share this responsibility with its contracted vendors.
- (k) The commissioner shall set aside a portion of the federal funds earned for county expenditures under this section to repay the special revenue maximization account under section 256.01, subdivision 2, paragraph (o). The repayment is limited to:

(1) the costs of developing and implementing this section; and 498.1 (2) programming the information systems. 498.2 (1) Payments to counties and tribal agencies for case management expenditures under 498.3 this section shall only be made from federal earnings from services provided under this 498.4 498.5 section. When this service is paid by the state without a federal share through fee-for-service, 50 percent of the cost shall be provided by the state. Payments to county-contracted vendors 498.6 shall include the federal earnings, the state share, and the county share. 498.7 (m) Case management services under this subdivision do not include therapy, treatment, 498.8 legal, or outreach services. 498.9 (n) If the recipient is a resident of a nursing facility, intermediate care facility, or hospital, 498.10 and the recipient's institutional care is paid by medical assistance, payment for case 498.11 management services under this subdivision is limited to the lesser of: 498.12 (1) the last 180 days of the recipient's residency in that facility and may not exceed more 498.13 than six months in a calendar year; or 498.14 (2) the limits and conditions which apply to federal Medicaid funding for this service. 498.15 (o) Payment for case management services under this subdivision shall not duplicate 498.16 payments made under other program authorities for the same purpose. 498.17 (p) If the recipient is receiving care in a hospital, nursing facility, or residential setting 498.18 licensed under chapter 245A or 245D that is staffed 24 hours a day, seven days a week, 498.19 mental health targeted case management services must actively support identification of 498.20 community alternatives for the recipient and discharge planning. Sec. 23. Minnesota Statutes 2020, section 256B.0759, subdivision 2, is amended to read: 498.22 Subd. 2. Provider participation. (a) Outpatient substance use disorder treatment 498.23 providers may elect to participate in the demonstration project and meet the requirements 498.24 of subdivision 3. To participate, a provider must notify the commissioner of the provider's 498.25 intent to participate in a format required by the commissioner and enroll as a demonstration 498.26 project provider. 498.27 (b) A program licensed by the Department of Human Services as a residential treatment 498.28 program according to section 245G.21 and that receives payment under this chapter must 498.29

January 1, 2022. The commissioner may grant an extension, for a period not to exceed six

months, to a program that is unable to meet the requirements of subdivision 3 due to

demonstrated extraordinary circumstances. A program seeking an extension must apply in

499.2	a format approved by the commissioner by November 1, 2021. A program that does not
499.3	meet the requirements under this paragraph by July 1, 2023, is ineligible for payment for
499.4	services provided under sections 254B.05 and 256B.0625.
499.5	(c) A program licensed by the Department of Human Services as a withdrawal
499.6	management program according to chapter 245F and that receives payment under this
499.7	chapter must enroll as a demonstration project provider and meet the requirements of
499.8	subdivision 3 by January 1, 2022. The commissioner may grant an extension, for a period

499.13	for services provided under sections 254B.05 and 256B.0625.
499.14	(d) An out-of-state residential substance use disorder treatment program that receives
499.15	payment under this chapter must enroll as a demonstration project provider and meet the
499.16	requirements of subdivision 3 by January 1, 2022. The commissioner may grant an extension,
499.17	for a period not to exceed six months, to a program that is unable to meet the requirements
499.18	of subdivision 3 due to demonstrated extraordinary circumstances. A program seeking an
499.19	extension must apply in a format approved by the commissioner by November 1, 2021.
499.20	Programs that do not meet the requirements under this paragraph by July 1, 2023, are
499.21	ineligible for payment for services provided under sections 254B.05 and 256B.0625.
499.22	(e) Tribally licensed programs may elect to participate in the demonstration project and
499.23	meet the requirements of subdivision 3. The Department of Human Services must consult
499.24	with tribal nations to discuss participation in the substance use disorder demonstration
499.25	project.
499.26	(f) All rate enhancements for services rendered by demonstration project providers that
499.27	voluntarily enrolled before July 1, 2021, are applicable only to dates of service on or after
499.28	the effective date of the provider's enrollment in the demonstration project, except as
499.29	authorized under paragraph (g). The commissioner shall recoup any rate enhancements paid
499.30	under paragraph (g) to a provider that does not meet the requirements of subdivision 3 by
499.31	<u>July 1, 2021.</u>
499.32	(g) The commissioner may allow providers enrolled in the demonstration project before

500.1	services provided to fee-for-service enrollees on dates of service no earlier than July 22,
500.2	2020, and to managed care enrollees on dates of service no earlier than January 1, 2021, if:
500.3	(1) the provider attests that during the time period for which it is seeking the rate
500.4	enhancement, it was taking meaningful steps and had a reasonable plan approved by the
500.5	commissioner to meet the demonstration project requirements in subdivision 3;
500.6	(2) the provider submits the attestation and evidence of meeting the requirements of
500.7	subdivision 3, including all information requested by the commissioner, in a format specified
500.8	by the commissioner; and
500.9	(3) the commissioner received the provider's application for enrollment on or before
500.10	June 1, 2021.
500.11	EFFECTIVE DATE. This section is effective July 1, 2021, or upon federal approval,

500.14	Sec. 24. Minnesota Statutes 2020, section 256B.0759, subdivision 4, is amended to read:
500.15	Subd. 4. Provider payment rates. (a) Payment rates for participating providers must
500.16	be increased for services provided to medical assistance enrollees. To receive a rate increase,
500.17	participating providers must meet demonstration project requirements, provider standards
500.18	<u>under subdivision 3,</u> and provide evidence of formal referral arrangements with providers
500.19	delivering step-up or step-down levels of care.
500.20	(b) The commissioner may temporarily suspend payments to the provider according to
500.21	section 256B.04, subdivision 21, paragraph (d), if the requirements in paragraph (a) are not
500.22	met. Payments withheld from the provider must be made once the commissioner determines
500.23	that the requirements in paragraph (a) are met.
500.24	(b) (c) For substance use disorder services under section 254B.05, subdivision 5,
500.25	paragraph (b), clause (8), provided on or after July 1, 2020, payment rates must be increased
500.26	by <u>15 30</u> percent over the rates in effect on December 31, 2019.
500.27	(e) (d) For substance use disorder services under section 254B.05, subdivision 5,

501.5	rate payment for the substance use disorder services described in paragraphs (b) (c) and (e)
501.6	(d). The commissioner must monitor the effect of this requirement on the rate of access to
501.7	substance use disorder services and residential substance use disorder rates. Capitation rates

EFFECTIVE DATE. This section is effective July 1, 2021.

502.1	Sec. 27. Minnesota Statutes 2020, section 256B.0759, is amended by adding a subdivision
502.2	to read:
502.3	Subd. 8. Demonstration project evaluation work group. Beginning October 1, 2021,
502.4	the commissioner shall assemble a work group of relevant stakeholders, including but not
502.5	limited to demonstration project participants and the Minnesota Association of Resources
502.6	for Recovery and Chemical Health, that shall meet quarterly for the duration of the
502.7	demonstration to evaluate the long-term sustainability of any improvements to quality or
502.8	access to substance use disorder treatment services caused by participation in the
502.9	demonstration project. The work group shall also determine how to implement successful
502.10	outcomes of the demonstration project once the project expires.
502.11	EFFECTIVE DATE. This section is effective July 1, 2021.
502.12	Sec. 28. [256B.076] CASE MANAGEMENT SERVICES.
502.13	Subdivision 1. Generally. (a) It is the policy of this state to ensure that individuals on
502.14	medical assistance receive cost-effective and coordinated care, including efforts to address
502.15	the profound effects of housing instability, food insecurity, and other social determinants
502.16	of health. Therefore, subject to federal approval, medical assistance covers targeted case
502.17	management services as described in this section.
502.18	(b) The commissioner, in collaboration with tribes, counties, providers, and individuals
502.19	served, must propose further modifications to targeted case management services to ensure
502.20	a program that complies with all federal requirements, delivers services in a cost-effective
502.21	and efficient manner, creates uniform expectations for targeted case management services,
502.22	addresses health disparities, and promotes person- and family-centered services.
502.23	Subd. 2. Rate setting. (a) The commissioner must develop and implement a statewide
502.24	rate methodology for any county that subcontracts targeted case management services to a
502.25	vendor. On January 1, 2022, or upon federal approval, whichever is later, a county must
502.26	use this methodology for any targeted case management services paid by medical assistance
502.27	and delivered through a subcontractor.
502.28	(b) In setting this rate, the commissioner must include the following:
502.29	(1) prevailing wages;
502.30	(2) employee-related expense factor;
502.31	(3) paid time off and training factors;
502.32	(4) supervision and span of control;

503.1	(5) distribution of time factor;
503.2	(6) administrative factor;
503.3	(7) absence factor;
503.4	(8) program support factor; and
503.5	(9) caseload sizes as described in subdivision 3.
503.6	(c) A county may request that the commissioner authorize a rate based on a lower caseload
503.7	size when a subcontractor is assigned to serve individuals with needs, such as homelessness
503.8	or specific linguistic or cultural needs, that significantly exceed other eligible populations.
503.9	A county must include the following in the request:
503.10	(1) the number of clients to be served by a full-time equivalent staffer;
503.11	(2) the specific factors that require a case manager to provide significantly more hours
503.12	of reimbursable services to a client; and
503.13	(3) how the county intends to monitor case size and outcomes.
503.14	(d) The commissioner must adjust only the factor for caseload in paragraph (b), clause
503.15	(9), in response to a request under paragraph (c).
503.16	Subd. 3. Caseload sizes. A county-subcontracted provider of targeted case management
503.17	services to the following populations must not exceed the following limits:
503.18	(1) for children with severe emotional disturbance, 15 clients to one full-time equivalent
503.19	case manager;
503.20	(2) for adults with severe and persistent mental illness, 30 clients to one full-time
503.21	equivalent case manager;
503.22	(3) for child welfare targeted case management, 25 clients to one full-time equivalent
503.23	case manager; and
503.24	(4) for vulnerable adults and adults who have developmental disabilities, 45 clients to
503.25	one full-time equivalent case manager.
503.26	Sec. 29. Minnesota Statutes 2020, section 256B.0924, subdivision 6, is amended to read:
503.27	Subd. 6. Payment for targeted case management. (a) Medical assistance and
503.28	MinnesotaCare payment for targeted case management shall be made on a monthly basis.

with the adult or the adult's legal representative, family, primary caregiver, or other relevant persons identified as necessary to the development or implementation of the goals of the personal service plan.

- (b) Payment for targeted case management provided by county staff under this subdivision shall be based on the monthly rate methodology under section 256B.094, subdivision 6, paragraph (b), calculated as one combined average rate together with adult mental health case management under section 256B.0625, subdivision 20, except for calendar year 2002. In calendar year 2002, the rate for case management under this section shall be the same as the rate for adult mental health case management in effect as of December 31, 2001. Billing and payment must identify the recipient's primary population group to allow tracking of revenues.
- (c) Payment for targeted case management provided by county-contracted vendors shall be based on a monthly rate negotiated by the host county calculated in accordance with section 256B.076, subdivision 2. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county, except to reimburse the county for advance funding provided by the county to the vendor.
- (d) If the service is provided by a team that includes contracted vendors and county staff, the costs for county staff participation on the team shall be included in the rate for county-provided services. In this case, the contracted vendor and the county may each receive separate payment for services provided by each entity in the same month. In order to prevent duplication of services, the county must document, in the recipient's file, the need for team targeted case management and a description of the different roles of the team members.
- (e) Notwithstanding section 256B.19, subdivision 1, the nonfederal share of costs for targeted case management shall be provided by the recipient's county of responsibility, as defined in sections 256G.01 to 256G.12, from sources other than federal funds or funds used to match other federal funds.
- (f) The commissioner may suspend, reduce, or terminate reimbursement to a provider that does not meet the reporting or other requirements of this section. The county of responsibility, as defined in sections 256G.01 to 256G.12, is responsible for any federal disallowances. The county may share this responsibility with its contracted vendors.

- (g) The commissioner shall set aside five percent of the federal funds received under this section for use in reimbursing the state for costs of developing and implementing this section.
- (h) Payments to counties for targeted case management expenditures under this section shall only be made from federal earnings from services provided under this section. Payments to contracted vendors shall include both the federal earnings and the county share.
- (i) Notwithstanding section 256B.041, county payments for the cost of case management services provided by county staff shall not be made to the commissioner of management and budget. For the purposes of targeted case management services provided by county staff under this section, the centralized disbursement of payments to counties under section 256B.041 consists only of federal earnings from services provided under this section.
- (j) If the recipient is a resident of a nursing facility, intermediate care facility, or hospital, and the recipient's institutional care is paid by medical assistance, payment for targeted case management services under this subdivision is limited to the lesser of:
- 505.15 (1) the last 180 days of the recipient's residency in that facility; or
- 505.16 (2) the limits and conditions which apply to federal Medicaid funding for this service.

- 505.19 (l) Any growth in targeted case management services and cost increases under this section shall be the responsibility of the counties.

- Subd. 6. **Medical assistance reimbursement of case management services.** (a) Medical assistance reimbursement for services under this section shall be made on a monthly basis. Payment is based on face-to-face or telephone contacts between the case manager and the client, client's family, primary caregiver, legal representative, or other relevant person identified as necessary to the development or implementation of the goals of the individual service plan regarding the status of the client, the individual service plan, or the goals for the client. These contacts must meet the minimum standards in clauses (1) and (2):
- 505.29 (1) there must be a face-to-face contact at least once a month except as provided in clause 505.30 (2); and

- (b) Except as provided under paragraph (c), the payment rate is established using time study data on activities of provider service staff and reports required under sections 245.482 and 256.01, subdivision 2, paragraph (p).
- (c) Payments for tribes may be made according to section 256B.0625 or other relevant federally approved rate setting methodology for child welfare targeted case management provided by Indian health services and facilities operated by a tribe or tribal organization.
- (d) Payment for case management provided by county or tribal social services contracted vendors shall be based on a monthly rate negotiated by the host county or tribal social services must be calculated in accordance with section 256B.076, subdivision 2. Payment for case management provided by vendors who contract with a Tribe must be based on a monthly rate negotiated by the Tribe. The negotiated rate must not exceed the rate charged by the vendor for the same service to other payers. If the service is provided by a team of contracted vendors, the county or tribal social services may negotiate a team rate with a vendor who is a member of the team. The team shall determine how to distribute the rate among its members. No reimbursement received by contracted vendors shall be returned to the county or tribal social services, except to reimburse the county or tribal social services for advance funding provided by the county or tribal social services to the vendor.
- (e) If the service is provided by a team that includes contracted vendors and county or tribal social services staff, the costs for county or tribal social services staff participation in the team shall be included in the rate for county or tribal social services provided services. In this case, the contracted vendor and the county or tribal social services may each receive separate payment for services provided by each entity in the same month. To prevent duplication of services, each entity must document, in the recipient's file, the need for team case management and a description of the roles and services of the team members.

Separate payment rates may be established for different groups of providers to maximize reimbursement as determined by the commissioner. The payment rate will be reviewed annually and revised periodically to be consistent with the most recent time study and other data. Payment for services will be made upon submission of a valid claim and verification of proper documentation described in subdivision 7. holder changes the license holder's primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person's choices during their annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

- (1) foster care settings that are required to be registered under chapter 144D;
- (2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or 514.11 community residential setting licenses replacing adult foster care licenses in existence on 514.12 December 31, 2013, and determined to be needed by the commissioner under paragraph 514.13 (b); 514.14

- (5) new foster care licenses or community residential setting licenses for people receiving 514.24 services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and 514.25 for which a license is required. This exception does not apply to people living in their own 514.26 home. For purposes of this clause, there is a presumption that a foster care or community 514.27 residential setting license is required for services provided to three or more people in a 514.28 dwelling unit when the setting is controlled by the provider. A license holder subject to this 514.29 exception may rebut the presumption that a license is required by seeking a reconsideration 514.30 of the commissioner's determination. 515.10	customized living setting before July 1, 2022, for which a license is required. A customized
515.11	living service provider subject to this exception may rebut the presumption that a license
515.12	is required by seeking a reconsideration of the commissioner's determination. The
515.13	commissioner's disposition of a request for reconsideration is final and not subject to appeal
515.14	under chapter 14. The exception is available until June 30, 2023. This exception is available
315.15	when:
515.16	(i) the person's customized living services are provided in a customized living service
515.17	setting serving four or fewer people under the brain injury or community access for disability
515.18	inclusion waiver plans under section 256B.49 in a single-family home operational on or

The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.

If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

- (h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings will be accomplished through a process

- (c) The MnCHOICES assessment provided by the commissioner to lead agencies must be used to complete a comprehensive, conversation-based, person-centered assessment. The assessment must include the health, psychological, functional, environmental, and social needs of the individual necessary to develop a person-centered community support plan that meets the individual's needs and preferences.
- (d) The assessment must be conducted by a certified assessor in a face-to-face conversational interview with the person being assessed. The person's legal representative must provide input during the assessment process and may do so remotely if requested. At the request of the person, other individuals may participate in the assessment to provide information on the needs, strengths, and preferences of the person necessary to develop a community support plan that ensures the person's health and safety. The provider must submit the report at least 60 days before the end of the person's current service agreement. The certified assessor must consider the content of the submitted report prior to finalizing the person's assessment or reassessment.
- (e) The certified assessor and the individual responsible for developing the coordinated service and support plan must complete the community support plan and the coordinated service and support plan no more than 60 calendar days from the assessment visit. The person or the person's legal representative must be provided with a written community

525.1	support plan within the timelines established by the commissioner, regardless of whether
525.2	the person is eligible for Minnesota health care programs.
525.3	(f) For a person being assessed for elderly waiver services under chapter 256S, a provider
525.4	who submitted information under paragraph (d) shall receive the final written community
525.5	support plan when available and the Residential Services Workbook.
525.6	(g) The written community support plan must include:
525.7	(1) a summary of assessed needs as defined in paragraphs (c) and (d);

525.15	(3) identification of health and safety risks and how those risks will be addressed,
525.16	including personal risk management strategies;
525.17	(4) referral information; and
525.18	(5) informal caregiver supports, if applicable.
525.19	For a person determined eligible for state plan home care under subdivision 1a, paragraph
525.20	(b), clause (1), the person or person's representative must also receive a copy of the home
525.21	care service plan developed by the certified assessor.
525.22	(h) A person may request assistance in identifying community supports without
525.23	participating in a complete assessment. Upon a request for assistance identifying community
525.24	support, the person must be transferred or referred to long-term care options counseling
525.25	services available under sections 256.975, subdivision 7, and 256.01, subdivision 24, for

For purposes of this clause, "cost-effective" means community services and 526.12 living arrangements that cost the same as or less than institutional care. For an individual 526.13 found to meet eligibility criteria for home and community-based service programs under 526.14 chapter 256S or section 256B.49, "cost-effectiveness" has the meaning found in the federally 526.15 approved waiver plan for each program; 526.16

To ensure service continuity for service recipients receiving home and community-based waivered services for persons with developmental disabilities prior to July 1, 1995, the commissioner shall make available to the county of financial responsibility home and community-based waivered services resources based upon fiscal year 1995 authorized levels.

(c) Home and community-based resources for all recipients shall be managed by the county of financial responsibility within an allowable reimbursement average established for each county. Payments for home and community-based services provided to individual recipients shall not exceed amounts authorized by the county of financial responsibility. For specifically identified former residents of nursing facilities, the commissioner shall be responsible for authorizing payments and payment limits under the appropriate home and community-based service program. Payment is available under this subdivision only for persons who, if not provided these services, would require the level of care provided in an intermediate care facility for persons with developmental disabilities.

(d) (b) The commissioner shall comply with the requirements in the federally approved transition plan for the home and community-based services waivers for the elderly authorized under this section.

and community-based alternative services under the federal waiver plan shall not exceed the cost of intermediate care services including day training and habilitation services that would have been provided without the waivered services.

The commissioner shall seek an amendment to the 1915c home and community-based waiver to allow properly licensed adult foster care homes to provide residential services to up to five individuals with developmental disabilities. If the amendment to the waiver is approved, adult foster care providers that can accommodate five individuals shall increase their capacity to five beds, provided the providers continue to meet all applicable licensing requirements.

- (b) The commissioner, in administering home and community-based waivers for persons with developmental disabilities, shall ensure that day services for eligible persons are not provided by the person's residential service provider, unless the person or the person's legal representative is offered a choice of providers and agrees in writing to provision of day services by the residential service provider. - (d) The commissioner shall seek federal approval to allow for the reconfiguration of the 1915(c) home and community-based waivers in this section, as authorized under section 1915(c) of the federal Social Security Act, to implement a two-waiver program structure.
- (e) The transition to two disability home and community-based services waiver programs must align with the independent living first policy under section 256B.4905. 531.13	not limited to, individuals who continue to have a need for waiver services after they have

- (1) the statewide average payment amount which the recipient is assigned under the waiver reimbursement system in place on June 30, 2001, modified by the percentage of any provider rate increase appropriated for home and community-based services; or

The increased reimbursement level must be necessary to allow the recipient to be discharged from an institution or to prevent imminent placement in an institution. The additional reimbursement may be used to secure environmental modifications; assistive technology and equipment; and increased costs for supervision, training, and support services necessary to address the recipient's extraordinary needs. The commissioner may approve an increased reimbursement level for up to one year of the recipient's relocation from an institution or up to six months of a determination that a current waiver recipient is at imminent risk of being placed in an institution.

The application for a five-bed license must meet the requirements of section 245A.11, subdivision 2a. Prior to admission of the fifth recipient of adult foster care services, the county must negotiate a revised per diem rate for room and board and waiver services that reflects the legislated rate reduction and results in an overall average per diem reduction for all foster care recipients in that home. The revised per diem must allow the provider to maintain, as much as possible, the level of services or enhanced services provided in the residence, while mitigating the losses of the legislated rate reduction.
- EFFECTIVE DATE. This section is effective January 1, 2023, or upon federal approval,
 whichever is later. The commissioner of human services shall notify the revisor of statutes

(e) For purposes of this subdivision, "operational" means customized living services are
authorized and delivered to a person on or before June 30, 2021, in the customized living
setting.

target is accurate. The commissioner shall periodically change the administrative measures used as performance targets in order to improve plan performance across a broader range of administrative services. The performance targets must include measurement of plan efforts to contain spending on health care services and administrative activities. The commissioner may adopt plan-specific performance targets that take into account factors affecting only one plan, including characteristics of the plan's enrollee population. The withheld funds must be returned no sooner than July of the following year if performance targets in the contract are achieved. The commissioner may exclude special demonstration projects under subdivision 23.

- (d) The commissioner shall require that managed care plans:
- (1) use the assessment and authorization processes, forms, timelines, standards, 558.11 documentation, and data reporting requirements, protocols, billing processes, and policies 558.12 consistent with medical assistance fee-for-service or the Department of Human Services 558.13 contract requirements for all personal care assistance services under section 256B.0659-; 558.14 and 558.15
 - (2) by January 30 of each year that follows a rate increase for any aspect of services under section 256B.0659 or 256B.85, inform the commissioner and the chairs and ranking minority members of the legislative committees with jurisdiction over rates determined under section 256B.851 of the amount of the rate increase that is paid to each personal care assistance provider agency with which the plan has a contract.
- (e) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the health 558.22 plan's emergency department utilization rate for medical assistance and MinnesotaCare 558.23 enrollees, as determined by the commissioner. For 2012, the reduction shall be based on 558.24 the health plan's utilization in 2009. To earn the return of the withhold each subsequent 558.25 year, the managed care plan or county-based purchasing plan must achieve a qualifying 558.26 reduction of no less than ten percent of the plan's emergency department utilization rate for 558.27 medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described 558.28 in subdivisions 23 and 28, compared to the previous measurement year until the final 558.29 performance target is reached. When measuring performance, the commissioner must consider the difference in health risk in a managed care or county-based purchasing plan's 558.31 membership in the baseline year compared to the measurement year, and work with the 558.32 managed care or county-based purchasing plan to account for differences that they agree 558.33 are significant. 558.34

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a reduction in the utilization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue for each consecutive contract period until the plan's emergency room utilization rate for state health care program enrollees is reduced by 25 percent of the plan's emergency room utilization rate for medical assistance and MinnesotaCare enrollees for calendar year 2009. Hospitals shall cooperate with the health plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

(f) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than five percent of the plan's hospital admission rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, compared to the previous calendar year until the final performance target is reached. When measuring performance, the commissioner must consider the difference in health risk in a managed care or county-based purchasing plan's membership in the baseline year compared to the measurement year, and work with the managed care or county-based purchasing plan to account for differences that they agree are significant.

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that this reduction in the hospitalization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue until there is a 25 percent reduction in the hospital admission rate compared to the hospital admission rates in calendar year 2011, as determined by the commissioner. The hospital admissions in this performance target do not include the admissions applicable to the subsequent hospital admission performance target under paragraph (g). Hospitals shall cooperate with the plans in meeting

(g) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the plan's hospitalization admission rates for subsequent hospitalizations within 30 days of a previous hospitalization of a patient regardless of the reason, for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of the subsequent hospitalization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, of no less than five percent compared to the previous calendar year until the final performance target is reached.

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a qualifying reduction in the subsequent hospitalization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph must continue for each consecutive contract period until the plan's subsequent hospitalization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, is reduced by 25 percent of the plan's subsequent hospitalization rate for calendar year 2011. Hospitals shall cooperate with the plans in meeting this performance target and shall accept payment withholds that must be returned to the hospitals if the performance target is achieved.

- (h) Effective for services rendered on or after January 1, 2013, through December 31, 2013, the commissioner shall withhold 4.5 percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program. The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following year. The commissioner may exclude special demonstration projects under subdivision 23.
- (i) Effective for services rendered on or after January 1, 2014, the commissioner shall withhold three percent of managed care plan payments under this section and county-based purchasing plan payments under section 256B.692 for the prepaid medical assistance program. 566.24	whichever is later. The commissioner of human services must notify the revisor of statutes
566.25	when federal approval is obtained.
566.26	Sec. 30. [256B.851] COMMUNITY FIRST SERVICES AND SUPPORTS; PAYMENT
566.27	RATES.
566.28	Subdivision 1. Application. (a) The payment methodologies in this section apply to:
566.29	(1) community first services and supports (CFSS), extended CFSS, and enhanced rate
566.30	CFSS under section 256B.85; and
566.31	(2) personal care assistance services under section 256B.0625, subdivisions 19a and
566.32	19c; extended personal care assistance service as defined in section 256B.0659, subdivision

567.1	1; and enhanced rate personal care assistance services under section 256B.0659, subdivision
567.2	<u>17a.</u>
567.3	(b) This section does not change existing personal care assistance program or community
567.4	first services and supports policies and procedures.
567.5	Subd. 2. Definitions. (a) For purposes of this section, the following terms have the
567.6	meanings given in section 256B.85, subdivision 2, and as follows.
567.7	(b) "Commissioner" means the commissioner of human services.
567.8	(c) "Component value" means an underlying factor that is built into the rate methodology
567.9	to calculate service rates and is part of the cost of providing services.
567.10	(d) "Payment rate" or "rate" means reimbursement to an eligible provider for services
567.11	provided to a qualified individual based on an approved service authorization.
567.12	Subd. 3. Payment rates; base wage index. When initially establishing the base wage
567.13	component values, the commissioner must use the Minnesota-specific median wage for the
567.14	standard occupational classification (SOC) codes published by the Bureau of Labor Statistics
567.15	in the edition of the Occupational Handbook available January 1, 2021. The commissioner
567.16	must calculate the base wage component values as follows for:
567.17	(1) personal care assistance services, CFSS, extended personal care assistance services,
567.18	and extended CFSS. The base wage component value equals the median wage for personal
567.19	care aide (SOC code 31-1120);
567.20	(2) enhanced rate personal care assistance services and enhanced rate CFSS. The base
567.21	wage component value equals the product of median wage for personal care aide (SOC
567.22	code 31-1120) and the value of the enhanced rate under section 256B.0659, subdivision
567.23	<u>17a; and</u>
567.24	(3) qualified professional services and CFSS worker training and development. The base
567.25	wage component value equals the sum of 70 percent of the median wage for registered nurse
567.26	(SOC code 29-1141), 15 percent of the median wage for health care social worker (SOC
567.27	code 21-1099), and 15 percent of the median wage for social and human service assistant
567.28	(SOC code 21-1093).
567.29	Subd. 4. Payment rates; total wage index. (a) The commissioner must multiply the
567.30	base wage component values in subdivision 3 by one plus the appropriate competitive
567 31	workforce factor. The product is the total wage component value.

568.1	(b) For personal care assistance services, CFSS, extended personal care assistance
568.2	services, extended CFSS, enhanced rate personal care assistance services, and enhanced
568.3	rate CFSS, the initial competitive workforce factor is 4.7 percent.
568.4	(c) For qualified professional services and CFSS worker training and development, the
568.5	competitive workforce factor is zero percent.
568.6	(d) On August 1, 2024, and every two years thereafter, the commissioner shall report
568.7	recommendations to the chairs and ranking minority members of the legislative committees
568.8	and divisions with jurisdiction over health and human services policy and finance an update
568.9	of the competitive workforce factors in this subdivision using the most recently available
568.10	data. The commissioner shall make adjustments to the competitive workforce factor toward
568.11	the percent difference between: (1) the median wage for personal care aide (SOC code
568.12	31-1120); and (2) the weighted average wage for all other SOC codes with the same Bureau
568.13	of Labor Statistics classifications for education, experience, and training required for job
568.14	competency.
568.15	(e) The commissioner shall recommend an increase or decrease of the competitive
568.16	workforce factor from its previous value by no more than three percentage points. If, after
568.17	a biennial adjustment, the competitive workforce factor is less than or equal to zero, the
568.18	competitive workforce factor shall be zero.
568.19	Subd. 5. Payment rates; component values. (a) The commissioner must use the
568.20	following component values:
568.21	(1) employee vacation, sick, and training factor, 8.71 percent;
568.22	(2) employer taxes and workers' compensation factor, 11.56 percent;
568.23	(3) employee benefits factor, 12.04 percent;
568.24	(4) client programming and supports factor, 2.30 percent;
568.25	(5) program plan support factor, 7.00 percent;
568.26	(6) general business and administrative expenses factor, 13.25 percent;
568.27	(7) program administration expenses factor, 2.90 percent; and
568.28	(8) absence and utilization factor, 3.90 percent.
568.29	(b) For purposes of implementation, the commissioner shall use the following
568.30	implementation components:
568.31	(1) personal care assistance services and CFSS: 75.45 percent;

569.1	(2) enhanced rate personal care assistance services and enhanced rate CFSS: 75.45
569.2	percent; and
569.3	(3) qualified professional services and CFSS worker training and development: 75.45
569.4	percent.
569.5	Subd. 6. Payment rates; rate determination. (a) The commissioner must determine
569.6	the rate for personal care assistance services, CFSS, extended personal care assistance
569.7	services, extended CFSS, enhanced rate personal care assistance services, enhanced rate
569.8	CFSS, qualified professional services, and CFSS worker training and development as
569.9	follows:
569.10	(1) multiply the appropriate total wage component value calculated in subdivision 4 by
569.11	one plus the employee vacation, sick, and training factor in subdivision 5;
569.12	(2) for program plan support, multiply the result of clause (1) by one plus the program
569.13	plan support factor in subdivision 5;
569.14	(3) for employee-related expenses, add the employer taxes and workers' compensation
569.15	factor in subdivision 5 and the employee benefits factor in subdivision 5. The sum is
569.16	employee-related expenses. Multiply the product of clause (2) by one plus the value for
569.17	employee-related expenses;
569.18	(4) for client programming and supports, multiply the product of clause (3) by one plus
569.19	the client programming and supports factor in subdivision 5;
569.20	(5) for administrative expenses, add the general business and administrative expenses
569.21	factor in subdivision 5, the program administration expenses factor in subdivision 5, and
569.22	the absence and utilization factor in subdivision 5;
569.23	(6) divide the result of clause (4) by one minus the result of clause (5). The quotient is
569.24	the hourly rate;
569.25	(7) multiply the hourly rate by the appropriate implementation component under
569.26	subdivision 5. This is the adjusted hourly rate; and
569.27	(8) divide the adjusted hourly rate by four. The quotient is the total adjusted payment
569.28	rate.
569.29	(b) The commissioner must publish the total adjusted payment rates.
569.30	Subd. 7. Personal care provider agency; required reporting and analysis of cost
569.31	data. (a) The commissioner shall evaluate on an ongoing basis whether the base wage
569.32	component values and component values in this section appropriately address the cost to

570.1	provide the service. The commissioner shall make recommendations to adjust the rate
570.2	methodology as indicated by the evaluation. As determined by the commissioner and in
570.3	consultation with stakeholders, agencies enrolled to provide services with rates determined
570.4	under this section must submit requested cost data to the commissioner. The commissioner
570.5	may request cost data, including but not limited to:
570.6	(1) worker wage costs;
570.7	(2) benefits paid;
570.8	(3) supervisor wage costs;
570.9	(4) executive wage costs;
570.10	(5) vacation, sick, and training time paid;
570.11	(6) taxes, workers' compensation, and unemployment insurance costs paid;
570.12	(7) administrative costs paid;
570.13	(8) program costs paid;
570.14	(9) transportation costs paid;
570.15	(10) staff vacancy rates; and
570.16	(11) other data relating to costs required to provide services requested by the
570.17	commissioner.
570.18	(b) At least once in any three-year period, a provider must submit the required cost data
570.19	for a fiscal year that ended not more than 18 months prior to the submission date. The
570.20	commissioner must provide each provider a 90-day notice prior to its submission due date.
570.21	If a provider fails to submit required cost data, the commissioner must provide notice to a
570.22	provider that has not provided required cost data 30 days after the required submission date
570.23	and a second notice to a provider that has not provided required cost data 60 days after the
570.24	required submission date. The commissioner must temporarily suspend payments to a
570.25	provider if the commissioner has not received required cost data 90 days after the required
570.26	submission date. The commissioner must make withheld payments when the required cost
570.27	data is received by the commissioner.
570.28	(c) The commissioner must conduct a random validation of data submitted under this
570.29	subdivision to ensure data accuracy. The commissioner shall analyze cost documentation
570.30	in paragraph (a) and provide recommendations for adjustments to cost components.

571.1	(d) The commissioner shall analyze cost documentation in paragraph (a) and may submit
571.2	recommendations on component values, updated base wage component values, and
571.3	competitive workforce factors to the chair and ranking minority members of the legislative
571.4	committees and divisions with jurisdiction over human services policy and finance every
571.5	two years beginning August 1, 2026. The commissioner shall release cost data in an aggregate
571.6	form, and cost data from individual providers shall not be released except as provided for
571.7	in current law.
571.8	(e) The commissioner, in consultation with stakeholders, must develop and implement
571.9	a process for providing training and technical assistance necessary to support provider
571.10	submission of cost data required under this subdivision.
571.11	Subd. 8. Payment rates; reports required. (a) The commissioner must assess the
571.12	standard component values and publish evaluation findings and recommended changes to
571.13	the rate methodology in a report to the legislature by August 1, 2026.
571.14	(b) The commissioner must assess the long-term impacts of the rate methodology
571.15	implementation on staff providing services with rates determined under this section, including
571.16	but not limited to measuring changes in wages, benefits provided, hours worked, and
571.17	retention. The commissioner must publish evaluation findings in a report to the legislature
571.18	by August 1, 2028, and once every two years thereafter.
571.19	Subd. 9. Self-directed services workforce. Nothing in this section limits the
571.20	commissioner's authority over terms and conditions for individual providers in covered
571.21	programs as defined in section 256B.0711. The commissioner's authority over terms and
571.22	conditions for individual providers in covered programs remains subject to the state's
571.23	obligations to meet and negotiate under chapter 179A, as modified and made applicable to
571.24	individual providers under section 179A.54, and to agreements with any exclusive
571.25	representative of individual providers, as authorized by chapter 179A, as modified and made
571.26	applicable to individual providers under section 179A.54. A change in the rate for services
571.27	within the covered programs defined in section 256B.0711 does not constitute a change in
571.28	a term or condition for individual providers in covered programs and is not subject to the
571.29	state's obligation to meet and negotiate under chapter 179A, except that, notwithstanding
571.30	any other law to the contrary, the state shall meet and negotiate with the exclusive
571.31	representative of individual providers over wage and benefit increases made possible by
571.32	rate increases provided between January 1, 2023 and June 30, 2023. Any resulting tentative
571.33	agreement shall be submitted to the legislature to be accepted or rejected in accordance with
571.34	sections 3.855 and 179A.22.

Subd. 1a. Supplementary service rates. (a) Subject to the provisions of section 256I.04, subdivision 3, the county agency may negotiate a payment not to exceed \$426.37 for other services necessary to provide room and board if the residence is licensed by or registered by the Department of Health, or licensed by the Department of Human Services to provide services in addition to room and board, and if the provider of services is not also concurrently receiving funding for services for a recipient under a home and community-based waiver under title XIX of the federal Social Security Act; or funding from the medical assistance program under section 256B.0659, for personal care services for residents in the setting; or residing in a setting which receives funding under section 245.73. If funding is available for other necessary services through a home and community-based waiver, or personal care services under section 256B.0659, then the housing support rate is limited to the rate set in subdivision 1. Unless otherwise provided in law, in no case may the supplementary service rate exceed \$426.37. The registration and licensure requirement does not apply to establishments which are exempt from state licensure because they are located on Indian reservations and for which the tribe has prescribed health and safety requirements. Service payments under this section may be prohibited under rules to prevent the supplanting of federal funds with state funds. The commissioner shall pursue the feasibility of obtaining the approval of the Secretary of Health and Human Services to provide home and community-based waiver services under title XIX of the federal Social Security Act for residents who are not eligible for an existing home and community-based waiver due to a primary diagnosis of mental illness or chemical dependency and shall apply for a waiver if it is determined to be cost-effective.

(b) The commissioner is authorized to make cost-neutral transfers from the housing support fund for beds under this section to other funding programs administered by the department after consultation with the <u>eounty or counties agency</u> in which the affected beds are located. The commissioner may also make cost-neutral transfers from the housing support fund to <u>eounty human service</u> agencies for beds permanently removed from the housing support census under a plan submitted by the <u>eounty</u> agency and approved by the commissioner. The commissioner shall report the amount of any transfers under this provision annually to the legislature.

- (d) The commissioner shall require that managed care plans use the assessment and authorization processes, forms, timelines, standards, documentation, and data reporting requirements, protocols, billing processes, and policies consistent with medical assistance fee-for-service or the Department of Human Services contract requirements for all personal care assistance services under section 256B.0659 and community first services and supports under section 256B.85.
- (e) Effective for services rendered on or after January 1, 2012, the commissioner shall include as part of the performance targets described in paragraph (c) a reduction in the health plan's emergency department utilization rate for medical assistance and MinnesotaCare enrollees, as determined by the commissioner. For 2012, the reduction shall be based on the health plan's utilization in 2009. To earn the return of the withhold each subsequent year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than ten percent of the plan's emergency department utilization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, compared to the previous measurement year until the final performance target is reached. When measuring performance, the commissioner must consider the difference in health risk in a managed care or county-based purchasing plan's membership in the baseline year compared to the measurement year, and work with the managed care or county-based purchasing plan to account for differences that they agree are significant.

The withheld funds must be returned no sooner than July 1 and no later than July 31 of the following calendar year if the managed care plan or county-based purchasing plan demonstrates to the satisfaction of the commissioner that a reduction in the utilization rate was achieved. The commissioner shall structure the withhold so that the commissioner returns a portion of the withheld funds in amounts commensurate with achieved reductions in utilization less than the targeted amount.

The withhold described in this paragraph shall continue for each consecutive contract period until the plan's emergency room utilization rate for state health care program enrollees is reduced by 25 percent of the plan's emergency room utilization rate for medical assistance and MinnesotaCare enrollees for calendar year 2009. Hospitals shall cooperate with the health plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of no less than five percent of the plan's hospital admission rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, compared to the previous calendar year until the final performance target is reached. The withhold described in this paragraph shall continue until there is a 25 percent reduction in the hospital admission rate compared to the hospital admission rates in calendar year 2011, as determined by the commissioner. The hospital admissions in this performance target do not include the admissions applicable to the subsequent hospital admission performance target under paragraph (g). Hospitals shall cooperate with the plans in meeting this performance target and shall accept payment withholds that may be returned to the hospitals if the performance target is achieved.

To earn the return of the withhold each year, the managed care plan or county-based purchasing plan must achieve a qualifying reduction of the subsequent hospitalization rate for medical assistance and MinnesotaCare enrollees, excluding enrollees in programs described in subdivisions 23 and 28, of no less than five percent compared to the previous calendar year until the final performance target is reached.

684.30	mental health professional responsible for each case and the dates that the mental health
684.31	professional is responsible for the client's case from beginning date to end date. The
684 32	certification holder must assign each client's case for assessment diagnosis and treatment

685.1	services to a treatment team member who is competent in the assigned clinical service, the
685.2	recommended treatment strategy, and in treating the client's characteristics.
685.3	(b) Treatment supervision of mental health practitioners and clinical trainees required
685.4	by section 245I.06 must include case reviews as described in this paragraph. Every two
685.5	months, a mental health professional must complete a case review of each client assigned
685.6	to the mental health professional when the client is receiving clinical services from a mental
685.7	health practitioner or clinical trainee. The case review must include a consultation process
685.8	that thoroughly examines the client's condition and treatment, including: (1) a review of the
685.9	client's reason for seeking treatment, diagnoses and assessments, and the individual treatment
685.10	plan; (2) a review of the appropriateness, duration, and outcome of treatment provided to
685.11	the client; and (3) treatment recommendations.
685.12	Subd. 6. Additional policy and procedure requirements. (a) In addition to the policies
685.13	and procedures required by section 245I.03, the certification holder must establish, enforce,
685.14	and maintain the policies and procedures required by this subdivision.
685.15	(b) The certification holder must have a clinical evaluation procedure to identify and
685.16	document each treatment team member's areas of competence.
685.17	(c) The certification holder must have policies and procedures for client intake and case
685.18	assignment that:
685.19	(1) outline the client intake process;
685.20	(2) describe how the mental health clinic determines the appropriateness of accepting a
685.21	client into treatment by reviewing the client's condition and need for treatment, the clinical
685.22	services that the mental health clinic offers to clients, and other available resources; and
685.23	(3) contain a process for assigning a client's case to a mental health professional who is
685.24	responsible for the client's case and other treatment team members.
685.25	Subd. 7. Referrals. If necessary treatment for a client or treatment desired by a client
685.26	is not available at the mental health clinic, the certification holder must facilitate appropriate
685.27	referrals for the client. When making a referral for a client, the treatment team member must
685.28	document a discussion with the client that includes: (1) the reason for the client's referral;
685.29	(2) potential treatment resources for the client; and (3) the client's response to receiving a
685.30	referral.
685.31	Subd. 8. Emergency service. For the certification holder's telephone numbers that clients

685.32 regularly access, the certification holder must include the contact information for the area's

686.1	mental health crisis services as part of the certification holder's message when a live operator
686.2	is not available to answer clients' calls.
686.3	Subd. 9. Quality assurance and improvement plan. (a) At a minimum, a certification
686.4	holder must develop a written quality assurance and improvement plan that includes a plan
686.5	<u>for:</u>
686.6	(1) encouraging ongoing consultation among members of the treatment team;
686.7	(2) obtaining and evaluating feedback about services from clients, family and other
686.8	natural supports, referral sources, and staff persons;
686.9	(3) measuring and evaluating client outcomes;
686.10	(4) reviewing client suicide deaths and suicide attempts;
686.11	(5) examining the quality of clinical service delivery to clients; and
686.12	(6) self-monitoring of compliance with this chapter.
686.13	(b) At least annually, the certification holder must review, evaluate, and update the
686.14	quality assurance and improvement plan. The review must: (1) include documentation of
686.15	the actions that the certification holder will take as a result of information obtained from
686.16	monitoring activities in the plan; and (2) establish goals for improved service delivery to
686.17	clients for the next year.
686.18	Subd. 10. Application procedures. (a) The applicant for certification must submit any
686.19	documents that the commissioner requires on forms approved by the commissioner.
686.20	(b) Upon submitting an application for certification, an applicant must pay the application
686.21	fee required by section 245A.10, subdivision 3.
686.22	(c) The commissioner must act on an application within 90 working days of receiving
686.23	a completed application.
686.24	(d) When the commissioner receives an application for initial certification that is
686.25	incomplete because the applicant failed to submit required documents or is deficient because
686.26	the submitted documents do not meet certification requirements, the commissioner must
686.27	provide the applicant with written notice that the application is incomplete or deficient. In
686.28	the notice, the commissioner must identify the particular documents that are missing or
686.29	deficient and give the applicant 45 days to submit a second application that is complete. An
686.30	applicant's failure to submit a complete application within 45 days after receiving notice
686.31	from the commissioner is a basis for certification denial.

687.1	(e) The commissioner must give notice of a denial to an applicant when the commissioner
687.2	has made the decision to deny the certification application. In the notice of denial, the
687.3	commissioner must state the reasons for the denial in plain language. The commissioner
687.4	must send or deliver the notice of denial to an applicant by certified mail or personal service.
687.5	In the notice of denial, the commissioner must state the reasons that the commissioner denied
687.6	the application and must inform the applicant of the applicant's right to request a contested
687.7	case hearing under chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The
687.8	applicant may appeal the denial by notifying the commissioner in writing by certified mail
687.9	or personal service. If mailed, the appeal must be postmarked and sent to the commissioner
687.10	within 20 calendar days after the applicant received the notice of denial. If an applicant
687.11	delivers an appeal by personal service, the commissioner must receive the appeal within 20
687.12	calendar days after the applicant received the notice of denial.
687.13	Subd. 11. Commissioner's right of access. (a) When the commissioner is exercising
687.14	the powers conferred to the commissioner by this chapter, if the mental health clinic is in
687.15	operation and the information is relevant to the commissioner's inspection or investigation,
687.16	the certification holder must provide the commissioner access to:
687.17	(1) the physical facility and grounds where the program is located;
687.18	(2) documentation and records, including electronically maintained records;
687.19	(3) clients served by the mental health clinic;
687.20	(4) staff persons of the mental health clinic; and
687.21	(5) personnel records of current and former staff of the mental health clinic.
687.22	(b) The certification holder must provide the commissioner with access to the facility
687.23	and grounds, documentation and records, clients, and staff without prior notice and as often
687.24	as the commissioner considers necessary if the commissioner is investigating alleged
687.25	maltreatment or a violation of a law or rule, or conducting an inspection. When conducting
687.26	an inspection, the commissioner may request and must receive assistance from other state,
687.27	county, and municipal governmental agencies and departments. The applicant or certification
687.28	holder must allow the commissioner, at the commissioner's expense, to photocopy,
687.29	photograph, and make audio and video recordings during an inspection.
687.30	Subd. 12. Monitoring and inspections. (a) The commissioner may conduct a certification
687.31	review of the certified mental health clinic every two years to determine the certification
687.32	holder's compliance with applicable rules and statutes.

688.1	(b) The commissioner must offer the certification holder a choice of dates for an
688.2	announced certification review. A certification review must occur during the clinic's normal
688.3	working hours.
688.4	(c) The commissioner must make the results of certification reviews and investigations
688.5	publicly available on the department's website.
688.6	Subd. 13. Correction orders. (a) If the applicant or certification holder fails to comply
688.7	with a law or rule, the commissioner may issue a correction order. The correction order
688.8	must state:
688.9	(1) the condition that constitutes a violation of the law or rule;
688.10	(2) the specific law or rule that the applicant or certification holder has violated; and
688.11	(3) the time that the applicant or certification holder is allowed to correct each violation.
688.12	(b) If the applicant or certification holder believes that the commissioner's correction
688.13	order is erroneous, the applicant or certification holder may ask the commissioner to
688.14	reconsider the part of the correction order that is allegedly erroneous. An applicant or
688.15	certification holder must make a request for reconsideration in writing. The request must
688.16	be postmarked and sent to the commissioner within 20 calendar days after the applicant or
688.17	certification holder received the correction order; and the request must:
688.18	(1) specify the part of the correction order that is allegedly erroneous;
688.19	(2) explain why the specified part is erroneous; and
688.20	(3) include documentation to support the allegation of error.
688.21	(c) A request for reconsideration does not stay any provision or requirement of the
688.22	correction order. The commissioner's disposition of a request for reconsideration is final
688.23	and not subject to appeal.
688.24	(d) If the commissioner finds that the applicant or certification holder failed to correct
688.25	the violation specified in the correction order, the commissioner may decertify the certified
688.26	mental health clinic according to subdivision 14.
688.27	(e) Nothing in this subdivision prohibits the commissioner from decertifying a mental
688.28	health clinic according to subdivision 14.
688.29	Subd. 14. Decertification. (a) The commissioner may decertify a mental health clinic
688.30	if a certification holder:
688.31	(1) failed to comply with an applicable law or rule; or

(2) knowingly withheld relevant information from or gave false or misleading information

589.2	to the commissioner in connection with an application for certification, during an
589.3	investigation, or regarding compliance with applicable laws or rules.
689.4	(b) When considering decertification of a mental health clinic, the commissioner must
589.5	consider the nature, chronicity, or severity of the violation of law or rule and the effect of
589.6	the violation on the health, safety, or rights of clients.
589.7	(c) If the commissioner decertifies a mental health clinic, the order of decertification
589.8	must inform the certification holder of the right to have a contested case hearing under
589.9	chapter 14 and Minnesota Rules, parts 1400.8505 to 1400.8612. The certification holder
589.10	may appeal the decertification. The certification holder must appeal a decertification in
589.11	writing and send or deliver the appeal to the commissioner by certified mail or personal
589.12	service. If the certification holder mails the appeal, the appeal must be postmarked and sen
589.13	to the commissioner within ten calendar days after the certification holder receives the order
589.14	of decertification. If the certification holder delivers an appeal by personal service, the
689.15	commissioner must receive the appeal within ten calendar days after the certification holder
689.16	received the order. If a certification holder submits a timely appeal of an order of
589.17	decertification, the certification holder may continue to operate the program until the
589.18	commissioner issues a final order on the decertification.
589.19	(d) If the commissioner decertifies a mental health clinic pursuant to paragraph (a),
589.20	clause (1), based on a determination that the mental health clinic was responsible for
589.21	maltreatment, and if the certification holder appeals the decertification according to paragraph
689.22	(c), and appeals the maltreatment determination under section 260E.33, the final
589.23	decertification determination is stayed until the commissioner issues a final decision regarding
589.24	the maltreatment appeal.
589.25	Subd. 15. Transfer prohibited. A certification issued under this section is only valid
589.26	for the premises and the individual, organization, or government entity identified by the
689.27	commissioner on the certification. A certification is not transferable or assignable.
589.28	Subd. 16. Notifications required and noncompliance. (a) A certification holder must
589.29	notify the commissioner, in a manner prescribed by the commissioner, and obtain the
589.30	commissioner's approval before making any change to the name of the certification holder
589.31	or the location of the mental health clinic.
589.32	(b) Changes in mental health clinic organization, staffing, treatment, or quality assurance
589.33	procedures that affect the ability of the certification holder to comply with the minimum
589.34	standards of this section must be reported in writing by the certification holder to the

690.1	commissioner within 15 days of the occurrence. Review of the change must be conducted
690.2	by the commissioner. A certification holder with changes resulting in noncompliance in
690.3	minimum standards must receive written notice and may have up to 180 days to correct the
690.4	areas of noncompliance before being decertified. Interim procedures to resolve the
690.5	noncompliance on a temporary basis must be developed and submitted in writing to the
690.6	commissioner for approval within 30 days of the commissioner's determination of the
690.7	noncompliance. Not reporting an occurrence of a change that results in noncompliance
690.8	within 15 days, failure to develop an approved interim procedure within 30 days of the
690.9	determination of the noncompliance, or nonresolution of the noncompliance within 180
690.10	days will result in immediate decertification.
690.11	(c) The mental health clinic may be required to submit written information to the
690.12	department to document that the mental health clinic has maintained compliance with this
690.13	section and mental health clinic procedures.

694.19	(3) housing and legal issues.
694.20	(b) Within 24 hours of a client's admission, the license holder must complete a crisis

mental health professional or mental health practitioner staff giving direction must begin
with the goals on the individualized individual treatment plan, and instruct the mental health
behavioral aide on how to implement therapeutic activities and interventions that will lead
to goal attainment. The professional or practitioner staff giving direction must also instruct
the mental health behavioral aide about the client's diagnosis, functional status, and other
characteristics that are likely to affect service delivery. Direction must also include
determining that the mental health behavioral aide has the skills to interact with the client
and the client's family in ways that convey personal and cultural respect and that the aide
actively solicits information relevant to treatment from the family. The aide must be able
to clearly explain or demonstrate the activities the aide is doing with the client and the
activities' relationship to treatment goals. Direction is more didactic than is supervision and
requires the professional or practitioner staff providing it to continuously evaluate the mental
health behavioral aide's ability to carry out the activities of the individualized individual
treatment plan and the individualized individual behavior plan. When providing direction,

- (6) providing service delivery that implements the individual treatment plan and meets the requirements under subdivision 9; and
- (7) individual treatment plan review. The review must determine the extent to which the services have met each of the goals and objectives in the treatment plan. The review

815.1	must assess the client's progress and ensure that services and treatment goals continue to
815.2	be necessary and appropriate to the client and the client's family or foster family. Revision
815.3	of the individual treatment plan does not require a new diagnostic assessment unless the
815.4	client's mental health status has changed markedly. The updated treatment plan must be
815.5	signed by the clinical supervisor and by the client, if appropriate, and by the client's parent
815.6	or other person authorized by statute to give consent to the mental health services for the
815.7	child.

Day treatment programs are not part of inpatient or residential treatment services. When a day treatment group that meets the minimum group size requirement temporarily falls below the minimum group size because of a member's temporary absence, medical assistance covers a group session conducted for the group members in attendance. A day treatment program may provide fewer than the minimally required hours for a particular child during a billing period in which the child is transitioning into, or out of, the program.

- (b) To be eligible for medical assistance payment, a provider entity must deliver the service components of children's therapeutic services and supports in compliance with the following requirements:

The notice of resident classification must be sent by first-class mail. The individual resident notices may be sent to the resident's nursing home or boarding care home for distribution to the resident. The nursing home or boarding care home is responsible for the distribution of the notice to each resident, to the person responsible for the payment of the resident's nursing home expenses, or to another person designated by the resident. This notice must be distributed within three working days after the facility's receipt of the notices from the department.
- Subd. 2a. **Semiannual assessment by nursing facilities.** Notwithstanding Minnesota Rules, part 9549.0059, subpart 2, item B, the individual dependencies items 21 to 24 and 28 are required to be completed in accordance with the Facility Manual for Completing Case Mix Requests for Classification, July 1987, issued by the Minnesota Department of Health.

- Subd. 3a. Access to information. Upon written request, the nursing home or boarding care home must give the resident or the resident's representative a copy of the assessment form and the other documentation that was given to the department to support the assessment findings. A copy of any requested material must be provided within three working days of receipt of a written request for the information. If a facility fails to provide the material within this time, it is subject to the issuance of a correction order and penalty assessment under sections 144.653 and 144A.10. Notwithstanding those sections, any correction order issued under this subdivision must require that the facility immediately comply with the request for information and that as of the date of the issuance of the correction order, the facility shall forfeit to the state a \$100 fine the first day of noncompliance, and an increase in the \$100 fine by \$50 increments for each day the noncompliance continues. For the purposes of this section, "representative" includes the resident's guardian or conservator, the person authorized to pay the nursing home expenses of the resident, a representative of the nursing home ombudsman's office whose assistance has been requested, or any other individual designated by the resident.

This notice must tell the resident or the resident's representative that a reconsideration of the resident's classification is being requested, the reason for the request, that the resident's rate will change if the request is approved by the department and the extent of the change, that copies of the facility's request and supporting documentation are available for review, and that the resident also has the right to request a reconsideration. If the facility fails to provide this information with the reconsideration request, the request must be denied, and the facility may not make further reconsideration requests on that specific reimbursement classification.
- Subd. 4. **Reconsideration.** The commissioner's reconsideration must be made by individuals not involved in reviewing the assessment that established the disputed classification. The reconsideration must be based upon the initial assessment and upon the information provided to the commissioner under subdivision 3. If necessary for evaluating the reconsideration request, the commissioner may conduct on-site reviews. In its discretion, the commissioner may review the

reimbursement classifications assigned to all residents in the facility. Within 15 working days of receiving the request for reconsideration, the commissioner shall affirm or modify the original resident classification. The original classification must be modified if the commissioner determines that the assessment resulting in the classification did not accurately reflect the needs of the resident at the time of the assessment. The resident and the nursing home or boarding care home shall be notified within five working days after the decision is made. The commissioner's decision under this subdivision is the final administrative decision of the agency.

Subd. 5. **Audit authority.** The Department of Health may audit assessments of nursing home and boarding care home residents. The plan must state the actions the agency will take to correct their overspending for the two years following the period when the overspending occurred. The commissioner shall recoup spending in excess of the allocation only in cases where statewide spending exceeds the appropriation designated for the home and community-based services waivers. Nothing in this subdivision shall be construed as reducing the county's responsibility to offer and make available feasible home and community-based options to eligible waiver recipients within the resources allocated to them for that purpose.
- Subd. 12. Use of waiver allocations. County and tribal agencies are responsible for spending the annual allocation made by the commissioner. In the event a county or tribal agency spends less than 97 percent of the allocation, while maintaining a list of persons waiting for waiver services, the county or tribal agency must submit a corrective action plan to the commissioner for approval. The commissioner may determine a plan is unnecessary given the size of the allocation and capacity for new enrollment. The plan must state the actions the agency will take to assure reasonable and timely access to home and community-based waiver services for persons waiting for services. If a county or tribe does not submit a plan when required or implement the changes required, the commissioner shall assure access to waiver services within the county's or tribe's available allocation and take other actions needed to assure that all waiver participants in that county or tribe are receiving appropriate waiver services to meet their needs.

- (e) "Mental health crisis stabilization services" means individualized mental health services provided to a recipient following crisis intervention services that are designed to restore the recipient to the recipient's prior functional level. The individual treatment plan recommending mental health crisis stabilization must be completed by the intervention team or by staff after an inpatient or urgent care visit. Mental health crisis stabilization services may be provided in the recipient's home, the home of a family member or friend of the recipient, schools, another community setting, or a short-term supervised, licensed residential program if the service is not included in the facility's cost pool or per diem. Mental health crisis stabilization is not reimbursable when provided as part of a partial hospitalization or day treatment program.
- Subd. 2. **Medical assistance coverage.** Medical assistance covers medically necessary children's mental health crisis response services, subject to federal approval, if provided to an eligible recipient under subdivision 3, by a qualified provider entity under subdivision 4 or a qualified individual provider working within the provider's scope of practice, and identified in the recipient's individual crisis treatment plan under subdivision 8.
 - Subd. 3. Eligibility. An eligible recipient is an individual who:
 - (1) is eligible for medical assistance;

- (3) a provider entity that is under contract with the county board in the county where the potential crisis or emergency is occurring.
 - (b) The children's mental health crisis response services provider entity must:

- (4) develop and maintain written policies and procedures regarding service provision that include safety of staff and recipients in high-risk situations.
- Subd. 4a. **Alternative provider standards.** If a provider entity demonstrates that, due to geographic or other barriers, it is not feasible to provide mobile crisis intervention services 24 hours a day, seven days a week, according to the standards in subdivision 4, paragraph (b), clause (1), the commissioner may approve a crisis response provider based on an alternative plan proposed by a provider entity. The alternative plan must:
- (1) result in increased access and a reduction in disparities in the availability of crisis services; and
- (2) provide mobile services outside of the usual nine-to-five office hours and on weekends and holidays.
- Subd. 5. **Mobile crisis intervention staff qualifications.** (a) To provide children's mental health mobile crisis intervention services, a mobile crisis intervention team must include:

Team members must be experienced in mental health assessment, crisis intervention techniques, and clinical decision making under emergency conditions and have knowledge of local services and resources. The team must recommend and coordinate the team's services with appropriate local resources, including the county social services agency, mental health service providers, and local law enforcement, if necessary.
- Subd. 6. **Initial screening and crisis assessment planning.** (a) Before initiating mobile crisis intervention services, a screening of the potential crisis situation must be conducted. The screening may use the resources of crisis assistance and emergency services as defined in sections 245.4871, subdivision 14, and 245.4879, subdivisions 1 and 2. The screening must gather information, determine whether a crisis situation exists, identify the parties involved, and determine an appropriate response.

A crisis assessment must evaluate any immediate needs for which emergency services are needed and, as time permits, the recipient's current life situation, sources of stress, mental health problems and symptoms, strengths, cultural considerations, support network, vulnerabilities, and current functioning.
- (c) If the crisis assessment determines mobile crisis intervention services are needed, the intervention services must be provided promptly. As the opportunity presents itself during the intervention, at least two members of the mobile crisis intervention team must confer directly or by telephone about the assessment, treatment plan, and actions taken and needed. The crisis treatment plan must be updated as needed to reflect current goals and services. The team must involve the client and the client's family in developing and implementing the plan.
- (e) The team must document in progress notes which short-term goals have been met and when no further crisis intervention services are required.
- (f) If the client's crisis is stabilized, but the client needs a referral for mental health crisis stabilization services or to other services, the team must provide a referral to these services. If the recipient has a case manager, planning for other services must be coordinated with the case manager.
- Subd. 7. **Crisis stabilization services.** Crisis stabilization services must be provided by a mental health professional or a mental health practitioner, as defined in section 245.462, subdivision 17, who works under the clinical supervision of a mental health professional and for a crisis stabilization services provider entity and must meet the following standards:
- (1) a crisis stabilization treatment plan must be developed which meets the criteria in subdivision 8;
- (2) services must be delivered according to the treatment plan and include face-to-face contact with the recipient by qualified staff for further assessment, help with referrals, updating the crisis stabilization treatment plan, supportive counseling, skills training, and collaboration with other service providers in the community; and

The client or the client's legal guardian must sign the service plan or documentation must be provided why this was not possible. A copy of the plan must be given to the client and the client's legal guardian. The plan should include services arranged, including specific providers where applicable.
- (c) A treatment plan must be developed by a mental health professional or mental health practitioner under the clinical supervision of a mental health professional. A written plan must be completed within 24 hours of beginning services with the client.
- Subd. 9. **Supervision.** (a) A mental health practitioner may provide crisis assessment and mobile crisis intervention services if the following clinical supervision requirements are met:
 - (1) the mental health provider entity must accept full responsibility for the services provided;

Repealed Minnesota Statutes: H2128-4

- (2) the mental health professional of the provider entity, who is an employee or under contract with the provider entity, must be immediately available by telephone or in person for clinical supervision;
- (3) the mental health professional is consulted, in person or by telephone, during the first three hours when a mental health practitioner provides on-site service; and
- (4) the mental health professional must review and approve the tentative crisis assessment and crisis treatment plan, document the consultation, and sign the crisis assessment and treatment plan within the next business day.
- (b) If the mobile crisis intervention services continue into a second calendar day, a mental health professional must contact the client face-to-face on the second day to provide services and update the crisis treatment plan. - (c) The commissioner may conduct random licensing inspections based on outcomes adopted under section 256B.0951, subdivision 3, at facilities or programs, and of services eligible under this section. The role of the random inspections is to verify that the system protects the safety and well-being of persons served and maintains the availability of high-quality services for persons with disabilities.
- (d) The commissioner shall ensure that the federal home and community-based waiver requirements are met and that incidents that may have jeopardized safety and health or violated services-related assurances, civil and human rights, and other protections designed to prevent abuse, neglect, and exploitation, are reviewed, investigated, and acted upon in a timely manner.
- (e) The commissioner shall seek a federal waiver by July 1, 2012, to allow intermediate care facilities for persons with developmental disabilities to participate in this system.

- (g) The State Quality Council, in partnership with the commissioner, shall establish an ongoing review process for the system. The review shall take into account the comprehensive nature of the system which is designed to evaluate the broad spectrum of licensed and unlicensed entities that provide services to persons with disabilities. The review shall address efficiencies and effectiveness of the system.
- (h) The State Quality Council may recommend to the commissioner certain variances from the standards governing licensure of programs for persons with disabilities in order to improve the quality of services so long as the recommended variances do not adversely affect the health or safety of persons being served or compromise the qualifications of staff to provide services.
- (i) The safety standards, rights, or procedural protections referenced under subdivision 2, paragraph (c), shall not be varied. The State Quality Council may make recommendations to the commissioner or to the legislature in the report required under paragraph (c) regarding alternatives or modifications to the safety standards, rights, or procedural protections referenced under subdivision 2, paragraph (c).

256B.49 HOME AND COMMUNITY-BASED SERVICE WAIVERS FOR PERSONS WITH DISABILITIES.

- Subd. 26. Excess allocations. Effective July 1, 2018, county and tribal agencies will be responsible for spending in excess of the annual allocation made by the commissioner. In the event a county or tribal agency spends in excess of the allocation made by the commissioner for a given allocation period, the county or tribal agency must submit a corrective action plan to the commissioner for approval. The plan must state the actions the agency will take to correct its overspending for the two years following the period when the overspending occurred. The commissioner shall recoup funds spent in excess of the allocation only in cases when statewide spending exceeds the appropriation designated for the home and community-based services waivers. Nothing in this subdivision shall be construed as reducing the county or tribe's responsibility to offer and make available feasible home and community-based options to eligible waiver recipients within the resources allocated to it for that purpose.
- Subd. 27. Use of waiver allocations. (a) Effective until June 30, 2018, county and tribal agencies are responsible for authorizing the annual allocation made by the commissioner. In the event a county or tribal agency authorizes less than 97 percent of the allocation, while maintaining a list of persons waiting for waiver services, the county or tribal agency must submit a corrective action plan to the commissioner for approval. The commissioner may determine a plan is unnecessary given the size of the allocation and capacity for new enrollment. The plan must state the actions the agency will take to assure reasonable and timely access to home and community-based waiver services for persons waiting for services.
- (b) Effective July 1, 2018, county and tribal agencies are responsible for spending the annual allocation made by the commissioner. In the event a county or tribal agency spends less than 97 percent of the allocation, while maintaining a list of persons waiting for waiver services, the county or tribal agency must submit a corrective action plan to the commissioner for approval. The commissioner may determine a plan is unnecessary given the size of the allocation and capacity for new enrollment. The plan must state the actions the agency will take to assure reasonable and timely access to home and community-based waiver services for persons waiting for services.
- (c) If a county or tribe does not submit a plan when required or implement the changes required, the commissioner shall assure access to waiver services within the county or tribe's available allocation, and take other actions needed to assure that all waiver participants in that county or tribe are receiving appropriate waiver services to meet their needs.

256D.051 SNAP EMPLOYMENT AND TRAINING PROGRAM.

Subdivision 1. **SNAP** employment and training program. The commissioner shall implement a SNAP employment and training program in order to meet the SNAP employment and training participation requirements of the United States Department of Agriculture. Unless exempt under subdivision 3a, each adult recipient in the unit must participate in the SNAP employment and training program each month that the person is eligible for SNAP benefits. The person's participation in SNAP employment and training services must begin no later than the first day of the calendar month following the determination of eligibility for SNAP benefits. With the county agency's consent, and to the extent of available resources, the person may voluntarily continue to participate in SNAP employment and training services for up to three additional consecutive months immediately

following termination of SNAP benefits in order to complete the provisions of the person's employability development plan.

- Subd. 1a. **Notices and sanctions.** (a) At the time the county agency notifies the household that it is eligible for SNAP benefits, the county agency must inform all mandatory employment and training services participants as identified in subdivision 1 in the household that they must comply with all SNAP employment and training program requirements each month, including the requirement to attend an initial orientation to the SNAP employment and training program and that SNAP eligibility will end unless the participants comply with the requirements specified in the notice.
- (b) A participant who fails without good cause to comply with SNAP employment and training program requirements of this section, including attendance at orientation, will lose SNAP eligibility for the following periods:
- (1) for the first occurrence, for one month or until the person complies with the requirements not previously complied with, whichever is longer;
- (2) for the second occurrence, for three months or until the person complies with the requirements not previously complied with, whichever is longer; or
- (3) for the third and any subsequent occurrence, for six months or until the person complies with the requirements not previously complied with, whichever is longer.

If the participant is not the SNAP head of household, the person shall be considered an ineligible household member for SNAP purposes. If the participant is the SNAP head of household, the entire household is ineligible for SNAP as provided in Code of Federal Regulations, title 7, section 273.7(g). "Good cause" means circumstances beyond the control of the participant, such as illness or injury, illness or injury of another household member requiring the participant's presence, a household emergency, or the inability to obtain child care for children between the ages of six and 12 or to obtain transportation needed in order for the participant to meet the SNAP employment and training program participation requirements.

- (c) The county agency shall mail or hand deliver a notice to the participant not later than five days after determining that the participant has failed without good cause to comply with SNAP employment and training program requirements which specifies the requirements that were not complied with, the factual basis for the determination of noncompliance, and the right to reinstate eligibility upon a showing of good cause for failure to meet the requirements. The notice must ask the reason for the noncompliance and identify the participant's appeal rights. The notice must request that the participant inform the county agency if the participant believes that good cause existed for the failure to comply and must state that the county agency intends to terminate eligibility for SNAP benefits due to failure to comply with SNAP employment and training program requirements.
- (d) If the county agency determines that the participant did not comply during the month with all SNAP employment and training program requirements that were in effect, and if the county agency determines that good cause was not present, the county must provide a ten-day notice of termination of SNAP benefits. The amount of SNAP benefits that are withheld from the household and determination of the impact of the sanction on other household members is governed by Code of Federal Regulations, title 7, section 273.7.
- (e) The participant may appeal the termination of SNAP benefits under the provisions of section 256.045.
- Subd. 2. **County agency duties.** (a) The county agency shall provide to SNAP benefit recipients a SNAP employment and training program. The program must include:
 - (1) orientation to the SNAP employment and training program;
- (2) an individualized employability assessment and an individualized employability development plan that includes assessment of literacy, ability to communicate in the English language, educational and employment history, and that estimates the length of time it will take the participant to obtain employment. The employability assessment and development plan must be completed in consultation with the participant, must assess the participant's assets, barriers, and strengths, and must identify steps necessary to overcome barriers to employment. A copy of the employability development plan must be provided to the registrant;
- (3) referral to available accredited remedial or skills training programs designed to address participant's barriers to employment;

- (4) referral to available programs that provide subsidized or unsubsidized employment as necessary;
 - (5) a job search program, including job seeking skills training; and
- (6) other activities, to the extent of available resources designed by the county agency to prepare the participant for permanent employment.

In order to allow time for job search, the county agency may not require an individual to participate in the SNAP employment and training program for more than 32 hours a week. The county agency shall require an individual to spend at least eight hours a week in job search or other SNAP employment and training program activities.

- (b) The county agency shall prepare an annual plan for the operation of its SNAP employment and training program. The plan must be submitted to and approved by the commissioner of employment and economic development. The plan must include:
 - (1) a description of the services to be offered by the county agency;
- (2) a plan to coordinate the activities of all public entities providing employment-related services in order to avoid duplication of effort and to provide services more efficiently;
- (3) a description of the factors that will be taken into account when determining a client's employability development plan; and
- (4) provisions to ensure that the county agency's employment and training service provider provides each recipient with an orientation, employability assessment, and employability development plan as specified in paragraph (a), clauses (1) and (2), within 30 days of the recipient's eligibility for assistance.
- Subd. 2a. **Duties of commissioner.** In addition to any other duties imposed by law, the commissioner shall:
- (1) based on this section and section 256D.052 and Code of Federal Regulations, title 7, section 273.7, supervise the administration of SNAP employment and training services to county agencies;

- (3) accept and supervise the disbursement of any funds that may be provided by the federal government or from other sources for use in this state for SNAP employment and training services;
- (4) cooperate with other agencies including any agency of the United States or of another state in all matters concerning the powers and duties of the commissioner under this section and section 256D.052; and
- (5) in cooperation with the commissioner of employment and economic development, ensure that each component of an employment and training program carried out under this section is delivered through a statewide workforce development system, unless the component is not available locally through such a system.
- Subd. 3. **Participant duties.** In order to receive SNAP assistance, a registrant shall: (1) cooperate with the county agency in all aspects of the SNAP employment and training program; (2) accept any suitable employment, including employment offered through the Job Training Partnership Act, and other employment and training options; and (3) participate in SNAP employment and training activities assigned by the county agency. The county agency may terminate assistance to a registrant who fails to cooperate in the SNAP employment and training program, as provided in subdivision 1a.
- Subd. 3a. **Requirement to register work.** (a) To the extent required under Code of Federal Regulations, title 7, section 273.7(a), each applicant for and recipient of SNAP benefits is required to register for work as a condition of eligibility for SNAP benefits. Applicants and recipients are registered by signing an application or annual reapplication for SNAP benefits, and must be informed that they are registering for work by signing the form.
- (b) The commissioner shall determine, within federal requirements, persons required to participate in the SNAP employment and training program.
- (c) The following SNAP benefit recipients are exempt from mandatory participation in SNAP employment and training services:

- (1) recipients of benefits under the Minnesota family investment program, Minnesota supplemental aid program, or the general assistance program;
 - (2) a child;
 - (3) a recipient over age 55;
- (4) a recipient who has a mental or physical illness, injury, or incapacity which is expected to continue for at least 30 days and which impairs the recipient's ability to obtain or retain employment as evidenced by professional certification or the receipt of temporary or permanent disability benefits issued by a private or government source;
- (5) a parent or other household member responsible for the care of either a dependent child in the household who is under age six or a person in the household who is professionally certified as having a physical or mental illness, injury, or incapacity. Only one parent or other household member may claim exemption under this provision;
- (6) a recipient receiving unemployment insurance or who has applied for unemployment insurance and has been required to register for work with the Department of Employment and Economic Development as part of the unemployment insurance application process;
- (7) a recipient participating each week in a drug addiction or alcohol abuse treatment and rehabilitation program, provided the operators of the treatment and rehabilitation program, in consultation with the county agency, recommend that the recipient not participate in the SNAP employment and training program;
- (8) a recipient employed or self-employed for 30 or more hours per week at employment paying at least minimum wage, or who earns wages from employment equal to or exceeding 30 hours multiplied by the federal minimum wage; or
- (9) a student enrolled at least half time in any school, training program, or institution of higher education. When determining if a student meets this criteria, the school's, program's or institution's criteria for being enrolled half time shall be used.
- Subd. 3b. **Orientation.** The county agency or its employment and training service provider must provide an orientation to SNAP employment and training services to each nonexempt SNAP benefit recipient within 30 days of the date that SNAP eligibility is determined. The orientation must inform the participant of the requirement to participate in services, the date, time, and address to report to for services, the name and telephone number of the SNAP employment and training service provider, the consequences for failure without good cause to comply, the services and support services available through SNAP employment and training services and other providers of similar services, and must encourage the participant to view the SNAP benefits program as a temporary means of supplementing the family's food needs until the family achieves self-sufficiency through employment. The orientation may be provided through audio-visual methods, but the participant must have the opportunity for face-to-face interaction with county agency staff.
- Subd. 6b. **Federal reimbursement.** (a) Federal financial participation from the United States Department of Agriculture for SNAP employment and training expenditures that are eligible for reimbursement through the SNAP employment and training program are dedicated funds and are annually appropriated to the commissioner of human services for the operation of the SNAP employment and training program.
- (b) The appropriation must be used for skill attainment through employment, training, and support services for SNAP participants.
- (c) Federal financial participation for the nonstate portion of SNAP employment and training costs must be paid to the county agency or service provider that incurred the costs.
- Subd. 6c. **Program funding.** Within the limits of available resources, the commissioner shall reimburse the actual costs of county agencies and their employment and training service providers for the provision of SNAP employment and training services, including participant support services, direct program services, and program administrative activities. The cost of services for each county's SNAP employment and training program shall not exceed the annual allocated amount. No more than 15 percent of program funds may be used for administrative activities. The county agency may expend county funds in excess of the limits of this subdivision without state reimbursement.

Program funds shall be allocated based on the county's average number of SNAP eligible cases as compared to the statewide total number of such cases. The average number of cases shall be based on counts of cases as of March 31, June 30, September 30, and December 31 of the previous

calendar year. The commissioner may reallocate unexpended money appropriated under this section to those county agencies that demonstrate a need for additional funds.

- Subd. 7. **Registrant status.** A registrant under this section is not an employee for the purposes of workers' compensation, unemployment benefits, retirement, or civil service laws, and shall not perform work ordinarily performed by a regular public employee.
- Subd. 8. **Voluntary quit.** A person who is required to participate in SNAP employment and training services is not eligible for SNAP benefits if, without good cause, the person refuses a legitimate offer of, or quits, suitable employment within 60 days before the date of application. A person who is required to participate in SNAP employment and training services and, without good cause, voluntarily quits suitable employment or refuses a legitimate offer of suitable employment while receiving SNAP benefits shall be terminated from the SNAP program as specified in subdivision 1a.
- Subd. 9. **Subcontractors.** A county agency may, at its option, subcontract any or all of the duties under this section to a public or private entity approved by the commissioner of employment and economic development.
- Subd. 18. **Work experience placements.** (a) To the extent of available resources, each county agency must establish and operate a work experience component in the SNAP employment and training program for recipients who are subject to a federal limit of three months of SNAP eligibility in any 36-month period. The purpose of the work experience component is to enhance the participant's employability, self-sufficiency, and to provide meaningful, productive work activities.
- (b) The commissioner shall assist counties in the design and implementation of these components. The commissioner must ensure that job placements under a work experience component comply with section 256J.72. Written or oral concurrence with job duties of persons placed under the community work experience program shall be obtained from the appropriate exclusive bargaining representative.
- (c) Worksites developed under this section are limited to projects that serve a useful public service such as health, social service, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public facilities, public safety, community service, services to aged citizens or citizens with a disability, and child care. To the extent possible, the prior training, skills, and experience of a recipient must be used in making appropriate work experience assignments.
- (d) Structured, supervised volunteer work with an agency or organization that is monitored by the county service provider may, with the approval of the county agency, be used as a work experience placement.
- (e) As a condition of placing a person receiving SNAP benefits in a program under this subdivision, the county agency shall first provide the recipient the opportunity:
- (1) for placement in suitable subsidized or unsubsidized employment through participation in job search under section 256D.051; or
- (2) for placement in suitable employment through participation in on-the-job training, if such employment is available.
- (f) The county agency shall limit the maximum monthly number of hours that any participant may work in a work experience placement to a number equal to the amount of the family's monthly SNAP benefit allotment divided by the greater of the federal minimum wage or the applicable state minimum wage.

After a participant has been assigned to a position for nine months, the participant may not continue in that assignment unless the maximum number of hours a participant works is no greater than the amount of the SNAP benefit divided by the rate of pay for individuals employed in the same or similar occupations by the same employer at the same site.

- (g) The participant's employability development plan must include the length of time needed in the work experience program, the need to continue job seeking activities while participating in work experience, and the participant's employment goals.
- (h) After each six months of a recipient's participation in a work experience job placement, and at the conclusion of each work experience assignment under this section, the county agency shall reassess and revise, as appropriate, the participant's employability development plan.

Repealed Minnesota Statutes: H2128-4

- (i) A participant has good cause for failure to cooperate with a work experience job placement if, in the judgment of the employment and training service provider, the reason for failure is reasonable and justified. Good cause for purposes of this section is defined in subdivision 1a, paragraph (b).
- (j) A recipient who has failed without good cause to participate in or comply with the work experience job placement shall be terminated from participation in work experience job activities. If the recipient is not exempt from mandatory SNAP employment and training program participation under subdivision 3a, the recipient will be assigned to other mandatory program activities. If the recipient is exempt from mandatory participation but is participating as a volunteer, the person shall be terminated from the SNAP employment and training program.

256J.30 APPLICANT AND PARTICIPANT REQUIREMENTS AND RESPONSIBILITIES.

- Subd. 5. **Monthly MFIP household reports.** Each assistance unit with a member who has earned income or a recent work history, and each assistance unit that has income deemed to it from a financially responsible person must complete a monthly MFIP household report form. "Recent work history" means the individual received earned income in the report month or any of the previous three calendar months even if the earnings are excluded. To be complete, the MFIP household report form must be signed and dated by the caregivers no earlier than the last day of the reporting period. All questions required to determine assistance payment eligibility must be answered, and documentation of earned income must be included.
- Subd. 7. **Due date of MFIP household report form.** An MFIP household report form must be received by the county agency by the eighth calendar day of the month following the reporting period covered by the form. When the eighth calendar day of the month falls on a weekend or holiday, the MFIP household report form must be received by the county agency the first working day that follows the eighth calendar day.
- Subd. 8. Late MFIP household report forms. (a) Paragraphs (b) to (e) apply to the reporting requirements in subdivision 7.
- (b) When the county agency receives an incomplete MFIP household report form, the county agency must immediately return the incomplete form and clearly state what the caregiver must do for the form to be complete.
- (c) The automated eligibility system must send a notice of proposed termination of assistance to the assistance unit if a complete MFIP household report form is not received by a county agency. The automated notice must be mailed to the caregiver by approximately the 16th of the month. When a caregiver submits an incomplete form on or after the date a notice of proposed termination has been sent, the termination is valid unless the caregiver submits a complete form before the end of the month.
- (d) An assistance unit required to submit an MFIP household report form is considered to have continued its application for assistance if a complete MFIP household report form is received within a calendar month after the month in which the form was due and assistance shall be paid for the period beginning with the first day of that calendar month.
- (e) A county agency must allow good cause exemptions from the reporting requirements under subdivision 5 when any of the following factors cause a caregiver to fail to provide the county agency with a completed MFIP household report form before the end of the month in which the form is due:
 - (1) an employer delays completion of employment verification;
- (2) a county agency does not help a caregiver complete the MFIP household report form when the caregiver asks for help;
- (3) a caregiver does not receive an MFIP household report form due to mistake on the part of the department or the county agency or due to a reported change in address;
 - (4) a caregiver is ill, or physically or mentally incapacitated; or
- (5) some other circumstance occurs that a caregiver could not avoid with reasonable care which prevents the caregiver from providing a completed MFIP household report form before the end of the month in which the form is due.

256J.33 PROSPECTIVE AND RETROSPECTIVE MFIP ELIGIBILITY.

Subd. 3. **Retrospective eligibility.** After the first two months of MFIP eligibility, a county agency must continue to determine whether an assistance unit is prospectively eligible for the payment month by looking at all factors other than income and then determine whether the assistance unit is retrospectively income eligible by applying the monthly income test to the income from the budget month. When the monthly income test is not satisfied, the assistance payment must be suspended when ineligibility exists for one month or ended when ineligibility exists for more than one month.

Repealed Minnesota Statutes: H2128-4

- Subd. 4. **Monthly income test.** A county agency must apply the monthly income test retrospectively for each month of MFIP eligibility. An assistance unit is not eligible when the countable income equals or exceeds the MFIP standard of need or the family wage level for the assistance unit. The income applied against the monthly income test must include:
- (1) gross earned income from employment, prior to mandatory payroll deductions, voluntary payroll deductions, wage authorizations, and after the disregards in section 256J.21, subdivision 4, and the allocations in section 256J.36, unless the employment income is specifically excluded under section 256J.21, subdivision 2;
- (2) gross earned income from self-employment less deductions for self-employment expenses in section 256J.37, subdivision 5, but prior to any reductions for personal or business state and federal income taxes, personal FICA, personal health and life insurance, and after the disregards in section 256J.21, subdivision 4, and the allocations in section 256J.36;
- (3) unearned income after deductions for allowable expenses in section 256J.37, subdivision 9, and allocations in section 256J.36, unless the income has been specifically excluded in section 256J.21, subdivision 2;
- (4) gross earned income from employment as determined under clause (1) which is received by a member of an assistance unit who is a minor child or minor caregiver and less than a half-time student;

 - (6) spousal support received by an assistance unit;
 - (7) the income of a parent when that parent is not included in the assistance unit;
- (8) the income of an eligible relative and spouse who seek to be included in the assistance unit; and
 - (9) the unearned income of a minor child included in the assistance unit.
- Subd. 5. When to terminate assistance. When an assistance unit is ineligible for MFIP assistance for two consecutive months, the county agency must terminate MFIP assistance.

256J.34 CALCULATING ASSISTANCE PAYMENTS.

- Subdivision 1. **Prospective budgeting.** A county agency must use prospective budgeting to calculate the assistance payment amount for the first two months for an applicant who has not received assistance in this state for at least one payment month preceding the first month of payment under a current application. Notwithstanding subdivision 3, paragraph (a), clause (2), a county agency must use prospective budgeting for the first two months for a person who applies to be added to an assistance unit. Prospective budgeting is not subject to overpayments or underpayments unless fraud is determined under section 256.98.
- (a) The county agency must apply the income received or anticipated in the first month of MFIP eligibility against the need of the first month. The county agency must apply the income received or anticipated in the second month against the need of the second month.
- (b) When the assistance payment for any part of the first two months is based on anticipated income, the county agency must base the initial assistance payment amount on the information available at the time the initial assistance payment is made.
- (c) The county agency must determine the assistance payment amount for the first two months of MFIP eligibility by budgeting both recurring and nonrecurring income for those two months.
- Subd. 2. **Retrospective budgeting.** The county agency must use retrospective budgeting to calculate the monthly assistance payment amount after the payment for the first two months has been made under subdivision 1.
- Subd. 3. Additional uses of retrospective budgeting. Notwithstanding subdivision 1, the county agency must use retrospective budgeting to calculate the monthly assistance payment amount for the first two months under paragraphs (a) and (b).
- (a) The county agency must use retrospective budgeting to determine the amount of the assistance payment in the first two months of MFIP eligibility:

Repealed Minnesota Statutes: H2128-4

- (1) when an assistance unit applies for assistance for the same month for which assistance has been interrupted, the interruption in eligibility is less than one payment month, the assistance payment for the preceding month was issued in this state, and the assistance payment for the immediately preceding month was determined retrospectively; or
- (2) when a person applies in order to be added to an assistance unit, that assistance unit has received assistance in this state for at least the two preceding months, and that person has been living with and has been financially responsible for one or more members of that assistance unit for at least the two preceding months.
- (b) Except as provided in clauses (1) to (4), the county agency must use retrospective budgeting and apply income received in the budget month by an assistance unit and by a financially responsible household member who is not included in the assistance unit against the MFIP standard of need or family wage level to determine the assistance payment to be issued for the payment month.
- (1) When a source of income ends prior to the third payment month, that income is not considered in calculating the assistance payment for that month. When a source of income ends prior to the fourth payment month, that income is not considered when determining the assistance payment for that month.
- (2) When a member of an assistance unit or a financially responsible household member leaves the household of the assistance unit, the income of that departed household member is not budgeted retrospectively for any full payment month in which that household member does not live with that household and is not included in the assistance unit.
- (3) When an individual is removed from an assistance unit because the individual is no longer a minor child, the income of that individual is not budgeted retrospectively for payment months in which that individual is not a member of the assistance unit, except that income of an ineligible child in the household must continue to be budgeted retrospectively against the child's needs when the parent or parents of that child request allocation of their income against any unmet needs of that ineligible child.
- (4) When a person ceases to have financial responsibility for one or more members of an assistance unit, the income of that person is not budgeted retrospectively for the payment months which follow the month in which financial responsibility ends.
- Subd. 4. **Significant change in gross income.** The county agency must recalculate the assistance payment when an assistance unit experiences a significant change, as defined in section 256J.08, resulting in a reduction in the gross income received in the payment month from the gross income received in the budget month. The county agency must issue a supplemental assistance payment based on the county agency's best estimate of the assistance unit's income and circumstances for the payment month. Supplemental assistance payments that result from significant changes are limited to two in a 12-month period regardless of the reason for the change. Notwithstanding any other statute or rule of law, supplementary assistance payments shall not be made when the significant change in income is the result of receipt of a lump sum, receipt of an extra paycheck, business fluctuation in self-employment income, or an assistance unit member's participation in a strike or other labor action.

256J.37 TREATMENT OF INCOME AND LUMP SUMS.

- Subd. 10. **Treatment of lump sums.** (a) The agency must treat lump-sum payments as earned or unearned income. If the lump-sum payment is included in the category of income identified in subdivision 9, it must be treated as unearned income. A lump sum is counted as income in the month received and budgeted either prospectively or retrospectively depending on the budget cycle at the time of receipt. When an individual receives a lump-sum payment, that lump sum must be combined with all other earned and unearned income received in the same budget month, and it must be applied according to paragraphs (a) to (c). A lump sum may not be carried over into subsequent months. Any funds that remain in the third month after the month of receipt are counted in the asset limit.
- (b) For a lump sum received by an applicant during the first two months, prospective budgeting is used to determine the payment and the lump sum must be combined with other earned or unearned income received and budgeted in that prospective month.
- (c) For a lump sum received by a participant after the first two months of MFIP eligibility, the lump sum must be combined with other income received in that budget month, and the combined amount must be applied retrospectively against the applicable payment month.

Repealed Minnesota Statutes: H2128-4

(d) When a lump sum, combined with other income under paragraphs (b) and (c), is less than the MFIP transitional standard for the appropriate payment month, the assistance payment must be reduced according to the amount of the countable income. When the countable income is greater than the MFIP standard or family wage level, the assistance payment must be suspended for the payment month.

256S.20 CUSTOMIZED LIVING SERVICES; POLICY.

A standard diagnostic assessment must include a face-to-face interview with the client and contain a written evaluation of a client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The standard diagnostic assessment must be done within the cultural context of the client and must include relevant information about:

- C. An extended diagnostic assessment must include a face-to-face interview with the client and contain a written evaluation of a client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The face-to-face interview is conducted over three or more assessment appointments because the client's complex needs necessitate significant additional assessment time. Complex needs are those caused by acuity of psychotic disorder; cognitive or neurocognitive impairment; need to consider past diagnoses and determine their current applicability; co-occurring substance abuse use disorder; or disruptive or changing environments, communication barriers, or cultural considerations as documented in the assessment. For child clients, the appointments may be conducted outside the diagnostician's office for face-to-face consultation and information gathering with family members, doctors, caregivers, teachers, and other providers, with or without the child present, and may involve directly observing the child in various settings that the child frequents such as home, school, or care settings. To complete the diagnostic assessment with adult clients, the appointments may be conducted outside of the diagnostician's office for face-to-face assessment with the adult client. The appointments may include face-to-face meetings with the adult client and the client's family members, doctors, caregivers, teachers, social support network members, recovery support resource representatives, and other providers for consultation and information gathering for the diagnostic assessment. The components of an extended diagnostic assessment include the following relevant information:

- vii. affect and mood, including modes of expression, range, responsiveness, duration, and intensity;
- viii. play, including structure, content, symbolic functioning, and modulation of aggression;
 - ix. cognitive functioning; and
 - x. relatedness to parents, other caregivers, and examiner; and
- (c) other assessment tools as determined and periodically revised by the commissioner;
- (2) for children ages 5 to 18, completion of other assessment standards for children as determined and periodically revised by the commissioner; and
- (3) for adults, completion of other assessment standards for adults as determined and periodically revised by the commissioner.
- D. A brief diagnostic assessment must include a face-to-face interview with the client and a written evaluation of the client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C. The professional or practitioner must gather initial background information using the components of a standard diagnostic assessment in item B, subitems (1), (2), unit (b), (3), and (5), and draw a provisional clinical hypothesis. The clinical hypothesis may be used to address the client's immediate needs or presenting problem. Treatment sessions conducted under authorization of a brief assessment may be used to gather additional information necessary to complete a standard diagnostic assessment or an extended diagnostic assessment.
- E. Adult diagnostic assessment update includes a face-to-face interview with the client, and contains a written evaluation of the client by a mental health professional or practitioner working under clinical supervision as a clinical trainee according to part 9505.0371, subpart 5, item C, who reviews a standard or extended diagnostic assessment. The adult diagnostic assessment update must update the most recent assessment document in writing in the following areas:

A client is eligible for a neuropsychological assessment if at least one of the following criteria is met:
- A. There is a known or strongly suspected brain disorder based on medical history or neurological evaluation such as a history of significant head trauma, brain tumor, stroke, seizure disorder, multiple sclerosis, neurodegenerative disorders, significant exposure to neurotoxins, central nervous system infections, metabolic or toxic encephalopathy, fetal alcohol syndrome, or congenital malformations of the brain; or
- B. In the absence of a medically verified brain disorder based on medical history or neurological evaluation, there are cognitive or behavioral symptoms that suggest that the client has an organic condition that cannot be readily attributed to functional psychopathology, or suspected neuropsychological impairment in addition to functional psychopathology. Examples include:
 - (1) poor memory or impaired problem solving;
 - (2) change in mental status evidenced by lethargy, confusion, or disorientation;

- C. If neither criterion in item A nor B is fulfilled, neuropsychological evaluation is not indicated.
- D. The neuropsychological assessment must be conducted by a neuropsychologist with competence in the area of neuropsychological assessment as stated to the Minnesota Board of Psychology who:
- (1) was awarded a diploma by the American Board of Clinical Neuropsychology, the American Board of Professional Neuropsychology, or the American Board of Pediatric Neuropsychology;
- (2) earned a doctoral degree in psychology from an accredited university training program:
- (a) completed an internship, or its equivalent, in a clinically relevant area of professional psychology;

Subp. 3. Neuropsychological testing.

- A. Medical assistance covers neuropsychological testing when the client has either:
- (1) a significant mental status change that is not a result of a metabolic disorder that has failed to respond to treatment;
- (2) in children or adolescents, a significant plateau in expected development of cognitive, social, emotional, or physical function, relative to peers;
- (3) in children or adolescents, significant inability to develop expected knowledge, skills, or abilities, as required to adapt to new or changing cognitive, social, physical, or emotional demands; or

- (k) exposure to systemic or intrathecal agents or cranial radiation known to be associated with cerebral dysfunction;
- (l) systemic medical conditions known to be associated with cerebral dysfunction, including renal disease, hepatic encephalopathy, cardiac anomaly, sickle cell disease, and related hematologic anomalies, and autoimmune disorders such as lupus, erythematosis, or celiac disease;
- (m) congenital genetic or metabolic disorders known to be associated with cerebral dysfunction, such as phenylketonuria, craniofacial syndromes, or congenital hydrocephalus;
 - (n) severe or prolonged nutrition or malabsorption syndromes; or
- (o) a condition presenting in a manner making it difficult for a clinician to distinguish between:
- i. the neurocognitive effects of a neurogenic syndrome such as dementia or encephalopathy; and

- ii. a major depressive disorder when adequate treatment for major depressive disorder has not resulted in improvement in neurocognitive function, or another disorder such as autism, selective mutism, anxiety disorder, or reactive attachment disorder.
- B. Neuropsychological testing must be administered or clinically supervised by a neuropsychologist qualified as defined in subpart 2, item D.
 - C. Neuropsychological testing is not covered when performed:
 - (1) primarily for educational purposes;
 - (2) primarily for vocational counseling or training;
 - (3) for personnel or employment testing;
- (4) as a routine battery of psychological tests given at inpatient admission or continued stay; or
 - (5) for legal or forensic purposes.
- Subp. 4. **Psychological testing.** Psychological testing must meet the following requirements:
 - A. The psychological testing must:
- (1) be administered or clinically supervised by a licensed psychologist with competence in the area of psychological testing as stated to the Minnesota Board of Psychology; and
- (2) be validated in a face-to-face interview between the client and a licensed psychologist or a mental health practitioner working as a clinical psychology trainee as required by part 9505.0371, subpart 5, item C, under the clinical supervision of a licensed psychologist according to part 9505.0371, subpart 5, item A, subitem (2).

 - C. The report resulting from the psychological testing must be:
 - (1) signed by the psychologist conducting the face-to-face interview;
 - (2) placed in the client's record; and
 - (3) released to each person authorized by the client.
- Subp. 5. **Explanations of findings.** To be eligible for medical assistance payment, the mental health professional providing the explanation of findings must obtain the authorization of the client or the client's representative to release the information as required in part 9505.0371, subpart 6. Explanation of findings is provided to the client, client's family, and caregivers, or to other providers to help them understand the results of the testing or diagnostic assessment, better understand the client's illness, and provide professional insight needed to carry out a plan of treatment. An explanation of findings is not paid separately when the results of psychological testing or a diagnostic assessment are explained to the client or the client's representative as part of the psychological testing or a diagnostic assessment.
- Subp. 6. **Psychotherapy.** Medical assistance covers psychotherapy as conducted by a mental health professional or a mental health practitioner as defined in part 9505.0371, subpart 5, item C, as provided in this subpart.
 - A. Individual psychotherapy is psychotherapy designed for one client.
- B. Family psychotherapy is designed for the client and one or more family members or the client's primary caregiver whose participation is necessary to accomplish the client's

treatment goals. Family members or primary caregivers participating in a therapy session do not need to be eligible for medical assistance. For purposes of this subpart, the phrase "whose participation is necessary to accomplish the client's treatment goals" does not include shift or facility staff members at the client's residence. Medical assistance payment for family psychotherapy is limited to face-to-face sessions at which the client is present throughout the family psychotherapy session unless the mental health professional believes the client's absence from the family psychotherapy session is necessary to carry out the client's individual treatment plan. If the client is excluded, the mental health professional must document the reason for and the length of time of the exclusion. The mental health professional must also document the reason or reasons why a member of the client's family is excluded.

- C. Group psychotherapy is appropriate for individuals who because of the nature of their emotional, behavioral, or social dysfunctions can derive mutual benefit from treatment in a group setting. For a group of three to eight persons, one mental health professional or practitioner is required to conduct the group. For a group of nine to 12 persons, a team of at least two mental health professionals or two mental health practitioners or one mental health professional and one mental health practitioner is required to co-conduct the group. Medical assistance payment is limited to a group of no more than 12 persons.
- D. A multiple-family group psychotherapy session is eligible for medical assistance payment if the psychotherapy session is designed for at least two but not more than five families. Multiple-family group psychotherapy is clearly directed toward meeting the identified treatment needs of each client as indicated in client's treatment plan. If the client is excluded, the mental health professional or practitioner must document the reason for and the length of the time of the exclusion. The mental health professional or practitioner must document the reasons why a member of the client's family is excluded.
- Subp. 7. **Medication management.** The determination or evaluation of the effectiveness of a client's prescribed drug must be carried out by a physician or by an advanced practice registered nurse, as defined in Minnesota Statutes, sections 148.171 to 148.285, who is qualified in psychiatric nursing.
- Subp. 8. Adult day treatment. Adult day treatment payment limitations include the following conditions.
- A. Adult day treatment must consist of at least one hour of group psychotherapy, and must include group time focused on rehabilitative interventions, or other therapeutic services that are provided by a multidisciplinary staff. Adult day treatment is an intensive psychotherapeutic treatment. The services must stabilize the client's mental health status, and develop and improve the client's independent living and socialization skills. The goal of adult day treatment is to reduce or relieve the effects of mental illness so that an individual is able to benefit from a lower level of care and to enable the client to live and function more independently in the community. Day treatment services are not a part of inpatient or residential treatment services.
 - B. To be eligible for medical assistance payment, a day treatment program must:
 - (1) be reviewed by and approved by the commissioner;
- (2) be provided to a group of clients by a multidisciplinary staff under the clinical supervision of a mental health professional;
- (3) be available to the client at least two days a week for at least three consecutive hours per day. The day treatment may be longer than three hours per day, but medical assistance must not reimburse a provider for more than 15 hours per week;
- (4) include group psychotherapy done by a mental health professional, or mental health practitioner qualified according to part 9505.0371, subpart 5, item C, and rehabilitative interventions done by a mental health professional or mental health practitioner daily;

- (5) be included in the client's individual treatment plan as necessary and appropriate. The individual treatment plan must include attainable, measurable goals as they relate to services and must be completed before the first day treatment session. The vendor must review the recipient's progress and update the treatment plan at least every 30 days until the client is discharged and include an available discharge plan for the client in the treatment plan; and
 - (6) document the interventions provided and the client's response daily.
 - C. To be eligible for adult day treatment, a recipient must:
 - (1) be 18 years of age or older;
- (2) not be residing in a nursing facility, hospital, institute of mental disease, or regional treatment center, unless the recipient has an active discharge plan that indicates a move to an independent living arrangement within 180 days;
- (3) have a diagnosis of mental illness as determined by a diagnostic assessment;
- (4) have the capacity to engage in the rehabilitative nature, the structured setting, and the therapeutic parts of psychotherapy and skills activities of a day treatment program and demonstrate measurable improvements in the recipient's functioning related to the recipient's mental illness that would result from participating in the day treatment program;
- (5) have at least three areas of functional impairment as determined by a functional assessment with the domains prescribed by Minnesota Statutes, section 245.462, subdivision 11a;
- (6) have a level of care determination that supports the need for the level of intensity and duration of a day treatment program; and
- (7) be determined to need day treatment by a mental health professional who must deem the day treatment services medically necessary.
- D. The following services are not covered by medical assistance if they are provided by a day treatment program:
- (1) a service that is primarily recreation-oriented or that is provided in a setting that is not medically supervised. This includes: sports activities, exercise groups, craft hours, leisure time, social hours, meal or snack time, trips to community activities, and tours;
- (2) a social or educational service that does not have or cannot reasonably be expected to have a therapeutic outcome related to the client's mental illness;
- (3) consultation with other providers or service agency staff about the care or progress of a client;
 - (4) prevention or education programs provided to the community;
- (5) day treatment for recipients with primary diagnoses of alcohol or other drug abuse;
 - (6) day treatment provided in the client's home;
 - (7) psychotherapy for more than two hours daily; and
- (8) participation in meal preparation and eating that is not part of a clinical treatment plan to address the client's eating disorder.
- Subp. 9. **Partial hospitalization.** Partial hospitalization is a covered service when it is an appropriate alternative to inpatient hospitalization for a client who is experiencing an acute episode of mental illness that meets the criteria for an inpatient hospital admission as specified in part 9505.0520, subpart 1, and who has the family and community resources

necessary and appropriate to support the client's residence in the community. Partial hospitalization consists of multiple intensive short-term therapeutic services provided by a multidisciplinary staff to treat the client's mental illness.

- Subp. 10. **Dialectical behavior therapy (DBT).** Dialectical behavior therapy (DBT) treatment services must meet the following criteria:
- A. DBT must be provided according to this subpart and Minnesota Statutes, section 256B.0625, subdivision 51.

The treatment recommendation must be based upon a comprehensive evaluation that includes a diagnostic assessment and functional assessment of the client, and review of the client's prior treatment history. Treatment services must be provided pursuant to the client's individual treatment plan and provided to a client who satisfies the criteria in item C.
 - C. To be eligible for DBT, a client must:
 - (1) be 18 years of age or older;
- (2) have mental health needs that cannot be met with other available community-based services or that must be provided concurrently with other community-based services;
 - (3) meet one of the following criteria:
 - (a) have a diagnosis of borderline personality disorder; or
- (b) have multiple mental health diagnoses and exhibit behaviors characterized by impulsivity, intentional self-harm behavior, and be at significant risk of death, morbidity, disability, or severe dysfunction across multiple life areas;
- (4) understand and be cognitively capable of participating in DBT as an intensive therapy program and be able and willing to follow program policies and rules assuring safety of self and others; and
- (5) be at significant risk of one or more of the following if DBT is not provided:
 - (a) mental health crisis;
 - (b) requiring a more restrictive setting such as hospitalization;
 - (c) decompensation; or
 - (d) engaging in intentional self-harm behavior.
- D. The treatment components of DBT are individual therapy and group skills as follows:
- (1) Individual DBT combines individualized rehabilitative and psychotherapeutic interventions to treat suicidal and other dysfunctional behaviors and reinforce the use of adaptive skillful behaviors. The therapist must:
 - (a) identify, prioritize, and sequence behavioral targets;
 - (b) treat behavioral targets;
- (c) generalize DBT skills to the client's natural environment through telephone coaching outside of the treatment session;
 - (d) measure the client's progress toward DBT targets;

- (e) help the client manage crisis and life-threatening behaviors; and
